

CHALLENGE THE WAY YOU THINK 2015

PUSHING THE BOUNDARIES IN OURSELVES

GENERATE NEW THINKING

Debate and discussion create new thinking. At Trent, you are encouraged to challenge yourself, your fellow students, and, yes, even your professors as you unlock and explore diverse perspectives.

MAKE A DIFFERENCE

Education can inspire you to create change. A Trent education helps you analyze big issues, solve complex problems and make positive transformations by challenging the status quo.

“The world needs, above all else,
thinking citizens.”

Yann Martel – Trent graduate & award-winning author

... AND IN OUR WORLD

EXPERIENCE PERSONAL LEARNING

Everyone has a voice. Find yours at Trent through an inclusive learning environment that promotes a strong sense of belonging and puts you in charge of your own education.

TEST YOUR IDEAS

Some of the best learning takes place by doing. Through experiential learning and hands-on research opportunities, you can work side-by-side with faculty or in the community, testing out your own theories and gaining new insights.

AN INSPIRING PLACE TO LEARN

Trent's Symons Campus, located in the vibrant city of Peterborough, is an inspiring place for learning. A stunning natural landscape along the Otonabee River provides an environment where you can grow, thrive, live and connect. And a lively downtown with shops, restaurants and entertainment just a short distance away, means you can easily enjoy all that Peterborough has to offer.

"At Trent Peterborough, I not only have access to my profs, I have an incredible natural backdrop all around me. It's amazing what your surroundings can do to motivate learning."

Tyler Grieve, third year, Business Administration

The Heart of Trent Peterborough: Thomas J. Bata Library

Bata Library is the hub where great thinking happens. An extensive collection of literary works, reference materials, databases and archives, along with plenty of workspaces and amenities, provide resources and spaces for you to study and exchange ideas.

AN URBAN VIBE IN A CLOSE-KNIT COMMUNITY

With a robust 40-year history and a new campus opened in 2010, Trent University Oshawa provides an abundance of opportunities for student engagement. Located in the heart of Durham Region, Trent's Oshawa campus offers a learning experience that is the perfect blend of urban life and close-knit campus community. Nearby, you can enjoy a vibrant greenbelt, parks and beaches – all minutes away from state-of-the-art sports facilities, premier shopping centres and a thriving arts and entertainment scene.

“Trent University Oshawa is a special place: a friendly community that’s focused on helping students pursue academic excellence in real ways. All in perfect proximity to city life.”

Susan Lawrence, Sociology 2013

Watch for this symbol for services and information at our Durham campus.

TRENT'S COLLABORATIVE LEARNING ENVIRONMENT

Trent's collaborative learning environment helps you engage in problem-solving and learn to be comfortable taking risks. You'll learn real-world skills and share experiences with your peers and pros to debate, explore differences, find common ground and gain new perspectives.

PERSONAL LEARNING

At Trent, you choose your future. We offer students flexible options within a wide range of degree programs in humanities, sciences and social sciences, as well as professional and specialty programs. We give you the breadth and depth you need to tailor your success. And, with an excellent faculty-to-student ratio, you always have access to support.

PURPOSEFUL LEARNING

A Trent education pushes you to make a difference. Be a part of Trent's commitment to social justice, environmental sustainability and community development in Peterborough, Durham and beyond – experiences you can take with you wherever you go.

TRANSFORMATIVE LEARNING

At Trent, you will be challenged to expand your view of the world through collaboration, experiential learning and hands-on research. The Trent experience prepares you to create change – in yourself and in the world around you.

BUILD A SOLID FOUNDATION

Considering law, medicine or another professional designation? Build a comprehensive framework in both the arts and sciences that will take your knowledge further in graduate or professional school, or in launching your career. At Trent, your education prepares you to think differently about the world, and make the most of your global opportunities.

ENHANCE YOUR DEGREE

In addition to minors and specializations, Trent offers clusters of courses in unique areas of focus to heighten your learning. The following emphases are available:

- Applied Ethics
- Cultural & Linguistic Anthropology
- Geographical Information Systems
- Global Power & Politics
- Global Studies
- Law & Policy
- Linguistics
- Museum Studies
- Northern & Polar Studies
- Premodern Studies
- Teacher Education
- Theatre Studies
- The Teaching of Spanish

GRADUATE DEGREES

Trent University is home to a growing number of prestigious graduate programs. Find your post-graduate path here.

- Anthropology M.A.
- Applied Modelling and Quantitative Methods M.A./M.Sc.
- Canadian Studies and Indigenous Studies M.A.
- Canadian Studies Ph.D.
- Cultural Studies Ph.D.
- Educational Studies M.Ed. **NEW 2015**
- English (Public Texts) M.A.
- Environmental and Life Sciences M.Sc./Ph.D.
- History M.A.
- Indigenous Studies Ph.D.
- Materials Science M.Sc./Ph.D.
- Psychology M.A./M.Sc.
- Sustainability Studies M.A.
- Theory, Culture and Politics M.A.
- Trent-Queen's (various disciplines) M.A./M.Sc./Ph.D.

trentu.ca/graduatestudies

POSTGRADUATE DEGREES & DIPLOMAS

- Canadian Studies Diploma
- Human Resources Management Certificate (Oshawa only)

To thrive in today's complex world, you need to think critically, communicate effectively and know how to build personal relationships. A Trent education challenges you to develop the skills you need to succeed.

Student-Faculty Collaboration Leads to New Patent

Trent's Dr. Andrew Vreugdenhil and his former undergraduate student Tom Singleton are the co-inventors of an innovative environmentally-friendly anti-corrosive coating for metals which has earned a new U.S. patent. The opportunity for achievement of this magnitude is rare for an undergraduate researcher, but made possible by the significant research support and faculty expertise that are available for students at Trent.

WHAT TO EXPECT: THE LIFE CYCLE OF A STUDENT

- 1 FIRST YEAR: EXPLORATION**
Discover your possibilities and start to build your prerequisites.
- 2 SECOND YEAR: MAJOR DECLARATION**
Begin to focus your choices.
- 3 THIRD YEAR: MIX IT UP**
Find the perfect combination of courses with Trent's flexible options. Look ahead, plan a capstone project or study abroad.
- 4 FOURTH YEAR: IN THE DRIVER'S SEAT**
Do your own research, merge programs and combine community-based education.

READY TO EXPLORE?

SHINING EXAMPLES

CAPTAINS OF AVIATION

Eric, Kate & Sean Gillespie, Honours Bachelor of Business Administration (2004, 2005, 2003)

"Trent taught us how to adapt to different situations and prepared us for taking on various roles in our company."

At Flying Colours, their multi-million dollar family enterprise, siblings Eric, Sean and Kate Gillespie work with clients ranging from movie stars to multi-national corporations.

GLOBAL INNOVATOR AND TRENT UNIVERSITY CHANCELLOR

Don Tapscott, Honours B.Sc.
Psychology and Sociology
(1966)

"At Trent, I learned how to think, how to write, how to solve problems."

Trent's first alumnus to become chancellor, Dr. Don Tapscott is one of the world's leading authorities on innovation and the impact of technology, bestselling author of 14 books and recognized as one of the top five business thinkers in the world.

Discover how some of Trent's most distinguished alumni are challenging the way we think about the world

AWARD-WINNING AUTHOR

Yann Martel, Honours B.A. Philosophy (1985)

"The world needs, above all else, thinking citizens who are informed in a way that they can deal with the world's complexity. A good university like Trent can develop that."

Author of the award-winning novel *Life of Pi*, which became an Oscar-winning motion picture, Yann Martel began writing while studying philosophy at Trent.

DISTINGUISHED AMBASSADOR

Lucie Edwards, Honours B.A. Economics and History (1973)

"You can't get lost at Trent. The small group teaching, the emphasis on tutorials, the individual support – you're fully engaged in what's going on at the school."

During her 33-year career in the Canadian Foreign Service, Lucie Edwards worked in a series of hot spots in the Middle East, Africa and Asia and met many world leaders, including Nelson Mandela.

BIOMATERIALS M.V.P.

Dr. Suresh Narine, M.Sc. in Chemical Physics/B.Sc. in Chemical Physics (1991)

"As a Trent student, I learned to think for myself, to challenge the status quo, and I learned that solutions often reside in unconventional partnerships."

Named one of Canada's Top 40 under 40, Dr. Suresh Narine is internationally recognized as a pioneer researcher in the field of biomaterials.

THRILL MASTER

Linwood Barclay, Honours B.A. English Literature (1977)

"At Trent, you can get to know your professors, drop into their offices, and have one-on-one conversations. You're not just a face in the crowd."

Linwood Barclay found the support he needed at Trent to pursue his passion for writing. Now an international bestselling author, he has fans like Stephen King waiting for his latest novel.

WHY TRENT?

Leading in Student Satisfaction

Trent was named a leader among Ontario universities for student satisfaction, beating the provincial average on five key indicators:

- Level of academic challenge
- Active and collaborative learning
- Student-faculty interaction
- Enriching educational experiences
- Supportive campus environment

National Survey on Student Engagement

EXPLORE TRENT LIFE

WHY TRENT?

94% of students are satisfied with the overall quality of their education

95% of students are happy they chose Trent

96% of students say Trent provides a safe environment

(Canadian University Survey Consortium 2012)

YOUR STUDENT LIFE: GET INVOLVED

YOUR COLLEGE: A COMMUNITY WITHIN A COMMUNITY

A rich life experience and a sense of belonging is what you will find in your college. All students belong to a college, and each one enjoys unique traditions, celebrated through a variety of events ranging from academic workshops and visiting speakers, to formal dinners and student-run activities. Support services such as academic advising and peer support are also available.

trentu.ca/colleges

CHAMPLAIN COLLEGE

Situated on the west bank of the Otonabee River, Champlain embodies the spirit of adventure and discovery of the famous French explorer for whom it is named. Champlain hosts many wonderful spaces including the Great Hall. Exploration of the world happens at Champlain.

trentu.ca/colleges/champlain

GZOWSKI COLLEGE

Gzowski College is integrated with Trent's First Peoples House of Learning, and named after famed CBC journalist and broadcaster and Trent's eighth chancellor, Peter Gzowski. Events and programs revolve around themes of environmentalism, fair trade, and Indigenous learning.

trentu.ca/colleges/gzowski

LADY EATON COLLEGE

Lady Eaton is located on a hillside near a collection of trails and paths overlooking the University, with a unique sense of tradition, community and student spirit. For five decades, history, music and athletics have been hallmarks of student life at LEC.

trentu.ca/colleges/lec

OTONABEE COLLEGE

The word "Otonabee," from the Anishnaabe language, means "fast and boiling waters," giving you a sense of the exciting and energetic life that awaits you at this college. OC is a thriving neighbourhood, right in the heart of campus with performances, speakers and a wide range of activities.

trentu.ca/colleges/otonabee

Students Create Their Own Sustainable Food Options

Located in Champlain College, the Seasoned Spoon is an independent, student-run café with a mission to serve ethically-minded fare. Food is grown and processed in the local region – some of it on Trent's rooftop gardens – from certified organic/transitionally organic farms.

YOUR HOME AWAY FROM HOME

Student Profile

"Living in residence my first year gave me so many opportunities to grow and get involved with the Trent community, and inspired me to continue in residence life by becoming a don. Residence offers a safe place that gives students a chance to discover who they are, and develop skills, while introducing them to the wonderful Trent community."

Robyn Gundy, fourth-year student

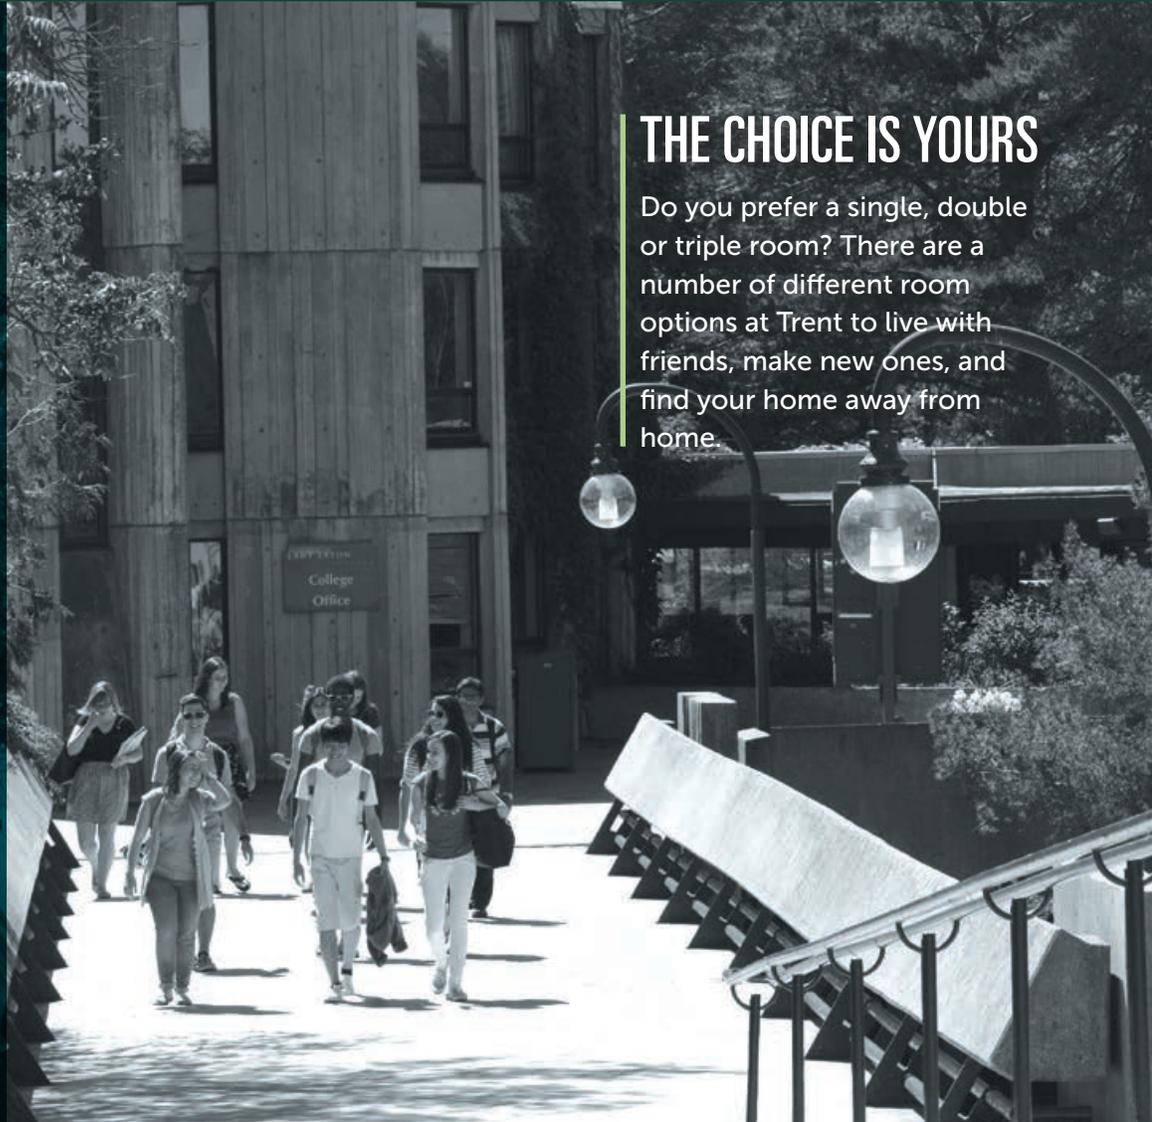

OSHAWA

Residence Guarantee for Oshawa Students

NEW

First-year students at Trent University Oshawa can now enjoy the residence experience, thanks to a partnership with Durham College and UOIT. Apply by the deadline, and your spot in a great residence room located close to Trent's Durham campus is guaranteed.

trentu.ca/oshawa/housing

THE CHOICE IS YOURS

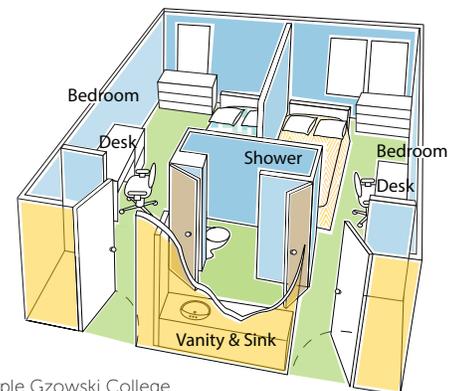

Do you prefer a single, double or triple room? There are a number of different room options at Trent to live with friends, make new ones, and find your home away from home.

WHAT IS A LIVING-LEARNING COMMUNITY?

Membership in a LLC is a great way to make the most of your residence experience by providing you with an opportunity to get involved in various activities and to meet new people who share your interests. As with all LLC's, students will drive the collaborative activity planning process with the support of an upper-year student mentor, residence staff and the Colleges.

NEW FOR 2015

For independent living close to campus, Trent University offers new apartment-style living right across the street from campus. These apartments will feature residence life staff and programming as well as additional safety and security features.

Sample Gzowski College single rooms with adjoining bathroom. Room layout and size may vary by residence

Campus Dining at Its Best

As a student living in residence, your meal plan gives you access to a wide variety of food services. With your meal card you can dine at any of the four on-campus dining halls where more traditional food options are combined with your favourite restaurant chains, including Thai Express, Subway and Booster Juice. You also have access to our on-campus Starbucks and Tim Hortons. Looking for something different? Enjoy organic and local food at the student-run Seasoned Spoon Café, try some pub fare at The Ceilie, or pick up a gourmet sandwich at The Planet North.

trentu.ca/housing

* The Residence Dining Plan will include \$3,400 Dining Dollars (to be used in dining halls) and \$200 Dining Plus Dollars (to be used at designated university outlets such as The Seasoned Spoon, The Planet North and the Ceilie). Each of the dining plans will allow for unused portions of the dining dollars to be carried over into the following year.

WHERE THE WORLD LEARNS TOGETHER

TRENT INTERNATIONAL PROGRAM

The Trent International Program (TIP) provides service, support, information, and a sense of home to students from countries all over the world who have chosen Trent. Whether you are coming from Barrie or Botswana, you can get involved in global discussions with people from more than 100 countries right here on our campus.

STUDY ABROAD OPENS DOORS

A year abroad experience helped recent International Development Studies and Indigenous Studies grad Jennifer Boyce secure a highly competitive internship with the United Nations (U.N.) in Thailand.

"In school we learn so much about theories. Being in Thailand, and in the village, gave me a chance to do research first-hand with the people that were most impacted. That's when I realized that this was the work I wanted to be doing."

IS ENGLISH YOUR SECOND LANGUAGE?

The Trent-ESL: English for University program offers intensive English language preparation, setting you up for success at Trent.

See page 37.

GO GLOBAL: STUDY AND LEARN ABROAD

Your doorway to an amazing world view. TIP has several programs for you to choose from, each giving you a unique opportunity to get where you want to go. Fit a semester or year abroad seamlessly into your university experience through one of our formal exchanges with more than 50 universities. Choose from more than 40 countries from Iceland to Australia.

During your summer break, incorporate international experiential learning into your degree program through a field placement, research project, intensive language program, or internship opportunities. Trent students have done business in Hong Kong, supported health care in Honduras, excavated ruins in Belize, taught in England, and studied pink dolphins in Taiwan.

Where do you want to study?

Australia – Barbados – Belize – Botswana – China – Czech Republic – Ecuador – England – Finland – France – Germany – Ghana – Hungary – Iceland – India – Italy – Jamaica – Japan – Malaysia – Malta – Mauritius – Mexico – Norway – Poland – Scotland – South Africa – South Korea – Spain – Switzerland – Taiwan – Hong Kong – Thailand – Trinidad & Tobago – Turkey – United States – Wales

OUR COMMITMENT TO INTERNATIONAL STUDENTS

TIP recognizes the contributions of our international students with many significant scholarships and awards, helping to make the transition to studying in Canada, and at Trent, a little easier. We also invite you to participate in additional extracurricular programs, seek out campus mentors to help you achieve your leadership goals, and attend regular forums where you can meet other like-minded scholars.

trentu.ca/tip

TRENT STUDENTS: BY THE NUMBERS

6,784 undergraduate students in Peterborough

603 international students

308 self-identified Indigenous students

At Trent, you are part of a diverse and vibrant community that will support you in your studies, and beyond.

ENWEYING: “THE WAY WE SPEAK TOGETHER”

As a leader in Indigenous education, Trent values indigeneity and the knowledge, perspective, and voice students of Indigenous heritage bring to the Trent community.

FIRST PEOPLES HOUSE OF LEARNING

The First Peoples House of Learning, located in the Enweying building at Gzowski College, connects to local First Nations communities and provides special services, support and a home away from home for Indigenous students from all over the world. For non-Indigenous students, it's a place to build awareness and to become immersed in many new and traditional cultural experiences.

SELF-IDENTIFICATION

Self-identifying your Indigenous ancestry helps ensure we provide the best cultural and support services possible. Contact First Peoples House of Learning for more information: trentu.ca/fphl

INDIGENOUS DIPLOMA PROGRAMS

The Indigenous Diploma Program at Trent University is a program for applicants of Indigenous ancestry who wish to pursue university level studies, who may not have taken a traditional academic path towards post-secondary education, and who may benefit from studying in a supportive academic atmosphere for Indigenous students. Find out more on page 35.

DID YOU KNOW?

The Trent University Native Association is a long-standing student-run group, whose main focus is to create cultural awareness and support for Indigenous students inside and outside the University.

WHY TRENT?

Benefiting from the Wisdom of Elders

Every year, for more than 35 years, Trent University hosts the Annual Elders & Traditional Peoples Gathering. This event provides an opportunity for students and the community to listen and learn from elders from across the country.

SUPPORTING THE PURSUIT OF EDUCATION

At Trent, we believe in rewarding academic excellence and supporting an accessible education for all.

**FULL TUITION
WITH 90%**

trentu.ca/fulltuition

- CIBC Nursing Award – \$2,500
- Bursary for Students with Disabilities (BSWD) – varied amounts
- Crown Ward Entrance Bursary – up to \$3,000
- Trent Work Study Program (TWSP) – up to \$2,000
- International Scholarships and Awards – varied amounts

trentu.ca/financialaid

HOW MUCH WILL IT COST?

Estimated Average Budget for an Academic Year

LIVING ON CAMPUS

Tuition	\$6,040
Ancillary Fees	\$1,435
Books & Supplies	\$1,600
*Residence Room & Board	\$8,400-11,600
Personal	\$2,000
Total	\$19,475 – \$22,675

LIVING OFF CAMPUS

Tuition	\$6,040
Ancillary Fees	\$1,435
Books & Supplies	\$1,600
**Off-campus Housing	\$6,500
Personal	\$2,000
Total	\$17,575

Tuition and ancillary fees for international students are approximately \$20,100 (CDN).

These costs represent an eight-month budget (based on 2014-15 costs). Your costs may differ depending on personal lifestyle, number of trips home, long distance calls, new or used books, etc.

* Includes residence dining plan

** Estimate based on eight months of rent (shared occupancy, utilities, laundry and groceries).

See page 17 for specific residence and dining plan fees.

- CAMPUS ATMOSPHERE

"At Trent I wasn't just a passive recipient of knowledge, but rather a co-creator of my own intellectual capacity."

Don Tapscott, Trent University Chancellor, alumnus, bestselling author and business visionary

TRENT/FLEMING SCHOOL OF NURSING

Bachelor of Science in Nursing (B.Sc.N.)

The Trent/Fleming School of Nursing emphasizes a holistic approach to healthcare. Graduates of the collaborative and compressed programs are well-known as critical thinkers whose compassion and scientific knowledge are rooted in the values of professional and social responsibility.

“Our goal is to build the simulation learning facilities at Trent into a regional centre that can become a hub for innovative, hands-on learning for students and professionals across Ontario.”

Meaghan Regts, clinical simulation centre coordinator, Trent/Fleming School of Nursing

3 PROGRAM OPTIONS

The Trent/Fleming School of Nursing offers three program options in partnership with Fleming College and George Brown College:

- 1** Integrated, collaborative four-year program leading to a Bachelor of Science in Nursing (B.Sc.N.) Degree
- 2** Compressed 28-month program for students with sufficient university credits to fast track through the program
- 3** Post-bridge RPN to B.Sc.N. pathway program

Accredited by the Canadian Association of Schools of Nursing, and a Registered Nurses' Association of Ontario (RNAO) "Best Practice Spotlight Organization," the program spans a variety of nursing contexts. Knowledge and skills are developed through lectures, seminars, case studies, simulation labs, online coursework, and clinical practice. Theory and practice occur simultaneously, starting in first year. By the final year of study, students will have had the opportunity to practice nursing in a range of hospital and community settings.

Why Trent?

- Study in the state-of-the-art Life and Health Sciences facility, home to simulation labs including the new Clinical Simulation Learning Centre (CSLC), as well as a maternal/child and community care simulation space
- Benefit from partnerships with a range of healthcare providers and gain more than 1,300 hours of clinical experience over four years of study
- Develop a strong understanding of social justice and political advocacy in the healthcare environment

- Choose courses from an innovative curriculum, including aging, environmental, Indigenous, rural, and women's health

Career Paths

Acute Care / Home Care / Long-Term or Complex Continuing Care / Child, Mental or Public Health Nurse / Research / Education

Popular Courses

Transcultural Concepts in Healthcare; Biomedical Ethics; Transitions in Health and Illness; Rural Nursing Practice; Contemporary Issues in Aging and Health

trentu.ca/nursing

Award-Winning Research

"The Trent/Fleming School of Nursing focuses on holistic nursing and challenges students to work both independently and in a group environment and all in a very down-to-earth, yet academic setting."

Hannah Silk, recipient of a Health Professional Student Research Voucher from the Canadian Institute of Health Research

THE SCHOOL OF EDUCATION & PROFESSIONAL LEARNING

Teacher Education Stream (B.A. or B.Sc.)

This program provides students with a strong foundation for application into a consecutive teacher education program, and ultimately the teaching profession. Students gain practical and theoretical knowledge through course work, participation in two workshops per year on current issues in education, and 75 hours of experience-based learning. Each year, a number of spaces in the Trent Consecutive Bachelor of Education program are reserved for graduates of the Teacher Education Stream.

Why Trent?

- Participate in workshops linked to the priorities of Ontario curriculum guidelines, including environmental education, Indigenous knowledge, and social justice
- Take advantage of additional professional learning opportunities, such as Leadership Programs, and Penpals
- Complete the Emphasis in Teacher Education and receive a special notation on your official transcript
- Benefit from Trent's professional partnerships with the community and educators

Career Paths

Teacher / Child Care Worker / Educational Author / Publisher / Principal

Popular Courses

Learning Styles and Teaching Children with Special Needs; Mathematics for Teacher Education; Physical Science for Teacher Education; Environmental Science for Teacher Education

trentu.ca/education

Emphasis in Teacher Education (B.A. or B.Sc.)

The Emphasis in Teacher Education is available to Trent students in a single or joint major honours program who are considering a career in education. The Emphasis program provides students with the academic background to pursue a Bachelor of Education, and offers workshops that address current issues in the field. The Emphasis does not guarantee admission into a Consecutive B.Ed. program, but the transcripts of students who complete the Emphasis will contain a special notation.

trentu.ca/education

Bachelor of Education (B.Ed.)

The Consecutive Education program is available once you have completed your undergraduate degree, and leads to certification to teach at the Elementary or Secondary level in Ontario. Students apply the theory and skills they learn in their courses to the classroom. There they use this expertise to think critically about their own professional practice, and to develop professional identity through attention to individual needs, multiple modes of learning, human diversity, and critical thinking in content areas.

Why Trent?

- Engage in fields such as adult and special needs education, government and public policy, youth and recreational education, educational consulting and programming, environmental mentorship, and teaching abroad
- Involve yourself in a program that promotes social justice, equity and diversity
- Participate in a unique program in literacy, including a literacy placement

Career Paths

Teacher / Career Counsellor / Curriculum Designer / Literacy Specialist / Training Consultant

Popular Courses

Supporting Literacy and Learners with Special Needs; Sociocultural Perspectives on Human Development and Learning; Educational Law, Ethics and Professional Conduct; Practicum: Developing Teaching Identity, Knowledge and Skill; Inclusive Education; The Adolescent Learner

trentu.ca/BEd

One of Ontario's Most Outstanding Teachers

Recognized for her innovations in teaching, Dr. Cathy Bruce has been named one of Ontario's most outstanding university teachers in 2013/14 by the Ontario Confederation of University Faculty Associations (OCUFA).

"My goal is to get new knowledge out there in ways that are meaningful."

Follow Prof. Bruce on Twitter @drcathybruce

NEW MASTERS OF EDUCATIONAL STUDIES COMING SUMMER 2015

trentu.ca/education/masters

ACADEMIC PROGRAMS

HUMANITIES

Humanities degrees emphasize communication, research, problem solving, and human understanding in local, national and global contexts. With broadly transferable skills, graduates excel in careers requiring excellent writing and verbal abilities, critical thinking, creativity, negotiation, and the interpretation and presentation of information. Perhaps most importantly, the depth and breadth of a Humanities degree builds flexible and adaptable graduates, opening doors to successful careers across industries and sectors.

Ancient Greek & Roman Studies (B.A.)

Ancient Greek and Roman Studies will expose you to the foundation of modern western civilization, and provide you with the knowledge to understand why and how we function as a society today. Explore issues of state and empire, warfare, class struggles, the economy, religion, gender, cultural heritage, and the genius of the human spirit – issues as relevant today as they were back then. Courses are based on the research of accomplished instructors and scholars.

Why Trent?

- Examine, through interdisciplinary study, the history, society, literature and physical remains of the ancient Mediterranean from 3000 B.C. to 650 A.D.
- Take courses based on the active research of faculty who are leaders in the field
- Participate in one-of-a-kind extracurricular activities and projects, like student productions of ancient Greek plays and archaeological excavation in the Mediterranean

Career Paths

Archaeologist / Archivist / Curator / Editor / Secondary School Teacher / Journalist / Library and Information Systems Specialist / Professor / Public Relations Specialist

Popular Courses

The Trojan War; Greek, Roman, and Egyptian Archaeology; Mythology; Ancient Warfare; Love, Sex and Death; and Ancient Civilizations

trentu.ca/ahc

Canadian Studies (B.A.)

Gain an understanding of the issues affecting Canadians the most, including: politics, culture, the environment, immigration, multiculturalism, citizenship, labour, First Nations, the North, regionalism, social welfare, and the women's movement. One of the first programs of its kind in Canada, Canadian Studies offers unparalleled insight into the life and history of Canada, and how the nation and its people have evolved to who we are today.

Why Trent?

- First year students choose from courses including: Conflicted Canada, Global Canada, and Canada: Images & Realities
- Generous awards, bursaries and major scholarships available specifically for Canadian Studies Majors
- Work with community groups on research projects or participate in student retreats at Windy Pine, the department's lakeside cottage conference centre

Career Paths

Biographer / Public Administrator / Community Relations Consultant / Diplomat / Immigration Officer / Lawyer / Policy Analyst / Public Policy Officer / Journalist / .0417

Popular Courses

Canada: The Land; Canadian Women's Writing; Security, Surveillance and the Making of the Contemporary Canadian State; Canada in the 1960s; First Nations and the Welfare State; Northern Summer Field Course; Documenting Canada.

trentu.ca/canadianstudies

Cultural Studies (B.A.)

As a student of Cultural Studies, you will participate in one of the only programs of its kind in Canada, and explore concepts about human nature, technology, art, culture, and change. Through engagement in a range of courses in visual arts, cultural theory, media, film, theatre, music, and creative writing, you will learn to question and analyze the notion of culture itself, to decode its complex systems of messages, and ultimately, understand how culture finds meaning in our everyday lives.

Why Trent?

- Specialize in Arts, Comparative Literature, Film, Video and Media, or Social Thought, or take a comprehensive approach
- Create culture yourself through workshops taught by renowned theatre directors, artists, musicians, writers, and filmmakers
- Home of internationally-renowned journal, *Theory & Event*

Career Paths

Advertising and Marketing Executive / Director / Author / Cultural Events Planner / Museum and Heritage Consultant / Radio or Television Producer / Videographer / Communications Specialist / Journalist / Cultural Critic

Popular Courses

Media and Society; Civilization and Human Nature; Science Fiction; World Cinema; Issues in Global Media; Music and Society; Mass Media and Popular Culture; Visual Arts Studios; Theatre Workshops

trentu.ca/culturalstudies

An Exclusive Opportunity

Cultural Studies students participated in an exclusive performance workshop with the artistic director and actors from Human Cargo Theatre, a Toronto-based theatre company. "It was an incredible experience just talking to people who have amazing experiences in their professions, travelling around the world and putting on shows, doing what they do," said student Lucas Deluca.

English Literature (B.A.)

Studying English Literature at Trent will prepare you for any career that demands creativity, critical inquiry, and strong communication and writing skills. Explore history and culture through language, with literature courses spanning the medieval centuries to the global world of today. Seminar and workshop classes provide opportunities for discussion, critical thinking, and one-on-one interaction with leading scholars.

Why Trent?

- Develop a solid foundation for graduate studies in M.A./Ph.D. and/or professional studies
- Engage with authors during guest lectures and study with award-winning faculty dedicated to teaching and research
- Explore alternative learning methods, including dramatic performances, music, peer-assessed active learning, blogging and many other innovative strategies

Career Paths

Broadcaster / Journalist / Librarian / Public Relations Specialist / Teacher / Writer / Translator / Archivist / Editor / Communications Strategist / Arts Critic / Researcher / Content Manager / Marketing Specialist

Popular Courses

Reading Shakespeare for the Classroom and Stage; Creative Writing; Children's Literature; Popular Fiction; American Literature; Canadian Literature; Modern Irish Literature

trentu.ca/english

French Studies – Modern Languages (B.A.)

Experience an array of courses on French language, Francophone cultures, literatures and linguistics. French Studies offers opportunities for all levels of French learners; whether you are at beginner level, coming from Core French or Immersion, you will be placed in the class that is right for you. As you progress, you will explore great works of literature in their original language, and study classics in history, politics, and art in their original forms. In our bilingual country, and beyond, career opportunities abound for graduates of French Studies.

Why Trent?

- Obtain a specialization in Quebec Studies
- Spend a year studying abroad in Nantes (France)
- Participate in French-based events, such as presentations by guest speakers, public readings, and student-run mini-conferences

Career Paths

Cultural Affairs Coordinator / Foreign Services Officer / Interpreter/ Linguist / Professor/ Translator / Immigration Officer / Marketing Consultant / Writer

Popular Courses

Franco-Ontarian Literature; French Civilization; The Pre-revolutionary Novel; Grammar and Linguistics; Quebec Science Fiction and Fantasy; Geopoetics

trentu.ca/modernlanguages

Gender & Women's Studies (B.A.)

Gender is everywhere, influencing human behaviour, interaction, and social institutions. This program explores a broad range of feminist perspectives on health, history, popular culture, law, the environment, social policy, and globalization. Develop an interdisciplinary understanding of gender relations, sexuality, and women's diverse experiences across cultures, throughout history, and in contemporary societies.

Why Trent?

- Select courses from a range of offerings and disciplines, encouraging choice and specialization
- Become part of a community of like-minded individuals, and engage with guest lecturers, authors and leaders in the field, and enhance your skills through community-based education opportunities
- Learn from some of the foremost scholars in the country

Career Paths

Lawyer / Policy Advisor / Community Health Officer / Counsellor / Health Promoter / Equity Advisor / Human Rights Advocate / Journalist / Social Worker / Teacher / Program Manager

Popular Courses

Gender and Popular Culture; Social Construction of Sexuality; Gender, Race and Class; Gender, Globalization and Resistance; Community Research Placement; Criminalizing Women

The Legacy of Margaret Laurence

Now in its 24th year, the annual Margaret Laurence Lecture, hosted by the Gender & Women's Studies Department, brings a distinguished speaker to Trent to address a topic related to Margaret Laurence's own intellectual and political passions, specifically women's involvement in peace, ecology, literature, and feminism.

Learn a New Language

Learning a new language has many benefits. In addition to making travel across the globe easier and more fun, knowing another language can also build new business and learning opportunities. At Trent, you can explore introductory courses in several languages, including:

- Arabic
- Chinese
- Classical Greek
- French
- German
- Latin
- Mohawk
- Nishnaabemowin
- Spanish

Trent Bureau of QNet News

Opened in 2013, the new Trent Bureau of QNet News is a satellite of Loyalist's award-winning student-produced community online news service where Trent's journalism students report, host programs and produce web, social media and video content.

Journalism (B.A.)

The journalist's role is to tell society's stories to help citizens better understand their world. The fully integrated Journalism Program prepares graduates to be informed, critically aware, and technically skilled journalists. You will earn an Ontario college advanced diploma in Journalism (Online, Print and Broadcast) from Loyalist College, and a joint-major honours degree in Journalism and another discipline, such as English or Media Studies, from Trent. The program is based at both institutions, giving students a unique combination of services and access to faculty support and leading edge research, as well as technical facilities. Your degree and diploma can be completed together in four years of full-time study, including some summer study.

Why Trent?

- Develop your journalism skills in a state-of-the art, integrated newsroom where you will work simultaneously on audio, video, print, traditional broadcast and online media
- Build a comprehensive portfolio that documents your knowledge, skills and career readiness
- Participate in a final-year project and an eight week internship that will facilitate networking and career development

Career Paths

Writer / Editor / Digital Media Specialist / Producer / Director / Communications Specialist / Filmmaker / Broadcaster / Copywriter / Public Relations Consultant / Journalist

Popular Courses

Critical Thinking; Media and Society; Introduction to Philosophy: Moral and Political; Knowing and Wondering

trentu.ca/journalism

Media Studies (B.A.)

Drawing from courses in Anthropology, Canadian Studies, Computer and Information Studies, Cultural Studies, Gender and Women's Studies, Philosophy, and Sociology, you will engage with complex questions about society and the media through an interdisciplinary lens. Explore the ways in which information in the digital age is consumed, lived, and organized, and how contemporary media environments differ from those in the past. Your studies will include research on media institutions, the influence of advertising on contemporary media, the effect of new technologies, feminist critiques of images of women, theories of ideology and "cultural hegemony," digital media, and the role of mass media in shaping how we imagine and see our world.

Why Trent?

- Study an interdisciplinary curriculum, with a special emphasis on new digital media
- Develop skills in communications, critical and analytical thinking, and ethical awareness
- Gain in-depth knowledge of media and effective communication skills

Career Paths

Advertising and Marketing / Teaching / Journalism / Cultural Production / TV, Radio or Internet Documentary Production / Media Consultancy / Communications / Content Manager

Popular Courses

Media and Society; Virtual Worlds: The Anthropology of Online Communities; Issues in Global Media; Digital Culture; Multimedia and Design

trentu.ca/mediastudies

Philosophy (B.A.)

What do you believe, and why? Philosophy can help with the answers. You will study fundamental questions about the world and your place in it. As a student of philosophy at Trent, you can explore questions about the nature of reality, the meaning of human existence, ethics, and the limits of knowledge. Students of philosophy develop advanced skills in critical thinking, problem-solving, and communication – valuable foundations in any number of career choices.

Why Trent?

- Explore topics such as logic and morality, as well as philosophical movements ranging from Socrates and Confucius to Kant and Derrida
- Experience the annual Ryle Lecture series and other philosophy events that allow you to engage with world-renowned philosophers
- Become part of a vibrant philosophical community of students in Trent's oldest undergraduate club, The Philosophical Society

Career Paths

Doctor / Lawyer / Human Resources Executive / Human Rights Officer / Journalist / Public Relations Professional / Equity Advisor / Ethics Consultant / Marketing Executive

Popular Courses

Critical Thinking; Love and Desire; Philosophy of Law; Moral Issues; Philosophy of Emotion; Cyberethics; Advanced Topics in Biomedical Ethics

trentu.ca/philosophy

SOCIAL SCIENCES

Social Sciences help us understand humanity and the world around us. Benefiting from a combination of theoretical and practical study, students in the Social Sciences question assumptions and analyze social issues. Applying scientific methodology to the study of humanity, graduates develop a broad range of expertise, such as critical thinking, communication, problem solving, research, and analysis. Graduates gain a unique skill set that can be successfully applied to employment opportunities across public and private sectors.

Anthropology (B.A. or B.Sc.)

Anthropology is the study of the human experience, from our earliest ancestors to contemporary digital society. You will learn to see humankind as complex social and biological beings with the capacity for language and culture. Drawing on insights from archaeology, cultural, linguistic, and biological anthropology, you will explore the extraordinary variability in human adaptation, organization and belief, and how the common circumstances we face unite us.

Why Trent?

- Study with renowned researchers in one of the most highly regarded programs in Canada
- Participate in an archaeological field school in Belize or Ontario
- Spend a year abroad in Ghana, Thailand, or France

Career Paths

Archaeologist / Public Service / Cultural and Heritage Consultant / Environmental Impact Assessor / Ethnographer / Forensic Anthropologist / Immigration and Human Rights / Public Health / Medical Anthropologist / Museum Curator / Program Manager

Popular Courses

Plagues and Peoples; Freaks and Geeks: The Anthropology of Subcultures and Cyber-Cultures; Culture and Food; Environmental Archaeology; Mortuary Archaeology

trentu.ca/anthropology

Archaeology (B.A. or B.Sc.)

Archaeology is the interdisciplinary study of the human past through the examination of material and biological remains, including artifacts, human and animal bones, architecture, and plants. You will learn the field methods and laboratory techniques used to study these materials, as well as theories archaeologists use to understand the ancient cultures and past civilizations of the Americas, Europe and the pre-Classical and Classical Mediterranean world. This exciting interdisciplinary program combines courses from Anthropology, Ancient History & Classics, and the sciences.

Why Trent?

- Specialize in Anthropological Archaeology or Classical Archaeology
- Conduct field work in Ontario, or abroad in places like Belize, Europe, Turkey, North Africa, and more
- Practice in specialized labs for bioarchaeology, Geographic Information Systems (GIS), archaeozoology and lithic analysis

Career Paths

Archaeological Data Manager / Archaeologist / Archaeotourism Professional / Archivist / Bioarchaeologist / First Nations Liaison Officer / Heritage Management Consultant / Heritage Planner / Professor / Laboratory Supervisor / Museum Curator / Teacher

Popular Courses

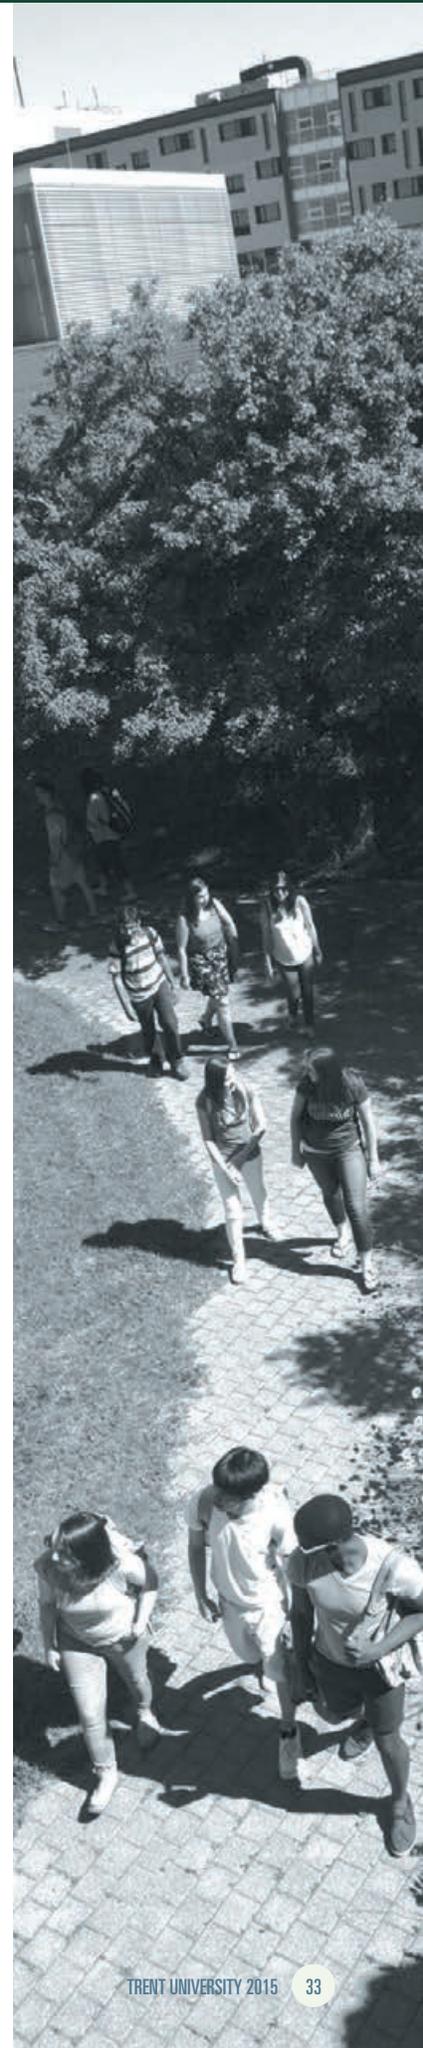

Archaeozoology; Collapse of Complex Societies; Aegean Bronze Age Archaeology; Human Adaptability; Case Studies in Classical Archaeology

Students Unearth History in Belize

Each summer, Trent students travel to Belize to participate in the Ka'Kabish Archaeological Research Project, helping to excavate the treasures of one of the Maya's long-lost cities. The ceramics, stone tools, jade, and human bones students have unearthed are helping to unlock the mystery of who lived there and what happened to them.

WHY TRENT?

**88% TRENT GRADS ARE EMPLOYED
SIX MONTHS AFTER GRADUATION;
92% AFTER TWO YEARS**

Bachelor of Business Administration (B.B.A.)

Prepare to be part of the next generation of leaders, business professionals and entrepreneurs. Through an integrated approach spanning corporate, self-employment, online, small business and non-profit/ community models, you will learn fundamentals of leadership management, gaining a deep understanding of the organization of business and its role in a changing world. Your studies will include a broad foundation of business knowledge through delivery of core courses across business areas beginning in first year. Choose to focus in one of several specializations, or connect your interest in business with other study areas through Trent's commitment to interdisciplinary learning.

Why Trent?

- Specialize in Entrepreneurship, Marketing and Consumer Culture, Human Resource Management, Niigaaniwin – The Art of Leading, Economics, Ethics and Sustainability, or Information Systems and E-Commerce
- Acquire real-world professional experience through a variety of opportunities, including upper year for-credit internships, community-based research projects, the Trent Business Students' Association, or participate in local and national student business competitions
- Benefit from a human scaled approach to teaching, and the knowledge and expertise of a dedicated alumni community of business leaders and mentors

Career Paths

Corporate, Small-Business and Non-Profit / Accountant / Indigenous Business Development Officer / Marketing and Communications Director / Human Resource Generalist / Entrepreneur

Popular Courses

Management Skills; Entrepreneurship; Leadership, Training and Development; A Cross-Cultural Approach; Ethics and Capitalism; Financial Accounting; Advertising

Business and Arts (Joint-Major B.A.), Business and Science (Joint-Major B.Sc.)

The joint major (B.A. or B.Sc.) allows students to combine business with any other academic interest as a joint major.

Why Trent?

- Study in the only university in Canada to offer a wide range of joint majors in Business Administration
- Create a unique educational focus based on your interests with an interdisciplinary knowledge base
- Join a community affiliated with the United Nations Principles for Responsible Management and Education

trentu.ca/businessadmin

BBA Students Leave Their Legacy

When Matt Patterson and Joseph Adams were asked to create a "Legacy Project" for their Management Thought class, they chose to "leave their stamp" on Trent with the creation of "A Proclamation of My Education", a spoken-word promotional video all about Trent. "Trent has made a huge impact on all our lives and we wanted to do something meaningful to give back," said Joseph. View the video: <http://goo.gl/rAXcsD>

Economics (B.A. or B.Sc.)

Study the impact that individuals, businesses, financial institutions, and governments have on the economy. Through your studies, you will gain an understanding of the methods and tools required to analyze complex economic issues, such as unemployment, inflation, economic growth and the regulation of the market structure. You will use national and international data to explore trends and tendencies and to test economic models.

Why Trent?

- Gain experience through participation in faculty research during your undergraduate degree
- Benefit from small-group classes, seminars and workshops
- Undertake individual research projects using economic modeling tools

Career Paths

Financial Analyst / Business Risk Consultant / Economic Journalist / Foreign Service Officer / Fundraising Coordinator / Institutional Research Analyst / Politician / Investment Banking Analyst / Health Policy Planner / Market Research Analyst

Popular Courses

The Canadian Economy; Public Economics; International Economics; Environmental Economics; Health Economics; The Economics of Developing Countries; Managerial Economics

trentu.ca/economics

Indigenous Environmental Studies (B.A. or B.Sc.)

Trent's Indigenous Environmental Studies program is the first in North America to integrate Indigenous traditional knowledge with a Western scientific approach. You will explore complex topics such as climate change, Indigenous health, and the environment. Coming from an interdisciplinary approach, you will learn to generate solutions to the complex local, regional, national, and international issues facing Indigenous peoples worldwide.

Why Trent?

- Study Indigenous Environmental Studies through a unique interdisciplinary curriculum that integrates traditional and Western learning
- Learn from Indigenous and non-Indigenous faculty through your joint studies in Indigenous Studies and Environmental & Resource Science/Studies
- Take part in experiential learning, field courses or exchange opportunities

Career Paths

Community Activist / Government Policy Specialist / Politician / Aboriginal Corporate Liaison Officer / Ecologist / Environmental Activist / Environmental Educator / Environmental Impact Assessment Specialist / Natural Resources Manager

Popular Courses

Indigenous People's Health and Environment; Canada: The Land; Sustainable Indigenous Communities; Introduction to Indigenous Food Systems; Indigenous Environmental Research Protocol and Ethics

trentu.ca/ies

Indigenous Studies (B.A.)

Learn how Indigenous peoples in Canada and around the world are shaping our globe through a creative blend of Indigenous and Western knowledge. You will study the historical and contemporary interactions between Indigenous and non-Indigenous societies, and the cultural foundations of Indigenous life in areas such as performance, literature, politics, ecology, and governance. Learn from exceptional faculty with backgrounds in both Western and Indigenous knowledge, and experience cross-cultural learning.

Why Trent?

- Participate in experience-based learning through direct interactions with Elders
- Study abroad in one of our International Programs in Thailand and Mexico
- Engage in research projects that make a difference in the local community

Career Paths

Community Activist / Government Policy Specialist / Politician / Teacher / Journalist / Aboriginal Corporate Liaison Officer

Popular Courses

Foundations of Indigenous Learning; Introduction to Nishnaabemowin; Hill Tribes and Thai Culture; Indigenous Masked Dance and Storytelling; Urbanization and Indigenous Peoples; Images in Contemporary Media

Indigenous Diploma Programs

Students in the Foundations of Indigenous Learning and the Indigenous Environmental Studies diplomas bring with them to Trent their diverse cultures, values, histories and languages. The Indigenous Diploma Program works in harmony with the individual strengths each student brings to the larger group. The program provides the opportunity for students of Indigenous heritage to make the transition into university level studies in a supportive environment. Students who complete the diploma program may choose to continue on and pursue a Bachelor's degree, towards which they may transfer their diploma credits.

Why Trent?

- Benefit from an environment where Indigenous knowledge is respected and recognized as a valid means by which to understand the world
- Be a part of the only Indigenous Diploma Programs of their kind in Ontario, offering both diplomas and degree transfer credits

trentu.ca/indigenous

Developing the Next Generation of Water Specialists

H2O Create, a new collaborative program involving the Indigenous Environmental Studies (IES) program and Trent's Institute for Watershed Science is training the next generation of highly trained water professionals, sensitive to the specific cultural, political and organizational challenges facing First Nations communities. Find out how undergraduates can get involved:

trentu.ca/iws/h2ocreate.php

International Development Studies (B.A.)

Studying International Development Studies at Trent allows you to examine the sources and consequences of human inequality from a global perspective. Through an interdisciplinary lens, you will explore wide-ranging themes such as global poverty and hunger, conflict, ecological degradation, gender relations, and cultural identity. Your studies will pay particular attention to the world's most vulnerable populations and their complex relations with the most powerful countries and international organizations.

Why Trent?

- Study in an internationally-recognized program, the first developed in Canada
- Participate in experience-based learning through year-abroad programs in Ghana or Ecuador
- Gain a critical perspective on world issues through small group teaching and dedicated faculty members

Career Paths

Human Rights Officer / Community Education Coordinator / Lawyer / Diplomat / Journalist / International Civil Servant / Filmmaker / Medical Doctor / Humanitarian Assistance Worker

Popular Courses

Human Inequality in Global Perspective; The World Food System; Media and Development; Law, Rights, and Development; Cause of War; Local Dynamics of Change; Global Migration

trentu.ca/ids

International Political Economy (B.A.)

This joint-major program explores the inter-connected nature of the study of politics and economics at international and global levels. Courses combine the study of politics with economics, international development studies, anthropology, business, Canadian studies, history, and more, offering graduates a strong foundation of knowledge for a broad range of career or post-graduate options.

Why Trent?

- Study an interdisciplinary curriculum drawing from a range of diverse programs
- Engage with faculty in small class settings, bringing theory and practice together
- Explore this growing field of interest with renowned scholars representing a wide variety of academic backgrounds

Career Paths

International Affairs Agent / International Researcher or Advisor / Non-governmental Advisor / Diplomat / International Development Agent / Public Employee / Private Sector

Popular Courses

Growth of the Global Economy; Literature and Globalization; African Culture and Society; Causes of War; Environment and Development

trentu.ca/ipe

Political Studies (B.A.)

Politics impacts all aspects of life, and importantly, quality of life. In Political Studies you will examine power relations and relationships between the state, business, and citizens. It is exciting and enlightening to learn how these relationships influence each of our lives, and more broadly, political, economic, and social change nationally and internationally. Our small class size and interactive student-professor relationships build confidence, skills, and knowledge for a variety of careers.

Why Trent?

- Explore democracy and its global challenges, focusing on world politics, Canadian politics, or political theory
- Benefit from many experiential learning opportunities such as community-based research and internships, or participate in a study abroad opportunity
- Pursue the Emphasis in Law and Policy

Career Paths

Policy Professional / Journalist / Lawyer / International Relations Specialist / Media Consultant / Civil Servant / NGO Staffer / Public Relations Officer / Politician / Political Assistant / Lobbyist / Political Researcher and Consultant

Popular Courses

World Politics; The Political Imagination; The Politics of Creativity; Green Politics; The Body Politic/The Body In Politics; Justice and Rights

Bachelor of Social Work (B.S.W.)

NEW

The challenging field of social work provides essential supports to communities by helping individuals, groups and families meet their basic human needs. The new Bachelor of Social Work at Trent University will prepare graduates with the knowledge and skills for meaningful professional practice in a wide range of social work contexts. Through an interdisciplinary curriculum grounded in social justice, human rights and cultural awareness, you will develop a strong foundation of clinical knowledge, critical thinking skills, and social responsibility. You will explore a range of contemporary themes connected to social work from across disciplines in your first two years. Students who qualify for the professional years will focus exclusively on social work theory and practice in years three and four of the program, including more than 700 hours of supervised clinical placement.

trentu.ca/socialwork

International Student Brings Global Perspective to Trent

"My classes and professors have been very important in the process of discovering my passion for International Development and Politics. I was glad to know that I had made the right choice and I knew that it wouldn't have been the same if I wasn't at Trent."

Juan Ignacio Burneo M. '10, B.A. International Development Studies and Political Studies, Quito, Ecuador

Sociology (B.A.)

Sociology is the study of society and the processes and patterns of social relations that influence our everyday world. Rooted in the social sciences and inspired by a passion for social justice, the program engages students in understanding and acting on the consequences of social change. You will explore and question diverse cultures, social experiences, dynamics of power and inequality, and global changes that forge relations between individuals, groups, institutions and societies. Through a broad range of courses you will complete your studies with a heightened understanding of human relationships and society.

Why Trent?

- Study in small group settings with award-winning faculty
- Engage in experiential learning opportunities and conduct community-based research projects with local agencies
- Spend a year abroad studying at one of many partner universities around the world

Career Paths

Market and Social Researcher / Civil Servant / Community Corrections Officer / Demographer / Human Resources Professional / Immigration Officer / Labour Analyst / Social Worker / Substance Abuse Counsellor / Teacher / NGOs / Social and Community Service

Popular Courses

Sociology of Education; Critical Criminology; Sociology of Health and Illness; Deviance and Social Control; Culture and Society; Sociology of Law; Sociology of the Body

trentu.ca/sociology

Trent – ESL: English for University

Trent-ESL offers intensive English language preparation for university success. In small classes, you will build your language, research, and academic skills and become engaged in campus life. Conditional admission means that you will have a guaranteed position in your degree program once you complete Trent-ESL. While studying in Trent-ESL, you are a full member of the university community, with options to live in residence, participate in extra-curricular activities, and become familiar with campus life.

Why Trent?

- The average class size of 13 students means that you receive exceptional personalized attention
- In levels four and five, you can begin taking credit courses towards your degree
- Foundations for University I and II prepare students for all degree programs with discipline specific assignments and vocabulary
- Dedicated staff and orientation programs help you succeed in your studies
- Flexible programming with four start times each year (September, January, April, and June)

trentu.ca/esl

Bachelor of Arts & Science (B.A.S.)

This program is designed for students who are equally fascinated by the study of both the Arts and the Sciences and who perform very well across these disciplines. You will develop skills of inquiry and critical thinking by studying topical issues like climate change from scientific, social and humanist perspectives.

You will gain the knowledge, confidence, and skills to become a leader in the management of the overlapping social, artistic, and scientific complexities of today's world.

Why Trent?

- Design your degree to suit your interests and strengths
- Develop skills of inquiry and critical thinking from both scientific and humanistic perspectives
- Participate in student-driven research with faculty members from a variety of disciplines

Career Paths

Medicine / Law / Journalism / Public Policy / Teaching / Marketing & Communications / Government / Business / Publishing

Popular Courses

Communicating Knowledge; Knowing and Wondering; Methods and Communication

trentu.ca/bas

SCIENCES

Students in the Sciences gain specialized knowledge and training they apply throughout their careers. Science degrees build a strong base of technical skills and expertise, including research and critical analysis, logic, reasoning, and problem solving. Graduates draw on their knowledge of scientific principles and apply their skill set to explain or resolve complex problems. Career opportunities are endless for graduates of Bachelor of Science degrees.

Biochemistry & Molecular Biology (B.Sc.)

Without biochemistry, there is no life. Working in state-of-the-art facilities, you will gain a solid grounding in chemistry, biochemistry, genetics and cell biology. This program prepares you both technically and intellectually for advanced studies in this dynamic and ever-changing discipline.

Why Trent?

- Choose to specialize in Health Sciences
- Benefit from a hands-on approach to learning through laboratory work and small group learning with expert scholars
- Design and execute your own experiments and research, or take advantage of opportunities to assist with faculty research

Career Paths

Doctor / Biopharmaceutical Technologist / Genetic Technologist / Intellectual Property Lawyer / Molecular Imaging Specialist / Neuroscientist / Pharmacologist / Science Centre Curator / Teacher

Popular Courses

Biochemical Concepts; Cell Biology; Microbiology; Metabolism; Bioinorganic Chemistry; Immunology

trentu.ca/chemistry

trentu.ca/biology

Biology (B.Sc.)

The study of biology probes the entire diversity of life, from molecules to global ecosystems. Biology is central to understanding the most pressing of today's concerns, from managing the spread of infectious diseases to feeding a planet of seven billion people. Through lectures, labs and fieldwork on Trent's ecologically diverse campus, you will learn the underlying theories and concepts of biology and apply them to real questions and challenges, gaining the knowledge to solve the problems we face every day.

Why Trent?

- Choose to specialize in Health Sciences or Conservation Biology
- Work alongside faculty in the department and collaborating scientists at the Ontario Ministry of Natural Resources
- Participate in the Ontario Universities Program in Field Biology, in which you may choose to engage in a varied selection of field courses held in Canada or around the world

Career Paths

Bioinformation Specialist / Bio-Medical Sales Representative / Conservation / Biologist / Doctor / Forensic Scientist / Toxicologist / Veterinarian / Zoologist

Popular Courses

Human Anatomy; Biology of Invertebrates; Evolution; Medical Entomology; Population Genetics; Pharmacology for Health Sciences; Herpetology; Field Courses

trentu.ca/biology

Chemical Physics (B.Sc.)

As a student of Chemical Physics, you will explore the physics and chemistry of molecular and atomic-scale systems and condensed matter, and the techniques required to develop an understanding of the fundamental principles of our physical and chemical world. You will gain the knowledge and skills to conduct quantitative research, preparing you for employment or graduate studies in fields such as science, technology and engineering.

Why Trent?

- Benefit from the delivery of a focused program offering personal interaction and mentoring from award-winning faculty
- Participate in exciting hands-on research with faculty as a student research assistant
- Develop your own research through a one- or two-semester project course

Career Paths

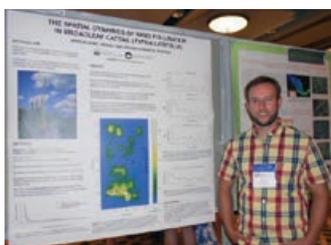

Climate Modeller / Biophysicist / Electron Microscopist / Electronics Developer / Nuclear Scientist / Materials Researcher / Patent Lawyer / Teacher

Popular Courses

Quantum Mechanics and Reaction Kinetics; Thermodynamics; Photochemistry; Electricity and Magnetism

trentu.ca/physics

trentu.ca/chemistry

Undergrad Makes Biological Discovery

As an undergraduate student working alongside Biology professor Dr. Marcel Dorken, Jordan Ahee discovered a new species of gall midge (a small fly) which may help control the spread of common reed, one of the worst invasive plants in Canada. His discovery was recently published in *The Canadian Entomologist*, the journal for the Entomological Society of Canada.

Chemistry (B.Sc.)

Research in chemistry explores and uncovers the properties of chemicals and their diverse chemistries in different environments. As a chemistry student, you will contribute directly to these discoveries and will gain experience in modern chemical research design and methods. Chemistry is the central science, and you will learn how this discipline contributes to, and is enhanced by, all other physical and life sciences.

Why Trent?

- Specialize in organic, inorganic, physical and analytical chemistry, or biochemistry, and take advantage of course options supported by the departments of Physics, Biology and Environmental and Resource Science/Studies
- Study in a program accredited by the Canadian Society for Chemistry, and benefit from opportunities to assist faculty in research or develop independent research projects
- Gain experience with special equipment for modern experimental and theoretical chemistry, including spectrophotometers, ion trap mass spectrometers, gas and high-performance liquid chromatography equipment

Career Paths

Anesthesiologist / Corrosion Analyst / Environmental Lawyer / Food and Drug Inspector / Industrial Hygienist / Pharmacist / Quality Control / Medical Doctor / Veterinarian

Popular Courses

Analytical Chemistry; Biochemical Concepts; Atmospheric Environmental Chemistry; Modern Organic Synthesis; Photochemistry

trentu.ca/chemistry

Computing & Information Systems (B.A. or B.Sc.)

Are you interested in becoming a part of the exciting and rapidly-growing information technology industry? Trent's Computing & Information Systems degrees will equip you with the necessary skills required for a successful career in the technology sector. Choose between three streams of study: Computing Systems, Information Systems and Computer Studies. For more in depth studies, the Computing Systems Stream offers three specializations: Computer Science, High Performance Computing, and Software Engineering.

Why Trent?

- Personalized experience with professors who are experts in their fields and who can provide a well-rounded view from the technical, business and cultural perspectives
- Progressive use of the latest science and digital technologies
- Take advantage of hands-on, real-world experience through our third-year internship course and fourth-year project course

Career Paths

Database Administrator / Software Developer / Information Systems Manager / Technical Support Specialist / Programmer / Network Specialist / Research Scientist / Software Engineer / Systems Analyst / Website Developer / Research Specialist / Computer Security / Technical Writer / Graduate Studies

Popular Courses

High Performance Computing; Web Application Development; Computer Crime & Forensics; Digital Culture; Computer Networks; Big Data; Human-Computer Interaction

trentu.ca/cois

Computing Systems & Physics (B.Sc.)

Computing Systems & Physics at Trent is ideal for people seeking careers in high-tech fields or graduate studies in physics or computer science. You will study hardware/software interfaces, electronics, software design, networks, distributed operating systems, and the underlying principles of physics and mathematics. You will gain an understanding of leading-edge technology combined with a foundation in physics that will help you answer questions about the particles and forces composing our universe, and the rich complexities that arise through their interactions.

Why Trent?

- Benefit from small-group lab work that will complement theoretical studies
- Gain experience through summer research opportunities or project courses
- Develop a strong foundation for further education through graduate studies in M.Sc./Ph.D

Career Paths

Database Administrator / Information Systems Specialist / Network Specialist / Robotics / Research Scientist / Software Developer / Software Engineer / Systems Analyst / Website Designer

Popular Courses

Computer Organization; Electricity and Magnetism; High Performance Computing; Introductory Quantum Physics; Modern Optics; Statistical and Thermal Physics

trentu.ca/cois

trentu.ca/physics

Ecological Restoration (B.Sc.)

Called the "ecology of hope", Ecological Restoration offers a positive response to environmental degradation. The study of Ecological Restoration takes a big picture approach, meaning you will learn ecological principles you can apply to any ecosystem or project. You will gain the practical and theoretical knowledge needed to help restore deteriorated environments while studying in this unique and exciting program that combines the strengths of Trent University and Fleming College. Applications are made to Fleming College through The Ontario College Application Service (OCAS).

Why Trent?

- Experience the best of university and college by connecting theory and principles with hands-on practical application of your studies
- Integrate knowledge from a broad range of disciplines, including ecology, aquatic biology, hydrology, botany and social science
- Gain experience through field camps, field courses and community-based research projects

Career Paths

Landscape Restoration Technician / Shoreline Naturalization Technician / Watershed Planning Technician / Wetland Habitat Technician

Popular Courses

Restoration Ecology; Environmental Ethics; Ecological Design; Environmental Law and Regulation; Ecology and the Management of Wetland Systems

trentu.ca/ecologicalrestoration

Environmental Chemistry (B.Sc.)

Discover the environment at the molecular level and how it influences life at the global level. Your studies in Environmental Chemistry will address contemporary issues in modelling the behavior and fate of molecules in the environment. In this program you will explore the sources and cycles of chemicals, their interactions with organisms and responses to contaminants in the local and global world.

Why Trent?

- Work with advanced instrumentation and learn modern analytical techniques in state-of-the-art laboratory facilities
- Learn to approach environmental problems from a multi-disciplinary perspective
- Gain real-life research experience working with professors and research groups

Career Paths

Analytical Laboratory Technician / Environmental Auditor / Environmental Health Inspector / Research Scientist / Hydrogeologist / Pollution Control Engineer / Environmental Modeller

Popular Courses

Atmospheric Environmental Chemistry; Aquatic Environmental Chemistry; Ocean and River Chemistry; Chromatography; Environmental Air Pollution; Environmental Toxicology

trentu.ca/chemistry
trentu.ca/ers

Bachelor of Environmental Science/Studies (B.E.S.S.)

Policy and planning for an environmentally sustainable future requires interdisciplinary awareness and approaches. Your studies will address contemporary environmental challenges, policy and politics from multiple perspectives. You will develop an understanding of the legal and management procedures for solving natural resource and environmental problems, and learn how to combine scientific and social knowledge effectively. Students take an equal number of courses in environmental science and environmental studies.

Why Trent?

- Learn how to integrate science and policy in understanding and solving environmental problems
- Develop skills in state-of-the-art labs and facilities, and the extensive living laboratory provided by Trent's natural setting
- Spend a year studying abroad and take advantage of research placements

Career Paths

Ecologist / Environment Protection Officer / Environmental Educator / Environmental Engineer / Environmental Risk Assessor / Policy Advisor / Urban and Regional Planner

Popular Courses

Environmental Science and Politics; Energy, Science and Technology; Critical Environmental Thinking; Urban Environments; Environmental Ethics; Sustainable Innovation

trentu.ca/ers

Environmental & Resource Science/Studies (B.A. or B.Sc.)

Scientific knowledge is essential to understanding our environment and to creating a sustainable future. So too is an awareness of the political and managerial dimensions of natural resource and environmental problems, international trends and agreements, and the options available to local communities. At Trent, you can choose to complete a B.A. or B.Sc. in the exciting field of Environmental and Resources Science/Studies.

Why Trent?

- Study in the first environmental science program to be accredited by Environmental Careers Organization (ECO) Canada
- Design your own program according to your interests, choosing from one of the broadest ranges of environmental studies courses available in any Canadian university
- Study in the field and in the laboratory with internationally recognized environmental scientists, or spend a year studying abroad in international research placements

Career Paths

Ecologist / Eco-Tourism Professional / Energy Consultant / Environmental Activist / Environmental Educator / Environmental Impact Assessment Specialist / Fisheries Biologist / Natural Resources Manager / Policy Advisor

Popular Courses

Environmental Science and Politics; Environmental Impact Assessment; Pollution Ecology; Environment and Development; Climatic Change

trentu.ca/ers

B.E.S.S. Presents Endless Opportunities

"I have found myself in many amazing places and surprising situations through my studies at Trent. I have cruised the Kawartha Lakes, paddled Lake Temagami, and slept in a beach hut in Mexico. I have shared coffee with an Ojibway Elder, a pint with a well-known Canadian author, and cocktails with a member of a UN working group. You never know what will happen next at Trent."

Catherine Monaghan, recent graduate of the B.E.S.S. program, the first university program to be officially accredited by the Environmental Careers Organization (ECO) Canada.

Bachelor of Science in Forensic Science (B.Sc.F.S.)

Forensics is the investigative science behind the law. This program combines theory and practice to give you the confidence and skills to excel in this fascinating field. Award-winning faculty and leading professionals bring Trent students an extensive working knowledge of a diverse range of topics, along with current developments in the field. Gain hard skills and real-world experience to prepare for a professional career.

Why Trent?

- Access Canada's Research Chair in DNA Profiling, Forensics and Functional Genomics, and benefit from Trent's partnership with the Ontario Ministry of Natural Resources
- Work directly with scientists in the lab and professionals in the field
- Hone your investigative skills in blood spatter analysis, finger printing, and evidence recovery in mock crime scenes at Trent's Crime Scene House

Career Paths

Crime Scene Technician / Criminalist / DNA Analyst / Forensic Pathologist / Medical Research Scientist / Pharmaceutical Marketing / Document Analyst / Police Officer / Research Scientist / Social Worker / Wildlife Forensic Scientist

Popular Courses

Crime Scene Investigation; Trends in Forensic Science; Biocrime and Bioterrorism; Computer Crime and Forensics; Presentation of Forensic Evidence; Species-at-Risk Biology and Policy

trentu.ca/forensicscience

Forensics and Arts (Joint-Major B.A.), Forensics and Science (Joint-Major B.Sc.)

The joint major (B.A. or B.Sc.) allows students to combine forensic science with any other academic interest as a joint major.

Why Trent?

- Study in the only university in Canada to offer a wide range of joint majors in Forensic Science
- Create a unique educational focus based on your interests with an interdisciplinary knowledge base
- Gain access to outstanding faculty and cutting edge labs, and benefit from the opportunity to get involved in community-based or self-directed research, or summer employment opportunities

trentu.ca/forensicscience

Geography (B.A. or B.Sc.)

Geography at Trent exposes you to hands-on experience with real-world issues and critical perspectives related to both human and physical geography. Explore complex issues such as the causes and impacts of climate change, health geography, water resources, and the historical roots of geopolitical conflicts. At Trent, we believe the best way to learn geography is through an interactive environment. Small group learning and experiences outside of the classroom are pillars of the program.

Why Trent?

- Experiment with state-of-the-art equipment like the Wind Tunnel Lab, and the Soil/Water Interaction and Transport Chamber
- Benefit from a variety of experienced-based options, such as methods courses, fieldwork, community-based projects, and opportunities to assist with faculty research
- Obtain a focus in Geomatics, including spatial information systems and remote sensing

Career Paths

Urban Planner / Educator / Environmental Health Specialist / Environmental Policy Analyst / Community Development Officer / GIS Applications Specialist / Population Growth and Migration Specialist / Land Use Planner / Water Resources Manager / Geoscience Consultant

Popular Courses

The Global Climate System; Geography of Health and Healthcare; Geography of the Polar Regions; Community-Based Research in Geography; Urban Environments; Soil Science; Wilderness Resources

trentu.ca/geography

Kinesiology (B.HSc.)

NEW

Kinesiology is the scientific study of human movement with a focus on prevention of injury and chronic disease. A degree in Kinesiology will prepare you with the knowledge and skills to become a kinesiology practitioner, able to prescribe individualized exercise programs to improve or maintain the health, functional capacity and well-being of a range of healthy and clinical populations. As a student in this major, you will have the opportunity to apply for internship opportunities in your fourth year of studies. Trent University is collaborating with the University of Ontario Institute of Technology (UOIT) to deliver this comprehensive program, in which the first two years are completed at Trent's Peterborough campus, and years three and four at UOIT in Oshawa. Kinesiology is now a regulated health profession in Ontario and this degree provides you with the skills and knowledge you will need to function as a health professional and write the competency exam to become a registered Kinesiologist.

trentu.ca/kinesiology

Mathematics (B.Sc.)

Mathematics is the exploration of abstract mental universes and the application of pure reason. More than simply the study of numbers, you will learn about the fundamental structure of the universe and the limits of human reason. Develop a new way of looking at the world around you by learning about the systems and structures that underpin all of nature.

Why Trent?

- Explore your interests in both pure and applied mathematics, and choose from a variety of streams in Mathematics and related disciplines, including a specialization in Mathematical Finance or Statistics
- Learn in small groups working alongside faculty dedicated to challenging and strengthening your skills
- Participate in summer research opportunities or get involved with the Math Society of Trent (MASCOT)

Career Paths

Economist / Rate Analyst / Financial Auditor / Account Executive Economic Advisor / Econometrician / Financial Analyst / Banker / Investor / Insurance Analyst / NGO / United Nations Departments (e.g. UNDP, WHO) / World Bank / International Monetary Fund

Popular Courses

Calculus; Linear Algebra; Mathematical Reasoning; Number Theory; Voting, Bargaining and Social Choice; Mathematical Risk Management; Chaos, Symbolic Dynamics, Fractals

trentu.ca/math

Mathematical Computer Science (B.Sc.)

Designing communication networks, encrypting data for internet transmission, or engineering revolutionary new software would not be possible without a solid understanding of mathematical computer science. Your studies will prepare you for the workplace or for graduate work in theoretical computer science, cryptography or applied discrete mathematics.

Why Trent?

- Take advantage of opportunities to participate in faculty research, or explore your own research interests fully supported academically by faculty
- Develop a solid foundation for further education through graduate studies in M.Sc./Ph.D.
- Benefit from small-group lab work that will complement theoretical studies

Career Paths

Computer Game Design / Computer Graphics / Cryptanalyst / Cryptographer for Government (e.g. Intelligence Agencies) or Private Sector (e.g. Computer Security Consultant) / Network Communications / Research Scientist / Software Designer / Virtual Reality

Popular Courses

Mathematical Logic; Discrete Structures; Mathematical Cryptography; Linear Programming; Computability; Comparative Programming Languages

trentu.ca/math

Mathematical Economics (B.Sc.)

The study of Mathematical Economics helps us understand complex and ever-changing economic dilemmas by examining the production and dissemination of scarce resources. Combining core courses in economics with mathematics, you will learn how to analyze games of strategy, bargaining and auctions (game theory), how to make sense of complex economic data (econometrics), how to maximize profit and minimize costs (optimization) and how to maximize happiness (welfare economics).

Why Trent?

- Challenge yourself with complex material delivered in small-group learning environments, offering support for your personal educational goals
- Gain knowledge and skills ideal for graduate studies in Economics or for a career in government, banking, or industry
- Get involved in summer research opportunities working alongside faculty dedicated to challenging and strengthening your skills

Career Paths

Economist / Rate Analyst / Financial Auditor / Account Executive Economic Advisor / Econometrician / Financial Analyst / Banker / Investor / Insurance Analyst / NGO / United Nations Departments (e.g. UNDP, WHO) / World Bank / International Monetary Fund

Popular Courses

Statistics for Economics and Management; Mathematical Economics and Economics Models; Statistical Inference; Econometrics; Linear Programming

trentu.ca/economics

Mathematical Physics (B.Sc.)

An understanding of Mathematical Physics is essential to understanding many topics, from celestial mechanics to the issue of global climate change. Physics is the most fundamental of the natural sciences, and mathematics is the language of physics. This program develops, in parallel, experience with the central theoretical frameworks of physics and facility with the mathematical methods that form the foundation and tools of physics.

Why Trent?

- Choose from courses focused on astrophysics, condensed matter physics, relativity and differential geometry
- Gain knowledge and skills ideal for graduate studies in theoretical physics
- Challenge yourself with complex material delivered to you in supportive, small-group settings

Career Paths

Aerodynamics Specialist / Research and Development / Astrophysicist / Cosmologist / Professor / Subatomic Physicist / Superconductivity Researcher / Financial Analyst / Secondary School Teacher

Popular Courses

Ordinary Differential Equations; Classical Mechanics; Methods of Applied Mathematics; Computational Physics; Quantum Mechanics; Condensed Matter Physics

trentu.ca/math
trentu.ca/physics

Physics (B.Sc.)

Discoveries in physics and astronomy continue to broaden our understanding of the universe and advance space exploration, speed up communications, assist medical and environmental fields, and lead to new innovations such as functional magnetic resonance imaging (fMRI), and high-density computer memory. You will learn to bring abstract yet powerful concepts to life, ask important questions about the most basic particles and forces in nature, and apply what you learn to complex systems such as novel quantum materials and celestial bodies.

Why Trent?

- Learn through innovative and interactive teaching methods, studying in a constantly evolving environment with new techniques that faculty develop and incorporate into curriculum
- Get involved in the leading-edge research of award-winning faculty, or explore your own research interests through independent research projects
- Spend a year studying abroad

Career Paths

Astronomer / Climate Modeller / Electronics Developer / Meteorologist / Nuclear Reactor Operator / Patent Lawyer / Planetary Geologist / Physicist / Teacher

Popular Courses

Astrobiology: Life in the Universe; Thermal Physics; Modern Optics; Nuclear and Particle Physics; Condensed Matter Physics; Astrophysics: Galaxies and Cosmology

trentu.ca/physics

Psychology (B.A. or B.Sc.)

Psychology is defined as the scientific study of behaviour and the mind. You will study the principles governing behaviour through lectures, labs, seminars and research. Opportunities for participation in on-going faculty research include areas such as sleep, dreams, sexuality, anxiety, emotional intelligence, health, learned resourcefulness, language impairment, attachment, development, perception and memory. You will acquire both research skills and a broadly-based background in the basic content of the discipline, combined with the opportunity at upper levels to focus on more specialized topics.

Why Trent?

- Connect with renowned faculty in many areas of specialization and get involved in their research
- Develop your problem solving, inter-personal relations and critical thinking while learning to understand, interpret and evaluate research
- Undertake an undergraduate independent research thesis or research practicum supervised by award-winning faculty

Career Paths

Advertising / Therapist / Counsellor / Crisis Intervention Officer / Human Resources / Marketing / Police Officer / Rehabilitation Advisor / Social Worker / Sports Psychologist / Technology and Design

Popular Courses

Personality Theory; Cognitive Psychology; Child Development; Physiological Psychology; Dreams and Dreaming; Abnormal Psychology; Health Psychology

trentu.ca/psychology

Sustainable Agriculture & Food Systems (B.A. or B.Sc.)

Food is necessary for human life and central to our civilization. Agriculture presents environmental, economic and social challenges, but also promises new ways of producing healthy, sustainable and affordable food. You will develop an interdisciplinary approach to understanding contemporary issues in organic food, food safety, fair trade and many other aspects of food and agriculture from scientific, political and social perspectives.

Why Trent?

- Take advantage of Trent's extensive agricultural campus and rooftop gardens
- Participate in experiential learning opportunities through faculty or community research projects, the student-run organic café (The Seasoned Spoon), or in one of many environmental clubs or groups
- Obtain a specialization in Applied Agriculture, through Fleming College's Sustainable Agriculture Program

Career Paths

Agro-Tourism Operator / Community Food Activist / Food Policy Analyst / Land Use Consultant / Organic Farmer

Popular Courses

Environmental Implications of Agriculture; The World Food System; Ecological Agriculture; Soil Science; Culture and Food; Nutritional Anthropology

trentu.ca/agriculture

Water Sciences (B.Sc.)*

NEW

Freshwater systems provide many essential ecosystem services, such as clean water, food, energy, recreation, climate regulation and waste assimilation. As human populations and economies grow, demand for these ecosystem services will continue to increase. The new B.Sc. in Water Sciences at Trent addresses contemporary water and aquatic challenges from multiple perspectives, and respond to the demand for professionals who can integrate science and policy in understanding and solving water and aquatic issues and pressures. Choose to focus your interests and specialize in Aquatic Biology or Watershed Science.

trentu.ca/watersciences

* Pending Ministry approval

Getting Your Hands Dirty in Trent's Experimental Farm

Students have the opportunity to literally get their hands dirty working with Canada Research Chair in Sustainable Agriculture Dr. Mehdi Sharifi out in Trent's new Experimental Farm. In the Soil Sciences course, students research how to improve soil quality without use of synthetic fertilizers and work with local farmers on organic farming practices.

MINIMUM ADMISSION REQUIREMENTS FOR ALL PROGRAMS

Ontario secondary school students are required to have the following for admission to all programs:

- Ontario Secondary School Diploma with a minimum of six grade 12 4U or 4M courses
- A minimum 70% overall final average calculated using the top six grade 12 4U or 4M courses unless otherwise specified in the chart below
- ENG4U with a minimum grade of 60%

For programs with additional requirements see the following charts

Academic Programs	ADDITIONAL REQUIREMENTS	RECOMMENDED COURSES
Ancient Greek & Roman Studies (B.A.)		
Anthropology (B.A. or B.Sc.)		A 4U Math for B.Sc.
Archaeology (B.A. or B.Sc.)		A 4U Math for B.Sc.
Arts and Science (B.A.S.)	75% overall average	A 4U Math
Arts Undeclared (B.A.)		
Biochemistry & Molecular Biology (B.Sc.)	SBI4U, SCH4U and MHF4U or MCV4U	
Biology (B.Sc.)	SBI4U and SCH4U	A 4U Math
Business Administration (B.B.A.)		MHF4U or MCV4U
Business and Arts (B.A.)		MHF4U or MCV4U
Business and Science (B.Sc.)		MHF4U or MCV4U
Canadian Studies (B.A.)		
Chemical Physics (B.Sc.)	SCH4U and MHF4U or MCV4U	SPH4U
Chemistry (B.Sc.)	SCH4U and MHF4U or MCV4U	
Computing & Information Systems (B.A. or B.Sc.)		A 4U Math for B.Sc.
Computing Systems & Physics (B.Sc.)	MHF4U or MCV4U	
Cultural Studies (B.A.)		
Ecological Restoration (Joint Trent-Fleming Program) (B.Sc.)	Apply at www.ocas.ca	
Economics (B.A. or B.Sc.)		A 4U Math for B.Sc.
English Literature (B.A.)		
Environmental Chemistry (B.Sc.)		A 4U Math
Environmental & Resource Science (B.Sc.)		SBI4U, SCH4U and a 4U Math
Environmental & Resource Studies (B.A.)		
Environmental Science/Studies (B.E.S.S.)	75% overall average	SBI4U, SCH4U and a 4U Math
Forensics and Arts (B.A.)		
Forensics and Science (B.Sc.)		A 4U Math
Forensic Science (B.Sc.F.S.)	75% overall average. SBI4U, SCH4U, and MHF4U or MCV4U are required. Admission average is calculated on required courses, including ENG4U, plus two next best 4U/M courses.	SPH4U

Secondary School Course Codes:

ENG4U English

MDM4U Mathematics of Data Management

MCV4U Calculus and Vectors

MHF4U Advanced Functions
SBI4U Biology

SCH4U Chemistry

SPH4U Physics

HOW TO APPLY

- 1 Check the admission requirements for your program choices.
- 2 Apply online through OUAC (Ontario Universities' Application Centre). Visit ouac.on.ca
- 3 Select your application type: OUAC 101 or OUAC 105, then follow the steps provided.
- 4 Trent University requires transcripts from all institutions you have attended.

You can find your next steps at trentu.ca/applying

Academic Programs continued	ADDITIONAL REQUIREMENTS	RECOMMENDED COURSES
French Studies (Modern Languages) (B.A.)		
Gender & Women's Studies (B.A.)		
Geography (B.A. or B.Sc.)		A 4U Math for B.Sc.
History (B.A.)		
Indigenous Environmental Studies (B.A. or B.Sc.)		A 4U Math for B.Sc.
Indigenous Studies (B.A.)		
International Development Studies (B.A.)		
International Political Economy (B.A.)		
Journalism (Joint Trent-Loyalist program) (B.A.)

A minimum 70% overall final average, calculated on grade 12 courses, is required. Grade 12 English at a minimum grade of 60% is required. Further program specific requirements can be found on page 44.

Admissions Outside of Canada

International Baccalaureate (IB)

Minimum overall score of 28 in International Baccalaureate Diploma (IB), including three courses at the higher level. Transfer credits may be offered for IB higher level courses with a minimum grade of 5.

General Certificate of Education (GCE)

Minimum 'C' grade in five O-level (or IGCSE) subjects and two A-level (A2) subjects, or minimum 'C' grade in four O-level (or IGCSE) subjects and three A-level (A2) subjects. Two AS subjects may be substituted for one A2 subject. English proficiency test waived with C in O-level English. Transfer credits may be offered for A2 courses with 'C' or better.

United States Secondary School

Minimum 'B' average (3.0 GPA on a 4.0 scale) in a recognized academic grade 12 program with a minimum of 70% in grade 12 English and at least four different senior level academic subjects. Recommended combined SAT score of 1,650 or composite ACT score of 24. Transfer credit may be offered for AP courses with grade of 4 or better.

Other International Secondary Schools

For country-specific requirements, program prerequisites, or equivalencies to Ontario curriculum, contact tip@trentu.ca or visit

English Proficiency

The following test results are accepted as proof of English proficiency. Scores must be original, official results sent directly from test centre.

Language Test Minimum Score

TOEFL (institutional code 0896) 86 IBT
580 PBT with minimum TWE score of 4.5
IELTS 6.5, with no band lower than 6.0
CAEL 60
CPE C
MELAB 85 with no part below 80

Conditional Admission through Trent ESL

Trent-ESL offers intensive English language and academic skills preparation and allows gradual admission to degree studies for students who do not meet our English proficiency requirements or who feel they will benefit from additional language support.

College and University Transfer Students

Transfer from University

Applicants transferring to Trent University from an accredited Canadian university must have successfully completed a minimum of one semester, with a final average of 65% to be considered for admission. Individual courses with a minimum grade of 60% will be evaluated for transfer credit.

Transfer from College

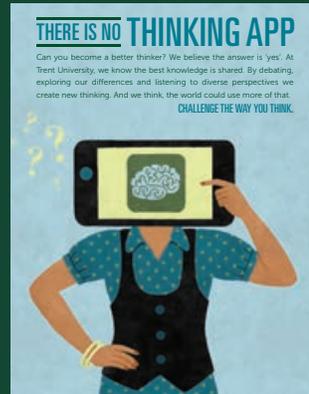

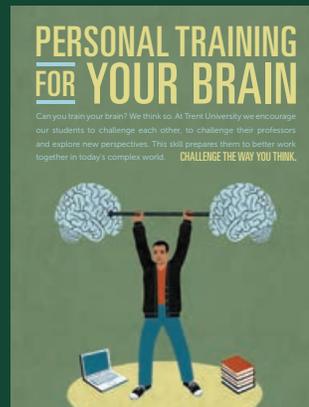

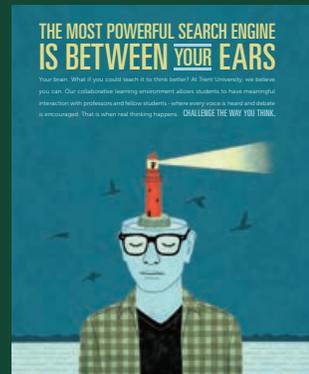

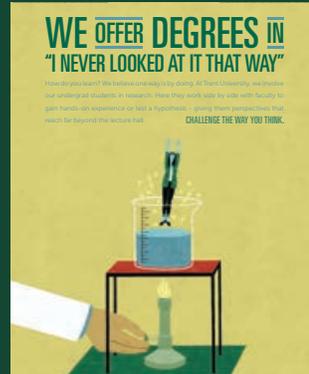

Applicants who have completed at least one year (two semesters) in a Canadian community college, with a minimum cumulative average of 65% will be considered for general admission. Students who have completed less than two full semesters will be assessed on a case-by-case basis. Each course with a minimum grade of 70% will be evaluated for individual transfer credit.

ILLUSTRATING THE TRENT DIFFERENCE

WE LIKE IT WHEN OUR PROFS AND STUDENTS DON'T SEE EYE TO EYE

Is that a bad thing? We think it's a good thing. At Trent University, we encourage discussion and debate - to challenge the status quo. We promote an environment that is inclusive, where students are directly engaged in their own learning and where a strong sense of belonging gives them the confidence to flourish. **CHALLENGE THE WAY YOU THINK.**

The illustrations you've seen throughout Trent's 2015 viewbook are part of our

new way of expressing what is special and valuable about the Trent experience. Trent's collaborative learning model is distinctly focused on creating a personal, purposeful and transformative learning environment for you, the individual student. This makes our University different and unique, so we thought we would illustrate that for you – literally. You'll see these drawings in Trent ads – and especially when you visit our campuses, which we encourage you to do very soon.

Read about the people who will challenge the way you think at Trent: trentu.ca/challenge
