DISCOVER YOUR PASSION, UNLEASH YOUR POTENTIAL

The Trent experience is life-changing, career-boosting, and transformational on every level. Our students tell us it’s all about our supportive, inclusive communities that give them a real voice in shaping their own learning. Our profs say it’s interactive learning at its best – a place where students and faculty engage with and learn from each other. In their own words, here’s what some of our students and profs say they love most about Trent.

“IT’S FOUND MY PASSION AT TRENT UNIVERSITY.

Trent has also challenged me to be my best self, in a number of different areas — academically, athletically and socially. I have met many amazing people here who have taught me a lot about myself.”

VALERIE ANDREW

Anthropology major, Trent Excalibur varsity soccer player, Athletics Centre Fit Desk student employee

“GETTING INVOLVED IN BOTH THE TRENT AND PETERBOROUGH COMMUNITIES IS WHAT Ultimately shaped my university experience. It granted me the opportunity to grow and develop as an individual, while meeting people I wouldn’t have met otherwise. As a result,

NOT ONLY DO I HAVE NETWORKS BUT TRUE FRIENDSHIPS FROM ALL OVER THE WORLD.”

TRAE TROTT

Biology major, international student from Bermuda, Champlain College Cabinet member, and Orientation Week leader
“OUR GOAL IS TO PROVIDE OUR STUDENTS WITH OPPORTUNITIES TO SEE THEMSELVES DIFFERENTLY, TO BECOME EMPOWERED, to empower themselves, to take up their responsibility to develop gifts that they all have, and to become engaged learners. We want them to use this institution and the knowledge that’s available to them here in different knowledge systems, to be the best human beings they can be.”

PROFESSOR DAN LONGBOAT
Indigenous Environmental Studies
Renowned environmentalist and Indigenous rights advocate

“MY TRENT EXPERIENCE HAS BEEN, IN EVERY SENSE, LIFE-CHANGING. Being mentored by industry professionals in my chosen field of study provided me with invaluable, real-world experience and insight into the skills most sought-after in the business and marketing industry where I now work.”

TYLER GRIEVE
Recent Business Administration graduate, former vice-president of Marketing for the Trent Business Students’ Association

“One of the great things about Trent is that the professors teach the seminars and tutorials and encourage students to develop their ideas, to engage with us, and challenge us on what some of the essential ideas are.

IT’S ONE OF THE WAYS WE DEVELOP SUCH STRONG RELATIONSHIPS WITH OUR STUDENTS.
We get to know them really well, and we encourage their learning.”

PROFESSOR CAROLYN KAY
Award-winning History professor
Noted Holocaust historian
PETERBOROUGH CAMPUS

A VIBRANT CAMPUS IN A BREATHTAKING NATURAL SETTING

DISCOVER CANADA’S MOST BEAUTIFUL UNIVERSITY

Trent University’s Symons Campus in Peterborough is an inspiring place to learn – set on the east and west banks of the Otonabee River, a stunning natural landscape provides an environment where you can grow, thrive, live and connect. Just 90 minutes from downtown Toronto, the campus blends award-winning architecture with state-of-the-art research facilities and dynamic spaces where students connect and interact with each other and their professors. Minutes away from campus is a vibrant downtown, which is a premier destination for festivals, concerts and events, filled with a variety of clubs, shops and award-winning restaurants.

“Peterborough really hits a balance between being surrounded by the beauty of nature and having an urban feel.”

DAVID RATE, Forensic Science student

A TRANSFORMATIVE LEARNING EXPERIENCE IN THE EAST GTA

A CLOSE-KNIT CAMPUS COMMUNITY WITH AN URBAN VIBE

With one of the best student-to-faculty ratios out there, Trent University Durham - GTA is known as an especially teaching-focused university with an abundance of opportunities for student engagement. Quickly becoming the campus of choice for top scholars looking for a truly personalized learning experience, Trent University Durham is conveniently located in the East GTA in the City of Oshawa, 40 minutes from downtown Toronto. Nearby, you can enjoy a vibrant greenbelt, parks and beaches – all minutes away from the Oshawa GO Station, Highway 401, state-of-the-art sports facilities, premier shopping centres and a thriving arts and entertainment scene.

“Trent University Durham is a great place. I love the small classes; professors are enthusiastic about what they teach, and the quality of education you get here is amazing.”

BRITTINI ANDREW, Anthropology student
CHALLENGE
THE WAY
YOU THINK
STUDENT LIFE:
GET INVOLVED

A WELCOMING AND SUPPORTIVE COMMUNITY AWAITS. DISCOVER ALL THE WAYS YOU BELONG AT TRENT UNIVERSITY.

At Trent University, academics are just the beginning of your university experience. Some of your most memorable experiences here will come from the connections you make outside the lecture hall. In Trent’s diverse, close-knit community, it’s not just easy to get involved, it’s almost impossible not to. Join a student club (or create your own); try a new sport; run for student government; build your leadership skills – take advantage of Trent’s many services and supports. Getting access to your own best thinking, to one’s own wisdom, comes from the transformative living and learning experience you get at Trent.

ORIENTATION FOR NEW STUDENTS

Before you even step onto our campus for your first class, we’ll ensure you have access to everything you need. Sign-up for a summer orientation day in July and August and don’t miss out on Orientation Week in September – our orientation activities will help you make a smooth transition to Trent.

Starting in Winter or Spring? We offer a series of supports to make your transition to Trent as smooth as possible, no matter when you start.

trentu.ca/orientation
trentu.ca/durham/orientation
ACADEMIC, PERSONAL, & SOCIAL SUPPORT

CLUBS AND GROUPS
Meet new friends and explore your interests by joining one of the nearly 100 student clubs and groups at Trent. Can’t find one that matches your interests? At Trent, it’s easy to create your own.
trentu.ca/stuorg
mytdsa.ca

LEADERSHIP PROGRAMS
Trent offers innovative certificate programs that prepare students to assume a wide variety of leadership roles within their community and beyond.
trentu.ca/impact
trentu.ca/durham/leadership

STUDENT GOVERNMENT AND LEADERSHIP
Trent Central Student Association (TCSA) in Peterborough and Trent Durham Student Association (TDSA) provide a variety of pivotal services, ranging from health and dental insurance to transit passes, and support and sponsor the many clubs and groups across both campuses.
trentcentral.ca
mytdsa.ca

BUILD YOUR SKILLS: CO-CURRICULAR RECORD
Trent’s co-curricular record is an official “transcript” that tracks all non-academic activities and accomplishments while at Trent, including student leadership, awards, workshops, clubs and groups, and much more.
trentu.ca/studentaffairs/getinvolved

STUDENT SUPPORT
Adjusting to university means developing new skills and independence. At Trent, we challenge and support each other – in the classroom and beyond. Colleges, student services and student associations each provide a range of personal connections and supports. Services include:

Academic Advising
trentu.ca/advising

Academic Skills
trentu.ca/academicskills

Career Centre
trentu.ca/careers

Student Accessibility Services
trentu.ca/sas

Health Services
trentu.ca/healthservices

Counselling Services

Rebound Program
trentu.ca/rebound

ENWEYING: “THE WAY WE SPEAK TOGETHER”
As a leader in Indigenous education, Trent values indigeneity and the knowledge, perspective, and voice of students of Indigenous heritage to bring to the Trent community.

THE FIRST PEOPLES HOUSE OF LEARNING
Located in the Enweying building at Gzowski College, FPHL connects to local First Nations communities and provides special services, support and a home away from home for Indigenous students from all over the world. For non-Indigenous students, it’s a place to build awareness and to become immersed in many new and traditional cultural experiences.
trentu.ca/fphl

SELF-IDENTIFICATION
Self-identifying your Indigenous ancestry helps ensure we provide the best cultural and support services possible.

INDIGENOUS DIPLOMA PROGRAMS
The Indigenous Diploma Program is for applicants of Indigenous ancestry who wish to pursue university level studies, who may not have taken a traditional academic path towards post-secondary education. See page 45.

CELEBRATING INDIGENEITY AND INDIGENOUS KNOWLEDGE
The Annual Elders & Traditional Peoples Gathering provides an opportunity for students and the community to listen and learn from elders across the country. The Trent University Native Association is a student-run group creating cultural awareness and support for Indigenous students inside and outside the University.
YOUR COLLEGE: YOUR COMMUNITY

Like neighbourhoods within a larger city, Trent’s colleges are communities that promote learning, embrace diversity, and lead to friendships that last a lifetime. Made up of classrooms, lounges, faculty offices, dining facilities, residences, and more, colleges are places where students can make meaningful connections between each other, and with professors and staff.

You don’t have to be in residence to be part of a college. All Trent students, in all years, are part of a college community, which brings together a unique blend of traditions, events, workshops, places to hangout, and support services – all designed to help you experience a true sense of belonging.

“Trent has an incredible ability to make you feel at home every time you’re on campus. Some of my most unforgettable Trent memories have come from participating in student life through Orientation Week, Rebound, student clubs and more! There are so many rewarding ways to get involved at Trent, which made it so easy for me to connect with the Trent community.”

ALEXA CASWELL
Math & Psychology student and LEC ambassador
CATHARINE PARR TRAILL COLLEGE

An integral part of the academic and social life of the University as a whole, Catharine Parr Traill College is also a self-contained and active community, beautifully situated on a drumlin in downtown Peterborough. One of Trent’s original colleges, Traill is named in honour of one of the region’s first settlers and consists of a collection of old houses of architectural and historic significance. This close-knit campus community is also home to many graduate students.

trentu.ca/colleges/traill

CHAMPLAIN COLLEGE

Dare to join the Champlain College community and learn how discovery, adventure, reflection, and engagement are at the heart of this community and a tribute to the history that continues to shape one of Trent’s oldest colleges – celebrating 50 years in 2016/17. Active living and concern for international perspectives are just two of the many important areas of focus you’ll find at Champlain.

trentu.ca/colleges/champlain

GZOWSKI COLLEGE

“The way we speak together” – it’s not only the meaning of Enweying, the building in which Gzowski College is located, it also represents the discussion and respect for each other that is at the heart of this college. As a student here, through the pursuit of sustainability, the exploration of marketplaces and numbers, and the honouring of Indigenous traditions, you will explore intersection of many different fields of study and discover the world.

trentu.ca/colleges/gzowski

LADY EATON COLLEGE

Creative energy, a passion for our local community and a commitment to self-expression all describe LEC. This college’s Latin motto, Sapientia et Humanitas, translates to mean Wisdom with a Compassionate Outlook, and inspires students to apply what they learn at Trent to their broader communities to help make a positive impact on the world around them.

trentu.ca/colleges/lec

OTONABEE COLLEGE

In Ojibwe, Otonabee means “river that beats like a heart,” which symbolizes the way this college looks to the horizon, and imagines ways of keeping up with a fast-paced life while honouring the heart. Like the Otonabee River, for which this college is named, the OC community is ever-changing and unrelenting. As part of OC, you’ll become part of its beating heart – a melody of voices creating waves of change.

trentu.ca/colleges/otonabee

YOUR NEW STUDENT CENTRE — OPENING FALL 2017

Be part of the first class of students to have access to Trent’s brand new Student Centre, featuring dynamic spaces and opportunities for you to socialize, learn, study and engage with life on campus.

trentu.ca/studentcentre
RESIDENCE: YOUR HOME AWAY FROM HOME

1. Comfy bedding – perfect for movie nights with your floormates
2. Your fav posters to make your room more homey
3. Your best Orientation Week memories captured in photos
4. Birdseye view of your College quad so you always know what’s going on
5. Wall calendar to keep track of due dates (and notes from your friends)
6. The perfect space to study and hang out

THE TRENT RESIDENCE ADVANTAGE

- Trent is the **TOP-RANKED** undergraduate university in Ontario for residence living
- The **CHOICE** is yours – single, double or triple room? We offer them all!
- Your spot in residence is **GUARANTEED** – just complete the application requirements by the deadline and we’ll save your room
- Our **ROOMMATE MATCHING** service – we promise to do our best to find someone who’s a good match for you, whether you’re a night owl or an early riser. Want to live with a friend? Just let us know and we’ll make sure that happens.
- **FLEXIBLE CAMPUS MEAL PLAN** – spend it on campus or downtown, on everything from cafeteria-style to vegan to international cuisine

WHAT IS A LIVING-LEARNING COMMUNITY?

Membership in a LLC is a great way to make the most of your residence experience by providing you with an opportunity to get involved in various activities and to meet new people who share your interests. Students drive the collaborative activity planning process with the support of an upper-year student mentor, residence staff and the Colleges. Participation in an LLC is optional. You apply for acceptance when you fill out your housing application form.

88% **OF STUDENTS RECOMMEND LIVING ON CAMPUS AT TRENT IN YOUR FIRST YEAR**

CHAMPLAIN ANNEX RESIDENCE & LADY EATON COLLEGE ANNEX RESIDENCE
Room options: Double rooms in an apartment
106 Double Rooms
* Room + dining plan cost:
  Double room $7,864

RESIDENCE AT TRENT UNIVERSITY DURHAM - GTA
First-year students at our Durham campus in the GTA can also enjoy the residence experience, thanks to a partnership with Durham College and UOIT. We’ll also guarantee you a room, as long as you complete the application requirements before the deadline.
trentu.ca/housing/durham-campus

CAMPUS DINING AT ITS BEST
As a student living in residence, your dining plan gives you access to a wide variety of dining options and menu choices. With your TrentU Card you can dine at any of the four on-campus dining halls or several of our unique cafés and coffee shops. You can select more traditional home cooked meals, or your favourites from Thai Express, Subway, Starbucks and Tim Hortons. Looking for something different? We feature the ultimate in locally-grown food. Some of the foods that we serve on campus are actually grown on campus, too, in the Trent Market Garden. Forget the hundred-mile diet: we’re talking the 100-metre diet! And, don’t forget, your TrentU Card and meal plan can also be used at select restaurants downtown.
trentu.ca/foodservices
ATHLETICS & RECREATION

STATE-OF-THE-ART FACILITIES

Staying active and finding a healthy balance are essential to your success in a well-rounded university career. Become a Trent student and you automatically become a member at our state-of-the-art Trent Athletics Centre.

› 12,000 sq. ft. CARDIO LOFT and weight room
› North America’s most advanced indoor ROWING TANK
› Justin Chiu STADIUM, artificial turf field and track
› International competitive SQUASH court
› On-site physiotherapy, rehabilitation, and sports HEALTH CLINIC
› 25m COMPETITIVE POOL and therapy pool

Homecoming and Head of the Trent

Mark your calendars! You do not want to miss this great Trent event. Trent hosts its Homecoming and Head of the Trent Weekend the first weekend of October. Head of the Trent is the largest single-day rowing regatta in North America, including over 50 universities and clubs. And Trent’s annual homecoming celebration brings together alumni and community fans to cheer on the Excalibur soccer, rugby, lacrosse and volleyball teams.

trentu.ca/hotr
TAKE YOUR EDUCATION GLOBAL

WANT TO LIVE YOUR EDUCATION IN A GLOBAL WAY? TRENTOFFERS A WIDE-RANGE OF STUDY ABROAD OPTIONS THAT WILL ALLOW YOU TO INTERNATIONALIZE YOUR DEGREE.

STUDY AND LEARN ABROAD

Your doorway to an amazing world view, Trent offers several international study programs for you to choose from, each giving you a unique opportunity to take your education global.

Fit a semester or year abroad seamlessly into your university experience through one of our formal exchanges with more than 50 universities. Choose from more than 40 countries from Australia to Wales.

Where do you want to study?

trentu.ca/studyabroad

TRENT: WHERE THE WORLD LEARNS TOGETHER

At Trent, you are part of a diverse and vibrant community that will support you in your studies, and beyond. Trent International provides service, support, information, and a sense of home to students from countries all over the world who have chosen Trent. Whether you are coming from Hamilton or Honduras, you can get involved in global discussions with people from around the world right here on our campus.
STUDY ABROAD AND CHANGE YOUR WORLDVIEW

Study abroad opportunities are available in every program and major. Choose from:

**Exchange Program**
Trent’s partnerships with universities around the world make it very easy for you to study abroad through an exchange program, which swaps two students – you spend a semester or year abroad in a chosen country and a student from that country comes to Trent. If our exchange program doesn’t offer the destination you want, we will help you set up a personalized study abroad at the school of your choice.

**Department Year Abroad**
Perfect a second or third language, or gain work experience through volunteer placements and internships. Some of Trent’s departments offer their own programs for you to take your classes overseas and on-location, so you can experience firsthand what you’re studying.

**Summer Field Courses**
Enroll in Trent’s field schools in Belize, earn credit on an archaeological dig in Greece, learn about Indigenous culture in Mexico, or study pink dolphins in Taiwan.

**International Placements and Internships**
You can gain international knowledge and cultural insight, all while having a once-in-a-lifetime experience working overseas. Whether it’s for a couple of weeks or a summer term, Trent can get you there.

**Volunteer Abroad**
We can help you turn your knowledge into service on the international stage through a volunteer opportunity in the country of your choice.

Our Commitment to International Students
Trent International recognizes the contributions of our international students with many significant scholarships and awards, helping to make the transition to studying in Canada, and at Trent, a little easier. We also invite you to participate in additional extracurricular programs, seek out campus mentors to help you achieve your leadership goals, and attend regular forums where you can meet other like-minded scholars.

[www.trentu.ca/international](http://www.trentu.ca/international)

Nate Hudson, a Biology student, poses for the ultimate portrait in front of the Eiffel Tower in Paris, France

“**In school we learn so much about theories. Being in Thailand, and in the village, gave me a chance to do research first-hand with the people who were most impacted. That’s when I realized that this was the work I wanted to be doing.**”

A year abroad experience helped recent International Development Studies and Indigenous Studies grad Jennifer Boyce secure a highly competitive internship with the United Nations (U.N.) in Thailand.
At Trent, we believe in rewarding academic excellence and supporting an accessible education for all.

The Trent Scholarships Advantage

› **FREE TUITION for TOP SCHOLARS** – if your average is 90% or above, your tuition is free at Trent; maintain your average and you’re covered each year you’re at Trent – that’s more than $25,000

› All of our national entrance scholarships are **RENEWABLE** each year

› Entrance scholarship **GUARANTEE** – achieve an average of 80% or higher and you automatically receive an entrance scholarship

› **WE ARE #1** – you won’t find another university in Canada that invests more in scholarships and bursaries than Trent

---

**Trent University National Renewable Entrance Scholarship for Canadian Students**

Our renewable entrance scholarships reward you for your academic achievement throughout all four years of your undergraduate studies – no application required!

WHAT FINANCIAL SUPPORT IS AVAILABLE?

Many students need some form of financial assistance in order to pursue their academic career. Our financial aid team will work with you to find ways to help cover the costs of your university education. In addition to scholarships, there are several options available, including:

GENEROUS ENTRANCE & IN-COURSE BURSARIES
Trent University offers entrance and in-course bursaries to students with a demonstrated financial need. Bursaries, unlike loans, do not need to be repaid. trentu.ca/financialaid/bursaries.php

ONTARIO STUDENT ASSISTANCE PROGRAM & ONTARIO STUDENT GRANT
The Ontario Student Assistance Program (OSAP) combines interest-free loans and non-repayable grants, such as the Ontario Student Grant, to create an exceptional funding program to help Ontario students pay for tuition, books, and other living expenses. A single application assesses eligibility for all available grant and loan funding. Apply online at ontario.ca/OSAP

OUT OF PROVINCE STUDENT ASSISTANCE
No matter where you’re coming from in Canada we can help you access the funding you’re eligible for. Visit trentu.ca/financialaid for links to the funding program in your home province or territory.

PART-TIME JOBS & TRENT WORK STUDY PROGRAM
Many students find work on or off-campus while attending Trent. TWSP provides part-time jobs on campus for students who are receiving OSAP or student aid from another province. The Student Job Board is a great place to begin your job search explore such positions as tour guides, athletic instructors, lifeguards, club and group assistants, research assistants, and more. Full details are available at trentu.ca/financialaid/bursaries_twsp.php

A full listing of scholarships, awards, and bursaries is available at trentu.ca/scholarships

“I chose Trent in part because the entrance scholarships really reward hard work. I had a 90% average coming from high school, and to know that I had a full tuition renewable scholarship really eased the stresses of my first year. It allowed me to get involved and really focus on my studies.”

KALENE LUPTON, History student

YOUR STUDENT BUDGET

Estimated Average Budget for an Academic Year

HOW MUCH WILL IT COST?

Tuition $6,400
Ancillary Fees $1,500
Books & Supplies $1,100
Housing & Living
Away from Home $9,000 - $15,000
(on-campus room + meal plan or rental unit (shared occupancy), utilities, laundry, meals, other living expenses)
At Home $3,900
(transportation, meals, etc.)* OSAP estimation

Totals
Away from Home $18,000 to $24,000
At Home $13,000

These costs represent an approximate eight-month budget (based on 2016/17 costs). Your costs may decrease depending on personal lifestyle, number of trips home, long distance calls, new or used books, etc. See pages 18 & 19 for specific residence and dining plan fees.

CONSIDER THIS

You’re a first-year student, living on campus in residence. Your estimated costs (as per the summary above) are approximately $22,000. Don’t worry. We’re going to show you how Trent makes your education more affordable. Here are some of the resources you may have access to:

Personal Savings $3,000
Full-Tuition Scholarship $6,400
Bursaries $1,500
On-Campus Job $2,500
OSAP $7,950

Total Resources: $21,350*

* Resources and amount of resources available will vary for each individual student
LEARNING IS KEY. QUESTIONING IS CRUCIAL.
YOUNGEST MINISTER IN CABINET

“It was here at Trent that I learned you really can make a difference. It was here at Trent that I realized that when you surround yourself with the right people and you’re doing things for the right reasons, that you can change the conversation.”

THE HONOURABLE MARYAM MONSEF’03
Biology and Psychology graduate

Named Minister of Democratic Institutions after being elected as the first female and youngest MP in the Peterborough-Kawartha Riding. She has also made history as the first Canadian MP born in Afghanistan and the youngest minister in cabinet.

Trent’s interactive learning environment has acted as the ideal springboard for over 40,000 alumni to succeed in their chosen careers and make their mark in the world. From Nobel Prize winners to economic game changers, Trent University develops leaders who make an impact in government, law, teaching, science and a host of other industries, globally.
Academic excellence is what we are known for at Trent. Here, challenge the way you think is so much more than just a tagline. Choose to study in any of our renowned academic programs across the arts, sciences, social sciences or professional programs, and you will be encouraged to engage in real dialogue and conversation with your fellow students, and your profs. You’ll discover new ways of thinking, learn to see things from different angles and be better prepared to succeed in today’s increasingly collaborative world. With nearly 100 diverse and dynamic academic programs available at both of our campuses, we know we have the program that’s right for you.

PRESTIGIOUS SCHOOLS OF STUDY

› **SCHOOL OF BUSINESS** – a Business School with a difference, Trent students can combine Finance, Accounting, Management, Entrepreneurship, HR, Information Systems and E-Commerce with just about any other subject – arts or science

› **SCHOOL OF THE ENVIRONMENT** – Trent is Canada’s leading environmental university

› **SCHOOL OF EDUCATION** – leading and innovative academic programs at Trent to educate and inspire our teachers of tomorrow

› **ENWEYING SCHOOL OF INDIGENOUS STUDIES** – Trent is proud of our long-standing reputation as a leader in Indigenous education and scholarship (pending approval)

› **SCHOOL OF NURSING** – the top choice university for future nurses, Trent offers integrated, collaborative academic programs that meet the highest standard for future nurses

› **SCHOOL FOR THE STUDY OF CANADA** – Canadian Studies was born at Trent

› **SCHOOL OF GRADUATE STUDIES** – Trent offers a growing number of prestigious graduate programs

Planning on studying at the master’s and Ph.D. level in the future? Trent grads present letters of reference from profs who know them personally – and are known to be highly successful candidates for graduate studies.
Put your critical thinking skills to good use and improve your career prospects through our many hands-on learning opportunities, complex community research projects, international education experiences, and internship programs.

UNPARALLELED UNDERGRADUATE RESEARCH OPPORTUNITIES
Imagine being able to conduct hands-on research, with leading professors and researchers, while you’re still an undergraduate. This is something uniquely Trent. Conduct field research in one of our 12 on-campus nature reserves; dust off original texts with your professor; accompany your Archaeology professor on a dig in Belize; or work with some of the world’s top water-testing instrumentation in our Water Quality Centre. Our students gain invaluable skills and experience that prepare them for graduate school and beyond.

TRENT COMMUNITY RESEARCH CENTRE
Through the Trent Community Research Centre (TCRC), students undertake supervised research projects with non-profit and government organizations right in the community to gain academic credit and on-the-job experience. It’s like co-op, but better.

trentcentre.ca

ON-CAMPUS WORK EXPERIENCE
There are great opportunities to gain valuable work experience right here on campus. Through the student job board, students are able to look for jobs that fit their schedules.

GLOBAL WORK EXPERIENCES
Trent students incorporate international experiential learning into their degree programs through field placements, research projects, intensive language programs, and internships. Trent students have done business in Hong Kong, supported health care in Honduras, excavated ruins in Belize, taught in England, and studied marine life in Taiwan.

INTERNSHIPS, PLACEMENTS, PRACTICA
From Social Work to Forensic Science, Education to Nursing, Health Sciences to Psychology, Trent students in virtually every program can earn academic credit in a variety of hands-on learning settings throughout Ontario and beyond.

BUSINESS ADMINISTRATION INTERNSHIP PROGRAM
Housed within the B.B.A. program, internship opportunities are available in a variety of business sectors within the Greater Peterborough and Durham Region, to students enrolled in various programs at Trent.

INTERNSHIP IN MEDICAL SCIENCES
The Internship in Medical Sciences and Placement in Health Sciences allow students interested in medical/health science the best opportunity to prepare for careers in medical or applied health research, teaching, and med school.

LOOKING FOR HANDS-ON LEARNING AND REAL-WORLD EXPERIENCE? AT TRENT, WE LIVE IT.
HONOURS ARTS (B.A.)/HONOURS SCIENCE (B.Sc.)

Are you drawn to the sciences, social sciences or humanities, but feeling unsure about which program to apply? The Honours Arts and the Honours Science options at Trent are geared towards students who want to explore a few different areas of study before declaring a major or joint-major. In this first-year studies option you may even choose to combine different disciplines and take courses from programs across both the arts and sciences. Forensics and Psychology? Media Studies and English? Environmental Studies and Business? The possibilities are virtually endless.

THE TRENT ADVANTAGE
• Benefit from the flexibility this program lends, giving you the freedom to choose your courses based on your interests
• Experience the best of both worlds by combining different disciplines and taking courses from programs across both the arts and sciences
• Enjoy the opportunity to explore different programs and interests before declaring your major in second year

HONOURS ARTS (B.A.)/HONOURS SCIENCE (B.Sc.)

Trent’s unique joint major programs allow you to enhance your B.A. or B.Sc. degree by combining programs and courses from across the arts and the sciences, or from our professional programs to create a degree that’s uniquely your own. Have a passion for social justice? Combine your Politics degree with Gender & Women’s Studies. Interested in criminology? Match Forensic Science with a degree in Psychology or Sociology. Mix and match to pursue your interests, and prepare yourself for a future with more possibility.

THE TRENT JOINT MAJOR ADVANTAGE
• Create a unique educational focus based on your interests with an interdisciplinary knowledge base
• Experience the ease of combining programs across the arts and sciences and our professional programs
• Receive academic advising to support you throughout your joint major degree

COMBINE DEGREES. EXPAND YOUR HORIZONS.

At Trent, you have the flexibility to combine nearly any two programs of your choice. To help you narrow it down, here’s a list of some of our most popular combinations:

- Media Studies and Psychology
- Anthropology and History
- English and Media Studies
- Biology and Psychology
- Anthropology and Psychology

- Environmental Studies and Biology
- Anthropology and Sociology
- Geography and Canadian Studies
- Computing Systems and Media Studies
- Economics and Philosophy

- Economics and Psychology
- English and Psychology
- Psychology and Sociology
- Computing Systems and Economics
- English and Sociology

You can also explore the popular joint major combinations within our professional programs like Business Administration (see page 36) and Forensic Science (see page 43).

“Joint majors prepare our students for the jobs of the future – the ones we don’t even know about yet. Students with diverse training are well positioned for success in whatever career they choose.”

DR. MOIRA HOWES
Dean of Arts and Science - Humanities
EMPHASES AND OPTIONS: ENHANCE YOUR DEGREE

In addition to unique degree combinations, minors and specializations, Trent offers a number of emphases and options that give a unique focus to your degree and provide you with a distinct advantage in the career of your choice.

**AGING STUDIES**
If you are interested in studying aging and/or working with older people, this emphasis is ideal for you. After completing an interdisciplinary course offered by the groundbreaking Trent Centre for Aging & Society, a range of courses offering different perspectives on aging are open to you from across Trent’s social science, humanities, nursing and social work programs.

[trentu.ca/futurestudents/aging](trentu.ca/futurestudents/aging)

**CULTURAL & LINGUISTIC ANTHROPOLOGY**
If you have a strong interest in the field of anthropology, Cultural & Linguistic Anthropology is a great way to enhance your degree. This emphasis also pairs well with a range of related social science and interdisciplinary programs.

[trentu.ca/futurestudents/clanthro](trentu.ca/futurestudents/clanthro)

**GEOGRAPHICAL INFORMATION SYSTEMS**
As a Geography or Environmental & Resource Science student, you can pursue an emphasis in GIS, the field that connects geography to data. Offered in partnership with Fleming College, this emphasis will allow you to visualize, question, analyze, and interpret data to understand relationships, patterns, and trends.

[trentu.ca/futurestudents/gis](trentu.ca/futurestudents/gis)

**GLOBAL STUDIES**
Explore global issues, economies, politics, tourism and more in this emphasis. In addition to completing specific courses at Trent, this emphasis also includes a once in a lifetime study abroad experience.

[trentu.ca/futurestudents/globalstudies](trentu.ca/futurestudents/globalstudies)

**LAW & POLICY**
Gain an understanding of the legal system in Canada by pursuing this series of courses that will allow you to critically reflect on legal and policy questions, as well as address and debate advocacy and public issues.

[trentu.ca/futurestudents/lawpolicy](trentu.ca/futurestudents/lawpolicy)

**LINGUISTICS**
Embrace your love for languages and pursue more specific interests in language and linguistics with this emphasis, which brings together courses in English Literature, Anthropology, Ancient Greek and Roman Studies, and more.

[trentu.ca/futurestudents/linguistics](trentu.ca/futurestudents/linguistics)

**MUSEUM STUDIES**
Bring history to life with this unique emphasis, which allows you to gain specialized training in museum curatorship and management. Offered in collaboration with Fleming College, this emphasis will take you to Fleming for your third year to complete a three-semester college certificate.

[trentu.ca/futurestudents/museumstudies](trentu.ca/futurestudents/museumstudies)

**NORTHERN & POLAR STUDIES**
Expand your knowledge on a range of northern topics, from Canada and the North and hydrometeorology, to geography of the Polar Regions, Indigenous peoples, health and the environment, and more. Not only does this emphasis offer a series of courses related to the North on campus, but also access to online courses offered at the University of the Arctic.

[trentu.ca/futurestudents/northernpolar](trentu.ca/futurestudents/northernpolar)

*pending approval
PRE-MEDICAL*  
Medicine, dentistry, veterinary and pharmacy – just a few professional programs that require individuals to have a well-rounded background in the physical sciences and life sciences, as well as the social sciences and humanities. This emphasis will help prepare you for a future in a medical profession and will give you a significant advantage when it comes time to prep for examinations like the MCAT or DAT.  
trentu.ca/futurestudents/premed

PRE-MODERN STUDIES  
Enhance your understanding of the thought, literature, and history of the pre-industrial (pre-1800) world. The study of historical culture in world civilizations from antiquity through early modernity will allow you to better understand the origins and development of culture informing modern global society.  
trentu.ca/futurestudents/premodern

TEACHER EDUCATION  
The emphasis in Teacher Education is an enriched program that will help prepare you to teach at the elementary or secondary school level. Pursuing this emphasis is a great choice if you are considering applying to a Bachelor of Education program during or upon the completion of your degree.  
trentu.ca/futurestudents/teachered

THE TEACHING OF SPANISH  
Spanish is one of the world’s leading languages. With this emphasis, you can expand your interests in education and modern languages as you take courses specifically designed to help you prepare to be an instructor of the Spanish language.  
trentu.ca/futurestudents/teachspanish

THEATRE STUDIES  
Do you have a love for theatre and the performing arts? This multi-departmental emphasis offers you the opportunity to choose credits from a diverse selection of courses, all rooted in the history of, theory and performance in theatre.  
trentu.ca/futurestudents/theatrestudies

INTERNATIONAL DEVELOPMENT STUDIES  
Gain a critical understanding of the processes of change that shape the globe. Explore the relationship between colonialism, development, and globalization to address issues affecting all different regions of the world.  
trentu.ca/futurestudents/idsoption

LEGAL STUDIES  
Compliment virtually any B.A. or B.Sc. degree with this series of courses designed to give you a basic understanding of the legal system in Canada and Canadian Law.  
trentu.ca/futurestudents/legaloption

MARKETING  
Enhance your business acumen by gaining a basic understanding of core concepts and marketing principles in addition to learning the fundamentals of business, advertising, market research and beyond.  
trentu.ca/futurestudents/marketingoption

* pending approval
ANCIENT GREEK & ROMAN STUDIES (B.A.)

Ancient Greek and Roman Studies will expose you to the foundation of modern western civilization, and provide you with the knowledge to understand why and how we function as a society today. Explore issues of state and empire, warfare, class struggles, the economy, religion, gender, cultural heritage, and the genius of the human spirit – issues as relevant today as they were back then.

The Trent Advantage
- Examine, through interdisciplinary study, the history, society, literature and physical remains of the ancient Mediterranean from 3000 B.C. to 650 A.D.
- Take courses based on the active research of accomplished faculty and scholars who are leaders in the field
- Participate in one-of-a-kind extracurricular activities and projects, like student productions of ancient Greek plays and archaeological excavation in the Mediterranean

Career Paths
Archaeologist; Archivist; Curator; Editor; Secondary School Teacher; Journalist; Library and Information Systems Specialist; Professor; Public Relations Specialist

Popular Courses
- The Trojan War; Greek, Roman, and Egyptian Archaeology; Mythology; Ancient Warfare; Love, Sex and Death; and Ancient Civilizations

Popular Joint Majors
Ancient Greek & Roman Studies & Business

trentu.ca/futurestudents/agrs

ANTHROPOLOGY (B.A. OR B.Sc.)

Anthropology is the study of the human experience, from our earliest ancestors to contemporary digital society. You will learn to see humankind as complex social and biological beings with the capacity for language and culture. Drawing on insights from archaeology, and cultural, linguistic, and biological anthropology, you will explore the extraordinary variability in human adaptation, organization and belief, and how the common circumstances we face unite us.

The Trent Advantage
- Study with renowned researchers in one of the most highly regarded programs in Canada
- Participate in an archaeological field school in Belize or Ontario
- Spend a year abroad in Ghana, Ecuador, Thailand, or France

Career Paths
Archaeologist; Public Service; Cultural and Heritage Consultant; Environmental Impact Assessor; Ethnographer; Forensic Anthropologist; Immigration and Human Rights; Public Health; Medical Anthropologist; Museum Curator; Program Manager

Popular Courses
- Plagues and Peoples; Freaks and Geeks: The Anthropology of Subcultures and Cyber-Cultures; Culture and Food; The Archaeology of Climate Change; Environmental Archaeology; Mortuary Archaeology; The Anthropology of Religion

Popular Joint Majors
Anthropology & Business Administration; Anthropology & English; Anthropology & History; Anthropology & Media Studies; Anthropology & Psychology; Anthropology & Sociology

trentu.ca/futurestudents/anthropology

ARCHAEOLOGY (B.A. OR B.Sc.)

Archaeology is the interdisciplinary study of the human past through the examination of material and biological remains, including artifacts, human and animal bones, architecture, and plants. You will learn the field methods and laboratory techniques used to study these materials, as well as theories archaeologists use to understand the ancient cultures and past civilizations of the Americas, Europe and the pre-Classical and Classical Mediterranean world. This exciting interdisciplinary program combines courses from Anthropology, Ancient History & Classics, and the sciences.

The Trent Advantage
- Specialize in Anthropological Archaeology or Classical Archaeology
- Conduct field work in Ontario, or abroad in places like Belize, Europe, Turkey, North Africa, and more
- Practice in specialized labs for bioarchaeology, Geographic Information Systems (GIS), archaeozoology and lithic analysis

Career Paths
Archaeological Data Manager; Archaeologist; Archaeotourism Professional; Archivist; Bioarchaeologist; First Nations Liaison Officer; Heritage Management Consultant; Heritage Planner; Professor; Laboratory Supervisor; Museum Curator; Teacher

Popular Courses
Archaeozoology; Collapse of Complex Societies; Aegean Bronze Age Archaeology; Human Adaptability; Case Studies in Classical Archaeology

trentu.ca/futurestudents/archaeology

DIGGING BELIZE

The lost history of the ancient Maya is waiting to be unearthed. You can play a key role in this exciting research and excavation project as a student with Trent’s Belize field school. Studying alongside renowned Anthropology professor Dr. Helen Haines as part of the Ka’Kabish Archaeological Research Project, you’ll spend four weeks exploring an ancient Maya ruin in the heart of the rainforest where you will put your knowledge and learning into hands-on action. Amid the ruins and artifacts, you’ll not only gain a better understanding of ancient cultures, you’ll learn more about yourself and your place in this world at the same time.
BACHELOR OF ARTS & SCIENCE (B.A.S.)

Knowledge in both arts and science is key to understanding the complicated issues of today’s world – from global warming and medicine to human rights and politics, and everything in between. In this unique program, you will gain the skills needed to take on the most complicated subjects and communicate about them effectively – key attributes of success for lawyers, doctors, journalists, business leaders, and environmental scientists. Here, you will have the opportunity to experience the very best of both areas of study, while benefiting from the ability to customize your degree with flexibility. The options are virtually endless.

The Trent Advantage

• Combine your interests and make your B.A.S. degree as unique as you are – choose to combine History with Biology, Psychology with Sociology, or Philosophy with Physics
• Gain important hands-on experience through research and community-based learning projects.
• Participate in student-driven research with faculty members from a variety of disciplines

Career Paths

Medicine; Law; Journalism; Public Policy; Teaching; Marketing & Communications; Government; Business; Publishing; Excellent springboard for graduate studies

Popular Courses

Archaeozoology; Collapse of Complex Societies; Communicating Knowledge; Philosophy of Science

trentu.ca/futurestudents/bas

THE BEST OF BOTH WORLDS

Trent’s B.A.S. program attracts some of our top students – scholars who are interested in the intersections between arts and science and how the two fields work together. Our students tell us the best thing about the program is that it’s the best of both worlds. Not only is it interdisciplinary and forward-thinking, it is both broad and focused. B.A.S. students receive a well-rounded education that can be applied locally and globally. Yet B.A.S. degrees can also be tailored and specialized. As a B.A.S. student, you can qualify for professional schools, pursue creative research avenues in preparation for postgraduate study and research, or prepare for unique and specialized careers in interdisciplinary and growing fields such as scientific journalism. In B.A.S., enjoy more degree combinations than any other program at Trent! In addition to four core courses, students choose two minors; one from the sciences and one from the arts. In addition, fourth year students design and pursue their own research projects, guided and supervised personally by a Trent faculty member. Create the degree you want in the B.A.S. program at Trent.

“This is a completely unparalleled program, providing you with the flexibility to choose two different disciplines to create a unique and profound education.”

OSMAN KAYANI, third-year BAS student
Without biochemistry, there is no life. Working in state-of-the-art facilities, you will gain a solid grounding in chemistry, biochemistry, genetics and cell biology. This program prepares you both technically and intellectually for advanced studies in this dynamic and ever-changing discipline.

**The Trent Advantage**
- Choose to specialize in Health Sciences
- Benefit from a hands-on approach to learning through laboratory work and small group learning with expert scholars
- Design and execute your own experiments and research, or take advantage of opportunities to assist with faculty research

**Career Paths**
- Physician; Dentist; Research Scientist; Pharmacist; High School Science Teacher; Optometrist; Laboratory Instrument Specialist

**Popular Courses**
- Biochemical Concepts; Molecular Biology; Cell Biology; Microbiology; Protein Chemistry & Enzymology; Metabolism; Bioinorganic Chemistry; Immunology

**trentu.ca/futurestudents/biochem**

The study of biology probes the entire diversity of life, from molecules to global ecosystems. Biology is central to understanding the most pressing of today’s concerns, from managing the spread of infectious diseases to feeding a planet of seven billion people. Through lectures, labs and fieldwork on Trent’s ecologically diverse campus, you will learn the underlying theories and concepts of biology and apply them to real questions and challenges, gaining the knowledge to solve the problems we face every day.

**The Trent Advantage**
- Choose to specialize in Health Sciences or Conservation Biology
- Work alongside faculty in the department and collaborating scientists at the Ontario Ministry of Natural Resources and Forestry
- Participate in the Ontario Universities Program in Field Biology, in which you may choose to engage in a varied selection of field courses held in Canada or around the world

**Career Paths**
- Veterinarian; Bioinformation Specialist; Bio-Medical Sales Representative; Conservation Biologist; Physician; Dentist; Pathologist; Genetic Counsellor; Research Scientist; Biotechnology; Zoologist; Toxicologist

**Popular Courses**
- Conservation Biology; Pathophysiology; Epidemiology; Evolution; Medical Entomology; Genetics; Pharmacology; Fish Ecology; Field Courses

**trentu.ca/futurestudents/biology**

A growing awareness of how the different levels of life interact has brought together the disciplines of biology and medicine and added to our understanding of how these interactions affect health and disease. You will study a diverse range of medically-related topics (such as cell biology, anatomy, and biochemistry) to better understand how the many levels and approaches to health and medicine are complementary, and you will learn to apply the principles to assess and solve problems as they relate to real-world health issues.

**The Trent Advantage**
- Only program of its kind in Ontario, providing a capstone internship placement and the ability to personalize your degree by incorporating related areas of interest into your study
- Benefit from practical and theoretical study opportunities, and the opportunity to work alongside professors in lab and research settings
- Study across subject areas tested in the MCAT exam, and graduate with the confidence to pursue a career in medicine, dentistry, pharmacy, veterinary or another biomedical field

**Career Paths**
- Medical Doctor; Dentist, Pharmacist, Veterinarian; Pathologist; Research Scientist; Geneticist; Neurobiologist; Scientific Journalist; Chiropractor; Physiotherapist; Podiatrist; Optometrist; Occupational Therapist; Audiologist; Immunologist

**Popular Courses**
- Principles of the Nervous System; Microbiology; Neuropsychology; Epidemiology; Developmental Biology; Virology; Immunology; Pharmacology; Pathophysiology

**trentu.ca/futurestudents/biomedical**

---

**SOLVING THE GREAT PANDA QUESTION**

It’s the age-old question: boy or girl? When Toronto Zoo staff needed to identify the sex of two new panda cubs, they depended on Trent University experts to make the call. Dr. Bradley White, director of the Natural Resources DNA Profiling and Forensic Centre at Trent, used innovative DNA testing technology that produced the sex-identifying results, letting the zoo know they had a both a boy and girl panda on their hands.
At Trent, we recognize the integral role innovative and creative thinking plays in the world of business. That’s why our popular Business School offers all the advantages of a traditional Bachelor of Business Administration (B.B.A.) and more.

Trent’s B.B.A. focuses on economics, management and entrepreneurship with a full slate of accounting courses that prepare you for the CPA designation or as a launch pad to an M.B.A.

We are also the only university in Canada to offer a wide range of joint majors in Business Administration, allowing you to combine business courses with other areas of interest – from Media Studies to Environmental Studies and everything in between. The Trent advantage allows you to combine your passions and interests and cross boundaries, no matter which program or major you are interested in.

FIVE WAYS TO DO BUSINESS AT TRENT

1. Bachelor of Business Administration (B.B.A.) – focus on economics, management and entrepreneurship
2. Business and Arts B.A. – combine business courses with any arts courses from English and Cultural Studies to Sociology and Economics
3. Business and Science B.Sc. – combine business courses with any science courses from Biology and Psychology to Environmental & Resource Science and Forensic Science
5. Business Administration Minor – combine business as a minor with literally any other Arts or Science major – if you can imagine it, you can do it in business at Trent

"At Trent I wasn’t just a passive recipient of knowledge, but rather a co-creator of my own intellectual capacity."

DON TAPSCOTT ‘66, Trent University chancellor, alumnus, bestselling author and ranked as one of the world’s top five business thinkers

BACHELOR OF BUSINESS ADMINISTRATION (B.B.A.)

Innovators, leaders, entrepreneurs, business professionals and game changers – this is exactly what Trent prepares our students to be. Through an integrated approach spanning corporate, self-employment, online, small business and other models, you will learn fundamentals of leadership, management, gaining a deep understanding of the organization of business and its role in a changing world. Your studies will include a broad foundation of business knowledge through delivery of core courses across business areas beginning in first year. Choose to focus in one of several specializations, or connect your interest in business with other study areas through Trent’s commitment to interdisciplinary learning.

The Trent Business Advantage

- Prepare for your CPA designation or spring board to an M.B.A.
- Specialize in Accounting, Entrepreneurship, Finance, Marketing and Consumer Culture, Human Resource Management, Niigaaniiwin: The Art of Leading, Economics, Ethics and Sustainability, or Information Systems and E-Commerce
- Acquire real-world professional experience through a variety of opportunities, including upper year for-credit internships, community-based research projects, the Trent Business Students’ Association, and participating in national student business competitions
- Benefit from a human-scale approach to teaching, and the knowledge and expertise of a dedicated alumni community of business leaders and mentors

Career Paths
Corporate, Small-Business and Non-Profit Leader; Accountant; CEO; Investment Banking; Indigenous Business Development; Marketing; Public Relations; Human Resources; Entrepreneur; Arts Administration; Asset Management; Consultant; International Business; Fundraiser

Popular Courses
Management Skills; Entrepreneurship; Financial Accounting; Leadership, Training and Development: A Cross-Cultural Approach; Ethics and Capitalism; Advertising

trentu.ca/futurestudents/businessadmin

BUSINESS AND ARTS (JOINT- MAJOR B.A.)
BUSINESS AND SCIENCE (JOINT-MAJOR B.SC.)

The joint major (B.A. or B.Sc.) allows students to combine business with any other academic interest.

Why Trent?
- Study at the only university in Canada to offer a wide range of joint majors in Business Administration for more career choice and flexibility
- Create a unique educational focus based on your interests with an interdisciplinary knowledge base
- Pursue a fourth-year “legacy project” that will leave a lasting impact from your time at Trent
- Join a community affiliated with the United Nations Principles for Responsible Management and Education

**CANADIAN STUDIES (B.A.)**

**SCHOOL FOR THE STUDY OF CANADA**

Challenge yourself at all levels of study to explore issues of relevance to Canada, and what it means to be Canadian through a critical examination of themes such as sovereignty, nationalism, health and aging, the environment, indigeneity, regionalism, multiculturalism, immigration, labour, and more. One of the first programs of its kind in Canada, Canadian Studies at Trent will offer you unparalleled insight into the life and history of Canada, and how the nation and its people have evolved to who we are today.

**The Trent Advantage**
- Study at the new School for the Study of Canada – home to over 40 scholars who study Canada, many of them national and international experts in their field
- Work with community groups on research projects or participate in student retreats at Windy Pine, the department’s lakeside cottage conference centre
- Generous awards, bursaries and major scholarships available specifically for Canadian Studies majors

**Career Paths**
- Biographer; Public Administrator; Community Relations Consultant; Diplomat; Immigration Officer; Lawyer; Policy Analyst; Public Policy Officer; Journalist; Teacher

**Popular Courses**
- Gender and Disability in Canada; Canada: The Land; Canadian Women’s Writing; Security, Surveillance and the Making of the Contemporary Canadian State; Canada in the 1960s; First Nations and the Welfare State; Northern Summer Field Course; Documenting Canada

**Popular Joint Major**
- Canadian Studies & Business

Diploma in Canadian Studies also available

[Link to futurestudents.canadianstudies]

---

**CHEMICAL PHYSICS (B.Sc.)**

As a student of Chemical Physics, you will explore the physics and chemistry of molecular and atomic-scale systems and condensed matter, and the techniques required to develop an understanding of the fundamental principles of our physical and chemical world. You will gain the knowledge and skills to conduct quantitative research, preparing you for employment or graduate studies in fields such as science, technology and engineering.

**The Trent Advantage**
- Benefit from the delivery of a focused program offering personal interaction and mentoring from award-winning faculty
- Participate in exciting hands-on research with faculty as a student research assistant
- Develop your own research through a one- or two-semester project course

**Career Paths**
- Climate Modeler; Biophysicist; Electron Microscopist; Electronics Developer; Nuclear Scientist; Materials Researcher; Patent Lawyer; Teacher

**Popular Courses**
- Quantum Mechanics and Reaction Kinetics; Thermodynamics; Photochemistry; Electricity and Magnetism

[Link to futurestudents/chemphysics]

---

**CHEMISTRY (B.Sc.)**

Research in chemistry explores and uncovers the properties of chemicals and their diverse chemistries in different environments. As a chemistry student, you will contribute directly to these discoveries and will gain experience in modern chemical research design and methods. Chemistry is the central science, and you will learn how this discipline contributes to, and is enhanced by, all other physical and life sciences.

**The Trent Advantage**
- Specialize in organic, inorganic, physical and analytical chemistry, or biochemistry, and take advantage of course options supported by the departments of Physics, Biology and Environmental and Resource Science/Society
- Study in a program accredited by the Canadian Society for Chemistry, and benefit from opportunities to assist faculty in research or develop independent research projects
- Gain experience with special equipment for modern experimental and theoretical chemistry, including spectrophotometers, ion trap mass spectrometers, gas and high-performance liquid chromatography equipment

**Career Paths**
- Anesthesiologist; Corrosion Analyst; Environmental Lawyer; Food and Drug Inspector; Industrial Hygienist; Pharmacist; Quality Control; Medical Doctor; Veterinarian

**Popular Courses**
- Analytical Chemistry; Biochemical Concepts; Atmospheric Environmental Chemistry; Modern Organic Synthesis; Photochemistry

[Link to futurestudents/chemistry]

---

"Choosing the Chemical Physics program at Trent, I found there was a certain advantage over other programs in the sciences. You get all of the rigour and the completeness of a Physics degree, and then I found that the Chemistry end of it really helps with awareness of the field. I learned in all sorts of upper-year specialty courses about instrumentation. You get both this broad scope view of both fields and you get a deep understanding of physics and chemistry."

ALAN GODFREY, recent Chemical Physics graduate, Champlain College

Pictured here with his twin brother, James, who also graduated with a degree in Chemical Physics
CHILD AND YOUTH STUDIES (B.A.)
A unique new interdisciplinary degree program, Child and Youth Studies is offered exclusively at our Durham campus and focuses on how children and youth learn through play. With strong foundations in sociology, psychology, education and the humanities, this degree inspires students to think deeply about the perspectives and experiences of child and youth. You will learn about child and youth rights and legal issues, and how children develop emotionally, socially, artistically, intellectually and physically. The program also has a rich focus on creative engagement, theatre and the arts.

The Trent Advantage
- Gain invaluable work experience through our full-year community placement working with local school boards, health centres, community agencies, group homes, or youth services
- Get a head start on a teaching career through our direct pathway into Trent’s Consecutive Bachelor of Education (B.Ed.) program through a number of reserved spaces
- Study exclusively at our growing GTA campus and benefit from a close-knit campus community, and getting to know your professors one-on-one

Career Paths
Social Worker; Child and Youth Worker; Youth Program Developer; Counsellor; Teacher; Advocacy Practitioner; Legal Practitioner

Popular Courses
Child and Youth Theory and Voice; Playful Pedagogy; Child and Youth Rights and Legal Issues; Children, Youth and Creative Engagement; Educational Contexts of Children, Youth & Learning

trentu.ca/futurestudents/childyouth

COMMUNICATIONS & CRITICAL THINKING (B.A.)
Prepare yourself for a long and satisfying career in a variety of fields with this three-year program, exclusive to Trent University Durham. Communications and Critical Thinking encourages you to develop durable and transferable skills, prized by a variety of employers. By encouraging you to combine a few core courses – in project management, writing, research, and numeracy, for example – with ones (selected by you) from other programs, you’ll learn to become a creative, logical, and integrative thinker and a clear communicator.

The Trent Advantage
- Study in a supportive and vibrant small-classroom environment
- Challenge yourself with academically rigorous, relevant, and diverse course material
- Enjoy the benefits of experiential learning, especially in a final-year project, researching and responding to a local issue or question

Career Paths
Project Manager; Lawyer; Professional Administrator; Communications Strategist; Research Officer; Corporate Education Planner; Government Worker

Popular Courses
Introduction to Interdisciplinary Study; Happiness; Math for Everyday Life; Critical Thinking; Write in Time; Write It Up; Effective Communication; Becoming Digital; Fundamentals of Project Management

trentu.ca/futurestudents/commstudies

COMPUTING SYSTEMS (B.A. OR B.Sc.)
Are you interested in becoming a part of the exciting and rapidly-growing information technology industry? This is a field which impacts all disciplines and has redefined how we work, interact, and conduct our day-to-day lives. This degree will equip you with the necessary skills required for a successful career in the ever-changing technology sector. For more in-depth studies, the Computing Systems stream offers three Specializations in the B.Sc. option: Computer Science, Data Analytics, and Software Engineering.

The Trent Advantage
- Personalized experience with professors who are experts in their fields and who can provide a well-rounded view from the technical, business and cultural perspectives
- Progressive use of the latest science and digital technologies
- Hands-on, real-world experience through our third-year internship course and fourth-year project course

Career Paths
Database Administrator; Software Developer; Network Administrator; Research Scientist; Software Engineer; Systems Analyst; Website Developer; Mobile Application Developer; Computer Security; Technical Writer; Data Scientist

Popular Courses
High Performance Computing; Web Application Development; Computer Crime & Forensics; Artificial Intelligence; Systems Programming; Human-Computer Interaction; Data Mining; Computer Graphics; Software Engineering Project; Database Management Systems

trentu.ca/futurestudents/compsystems

COMPUTING SYSTEMS & PHYSICS (B.Sc.)
Computing Systems & Physics at Trent is ideal for people seeking careers in high-tech fields or graduate studies in physics or computer science. You will study hardware/software interfaces, electronics, software design, networks, distributed operating systems, and the underlying principles of physics and mathematics. You will gain an understanding of leading-edge technology combined with a foundation in physics that will help you answer questions about the particles and forces composing our universe, and the rich complexities that arise through their interactions.

The Trent Advantage
- Benefit from small-group lab work that will complement theoretical studies
- Gain experience through summer research opportunities or project courses
- Develop a strong foundation for further education through graduate studies in M.Sc., Ph.D. and beyond

Career Paths
Database Administrator; Information Systems Specialist; Network Specialist; Robotics; Research Scientist; Software Developer; Software Engineer; Systems Analyst; Website Designer

Popular Courses
Computer Organization; Electricity and Magnetism; High Performance Computing; Introductory Quantum Physics; Modern Optics; Statistical and Thermal Physics
trentu.ca/futurestudents/compphysics

Popular Joint Majors
trentu.ca/futurestudents/compsystems

TRENT UNIVERSITY
CULTURAL STUDIES (B.A.)

In one of the only programs of its kind in Canada, Cultural Studies students explore critical cultural issues, media-related tendencies, art and its diverse landscape, and film. Through a range of courses you’ll be engaged in visual arts, cultural theory, media, film, theatre, music, and creative writing. In this program, you will learn to question and analyze the notion of culture itself, to decode its complex systems of messages, and ultimately, understand how culture finds meaning in our everyday lives.

The Trent Advantage
- Specialize in Arts, Comparative Literature, Film, Video and Media, or Social Thought, or take a comprehensive approach
- Create culture yourself through workshops taught by renowned theatre directors, artists, musicians, writers, and filmmakers
- Study at the home of internationally-renowned journal, Theory & Event

Career Paths
Advertising and Marketing Executive; Director; Author; Cultural Events Planner; Museum and Heritage Consultant; Radio or Television Producer; Videographer; Communications Specialist; Journalist; Cultural Critic

Popular Courses
Media and Society; Civilization and Human Nature; Science Fiction; World Cinema; Issues in Global Media; Music and Society; Mass Media and Popular Culture; Visual Arts Studios; Theatre Workshops

Popular Joint Major
Cultural Studies & Business

trentu.ca/futurestudents/culturalstudies

ECOLOGICAL RESTORATION (B.Sc.)

Called the “ecology of hope,” Ecological Restoration offers a positive response to environmental degradation. The study of Ecological Restoration takes a big picture approach, working with ecological principles that you can apply to any ecosystem or project. This unique program will give you the practical and theoretical knowledge needed to make your stand in the green revolution by helping restore our natural environment for present and future generations. This exciting program combines the strengths of Trent University and Fleming College. Applications are made to Fleming College through the Ontario College Application Service (OCAS).

The Trent Advantage
- Experience the best of university and college by connecting theory and principles with hands-on practical application in the field
- Integrate knowledge from a broad range of disciplines, including ecology, aquatic biology, hydrology, botany and social science
- Gain experience through field camps, field courses and community-based research projects

Career Paths
Landscape Restoration Ecologist; Shoreline Naturalization Biologist; Watershed Planning Technician; Wetland Habitat Ecologist; Watershed Restorationist; Reclamation Ecologist

Popular Courses
Restoration Ecology; Environmental Ethics; Ecological Design; Environmental Law and Regulation; Ecology and the Management of Wetland Systems; Indigenous Environmental Studies

trentu.ca/futurestudents/ecologicalrestoration

ECONOMICS (B.A. OR B.Sc.)

Study the impact that individuals, businesses, financial institutions, and governments have on the economy. Through your studies, you will gain an understanding of the methods and tools required to analyze complex economic issues, such as unemployment, inflation, economic growth and the regulation of the market structure. You will use national and international data to explore trends and tendencies and to test economic models.

The Trent Advantage
- Gain experience through participation in faculty research during your undergraduate degree
- Benefit from small-group classes, seminars and workshops
- Undertake individual research projects using economic modeling tools

Career Paths
Financial Analyst; Business Risk Consultant; Economic Journalist; Foreign Service Officer; Fundraising Coordinator; Institutional Research Analyst; Politician; Investment Banking Analyst; Health Policy Planner; Market Research Analyst

Popular Courses
The Canadian Economy; Public Economics; International Economics; Environmental Economics; Health Economics; The Economics of Developing Countries; Managerial Economics

Popular Joint Majors
Economics & Business

trentu.ca/futurestudents/economics

94% OF TREAT GRADS ARE EMPLOYED 2 YEARS AFTER GRADUATION
90% AFTER SIX MONTHS
SCHOOL OF EDUCATION & PROFESSIONAL LEARNING

TEACHER EDUCATION STREAM (B.A. OR B.Sc.)

This program provides students with a strong foundation for application to a consecutive B.Ed. teacher education program, and ultimately the teaching profession. In this program, you will have the unique opportunity to design your B.A. or B.Sc. degree according to your interests and gain practical and theoretical knowledge through course work, participation in two workshops per year on current issues in education, and 75 hours (over four years) of experiential placements. The Teacher Education Stream is recommended as the best pathway to take at Trent for those undergraduate students who know they want to become teachers.

The Trent Advantage
- Guaranteed entry into Trent’s competitive two-year Bachelor of Education (B.Ed.) program upon successful completion of all requirements with a minimum average of 80%
- Workshops linked to the priorities of Ontario curriculum guidelines, including: environmental education, Indigenous knowledge, and social justice themes
- Benefit from one-to-one interactions with faculty and staff, collaborative opportunities with colleagues, and alternative field experience placements

Career Paths
Teacher; Child Care Worker; Educational Author; Publisher; Curriculum Developer; Educational Researcher; Outdoor Educator

Popular Courses
Learning Styles and Teaching Children with Special Needs; Mathematics for Teacher Education; Physical Science for Teacher Education; Environmental Education

trentu.ca/futurestudents/tes

EMPHASIS IN TEACHER EDUCATION (B.A. OR B.Sc.)

The Emphasis in Teacher Education program provides a pathway for those who want the option to pursue education, but who are not yet certain they will continue on to a B.Ed. This emphasis is available to Trent students in a single or joint major honours program and provides students with customized course work so that they are well positioned to pursue a B.Ed. (This does not guarantee admission into the Consecutive B.Ed. program.)

The Trent Advantage
- Foundational course work provides students with skills and knowledge specialized to educators for future employment
- Transcripts of students who complete the program contain a special notation trentu.ca/futurestudents/teachered

BACHELOR OF EDUCATION (B.Ed.)

The Consecutive Education program is available upon completion of an undergraduate degree, and certifies successful candidates to teach at the Elementary or Secondary level in Ontario. This two-year program combines attention to individual learners in small class settings with a community-based approach. The program is guided by a philosophy of ecological and social justice, recognition of learner diversity and well-being, curriculum excellence, and a commitment to professionalism. Students apply the theory and skills they learn in their courses to the classroom and think critically about their practice.

The Trent Advantage
- Expertise in special needs education, government and public policy, youth and recreational education, environmental mentorship, curriculum expertise, and Indigenous knowledge
- Exceptional award-winning faculty
- A unique literacy program, including a literacy placement
- Alternate field placements that provide you more different experiences in education outside the traditional classroom setting

Career Paths
Teacher; Career Counsellor; Curriculum Designer; Literacy Specialist; Training Expert; Educational Researcher; School Administrator
trentu.ca/futurestudents/bed

INDIGENOUS BACHELOR OF EDUCATION (B.Ed.)

This new concurrent program of professional education puts Indigenous knowledge and perspectives at the forefront of teacher training and provides self-identified First Nations, Métis, Inuit and Indigenous students from around the world, with the opportunity to become Indigenous teachers. A fully-accredited educational experience, this integrated five-year program is the first of its kind in North America and offers students three years of general studies and two years of professional studies.

The Trent Advantage
- Opportunities to attend traditional gatherings, and connect with elders and the surrounding Indigenous communities – urban and rural
- Entry from high school or through transfer agreements with local community colleges or First Nations Education Institutes, giving eligible students credit for past educational experiences
- Placement opportunities in every year, Mohawk or Ojibwe language instruction in first year, and learning opportunities on the land and water

Career Paths
Teacher; Counsellor; Government Worker; Policy Officer; Educational Consultant; Indigenous Education Advisor
trentu.ca/futurestudents/indged

“Trent offers an excellent range of high quality programs for undergrads and grads for those seeking a B.Ed., additional qualifications, or an M.Ed. We are proud of the leading-edge teaching and research by our faculty, the exceptional students in our programs and the strong partnerships with local school boards and community groups.”

DR. CATHY BRUCE, dean of the School of Education
trentu.ca/education @TrentUSoE
**ENGLISH LITERATURE (B.A.)**

Studying English Literature at Trent will prepare you for any career that demands creativity, critical inquiry, and strong communication and writing skills. Explore history and culture through language, with literature courses spanning the medieval centuries to the global world of today. Seminar and workshop classes provide opportunities for discussion, critical thinking, and one-on-one interaction with leading scholars.

**The Trent Advantage**
- Develop a solid foundation for graduate studies and/or professional studies
- Engage with authors during guest lectures and study with award-winning faculty dedicated to teaching and research
- Explore alternative learning methods, including dramatic performances, music, peer-assessed active learning, blogging, or take your love of books international through the Barbara Rooke Travel Prize

**Career Paths**
- Broadcaster; Librarian; Public Relations Specialist; Teacher; Writer; Translator; Archivist; Editor; Communications Strategist; Arts Critic; Researcher; Content Manager; Marketing Specialist; Publicist

**Popular Courses**
- American Horror; CanLit; Shakespeare for the Classroom and Stage; Children’s Literature; Literature & Globalization; Popular Fiction; Producing Punk; Modern Irish Literature; Theatre & Journalism; Writing the Body; SickLit

**Popular Joint Major**
- English & Business; English & History; English & Media Studies; English & Psychology; English & Sociology

**TRENT — ESL: ENGLISH FOR UNIVERSITY**

Trent-ESL offers intensive English language preparation for university success. In small classes, you will build your language, research, and academic skills and become engaged in campus life. Conditional admission means that you will have a guaranteed position in your degree program once you complete Trent-ESL. While studying in Trent-ESL, you are a full member of the university community, with options to live in residence, participate in extra-curricular activities, and become involved with campus life.

**The Trent Advantage**
- An average class size of 14 students means you receive exceptional personalized attention
- In Foundations for University I and II, you can begin taking credit courses towards your degree
- Foundations for University prepares students for all degree programs with discipline specific assignments and vocabulary
- Dedicated support staff and orientation programs are available to you to help you succeed in your studies
- Flexible programming with four start times each year (September, January, April, and June)

[enugucl.ca/futurestudents/esl](enugucl.ca/futurestudents/esl)

---

**ENVIRONMENTAL CHEMISTRY (B.Sc.)**

Discover the environment at the molecular level and how it influences life at the global level. Your studies in Environmental Chemistry will address contemporary issues in modelling the behaviour and fate of molecules in the environment. In this program you will explore the sources and cycles of chemicals, their interactions with organisms and responses to contaminants in the local and global world.

**The Trent Advantage**
- Work with advanced instrumentation and learn modern analytical techniques in state-of-the-art laboratory facilities
- Learn to approach environmental problems from a multi-disciplinary perspective
- Gain real-life research experience working with professors and research groups

**Career Paths**
- Analytical Laboratory Technician; Environmental Auditor; Environmental Health Inspector; Research Scientist; Hydrogeologist; Pollution Control Engineer; Environmental Modeler

**Popular Courses**
- Atmospheric Environmental Chemistry; Aquatic Environmental Chemistry; Ocean and River Chemistry; Chromatography; Environmental Air Pollution; Environmental Toxicology

[enugucl.ca/futurestudents/envirochem](enugucl.ca/futurestudents/envirochem)

---

**SCHOOL OF THE ENVIRONMENT**

“One of the big things that Trent has demonstrated for me, is that for most people, careers are non-linear. People can earn one degree and end up in a completely different field, enjoying everything they do. Knowing I’m graduating with an English degree and don’t have to do something stereotypical with it, was an important lesson, and a liberating one. This knowledge will continue to impact how I think about my future.”

**BILLIE CLARKE** recent English Literature graduate from Trent University Durham

Spent a year studying abroad in the UK and is now pursuing a postgraduate certificate in Human Resources Management
NO BETTER PLACE TO STUDY THE ENVIRONMENT

At Trent, we are proud of our long-standing reputation as a pioneer and an innovator in the field of environmental education. If you want to be part of the next generation of global environmental leaders, working to solve our world’s most pressing environmental concerns, there is no place better to do that than here at Trent. From state-of-the-art research facilities and faculty who are world-renowned as experts in their field, to our unparalleled natural environment and 12 on-campus nature reserves, the Trent School of the Environment offers it all – and we want you to join us!

trentu.ca/environment

ENVIRONMENTAL GEOSCIENCE* (B.Sc.)

The Environmental Geoscience program here at Canada’s leading environmental university integrates the disciplines of geology, biology, chemistry and geography. As a student in this new program, you will have the opportunity to study the interaction between human activities and earth systems alongside some of the world’s leading environmental researchers and scientists. Not only will you receive specialized training in environmental geoscience, including techniques used in geotechnical investigations, you will also be able to apply your learning into practice in the field and through hands-on research.

The Trent Advantage
• Gain hands-on experience putting theory into action through a placement in the field that utilizes your geoscience techniques
• Further your knowledge and experience with a capstone experiential learning opportunity in your fourth year
• Gain the academic credentials required to register as a Professional Geoscientist (PGeo) in Training upon successful completion of this program

Career Paths
Environmental Geoscientist; Geomorphologist; Environmental Consultant; Geochemist; Earth Scientist; Hydrogeologist; Environmental Geologist; Teacher

Popular Courses
Applied and Environmental Geophysics; Field Methods in Environmental Geoscience; Introduction to Mineralogy and Petrology; Structural Geology

trentu.ca/envirogeoscience

ENVIRONMENTAL & RESOURCE STUDIES/SCIENCE (B.A. OR B.Sc.)

Now more than ever, the world needs environmental leaders. As a student in one of Canada’s leading environmental programs you will acquire the knowledge essential to understanding our environment and to creating a sustainable future. Choose to complete a B.Sc. or B.A. in the exciting field of ERS and study and explore such topics as: the scientific, political and social impacts of climate change; the political and managerial dimensions of natural resource and environmental problems; and understand the impacts of pollutants on the environment along with management and political solutions.

The Trent Advantage
• Study in the first environmental science program to be accredited by Environmental Careers Organization (ECO) Canada
• Choose from the broadest range of environmental courses available at any Canadian university
• Gain practical field and laboratory skills working with internationally recognized environmental scientists, through honours projects and community-based research projects, or spend a year studying abroad in international research placements

Career Paths
Ecologist; Eco-Tourism Professional; Energy Consultant; Environmental Activist; Environmental Educator; Environmental Impact Assessment Specialist; Fisheries Biologist; Natural Resources Manager; Policy Advisor

Popular Courses
Environmental Science and Politics; Global Environmental Policy; Pollution Ecology; Environment and Development; Climatic Change

trentu.ca/futurestudents/ers

BACHELOR OF ENVIRONMENTAL SCIENCE/STUDIES (B.E.S.S.)

As a B.E.S.S. student at one of Canada’s top postsecondary environmental institutions, develop a strong understanding of solutions to natural resource and environmental problems and learn how to combine scientific and social knowledge effectively in this interdisciplinary joint arts-science degree. You will gain an understanding of the scientific aspects of contemporary environmental issues that are linked to policy and planning decisions leading to an environmentally sustainable future. Your studies will address environmental challenges, science, policy and politics from multiple perspectives.

The Trent Advantage
• Learn how to integrate science and policy to understand and solve environmental problems
• Develop skills in state-of-the-art labs and facilities, and utilize the extensive living laboratory provided by Trent’s natural setting
• Apply your knowledge addressing local and regional environmental issues in community-based research placements

Career Paths
Environment Protection Officer; Environmental Educator; Environmental Engineer; Environmental Risk Assessor; Policy Advisor; Urban and Regional Planner

Popular Courses
Environmental Science and Politics; Ecological Assessment for Natural Resources Management; Ecology & Management of Wetland Systems; Urban Environments; Environmental Health; Sustainable Innovation

trentu.ca/futurestudents/bess

* pending Ministry approval and accreditation from the Association of Professional Geoscientists of Canada. Prospective students are advised that offers of admission to a new program may be made only after the University’s own quality assurance processes have been completed and the Ontario Universities Council on Quality Assurance has approved the program.
BACHELOR OF SCIENCE IN FORENSIC SCIENCE (B.Sc.F.S.)

Forensics is the investigative science behind the law. This program combines theory and practice to give you the confidence and skills to excel in this fascinating field. Award-winning faculty and leading professionals bring Trent students an extensive working knowledge of a diverse range of topics, along with current developments in the field. Gain hard skills and real-world experience to prepare for a professional career.

The Trent Advantage
• Access Canada’s Research Chair in DNA Profiling, Forensics and Functional Genomics, and benefit from Trent’s partnership with the Ontario Ministry of Natural Resources and Forestry
• Work directly with scientists in the lab and professionals in the field
• Hone your investigative skills in blood spatter analysis, finger printing, and evidence recovery in mock crime scenes at Trent’s Crime Scene House

Career Paths
Crime Scene Technician; Criminalist; DNA Analyst; Forensic Pathologist; Medical Research Scientist; Pharmaceutical Marketing; Document Analyst; Police Officer; Research Scientist; Social Worker; Wildlife Forensic Scientist

Popular Courses
Crime Scene Investigation; Trends in Forensic Science; Biocrime and Bioterrorism; Computer Crime and Forensics; Presentation of Forensic Evidence; Species-at-Risk Biology and Policy

trentu.ca/futurestudents/forensicscience

FORENSICS AND ARTS (JOINT-MAJOR B.A.)

The joint major (B.A. or B.Sc.) allows students to combine Forensic Science with any other academic interest as a joint major.

The Trent Advantage
• Study in the only university in Canada to offer a wide range of joint majors in Forensic Science
• Create a unique educational focus based on your interests with an interdisciplinary knowledge base
• Gain access to outstanding faculty and cutting edge labs, and benefit from the opportunity to get involved in community-based or self-directed research, or summer employment opportunities

trentu.ca/futurestudents/forensicsjoint

COMBINE FORENSICS WITH ANY OTHER PROGRAM OF YOUR CHOICE

Did you know Trent is the only university in Canada where you can combine your study of Forensics with another academic discipline of your choice, leading to an honours Bachelor of Arts or Bachelor of Science degree? Combine forensics with psychology, biology, computer sciences, chemistry, sociology, political studies, anthropology, or physics to create a one-of-a-kind degree.

trentu.ca/futurestudents/forensicscience

TRENT’S CRIME SCENE HOUSE

Where casework comes to life

Located right on campus, this two-storey farmhouse is where you will gain realistic hands-on training and experience the full spectrum of forensic analysis. Starting with the collection of evidence from mock crime scenes in and around the house, this is where you will learn how to process murder, assault, break and enter, and suicide crime scenes, before moving onto advanced techniques of search and seizure scenarios, body recovery and DNA collection. Forensic students use this unique learning environment during each year of study as a way to develop both practical and theoretical skills.

“Pursuing a joint-major degree in forensics allows students to create a strong interdisciplinary educational focus and become uniquely marketable professionals upon graduation.”

DR. JOANNA FREELAND, professor, Forensic Science
FRENCH STUDIES – MODERN LANGUAGES (B.A.)

Canada is a bilingual country and French is spoken all around the world. Immerse yourself in French, French Canadian, and Francophone literatures and cultures. From the specialization in Quebec Studies to the single-major Honours program, Trent provides a complete selection of French Studies degrees at the undergraduate level. Our program offers opportunities for all levels of learners, whether you are at a beginner level, or coming from Core French or Immersion, you will be placed in the class that is right for you. As you progress, you will explore great works of literature in their original language, and learn about the arts and cultures of the Francophonie. Career opportunities abound for graduates of French Studies.

The Trent Advantage
- You can choose to pursue a specialization in Quebec Studies
- Spend a year studying abroad in Nantes, France
- Embrace French-based events, including presentations by guest speakers, public readings, and student-run mini-conferences

Career Paths
Cultural Affairs Coordinator; Foreign Services Officer; Immigration Officer; Interpreter; Linguist; Marketing Consultant; Professor; Public Servant; Teacher; Translator; Writer

Popular Courses
Culture and Society; Franco-Ontarian Literature; Francophone Cinema; French Classicism; French Language Indigenous Literature; Translation; Quebec Novel

GENDER & WOMEN’S STUDIES (B.A.)

Gender is everywhere, influencing human behaviour and interactions, as well as social institutions. In this program you will explore a broad range of feminist perspectives on health, history, popular culture, law, the environment, social policy, and globalization. Develop an interdisciplinary understanding of gender relations as they interact with sexuality, race, class, age, and ability in local and global contexts. Study with leading scholars and innovative teachers, and engage with research and ideas that make social change. Study your passion while learning skills transferrable to everyday life and a full range of careers.

The Trent Advantage
- Learn from some of the foremost scholars in the country who are also inspiring teachers and active participants in research, education, and advocacy on a range of critical social issues
- Select courses from a range of exciting offerings and disciplines that develop general and specialized knowledge
- Enhance your skills and gain hands-on experience through community-based education opportunities

Career Paths
Social Worker; Lawyer; Policy Advisor; Community Development Worker; Counsellor; Healthcare Professional; Equity Advisor; Human Rights Advocate; Journalist; Teacher; Researcher; Professor; Program Manager

Popular Courses
Gender and Popular Culture; Criminalizing Women; Contemporary Feminisms; Gender, Sexualities and the Law; Queer Feminisms; The Revolution Will Be Recorded; Popular Culture, Gender, and Social Movements; Doing Feminist Research: Making Social Change

Geography (B.A. OR B.Sc.)

SCHOOL OF THE ENVIRONMENT

Geography at Trent is more than learning in a classroom. It’s an expedition. You will learn about real-world issues and critical perspectives related to both human and physical geography. You will explore complex issues such as the causes and impacts of climate change, health geography, water resources, and the historical roots of geopolitical conflicts. At Trent, we believe the best way to learn geography is through an interactive environment. Small group learning and experiences outside of the classroom are pillars of the program.

The Trent Advantage
- Experiment with state-of-the-art equipment like the Wind Tunnel Lab, and the Soil/Water Interaction and Transport Chamber
- Benefit from a variety of experienced-based options, such as methods courses, fieldwork, community-based projects, and opportunities to assist with faculty research
- Obtain a focus in Geomatics, including spatial information systems and remote sensing

Career Paths
Urban Planner; Educator; Environmental Health Specialist; Environmental Policy Analyst; Community Development Officer; GIS Applications Specialist; Population Growth and Migration Specialist; Land Use Planner; Water Resources Manager; Geoscience Consultant

Popular Courses
The Global Climate System; Geography of Health and Healthcare; Geography of the Polar Regions; Community-Based Research in Geography; Urban Environments; Soil Science; Wilderness Resources

HISTORY (B.A.)

As a student in one of the largest programs at Trent, you will have the opportunity to engage with award-winning historians and an array of global specialties including: Europe, Canada, US, Russia, Asia, Africa, the Middle East, Latin America, and world expansion, from the Middle Ages to the 21st Century. You will develop exceptional research and communication skills that can be applied across many career options.

The Trent Advantage
- Benefit from small group discussion seminars taught by award-winning faculty
- Choose courses thematically, such as the Holocaust, incarceration, the Vietnam War or the family and sexuality, or by time period and location, such as the modern Middle East, Africa, Pre-Confederation Canada, or medieval Europe
- Spend a year studying abroad at one of many partner universities around the world, or in Peterborough studying Museum Management

Career Paths
Curator; Historic Preservation Officer; Teacher; Journalist; Historical Consultant; Diplomatic Corps; Military; Politician; Lawyer; Archivist; Producer; Administration; Writer; Librarian, Civil Servant

Popular Courses
Ten Days That Shook the World; The Environmental Crisis: From the Atomic Bomb to Global Warming; The History of Madness; The Soviet Experiment; Canadian History through Murder, Execution, Incarceration, the Vietnam War or the Family and Sexuality; The Holocaust, Incarceration, the Vietnam War or the Family and Sexuality

Popular Joint Majors
History & Business; History & Media Studies; History & Psychology; History & Sociology

trentu.ca/futurestudents/frenchstudies

trentu.ca/futurestudents/womensstudies

trentu.ca/futurestudents/geography

trentu.ca/futurestudents/history
While studying Human Resources Management (HRM) at Trent, you will consider not just what organizations do, but what human resources should do, and why. It is an experience that will shape you to be an HR leader of the future. The program approaches the topic of HRM – understanding how to attract and manage employees in today’s organizations – from a balanced perspective, weighing the needs of both employers and employees. This intensive postgraduate certificate program includes 11 half-year courses in Human Resources, Accounting, and Economics, which fulfill the course requirements for the Canadian Human Resources Professional (CHRP) designation.

The Trent Advantage
- Complete this professional certificate program in as little as eight months of full-time studies, or part-time in two years
- Gain the credentials and skills needed for your Certified Human Resources Professional (CHRP) designation

indigenous.diploma@trentu.ca/trentu.ca/futurestudents/hrmc

Trent’s Indigenous Environmental Studies/Science program is the first in North America to bring together the principles of both Indigenous knowledge and Western science. In this program you will explore complex topics such as resource development, climate change, sustainable communities and Indigenous health and environment. Applying an interdisciplinary cross-cultural approach, you will learn to generate solutions to the complex local, regional, national, and international issues facing Indigenous peoples and communities around the world.

The Trent Advantage
- Study IES through a unique interdisciplinary curriculum that includes Indigenous knowledge and Western learning
- Learn from Indigenous and non-Indigenous faculty, elders, guest speakers and other scholars.
- Gain valuable hands-on experience through field courses and experiential learning and exchange opportunities

Career Paths
Community Activist; Government Policy Specialist; Environmental Consultant; Aboriginal Corporate Liaison Officer; Environmental Activist; Environmental Educator; Natural Resources Manager

Popular Courses
Indigenous Peoples Health and Environment; Canada: The Land; Sustainable Indigenous Communities; Introduction to Indigenous Food Systems; Indigenous Environmental Research Protocol and Ethics

trentu.ca/futurestudents/ies

carving.a.path.innovation.ies@trentu.ca/carving.a.path.innovation.ies
**INDIGENOUS STUDIES** (B.A.)

Learn how Indigenous peoples in Canada and around the world are shaping our globe through a creative blend of Indigenous and Western knowledge. Here, you will study the historical and contemporary interactions between Indigenous and non-Indigenous societies, and the cultural foundations of Indigenous life in areas such as performance, literature, politics, ecology, and governance. Learn from exceptional faculty with backgrounds in both Western and Indigenous knowledge, and benefit from experiencing cross-cultural learning.

**The Trent Advantage**
- Study at the first university in Canada, and only second in North America, to establish an academic department dedicated to the study of Indigenous peoples
- Participate in experience-based learning through direct interactions with elders and traditional teachers
- Engage in hands-on research projects that make a difference in local communities

**Career Paths**
- Community Activist
- Government Policy Specialist
- Politician; Teacher; Journalist
- Aboriginal Corporate Liaison Officer

**Popular Courses**
- Foundations of Indigenous Learning: Introduction to Nishnaabemowin; Hill Tribes and Thai Culture; Indigenous Masked Dance and Storytelling; Urbanization and Indigenous Peoples; Images in Contemporary Media
- Trentu.ca/futurestudents/indigenousstudies

**INFORMATION SYSTEMS** (B.A. OR B.Sc.)

Virtually every organization and every field of study relies on computers in order to succeed in the Information Age. As a student in this program, you will look for better ways to get things done using computing technologies and explore how the world processes, manages, and communicates information. You will study the flow, storage, and access to information both within and across organizational boundaries with a unique understanding of both technical matters like databases, networks, data visualization and analysis and telecommunications, as well as non-technical matters such as ethics, law, and digital culture.

**The Trent Advantage**
- Personalized experience with professors who are experts in their fields and who can provide a well-rounded view from the technical, business and cultural perspectives
- Smaller classes with opportunities for one-on-one interaction with faculty
- The possibility of combining your field of interest with computer science for exciting job opportunities

**Career Paths**
- Information Systems Manager; Technical Support Specialist; Research Scientist; Business Systems Analyst; Systems Designer; Website Developer; Application Manager; Research Specialist; Technical Writer; Graduate Studies; Data Scientist

**Popular Courses**
- Systems Analysis and Design; Data Visualization; Web Application Development; Project Management; Digital Culture; Conceptional Analysis; Human-Computer Interaction; Principles of Online Marketing
- Trentu.ca/futurestudents/infoystems

**INTERNATIONAL DEVELOPMENT STUDIES** (B.A.)

Become a global citizen by examining the sources and consequences of human inequality from a global perspective. Through an interdisciplinary lens, you will explore wide-ranging themes such as global poverty and hunger, conflict, ecological degradation, gender relations, and cultural identity. Your studies will pay particular attention to the world’s most vulnerable populations and their complex relations with the most powerful countries and international organizations.

**The Trent Advantage**
- Study in an internationally-recognized program, the first developed in Canada
- Participate in experience-based learning through a program specific year-abroad program in either Ghana or Ecuador
- Gain a critical perspective on world issues through small group teaching and dedicated faculty members and choose to specialize in African Studies or Latin American Studies

**Career Paths**
- Human Rights Officer; Community Education Coordinator; Lawyer; Diplomat; Journalist; United Nations Official International Civil Servant; Filmmaker; Medical Doctor; Humanitarian Assistance Worker; Teacher; International Development Consultant

**Popular Courses**
- Human Inequality in Global Perspective; The World Food System; Media and Development; Law, Rights, and Development; Cause of War; Local Dynamics of Change; Global Migration; Global Health; Government and Politics in the Middle East

**Popular Joint Majors**
- International Development Studies & Business
- Trentu.ca/futurestudents/ids
INTERNATIONAL POLITICAL ECONOMY (B.A.)

This joint-major program explores the inter-connected nature of the study of politics and economics at international and global levels. Courses combine the study of politics with economics, international development studies, anthropology, business, Canadian studies, history, gender and women’s studies and more, offering graduates a strong foundation of knowledge for a broad range of career or postgraduate options.

The Trent Advantage
• Study an interdisciplinary curriculum drawing from a range of diverse programs
• Engage with approachable faculty in small class settings, bringing theory and practice together
• Explore this growing field of interest with renowned scholars representing a wide variety of academic backgrounds

Career Paths
International Affairs Agent; International Researcher or Advisor; Non-governmental Advisor; Diplomat; International Development Agent; Public Employee; Private Sector; Government

Popular Courses
Growth of the Global Economy; Literature and Globalization; Causes of War; Environment and Development; Government and Politics of the Middle East

JOURNALISM (B.A. OR B.Sc.)

Storytelling is at the heart of Trent’s fully-integrated journalism program, which prepares graduates to be informed, inquisitive, critically aware, and technically-skilled journalists. In this program, you will earn both an Ontario college advanced diploma in Journalism (online, print and broadcast) from Loyalist College, and a joint-major honours degree (B.A. or B.Sc.) in Journalism and another discipline of your choice from Trent. The program is based at both institutions, giving students a unique combination of services and access to faculty support and leading edge research, as well as technical facilities. Your degree and diploma can be completed together in four (Arts) or five (Science) years of full-time study, including some summer study.

The Trent Advantage
• Develop your journalism skills in a state-of-the-art, integrated newsroom where you will work simultaneously on audio, video, print, traditional broadcast and online media
• Build a comprehensive portfolio that documents your knowledge, skills and career readiness
• Participate in a final-year project in your area of specialization and an eight-week internship that will facilitate networking and career development

Career Paths
Writer, Editor; Digital Media Specialist; Social Media Manager; Producer, Director; Communications Specialist; Filmmaker; Broadcaster; Copywriter; Public Relations Consultant; Journalist

Popular Courses
Critical Thinking; Media and Society; Introduction to Philosophy; Moral and Political; Knowing and Wondering

KINESIOLOGY (B.HSc.)

The study of Kinesiology, now a regulated health profession in Ontario, will prepare you with the knowledge and skills to utilize physical activity in the treatment and prevention of injury and chronic disease. You will learn how to prescribe individualized exercise programs to improve or maintain health, functional capacity and well-being of a range of healthy and clinical populations. Trent University collaborates with the University of Ontario Institute of Technology (UOIT) to deliver this comprehensive program, in which the first two years are completed at Trent’s Peterborough campus, and years three and four at UOIT in Oshawa. You will have an opportunity to apply for internship placements in your fourth year of study.

The Trent Advantage
• Science-based curriculum to prepare students for future studies in the Exercise Sciences
• Take courses with Nursing students on topics such as applied life sciences, pathophysiology, epidemiology
• Access state-of-the-art labs and learning spaces, including the new kinesiology lab in the Trent Athletics Centre

Career Paths
Kinesiologist; Athletic Trainer; Sports Coach; Physical Therapist; Occupational Therapist; Medicine; Chiropractic Medicine; Podiatrist; Teacher; Professor; Researcher

Popular Courses
Anatomy of Movement; Brain and Body in Action; Exercise Physiology; Introductory Life Sciences; Health Promotion and Population Health; Nursing therapeutics and Disease Condition; Exercise Rehabilitation; Motor Behaviour and Developmental Disabilities

TESTING 1, 2, 3…

If you’re interested in a career in radio or journalism, look no further than Trent and our coveted CBC Radio Peter Gzowski Internship. For more than 10 years, this exciting internship has provided new Trent grads with the experience of a lifetime – working for four months in CBC offices across the country. Final year students at Trent in any program are welcome to apply and for many Trent interns, the program leads to full-time employment with the CBC and beyond.
MARKETING & ENTREPRENEURSHIP — POSTGRADUATE CERTIFICATE

Are you interested in starting your own business, patenting an idea, or working in a corporation or small enterprise? In a world that thrives off of innovation, creative thinking and savvy ideas, this program will help you develop your business acumen and better prepare you for a rewarding career in marketing, sales, product development or brand management. You will explore everything you need to know about the strategic implementation of ideas from the incubation phase to the marketplace. Topics such as entrepreneurship, marketing, branding, and advertising will be covered in order to provide you with the foundational tools to start a business, pursue a passion for research and innovation, or simply to improve marketability to potential employers. This intensive postgraduate certificate program is open to students who hold an undergraduate degree from any accredited university. The certificate can be taken full-time or part-time and can be completed in as little as eight months.

trentu.ca/futurestudents/mec

MATHEMATICS (B.Sc.)

More than simply the study of numbers, Mathematics is the exploration of abstract mental universes and the application of pure reason. In this program you will learn about the fundamental structure of the universe and the limits of human reason. Develop a new way of looking at the world around you by learning about the systems and structures that underpin all of nature.

The Trent Advantage
- Explore your interests in both pure and applied mathematics, and choose from a variety of streams in Mathematics and related disciplines, including a specialization in Mathematical Finance
- Learn in small groups working alongside faculty dedicated to challenging and strengthening your skills
- Participate in summer research opportunities or get involved with the Math Society of Trent (MASCOT)

Career Paths
Economist; Rate Analyst; Financial Auditor; Account Executive Economic Advisor; Econometrician; Financial Analyst; Teacher; University Professor; Industry Researcher; Banker; Investor; Insurance Analyst; NGO; United Nations Departments (e.g. UNDP, WHO); World Bank; International Monetary Fund

Popular Courses
Calculus; Linear Algebra; Statistics; Mathematical Reasoning; Number Theory; Mathematical Risk Management; Mathematical Finance; History of Mathematics; Combinatorics; Graph Theory; Mathematical Modelling

Popular Joint Majors
Mathematics & Business

trentu.ca/futurestudents/math

LAW & ARTS:
TRENT/SWANSEA DUAL DEGREE (LL.B. AND B.A.)

Are you interested in pursuing a future career in law? In this unique new dual degree opportunity, you can complete a Bachelor of Arts Honours degree at Trent University, and also obtain a Law degree from Swansea University in the UK, in just six years. Not only will you graduate with two degrees, you will also have the opportunity to take your education global, while you learn, travel, explore and live in the UK.

Your studies begin at Trent for years 1 and 2 where you will pursue one of nine Bachelor of Arts Honours degrees. In year 3, you will transfer to the picturesque coastal city of Swansea in the UK to complete three years of law at Swansea University, where you will obtain your LL.B. degree. For year 6, you will return to Trent and complete your Honours degree credentials, and take several Canadian Law courses that will help prepare you for your required National Committee on Accreditation (NCA) exams, allowing you to take the bar exam and practice law in Canada.

The Trent/Swansea Advantage
- Complete a dual degree, earning your B.A. Honours and your LL.B. in just six years
- Combine your interest in law with another passion, choosing from a wide variety of B.A. programs (see below)
- Direct admission to a renowned and respected common law program upon completion of your first two years at Trent – no need to apply separately or write the LSATs
- Guaranteed residence for your first year at Trent AND your first year at Swansea

B.A. Degree Program Options
Canadian Studies; English Literature; Environmental & Resource Studies; Gender & Women’s Studies; History; International Development Studies; Philosophy; Political Studies; Sociology

Popular Courses
Human Inequality in Global Perspective; The World Food System; Media and Development; Law, Rights, and Development; Cause of War; Local Dynamics of Change; Global Migration; Global Health; Government and Politics in the Middle East

Career Paths
Lawyer; Paralegal; Mediator; Politician; Policy Analyst; Consultant; Law Clerk; Judge

trentu.ca/futurestudents/law
**Mathematical Economics (B.Sc.)**

The study of Mathematical Economics helps us understand complex and ever-changing economic dilemmas by examining the production and dissemination of scarce resources. Combining core courses in economics with mathematics, you will learn how to analyze games of strategy, bargaining and auctions (game theory), how to make sense of complex economic data (econometrics), how to maximize profit and minimize costs (optimization) and how to maximize happiness (welfare economics).

**The Trent Advantage**
- Challenge yourself with complex material delivered in small-group learning environments, accompanied by one-on-one support to help you achieve your personal educational goals
- Gain knowledge and skills ideal for graduate studies in Economics or for a career in government, banking, or industry
- Get involved in summer research opportunities working alongside leading experts and faculty dedicated to challenging and strengthening your skills

**Career Paths**
- Economist; Rate Analyst; Financial Auditor; Account Executive Economic Advisor; Econometrician; Financial Analyst; Banker; Investor; Insurance Analyst; NGO; United Nations Departments (e.g., UNDP, WHO); World Bank; International Monetary Fund

**Popular Courses**
- Statistics for Economics and Management; Mathematical Economics and Economics Models; Statistical Inference; Econometrics; Linear Programming; Econometrics; Mathematical Risk Management

**Mathematical Physics (B.Sc.)**

An understanding of Mathematical Physics is essential to understanding many topics, from celestial mechanics to the issue of global climate change. Physics is the most fundamental of the natural sciences, and mathematics is the language of physics. This program develops, in parallel, experience with the central theoretical frameworks of physics and facility with the mathematical methods that form the foundation and tools of physics.

**The Trent Advantage**
- Choose from courses focused on astrophysics, condensed matter physics, relativity and differential geometry
- Gain knowledge and skills ideal for graduate studies in theoretical physics
- Challenge yourself with complex material delivered to you in supportive, small-group settings

**Career Paths**
- Aerodynamics Specialist; Research and Development; Astrophysicist; Cosmologist; Professor; Subatomic Physicist; Superconductivity Researcher; Financial Analyst; Secondary School Teacher

**Popular Courses**
- Ordinary Differential Equations; Classical Mechanics; Methods of Applied Mathematics; Computational Physics; Quantum Mechanics; Condensed Matter Physics; Partial Differential Equations

**Media Studies (B.A.)**

Media Studies is a new, dynamic field, and one that’s vital for understanding the mediated environment that we inhabit every day. In Trent’s Media Studies program, you’ll learn to navigate this environment by marrying theory and practice. You’ll study the influence of advertising and ideology, the economics of media corporations, and the principles of consumer design. You’ll also gain real, hands-on experience: fabricate 3D printed objects; try your hand at circuit bending; shoot on Super 8mm and 16mm film; create fake social media profiles; and more.

**The Trent Advantage**
- Draw from an interdisciplinary curriculum including different disciplines in the humanities (like cultural studies), the social sciences (like anthropology), and the sciences (like computing and information systems)
- Situate the media in comparative and historical contexts, learning about its past, analyzing its present, and speculating on its future
- Earn credit for doing media: writing zines, composing music, coding videogames, reporting news, programming radio shows, and more

**Career Paths**
- Advertising Executive; Teacher; Journalist; Media Consultant; Content Manager; Digital Media Officer

**Popular Courses**
- Global Media; Workshop in Experimental Film; Advertising; Virtual Worlds; The Anthropology of Online Communities; Multimedia and Design; Human-Computer Interaction; Producing Punk

**Popular Joint Majors**
- Media Studies & Business; Media Studies & Psychology; Media Studies & Sociology

**In the Media Studies program at Trent I’ve been able to cultivate my own learning experience. My profs have encouraged me to explore subjects that I find interesting, unlocking my passion for learning, and equipping me with a unique set of skills that I will be able to apply to a future career.”**

SAMANTHA MOSS, Media Studies student
TRENT/FLEMING SCHOOL OF NURSING

BACHELOR OF SCIENCE IN NURSING (B.Sc.N.)

The Trent/Fleming School of Nursing emphasizes a holistic approach to healthcare. Graduates of the collaborative and compressed programs are well-known in the industry as critical thinkers whose compassion and scientific knowledge are rooted in the values of professional and social responsibility.

Accredited by the Canadian Association of Schools of Nursing, the program spans a variety of nursing contexts. Starting in first year, theory and practice occur simultaneously, and skills are developed through lectures, seminars, case studies, simulation labs, online coursework, and clinical practice. By the final year of study, students will have had the opportunity to practice nursing in a range of hospital and community settings.

The Trent Advantage

• Learn in our state-of-the-art Life and Health Sciences facility, home to simulation labs including the new Clinical Simulation Learning Centre (CSLC), as well as a maternal/child and community care simulation space
• Gain more than 1,300 hours of clinical, hands-on experience over four years of study
• Benefit from the opportunity to present your work at regional conferences and attend talks by leading thinkers in healthcare and health promotion
• Develop a strong understanding of social justice and political advocacy in the healthcare environment
• Choose courses from an innovative curriculum, with topics ranging from aging, environmental, Indigenous, rural, and women’s health

Career Paths
Acute Care; Home Care; Long-term or Complex Continuing Care; Child, Mental or Public Health Nurse; Research; Education

Popular Courses
Transcultural Concepts in Healthcare; Biomedical Ethics; Transitions in Health and Illness; Rural Nursing Practice; Contemporary Issues in Aging and Health

trentu.ca/futurestudents/nursing

4 PROGRAM OPTIONS

The Trent/Fleming School of Nursing offers four program options in partnership with Fleming College and George Brown College:

1. Integrated, collaborative four-year program leading to a Bachelor of Science in Nursing (B.Sc.N.) Degree
2. Compressed 28-month program for students with sufficient university credits to fast track through the program
3. Post-bridge RPN to B.Sc.N. pathway program
4. Diploma in Foundations of Indigenous Studies for Future Nursing Students

“The Trent/Fleming School of Nursing focuses on holistic nursing and challenges students to work both independently and in a group environment and all in a very down-to-earth, yet academic setting.”

HANNAH SILK, recipient of a Health Professional Student Research Voucher from the Canadian Institute of Health Research

Dean of Trent/Fleming School of Nursing Named President of CASN

Reflecting Trent University’s high status in the nursing community, Dr. Kirsten Woodend, dean of the Trent/Fleming School of Nursing, has been installed as president of the Canadian Association of Schools of Nursing (CASN), the national voice for more than 90 institutions that offer baccalaureate and graduate nursing programs and the accrediting body for nursing schools in Canada. “It’s another indication of the high level of engagement that Trent has with nursing educators across Canada,” Dr. Woodend said.
PHILOSOPHY (B.A.)

What do you believe, and why? Philosophy can help with the answers. You will study fundamental questions about the world and your place in it. As a student of philosophy at Trent, you can explore questions about the nature of reality, the meaning of human existence, ethics, and the limits of knowledge. Students of philosophy develop advanced skills in critical thinking, problem-solving, and communication – valuable foundations in any number of career choices.

The Trent Advantage
- Explore topics such as logic and morality, and the connections between philosophy and other fields in our cross-listed courses
- Experience the annual Ryle Lecture series and other philosophy events that allow you to engage with world-renowned philosophers
- Become part of a vibrant philosophical community of students in Trent’s oldest undergraduate club, the Philosophical Society

Career Paths
Doctor; Lawyer; Human Resources Executive; Human Rights Officer; Journalist; Public Relations Professional; Equity Advisor; Ethics Consultant; Marketing Executive

Popular Courses
Critical Thinking; Love and Desire; Philosophy of Law; Moral Issues; Philosophy of Emotion; Cyberethics; Advanced Topics in Biomedical Ethics

Popular Joint Majors
Philosophy & Business; Philosophy & Economics

trentu.ca/futurestudents/philosophy

PHYSICS (B.Sc.)

Discoveries in physics and astronomy continue to broaden our understanding of the universe and advance space exploration, speed up communications, assist medical and environmental fields, and lead to new innovations such as functional magnetic resonance imaging (fMRI), and high-density computer memory. You will learn to bring abstract yet powerful concepts to life, ask important questions about the most basic particles and forces in nature, and apply what you learn to complex systems such as novel quantum materials and celestial bodies.

The Trent Advantage
- Learn through innovative and interactive teaching methods, studying in a constantly evolving environment with new techniques that faculty develop and incorporate into curriculum
- Get involved in the leading-edge research of award-winning faculty, or explore your own research interests through independent research projects
- Choose to spend a year studying abroad

Career Paths
Astronomer; Climate Modeler; Electronics Developer; Meteorologist; Nuclear Reactor Operator; Patent Lawyer; Planetary Geologist; Physicist; Teacher

Popular Courses
Astrobiology: Life in the Universe; Thermal Physics; Modern Optics; Nuclear and Particle Physics; Condensed Matter Physics; Astrophysics; Galaxies and Cosmology

trentu.ca/futurestudents/physics

POLITICAL STUDIES (B.A.)

Politics impacts all aspects of life, and importantly, quality of life. In Political Studies at Trent, you will find yourself debating and exploring ideas around democracy and global politics as you examine power relations and relationships between the state, business, and citizens. It is exciting and enlightening to learn how these relationships influence each of our lives, and more broadly, political, economic, and social change nationally and internationally. Our small class sizes and interactive student-professor relationships build confidence, skills, and knowledge for a variety of careers.

The Trent Advantage
- Explore democracy and its global challenges, focusing on world politics, Canadian politics, or political theory
- Benefit from many experiential learning opportunities such as community-based research and internships, or participate in a study abroad opportunity
- Pursue the Emphasis in Law and Policy or combine your studies with just about any subject you choose

Career Paths
Policy Professional; Journalist; Lawyer; International Relations Specialist; Media Consultant; Civil Servant; NGO Staffer; Public Relations Officer; Politician; Political Assistant; Lobbyist; Political Researcher and Consultant

Popular Courses
World Politics; The Political Imagination; The Politics of Creativity; Green Politics; The Body Politic/The Body In Politics; Justice and Rights

Popular Joint Majors
Political Studies & Business; Political Studies & Forensics

trentu.ca/futurestudents/politics

“One of the great things about Philosophy is that it branches into all other disciplines. If you have an interest in Psychology or the mind you can take Philosophy of Mind. There’s also Philosophy of Sport and, if you’re interested in History, there’s Ancient Philosophy. Want a job in law or in the public sector? Ethics is very applicable for that. Even if you’re not majoring in Philosophy, there seems to be a Philosophy class for everyone.”

ADAM RYAN
Philosophy student
PRE-LAW PATHWAYS
(B.A. OR B.Sc.)

Your future in law starts at Trent. Regardless of which B.A. or B.Sc. program you choose, Trent is known for exceptionally preparing students with the foundational knowledge and skill set needed to be successful in LSAT examinations and law school applications.

The Trent Advantage
- Gain the critical thinking, reading and writing skills necessary to prepare for the LSAT examination
- Enjoy the opportunity to study your passion, giving you breadth and knowledge on a subject area of your choice, and combine it with your interest in law
- Experience small class sizes and a personalized learning environment with faculty who know you on an individual basis, will support you and care about your success

Your Pathways
If you wish to specialize your degree further by exploring the study of law, at Trent you have two options to enhance your degree:

1. Emphasis in Law and Policy
   Explore courses that provide you with an understanding of the legal system in Canada and prepare you with a critical reflection on legal and policy questions, as well as issues concerning advocacy and public issues.

2. Option in Legal Studies
   Complement virtually any B.A or B.Sc. degree with courses designed to give you a basic understanding about the legal system in Canada and Canadian Law.

looking for direct entry into Law School?
Look no further! The new Law & Arts: Trent/ Swansea Dual Degree (LL.B. & B.A.) allows you to study globally as well as complete your B.A. and your LL.B. in just six years (see more on page 48).

“...many students go on to study in various medical programs. Those students have come back to me and they’ve said one of the smartest decisions they’ve made, personally and categorically, was to come to a small school like Trent. With a smaller class size, it’s easier for students to have a much greater degree of exposure to research laboratories and hands on experience... which is looked at favourably by medical schools.”

DR. DAVID ELLIS, Professor of Chemistry

PRE-MEDICAL PATHWAYS
(B.A. OR B.Sc.)

Considering a career in medicine, dentistry, pharmacy or veterinary science? Trent University is the perfect place to start your journey. With medical schools recognizing the importance of not only science degrees, but also the strength of having a well-rounded education that incorporates the humanities and social sciences, Trent is strongly recognized for preparing students with the necessary skills and qualities that medical and professional schools are seeking.

The Trent Advantage
- A long standing tradition of helping students build a comprehensive portfolio in both the arts and sciences that provides a unique advantage when applying to medical school
- Unparalleled undergraduate research opportunities
- Laboratory experience starting in your first year in state-of-the-art facilities
- Internships and valuable real-world experience in health-care related settings
- A personalized learning environment with faculty who know you on an individual basis and care about your success
- Flexibility to mix and match your interests, combining courses across different disciplines to give you that diverse, rounded learning experience that medical schools are looking for

Trent Premedical Student Society
Join the Trent Premedical Student Society group and receive support and resources from other like-minded students continuing on to medical school.
PSYCHOLOGY (B.A. OR B.Sc.)

Psychology is defined as the scientific study of behaviour and the mind. You will study the principles of behaviour through lectures, labs, seminars and research. Explore topics from sleep and dreams to health, sexuality, and perception. You will acquire both research skills and a broadly-based background in the basic content of the discipline, combined with the opportunity at upper levels to focus on more specialized topics.

The Trent Advantage

• Participate in ongoing research in areas such as sleep, dreams, sexuality, anxiety, emotional intelligence, health, language impairment, perception, and memory with renowned faculty and leading experts
• Develop your problem solving, inter-personal relations and critical thinking skills while learning to understand, interpret and evaluate research
• Undertake an undergraduate independent research thesis or research practicum and work one-on-one under the supervision of award-winning faculty

Career Paths

Advertising; Therapist; Counsellor; Crisis Intervention Officer; Human Resources; Marketing; Police Officer; Rehabilitation Advisor; Social Worker; Sports Psychologist; Technology and Design

Popular Courses

Personality Theory; Cognitive Psychology; Child Development; Physiological Psychology; Dreams and Dreaming; Abnormal Psychology; Psychology of Evil; Environmental Psychology

Popular Joint Majors

Psychology & Business; Psychology & Economics; Psychology & Forensics; Psychology & Sociology

trentu.ca/futurestudents/psychology

BACHELOR OF SOCIAL WORK (B.S.W.)

Social Workers are essential to the health of our society, providing communities, families and individuals the necessary supports and services to meet basic human needs, all while working towards creating the conditions necessary for social change and equality. Through this program’s interdisciplinary curriculum grounded in social justice, human rights, and cultural awareness, you will develop a strong foundation of clinical knowledge, critical thinking skills, and social responsibility. If you apply and succeed in entering our competitive professional years in years 3 and 4, you will have the opportunity to focus exclusively on social work theory and practice.

The Trent Advantage

• Benefit from more than 700 hours of hands-on placement in the professional years program, working with mental health associations, sexual assault centres, community counselling, shelters, social services and more
• Develop the vision, knowledge, and skills necessary for ethical practice in the field by working alongside renowned leaders and researchers in the field
• Graduate from an accredited social work program that qualifies you for success in your chosen social work career path

Career Paths

Social Worker, Counsellor; Community Developer; Child Welfare; Corrections; Medical Social Work; Social Policy Analyst

Popular Courses

Introduction to Social Welfare; Social Work Leadership; Anti-oppressive Child Welfare; Integrated Feminist Trauma Models; Social Work Communication

trentu.ca/futurestudents/socialwork

SOCIOMETRY (B.A.)

Sociology is the study of society and the processes and patterns of social relations that influence our everyday world. Rooted in the social sciences and inspired by a passion for social justice, this program engages students in understanding and acting on the consequences of social change. You will critically explore and question diverse cultures, social experiences, dynamics of power and inequality, and global changes that forge relations between individuals, groups, institutions and societies. Through a broad range of courses you will complete your studies with a heightened understanding of human relationships and society. A sociology degree is an excellent foundation for law school, teachers college, social work or similar programs.

The Trent Advantage

• Focus your degree and complete a specialization in Health Studies (new for 2017)
• Study in small group settings with leading experts and award-winning faculty
• Engage in experiential learning opportunities and conduct community-based research projects with local agencies

Career Paths

Social and Market Research; Community Development; Social Policy Analysis; Municipal, Provincial, Federal Civil Service; NGO Administration and Service; Criminal Justice and Social and Community Service

Popular Courses

Sociology of Education; Critical Criminology; Sociology of Health and Illness; Sociology of Families and Households; Aging and the Lifecourse; Culture and Society; Sociology of Law; Sociology of the Body

Popular Joint Majors

Sociology & Business

trentu.ca/futurestudents/sociology

“I was looking for a small community, somewhere that I would not be another face in the crowd, where I could combine academic pursuit with community engagement. I found all of this, and more, at Trent. Making the connection between theoretical knowledge and lived experience has been the most rewarding gift that I have received while in the classroom.”

CORNEL GREY

International student from Kingston, Jamaica

Sociology and English joint major, college life programmer and international student ambassador
SUSTAINABLE AGRICULTURE & FOOD SYSTEMS (B.A. OR B.Sc.)

SCHOOL OF THE ENVIRONMENT

Food is central to human life and to our civilization and there is growing interest in how we grow and consume food. Agriculture presents environmental, economic and social challenges, but also promises new ways of producing healthy, sustainable and affordable food. In this program, you will develop an interdisciplinary approach to understanding contemporary issues in organic food, farming, fair trade and many other aspects of food and agriculture from scientific, political and social perspectives.

The Trent Advantage

• Gain practical experience in agriculture at Trent’s experimental farm and rooftop gardens
• Participate in experiential learning opportunities through faculty and community research projects, the student-run organic café (The Seasoned Spoon), or in one of many environmental clubs or groups
• Take advantage of our specialization in Applied Agriculture, offered in cooperation with Fleming College’s Sustainable Agriculture Program

Career Paths

Agro-Tourism Operator; Community Food Activist; Food Policy Analyst; Land Use Consultant; Organic Farmer

Popular Courses

Environmental Implications of Agriculture; The World Food System; Ecological Agriculture; Soil Science; Culture and Food; Nutritional Anthropology

trentu.ca/futurestudents/agriculture

WATER SCIENCES (B.Sc.)

SCHOOL OF THE ENVIRONMENT

Freshwater systems are integral to the health of our planet and provide many essential ecosystem services, such as clean water, food, energy, recreation, climate regulation and waste assimilation. As human populations and economies grow, demand for these ecosystem services continue to increase. The B.Sc. in Water Sciences at Trent addresses contemporary water challenges from multiple perspectives, and responds to the large demand for professionals who can integrate science and policy to understand and solve issues associated with water and the aquatic environment.

The Trent Advantage

• Study with internationally-recognized water scientists in state-of-the-art labs and learning facilities
• Develop an interdisciplinary understanding of water issues by taking courses offered by several science departments
• Gain experience in the study of water and the aquatic environment in the field and laboratory

Career Paths

Environmental Impact Assessment Consultant; Hydrologist; Fisheries Manager; Drinking Water Policy Specialist; Regional Land and Water Resources Manager

Popular Courses

Limnology; Global Change of Aquatic Ecosystems; Aquatic Environmental Chemistry; Hydrology; Water Policy

trentu.ca/futurestudents/watersciences

GET YOUR HANDS DIRTY ON TRENT’S EXPERIMENTAL FARM

Sink your hands into the soil of Trent’s groundbreaking Sustainable Agriculture Experimental Farm and gain a wealth of experience. Trent’s very own, on-campus 33-acre living laboratory gives you the opportunity to dig-in, get your hands dirty and work alongside notable researchers, like Dr. Mehdi Sharifi, Canada Research Chair in Sustainable Agriculture. You’ll learn to cultivate the land and examine the viability of new crops to Canada – all while advancing the study of sustainable agriculture in real-time.
# ADMISSION REQUIREMENTS

**MINIMUM ADMISSION REQUIREMENTS FOR ALL PROGRAMS**

Ontario secondary school students are required to have the following for admission to Trent University:

- Ontario Secondary School Diploma with a minimum of six grade 12 4U or 4M courses
- A minimum 70% overall average calculated using the top six grade 12 4U or 4M courses unless otherwise specified in the chart below
- ENG4U with a minimum grade of 60%

For programs with additional requirements see the following charts.

### HOW TO APPLY

1. Check the admission requirements for your program choices.
2. Apply online through OUAC (Ontario Universities’ Application Centre). Visit [ouac.on.ca](http://ouac.on.ca)
3. Select your application type: OUAC 101 or OUAC 105, then follow the steps provided.
4. Trent University requires transcripts from all institutions you have attended.

Find your next steps at [trentu.ca/applying](http://trentu.ca/applying)

</tr>
</tbody>
</table>

A minimum 70% overall final average, calculated on grade 12 courses, is required. Grade 12 English at a minimum grade of 60% is required. Further program specific requirements can be found on page 55.

Admissions Outside of Canada

International Baccalaureate (IB)
Minimum overall score of 28 in International Baccalaureate Diploma (IB), including three courses at the higher level. Transfer credits may be offered for IB higher level courses with a minimum grade of 5.

General Certificate of Education (GCE)
Minimum ‘C’ grade in five O-level (or IGCSE) subjects and two A-level (A2) subjects, or minimum ‘C’ grade in four O-level (or IGCSE) subjects and three A-level (A2) subjects. Two AS subjects may be substituted for one A2 subject. English proficiency test waived with ‘C’ grade in O-level English. Transfer credits may be offered for A2 courses with ‘C’ grade or better.

United States Secondary School
Minimum ‘B’ average (3.0 GPA on a 4.0 scale) in a recognized academic grade 12 program with a minimum of 70% in grade 12 English and at least four different senior level academic subjects. Recommended combined SAT scores are currently under review. Composite ACT score of 24 recommended.

Other International Secondary Schools
For country-specific requirements, program prerequisites, or equivalencies to Ontario curriculum, contact tip@trentu.ca or visit trentu.ca/international

English Proficiency
The following test results are accepted as proof of English proficiency. Scores must be original, official results sent directly from test centre.

Language Test Minimum Score
TOEFL (institutional code 0896) 86 IBT
580 PBT with minimum TWE score of 4.5
IELTS 6.5, with no band lower than 6.0
CAEL 60
CPE C
MELAB 85 with no part below 80

Conditional Admission through Trent ESL
Trent-ESL offers intensive English language and academic skills preparation and allows gradual admission to degree studies for students who do not meet our English proficiency requirements or who feel they will benefit from additional language support.
