Peer Editing of Physics 2093h,"Poster Project"   IPIN: _____

Editor's name: _____ **Editor's section:** _____
Editor's Student Number: _____ **Date:** _____

Author's Name: _____ **Author's section:**   _____

Please provide two (2) copies of this form attached to the front of the poster you are evaluated. If the poster is anonymous, include the three digit individual paper identification number (IPIN) found on the top right of the poster being evaluated. One copy of this form will be graded by the instructor, and one will be returned to the poster's author. If you want to remain anonymous, put the name "anonymous" on the copy to be given back to the author and put your name on the copy given to the instructor.

You should write on both sides of this form. Do not mark on the front of the poster so that the author can reuse materials for their final work if desired. Make sure that any comments on content or style are also made on this form so that they can be seen by the instructor.

In addition to any other comments, complete the following two statements, as well as the numerical grading on the other side:

1.) The <u>single</u> thing that I like the most about this poster is:
_____

_____

2.) The <u>single</u> change that would most improve this poster would be:

_____

_____
