MORE DEGREE PATHWAYS

NURSING B.Sc.N.

Gain the confidence and skills to excel as a healthcare professional through Trent's immersive nursing program. Over four years of study, students complete more than 1,000 hours of clinical placements (starting as early as first year!), to build real-world experience in diverse healthcare settings. Getting hands-on in Canada's first internationally accredited university simulation centre, you'll work with high-fidelity mannequins that replicate scenarios like childbirth, acute illness, and chronic disease management. In Nursing at Trent, you'll combine classroom learning with cutting-edge simulation and personalized mentorship to graduate ready to deliver compassionate, evidence-based care.

KINESIOLOGY B.Sc.Kin.

Prepare for a career in human movement and health through Trent's hands-on Kinesiology program. You'll develop expertise in exercise, movement analysis, and injury management through immersive labs and real-world placements. Working in Trent's fully equipped Exercise Physiology and Biomechanics Labs, you will work with diverse clients including elite athletes, older adults and Indigenous communities. Through our five-year co-op stream offering up to 16 months of paid experience or the four-year placement option, you'll graduate ready to pursue certification as a Registered Kinesiologist (R.Kin.).

HEALTH B.SC.

Explore the connection between mind, body, and health, studying across Psychology, Biology, Kinesiology, Sociology, and Nursing to give you a broad understanding of wellness, illness prevention, and treatment. With a strong emphasis on research, community-based learning, and practical application, this program will equip you with the analytical and critical thinking skills needed to interpret data and apply behavioural theories to real-world health challenges—preparing you for careers in health leadership, medicine, and beyond.

DISTINGUISH YOUR DEGREE

Add a Specialization

Gain a deeper understanding of health and medicine within your chosen degree

- Health Studies (available to Sociology students)
- Health Sciences (available to Biology / Biochemistry & Molecular Biology students)

HANDS-ON LEARNING. GLOBAL PATHWAYS. YOUR CAREER IN HEALTH AND MEDICINE STARTS AT TRENT.

Medical Professional Stream

One-of-a-kind preparatory program taken jointly with (almost) any B.A., B.Sc. or B.A.S. degree at Trent

STEP 1

Select Your Major (or joint major) in a B.A., B.Sc. or B.A.S. degree – your choice!

Popular undergraduate degrees to pursue within the Medical Professional Stream (MPS):

Bachelor of Arts & Science (B.A.S.)
- Unique, flexible interdisciplinary degree
- Combine your passions in arts and sciences

Bachelor of Science (B.Sc.)
- Biochemistry & Molecular Biology
- Biology
- Biomedical Science
- Health
- Psychology

Bachelor of Arts (B.A.)
- Anthropology
- Forensics & Arts
- Indigenous Studies
- Psychology
- Sociology

STEP 2

Trent MPS Advantage

- **Access tailored mentorship experience:** Secure the right courses to prepare for the MCAT
- **Get those much-needed reference letters:** Smaller class sizes make it easy for your professors to get to know you
- **Benefit from faculty and physician mentoring:** Advising and information sessions
- **Interested in medical school and self-identify as First Nations, Métis or Inuit?** Trent's MPS pathway for Indigenous students provides a clear and well-supported route to medical, dental, or veterinary school.
