

Peer Editing of Physics 209x, How/Why Grade?

IPIN: _____

Editor's name: _____ **Editor's section:** _____

Editor's Student Number: _____ **Date:** _____

Author's Name: _____ **Author's section:** _____

Please provide two (2) copies of this form attached to the front of the paper you are evaluated. If the paper is anonymous, include the three digit individual paper identification number (IPIN) found on the top right of the paper being evaluated. One copy of this form will be graded by the instructor, and one will be returned to the paper's author. If you want to remain anonymous, put the name "anonymous" on the copy to be given back to the author and put your name for the copy given to the instructor.

You should write on both sides of this form. Make corrections of grammar and spelling on the paper being evaluated (preferably in red), but make sure that any comments on content or style are also made on this form so that they can be seen by the instructor.

In addition to any other comments, complete the following two statements, as well as the numerical grading on the other side:

1.) The single thing that I like the most about this paper is:

2.) The single change that would most improve this paper would be:
