

Trent Community Sport and Recreation Centre Renewal and Expansion Project

Completion Fall of 2010

Newsletter — September 2009

As the summer begins to wane, Trent Athletics is wrapping up a very successful summer season with another terrific *Trent Summer Sports Camp*, a great session of swim lessons, and tremendous use by the community of our indoor and outdoor facilities.

Throughout the summer, much progress has been made on the construction front. This has been no easy task, as we endeavoured to continue to operate quality programmes, while Graham Construction and their contractors worked to meet their construction timelines. Congratulations to all involved in making it work so successfully.

What Has Been Done:

- Footings for the new facility installed.
- South face of building demolished and ready to receive new addition.
- New service entrance installed at north-end of building.
- New temporary main entrance established at north-end of the building.
- New parking lot entrance installed; parking lot resurfaced; lights to follow.
- Wheelchair lift installed for accessibility.

It has been a busy place!

What's Happening — Fall & Winter 2009: *We Are Open for Business!*

- The swimming pool, gymnasium, weight room (1) and cardio area, squash court (1), stadium, beach volleyball courts, east bank field and the administrative offices continue to operate as usual.
- Trent Health in Motion, Sports Medicine Clinic, are moving to a series of portables adjacent to the temporary front entrance and adjacent to the parking areas.
- A varsity team room has been established in a portable also adjacent to the temporary front entrance. Expanded menu of fitness classes – great variety with certified and experienced instructors — check it out on the web or pick up a flyer at our front desk.
- Expanded Campus Recreation programme – check it out on the web and in our Campus Rec Brochure.
- Full slate of Varsity Home Games with our 17 varsity teams, all in the hunt for a provincial and national championship — Come on out and cheer 'em on! — **GO GREEN!**

We appreciate your continued patience and support as we work to create a fabulous athletics and recreation facility, designed to serve the wellness needs of students and all residents in the Peterborough area.

Bill Byrick
Director of Athletics
