

Trent School of the Environment (TSE) Undergraduate Research Internship Application Form

TSE undergraduate research internships (URI) are intended to support undergraduate students' participation in a full-time paid research project under the supervision of a TSE faculty member for a period up to 14 weeks in summer. Research projects leading to an honours thesis or other 4th year project are desirable. URI applicants must be majoring in a TSE degree, entering the fourth year of their Program and have a cumulative average of 80% or greater.

Complete the application form below, gather together the required attachments (described at the end of this document), and email your application plus attachments to Mary O'Grady (TSE office), maryogrady@trentu.ca. Students must consult with a potential faculty supervisor while completing the application.

Student Information

Name:

Email:

Number:

Degree Major(s):

Date of Application (mm/dd/yyyy):

Faculty Supervisor:

Proposed Period of the Internship (weeks):

Project Title:

Work Place Location:

Project Description

Include the nature of the research and duties while working; outline the expected output(s), e.g., thesis, reports, etc.; and outline the potential benefits to the environment.

Please send this completed form with the following documents via email to Mary O'Grady at maryogrady@trentu.ca.

1. Unofficial transcript, and
2. Letter of support from the faculty supervisor with an expression of commitment for funding.
