Trent’s annual Graduate & Professional Schools Expo provides students and new graduates with an opportunity to explore opportunities for further education. Plan to connect with recruiters from business and law schools, education programs, graduate studies programs, professional schools and colleges to learn about their educational opportunities and improve your chances of getting into the program of your choice.

Be sure to stop by the Career Centre table, Graduate Studies table, and Alumni Affairs "Life after Trent" table to ask general questions about applying to graduate, college, or professional schools, as well as, directly connect with alumni who have attended graduate school and learn from their experience.

**Trent University Career Centre**
Stop by the Career Centre table to speak with Trent University Career Counselor, Mary Goldsmith, and ask your general questions on how to apply to Graduate, College, or Professional schools. These questions may include important deadlines, how to write the Graduate school personal statement, skills identification for Graduate students, and more.

**Trent University Graduate Studies Department**
Stop by the Graduate Studies table and connect with Jane Rennie, Graduate Finance Officer, to ask questions about funding options and scholarship opportunities for your further education.

**Trent University Alumni Affairs "Life After Trent" series**
Stop by the Life After Trent table to talk to Trent alumni that have applied to and are attending Grad School either at Trent or at another University. Alumni are happy to share their experiences and offer tips and advice in navigating the Grad School process. Life After Trent provides forums for students to meet alumni, hear their experiences after graduating from Trent, make new contacts and receive guidance in professional development. Programs include the Networking Sessions, Mentoring Program, Alumni-in-Residence and Alumni Guest Speakers.

Check out the full exhibitor list on the pages below!!
Across The Pond is the official Canadian partner of 40+ UK universities, all of which offer internationally recognized degrees in the greatest variety of programs at the highest academic level. This empowers students through great choice: they can choose from a wealth of UK degree programs, institutions, and locations. By offering free personal guidance and support every step of the way, our personal Canadian study advisor help students get an in-depth understanding of the British educational system, and a much better knowledge of how studying in the UK will help their careers.

American University of the Caribbean, School of Medicine

American University of the Caribbean School of Medicine (AUC), founded in 1978, is one of the oldest Caribbean medical schools. AUC offers a diversity of students a high-quality medical education. Our graduates are practicing medicine in some of the most prestigious hospitals in the country and many are chief residents at their hospitals, entrusted with overseeing fellow physicians and responsible for entire divisions of patient care.

At AUC, we believe that the complex healthcare landscape of tomorrow will require a different type of doctor – one capable of working as part of a cohesive team to deliver empathetic, extraordinary care to patients. AUC’s central tenet is that we can accomplish more together than we ever could on our own. And for more than 5,000 AUC graduates practicing around the world, that tenet has worked.

Brock University, Faculty of Graduate Studies

The Faculty of Graduate Studies at Brock University gives you the opportunity to work one-on-one with award-winning researchers and faculty members. Our first-class research environment offers graduate students access to state-of-the-art lab space with multi-million-dollar equipment.
We offer masters and doctoral programs from all six of our academic faculties. We currently have 49 programs that cross all disciplines and include many options such as co-op, full-time or part-time studies, research-based and course-based programs.

Additionally, we offer our students (enrolled in full-time research-based programs) competitive funding packages so they can focus on their research while living in the beautiful and affordable Niagara region.

**Canada Law from Abroad**

**CANADA LAW FROM ABROAD**

CLFA provides an international education bridge for Canadians to attend top tier UK law schools. Canadian accreditation of UK law degrees is an easily attainable routine process. High school graduates and university/college students can enrol in three year LLB degree programs, while University graduates qualify for two-year ?accelerated? LLB degree programs. Follow your LLB with a 12-month LLM to boost your employability. Students with relevant degrees are also eligible for one-year graduate level LLM degree programs and become legal specialists for multi-disciplinary careers in governments, NGOs and consultancies. To learn more, visit our website! [http://canadalawfromabroad.com/](http://canadalawfromabroad.com/)

**Canadian College of Naturopathic Medicine**

The Canadian College of Naturopathic Medicine (CCNM) is Canada's premier institute for education and research in naturopathic medicine. CCNM offers a rigorous four-year, full-time naturopathic medicine program. CCNM is also home to the Robert Schad Naturopathic Clinic, a dynamic naturopathic teaching clinic where senior clinicians and ND supervisors conduct more than 27,000 patient visits per year.
The Canadian College of Naturopathic Medicine is accredited by the Council on Naturopathic Medical Education (CNME), the accrediting agency for naturopathic colleges and programs in Canada and the United States.

**Conestoga College**

Conestoga College Institute of Technology and Advanced Learning is one of Canada’s leaders in polytechnic education. We provide applied research solutions to meet real-world needs as well as a comprehensive range of programs that prepare our graduates for success in business, industry and the community.

Whether you are considering a career in Engineering & Technology, Business and Hospitality, Media and Design or Health & Life Sciences and Community Services, Conestoga has your career covered. Graduate certificate programs can be a great opportunity to top up your current diploma, enhance your university degree or give you that stepping stone into the career you’ve always wanted.

Students in the graduate certificate programs acquire hands on applicable experience with relevant project, business, and communication skills. The result is a graduate with a thorough knowledge and experience base.

Visit [http://www.conestogac.on.ca](http://www.conestogac.on.ca) for more information.

**Odyssey Language Assistant Program**

The Odyssey Language Assistant Program is a paid, professional work experience that involves travelling in Canada to work with students for nine months. Language assistants work in a Canadian school in a community where they share their language and culture, helping students develop their fluency in either English or French. Odyssey is an opportunity to dive deep into another language and culture while sharing your own; travel and explore Canada; earn an income and get bilingual professional experience. Candidates can come from any academic background. [www.myodyssey.ca](http://www.myodyssey.ca). Also - The Explore bursary Program for students: five-week French-immersion during spring or summer. [www.myexplore.ca](http://www.myexplore.ca).
Fleming College

Fleming College post-graduate programs incorporate Work Integrated Learning opportunities to help you make the transition to a career with a future. Students make valuable connections and often secure full-time employment from these experiential learning opportunities. Depending on your program, you’ll have many options to apply your learning to your chosen field, through a work placement, co-op, internship or applied project.

With these programs, you can build on your degree or diploma, to get the skills you need for the job you want. Post-graduate programs are intensive, and are usually offered over two to three semesters, to get you out into the workforce quickly. Our programs are based on industry input and advice, and are taught by experts in the field.

With your university or college credential or credits, you may also be eligible for advanced standing in one of our Fleming College Diploma programs. For detailed information on post-graduate programs and advanced standing opportunities, visit: flemingcollege.ca/postgrad

Grad Study Overseas

Grad Study Overseas places Canadian students for graduate, postgraduate, and professional and undergraduate programs in any areas of study at prestigious Universities in the UK, Ireland, Australia and New Zealand.

The personal consultants at our office will advise you of the program you wish to take, suggest you the best university and country that will offer it. They will take all the complications of your application process (while applying for a University overseas) in their hands and guide you through the entire application process, student visa process, booking flight and arranging accommodation, so it is a stress free process for the students.

JET Program Canada

The Japan Exchange and Teaching Programme seeks to enhance English language education, and promote international exchange at the local level through the fostering of ties between
Japanese youth and foreign youth alike. The Programme offers JET Programme participants the opportunity to serve in local, public and private elementary, junior and senior high schools in Japan as ALT's (Assistant Language Teachers) or CIR's (Coordinator for International Relations). The JET Programme began in 1987 and is now entering its 31st year.

**Positions Available**

ALTs are engaged in language instruction. ALTs are mainly assigned to local boards of education or elementary, junior high or senior high schools to carry out their duties as Assistant Language Teachers under the guidance of language teacher's consultant or Japanese Teachers of English.

CIRs are engaged in internationalisation activities. Coordinators for International Relations are placed in local government offices. CIRs must be fluent in the Japanese language (i.e. sufficient for daily work in a Japanese office - JLPT 2 or 1 level is recommended).

**Lakehead University**

The Faculty of Graduate Studies at Lakehead University is responsible for overseeing more than 30 graduate programs at the masters and doctoral levels. It functions like a big umbrella, spreading over the areas that affect your registration, your financial support, your thesis processing, and many others. We want your experience at Lakehead to be positive and rewarding.

**McMaster University, DeGroote School of Business**

DeGroote's Co-op MBA is the leading Co-op program in Canada. A 28 month program that includes 3 work terms, students can enter our program directly from their undergraduate program.
Niagara University

The College of Education at Niagara University is dedicated to preparing the highest quality teachers, educational leaders, school and mental health counselors, and school psychologists - professionals who will make a difference for children and their families. We make a commitment to serve those most in need. We engage learners in meaningful ways, using the knowledge and experience they bring as the core of instructional practice. We continuously examine and implement a wide range of research-based practices to support learners. We reflect upon our practices to assess progress and continuously improve programs.

Our dedicated and highly-experienced faculty leads the way in teaching, research and service in their respective professions. Our strong partnerships with the P-12 schools and community organizations transcend our work, providing many clinically-rich experiences for candidates.

Nipissing University

The mission of the School of Graduate Studies is to define and support excellence in graduate education at Nipissing University. To achieve this goal, the primary roles and functions of the School of Graduate Studies are to articulate a vision of excellence for the graduate community, to provide an inter-university perspective on graduate education, to enhance the intellectual and research community of scholars among graduate students and graduate faculty and to serve as an advocate for graduate education and graduate students within the institution.

- Master of Arts in History
- Master of Arts in Sociology
- Master of Education
- Master of Environmental Sciences/Studies
- Master of Science in Kinesiology
- Master of Science in Mathematics
- PhD in Education with a focus on Educational Sustainability

NSERC CREATE Enviro Program (EnLS)

The NSERC CREATE Enviro program provides funding for MSc and PhD students at Trent
University, Queen's University and the University of Toronto. The program focuses on providing students with advanced training in environmental technologies to solve environmental issues in the fields of geomatics, genomics, landscape ecology and environmental modeling. The training program involves specially-created graduate courses; a work placement with industry, NGO or government organization; professional workshops; and completion of a thesis. The goal of the program is to better prepare graduates for the job market upon graduation. Interested students should visit www.create-enviro.ca for more information about the program and faculty involved at all three institutions. Faculty should be contacted directly for current openings, with admission typically occurring in September or January. Please note that student trainees involved with the CREATE Enviro program at Trent will initially be enrolled in the Environmental and Life Sciences Graduate Program.

**Queen's University, School of Graduate Studies, Classics Department**

The Department of Classics at Queen’s University boasts a proud tradition of over 170 continuous years of instruction in Greek and Latin. Faculty members have expertise in Greek and Roman archaeology, history, ancient science, and language and literature so your research opportunities are vast and varied. Our graduate program will further enhance your passion for the ancient world and provide global opportunities for field experience at archaeological sites.

**Queen’s University, School of Policy Studies**

Queen's MPA is a one-year, multidisciplinary program for full-time students. The program has been preparing students at the entry and mid-career levels for leadership roles in public service and policy-making for more than thirty-five years. Graduates hold positions as ministers and senior officials in all three levels of government, as well as providing leadership in hospitals, community organizations and national associations across Canada.

The program’s emphasis is on public policy, and the broad social, economic and political context within which public organizations operate. The program aims to develop policy leaders. Policy leadership requires skills in policy analysis and the capacity to implement new solutions. Policy
and management are clearly interdependent. Without an understanding of the basic purposes that public organizations seek to achieve through policy, management is an empty process. Without the management skills to translate commitment into action, policy goals are empty promises.

**Queen's University, Smith School of Business**

Smith School of Business offers several direct entry master’s programs designed for recent graduates with both business and non-business backgrounds:

**Queen’s Master of International Business**
Queen’s MIB program is an incomparable learning experience for students with international business aspirations. It offers a global business curriculum and an international exchange; students can complete the Queen’s MIB on its own or pair it with a second master’s degree from one of our 10 double degree partners around the world.

**Queen’s Graduate Diploma in Business**
Designed for recent university graduates with a degree in a non-business discipline, the GDB is a four month comprehensive overview of business fundamentals beginning each year in May. Not only will the knowledge and skills acquired in this program prepare you for a broad range of careers, but credits earned can be applied in the future toward a Queen's MBA and Master's degree programs.

**Queen’s Graduate Diploma in Accounting**
Queen's Graduate Diploma in Accounting provides an excellent opportunity to deepen your understanding and significantly expand your knowledge of accounting, while preparing you for entry into the CPA Capstone Modules 1 and 2. With the Queen's GDA option, you will qualify to write the CFE in only 15 months, unlike the CPA Professional Education Program (PEP) option, which takes a total of 27 months.

**Queen's Master of Finance - Beijing**
Queen's Master of Finance in Beijing is offered at Renmin University's Hanqing Advanced Institute of Economics and Finance in Beijing, China. Classes are taught in English by outstanding faculty from both schools. The program enables you to earn a Queen's Master of Finance degree in one year, while you continue to work. Renmin University of China is one of
the most prestigious universities in China, and has produced many influential figures in China's reform and development. See more at: smith.queensu.ca/grad_studies/index.php

**Information Session following the Expo from 3:00 p.m. - 4:00 p.m. in Gzowski College Room 103, please register via the Student Experience Portal Events Calendar**

**Ross University**

Ross University is one of the largest and most successful Caribbean medical schools. Our medical school campus is in Dominica and we have clinical education sites in Miami, FL and Saginaw, Mi. The veterinary school campus is in St. Kitts, and is affiliated with more than 20 US veterinary schools.

**York University, Schulich School of Business**

Rated #1 in Canada by The Economist, Forbes & CNN Expansion, Schulich is Canada’s preeminent business school. Schulich’s 1-year masters programs are designed to give students the tools and skills they need to launch a meaningful career in accounting, finance, business analytics or management.

**The Michener Institute of Education at UHN**

Discover Michener – the only institution in Canada devoted exclusively to applied health sciences education, The Michener Institute is a leading academic partner for the healthcare system in Ontario and beyond.

Michener is a leading and unique school that provides a broad range of full-time, part-time and continuing education programs designed to meet the emerging and evolving applied health sciences needs within our healthcare system. Our curriculum is responsive to the workforce and our healthcare partners. Our growing community of clinical and academic partners is a strength that we continue to harness and leverage so that our students get the best possible experiences in preparing them for their careers as healthcare professionals. Discover Michener and what we can offer you as a future healthcare professional.
Toronto Institute of Pharmaceutical Technology

The Pharmaceutical and life science industry is an important cornerstone of a modern health care system. With the global aging population and desires for better quality of life, the increased demand for access to 21st century modern therapies and treatments have positioned the industry as an indispensable facet of the modern society. Since 1992, the Toronto Institute of Pharmaceutical Technology (TIPT) has provided technical skills development programs for university and college graduates, as well as continuing education and retraining for pharmaceutical and allied industry employees. What makes TIPT a one of a kind in North America is its ability to prepare students with hands-on training in a true, functioning, corporate pharmaceutical GMP manufacturing environment complemented with a state-of-the-art research and analytical laboratory. Complemented with professional job placement assistance, TIPT’s environment ensures graduates enter the pharmaceutical job market with experience and technical competence that sets them apart and puts them in demand. TIPT offers post graduate programs in: Research & Development (1 year); Quality Assurance & Quality Control (46 weeks); and Regulatory Affairs (28 weeks). Please visit our web site at www.tipt.com.

Tyndale University College & Seminary

Our 16 month B.Ed. degree program (August – November) allows Teacher Candidates to focus on one of the following divisions: the Primary/Junior (K-6), or the Junior/Intermediate (4-10) division. Tyndale Teacher Candidates have over 100 days in schools in three different classroom settings. All curricular areas will be covered, including studies in literacy and numeracy, and specific courses in educational technology that will incorporate assistive technology. Teacher candidates are part of a small, collaborative, and diverse community. They will develop strong teamwork skills, participate in special events, and make life-long friends, as they are inspired and challenged on our beautiful new campus.

University of Ontario Institute of Technology
UOIT's innovative and unique undergraduate and graduate programs are designed to meet your interests and career aspirations, along with the market-driven requirements of employers. When you graduate, you will have the critical thinking, innovative research and technological skills demanded by the world's leading employers.

Professors and students undertake research in a wide range of areas that include automotive design and engineering, business and information technology, computational science, alternative and sustainable energy, nuclear engineering, law enforcement, manufacturing, community/public health, to name just a few. UOIT's unique and technology-rich teaching and learning environment challenges students to push the boundaries of innovation and discovery and prepares graduates to excel in the global, knowledge-driven economy of the 21st century. At UOIT, the possibilities are endless.

University of Toronto, Factor-Inwentash Faculty of Social Work

The Factor-Inwentash Faculty of Social Work (FIFSW) at the University of Toronto is where we educate the social work leaders of tomorrow. Our Faculty is dedicated to transforming lives, communities and the world. Renowned internationally for excellence in education, scholarship and research, we are champions for the most vulnerable in society. Graduates of the FIFSW are equipped with the knowledge, skills and dedication to make a critical contribution, on a local and global scale, to the future of human well-being.

We are Canada’s first school of social work, having celebrated our 100th anniversary in 2014. The Faculty’s integration of research and practice contributes to our reputation as an innovator in social work research, teaching, and practice. The research we are doing is highly relevant and accessible. Our studies are generating new knowledge, informing social work practice and influencing government policy at both the federal and provincial level.

Our goal is to provide students with the knowledge and skills to work effectively with others in our complex and ever-changing world. As social workers we are responsible for building a knowledge base of effective policies and practices that is driven by research emanating from real-world questions and concerns. We believe that our work with communities, organizations, families and individuals must be based on the best available knowledge in order to ensure that our interventions are successful. Thriving on long-standing partnerships with a wide community of agencies and services, we now have important partnerships with over 400 community agencies. In fact, we collaborate in our research with many of these organizations and social service agencies on relevant and vital issues.

Today, the FIFSW is a dynamic and engaged community, in a strong position to explore
society’s increasingly complex global challenges. We continue to embrace a leadership role in social work education, research, and practice. As we strive to move the Faculty forward, we are building on the solid foundation of an exceptional community of students, researchers, teaching faculty, field instructors and alumni. The depth and breadth of their intellects and talents, along with the diversity of their experiences and backgrounds, promise an even brighter future.

We offer several program options for prospective students:

- **MSW Program with Advanced Standing** (for applicants who have/will have a completed BSW degree);
- **Two-Year Full-Time MSW program** (for applicants who have/will have a completed Bachelor’s degree: BA/BSc/BCom/BBA);
- **Two-Year Full-Time MSW-Indigenous Trauma and Resiliency (ITR) Specialization** (BA/BSc/BCom/BA/BSW);
- **PhD Program** – for applicants who have/will have a completed MSW or equivalent

We encourage you to consider social work as a vibrant and rewarding profession. Details about each program, including admissions requirements and instructions, may be found on our website: [http://socialwork.utoronto.ca/](http://socialwork.utoronto.ca/)

**University of Toronto, Master of Management & Professional Accounting Program**

The MMPA program covers the core of the MBA curriculum plus those subjects that are vital for technical leadership in the accounting profession of the future, delivered in an integrated academic and co-op work experience. The MMPA is designed to be the most time-concentrated, Master’s level gateway to professional accounting and financial markets employment.

**University of Toronto, Faculty of Information**

Known as Canada’s Global Information School, the Faculty of Information’s iSchool is considered to be among the world’s leading information and knowledge management schools.
Adept at educating both professional practitioners and researchers, the iSchool offers exceptional programs year-round in various disciplines.

**University of Toronto, Ontario Institute for Studies in Education**

Located in Toronto, Ontario, the Ontario Institute for Studies in Education of the University of Toronto is recognized around the world as a leader in initial and continuing teacher education, graduate programs in education and education research. OISE is the largest and most research-intensive faculty of education in Canada, and one of the largest in North America. Guided by our commitment to equity and social justice, and mindful of our special responsibility to lead, we will enhance our impact as we continue to shape how the world thinks and goes about education.

We offer a wide range of academic and professional programs in areas such as teacher education, applied psychology/counseling, curriculum studies, adult education, higher education, social justice and more. With such a broad range of programs we are able to welcome applicants from a wide range of academic fields. To all our students we offer an intellectually rich and supportive community, guided by the highest standards of scholarship and a commitment to equity and social justice; together we examine major issues in education, human development and professional practice considering: what they are now and what they might be.

**University of Toronto, Master of Science in Sustainability Management Program**

The MScSM program provides the training for our graduates to act outside the traditional disciplinary black boxes; integrate knowledge from management, social, and natural sciences to address sustainability issues; and make leading contributions and lasting advances in sustainability management.
Trent University Graduate Studies

Trent is a small school with a large reputation for research and scholarship. With small class sizes, regular interaction with faculty, and an emphasis on research-intensive programming, Trent offers you a unique educational experience: it's where tradition meets innovation and community meets academic excellence. As a graduate student, you will be welcomed into a close-knit community that features regular one-on-one work with faculty and advisors, a collaborative, interdisciplinary approach to studies, and a rich cultural atmosphere in which to live and learn. Trent is a progressive university with a national and international reputation for innovation. Your instructors will be amongst the best minds in education and research today, and, as a graduate student, you’ll play a key part in their research excellence.

Trent University School of Education

Trent University’s School of Education & Professional Learning offers a Consecutive Bachelor of Education program leading to certification with the Ontario College of Teachers. Trent University offers both the Primary/Junior (JK - Grade 6) stream and the Intermediate/Senior (Grade 7-12) stream. Candidates in the Intermediate Senior stream must have two teachable subjects from the following: Biology, Chemistry, Computer Studies, Dramatic Arts, English, First Nations, Metis, and Inuit Studies, French as a Second Language, Geography, Health & Physical Education, History, Mathematics, Physics, and Visual Arts. Visit www.trentu.ca/BEd for more information.

Trent/Fleming School of Nursing

The Trent/Fleming School of Nursing offers an integrated, collaborative four-year program
leading to a Bachelor of Science in Nursing (B.Sc.N.) Degree. We also offer a compressed program for students with sufficient university credits to fast track through the program in less than three years and a post-bridge PN to B.Sc.N at George Brown College. Each program has a science base in anatomy, physiology, pharmacology, microbiology, pathophysiology and research methods. Theoretical courses provide the foundation for the study of concepts underlying the art and science of nursing. Opportunities for practical application of theoretical principles are offered throughout the program. The program exposes students to a variety of contexts within which nursing care is delivered in today's world. The curriculum is intended to move the student through an understanding of the self as client to the provision of care to others: namely, individuals, families, communities and other groups. Practicum opportunities stress a holistic approach to care delivery, recognizing that the nurse must assess the needs of the client and encourage, advocate for, and support the client's quality health care.

Various teaching methods are used in the program, including lectures, labs and seminars for theory courses and case studies and simulations for nursing courses. Students may choose to develop a specific focus within the program (e.g. aboriginal health issues, women's health issues, geriatric nursing) through careful selection of elective courses. Students should consult with one of the Program Coordinators for help in selecting courses to ensure that all prerequisites are met.

**York University**

Whether you love research, or are looking for that competitive edge to set you apart in your career quest, York University has options you want to explore. We offer you the opportunity to become leaders in your field, whether your interests lie in research, teaching or a combination. We'll provide you with the tools to tackle interdisciplinary intellectual challenges to produce cutting-edge scholarship. You can look forward to stimulating seminar classes, one-on-one advising and working with faculty who are distinguished in their fields.
