

TRENT UNIVERSITY OFFICE OF RESEARCH AND INNOVATION

**Appendix B: Trent Scientific Merit Review Form for Applicants**

<b>Principle Investigator:</b>	
<b>Department:</b>	
<b>Protocol Type (Wildlife, Lab, Teaching):</b>	
<b>Protocol Title and number:</b>	
<b>Animal Species:</b>	
<b>Key words:</b>	

This form is for the researchers who want to use live animals in research projects that are not linked to the external, peer-reviewed research grant awards (i.e., Tri-Council). It is meant to provide additional information, not included in the ROMEO AUP form, but required to review the scientific merit of the proposed research.

This form should be completed by the PI and forwarded to the Coordinator, Research Conduct and Reporting.

1. Describe Research Objectives of your study:

2. Describe Research Hypothesis of your study:

3. Describe Methodology/Experimental Design of your study:

4. Describe the expected Contributions of your study to the scientific knowledge:
