Message from the President

Welcome to a new academic year at Trent.

It is a privilege to be part of a university where students and faculty come together, across our Peterborough and Durham campuses, to learn with purpose and build community. Trent is *the* place to be and to become, shaped by the people you meet and the experiences you take on here.

At Trent, you will find an environment built on connection. We stand out by standing closer. That means you learn in close collaboration with faculty and peers, engaging deeply with ideas and applying your knowledge in meaningful ways. This approach reflects what defines a Trent education: thoughtful inquiry, relevant experiences and opportunities that open pathways to what comes next.

In a time when the role of universities continues to evolve, that experience matters. Trent prepares you with knowledge and the ability to think critically, adapt, and contribute to the world with confidence. Our graduates leave Trent ready to navigate change and to shape the communities and careers they enter.

This Academic Calendar is a guide to that journey. It outlines your program and options, and helps you make informed choices along the way. As you move through your studies, I encourage you to stay connected to the people and resources around you. Your college, your instructors, and student supports are here to help you succeed.

As you begin or continue your time at Trent, I hope you will take full advantage of what this community offers. In doing so, you will find your direction and contribute to the life of the University in ways that will stay with you long after you graduate.

I look forward to seeing you on campus and hearing about your experiences.

Cathy Bruce, PhD

President and Vice Chancellor

Using the Academic Calendar

The online version of this Calendar is the University's official version. In the case of a discrepancy between a printed version and the online version, the online Calendar will be considered accurate.

The University reserves the right to make changes after the publication of this Calendar. Any updates applicable to the current academic year will be posted online in a supplement. Previous versions of the Academic Calendar and accompanying supplements are available online and in the Office of the Registrar.

It is the responsibility of all students to familiarize themselves with the specific requirements for the degree or diploma that they seek. While advice and counselling are readily available, it is the students' responsibility to ensure that the courses in which they register fulfill their degree and program requirements

Effective Date of the Academic Calendar

The Academic Calendar is effective on May 1 of the year in which it is published. All policies, course information, and degree regulations apply to the Summer session unless otherwise indicated.

Disclaimer and Limitation of Liability

No liability shall be incurred by Trent University for loss or damage suffered or incurred by any student or third party as a result of delays, suspension or termination of services, practica, seminars, placements, courses or classes or other activities by reason of natural disasters, civil unrest or disobedience, labour disputes, work stoppages, strikes, lockouts, financial exigency, restrictive laws or governmental regulations, orders or directives, inability to procure materials, trades or labour, weather, regional or global outbreak of disease or other public health emergency, utility interruptions, damage to University property, acts of war or terrorism, threats to the safety or security of the University, its property, or people, or other happenings or occurrences beyond the reasonable control of Trent University.

In respect of any Claim for damages or indemnification by any person (a "Claimant") under the terms and conditions of this Calendar and its academic and non-academic regulations against Trent University or any of its employees, governors, members, officers, or agents (any of them, a "Defendant"), whether based in contract (whether or not a fundamental breach of contract), tort (including negligence), or otherwise, the Claimant's sole and exclusive remedy shall be to receive from the Defendants (in the aggregate) payment for actual and direct damages to a maximum aggregate amount for all such Claims equal to the fees payable and paid by the Claimant to Trent University respecting the services, practica, seminars, placements, courses or classes, or other activities governed under this Calendar in the twelve months preceding the Claim.

In no event shall Trent University be liable for any indirect, economic, special, punitive, commercial, incidental, exemplary, or consequential damages (including without limitation lost profits, loss of business revenue or earnings, lost data, damages caused by delays, or a failure to realize expected savings or revenue) directly or indirectly arising out of or in connection with delays, suspension or termination of services, practica, seminars, placements, courses or classes, or other activities, or the terms and conditions of this Calendar and its academic and non-academic regulations whether or not such damages could reasonably be foreseen or their likelihood was disclosed to the parties.

Jurisdiction/Governing Law

This Calendar, its rules and regulations, and the rights and obligations of the parties hereunder shall be governed by the laws of the Province of Ontario. Any action or proceeding for relief regarding these provisions shall be brought in the Province of Ontario.

Navigating the New Academic Calendar

Please use the following resources to learn more about how to navigate our new academic calendar website.

	28	Sunday	T2202 and T4A tax forms are posted to the student portal on myTrent
March	9	Tuesday	Final date for withdrawal from Winter-term courses—after this date students remain registered in Winter-term courses and receive final grades
	14	Sunday	Final date to submit documentation or requests to review full time OSAP for students studying Winter only or Fall/Winter term
	26	Friday	University closed: Good Friday
April	6	Tuesday	Last day of classes

			Final date to submit an Application to Graduate for May graduation
	9	Friday	Examinations begin for Winter courses and full-year Fall/Winter session courses (Peterborough and Durham, including all Nursing programs)
	23	Friday	Examinations end for Winter courses and full-year Fall/Winter session courses, 10:30 pm

Summer Session 2027

May	1	Saturday	Payment due for courses with a May start date
	7	Friday	Final date to request Summer session Letters of Permission
	24	Monday	University closed: Victoria Day
	24	Monday	Final date to submit applications for In-course Bursaries – Summer
June	1	Tuesday	Advance tuition deposit due
	11	Friday	Final date to submit grades for incomplete courses from Winter Term
	15	Tuesday	Payment due for courses with a June start date
July	5	Monday	Final date to petition for late withdrawal from Fall/Winter courses and Winter 2027 half-courses
			Final date to appeal final grades for Fall/Winter courses and Winter 2027 half-courses
	18	Sunday	Final date to submit appeals for In-course Bursaries - Summer
	24	Saturday	Final date to submit an Application to Graduate for September
August	2	Monday	University closed: Civic Holiday

Summer Session 2027 Deadlines

	12-week term (Full-Credit Courses)	6-week term (Full- and HalfCredit Courses	6-week term (Full- and HalfCredit Courses
	S12	S61	S62
Classes begin (week of)	May 3	May 3	June 16
Final date to add courses	May 3	May 3	June 16
Final date for students to notify the Office of the Registrar of their wish to observe their cultural or religious holidays during scheduled examination periods	May 3	May 3	June 16
Final date for withdrawal from courses— after this date students remain registered in courses and receive final grades	June 18	May 27	July 12
Classes end	July 27	June 11	July 27
Examination period (no classes for S12 term)	July 28 - 31	June 12 - 15	July 28 - 31

Undergraduate Academic Dates & Deadlines

Convocation Dates

Convocation is the formal ceremony for the conferral of degrees, diplomas and certificates, and a time-honoured tradition that celebrates every student's academic accomplishments. It is a commemoration of your life at Trent and an opportunity to share this significant milestone with your family and friends.

Please visit the Convocation website for dates and details.

Undergraduate Academic Information & Regulations

Undergraduate Academic Information & Regulations

Registration Procedures & Change of Status

Registration Procedures & Change of Status

Registration Procedures

Fall/Winter Session—Continuing Students (Full-Time and Part-Time)

Students normally register for Fall/Winter courses in June. Students may register on myTrent, with their entrance to the system governed by the number of credits completed by the end of the previous Fall/Winter session. Students who know that they will be unable to access myTrent from a remote location should contact the Office of the Registrar to inquire about what options may be available.

Fall/Winter courses are offered in both Peterborough and Durham, and online; locations of the courses are listed in the academic timetable on myTrent.

Summer Session—Continuing Students (Full-Time and Part-Time)

Students normally register for Summer session courses in February through myTrent. Summer session courses are offered in both Peterborough and Durham, and online. Details are available at trentu.ca/summer.

New Part-Time Students

Students new to university study, as well as transfer and readmit students, should consult the online resources to familiarize themselves with registration procedures and deadlines. Students are required to finalize their course selection and submit any changes by the published deadlines.

Official Registration

Official registration is complete when the student has registered in courses and forwarded the appropriate fee payment (or evidence of external financial support) to Student Accounts. Failure to complete this requirement by the University's published fee payment deadline will result in cancellation of all registration in courses and college residence assignments.

Students who have had their registration cancelled and wish to continue their studies must contact the Student Accounts Office for details on how to proceed with registration. Payment of fees or deposits related to tuition or residence does not excuse a student from compliance with deadlines or other procedures related to registration. Attending courses does not constitute official registration; students are required to register in courses using myTrent and to submit the appropriate tuition fees by the required due date. Students who have not registered by the due date will not receive a mark for the work completed and will not receive credit for the course.

Changing From Part-Time to Full-Time Studies

Students admitted on a part-time basis who wish to transfer to full-time status for the next Fall/ Winter session must submit a request via myTrent by the required date. The Office of the Registrar considers all applications following review of final marks in May. Notifications are e-mailed to students. The minimum requirements to transfer to full-time studies are: a current academic status of Good Standing, 3.0 or more Trent credits completed with a grade of 50% or higher, and a cumulative average of 60% or higher. Possession of the minimum requirements does not guarantee admission to full-time studies.

Changes, Withdrawals, Refunds

Once a student has registered in a course, a final grade will be assigned for that course unless the student withdraws from the course before the published deadline for withdrawal. The deadlines for dropping, adding, and withdrawing from courses are listed in the Undergraduate Academic Dates and Deadlines section of this Calendar. Students may be de-registered automatically from courses where the prerequisite standing has not been achieved.

Changes to Registration

Students wishing to drop or add courses must do so through myTrent before the drop and add deadlines.

Withdrawal from the University

Students wishing to withdraw from their studies at Trent University must fill out a Withdrawal Form, available online through myTrent. Trent International students must contact the Trent International office prior to completing the withdrawal form online. Students are encouraged to discuss their decision with an administrative staff person (academic advisor or Trent International advisor). Students with student loans or scholarships are advised to consult the Financial Aid Office regarding any financial implications prior to withdrawal. Students will not be considered withdrawn, and any refunding of fees will not occur, until the Withdrawal Form has been submitted online. Students living in residence will not be considered to be withdrawn from the University until their residence keys have been returned to the Housing Services Office. Note that students may temporarily withdraw from their studies for a period of up to 12 months without having to undergo the readmission process provided they have not attended another institution during this time. Students who have questions about the procedures and regulatory implications of withdrawal from the University may contact the Office of the Registrar.

Refunds

Please refer to the Fees section of this Calendar for information on the refund policy and schedule.

Late Withdrawal from Courses and from the University

"Late withdrawal" is withdrawal from courses, or from the University, after the applicable deadline as listed in the Undergraduate Academic Dates and Deadlines section of this Calendar. Students must petition for late withdrawal by completing the appropriate forms available through the Office of the Registrar. Petitions are considered by the Committee on Undergraduate Petitions (CUP).

Access to Instruction

Access to Instruction

It is Trent University's intent to create an inclusive learning environment. If a student has a disability and documentation from a regulated health care practitioner and feels that they may need accommodations to access course content, the student should contact the Student Accessibility Services Office at the respective campus as soon as possible. Disabilities include (but are not limited to) physical, sensory, medical, psychological, and learning disabilities.

To allow students with disabilities to participate actively and freely in courses, every reasonable effort will be made to provide appropriate accommodations as outlined by the Student Accessibility Services Office. A student's desire for anonymity is of utmost importance and confidentiality will be respected.

Sharing and Distribution of Course Content

Sharing and Distribution of Course Content

This policy applies to all members of the University community and covers all lectures, laboratories, seminars, assignments, exams, and any other University-sanctioned learning environment (including in-person and remote) in which course content is delivered.

Sharing and distribution of any course content, other than among individual students registered in the course, is not permitted without written permission of the instructor. Material recorded belongs to the instructor and can only be used for personal study of the course in question. The University requires anyone in possession of course content to safeguard the privacy and intellectual property rights of all persons in the learning environment. Regulations and limits surrounding the recording of class content are covered in the fair dealings section of the Federal Copyright Act.

- Students may use course content for personal educational purposes only. No other use of course content is permitted;
- Students are responsible for safeguarding any course content in their possession and for ensuring that it is not shared in any way that contravenes this policy;
- Any potential breach of privacy under this policy should be reported to academicintegrity@trentu.ca and will then be forwarded to the Access/Privacy Officer by the Office of the Provost & Vice President Academic;

- Students are not permitted to share course content without written permission of the instructor other than with other students registered in the course;
- Students are not permitted to upload or download course content other than for personal educational purposes.

Student breaches of this policy will be subject to the processes outlined in Trent University Charter of Student Rights and Responsibilities, the Undergraduate Academic Integrity Policy and/or the Graduate Academic Integrity Policy as determined appropriate by the Provost. Nothing in this policy precludes a student from sharing course content with an officer of the University.

Sensitive Personal and/or Confidential Information

Students and faculty have a shared responsibility to safeguard any sensitive personal information that might be shared during class.

Personal Information & Email

Personal Information & Email

Change of Name

The Office of the Registrar is committed to the integrity of its student records. Each student is therefore required to provide a legal name on the application for admission and in personal data required for registration. Any requests to change a legal name, by means of alteration, deletion, substitution, or addition, must be accompanied by appropriate supporting documentation.

Change of Address

It is the student's responsibility to maintain current and up-to-date mailing address, email, and contact information on the records of the University in order to receive pertinent mailings, including Tuition and Education Credit Certificates. Address changes and updates to contact information may be done through myTrent.

Email Accounts

At the time of first registration at the University, students are issued a Trent user ID and password and a Trent email account. The Trent email account is considered the official email account and will be the only email account used to communicate with students for academic and administrative purposes. Students are responsible for ensuring that they monitor and maintain their Trent email account and to ensure that email is accessed, read, and acted upon in a timely fashion. Students should be aware that emails from non-Trent accounts will not be considered official.

Course Information, Exams, and Final Grades

Course Information, Exams, and Final Grades

Course Numbering and Course Credits

Courses listed in this Calendar follow the form: SUBJ 1000. SUBJ refers to the department offering the course. The first digit refers to the level of the course.

Cross-Listed Courses

Many courses are cross-listed; that is, they are offered jointly by two or more departments. Cross-listed courses may not be double-counted in order to fulfill degree requirements. For example, BIOL 1060H is cross-listed with PHYS 1060H; it may be counted for credit as a Biology course or as a Physics course but not as both.

Course Credit Value

Each course number is followed by a letter suffix which denotes the credit value of that course.

SUFFIX	CREDIT VALUE		
Q	0.25 credit (or quarter credit)		
H	0.5 credit (or half-credit)		
Y	1.0 credit (or full-credit)		
C	1.5 credits		
D	2.0 credits		
P	non-credit co-op work term		

Course Syllabuses

Each course has a syllabus which includes the method of assessment and the grading scheme.

In some cases an instructor may judge that certain regulations are inappropriate for a particular course and may be granted a formal exemption from them by the appropriate dean (Humanities, Science, Social Sciences, Nursing or Education). Any such exemptions will be noted in the course syllabus.

The instructor reviews the syllabus with the students at the first class in the course. Any change thereafter in the grading scheme must be agreed to in writing by all students present at a subsequent class; at the class immediately following that one, the revised section of the syllabus must be posted or otherwise communicated.

Assignment Deadline Policy

Assignments (excluding take-home exams) in Fall/Winter courses due after the last day of class and worth more than 10% of the final grade in the course must be provided to students no later than two weeks before the last day of class.

Student Contact Hours

A full-credit classroom course normally consists of three class contact hours each week for the Fall/ Winter session (September to April) or 72 hours (36 hours for half-credit courses). Courses with a laboratory component will normally exceed three class contact hours per week. Summer session full- and half-credit courses represent the equivalent number of class contact hours within a shorter period of time.

Definition of Year

A student's progress towards a degree is measured in terms of credits earned rather than years of study completed. Where it is necessary or helpful to equate credits earned with years of study, the following table may be used:

CREDITS COMPLETED	YEAR EQUIVALENT		
4.5 or fewer credits	1		
5.0 to 9.5 credits	2		
10.0 to 14.5 credits	3		
15.0 credits or more	4		

Mid-year Marks

Mid-year marks for full-credit courses are available through myTrent in January to help students assess their academic performance; they do not represent official grades and do not appear on any formal document.

Formal Examination Period

Scheduling

With the exception of laboratory examinations in the sciences, no in-class tests or final examinations which are worth more than 10% of the final grade may be held during the last two weeks of classes in the Fall or Winter term. In the Summer session the period during which in-class tests and examinations may not be held is the last two weeks for twelve-week courses and the last week for six-week courses.

The examination schedule is designed to avoid conflicts and to ensure that no student writes more than twice within a calendar day. Note: a calendar day is defined as 00:00-24:00 for exam purposes. Students who have added courses after the examination schedule has been produced may be expected to write more than twice within a calendar day. In the case of take-home examinations or tests, the instructor assigns a submission date that must occur before the end of the examination period.

The writing time allotted is the same for all students in a course (with the exception of students registered with Student Accessibility Services; see below).

Students who wish to observe cultural or religious holidays during an examination period must notify the Office of the Registrar in writing by the last day to add courses each term (refer to Important Dates). If it is possible, scheduling will be adjusted to accommodate these dates. If it is not possible, students must submit a written request to their instructors for alternative arrangements, explaining the reason for the request and including supporting documentation.

Examinations and tests for students with disabilities who require disability-related supports (e.g., extra time or other assistance) are available. All requests must be made through Student Accessibility Services at least two weeks before the examination or test, and must be supported by appropriate documentation from a qualified health care diagnostician. Information regarding documentation guidelines is available from the Student Accessibility Services Office.

Student Identification – TrentU Card

Students must bring their TrentU Card to all examinations. Cards must be visible to the examination invigilator. Students who fail to produce a valid student card must report to the Office of the Dean of Arts & Science with their card by 1:00 pm on the next working day. Students whose names are not printed on an attendance list are not registered in the course. They must report to the Office of the Registrar by 1:00 pm on the next working day to clarify their status. Failure to do so will result in a grade of zero for the course.

Missed Examinations

Students who miss an examination for reasons beyond their control should consult with their instructor immediately. Alternate arrangements may be made at the instructor's discretion provided that the student has supplied supporting documentation. If such arrangements are not possible, students may request aegrotat standing (see Aegrotat Standing for the requirements for aegrotat standing).

Student Access to Graded Examination Papers

Graded examination papers are the property of the University and are not intended to be available to students. They may be seen by students only if a formal appeal of a final grade has been unsuccessful. Requests to see an examination paper must be made in writing to the Office of the Registrar. There is a fee for each request.

Grades and Grading Schemes

Courses are graded on a percentage scale, except for courses taken under a pass/fail option. Averages are calculated using the percentage grade assigned to the student for each course.

Numerical Equivalents of Letter Grades

A+	90–100%		C+	67–69%		F	0–49%	
A	85–89%		C	63–66%				
A-	80–84%		C-	60–62%				
B+	77–79%		D+	57–59%				
B	73–76%		D	53–56%				
B-	70–72%		D-	50–52%				

For courses offered by the Bachelor of Education (BEd) program:

P: 77% F: 0-76%
As of 2021–2022, the grade system is Pass/Fail. A pass is required in all BEd courses for the Consecutive Bachelor of Education degree and the Concurrent Bachelor of Education – Indigenous degree. Academic performance equivalent to a minimum grade of 77% will be required for a pass.

The following grades may also be used, but do not affect a student's average:

AUD—Audit
CH—Challenge for Credit
INC—Incomplete—has permission to complete
INP—In Progress
NCR—No Credit Granted
NGR—No Grade Reported
PRE—Pre-registered
WDN—Withdrawn
PASS
FAIL

The following grades may also be used and do affect a student's average:

AG—Aegrotat Standing
NTE—Nothing to Evaluate*
* In cases where a student has registered for a course, but did not attend and/or submit work for evaluation, a grade of NTE (Nothing to Evaluate) will be assigned. The NTE grade carries the percentage value of zero and will be used in Assessment of Academic Standing.

Auditing Courses

A student may register to audit certain courses at Trent University. Permission of the instructor is required; it is the student's responsibility to obtain permission from the course instructor to audit. Not all courses can be audited. Courses taken for audit will not count for credit towards the student's degree program, nor will the student be allowed to write final examinations or receive grades for courses which are audited. Courses which are audited will be recorded on the student's transcript and the term "AUD" will appear in lieu of a grade. Audit courses are not considered in calculating full-time or part-time status; audit courses will be considered for overload criteria. Applications to audit are available through the Office of the Registrar website.

Grading Criteria

The final grade in a course is based on at least some of the following criteria: in-term oral and written work, in-term or mid-year tests or examinations, final examinations, practica, and community-based projects. Normally, at least 25% of the grade in an undergraduate half-credit course offered in the Fall/Winter academic session must be determined and made available by the final date for withdrawal. For full-year undergraduate courses, at least 25% of the grade must normally be determined and made available before the mid-year review in January.

No final examination is worth more than 50% of the final grade. Instructors are encouraged not to base final grades entirely on tests and examinations.

Course Repeats

Students may repeat a course twice (three completions in total when the original attempt is included). This includes course equivalents attempted at Trent University or on a Letter of Permission at another institution. All attempts will appear on the students' academic records, but no more than one attempt will be assigned credit. The attempt with the highest grade will be used to determine the cumulative average.

Students enrolled in the Trent/Fleming School of Nursing program will only be allowed to repeat one Nursing theory course to raise their grade to 60% or higher and one Nursing practice course to obtain a pass.

Official Final Grades

Final grades are official 30 days after they have been released by the Office of the Registrar. If errors in the calculation or recording of grades come to light after the grades have been released, all affected grades may be recalculated and raised or lowered with the approval of the appropriate dean. This process must be completed, and corrected transcripts must be issued, however, before the 30-day period has passed. Instructors and/or departments are not permitted to release final grades. Final examination marks can be released to students only after final grades have been released by the Office of the Registrar. There is no time limit to reopen a grade in a case of academic dishonesty.

Difficulties with Completion of Coursework or Exams

Difficulties with Completion of Coursework or Exams

Student Absenteeism, Missed Tests and Examinations

Students are responsible for completing all mandatory course requirements, including attending classes, meeting assignment deadlines and completing examinations on the dates specified on their syllabus.

Normally students are not required to submit a doctor's note or supporting documentation as part of their request for accommodation; however, when a student's success in the course or program is in jeopardy, as determined by the instructor or chair/director, documentation may be requested. Under the Ontario Human Rights Commission (ORHC), a student cannot be asked to disclose the nature or diagnosis of an illness.

Students are required to be available for all tests, midterms, and exams that are scheduled by the instructor or the Office of the Registrar and listed in their course syllabus. Students can notify the Office of the Registrar of their wish to observe cultural or religious holidays during scheduled examination periods by the deadline set in the Academic Calendar. Personal travel plans are not acceptable reasons for missing tests, midterms, and exams. Adjustments and deferrals of tests and final examinations are not automatic. It is the student's responsibility to email their instructor immediately if they are unable to fulfill academic requirements. Depending on the program, either the instructor or the chair/director may decide on alternative arrangements for exams and tests.

Specific SAS accommodations can be implemented for students registered with Student Accessibility Services (SAS), but it is the responsibility of the student to make these arrangements in advance, and to discuss accommodations of due dates with their instructors. Adjustments to dates for assignment submission, tests and final examinations are not automatic.

Difficulties with Completion of Coursework

There are three options available to students who have difficulties with the completion of their coursework for reasons beyond their control: (1) if they cannot complete their coursework before the end of the academic session, they may request incomplete standing; (2) if they cannot write the final examination in the course, and arranging an alternate exam is not a reasonable option, they may request aegrotat standing; (3) if they wish to withdraw from the course altogether, but have missed the deadline for withdrawal, they may petition for late withdrawal. These three options are described in detail below.

1. Incomplete Standing

Incomplete standing permits students to prearrange with their instructor to submit any remaining work in a course by a specified date after the end of the academic session. Failure by students to organize their workload is not considered adequate grounds for incomplete standing. A petition for incomplete standing must be made to the instructor and approved by the chair before the department or program deadline (if there is one), but in any case before submission of final grades to the Office of the Registrar.

The instructor specifies the deadline for submission of outstanding work and the grade which will be assigned if the deadline is not met. The latest possible deadlines for the submission of outstanding grades are listed each term in the Undergraduate Academic Dates and Deadlines.

2. Aegrotat Standing

Students may, if eligible, be exempt from writing the final examination in a course. A request for aegrotat standing must be made to the instructor as soon as the relevant circumstances are known and normally before the scheduled examination time. Supporting documentation must be provided. An aegrotat standing is granted only if the student has completed the required term work with a passing average. Aegrotat standing marks are determined using a calculated final examination mark for the student in question. The examination mark is calculated by adding to the student's term mark the class final examination average minus the class term-work average.

3. Late Withdrawal

Late withdrawal may be granted to students who have missed the final date for withdrawal from courses but, for reasons judged to be compelling, have been unable to complete their coursework. A petition for late withdrawal is made to the Committee on Undergraduate Petitions through an academic advisor as soon as possible. The petition may be submitted up until the final deadline for late withdrawal 60 days after the start of the following academic term (which includes the summer term). If the petition is granted, the course will remain on the student's transcript with a grade of WDN (meaning withdrawn).

Academic Status

Academic Status

Assessment Average

A student's academic status is determined by a session average and/or by a cumulative average (see below). The initial assessment average is calculated at the end of the academic session in which students have attempted a minimum of 3.0 credits for which grades have been assigned. Thereafter, the cumulative and session averages are calculated at the end of each academic session. Transfer credits are not included in the cumulative average or assessment average.

Session Average

The session average includes all courses in the current session (Fall/Winter or Summer) for which a grade has been assigned.

Cumulative Average

The cumulative average includes all courses for which a grade has been assigned and excludes lower grades of courses that have been repeated. Cumulative average is used for the purposes of determining a student's eligibility to graduate and for the President's and Dean's Honour Rolls.

Categories of Academic Status

There are five categories of academic status: (1) Good Standing; (2) Probation; (3) Conditional Probation; (4) Academic Suspension; and (5) Suspension—Academic Dishonesty.

1. Good Standing

Students are in Good Standing if their cumulative average is at least 60%.

2. Probation

Students are placed on Probation if their cumulative average is 50–59.9% or if they are returning from Academic Suspension. Upon the next academic assessment, students will:

1. continue on Probation if their cumulative average is 50–59.9% and their session average is above 49.9%;
2. have their Probation lifted if their cumulative average is 60% or higher; or
3. be placed on Academic Suspension (see below) if their cumulative average OR session average is less than 50%.

3. Conditional Probation

Students who are accepted into the Fresh Start Program after being granted a petition against suspension by the Committee on Undergraduate Petitions will have their academic status updated to Conditional Probation. The student's status will be reviewed at the conclusion of each session (August for Summer courses, May for Fall/Winter courses). Students must achieve a minimum session average of at least 50% for courses completed in the next session. If at the end of the next session the cumulative average is above 49.9% but less than 60%, Probation is in effect (see 2 above).

4. Probation in Lieu of Suspension

Students continuing after academic suspension (or those on conditional probation) who achieve a session average above 49.9% but have a cumulative average of 49.9% or lower will be placed on probation in lieu of suspension.

Students may be given probation in lieu of suspension where academic status is assessed late and it would be disadvantageous to students to be removed from courses that have already begun.

5. Academic Suspension

Students are suspended from the University if their cumulative average is less than 50%. Students who had been on Probation are suspended if their session average OR their cumulative average is less than 50% upon the next academic assessment.

- First Academic Suspension: Students are suspended from the University for one calendar year.
- Second Academic Suspension: If a student is suspended a second time, the student will be suspended from the University for one calendar year (a second time).
- Debarment: If a student is suspended a third time, the student will be debarred from the University for a minimum of three calendar years.

For readmission to the University after a second Academic Suspension or Debarment, students must provide persuasive evidence that they are ready and able to complete a degree program (see Readmission).

6. Suspension—Academic Dishonesty

Students may be placed on suspension by the dean for repeated violations of the Academic Integrity Policy. Appeals of the dean's decision should be made to the Special Appeals Committee. Students seeking clarification on the appeals process may consult an academic advisor or seek advice from faculty members. There is no time limit to reopen a grade in a case of academic dishonesty.

Continuing Post-secondary Studies during Academic or Non-academic Suspension

Students who are on suspension will not be awarded transfer credits for the duration of an academic or non-academic suspension from Trent University. Studies completed at another post-secondary institution during the term of suspension may be considered as a basis for readmission to the University, but will not be eligible for transfer credit consideration.

Procedures for Students on Academic Suspension

Students who are placed on academic suspension may, through an academic advisor, petition the Committee on Undergraduate Petitions to have their status reconsidered. If the petition is successful and they are accepted into the Fresh Start Program, they will have their academic standing changed to Conditional Probation. Fresh Start students will be permitted to continue their studies at

a reduced course load under the supervision of their academic advisor for the Fall/Winter session immediately following placement on Academic Suspension. Students may enrol in the Fresh Start Program one time only. In some cases, the student may be allowed to return on Probation.

Academic Petitions and Appeals

Academic Petitions and Appeals

Students may appeal grades which they have received, regulations which have caused them undue hardship, the penalty of academic suspension, and penalties for academic dishonesty. As a last resort, students may appeal the results of previous petitions or appeals through a special appeal.

Appeals of Grades on Term Work

Appeals of grades on term assignments and tests are made to the course instructor and subsequently, if necessary, to the chair of the department or program. Students are advised to familiarize themselves with the appeals policy of the department or program involved.

Appeals of Final Grades

Appeals of final grades are made through a Grade Appeal - Final Mark application to the Office of the Registrar. There is a fee for each appeal, which is refunded if the grade is raised. The grade of a student who is making an appeal cannot be lowered as a result of that appeal.

Only the following work may be reassessed in appeals of final grades:

- term-work not returned to students before the submission of final grades to the Office of the Registrar; and
- final examinations.

The deadline to submit appeals of final grades is 60 days after the start of the following academic term. Students are informed of the results of appeals of final grades as soon as possible but, in any case, before the beginning of the next academic session after the appeal deadline.

Appeal for Academic Renewal

Academic renewal may be granted to students who are not eligible for late withdrawal, but for reasons judged to be compelling, are requesting to replace their grades in all courses (including those courses which were passed) in one or more academic terms with WDN (meaning withdrawn). No exceptions will be made. Students may not petition for academic renewal for any term in which there is an academic dishonesty transcript notation. For more details about the removal of transcript notations for academic dishonesty, see the Academic Integrity Policy. To be eligible for academic renewal, students must have subsequently completed at least 4.0 Trent credits with a cumulative average of at least 60% in these courses.

A petition for academic renewal is made to the Committee on Undergraduate Petitions through an academic advisor. If the petition is granted, all courses will remain on the student's transcript with a grade of WDN, and an academic renewal notation will be added to the transcript for that term. Courses with a grade of WDN carry no credit weight and will not be included in the calculation of cumulative average. These courses cannot be used as prerequisites or to fulfil program and/or university degree requirements. Students are only eligible for academic renewal once.

Appeals of Academic Regulations

Students who believe that specific academic regulations have imposed undue hardship on them may petition the application of the regulations to the Committee on Undergraduate Petitions through an academic advisor.

Special Appeals

If all other levels of appeals or petitions have been exhausted and have been unsuccessful, students may make an appeal to the Special Appeals Committee through the secretary of the committee. Such appeals must be made within four weeks of receipt of the previous ruling and must be in writing on the appropriate forms available from the Special Appeals website. All decisions of the Special Appeals Committee are final and take effect when issued.

Summary Table

The table below summarizes the procedures for petitions and appeals, indicating the appropriate situation for each ("why"), the persons responsible for dealing with them ("who"), and the deadlines for submission ("when"). It is intended only as a convenient summary. Before pursuing any of these options, students should consult the appropriate section of the Calendar where the official procedures and requirements are laid out in full.

Although the procedures outlined below have been designed to be as thorough as possible, there may be situations which are not adequately covered by any of them. In such cases, students are strongly advised to consult their instructor, the chair of their department or program, an academic advisor, or the appropriate dean.

Petitions Concerning Incomplete Work

Why		Who		When
Incomplete Standing				
You will be unable to complete your coursework by the end of term.		Course instructor (with the approval of the chair)		Before department or program deadline (if there is one), but in any case before submission of final grades.
Aegrotat Standing				
You will be unable to write the final examination.		Course instructor		Normally before final examination.
Late Withdrawal				
Due to extenuating circumstances, you were unable to meet the course withdrawal deadline and are not able to successfully complete the course.		Committee on Undergraduate Petitions (through academic advisor)		60 days after the start of the following academic term (which includes summer term). See deadlines in Calendar (see Undergraduate Academic Dates & Deadlines).

Appeals of Grades and Regulations

Why		Who		When
Term Work				
You wish to appeal a grade in a term assignment or test.		1. Course instructor 2. Chair (if necessary)		Before department or program deadline (if there is one), but in any case before submission of final grades.
Final Grades				
You wish to appeal a grade in a final examination or in term work which was not returned to you before the submission of final grades.		Office of the Registrar		60 days after the start of the following academic term (which includes summer term). See deadlines in Calendar (see Undergraduate Academic Dates & Deadlines).
Academic Regulations				
You wish to appeal an academic regulation.		Committee on Undergraduate Petitions (through an academic advisor)		Consult an academic advisor.
Appeal for Academic Renewal				
You wish to have the grades in one or more terms replaced with WDN.		Committee on Undergraduate Petitions (through an academic advisor)		Consult an academic advisor.
Appeals of Academic Suspension				
You have been suspended as a result of your academic standing.		Committee on Undergraduate Petitions (through an academic advisor)		By July 6 for the previous Fall/ Winter session, or within two weeks of receiving notice for the Summer session.
Appeals of Penalties for Academic Dishonesty				
You wish to have a penalty for academic dishonesty withdrawn (ranging from a zero grade on the assignment to expulsion from the University).		Dean for appeal of chair's ruling or registrar's ruling		Within two weeks of imposition of penalty.
Special Appeals				
You wish to appeal the result of any previous appeals or petitions.		Special Appeals Committee		Within four weeks of receipt of previous ruling.

Additional Academic Information

Academic Year and Sessions

The academic year begins on September 1 and is divided into two "sessions": the Fall/Winter session (normally beginning in September and ending in April) and the Summer session (normally beginning in May and ending in August). The Fall/Winter session contains full-year courses which are offered from September to April, Fall-term courses which are offered from September to December, and Winter-term courses which are offered from January to April. The Fall and Winter terms last for 12 weeks each, and contain one Reading Week per term. The Summer session comprises one twelve-week term or two six-week terms.

Recognizing that Reading Week is intended to provide the time for students to work on assignments and readings, instructors are not permitted to schedule tests or examinations, nor to assign additional readings, in undergraduate courses during the designated Reading Week (from the conclusion of classes on the Friday before Reading Week to the resumption of classes on the Monday following Reading Week). Some exceptions may apply in pre-approved field courses or experiential learning activities, as well as in programs that do not follow the regular academic schedule. In cases where extensions or other exemptions have been granted, those rearranged due dates may fall during a Reading Week.

The University offers field courses in many departments in the summer session. Details, including scheduling, of these courses are available from the departments concerned.

Academic Load and Course Overload

For academic purposes, a student registered in 2.0 credits or more per term or 3.5 credits or more over the Fall/Winter session is considered "full-time". A student registered in 1.5 credits or fewer per term or 3.0 credits or fewer in the Fall/Winter session is considered "part-time." It is not, however, the same definition that may be used for other purposes and students are advised to check with the applicable administrative office when determining their status.

Course overload for the Fall/Winter session is defined as enrolment in more than 2.5 credits (or equivalent) during the Fall term or the Winter term. Students enrolling in credits in addition to the normal full-time load are reminded that they are fully responsible for doing so and are cautioned against possible academic difficulties. Full-time students with an academic status of Good Standing may overload 0.5 credits in each of the Fall or Winter terms. Students with an academic status of Good Standing who wish to overload in more than 0.5 credits in the Fall or Winter terms must petition the Committee on Undergraduate Petitions (CUP) for approval of course overload. Students who do not have an academic status of Good Standing must petition to the Committee on Undergraduate Petitions for permission to overload.

Course overload for the Summer session: A full load in a six-week summer term is 1.0 credit. Students with an academic status of Good Standing may enrol in up to 1.5 credits in each six-week term. Students wishing to take more than 1.5 credits in a six-week term must submit a petition to the Committee on Undergraduate Petitions.

Notes:

- The maximums do not apply where a program's planned curriculum requires that students take an additional load.
- Upon registration, students are responsible for making themselves aware of the academic and financial obligations and deadlines associated with each course.

Letters of Permission

Students registered in an undergraduate degree program at Trent University may, with certain conditions, be permitted to take undergraduate courses at other universities as credits towards their Trent University degree. Students must obtain a Letter of Permission from the Office of the Registrar prior to registering in courses at another university.

Only courses completed on a Letter of Permission with a minimum grade of 60% will receive credit at Trent University and will be recorded as a "Pass" on the student's record. Courses completed with a grade between 50% and 59% will appear as "No Credit Granted (NCR)" on the student's record and will carry a credit weight of zero. A failing grade (0%–49%) earned on a Letter of Permission course will appear as a "Fail" on the student's record. Grades from courses completed on a Letter of Permission will not be included in the session or cumulative average. Courses taken on a Letter of Permission will count toward cumulative credit attempts.

To obtain a Letter of Permission, students must be in good academic standing and have an average of at least 60% on a minimum of 3.0 credits completed at Trent. Deadlines for Letter of Permission requests are listed in the Letter of Permission Guide.

For more details about study at foreign universities, see Study Abroad information.

Restrictions

- Students taking Summer courses at another post-secondary institution on a Letter of Permission may not attempt more than 2.0 credits.
- No more than 5.0 credits may be completed on a Letter of Permission. (For transfer students this number may be lower, depending on how many transfer credits they have received.)
- The total number of non-Trent credits in an Honours program may not exceed 10.0. The total number of non-Trent credits in a General program may not exceed 7.5.
- 5.0 of the last 7.0 credits obtained by a candidate for a Trent University degree must be completed at Trent unless program notes stipulate otherwise.

Notes

- Students who obtain a Letter of Permission should register at the host university as a Visiting Student rather than as a student in a degree program. Students who register in a degree program will jeopardize their registration status at Trent and will need to apply for readmission. A Letter of Permission issued to a student who subsequently transfers to another post-secondary institution will be considered invalid.
- Students who are granted a Letter of Permission to complete the final course(s) of their program at another university during the Fall/Winter session and intend to graduate in the spring convocation must provide grades to the Office of the Registrar in the form of an official transcript by May 1 in order to ensure that their names appear in the convocation program and that their diplomas are printed for the day of the ceremony. Students who are granted a Letter of Permission to complete the final course(s) of their program at another university during the Summer session and intend to graduate in the Fall must submit an official transcript to the Office of the Registrar as soon as possible after completion of the course for inclusion in the next Convocation Roll to Senate.

Official Results of Letter of Permission

Courses approved for a Letter of Permission will appear on a student's Trent University transcript with a status of INP (In Progress) at the time the Letter of Permission is issued. Students are required to make arrangements to have an official transcript forwarded to the Office of the Registrar upon completion of the course. Once the official transcript is received, the student's record will be updated with the completed course(s) and grade(s).

If an official transcript, or evidence of non-enrolment, is not forwarded to the Office of the Registrar within 60 calendar days of the end of the session specified in the Letter of Permission, a grade of Fail will be assigned.

Transcripts forwarded in support of Admissions or Financial Aid will not be considered official for Letter of Permission completion.

Application Process for a Letter of Permission

There are different application procedures depending upon where the student wishes to study. Check the website for details:

LOCATION OF HOST UNIVERSITY		APPLY TO:		TIMELINE:
Within Canada		Office of the Registrar		Varies, depending upon session
Outside Canada: Fall/Winter session		Office of the Registrar		March 1
Outside Canada: Summer session		Office of the Registrar		Varies

Application Requirements

- Course syllabi for all courses being requested must accompany the application.
- Allow up to 10 working days for processing.
- A processing fee must be submitted with the completed application form—see the web page for details.
- Incomplete applications will be returned to the student unprocessed.

Graduation and Convocation

For students to graduate, Senate must confirm that they have successfully completed the academic requirements for their degree. Once students have graduated and are free of all financial obligations to the University, they are eligible to receive official transcripts, noting the successful completion of their degree, and to receive their degree or diploma.

In the year in which they intend to graduate, students must submit an Application to Graduate form to the Office of the Registrar through myTrent. The Office of the Registrar will assess whether the students are enrolled in the courses required to complete the academic requirements for their degree, and will inform the students by email of the result of this assessment. See the Undergraduate Academic Dates & Deadlines section for deadlines.

Once grades have been processed, the names of all students who have successfully completed the academic requirements for their degree are submitted to Senate for approval. Only those students who have completed the academic requirements for their credential and have had the credential conferred on their official transcript are allowed to participate in the convocation ceremony.

Students who have successfully completed the academic requirements for their degree, but who are not free of financial obligations to the University, may participate in the spring convocation ceremony but will not receive their degree or diploma until their financial obligations are met. Students who have successfully completed the academic requirements for their degree too late for the spring convocation ceremony will have their names submitted to the next appropriate meeting of Senate and receive their degree or diploma, provided they are free of all financial obligations to the University. Students may participate at the next spring convocation ceremony.

Once the degree, diploma or certificate is conferred, the undergraduate academic record will not be modified as a result of repeating, withdrawing from, or taking additional courses. Academic standing notations will not be removed. Final grades in courses completed during the final term of study may be appealed as per the Final Grade Appeal policy. Additional academic credentials such as minors, specializations, emphases, or options may not be added to a degree once it has been conferred. In a circumstance in which an administrative error on the part of the University is discovered after a credential has been conferred, the error will be corrected as necessary.

This restriction does not preclude a student from pursuing an Honours degree after the completion of a General degree, or a second degree under the Second Degree Regulations. Academic dishonesty transcript notations will be removed automatically five years after the notation has been placed on the transcript, or sooner with approval of the Vice-President (Academic) as per the Academic Integrity Policy.

Academic Distinctions

Medals

The Governor General, President Symons, Bagnani, and Muldoon Medals are awarded each year at the spring convocation ceremony. No application is necessary; students are considered automatically under the criteria listed below. Winners of these medals will have this distinction noted on their official transcript.

Governor General's Medals

The gold medal is awarded to the graduate student with the highest standing on graduation, and the silver medal is awarded to the student with the highest standing on graduation with an Honours degree.

President Symons Medals

Established in 1972 in honour of T. H. B. Symons, the founding president of Trent University. Awarded to students in the Honours program who achieve high overall standing on graduation.

Professor Gilbert Bagnani Medals

Established in 1986 to honour the late Professor Gilbert Bagnani, one of the founding faculty members of Trent University. Awarded to graduating students in the General program who achieve high overall standing.

Muldoon Medal

Established in 2019 in honour of Joe Muldoon, Head of Trent University Durham GTA from 2013 – 2019. Awarded to graduating students, who have taken more than 50% of their courses at Trent University Durham GTA, in both the Honours and General program who achieve high overall standing.

Dean's Honour Roll

All students who have completed a minimum of three full-course equivalents for which grades have been assigned and achieve an average of 80% or higher in their most recent session and have an overall cumulative average of 75% or higher will have their names placed on the Dean's Honour Roll. This academic distinction will appear on the official transcript. The names of graduating students who are eligible for the Dean's Honour Roll will be noted in the convocation program. Postgraduate program students do not qualify for the Dean's Honour Roll (including those in certificate programs and the BEd professional years).

President's Honour Roll

All graduating students who achieve an overall cumulative average of 80% or higher and who are in good academic standing at graduation will have their names placed on the President's Honour Roll. This academic distinction will appear on the official transcript. The names of graduating students who are eligible for the President's Honour Roll will be noted in the convocation program. Postgraduate program students do not qualify for the President's Honour Roll (including those in certificate programs and the BEd professional years).

Second Degree

Admissions and General Requirements

- Students who hold a Trent undergraduate degree, or an undergraduate degree from another Canadian university, and wish to pursue a second degree must apply for admission to the second degree program.
- Students must normally satisfy the program requirements for the Calendar in effect at the time of their readmission to the University.
- A second degree is not available in all subject areas.

- Applicants will not be admitted to a second degree program where there is substantial overlap in the degree requirements. For example, students may not earn an Honours degree in Chemistry at Trent if they already have an Honours degree in Chemistry from another university.

First Degree Earned at Trent University

- General degree in another subject following a General degree or an Honours degree: the student must complete at least 5.0 credits beyond the first degree.
- Honours degree following a General degree in the same subject (including joint-majors): the student must complete at least 5.0 credits beyond the first degree.
- Honours degree in another subject following a General degree or an Honours degree: the student must complete at least 10.0 credits beyond the first degree.
- Honours degree following a minor in the same subject: students may return for a second degree in a subject in which they have obtained a minor, but only at the Honours level. The student must complete at least 10.0 credits beyond the first degree.

First Degree Earned from Another Canadian University

A maximum of 10.0 credits (the equivalent of two years of full-time study) may be transferred for credit towards a second degree.

- General degree in another subject following an Honours degree: the student must complete at least 7.5 credits beyond the first degree.
- Honours degree following a General degree in the same subject or Honours in another subject: the student must complete at least 10.0 credits beyond the first degree.
- Honours degree following a minor in the same subject: students may apply for a second degree in a subject in which they have obtained a minor, but only at the Honours level. The student must complete at least 10.0 credits beyond the first degree.

Notes

- All work for the second degree must be completed at Trent University (Letters of Permission for credit from another institution will not be permitted).
- Students will not be permitted to include a minor in the second degree.
- Trent students who have credits which exceed the degree requirements in a first degree program *may* have them applied to the second degree program.
- The student must meet the same standards for continuation and graduation as required of students registered in a first degree program. See Undergraduate Degree Requirements for requirements which apply to all undergraduate degree programs.
- Third degrees: Credits from the first two degrees cannot be applied to a third undergraduate degree. To obtain a third undergraduate degree, a student must complete all courses required for the program (15.0 credits for a General degree and 20.0 credits for an Honours degree).

Undergraduate Academic Integrity Policy

Undergraduate Academic Integrity Policy

The Academic Integrity website can be found at www.trentu.ca/academicintegrity.

Part I: Application and Definitions

1.1 Application

This policy applies to students registered in undergraduate courses in the Faculty of Arts and Science at Trent University as well as to applicants to undergraduate programs at the University.

1.2 Terminology

In this policy, "department" means undergraduate departments, programs, and schools. "Chair" means chairs and directors of undergraduate departments, programs, and schools, or appointed designates. "Dean" means the Deans of Humanities, Science, Social Sciences, Education, Nursing, or Durham, and "Registrar" means University Registrar. "AI Generator" means any software that uses artificial intelligence to produce content, including but not limited to text, images, and code.

1.3 Academic Integrity

Academic integrity is defined by the basic principles of honesty, trust, fairness, respect, and responsibility (as articulated by the International Center for Academic Integrity, www.academicintegrity.org). These values serve as the foundation for the development and acquisition of knowledge and all members of the University community are expected to uphold them. In essence, academic integrity is the principle of honesty in one's scholarly work and an assertion that student work submitted for credit or gain is original, the product of the student's individual efforts and abilities (unless otherwise specified), and free from unearned advantage. Adherence to these fundamental values is essential for earning academic credit in all courses, whether offered on- or off-campus, online, or as placements, practicums or internships. Trent University's Academic Integrity website provides helpful information on why integrity is important and how to avoid integrity infractions (www.trentu.ca/academicintegrity).

It is understood that scholarly work is often collaborative, and that students work both as individuals and as part of groups. The principles of academic integrity still apply. In group work situations, individual group members assume responsibility for the academic integrity of any work submitted on behalf of the group.

1.4 Academic Dishonesty

Academic dishonesty includes any act that results or could reasonably be seen to result in submission of work that is unoriginal to the context in which it is being submitted or the product of unauthorized collaboration, aid, or unearned advantage. Dishonest acts, including plagiarism, cheating, the unauthorized use of AI generators, and the unauthorized sharing and distribution of course content, are ultimately destructive of the values of the University. Scholarly integrity is required of all members of the University. Engaging in any form of academic dishonesty or misconduct in order to obtain academic credit or advantage of any kind is an offence under this policy.

1.5 Plagiarism

Plagiarism is knowingly presenting words, ideas, images, data, or any other form of work of another person or source, including an AI generator (including essays, theses, lab reports, projects, assignments, presentations, and posters) in a way that represents or could be reasonably seen to represent the work as one's own. "Knowingly" includes ought reasonably to have known. Plagiarism includes failure to acknowledge sources correctly and submitting materials copied from or generated by another source without proper acknowledgement of the source. Draft work submitted for evaluation is subject to the same standard as final work.

1.6 Cheating

Cheating is dishonest academic conduct or attempted dishonest academic conduct during tests or examinations or in the preparation of any other coursework or in the presentation of credentials for admission to the University or one of its programs. Some common examples are:

- submitting one's own original student work for credit in more than one course (includes a course being repeated) without the prior agreement of the instructors involved
- bringing aids, including electronic aids, that have not been authorized by the instructor into an examination or test
- using any unauthorized aid, including AI generators, in the preparation of assigned course work
- impersonating another individual or colluding in an impersonation for an examination or test
- copying from one or more other individuals or AI generators or knowingly permitting one or more other individuals to copy from one's own test, examination paper, lab report, or assignment
- collaborating with one or more other individuals when collaborative work has not been expressly authorized by the instructor
- communicating with one or more other students during a test or examination
- purchasing, selling, or sharing of any course identifying responses to assignments, labs, tests and exams, or facilitating the selling and purchasing of such material (material intended for publication or professional availability may be exempt from this policy)
- submitting purchased or AI generated material as one's own work
- falsifying or tampering with results in laboratory experiments or research assignments
- falsifying transcripts or tampering with documents used to make decisions about admissions to the University or one of its programs
- falsifying documentation submitted to another institution, organization, or regulatory body, e.g., submitting fraudulent letters to register for Letter of Permission courses
- withholding transcripts or other required documents at the time of application to the University
- submitting false or misrepresentative medical certificates or other documentation in support of requests for concessions on academic work or deadlines

1.7 Sharing and Distribution of Course Content

As per the Policy on the Sharing and Distribution of Course Content, sharing and distribution of any course content other than among individual students registered in the course is not permitted without written permission of the instructor. Sharing and distribution means providing access to course content in any form to non-course participants or generally making such content accessible to others, which may involve uploading/downloading or transferring course content to, or from, another device, system or network, including but not limited to any publicly accessible website, chat group, social media, or other internet platform.

1.8 Student to consult if in doubt

Students who have any doubt as to what might be considered academic dishonesty in a particular course should consult the instructor of the course to obtain appropriate guidelines.

Part II: Penalties for Academic Offences on Coursework, Tests, or Exams

2.1 Minor or major offence

The penalty for a student who has been found to have committed an academic offence will be based on whether the offence is minor or major.

2.2 Penalties

First minor offence: The penalty for a first offence that is a minor offence will be partial or total loss of marks on the piece of academic work. The grade reduction shall, at a minimum, lead to a failure on the piece of work. The recommended penalty is a zero grade. There will be no opportunity to resubmit the coursework, test, or exam.

Second minor or first major offence: The penalty for a second minor offence or a first offence that is a major offence will be a grade of zero on the piece of academic work with no opportunity to resubmit, plus a transcript notation (e.g. AHCL 1001H – Academic Dishonesty). A reduced final grade or a final grade of zero in the course may also be levied.

Subsequent offence, Suspension: The penalty for any offence i) after two minor offences; or ii) after a first offence that is a major offence; or iii) that is a major offence where a minor offence is already on record will be a period of suspension from the University (academic status "Suspension – Academic Dishonesty") ranging from one term to two years in addition to a zero grade in the course and an Academic Dishonesty notation for the course. If a student, who is otherwise eligible to graduate, has been suspended for academic dishonesty, the student may not graduate until the period of the suspension has been served.

Subsequent offence, Expulsion: The penalty for any subsequent offence will be expulsion from the University.

2.3 Extraordinary circumstances

The penalties above will be levied unless there are extraordinary circumstances which justify a different penalty.

2.4 Factors to determine whether offence minor or major

In deciding whether an offence is minor or major, consideration will be given to the following factors:

- the extent of the dishonesty
- whether the act in question was deliberate or whether the student ought reasonably to have known
- the importance of the work in question as a component of the course or program
- the academic experience of the student
- any other relevant circumstances

These factors shall also be taken into consideration in determining penalty where the usual penalty provides for a range.

2.5 Ineligibility for Honour Rolls

A student who has committed a major offence or multiple offences is ineligible for the Dean's Honour Roll that academic year and the President's Honour Roll at graduation.

Part III: Procedures for Evaluation of Coursework and Conduct during Tests and Exams

Note: All written communication to current students pursuant to this policy will be to the student's Trent e-mail account.

3.1 Instructor investigates

The instructor will make reasonable inquiries to investigate the circumstances of the matter. If the instructor has reason to believe that a student has committed an academic offence, the instructor will so inform the student within a reasonable time and invite the student to meet to discuss the matter. Instructors may request that the student provide rough work or materials used in preparing the work in question and/or explain the submission in question orally.

3.2 Instructor finds no academic dishonesty

If after meeting with the student and reviewing the evidence the instructor is satisfied that no academic dishonesty occurred, no further action will be taken by the instructor unless new evidence comes to their attention.

3.3 Instructor finds academic dishonesty, reports to Chair

If, after meeting with the student (or if the student fails to respond to the request for a meeting or does not attend a prearranged meeting) the instructor decides that academic dishonesty has occurred, the instructor will prepare a report to the Chair. The report will summarize the relevant facts and evidence, including the student's version of events if given. The report will additionally state whether the instructor considers the offence to be minor or major and the reasons therefore, as well as any extraordinary circumstances that are evident in the case. If the offence is considered to be minor, the instructor will recommend a grade reduction (see 2.2). Copies of all supporting documentation will be attached to the report. The instructor will provide a copy of the report to the student and to the Dean.

3.4 Opportunity for comment by student

Should the student wish to add to or clarify the information in the report, within seven days of the date of the report, the student may request a meeting with the Chair or send written comments to the Chair.

3.5 Chair finds no academic dishonesty

The Chair will carefully review the report and comments, if any. If the Chair is not satisfied that academic dishonesty occurred, the Chair will inform the student in writing of their decision, with a copy to the Dean, and no further action will be taken unless new evidence is brought to the Chair's attention.

3.6 Chair finds academic dishonesty, consults Office of the Dean

If the Chair is satisfied that academic dishonesty occurred, the Chair will first determine if the offence is minor or major and the penalty that should be imposed. The Chair will then inquire of the Office of the Dean whether there is a record of any previous academic offence by the student.

3.7 First offence, Chair decides

If there is no record on file of any previous academic offence by the student the Chair will levy a penalty accordingly. If, based on extraordinary circumstances, the Chair decides to levy a penalty other than the usual penalty, the Dean will be notified of the reasons for the penalty. The Chair will send to the student an Academic Dishonesty Form to inform the student in writing of the decision and confirm that a record of the offence will be filed in the department office and the Office of the Dean.

3.8 Limits of Chair's authority

The Chair does not have authority to levy a penalty exceeding a grade in the course of zero with the transcript notation "Academic Dishonesty."

3.9 Timing of Chair's decision

The Chair's decision will normally be conveyed to the student within two weeks of receiving student comments or, if no comments are provided, within two weeks of receipt of the instructor report.

3.10 Appeal of Chair's decision to the Dean

The student may appeal a decision by the Chair by writing to the Dean setting out the grounds for appeal within two weeks of receiving the Academic Dishonesty Form. The Dean will normally respond to the appeal within two weeks of receiving the appeal.

3.11 Prior record or stronger penalty deemed appropriate by Chair, Dean decides

If there is already a record of an academic offence(s) on file for a student the Chair will forward the material to the Dean who will decide the matter. The Chair may also forward a case to the Dean for decision on an alleged first major offence where the Chair deems that a penalty stronger than they can render is appropriate. In the latter case the Chair will set out the reasons for their conclusion that a stronger penalty is appropriate.

3.12 Note on Tests and Exams

Where an allegation of academic dishonesty arises during a test or examination, the responsible invigilator will collect the available evidence and, if the invigilator is not the course instructor, will notify the course instructor who will proceed as detailed above.

Part IV: Procedures for Applications to the University or One of its Programs

4.1 Notice to Registrar

Where the alleged academic dishonesty involves falsifying, misrepresenting, or withholding records for entry into the University or one of its programs, the Registrar will be informed. This may also include a Trent student falsifying documentation to another institution, organization, or regulatory body.

4.2 Student notified

The Registrar will notify the student in writing of the allegation and will invite the student to meet within a reasonable time. If the student does not respond to the request for a meeting or does not attend a prearranged meeting, the Registrar will proceed to make a decision on the basis of the evidence before them.

4.3 Registrar decides

If, after reviewing the evidence, the Registrar is satisfied that no academic dishonesty occurred, the Registrar will inform the student in writing of their decision and no further action will be taken by the Registrar unless new evidence is brought to the Registrar's attention.

If the Registrar is satisfied that academic dishonesty has occurred, the Registrar will decide the appropriate penalty and inform the student in writing of their decision. A written record of the incident, along with the documented evidence, will be kept on file at the Office of the Registrar and the Office of the Dean if appropriate.

4.4 Appeal of Registrar's decision to Dean

The student may appeal the decision of the Registrar by writing to the Dean setting out the grounds for appeal within two weeks of notification of the Registrar's decision. The Dean will normally respond to the appeal within two weeks of receiving the appeal.

Part V: Other

5.1 Withdrawal from courses or the University

Upon receipt of the instructor's report, the Office of the Dean will request that the Office of the Registrar put a registration hold on the course thereby preventing the student from withdrawing. If the student had withdrawn subsequent to a request to meet with the instructor and prior to receiving the instructor's report, the student will be re-enrolled in the course. The registration hold will remain in place unless it is determined that no infraction of the policy has taken place. In that case, the Office of the Dean will request that the registration hold and all records associated with it be removed.

A student will not be permitted to formally withdraw from the University while under investigation for academic dishonesty.

5.2 Final Appeal

The student may appeal a decision of the Dean to the Special Appeals Committee of the University within four weeks of notification of the decision. The decision of the Special Appeals Committee is final within the University.

5.3 Clarification of appeals procedure

Students seeking clarification of the appeals process may consult with their Academic Advisor. For guidance on the appeals procedures at the University see the "Petitions and Appeals" section of the calendar and the Special Appeals website.

5.4 Privacy protection

In accordance with privacy legislation, personal information gathered under this policy will only be shared among university personnel on a need to know basis.

5.5 Other allegations of academic dishonesty

Any other allegations of academic dishonesty may be made in writing to the Dean. The Dean will determine the appropriate procedure to be followed.

5.6 No permanent record of dropped allegations

If it is determined that allegations are not supported by sufficient evidence, no permanent record of the incident will be kept on file at the offices of the department, Registrar, or Dean.

5.7 Course completion or withdrawal is not a stay of proceedings

A student's completion of a course or withdrawal from a course, program, or the University does not stay or prevent proceedings for academic dishonesty under this policy. Further, penalties for academic dishonesty determined under this policy will appear as appropriate on the student's record, including the student's transcript, despite any such course completion or withdrawal.

5.8 Rescinding of degree

If an academic integrity violation is discovered after the degree has been awarded, the University retains the right to rescind the degree.

5.9 Removal of transcript notations

"Academic Dishonesty" transcript notations and notations of suspension will be automatically removed five years after the notation has been placed on a transcript. If a student wishes to have the transcript notation removed sooner, an application can be made in writing to the Vice President (Academic) at academicintegrity@trentu.ca. The letter should explain the reason for the request, what the student has learned from the experience, and what they have done to ensure violations of academic integrity will not occur again. Such applications may not be initiated before two years have passed. Zero grades and notations of expulsion for Academic Dishonesty will not be removed from the transcript.

5.10 Report on Academic Offences

A summary of academic offences (setting out the nature of each offence and the penalty) will be prepared by the Dean annually, published on an Academic Integrity website, and circulated to Senate each year for information.

5.11 Participation of others in the appeal process

As long as advance notice is given, students who wish to do so may bring one support person to a meeting with the course instructor, Chair or Dean. That person will not be permitted to participate in the discussion.

Applicable Calendar for Degree Completion

Students must satisfy both University Degree Requirements and Program Requirements.

Program Requirements

Students must normally satisfy the Program Requirements in effect at the time of their declaration of major to the program. As changes are made to program requirements, students may choose to complete their studies under the program requirements of any subsequent Academic Calendar provided they were enrolled in the program during that academic year and meet these requirements in their entirety. Joint-majors must use the same calendar year for both major programs. This regulation is not applicable to students enrolled in the Bachelor of Science in Nursing and Bachelor of Education programs.

It is the responsibility of the student to consult the appropriate Academic Calendar(s) and to follow regulations and requirements as stated. Students will have the opportunity to declare their calendar year when applying to graduate.

Ten years from the year of declared major, students who have not yet completed their degree and wish to do so must follow the program requirements in the current year's Academic Calendar. For the Nursing BScN degree, please see the School of Nursing's specific degree requirements.

Undergraduate Degree Requirements

University Degree Requirements

Students must satisfy the University Degree Requirements as published in the current Academic Calendar.

For requirements for the Consecutive Bachelor of Education program, see Education. Requirements for all other programs consist of:

1. an academic status of Good Standing
2. requirements for specific programs as outlined in the Academic Programs section of this Calendar
3. at least 3.0 credits, with a grade of 60% or higher, leading to majors in different disciplines
4. a maximum of 7.0 credits at the 1000-level can count towards the degree
5. a maximum of 1.0 credit with a D grade (50–59%) in courses in a major or each joint-major or minor; not applicable to students enrolled in BScN or BSW
6. at least 0.5 credit from the Approved Indigenous Course List (this requirement applies to all students beginning studies at Trent in the Fall 2018 term or thereafter)

	Requirement	General programs	Honours programs	Business Admin.	Nursing	Forensic Science	Kinesiology	Social Work
		BA BSc	BAH BAS BESS BScH	BBA	BScN	BScFS	BScKin	BSW
7.	total credits required	15.0	20.0	20.0	20.0	20.0	20.0	20.0
8.	minimum cumulative average required for graduation	60%	65%	65%	65%	65%	65%	65%
9.	minimum credits required at the 3000 or 4000 level	4.0	7.0	7.0	8.5	7.0	7.0	9.5
10.	maximum credits in a discipline that can count towards the degree	8.0	13.0	n/a	n/a	n/a	n/a	n/a

Notes

- The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.
- Students must complete a minimum of 10.0 credits at Trent University to qualify for a Trent University Honours degree and a minimum of 7.5 credits to qualify for a Trent University General degree. 5.0 of the last 7.0 credits obtained by a candidate for a Trent University degree must be completed at Trent unless program notes stipulate otherwise.
- The maximum credits which can be required in each discipline of a joint-major is 6.0 for General programs and 8.0 for Honours programs.

Undergraduate Degree Requirements

Requirements for a Bachelor of Science Degree

- Fourteen science credits (including 1.0 in Mathematics, but not from MATH 1001H, 1080H, 2081H, 2082H (or MATH 2080Y) are required for the Honours degree.
- Eleven science credits (including 1.0 in Mathematics, but not from MATH 1001H, 1080H, 2081H, 2082H (or MATH 2080Y) are required for the General degree.
- Courses fulfilling University science credit requirements for the BSc are marked (Sc) in the individual course descriptions.
- The Forensic Science degree (BScFS), Kinesiology degree (BScKin) and Nursing degree (BScN) are stand-alone professional degrees in science. Please see these departments' specific degree requirements.

Some programs lead to a Science degree. Other programs lead either to an Arts or Science degree, depending on the courses taken.

SCIENCE		ARTS OR SCIENCE	
Biochemistry & Molecular Biology		Anthropology	
Biology		Archaeology	
Biomedical Science		Economics	
Chemical Physics		Environmental & Resource Science/Studies	
Chemistry		Forensic Science (joint-major only)	
Climate Change Science & Policy		Geography	
Computer Science		Indigenous Environmental Studies/Science	
Computer Science & Physics		Information Systems (joint-major only)	
Conservation Biology		Psychology	
Data Science		Sustainable Agriculture & Food Systems	
Ecological Restoration			
Environmental Chemistry			
Environmental Geoscience			
Financial Science			
Forensic Biology			
Forensic Chemistry			
Health & Behaviour			
Mathematical Economics			
Mathematical Physics			
Mathematics			
Physics			
Software Engineering			
Water Sciences			

Requirement for a Minor

A minor is a prescribed set of at least 5.0 credits providing a secondary area of focus different from a student's major. A minor may only be completed as part of an Honours degree. Normally the requirements of a minor are the same as those of the corresponding joint-major General degree, and is offered only in subject areas in which a major exists. A minor will be notated on the academic transcript but does not appear on the degree parchment. Students who have fulfilled the requirements for a single-major or joint-major Honours degree may apply to the Office of the Registrar for a minor in a different subject. See individual department and program entries for details.

Undergraduate Degree Requirements

Requirement for a Postgraduate Certificate

A postgraduate certificate is a prescribed set of a minimum of 4.0 credits to a maximum of 10.0 credits. This credential is available to students who hold an undergraduate degree from any accredited university. A minimum cumulative average of 60% is required to graduate with a postgraduate certificate. See Postgraduate Certificate Programs for details.

Undergraduate Degree Requirements

Approved Indigenous Course List

The following courses fulfill the Indigenous Course Requirement (ICR) for students beginning studies in the Fall 2018 term and thereafter. Please see individual academic program sections for course descriptions.

- CAST-ERST-GEOG-INDG 2041H: Canada: The Land
- CAST-ERST-GEOG-INDG 2042H: Canada in the Winter
- CAST-INDG-GESO 2485H: Indigenous Women's Creative Non-Fiction
- CAST-INDG-GESO 3485H: Indigenous Women's Writing in Canada
- CHYS-INDG 2006H: Indigenous Knowledge for Children and Youth
- CUST-INDG 1570H: The Origins of Theatre: Performance in Indigenous and Cultural Studies
- EDUC-INDG 1030H: Indigenous Education in Canada
- EDUC 4335H: Indigenous, Environmental, and Sustainability Education
- ENGL-CAST-INDG 3481H: Indigenous Fiction
- ENGL-CAST-INDG 3483H: Indigenous Poetry
- FREN-CAST-INDG 3238H: Littératures autochtones de langue française au Canada / French Language Indigenous Literature in Canada
- IESS 1001H: Foundations in Indigenous Environmental Studies and Science
- INDG 1001H: The Foundation for Reconciliation
- INDG 1002H: Critical Incidents in Modern Indigenous Life
- INDG-CAST-POST 2001H: Indigenous Peoples and State Relationships
- INDG-CAST-POST 2002H: Indigenous Peoples and Resurgence
- INDG 2010H: Indigenous Contemporary Dance
- INDG 2020H: Indigenous Contemporary Music
- INDG-MDST 2030H: Indigenous Peoples and News Media in Canada
- INDG 2100Y: Introduction to Indigenous Knowledge
- INDG 2110Y: Introduction to Indigenous Theatre
- INDG 2200Y: Haudenosaunee Culture and Traditions
- INDG 2250Y: Oral Mohawk
- INDG-HIST 2306H: Foundations for Indigenous History
- INDG-HIST 2307H: Colonial Encounters
- INDG 2480Y: Indigenous Literature and Creative Writing
- INDG 2560H: The Forgotten People: Métis History and Culture
- INDG-ERST-IESS 2601Y: Indigenous Knowledge Systems and the Natural Environment
- INDG 2800Y: Introduction to Nishnaabemowin
- INDG 3010H: Indigenous Storytelling: Oral, Written, and Performative
- INDG-GDST 3050Y: Indigenous and International Community Development
- INDG-FRSC 3401H: Law and Indigenous Peoples: Foundations
- INDG 3851H: Anishinaabemowin on the Land

- INDG-ADMN 4500H: Indigenous Perspectives on Twenty-First-Century Business and Organizational Issues
- SWRK 3004H: Social Work and Indigenous Perspectives

Fees

trentu.ca/studentfinances

Fees are collected by the Student Accounts Office, Financial Services. Approved fees and complete details, including exact dates and deadlines, are posted online. Fees for registered students will be billed in August for the Fall term, December for the Winter term and April for the Summer term. Statements and invoice details are available on the portal under the Finance section. To assist new students in their financial planning, fee schedules for the current academic year are posted at trentu.ca/studentfinances/tuition-fees for reference.

Student Financial Responsibilities

Upon registering in a course, students accept responsibility for all financial obligations with the University regardless of how the fees are being funded (e.g., RESPs, government loans). It is also the responsibility of students to be aware of all financial and academic deadlines and to ensure they are officially registered in their courses through myTrent. Credit will not be issued for dropped courses once financial deadlines have passed. Payments will be applied to any balance owing from prior sessions before being applied to current session fees. Students who register for courses but do not attend classes are still responsible for all fees.

Addresses for Student Accounts Purposes

It is each student's responsibility to ensure that the University has a valid mailing address for student fees, income tax receipts, and refund purposes. If students change their address on myTrent, all mailings will be distributed to this address.

Confidentiality of Student Fee Information

The handling of all personal information by the University is governed by the Freedom of Information and Protection of Privacy Act. All information regarding student fees is treated as confidential and will normally only be released to individual students. In cases where sponsoring government and private agencies and organizations or individuals are paying fees on the student's behalf, the student may wish to waive the right of privacy and allow the University to release information about the status of fees to avoid any interruption in payment. To ensure that the necessary fee information is available to sponsoring agencies, etc., students must complete the Release of Information Form, found under Forms on the Academic tab in myTrent.

Undergraduate Fees

Payment of Fees

Deadlines: www.trentu.ca/studentfinances/tuition-fees/important-dates-deadlines

Payment due dates are published on the important dates and deadlines webpage and are also on the top of the student's account statement. Students registering after payment deadlines will be required to pay their fees upon registration. Fees for students registered for the Summer session are posted in April with payment information available on the important dates & deadlines webpage and on the top of the student's account statement.

Outstanding library fines are to be settled with the Library. Contact either Library location for available payment options. Departmental charges added to accounts for laboratory fees, field trips, etc., as advised by course instructors, are to be paid in the term during which they are charged.

Payment Methods

Current payment methods are summarized here: www.trentu.ca/studentfinances/tuition-fees/making-payment or students can make payments on a payment plan for a more flexible approach: https://www.trentu.ca/studentfinances/payment-plans .

Advance Payments

A non-refundable tuition payment (amounts vary based on number of registered credits and program) is due in June for all students. Students receiving OSAP are also responsible for paying the advance payment of tuition by the deadline. Peterborough students in residence are required to pay a separate deposit; please check with Housing Services (trentu.ca/housing) for details and deadline. Advance payments are applied to student accounts as payment towards the registration and residence/dining fees. Trent University Durham GTA students in residences should check www.trentu.ca/durham/student-life/student-support-services/residence-and-housing for Durham specific information. Students will forfeit the advance tuition payment if withdrawal occurs on or before the term drop deadline date. If the deposit wasn't paid, the tuition payment amount will be billed to the student account.

Late Payments

A late payment fee will be levied to all accounts if payment is not made by any fee deadline for any academic session. Please visit www.trentu.ca/studentfinances/tuition-fees/overdue-accounts for a list of due dates.

Interest

Daily interest charges will apply to all balances outstanding after the payment due date and will be added on the first day of each month until the outstanding balance is paid in full. Please see www.trentu.ca/studentfinances/tuition-fees/overdue-accounts for more Information.

Dishonoured Payments

There is a fee for any payment which is returned or dishonoured (insufficient funds). The University reserves the right to restrict students to a particular payment method to reduce the risk of returned payments.

Payment of Fees by OSAP and Out-of-Province Funded Students

Students are responsible for ensuring their loan application is complete and all requirements have been met. Students should contact Trent's Financial Aid Office for questions or assistance with their OSAP applications. OSAP students are responsible for remitting payment to the University by the posted deadlines. Fees paid after the posted dates will be charged a late fee for each missed due date and outstanding balances will be subject to interest—visit www.trentu.ca/studentfinances/tuition-fees/overdue-accounts for up-to-date information.

Registered Education Savings Plans (RESP)

Students who pay their fees from RESPs are subject to the same payment deadlines as non-OSAP funded students. Students are encouraged to contact the Office of the Registrar well in advance of the payment due dates to request the completion of the RESP forms provided by the student's financial institution. These forms may take up to 10 days to be processed and there is a fee for producing the form.

Registration Fees

Registration fees are comprised of tuition, ancillary and levy fees. Tuition fees are set in accordance with the Ministry of Colleges and Universities and once approved, will be posted on the web at www.trentu.ca/studentfinances/tuition-fees. Registration fees will be billed to the student account and can be viewed on the student's account statement; available on the myTrent portal. Registration fees are billed based on course load and the student's home location.

Home Location

Your campus home location is the campus where you will take the majority of your courses, receive campus-specific communications, and utilize services such as academic advising, health and wellness, athletics, and transit if your course load qualifies you for the bus service. Please note: some programs have a pre-determined home location which cannot be changed.

Tuition Fees for General Undergraduate Programs

Flat Billing – Peterborough Home Location

Students registered in a minimum of 2.0 credits per term will be billed full tuition each term.

Per Credit - Peterborough Home Location

Students registered in a maximum of 1.5 credits per term will be billed tuition on a per credit basis.

Students – Durham Home Location

All Durham students will be billed tuition on a per credit basis.

Ancillary Fees for General Undergraduate Programs

Flat Billing – Peterborough Home Location

Students registered in a minimum of 2.0 credits per term will be affiliated with one of the five residential colleges and will pay full ancillary fees. For a full list of ancillary fees, please see www.trentu.ca/studentfinances/tuition-fees.

Per Credit - Peterborough Home Location

Students registered in a maximum of 1.5 credits per term will be affiliated with one of the five residential colleges and will pay ancillary fees on a per credit basis.

Students – Durham Home Location

Durham students will pay ancillary fees on a per credit basis plus flat fee charges; please see www.trentu.ca/studentfinances/tuition-fees for details.

Levy Fees for General Undergraduate Programs

Flat Billing – Peterborough Home Location

Students registered in 1.5 credits or more per term, will pay full levy fees. Please visit www.trentu.ca/studentfinances/tuition-fees for more information.

Per Credit - Peterborough Home Location

Students registered in 1.0 credits or less per term, will pay levy fees on a per credit basis. Please visit www.trentu.ca/studentfinances/tuition-fees for more information.

Students – Durham Home Location

All Durham students will be billed levy fees per credit plus pay a flat fee for health and dental, transit and athletics.

Levies – Peterborough Home Location

Health and dental benefits, transit, clubs, food bank, and student centre fees are billed each year to all students who are billed 1.5 or more credits in their starting term. Registration must include an on campus course. Students with alternate coverage of health and dental benefits can request a refund by completing the opt-out form on the Trent Central Student Association website at trentcentral.ca/benefits. Per credit billed students can purchase a transit pass at any time during the academic year; available at the Campus Card Office. Please see the Trent Central Student Association website trentcentral.ca/transit for details.

Levies – Durham Home Location

Health and dental benefits and the Durham athletics fee are billed with on campus registration in a minimum of 0.5 credits. Students with alternate coverage can request a refund by completing the opt-out form on the Trent Trent Central website: trentcentral.ca/benefits. Durham transit is included in the flat billing for students registered in a minimum of 1.5 credits per term.

Trent University and Fleming College

Trent University and Fleming College offer a number of programs on a joint basis. The fee structure for the courses taken under these joint programs at Trent University may differ slightly from the regular fee structure. The University's Student Accounts Office can provide more information about the fees charged by the University.

Auditing Courses

Any persons who wish to audit courses pay 50% of the regular tuition fee for regular credit courses. Auditing students do not pay ancillary and levy fees. Seniors auditing a course pay only $200 per half-credit course.

Senior Citizens

Degree seeking students 65 years and older pay full fees. Seniors in financial need may apply for a student bursary through the Financial Aid Office.

Notes

- International students pay additional tuition fees. Health insurance is included in registration fees and is a compulsory fee (see Health Insurance for International Students).
- New full-time students pay an additional, non-refundable fee for orientation and orientation & transition program fee for International students, which is included in registration fees.
- Students who do not meet payment deadlines will be charged a late payment fee each term and charged interest each month until fees are paid in full. Students will forfeit the full value of the deposit should they withdraw prior to the withdrawal deadline (see Important Dates).
- There may be additional fees for field trips and course material in certain courses.

Residence & Dining Plan Fees

Residence (Durham GTA & Peterborough)

trentu.ca/housing

Residence accommodations and dining plans are available to full-time and part-time Peterborough students based on availability. Rates for the rooms are approved through a collaborative budget process between students, faculty, and administration. The final rates for any particular year are posted on the Housing Services website by late May of each year. Current rates are listed on the web page or may be accessed by calling the Housing Services office. Posted rates include a furnished room in residence, a dining plan, free laundry, and Internet service. All important dates with regards to application deadlines, and the opening and closing of residence, are also listed on the housing website and in the College Residence Agreement that all students agree to prior to moving in to residence.

Students applying to the University must apply for residence to be considered for accommodation. The residence application is available online through the Housing Portal. Applications are considered complete once they have completed the application requirements as outlined on the housing website. Cancellations prior to the outlined date in the residence application will result in partial refunds processed to the student in accordance with the refund schedule less an administrative fee. Please see the Housing website for details on eligibility, fees, and deadlines.

Dining Plan (Durham GTA & Peterborough)

www.trentu.ca/trentucard/dining-plans

Students residing in any University residence are required to have a dining plan. A distinct dining plan is associated with each residence room type. The cost of a dining plan for any particular year is posted on the Housing Services website by late May of each year. Current rates are listed on the web page or may be accessed by calling the Housing Services office. Most purchases made on-campus are exempt from HST. Dining plans can be used at all on-campus food service facilities.

All dining plan balances carry forward each year. Dining plans are non-transferable and nonrefundable.

Student Association and Organization Fees

Student association and organization fees are determined by student referenda that are held under the supervision of the Trent Central Student Association (TCSA) for students in Peterborough and the Trent Durham Student Association (TDSA) for students at the Durham campus. Beginning in the fall of 2019, students will be able to opt out of non-mandatory student association and organization fees. More information will be available on the Student Finance website: www.trentu.ca/studentfinances/tuition-fees.

All students are required to remit payment for the Trent Student Benefits Plan to Trent University with their registration/housing payment. Students who are eligible to opt out of the Trent Student Benefits Plan, with proof of alternative coverage by posted deadlines, will receive a refund from the Trent Central Student Association (trentcentral.ca).

Trent/Fleming Nursing program students pay separate ancillary fees and student association fees as listed on the Financial Services (Student Accounts) website.

School of Education students (full-time) also pay separate ancillary fees and student association fees as listed on the website at www.trentu.ca/studentfinances/tuition-fees. The transit fee is optional.

Other Fees

There are a variety of fees charged to students for the services offered through administrative departments at Trent University. For a full fee list, please see www.trentu.ca/studentfinances/ tuition-fees. This list is updated to reflect any changes from year to year. HST is charged when applicable.

Additional fees may be assessed directly by some departments for courses involving laboratory or field work or for course material. Some of these fees may be refundable. Additional fees are charged to students who participate in one of the Study Abroad programs. Academic departments will provide detailed information upon request.

Health Insurance for International Students

Effective July 1, 1994, the Ontario government ruled that international students and their dependents who are temporary residents of Ontario will no longer be eligible for coverage under the Ontario Health Insurance Plan (OHIP). International students, therefore, are required to purchase basic health insurance coverage to register for their courses at Trent University. Private coverage with Sun Life has been arranged through a joint initiative of the Council of Ontario Universities and Ontario universities. A compulsory health insurance fee, payable in full with the fee payment, must be paid to Trent University by all international students in order to provide this health insurance coverage.

Textbooks

The cost of books and materials varies according to individual course requirements. Both new and used textbooks are available from the Trent University Campus Store. The Campus Store provides limited refunds of textbook purchases. Students are expected to familiarize themselves with the Campus Store's textbook refund policies.

Withdrawal from the University and Refund of Fees

Advance tuition payments, or the equivalent value, is forfeited if complete withdrawal occurs on or before the September deadline, the January deadline for January start students or the Summer deadline. For the refund/withdrawal schedule, see the website at www.trentu.ca/studentfinances/tuition-fees/drops-withdrawals-refunds. Fees are assessed for the Fall term (September to December), the Winter term (January to April) and the Summer term (May to August). Refunds will be issued based on the date of withdrawal from the University and the refund date(s) associated with the term from which a withdrawal is processed.

When students register for courses they accept financial responsibility for fees associated with the registration. If proper withdrawal procedures are not followed, students will be charged for the registered courses and will be responsible for remitting the fees to the University. Students considering withdrawal from the institution should discuss academic consequences with their academic advisors and the financial consequences with staff in the Student Accounts office. If students are funded by OSAP, they should contact Financial Aid to understand the consequences of withdrawing on their student loans.

Ancillary fees are not refundable unless otherwise indicated.

Tuition fees are refundable only if students have followed official procedures for withdrawal from the University, which is completed through the Office of the Registrar. Refunds will not be processed without formal withdrawal.

Tuition Fees Refund Schedule

Note: (Applicable only to students billed on a per-credit basis.)
For the complete list of deadlines regarding tuition refunds, please see www.trentu.ca/ studentfinances/tuition-fees/drops-withdrawals-refunds. This refund schedule applies to students paying on a per-credit basis. Credit will be issued to the student account based on the drop date, and the posted refund date. If a student withdraws before the September deadline, only the advance tuition payment, or equivalent value, is forfeited and must be paid.

Student association fees and student organization levies are non-refundable after the September deadline for the Fall term and non-refundable after the January deadline for the Winter term (applicable to students billed on a per-credit basis).

Summer Tuition Refund Schedule

The refund schedule for the Summer terms will be posted at www.trentu.ca/studentfinances/ tuition-fees/drops-withdrawals-refunds once the term schedule is approved. A withdrawal fee is applicable for full withdrawals before the start of Summer session. Student association fees are nonrefundable after the first day of Summer session terms.

Summer students can switch credits taken in the same term with no penalty as long as courses are dropped or added on the same day. Half-credit courses must replace half-credit courses and full-credit courses must replace full-credit courses; all changed courses must be taken at the same campus. Students must notify the student accounts office in writing so that billing can be updated.

Dropping Courses

Peterborough home location students who drop courses but remain in at least 2.0 credits per term pay a flat billing rate and do not receive a credit for the dropped courses. Students dropping courses and registered in fewer than 1.5 credits will receive credit in accordance with the refund schedule, and the drop date.

Durham home location students who drop courses will receive credit to their student account in accordance with the refund schedule and the drop date.

Refunds

The refund schedule is posted on the website at www.trentu.ca/studentfinances/ tuition-fees/drops-withdrawals-refunds. The amount of credit issued is based on a student's course load, the course type, the refund schedule, and the date courses are dropped or date student is withdrawn from the University. Dropping courses may generate a refund or reduce the amount owed.

Student association and organization fees are not refundable by the University.

Students withdrawing and receiving a refund will have the refund processed within 45 days of the withdrawal date. Refunds for students who drop courses in the Fall term and are registered in the subsequent term will be issued after the drop deadline date for the Winter term.

Refunds of overpayments on accounts will not be processed unless 100% of all fees for the academic year have been paid.

Refunds of overpayments on accounts paid by credit card will be refunded back to the original credit card. Please note: only the amount paid to the University can be considered for refund. The service fee is not refundable. Refunds for excess funds transferred to the student account by wire payment will not be refunded to the student, but will be returned via original payment method less a service fee. All other payment methods will be refunded by EFT or cheque when required. Cheques will be sent by mail to the address on file for the student.

Income Tax Receipts

A tax certificate for fees assessed during the calendar year and eligible for the education deduction (T2202) will be provided in February. Students may view and print an official T2202 Tuition, Education and Textbook Amounts certificate by visiting their Finances section on myTrent. Beginning January 2019, the Canada Revenue Agency requires students to provide their Social Insurance Numbers for inclusion on the tax form. Social Insurance Numbers are entered by the students through myTrent.

Undergraduate Fees

Financial Appeals

Students accept financial responsibility for fees associated with all registered courses at the time they complete registration. Students wishing to submit a financial appeal because of a serious, documented medical illness, or the death of an immediate family member, which led to the dropping of courses or full withdrawal, may do so in writing for a fee. The financial appeal should be submitted to studentaccounts@trentu.ca . Such cases must be documented completely. Financial appeals will not be considered when a condition or illness pre-existed the normal drop date or existed at the time of registration. Failure to plan financially for personal and educational commitments is not a basis for a financial appeal. The fee must be submitted with the appeal and the account must be in good standing prior to review. Financial appeals will only be considered in writing with supporting documentation from the student. A successful academic appeal (e.g., CUP petition for late withdrawal) does not mean a student has grounds for a successful financial appeal. Written documentation should include references from any sources which can substantiate a student's personal situation.

Students will be notified of the decision in writing within 60 days of submission. An academic appeal is not the same as a financial appeal (see Academic Appeals for details). A financial appeal will affect a student's account balance. Deadline dates for submitting financial appeals are posted on the Student Finances website. www.trentu.ca/studentfinances/tuition-fees/financial-appeals.

Please note that if your appeal for a previous term is successful, it may be necessary to recalculate and resubmit your T2202 income tax form to CRA.

Undergraduate Fees

Unpaid Student Accounts

Students who have not paid their accounts in full will not be permitted to register for the next session. Access to myTrent will be restricted and grades, transcripts, and degree and diploma certificates will not be released until the financial obligations have been settled fully. Letter requests made to the Office of the Registrar will be subject to review and authorization by Financial Services (Student Accounts). Education students will not have credentials recommended to the Ontario College of Teachers if a balance remains outstanding.

Unpaid accounts of students who are no longer registered with the University will be placed with a collection agency and the students will be unable to register for any further courses until the outstanding balance has been paid. Trent University reserves the right to use any legal means to reclaim delinquent balances.

The University also reserves the right to request a pre-payment of the fees prior to registration for any account that has been delinquent. Visit: www.trentu.ca/studentfinances/tuition-fees/ overdue-accounts.

Financial Aid

www.trentu.ca/studentfinances

The Financial Aid Office provides assistance and advice to students seeking financial support. The primary functions of Financial Aid are to administer the scholarship and bursary programs for domestic undergraduate students, manage federal/provincial funding programs and promote financial literacy. Detailed information is available on the Financial Aid website.

Thank You to Our Benefactors

www.trentu.ca/give

The funds we are able to offer students for financial aid and recognition of academic excellence include gifts from individuals, corporations, and other organizations through annual campaign and legacy giving programs, and through support from various levels of government. We are grateful to our past and present donors for their contributions, which benefit our students and support education and research at Trent University. For more information about the Trent University Endowment Fund please visit our website or contact us directly.

Type	Criteria	Application	When
Scholarships Prestigious Renewable In-Course	Based on GPA Must complete 5.0 credits unless approved for less	Prestigious scholarships require application All other scholarships awarded automatically	Students notified of final scholarship value in August Scholarships credited to student accounts in September and January
Prizes	Based on donor criteria Usually merit-based	Awarded automatically unless otherwise specified	Usually awarded at the end of calendar year by departments
Bursaries	Based on proven financial need Must be in receipt of OSAP (Ontario Student Assistance Program), First Nations Band funding, Post Secondary Student Support Program or the government financial aid program of their home province.	General bursary application posted on myTrent student portal at the beginning of each term	Awarded in the first half of each term
Awards	Based on donor criteria Usually needs-based	Apply using general bursary application on myTrent student portal (Bursaries, above)	Awarded in the first half of each term

Financial Aid for International Students	Please visit: trentu.ca/currentstudents/international/finances		

Scholarships

Trent University offers a full and diverse scholarship program designed to foster and reward high academic achievement among its students.

All University scholarships may be held in conjunction with scholarships awarded by outside agencies when the conditions of the latter permit; however, a student may not receive funds from more than one major Trent University scholarship in an academic year.

Students with documented disabilities may be eligible to receive scholarships based on a reduced course load. Please contact the Student Accessibility Services Office for details (www.trentu.ca/wellness/sas).

Externally Awarded Scholarships

A number of scholarships (and bursaries) are awarded by organizations outside the University. Some corporations have special programs for dependents of their employees. Students should consult their parents, secondary school guidance counsellors, and applicable websites to search for external awards. Some links to externally awarded scholarships are listed on the Financial Aid website.

Prestigious Scholarships

Trent's Prestigious Scholarships include the Champlain Scholarship, the Board of Governors' Leadership Scholarship, the Michael Treadwell Scholarship, the Canada-Wide Science Fair Scholarship, and the Trent University Special Admissions Scholarship. These are renewable scholarships awarded to new Canadian students entering the first year of study who have displayed exceptional academic and extracurricular achievement, and who are judged likely to make a significant contribution to the life of the University. Students must apply for these scholarships; applications are usually available beginning in January each year. Full details and application deadlines can be found on the Financial Aid website under Scholarships. The winners are announced by early May each year.

Canadian students with a final entrance average of 80% or higher who did not apply, or are not eligible, for a Prestigious Scholarship will automatically be considered for a Trent University National Renewable Entrance Scholarship.

Trent University National Renewable Entrance Scholarships

These scholarships are awarded to Canadian students entering their first year at Trent with a final admission average of 80% or higher, who are not in receipt of a Prestigious or other Trent University entrance scholarship. Students entering directly from secondary school or transferring from a college or another university are eligible for consideration. Scholarship values are per year and are based on admission averages:

80% to 84.9%—$1,500
85% to 89.9%—$2,000
90% to 94.0%—$3,000
95% or higher—$6,240 first year Full Tuition, renewable $4,000 for 3 years

Scholarships may be awarded for a maximum of four years of undergraduate study. No application is necessary. For a scholarship to be renewed, students must maintain an 80% average in 5.0 Trent University credits each academic year, unless approved for a reduced full-time course load. Full details are available on the Scholarships page of the Financial Aid web site under Entrance Scholarships.

In-Course Scholarships

Canadian undergraduate students who did not receive a renewable entrance scholarship are automatically considered for an in-course scholarship at the end of their first year. Unless specifically noted, these scholarships do not require an application. Students already receiving a renewable entrance scholarship are not eligible to receive an in-course scholarship.

Students who achieve an 85% average in 5.0 Trent University credits during the previous academic year are eligible for an in-course scholarship of $1,000; students with an average of 90% or higher are eligible for a scholarship of $2,000.

Scholarships for International Students

For scholarships available to international visa students, please visit the Trent International website.

Undergraduate Financial Aid

Medals & Prizes

Medals

Medals are awarded to students with high academic standing upon graduation. They are listed in the Graduation and Convocation section of the Calendar under Academic Distinctions.

Prizes

Prizes are awarded by academic departments and colleges based upon academic excellence or other specific criteria. A full listing of the Scholarships, Prizes, Bursaries and Awards awarded by Trent University is available on the Scholarships, Awards & Bursaries page of the Financial Aid website.

Undergraduate Financial Aid

Guidelines for Students with Financial Need Ontario Student Assistance Program (OSAP)

The province of Ontario and the government of Canada provide integrated assistance programs to Ontario residents attending university through the Ontario Student Assistance Program (OSAP). To qualify for OSAP, Ontario students must be Canadian Citizens, Permanent Residents, or Protected Persons.

Full-Time OSAP

To qualify, students must be enrolled in at least 60% of a full course load (40% for students with recorded permanent disabilities). The purpose of the OSAP is to assist eligible students with funding their full-time post secondary studies.

The OSAP funding year starts in September of each year. A new application is required for each funding year. Students may apply for funding on the OSAP website at ontario.ca/osap. Students should apply for OSAP at least six weeks before the start of their study session to ensure that funding will be available when they begin their studies.

Part-Time OSAP

Part-time students (registered in less than 60% of a full course load) with demonstrated financial need may qualify for part-time OSAP funding. Visit the OSAP website for application details ontario.ca/osap.

Students from Outside Ontario

Canadian students from outside Ontario who require financial aid should consult with officials in their home province to apply for provincial government student aid. Links to out-of-province government loan programs can be found on the Financial Aid website (trentu.ca/studentfinances).

Students from foreign countries, including the US, are strongly urged to consult with educational authorities and sponsoring agencies in their home country. Trent International provides information regarding financial programs for international students.

Bursary for Students with Disabilities

The Bursary for Students with Disabilities (BSWD) and the Canada Student Grant for Services and Equipment for Persons with Permanent Disabilities (CSG-PDSE) helps full and part-time postsecondary students with the costs of their disability-related educational services and equipment. Eligibility and applications can be discussed with the Student Accessibility Services Office .

Trent Work Study Program (TWSP)

The Trent work study program provides part-time jobs on campus during the study period for fulltime Canadian students (minimum 60% of a full course load) with demonstrated financial need. Further eligibility information is available on the Financial Aid website (trentu.ca/studentfinances). Available jobs are posted on the Student Job Board in the myTrent student portal and are usually marked to indicate that they are funded through the TWSP.

Ontario Student Opportunity Trust Fund (OSOTF) & Ontario Trust for Student Support (OTSS)

In 1996-1997 the province of Ontario established the Ontario Student Opportunity Trust Fund to assist students with a financial need. Half of this endowed fund is provided by the province and half has been provided through fundraising by the University. Annual proceeds from investment earnings are available in the form of in-course bursaries to Ontario residents. A second phase of OSOTF was introduced in 2003. In some instances, academic excellence as well as financial need will be a determining factor. All bursaries and awards established or modified since 1996-1997 must adhere to the OSOTF guidelines listed below. In 2005 the province of Ontario established the OTSS matching gift program to replace the OSOTF program. The OSOTF guidelines noted above apply also to bursaries and awards established through the generosity of donors and matching OTSS funds.

Eligibility Guidelines:

Students must be Ontario residents to receive OSOTF and OTSS bursaries and awards. To qualify for provincial residency: prior to the beginning of their current full-time post-secondary study session, students or their parents or their spouses must have lived in Ontario for at least 12 consecutive months without being full-time post-secondary students.

Students must demonstrate financial need and be in receipt of OSAP to qualify for OSOTF and OTSS bursaries and awards. Eligible students may apply for OSOTF and OTSS bursaries using the General Bursary application available on the Financial Aid website.

Undergraduate Financial Aid

Bursaries

Students with a documented need may apply for a Trent University general bursary or a donor sponsored bursary each term that they require assistance. To demonstrate financial need, students must be in receipt of OSAP (Ontario Student Assistance Program), First Nations Band funding, Post-Secondary Student Support Program or the government financial aid program of their home province. Part-time students who are in receipt of government aid for part-time studies may also apply for bursary assistance.

In-Course Bursaries

Students with a documented need may apply for a Trent University general bursary or a donor sponsored bursary each term that they require assistance. Full-time students must be in receipt of OSAP, or an out-of-province government student assistance program, to be eligible for bursary assistance. Part-time students who are in receipt of government aid for part-time studies may also apply for bursary assistance. The Undergraduate Bursary Application is available on the myTrent student portal during the first month of each study term.

Bursaries for International Students

For bursaries available to international visa students, please visit the Trent International website.

External Bursaries

Many organizations and companies offer bursary assistance to post-secondary students. Information is available in secondary school guidance offices as well as Financial Aid offices. A few externally funded bursaries are administered through the Trent University Financial Aid Office. Details and applications are posted on the Financial Aid website.

Undergraduate Financial Aid

Awards

Financial assistance through Trent University's award program is designed to acknowledge those students with outstanding academic qualifications and proven financial need. Many of these awards are made possible through the Ontario Student Opportunity Trust Fund established by the province of Ontario in 1996-97; a second phase was introduced in 2003 (p. 657). The trust fund represents an endowment fund. Annual proceeds from investment earnings are available in the form of awards to Ontario residents enrolled in full-time or part-time undergraduate or graduate studies. Students may apply for OSOTF and OTSS bursaries and awards using the Undergraduate Bursary form available through myTrent at the beginning of each term.

Special Programs & Pathways

In addition to degree programs, students can take advantage of a range of special programs and opportunities.

Co-op

- Trent offers a number of academic programs with competitive co-op designations that allow students to gain to gain 12 months of invaluable hands-on, paid work experience.

Diplomas

- Diploma programs accommodate students who wish to undertake focused study in an area over a one- or two-year period. The diploma is awarded upon successful completion of the program. With it is included a Trent University transcript identifying all courses undertaken and grades received. Credits earned in the diploma program are transferable to the bachelor's program.

Experiential Learning

- Students at Trent have a wide variety of opportunities for experiential learning, including paid co-op, internships, placements, practica, undergraduate research opportunities, community-based research projects, global work experiences, creative, performance or exhibit opportunities, and on-campus work experience.

Individualized Studies

- The Individualized Studies program is available to students whose academic interests cannot be met by majors in any of the existing programs.

Joint Programs with Other Institutions

- Trent University, in collaboration with other post-secondary institutions, offers joint programs which extend educational opportunities by combining theory and practice in a number of professional and career fields. These include the Bachelor of Science in Nursing program with Fleming College and dual degree programs with Swansea University in Law, Chemical Engineering, and Arts & Science (Medical).

Minors

- A Minor is a prescribed set of at least 5.0 credits providing a secondary area of focus different from a student's major. A minor may only be completed as part of an Honours degree. A minor will be notated on the academic transcript but does not appear on the degree parchment. Students who have fulfilled the requirements for a single-major or joint-major Honours degree may apply to the Office of the Registrar for a minor in a different subject.

Options

- Options, consisting of groups of courses with a particular focus, are available as a complement to regular programs. To be eligible, students must successfully complete the requirements of both the option and the Honours or General program in which they are enrolled. An option appears on the academic transcript but does not appear on the degree parchment.

Postgraduate Certificates

- Postgraduate Certificate programs are available to students who hold an undergraduate degree from any accredited university. Some certificates may not be available to graduates of programs with substantial overlap in subject matter.

Specializations

- Specializations provide additional focus within individual programs. To be eligible, students must successfully complete the requirements of both the Specialization and the Honours or General program in which they are enrolled. The transcripts of students who have done so will contain the notation "with a Specialization in [the appropriate Specialization]."

Streams

- The Medical Professional Stream (MPS) is a unique four-year support program designed for students seeking to pursue a professional medical program and career after graduating from Trent University.
- The Teacher Education Stream is designed for students planning to teach at the elementary or secondary level. The program will provide students with academic and non-academic foundations for entrance into a Consecutive Teacher Education program and, ultimately, the teaching profession.

Study Abroad

- Trent students are encouraged to spend a summer, a term, or a full academic year of their undergraduate degree studying in another country. Through the Trent Study Abroad Program, students in all disciplines can participate in an exchange with universities in many countries.
- Trent University offers a range of Year Abroad programs which enable students to broaden their educational horizons and to add new perspectives to their academic interests, whatever the subject matter.

Transfer Pathways for Graduates of Partner Institutions

- Trent University offers degree completion pathways for graduates of partner institutions who have successfully completed specific programs.

Undergraduate Certificates

- Undergraduate Certificates may be used to bridge into undergraduate degree programs, for professional upgrading, or may be complementary to degree studies. Undergraduate Certificate programs are offered in American Sign Language, Democratic Leadership, French, Political Leadership, and Spanish.

Degree Completion Programs

Trent University offers degree completion pathways for graduates of partner institutions who have successfully completed specific programs. These agreements are reviewed annually to accommodate changes in the programs at the partner institutions. For complete details on degree completion agreements between Trent University and Ontario Community Colleges, see ONTransfer, the Ontario post-secondary transfer guide.

For information on admission to these degree completion programs, please contact the Liaison Office at Trent University, discovertrent@trentu.ca. For information about specific pathway details, please contact the Articulation and Transfer Pathways Office at Trent University, pathways@trentu.ca.

Notes

- As transfer credits recognize areas covered over the course of the diploma program rather than the completion of Trent courses, numerical grades will not be recorded on the Trent transcript. Completion of these credits will be recognized with a “Pass” grade; see Transfer Credits for details.
- If a student transfers to a different degree program, all transfer credits outlined in the specified agreement may not apply to the new degree program. It is the student’s responsibility to discuss their academic program requirements with an academic advisor and to notify the Office of the Registrar of any program changes.
- Students are reminded to refer to the most recent version of the Academic Calendar for requirements which apply to all undergraduate degree programs.
- Students pursuing degree completion programs are reminded that they will need to plan their academic program carefully and consultation with an academic advisor is strongly encouraged.
- Prerequisite requirements, course timetables, and unforeseen circumstances may mean that a student requires additional time to complete the specified degree.

All Ontario Colleges

System-Wide Agreement: For Qualified Graduates of Any Ontario College of Applied Arts and Technology

Computer Science (Bachelor of Science, Honours)

Qualified students may enter the Computer Science degree program at Trent University on an advanced standing basis, subsequent to successful completion of one of the following advanced diploma programs at an Ontario community college with a minimum overall average of 75%:

- Computer Programming and Analysis
- Computer Systems Technology

Note: Students with an entering average of 75% or above will receive 10.0 credits, while students with an entering average between 70.0% and 74.9% will receive 7.5 credits

Forensic Science (Bachelor of Science in Forensic Science)

Qualified students may enter the Forensic Science degree program at Trent University on an advanced standing basis, subsequent to the successful completion of the Police Foundations Diploma program with a minimum overall average of 75%.

Note: Admission to the BScFS program Is competitive and an average higher than 75% may be required for admission. In addition to meeting the competitive average required for admission to the BScFS program, applicants must meet specified high school entrance requirements, or their equivalent.

Forensic Science (Bachelor of Arts, Honours or Bachelor of Science, Honours—joint-major)

Qualified students may enter the Bachelor of Arts (Honours) or Bachelor of Science (Honours) joint major in Forensic Science at Trent University on an advanced standing basis, subsequent to the successful completion of the Police Foundations Diploma Program with a minimum 75% average.

Transfer Pathways for Graduates of Partner Institutions

Algonquin College

Algonquin College

Indigenous Studies (Bachelor of Arts, Honours)

Qualified students may enter the Indigenous Studies degree program at Trent University on an advanced standing basis, subsequent to successful completion of one of the following programs with a minimum overall average of 75%:

- General Arts and Science - Aboriginal Certificate
- Indigenous Studies Foundations Certificate

Transfer Pathways for Graduates of Partner Institutions

American Universty of Yangon

American University of Yangon

Bachelor of Arts, Honours or General—any major

Qualified students may enter the Bachelor of Arts (Honours) or Bachelor of Arts (General) program at Trent University on an advanced standing basis, subsequent to successful completion of the International Studies Program with a minimum overall average of 70%.

Bachelor of Science, Honours or General—any major

Qualified students may enter the Bachelor of Science (Honours) or Bachelor of Science (General) program at Trent University on an advanced standing basis, subsequent to successful completion of the International Studies Program with a minimum overall average of 70%.

Business Administration (Bachelor of Business Administration, Honours or General)

Qualified students may enter the Business Administration degree program at Trent University on an advanced standing basis, subsequent to successful completion of the International Studies Program with a minimum overall average of 70%.

Transfer Pathways for Graduates of Partner Institutions

Canadian University of Dubai

Canadian University of Dubai

Business Administration (Bachelor of Business Administration, Honours)

Qualified students may enter the Business Administration degree program at Trent University on an advanced standing basis, subsequent to successful completion of the first two years of one of the following programs with a minimum overall average of 70%:

- Bachelor of Business Administration with Academic Mentorship from Trent University - Specialization in Accounting and Finance

- Bachelor of Business Administration with Academic Mentorship from Trent University - Specialization In Human Resource Management
- Bachelor of Business Administration with Academic Mentorship from Trent University - Specialization In Marketing

Transfer Pathways for Graduates of Partner Institutions

Centennial College

Centennial College

Bachelor of Arts, Honours—any major

Qualified students may enter the Bachelor of Arts (Honours) program at Trent University on an advanced standing basis, subsequent to successful completion of one of the following programs with a minimum overall average of 70%:

- General Arts Certificate (no less than 65% in each of the required courses)
- Liberal Arts Diploma

Note: Students are encouraged to complete introductory credits in the summer term prior to entering Trent full-time, depending on the specific major chosen.

Bachelor of Science, Honours—any major

Qualified students may enter the Bachelor of Science (Honours) at Trent University on an advanced standing basis, subsequent to successful completion of one of the following programs with a minimum overall average of 75%:

- Biotechnology Diploma
- Biotechnology Advanced Diploma

Note: Students are encouraged to complete introductory credits in the summer term prior to entering Trent full-time, depending on the specific major chosen.

Business Administration (Bachelor of Business Administration, Honours)

Qualified students may enter the Business Administration degree program at Trent University on an advanced standing basis, subsequent to the successful completion of one of the following programs with a minimum overall average of 75%:

- Business Diploma
- Business Administration – Leadership and Management Advanced Diploma

Business Administration (Bachelor of Business Administration, Honours) with the option to pursue a Specialization in Accounting

Qualified students may enter the Business Administration degree program at Trent University on an advanced standing basis, subsequent to the successful completion of one of the following programs with a minimum overall average of 75%:

- Business - Accounting Diploma
- Business Administration - Accounting Advanced Diploma

Note: Business - Accounting Diploma students must also complete ACCT 322 through part-time studies at Centennial College prior to entering Trent to receive the full 10.0 credits outlined in the agreement. Students must complete specific courses in addition to general degree requirements to achieve the Specialization in Accounting.

Business Administration (Bachelor of Business Administration, Honours) with the option to pursue a Specialization in Human Resource Management

Qualified students may enter the Business Administration degree program at Trent University on an advanced standing basis, subsequent to the successful completion of one of the following programs with a minimum overall average of 75%:

- Business – Human Resources Diploma
- Business Administration – Human Resources Advanced Diploma

Business Administration (Bachelor of Business Administration, Honours) with the option to pursue a Specialization in Marketing and Consumer Culture

Qualified students may enter the Business Administration degree program at Trent University on an advanced standing basis, subsequent to the successful completion of one of the following programs with a minimum overall average of 75%:

- Business - Marketing Diploma
- Business Administration - Marketing Advanced Diploma

Child & Youth Studies (Bachelor of Arts, Honours)

Qualified students may enter the Child & Youth Studies degree program at Trent University on an advanced standing basis, subsequent to successful completion of one of the following programs with a minimum overall average of 75%:

- Child and Youth Care Advanced Diploma
- Early Childhood Education Diploma

Communications (Bachelor of Arts, Honours)

Qualified students may enter the Communications degree program at Trent University on an advanced standing basis, subsequent to successful completion of one of the following programs with a minimum overall average of 70%: – General Arts Certificate (no less than 65% in each of the required courses)

- Liberal Arts Diploma

Computer Science (Bachelor of Science, Honours)

Qualified students may enter the Computer Science degree program at Trent University on an advanced standing basis, subsequent to the successful completion of the Software Engineering Technology Advanced Diploma program or the Software Engineering Technology (Co-op) Advanced Diploma program with a minimum overall average of 75%.

Note: Students entering Trent through this pathway are allowed to enroll concurrently In COIS 2020H, 2300H, and any course for which 2020H and/or 2300H is a prerequisite.

Cultural Studies (Bachelor of Arts, Honours)

Qualified students may enter the Cultural Studies degree program at Trent University on an advanced standing basis, subsequent to the successful completion of the Music Industry Arts and Performance Advanced Diploma program with a minimum overall average of 75%.

Note: Students must complete MIAP 120 – Popular Music in Culture or MIAP 220 – Worlds of Music as the Block A Elective. Students who completed MIAP 121 – History of Western Art Music must e-mail admissions@trentu.ca to receive 0.5 unassigned ARTS 1000 in place of 0.5 CUST 1000 level. Students are encouraged to complete CUST 1500H – Introduction to the Study of Modern Culture in the first semester at Trent. Though students have the prerequisites required to take 4000-level courses in the first year at Trent, they should wait until the second year at Trent to ensure success in courses.

Environmental and Resource Science (Bachelor of Science, Honours)

Qualified students may enter the Environmental and Resource Science degree program at Trent University on an advanced standing basis, subsequent to successful completion of one of the following programs with a minimum overall average of 75%:

- Environmental Technician Diploma
- Environmental Technology Advanced Diploma

Indigenous Environmental Science (Bachelor of Science, Honours)

Qualified students may enter the Indigenous Environmental Science degree program at Trent University on an advanced standing basis, subsequent to successful completion of one of the following programs with a minimum overall average of 75%:

- Environmental Technician Diploma
- Environmental Technology Advanced Diploma

Indigenous Studies (Bachelor of Arts, Honours)

Qualified students may enter the Indigenous Studies degree program at Trent University on an advanced standing basis, subsequent to the successful completion of the Liberal Arts Diploma with the Indigenous Studies Specialized Academic Certificate at Centennial College with a minimum overall average of 75%.

Note: Because the Centennial transcript does not specify the completion of the Specialized Academic Certificate, students completing the option are required to e-mail admissions@trentu.ca following the submission of their transcript to indicate this completion (or anticipation of completion).

Media Studies (Bachelor of Arts, Honours)

Qualified students may enter the Media Studies degree program at Trent University on an advanced standing basis, subsequent to successful completion of one of the following programs with a minimum overall average of 75%:

- Broadcasting - Film, Television, Digital Media and Radio Advanced Diploma
- Game Development Advanced Diploma

Nursing (Bachelor of Science in Nursing)

Qualified students are eligible to apply to the Nursing degree program at Trent University on an advanced standing basis, subsequent to successful completion of the Practical Nursing Diploma program with a minimum overall average of 75%.

Note: Admission to the BScN program Is competitive and an average higher than 75% may be required for admission. Students must be registered and in good standing with the College of Nurses of Ontario to be eligible for this pathway. Students in this pathway are eligible for both the Collaborative and Compressed programs.

Policing and Community Well-Being (Bachelor of Arts, Honours/General)

Qualified students may enter the Policing and Community Well-Being degree program at Trent University on an advanced standing basis, subsequent to the successful completion of one of the following programs with a minimum overall average of 75%:

- Addictions and Mental Health Diploma
- Community and Justice Services Diploma
- Police and Safety Foundations Diploma
- Social Service Worker Diploma

Social Work (Bachelor of Social Work, Honours)

Qualified students may enter the Bachelor of Social Work degree program at Trent University on an advanced standing basis, subsequent to successful completion of one of the following programs with a minimum overall average of 75%:

- Addictions and Mental Health Worker Diploma
- Social Service Worker Diploma

Note: Students must apply for admission to the professional years of the Social Work program. Admission to the professional years is limited and competitive. See Social Work for details. Students are encouraged to complete introductory credits in a backup major in the summer term prior to entering Trent full-time, depending on the major chosen.

Supply Chain Management (Bachelor of Arts, Honours)

Qualified students may enter the Supply Chain Management degree program at Trent University on an advanced standing basis, subsequent to successful completion of one of the following programs with a minimum overall average of 75%:

- Business - Supply Chain and Operations Diploma
- Business Administration - Supply Chain and Operations Management Advanced Diploma

Note: Students transferring to Trent University through the Business Administration - Supply Chain and Operations Management Advanced Diploma pathway are allowed to enroll concurrently in LSCM 3000H, COIS 1010H, and ECON-ADMN 1250H.

Transfer Pathways for Graduates of Partner Institutions

Chitkara University

Chitkara University

Business Administration (Bachelor of Business Administration, Honours)

Qualified students may enter the Business Administration degree program (specialization options available) at Trent University on an advanced standing basis, subsequent to successful completion of the first two years of the Bachelor of Business Administration degree program in Accounting and Finance, Human Resource Management or Marketing with the prescribed courses outlined in the articulation agreement with a minimum overall average of 70%.

Transfer Pathways for Graduates of Partner Institutions

CINEC Campus

CINEC Campus

Supply Chain Management (Bachelor of Arts, Honours)

Qualified students may enter the Supply Chain Management degree program at Trent University on an advanced standing basis, subsequent to successful completion of the Bachelor of Management (Honours) in Supply Chain Management with a minimum overall average of 70%.

Transfer Pathways for Graduates of Partner Institutions

Confederation College

Confederation College

Bachelor of Education – Indigenous

Qualified students may enter the Bachelor of Education – Indigenous degree program at Trent University on an advanced standing basis, subsequent to successful completion of the Aboriginal Community Advocacy: Naadaamaagewin Diploma program with a minimum overall average of 75%.

Environmental & Resource Science/Studies (Bachelor of Science, Honours or Bachelor of Arts, Honours)

Qualified students may enter the Environmental & Resource Science/Studies degree program at Trent University on an advanced standing basis, subsequent to successful completion of the Environmental Technician Diploma program with a minimum overall average of 75%.

Indigenous Environmental Studies (Bachelor of Arts, Honours)

Qualified students may enter the Indigenous Environmental Studies degree program at Trent University on an advanced standing basis, subsequent to successful completion of the Environmental Technician Diploma program with a minimum overall average of 75%.

Indigenous Studies (Bachelor of Arts, Honours)

Qualified students may enter the Indigenous Studies degree program at Trent University on an advanced standing basis, subsequent to successful completion of the two-year Aboriginal Community Advocacy: Naadaamaagewin Diploma program with a minimum overall average of 75%.

Durham College

Durham College

Bachelor of Arts, Honours or Bachelor of Science, Honours—any major

Qualified students may enter the Bachelor of Arts (Honours) or Bachelor of Science (Honours) at Trent University on an advanced standing basis, subsequent to successful completion of the General Arts and Science Certificate program with a minimum overall average of 70% and a minimum of 65% in each of the required courses.

Note: Students are encouraged to complete introductory credits in the summer term prior to entering Trent full-time, depending on the specific major chosen.

Bachelor of Science, Honours - multiple majors

Qualified students may enter the Bachelor of Science (Honours) at Trent University on an advanced standing basis, subsequent to successful completion of one of the following programs with a minimum overall average of 75%:

- Biotechnology Advanced Diploma
- Pre-Health Sciences Pathway to Advanced Diplomas and Degrees *(must completed PHYS 1700 - Pre-Health Physics as the optional GNED course to receive the transfer credit block outlined in the agreement. Students meeting the terms of this articulation agreement are eligible to apply to the BScN, however transfer credits will not be granted for students admitted directly to the program.).*

Note: Students are encouraged to complete introductory credits in the summer term prior to entering Trent full-time, depending on the specific major chosen.

Business Administration (Bachelor of Business Administration, Honours)

Qualified students may enter the Business Administration degree program at Trent University on an advanced standing basis, subsequent to successful completion of the Business Administration - Finance Advanced Diploma with a minimum overall average of 75%.

Business Administration (Bachelor of Business Administration, Honours) with the option to pursue a Specialization in Accounting

Qualified students may enter the Business Administration degree program at Trent University on an advanced standing basis, subsequent to successful completion of one of the following programs with a minimum overall average of 75%:

- Accounting – Business Diploma
- Accounting – Business Administration Advance Diploma

Note: Students must complete specific courses in addition to general degree requirements to achieve the Specialization in Accounting.

Business Administration (Bachelor of Business Administration, Honours) with the option to pursue a Specialization in Entrepreneurship

Qualified students may enter the Business Administration degree program at Trent University on an advanced standing basis, subsequent to successful completion of the Entrepreneurship and Small Business - Business Diploma with a minimum overall average of 75%.

Note: Students must complete ECON 1010H in the summer prior to entering Trent full-time in order to ensure studies can be completed in two academic years. Students must complete specific courses in addition to general degree requirements to achieve the Specialization in Entrepreneurship.

Business Administration (Bachelor of Business Administration, Honours) with the option to pursue a Specialization in Human Resource Management

Qualified students may enter the Business Administration degree program at Trent University on an advanced standing basis, subsequent to successful completion of one of the following programs with a minimum overall average of 75%:

- Human Resources – Business Diploma
- Human Resources Management – Business Administration Advanced Diploma

Note: Students must complete specific courses in addition to general degree requirements to achieve the Specialization in Human Resource Management.

Business Administration (Bachelor of Business Administration, Honours) with the option to pursue a Specialization in Marketing and Consumer Culture

Qualified students may enter the Business Administration degree program at Trent University on an advanced standing basis, subsequent to successful completion of one of the following programs with a minimum overall average of 75%:

- Marketing – Business Diploma
- Marketing – Business Administration Advanced Diploma

Note: Students must complete specific courses in addition to general degree requirements to achieve the Specialization in Marketing and Consumer Culture.

Child & Youth Studies (Bachelor of Arts, Honours)

Qualified students may enter the Child & Youth Studies degree program at Trent University on an advanced standing basis, subsequent to successful completion of one of the following programs with a minimum overall average of 75%:

- Child and Youth Care Advanced Diploma
- Early Childhood Education Diploma

Communications (Bachelor of Arts, Honours)

Qualified students may enter the Communications degree program at Trent University on an advanced standing basis, subsequent to successful completion of the Music Business Administration Diploma program with a minimum overall average of 75%.

Computer Science (Bachelor of Science, Honours)

Qualified students may enter the Computer Science degree program at Trent University on an advanced standing basis, subsequent to successful completion of one of the following programs with a minimum overall average of 75%:

- Computer Programming and Analysis Advanced Diploma
- Computer Systems Technology Advanced Diploma

Note: Students entering Trent through one of the above pathways are allowed to enroll concurrently In COIS 2020H, 2300H, and any course for which 2020H and/or 2300H is a prerequisite.

Environmental & Resource Science/Studies (Bachelor of Science, Honours or Bachelor of Arts, Honours)

Qualified students may enter the Environmental & Resource Science/Studies degree program at Trent University on an advanced standing basis, subsequent to successful completion of one of the following programs with a minimum overall average of 75%:

- Environmental Technology Advanced Diploma
- Chemical Laboratory Technology – Pharmaceutical and Food Science Advanced Diploma

Note: Students entering Trent through the Chemical Laboratory Technology pathway are encouraged to pursue introductory credits In the summer prior to entering Trent full-time to complete studies in two years.

Media Studies (Bachelor of Arts, Honours)

Qualified students may enter the Media Studies degree program at Trent University on an advanced standing basis, subsequent to successful completion of one of the following programs with a minimum overall average of 75%:

- Journalism – Broadcast and Electronic Media Diploma
- Journalism – Mass Media Diploma
- Journalism – Web and Print Diploma
- Photography Diploma
- Video Production Diploma

Note: Students entering Trent through one of the above Journalism Diploma pathways may complete MDST-COIS 1010H In the summer term Immediately following Year 1 at Durham College on a Letter of Permission, as well as 0.5-1.0 credit in the summer term immediately following program completion.

Nursing (Bachelor of Science in Nursing, Honours)

Qualified students are eligible to apply to the Nursing degree program at Trent University on an advanced standing basis, subsequent to successful completion of the Practical Nursing Diploma program with a minimum overall average of 75%.

Note: Admission to the BScN is competitive and an average higher than 75% ma be required for admission. Students must be registered and in good standing with the College of Nurses of Ontario to be eligible for this pathway, unless completing the Practical Nursing Diploma program within the last six months. Students in this pathway are eligible for both the Collaborative and Compressed programs.

Policing & Community Well-Being (Bachelor of Arts, Honours/General)

Qualified students may enter the Policing and Community Well-Being degree program at Trent University on an advanced standing basis, subsequent to the successful completion of one of the following programs with a minimum overall average of 75%:

- Developmental Services Worker Diploma
- Police Foundations Diploma
- Protection, Security and Investigation Diploma

Political Studies (Bachelor of Arts, Honours)

Qualified students may enter the Political Studies degree program at Trent University on an advanced standing basis, subsequent to the successful completion of one of the following programs with a minimum overall average of 75%:

- Police Foundations Diploma
- Protection, Security and Investigation Diploma

Social Work (Bachelor of Social Work, Honours)

Qualified students may enter the Social Work degree program at Trent University on an advanced standing basis, subsequent to successful completion of the Social Service Worker Diploma program with a minimum overall average of 75%.

Note: Students must apply for admission to the professional years of the Social Work program. Admission to the professional years is limited and competitive. See Social Work for details. Students are encouraged to complete introductory credits in a backup major in the summer term prior to entering Trent full-time, depending on the major chosen.

Supply Chain Management (Bachelor of Arts, Honours)

Qualified students may enter the Logistics & Supply Chain Management degree program at Trent University on an advanced standing basis, subsequent to successful completion of one of the following programs with a minimum overall average of 75%:

- Business - Supply Chain and Operations Diploma
- Business Administration - Supply Chain and Operations Management Advanced Diploma

Note: Students entering Trent through the Business Administration - Supply Chain and Operations Management Advanced Diploma pathway are eligible to enroll concurrently in ECON 1250H and LSCM 2003H.

Sustainable Agriculture & Food Systems (Bachelor of Arts, Honours or Bachelor of Science, Honours)

Qualified students may enter the Sustainable Agriculture and Food Systems degree program at Trent University on an advanced standing basis, subsequent to successful completion of the Horticulture – Food and Farming Diploma program with a minimum overall average of 75%.

Water Sciences (Bachelor of Science, Honours)

Qualified students may enter the Water Sciences degree program at Trent University on an advanced standing basis, subsequent to successful completion of the Water Quality Technician Diploma program with a minimum overall average of 75%.

Fanshawe College

Fanshawe College

Bachelor of Arts (Honours) or Bachelor of Science (Honours) - multiple majors

Qualified students may enter the Bachelor of Science (Honours) at Trent University on an advanced standing basis, subsequent to successful completion of one of the following programs with a minimum overall average of 75%:

- General Arts and Science Certificate
- General Arts and Science Diploma

Note: Students not completing PHYS 3005 – College Qualifying Physics and PHYS 3007 – Physics: Special Topics are eligible to receive 0.5 unassigned Science credit at the 1000 level in place of PHYS 1000H. Students must e-mail admissions@trentu.ca to receive the transfer credit block. Students completing the above programs, who complete courses outside of those listed in the transfer agreement, are eligible for 5.0 total credits (Certificate graduates) or 7.0 credits (Diploma graduates). Students must e-mail admissions@trentu.ca to receive the transfer credit block. Students are encouraged to complete introductory credits in the summer term prior to entering Trent full-time, depending on the specific major chosen.

Undergraduate Admissions

Admissions

trentu.ca/futurestudents/admissions

Trent University welcomes applications from Canadian and international students. Acceptance of an Offer of Admission is required before students may register in courses. The same admission requirements, application and registration procedures, and deadlines apply at all Trent University locations. Applicants are advised that programs may require a higher academic average than the published minimum.

Protection of Privacy

Trent University values the protection of privacy and all information for admission purposes is collected under the authority of *The Trent University Act, 1962-63* and the Ontario Freedom of Information and Protection of Privacy Act, 1988. For more information, please see Student Records Policies.

Admission Requirements

These admission requirements have been approved by the University Senate. Authority for interpretation of the regulations rests with the Admissions Office.

Minimum Admission Requirements

All percentages stated in these admission requirements are based on a pass mark of 50%. For schools and colleges operating on a pass mark other than 50%, the percentage required for admission is adjusted.

The minimum admission requirements outlined are for general admission to the Faculty of Arts & Science at the University. Some programs have additional assessment criteria.

Postgraduate Certificates

Admission to a Postgraduate Certificate program requires an undergraduate degree from an accredited institution.

English Proficiency Requirements

English is the normal language of instruction and communication at Trent University; therefore, an applicant whose primary language is not English, or whose previous education has been conducted in another language, must demonstrate a command of English sufficient to meet the demands of classroom instruction, written assignments, and participation in tutorials and discussions.

The following factors will be taken into account in assessing an applicant's facility in the English language:

- the primary language of the applicant ordinarily spoken in the home and in the workplace;
- the duration of study and the language of instruction in secondary and post-secondary educational institutions;
- the results obtained in any academic secondary and/or post-secondary courses in which a high standard of English is required; and
- the results of English language proficiency tests.

Applicants who are determined by the University to have insufficient experience or skills in written and spoken English will be required to achieve a satisfactory score from one of the following English language testing services:

- TOEFL (Test of English as a Foreign Language): The minimum acceptable score for regular admission is 86 IBT, or 580 PBT with a minimum TWE score of 4.5 (but see gradual admission below).
- CAEL (Carleton English Language Test): The minimum acceptable score is 60, with at least 60 in Writing Proficiency (but see gradual admission below).
- IELTS (International English Language Testing Services): The minimum acceptable score is 6.5, with no band lower than 6 (but see gradual admission below).
- Pearson PTE Academic: The minimum acceptable score is 59.

Applicants who have results from recognized Canadian university English language testing services may submit their results for consideration.

Please note that Trent University reserves the right to request English language proficiency results from any applicant. Applicants with language testing scores below the acceptable minimums are invited to apply for gradual admission through Trent-ESL: English for University program (see Trent International).

The University's Right to Deny Admission

Meeting the minimum requirements does not guarantee admission to any course, program, or department at the University. Enrolment is limited and the University will select the most qualified candidates for admission. The University reserves the right to deny admission to any candidate. The University also reserves the right to refuse readmission to candidates who have not achieved an acceptable academic standing.

The University's Right to Offer Part-Time Admission to Full-Time Applicants

The University reserves the right to offer part-time admission to applicants for full-time studies.

Applicants with Extenuating Circumstances

Applicants who do not meet the University's published admission requirements are invited to submit an Extenuating Circumstances Supplemental Application form that can be found be found under the Academics tab on the MyTrent portal.

Mature Applicants

Applicants who are 21 years of age at the time classes commence, who have been out of a full-time educational institution for at least two years, and who are not eligible for admission consideration under the published admission requirements, may apply as mature applicants. Applicants are required to submit a Mature Student Supplementary Application form that can be found under the Academics tab on the MyTrent portal. Applicants may be asked to provide further information and/ or be available for an admission interview.

Admissions from Secondary School Systems

Canadian Secondary Schools

Please review the chart for a detailed description of minimum requirements and prerequisites for admission from a Canadian secondary school.

Concurrent Trent/Grade 12 Course Registration

Students studying under the university stream curriculum in their final year of secondary school who have high marks may apply to complete coursework at Trent concurrent with their completion of grade 12 courses. Students are required to have marks consistently in the A/A+ range and must obtain written permission from the principal of their school. All applicants must be approved by the Office of Admissions.

International Baccalaureate (IB) program

All applicants who have completed the International Baccalaureate Diploma with a minimum overall score of 26, including at least three courses at the Higher Level, will be considered for admission. English at a Higher or Standard Level is required. Advanced standing and transfer credit will be granted for Higher Level subjects passed with a grade of five (5) or higher. The maximum credit that will be awarded from an IB Diploma is 5.0 credits (one year of full-time study). Please refer to section on Transfer Credits.

General Certificate of Education (GCE)

All applicants who have completed the General Certificate of Education (or equivalent) under the British system of education are required to pass at least five Ordinary Level (O-level) subjects and two Advanced Level (A-level) subjects with grades of C or better, or at least four O-level subjects and three A-level subjects with grades of C or better. Two Advanced Subsidiary Level (AS-level) subjects may be substituted for one A-level subject. A grade of C or better in O-level English is required to satisfy the English proficiency requirement. A-level subjects with grades of C or better will be considered for advanced standing or transfer credit, to a maximum of 5.0 credits (one year of fulltime study). Please refer to section on Transfer Credits.

American Secondary School Systems

All applicants who have completed a US secondary school diploma with a minimum GPA of 3.0 on a 4-point scale (or B average or 85%) in an academic program from a recognized institution will be eligible for consideration. A minimum of 70% in Grade 12 English is required. At least 4 different subjects at the matriculation level must be included. SAT or ACT scores are optional for students completing a US secondary school diploma.

Other International Systems

Students studying outside Canada who have achieved admission levels for universities in their own country will be considered for admission on an individual basis. For information regarding countryspecific admission requirements visit trentu.ca/futurestudents/international/admissions/requirements/ admissions-requirements-country

Canadian Secondary School Admission Requirements

Students must successfully complete the requirements for secondary school graduation.

A minimum average of 70% on courses considered for admission is required for admission to Trent University.

A minimum grade of 60% must be obtained in English. Scholarships are awarded with a minimum academic average of 80%.

	Alberta/NWT/Nunavut
General Admission Requirements (required for all programs)	English 30 and at least four additional academic 30 or 31 courses
Bachelor of Environmental Science/Studies	A minimum average of 75% on courses considered for admission is required.
Bachelor of Arts and Science	A minimum average of 75% on courses considered for admission is required.
Bachelor of Business Administration	Math 30-1 or Math 30-2
Bachelor of Business Administration / Accounting Co-op	Math 30-1 or Math 30-2 A minimum average of 80% on courses considered for admission is required.
Biomedical Science	Biology 30; Chemistry 30; Physics 30; Math 30-2
Chemical Engineering/ Chemistry	Chemistry 30; Physics 30; Math 30-1, or Math 30-2 A minimum average of 80% on courses considered for admission is required.
Climate Change Science & Policy	English 30; Chemistry 30; Biology 30; Math 30-1 or Math 30-2. Physics 30 recommended A minimum average of 75% on courses considered for admission is required.
Computer Science Co-op	Math 30-1 or Math 30-2 A minimum average of 80% on courses considered for admission is required.
Conservation Biology Placement / Co-op*	Biology 30; Chemistry 30; Math 30-1, or Math 30-2 A minimum average of 75% on courses considered for admission is required.
Criminology	A minimum average of 75% on courses considered for admission is required.
Data Science	English 30, Math 30 or Math 31
Environmental Geoscience*	Chemistry 30; Math 30-1 or 30-2 A minimum average of 75% on courses considered for admission is required.
Financial Science	Math 30-1 or Math 30-2. A minimum average of 75% is required.
Financial Science Co-op	Math 30-1 or Math 30-2. A minimum average of 80% is required.
Forensic Science*	Biology 30; Chemistry 30; Math 30-1 or Math 30-2 A minimum average of 75% on courses considered for admission is required.
Health & Behaviour	English 30; Biology 30; Math 30-1 or Math 30-2 A minimum average of 75% on courses considered for admission is required.
Humanities & Social Sciences Co-op **	English 30. A minimum average of 80% is required.

Kinesiology	Biology 30; Math 30-1 or Math 30-2 A minimum average of 75% on courses considered for admission is required.
Law & Arts/BBA Dual Degree	A minimum average of 80% on courses considered for admission is required.
Logistics & Supply Chain Management	A minimum average of 75% on courses considered for admission is required.
Medical Professional Stream	A minimum average of 80% on courses considered for admission is required. Applicants are also required to submit an Autobiographical Sketch
Nursing*	Biology 30; Chemistry 30; Math 30-1, or Math 30-2. A minimum average of 75% on courses on courses considered for admission is required.
Policing & Community Well-Being	A minimum average of 75% on courses considered for admission is required.
School of the Environment Co-op ***	English 30. Additional pre-requisite courses may be required specific to each program. Please refer to admission requirements in the program section. A minimum average of 80% is required.
Software Engineering Co-op	Math 120, 121, or 122 A minimum average of 80% on courses considered for admission is required.
Teacher Education Stream	Students will fulfill requirements for a BA or BSc. Applicants are required to meet admission requirements for both the Education program and the Faculty of Arts & Science. A minimum average of 75% on courses considered for admission is required.

* Students applying to the BSc in Nursing, BSc in Forensic Science, BSc in Conservation Biology Placement or BSc in Conservation Biology Co-op or BSc in Environmental Geoscience should be aware that their prerequisite course grades will be used as part of the admission calculations.

** Humanities & Social Sciences Co-ops include: Ancient Greek & Roman Studies, Anthropology, Archaeology, Bachelor of Arts & Science, Canadian Studies, Communications, Criminology, Cultural Studies, Economics, English Literature, French Studies, Gender & Social Justice, Global Development Studies, History, Human Rights & Global Justice, Indigenous Environmental Studies, Media Studies, Philosophy, Political Studies, Sociology

***School of the Environment Co-ops include: Ecological Restoration, Environmental Chemistry, Environmental Geoscience, Environmental Resource Science, Environmental Resource Studies, Geography, Sustainable Agriculture & Food Systems

	British Columbia/Yukon
General Admission Requirements (required for all programs)	English 12 and at least three additional academic grade 12 courses
Bachelor of Environmental Science/Studies	A minimum average of 75% on courses considered for admission is required.
Bachelor of Arts and Science	A minimum average of 75% on courses considered for admission is required.
Bachelor of Business Administration	One Math 12
Bachelor of Business Administration / Accounting Co-op	One Math 12 A minimum average of 80% on courses considered for admission is required.
Biomedical Science	Biology 12; Chemistry 12; Physics 12; One Math 12
Chemical Engineering/ Chemistry	Chemistry 12; Physics 12; One Math 12 A minimum average of 80% on courses considered for admission is required.
Climate Change Science & Policy	English 12; Chemistry 12; Biology 12; One Math 12. Physics 12 recommended. A minimum average of 75% on courses considered for admission is required.
Computer Science Co-op	One Math 12 A minimum average of 80% on courses considered for admission is required. Applicants must also submit the Computer Science Co-op Applicant Essay.
Conservation Biology Placement / Co-op*	Biology 12; Chemistry 12; One Math 12 A minimum average of 75% on courses considered for admission is required.
Criminology	A minimum average of 75% on courses considered for admission is required.
Data Science	Foundations of Math 12, and Pre-Calculus 12 or Calculus 12
Environmental Geoscience*	Chemistry 12; One Math 12 A minimum average of 75% on courses considered for admission is required.
Financial Science	Math 12. A minimum average of 75% is required.
Financial Science Co-op	Math 12. A minimum average of 80% is required.
Forensic Science*	Biology 12; Chemistry 12; One Math 12 A minimum average of 75% on courses considered for admission is required.
Health & Behaviour	English 12; Biology 12, One Math 12 A minimum average of 75% on courses considered for admission is required.
Humanities & Social Sciences Co-op **	English 12. A minimum average of 80% is required.

Kinesiology	Biology 12; One Math 12 A minimum average of 75% on courses considered for admission is required.

Biomedical Science	SBI4U; SCH4U; MHF4U or MCV4U; SPH4U or SES4U A minimum average of 75% on courses required for admission is required.
Chemical Engineering/ Chemistry	SCH4U; SPH4U; MHF4U or MCV4U A minimum average of 80% on courses considered for admission is required.
Climate Change Science & Policy	ENG4U; SCH4U; SBI4U: and MHF4U or MCV4U. A minimum average of 75% on courses considered for admission is required.
Computer Science Co-op	Any 4U Math A minimum average of 80% on courses considered for admission is required.
Conservation Biology Placement / Co-op*	SBI4U; SCH4U; MHF4U or MCV4U A minimum average of 75% on courses considered for admission is required.
Criminology	A minimum average of 75% on courses considered for admission is required.
Data Science	MHF4U and MCV4U or MDM4U
Environmental Geoscience*	SCH4U; MHF4U or MCV4U A minimum average of 75% on courses considered for admission is required.
Financial Science	MHF4U or MCV4U A minimum average of 75% is required.
Financial Science Co-op	MHF4U or MCV4U A minimum average of 80% is required.
Forensic Science*	SBI4U; SCH4U; MHF4U or MCV4U A minimum average of 75% on courses considered for admission is required.
Health & Behaviour	ENG4U; SBI4U; and MHF4U or MCV4U A minimum average of 75% on courses considered for admission is required.

Humanities & Social Sciences Co-op	ENG4U A minimum average of 80% is required.
Kinesiology	SBI4U; SCH4U and any 4U Math A minimum average of 75% on courses considered for admission is required.
Law & Arts/BBA Dual Degree	A minimum average of 80% on courses considered for admission is required.
Logistics & Supply Chain Management	MHF4U or MCV4U A minimum average of 75% on courses considered for admission is required.
Medical Professional Stream	A minimum average of 80% on courses considered for admission is required.
Nursing*	SBI4U; SCH4U; any 4U Math A minimum average of 75% on courses considered for admission is required.
Policing & Community Well-Being	A minimum average of 75% on courses considered for admission is required.
School of the Environment Co-op ***	ENG4U. Additional pre-requisite courses may be required specific to each program. Please refer to admission requirements in the program section. A minimum average of 80% is required.
Software Engineering Co-op	Any 4U Math A minimum average of 80% on courses considered for admission is required.
Teacher Education Stream	Students will fulfill requirements for a BA or BSc. Applicants are required to meet admission requirements for both the Education program and the Faculty of Arts & Science. A minimum average of 75% on courses considered for admission is required.

* Students applying to the BSc in Nursing, BSc in Forensic Science, BSc in Conservation Biology Placement or BSc in Conservation Biology Co-op or BSc in Environmental Geoscience should be aware that their prerequisite course grades will be used as part of the admission calculations.

** Humanities & Social Sciences Co-ops include: Ancient Greek & Roman Studies, Anthropology, Archaeology, Bachelor of Arts & Science, Canadian Studies, Communications, Criminology, Cultural Studies, Economics, English Literature, French Studies, Gender & Social Justice, Global Development Studies, History, Human Rights & Global Justice, Indigenous Environmental Studies, Media Studies, Philosophy, Political Studies, Sociology

***School of the Environment Co-ops include: Ecological Restoration, Environmental Chemistry, Environmental Geoscience, Environmental Resource Science, Environmental Resource Studies, Geography, Sustainable Agriculture & Food Systems

	PEI
General Admission Requirements (required for all programs)	English 621 and at least four additional 600-level academic or advanced subjects
Bachelor of Environmental Science/ Studies	A minimum average of 75% on courses considered for admission is required.
Bachelor of Arts and Science	A minimum average of 75% on courses considered for admission is required.
Bachelor of Business Administration	Math 611 or 621
Bachelor of Business Administration / Accounting Co-op	Math 611 or 621 A minimum average of 80% on courses considered for admission is required.
Biomedical Science	Biology 611 or 621; Chemistry 611 or 621; Math 611 or 621; Physics 621 A minimum average of 75% on courses required for admission is required.
Chemical Engineering/ Chemistry	Chemistry 611 or 621; Physics 621; Math 611 or 621 A minimum average of 80% on courses considered for admission is required.

Admissions from Post-secondary Institutions

Canadian Universities

Students applying from another accredited university (univcan.ca/universities/member-universities) will be considered for admission following at least one semester of study with a minimum 65% average (2.0 GPA on a scale of 4.0). Admission consideration is based on a student's overall academic background including secondary school results. Enrolment is limited and the University will select the most qualified candidates for admission. Up to 10.0 credits (the equivalent of two years of full-time study) may be transferred toward an undergraduate degree program for courses completed with a minimum of 60% (see Transfer Credits.

Students holding a first degree may be admitted to undertake a second undergraduate degree. Those with first degrees from universities may be admitted with a minimum average of 65% (2.0 GPA on a scale of 4.0) and may receive up to 10.0 credits toward a second undergraduate degree. Please refer to the Second Degree section for further information about second degrees. Anyone may also apply for individual courses for general interest, or to upgrade to an Honours degree for application to graduate school. Students serving a term of academic suspension or academic debarment at an accredited Canadian university will normally not be eligible for entrance consideration during the period of suspension or debarment.

Canadian Community Colleges

Students applying from an accredited community college situated in Canada will be considered for admission following at least one semester of study with a minimum 65% average (2.0 GPA on a scale of 4.0). Admission consideration is based on a student's overall academic background including secondary school results. Enrolment is limited and the University will select the most qualified candidates for admission. Transfer credit to a maximum of 10.0 credits may be granted based on overall academic background, length of program, and on the recommendations of the appropriate departments at Trent University.

Ontario Colleges of Applied Arts and Technology (CAAT)

Students applying from a College of Applied Arts and Technology (CAAT) will be considered for admission upon completion of at least one semester of full-time study in an acceptable diploma program with an overall average of 65% (2.0 GPA on a scale of 4.0) or better. Enrolment is limited and the University will select the most qualified candidates for admission. Transfer credit to a maximum of 10.0 credits may be granted based on overall academic background, length of program, and on the recommendations of the appropriate departments at Trent University.

Quebec Applicants from CEGEP

Students applying from CEGEP are required to present at least 12 academic courses. A minimum overall average of 65% is required. The admission average is based on all academic courses completed for credit. Failed courses will be taken into consideration in determining admission. Enrolment is limited and the University will select the most qualified candidates for admission. Students who have successfully completed two years of full-time study at CEGEP may be eligible for transfer credit to a maximum of 5.0 credits (equivalent to one year of full-time study), depending on the overall academic average or the recommendations of the appropriate departments at Trent University.

Foreign Post-secondary Institutions

Students applying from an accredited university degree, college diploma, or associate degree program outside Canada will be considered for admission following the completion of at least one semester of study. Admission consideration is based on the student's overall academic background which may include secondary school results. Academic averages required will depend on the academic system. Enrolment is limited and the University will select the most qualified candidates for admission. Transfer credit to a maximum of 10.0 credits (the equivalent of two years of full-time study) may be granted depending on course content and marks. Applicants holding a first degree may be admitted to undergraduate studies to undertake a second undergraduate degree. Applicants may not undertake a second degree in the same major or minor as their first degree. They may, however, apply to upgrade from a three-year degree to a four-year Honours degree in the same major as their first degree. Applicants may also apply for individual courses for general interest.

Undergraduate Admissions

Visiting (Non-degree) Students

Students wishing to enrol in courses at Trent University for a particular academic session but who are not pursuing a formal Trent University credential (i.e., degree, diploma, or certificate) are defined as Visiting (Non-degree) students. All Visiting students are required to follow the usual admissions procedures and are expected to meet the same admission requirements as degree students at Trent University. Visiting students are not evaluated for transfer credit.

Letter of Permission students are Visiting Students who are intending their Trent coursework to be applied to a credential at another accredited post-secondary institution. In addition to meeting the requirements above, students applying to Trent University on Letter of Permission must also submit an official Letter of Permission from their home institutions. An offer of admission does not guarantee registration in the courses indicated on the Letter of Permission. Students may be required to obtain permission from appropriate Trent academic departments.

Special Students are Visiting Students who are not intending their Trent coursework to be applied to a credential at any other accredited post-secondary institution.

Undergraduate Admissions

Readmission

Readmission refers to the process by which former Trent University students apply to return to their studies. For a full overview of readmission procedures visit trentu.ca/readmit.

1. Students in any of the following situations must complete an application in order to be considered for readmission to Trent University (further information on the application process can be found at: trentu.ca/futurestudents/undergraduate/requirements/former-trent-student
   1. students who have attended another post-secondary institution after leaving Trent University voluntarily; or 2. students who have been required to leave the University for academic reasons. (Studies completed at another post-secondary institution during a term of suspension may be considered as a basis for readmission to the University but may not necessarily be considered for transfer credit.)
2. Students in any of the following situations, who left Trent University voluntarily, and who have not attended another post-secondary institution, can return to studies by contacting Enrolment Services in the Office of the Registrar:
   1. students in good standing;
   2. students on probation;
   3. students who have graduated; or
   4. students who have completed an undergraduate degree at Trent University and who have gone on to complete graduate-level studies.
3. Students who left Trent due to an academic dishonesty suspension must contact Enrolment Services in the Office of the Registrar for next steps on returning to Trent.

Involuntary Withdrawal

If students are required by the University to sit out for an academic year (or more) for non-academic reasons, they are considered to have withdrawn involuntarily from the University (see the full policy in the Policy Library on the Trent website). The University reserves the right to apply additional criteria for readmission after an involuntary withdrawal which include but are not limited to: a reduced course load, regular contact with an academic advisor, ongoing counselling, or behavioural contracts (depending upon the specific nature of the involuntary withdrawal). Readmission procedures are stipulated in the letter from the University that such students receive at the time the involuntary withdrawal is imposed. Students suspended for non-academic reasons who wish to return to their studies are encouraged to contact their academic advisor.

Undergraduate Admissions

Transfer Credits

Transfer credit refers to the course equivalencies granted towards a program of study based on acceptable academic degree-level or diploma-level coursework from an accredited post-secondary institution. Advanced standing and transfer credit may also be granted for some standardized advanced secondary school programs (see Admissions from Secondary School Systems for details).

Trent University subscribes to the Council of Ontario Universities' policy on the transfer of course credit and supports the intent of the Pan-Canadian Protocol on the Transferability of University Credits.

Trent University Transfer Credit Policy

1. Courses from accredited universities are considered for transfer credit toward undergraduate degree programs when successfully completed with a grade of 60% or higher. Courses from accredited colleges and institutions of technology may be considered for transfer credit when completed with a grade of 70% or higher. A minimum grade of 65% is required in any college course that is part of a baccalaureate degree program to be considered for course-by-course transfer credit assessment.
2. A grade of "P" (pass) is assigned to all transfer credits; therefore, transfer credits will not be used in determining the student's cumulative Grade Point Average at Trent University (see Academic Status).
3. The Admissions Office may request detailed course syllabi at their discretion. This request applies to all students coming from all Transfer Credit Jurisdictions outlined below. A transfer credit is designated in three different ways:
   I. Assigned credit is used when there is a Trent University equivalent.
   II. Unassigned credit in a subject area is used for courses without Trent University equivalents, but which are acceptable to a department as fulfilling subject requirements toward a degree in that department. Individual departments may restrict the number of unassigned credits that may be counted toward a degree in that department.
   III. General elective credit is used for courses which are judged to be transferable but do not fulfill specific departmental requirements. General elective credits are expressed in terms of arts elective or science elective courses.
4. The total number of non-Trent credits (either transfer credits or credits taken on Letter of Permission) may not exceed 10.0 for an Honours degree and 7.5 for a General degree. For the concurrent Bachelor of Education – Indigenous degree, which consists of 25.0 credits, the total number of non-Trent credits may not exceed 15.0. Specific degree requirements may mean that not all transfer credits awarded are applicable to a degree program.
5. If a student transfers to a different degree program, the transfer credits assigned on admission may not all apply to the new degree program. It is the student's responsibility to discuss their academic program requirements with an academic advisor and to notify the Office of the Registrar of any program changes.
6. Transfer credits are determined in accordance with the policies and regulations effective at the time the admission decision is made. Subsequent changes to policies and regulations will not affect a previously determined transfer credit assessment. Normally, once transfer credits have been awarded and applied to a student's Trent academic record, they cannot be removed from that record. Requests for reassessment of transfer credits must be received by the Admissions Office in writing before the end of the first academic year of study in which the student is admitted.
7. Assignment of transfer credits for courses completed more than 10 years ago will be considered on an individual basis.
8. In cases where the grading scheme for a university or community college differs from Trent University's grading scheme, and a relevant grade translation is not provided with the official transcript, grades will be translated into the equivalent Trent University grades. Eligibility for admission and transfer credit will be assessed on the translated grades.
9. Trent University does not grant Prior Learning Assessment and Recognition (PLAR) credits. Credits granted by another institution on the basis of PLAR are not transferable to Trent University. In exceptional circumstances Challenge for Credit may be granted by the Office of the Registrar through designated preapproved Trent University agreements. Credits earned through Challenge for Credit may not be included in the minimum number of Trent credits required for a Trent degree. A maximum of 5.0 credits may be granted through Challenge for Credit.
10. Trent University reserves the right to assign or not to assign transfer credit.

Transfer Credit Eligibility by Jurisdiction

Canadian Universities

All undergraduate-level credit courses that have been completed at an accredited Canadian university, that are academic in content and in which a minimum grade of 60% has been achieved, will be recognized for credit at Trent University.

Canadian Community Colleges and Colleges of Applied Arts & Technology in Ontario

Admissible applicants who have completed at least one semester in a Canadian community college or an Ontario College of Applied Arts and Technology will be eligible for transfer credit consideration as follows:

1. By meeting the requirements of an Articulation Agreement: Trent University has more than 60 Articulation Agreements and MOUs which outline specific required grades, transfer credits to be awarded, and degree completion requirements. The terms of an Articulation Agreement may supersede general transfer credit policy (see Degree Completion Programs).
2. Outside of an Articulation Agreement, individual courses and programs which are academic in nature will be considered for transfer credit. A minimum grade of 70% is required in any community college course that is part of a certificate or diploma program to be considered for course-by-course transfer credit assessment. A minimum grade of 65% is required in any college course that is part of a baccalaureate degree program to be considered for course-by-course transfer credit assessment.

   As a general guide, graduates of a two-year highly academic college program can expect to receive up to 5.0 transfer credits. Graduates of a three-year highly academic program can expect to receive up to 7.5 credits.

Religious Institutions

Students who have completed courses at an institution accredited by the Association for Biblical Higher Education (ABHE) may be granted transfer credit for academic courses that have content related to courses offered at Trent, and in which a minimum grade of 70% has been attained.

CEGEP

Students who have successfully completed CEGEP courses may be eligible for transfer credit for academic courses in which a minimum grade of 70% has been attained, up to a maximum of 2.5 credits for 1-year of CEGEP and up to a maximum of 5.0 credits for 2-years of CEGEP.

International Baccalaureate (IB)

Advanced standing and transfer credit may be granted for higher level subjects passed with a grade of five (5) or higher. The maximum credit that will be awarded from an IB Diploma is 5.0 credits (one year of full-time study).

Advanced Placement (AP) Program

All applicants who have completed Advanced Placement courses from the College Board are required to submit their examination results for evaluation. Advanced standing or transfer credit may be granted for most Advanced Placement courses with examination grades of four (4) or better, to a maximum of 5.0 credits (one full year of study).

Advanced Placement Course Equivalencies

AP Course Name	Trent Equivalency (First year/1000 level only)	Credit Value
Art History	Arts general credit	1.0
Art Studio (Drawing)	Arts general credit	1.0
Art Studies (General)	Arts general credit	1.0
Biology	BIOL 1020H and 1030H	0.5 + 0.5
Calculus AB	Science general credit	1.0
Calculus BC	MATH 1110H and 1120H	1.0
Chemistry	CHEM 1000H and 1010H	0.5 + 0.5
Comp. Gov. & Politics	Political Studies unassigned	0.5
Computer Science A	COIS 1010H	0.5
Computer Science AB	COIS 1010H and Computing & Information Systems unassigned	0.5 + 0.5
Macroeconomics	ECON 1020H	0.5
Microeconomics	ECON 1010H	0.5
English Language	No credit	0
English Literature	Arts general credit	1.0
Environmental Science	Environmental & Resource Science unassigned	1.0
French Language	Arts general credit	1.0
French Literature	Arts general credit	1.0
German	GRMN 1000Y	1.0
History—American	History unassigned	1.0
History—Europe	HIST 1201H and 1202H	1.0
Latin	LATN 1000H and 1001H	0.5 + 0.5
Music Literature	Arts general credit	1.0
Music Theory	Arts general credit	1.0
Physics B	Science general credit	1.0
Physics C—Electricity	Science general credit	0.5
Physics C—Mechanics	Science general credit	0.5
Psychology	PSYC 1020H and 1030H	0.5 + 0.5
Spanish Language	Arts general credit	1.0

Spanish Literature	Arts general credit	1.0
Statistics	MATH 1051H	0.5
US Government	Political Studies unassigned	0.5

Note

- 1.0 credit equals one full-course; 0.5 credit equals one half-course.

Private or Career Colleges

Although many private/career colleges are registered with the Ministry of Education, most offer specific applied (non-academic) career training. Trent University does not grant transfer credit for programs completed at private/career colleges.

Universities and Colleges outside of Canada

For students admitted to Trent University from an accredited university degree, college diploma, or associate degree program outside of Canada, a maximum of 10.0 transfer credits (the equivalent of two years of full-time study) may be granted depending on course content and grades. Students transferring to Trent from institutions outside of Canada may be directed to submit detailed course descriptions or a course calendar of the institution at which they studied.

Undergraduate Admissions

Application Procedures

Application Process for Full- and Part-Time Studies

Early application is always encouraged. Please visit trentu.ca/apply for information regarding appropriate application procedures for all sessions and deadlines.

Definition of Full-Time and Part-Time Course Load

Any student taking 2.0 credits or more per term or 3.5 credits or more in the Fall/Winter session will be considered a full-time student. The maximum number of credits a part-time student may earn is 1.5 credits per term or 3.0 credits in the Fall/Winter session.

Application to Diploma Programs

Trent University offers diploma programs in Canadian Studies, Circumpolar Studies and Foundations of Indigenous Learning. Further information regarding application procedures, requirements, and deadlines is included in the Academic Programs section of this Calendar.

Application to Joint Programs with Fleming College

Trent University participates in several joint programs with Fleming College:

- Application for the Bachelor of Science in Nursing (BScN) must be made through the Ontario Universities' Application Centre (OUAC).

Undergraduate Admissions

Documentation

All documents must be official; in those instances where official documents in English are not available, certified translations will be required and should accompany the official document. Documents submitted with an application become the property of the University and will not be returned.

A document will only be considered official If received directly by Trent from the Issuing Institution. Official documents must be received sealed In original Issuing envelope, received directly from an authorized email address, or submitted via an officially recognized credential platform (myCreds, Parchment, OUAC, etc.). All other documents are considered unofficial.

The following documents will be required for the processing of applications for admission:

Admissions from Secondary Institutions

- an official transcript of the appropriate secondary school studies;
- official reports of any standard tests written (e.g., TOEFL, CAEL, IELTS, AP, SAT).

Admissions from Post-secondary Institutions

- official transcripts from all post-secondary institutions attended, whether or not the work was completed;
- official reports of any standard tests written (e.g., TOEFL, CAEL, MELAB, IELTS, AP, SAT);
- an official transcript of the appropriate secondary school studies may be requested after receipt of application.

Retention of Documents

The documents which support an application for admission will be retained in a student file upon commencement of studies at Trent University. Supporting documentation for applicants who do not register for Trent University courses during the term to which they applied will be retained for 12 months following that initial academic term. After that period, application forms, transcripts, and other materials related to an application will be destroyed.

Prerequisites for First-Year Courses

Individuals who wish to take courses leading to majors in Biology, Chemistry, Mathematics, or Physics must ensure that they have the appropriate secondary school prerequisites.

Notes

- Students applying to the BSc in Nursing program should be aware that there are non-academic requirements that must be completed before registration. For details see the Non-Academic Requirements page for Nursing.

Important Dates

Please be advised that changes may occur to the dates listed below. Students should consult the School of Graduate Studies website for any changes. Where a deadline falls on a weekend, the following Monday will apply.

Please note graduate students are required to be registered for each active academic term (September, January and May).

Graduate Academic Dates & Deadlines

Fall Term 2026 (September To December)

Students who complete all degree requirements by September 28, 2026 will not be required to pay the term's fees. Students are still required to register for the term by the registration deadline of September 10. A defence date should be scheduled to allow adequate time for edits/revisions. Students who complete their degree requirements after September 28 will be required to pay fees for the term. Any subsequent refund will be based on the date of degree completion.

Date	Day	Description
July 7	Tuesday	Graduate program registration opens for Fall 2026 term, Winter 2027 term and Spring 2027 term Course registration opens for Fall 2026 term for all graduate students Course registration opens for Winter 2027 term for all graduate students except those in Master of Management (M.MGT) and Applied Modelling & Quantitative Methods (AMOD) graduate degree programs
Aug. 3	Monday	University closed: Civic Holiday
Sept. 1	Tuesday	Fall 2026 term begins
Sept. 7	Monday	University closed: Labour Day
Sept. 10	Thursday	Classes begin Final date for program and course registration for Fall 2026 term
Sept. 24	Thursday	Final date for students to notify the School of Graduate Studies of their wish to observe their cultural or religious holidays during scheduled examination periods
Sept. 28	Monday	Fee Payment deadline for Fall 2026 term Final date to withdraw from Fall 2026 term courses without financial penalty Final date for change of status requests for Fall 2026 term
Oct. 12	Monday	University closed: Thanksgiving Day
Oct. 23	Friday	Last day of classes prior to break
Oct. 26	Monday	Residential Reading and Laboratory Week begins
Nov. 2	Monday	Classes resume
Nov. 10	Tuesday	Final date to withdraw from Fall 2026 term half courses. After this date students remain registered in Fall 2026 term courses and receive final grades Course registration opens for Winter 2027 term for graduate students in Master of Management (M.MGT) and Applied Modelling & Quantitative Methods (AMOD) graduate degree programs
Dec. 9	Wednesday	Last day of classes
Dec. 10	Thursday	Scheduled mid-term test and Fall 2026 term half-course final examination period begins (Peterborough and Durham)

Dec. 22	Tuesday	Mid-term test and Fall 2026 term half-course final examination period ends, 10:30 pm
Dec. 23	Wednesday	Winter Vacation and Reading period begins (check department websites for service hours)
Dec. 23 – Jan. 1		University closed: Winter holiday

Graduate Academic Dates & Deadlines

Winter Term 2027 (January To April)

Students who complete all degree requirements by January 28, 2027 will not be charged the term's fees. Students are still required to register for the term by the registration deadline of January 10. A defence date should be scheduled to allow adequate time for edits/revisions. Students who complete their degree requirements after January 28 will be required to pay fees for the term. Any subsequent refund will be based on the date of degree completion.

Date	Day	Description
Jan. 1	Friday	Winter 2027 Term begins
Jan. 6	Wednesday	Classes resume
Jan. 10	Sunday	Final date for program and course registration for Winter 2027 term
Jan. 20	Wednesday	Final date for students to notify the School of Graduate Studies of their wish to observe their cultural or religious holidays during scheduled examination periods
Jan. 28	Thursday	Fee Payment deadline for Winter 2027 term Final date to withdraw from Winter 2027 term courses without financial penalty Final date for change of status requests for Winter 2027 term
Feb. 8	Monday	Final date to withdrawal from Fall 2026 term full courses. After this date students remain registered in Fall 2026 term full courses and receive final grades
Feb. 12	Friday	Last day of classes prior to break
Feb. 15	Monday	University closed: Family Day Residential Reading and Laboratory Week begins
Feb. 22	Monday	Classes resume
Feb. 26	Friday	Course registration opens for Spring 2027 term for all graduate students
Mar. 9	Tuesday	Final date to withdraw from Winter 2027 term half courses. After this date students remain registered in Winter 2027 term courses and receive final grades
Mar. 26	Friday	University closed: Good Friday
Apr. 6	Tuesday	Last day of classes
Apr. 9	Friday	Examinations begin for Winter 2027 term courses and full-year Fall 2026 term courses (Peterborough and Durham)
Apr. 23	Friday	Examinations end for Winter 2027 term courses and full-year Fall 2026 term courses, 10:30 pm

Spring Term 2027 (May To August)

Students who complete all degree requirements by May 28, 2027 will not be charged the term's fees. Students are still required to register for the term by the registration deadline of May 10. A defence date should be scheduled to allow adequate time for edits/revisions. Students who complete their degree requirements after May 28 will be required to pay fees for the term. Any subsequent refund will be based on the date of degree completion.

Date	Day	Description
May 1	Saturday	Spring 2027 term begins
May 3	Monday	Classes begin
May 10	Monday	Final date for program and course registration for Spring 2027 term Final date for students to notify the School of Graduate Studies of their wish to observe their cultural or religious holidays during scheduled examination periods
May 17	Monday	University closed: Victoria Day
May 28	Friday	Fee Payment deadline for Spring 2027 term Final date to withdrawal from Spring 2027 term without financial penalty Final date for change of status requests for Spring 2027 term

	12 week term (S12)	6 week term (S61)	6 week term (S62)
Classes begin (week of)	May 3	May 3	June 16
Final date to add courses	May 10	May 10	May 10
Final date for withdrawal from courses - after this date students remain registered in courses and receive final grades	June 18	May 28	July 1
Classes end	July 27	June 11	July 27
Examination period	July 28-31	June 12-15	July 28-31

Graduate Academic Information & Regulations

This section provides important information regarding the regulations of Trent University and of your graduate program. It is every student's responsibility to know and comply with the relevant regulations. Being familiar with the information contained in the Calendar will also assist you in planning and moving through your program successfully.

Registration

By registering and paying fees, students assume responsibility for understanding and abiding by the regulations and procedures included in this Calendar. Moreover, it is the student's responsibility to establish and maintain regular communication with their thesis/ dissertation supervisor and graduate program. Students should also refer to the resources available through the graduate studies website at trentu.ca/graduatestudies/current-students-faculty

Students whose applications for admission to graduate study have been approved for full- or part-time study and all continuing graduate students should register by the dates recorded in the Graduate Calendar. Graduate students, full- or part-time, proceeding to a degree must maintain continuous registration in each successive term from the time of initial admission until the end of term during which the requirements for the degree are completed (i.e. successful defence and submission of final thesis/dissertation to the School of Graduate Studies) unless on an approved leave of absence.

Failure to Register

Graduate students are required to maintain continuous registration in their graduate programs. Students who fail to register or re-register by the published deadlines and have not been granted an official leave of absence, will be withdrawn from their program. Attending courses does not constitute official registration; students are required to register using myTrent and to submit the appropriate tuition fees by the required due date.

For subsequent reinstatement, the student must make an application for readmission to the School of Graduate Studies including the application fee, after which the program must make a written recommendation, outlining any academic conditions which it deems necessary.

Full-time, Part-time and Inactive status

A graduate student may have active full-time, active part-time, or leave of absence status while enrolled.

Full-time

A full-time student is one who:

1. is pursuing studies as a full-time occupation;
2. is designated by the University as a full-time graduate student
3. is geographically available and visits the campus regularly unless the program is designed as a remote/virtual learning environment
4. is not regularly employed and/or working full-time hours within the University for any period for which they are registered as an eligible full-time graduate student,
5. is expected to be working at least 30-hours/week on their graduate studies and making satisfactory progress to degree completion, and
6. in the light of the foregoing identifies themself as a full-time graduate student.

Notes

- It is understood that a graduate student may be absent from the University while still under supervision (e.g., visiting libraries, attending a graduate course at another institution, doing field work). If such periods of absence exceed four weeks in any term written approval must be obtained by completing the Request for Extended Leave form found at "Graduate Registration Forms" option under Academics > Academic Record in the myTrent portal. Approvals must be obtained from the Graduate Program Director and the Manager of the Office of the Dean of Graduate Studies. Irrespective of this provision, a student conducting experimental work in an external laboratory would not normally be considered as a full-time student except by written permission of the Manager of the Office of the Dean of Graduate Studies upon recommendation of the supervisor.

- If the student is employed on a Graduate Teaching Assistantship, the terms of employment are governed under the Collective Agreement with CUPE Local 3908, Unit 2 and Trent University. This agreement can be found at trentu.ca/humanresources/humanresources-services/labour-relations
- Students who at any time cease to meet all of the criteria for full-time status, but are in good standing and wish to continue with their studies, must change to part-time status, where permitted by the program. If this change in status takes place during a term, adjustments to time limits and fees are made effective from the start of the next term. Such a change requires the written consent of the student's supervisor and Graduate Program Director.

Part-time

Graduate students requesting "part-time" status:

1. must be those employed on a full- or part-time basis (requiring a letter from their employer(s) to indicate a minimum 20 hour work week);
2. employment with a student's supervisor will not normally be considered a basis for conversion from full-time to part-time status. Exceptions to this requirement must be approved by the Dean of Graduate Studies.
3. must be those unable to attend on a full-time basis because of documented circumstances or responsibilities (e.g., child care, disability).
4. may not register in more than one half the prescribed full-time program course requirements or equivalent per year.
5. must note that two years of part-time study shall be deemed equivalent to one year of full-time.

Note

Financial circumstances alone are not grounds for a change from full-time to part-time status.

Undergraduate Courses Taken for Graduate Credit

The number of undergraduate courses or combined courses in which undergraduate students predominate cannot exceed 1/3 of the total course requirement for the degree. Undergraduate courses taken in addition to graduate courses will be charged the regular undergraduate tuition in addition to the graduate fees, unless the course is part of the degree requirements of the graduate program or the fees are waived by the Dean of Graduate Studies.

Adding & Dropping Courses

All students must register for courses by the registration deadline of each academic term. Students should be aware of academic regulations with regard to the number of required courses as well as the deadlines to drop a course without academic or financial penalties.

Regulations Concerning Dates for Adding/Dropping Graduate Courses

1. This regulation pertains to elective courses; students are not permitted to drop required courses.
2. The start and end date of graduate courses will be identified in the course syllabus.
3. For courses that follow the normal academic term dates *(i.e. Fall/Winter, Fall, or Winter) course add / drop dates will match the published dates in Important Dates.
4. For courses offered over a non-standard timeframe, e.g. compressed or reading courses, the last date by which a student can be enrolled in the course or can drop the course will be identified in the course syllabus.
5. Normally at least 25% of the grade in a graduate course must be determined and made available to students by the deadline for withdrawal ("drop date") from a course.
6. For extenuating circumstances, or for any adds or drops outside of the published dates, a manual Course Add/Drop form, available at Program Offices, should be used including the signatures of the course instructor and student's supervisor. If the student has not been assigned a supervisor, the program director must sign the form.

Audit Policy

Upon the recommendation of the supervisor or Graduate Program Director, and with the permission of the Manager of the Office of the Dean of Graduate Studies, a graduate student may register to audit the equivalent of one full credit course in any graduate or undergraduate program at Trent University without being assessed any additional fees. Courses taken for audit will not count for credit towards the student's graduate degree program, nor will the student be allowed to write final examinations or receive grades for courses which are audited. Courses which are audited will be recorded on the student's transcript and the term "AU" will appear in lieu of a grade. It is the student's responsibility to obtain permission from the course instructor to audit.

Ontario Visiting Graduate Student Plan

Under certain circumstances it is permissible for a student admitted to a degree program and registered at one Ontario university to enroll in approved credit courses at another university. Credit will be granted only if written permission is received from the Dean of Graduate Studies. Students interested in this option must complete the OVGS application form before the start of the term in which the course is being offered. The form can be found on the graduate studies website.

Graduate Academic Information & Regulations

Change of Name

The School of Graduate Studies and the Office of the Registrar are committed to the integrity of student records. Each student is therefore required to provide his or her legal name on the application for admission and in personal data required for registration. Any requests to change a name, by means of alteration, deletion, substitution, or addition, must be accompanied by appropriate supporting documentation. Upon applying to graduate, a student may be asked to provide legal documentation as proof of legal name.

Graduate Academic Information & Regulations

Email Accounts

At the time of first registration at the University, students are issued a Trent user ID and password and a Trent email account. The Trent email account is considered the official email account and will be the only email account used to communicate with students for academic and administrative purposes. Students are responsible for ensuring that they monitor and maintain their Trent email account and to ensure that email is accessed, read, and acted upon in a time fashion. Students should be aware that emails from non-Trent accounts will not be considered official.

Graduate Academic Information & Regulations

Change of Status

Students requesting a transfer from full- to part-time status must complete and submit the Request to Transfer to Part Time Status. Please see the Graduate Registration Forms option under Academics > Academic Record on the myTrent portal > Change to Part Time Status. Approvals from the supervisor (if applicable) and Graduate Program Director are required.

Students requesting a transfer from part- to full-time status must complete and submit the Request to Transfer to Full-Time Status. Please see the Graduate Registration Forms option under Academics > Academic Record on the myTrent portal > Change to Full Time Status. Approvals from the supervisor (if applicable) and Graduate Program Director are required.

Requests for change of status are made effective from the start of the next term (as above). Requests will not be approved retroactively.

Leave of Absence

A leave of absence from a graduate program may be granted for a number of reasons which may include parental and maternity leave, medical leave, compassionate leave, or work leave. Requests will be considered on an individual basis and must have the approval of the supervisor (if applicable) and the Graduate Program Director before they are submitted to the School of Graduate Studies for approval. If not approved, graduate students may withdraw from their program.

A graduate student granted a leave of absence will not be registered and will not be required to pay fees for the duration of the leave. Students on leave will not be eligible to receive university fellowship support or other financial support from the University. In the case of funding by an external agency, the regulations of the granting agency will apply.

The length of time for completion of the degree will be extended by the duration of the leave. While on leave students will not normally be entitled to use University facilities and resources, or receive supervision (if applicable). Leaves of absence are for a maximum of three consecutive terms. Normally, a student will not be granted more than one leave of absence during a graduate degree program. The graduate student is required to re-register when ready to resume studies and will be assessed tuition fees at the time of re-entry. There will be a minimum period of registration and tuition beyond the leave of absence equal to one term (even if degree requirements are met before that date).

Graduate students on leave may request continued access to Library services by contacting the School of Graduate Studies. Requests for a leave of absence must be received prior to the registration deadline of the term to be effective for that term. Requests received after the registration deadline will only become effective in the following academic term. Requests will not be approved retroactively.

Internal Transfers

Students in a program with multiple degree options or in a Masters program with optional streams, may apply to change between degrees or streams with the approval of their supervisor and Graduate Program Director. Applications must be submitted to the School of Graduate Studies no later than the end of the second term of study, (i.e. April 30th of the first year of study for September starts). Continuation of funding will be reviewed with the application, however is not necessarily guaranteed. Please see the Graduate Registration Forms option under Academics > Academic Record on the myTrent portal > Change to Program Stream. Approvals from the supervisor (if applicable) and Graduate Program Director are required.

Please refer to the School of Graduate Studies Program Transfer Policy for further information on internal program transfers.

Program Changes within Graduate Studies

Students wishing to pursue a graduate program other than the one to which they were originally admitted must contact the School of Graduate Studies for more information. Requests to change graduate programs are subject to the admission requirements of the new program and approval for admission. Students may be required to complete another application. Requests to change graduate programs made prior to the Change of Status deadline published in the academic calendar will be effective from the start of the current term. Requests to change graduate programs made after the Change of Status deadline published in the academic calendar will be effective from the start of the next term.

Credits completed will be assessed following the graduate transfer credit policy and will be part of the admission process to the new program.

Funding associated with the new program is not guaranteed and is subject to availability for eligible students. Funding will not reset on commencement of the new program and academic terms completed in any program will be counted. Any funding arrangements will be confirmed in the admission process to the new program.

Parental Leave

Students may request a parental leave for up to three terms (or one calendar year). In the case that both parents are graduate students at Trent University, the leave may be taken by one parent or shared between both to a maximum of three terms total. Parental leave may be taken in addition to a standard leave of absence.

Time Limits

Time limits listed here are the maximum allowed for all graduate programs at Trent University. Individual programs may have their own time limit regulations. Please see the program sections for details.

The maximum time allowed to complete all requirements for the Master's degree (thesis-based) from initial registration is three years for a full-time candidate or five years for a part-time candidate. The maximum time allowed to complete all requirements for students in a course-based Masters program is two years for a full-time candidate or four years for a part-time candidate.

The maximum time allowed to complete all requirements for the Doctoral degree from initial registration is five years for a full-time candidate or nine years for a part-time candidate. (Note: see regulations pertaining to full-time/ part-time status.)

When students change status from full-time to part-time (or vice-versa) the time remaining to complete degree requirements will be adjusted with one term of full-time study being equivalent to two terms of part-time study. Such adjustments will take effect at the start of the next term. In all cases, the total time to complete all degree requirements will not exceed five years (Master's) or nine years (Doctoral).

In the case of full-time students, the completion of course work is an absolute requirement by the end of two years (Master's), or three years (Doctoral) in order to continue in the program. PhD students should complete their comprehensive and qualifying exams within two years of beginning their studies, or within the time frame outlined in the program requirements.

Students seeking an extension beyond the approved time limit in a graduate program, as well as students who switch from full-time to part-time status, must establish an agreement with their supervisor that outlines a timeline to completion, including milestones and deadlines prior to submitting the request for extension. At the beginning of each subsequent term, the student must submit a progress report to the Graduate Program Director, copied to their supervisor, outlining the milestones achieved, as well as a revised agreement covering the next term. Failure to meet milestones in the agreement may be deemed as unsatisfactory work and may lead to removal from the graduate program.

Extension of Time Limits

No extensions of the prescribed time limits will be granted except under extraordinary circumstances. In such instances, a Time Limit Extension Request form must be completed by the student in consultation with the supervisor. Please see the Graduate Registration Forms option under Academics > Academic Record on the myTrent portal > Time Limit Extension. Approvals from the supervisor (if applicable) and Graduate Program Director and Dean of Graduate Studies are required.

Withdrawal

A student who wishes to withdraw from their graduate program and the University must complete a withdrawal form or send a signed, dated letter to the School of Graduate Studies, copied to the Graduate Program Director and the thesis/dissertation supervisor (if applicable). Please see the Graduate Registration Forms option under Academics > Academic Record on the myTrent portal > Withdraw.

Once the School of Graduate Studies is in receipt of the form or letter of withdrawal, fees will be adjusted accordingly (following Trent University's Graduate Refund Schedule) and a notation will be placed on your transcript indicating Withdrawn in Good Standing. Any scholarship, bursary or other financial support will be adjusted based on the date of withdrawal and may require repayment to the University.

A student who withdraws without completion of the form or a letter will not be eligible for any refund of fees paid nor exemption from fees.

Students who withdraw or change their status to parttime before the end of a term will be required to repay any scholarship funds previously paid to the student.

Courses

A student will be required to obtain a second class standing (B-/70%) in all required graduate courses or a higher standard as required by a particular graduate program. A program may prescribe additional graduate courses and the student may be required or permitted by the program to take courses in addition to those prescribed for credit. Subject to a review of the candidate's competence in their major subject, a candidate may be permitted to take one course in another department/program.

Grading Systems for Courses

Since June 1982, the following grading scheme has been in effect:

A+ 90 – 100	B+ 77 – 79 F	0 – 69
A 85 – 89	B 73 – 76	
A- 80 – 84	B- 70 – 72	

In addition to the above, the following symbols may also be used on grade reports. These symbols are also used on the academic transcript of students; AU (audit course); F (fail); INC (incomplete); INP (in progress); P (pass); PRE (preregistered); PWD (pass with distinction); PWR (pass with remediation); SAT (satisfactory); UNST (unsatisfactory); WDN (withdrawn).

Incomplete Standing

Incomplete standing permits students to prearrange with their instructor an alternate date to submit any remaining work in a course and may be granted in cases where:

1. a student is unable to complete in proper time the work requirement of a course for reasons beyond the student's control such as illness, physical or emotional disability,
2. loss of or damage to work already completed or in progress, or adverse seasonal effects on field or laboratory projects.
3. permission is granted by the program to allow the student to retake a program requirement at a future date as indicated in the program regulations and determined by the Program Director.

Incomplete Standing is to be used for students who, for a compelling reason, are not able to complete their work during the term. The grade of INC may be carried for a maximum of one term after which the grade assigned is based on the work received to date. Permission from the Dean of Graduate Studies will be required to carry a grade of INC for more than one term. An "incomplete" shall be assigned only with the written approval of the Graduate Program Director. When the work is received, the department will submit a Change of Grade form to the School of Graduate Studies and the student's record will be updated.

Students wishing temporary incomplete standing at the end of a course must petition through the program involved and, where possible, properly support and document the reasons. Petitions for incomplete standing must be made before the submission of final grades to the School of Graduate Studies.

The deadline for submission of final grades for incomplete courses is April 30 for Fall half-courses, August 31 for Winter half-courses, and December 15 for Summer courses. Failure to meet a revised deadline may result in a grade of F.

Incomplete standing should not be confused with Aegrotat standing, which applies only in cases where students are unable, through similar physical or emotional disability, to write or perform in final examinations.

Aegrotat Standing

In unusual circumstances, a student may be exempt from writing a final exam. This decision is at the instructor's discretion. The instructor has the right to request documentation from the student. The School of Graduate Studies must receive notice of Aegrotat standing for a student from the Graduate Program Director. The School of Graduate Studies will add a notation of AG next to the

assigned grade on the student's transcript. Aegrotat standing marks are determined using a calculated final examination mark for the student in question. The examination mark is calculated by adding to the student's term mark the class final examination average minus the class term-work average.

Grading Criteria

Normally, at least 25% of the grade in a graduate half credit course offered in the Fall/Winter academic session must be made available by the final date for withdrawal. Where a non-standard term is being used, the course outline should include the drop/add date.

Final Grades

Either the final grade or an entry of INC (denoting "incomplete") must be submitted within two weeks of the end of the term. Any departure from the above regulations shall require the authorization of the Dean of Graduate Studies.

Official Final Grades

Final grades are official 30 days after they have been released by the School of Graduate Studies. If errors in the calculation or recording of grades come to light after the grades have been released, all affected grades may be recalculated and raised or lowered with the approval of the Dean of Graduate Studies. This process must be completed, and corrected transcripts must be issued, however, before the 30-day period has passed. Instructors are not permitted to release final grades. Final examination marks can be released to students only after final grades have been released by the School of Graduate Studies. There is no time limit to reopen a grade in a case of academic dishonesty.

Unsatisfactory Work

On the recommendation of the program, approved by the Dean of Graduate Studies, a student whose work is unsatisfactory may at any time be required to withdraw from the University. Students should note that individual programs may have criteria beyond those listed below. Please refer to the program section of the calendar for further details.

Unsatisfactory work includes any of the following:

- course work receiving a final grade lower than B- (70%) or the required minimum as established by a program. See Failed Course Policy.
- course work not completed within the specified timeframe
- failure to maintain satisfactory progress in research and/or thesis/dissertation work as determined by the supervisory committee.

Failed Course Policy

Masters students who obtain less than 70% in a nonrequired course may take another course in substitution. If 70% is not obtained on the substituted course, the student will then be obliged to withdraw from the program. Only one such substitution will be permitted as part of requirements of any degree.

Students who obtain less than 70% on a required course (as designated by the program) will not be permitted to retake the course and will be required to withdraw from their program.

For PhD programs see individual program regulations.

Course Outlines/ Syllabi

Each course has a syllabus which includes the following:

1. General Course Information:
   1.1 Course name and number; semester and year; and requisites and exclusions, if any
   1.2 Faculty member's name; office location; scheduled student consultation hours; office telephone number; e-mail address; faculty/course web site(s) if available.
2. Course Description
   2.1 Calendar course description
   2.2 The intended learning outcomes
   2.3 Topics with their approximate sequence and schedule
   2.4 If using a non-standard term, the deadlines (drop/ add date, exam schedule, final grade availability) should be included
   2.5 Reading lists and other course materials and/or equipment
   2.6 A description of the teaching method(s) that will be used (e.g. lecture, laboratory, studio, cases, problem-based learning, seminar, field work, oral presentations, or combinations of these)
   2.7 A schedule of field trips or required activities outside of class time
3. Expectations/Requirements
   3.1 A list and weighting of all assignments, tests, exams, group and other work to be graded, and a general description of these
   3.2 A schedule of deadlines for graded work
   3.3 The penalty for not meeting submission deadlines
   3.4 Any exceptions to the final grade due policy
4. University Policies
   4.1 Academic Integrity Policy
   4.2 Access to Instruction

The syllabus will be approved by the Dean of Graduate Studies. The instructor should review the syllabus with students at the first class in the course. Any change thereafter in the grading scheme must be agreed to in writing by all students pre-sent at a subsequent class; at the class immediately following that one, the revised section of the syllabus must be posted or otherwise communicated.

Graduate Fees

Student Account and Tuition Link

For full details of the fee schedules for professional, research based, course based, and graduate diplomas. Fees are billed to the student account and can be reviewed online through the myTrent portal. Tuition and ancillary fees for graduate students are prorated and billed each term (September, January, May).

Graduate students must register and pay fees at the beginning of their program of study and must maintain continuous registration and fee payment (except during approved leaves) until degree requirements have been completed and notification of approval to convocate has been received.

Graduate students who have an unpaid University account for fees and/or other charges (including library fines and parking fines) at the time of registration at the start of each term will be deemed financially ineligible to register and the student may be restricted from registering in their program.

A $100.00 late payment fee will be levied if payment is not made by any fee payment deadline date for any academic term.

In order to convocate, all students (full- and part-time) must have paid at least the minimum Degree Fee.

Provided the Degree Fee has been met, pro-rated refunds of tuition may be available in accordance with Trent University's Graduate Refund Schedule.

Fees are subject to approval by the Trent University Board of Governors. The University reserves the right to alter fees and fee structures. Tuition and ancillary fees are subject to change.

Tuition fees for graduate programs are charged on a flat-fee or fee-per-credit basis.

It is expected that students in fee-per-credit programs will be registered in courses each term until the completion of their coursework and will, therefore, be continuously enrolled in their program and pay tuition in all three graduate terms per year as well. Students on an approved leave of absence will not be charged any fees.

Health and dental charges are billed in full in September for students enrolled in September and in January for students starting the graduate program the winter term. The plan is compulsory for graduate students. Students have the opportunity for opting out (see Health Benefits opt-out deadlines) and applying for a refund of the fee if covered by alternate insurance.

UHIP charges are mandatory for International students and are charged in full in September. Students starting their program in January and May will be billed a prorated fee.

Ancillary Fees are non-refundable.

Note fee payment deadlines in university calendar. See Important Dates.

Graduate student college fees are distributed to Traill college, and to the Trent Graduate Students' Association.

Transportation Fee (bus pass) is optional for graduate students.

Degree Completion

Graduate students must continue to be registered until all degree requirements are completed. Students who complete their program of study, including a successful defence and submission of a final copy of thesis/ dissertation to the School of Graduate Studies, before the term's fee payment deadline, as published in the Graduate Academic calendar, will have their fees cancelled for the applicable term in accordance with Trent University's Graduate Student Refund Schedule. Students who complete their requirements after the published deadline must register for the term and pay the term fees; any refund of tuition fees will be based on the date all requirements have been met (in accordance with Trent University's Graduate Student Refund Schedule). Students returning from inactive status (e.g., leave of absence) or re-admitted students will require a minimum period of registration and payment amounting to one term (even if degree requirements are met before that date). No defence will be scheduled or held without registration being completed before the proposed date of the defence.

Minimum Degree Fee

Thesis Stream

The minimum degree fee in all thesis stream masters programs is equivalent to one year's full-time tuition. The minimum degree fee in all thesis stream doctoral programs is two years full-time tuition. To convocate, all graduate students in a thesis stream (whether full- or part-time) must have paid at least the minimum degree fee. Students are required to pay fees while they are registered, even if the minimum fee has been paid. Students who meet degree requirements in less time than one year of full-time studies for master's programs and two years of full-time studies for doctoral programs are responsible for payment of the balance of the minimum degree fee to convocate. For the calculation of balance of degree fees, one full-time term is equivalent to two part-time terms, and vice versa.

Other Streams

The minimum degree fee for non-thesis programs (course based and/or MRP) is defined by the program length in fulltime equivalent terms (e.g., two terms, three terms, or four terms, depending on the program). Students who meet degree requirements in less time than the defined program length are required to pay the balance of the minimum degree fee to convocate. The approved transfer of credits to a program does not alter or reduce the minimum degree fee. Students who are required to take additional courses because of a failed course and/or extend their registration to complete other outstanding degree requirements will be required to extend their registration and additional fees above the minimum may be applied.

Accounts

Interest

Daily interest charges will apply to all balances outstanding after the payment due date and will be added on the first day of each month until the outstanding balance is paid in full. Visit the Financial Services website for more information.

Late Payments

A $100 late payment fee will be levied to all accounts if payment is not made by any fee deadline date for any term.

Dishonoured Payments

There is a fee for any payment which is returned or dishonoured (insufficient funds). The University reserves the right to restrict students to a particular payment method to reduce the risk of returned payments.

Payment of Fees by OSAP and Out-of-Province Funded Students

Students are responsible for ensuring their loan application is complete and all requirements have been met. Students should contact Trent's Financial Aid Office for questions and assistance with their OSAP applications. OSAP students are responsible for remitting payment to the University by the posted deadlines. Fees paid after the posted deadlines will be charge a separate late fee for each missed due date and outstanding balances will be subject to interest.

Unpaid Student Accounts

Students who have not paid their accounts in full will not be permitted to register for the next term. Access to myTrent will be restricted and grades, transcripts, and degree and graduate diplomas will not be released until the financial obligations have been settled fully.

Unpaid accounts of students who are no longer registered with the University will be placed with a collection agency and the students will be unable to register for any further courses until the outstanding balance has been paid. Trent University reserves the right to use any legal means to reclaim delinquent balances.

The University also reserves the right to request a prepayment of the fees prior to registration for any account that has been delinquent.

Other Fees

Are posted on the Graduate Finance page.

Graduate Scholarships and Awards Website

The School of Graduate Studies maintains a list of available scholarships and application deadlines.

Financial support for full-time graduate students may be available from a variety of sources. These include:

- External Scholarships, fellowships and other merit awards from governmental, industrial and other granting bodies in Canada.
- Internal Scholarships, Awards or Prizes.
- Tuition bursaries, awarded to students based on financial need. Many bursaries are provided by the generous support of external donors.
- Graduate Teaching Assistantships (GTAs), for teaching, leading seminars and/or laboratory demonstrating.
- Research Fellowship Awards (RFAs) from supervising faculty members who hold research grants.

- Internal Funding: Entrance Scholarships, Research Fellowships, Dean's PhD Scholarships, School of Graduate Studies Academic Scholarships & International Graduate Scholarships.
- Research Assistantships (RAs) with faculty members who hold research grants.
- Loans from the Ontario Student Assistance Program (OSAP).

In the case of major scholarship competitions, students currently registered at Trent must meet an internal application deadline set by the University. Information on certain external scholarships may be obtained from the School of Graduate Studies. For further information, students may contact Graduate Finance at the School of Graduate Studies.

Trent University is actively committed to creating a diverse and inclusive campus community. We encourage applications from all students and this includes: Asian or Pacific Islander, Black or African Decent (North American/ Caribbean), Hispanic or Latino, Native American or Alaskan Native, White or Caucasian, Multiracial or Biracial, Refugee/Protected Person, First Nations, Inuit or Metis, Visible Minority (Racialized Identity), Member of the LGBTQQIP2SAA community, persons who are caregivers of an immediate family member, persons with disabilities, including but not limited to: physical, psychiatric, intellectual or learning disabilities, visual impairment, hearing impairments, autism spectrum disorder or other neurological disorders and a race/ethnicity not listed.

Trent University is committed to review every bursary application submitted to determine financial eligibility and need. Every member of Trent University, faculty, staff or student has a right to freedom from discrimination in the University by another faculty, staff member, or student because of age, ancestry, citizenship, colour, creed, disability, ethnic origin, family status, gender identity/ expression, marital status, place of origin, race, sex and sexual orientation.

Thank You to Our Donors

The funds for many of the following scholarships, bursaries, awards and prizes include gifts from individuals, corporations and other organizations through annual, campaign and legacy giving programs and through support from various levels of government. We are grateful to our past and current donors for their contributions which benefit our students and support education and research at Trent. For more information about Donor funds please contact the Trent Development Office.

Graduate External Scholarships

Natural Sciences and Engineering Research Council (NSERC) Scholarships

Postgraduate scholarships and Canada Graduate Scholarships from the Natural Sciences and Engineering Research Council (NSERC) are tenable in departments offering graduate studies in science. Awarded to students undertaking graduate study and research leading to advanced degrees, and a limited number of postdoctoral fellowships for those wishing to add to their experience by specialized training. Open to Canadian citizens or permanent residents and awarded on the basis of high scholastic achievement and evidence of capacity to do research. Internal application deadline: October for doctoral candidates and December 1 for Master's candidates. For further information and online application see nserc.ca.

Social Sciences and Humanities Research Council (SSHRC) Scholarships

Master's level Canada Graduate Scholarships, Doctoral Fellowships and Doctoral level Canada Graduate Scholarships from the Social Sciences and Humanities Research Council (SSHRC) are offered each year to Canadian citizens or persons who have obtained landed immigrant status in Canada by December 1. The scholarships and fellowships program aims to develop research skills and assist in the training of highly qualified academic personnel by supporting students who demonstrate a high standard of scholarly achievement in undergraduate and graduate studies in the social sciences and humanities. Internal application deadline: October for doctoral candidates and December 1 for Master's candidates. For further information and online application see sshrc.ca.

Canadian Institutes of Health Research (CIHR)

The Canadian Institutes of Health Research (CIHR) Master's and Doctoral Awards are intended to provide special recognition and support to Canadian citizens or permanent residents of Canada who are pursuing a graduate degree in a health-related field. Doctoral candidates use a direct application process. Information and the deadline are found on the CIHR webpage. The internal application deadline is October for doctoral candidates and for Masters is December 1st. Further information may be found at cihr-irsc.gc.ca.

Queen Elizabeth II Graduate Scholarships in Science and Technology (QEII-GSST)

The Queen Elizabeth II Graduate Scholarships in Science and Technology (QEII-GSST) are designed to reward excellence in graduate studies in the areas of science and technology. The scholarships consist of funding from the Province of Ontario matched by private sector support to the university. Each QEII-GSST will have a value up to $15,000 annually, or $5,000 per term. Recipients may not hold other major provincial or national awards. Students must be Canadian citizens or permanent residents, be enrolled in full-time research graduate programs (masters or doctoral level) in science and technology and exhibit overall academic excellence. Selection of award winners will be made annually by the Graduate Scholarships Subcommittee of the Graduate Studies Committee.

Ontario Graduate Scholarships (OGS)

The Government of Ontario provides funding to Trent University to allocate Ontario Graduate Scholarships (OGS) to Trent graduate studies students. The awards are tenable in all disciplines and the scholars must have a high level of academic achievement. Awards are allocated to graduate programs whose degree requirements include a significant research component. The awards are intended primarily for Canadian citizens as well as those who hold permanent resident status at the time of application; however, Trent does offer two awards to students who, by the application deadline, have been admitted to Canada as visitors with student authorization. Awards will be for two or three consecutive terms; one-term awards will not be made. All eligible candidates who are interested in studying at Trent are urged to apply. For further information contact Trent's School of Graduate Studies.

The value of the OGS award is $5,000 per term, two thirds of which is provided by the Province of Ontario and one-third of which is provided by the university. Many private donors have very generously provided matching funds to pay for the one-third top-up of Ontario Graduate Scholarships awarded to scholars at Trent University.

Graduate Financial Aid

Named Ontario Graduate Scholarships

Harley Richards Cummings Ontario Graduate Scholarship*

Established with a gift and later a bequest from his wife, Shirley. This scholarship honours Harley, a respected educator in the Ottawa public schools and author of "Early Days in Haliburton."

Henry Dyce Howitt Ontario Graduate Scholarship*

Established from the estate of Henry Dyce Howitt who died on September 2, 2000. It was his wish to encourage outstanding achievement and academic excellence with this gift. To be awarded to a graduate student at the Master's or PhD level and holding an Ontario Graduate Scholarship.

Jean Evelyn Graves – Canadian Studies Ontario Graduate Scholarship*

Established with a gift and later a bequest of her friend, Shirley Cummings. This scholarship honours Jean who was a secondary school teacher and later was Kingston's first Guidance Counsellor working for the Kingston Board of Education.

Bruce W. Hodgins Ontario Graduate Scholarship

Established in honour of Professor Emeritus Bruce W. Hodgins (1931–2019) by Shelagh and Jon K. Grant. Professor Hodgins taught at Trent University for over 30 years, where he was truly revered as a scholar, teacher and mentor. Awarded to a Trent graduate student researching in the areas of environmental studies, environmental science or history.

Morton Ontario Graduate Scholarship in Indigenous Studies*

Established in 2003 by Honorary Degree recipient and former president and CEO of Quaker Oats of Canada, David L. Morton and Professor Emerita, Patricia Morton. Preference will be given to students in the PhD program who are of aboriginal heritage.

Patricia Morton Ontario Graduate Scholarship in Climate Change

This scholarship was created to honour Professor Emerita, Patricia Morton, for her dedication to addressing the existential threat of Climate Change. This interdisciplinary scholarship is available to any Trent graduate student holding an Ontario Graduate Scholarship and conducting Canada-based research in Climate Change.

Suzanne Hughes Scholarship in Environmental & Life Sciences

This scholarship is awarded to a full-time domestic student in the School of Graduate Studies who is focusing their research in Environmental & Life Sciences. Preference for the recipient to be in receipt of an Ontario Graduate Scholarship.

Donor Funded Scholarships

Trent University offers a number of graduate scholarships, awards and bursaries.. Most University scholarships/awards may be held in conjunction with awards from outside agencies.

Thomas J. Bata Graduate Scholarship

Established in honour of Thomas J. Bata (1914–2008), by his wife Sonja Bata and their family. Mr. Bata was one of Trent's original sponsors and a member of Trent's Board of Governors (1963-1973). This $5,000 scholarship is available to a deserving graduate student from any country and discipline who demonstrates leadership qualities such as innovation, entrepreneurship, community responsibility and global citizenship. The successful applicant will be chosen by the Dean of the School of Graduate Studies and the Director, Trent International based on an open application process.

John Bernard Scholarship

The annual interest on this endowment will be awarded by Indspire. Established by John Bernard, President of Donna Cona Inc. Awarded annually to an outstanding Aboriginal Student (First Nations, Métis or Inuit) who is in any year of an undergraduate or graduate program at Trent University and whose work contributes to the wise use of technology within aboriginal communities. Students apply online through Indspire.

BMO Financial Group Future Green Leaders – Graduate Entrance Scholarships

These scholarships are funded by the BMO Financial Group Future Green Leaders Fund, and are to support students entering Trent's graduate programs in Applied Modelling & Quantitative Methods MA, MSc, Canadian Studies & Indigenous Studies MA, Cultural Studies MA, Environmental & Life Sciences MSc, PhD, Materials Science MSc, and Sustainability Studies MA. Chosen by the directors of the graduate programs to students researching with a 'green' focus and having the potential to be a leader in their field.

Edwin William Curtin and Irene Elizabeth Curtin Graduate Scholarship

Established by the Estate of Irene Curtin. To be awarded to Environmental & Life Sciences graduate students who have been awarded an external scholarship (ie: NSERC, OGS, QEII-GSST) during their graduate studies. All applicants must demonstrate that their academic interests have an environmental science academic focus. The process to obtain this fund is by application.

Carole H. Ernest MSc Scholarship in Psychology

Established in 2013 by Professor Emeritus Carole Ernest in appreciation of a 28-year teaching and research career in the Psychology Department (1971-1999) and in recognition of Trent University's 50th Anniversary in 2014. To be awarded to a student entering the MSc (Cognition/Perception/Neuroscience) Graduate Program in Psychology demonstrating outstanding academic achievement. Minimum value $1000.

Eugene Forsey Scholarship

Named in honour of Senator Eugene Forsey, activist and constitutional expert, former Chancellor of the University and member of the Board of Governors. Awarded to deserving students entering the MA Program in Canadian Studies & Indigenous Studies to pursue their work on questions of importance to the country Eugene Forsey loved so much.

French American Charitable Trust Scholarship

Established by The French American Charitable Trust in Bermuda. Awarded to a student enrolled in the Environmental and Life Sciences PhD program. The process to obtain this fund is by application.

F.A. Hagar Scholarship

Established in 1988 by the friends and colleagues of Professor Hagar to mark his retirement from the Department of History. Assists a recent graduate of the Bachelors or Masters programs at Trent, to fund travel to pursue a post-graduate degree at an accredited postsecondary institution in the British Isles or India in the fields of British or Indian History or English Literature. If there are not any suitable candidates meeting this criteria, it can be awarded to graduate students at Trent pursuing an English or history degree to support their research travel to the UK or India.

Henry Dyce Howitt – Environmental Graduate Scholarship*

Established from the estate of Henry Dyce Howitt who died on September 2, 2000. Awarded to a graduate student studying in the environmental sciences and entering first year of study at the MSc level. Preference will be given to holders of an Ontario Graduate Scholarship.

Eugene Kuzmin Graduate Scholarship

A gift from the Estate of Eugene Basil Kuzmin of Bobcaygeon. This scholarship is awarded to a deserving student in any graduate degree program.

Malicorne Ontario Graduate Scholarship in Modelling*

A gift of an alumnus and his wife. Awarded to a student enrolled in the Applied Modelling & Quantitative Methods Graduate program.

Mary Margaret (McCulloch) Edison Graduate Scholarship*

A gift from the estate of “Marnie” Edison. This is awarded to a deserving student in a graduate degree program.

Jeannette & John Hanly Morgan Graduate Scholarship*

Established by Jeannette & John Hanly Morgan, strong advocates for peace and the status of women. Awarded to a graduate student to aid in the completion of a thesis or research. Special consideration will be given to students researching topics in labour studies or women’s studies. Preference will be given to a holder of an OGS scholarship. If no students qualify then it may be awarded to graduate students who are married with children and in any graduate program and a holder of an OGS.

Ian and Margo Nelson Graduate Scholarship in Canadian Studies

Named in memory of Ian and Margo Nelson by their parents Gayle and John Nelson. Awarded to a PhD student in Canadian Studies with a special interest in the history and development of Ontario.

Quaker Oats Company of Canada Limited Graduate Scholarship Program in Canadian Studies

These scholarships were established by the Quaker Oats Company of Canada Ltd. Awarded to a deserving student entering the first year of the Canadian Studies PhD program.

Quaker Oats Company of Canada Limited Graduate Scholarship Program in Indigenous Studies

These scholarships were established by the Quaker Oats Company of Canada Ltd. Awarded to a deserving student entering the first year of the Indigenous Studies PhD program.

Fern A. Rahmel Student Support Fund

Available to graduate female students over 25 years of age. Preference is given to Ontario Graduate Scholars but may be given as entrance or in-course scholarships to students in any program.

William B. Reid Graduate Scholarship

Established by a friend of Trent and proponent of Indigenous culture. To be awarded to graduate students (MA, MSc, PhD) to encourage study and research opportunities related to their thesis or major research project. Students must be of Indigenous heritage from Canada (following the definition of Aboriginal identity from Statistics Canada) or USA.

Fred Roots Scholarship – Canadian Studies and Indigenous Studies Graduate Scholarship

A gift from Dr. Fred Roots to be used for northern research and/or translation of research materials in the North.

Slavin Research Scholarship in Physics & Astronomy

Established in 2011 by Prof. Alan Slavin and Linda Slavin, along with students, friends and colleagues upon Prof. Slavin's retirement after 38 years at Trent. The scholarship will be awarded yearly to a graduateprogram applicant who will be supervised by a faculty member of the Department of Physics & Astronomy, and/or to an upper-year undergraduate student enrolled in the Physics program and who will be supervised by a faculty member of the Department of Physics & Astronomy. Note: This fund is used as an entrance scholarship to a graduate student being supervised by a faculty member of the Department of Physics & Astronomy.

Bursaries

Donor Supported Bursaries

Graduate students are eligible to apply for bursary assistance by completing a bursary application. Bursary application information will be made available online via the myTrent student portal. Bursary applications may be submitted for the fall, winter and/or spring terms. Please note that effective September 1, 2008, all domestic undergraduate and graduate students are required to first apply to OSAP, or the student aid program of another province, before applying for a Trent University bursary.

Ontario Student Opportunity Trust Fund (OSOTF)

In 1996–1997 the Province of Ontario established the Ontario Student Opportunity Trust Fund. Fifty percent of this fund is provided by the Province and 50% has been raised through fundraising by the University.

A second phase of OSOTF was introduced in 2003. The trust fund represents an endowment fund. Annual proceeds from investment earnings are available in the form of bursaries and awards to Ontario residents enrolled full-time, part-time or as graduate students, who can prove financial need and whose academic progress is satisfactory. In some instances, academic excellence as well as financial need will be the determining factor.

OSOTF Guidelines

Students have lived in Ontario for at least 12 months in a row up to the beginning of their full-time post-secondary studies: or Students' spouses have lived in Ontario for at least 12 months in a row up to the beginning of the current academic year, and their spouses were not enrolled in fulltime post-secondary studies during this 12 month period; or Students' parents, step-parents, legal guardians, or official sponsors have lived in Ontario for at least 12 months in a row up to the beginning of their current study period.

Ontario Trust for Student Support (OTSS)

In 2005, the Province of Ontario established the OTSS matching gift program to replace the OSOTF program. The OSOTF guidelines noted above apply also to bursaries and awards established through the generosity of donors and matching OTSS funds.

Bursaries Available only to Graduate Students

AMOD Graduate Bursary

Available to assist graduate students in the Applied Modelling & Quantitative Methods, based on demonstrated need and satisfactory academic achievement. OSOTF guidelines apply.

Anthropology Graduate Students Bursary

Established by Graduate faculty and friends of the Anthropology department to assist first and second year students in their studies and/or thesis research. OSOTF guidelines apply.

ABS Bennett Bursary

Awarded annually to a female graduate student who has demonstrated leadership and involvement in their community. OSOTF guidelines apply.

Environmental Restoration Graduate Bursary

Established by a Trent Honorary Graduate to assist graduate students in any year. Preference will be given to students engaged in research to restore ecosystems. OTSS guidelines apply.

Graduate International Bursary

Awarded on the basis of financial need. Students must be enrolled full-time and be in good academic standing to be eligible.

International Graduate Student Hardship Fund

To support international students experiencing financial need in Trent's graduate programs.

Jon K. Grant Graduate Student Ontario Bursary

Established in honour of Jon K. Grant in recognition of his distinguished contribution to Trent University as chair of the Board of Governors, 1984 to 1986. Awarded to a student in the second year of the Master's program in Canadian Studies and Indigenous Studies. Distinction in cultural, athletic or other community activities may also be considered. OSOTF guidelines apply.

Sarah F. Gunderson Memorial Graduate Bursary

Established by her family and her supervisors of graduate studies. Awarded to a student in the Environmental and Life Sciences Graduate Program who is conducting field research. Preference will go to international students.

Dr. Hanley-Dafoe & Family MEd Bursary

Established by Dr. Robyne Hanley-Dafoe (Alum '00) an Instructor with the School of Education and Psychology, as well as the senior educational developer for the Centre for Teaching and Learning. Awarded to full or part-time students enrolled In the Master of Education in Educational Studies program based upon financial need. Canadian students in any year of the program are eligible.

Robert Lang Bursary

Established in memory of Bob Lang and his animal genetics work with Trent University. Awarded to an international student in the Environmental & Life Sciences Graduate Program. Preference will be given to a student in animal research.

Donna Giacalone-Miller Graduate Bursary

Established by Jeanette McCurdy '03 (Kevin) and Frank Giacalone (Cheryl) in honour of their mother Donna Giacalone-Miller '81. An annual bursary will be awarded to support a mature graduate student with financial need, who is enrolled in a humanities program. Preference will be given to a sole-support parent.

Winnie Janzen Frost Centre Bursary

Established in 2010 at the time of the retirement of Ms. Winnie Janzen from Trent. Ms. Janzen contributed significantly to the success of many faculty and graduate students in the 24 years she worked as the Administrative Assistant and Research Coordinator in the Frost Centre for Canadian Studies and Indigenous Studies. To be awarded to a Frost Centre graduate student who is in at least her/his second year; who has contributed to the enhancement of the graduate experience at Trent; and has the highest academic standing of those who qualify in any one year. OTSS guidelines apply.

Mary Kennedy Bursary for Canadian & International Students

Established in memory of Mary J. Kennedy by her family. To be awarded to full or part-time Canadian or International students in any undergraduate or graduate program based upon financial need.

Fern A. Rahmel Graduate Bursaries

Established with a generous estate gift from Fern Rahmel, a Trent Honorary Degree recipient, and a leader in education, the arts and culture in Peterborough. To be awarded to women of proven academic ability who are over twenty-five years of age. Available to graduate students in any program. OTSS guidelines apply.

Riley Tench Poetry Bursary

Established as a tribute to Riley Tench, Trent alumnus and former poetry editor of the Arthur. To be awarded to a full-time graduate student in the English Literature (Public Texts) Program. OTSS guidelines apply.

Dr. Ruggles & Elizabeth Pritchard Graduate Bursary

Established in honour of Dr. Ruggles Pritchard, a Physician with Trent Health Services from 1968-1975 and Director from 1975-1992, and Elizabeth Pritchard (nee McLean), by their daughter Peggy A. Pritchard and her husband, Dr. Andrew M. Kropinski. Dr. Pritchard's example of quiet service was an inspiration. This bursary will be awarded to female international graduate students with financial need.

Sara Graduate Bursary

Established to provide assistance to a graduate student. Preference will be given to a sole support parent. OTSS guidelines apply.

Scotiabank Graduate Bursary

Awarded annually to graduate students in any year. OSOTF guidelines apply.

Sceptre Investment Counsel Limited Bursary

Awarded to a full-time graduate student who has made a contribution to the community.

Stephen Stohn & Linda Schuyler Graduate Bursary

Established by Stephen Stohn and his family. Stephen is a Trent alumnus ('66) and one of the founders of both Arthur and Trent Radio. To be awarded to graduate students in any program. OTSS guidelines apply.

Trent Graduate Students' Association (TGSA) Bursaries OTSS

Established by the Graduate Students Association in 2008. To be awarded to two graduate students in any program, one at a masters level and the other at a doctoral level. OTSS guidelines apply.

William Thompson Graduate Bursary

Established by the estate of the late William Thompson (1891–1978) of Westwood, Ontario. Awarded to a student registered in a graduate program.

Gordon & Margaret Watson Bursary

Established by the Ottawa Chapter of the Ontario Archaeological Society to honour Gordon Watson, an outstanding avocational archaeologist who worked mainly in the Rideau River-Ottawa Valley with his wife Margaret. He completed his MA at Trent after retiring. To be awarded to a needy graduate student studying Canadian anthropology or archaeology. OTSS guidelines apply.

Trent University Social & Athletic Bursary OTSS

Established by the employees of Trent University. Awarded to students who demonstrate all-round achievement and character, and are permanent residents of the Province of Ontario. OTSS guidelines apply.

Young Family Bursary

Established by the family of J. Douglas Young, former Vice-Chairman and Founder of Cygnal Technologies and a member of Trent's Board of Governors. To be awarded to a full or part-time graduate student in any program. OTSS guidelines apply.

Bursaries Available to Undergraduate and Graduate Students

Eileen Allemang Bursary

Established in 1986 to honour Eileen on her retirement from Trent University. Awarded to a student who makes a contribution to university life. OTSS guidelines apply.

Alumni Bursary Fund

Established by the Trent University Alumni Association. Awarded to returning student who has made a significant contribution to University life. OSOTF guidelines apply.

Patricia Baxter AnishnabeKwe Bursary

Established in honour of Patricia Baxter. Awarded to Aboriginal women in their upper year studying science, computer studies/new technologies or Business Administration. OSOTF guidelines apply.

Philip and Annie C. Black Bursary

Established by the late Isadore and the late Morris Black of Peterborough in memory of their father, Philip Black, the first Rabbi in Peterborough, and their mother, Annie.

Bourinot Bursary

Awarded to a full-time student from Peterborough County. Preference will be given to an employee of the Canadian Tire Stores in Peterborough or a member of their immediate family.

Jacob F. Burnham Memorial Bursary

A gift of the late Daisy McCarrell, a former employee of Trent University. Preference will be given to students majoring in Economics, Business Administration and related fields.

Ron Campbell Bursary

Established by Ron Campbell Enterprises, which operates McDonald's Restaurants in Peterborough and Lindsay. Awarded to undergraduate or graduate students from Victoria or Peterborough Counties. Preference will be given to students enrolled in Trent's Environmental and Resource Studies program or Environmental & Life Sciences graduate program.

City of Peterborough Employees' Bursary

Established by the employees of the City of Peterborough. Awarded to a child or spouse of a City of Peterborough employee.

Cogeco Bursary

Established in 2014 to recognize Trent's 50th Anniversary, this bursary will be awarded to a full-time undergraduate or graduate students in any year of any program. Domestic and international students qualify for this bursary.

Community Service Bursary

Established by the Quaker Oats Employees' Independent Union (Cereals).Awarded to a full-time student from Peterborough County.

CUPE 3908 Bursary

To be awarded to four student academic workers who are members of CUPE 3908. Available to graduate and undergraduate students based upon financial need. OTSS guidelines apply.

Brian Desbiens Community Leadership Bursary

Established to honour Dr. Brian Desbiens, former President of Fleming College and a recipient of the 2007 Trent Community Leaders Award. To be awarded to one upper-year undergraduate or graduate student in any program who has demonstrated leadership within the university and within the greater community. A student who is reaching out to make a difference to the lives of others. OTSS guidelines apply.

Greatest Need Bursary Trust

Supported by alumni, friends, faculty and staff. To be awarded to undergraduate and graduate students in any program. OTSS guidelines apply.

Errol Hanbidge Memorial Bursary

Established by Errol's wife, Audrey Hanbidge. To be awarded to undergraduate or graduate students in any program. OTSS guidelines apply.

Howell Family Bursary

Established by Walter Howell, a member and chair of the Trent University Foundation. To be awarded to a deserving undergraduate or graduate student in any program. OTSS guidelines apply.

Rhoda Johnston Memorial Bursary

Established by Robert Johnston in memory of his wife Rhoda, a long term past employee of Trent University. Awarded to Canadian or international undergraduate students in the Canadian Studies program and/or graduate students in the Canadian Studies & Indigenous Studies MA or Canadian Studies PhD programs.

Jean Ann Johnston-Gauld Bursary

Established by the family in memory of Jean Ann Johnston-Gauld a part-time student at Trent University from 1982–85. Awarded to part-time students. OSOTF guidelines apply.

Principal H. R. H. Kenner and PCVS Faculty Bursary

Established by the PCVS Form 5 graduating class of 1937 in honour of Principal Kenner and their teachers. Support has also come from the class of 1939. Awarded to graduates of secondary schools in Peterborough County.

Keppler Bursaries for German Studies

Established by Hans and Christine Keppler. Awarded to Canadian undergraduate and graduate students going on a study abroad program to Germany or studying German at Trent.

Chief Keith Knott Bursary

Established to honour Chief Keith Knott, recipient of a 2007 Trent Community Leaders Award. To be awarded to the most needy full-time or part-time undergraduate or graduate student in any program. OTSS guidelines apply.

Wally Macht Bursary

Established to honour Wally Macht, a broadcast journalist, anchorman and accomplished film documentary maker and recipient of a 2007 Trent Community Leaders Award. Awarded to a part-time undergraduate or graduate student in any program. OTSS guidelines apply.

McLean Foundation Graduate Research Bursary

This bursary provides graduate students with financial support for research in a thesis program. OSOTF guidelines apply.

Métis Nation of Ontario Bursary

Established through funding initiatives of the Métis Nation of Ontario (MNO), Métis Training Initiatives (MTI) and the Ontario government. Awarded to postsecondary students of Métis ancestry. Students must be residents of Ontario for one year before the start of their post-secondary education. (see Financial Aid Office for details, deadline usually in January). OSOTF guidelines apply.

Malcolm Montgomery Memorial Bursary

A bequest from the estate of the late Malcolm Montgomery. Preference will be given to students who have self-identified as Aboriginal and are in any graduate or undergraduate program. Then it is open to all fulltime or part-time students entering or returning to the MA Program in Canadian Studies & Indigenous Studies or the PhD program in Indigenous Studies. This bursary is available to domestic and international students who meet the qualifications.

Morrison-Heitlinger International Student Assistance Fund

Established by Professors Emeriti David Morrison and Alena Heitlinger to support International undergraduate and/or graduate students that find themselves in financial difficulty as a result of an unexpected change of circumstances or an emergency situation. By application to Trent International.

Northumberland Canadian Federation of University Women Bursary

To be awarded to a returning undergraduate or graduate female student. Preference will be given to students from the County of Northumberland. OTSS guidelines apply.

Ontario Public Service Employees Union – Local 365 (Trent) Bursary

Established by the concerned members of OPSEU local 365 at Trent University. Awarded to a worthy undergraduate or graduate student. OSOTF guidelines apply.

Norma and Lloyd Parnall Bursary

Established by the family in honour of Norma and Lloyd Parnall. Awarded to Aboriginal women successfully studying in undergraduate or postgraduate programs. OSOTF guidelines apply.

Dr. Julia Phelps Memorial Bursary

Established in memory of Dr. Julia Phelps, an honorary graduate and long-time friend of Trent. Awarded to a student in the Cultural Studies program. OSOTF guidelines apply.

Sam Leach Robinson Bursary for English Students

Established by the family and friends in memory of alumna Sam Leach Robinson. Preference will be given to a deserving student entering fourth year of the Honours program in English Literature or the graduate program. OTSS guidelines apply.

Sherratt Bursary for Athletics

Established by Fred Sherratt, former Vice Chair of CHUM Limited, and a member of Trent's Board of Governors. Each award has a value of $1,500 and will be awarded to entering, transfer or returning full-time undergraduate or graduate students participating in the varsity athletics program. OTSS guidelines apply.

Sisson/Fitzpatrick Aquatics Bursary

Established by Karen Sisson '78 in honour of her mother, Lois Sisson who was rescued by Trent lifeguards. To be awarded to students employed as lifeguards or swimming instructors in the Athletics Centre. OTSS guidelines apply.

Bill and Dorothy Slavin Bursary

Established by members of the Slavin family, in memory of their parents, Bill and Dorothy Slavin. Awarded to a student from a developing country.

Trent Student Financial Assistance Fund

Supported by alumni, friends, faculty and staff to enable Trent University to respond to the evolving and growing needs of students today and into the future. To be awarded to Canadian or International students enrolled in a full or part-time undergraduate or graduate program, and seeking a Trent University degree. Based upon financial need.

TGSA Academic Development Bursary

TGSA Academic Development Bursary is to provide support for full time students to further their academic development such as but not limited to workshop or conference fees, membership fees in an organization, travel for conferences, and the enrolment of professional and leadership opportunities that will enhance the person's academic development.

TGSA Financial Support Bursary

TGSA Financial Support Bursary is to provide additional financial support for graduate students who are experiencing an unexpected and harmful financial need that is not covered by the Health and Dental Benefits Plan, pre-existing governmental support, or support from the University. The TGSA Financial Support Bursary is meant to supplement already existing emergency programs and not to replace them.

Vernon Family Graduate Bursary

Established in 2014 by the Vernon family (alumni Len & Phyllis '64, Paul'91 and Colin '93). To be awarded to deserving full-time or part-time graduate students in any program. Canadian and International students who are seeking a Trent University degree qualify for this bursary.

Maha & Murad Younis International Student Bursary

Established by the Younis family who immigrated to Canada in 1994 and started Westmount Pharmacy. To be awarded to full-time undergraduate or graduate international student(s) in financial need.

Graduate Awards

Donor Support Awards

Financial aid through Trent University's award program is designed to acknowledge those students with outstanding academic qualifications and proven financial need. Many of these awards are made possible through the Ontario Student Opportunity Trust Fund. In 1996–1997 the Province of Ontario established the Ontario Student Opportunity Trust Fund. Fifty percent of this fund is provided by the Province, and 50% has been raised through fund raising initiatives by the University. The trust fund represents an endowment fund. Annual proceeds from investment earnings are available in the form of awards to Ontario residents enrolled full-time, part-time or as graduate students. (Refer to specific OSOTF residency guidelines listed under bursaries.)

Athletics Discretionary Award

This award can be used at the discretion of the Director of Athletics to provide support for varsity athletes. Support from the fund may be in the form of a monetary award to women soccer players and/or in general support of women varsity soccer team, as determined by the Director of Athletics.

Bagnani Graduate Awards

Established in 1997 by the Dewar Memorial Fund, these annual awards honour the late Professor Gilbert and Stewart Bagnani. Graduate awards will be granted to Ontario students who demonstrate both academic excellence and financial need. The main preference is to support graduate students in classical (traditional) disciplines of studying cultures and the past, especially Classics, Anthropology, Archaeology and History. If remaining funds are available, awards can be given to graduate students in English, Canadian Studies, and Cultural Studies. OSOTF guidelines apply.

de Pencier Family Award

The gift of business executive, John de Pencier, a long time member of Trent's Board of Governors and chair from 1987 – 1991, and his wife, Marni, Trent parents. Awarded to a student of high academic standing who is in financial need. OSOTF guidelines apply.

Five Sisters PhD Award

This Award honours the lives and contributions of the five Moraff Sisters, the daughters of Herman (Hymie) Moraff and Ida Feder Moraff who came to Canada in their youth and settled in the Mi'kmaq territory of Sydney, NS. Encouraged by their parents, all five sisters undertook post-secondary education before marrying, which was contrary to popular custom in the 1940s and 1950s. They held advanced education in high esteem and encouraged their children to complete college/ university in their chosen fields. This one-time award is for doctoral candidates in the PhD program in the Department of Indigenous Studies who have completed at least a first draft of their doctoral dissertation, and is graduating in the year of the award. OTSS guidelines may apply.

Graduate Students Award Fund

Established by an anonymous graduate of Trent, this is awarded to graduate students with financial need. OSOTF guidelines apply.

William & Jeffrey Hamblin Memorial Graduate Award

Established in memory of William and Jeffrey Hamblin. Awarded to a graduate student of high academic standing who is in financial need and enrolled in any program. Available to students outside of Ontario.

William & Jeffrey Hamblin Memorial Ontario Graduate Award

Established in memory of William and Jeffrey Hamblin. Awarded to a graduate student of high academic standing who is in financial need and enrolled in any program. OTSS guidelines apply.

Aditya Jha Indigenous Studies Awards

Established by entrepreneur Aditya Jha, founder of Osellus Corporation and the POA Educational Foundation, in support of graduate students demonstrating financial need as well as academic achievement in Indigenous Studies or their chosen field. Preference will be given to applicants of Aboriginal heritage. Value of $1,500 per student. OTSS guidelines apply.

R. B. Johnston Fund for Archaeology

The gift of an anonymous donor, this fund recognizes the contribution of the late Prof. Richard B. Johnston to Ontario archaeology. The fund supports thesis research by graduate students in the Anthropology graduate program. Projects in the archaeology of northeastern North America are preferred, and one or more grants are awarded annually. This award is available through an application process.

Ian & Lorraine Logan Graduate Award

To be awarded to a graduate student in Canadian Studies interested in forward-looking, but not restrictive, public policy research. To be awarded based on financial need and an excellent academic record to a student studying in an area such as: goals for Canada, Canadian values, public policy innovation strategies, governance issues, demographic options, multiculturalism, Canada as a world influence and model, or a related topic. OTSS guidelines apply.

Lopes Family Award for Study Abroad

Established by Ana P. Lopes, a Trent Governor Emerita and honorary alumna, in honour of her parents, Antonio F. and Gertrude M. Lopes, originally of Lisbon, Portugal, in recognition of their interest in politics and current affairs, and their leadership and community service within the Portuguese-speaking community of Canada. Awarded to Ontario undergraduate and graduate students based upon financial need and an excellent academic record. Awarded to undergraduate students going on a Trent study-abroad program; and to graduate students studying and researching as part of a Trent program, or participating in a conference. Preference will be given to students travelling to Europe. OSOTF guidelines apply.

Jack Matthews Study & Research Abroad Graduate Award

Named in honour of the founding director of the Trent International Program and Honorary Degree recipient. Awarded to graduate students studying and researching in an international setting as part of a Trent program. The award is available through an application process and is based on financial need and an excellent academic record. OTSS guidelines apply.

McLean Foundation Graduate Research Bursary

This bursary provides graduate students with financial support for research in a thesis program. OSOTF guidelines apply.

Meyer-Larose Family Graduate Award

Established by Winston Meyer and his family. Awarded to a motivated graduate student who demonstrates academic excellence and financial need and is studying applied science that will provide tangible solutions to global need. OTSS guidelines apply.

Moore Family Canadian & International Graduate Awards

Established in 2014 by David & Joan Moore. David is a passionate advocate for Trent having served on the Board of Governors from 1981-1996 and having chaired the For Tomorrow Campaign. A lifetime appointment as Honorary Governor was granted in 1996. Preference will be given to Canadian and/or International students enrolled in full-time graduate programs, and seeking a Trent University degree.

Mary Northway Graduate Award in Canadian Studies

Established in honour of Mary Northway (1909-1987). Based on the recommendation of the Programme, these funds will be distributed to graduate students in Canadian Studies & Indigenous Studies. Priority will be given to qualified incoming PhD students, but MA students are also eligible for lower amounts of funding. Any one individual award in any one year will not normally exceed $5,000. OSOTF guidelines apply.

Patterson Award for Aboriginal Language Studies

Established in memory of Sarah D. Patterson (1889– 1979), a Mohawk of the Bear Clan who was born at Six Nations and spoke four languages; Mohawk, Cayuga, Tuscarora and English. Awarded to an upper year or graduate student of high academic standing who is in financial need and shows a keen interest in Aboriginal languages.

Petersen Burfield Family Graduate Award

This award has been established in memory of Niels and Margaret (Betty) Petersen. It is available to graduate students in the field of Anthropology. OSOTF guidelines apply.

Zailig Pollock Graduate Award

Named in honour of the founding director of the Masters program in English Literature (Public Texts). Awarded to a full-time graduate student in the Masters program in English Literature with high academic standing and financial need. OTSS guidelines apply.

Robert Darou Norris Prichard Award

Awarded to a full-time graduate student entering final year of Environmental and Life Sciences. Applicants must demonstrate excellent academic achievement and financial need with preference given to residents of the Counties of Haliburton, Northumberland, Peterborough, Victoria and the Regional Municipality of Durham. OTSS guidelines apply.

University Women's 50th Anniversary Award

Established by the University Women's Club of Peterborough (now CFUW Peterborough) in 1987 in honour of their 50th anniversary. Awarded to a female student currently registered in first year of a graduate program who has completed an undergraduate degree at Trent University.

John Wadland Award OTSS

Awarded to the most worthy undergraduate students with financial need in any year of the Canadian Studies Program or to students who are taking a significant number of Canadian Studies courses. It is also to be awarded to graduate students in financial need in the MA Canadian Studies & Indigenous Studies and PhD in Canadian Studies programs. This award is in recognition of John Wadland's seminal role in introducing students to Canadian Studies over three decades through CAST 200 "Canada: the Land." OTSS guidelines apply.

Dr. Laura Weintraub Award

Dr. Laura Weintraub was passionately interested in Aboriginal education, specifically the impact of learning disabilities on Indigenous Canadians and their opportunities to obtain a good education. This award was established by her friends and family to mark her life and work in this field. Awarded to a student enrolled in a graduate or post-degree professional program whose academic interest and research is in the area of learning disabilities and/or the learning needs of Aboriginal people. OSOTF guidelines apply.

Helen Whiteside Memorial Award

Established in memory of Helen Whiteside, the first woman to serve as a member of Trent's Board of Governors. Awarded to a graduate student who demonstrates high academic achievement and financial need and is enrolled in any program. OTSS guidelines apply.

Donald Warren Down Graduate Research & Travel Award

Established in memory of Donald Warren Down. To be awarded to a Graduate student focusing their research on Canadian or world military history in either a historical or modern context.

Graduate Prizes

Addyman Research Fund

This fund provides graduate students in financial need with support for research. Preference will be given to students researching a local government project in Peterborough County with an emphasis on contemporary issues at the municipal and county levels.

Alliances Prize

The prize will be used to fund or recognize small projects related to Indigenous-non-Indigenous alliance-building and education, such as digital stories, website development, workshops and other activities that promote respectful Indigenous-non-Indigenous relations. Available to undergraduate or graduate students.

CIC Prize in Materials Science

Established by the Peterborough Chapter of the Chemical Institute of Canada, the CIC Prize in Materials Science will be awarded annually in support of graduate students demonstrating academic achievement in the Materials Science program.

Brian Heeney Memorial Fund

Established with an estate gift from Gloria Sapena. This fund is used to provide matching funds to a student with an Ontario Graduate Scholarship.

Indigenous Student Assistance Fund

This fund is primarily intended to provide emergency funding, including travel support, to students of Aboriginal identity or heritage including First Nations, Inuit or Metis people from the Peterborough or Durham campuses.

Graduate Studies Travel, Conference and Research Support

Funding opportunity to support graduate student research abroad, conference participation and active research engagement. Funds from multiple sources are used to support this opportunity.

International Student Travel Prize

Awarded annually to an international undergraduate or graduate student with strong academic achievement for travel to a significant heritage site or region of Canada of personal interest. Preference will be given to an international student majoring in, or having been enrolled in undergraduate or graduate courses offered by the School for the Study of Canada, though any international student at Trent is encouraged to apply.

Leonard Conolly Graduate Students Travel Fund

The Leonard Conolly Graduate Students Travel Fund will support travel for graduate students in the MA in English Literature (Public Texts) program to conduct research or deliver their findings at conferences. This fund awarded via an application process.

Richard B. Johnston Graduate Studies Prize

This $1,000 prize has been created by the family of former Trent Professor Richard B Johnston to recognize his dedication to advancing archaeological studies in North America. It will be awarded to a graduate student studying the archaeology of indigenous populations, early settlers, or the native fauna or flora of northeastern North America; students conducting research in Ontario will be given special consideration. Preference will be given to students in their final year of studies, so they can present the findings of their research at academic conferences.

Public Texts Graduate Prize

Awarded to an outstanding student graduating from the MA in English Literature (Public Texts).

Gillian Stamp Volleyball Prize

Awarded to the player, selected by her teammates who, continually demonstrates dedication, commitment and loyalty to her team both on and off the playing field. Through leadership, fair play and enthusiasm, she is an inspiration to her teammates in their pursuit of academic excellence, volleyball or another sport.

Student Athletic Development Prize

The Student Athletic Development award can be used at the discretion of the Director, Athletics & Recreation to provide support for Excalibur high performance student athletes in first year or returning years. This award is designed to build upon the values and structure of the Trent Excalibur Athlete Development Model with a focus on training for high performance competition and training for success. Trent Excalibur Varsity Sports supports teams and student-athletes in achieving growth and successes in sport and academics. Resources will be applied to best align with Trent's comprehensive sport model.

The Student Relief Fund

Supported by alumni, friends, faculty and staff to enable Trent University to respond to the evolving and growing needs of students today and into the future. To be awarded to Canadian or International students enrolled in a full or part-time undergraduate or graduate program, and seeking a Trent University degree. Based upon financial need.

Sustainable Agriculture Experiential Learning Fund

This expendable fund can be used for hiring undergraduate students, graduate students, and the equipment and supplies needed for their work.

Dr. Alicja and Dr. Gosia Zobel Student Conference Fund

These funds are intended for Canadian and International undergraduate and graduate students to attend international or domestic conferences that will advance their studies in science, philosophy, or women's studies and related fields, in particular, the intersection of science, politics and critical thinking. By application to School of Graduate Studies.

Other Funding Opportunities

Graduate Teaching Assistantships (GTAs)

The School of Graduate Studies awards a number of assistantships to eligible full-time graduate students each year. A GTA is a paid employment position with the university and students are required to work up to 10 hours per week (on average), generally assisting with some aspect of the undergraduate teaching program. The terms of employment are governed under the Collective Agreement with CUPE Local 3908, Unit 2 and Trent University. GTAs administered by Trent University will be paid through the university payroll office, on a biweekly basis and are normally offered at the time of admission.

Patterson Abbey Gardens Graduate Research Fellowship

Established by John and Thea Patterson loyal supporters of Trent and citizens of the Haliburton Highlands. This fund provides funding for a Research Fellowship for a student, from any graduate program, with a focus on issues related to the work of Abbey Gardens. Areas of focus could include such topics as gravel pit rehabilitation for permaculture, food hubs, farmers markets and food security; heritage animals and crops; impact of policy and legislation on rural enterprise; strengthening seasonal recreation-based economies; and creation and sustainability of rural social enterprises. Final selection will be made by the Dean of Graduate Studies after recommendation of the Director of the Trent School of the Environment. Value $5,000 plus $1,000 for travel.

Mackenzie-Papineau Battalion Memorial Fellowship in History

Established by the Mackenzie-Papineau Memorial Fund, which commemorates the 1500 Canadian volunteers who fought to defend the democratically elected government against fascist forces during the Spanish Civil war of 1936- 1939. Awarded annually to graduate students engaged in research in the Department of History at Trent University. By application to Department of History.

Entrance Awards

Awarded to outstanding applicants to graduate programs. Awards range in value and are awarded at the time of offer of admission.

Dean’s PhD Scholarships

Offered to eligible full-time doctoral students to support research in their graduate programs. Normally offered at the time of admission.

International Graduate Scholarships

Offered to international full-time research-based graduate students by their graduate program. Normally offered at the time of admission.

Graduate Research Fellowships

Support provided to aid research of eligible full-time graduate students in research-based humanities and social sciences programs . Awards are normally offered at the time of admission.

Research Fellowship Awards

Support provided to eligible full-time research-based graduate students by their supervisor. Research Fellowships Awards are funded from the supervisors’ research grants and supervisors may expect a minimum time spent with the research team weekly. Awards are normally offered at the time of admission. Students are encouraged to discuss expectations with their potential supervisors prior to accepting the offer.

Research Fellowship Awards (SGS)

Support provided to aid research of eligible full-time doctoral science students by the School of Graduate Studies. Normally offered at the time of admission.

School of Graduate Studies Academic Scholarship

Support provided to aid research of eligible full-time masters science students by the School of Graduate Studies. Normally offered at the time of admission.

Governor General's Academic Gold Medal

Presented to the graduating Trent University student who attains the highest academic standing, as determined by the Graduate Studies Committee based on nominations submitted by individual graduate programs.

The Office of the Governor General awards the gold medal annually to students who achieve the highest academic standing at the graduate level.

Presented each year at Convocation.

President's Medal

The President's Medal was established in 2009 to reward academic excellence and achievement of the graduate studies level. The winners are selected from four categories:

- Master of Arts or Education (social sciences and humanities),
- Doctor of Philosophy (social sciences and humanities),
- Master of Science (sciences),
- Doctor of Philosophy (sciences)

Presented each year at Convocation.

Part I: Application and Definitions

1.1 Application

This policy applies to students registered in graduate programs or graduate courses at Trent University as well as to applicants to graduate programs at the University. (In addition to their responsibilities under the Academic Integrity policy, students should also be aware of their obligations under other university policies including Research Involving Human Participants and Animal Use Protocol).

1.2 Terminology

In this policy, "program" means graduate programs. "Director" means Directors of graduate programs. "Dean" means the Dean of Graduate Studies. "Instructor" means the person responsible for submitting a final grade for a course, where a course may be a regularly scheduled course or an individual study program. "Supervisor" means the faculty members assigned as a supervisor of study for a thesis, major research paper, internship report or the person responsible for determining the success or failure of any other degree requirement. Director, School of Graduate Studies means Director of the School of Graduate Studies. "AI Generator" means any software that uses artificial intelligence to produce content, including but not limited to text, images, and code.

1.3 Academic Integrity

Academic integrity is defined by the basic principles of honesty, trust, fairness, respect, and responsibility (as articulated by the International Center for Academic Integrity, academicintegrity.org). All members of the University community share the responsibility for the academic standards and reputation of the University. When students submit work for academic evaluation and credit, they imply that they are the sole authors of the work. Clear and careful attribution of the words and ideas of others is an essential part of academic scholarship. Academic honesty is a cornerstone of the development and acquisition of knowledge and is a condition of continued membership in the University community.

1.4 Academic Dishonesty

Academic dishonesty, including plagiarism and cheating, is ultimately destructive of the values of the University. Scholarly integrity is required of all members of the University. Engaging in any form of academic dishonesty or misconduct in order to obtain academic credit or advantage of any kind is an offence under this policy.

1.5 Plagiarism

Plagiarism is knowingly presenting words, ideas, images, data, or any other form of work of another person or source, including an AI generator (including essays, theses, lab reports, projects, assignments, presentations and posters) in a way that represents or could be reasonably seen to represent the work as one's own. "Knowingly" includes ought reasonably to have known. Plagiarism includes failure to acknowledge sources correctly, submitting materials copied from the internet without proper acknowledgement of the source

and the misappropriation of others work including that of AI generators. Draft work submitted for evaluation is subject to the same standard as final work. Draft work of a preliminary nature that is submitted for review and comment rather than evaluation should be clearly marked as such, if for example, referencing of material is incomplete.

1.6 Cheating

Cheating is dishonest academic conduct or attempted dishonest academic conduct during tests or examinations or in the preparation of any other course work or in the presentation of credentials for admission to the University or one of its programs.

Cheating also includes the knowing falsification of data and the knowing misrepresentation of evidence. “Knowing” includes ought reasonably to have known. Some common examples of cheating include:

- submitting one’s own original student work for credit in more than one course (includes a course being repeated) without the prior agreement of the instructors involved
- bringing aids, including electronic aids, that have not been authorized by the instructor into an examination or test
- using any unauthorized aid, including AI generators, in the preparation of any work submitted for academic credit or toward the completion of a degree; including thesis proposals, dissertations, exams, etc.
- impersonating another individual or colluding in an impersonation for an examination or test
- copying from one or more other individuals or AI generators or knowingly permitting one or more other individuals to copy from one’s own test, examination paper, lab report, or assignment
- collaborating with one or more other individuals when collaborative work has not been expressly authorized by the instructor
- communicating with one or more other students during a test or examination
- purchasing or selling any piece of work for submission, or facilitating the selling and purchasing of such material
- submitting purchased or AI-generated material as one’s own work
- falsifying or tampering with results in laboratory experiments or research assignments
- falsifying transcripts or tampering with documents used to make decisions about admissions to the University or one of its programs
- withholding transcripts or other required documents at the time of application to the University
- submitting false or misrepresentative medical certificates or other documentation in support of requests for concessions on academic work or deadlines

1.7 Student to consult if in doubt

Students who have any doubt as to what might be considered academic dishonesty in a particular course should consult the instructor of the course, their supervisor, or their Program Director to obtain appropriate guidelines.

Part II: Penalties and Procedures for Academic Offences on Course Work, Tests, Exams or Oral or Written Material Presented as Part of a Degree Requirement and/or Graduate Diploma Requirement

2.1 Expectations of graduate students

Graduate students study at an advanced level and the University has every expectation that all graduate students understand the meaning of academic integrity and will undertake work with academic integrity.

2.2 Penalty

The penalty for academic dishonesty on any part of a graduate student's thesis or dissertation research and the penalty for a second offence on a course assignment or test will be expulsion from the University. The penalty for the first offense of academic dishonesty on a course assignment or test will be a grade of zero, with no opportunity to resubmit, on the piece of work plus a transcript notation (e.g., 70% Academic Dishonesty).

2.3 Extraordinary circumstances

The usual penalty will be levied unless extraordinary circumstances are found which justify a different penalty.

2.4 Instructor/supervisor investigates

If an instructor or supervisor has reason to believe that a student has committed an academic offence they will so inform the student within a reasonable time and invite the student to meet to discuss the matter. The instructor/ supervisor will make reasonable inquiries to investigate the circumstances of the matter. Instructors may request that the student provide rough work or materials used in preparing the work in question and/or explain the submission in question orally.

2.5 Instructor/supervisor finds no academic dishonesty

If after meeting with the student and reviewing the evidence the instructor/supervisor is satisfied that no academic dishonesty occurred, no further action will be taken by the instructor/supervisor unless new evidence comes to their attention.

2.6 Instructor/supervisor finds academic dishonesty, reports to Director, Graduate Program

If, after meeting with the student (or if the student fails to respond to the request for a meeting or does not attend a prearranged meeting) the instructor/supervisor concludes that academic dishonesty has occurred, the instructor/ supervisor will prepare a report to the Director. Where the Director is the instructor or supervisor they will prepare the report themself. The report will summarize the relevant facts and evidence, including the student's version of events if given. The report will additionally state any extraordinary circumstances that are evident in the case. Copies of all supporting documentation will be attached to the report. The instructor/ supervisor will inform the student in writing that a report to the Director has been prepared. A copy of the report will be emailed to the student's Trent University email account.

2.7 Opportunity for comment by student

Should the student wish to add to or clarify the information in the report, the student may send written comments to the Director, Graduate Program within seven days of the date of the report.

2.8 Director may forward to Dean of Graduate Studies

The Director shall review the report and any written comments submitted by the student. If the Director, Graduate Program is satisfied that no academic dishonesty occurred, no further action will be taken unless new evidence comes to their attention. If the Director concludes that academic dishonesty has occurred, they will forward the report and written comments to the student (by email to the student's Trent email) and to the Dean of Graduate Studies.

2.9 Graduate Studies Appeal Committee decides

Upon receipt of material from a Director, and upon a request from the student within fourteen days, the Dean will usually convene a Graduate Studies Appeal Committee to decide the case. The committee will normally be composed of three non-student, non-same program members of the Graduate Studies Committee (GSC). Where necessary for reasons of expertise or background, the Dean may appoint a non-member of the GSC as one of the three Committee members. The committee will review the written documentation provided and may seek additional information from the parties at its discretion. If the Appeal Committee determines that academic dishonesty has occurred, the Dean will inform the student (by email to the student's Trent email) and Program Director in writing of the decision.

2.10 Dean of Graduate Studies may decide based on extraordinary circumstances

If the Dean of Graduate Studies is satisfied that extraordinary circumstances justify a different penalty they may decide the case without convening an Appeal Committee.

2.11 Note on Tests and Exams

Where an allegation of academic dishonesty arises during a test or examination, the responsible invigilator will collect the available evidence and, if is they are not the course Instructor, will notify the course Instructor who will proceed as detailed above.

PART III: Procedures for Applications to the University or One of its Programs

3.1 Notice to Director, School of Graduate Studies

Where the alleged academic dishonesty involves falsifying, misrepresenting, or withholding records for entry into the University or one of its programs, the Director, School of Graduate Studies will be informed.

3.2 Student notified

The Director, School of Graduate Studies will notify the student in writing of the allegation and will invite the student to meet within a reasonable time. If the student does not respond to the request for a meeting or does not attend a prearranged meeting, the Director, School of Graduate Studies will proceed to make a decision on the basis of the evidence before them.

3.3 Director, School of Graduate Studies

If, after reviewing the evidence, the Director, School of Graduate Studies is satisfied that no academic dishonesty occurred, the Director, School of Graduate Studies will inform the student in writing of their decision and no further action will be taken by the Director, School of Graduate Studies unless new evidence is brought to the Director, School of Graduate Studies' attention. If the Director, School of Graduate Studies is satisfied that academic dishonesty has occurred, the Director, School of Graduate Studies will decide the appropriate penalty and inform the student in writing of their decision. A written record of the incident, along with the documented evidence, will be kept on file at the School of Graduate Studies.

3.4 Appeal of Director, School of Graduate Studies' decision to Dean

The student has a right to appeal the decision of the Director, School of Graduate Studies by writing to the Dean setting out the grounds for appeal within two weeks of notification of the Director, School of Graduate Studies' decision. The Dean will normally respond to the appeal within two weeks of receiving the appeal.

Part IV: Other

4.1 Final Appeal

The student may appeal a decision of the Graduate Studies Appeals Committee, or the Dean, to the Special Appeals Committee of the University within four weeks of notification of the decision. The decision of the Special Appeals Committee is final within the University.

4.2 Privacy protection

In accordance with privacy legislation, personal information gathered under this policy will be shared only among university personnel on a need to know basis.

4.3 Other allegations of academic dishonesty

Any other allegations of academic dishonesty may be made in writing to the Dean. The Dean will determine the appropriate procedure to be followed.

4.4 No permanent record of dropped allegations

If it is determined that allegations are not supported by sufficient evidence, no permanent record of the incident will be kept on file at the offices of the program or School of Graduate Studies.

4.5 Withdrawal is not a stay of proceedings

A student's withdrawal from a course, program, or the University does not stay or prevent proceedings for academic dishonesty under this policy. Further, penalties for academic dishonesty determined under this policy will appear as appropriate on the student's record, including the student's transcript, despite any such withdrawal.

4.6 Report on Academic Offences

In years where there have been an academic offence(s), a summary of offence(s) (setting out the nature of each offence and the penalty) will be prepared by the Dean, published on an Academic Integrity website, and circulated to Senate for information.

4.7 Rescinding of degree

If an academic integrity violation is discovered after the degree has been awarded, the University retains the right to rescind the degree.

4.8 Removal of transcript notations

If a student wishes to have the transcript notation removed, an application can be made in writing to the Vice President (Academic). The letter should explain the reason for the request, what the student has learned from the experience, and what he/she has done to ensure violations of academic integrity will not occur again. Such applications may not be initiated before five years have passed. Zero grades and notations of expulsion for Academic Dishonesty will not be removed from the transcript.

4.9 Report on Academic Offences

A summary of academic offences (setting out the nature of each offence and the penalty) will be prepared by the Dean annually and circulated to Senate each year for information.

4.10 Participation of others in the appeal process

As long as advance notice is given, students who wish to do so may bring one support person to a meeting with the course instructor, program director, appeals committee or Dean. That person will not be permitted to participate in the discussion.

Graduate Admissions

Trent University welcomes applications from Canadian and International students.

Acceptance of an Offer of Admission is required before students may register in courses.

Protection of Privacy

Trent University values the protection of privacy and all information for admission purposes is collected under the authority of The Trent University Act, 1962-63 and the Ontario Freedom of Information and Protection of Privacy Act, 1988. For more information, please see Protection of Personal Information.

Graduate Admissions

Graduate Admission Requirements

These admission requirements have been approved by the University Senate.

The minimum requirement for admission to a Master's program is a Bachelor's degree, in an Honours program or the equivalent, from a recognized university. Applicants to a PhD program should normally have an MA or MSc degree as appropriate.

The applicant must have achieved an average of at least B+/77% or equivalent in the work of the last completed four semesters or the last two completed undergraduate years (full-time equivalent). Individual programs may require higher entrance averages or have additional admission criteria. Applicants should consult the individual program admission requirements for further details.

English Proficiency Requirements

Proficiency in English usage, both written and oral, is essential to pursue graduate studies at Trent University. It Is required for applicants to demonstrate an adequate level of English proficiency, regardless of their citizenship status or country of origin. Applicants who completed two or more years of post-secondary education at a university in Australia, Ireland, New Zealand, United Kingdom, and the USA are exempt from this requirement.

If you have completed two or more years of postsecondary education at a university where the primary language of instruction is English, the School of Graduate Studies is prepared to consider alternate proof of English language proficiency.

The following tests are acceptable forms of proof of English language proficiency*:

- TOEFL (Test of English as a Foreign Language). A minimum acceptance score is 93 (with a minimum score of 22 in both speaking and writing);
- CAEL (Canadian Academic English Language Test). The minimum acceptable score is 60, with at least 60 in Writing Proficiency.
- IELTS (International English language Testing Services). The minimum acceptance score is 6.5, with no band below 6.0.
- PTE (Pearson Test of English) Academic in-person or online. Minimum overall score of 60 with no sub-score below 60.
- Cambridge English Qualifications. C1 Advanced or C2 Proficiency (Certificate of Advanced English). Minimum overall score of 176 with no sub-score below 169.

Please note that tests must have been taken within the last 24 months at the time of application submission to be considered.

Please note that Trent University reserves the right to request English language proficiency results from any applicant.

Applicants must make their own arrangements and assume the cost of taking language tests and having the results sent to the School of Graduate Studies in time to meet application deadlines.

Graduate Record Examinations (GRE)

It is recommended for applicants to the Master's degree program in Psychology to complete the GRE exam in the general and/or subject sections to enhance the quality of their application. Applicants for admission to other programs whose academic credentials are difficult to assess may be asked to take the Graduate Record Examination administered by the Educational Testing Service. Students are expected to make their own arrangements and will assume the cost of taking the Graduate Record Examinations.

Graduate Admissions

Graduate Admission Process

All applications will be initially examined and evaluated by the appropriate programs. All supporting documents (transcripts, letters of reference, etc.) must be received before any application can receive formal consideration. A program's recommendations for admission will be forwarded to the School of Graduate Studies whereupon the completed applications will be considered by the School of Graduate Studies. Current or former Trent students applying to the School of Graduate Studies must be in good academic and financial standing with the University prior to enrolling in Graduate level studies.

Official letters of acceptance are only valid for the academic term indicated. Successful applicants must reply in writing indicating whether or not they accept the offer of admission. Acceptance of an offer of admission will normally be required within four weeks of the date of the offer letter. If the applicant is unable to commence studies in the term agreed upon, the programs reserve the right to reconsider their acceptance. There is no appeal of admission decisions.

Application

Initial inquiries concerning graduate study at Trent University should be made directly to the graduate programs. Applications for admission to graduate studies can be found online. Application deadlines will be posted on the School of Graduate Studies website. Applicants are encouraged to apply early.

Online Application

To begin your Trent University application for graduate studies click the "How to Apply" button on our graduate studies website. Applicants are responsible for collecting and submitting all required documents to the School of Graduate Studies by the deadline via the online myTrent portal. Unofficial documents will be accepted as part of the admissions process, however, official transcripts will be required should you be offered admission. In those instances where documents in English are not available, certified translations will be required and should accompany the document. To be considered official, transcripts must be received in envelopes sealed by the issuing institution, or ordered online through the OUAC application site or a certified digital platform such as myCreds or Parchment. Letters of recommendation must be received through the secure online referee portal managed by the Ontario University Application Centre (OUAC) or in sealed and signed envelopes. All assessments and transcripts submitted to the School of Graduate Studies will be verified. Incomplete applications will not be processed.

Application Fee

Application fees are posted online.

Graduate application fees are non-refundable and will not be counted towards tuition fees. Applications will not be processed unless the Application Fee is received. This requirement cannot be waived or deferred. Payment must be made to the Ontario Universities' Application Centre.

Document Retention

The documents which support an application for admission will be retained in a digital student file upon commencement of studies at Trent University. Supporting documentation for applicants who do not register for Trent University courses during the term to which they applied will be retained for 12 months (in a digital file) following that initial academic term. After that period, application forms, transcripts, and other materials related to an application will be destroyed.

Qualifying Courses

Applicants who meet the minimum average for admission but whose curriculum background is not sufficient for direct entry into a graduate program may be advised to undertake qualifying courses. Successful completion of these courses as recommended by the program concerned, will permit students to compete for admission on an equal basis with other applicants. Please note that subsequent admission to a graduate program is not guaranteed.

Special Admissions

Applicants who demonstrate the ability to succeed in a graduate program but do not meet the published minimum academic requirements due to exceptional circumstances may qualify for special admission. Determination of the applicant's suitability to the program will be made by the program admissions committee and Graduate Program Director. The Graduate Program Director may then submit a recommendation to the Special Admissions Committee for approval, which should include a rationale for the recommendation. The committee is a sub-committee of the Graduate Program Directors Committee composed of a minimum of three Graduate Program Directors from across the decanal units and the Dean of Graduate Studies. In any situation where the sub-committee is unable to reach an admission decision the recommendation will be brought forward to the Graduate Program Directors Committee for review.

Graduate Special Student Policy

The proposal to allow Special Non-degree students to enroll in Graduate Courses:

- The student must possess the requisite academic background for success in the course by meeting the minimum admission requirements of a program or be deemed acceptable by the Graduate Program Director and the Dean of Graduate Studies. The student must apply and submit official transcripts and a rationale for admission as a special student. (No reference letters or 'plan of study' are required).
- Faculty have no obligation to accept a non-degree student into a course. Under exceptional circumstances if a student does not meet the minimum admissions requirements of a program they may be deemed acceptable to enroll in a graduate course if approved by the Course Instructor, Graduate Program Director, and Dean of Graduate Studies.
- Enrolment is subject to space availability; degree students are given first priority for space in any graduate course.
- Normally, only Masters level courses are open to nondegree students.
- Non-degree students are eligible to take up to a maximum of two half credits or one full credit.
- Fees are set annually. Payment is due upon registration.
- Credits earned as a non-degree student may be accepted for credit to a degree program upon approval of the Graduate Program Director.

The University's Right to Deny Admission

Meeting the minimum requirements does not guarantee admission to any course, program, or department at the University. Enrolment is limited and the University will select the most qualified candidates for admission. The University reserves the right to deny admission to any candidate. The University also reserves the right to refuse readmission to candidates who have not achieved an acceptable academic standing.

The University's Right to Offer Part-Time Admission to Full-Time Applicants

The University reserves the right to offer part-time admission to applicants for full-time studies.

Graduate Admissions

Graduate Transfer Credit Policy

Graduate Transfer Credit Policy

Students may petition to have previous graduate credits transferred from other academic institutions to their Trent graduate degree. Requests for evaluation of possible transfer credits must be made at the time of admission. Approved credits will be outlined in the offer of admission. Students must submit official transcripts, course descriptions, and other supporting documents as requested by the graduate program before consideration will be given to grant transfer credits. The total number of non-Trent credits (either transfer credits or credits taken on Letter of Permission) may not exceed half of the degree requirements. Specific degree requirements may mean that not all transfer credits awarded are applicable to a degree program. Normally, credits must have been received in the last 5 years with a minimum grade of B- (70%) or equivalent. Assignment of transfer credits for courses completed more than 5 years ago will be considered on an individual basis.

If a student transfers into a different graduate degree program, the transfer credits assigned on admission may not apply to the new graduate degree program. It is the student's responsibility to understand their academic program requirements.

Transfer credit will not be granted for courses that have been credited towards another completed degree, diploma, certificate or any other academic credential at Trent or another university, or that have been used as the basis for admission to the graduate program. All course credit transfers into graduate programs at Trent require the approval of the graduate Program Director and the Dean of Graduate Studies. Courses transferred for credit will be given a grade of "P" (pass). No numeric grade will be noted on the Trent transcript for a transfer credit.

If transfer credit is granted, the student may be required to take an alternative course(s) as recommended by the graduate program.

Graduate Readmission

Graduate Readmission

A student who has withdrawn in good standing, may apply for readmission online through the Ontario Universities Application Centre. An updated plan of study will be required. Students will be considered on an individual basis and will require the approval of the Graduate Program Director and Supervisor (if applicable). Further course work may be required depending on length of absence and/or program requirements. Students should also consult their individual program regulations for readmission. Students returning from inactive status (e.g., leave of absence) or readmitted students will require a minimum period of registration and payment amounting to one term (even if degree requirements are met before that date). No defence will be scheduled or held without registration being completed before the proposed date of the defence.

GRADUATE APPEALS OF ACADEMIC DECISIONS

GENERAL:

Graduate students have the right to appeal substantive or procedural academic decisions. Under this policy, an issue should initially be dealt with as close to its source as possible.

SCOPE:

This policy applies to all graduate students and to academic decisions made within graduate courses and programs. Decisions related to admissions to a graduate program is not appealable. Financial appeals are not included in this policy.

TYPES OF APPEAL:

- Grade Appeals
- Program Withdrawal Appeals
- Academic Misconduct Appeals
- University Requirements Appeals
- Program Requirements Appeals
- Registration and Withdrawal Petitions

LEVELS OF APPEAL:

- Graduate Program – includes course instructor, Supervisor(s) and Graduate Program Director
- School of Graduate Studies – includes Dean of Graduate Studies, Graduate Studies Appeal Committee
- Senate – includes Senate Special Appeals Committee

DEFINITION:

In this document, “days” refers to University working days only and excludes weekends, statutory holidays, and periods when the University is closed.

COMMUNICATION:

Decisions at all levels will be issued in writing and include the decision and effective date, the reasons for the decision, any remedy or conditions imposed and information about next steps and timelines for further appeal (if available).

SUBMITTING AN APPEAL

Students may submit one appeal or petition addressing an issue, and it must reasonably aim to resolve the underlying concern rather than present incremental or repetitive requests.

The University evaluates all appeals and petitions on a case-by-case basis. Each submission is considered individually, and decisions are made based on the specific context and details of the case. As a result, outcomes are not precedent-setting.

STUDENT RESPONSIBILITIES:

• Submit a written statement clearly identifying the decision being appealed, the grounds, the remedy sought and a list of all supporting documents.
• Attach all evidence, including materials submitted at previous levels and the decision letters received. Students should be aware that material submitted by the student in support of the appeal will be distributed to other parties participating in the appeal. Those individuals may include the course instructor, the department Graduate Director, and other graduate faculty.
• Use official Trent University email address .
• Meet all timelines unless an extension has been granted.
• Students are reminded that submitting false or misrepresentative medical certificates or other documentation in support of requests for concessions on academic work or deadlines is considered cheating under the University's Academic Integrity Policy.
• A student may abandon an appeal at any time during the appeal process.

STATUS DURING AN APPEAL:

• Unless stated otherwise, the original decision remains in effect while the appeal is pending.

EXTENSIONS:

• Time limits may be extended where justified. Any extension should be confirmed in writing.

FORMAL APPEALS

APPEAL OF GRADE

Informal Step

• Student consults course instructor within ten (10) days of receiving the grade to seek clarification or informal review.
• Informal review should provide reason for the grade or mark assigned.
• DECISION TIMELINE: Normally ten (10) days from the receipt of the inquiry.

Appeal of a grade on a piece of coursework

Level 1 - Program

• TO: Graduate Program Director
• WHEN: Within ten (10) days of receiving the instructor's informal decision and feedback.
• PROCESS: The Graduate Program Director will review the submission and may seek a second, independent assessment of the work where appropriate.
• The original grade cannot be lowered as a result of the appeal.
• DECISION TIMELINE: Thirty (30) days from the receipt of the appeal.

Level 2 – Dean of Graduate Studies on procedural grounds

- TO: Dean of Graduate Studies
- WHEN: Within ten (10) days of receiving the Graduate Program Director's reply.
- DECISION TIMELINE: Thirty (30) days from the receipt of the appeal.

NEXT LEVEL: On the grounds of undue hardship a further appeal may be made to the Senate Special Appeals Committee.

Appeal of a final course grade

Level 1 – Program

- TO: Graduate Program Director
- WHEN: Within thirty (30) days of receiving the final grade.
- PROCESS: The Graduate Program Director will review the submission and may seek a second, independent assessment of the work where appropriate.
- The original grade cannot be lowered as a result of the appeal.
- DECISION TIMELINE: Thirty (30) days from the receipt of the appeal.

Level 2 – Dean of Graduate Studies on procedural grounds

- TO: Dean of Graduate Studies
- WHEN: Within ten (10) days of receiving the Graduate Program Director's reply.
- DECISION TIMELINE: Thirty (30) days from the receipt of the appeal.

NEXT LEVEL: On the grounds of undue hardship a further appeal may be made to the Senate Special Appeals Committee.

APPEAL OF WITHDRAWAL DUE TO ACADEMIC REGULATIONS

Failure of a required course or Failure of an elective course (second attempt)

Level 1 - Program

- TO: Graduate Program Director
- WHEN: Within ten (10) days of the withdrawal decision letter.
- DECISION TIMELINE: Thirty (30) days from the receipt of the appeal.

Level 2 – Graduate Studies Appeal Committee

- TO: Graduate Studies Appeal Committee
- WHEN: Within ten (10) days of receiving the Graduate Program Director's reply.
- DECISION TIMELINE: Thirty (30) days from the receipt of the appeal.

NEXT LEVEL: On the grounds of undue hardship a further appeal may be made to the Senate Special Appeals Committee.

Unsatisfactory progress in a research-based program

Level 1 - Program

- TO: Graduate Program Director
- WHEN: Within ten (10) days of the withdrawal decision letter.
- DECISION TIMELINE: Thirty (30) days from the receipt of the appeal.

Level 2 – Graduate Studies Appeal Committee

- TO: Graduate Studies Appeal Committee
- WHEN: Within ten (10) days of receiving the Graduate Program Director's reply.
- DECISION TIMELINE: Thirty (30) days from the receipt of the appeal.

NEXT LEVEL: On the grounds of undue hardship a further appeal may be made to the Senate Special Appeals Committee.

APPEAL OF EXPULSION DUE TO ACADEMIC MISCONDUCT

- TO: Graduate Studies Appeal Committee
- WHEN: Within ten (10) days of the date of the expulsion decision letter.
- DECISION TIMELINE: Thirty (30) days from the receipt.

NEXT LEVEL: On the grounds of undue hardship a further appeal may be made to the Senate Special Appeals Committee.

APPEAL RELATED TO ACADEMIC REQUIREMENTS/ DECISIONS

Examples include comprehensive/candidacy examinations, evaluation of major research or internship papers, thesis and dissertation defences, and other program or University degree elements.

Level 1 - Program

- TO: Graduate Program Director
- WHEN: Within ten (10) days of the withdrawal decision letter.
- DECISION TIMELINE: Thirty (30) days from the receipt of the appeal.

Level 2 – Graduate Studies Appeal Committee

- TO: Graduate Studies Appeal Committee
- WHEN: Within ten (10) days of the Graduate Program Directors decision.
- DECISION TIMELINE: Thirty (30) days from the receipt.

NEXT LEVEL: On the grounds of undue hardship a further appeal may be made to the Senate Special Appeals Committee.

SPECIAL APPEALS TO SENATE

Graduate students who have exhausted all other appeal processes may appeal to the Special Appeals Committee of Senate on the grounds that a policy or practice has caused the student undue hardship.

Special appeals must be filed with the University Secretariat within four (4) weeks of the receipt of the previous ruling and must include all documents to be presented for the appeal as well as previous decisions made.

More information is found at the Special Appeals Committee website.

All decisions of the Special Appeals Committee are final within the University.

PETITIONS

LATE WITHDRAWALS

Serious medical or compassionate grounds that prevented withdrawal by the published deadline. If the petition is granted, the course will remain on the transcript with a grade of WDN (Withdrawn).

Level 1 – Graduate Program Director

- TO: Graduate Program Director
- WHEN: Within thirty (30) days of the last class.
- DOCUMENTATION: Submission of the Late Withdrawal form along with supporting documentation.
- DECISION TIMELINE: Thirty (30) days from the receipt of the petition.

Level 2 – Dean of Graduate Studies

- TO: Dean of Graduate Studies
- WHEN: Within ten (10) days of receiving the Graduate Program Director's reply.
- DECISION TIMELINE: Thirty (30) days from the receipt of the petition.

NEXT LEVEL: On the grounds of undue hardship and/or procedural error, a further appeal may be made to the Senate Special Appeals Committee.

RETROACTIVE REGISTRATION

Demonstrated reasons why registration did not occur despite participation.

- TO: Graduate Program Director
- WHEN: Before the last day of the course.
- DOCUMENTATION: Submission of add course form signed by the Course Instructor along with statement of reasons and supporting documentation.

EXEMPTION TO DEGREE REQUIREMENTS

Demonstrated reasons for relief from graduate academic regulation or graduate degree requirement.

Level 1 – Graduate Program Director

- TO: Graduate Program Director
- WHEN: By the beginning of the student's final term.
- DOCUMENTATION: Submission of Exemption from Academic Regulations or Degree Requirements form along with statement of reasons and supporting documentation.
- DECISION TIMELINE: Thirty (30) days from the receipt of the petition.

Level 2 – Dean of Graduate Studies

- TO: Dean of Graduate Studies
- WHEN: Within ten (10) days of receiving the Graduate Program Director's reply.
- DECISION TIMELINE: Thirty (30) days from the receipt of the petition.

NEXT LEVEL: On the grounds of undue hardship and/or procedural error, a further appeal may be made to the Senate Special Appeals Committee.

GRADUATE STUDIES APPEALS COMMITTEE

COMPOSITION:
Normally three non-student voting members of the Graduate Studies Committee (GSC) who are not members of the student's graduate program. Where necessary for reasons of expertise or background, the Dean may appoint a non-member of the GSC as one of the three members. Members must declare conflicts and the Dean of Graduate Studies will appoint alternates as needed.

PROCESS:

• Review written documentation and may seek additional relevant evidence at its discretion, including evidence from external experts.
• The remedy open to the Committee will be limited to a recommendation for reassessment and the conditions under which a reassessment will be made, or other remedies within its mandate (eg. upholding or modifying a Program decision consistent with policy).
• Meetings are held in camera.
• Decision letters will provide reasons and will outline any further appeal rights, where applicable.

Graduate Collaborative Specializations

Aging Studies

Contact: aging@trentu.ca
Website

The Collaborative Specialization in Aging Studies offers graduate students in Trent's Masters and PhD programs the opportunity to develop a complementary emphasis in interdisciplinary aging studies as part of their degree. Drawing inter- and multi-disciplinary approaches from the humanities, social sciences and health studies, the collaborative specialization is designed to provide graduate students with a critical perspective on the significance of aging for individuals, communities and societies. The program provides a foundation in social and critical gerontology as well as opportunities to complete research that will contribute to the development of critically-informed scholarship, discourse and policy on aging.

Program Coordinator
L. Brown, BSc, MSc (Waterloo), PhD (Pennsylvania State)

REQUIREMENTS FOR A COLLABORATIVE SPECIALIZATION IN AGING

Graduate students who have been accepted into a participating Masters or PhD graduate program may apply for a Collaborative Specialization in Aging Studies subject to the approval of the CSAS program coordinator. The requirements of the collaborative specialization are successful completion AGNG-CSAS 5000H: Foundations in Interdisciplinary Aging Studies (a 0.5 credit core course offered by the Trent Centre for Aging & Society) and a thesis, major research paper, or research creation project on aging studies subject matter. Upon successful completion of the degree requirements of their participating graduate programs and the requirements of the collaborative specialization, students receive the notation "with Specialization in Aging Studies" on their transcript and parchment.

AGNG-CSAS 5000H: Foundations in interdisciplinary aging studies
This interdisciplinary graduate course examines aging from a critical perspective. The course traces the evolving conceptualizations of aging, old age and life course and their role in understanding the processes, outcomes and representations of aging.

Feminist and Gender Studies

Website

The Graduate Collaborative Program in Feminist and Gender Studies will focus on research in feminist and gender studies and offer training and expertise to students who wish to undertake research in this field, as part of their MA or PhD degree in the humanities, sciences or social sciences.

Work with one of the country's largest and leading cohorts of Gender and Social Justice Studies scholars to earn your graduate degree with a Feminist and Gender Studies collaborative specialization.

As a humanities, sciences or social sciences graduate student, explore interdisciplinary feminist theories, methodologies, and practices through course work and research. At Trent, you can earn a degree and a specialization in as little as one year, as you investigate the centrality of gender and its interactions with hierarchical power relations.

As home to the Canada Research Chair in Feminist and Gender Studies and with close to 30 affiliated faculty members undertaking related research, the program gives you an opportunity to be inspired by today's leaders in the field. Regardless of your discipline, this specialization will allow you to collaborate with our community of scholars as you pursue your own academic path.

- Participate in one of the few collaborative programs of this kind in Canada
- Learn about the foundations of research in feminist and gender studies in the interdisciplinary core course – a seminar that brings students together with experts in the field
- Develop your research skills and deepen your knowledge of feminist methodologies prior to embarking on your thesis or major research paper

Program Coordinator
K. Pendleton-Jimenez

REQUIREMENTS FOR A COLLABORATIVE SPECIALIZATION IN FEMINIST AND GENDER STUDIES

Graduate students who have been accepted into a participating Masters or PhD graduate program may apply for a Collaborative Specialization in Feminist and Gender Studies subject to the approval of the program coordinator. The requirements of the collaborative specialization are successful completion of a 0.5 credit core course (GESO 5000H: Social Justice Research Practice: Feminist, Decolonial, Queer, Crip, and Critical Race Methodologies) and a thesis or major research paper on feminist and gender studies subject matter. Upon successful completion of the degree requirements of their participating graduate programs and the requirements of the collaborative specialization, students receive the notation "with Specialization in Feminist and Gender Studies" on their transcript and parchment.

GESO 5000H: Social Justice Research Practice: Feminist, Decolonial, Queer, Crip, and Critical Race Methodologies
This course explores anti-oppressive approaches to knowledge production and analysis. The course is designed to support students to develop their own primary or secondary research (thesis, MRP or otherwise) through a lens of feminist, decolonial, queer, crip, and/or critical race epistemologies and methodologies. Core questions include: How has research been used as a tool for social change? How can research be designed to reveal or obscure systems of power and inequality? How can research resist the erasure of some knowledges within academia, and why is it important to raise critical questions about what knowledges are deemed credible? How do we work toward accountability and remain critical of existing relations of power as anti-oppressive researchers in uncertain times? This course can be taken as an elective or as the foundation for Trent's Collaborative Graduate Specialization in Feminist and Gender Studies.

Graduate Diploma Type 1

On the approval of the program, a Graduate Diploma can be awarded when a candidate admitted to a masters program leaves the program after completing a prescribed proportion of the requirements. Students are not admitted directly to these programs. In order to qualify for graduation, the student must obtain a final grade of at least 70% (B+) in the required courses.

Participating Programs

Materials Science MSc

Anthropology MA/MSc

Requirements

Materials Science Graduate Diploma requirements:

- 0.5 credit in MTSC 6000H
- 1.0 elective credits, with minimum one of the following: MTSC 6012H, MTSC 6020H or MTSC 6140H
- Completion of program research milestones, as outlined by the graduate program

Anthropological Studies Graduate Diploma requirements:

- 1.0 credit in: ANTH 5500Y
- 1.0 credit in: ANTH 5000Y, ANTH 5050Y or ANTH 5100Y
- Completion of 1.0 additional 5000 level course(s)
- Only open to students that have completed at least 2.0 years full time (or full time equivalent) in the Anthropology MA or MSc graduate program

Intellectual Property

All members of the University community must abide by Trent University's intellectual property policies and respect the intellectual property rights of others. It is the responsibility of all graduate students to read and familiarize themselves with Trent's policies and guidelines on intellectual property. The statement of the Research Office can be found at: trentu.ca/ori. Students are also encouraged to look at the Canadian Association of Graduate Studies (CAGS) publication on Intellectual Property: "A Guide to Intellectual Property for Graduate Students and Post doctoral Scholars" published by the Canadian Association for Graduate Students: cags.ca/documents/publications/working/Guide_Intellectual_Property.pdf.

The following Guideline concerns the work done by a graduate student or research assistant and is intended to provide a short summary of the policies concerning intellectual property that are in place.

Guideline

Introduction

This Guideline is intended to clarify the types of Intellectual Property (IP) and to assist in determining ownership of Intellectual Property created or developed in whole or in part by Trent University graduate students. This guideline covers the rights of current and former Trent students while attending the University and after they leave. Intellectual Property rights do not extinguish when the student leaves the University; they survive for life.

This Guideline applies equally to all graduate students and research assistants ("students") and is to be read in conjunction with Trent University's Research policy on Intellectual Property and the TUFA Collective Agreement provisions ("TUFA Agreement").

I) Ownership of Student-Created Intellectual Property

Intellectual Property includes copyrights, patents, trademarks, industrial design, integrated circuit topographies, plant breeder rights, computer programs, and trade secrets. Examples of Intellectual Property most relevant to students at Trent include (but are not limited to) essays, research papers, lab assignments, articles, theses, dissertations, books, lectures delivered, research data, maps, photographs, videos, tapes, computer software, inventions and equipment, databases, and e-materials. In order to be protected by law, an item must satisfy three criteria: (a) it must be an original creation; (b) it must be a specific expression of an idea, not the idea itself; and (c) the item must be fixed in a physical form.

In most circumstances, ownership of intellectual property rights rests with the creator of the work, however this Guideline, along with Canadian Intellectual Property Statutes, provides certain exceptions. Pursuant to Section 13(3) of the Copyright Act, copyright to a work, such as literary works or computer software, developed or created in the course of employment is held by the employer, in the absence of an agreement to the contrary. Special provisions apply, however, to any work that is an article or other contribution to a newspaper, magazine or similar periodical.

To the extent covered by Section II below, Section 13(3) of the Copyright Act shall not apply to works created by a student in the course of employment with Trent (including employment as a teaching assistant). In such circumstances, the student is the first owner of the copyright in the work. This follows the example of Article IV.7.2 of the TUFA Agreement which specifically excludes the application of section 13(3) of the Copyright Act to members: members hold the copyright in their original works, including lectures, lab manuals and other teaching materials, with some exceptions.

Students may enter into contractual agreements, such as with supervisors, the University, corporate sponsors, or other third parties, which may grant or determine Intellectual Property rights. Any such pre-existing contract shall govern ownership rights.

All students are strongly encouraged to discuss any potential Intellectual Property issues with their supervisors and to make the appropriate agreements in advance concerning ownership of Intellectual Property.

Any conflict between Canadian intellectual property laws and this guideline shall be resolved in favour of the applicable Canadian law.

Course Work: Examinations, Reports, Papers or Labs

The student holds copyright in any work submitted to meet a course requirement, or as part of a thesis or master's project. However, the following conditions are placed on the submission of the work:

1. The original physical document becomes the property of the University.
2. The University is granted a non-exclusive, royalty-free and perpetual license to reproduce and circulate the works for internal use as part of the University library collection and for teaching and research purposes.
3. If a work was created with a substantial use of Trent resources, then the University reserves the right to a 25% share of net revenue generated by the work. The payment of salaries to graduate students and research assistants shall not be construed as use of the University's funds

Trent holds the copyright in works that are directly requested or specifically commissioned by the University.

Theses, Dissertations and Master's Projects

The student holds copyright in the finished thesis or master's project, subject to the following exceptions. Ideas themselves cannot be the subject of Copyright. If the student developed the ideas contained in their thesis with a supervisor or research group, the rights to publish or commercially exploit the resulting work are shared with the supervisor, research group, and the University.

Where a student's thesis or master's project has been supported (in whole or in part) by research grants, there may be other contractual agreements affecting ownership and commercial exploitation. Students and supervisors should make themselves aware of these conditions prior to beginning the work.

The student shall display the international copyright notice, referring to the written work only, on the title page of the thesis or master's project. The student is also required to complete a Non-exclusive License to Reproduce Theses be granted to the National Library of Canada. The University is granted a non-exclusive, royalty-free and perpetual license to reproduce and circulate the works for internal use as part of the University library collection

Computer Programs

Computer programs and software are legally protected by Canadian copyright law. Where a student develops a program or software as part of a course, project or thesis, the student is the owner of the copyright. However, the student is required to grant the University a royalty-free license to use and distribute the software for educational, administrative and research activities within the University. This license does not include the right to use the software for commercial purposes. Use of software in the administration of the University shall not be considered a commercial purpose.

Where computer programs are developed using software owned or licensed by the University, the student must follow the terms and conditions of the license or purchase agreement.

Computer programs developed at the direct request of a supervisor, faculty or staff are the exclusive property of the University.

Research Data

Where data for a thesis, dissertation or MA project is collected by a student independently then it is the property of the student, unless a prior agreement exists with a professor or funder. Once a thesis has been passed, data collected by the student for these purposes remains with the student unless other prior agreements exist with a professor or funder.

Where the data is acquired as part of a joint effort, or using research instruments developed wholly or in part by the research supervisor, University or third party, ownership of the Intellectual Property in the data is shared. All parties involved are responsible for ensuring that proper acknowledgments of contributions are made when the data are released in any form.

Equipment and Inventions

Inventions, Improvements in Design or Developments ("Intellectual Property") discovered, constructed, developed or designed as part of course or thesis work is the property of the University if University resources (including, but not limited to, the work, funding, raw materials, and workspace) have been applied, in whole or in part, to the discovery, construction, design or development of equipment or inventions.

Equipment and inventions are the property of the student ONLY IF the equipment and invention was made without use, in whole or in part, of the University's funds, services, facilities, support and/or technical personnel.

Neither the use of normal academic facilities as defined in Article IV.1.2. of the TUFA Agreement nor the payment of salaries/stipends to students shall be considered use of the University's funds, services, facilities, support and/or technical personnel.

The University shall have the first option to carry out development of the intellectual property towards commercialization.

The University shall share equally with the student any revenue generated as a result of commercialization of any invention, improvement in design or development made by a student with the use, in whole or in part, of the University's funds, services, facilities, support and/or technical personnel.

II) Teaching

Intellectual Property created by the student for the purposes of teaching or assisting in teaching is owned in the first instance by the student. This includes course outlines, lectures, laboratory manuals, and all other teaching materials including, but not limited to, multimedia instructional aids prepared by the student using University facilities as defined in Article IV.1.2. of the TUFA Agreement (ie. computers, library, office and laboratory space, telephone, etc.).

At the discretion of the student, the student may grant a non-exclusive license to the University or a faculty member to reproduce and circulate the work for internal teaching and research purposes. Such license shall include the right to edit, modify, add to, or delete any part of the work.

III) Disclosure of Intellectual Property

All students must give notice to the University when Intellectual Property is believed to exist, through the "Preliminary Intellectual Property Disclosure Form" submitted to the Office of Research. Further, students shall give notice to their supervisors and to the Dean of Graduate Studies of any Intellectual Property that may be commercially valuable or give rise to commercially valuable Intellectual Property.

Students must disclose the details of their inventions or discoveries through the "Invention Disclosure Form" which is submitted to the Office of Research.

All students shall give timely notice to the Dean of Graduate Studies and the University, in writing, of any application to protect their Intellectual Property, including without limitation an application for patent, copyright, or trademark registration.

For more information on intellectual property rights:

Copyright Act, R.S.C. 1985, c. C-42
Patent Act, R.S.C. 1985, c. P-4

Research Paper & Thesis Requirements

The graduate thesis or dissertation follows the procedures, requirements and timelines of a student's individual program. For information on program and thesis requirements for your individual program, please speak to the graduate supervisor and graduate administrator for your department.

Research Paper & Thesis Requirements

Thesis Supervision

A supervisory committee for each graduate student in a thesis-based Masters program shall be approved by the Graduate Program Director to which the candidate is admitted. It shall consist of the thesis supervisor and at least one other faculty member who meets the School of Graduate Studies and the program requirements, with the supervisor as committee chair.

The role of the committee shall be:

1. to ensure that reasonable progress is being made by the student in his/her research and course work. The supervisor shall submit a report on this progress through the Graduate Program Director to the School of Graduate Studies at the end of each Winter term.
2. to approve the thesis topic and any prescribed work.
3. to recommend to the Graduate Program Director appropriate action (withdrawal, further research, or course work) in light of the student's progress.
4. to recommend the membership of the thesis examining committee when the final draft of the thesis has been approved by the committee

If a student's supervisor expects to be absent from the University for an extended period of time (two months or more) it is his/her responsibility either to make suitable arrangements in writing with the student and the Graduate Program Director for the continued supervision of the student, or to request the Graduate Program Director to appoint an interim supervisor. Such arrangements must be communicated in writing to the student with a copy to the Dean of Graduate Studies before the supervisor leaves the University.

Guidelines for graduate programs, graduate students, faculty and the Committee on Graduate Studies are included in the Graduate Students' Handbook downloadable from the following website: trentu.ca/graduatestudies/current-students-faculty

Research Requirements

A candidate for a Master's degree will undertake research and write a thesis or complete a major research paper or internship as required by the program. In the thesis, major research paper or research paper associated with the internship students should give evidence that they have made a logical and intelligent approach to the selected problem and the language of the written submission should be clear and precise; the work should demonstrate the development and support of a sustained argument or originality in the application of knowledge (see OCAV Degree level expectations for more information) as required by the program. Note: All research conducted under the auspices of Trent University by graduate students, funded or unfunded, that involves human subjects requires approval by the Research Ethics Committee of Trent University. Research Ethics guidelines are published on the Research Office website at trentu.ca/researchinnovation/ research-trent/graduate-research-why-trent.

Although a thesis, major research paper or internship paper may be submitted at any time, candidates should note the submission deadlines for the Spring Convocation in the academic Calendar and take into account normal times for review of such documents.

Principles Governing Submission & Examination of Theses

1. Submission of thesis for examination

1.1 Supervisory Committee members shall review a complete version prepared in conformity with program requirements of the thesis and send a signed "Pre-Exam" form to the Graduate Program Director verifying that the thesis meets degree level expectations and is of sufficient quality to proceed to formal examination.

2. Examining committee

2.1 After the supervisory committee has confirmed that the thesis may proceed to examination, the Program Director establishes a committee to participate in the examination and defence, consisting of a Chair, the supervisor, at least one member of the supervisory committee and at least one other member, internal or external to the University who is not a member of the supervisory committee; and determines the date, place and time of the defence.

2.2 The external examiner must not have any affiliation with the university or the candidate that might be construed as creating a conflict of interest.

3. Thesis examination

3.1 Copies of the thesis shall be distributed amongst the Examining Committee by the Graduate Program Director at least three weeks before the scheduled date of the oral, along with a covering letter from the Graduate Program Director explaining the status of the thesis and the range of options for its disposition.

3.2 A "Pre-Oral Defence" form is supplied on which each examiner, who has not previously approved the thesis, should verify whether they recommend that the oral examination should proceed. These forms must be returned to the Graduate Program Director at least one week before the scheduled date of the oral.

3.3 A negative response by any member of the Examining Committee may result in cancellation of the defence and return of the thesis to the student.

4. Defence

4.1 The thesis will be defended by the candidate in an oral examination before the Examining Committee.

4.2 Every attempt shall be made to schedule the defence within six to eight weeks from the date of approval of the submitted thesis by all members of the Supervisory Committee.

4.3 All graduate thesis defences will be conducted on one of the Trent campuses with the Examining Committee and the candidate physically present at the examination. The Director of the Graduate Program may permit some members of the examining committee and/or the candidate to participate by video or teleconference. When an external examiner is a member of the Examining Committee, in extraordinary situations where neither in person or videoconference examinations are possible, the external examiner may be asked to review the thesis and provide a detailed written assessment of the thesis and questions that will be asked during the defence by the examination chair. Requests for this exam status must be submitted to the Program Director in advance of thesis defence.

4.4 The Examining Committee, and the defence examination, will be chaired by a person appointed by the Graduate Program Director.

4.5 Subject to the policy of individual graduate programs, any member of the university community, and invited guests are free to attend an oral thesis defence examination. If a remote meeting link is distributed by the program, the link should not be re-distributed. Recording of any kind is strictly prohibited.

4.6 The chair will give priority to questions from members of the Examining Committee, and will adjourn the examination when the Examining Committee decides that further questioning is unnecessary.

4.7 The deliberations of the Examining Committee are held in camera. That is to say, only appointed members of the Examining Committee are present at this stage.

4.8 It is the responsibility of the chair to see that a report on the examination is prepared before the committee adjourns.

4.9 Five recommendations are open to the Examining Committee:
(i) the thesis is approved as it stands, or
(ii) the thesis is approved provided certain minor revisions are made, or
(iii) the thesis is approved provided certain major revisions are made, or
(iv) the thesis is not approved as it stands but may be resubmitted, and re-examined by some or all of the Examining Committee (this may or may not involve another oral defence), or
(v) the thesis is not approved.

4.10 The voting is based on a simple majority. In the case of a tie vote, the Chair will consult with the Dean to resolve the tie.

4.11 If revisions are required, the Examining Committee must provide a written list of required revisions to the Graduate Program Director within a week following the oral examination. Minor revisions are defined as changes that can be made readily to the satisfaction of the supervisor. Major revisions are defined as corrections requiring structural changes, or other substantive revision. When a thesis is accepted with major revisions, a precise description of the modifications must be included with the Examining Committee's report as well as a time within which the revisions will be accepted. It is then the responsibility of the candidate's supervisor to demonstrate to the Examining Committee that the required revisions have been made. In the case of a thesis that is not approved but that may be resubmitted, the Examining Committee will determine whether the thesis or portions of it will be reviewed by one or more members of the Committee following revisions, or whether a second defence is required.

4.12 If the Examining Committee is not prepared to reach a decision concerning the thesis at the time of the thesis defence, it is the responsibility of the chair to determine what additional information is required by the committee to reach a decision, to arrange to obtain this information for the committee, and to call another meeting of the committee as soon as the required information is available. It is also the chair's responsibility to inform the candidate that the decision is pending.

5. Final submission

5.1 The Graduate Program Director, in consultation with the thesis supervisor (and/or co-supervisors), must verify that appropriate corrections have been made, and then submit a summary report of the thesis defence and examination to the School of Graduate Studies.

5.2 An approved thesis may be submitted at any time following the oral defence. However, candidates wishing to graduate at Spring Convocation should refer to the deadlines for submission of final copies of successfully defended theses. Candidates not meeting these deadlines are required to re-register until the thesis has been formally submitted and approved by the University.

5.3 The formal submission of the thesis to the University is made to the School of Graduate Studies. At this point, the thesis should be in its final typed version, and in PDF format. Submit final PDF copy to graduate@trentu.ca for review. The School of Graduate Studies will review and inform the student when the final copy is approved for submission.

5.4 After the thesis has been formally approved, the candidate will submit their thesis online through the thesis submission portal. Some graduate programs may have additional submission requirements. Students should check with their home department regarding such.

5.5 When the thesis is submitted, the candidate is required to complete a non-exclusive licensing form. This gives consent for Trent University Library & Archives and Library and Archives Canada to make the thesis available to interested persons and grants a non-exclusive, for the full term of copyright protection, license to both Trent University Library & Archives and Library and Archives Canada.

6. Binding of thesis

6.1 Theses may be bound in Trent green with front cover and spine writing in gold. Binding arrangements can be made through the School of Graduate Studies. A bound hardcopy maybe required by the program - please see your program for specific guidelines. Students have the option of having personal copies bound through the School of Graduate Studies. Fees for binding will be charged to the student account.

7. Intellectual property and copyright regulations

7.1 For information concerning intellectual property and copyright regulations, please refer to the "Guidelines for the use and ownership of intellectual property developed by graduate students at Trent University" found in the Policies and Procedures section of this academic calendar.

Notes

- Arrangements and expenses for producing the final thesis copies are the responsibility of the student.
- Information and a detailed guide on the preparation of dissertations can be found on the graduate studies website: trentu.ca/graduatestudies

Language Requirement for Theses

Theses will be written and defended in English (or in French, subject to individual program's policy/ practice), unless the Dean of Graduate Studies, acting on the recommendation of the Director of the Graduate program involved, grants an exception to this rule. The Dean must take into account: a) the relevance of this language to the content of the thesis, and b) the availability of Trent graduate faculty members fluent in the language (both verbal and written) who can supervise the thesis, and c) the availability of External and Internal Examiners fluent in the language (both written and verbal) who can effectively participate in the thesis examination. Application to defend in a language other than English or French must be submitted to the Dean of Graduate Studies by the Graduate Program Director at least one (1) year in advance of the proposed date of the thesis defence. In any case, the Title and Abstract of the Thesis must also be provided in English.

Supervision

A supervisory committee for each graduate student in a PhD program shall be named by the Director of the Graduate Program to which the candidate is admitted. It shall consist of the dissertation supervisor and at least two other faculty members who meet the School of Graduate Studies and the program requirements, with the supervisor as committee chair.

The role of the committee shall be:

1. to ensure that reasonable progress is being made by the student in his/her research and course work. The supervisor shall submit a report on this progress through the Graduate Program Director to the School of Graduate Studies at the end of each Winter term.
2. to approve the dissertation topic and any prescribed work.
3. to recommend to the School of Graduate Studies appropriate action (withdrawal, further research, or course work) in light of the student's progress.
4. to recommend the membership of the dissertation examining committee when the final draft of the dissertation has been approved by the committee.

If a student's supervisor expects to be absent from the University for an extended period of time (two months or more) it is his/her responsibility either to make suitable arrangements in writing with the student and the Graduate Program Director for the continued supervision of the student, or to request the Graduate Program Director to appoint an interim supervisor. Such arrangements must be communicated in writing to the student with a copy to the Dean of Graduate Studies before the supervisor leaves the University.

Guidelines for graduate programs, graduate students, faculty and the Committee on Graduate Studies can be found on the graduate studies website.

Dissertation Requirements

A candidate for a PhD degree will undertake research and write a dissertation. In the dissertation, students should give evidence that they have made a logical and intelligent approach to the selected problem and demonstrate the ability to conceptualize, design and implement research for the generation of new knowledge and to make informed judgments on complex issues. The dissertation should demonstrate original research or other advanced scholarship of a quality to satisfy peer review and merit publication. Note: All research conducted under the auspices of Trent University by graduate students, funded or unfunded, that involves human subjects requires approval by the Research Ethics Committee of Trent University. Research Ethics guidelines are published on the Research Office website at trentu.ca/ori.

Although a dissertation may be submitted at any time, candidates should note the dissertation submission deadlines for the Spring Convocation in the academic Calendar and take into account normal times for review of such documents.

Principles Governing Submission & Examination of Dissertations

1. Submission of dissertation for examination

1.1 Supervisory Committee members shall review a complete typed version of the dissertation, prepared in conformity with Program requirements, and send a signed "Pre-Exam" form to the Graduate Program Director verifying that the dissertation meets degree level expectations and is of sufficient quality to proceed to formal examination.

2. Examining committee

2.1 After the supervisory committee has confirmed that the dissertation may proceed to examination, the Graduate Program Director establishes a committee to participate in the defence, consisting of a Chair, the supervisor, at least one member of the supervisory committee, one Trent faculty or adjunct member external to the supervisory committee and one member external to the University. The Graduate Program Director determines the date, place and time of the defence.

2.2 The external examiner must not have any affiliation with the university or the candidate that might be construed as creating a conflict of interest. Guidelines on conflict of interest are available from the School of Graduate Studies.

3. Dissertation examination

3.1 Copies of the dissertation shall be distributed amongst the Examining Committee by the Graduate Program Director at least three weeks before the scheduled date of the oral, along with a covering letter from the Graduate Program explaining the status of the dissertation and the range of options for its disposition.

3.2 A "Pre-Oral Defence" form is supplied on which each examiner, who has not previously approved the dissertation, should verify whether they recommend that the oral examination should proceed. These forms must be returned to the Graduate Program Director at least one week before the scheduled date of the oral.

3.3 A negative response by any member of the Examining Committee will result in cancellation of the defence and return of the dissertation to the student. An examiner who indicates that a dissertation is not suitable for defence will provide a written explanation of the deficiencies and the changes necessary to make the dissertation acceptable for defence.

4. Defence

4.1 The dissertation will be defended by the candidate in an oral examination before the Examining Committee.

4.2 Every attempt shall be made to schedule the defence within six to eight weeks from the date of approval of the submitted dissertation by all members of the Supervisory Committee (see 1.1 above).

4.3 All graduate dissertation defences will be conducted on one of the Trent Campus with the examining committee and the candidate physically present at the examination. The Director of the Graduate Program may permit some members of the examining committee to participate by video or teleconference. Requests for this exam status must be submitted to the Program Director in advance of the dissertation defence.

4.4 The Examining Committee, and the defence examination, will be chaired by a person appointed by the Graduate Program Director.

4.5 A quorum consists of the external examiner and two other members of the examining committee, not including the chair.

4.6 If any member of the examination committee cannot be present, the defence may be postponed at the discretion of the Graduate Program Director. The candidate shall not be penalized unduly by a postponement.

4.7 Subject to the policy of individual graduate programs, any member of the university community, and invited guests are free to attend an oral dissertation defence examination. If a remote meeting link is distributed by the program, the link should not be re-distributed. Recording of any kind is strictly prohibited.

4.8 The chair will give priority to questions from members of the Examining Committee, and will adjourn the examination when the Examining Committee decides that further questioning is unnecessary.

4.9 The deliberations of the Examining Committee are held in camera. That is to say, only appointed members of the Examining Committee are present at this stage.

4.10 It is the responsibility of the chair to see that a report on the examination is prepared before the committee adjourns.

4.11 Five recommendations are open to the Examining Committee:
(i) the dissertation is approved as it stands, or
(ii) the dissertation is approved provided certain minor revisions are made, or
(iii) the dissertation is approved provided certain major revisions are made, or
(iv) the dissertation is not approved as it stands but may be resubmitted, and re-examined by some or all of the Examining Committee (this may or may not involve another oral defence), or
(v) the dissertation is not approved.

4.12 The voting is based on a simple majority. In the case of a tie vote, the Chair will consult with the Dean to resolve the tie.

4.13 If revisions are required, each member of the Examining Committee must provide a written list of required revisions to the Graduate Program Director immediately following the oral. Minor revisions are defined as corrections that can be made immediately to the satisfaction of the supervisor. Major revisions are defined as corrections requiring structural changes, or other substantive revision. When a dissertation is accepted with major revisions, a precise description of the modifications must be included with the Examining Committee's report as well as a time within which the revisions will be accepted. It is then the responsibility of the candidate's supervisor to demonstrate to the Examining Committee that the required revisions have been made. In the case of a dissertation that is not approved but may be resubmitted, the Examining Committee will determine whether the dissertation or portions of it will be reviewed by one or more members of the Committee following revisions, or whether a second defence is required.

4.14 If the Examining Committee is not prepared to reach a decision concerning the dissertation at the time of the dissertation defence, it is the responsibility of the chair to determine what additional information is required by the committee to reach a decision, to arrange to obtain this information for the committee, and to call another meeting of the committee as soon as the required information is available. It is also the chair's responsibility to inform the candidate that the decision is pending.

5. Final submission

5.1 The Graduate Program Director, in consultation with the dissertation supervisor, must verify that appropriate corrections have been made, and then submit a summary report of the dissertation defence and examination to the School of Graduate Studies.

5.2 An approved dissertation may be submitted at any time following the oral defence. However, candidates wishing to graduate at Spring Convocation should refer to the deadlines for submission of final copies of successfully defended dissertations. Candidates not meeting these deadlines are required to re-register until the dissertation has been formally submitted and approved by the University.

5.3 The formal submission of the thesis to the University is made to the School of Graduate Studies. At this point, the thesis should be in its final typed version, and in PDF format. Submit final PDF copy to graduate@trentu.ca for review. The School of Graduate Studies will review and inform the student when the final copy is approved for submission.

5.4 After the thesis has been formally approved, the candidate will submit their thesis online through the thesis submission portal. Some graduate programs may have additional submission requirements. Students should check with their home department regarding such.

5.5 When the thesis is submitted, the candidate is required to complete a non-exclusive licensing form. This gives consent for Trent University Library & Archives and Library and Archives Canada to make the thesis available to interested persons and grants a non-exclusive, for the full term of copyright protection, license to both Trent University Library & Archives and Library and Archives Canada.

6. Binding of dissertation

6.1 Dissertation may be bound in Trent green with front cover and spine writing in gold. Binding arrangements can be made through the School of Graduate Studies. A bound hardcopy maybe required by the program - please see your program for specific guidelines. Students have the option of having personal copies bound through the School of Graduate Studies. Fees for binding will be charged to the student account.

7. Intellectual property and copyright regulations

7.1 For information concerning intellectual property and copyright regulations, please refer to the "Guidelines for the use and ownership of intellectual property developed by graduate students at Trent University" found In the Policies and Procedures section of this academic calendar.

Notes

- Arrangements and expenses for producing the final dissertation copies are the responsibility of the student.
- Information and a detailed guide on the preparation of dissertations can be found on the graduate studies website: trentu.ca/graduatestudies

Language Requirement for Dissertation

Dissertations will be written and defended in English (or in French, subject to individual program's policy/ practice), unless the Dean of Graduate Studies, acting on the recommendation of the Director of the Graduate program involved, grants an exception to this rule. The Dean must take into account: a) the relevance of this language to the content of the dissertation, and b) the availability of Trent graduate faculty members fluent in the language (both verbal and written) who can supervise the dissertation, and c) the availability of External and Internal Examiners fluent in the language (both written and verbal) who can effectively participate in the dissertation examination. Application to defend in a language other than English or French must be submitted to the Dean of Graduate Studies by the Graduate Program Director at least one (1) year in advance of the proposed date of the dissertation defence. In any case, the Title and Abstract of the dissertation must also be provided in English.

Major Research Paper/Internship Streams

The Major Research Paper will be read and graded by the supervisor, and at least one second reader, selected from among Trent faculty members appointed to graduate programs. Individual programs may require additional readers and/or committee members, one of whom may be external to the university. The MRP will receive a numerical grade. Additional requirements vary across programs; for further details the students should consult individual Program Guidelines.

The Research Essay for the Internship will be read and graded by the supervisor and assigned a numerical grade, on the condition that a favourable Internship report has been received from the Internship Placement supervisor.

Rights & Responsibilities

- The University recognizes its responsibility to provide students with proper information. This Calendar, including all Calendar supplements, and course syllabuses constitute the only contracts between students and the University. It is incumbent upon students to be aware of and adhere to program regulations, requirements, and published deadlines. The University used best efforts, insofar as reasonably possible, to confirm the accuracy of this Calendar at the time it was published; however, the University retains the right, at its sole discretion and without notice, to revise or alter its curriculum, including but not limited to cancelling programs, in which case this Calendar may no longer be accurate. It is understood and agreed that the University will not be in any way liable or legally responsible for such inaccuracies.
- Every member of Trent University—faculty, staff, or student—has a right to freedom from discrimination in the University by another faculty, staff member, or student because of age, ancestry, citizenship, colour, creed, disability, ethnic origin, family status, gender identity/ expression, marital status, place of origin, race, record of offences (in employment only), sex and sexual orientation. (For details, please consult Trent's Policy on Discrimination and Harassment on the Trent University Centre for Human Rights, Equity & Accessibility web page.)
- Trent University recognizes its responsibility to those of its students, faculty, and staff with disabilities. The University undertakes to make reasonable accommodations to ensure access to its academic programs and physical facilities, short of undue hardship, while protecting the academic integrity of the University.
- Trent University residences and buildings are smoke-free.
- Trent University manages personal information of individuals in accordance with applicable legislation and University policies on the protection of personal privacy.

Protection of Personal Information

Notification of Collection, Use, and Disclosure of Personal Information

Students' personal information is collected, used, and disclosed by Trent University under the authority of Section 18(3)(c) of *The Trent University Act, 1962-63*.

Applicants and Prospective Students

Trent University may collect and use personal information from prospective students to communicate with them about University programs, process applications, determine eligibility for admission and student awards, administer surveys, research enrolment issues, and maintain related statistical data.

Current Students

Once admitted and enrolled in an academic program, a student's information is used by the University to deliver academic and administrative programs and services. This includes but is not limited to: recording academic progress, creating the permanent student record, providing financial aid, delivering student services, conducting program reviews/appraisals, and communicating with students regarding University business. Personal information may also be used by the University, its authorized agents, approved researchers, and/or the provincial and federal government for statistical research purposes.

Trent University is required to disclose personal information such as Ontario Education Numbers, student characteristics, and educational outcomes to the Ministry of Colleges and Universities under s.15 of the Ministry of Colleges and Universities Act, R.S.O. 1990, Chapter M.19, as amended. The Ministry collects this data for purposes such as planning, allocating, and administering public funding to colleges, universities, and other post-secondary educational and training institutions and to conduct research and analysis, including longitudinal studies, and statistical activities conducted by or on behalf of the ministry for purposes that relate to post-secondary education and training. Further information on how the Ministry of Colleges and Universities uses this personal information is available on the Ministry's website in both English and in French, or by writing to the Director, Post-secondary Finance and Information Management Branch, Post-secondary Education Division, 7th Floor, Mowat Block, 900 Bay Street, Toronto, ON M7A 1L2.

Students who hold a graduate teaching assistantship or other position covered by the Canadian Union of Public Employees (CUPE II) are, by nature of their employment, members of CUPE Local 3908. The University provides the names and trentu.ca email addresses of these students to CUPE for the purpose of communications related to the student's membership in the union.

The University may disclose limited and specific student information to its recognized student government associations (Trent Central Student Association, Trent Graduate Student Association, Trent Durham Student Association, and Trent-Fleming Nursing Students' Association) for the purposes of administering their membership programs, elections, and health plans. For student health benefit plans, the sponsoring association securely transfers the name, sex, date of birth, student number, and in some cases the trentu.ca email address, of eligible student members to its health benefits provider and carrier to enable them to establish eligibility, grant access to the benefits portal, and verify the identity of students enrolled in the health plan. The University may provide the names of college members to college cabinets for member identification purposes.

Where students are enrolled in collaborative academic programs, Trent University may be required to transfer personal information to another post-secondary institution. Wherever possible, students will be provided with a separate notice explaining any information-sharing required to jointly administer their program. Information relating to academic integrity misconduct (e.g., falsification of documents) may be shared with other post-secondary educational institutions. Select information may be shared with government funding agencies to process financial assistance applications, with collection agencies for outstanding accounts, and with contracted service providers acting on behalf of the University. Credit card information is transferred to an independent processing company in order to process payments.

To the extent permitted by the Ontario Freedom of Information and Protection of Privacy Act, personal information may be disclosed to law enforcement agencies. The University may also be required to contact an appropriate third party about a student in compassionate circumstances or in compelling circumstances affecting the health or safety of an individual or group.

Information regarding graduation and graduation awards is made public at the time of convocation. The name, year, and program of award winners may be shared with donors, and academic awards and scholarships may be celebrated within the University community.

Limited student personal information, including name, sex, date of birth, home address, email, and phone number of students registered at Trent University Durham GTA, is provided on a confidential basis to the City of Oshawa – Recreation & Culture Services for the sole purpose of confirming eligibility of, and managing registration for, athletics fitness membership under the terms and conditions of multi-year fitness membership agreement between the Trent Durham GTA Student Association (TDSA) and the Corporation of the City of Oshawa.

Alumni

Unless individuals have requested otherwise, the University may keep in touch with alumni for purposes that support the mission of the University, including surveys, institutional research, invitations to events, philanthropy, newsletters, and other information on programs and services.

From time to time, the University may enter into an agreement with a statistical research firm to conduct surveys on behalf of the University. These firms may contact groups of prospective students, current students, or alumni by email to request their participation in a survey. Participation is voluntary in all cases and individuals may choose not to be contacted further for survey purposes.

Questions on how student information is collected, used, or disclosed at Trent University, or special concerns/requests regarding the management of a student's personal information, may be directed to the University Registrar, Office of the Registrar, Blackburn Hall, Trent University, 1600 West Bank Drive, Peterborough, ON K9L 0G2, or email: registrar@trentu.ca

Notification of Use and Disclosure of Personal Information to Statistics Canada

Statistics Canada is the national statistical agency. As such, Statistics Canada carries out hundreds of surveys each year on a wide range of matters, including education.

It is essential to be able to follow students across time and institutions to understand, for example, the factors affecting enrolment demand at postsecondary institutions. The increased emphasis on accountability for public investment means that it is also important to understand 'outcomes'. In order to conduct such studies, Statistics Canada asks all colleges and universities to provide data on students and graduates. Institutions collect and provide to Statistics Canada, student identification information (student's name, student ID number, Social Insurance Number), student contact information (address and telephone number), student demographic characteristics, enrolment information, previous education, and labour force activity.

The federal Statistics Act provides the legal authority for Statistics Canada to obtain access to personal information held by educational institutions. The information may be used for statistical purposes only, and the confidentiality provisions of the Statistics Act prevent the information from being released in any way that would identify a student.

Students may contact Statistics Canada via e-mail if they have any questions: statcan.PSIS-SIEP.statcan@canada.ca.

Student Records Policies

Access to Student Record Policy

By applying for admission to Trent University and by registering in programs or courses at the University, students accept the University's right to collect pertinent personal and academic information. The information is used to assess their qualifications for admission, establish and update a record of their academic performance, determine their eligibility for awards and scholarships, determine government funding, and allow the University to undertake its obligations under *The Trent University Act, 1962-63*. For further information on the collection and use of this information, or if you have concerns about the collection and use of this information, please contact the University Registrar at registrar@trentu.ca.

All documentation provided to the University to support an application for admission, housing, financial awards, or any petition or appeal becomes the property of the University. The University Registrar, in the Office of the Registrar, is the custodian of all official academic records of all students who have been or are currently registered in academic programs at Trent University. The Office of the Registrar strives to ensure the security and privacy of personal information through the application of appropriate systems for access to that information, the development of procedures, and the education and training of staff and faculty to treat personal information in confidence.

Trent University's Principles on Access to Confidential Student Records and Disclosure of Information

The University will not disclose personal information it has collected except in the following circumstances:

1. the person has consented in writing to disclosure of specific information for a particular purpose;
2. the person has authorized in writing another individual to act on their behalf or participate in their affairs at the University;
3. the information is required by an authorized staff person in the course of their work;
4. to comply with legal requirements, including but not limited to, granting of access to Statistics Canada;
5. in compelling or compassionate circumstances, or as otherwise permitted under the *Freedom of Information and Protection of Privacy Act*.

The University will disclose information about students who have graduated, such as degree conferred, date, medals, and scholarships, as this information is printed in the convocation program. Whether a student is currently registered is not considered to be public information and may not be disclosed except as specified in the above Principles.

I. Disclosure to the student:

1. Students normally have the right to review the information contained in their student record, with the exception of confidential evaluations and letters of reference provided by a third party. Students who wish to review their student record must make an appointment with the University Registrar (or designate). Any student who is not satisfied with the access provided may make a formal request under the Freedom of Information and Protection of Privacy Act through the Access/Privacy Office.
2. Students may request that incorrect information in their records be corrected and that those who may have received incorrect information are notified of the change. Students seeking to correct their information may be asked to complete a formal access/correction request, available through the Access/Privacy Office.
3. Students have access to their electronic record through Self-Service in the myTrent portal. This includes biographic and academic information.
4. Documents submitted by or for the student in support of the application for admission or for transfer credit become the property of Trent University and will not be released or redirected. In rare instances, authorized by the University Registrar or designate, an original transcript may be released to the student and a copy retained on record with an explanation for this action.
5. Students with no outstanding financial obligations to the University may, upon written request and payment of a fee, obtain an official transcript of their academic record at the University. Transcripts will show scholarships, awards, and prizes granted, courses taken, grades achieved, academic status, and degrees conferred.
6. Students with outstanding financial obligations to the University will be denied access to information such as grades, official transcripts, and degree certificates, and will be unable to add or drop courses.

II. Disclosure to faculty and administrative officers of the University:

Faculty and administrative staff of the University who require access to student records in order to carry out their official duties are given access on a need-to-know basis.

III. Disclosure to parents, guardians, educational institutions, and agencies:

1. Requests for student record information received from another institution of learning or from other organizations will be permitted only with written authorization from the student; such authorization specifies the information to be provided (e.g., official transcript) and to whom the information is to be sent.
2. Student record information (including application, admission, and/or registration information) will not be released to a third party, such as a parent or guardian, without the student's written authorization.

IV. Disclosure to government agencies:

Student record information may be provided in the following instances:

1. in response to a court order, summons, or subpoena directing the University to release information;
2. to provide the Ministry of Colleges and Universities with enrolment reports;
3. to provide data to Statistics Canada for national surveys;
4. to provide data as required by professional licensing and certification bodies;
5. to provide information as allowed under access/privacy legislation.

V. Disclosure to student governments:

All registered students pay student association fees. The Trent Central Student Association, the College Cabinets, the Trent Durham Student Association (the "Associations"), and the Trent Graduate Student Association do, from time to time, require specific student record information for particular purposes. The Office of Student Affairs is authorized to provide the Associations with labels, lists, and/or e-mail addresses for the purposes of communicating with students or determining their eligibility for some services.

Aging Studies Subject Area

Website
Faculty

The Interdisciplinary Aging Studies program offers the following graduate degree program.

DEGREE PROGRAM

- Master of Arts (MA) in Interdisciplinary Aging Studies

GRADUATE PROGRAM OPPORTUNITIES

- Collaborative Specialization
    - Feminist & Gender Studies

Programs

MA.AGNG - Interdisciplinary Aging Studies - MA (Thesis)

Courses

AGNG5000H - Fdns in Interdisciplinary Aging Studies
AGNG5001Y - Seminar Interdisciplinary Aging Studies
AGNG5003H - Prof. Practice in Knowledge Mobilization
AGNG5900H - Reading Course

Ancient Greek & Roman Studies Subject Area

- Program Website
- Faculty & Research

The Ancient Greek & Roman Studies Program offers the following undergraduate degree programs and special program opportunities.

DEGREE PROGRAMS

- Bachelor of Arts (BA) in Ancient Greek & Roman Studies
    - single-major Honours program (Co-op available)
    - joint-major Honours program
    - single-major General program
    - joint-major General program

SPECIAL PROGRAM OPPORTUNITIES

- Co-op
- Minor in Ancient Greek & Roman Studies
- Option in Pre-modern Studies
- Specialization in Greek & Latin *(open only to students in the Ancient Greek & Roman Studies degree programs)*

Programs

BA.AGRS - Ancient Greek & Roman Studies - BA General
BAH.AGRS - Ancient Greek & Roman Studies - BA Honours
BAH.AGRS.COOP - Ancient Greek & Roman Studies - Co-op
MINR.AGRS - Ancient Greek & Roman Studies - Minor
OPTN.PMOD - Pre-modern Studies - Option
SPEC.GREK - Greek & Latin - Specialization

Courses

AGRS1030H - Archaeology 1: Accessing the Past
AGRS1100H - War in the Desert
AGRS1200H - The Trojan War: An Epic of Archaeology
AGRS1300H - Gods, Heroes, Monsters
AGRS1500H - Magic in Ancient Greece and Rome
AGRS2051H - Early Medieval Europe, 300-1050
AGRS2103H - Approaches to Ancient Historians
AGRS2201H - Introduction to Egyptian Archaeology from the Pharaohs to the Romans
AGRS2205H - Archaeology and Art History of Ancient Greece
AGRS2206H - Archaeology and Art History of Ancient Rome
AGRS2303H - Approaches to Ancient Literature
AGRS2340H - Ancient Epic
AGRS2420H - Ancient Philosophy 1: Pre-Socratics to Plato
AGRS2430H - Ancient Philosophy 2: Aristotle and the Hellenists
AGRS2510H - Olympians and Gladiators
AGRS2520H - Women in the Ancient World, 700 BCE-600 CE
AGRS2530H - Wonders of the Ancient World
AGRS2650H - Antiquity on Screen
AGRS2999H - Origins of Modern Terminology
AGRS3100H - The Athenian Empire
AGRS3103H - Ancient Warfare
AGRS3104H - The Environment in Ancient History
AGRS3130H - The Augustan Principate and Its Origins, 44 BCE-14 CE
AGRS3140H - The Greek States to the End of the Persian Wars
AGRS3155H - Current Topics in Ancient History
AGRS3171H - Alexander the Great and His Age
AGRS3181H - The Age of Constantine
AGRS3182H - The Age of Attila
AGRS3190H - Ancient Anatolia
AGRS3221H - State Religion in Ancient Greece & Rome
AGRS3222H - Mystery Cults and Restricted Rituals in the Ancient Mediterranean
AGRS3240H - Etruscan Archaeology, ca. 1000-200 BCE
AGRS3250H - Aegean Bronze Age Archaeology
AGRS3251H - The Archaeology of Ancient Athens
AGRS3255H - Current Topics in Mediterranean Archaeology
AGRS3275H - Cultural Identity and Ancient North Africa
AGRS3310H - Love, Sex, and Death in the Ancient World
AGRS3320H - Tragedy in the Ancient World
AGRS3330H - Comedy in the Ancient World
AGRS3351H - Fantasy and Adventure in the Ancient World
AGRS3355H - Current Topics in Ancient Literature
AGRS3540H - Mortuary Archaeology

Anthropology Subject Area

- Department Website
- Undergraduate Faculty & Research
- Graduate Department Website
- Graduate Faculty & Research

The Department of Anthropology offers the following undergraduate and graduate degree programs, and special program opportunities.

UNDERGRADUATE DEGREE PROGRAMS

- Bachelor of Arts (BA) in Anthropology
    - single-major Honours program (Co-op available)
    - joint-major Honours program
    - single-major General program
    - joint-major General program
- Bachelor of Science (BSc) in Anthropology
    - single-major Honours program (Co-op available)
    - joint-major Honours program
    - single-major General program
    - joint-major General program
- Bachelor of Arts (BA) in Archaeology
    - single-major Honours program (Co-op available)
    - joint-major Honours program
- Bachelor of Science (BSc) in Archaeology
    - single-major Honours program (Co-op available)
- Bachelor of Science (BSc) in Forensic Anthropology
    - single-major Honours program

GRADUATE DEGREE PROGRAMS

- Master of Arts (MA) in Anthropology
- Master of Science (MSc) in Anthropology

SPECIAL UNDERGRADUATE PROGRAM OPPORTUNITIES

- Co-op
- Minors
    - Anthropology
    - Archaeology
- Specializations *(open only to students in the Anthropology and Archaeology undergraduate degree programs)*
    - Bioarchaeology
    - Biological Anthropology
    - Environmental Archaeology
    - Mediterranean Archaeology

- Study Abroad Programs
    - Term Abroad – Bolivia
    - Year Abroad – Ghana
- Accelerated Master's program

DIPLOMA PROGRAM

- Graduate Diploma (G.Dip) in Anthropological Studies

GRADUATE PROGRAM OPPORTUNITIES

- Collaborative Specialization
    - Aging Studies
    - Feminist & Gender Studies

Programs

BA.ANTH - Anthropology - BA General
BAH.ANTH - Anthropology - BA Honours
BAH.ANTH.COOP - Anthropology - Co-op (BA)
BAH.ARCH - Archaeology - BA Honours
BAH.ARCH.COOP - Archaeology - Co-op (BA)
BS.ANTH - Anthropology - BSc General
BSH.ANTH - Anthropology - BSc Honours
BSH.ANTH.COOP - Anthropology - Co-op (BSc)
BSH.ARCH - Archaeology - BSc Honours
BSH.ARCH.COOP - Archaeology - Co-op (BSc)
BSH.FRAN - Forensic Anthropology - BSc Honours
MA.ANTH - Anthropology - MA (Thesis)
MINR.ANTH - Anthropology - Minor
MINR.ARCH - Archaeology - Minor
MS.ANTH - Anthropology - MSc (Thesis)
SPEC.BIAN - Biological Anthropology - Specialization

Applied Modelling & Quantitati Subject Area

Website
Faculty & Research

The Applied Modelling & Quantitative Methods program offers the following graduate degree programs.

DEGREE PROGRAMS

- Master of Arts (MA) in Applied Modelling & Quantitative Methods
- Master of Science (MSc) in Applied Modelling & Quantitative Methods
- Master of Science (MSc) in Applied Modelling & Quantitative Methods: Big Data Analytics
- Master of Science (MSc) in Applied Modelling & Quantitative Methods: Big Data Financial Analytics
- Master of Science (MSc) in Applied Modelling & Quantitative Methods: Data Science & Analytics

Programs

MA.AMOD - Applied Modelling & Quantitative Methods - MA (Thesis)
MS.AMOD - Applied Modelling & Quantitative Methods - MSc (Thesis)
MS.AMOD.DATA - Applied Modelling & Quantitative Methods: Big Data Analytics - MSc (Course Based)
MS.AMOD.DSCI - Applied Modelling & Quantitative Methods: Data Science & Analytics - MSc (Course Based)
MS.AMOD.FINA - Applied Modelling & Quantitative Methods: Big Data Financial Analytics - MSc (Course Based)

Courses

AMOD5210H - The Foundations of Modelling
AMOD5220H - Mathematical Aspects of Modelling
AMOD5230H - Computational Aspects of Modelling
AMOD5240H - Statistical Aspects of Modelling
AMOD5250H - Data Analytics With R
AMOD5260H - Info Literacy & Comm in Data Science
AMOD5310H - Reading Course
AMOD5320H - Reading Course
AMOD5330H - Reading Course
AMOD5410H - Big Data
AMOD5420H - High Performance Computing
AMOD5430H - Data Visualization
AMOD5440H - Data Mining
AMOD5450H - Intro. to Databases
AMOD5460H - Data Science With Python
AMOD5470H - Artificial Intelligence
AMOD5510H - Linear Programming
AMOD5520H - Mathematical Finance Modelling
AMOD5530H - Portfolio & Risk Management
AMOD5540H - Financial Econometrics
AMOD5550H - Numerical Methods
AMOD5560H - Financial Management
AMOD5570H - Quantamental Investing & AI
AMOD5610Y - Big Data Major Research Paper
AMOD5620Y - Big Data Financial Analytics Research
AMOD5630Y - Major Research Project
AMOD5640Y - Data Science and Analytics Practicum
AMOD5901H - 1st Seminar on Applications of Modelling
AMOD5902H - 2nd Seminar on Applications of Modelling
AMOD5903H - Project Seminar on Applications of Modelling

Artificial Intelligence Subject Area

The Artificial Intelligence Program offers the following undergraduate degree programs, special program opportunities, and postgraduate certificate programs.

DEGREE PROGRAMS

- Bachelor of Arts (BA) in Artificial Intelligence
    - single-major Honours program (Co-op available)
    - joint-major Honours program
- Bachelor of Science (BSc) in Artificial Intelligence
    - single-major Honours program (Co-op available)
    - joint-major Honours program

SPECIAL PROGRAM OPPORTUNITIES

- Co-op

POSTGRADUATE CERTIFICATE PROGRAMS

- Applied Artificial Intelligence
- Applied Artificial Intelligence & Financial Analytics
- Applied Artificial Intelligence & Information Technology
- Applied Artificial Intelligence & Software Development
- Artificial Intelligence & Data Analytics

Programs

BAH.AIST - Artificial Intelligence - BA Honours
BAH.AIST.COOP - Artificial Intelligence - Co-op (BA)
BSH.AIST - Artificial Intelligence - BSc Honours
BSH.AIST.COOP - Artificial Intelligence - Co-op (BSc)
CERT.AIDA - Artificial Intelligence & Data Analytics - Postgraduate Certificate
CERT.AIFA - Applied Artificial Intelligence & Financial Analytics - Postgraduate Certificate
CERT.AIIT - Applied Artificial Intelligence & Information Technology - Postgraduate Certificate
CERT.AIST - Applied Artificial Intelligence - Postgraduate Certificate
CERT.SDAI - Applied Artificial Intelligence & Software Development - Postgraduate Certificate

Courses

ADMN4430H - AI Innovations in Business
ADMN4445H - AI-Infused Leadership
AIST1000H - Introduction to Artificial Intelligence
AIST1400H - Introduction to Data Science
AIST2000H - Statistical Learning 1
AIST2010H - Statistical Learning 2
AIST2030H - Technology and Humanity
AIST3004H - Artificial Intelligence in Communication
AIST3030H - Anthropology of AI
AIST3270H - Philosophy of Artificial Intelligence

AIST3410H - Non-Classical Logic
AIST3550H - Applied Artificial Intelligence and Machine Learning
AIST3561H - Statistics 3: Advanced Statistics
AIST3570H - LLM and Natural Language Processing
AIST3653H - (Mis)adventures in AI: Decolonial Dreaming
AIST4258H - Governing Machines? Technology and Power in the Age of AI
AIST4270H - Ethics of Artificial Intelligence
AIST4400H - Data Mining
AIST4430H - AI Innovations in Business
AIST4445H - AI-Infused Leadership
AIST4550H - Artificial Intelligence
AIST4570H - Deep Learning
AIST4851H - AI in Information Systems
AIST3960H - Research Practicum in AI
ANTH2030H - Technology and Humanity
ANTH3030H - Anthropology of AI
COIS1000H - Introduction to Artificial Intelligence
COIS1400H - Introduction to Data Science
COIS3270H - Philosophy of Artificial Intelligence
COIS3410H - Non-Classical Logic
COIS3550H - Applied Artificial Intelligence and Machine Learning
COIS3570H - LLM and Natural Language Processing
COIS4400H - Data Mining
COIS4550H - Artificial Intelligence
COIS4570H - Deep Learning
COIS4851H - AI in Information Systems
COMM3004H - Artificial Intelligence in Communication
GESO3653H - (Mis)adventures in AI: Decolonial Dreaming
MATH3561H - Statistics 3: Advanced Statistics
MDST3653H - (Mis)adventures in AI: Decolonial Dreaming
PHIL3270H - Philosophy of Artificial Intelligence
PHIL3410H - Non-Classical Logic
PHIL4270H - Ethics of Artificial Intelligence
POST4258H - Governing Machines? Technology and Power in the Age of AI

Arts & Science Subject Area

- Program Website
- Faculty & Research

The Arts & Science Program offers the following undergraduate degree programs and special program opportunities.

DEGREE PROGRAMS

- Bachelor of Arts & Science (BAS)
    - Honours program (Co-op available)
    - General program

SPECIAL PROGRAM OPPORTUNITIES

- Co-op
- Trent/Swansea Dual Degree – Medical (BAS/BSc)

Programs

BAS.ASCI - Arts & Science - BAS Honours
BAS.ASCI.COOP - Arts & Science - Co-op
BASG.ASCI - Arts & Science - BAS General
BASG.MED - Arts & Science - BAS General - Swansea Medical
OPTN.LEGL - Legal Studies - Option
OPTN.PMED - Premedical Studies - Option

Courses

ASCI1001H - Arts and Science 1: Interdisciplinary Perspectives
ASCI1002H - Arts and Science 2: Theory and Practice Practice
ASCI2001H - Case Studies in Arts and Science
ASCI3001H - Arts and Science Colloquium
ASCI4020D - Honours Thesis
ASCI4900Y - Reading Course
ASCI4901H - Reading Course
COOP2000H - Foundations for Co-op Success
COOP2100P - Work Term 1
COOP3100P - Work Term 2
COOP4000H - Pathways for Career Success
COOP4100P - Work Term 3

Arts Management Subject Area

Website
Faculty

The Arts Management program offers the following graduate degree program.

DEGREE PROGRAM

- Master of Arts Management (M.AMgt.)

Programs

M.ARTM - Arts Management - M.ARTM (Co-op)

Courses

ARTM5000H - Core Issues in Contemporary Curation
ARTM5020H - Writing for Arts Organizations
ARTM5202H - Culture, Heritage & the Arts
ARTM5500H - Arts Management Practice
ARTM5702H - Arts Leadership in Canada
CAST6102H - Culture, Heritage & the Arts
CAST6702H - Arts Leadership in Canada
COOP5000H - Professional Foundations

CSID5702H - Arts Leadership in Canada
ENGL5202H - Culture, Heritage & the Arts
IDSR6000H - Core Issues in Contemporary Curation
IDSR6022H - Writing for Arts Organizations
IDSR6500H - Arts Management Practice

Bioenvironmt'l Monit. & Assess Subject Area

Website
Contact: bema@trentu.ca

The Bioenvironmental Monitoring & Assessment program offers the following graduate degree programs.

DEGREE PROGRAMS

- Master of Science (MSc) in Bioenvironmental Monitoring & Assessment
- Master of Bioenvironmental Monitoring & Assessment (M.BEMA)

DIPLOMA PROGRAM

- Graduate Diploma (G.Dip) in Bioenvironmental Monitoring & Assessment

Programs

GDIP.BEMA - Bioenvironmental Monitoring & Assessment - G.Dip (Course Based)
M.BEMA - Bioenvironmental Monitoring & Assessment - M.BEMA (Course Based)
MS.BEMA - Bioenvironmental Monitoring & Assessment - MSc (Thesis)

Courses

BEMA5000H - Principles of EMA I
BEMA5001H - Topics in EMA
BEMA5002H - Principles of EMA II
BEMA5003H - Data Analysis for Env Professionals
BEMA5004H - Communicating Science for Environmental
BEMA5005H - Geomatics I
BEMA5006H - Genome-based Envtl Monitoring
BEMA5007H - Geomatics II
BEMA5008H - Sampling Design in Envt'l Research
BEMA5009H - Environmental Policy
BEMA5010H - Landscape Ecology
BEMA5011H - Population Viability Analysis
BEMA5012H - Landscape Genetic Data Analy. w R
BEMA5013C - BEMA Placement
BEMA5014H - BEMA Capstone
BEMA5015H - Reading Course
BEMA5016H - Indigenous Knowledge, Science the Envt
SUST5004H - Communicating Science for Env. Profess.

Biology Subject Area

- Department Website
- Faculty & Research

The Department of Biology offers the following undergraduate degree programs and special program opportunities.

DEGREE PROGRAMS

- Bachelor of Science (BSc) in Biochemistry & Molecular Biology
    - single-major Honours program
    - single-major General program
- Bachelor of Science (BSc) in Biology
    - single-major Honours program
    - joint-major Honours program
    - single-major General program
    - joint-major General program
- Bachelor of Science (BSc) in Biomedical Science
    - single-major Honours program
- Bachelor of Science (BSc) in Conservation Biology
    - single-major Honours program (Co-op available)
- Bachelor of Science (BSc) in Forensic Biology
    - single-major Honours program

SPECIAL PROGRAM OPPORTUNITIES

- Co-op in Conservation Biology
- Minor in Biology
- Specializations
    - Conservation Biology *(open only to students in the Honours Biology degree programs)*
    - Health Sciences *(open only to students in the Honours Biology or Biochemistry & Molecular Biology degree programs)*
    - Natural History *(open only to students in the Honours Biology degree programs)*
- Accelerated Master's program in Environmental & Life Sciences

Programs

BS.BICE - Biochemistry & Molecular Biology - BSc General
BS.BIOL - Biology - BSc General
BSH.BICE - Biochemistry & Molecular Biology - BSc Honours
BSH.BIOC - Conservation Biology - BSc Honours
BSH.BIOC.COOP - Conservation Biology - BSc Honours
Co-op
BSH.BIOL - Biology - BSc Honours
BSH.BIOM - Biomedical Science - BSc Honours
BSH.FRBI - Forensic Biology - BSc Honours
MINR.BIOL - Biology - Minor
SPEC.CBIO - Conservation Biology - Specialization
SPEC.HLTH - Health Sciences - Specialization
SPEC.NATH - Natural History - Specialization

Courses

ANTH2470H - Primate Behaviour
ANTH2490H - Contemporary Human Variation and Evolution
ANTH3153H - Archaeological Science 2: Ancient Biomolecules
ANTH3404H - Human Osteology 1
ANTH3460H - Biocultural Explorations of the Human Life Course
BIOC2010H - Communicating Conservation Biology
BIOC4100H - Advanced Communicating Conservation Biology
BIOL1001H - Understanding Biology
BIOL1020H - Foundations of Biodiversity
BIOL1030H - Foundations of Cellular and Molecular Biology
BIOL1060H - Physics for the Life Sciences
BIOL1500H - Human Anatomy and Physiology 1
BIOL1501H - Human Anatomy and Physiology 2
BIOL2000H - Methods of Biological Inquiry
BIOL2001H - Field Methods
BIOL2050H - Introduction to Genetics
BIOL2070H - Cell Biology
BIOL2100H - Biology of Invertebrates
BIOL2260H - Introductory Ecology
BIOL2300H - Biochemical Concepts
BIOL2350H - Ecological Agriculture
BIOL2470H - Primate Behaviour
BIOL2490H - Contemporary Human Variation and Evolution
BIOL2600H - Evolution
BIOL2701H - Environmental Education: Biological Issues
BIOL2702H - Environmental Education: Fostering Stewardship and a Sustainable Future
BIOL3000H - Laboratory DNA Forensics
BIOL3040H - Histology
BIOL3050H - Limnology
BIOL3051H - River and Stream Biology
BIOL3080H - Molecular Biology
BIOL3090H - Biology of Insects
BIOL3111H - Comparative Vertebrate Anatomy
BIOL3120H - Infectious Disease Biology
BIOL3140H - Fish Ecology
BIOL3153H - Archaeological Science 2: Ancient Biomolecules
BIOL3170H - Plant Evolution and Diversity
BIOL3180H - Plants in Action
BIOL3190H - Wild Plants of Ontario
BIOL3200H - Fungi: Functions, Friends, Foes
BIOL3210H - Principles of the Nervous System
BIOL3220H - Neuropsycology
BIOL3240H - Agricultural Entomology
BIOL3250H - Microbiology
BIOL3260H - Applied Biomonitoring
BIOL3310H - Protein Chemistry and Enzymology
BIOL3320H - Metabolism
BIOL3330H - Forensic Entomology
BIOL3340H - Herpetology
BIOL3360H - Behavioural Ecology
BIOL3370H - Organic Agriculture: Principles and Practices
BIOL3380H - Advanced Ecology
BIOL3391H - Conservation Biology
BIOL3404H - Human Osteology 1
BIOL3460H - Biocultural Explorations of the Human Life Course
BIOL3510H - Astrobiology: Life in the Universe
BIOL3545H - Applied Plant Ecology
BIOL3600H - Ecological Genetics
BIOL3640H - Epidemiology
BIOL3660H - Critical Nutrition
BIOL3830H - Animal Physiology 1
BIOL3840H - Animal Physiology 2
BIOL3850H - Field Course
BIOL3851H - Field Course
BIOL3852H - Field Course
BIOL3853H - Field Course
BIOL3901H - Directed Research in Biological Sciences
BIOL3902H - Directed Research in Biological Sciences
BIOL4010Y - Research Thesis
BIOL4020D - Research Thesis
BIOL4030H - Research Design and Data Analysis
BIOL4040D - Project Course in Biochemistry (double credit)
BIOL4060H - The Geochemistry of Natural Waters
BIOL4070H - The Fate of Contaminants in the Aquatic Environment
BIOL4080H - Developmental Biology
BIOL4130H - Human Cell Biology
BIOL4140H - Ornithology
BIOL4160H - Immunology
BIOL4180H - Mammalogy
BIOL4230H - Mathematical Biology
BIOL4240H - Fisheries Assessment and Management
BIOL4250H - Cellular and Molecular Biology of Aging
BIOL4260H - Virology
BIOL4270H - Nutrient Cycling in Ecosystems
BIOL4300H - Bioinorganic Chemistry
BIOL4310H - Current Topics in Biochemistry
BIOL4320H - Pharmacology
BIOL4330H - Global Change of Aquatic Ecosystems
BIOL4340H - Biological Stoichiometry
BIOL4355H - Pathophysiology of Disease

BIOL4370H - The Gut Microbiome
BIOL4380H - Research and Methods in Gene Expression
BIOL4400Y - Placement in Conservation Biology
BIOL4410H - Urban Ecology
BIOL4500H - Population Dynamics
BIOL4510H - Species-at-Risk Biology and Policy
BIOL4520H - Biology of Invasions
BIOL4550H - One Health
BIOL4570H - Microbial Forensics
BIOL4600H - Advanced Topics in Forensic Biology
BIOL4610H - Evolutionary Ecology
BIOL4630H - Epigenetics
BIOL4800H - Bioinformatics
BIOL4830H - Environmental Physiology
BIOL4840H - Neuroendocrinology of Stress
BIOL4860H - Soil Biodiversity and Functioning
BIOL4890Y - Community-Based Research Project
BIOL4891H - Community Based Research Project
BIOL4900Y - Directed Research in Biological Sciences
CHEM2300H - Biochemical Concepts
CHEM3310H - Protein Chemistry and Enzymology
CHEM3320H - Metabolism
CHEM4040D - Double Credit Project Biochemistry
CHEM4300H - Bioinorganic Chemistry
CHEM4310H - Current Topics in Biochemistry
EDUC2701H - Environmental Education: Biological Issues
EDUC2702H - Environmental Education: Fostering Stewardship and a Sustainable Future
EGEO4060H - The Geochemistry of Natural Waters
EGEO4070H - The Fate of Contaminants in the Aquatic Environment
ERSC2260H - Introductory Ecology
ERSC2350H - Ecological Agriculture
ERSC2701H - Environmental Education: Biological Issues
ERSC2702H - Environmental Education: Fostering Stewardship and a Sustainable Future
ERSC3260H - Applied Biomonitoring

MATH4230H - Mathematical Biology
PHYS1060H - Physics for the Life Sciences
PHYS3510H - Astrobiology: Life in the Universe
PSYC3210H - Principles of the Nervous System
PSYC3220H - Neuropsychology
PSYC3360H - Behavioural Ecology
PSYC4840H - Neuroendocinology of Stress
SAFS2350H - Ecological Agriculture
SAFS3240H - Agricultural Entomology
SAFS3370H - Organic Agriculture: Principles and Practices
SAFS3545H - Applied Plant Ecology
SAFS4270H - Nutrient Cycling in Ecosystems
SAFS4860H - Soil Biodiversity and Functioning
WASC4060H - The Geochemistry of Natural Waters
WASC4070H - The Fate of Contaminants in the Aquatic Environment

Biomedical Science Subject Area

- Program Website
- Faculty & Research

The Department of Biology offers the following undergraduate degree program in Biomedical Science.

- Bachelor of Science (BSc) in Biomedical Science
    - single-major Honours program

Programs

BSH.BIOM - Biomedical Science - BSc Honours

Courses

BIOM1000H - Foundations in Biomedical Science
BIOM4450Y - Placement in Biomedical Science
BIOM4451H - Placement in Biomedical Science
BIOM4460H - Internship in Medical Sciences

Business Subject Area

- School Website
- Faculty & Research

The School of Business offers the following undergraduate degree programs, special program opportunities, and postgraduate certificate programs.

DEGREE PROGRAMS

- Bachelor of Arts (BA) in Accounting & Economics
    - single-major Honours program (Co-op available)
- Bachelor of Business Administration (BBA)
    - single-major Honours program (Co-op available)
    - single-major General program
- Bachelor of Arts (BA) in Business Administration
    - joint-major Honours program
- Bachelor of Science (BSc) in Business Administration
    - joint-major Honours program
- Bachelor of Science (BSc) in Financial Science
    - single-major Honours program (Co-op available)

SPECIAL PROGRAM OPPORTUNITIES

- Co-ops
    - Accounting
    - Accounting & Economics
    - Business *(including marketing, human resources, finance, administration, etc.)*
- Minor
    - Business Administration

- Option
    - Marketing
- Specializations *(open only to students in the Honours Business Administration degree programs - BBA or joint-major BA/BSc)*
    - Accounting
    - Economics
    - Entrepreneurship
    - Ethics & Sustainability
    - Finance
    - Global Innovation, Entrepreneurship & Social Change
    - Human Resource Management
    - Information Systems & e-Commerce
    - Logistics & Supply Chain Management
    - Marketing & Consumer Culture
    - Niigaaniiwin – The Art of Leading
- Trent/Swansea Dual Degree
    - Law & Business (BBA/LLB)

POSTGRADUATE CERTIFICATE PROGRAMS

- Accounting
- Accounting & Computer Science
- Digital Marketing
- E-Commerce
- Human Resource Management
- Logistics and E-Commerce

Programs

BAH.ACEC - Accounting & Economics - BA Honours
BAH.ACEC.COOP - Accounting & Economics - Co-op
BAH.ADMN - Business Administration - BA Honours
BBA.ADMN - Business Administration - BBA Honours
BBA.ADMN.ACCT.COOP - Business Administration - Co-op (Accounting)
BBA.ADMN.COOP - Business Administration - Co-op (Business)
BBA.ADMN.SWAN - Business Administration - BBA Honours - Swansea Law
BBAG.ADMN - Business Administration - BBA General
BSH.ADMN - Business Administration - BSc Honours
BSH.FINA - Financial Science - BSc Honours
BSH.FINA.COOP - Financial Science - Co-op
CERT.ACCS - Accounting & Computer Science - Postgraduate Certificate
CERT.ACCT - Accounting - Postgraduate Certificate
CERT.DGMK - Digital Marketing - Postgraduate Certificate
CERT.ECOM - E-Commerce - Postgraduate Certificate
CERT.HRM - Human Resource Management - Postgraduate Certificate
CERT.LSEC - Logistics and E-Commerce - Postgraduate Certificate
MINR.ADMN - Business Administration - Minor
OPTN.MARK - Marketing - Option
SPEC.ACCT - Accounting - Specialization
SPEC.ECON - Economics - Specialization
SPEC.ENTR - Entrepreneurship - Specialization
SPEC.ETSU - Ethics & Sustainability - Specialization
SPEC.FINA - Finance - Specialization
SPEC.GIESC - Global Innovation, Entrepreneurship & Social Change - Specialization
SPEC.HRM - Human Resource Management - Specialization
SPEC.INFC - Information Systems & e-Commerce - Specialization
SPEC.LSCM - Logistics & Supply Chain Management - Specialization
SPEC.MRCC - Marketing & Consumer Culture - Specialization
SPEC.NIIG - Niigaaniiwin - The Art of Leading - Specialization

Courses

ADMN1000H - Contemporary Issues in Management and Organization
ADMN1030H - Globalization, Transnational Corporations, and Global Development
ADMN1221H - Financial Accounting
ADMN1250H - Introduction to Mathematics for Economics and Management
ADMN1500H - Foundations of Indigenous Community Development
ADMN1510H - Foundations of Indigenous Community Economic Development
ADMN1620H - Introduction to Information Systems
ADMN2030H - Social Entrepreneurship and Innovation in the Global South
ADMN2080H - Managerial and Market Research
ADMN2100H - Introduction to Marketing
ADMN2200H - Introduction to Statistics for Economics and Management
ADMN2220H - Organizational Behaviour
ADMN2221H - Fundamentals of Managerial Accounting
ADMN2230H - Human Resource Management
ADMN2340H - Work and Social Inequalities
ADMN2410H - Communication in Organizations
ADMN2510H - Organization Theory
ADMN2600H - Applied Quantitative Analysis for Business
ADMN2610H - Personal Finance

Canadian & Indigenous Studies Subject Area

Website
Faculty

The Canadian Studies & Indigenous Studies program offers the following graduate degree program.

DEGREE PROGRAM

- Master of Arts (MA) in Canadian Studies & Indigenous Studies

GRADUATE PROGRAM OPPORTUNITIES

- Collaborative Specialization
  - Aging Studies
  - Feminist & Gender Studies

Programs

MA.CSID.COUR - Canadian Studies & Indigenous Studies - MA (Major Research Paper)
MA.CSID.THES - Canadian Studies & Indigenous Studies - MA (Thesis)

Courses

ARTM5202H - Culture, Heritage & the Arts
ARTM5702H - Arts Leadership in Canada
CAST6102H - Culture, Heritage & the Arts
CAST6171H - Indigenous Settler Relations
CAST6201H - Environment & Place
CAST6210H - Perspectives on the Canadian North
CAST6301H - Policy, Economy & the State
CAST6400H - Law and Policy in Canadian Postsecondary Education
CAST6401H - Identities & Social Movements
CAST6501H - Feminist, Gender & Women's Studies
CAST6550H - Environmental Policy Analysis
CAST6702H - Arts Leadership in Canada
CAST6801H - Aging, Health and Society
CSID5000Y - Core Colloquium
CSID5002H - Research Methods
CSID5101H - Graduate Seminar in Indigenous Thought
CSID5171H - Indigenous Settler Relations
CSID5200H - Sustainable Rural Communities
CSID5202H - Culture, Heritage & the Arts
CSID5210H - Perspectives on the Canadian North
CSID5301H - Policy, Economy & the State
CSID5305H - Community-Based Participatory Research
CSID5400H - Law and Policy in Canadian Postsecondary Education
CSID5401H - Environment & Place
CSID5452H - Trust and Leadership in Parliament
CSID5501H - Identities & Social Movements
CSID5550H - Environmental Policy Analysis
CSID5626H - Harvesting Indigenous Language
CSID5627H - Living & Learning Anishinaabe
CSID5701H - Feminist, Gender & Women's Studies
CSID5702H - Arts Leadership in Canada
CSID5800Y - Major Research Paper
CSID5801H - Aging, Health and Society

Canadian Studies Subject Area

- Undergraduate Website
- Graduate Website
- Undergraduate Faculty & Research
- Graduate Faculty

The School for the Study of Canada / École d'études canadiennes offers the following undergraduate and graduate degree programs, and special program opportunities in Canadian Studies.

UNDERGRADUATE DEGREE PROGRAMS

- Bachelor of Arts (BA) in Canadian Studies
    - single-major Honours program (Co-op available)
    - joint-major Honours program
    - single-major General program
    - joint-major General program
- Bachelor of Arts (BA) in French & Canadian Studies
    - single-major Honours program

GRADUATE DEGREE PROGRAMS

- Master of Arts (MA) in Canadian Studies & Indigenous Studies
- Doctor of Philosophy (PhD) in Canadian Studies

UNDERGRADUATE SPECIAL PROGRAM OPPORTUNITIES

- Co-op in Canadian Studies
- Diploma in Canadian Studies
- Minor in Canadian Studies
- Trent/Swansea Dual Degree in Law & Arts (BA/LLB)
- Accelerated Master's Program

GRADUATE SPECIAL PROGRAM OPPORTUNITIES

- Collaborative Specialization
    - Aging Studies

- Feminist & Gender Studies

Programs

BA.CAST - Canadian Studies - BA General
BAH.CAST - Canadian Studies - BA Honours
BAH.CAST.COOP - Canadian Studies - Co-op
BAH.CAST.SWAN - Canadian Studies - BA Honours - Swansea Law
BAH.FCST - French & Canadian Studies - BA Honours
CSD - Canadian Studies - Diploma
MINR.CAST - Canadian Studies - Minor
PHD.CAST - Canadian Studies - PhD

Courses

ADMN3390H - Creating Modern Capitalism: Cases in Global and Canadian Perspective
ADMN3760H - The Geography of Beer

SOCI3740H - The Politics of Legal Rights, Criminal Law, and the Canadian Judicial Process
SOCI3860H - Gender, Race, and Class
SOCI3962H - Gender, Sexualities, and the Law
SOCI3966H - Criminalizing Women
SOCI4252H - Refugees, Forced Migration, and Experience in the Canadian Context
SOCI4551H - Gender and Disability in Canada

SUST5171H - Indigenous Settler Relations
SUST5210H - Perspectives on the Canadian North
SUST5401H - Environment & Place
SUST5550H - Environmental Policy Analysis
SUST5701H - Feminist, Gender & Women's Studies
SUST5801H - Aging, Health and Society
WASC3120H - Canadian Environmental Policy

Chemistry Subject Area

- Department Website
- Faculty & Research

The Department of Chemistry offers the following undergraduate degree programs and special program opportunities.

DEGREE PROGRAMS

- Bachelor of Science (BSc) in Biochemistry & Molecular Biology
    - single-major Honours program (Co-op available)
    - single-major General program
- Bachelor of Science (BSc) in Chemical Physics
    - single-major Honours program
    - single-major General program
- Bachelor of Science (BSc) in Chemistry
    - single-major Honours program
    - joint-major Honours program
    - single-major General program
    - joint-major General program
- Bachelor of Science (BSc) in Environmental Chemistry
    - single-major Honours program
    - single-major General program
- Bachelor of Science (BSc) in Forensic Chemistry
    - single-major Honours program

SPECIAL PROGRAM OPPORTUNITIES

- Co-op
- Minor in Chemistry
- Specialization in Health Sciences *(open only to students in the Honours Biochemistry & Molecular Biology or Biology programs)*
- Trent/Swansea Dual Degree in Chemical Engineering (BSc/BEng)
- Accelerated Master's program

Programs

BS.BICE - Biochemistry & Molecular Biology - BSc General
BS.CEPY - Chemical Physics - BSc General
BS.CHEM - Chemistry - BSc General
BS.CHEM.SWAN - Chemistry - BSc General - Swansea
Chemical Engineering
BS.ERCE - Environmental Chemistry - BSc General
BSH.BICE - Biochemistry & Molecular Biology - BSc Honours
BSH.CEPY - Chemical Physics - BSc Honours
BSH.CHEM - Chemistry - BSc Honours
BSH.CHEM.COOP - Chemistry - Co-op
BSH.ERCE - Environmental Chemistry - BSc Honours
BSH.ERCE.COOP - Environmental Chemistry - Co-op

BSH.FRCH - Forensic Chemistry - BSc Honours
BSH.FRCH.COOP - Forensic Chemistry - Co-op
MINR.CHEM - Chemistry - Minor

Courses

BIOL2300H - Biochemical Concepts
BIOL3310H - Protein Chemistry and Enzymology
BIOL3320H - Metabolism
BIOL4040D - Project Course in Biochemistry (double credit)
BIOL4300H - Bioinorganic Chemistry
BIOL4310H - Current Topics in Biochemistry
CHEM1000H - Introductory Chemistry I
CHEM1010H - Introductory Chemistry II
CHEM2100H - Introductory Organic Chemistry 1
CHEM2110H - Introductory Organic Chemistry 2
CHEM2200H - Transition Metal Chemistry
CHEM2300H - Biochemical Concepts
CHEM2410H - Introductory Analytical Chemistry 1
CHEM2420H - Introductory Analytical Chemistry 2
CHEM2500H - Quantum Chemistry
CHEM2620H - Environmental Chemistry
CHEM2810H - Chemical Process Analysis and Design
CHEM3102H - Advanced Synthetic Organic Chemistry
CHEM3110H - Advanced Synthetic Organic Chemistry: Biological Applications
CHEM3120H - Computational Chemistry
CHEM3200H - Chemistry of the Main-Group Elements
CHEM3310H - Protein Chemistry and Enzymology
CHEM3320H - Metabolism
CHEM3400H - Chromatography
CHEM3410H - Methods of Spectral Analysis
CHEM3520H - Thermodynamics
CHEM3610H - Chemical Limnology and Oceanography
CHEM4010Y - Project Course in Chemistry
CHEM4011H - Project Course in Chemistry
CHEM4012H - Project Course in Chemistry
CHEM4020D - Project Course in Chemistry (double credit)
CHEM4030Y - Project Course in Biochemistry
CHEM4031H - Project Course in Biochemistry
CHEM4032H - Project Course in Biochemistry
CHEM4040D - Double Credit Project Biochemistry
CHEM4110H - Medicine and Chemistry: the Design, Synthesis, and Analysis of Drugs
CHEM4130H - Applications of NMR Spectroscopy
CHEM4140H - Polymeric Materials
CHEM4150H - Green Chemistry and Sustainable Synthesis
CHEM4200H - Organometallic Chemistry
CHEM4220H - Inorganic Materials
CHEM4300H - Bioinorganic Chemistry
CHEM4310H - Current Topics in Biochemistry
CHEM4400H - Mass Spectrometry
CHEM4410H - Fundamentals and Applications of ICP-MS
CHEM4422H - Other Analytical Methods
CHEM4500H - Photochemistry
CHEM4515H - Chemical Thermodynamics and Reaction Kinetics
CHEM4530H - Principles of Electrochemistry
CHEM4710H - Molecules of Murder
CHEM4900Y - Reading Course
CHEM4901H - Reading Course
CHEM4902H - Reading Course
ERSC2620H - Environmental Chemistry
ERSC3400H - Chromatography
ERSC3410H - Methods of Spectral Analysis
ERSC3610H - Chemical Limnology and Oceanography
ERSC4410H - Fundamentals and Applications of ICP-MS
FRSC3400H - Chromatography
FRSC3410H - Methods of Spectral Analysis
FRSC4710H - Molecules of Murder
ICAN5002H - Advanced Analytical Seperation Technique
ICAN5111H - Instrumental Chemical Alalysis
ICAN5130H - Sample Preparation
ICAN5131H - ICP-MS and LC-MS-MS
ICAN5132H - Overview of Other Analytical Methods
ICAN5300H - Reading Course

Child & Youth Studies Subject Area

Department Website

The Department of Child & Youth Studies offers the following undergraduate degree programs and special program opportunities.

DEGREE PROGRAMS

- Bachelor of Arts (BA) in Child & Youth Studies
  - single-major Honours program (Co-op available)
  - joint-major Honours program
  - single-major General program

SPECIAL PROGRAM OPPORTUNITIES

- Minor in Child & Youth Studies

Programs

BA.CHYS - Child & Youth Studies - BA General
BAH.CHYS - Child & Youth Studies - BA Honours
MINR.CHYS - Child & Youth Studies - Minor

Courses

CHYS1000H - Introduction to Child and Youth Studies
CHYS1001H - Child & Youth: Identity Theory & Voice Studies
CHYS1002H - The Significance of Play in the Lives of Children and Youth
CHYS2001H - Child and Youth Rights and Legal Issues
CHYS2003H - Children: Learning Through the Arts
CHYS2004H - Children and Youth's Perceptions of and Experiences With Legalized Substances
CHYS2005H - Child and Adolescent Development
CHYS2006H - Indigenous Knowledge for Children and Youth
CHYS2007H - Children and Youth's Residential Services: Continuum of Care
CHYS2010H - Introduction to Research Methods
CHYS2020H - Applications of Quantitative Research Methods and Statistics
CHYS3001H - Case Studies of Professional Ethics and Risk Management
CHYS3002H - Playful Contexts of Children, Youth, and Learning
CHYS3003H - Arts: Theory to Practice
CHYS3004H - Equity and Identity in the Lives of Children and Youth
CHYS3006H - Métis Child & Youth Well-Being Through Culture and Identity
CHYS3007H - Children's Knowledge of Death, Dying, and Bereavement
CHYS3008H - Young Canadians: Exploring the Lives of Immigrant and Refugee Children and Youth
CHYS3009H - Policy and Participation for Children and Youth
CHYS3010H - Global Child Rights
CHYS3011H - Infant and Toddler Development
CHYS3880H - Career Development Through Community Service Learning
CHYS3881H - Career Development Through Community Service Learning
CHYS3900H - Reading Course
CHYS3905H - Research Practicum
CHYS3906H - Research Practicum
CHYS4000H - Contemporary Issues in Child & Youth Studies
CHYS4001H - Youth Offending and Youth Justice
CHYS4003H - Inclusion and Diversity in Children and Youth
CHYS4004H - Pathways to Wellness (Mino Bimaadsiwin) with Indigenous Children and Youth
CHYS4006H - Health Inequalities Among Children and Youth
CHYS4007H - Rights Based Community Engagement With Children and Youth
CHYS4008H - Foundations of Counselling and Communication Skills
CHYS4010Y - Independent Honours Thesis
CHYS4020D - Independent Honours Thesis
CHYS4800Y - Independent Research Studies
CHYS4880H - Placement - Field Based Learning

CHYS4881H - Placement - Field Based Learning
CHYS4882Y - Placement - Field Based Learning
CHYS4900H - Reading Course in Child & Youth Studies
CHYS4905H - Research Practicum
CHYS4906H - Research Practicum
COMM2010H - Introduction to Research Methods
INDG2006H - Indigenous Knowledge for Children and Youth
INDG3006H - Métis Child & Youth Well-Being Through Culture and Identity
SWRK2007H - Children and Youth's Residential Services: Continuum of Care

Communications Subject Area

Program Website

The Communications Program offers the following undergraduate degree programs, special program opportunities, and postgraduate certificate programs.

DEGREE PROGRAMS

- Bachelor of Arts (BA) in Communications
    - single-major Honours program (Co-op available)
    - joint-major Honours program
    - single-major General program
    - joint-major General program

SPECIAL PROGRAM OPPORTUNITIES

- Co-op
- Minor in Communications
- Options
    - Climate Communication
    - Communications
- Specializations *(open only to students in the Honours Communications degree programs)*
    - Business Communication
    - Public Relations
- Trent/Swansea Dual Degree in Law & Arts (BA/LLB)

POSTGRADUATE CERTIFICATE PROGRAMS

- Digital Marketing

Programs

BA.COMM - Communications - BA General
BAH.COMM - Communications - BA Honours
BAH.COMM.COOP - Communications - Co-op
BAH.COMM.SWAN - Communications - BA Honours - Swansea Law
CERT.DGMK - Digital Marketing - Postgraduate Certificate
MINR.COMM - Communications - Minor
OPTN.CCTH - Communications - Option
OPTN.CLCM - Climate Communication - Option
SPEC.BCOMM - Business Communication - Specialization

SPEC.PBRL - Public Relations - Specialization

Courses

ADMN3001H - Event Management
AIST3004H - Artificial Intelligence in Communication
CAST3094H - Public Leadership in Action
CHYS2010H - Introduction to Research Methods
COMM1000H - Introduction to Communications
COMM1001H - Introduction to Public Speaking
COMM2001H - Communication Theory
COMM2002H - Foundations of Public Relations
COMM2003H - Becoming Digital: Reading, Writing, and Creating
COMM2005H - Writing for the Communications Industry
COMM2006H - Broadcast Journalism
COMM2007H - Research and Interviewing for Journalism
COMM2008H - Communications for Environmental and Social Change
COMM2010H - Introduction to Research Methods
COMM3000Y - Communications Capstone
COMM3001H - Event Management
COMM3002H - Media Relations
COMM3003H - Digital Storytelling
COMM3004H - Artificial Intelligence in Communication
COMM3005H - Social Media Management
COMM3006H - Environmental Journalism
COMM3094H - Public Leadership in Action
COMM3501H - Environment and Communication: Oral and Visual Presentation
COMM3502H - Climate and Environmental Communications
COMM3700H - Advanced Topics in Communications
COMM3701H - Advanced Topics in Communications
COMM3702H - Advanced Topics in Communications
COMM4000Y - Communications Capstone
COMM4001H - Crisis Communication
COMM4800Y - Communications Field Placement
COMM4801H - Communications Internship
COMM4901H - Directed Reading Course
ERST3006H - Environmental Journalism
ERST3501H - Environment and Communication: Oral and Visual Presentation
ERST3502H - Climate and Environmental Communications

Computer Science Subject Area

- Department Website
- Faculty & Research

The Department of Computer Science offers the following undergraduate degree programs, special program opportunities, and postgraduate certificate programs.

DEGREE PROGRAMS

- Bachelor of Science (BSc) in Computer Science
    - single-major Honours program (Co-op available)
    - joint-major Honours program
    - single-major General program
- Bachelor of Science (BSc) in Computer Science & Physics
    - single-major Honours program
- Bachelor of Arts (BA) in Computing Systems
    - joint-major Honours program
    - single-major General program
- Bachelor of Science (BSc) in Data Science
    - single-major Honours program
- Bachelor of Arts (BA) in Information Systems
    - joint-major Honours program
    - joint-major General program
- Bachelor of Science (BSc) in Information Systems
    - joint-major Honours program
    - joint-major General program
- Bachelor of Science (BSc) in Software Engineering
    - single-major Honours program (Co-op)
- Master of Science (MSc) in Computer Science

SPECIAL PROGRAM OPPORTUNITIES

- Co-ops
    - Computer Science
    - Software Engineering
- Minors
    - Computer Science
    - Computer Studies
    - Data Analytics
    - Information Systems
- Specializations *(open only to students in the single-major Honours Computer Science program)*
    - Data Analytics
    - Software Engineering
    - Theoretical Computer Science

POSTGRADUATE CERTIFICATE PROGRAMS

- Accounting & Computer Science
- Applied Artificial Intelligence & Information Technology
- Applied Artificial Intelligence & Software Development
- Artificial Intelligence & Data Analytics
- E-Commerce
- Logistics and E-Commerce

Programs

BA.COIS - Computing Systems - BA General
BA.INFO - Information Systems - BA General
BAH.COIS - Computing Systems - BA Honours
BAH.INFO - Information Systems - BA Honours
BS.COIS - Computer Science - BSc General
BS.INFO - Information Systems - BSc General
BSH.COIS - Computer Science - BSc Honours
BSH.COIS.COOP - Computer Science - Co-op
BSH.COPH - Computer Science & Physics - BSc Honours
BSH.DATA - Data Science - BSc Honours
BSH.INFO - Information Systems - BSc Honours
BSH.SOEN.COOP - Software Engineering - BSc Honours Co-op
CERT.ACCS - Accounting & Computer Science - Postgraduate Certificate
CERT.ECOM - E-Commerce - Postgraduate Certificate
CERT.LSEC - Logistics and E-Commerce - Postgraduate Certificate
MINR.COIS - Computer Science - Minor
MINR.COST - Computer Studies - Minor
MINR.DATA - Data Analytics - Minor
MINR.INFO - Information Systems - Minor
MS.COIS - Computer Science - MSc (Thesis)
SPEC.COSC - Theoretical Computer Science - Specialization
SPEC.DATA - Data Analytics - Specialization
SPEC.SENG - Software Engineering - Specialization

Courses

ADMN1620H - Introduction to Information Systems
ADMN2620H - Systems Analysis and Design
ADMN3750H - Principles of Online Marketing
ADMN3850H - Fundamentals of Project Management
AIST1000H - Introduction to Artificial Intelligence
AIST1400H - Introduction to Data Science
AIST3270H - Philosophy of Artificial Intelligence
AIST3410H - Non-Classical Logic
AIST3550H - Applied Artificial Intelligence and Machine Learning
AIST3570H - LLM and Natural Language Processing
AIST4400H - Data Mining
AIST4550H - Artificial Intelligence
AIST4570H - Deep Learning
AIST4851H - AI in Information Systems

Criminology Subject Area

- Program Website
- Faculty & Research

The Department of Sociology offers the following undergraduate degree program and special program opportunities in Criminology.

DEGREE PROGRAM

- Bachelor of Arts (BA) in Criminology
    - single-major Honours program (Co-op available)

SPECIAL PROGRAM OPPORTUNITIES

- Co-op
- Minor in Criminology
- Trent/Swansea Dual Degree in Law & Arts (BA/LLB)

Programs

BAH.CRIM - Criminology - BA Honours
BAH.CRIM.COOP - Criminology - Co-op
BAH.CRIM.SWAN - Criminology - BA Honours - Swansea Law
MINR.CRIM - Criminology - Minor

Courses

CAST3091H - Law and Constitutional Issues
CAST3092H - Law and the Charter of Rights & Freedoms
CAST3422H - Dimensions of Poverty
CAST3740H - The Politics of Legal Rights, Criminal Law, and the Canadian Judicial Process
CAST3962H - Gender, Sexualities, and the Law
CAST3966H - Criminalizing Women
CRIM1615H - Introduction to Criminology
CRIM2001H - Restorative Justice
CRIM2005H - Law, Violence, and Transitional Justice
CRIM2010H - Conflict Resolution
CRIM2011H - Wrongful Convictions
CRIM2616H - Monsters and Misfits: History of Criminological Theories
CRIM2617H - Criminology Research Methods
CRIM2618H - Responding to Violence
CRIM2619H - Families of Prisoners
CRIM3002H - Mental Health and Addictions in the Community
CRIM3010H - Policing Youth Crime and Justice
CRIM3091H - Law and Constitutional Issues
CRIM3092H - Law and the Charter of Rights & Freedoms
CRIM3115H - Citizenship Rights and Development
CRIM3121H - Human Rights: Law and Institutions
CRIM3250H - Understanding Homelessness
CRIM3420H - Perspectives on Poverty and Protest
CRIM3422H - Dimensions of Poverty
CRIM3600H - Criminalizing the Colonized
CRIM3617H - Criminological Data Analysis
CRIM3625H - Gender-Based Violence: Reactions, Responses, and Responsibilities
CRIM3640H - The Politics of Incarceration
CRIM3650H - Doing Crime and Doing Time: Advanced Research Design
CRIM3660H - Policing and Punishing Poverty
CRIM3740H - The Politics of Legal Rights, Criminal Law, and the Canadian Judicial Process
CRIM3962H - Gender, Sexualities, and the Law
CRIM3965H - Gender-Based Violence: Issues, Impacts, and Resistance
CRIM3966H - Criminalizing Women
CRIM4002H - Prisons and Punishment
CRIM4007H - Policing and Controlling Drugs in Canada
CRIM4009H - Surveillance and Technology Studies
CRIM4100H - The Politics of Crime Prevention
CRIM4110H - Legal Research Methods
CRIM4220H - Deconstructing the "Ideal Victim"
CRIM4230H - Selected Topics in Criminology

CRIM4240Y - Applied Criminology Virtual Practicum
CRIM4270H - Sociology of Law
CRIM4950H - Special Topic: Criminology Field Placement
CRIM4951H - International Comparative Criminology
FRSC4220H - Deconstructing the "Ideal Victim"
GDST2005H - Law, Violence, and Transitional Justice
GDST3115H - Citizenship Rights and Development
GDST3121H - Human Rights: Law and Institutions
GESO3625H - Gender-Based Violence: Reactions, Responses, and Responsibilities
GESO3962H - Gender, Sexualities, and the Law
GESO3965H - Gender-Based Violence: Issues, Impacts, and Resistance
GESO3966H - Criminalizing Women
HURI2005H - Law, Violence, and Transitional Justice
HURI3115H - Citizenship Rights and Development
HURI3121H - Human Rights: Law and Institutions
HURI3740H - The Politics of Legal Rights, Criminal Law, and the Canadian Judicial Process
INDG3600H - Criminalizing the Colonized
PHIL2618H - Responding to Violence
PLCW2001H - Restorative Justice
PLCW2010H - Conflict Resolution
PLCW2011H - Wrongful Convictions
PLCW3002H - Mental Health and Addictions in the Community
PLCW3010H - Policing Youth Crime and Justice

Culture, Arts, and Media Subject Area

- Department Website
- Graduate Website
- Faculty & Research

The Department of Culture, Arts, and Media offers the following undergraduate and graduate degree programs, and special program opportunities.

UNDERGRADUATE DEGREE PROGRAMS

- Bachelor of Arts (BA) in Cultural Studies
    - single-major Honours program (Co-op available)
    - joint-major Honours program
    - single-major General program
    - joint-major General program
- Bachelor of Arts (BA) in Media Studies
    - single-major Honours program (Co-op available)
    - joint-major Honours program
    - single-major General program
    - joint-major General program

GRADUATE DEGREE PROGRAMS

- Master of Arts (MA) in Cultural Studies
- Doctor of Philosophy (PhD) in Cultural Studies

SPECIAL UNDERGRADUATE PROGRAM OPPORTUNITIES

- Co-op
- Minors
    - Cultural Studies
    - Media Studies
- Options
    - Theatre Studies
    - Visual Arts
- Specializations *(open only to students in the undergraduate Cultural Studies degree programs)*
    - Criticism & Theory
    - Film, Literature & Narrative
    - Integrated Arts
- Trent/Swansea Dual Degree in Law & Arts (BA/LLB)
- Accelerated Master's program

GRADUATE PROGRAM OPPORTUNITIES

- Collaborative Specialization
    - Aging Studies
    - Feminist & Gender Studies

Programs

BA.CUST - Cultural Studies - BA General
BA.MDST - Media Studies - BA General
BAH.CUST - Cultural Studies - BA Honours
BAH.CUST.COOP - Cultural Studies - Co-op
BAH.CUST.SWAN - Cultural Studies - BA Honours - Swansea Law
BAH.MDST - Media Studies - BA Honours
BAH.MDST.COOP - Media Studies - Co-op
MA.CUST.COUR - Cultural Studies - MA (Major Research Paper)
MA.CUST.THES - Cultural Studies - MA (Thesis)
MINR.CUST - Cultural Studies - Minor
MINR.MDST - Media Studies - Minor
OPTN.THEA - Theatre Studies - Option
OPTN.VISAR - Visual Arts - Option
PHD.CUST - Cultural Studies - PhD
SPEC.CRIT - Criticism & Theory - Specialization
SPEC.FLMM - Film & Media - Specialization
SPEC.FLNT - Film, Literature & Narrative - Specialization
SPEC.INAR - Integrated Arts - Specialization

Courses

AGRS2650H - Antiquity on Screen
ANTH3748H - Anthropology of Animation
CAST3031H - TV Guide: Television in Canada
CAST4227H - Le fantastique Québécois et franco-canadienne / Quebecois and Franco-Canadian Fantastic
CAST4228H - Science-Fiction Quebecoise Et franco-canadienne / Quebecois and Franco-Canadian Science Fiction
CAST6201H - Environment & Place
CAST6501H - Feminist, Gender & Women's Studies
COIS3533H - Game Studies
CSID5401H - Environment & Place
CSID5701H - Feminist, Gender & Women's Studies
CUST1500H - Introduction to the Study of Modern Culture
CUST1510H - Introduction to the Integrated Arts
CUST1520H - Introduction to World Literature
CUST1535H - Introduction to Media Studies
CUST1570H - The Origins of Theatre: Performance in Indigenous and Cultural Studies
CUST2035Y - Media and Society
CUST2114H - Workshop: Ecological Art
CUST2133H - Workshop: Video Essay Production
CUST2184H - Workshop: Experimental Animation
CUST2186H - Workshop: Photography
CUST2210H - Gender, Race, and Popular Culture
CUST2236H - New Media Literacy
CUST2511H - Workshop: Drawing
CUST2516H - Introduction to Visual Studies
CUST2525H - Science Fiction in the Contemporary World
CUST2526H - Workshop: Narrative and Performance
CUST2529H - Science Fiction: From Golden Age Science Fiction to Cyberpunk
CUST2534H - The Media City
CUST2535H - Media and Society
CUST2545H - Music and Society
CUST2546H - Pop Before Rock
CUST2547H - Pop After Rock
CUST2550H - Keywords: a Toolkit for Media and Cultural Studies

Economics Subject Area

- Department Website
- Faculty & Research

The Department of Economics offers the following undergraduate degree programs, special program opportunities, and postgraduate certificate programs.

DEGREE PROGRAMS

- Bachelor of Arts (BA) in Accounting & Economics
    - single-major Honours program (Co-op available)
- Bachelor of Arts (BA) in Economics
    - single-major Honours program (Co-op available)
    - joint-major Honours program
    - single-major General program
    - joint-major General program
- Bachelor of Science (BSc) in Economics
    - single-major Honours program (Co-op available)
    - joint-major Honours program
    - single-major General program
    - joint-major General program
- Bachelor of Science (BSc) in Mathematical Economics
    - single-major Honours program

SPECIAL PROGRAM OPPORTUNITIES

- Co-ops
    - Accounting & Economics
    - Economics
- Minor
    - Economics
- Trent/Swansea Dual Degree
    - Law & Arts (BA/LLB)

POSTGRADUATE CERTIFICATE PROGRAMS

- Applied Artificial Intelligence & Financial Analytics

Programs

BA.ECON - Economics - BA General
BAH.ACEC - Accounting & Economics - BA Honours
BAH.ACEC.COOP - Accounting & Economics - Co-op
BAH.ECON - Economics - BA Honours
BAH.ECON.COOP - Economics - Co-op (BA)
BAH.ECON.SWAN - Economics - BA Honours - Swansea Law
BS.ECON - Economics - BSc General
BSH.ECON - Economics - BSc Honours
BSH.ECON.COOP - Economics - Co-op (BSc)
BSH.MAEC - Mathematical Economics - BSc Honours
CERT.AIFA - Applied Artificial Intelligence & Financial Analytics - Postgraduate Certificate
MINR.ECON - Economics - Minor

Courses

ADMN1250H - Introduction to Mathematics for Economics and Management
ADMN2200H - Introduction to Statistics for Economics and Management

English Literature Subject Area

- Department Website
- Faculty & Research

The Department of English Literature offers the following undergraduate and graduate degree programs, and special program opportunities.

UNDERGRADUATE DEGREE PROGRAMS

- Bachelor of Arts (BA) in English Literature
    - single-major Honours program (Co-op available)
    - joint-major Honours program
    - single-major General program
    - joint-major General program

UNDERGRADUATE DEGREE PROGRAM

- Master of Arts (MA) in English Literature (Public Texts)

SPECIAL UNDERGRADUATE PROGRAM OPPORTUNITIES

- Co-op
- Minor in English Literature
- Options
    - Creative Writing
    - Digital Humanities
    - Theatre Studies
- Specializations *(open only to students in the undergraduate English Literature degree programs)*
    - Literary History
    - Literatures of Social Justice
- Trent/Swansea Dual Degree in Law & Arts (BA/LLB)
- Accelerated Master's program

GRADUATE PROGRAM OPPORTUNITIES

- Collaborative Specialization
    - Aging Studies
    - Feminist & Gender Studies

Programs

BA.ENGL - English Literature - BA General
BAH.ENGL - English Literature - BA Honours
BAH.ENGL.COOP - English Literature - Co-op

MA.ENGL.COUR - English Literature (Public Texts) - MA (Major Research Paper)
MA.ENGL.INTR - English Literature (Public Texts) - MA (Internship)
MA.ENGL.RSCH - English Literature (Public Texts) - MA (Research Creation)
MA.ENGL.THES - English Literature (Public Texts) - MA (Thesis)
MINR.ENGL - English Literature - Minor

OPTN.CRWR - Creative Writing - Option
SPEC.LITH - Literary History - Specialization
SPEC.RASOJ - Literatures of Social Justice - Specialization

Courses

ARTM5202H - Culture, Heritage & the Arts
CAST3481H - Indigenous Fiction
CAST3483H - Indigenous Poetry
CAST3502Y - Contemporary CanLit (1960-Now)
CAST3503H - Contemporary CanLit (1960-Now)
CAST3504Y - Where Is Here? An Examination of Space and Place In Canadian Literature
CAST3505H - Where Is Here? An Examination of Space and Place In Canadian Literature
CAST3506Y - Canadian Women's Writing
CAST3507H - Canadian Women's Writing
CAST3509H - Twenty-First Century Canadian Literature
CAST3709H - Literatures of Girlhood
CAST4500Y - Studies in Canadian Literature
CAST4501H - Studies in Canadian Literature
CAST4503H - Studies in Early Canadian Writing
CAST6102H - Culture, Heritage & the Arts
CAST6401H - Identities & Social Movements
CSID5202H - Culture, Heritage & the Arts
CSID5501H - Identities & Social Movements
CUST3524H - Storyworlds Across Media
CUST3601H - Modern Theory and Criticism
CUST5307H - Aging, Disability and Care
CUST5311H - Black Lives Matter
CUST5312H - Reading Toronto
CUST5313H - Objects and Emotions
CUST5315H - Arts of Conflict: Violence, Art, and the Irish Troubles
CUST5504H - Subjects of Desire
CUST5530H - Popular Music in Theory
ENGL1001H - Truth, Lies, and Storytelling
ENGL1003H - Revolution!
ENGL1005H - Love and Hate
ENGL1809H - Making a Scene
ENGL1851H - The Writing Life: An Introduction to Creative Writing
ENGL2001H - Reading Literature: A Practical Introduction
ENGL2020H - Digital Humanities: New Tools, Human Stories
ENGL2150Y - Studies in Shakespeare
ENGL2151H - Studies in Shakespeare
ENGL2152Y - Reading Shakespeare for the Classroom and Stage
ENGL2153H - Reading Shakespeare for the Classroom and Stage
ENGL2609H - Contagion
ENGL2703H - Literature and Social Justice
ENGL2705H - Literature and the Environment
ENGL2706Y - Popular Fiction
ENGL2707H - Popular Fiction
ENGL2709H - Graphic Fiction
ENGL2751H - Literature and Sports
ENGL2753H - Horror, Terror, and the Gothic
ENGL2801H - How Literary Non-Fiction Works
ENGL2802Y - How Poetry Works
ENGL2803H - How Poetry Works
ENGL2804Y - How Drama Works
ENGL2805H - How Drama Works
ENGL2806Y - How Fiction Works
ENGL2807H - How Fiction Works
ENGL2809H - Stage and Screen
ENGL2810Y - Children's Literature
ENGL2811H - Children's Literature: Poetry, Picture Books, and Plays
ENGL2851H - Introductory Prose Writing Workshop
ENGL2853H - Introductory Poetry Writing Workshop
ENGL2855H - Introductory Creative Non-Fiction Workshop
ENGL2857H - Introductory Scriptwriting Workshop
ENGL2859H - Introductory Creative Writing Workshop
ENGL3040Y - Practicum Course
ENGL3041H - Practicum Course
ENGL3121H - Perilous Realms: Medieval Literature
ENGL3127H - Arthurian Legend
ENGL3151H - Staging Race in the Early Modern Theatre
ENGL3153H - The Renaissance Theatre
ENGL3155H - Sex and Politics in Elizabethan Literature
ENGL3157H - Renaissance Literature
ENGL3200Y - Milton and His Age
ENGL3201H - Milton and His Age
ENGL3203H - Theatre and Journalism During the Restoration and Eighteenth Century
ENGL3205H - Modern Laughter
ENGL3209H - The First Media Revolution
ENGL3250Y - The Romantics
ENGL3251H - The Romantics
ENGL3300Y - American Literature: Back to the Future, Forward to the Past
ENGL3301H - American Literature: Back to the Future, Forward to the Past
ENGL3304Y - Modern American Literature
ENGL3305H - Modern American Literature

ENGL3307H - In the Borderlands: Latino/Latina US Literature
ENGL3308Y - African American Literature
ENGL3309H - African American Literature
ENGL3403H - Those Wild Victorians
ENGL3407H - Victorian Literature and Society
ENGL3410Y - Modern British Literature: History, Politics, Culture
ENGL3411H - Modern British Literature: History, Politics, Culture
ENGL3412Y - Modern British Literature: Literary Movements and Genres - Modernism and Its Aftermath
ENGL3413H - Modern British Literature: Literary Movements and Genres - Modernism and Its Aftermath
ENGL3421H - Modern Irish Literature
ENGL3451H - Contemporary African Fiction
ENGL3481H - Indigenous Fiction
ENGL3483H - Indigenous Poetry
ENGL3502Y - Contemporary CanLit (1960-Now)
ENGL3503H - Contemporary CanLit (1960-Now)
ENGL3504Y - Where Is Here? An Examination of Space and Place in Canadian Literature
ENGL3505H - Where is Here? An Examination of Space and Place in Canadian Literature
ENGL3506Y - Canadian Women's Writing
ENGL3507H - Canadian Women's Writing
ENGL3509H - Twenty-First Century Canadian Literature
ENGL3524H - Storyworlds Across Media
ENGL3601H - Modern Theory and Criticism
ENGL3603H - Is This Thing Any Good?: Literary Theory Before 1900
ENGL3605H - Race, Ethnicity, and Literature
ENGL3609H - SickLit
ENGL3700Y - Writing the Body
ENGL3701H - Writing the Body
ENGL3704H - Queer Lit
ENGL3707H - Literature and Globalization
ENGL3709H - Literatures of Girlhood
ENGL3755H - Literature and Mysticism
ENGL3808Y - The Novel
ENGL3850Y - Intermediate Fiction Workshop
ENGL3851H - Intermediate Fiction Workshop
ENGL3853H - Intermediate Poetry Writing Workshop
ENGL3855H - Creative Non-Fiction Writing Workshop
ENGL3901H - Reading Course
ENGL4020D - Honours Thesis
ENGL4040Y - Practicum Course
ENGL4041H - Practicum Course
ENGL4101H - Studies in Old English Language and Literature
ENGL4107H - Topics in Print and Visual Culture
ENGL4120Y - Studies in Middle English Language and Literature
ENGL4121H - Studies in Middle English Language and Literature
ENGL4150Y - Studies in Shakespeare
ENGL4151H - Studies in Shakespeare
ENGL4153H - Studies in Renaissance Literature
ENGL4201H - Studies in Restoration and Eighteenth-Century Literature
ENGL4209H - Materiality and Text in the Digital Age
ENGL4251H - Studies in the Romantics
ENGL4300Y - Studies in American Literature
ENGL4301H - Studies in American Literature
ENGL4309H - Digital Adventures in English: Engaging With the Digital Humanities
ENGL4351H - Black Lives Matter
ENGL4400Y - Studies in Victorian Literature
ENGL4401H - Studies in Victorian Literature
ENGL4450Y - Postcolonial Texts
ENGL4451H - Postcolonial Texts Texts
ENGL4500Y - Studies in Canadian Literature
ENGL4501H - Studies in Canadian Literature
ENGL4503H - Studies in Early Canadian Writing
ENGL4601H - Studies in Critical Approaches to Literature
ENGL4651H - Crip Theory
ENGL4800Y - Studies in Genre
ENGL4801H - Studies in Genre
ENGL4803H - Studies in Poetry
ENGL4804Y - Studies in Drama
ENGL4805H - Studies in Drama
ENGL4806Y - Studies in Fiction
ENGL4807H - Studies in Fiction
ENGL4809H - Setting the Scene
ENGL4850Y - Advanced Seminar in Creative Writing
ENGL4851H - Advanced Seminar in Creative Writing
ENGL4857H - The Play's the Thing
ENGL4859H - Publishing Workshop
ENGL4900Y - Reading Course
ENGL4901H - Reading Course
ENGL4902H - Reading Course
ENGL5001H - Colloquium
ENGL5003H - Research and Professional Development Seminar
ENGL5007H - Public Texts
ENGL5107H - Print & Visual Culture
ENGL5202H - Culture, Heritage & the Arts
ENGL5207H - Imagining Immunity
ENGL5209H - Materiality and the Text
ENGL5307H - Aging, Disability & Care in Literature & Culture
ENGL5308H - Keywords

ENGL5310H - Photography in Postmodern Literature
ENGL5311H - Black Lives Matter
ENGL5312H - Reading Toronto
ENGL5315H - Arts of Conflict: Violence, Art, and the Irish Troubles
ENGL5330H - Musical Thinking
ENGL5340H - Politics of Black Art
ENGL5350H - Public Cultures of Mourning
ENGL5500Y - Major Research Paper
ENGL5501H - Identities & Social Movements
ENGL5504H - Subjects of Desire
ENGL5530H - Popular Music in Theory
ENGL5600Y - Internship
ENGL5700Y - Research-Creation Project & Paper
ENGL5901H - Reading Course
ENGL5902H - Special Topics 1
ENGL5903H - Special Topics 2
ERST2705H - Literature and the Environment
GESO2703H - Literature and Social Justice
GESO3506Y - Canadian Women's Writing
GESO3507H - Canadian Women's Writing
GESO3609H - SickLit
GESO3700Y - Writing the Body
GESO3701H - Writing the Body
GESO3704H - Queer Lit
GESO3709H - Literatures of Girlhood
GESO4351H - Black Lives Matter
HIST2020H - Digital Humanities: New Tools, Human Stories
INDG3481H - Indigenous Fiction
INDG3483H - Indigenous Poetry
MDST3203H - Theatre and Journalism During the Restoration and Eighteenth Century
MDST3209H - The First Media Revolution
MDST3524H - Storyworlds Across Media
WRIT1001H - Write in Time
WRIT2002H - Write It Up: Effective Communication
WRIT2003H - Workplace Communications
WRIT2005H - Journalism, Law, and Ethics
WRIT3003H - Writing With Your "I"

Environment Subject Area

- School Website
- Faculty

The Trent School of the Environment offers the following undergraduate degree programs and special program opportunities.

DEGREE PROGRAMS

- Bachelor of Science (BSc) in Ecological Restoration
    - single-major Honours program (Co-op available)

- Bachelor of Science (BSc) in Environmental & Resource Science
    - single-major Honours program (Co-op available)
    - joint-major Honours program
    - single-major General program
    - joint-major General program
- Bachelor of Arts (BA) in Environmental & Resource Studies
    - single-major Honours program (Co-op available)
    - joint-major Honours program
    - single-major General program
    - joint-major General program
- Bachelor of Science (BSc) in Environmental Chemistry
    - single-major Honours program (Co-op available)
- Bachelor of Science (BSc) in Environmental Geoscience
    - single-major Honours program (Co-op available)
- Bachelor of Environmental Science/Studies (BESS)
    - single-major Honours program (Co-op available)
- Bachelor of Arts (BA) in Geography
    - single-major Honours program (Co-op available)
    - joint-major Honours program
    - single-major General program
    - joint-major General program
- Bachelor of Science (BSc) in Geography
    - single-major Honours program (Co-op available)
    - joint-major Honours program
    - single-major General program
    - joint-major General program
- Bachelor of Science (BSc) in Indigenous Environmental Science
    - single-major Honours program
    - joint-major Honours program
    - single-major General program
    - joint-major General program
- Bachelor of Arts (BA) in Indigenous Environmental Studies
    - single-major Honours program
    - joint-major Honours program
    - single-major General program
    - joint-major General program
- Bachelor of Arts (BA) in Sustainable Agriculture & Food Systems
    - single-major Honours program (Co-op available)
    - joint-major Honours program
- Bachelor of Science (BSc) in Sustainable Agriculture & Food Systems
    - single-major Honours program (Co-op available)
    - joint-major Honours program
- Bachelor of Science (BSc) in Water Sciences
    - single-major Honours program (Co-op available)

SPECIAL PROGRAM OPPORTUNITIES

- Diplomas
    - Circumpolar Studies
    - Indigenous Environmental Studies & Sciences
- Minors
    - Environmental & Resource Science
    - Environmental & Resource Studies
    - Geography
    - Indigenous Environmental Studies & Sciences
- Options
    - Circumpolar Studies
    - Climate Communication
    - Planning
- Specializations
    - Climate Change *(open only to students in the Environmental & Resource Science/Studies and Geography degree programs)*
    - Small-Scale Farming *(open only to students in the Sustainable Agriculture & Food Systems degree programs)*
- Trent/Swansea Dual Degree in Law & Arts (BA/LLB)
    - Environmental & Resource Studies
    - Geography
- Accelerated Master's program

Programs

BA.ERST - Environmental & Resource Studies - BA General
BA.GEOG - Geography - BA General
BA.IESS - Indigenous Environmental Studies - BA General
BAH.ERST - Environmental & Resource Studies - BA Honours
BAH.ERST.COOP - Environmental & Resource Studies - Co-op
BAH.ERST.SWAN - Environmental & Resource Studies - BA Honours - Swansea Law
BAH.GEOG - Geography - BA Honours
BAH.GEOG.COOP - Geography - Co-op (BA)
BAH.IESS - Indigenous Environmental Studies - BA Honours
BAH.IESS.COOP - Indigenous Environmental Studies - Co-op
BAH.SAFS - Sustainable Agriculture & Food Systems - BA Honours
BAH.SAFS.COOP - Sustainable Agriculture & Food Systems - Co-op (BA)
BES.ERSS - Environmental Science/Studies - BESS Honours
BES.ERSS.COOP - Environmental Studies/Science (BESS) - Co-op
BS.ERCE - Environmental Chemistry - BSc General
BS.ERSC - Environmental & Resource Science - BSc General
BS.GEOG - Geography - BSc General
BS.IESS - Indigenous Environmental Science - BSc General
BSH.CLIM - Climate Change Science & Policy - BSc Honours
BSH.ECRT - Ecological Restoration - BSc Honours
BSH.ECRT.COOP - Ecological Restoration - Co-op
BSH.EGEO - Environmental Geoscience - BSc Honours
BSH.EGEO.COOP - Environmental Geoscience - Co-op
BSH.ERCE - Environmental Chemistry - BSc Honours
BSH.ERCE.COOP - Environmental Chemistry - Co-op
BSH.ERSC - Environmental & Resource Science - BSc Honours
BSH.ERSC.COOP - Environmental & Resource Science - Co-op
BSH.GEOG - Geography - BSc Honours
BSH.GEOG.COOP - Geography - Co-op (BSc)
BSH.IESS - Indigenous Environmental Science - BSc Honours
BSH.SAFS - Sustainable Agriculture & Food Systems - BSc Honours
BSH.SAFS.COOP - Sustainable Agriculture & Food Systems - Co-op (BSc)
BSH.WASC - Water Sciences - BSc Honours
BSH.WASC.COOP - Water Sciences - Co-op
CIRD - Circumpolar Studies - Diploma
IESD - Indigenous Environmental Studies - Diploma
IESD.YKDFN - Indigenous Environmental Studies - Diploma (YKDFN Dechı◈ta Nàowo)
MINR.ERSC - Environmental & Resource Science - Minor
MINR.ERST - Environmental & Resource Studies - Minor
OPTN.CIRC - Circumpolar Studies - Option
OPTN.CLCM - Climate Communication - Option
OPTN.PLAN - Planning - Option

SPEC.CLIM - Climate Change - Specialization
SPEC.FARM - Small-Scale Farming - Specialization

Courses

ADMN3760H - The Geography of Beer
AGRS4180H - Collapse of Complex Societies
AGRS4185H - Human Impact on Ancient Environments
ANTH2500H - The World Food System
ANTH2600H - Peasants, Food, and Agrarian Change
ANTH3001H - Applied and Environmental Geophysics
ANTH3175H - The Archaeology of Natural Disasters
ANTH3185H - The Archaeology of Climate Change
ANTH3333H - Ecological Anthropology
ANTH3680H - Environmental Archaeology
ANTH3746H - Anthropology of Drinks and Drinking
ANTH3800D - Community Development
ANTH3802D - Community Development and Migration
ANTH3820H - Culture and Food
ANTH4180H - Collapse of Complex Societies
ANTH4185H - Human Impact on Ancient Environments
ANTH4350H - Origins and Spread of Agriculture
ANTH4830H - Anthropology of Food Politics
BIOL2260H - Introductory Ecology
BIOL2350H - Ecological Agriculture
BIOL2701H - Environmental Education: Biological Issues
BIOL2702H - Environmental Education: Fostering Stewardship and a Sustainable Future
BIOL3240H - Agricultural Entomology
BIOL3260H - Applied Biomonitoring
BIOL3370H - Organic Agriculture: Principles and Practices
BIOL3380H - Advanced Ecology
BIOL3391H - Conservation Biology
BIOL3545H - Applied Plant Ecology
BIOL4030H - Research Design and Data Analysis
BIOL4060H - The Geochemistry of Natural Waters
BIOL4070H - The Fate of Contaminants in the Aquatic Environment
BIOL4240H - Fisheries Assessment and Management
BIOL4270H - Nutrient Cycling in Ecosystems
BIOL4330H - Global Change of Aquatic Ecosystems
BIOL4860H - Soil Biodiversity and Functioning
CAST2043H - Canada the Land Before 1885
CAST2044H - Canada the Land After 1885
CAST2320H - Lands and Environments of the Circumpolar North
CAST2330H - Changing Resources of the Circumpolar North
CAST2520H - Natural Resource Management: Theory and Comparative Cases
CAST2525H - Critical Environmental Thinking: Political Economy and Policy Process
CAST2710H - Cities: an Introduction to Urban Geography
CAST3041H - The Changing Land
CAST3042H - Reading the Wilderness in Canada
CAST3120H - Canadian Environmental Policy
CAST3141H - Gender, Health, and Environments
CAST3330H - Protected and Conserved Areas Management
CAST3341H - The Canadian Food System: Community Perspectives and Experiences
CAST3490H - Contemporary Issues of the Circumpolar World
CAST3711H - Urban and Regional Planning
CAST3720H - Urban Environments
CAST3730H - Social Geography
CAST3760H - The Geography of Beer
CAST3780H - Canadian Renewable Resource Economics and Project Planning
CAST4043H - Windy Pine Summer Institute
CAST4670H - Environmental History
CHEM2620H - Environmental Chemistry
CHEM3400H - Chromatography
CHEM3410H - Methods of Spectral Analysis
CHEM3610H - Chemical Limnology and Oceanography
CHEM4410H - Fundamentals and Applications of ICP-MS
CLIM1060H - Introduction to Climate Change
CLIM2050H - Climate Data and Analytics
CLIM3005H - Climate and Energy Economics
CLIM3470H - Climate Change and Its Impacts
CLIM4001H - Applied Climate Models
CLIM4002H - Carbon Accounting and Management
CLIM4003H - Low Carbon Technologies
COMM3006H - Environmental Journalism
COMM3501H - Environment and Communication: Oral and Visual Presentation
COMM3502H - Climate and Environmental Communications
CUST2114H - Workshop: Ecological Art
CUST2805H - Green Screen: Film and Environmental History
CUST3590H - Climate Change and Culture
ECON3810H - Environmental Economics
ECON4002H - Carbon Accounting and Management
EDUC2043H - Canada the Land Before 1885
EDUC2044H - Canada the Land After 1885
EDUC2701H - Environmental Education: Biological Issues
EDUC2702H - Environmental Education: Fostering Stewardship and a Sustainable Future
EDUC3041H - The Changing Land
EGEO1040H - Earth's Physical Processes and Environments

EGEO2001H - Earth Materials
EGEO2090H - Introduction to Geographical Information Systems
EGEO2180H - Natural Hazards
EGEO2401H - Environmental Geology
EGEO2540H - Earth's Dynamic Landforms
EGEO3001H - Applied and Environmental Geophysics
EGEO3002H - Structural Geology
EGEO3003H - Field Methods in Environmental Geoscience
EGEO3530H - Hydrology
EGEO3560H - Soil Science
EGEO4000H - Environmental Geoscience Placement Course
EGEO4060H - The Geochemistry of Natural Waters
EGEO4070H - The Fate of Contaminants in the Aquatic Environment
EGEO4080H - Hydrogeology
ENGL2705H - Literature and the Environment
ERSC1010H - Environmental Science and Sustainability
ERSC1020H - Cases in Environment and Sustainability
ERSC1040H - Earth's Physical Processes and Environments
ERSC1060H - Introduction to Climate Change
ERSC2080H - Natural Science Statistics
ERSC2090H - Introduction to Geographical Information Systems
ERSC2120H - Water Policy
ERSC2180H - Natural Hazards
ERSC2220H - Environmental Assessment: Chemical and Laboratory Methods
ERSC2230H - Environmental Assessment: Sampling and Analysis
ERSC2240H - Ecological Assessment for Natural Resource Management
ERSC2260H - Introductory Ecology
ERSC2300H - Energy Science and Technology
ERSC2350H - Ecological Agriculture
ERSC2360H - Agriculture and Agricultural Alternatives
ERSC2401H - Environmental Geology
ERSC2460H - The Global Climate System
ERSC2530H - Water Resources
ERSC2620H - Environmental Chemistry
ERSC2701H - Environmental Education: Biological Issues
ERSC2702H - Environmental Education: Fostering Stewardship and a Sustainable Future
ERSC3002H - Environmental Implications of Agriculture
ERSC3003H - Field Methods in Environmental Geoscience
ERSC3010H - Fundamentals of Geographical Information Systems Analysis
ERSC3020H - Remote Sensing of the Environment
ERSC3160Y - Community-Based Resource Management
ERSC3175H - The Archaeology of Natural Disasters
ERSC3185H - The Archaeology of Climate Change
ERSC3200Y - Management of Forest Ecosystems
ERSC3230H - Environmental Problems and Solutions in Small Island Developing States: a Field Course
ERSC3260H - Applied Biomonitoring
ERSC3333H - Ecological Anthropology
ERSC3370H - Organic Agriculture: Principles and Practices
ERSC3380H - Advanced Ecology
ERSC3391H - Conservation Biology
ERSC3400H - Chromatography
ERSC3410H - Methods of Spectral Analysis
ERSC3450H - Environmental Air Pollution
ERSC3470H - Climate Change and Its Impacts
ERSC3510H - Ecology and Management of Wetland Systems
ERSC3530H - Hydrology
ERSC3545H - Applied Plant Ecology
ERSC3551H - Pollution Ecology
ERSC3560H - Soil Science
ERSC3610H - Chemical Limnology and Oceanography
ERSC3635H - Foodways of Great Lakes Basin Indigenous Indigenous Peoples 1
ERSC3636H - Foodways of Great Lakes Basin Indigenous Indigenous Peoples 2
ERSC3650H - Soil Management and Conservation
ERSC3680H - Environmental Archaeology
ERSC3701H - Introduction to Environmental Toxicology and Chemistry
ERSC3710H - Environmental Health
ERSC3731H - Understanding Indigenous Peoples' Health and the Environment
ERSC3732H - Addressing Indigenous Peoples' Health and the Environment Challenges
ERSC3810H - Environmental Economics
ERSC3840H - Community Based Research Project
ERSC3860H - Field Course
ERSC3870H - Field Course
ERSC3880H - Field Course
ERSC3890H - Placement Course
ERSC3900Y - Reading Course
ERSC3901H - Reading Course
ERSC3902H - Reading Course
ERSC3906H - Field Research in Environmental Science
ERSC4002H - Carbon Accounting and Management
ERSC4003H - Low Carbon Technologies
ERSC4010Y - Honours Thesis Course
ERSC4020D - Honours Thesis Course
ERSC4030H - Research Design and Data Analysis
ERSC4060H - The Geochemistry of Natural Waters
ERSC4070H - The Fate of Contaminants in the Aquatic Environment

ERSC4180H - Collapse of Complex Societies
ERSC4185H - Human Impact on Ancient Environments
ERSC4240H - Fisheries Assessment and Management
ERSC4270H - Nutrient Cycling in Ecosystems For Sustainable Agriculture
ERSC4330H - Global Change of Aquatic Ecosystems
ERSC4410H - Fundamentals and Applications of ICP-MS
ERSC4520H - Restoration Ecology
ERSC4530H - Remediation and Reclamation of Sites
ERSC4640H - Integrated Watershed Management: Approaches and Methods
ERSC4703H - Senior Seminar in Earth and Environmental Science
ERSC4740Y - Critical Investigations in Indigenous Peoples' Health and the Environment
ERSC4801H - Greening the Campus: Green Infrastructure
ERSC4802H - Greening the Campus: Institutions and Built Environment
ERSC4830Y - Community-Based Research Project
ERSC4840H - Community-Based Research Project
ERSC4860H - Field Course
ERSC4900Y - Reading Course
ERSC4901H - Reading Course
ERSC4902H - Reading Course
ERSC4905Y - Field Course Research Project
ERSC4906H - Field Course Research Project
ERST1030H - Society, Environment, and Place
ERST2043H - Canada the Land Before 1885
ERST2044H - Canada the Land After 1885
ERST2100H - Environmental Science and Politics
ERST2114H - Workshop: Ecological Art
ERST2320H - Lands and Environments of the Circumpolar North
ERST2330H - Changing Resources of the Circumpolar North
ERST2510H - Qualitative Methods in Geography and Environmental Studies
ERST2520H - Natural Resource Management: Theory and Comparative Cases
ERST2525H - Critical Environmental Thinking: Political Economy and Policy Process
ERST2601Y - Indigenous Knowledge Systems and the Natural Environment
ERST2705H - Literature and the Environment
ERST2710H - Cities: An Introduction to Urban Geography
ERST2805H - Green Screen: Film and Environmental History
ERST2812H - Northern Research
ERST3000H - Environmental Professional Practice
ERST3006H - Environmental Journalism
ERST3030H - Eco-Anxiety to Eco-Hope: (Re)Imagining Green Futures Through Dialogue With Diversity
ERST3041H - The Changing Land
ERST3042H - Reading the Wilderness in Canada
ERST3081H - Introduction to Waste Management
ERST3082H - Issues in Waste Management
ERST3110H - Environmental Impact Assessment: a Case Study Approach
ERST3120H - Canadian Environmental Policy
ERST3141H - Gender, Health, and Environments
ERST3230H - Environmental Problems and Solutions in Small Island Developing States: A Field Course
ERST3250H - Introduction to Environmental Law
ERST3301H - Environmental Ethics
ERST3302H - Animals and Society
ERST3330H - Protected and Conserved Areas Management
ERST3341H - The Canadian Food System: Community Perspectives and Experiences
ERST3390H - Contemporary Issues of the Circumpolar World
ERST3490H - Contemporary Issues of the Circumpolar World
ERST3501H - Environment and Communication: Oral and Visual Presentation
ERST3502H - Climate and Environmental Communications
ERST3590H - Climate Change and Culture
ERST3602H - Environment and Development
ERST3604H - Indigenous Knowledges, Water, and the Great Lakes
ERST3631H - Issues in Indigenous Environmental Studies
ERST3632H - Global Issues in Indigenous Environmental Studies
ERST3635H - Foodways of Great Lakes Basin Indigenous Peoples 1
ERST3636H - Foodways of Great Lakes Basin Indigenous Peoples 2
ERST3711H - Urban and Regional Planning
ERST3720H - Urban Environments
ERST3730H - Social Geography
ERST3731H - Understanding Indigenous Peoples' Health and the Environment
ERST3732H - Addressing Indigenous Peoples' Health the Environment Challenges
ERST3740H - Circumpolar Peoples, Health, and the Environment
ERST3756H - The Environmental Crisis: From the Atomic Bomb to Global Warming
ERST3760H - The Geography of Beer
ERST3780H - Canadian Renewable Resource Economics and Project Planning
ERST3790H - Exploring the City
ERST3800D - Community Development
ERST3802D - Community Development and Migration
ERST3810H - Environmental Economics

ERST3840H - Community-Based Research Project
ERST3890H - Placement Course
ERST3900Y - Reading Course
ERST3901H - Reading Course
ERST3902H - Reading Course
ERST3990H - Gender and Environmental Justice
ERST4010Y - Honours Thesis Course
ERST4020D - Honours Thesis Course
ERST4043H - Windy Pine Summer Institute
ERST4140H - Climate and Energy Policy
ERST4150Y - Climate Crisis and Radical Hope
ERST4250H - Environmental Law and Regulation
ERST4610H - Global Environmental Policy
ERST4630H - Indigenous Environmental Research Protocol and Ethics
ERST4670H - Environmental History
ERST4730Y - Sustainable Indigenous Communities
ERST4740Y - Critical Investigations in Indigenous Peoples' Health and the Environment

Environmental & Life Sciences Subject Area

Website
Faculty & Research

The Environmental & Life Sciences program offers the following graduate degree programs.

DEGREE PROGRAMS

- Master of Science (MSc) in Environmental & Life Sciences
- Doctor of Philosophy (PhD) in Environmental & Life Sciences

Programs

MS.ENLS - Environmental & Life Sciences - MSc (Thesis)
PHD.ENLS - Environmental & Life Sciences - PhD (Thesis)

Courses

ENLS5000H - Research Foundations
ENLS5001H - Research Design and Data Analysis
ENLS5026H - Wetland Restoration & Creation
ENLS5028H - Communicating Science
ENLS5046H - Conservation Genetics
ENLS5047H - Population Genetics
ENLS5050H - Directed Research
ENLS5088H - Mass Spectrometry
ENLS5090H - Reading Course
ENLS5091H - IIES - Topics and Issues
ENLS5099H - Special Topic Course
ENLS5100H - Cell Biology and Genetics
ENLS5200H - Stress Physiology
ENLS5300H - Ecology & Conservation Biology
ENLS5400H - Current Themes in Physical Geography
ENLS5500H - Trace Contaminant Toxicology and Chemistry
ENLS5600H - Ecosystem Biogeochemistry
ENLS5800H - Bioinformatics
ENLS6100H - Ph.D. Candidacy Exam
FRSC5800H - Bioinformatics
ICAN5001H - Principles of Mass Spectrometry

Forensic Science Subject Area

- Department Website
- Graduate Website
- Faculty

The Department of Forensic Science offers the following undergraduate and graduate degree programs, and special program opportunities.

DEGREE PROGRAMS

- Bachelor of Science (BSc) in Forensic Anthropology
    - single-major Honours program
- Bachelor of Science (BSc) in Forensic Biology
    - single-major Honours program
- Bachelor of Science (BSc) in Forensic Chemistry
    - single-major Honours program
- Bachelor of Science in Forensic Science (BScFS)
- Bachelor of Arts (BA) in Forensic Science
    - joint-major Honours program

- Bachelor of Science (BSc) in Forensic Science
    - joint-major Honours program

GRADUATE DEGREE PROGRAM

- Master of Forensic Science (MScFS)

SPECIAL UNDERGRADUATE PROGRAM OPPORTUNITIES

- Specialization in Law & Policing *(open only to students in the undergraduate Forensic Science degree programs)*
- Accelerated Master's program

Programs

BAH.FRSC - Forensic Science - BA Honours (joint major)
BSF.FRSC - Forensic Science - BScFS Honours
BSH.FRAN - Forensic Anthropology - BSc Honours
BSH.FRBI - Forensic Biology - BSc Honours
BSH.FRCH - Forensic Chemistry - BSc Honours
BSH.FRCH.COOP - Forensic Chemistry - Co-op
BSH.FRSC - Forensic Science - BSc Honours (joint major)
MS.FRSC.COUR - Forensic Science - MScFS (Course Based)
MS.FRSC.PROJ - Forensic Science - MScFS (Major Research Paper)
SPEC.LAPO - Law & Policing - Specialization

Courses

ANTH3001H - Applied and Environmental Geophysics
ANTH3153H - Archaeological Science 2: Ancient Biomolecules
ANTH3404H - Human Osteology 1
ANTH3405H - Forensic Anthropology
ANTH3852Y - Trent Bioarchaeology Field School - Fortress of Louisbourg
ANTH4425H - Skeletal Trauma
BIOL2050H - Introduction to Genetics
BIOL3000H - Laboratory DNA Forensics
BIOL3153H - Archaeological Science 2: Ancient Biomolecules
BIOL3330H - Forensic Entomology
BIOL3404H - Human Osteology 1
BIOL4510H - Species-at-Risk Biology and Policy
BIOL4570H - Microbial Forensics
BIOL4600H - Advanced Topics in Forensic Biology
BIOL4800H - Bioinformatics
CAST3120H - Canadian Environmental Policy
CHEM3400H - Chromatography
CHEM3410H - Methods of Spectral Analysis
CHEM4710H - Molecules of Murder
COIS2750H - Computer Crime and Forensics
CRIM4220H - Deconstructing the "Ideal Victim"
EGEO3001H - Applied and Environmental Geophysics
ENLS5800H - Bioinformatics
ERSC3410H - Methods of Spectral Analysis
ERST3120H - Canadian Environmental Policy
ERST3250H - Introduction to Environmental Law
ERST4250H - Environmental Law and Regulation
FRSC1030H - Foundations in Forensic Science
FRSC1100H - Introduction to Canadian Justice
FRSC2011H - Introduction to Crime Scene Investigation
FRSC2020H - Scientific Methodology in Forensic Science
FRSC2030H - Foundations in Forensic Science
FRSC2050H - Introduction to Genetics
FRSC2100H - Criminal Code
FRSC2110H - Police Powers
FRSC2750H - Computer Crime and Forensics
FRSC3000H - Laboratory DNA Forensics
FRSC3001H - Applied and Environmental Geophysics
FRSC3010H - Crime Scene Investigation
FRSC3020H - Workplace Readiness and Professional Ethics
FRSC3100H - Trends in Forensic Science
FRSC3110H - Criminology in Forensics
FRSC3111H - Wildlife DNA Forensics
FRSC3120H - Canadian Environmental Policy

FRSC3153H - Archaeological Science 2: Ancient Biomolecules
FRSC3250H - Introduction to Environmental Law
FRSC3320H - Forensic Psychology
FRSC3330H - Forensic Entomology
FRSC3400H - Chromatography
FRSC3401H - Law and Indigenous Peoples: Foundations
FRSC3402H - Law and Indigenous Peoples: Litigating Aboriginal Rights
FRSC3404H - Human Osteology 1
FRSC3405H - Forensic Anthropology
FRSC3410H - Methods of Spectral Analysis
FRSC3680H - A Brief History of Forensics
FRSC3700H - Applied Population Genetics
FRSC3711H - The History of Incarceration
FRSC3730H - Forensic Chemistry
FRSC3751Y - The History of Crime in England
FRSC3800H - Forensic Toxicology
FRSC3852Y - Trent Bioarchaeology Field School - Fortress of Louisbourg
FRSC3900H - Reading Course
FRSC4010Y - Independent Project
FRSC4020D - Research Thesis
FRSC4021Y - Research Thesis
FRSC4089H - Firearms Intelligence and Society
FRSC4100H - Science and (In)justice
FRSC4110H - Firearms and Ballistics
FRSC4111H - Basic Bloodstain Pattern Analysis
FRSC4200H - Death Scene Investigation
FRSC4210H - Fingerprint Analysis and Documentation
FRSC4220H - Deconstructing the "Ideal Victim"
FRSC4250H - Environmental Law and Regulation
FRSC4310H - Advanced Forensic Documentation
FRSC4312H - Presentation of Forensic Evidence
FRSC4340H - Forensic Correctional Practices
FRSC4380H - Advanced Topics in Law and Policing
FRSC4410H - Mathematical Tools for Criminal Investigation
FRSC4425H - Skeletal Trauma
FRSC4510H - Species-at-Risk Biology and Policy
FRSC4570H - Microbial Forensics
FRSC4600H - Advanced Topics in Forensic Biology
FRSC4610H - Environmental Forensic Toxicology
FRSC4700H - Sensors and Devices for Forensic Applications
FRSC4710H - Molecules of Murder
FRSC4730H - Advanced Topics in Forensic Chemistry
FRSC4751Y - The History of Crime in England
FRSC4800H - Bioinformatics
FRSC4810H - Environmental DNA Forensics
FRSC4890Y - Forensic Community-Based Research Project
FRSC5000Q - Fundamentals in Forensic Science
FRSC5001H - Leadership and Communication in FRSC
FRSC5003H - Research Design & Stats in FRSC
FRSC5007H - Adv. Forensic Toxicology
FRSC5009H - Forensic Placement
FRSC5010H - Advanced DNA Typing
FRSC5030H - Expert Evidence & the Courts
FRSC5040H - Complex Crime Scene Analyses
FRSC5070H - Advanced Topics in Forensic Science
FRSC5100H - Adv. Topics in Crime Scene Investigation
FRSC5320H - Forensic Psychology
FRSC5600H - Forensic Chemistry & Env't Applications
FRSC5800H - Bioinformatics
FRSC5950D - Major Research Paper 1
FRSC5970H - Major Research Paper 2
FRSC5990H - Special Topics
GEOG3001H - Applied and Environmental Geophysics
HIST3680H - A Brief History of Forensics
HIST3711H - The History of Incarceration
HIST3751Y - The History of Crime in England
HIST4751Y - The History of Crime in England
INDG3401H - Law and Indigenous Peoples: Foundations
INDG3402H - Law & Indigenous Peoples: Litigating Aboriginal Rights
PLCW4220H - Deconstructing the "Ideal Victim"
POST3120H - Canadian Environmental Policy
PSYC3320H - Forensic Psychology
PSYC5320H - Forensic Psychology
WASC3120H - Canadian Environmental Policy

French & Francophone Studies Subject Area

- Program Website
- Faculty & Research

The School for the Study of Canada / École d'études canadiennes offers the following undergraduate degree programs and special program opportunities in French Studies.

DEGREE PROGRAMS

- Bachelor of Arts (BA) in French Studies
    - single-major Honours program (Co-op available)
    - joint-major Honours program
    - single-major General program
    - joint-major General program
- Bachelor of Arts (BA) in French & Canadian Studies
    - single-major Honours program

SPECIAL PROGRAM OPPORTUNITIES

- Co-op in French Studies
- Minor in French Studies
- Specializations *(open only to students in the French Studies degree programs)*
    - French Writing
    - Quebec & Franco-Canadian Studies
- Study Abroad Program – Nantes, France
- Undergraduate Certificate in French

Programs

BA.FREN - French Studies - BA General
BAH.FCST - French & Canadian Studies - BA Honours
BAH.FREN - French Studies - BA Honours
BAH.FREN.COOP - French Studies - Co-op
CERT.FREN - French - Undergraduate Certificate
MINR.FREN - French Studies - Minor
SPEC.FREW - French Writing - Specialization
SPEC.QUST - Quebec & Franco-Canadian Studies - Specialization
YAP.FRAN - Nantes, France - Study Abroad Program

Courses

CAST1102H - Études francophones dans un environnement canadien / Francophone Studies in a Canadian Environment
CAST2452H - Civilisation québécoise / Quebec Civilization
CAST3231H - Théâtre québécois / Quebecois Theatre
CAST3232H - Poésie québécoise / Quebecois Poetry
CAST3233H - Contes, légendes et chansons québécoises / Quebec Folktales, Legends, and Songs
CAST3237H - Littératures Francophones de L'amérique du Nord / Francophone Literatures of North America
CAST3238H - Littératures autochtones de langue française au Canada / French Language Indigenous Literature in Canada
CAST3239H - Littérature franco-ontarienne / Franco-Ontarian Literature

CAST3831H - Le roman québécois des origines à 1945 / The Quebecois Novel from Its Origin to 1945
CAST3832H - Le roman québécois de 1945 à nos jours / The Quebecois Novel from 1945 to Today
CAST4227H - Le fantastique Québécois et franco-canadienne / Quebecois and Franco-Canadian Fantastic
CAST4228H - Science-Fiction Quebecoise Et franco-canadienne / Quebecois and Franco-Canadian Science Fiction
CAST4301H - Actualités franco-canadiennes / French Canadian Current Affairs
CAST4521H - Montreal
CUST4227H - Le fantastique Québécois et Franco-Canadienne / Quebecois and Franco-Canadian Fantastic
CUST4228H - Science-Fiction Quebecoise Et Franco-Canadienne / Quebecois And Franco-Canadian Science Fiction
CUST4302H - Cinéma francophone / Francophone Cinema
CUST4611H - Littérature et contestation / Literature and Contestation
FREN1101H - Langue et cultures de la francophonie / Language and Cultures of the Francophonie
FREN1102H - Études francophones dans un environnement canadien / Francophone Studies in a Canadian Environment
FREN2051H - La lecture critique / Critical Reading
FREN2151H - Le français en contexte 1 / French in Context 1
FREN2152H - Le français en contexte 2 / French in Context 2
FREN2236H - Littérature pour la jeunesse au Québec et au Canada français / Children's Literature in Quebec and French Canada
FREN2451H - Cultures et société: La France et la Francophonie / Cultures and Society: France and the Francophonie
FREN2452H - Cultures et société: Le Québec et le Canada français / Cultures and Society: Quebec and French Canada
FREN2453H - Cultures and Society: Francophone Cities of the World
FREN3051H - Stylistique comparée de l'anglais et du français / Comparative English- French Stylistics
FREN3052H - Traduction anglais-français / English-French Translation
FREN3053H - Langue et expression écrite / Language and Written Expression
FREN3150Y - Linguistique appliquée et phonétique / Applied Linguistics and Phonetics
FREN3172H - Molière et son époque / Seventeenth Century French Literature
FREN3182H - Le siècle Candide / Eighteenth-Century French Literature
FREN3191H - Le roman au temps des Misérables / The Nineteenth-Century French Novel
FREN3192H - Des romantiques aux poètes maudits / Nineteenth-Century French Poetry
FREN3201H - Le roman français au XXe siècle / The French Novel of the Twentieth Century
FREN3202H - Le théâtre français au XXe siècle / French Theatre of the Twentieth Century
FREN3203H - La vie littéraire française / French Literature 1
FREN3204H - La vie littéraire française / French Literature 2
FREN3231H - Théâtre québécois / Quebecois Theatre
FREN3232H - Poésie québécoise / Québécois Poetry
FREN3233H - Contes, Légendes Et Chansons Québécoises
FREN3237H - Littératures francophones de l'Amérique du Nord / Francophone Literatures of North America
FREN3238H - Littératures autochtones de langue française au Canada / French Language Indigenous Literature in Canada
FREN3239H - Littérature franco-ontarienne / Franco-Ontarian Literature
FREN3301H - Littérature de la Francophonie / Literature of la Francophonie
FREN3306H - La pensée française 1 / French Thought 1
FREN3307H - La pensée française 2 / French Thought 2
FREN3506H - La civilisation française 1 / French Civilization 1
FREN3507H - La Civilisation Française 2 / French Civilization 2
FREN3831H - Le roman quebecois des origines à 1945 / The Quebecois Novel from Its Origin to 1945
FREN3832H - Le roman québécois contemporain / The Contemporary Quebecois Novel
FREN3900Y - Lectures dirigées / Reading Course
FREN3901H - Lectures dirigées / Reading Course
FREN4010Y - Initiation à la recherche littéraire / Introduction to Literary Research
FREN4020D - Recherche littéraire avancée / Advanced Literary Research
FREN4030H - Expérience pratique: Cultures et Communautés Francophones / Placement: Francophone Cultures and Communities
FREN4031H - Expérience pratique: Cultures et Communautés Francophones / Placement: Francophone Cultures and Communities
FREN4053H - La communication en contexte / Communication in Context
FREN4059H - Reading French
FREN4150Y - L'analyse du discours / Discourse Analysis
FREN4200Y - La critique littéraire / Literary Criticism
FREN4201H - Création littéraire / Creative Writing
FREN4202H - La critique littéraire française / French Literary Critique

FREN4227H - Le fantastique Québécois et et franco-canadienne / Quebecois and Franco-Canadian Fantastic
FREN4228H - Science-Fiction Quebecoise Et Franco-Canadienne / Quebecois and Franco-Canadian Science Fiction
FREN4251H - Questions de genre / Gender Issues
FREN4301H - Actualités Franco-Canadiennes / French-Canadian Current Affairs
FREN4302H - Cinéma francophone / Francophone Cinema
FREN4500Y - Étude approfondie de la littérature québécoise / Advanced Study of Quebecois Literature
FREN4501H - Étude approfondie de la littérature québécoise / Advanced Study of Québécois Literature
FREN4521H - Montreal
FREN4611H - Littérature et contestation / Iterature and Contestation
FREN4700Y - Les cultures francophones / Francophone Cultures
FREN4701H - Les cultures francophones / Francophone Cultures
FREN4800Y - Étude approfondie de la littérature Française / Advanced Study of French Literature
FREN4801H - Étude approfondie de la littérature française / Advanced Study of French Literature
FREN4901H - Lectures dirigées / Reading Course
FREN4902H - Lectures dirigées / Reading Course
FRSL1020H - Beginner French 1 / Français débutant 1
FRSL1030H - Beginner French 2 / Français débutant 2
FRSL2020H - Intermediate French 1 / Français intermédiaire 1
FRSL2030H - Intermediate French 2 / Français intermédiaire 2
FRSL3020H - Advanced Intermediate French 1 / Français intermédiaire avancé 1
FRSL3030H - Advanced Intermediate French 2 / Français intermédiaire avancé 2
GESO4251H - Questions de genre / Gender Issues
HIST3506H - La civilisation française 1 / French Civilization 1
HIST3507H - La civilisation française 2 / French Civilization 2

Gender & Social Justice Subject Area

- Department Website
- Faculty & Research

The Department of Gender & Social Justice offers the following undergraduate degree programs and special program opportunities.

DEGREE PROGRAMS

- Bachelor of Arts (BA) in Gender & Social Justice
    - single-major Honours program (Co-op available)
    - joint-major Honours program
    - single-major General program
    - joint-major General program

SPECIAL PROGRAM OPPORTUNITIES

- Co-op
- Minor in Gender & Social Justice
- Option in Health & Medical Humanities
- Specializations *(open only to students in the Gender & Social Justice degree programs)*
    - Critical Race Studies
    - Feminist Studies
    - Gender, Law & Human Rights Advocacy
    - Sexuality Studies
- Trent/Swansea Dual Degree in Law & Arts (BA/LLB)

Programs

BA.GESO - Gender & Social Justice - BA General
BAH.GESO - Gender & Social Justice - BA Honours
BAH.GESO.COOP - Gender & Social Justice - Co-op
BAH.GESO.SWAN - Gender & Social Justice - BA Honours - Swansea Law
MINR.GESO - Gender & Social Justice - Minor
OPTN.HMED - Health & Medical Humanities - Option
SPEC.CRIT - Critical Race Studies - Specialization
SPEC.FEMS - Feminist Studies - Specialization
SPEC.HRAD - Gender, Law & Human Rights Advocacy - Specialization
SPEC.SEXS - Sexuality Studies - Specialization

Courses

AGRS2520H - Women in the Ancient World, 700 BCE-600 CE
AGRS3310H - Love, Sex, and Death in the Ancient World
AIST3653H - (Mis)adventures in AI: Decolonial Dreaming
ANTH3932H - Sex, Gender, and Science
ANTH4932H - Sex, Gender, and Science
CAST2245H - Contemporary Canadian Immigration
CAST2485H - Indigenous Women's Creative Non-Fiction
CAST2600Y - Documenting Canada
CAST2601H - Documenting Canada
CAST2711H - Acting Up! Feminism and History in Canada
CAST2755H - Women in Canada: Women and the Arts
CAST3141H - Gender, Health, and Environments
CAST3161H - Gender and Colonialism: Canada Before the Twentieth Century
CAST3162H - Modernizing Women: Twentieth-Century Canada
CAST3220H - Gender, Society, and Space
CAST3431H - Growing Gap: Gender (In)Justice in Canada
CAST3485H - Indigenous Women's Writing in Canada
CAST3506Y - Canadian Women's Writing
CAST3507H - Canadian Women's Writing
CAST3508H - Indigenous Genders, Sexualities and Relationships
CAST3672H - Gender, Diversity, and Intersectionalities
CAST3709H - Literatures of Girlhood

CAST3860H - Gender, Race, and Class
CAST3962H - Gender, Sexualities, and the Law
CAST3966H - Criminalizing Women

Geography Subject Area

- Program Website
- Faculty & Research

The Trent School of the Environment offers the following undergraduate degree programs and special program opportunities in Geography.

DEGREE PROGRAMS

- Bachelor of Arts (BA) in Geography
    - single-major Honours program (Co-op available)
    - joint-major Honours program
    - single-major General program
    - joint-major General program
- Bachelor of Science (BSc) in Geography
    - single-major Honours program (Co-op available)
    - joint-major Honours program
    - single-major General program
    - joint-major General program

SPECIAL PROGRAM OPPORTUNITIES

- Minor in Geography
- Option in Planning
- Specialization in Climate Change *(open only to students in the Geography and Environmental & Resource Science/Studies degree programs)*
- Trent/Swansea Dual Degree in Law & Arts (BA/LLB)
- Accelerated Master's program

Programs

BA.GEOG - Geography - BA General
BAH.GEOG - Geography - BA Honours
BAH.GEOG.COOP - Geography - Co-op (BA)
BAH.GEOG.SWAN - Geography - BA Honours - Swansea Law
BS.GEOG - Geography - BSc General
BSH.GEOG - Geography - BSc Honours
BSH.GEOG.COOP - Geography - Co-op (BSc)
MINR.GEOG - Geography - Minor

Courses

ADMN3760H - The Geography of Beer
ANTH2500H - The World Food System
ANTH3175H - The Archaeology of Natural Disasters
ANTH3185H - The Archaeology of Climate Change
BIOL4060H - The Geochemistry of Natural Waters
BIOL4070H - The Fate of Contaminants in the Aquatic Environment
BIOL4270H - Nutrient Cycling in Ecosystems
CAST1045H - Introduction to the Circumpolar World
CAST2043H - Canada the Land Before 1885
CAST2044H - Canada the Land After 1885
CAST2245H - Contemporary Canadian Immigration
CAST2320H - Lands and Environments of the Circumpolar North

CAST2330H - Changing Resources of the Circumpolar North
CAST2710H - Cities: an Introduction to Urban Geography
CAST2810H - Canada's People and Places
CAST2811H - The International Arctic: Environment, Diplomacy, and Geopolitics
CAST3041H - The Changing Land
CAST3042H - Reading the Wilderness in Canada
CAST3220H - Gender, Society, and Space
CAST3330H - Protected and Conserved Areas Management
CAST3370H - Geography of Tourism
CAST3490H - Contemporary Issues of the Circumpolar World
CAST3621H - The Critical Place of Law in Canadian Society
CAST3640H - Geography of the Polar Regions
CAST3711H - Urban and Regional Planning
CAST3720H - Urban Environments
CAST3730H - Social Geography
CAST3760H - The Geography of Beer
CAST4043H - Windy Pine Summer Institute
CAST4555H - City, Economy, and Society: Urban Restructuring and the Global Economy
CAST4621H - The Critical Place of Law in Canadian Society
CLIM1060H - Introduction to Climate Change
CLIM3470H - Climate Change and Its Impacts
CLIM4001H - Applied Climate Models
EDUC2043H - Canada the Land Before 1885
EDUC2044H - Canada the Land After 1885
EDUC3041H - The Changing Land
EGEO1040H - Earth's Physical Processes and Environments
EGEO2001H - Earth Materials
EGEO2090H - Introduction to Geographical Information Systems
EGEO2180H - Natural Hazards
EGEO2401H - Environmental Geology
EGEO2540H - Earth's Dynamic Landforms
EGEO3001H - Applied and Environmental Geophysics
EGEO3003H - Field Methods in Environmental Geoscience
EGEO3530H - Hydrology
EGEO3560H - Soil Science
EGEO3590H - Sedimentary Processes
EGEO4020D - Honours Thesis
EGEO4060H - The Geochemistry of Natural Waters
EGEO4070H - The Fate of Contaminants in the Aquatic Environment
EGEO4080H - Hydrogeology
ERSC1040H - Earth's Physical Processes and Environments
ERSC1060H - Introduction to Climate Change
ERSC2080H - Natural Science Statistics
ERSC2090H - Introduction to Geographical Information Systems

Global Justice & Development Subject Area

- Department Website
- Faculty & Research

The Department of Global Justice & Development offers the following undergraduate degree programs and special program opportunities.

DEGREE PROGRAMS

- Bachelor of Arts (BA) in Global Development Studies
    - single-major Honours program (Co-op available)
    - joint-major Honours program
    - joint-major General program
- Bachelor of Arts (BA) in Human Rights & Global Justice
    - single-major Honours program (Co-op available)
    - joint-major Honours program
    - joint-major General program

SPECIAL PROGRAM OPPORTUNITIES

- Co-ops
    - Global Development Studies
    - Human Rights & Global Justice
- Minors
    - Global Development Studies

        - Human Rights & Global Justice
- Options
    - Global Development Studies
    - Latin American Studies
- Specializations *(open only to students in the Global Development Studies or Human Rights & Global Justice degree programs)*
    - African Studies
    - Gender, Law & Human Rights Advocacy
    - Global Innovation, Entrepreneurship & Social Change
    - Global Migration & Refugee Studies
    - International Law & Policy
    - Latin American Studies
- Study Abroad Programs
    - Term Abroad – Bolivia
    - Year Abroad – Ghana
- Trent/Swansea Dual Degree in Law & Arts (BA/LLB)
    - Global Development Studies
    - Human Rights & Global Justice

Programs

BA.GDST - Global Development Studies - BA General
BAH.GDST - Global Development Studies - BA Honours
BAH.GDST.COOP - Global Development Studies - Co-op
BAH.GDST.SWAN - Global Development Studies - BA Honours - Swansea Law
BAH.HURI - Human Rights & Global Justice - BA Honours
BAH.HURI.COOP - Human Rights & Global Justice - Co-op
MINR.GDST - Global Development Studies - Minor
MINR.HURI - Human Rights & Global Justice - Minor
OPTN.IDST - Global Development Studies - Option
OPTN.LASP - Latin American Studies - Option

Health Subject Area

- Program Website
- Faculty & Research

The Department of Kinesiology offers the following undergraduate degree program in Health.

- Bachelor of Science (BSc) in Health
    - single-major Honours program

Programs

BSH.HEAL - Health - BSc Honours

Courses

HEAL1005H - Foundations of Health and Behaviour
HEAL2005H - Health and Risk Behaviour
HEAL3001H - Factors Affecting Health and Behaviour
HEAL3755H - Program Evaluation in Health and Health Care Evaluations
HEAL4002H - Community Service Learning
HEAL4003H - HEAL 4003H: Changing Health Behaviour - Health Promotion and Communication
HEAL4010Y - Research Thesis Project
HEAL4700H - Lifestyle and Mental Health
KINE4010Y - Research Thesis/Project
KINE4700H - Lifestyle and Mental Health
NURS1005H - Foundations of Health and Behaviour
NURS2005H - Health and Risk Behaviour
NURS3755H - Program Evaluation in Health and Health Care Evaluations
NURS4700H - Lifestyle and Mental Health
PSYC3755H - Program Evaluation in Health and Health Care Evaluations
PSYC4700H - Lifestyle and Mental Health

History Subject Area

- Department Website

- Faculty & Research

The Department of History offers the following undergraduate and graduate degree programs, and special program opportunities.

UNDERGRADUATE DEGREE PROGRAMS

- Bachelor of Arts (BA) in History
    - single-major Honours program (Co-op available)
    - joint-major Honours program
    - single-major General program
    - joint-major General program

GRADUATE DEGREE PROGRAM

- Master of Arts (MA) in History

SPECIAL UNDERGRADUATE PROGRAM OPPORTUNITIES

- Co-op
- Minor in History
- Option in Digital Humanities
- Trent/Swansea Dual Degree in Law & Arts (BA/LLB)
- Accelerated Master's program

GRADUATE PROGRAM OPPORTUNITIES

- Collaborative Specialization
    - Aging Studies
    - Feminist & Gender Studies

Programs

BA.HIST - History - BA General
BAH.HIST - History - BA Honours
BAH.HIST.COOP - History - Co-op
BAH.HIST.SWAN - History - BA Honours - Swansea Law
MA.HIST.COUR - History - MA (Major Research Paper)
MA.HIST.THES - History - MA (Thesis)

Indigenous Studies Subject Area

- Chanie Wenjack School for Indigenous Studies Website
- Graduate Website
- Faculty & Research
- Graduate Faculty

The Chanie Wenjack School for Indigenous Studies offers the following undergraduate and graduate degree programs, and special program opportunities.

UNDERGRADUATE DEGREE PROGRAMS

- Bachelor of Science (BSc) in Indigenous Environmental Science
    - single-major Honours program
    - joint-major Honours program
    - single-major General program
    - joint-major General program
    - Bachelor of Arts (BA) in Indigenous Environmental Studies
    - single-major Honours program (Co-op available)
    - joint-major Honours program
    - single-major General program
    - joint-major General program
- Bachelor of Arts (BA) in Indigenous Studies
    - single-major Honours program (Co-op available)
    - joint-major Honours program
    - single-major General program
    - joint-major General program

GRADUATE DEGREE PROGRAMS

- Master of Arts (MA) in Canadian Studies & Indigenous Studies
- Doctor of Philosophy (PhD) in Indigenous Studies

SPECIAL UNDERGRADUATE PROGRAM OPPORTUNITIES

- Co-ops
    - Indigenous Studies
    - Indigenous Environmental Studies
- Diplomas
    - Indigenous Environmental Studies & Sciences
    - Indigenous Learning
    - Indigenous Learning – For Future Nursing Students
- Minors
    - Indigenous Studies
    - Indigenous Environmental Studies & Sciences
- Options
    - Indigenous Reconciliation & Resurgence

- Specializations *(open only to students in the Indigenous Environmental Studies/Sciences and Indigenous Studies undergraduate degree programs)*
    - Applied Indigenous Knowledge
    - Indigenous Performance
    - Nishinaabemowin
- Trent/Swansea Dual Degree in Law & Arts (BA/LLB) – Indigenous Studies
- Accelerated Master's program

GRADUATE PROGRAM OPPORTUNITIES

- Collaborative Specialization
    - Aging Studies
    - Feminist & Gender Studies

Programs

BA.IESS - Indigenous Environmental Studies - BA General
BA.INDG - Indigenous Studies - BA General

SUST5627H - Living & Learning Anishinaabe

Instrumental Chemical Analysis Subject Area

Website
Faculty & Research

The Instrumental Chemical Analysis graduate program offers the following graduate degree program.

DEGREE PROGRAM

- Master of Instrumental Chemical Analysis (M.ICA)

SPECIAL PROGRAM OPPORTUNITIES

- Graduate Diploma (GDip) in Instrumental Chemical Analysis

Programs

GDIP.ICA - Instrumental Chemical Analysis - G.Dip (Course Based)
M.ICA - Instrumental Chemical Analysis - M.ICA (Co-op)

Courses

COOP5000H - Professional Foundations
ENLS5088H - Mass Spectrometry
ICAN5001H - Principles of Mass Spectrometry
ICAN5003H - Accreditation and Quality Mgmt Systems
ICAN5004H - Statistical Analysis & Data Processing
ICAN5005H - Instrument Maintenance & Repair
ICAN5110H - Troubleshooting Analytical Meth. & Inst.
ICAN5120H - Sample Preparation
ICAN5121H - ICP-MS and LC-MS-MS
ICAN5122H - Other Analytical Methods Overview
ICAN5200H - COOP Practicum

Interdisciplinary Social Rsrch Subject Area

Website
Faculty & Research

The Interdisciplinary Social Research program offers the following graduate degree program.

DEGREE PROGRAM

- Doctor of Philosophy (PhD) in Interdisciplinary Social Research

GRADUATE PROGRAM OPPORTUNITIES

- Collaborative Specialization
  - Aging Studies
  - Feminist & Gender Studies

Programs

PHD.IDSR - Interdisciplinary Social Research - PhD

Courses

ARTM5000H - Core Issues in Contemporary Curation
ARTM5020H - Writing for Arts Organizations
ARTM5500H - Arts Management Practice
CAST6550H - Environmental Policy Analysis
CSID5550H - Environmental Policy Analysis
IDSR5118H - Applied Biostatistics for Nursing & Health Sciences
IDSR5119H - Program Evaluation for Healthcare Leadership
IDSR5120H - Philosophy of Nursing
IDSR6000H - Core Issues in Contemporary Curation
IDSR6010H - Theoretical Foundations of Social Inquiry
IDSR6020H - Interdisciplinary & Transdisciplinary Research Methods
IDSR6022H - Writing for Arts Organizations
IDSR6030H - Special Topics in Critical Social Justice
IDSR6040H - Advanced Studies in Community-Engaged Research
IDSR6050H - Independent Reading & Research Course
IDSR6060H - Seminar on Interdisciplinary Scholarship
IDSR6100H - PhD Candidacy Exam
IDSR6500H - Arts Management Practice
IDSR6550H - Environmental Policy Analysis
NURS5118H - Applied Biostatistics for Nursing & Health Sciences
NURS5119H - Program Evaluation for Healthcare Leadership
NURS5120H - Philosophy of Nursing
SUST5550H - Environmental Policy Analysis

Kinesiology Subject Area

- Department Website
- Faculty & Research

The Department of Kinesiology offers the following undergraduate degree program.

- Bachelor of Science in Kinesiology (BScKin)
    - single-major Honours program (Co-op available)

Programs

BSH.KINE - Kinesiology - BScKin Honours
BSH.KINE.COOP - Kinesiology - Co-op

Courses

GESO3134H - Gender, Sports, and Social Justice
HEAL4010Y - Research Thesis Project
HEAL4700H - Lifestyle and Mental Health
KINE1001H - Introduction to Kinesiology and Personal Health
KINE2001H - Kinesiology 1: Anatomy of Human Movement Movement
KINE2002H - Kinesiology 2: Exercise Physiology
KINE2003H - Movement and Well-Being in Indigenous Health
KINE2020H - Philosophy of Sport & Recreation
KINE2210H - Brain and Body in Action
KINE3001H - Biomechanics
KINE3002H - Introduction to Injury Management
KINE3025H - Philosophy of Nature Sport and Recreation
KINE3050H - Occupational Ergonomics
KINE3134H - Gender, Sports, and Social Justice
KINE3725H - Sport Psychology
KINE3801H - Research Practicum
KINE3802H - Research Practicum
KINE4002H - Movement Disorders and the Impact of Exercise
KINE4005H - Exercise Testing and Prescription
KINE4010Y - Research Thesis/Project
KINE4050H - Professional Practice Theory
KINE4051H - Professional Practicum
KINE4190H - Biology of Physical Activity
KINE4700H - Lifestyle and Mental Health
KINE4710H - Exercise in Chronic Disease
NURS4700H - Lifestyle and Mental Health
PHIL2020H - Philosophy of Sport and Recreation
PHIL3025H - Philosophy of Nature Sport and Recreation
PSYC2210H - Brain and Body in Action
PSYC3725H - Sport Psychology
PSYC4700H - Lifestyle and Mental Health

Languages & Linguistics Subject Area

- Program Website
- Faculty

The Languages & Linguistics Program offers the following special program opportunities.

SPECIAL PROGRAM OPPORTUNITIES

- Undergraduate certificate programs
    - American Sign Language
    - Language & Communication Sciences
    - Spanish
- Options
    - Languages
    - Linguistics

See Courses for language and linguistics courses offered by the Languages & Linguistics Program. For French language courses and programs, see French Studies. For Greek and Latin courses, see Ancient Greek & Roman Studies. For Nishinaabemowin and oral Mohawk courses, see Indigenous Studies.

Programs

CERT.ASL - American Sign Language - Undergraduate Certificate
CERT.LCS - Language & Communication Sciences - Undergraduate Certificate
CERT.SPAN - Spanish - Undergraduate Certificate
OPTN.LANG - Languages - Option
OPTN.LING - Linguistics - Option

Courses

ANTH2003H - Morphology
ANTH2004H - Phonology
ANTH2010H - Phonetics
ANTH2020H - Historical Linguistics: How Language Changes
ANTH2311H - Linguistic Anthropology
ANTH3003H - Syntax and Semantics
ANTH3070H - Sociolinguistics: Language in Society
ANTH3311H - Anthropology of Language
ANTH3860H - Field Methods in Linguistics
ANTH4747H - Writing Systems
ARAB1000Y - Introduction to Arabic
ARAB1001H - Introduction to Arabic 1
ARAB1002H - Introduction to Arabic 2
ARAB2500H - Arab Cultures and Identities
ARAB2600H - Arabic Literature and Film
ASLA1001H - Introduction to American Sign Language 1
ASLA1002H - Introduction to American Sign Language 2
ASLA2001H - Intermediate American Sign Language 1
ASLA2002H - Intermediate American Sign Language 2
CHIN1000Y - Introduction to Chinese
CHIN1001H - Introduction to Chinese 1
CHIN1002H - Introduction to Chinese 2
CHIN2100H - Oral Proficiency Through Chinese Films
CHIN2111H - Chinese Culture at a Glance
GRMN1000Y - Introduction to German
GRMN1001H - Introduction to German 1
GRMN1002H - Introduction to German 2
GRMN2000Y - Intermediate German
GRMN2001H - Intermediate German 1
GRMN2002H - Intermediate German 2
GRMN2100H - Castles, Crusades, and Cars: German Cultural Shifts
ITAL1001H - Introduction to Italian 1
ITAL1002H - Introduction to Italian 2
LING1000Y - Introduction to Linguistics

LING1001H - Sounds, Words, and Sentences: Concepts in Linguistics
LING1002H - Linguistics in Action: How Languages Are Used
LING2003H - Morphology
LING2004H - Phonology
LING2010H - Phonetics
LING2020H - Historical Linguistics: How Language Changes
LING2050H - Languages of the World
LING2311H - Linguistic Anthropology
LING3003H - Syntax and Semantics
LING3010H - The Story of English: the First Thousand Years
LING3050H - Language and Style: Analyzing How Literary and Non-Literary Texts Make Meaning
LING3060H - Second Language Acquisition: Theory, Methods, and Practice
LING3070H - Sociolinguistics: Language in Society
LING3311H - Anthropology of Language
LING3500H - Current Issues in Speech-Language Pathology
LING3860H - Field Methods in Linguistics
LING4010Y - Thesis
LING4747H - Writing Systems
LING4901H - Reading Course
LING4902H - Reading Course
MDST3311H - Anthropology of Language
MDST4747H - Writing Systems
RUSS1001H - Introduction to Russian 1
RUSS1002H - Introduction to Russian 2
SOCI3070H - Sociolinguistics: Language in Society
SPAN1000Y - Introduction to Spanish
SPAN1001H - Introduction to Spanish 1
SPAN1002H - Introduction to Spanish 2
SPAN2000Y - Intermediate Spanish
SPAN2001H - Intermediate Spanish 1
SPAN2002H - Intermediate Spanish 2
SPAN2501H - Advanced Intermediate Spanish 1
SPAN2502H - Advanced Intermediate Spanish 2
SPAN2600Y - Spanish in a Bolivian Context
SPAN3001H - Advanced Spanish Grammar
SPAN3500H - Reading Spanish
SPAN4010Y - Honours Thesis
SPAN4901H - Reading Course

Management Subject Area

Website
Faculty & Research

The Management program offers the following graduate degree programs.

DEGREE PROGRAMS

- Master of Management (M.Mgt)
- Master of Management: Strategic Change Management (M.Mgt)
- Master of Management: Health Care Management (M.Mgt)

Programs

M.MGT - Management - MMgt (Durham, Course Based)
M.MGT.BRD - Management: Bridging - MMgt (Durham, Course Based)
M.MGT.BRDP - Management: Bridging - MMgt (Peterborough, Course Based)
M.MGT.FT - Management - MMgt Fast Track (Durham, Course Based)
M.MGT.HLFT - Management: Health Care Management Fast Track - MMgt (Durham, Course Based)
M.MGT.HLPF - Management: Health Care Management Fast Track - MMgt (Peterborough, Course Based)
M.MGT.HLTH - Management: Health Care Management - MMgt (Durham, Course Based)
M.MGT.HLTP - Management: Health Care Management - MMgt (Peterborough, Course Based)
M.MGT.P - Management - MMgt (Peterborough, Course Based)
M.MGT.PFT - Management - MMgt Fast Track (Peterborough, Course Based)
M.MGT.SCM - Management: Strategic Change Management - MMgt (Durham, Course Based)
M.MGT.SCMF - Management: Strategic Change Management Fast Track - MMgt (Durham, Course Based)

Courses

MSMG5000Y - Workplace Integrated Learning Project
MSMG5030H - Marketing Management
MSMG5050H - Managerial Economics
MSMG5100H - Application of Statistics
MSMG5120H - Organizational Effectiveness
MSMG5210H - Strategic HR Management
MSMG5220H - Financial Markets & Management
MSMG5240H - Healthcare Law and Ethics
MSMG5250H - Ethics for Organizations
MSMG5260H - Strategic Management
MSMG5300H - Accounting Concepts
MSMG5400H - Healthcare Systems & Policy
MSMG5410H - Hr Mgmt & Labour Relations Healthcare
MSMG5420H - Entrepreneurship
MSMG5450H - Health Economics
MSMG5710H - Legal Risks in Business
MSMG5720H - Supply Chain Management
MSMG5800H - Leaderships in Organizations
MSMG5899H - Reading Course
MSMG5900H - Change Management Strategies
MSMG5920H - Crisis Management
MSMG5940H - Negotiation & Conflict Resolution
MSMG5960H - Sim-Based Decision Making

Materials Science Subject Area

Website
Faculty & Research

The Materials Science program offers the following graduate degree programs.

DEGREE PROGRAMS

- Master of Science (MSc) in Materials Science
- Doctor of Philosophy (PhD) in Materials Science

DIPLOMA PROGRAM

- Graduate Diploma (G.Dip) in Materials Science

Programs

MS.MTSC - Materials Science - MSc (Thesis)
PHD.MTSC - Materials Science - PhD

Courses

MTSC6000H - Graduate Seminar in Science Communication I
MTSC6010H - Physics and Chemistry of Materials
MTSC6012H - Physics of Materials
MTSC6020H - Advanced Topics in Materials Science
MTSC6100H - Graduate Seminar in Science Communication II
MTSC6110H - Thermodynamics and Statistical Mechanics of Materials
MTSC6120H - Theory of the Solid State
MTSC6130H - Surface Science and Catalysis
MTSC6140H - Experimental Techniques in Materials Characterization
MTSC6240H - Biomaterials
MTSC6250H - Polymer Science & Engineering
MTSC6260H - Topics in Material Science I
MTSC6270H - Topics in Materials Science II
MTSC6330H - Electrochemical Methods
MTSC6520H - Nanomaterials
MTSC6530H - Carbon-Based Materials
MTSC7000H - Materials Science Ph.D. Candidacy Exam

Mathematics & Statistics Subject Area

- Department Website
- Faculty & Research

The Department of Mathematics & Statistics offers the following undergraduate degree programs, special program opportunities, and postgraduate certificate programs.

DEGREE PROGRAMS

- Bachelor of Science (BSc) in Financial Science
    - single-major Honours program (Co-op available)
- Bachelor of Science (BSc) in Mathematical Economics
    - single-major Honours program
- Bachelor of Science (BSc) in Mathematical Physics
    - single-major Honours program
- Bachelor of Science (BSc) in Mathematics
    - single-major Honours program
    - joint-major Honours program
    - single-major General program
    - joint-major General program

SPECIAL PROGRAM OPPORTUNITIES

- Minor
    - Mathematics
- Specializations *(open only to students in the Honours Mathematics degree programs)*
    - Mathematical Finance
    - Statistics

POSTGRADUATE CERTIFICATE PROGRAMS

- Applied Artificial Intelligence & Financial Analytics

Programs

BS.MATH - Mathematics - BSc General
BSH.FINA - Financial Science - BSc Honours
BSH.FINA.COOP - Financial Science - Co-op
BSH.MAEC - Mathematical Economics - BSc Honours
BSH.MAPH - Mathematical Physics - BSc Honours
BSH.MATH - Mathematics - BSc Honours
CERT.AIFA - Applied Artificial Intelligence & Financial Analytics - Postgraduate Certificate
MINR.MATH - Mathematics - Minor
SPEC.MFIN - Mathematical Finance - Specialization
SPEC.STAT - Statistics - Specialization

Courses

AIST2000H - Statistical Learning 1
AIST2010H - Statistical Learning 2
AIST3561H - Statistics 3: Advanced Statistics
BIOL4230H - Mathematical Biology
COIS2600H - Discrete 1: Structures
COIS3180H - Numerical and Computational Methods
COIS3350H - Linear Programming
ECON4251H - Advanced Mathematical Methods for Economics
EDUC2081H - Mathematics for Teacher Education: Numbers and Geometry
EDUC2082H - Mathematics for Teacher Education: Growth, Statistics, and Probability
FINA4101H - Options and Futures
FINA4102H - Portfolio and Risk Management

FINA4103H - Financial Econometrics
MATH1001H - Precalculus Mathematics
MATH1005H - Calculus for Business and Social Sciences
MATH1006H - Calculus for the Biological Sciences
MATH1051H - Non-Calculus Statistics 1: Elementary Probability and Statistics
MATH1052H - Non-Calculus Statistics 2 : Elementary Statistical Methods
MATH1080H - Math for Everyday Life
MATH1110H - Calculus 1: Limits, Derivatives, and Integrals
MATH1111H - Calculus 1
MATH1120H - Calculus 2: Integrals and Series
MATH1121H - Calculus 2
MATH1122H - Calculus 2 for Chemistry
MATH1350H - Algebra 1: Linear Algebra
MATH1550H - Probability 1: Introduction to Probability
MATH2081H - Mathematics for Teacher Education: Numbers and Geometry
MATH2082H - Mathematics for Teacher Education: Growth, Statistics, and Probability
MATH2110H - Calculus 3: Calculus of Several Variables
MATH2120H - Calculus 4: Vector Calculus
MATH2130H - Introductory Classical Dynamics
MATH2150H - Ordinary Differential Equations
MATH2200H - Mathematical Reasoning
MATH2260H - Euclidean Geometry
MATH2350H - Algebra 2: Vector Spaces
MATH2560H - Statistics 1: Mathematical Statistics
MATH2570H - Probability 2: Intermediate Probability
MATH2600H - Discrete 1: Structures
MATH3130H - Classical Mechanics
MATH3150H - Partial Differential Equations
MATH3160H - Methods of Applied Mathematics
MATH3180H - Numerical & Computational Methods
MATH3200H - Number Theory
MATH3310H - Algebra 3: Abstract Algebra
MATH3350H - Linear Programming
MATH3510H - Mathematical Finance
MATH3560H - Statistics 2: Linear Models
MATH3561H - Statistics 3: Advanced Statistics
MATH3600H - Topics in Discrete Mathematics
MATH3630H - Discrete 2: Graph Theory
MATH3770H - Complex Analysis
MATH3790H - Analysis 1: Real Analysis
MATH3830H - A Survey of the History of Mathematics
MATH3900Y - Reading Course
MATH3901H - Reading Course
MATH3902H - Reading Course
MATH4120H - Mathematical Modeling 1
MATH4140H - Advanced Classical Mechanics
MATH4230H - Mathematical Biology
MATH4251H - Advanced Mathematical Methods for Economics
MATH4360H - Algebra 4: Rings and Fields
MATH4510H - Mathematical Risk Management
MATH4560H - Statistics 4: Topics in Statistics
MATH4561H - Statistics 5: Sampling and Experimental Design
MATH4570H - Probability 3: Stochastic Processes
MATH4630H - Discrete 3: Combinatorics
MATH4790H - Analysis 2: Topology and Measure
MATH4800H - Mathematics Honours Project
MATH4850Y - Community-Based Research Project
MATH4851H - Community-Based Research Project
MATH4852H - Community-Based Research Project
MATH4855H - Integrated Internship
MATH4900Y - Reading Course
MATH4903H - Reading Course
MATH4904H - Reading Course
PHYS2130H - Introductory Classical Dynamics
PHYS2150H - Ordinary Differential Equations
PHYS3130H - Classical Mechanics
PHYS3150H - Partial Differential Equations
PHYS3160H - Methods of Applied Mathematics
PHYS4140H - Advanced Classical Mechanics

Media Studies Subject Area

- Program Website
- Faculty & Research

The Department of Culture, Arts, and Media offers the following undergraduate degree programs and special program opportunities in Media Studies.

DEGREE PROGRAMS

- Bachelor of Arts (BA) in Media Studies
    - single-major Honours program (Co-op available)
    - joint-major Honours program
    - single-major General program
    - joint-major General program

SPECIAL PROGRAM OPPORTUNITIES

- Co-op
- Minor in Media Studies
- Trent/Swansea Dual Degree in Law & Arts (BA/LLB)
- Accelerated Master's program

Programs

BA.MDST - Media Studies - BA General
BAH.MDST - Media Studies - BA Honours
BAH.MDST.COOP - Media Studies - Co-op
BAH.MDST.SWAN - Media Studies - BA Honours - Swansea Law
MINR.MDST - Media Studies - Minor

Courses

AGRS2650H - Antiquity on Screen
AIST3653H - (Mis)adventures in AI: Decolonial Dreaming
ANTH2312H - Anthropology of Media
ANTH3311H - Anthropology of Language
ANTH3745H - Virtual Worlds: The Anthropology of Online Communities
ANTH3748H - Anthropology of Animation
ANTH4747H - Writing Systems
ANTH4820H - Anthropology of Technology
CAST2600Y - Documenting Canada
CAST2601H - Documenting Canada
CAST3031H - TV Guide: Television in Canada
CAST3450H - The Sociology of Communication and Media in Canada
COIS1010H - The Digital World
COIS2800H - Digital Culture
COIS2830H - Multimedia and Design
COIS3360H - Social Media Ethics
COIS3370H - Cyberethics
COIS3533H - Game Studies
COIS3560H - Human-Computer Interaction
COIS3745H - Virtual Worlds: The Anthropology of Online Communities
COIS3820H - History and Impact of Computing
CUST1535H - Introduction to Media Studies
CUST2035Y - Media and Society
CUST2133H - Workshop: Video Essay Production
CUST2184H - Workshop: Experimental Animation
CUST2186H - Workshop: Photography
CUST2210H - Gender, Race, and Popular Culture
CUST2236H - New Media Literacy
CUST2534H - The Media City
CUST2535H - Media and Society
CUST2581H - Introduction to Film 1: What Is Cinema?

CUST2582H - Introduction to Film 2: Film Movements, Film History
CUST2650H - Antiquity on Screen
CUST2805H - Green Screen: Film and Environmental History
CUST3031H - TV Guide: Television in Canada
CUST3129H - Workshop: Worldbuilding
CUST3133H - Workshop: Game Design
CUST3139H - Workshop: Radio and Podcast
CUST3142H - Workshop: Experimental Music
CUST3143H - Workshop: Electronic Music
CUST3184H - Workshop: Documentary Film
CUST3186H - Workshop: Experimental Film
CUST3465H - Realities and Futurities in Film
CUST3475H - Media of Politics
CUST3524H - Storyworlds Across Media
CUST3530H - Social Media and Power
CUST3531H - War and Media
CUST3532H - Issues in Global Media
CUST3533H - Game Studies
CUST3535H - Television Studies
CUST3538H - Radio Studies
CUST3545H - Music and Media - An Archaeology
CUST3549H - Producing Punk
CUST3580H - Text and Image
CUST3581H - World Cinema 1: Experiment and Innovation
CUST3582H - World Cinema 2: Images of Globalization
CUST3748H - Anthropology of Animation
CUST4041Y - Internship in Media and Cultural Studies
CUST4091H - American Visual Culture
CUST4136H - Workshop: Computational Arts
CUST4523H - Shapeshifters: Narrative Adaptations Across Media

Nursing Subject Area

- School Website
- Faculty & Research
- Graduate Studies Website

The Trent/Fleming School of Nursing offers the following undergraduate and graduate degree and diploma programs.

UNDERGRADUATE DEGREE PROGRAMS

- Bachelor of Science in Nursing (BScN)
    - Collaborative program
    - Compressed program
    - Post-bridge PN to BScN pathway

GRADUATE DEGREE PROGRAM

- Master of Science in Nursing (MScN)
    - Thesis program
    - Project program

Programs

BSN.COMP - Nursing - BScN - Compressed
BSN.NUGB - Nursing - BScN - Compressed at George Brown
BSN.NURS - Nursing - BScN - Collaborative
MSN.NURS.PROJ - Nursing - MScN (Project)
MSN.NURS.THES - Nursing - MScN (Thesis)

Courses

ECON2015H - Critical Perspectives on Aging
ERSC4740Y - Critical Investigations in Indigenous Peoples' Health and the Environment
ERST4740Y - Critical Investigations in Indigenous Peoples' Health and the Environment
GEOG3820H - Health Geography
GESO2121H - Women and Health
GESO3022H - Researching Women's Lives
GESO3031H - Doing Social Justice Research Making Social Change
GESO4208H - Nursing, Feminism, and Women's Health
HEAL1005H - Foundations of Health and Behaviour
HEAL2005H - Health and Risk Behaviour
HEAL3755H - Program Evaluation in Health and Health Care Evaluations
HEAL4700H - Lifestyle and Mental Health
IDSR5118H - Applied Biostatistics for Nursing & Health Sciences
IDSR5119H - Program Evaluation for Healthcare Leadership
IDSR5120H - Philosophy of Nursing
IESS4740Y - Critical Investigations in Indigenous Peoples' Health and the Environments
INDG4740Y - Critical Investigations in Indigenous Peoples' Health and the Environment
KINE4700H - Lifestyle and Mental Health
NURS1002H - Introduction to Foundational Practice Concepts
NURS1005H - Foundations of Health and Behaviour
NURS1010H - Relational Inquiry
NURS1020H - Clinical Practice in a Residential Setting
NURS1100H - Health Assessment
NURS1550H - Introductory Life Sciences for Health Professionals
NURS2000H - Health Promotion and Population Health
NURS2001H - The Family in the Community
NURS2003H - Nursing Therapeutics and Disease Condition
NURS2005H - Health and Risk Behaviour
NURS2015H - Critical Perspectives on Aging
NURS2016H - Introduction to Traditional Chinese Medicine
NURS2020H - Community-Based Nursing Practice
NURS2021H - Family Focused Practice
NURS2022H - International Placement: Central America
NURS2031H - Quantitative Research for Health Care
NURS2121H - Women and Health
NURS2550H - Advanced Life Sciences for Health Professionals
NURS3000H - Experiencing Acute Illness
NURS3001H - Living With Chronic Disease
NURS3004H - The Nurse As Leader and Advocate
NURS3005H - Role Transition - RPN to RN
NURS3020H - Clinical Practice Focused on Acute Care
NURS3021H - Clinical Practice Focused on Chronic Disease Management
NURS3022H - Researching Women's Lives
NURS3031H - Qualitative Research for Health Care Professionals

NURS3550H - Pharmacology for Health Professionals
NURS3560H - Advanced Pathophysiology and Pharmacology
NURS3755H - Program Evaluation in Health and Health Care Evaluations
NURS3820H - Health Geography
NURS3900H - Reading Course
NURS4005H - Diverse Perspectives on Dementia
NURS4009H - Fundamentals of Cognitive Behaviour Therapy
NURS4011H - Thesis 1
NURS4012H - Thesis 2
NURS4020C - Independent Nursing Practice A
NURS4021C - Independent Nursing Practice B
NURS4100H - The Concept of Marginalization and At-Risk Groups
NURS4102H - Cultural Safety in Nursing
NURS4103H - Workplace Health, Safety, and Well-Being of the Nurse
NURS4104H - Sociopolitical Action and Advocacy in Health Care
NURS4105H - Leadership in Contemporary Nursing
NURS4106H - Health Policy and the Profession of Nursing
NURS4108H - Transitions Towards Health in Illness
NURS4109H - Introduction to Forensic Nursing
NURS4201H - Primary Health Care
NURS4203H - Rural Nursing Practice
NURS4204H - Contemporary Issues in Aging and Health
NURS4205H - Mental Health Care
NURS4207H - Palliative Care
NURS4208H - Nursing, Feminism, and Women's Health
NURS4700H - Lifestyle and Mental Health
NURS4740Y - Critical Investigations in Indigenous Peoples' Health and the Environment
NURS5001H - Adv. MH I: Foundations
NURS5002H - Adv. MH II: Alterations in Mental Healt
NURS5003H - Adv. MH III: Mental Health Promotion
NURS5004H - Adv. MH IV: Substance Use and Addiction
NURS5007H - Project Course
NURS5009H - Adv. MH IV: Cognitive Behaviour Therapy
NURS5020H - Practicum
NURS5021H - Advancing Nursing Through Leadership
NURS5090H - Special Topics
NURS5096D - Advanced Professional Practice Thesis
NURS5097Y - Advanced Professional Practice Project
NURS5100H - Diverse Perspectives on Dementia
NURS5111H - Public Policy & Health Promotion
NURS5118H - Applied Biostatistics for Nursing & Health Sciences
NURS5119H - Program Evaluation for Healthcare Leadership
NURS5120H - Philosophy of Nursing
NURS5123H - Qualitative Research Methods
NURS5901H - Reading Course
PSYC3755H - Program Evaluation in Health and Health Care Evaluations
PSYC4700H - Lifestyle and Mental Health
SOCI2015H - Critical Perspectives on Aging

Philosophy Subject Area

- Department Website
- Faculty & Research

The Department of Philosophy offers the following undergraduate degree programs and special program opportunities.

DEGREE PROGRAMS

- Bachelor of Arts (BA) in Philosophy
    - single-major Honours program (Co-op available)
    - joint-major Honours program
    - single-major General program
    - joint-major General program

SPECIAL PROGRAM OPPORTUNITIES

- Co-op
- Minor in Philosophy
- Option in Applied Ethics
- Option in Pre-modern Studies
- Specialization in Ethics *(open only to students in the Philosophy degree programs)*
- Trent/Swansea Dual Degree in Law & Arts (BA/LLB)

Programs

BA.PHIL - Philosophy - BA General
BAH.PHIL - Philosophy - BA Honours
BAH.PHIL.COOP - Philosophy - Co-op
BAH.PHIL.SWAN - Philosophy - BA Honours - Swansea Law
MINR.PHIL - Philosophy - Minor
OPTN.APETH - Applied Ethics - Option
OPTN.PMOD - Pre-modern Studies - Option
SPEC.ETHS - Ethics - Specialization

Courses

ADMN4250H - Business Ethics and Corporations
ADMN4260H - Ethics and Capitalism
AGRS2420H - Ancient Philosophy 1: Pre-Socratics to Plato
AGRS2430H - Ancient Philosophy 2: Aristotle and the Hellenists
AGRS4430H - Advanced Topics in Ancient Philosophy
AIST3270H - Philosophy of Artificial Intelligence
AIST3410H - Non-Classical Logic
AIST4270H - Ethics of Artificial Intelligence
CAST2250H - Introduction to Democratic Leadership
COIS2410H - Symbolic Logic
COIS3270H - Philosophy of Artificial Intelligence
COIS3360H - Social Media Ethics
COIS3370H - Cyberethics
COIS3410H - Non-Classical Logic
CRIM2618H - Responding to Violence
EDUC2200H - Philosophy of Education
ERST3301H - Environmental Ethics
ERST3302H - Animals and Society
GESO3050H - Philosophy, Gender, and Feminism
GESO3400H - Feminism and Disability
KINE2020H - Philosophy of Sport & Recreation
KINE3025H - Philosophy of Nature Sport and Recreation
MDST2590H - Philosophy and Film
MDST3360H - Social Media Ethics
MDST3370H - Cyberethics

PHIL1000H - Knowledge and Reality
PHIL1100H - Introduction to Ethics
PHIL1200H - Critical Thinking
PHIL2010H - Love and Desire
PHIL2020H - Philosophy of Sport and Recreation
PHIL2030H - Death
PHIL2110H - Moral Issues
PHIL2150H - Philosophy of Law
PHIL2160H - Asian Philosophy

Physics & Astronomy Subject Area

- Department Website
- Faculty & Research

The Department of Physics & Astronomy offers the following undergraduate degree programs and special program opportunities.

DEGREE PROGRAMS

- Bachelor of Science (BSc) in Chemical Physics
  - single-major Honours program
  - single-major General program
- Bachelor of Science (BSc) in Computer Science & Physics
  - single-major Honours program
- Bachelor of Science (BSc) in Mathematical Physics
  - single-major Honours program
- Bachelor of Science (BSc) in Physics
  - single-major Honours program
  - joint-major Honours program
  - single-major General program
  - joint-major General program

SPECIAL PROGRAM OPPORTUNITIES

- Minor in Physics

Programs

BS.CEPY - Chemical Physics - BSc General
BS.PHYS - Physics - BSc General
BSH.CEPY - Chemical Physics - BSc Honours
BSH.COPH - Computer Science & Physics - BSc Honours
BSH.MAPH - Mathematical Physics - BSc Honours
BSH.PHYS - Physics - BSc Honours
MINR.PHYS - Physics - Minor

Courses

BIOL1060H - Physics for the Life Sciences
BIOL3510H - Astrobiology: Life in the Universe
COIS2250H - Electronics
COIS3200Y - Electricity and Magnetism
EDUC2091H - Light and Colour for Future Teachers
EDUC2093H - Electricity and Motion for Future Teachers
MATH2130H - Introductory Classical Dynamics
MATH2150H - Ordinary Differential Equations
MATH3130H - Classical Mechanics
MATH3150H - Partial Differential Equations
MATH3160H - Methods of Applied Mathematics
MATH4140H - Advanced Classical Mechanics
PHYS1000H - Foundations of Physics
PHYS1001H - Introductory Physics 1
PHYS1002H - Introductory Physics 2
PHYS1060H - Physics for the Life Sciences
PHYS1510H - Introductory Astronomy 1
PHYS1520H - Introductory Astronomy 2
PHYS2091H - Light and Colour for Future Teachers
PHYS2093H - Electricity and Motion for Future Teachers
PHYS2130H - Introductory Classical Dynamics
PHYS2150H - Ordinary Differential Equations
PHYS2250H - Electronics
PHYS2605H - Introduction to Quantum Computing

PHYS2610H - Introductory Quantum Physics
PHYS2700H - Thermal Physics
PHYS3130H - Classical Mechanics
PHYS3150H - Partial Differential Equations
PHYS3160H - Methods of Applied Mathematics
PHYS3200Y - Electricity and Magnetism
PHYS3510H - Astrobiology: Life in the Universe
PHYS3610H - Foundations of Quantum Mechanics
PHYS3901H - Reading Course
PHYS4000Y - Project Course
PHYS4010H - Project Course
PHYS4050H - Advanced Experimental Techniques
PHYS4140H - Advanced Classical Mechanics
PHYS4220H - Electromagnetic Theory
PHYS4240H - Modern Optics
PHYS4310H - Condensed Matter Physics
PHYS4520H - Astrophysics: Galaxies and Cosmology
PHYS4605H - Building and Using Quantum Computers
PHYS4610H - Advanced Quantum Mechanics
PHYS4700H - Statistical and Thermal Physics
PHYS4900Y - Reading Course
PHYS4901H - Reading Course
PHYS4902H - Reading Course
PHYS5900H - Advanced Topics

Policing & Community Wellbeing Subject Area

Program Website

The Policing & Community Well-Being Program offers the following undergraduate degree programs and special program opportunities.

DEGREE PROGRAMS

- Bachelor of Arts (BA) in Policing & Community Well-Being
- single-major Honours program (Co-op available)
- joint-major Honours program
- single-major General program

SPECIAL PROGRAM OPPORTUNITIES

- Minor in Policing & Community Well-Being

Programs

BA.PLCW - Policing & Community Well-Being - BA General
BAH.PLCW - Policing & Community Well-Being - BA Honours
MINR.PLCW - Policing & Community Well-Being - Minor

Courses

ANTH2040H - Law and Order in Ancient and Contemporary Cultures
CRIM2001H - Restorative Justice
CRIM2010H - Conflict Resolution
CRIM2011H - Wrongful Convictions
CRIM3002H - Mental Health and Addictions in the Community
CRIM3010H - Policing Youth Crime and Justice
CRIM3625H - Gender-Based Violence: Reactions, Responses, and Responsibilities
CRIM3660H - Policing and Punishing Poverty
CRIM4002H - Prisons and Punishment
CRIM4007H - Policing and Controlling Drugs in Canada
CRIM4009H - Surveillance and Technology Studies
CRIM4100H - The Politics of Crime Prevention
CRIM4220H - Deconstructing the "Ideal Victim"
FRSC4220H - Deconstructing the "Ideal Victim"
GESO3625H - Gender-Based Violence: Reactions, Responses, and Responsibilities
INDG3008H - Indigenous Peoples and the Police: Past and Present
PLCW1001H - Introduction to Policing and Community Well-Being
PLCW1003H - Social Determinants of Health and Crime
PLCW2001H - Restorative Justice
PLCW2002H - Community Problem-Solving and Analysis
PLCW2005H - Diversity and Exclusion
PLCW2006H - Marginalization and Social Control
PLCW2010H - Conflict Resolution
PLCW2011H - Wrongful Convictions
PLCW2040H - Law and Order in Ancient and Contemporary Cultures
PLCW2100H - Research Methods in Policing and Community Well-Being
PLCW3002H - Mental Health and Addictions in the Community
PLCW3003H - Violence in the Community
PLCW3004H - Community-Based Research Methods
PLCW3005H - Community Consultation and Advocacy
PLCW3007H - Problem-Solving in a Complex and Diverse Community
PLCW3008H - Indigenous Peoples and the Police: Past and Present
PLCW3009H - Crime, Law, and Social Policy
PLCW3010H - Policing Youth Crime and Justice
PLCW3011H - Crisis Management
PLCW3012H - Risk Assessment and Risk Management
PLCW3625H - Gender-Based Violence: Reactions, Responses, and Responsibilities
PLCW3660H - Policing and Punishing Poverty
PLCW4000H - Collaborating With Other Agencies and Organizations
PLCW4002H - Prisons and Punishment
PLCW4003H - Medicalization of Deviance
PLCW4004Y - Experiential Placement-Based Learning
PLCW4005Y - Independent Research Study
PLCW4006H - Vicarious Trauma
PLCW4007H - Policing and Controlling Drugs in Canada
PLCW4008H - Topics in Policing and Community Well-Being
PLCW4009H - Surveillance and Technology Studies
PLCW4100H - The Politics of Crime Prevention
PLCW4220H - Deconstructing the "Ideal Victim"
PLCW4800H - Experiential Placement-Based Learning
PLCW4801H - Experiential Placement-Based Learning
PLCW4802Y - Experiential Placement-Based Learning
PLCW4900H - Reading Course

Political Studies Subject Area

- Department Website
- Faculty & Research

The Department of Political Studies offers the following undergraduate degree programs and special program opportunities.

DEGREE PROGRAMS

- Bachelor of Arts (BA) in International Political Economy
    - joint-major Honours program
- Bachelor of Arts (BA) in Political Studies
    - single-major Honours program (Co-op available)
    - joint-major Honours program
    - single-major General program
    - joint-major General program

SPECIAL PROGRAM OPPORTUNITIES

- Certificates
    - Democratic Leadership
    - Political Leadership
- Co-op
- Minor in Political Studies
- Options
    - Global Power & Politics
    - Leadership
- Specializations *(open only to students in the Political Studies degree programs)*
    - Global Politics & International Studies
    - International Law & Policy
    - Political Theory
    - Public Policy
- Trent/Swansea Dual Degree in Law & Arts (BA/LLB)

Programs

BA.POST - Political Studies - BA General
BAH.IPE - International Political Economy - BA Honours
BAH.POST - Political Studies - BA Honours
BAH.POST.COOP - Political Studies - Co-op
BAH.POST.SWAN - Political Studies - BA Honours - Swansea Law

Psychology Subject Area

- Department Website
- Faculty & Research

The Department of Psychology offers the following undergraduate and graduate degree programs, postgraduate certificate program, and special program opportunities.

UNDERGRADUATE DEGREE PROGRAMS

- Bachelor of Science (BSc) in Health
    - single-major Honours program
- Bachelor of Arts (BA) in Psychology
    - single-major Honours program (Co-op available)
    - joint-major Honours program
    - single-major General program
    - joint-major General program
- Bachelor of Science (BSc) in Psychology
    - single-major Honours program
    - joint-major Honours program
    - single-major General program
    - joint-major General program

GRADUATE DEGREE PROGRAMS

- Master of Arts (MA) in Psychology
- Master of Science (MSc) in Psychology
- Doctor of Philosophy (PhD) in Psychology

SPECIAL UNDERGRADUATE PROGRAM OPPORTUNITIES

- Co-op
- Minor in Psychology
- Specializations *(open only to students in the undergraduate Honours Psychology degree programs)*
    - Behavioural and Cognitive Neuroscience
    - Health and Well-Being

- Psychological Development
- Psychological Research Methods and Data Analysis

POSTGRADUATE CERTIFICATE PROGRAM

- Health & Wellness

GRADUATE PROGRAM OPPORTUNITIES

- Collaborative Specialization
  - Aging Studies
  - Feminist & Gender Studies

Programs

BA.PSYC - Psychology - BA General
BAH.PSYC - Psychology - BA Honours
BAH.PSYC.COOP - Psychology - Co-op (BA)

Swansea Law Subject Area

Program Website

TRENT/SWANSEA LAW DUAL DEGREE

Trent University, in partnership with Swansea University, United Kingdom, offers a dual degree program leading to a Trent Bachelor of Arts (Honours) degree (BA) or Bachelor of Business Administration (BBA) and a Single Honours Law degree (LLB) from Swansea. The program allows students to complete the requirements for both degrees in a structured six-year program of study.

For the Trent portion of the Law Dual Degree, the following single-major Honours programs are available:

- Bachelor of Arts in Canadian Studies (Peterborough only)
- Bachelor of Arts in Communications (Durham GTA only)
- Bachelor of Arts in Cultural Studies (Peterborough only)
- Bachelor of Arts in Criminology (Peterborough and Durham GTA)
- Bachelor of Arts in Economics (Peterborough only)
- Bachelor of Arts in English Literature (Peterborough and Durham GTA)
- Bachelor of Arts in Environmental & Resource Studies (Peterborough only)
- Bachelor of Arts in Gender & Social Justice (Peterborough only)
- Bachelor of Arts in Geography (Peterborough only)
- Bachelor of Arts in Global Development Studies (Peterborough only)
- Bachelor of Arts in History (Peterborough only)
- Bachelor of Arts in Human Rights & Global Justice (Peterborough only)
- Bachelor of Arts in Indigenous Studies (Peterborough only)
- Bachelor of Arts in Media Studies (Peterborough and Durham GTA)
- Bachelor of Arts in Philosophy (Peterborough and Durham GTA)
- Bachelor of Arts in Political Studies (Peterborough only)
- Bachelor of Arts in Sociology (Peterborough and Durham GTA)
- Bachelor of Business Administration (Peterborough and Durham GTA)

Note to Trent Durham GTA students in the Trent/Swansea Law Dual Degree: for Year 6, the required 4000-level LAWS courses are only offered in Peterborough.

ASMPA - Medical Professional Stream

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
www.trentu.ca/premedicalstudies

The Medical Professional Stream (MPS) is a unique four-year support program designed for students seeking to pursue a professional medical program and career after graduating from Trent University. Not only are applicants to professional medical programs expected to possess a solid academic profile with competitive grades and admission test scores (e.g., MCAT, PCAT or DAT), non-academic contributions distinguish applicants and are key to demonstrating suitability to be a medical professional. The MPS is designed to assist students with their co-curricular and extra-curricular activities and the integration of these within their academic studies.

The MPS complements a student's undergraduate degree and is non-academic in nature. This means that students do not receive academic credit for being enrolled in the MPS. Students are enrolled in the MPS while simultaneously completing their undergraduate degree. During their first year of study, students select their desired degree major (with the exception of students admitted to direct-entry programs such as Biomedical Science, Conservation Biology, Forensic Science, or Kinesiology).

Current students have the opportunity to apply for "Transfer to Medical Professional Stream" on the myTrent portal between February 1 and May 15. Students must satisfy MPS requirements each year to remain enrolled in the stream. Enrolment in the MPS is not required to obtain an undergraduate degree, but rather is considered "in addition" to an undergraduate degree.

A programing fee will apply; students admitted to the Medical Professional Stream will be charged an annual fee for the support and delivery of services.

Requirements

In order to remain in the MPS, students must:

- maintain a minimum cumulative average of 77% each year;
- successfully complete 9.0 credits by the end of the Winter term of second year (students with an approved reduced course load through SAS will be considered individually);
- have no more than one course with a grade lower than 60%; and
- have a clear demonstration of participation in, and fulfillment of, the academic and non-academic activities.

The MPS is designed to assist students in developing their own individual ways of demonstrating the qualities assessed by medical school admission boards. Students registered in the MPS benefit from program resources including:

- A pathway to direct entry to accredited medical schools in the Caribbean: St. George's University (SGU) in Grenada, Trinity School of Medicine (TSOM) in Saint Vincent and the Grenadines, and University of Medical and Health Sciences (UMHS) in Saint Kitts, if prerequisites are met;
- Regular meetings with MPS representatives;
- Support for volunteer opportunities and research opportunities;
- Academic Advising events specific to the MPS;
- Autobiographic sketch building;
- CPR and First Aid Training;
- Skill development workshops or experiences related to non-academic skills such as communication, teambuilding, leadership and professionalism;
- Career exploration;
- Admissions testing support; and
- Speaker series from visiting scholars and medical professionals (including Trent alumni).

Students should note:

- The MPS is not a guaranteed entry pathway to Canadian medical schools.
- Canadian medical, dental, and veterinary schools typically indicate that no particular degree program is considered ideal or preferred for entry. Medical schools typically admit students with broad backgrounds, including social sciences, humanities, physical sciences, and life sciences. Students in the

MPS are encouraged to gain some exposure to the basic sciences as well as the social sciences and humanities.

- Some professional medical programs state that many well-qualified applicants with strong academic records and impressive achievements in the non-academic sector may not be granted an interview or an offer of admission, as the number of applicants exceeds the number of positions available.
- Students should pursue an undergraduate degree that reflects their strengths and interests to provide an alternative career option should their application to a professional medical program be unsuccessful.
- Admission requirements to professional medical programs may change over time; students are encouraged to check the admission requirements for the program and institution of interest. Students must ensure they have the necessary course prerequisites when applying to a professional medical program (where applicable).

ASTHA - Teacher Education Stream - Honours Arts

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
www.trentu.ca/education

The Teacher Education Stream is designed for students planning to teach at the elementary or secondary level. The program will provide students with academic and non-academic foundations for entrance into a Consecutive Teacher Education program and, ultimately, the teaching profession.

Candidates complete the requirements for an Honours degree as well as the Teacher Education Stream requirements at Trent University and then make application to the Consecutive Teacher Education program to pursue a Bachelor of Education at the Elementary (Primary/Junior) or Secondary (Intermediate/Senior) level. Please note that some Honours degrees have requirements that may not be compatible with the program requirements of the Teacher Education Stream (refer to University Degree Requirements for requirements which apply to all undergraduate degree programs). Students in the Teacher Education Stream may also consider completing the Option in Education.

The transcripts of students graduating with an Honours degree who have successfully completed the requirements of the Teacher Education Stream will contain the notation “Teacher Education Stream.”

Admission Criteria

This is a direct-entry program with a limited number of student spaces. Admission decisions are based on an applicant’s academic average (a minimum of 75% is required on courses considered for admission). As this is a limited enrolment program, fulfillment of the minimum requirements does not necessarily guarantee admission.

Entrance to the Trent University Consecutive Teacher Education Program

A limited number of spaces in the Bachelor of Education program are reserved each year for Teacher Education Stream students. To be considered, students in the Teacher Education Stream must make an application through the Teacher Education Application Service (www.ouac.on.ca/teas). Students

who maintain an average of 85% or higher on their last 10.0 credits at time of application, and who meet all Teacher Education Stream and undergraduate degree requirements, will be offered guaranteed admission to the BEd program at Trent. Teacher Education Stream students who do not meet the above criteria are still encouraged to apply and will be considered for admission on an individual basis.

All Teacher Education Stream students who are interested in pursuing a Bachelor of Education degree should review the admission requirements for the Consecutive Bachelor of Education program. Successful Bachelor of Education applicants must complete all Trent Honours degree requirements and teaching division prerequisites by the May preceding enrolment in the Bachelor of Education program.

Teacher Education Stream students who are interested in pursuing a Bachelor of Education at the Intermediate/Senior (I/S) level should take particular note of the requirements for teachable subjects (www.trentu.ca/education/consecutive). Admission to the BEd program at the I/S level is contingent on meeting the requirements for two teachable subjects, in addition to meeting the requirements listed above. The Teacher Education Stream advisor within the School of Education is available to support students in their course selection.

Field Experiences

Teacher Education Stream students in field experience courses are responsible for arranging a field experience in alignment with expectations outlined in the most recent Teacher Education Stream Handbook. Field experience courses are evaluated with a pass/fail designation on the transcript. Academic performance equivalent to a minimum grade of 77% will be required for a pass.

Study Abroad

Teacher Education Stream students are encouraged to consider study abroad opportunities in their third year, and can be exempted from stream requirements for up to two terms abroad. Normally, students who complete one term abroad will be exempted from EDUC 3051H, and students who complete two terms abroad will be exempted from EDUC 3050H and 3051H.

Requirements

Teacher Education Stream

Year 1

- 0.5 EDUC credit consisting of EDUC 1050H

Year 2

- 1.0 EDUC credit consisting of EDUC 2050H and 2051H

Year 3

- One of the following:
  - Option 1: 1.0 EDUC credit consisting of EDUC 3050H and 3051H
  - Option 2: Successful completion of a Year Abroad Program

Year 4

- 1.0 EDUC credit consisting of EDUC 4050H and 4051H

B.ED.INDG - Education - Indigenous - BEd - Intermediate/Senior

Overview

Academic Level
Undergraduate

Credential
Indigenous Bachelor of Education

Description
www.trentu.ca/education/programs/indigenous-bed

The Bachelor of Education – Indigenous is a five-year concurrent degree program designed for self-identified Indigenous learners who are aiming to be Ontario-qualified educators (see Notes below for details). The program prepares students to teach in urban; rural; First Nations, Métis, Inuit (FNMI) communities; Public, and Catholic educational settings and supports them in developing a deep understanding of Indigenous cultures, knowledges, and languages. An emphasis on Indigenous ways of knowing and learning is central throughout the five years of the program, which includes a series of core courses that build these understandings while considering how they apply to educational contexts such as schooling, learning from the land, learning from Elders, and related experiences. The program also equips students with essential content knowledge and skills related to disciplines/subjects in Ontario schools at the Primary/Junior and Intermediate/Senior levels, particularly in the two final professional years of the program. Successful graduates will receive a Bachelor of Education degree and may also qualify for a General Bachelor of Arts or Bachelor of Science degree.

Admission Requirements

Applicants to the Bachelor of Education – Indigenous program must meet secondary school admission requirements (see Admissions), and self-identify as having Indigenous ancestry (First Nations, Métis, or Inuit) using the Equity Admission Form.

Applicants who have attended a postsecondary institution may qualify for advanced standing in the program. Transfer credits will be evaluated on an individual basis.

The total number of transfer credits awarded for the Bachelor of Education – Indigenous may not exceed 15.0. All other university degree requirements and program requirements must be met for degree completion.

Transfer students who wish to also pursue a General degree may be eligible to apply a maximum of 7.5 transfer credits toward the degree. A second degree will not be awarded where there is substantial overlap in the subject matter of the degree requirements (see Second Degree).

For further details on admission requirements, please consult www.trentu.ca/futurestudents/program/indigenous-bachelor-education.

English Proficiency Requirements

English is the normal language of instruction and communication at Trent University. Therefore, an applicant whose primary language is not English, or whose previous education has been conducted in another language, must demonstrate a command of English sufficient to meet the demands of classroom instruction, written assignments, and participation in tutorials and discussions.

All applicants are required to meet one of the following criteria:

- Their mother tongue or first language is English.
- They have studied full-time for at least three years in a university where the language of instruction and examination was English and which was located in a country where the dominant language spoken is English.
- They have achieved the required level of proficiency on one of the following English language tests:
    - TOEFL (Test of English as a Foreign Language).
        - Paper-based (PBT) and Test of Spoken English (TSE): A score of at least 600 on the paper-based TOEFL, with scores of at least 58 on each of the listening and reading components, 5.5 on the Test of Written English (TWE), and a minimum score of 60 on the TSE.
        - Internet-based (IBT): An overall score of 100.
    - IELTS (International English Language Testing Services): An overall score of at least 7 on the Academic Module of IELTS with scores of at least 6.5 in reading and listening and scores of at least 7 in writing and speaking.
    - CAEL (Canadian Academic English Language): An overall score of 60.

Please be advised that English language proficiency score requirements are subject to change. Candidates are expected to have a demonstrated proficiency in English. The University reserves the right to require English language testing, upgrading, or withdrawal from the program if candidates do not meet the expected level of proficiency.

Certification

Successful completion of the field and workshop experiences (years 1-3) and the practica and placements (years 4-5) are necessary requirements for successful completion of the program. Upon successful completion of the program, candidates are awarded a BEd degree. The School of Education and Professional Learning reserves the right to recommend candidates to the Ontario College of Teachers for the Certificate of Qualification to teach in Ontario. Non-Canadians completing the program may be recommended to the College but it is the responsibility of the candidates to provide acceptable and appropriate immigration documentation permitting them to work in Ontario. For further information about the Ontario College of Teachers, please see www.oct.ca.

Requirements

Concurrent Bachelor of Education Indigenous Program – Intermediate/Senior

- In addition to the program requirements listed below, students may choose to pursue a major in Indigenous Studies or another single-major General program in the first three years of study.
- Students who have fulfilled the requirements for a General degree may graduate with a Specialization in Applied Indigenous Knowledge, Indigenous Performance, or Nishinaabemowin if they have successfully completed the required credits (see Indigenous Studies program).
- Students who have fulfilled the program-specific and University degree requirements for a General degree will graduate with both a Bachelor of Education and a Bachelor of Arts (General) or a Bachelor of Science (General) in the chosen discipline.
- Students must include at least 3.0 credits with a grade of 60% or higher, leading to majors in different disciplines, in the first three years of the program.

- Students should ensure that they have satisfied the University degree requirement for at least 4.0 credits at the 3000 level or beyond.
- Students must have an academic status of Good Standing (a minimum cumulative average of 60%) at the completion of year 3 to continue to year 4.
- A pass in all EDUC courses in years 4 and 5 is required for the Bachelor of Education – Indigenous degree. Academic performance equivalent to a minimum grade of 77% will be required for a pass.
- "Q" signifies 0.25 credit; "H" signifies 0.5 credit; "Y" signifies 1.0 credit.
- A student who has failed two or more EDUC courses, or who has failed a single EDUC course twice, may not continue in the program without re-application and acceptance to the BEd – Indigenous program.
- In order to graduate, teacher candidates must successfully complete: field experiences and workshops (years 1-3); four classroom practica, literacy tutoring placement, and alternative settings placement (years 4-5).
- Any teacher candidate who receives a final rating of unsuccessful in two placements will fail the practicum component of the program and will not receive the BEd or be recommended for certification by the Ontario College of Teachers.
- All curriculum courses incorporate Ontario Curriculum policy documents and other related Ministry policy documents that direct the professional practice of teachers in Ontario.
- All courses reflect the Ontario College of Teachers' Foundations of Professional Practice, incorporating ethical standards and standards of practice.
- Students elect to specialize in one of two teaching divisions: Primary/Junior (Grades JK to 6) or Intermediate/Senior (Grades 7 to 12). Students in the Intermediate/Senior division will select course electives based on their personal choice of teaching specializations.
- Teaching subjects at the Intermediate/Senior levels include:
    - Anishinaabemowin (Ojibwe)
    - Biology
    - Chemistry
    - Dramatic Arts
    - English
    - Environmental Science
    - First Nations, Métis and Inuit Studies
    - French as a Second Language
    - Geography
    - Health and Physical Education
    - History
    - Mathematics
    - Physics
    - Visual Arts
- Please consult the academic timetable, available through myTrent, for information on Arts & Science (Year 1 – Year 3) courses that will be offered, including when they will be scheduled.

Intermediate/Senior Program

Years 1–3

- 1.5 EDUC credits consisting of EDUC-INDG 1030H, EDUC 3050H and 4050H
- 2.5 INDG credits consisting of INDG 1001H, 2100Y, and 3350Y
- 1.0 INDG credit from INDG 2250Y or 2800Y
- 10.0 credits in addition to the above, at least 5.0 credits in the first teaching specialization and at least 3.0 credits in the second teaching specialization (or 4.0 credits if the second teaching specialization is French)

Year 4

- 4.0 EDUC credits consisting of EDUC 4200H, 4221H, 4233H, 4251H, 4337H, 4464H, 4901H, and 4902H
- 2.0 EDUC credits from EDUC 4661Y, 4662Y, 4663Y, 4664Y, 4665Y, 4671Y, 4672Y, 4673Y, 4674Y, 4675Y, 4676Y, 4681Y, 4682Y, 4683Y, or 4684Y
- Catholic Stream students also require EDUC 4705Q (0.25 credit)

Year 5

- 4.5 EDUC credits consisting of EDUC 4252H, 4260Q, 4270Q, 4280H, 4290H, 4300H, 4335H, 4465H, 4903H, and 4904H

Overview

Academic Level
Undergraduate

Credential
Indigenous Bachelor of Education

Description
www.trentu.ca/education/programs/indigenous-bed

The Bachelor of Education – Indigenous is a five-year concurrent degree program designed for self-identified Indigenous learners who are aiming to be Ontario-qualified educators (see Notes below for details). The program prepares students to teach in urban; rural; First Nations, Métis, Inuit (FNMI) communities; Public, and Catholic educational settings and supports them in developing a deep understanding of Indigenous cultures, knowledges, and languages. An emphasis on Indigenous ways of knowing and learning is central throughout the five years of the program, which includes a series of core courses that build these understandings while considering how they apply to educational contexts such as schooling, learning from the land, learning from Elders, and related experiences. The program also equips students with essential content knowledge and skills related to disciplines/subjects in Ontario schools at the Primary/Junior and Intermediate/Senior levels, particularly in the two final professional years of the program. Successful graduates will receive a Bachelor of Education degree and may also qualify for a General Bachelor of Arts or Bachelor of Science degree.

Admission Requirements

Applicants to the Bachelor of Education – Indigenous program must meet secondary school admission requirements (see Admissions), and self-identify as having Indigenous ancestry (First Nations, Métis, or Inuit) using the Equity Admission Form.

Applicants who have attended a postsecondary institution may qualify for advanced standing in the program. Transfer credits will be evaluated on an individual basis.

The total number of transfer credits awarded for the Bachelor of Education – Indigenous may not exceed 15.0. All other university degree requirements and program requirements must be met for degree completion.

Transfer students who wish to also pursue a General degree may be eligible to apply a maximum of 7.5 transfer credits toward the degree. A second degree will not be awarded where there is substantial overlap in the subject matter of the degree requirements (see Second Degree).

For further details on admission requirements, please consult www.trentu.ca/futurestudents/program/indigenous-bachelor-education.

English Proficiency Requirements

English is the normal language of instruction and communication at Trent University. Therefore, an applicant whose primary language is not English, or whose previous education has been conducted in another language, must demonstrate a command of English sufficient to meet the demands of classroom instruction, written assignments, and participation in tutorials and discussions.

All applicants are required to meet one of the following criteria:

- Their mother tongue or first language is English.
- They have studied full-time for at least three years in a university where the language of instruction and examination was English and which was located in a country where the dominant language spoken is English.
- They have achieved the required level of proficiency on one of the following English language tests:
    - TOEFL (Test of English as a Foreign Language).
        - Paper-based (PBT) and Test of Spoken English (TSE): A score of at least 600 on the paper-based TOEFL, with scores of at least 58 on each of the listening and reading components, 5.5 on the Test of Written English (TWE), and a minimum score of 60 on the TSE.
        - Internet-based (IBT): An overall score of 100.
    - IELTS (International English Language Testing Services): An overall score of at least 7 on the Academic Module of IELTS with scores of at least 6.5 in reading and listening and scores of at least 7 in writing and speaking.

    - CAEL (Canadian Academic English Language): An overall score of 60.

Please be advised that English language proficiency score requirements are subject to change. Candidates are expected to have a demonstrated proficiency in English. The University reserves the right to require English language testing, upgrading, or withdrawal from the program if candidates do not meet the expected level of proficiency.

Certification

Successful completion of the field and workshop experiences (years 1-3) and the practica and placements (years 4-5) are necessary requirements for successful completion of the program. Upon successful completion of the program, candidates are awarded a BEd degree. The School of Education and Professional Learning reserves the right to recommend candidates to the Ontario College of Teachers for the Certificate of Qualification to teach in Ontario. Non-Canadians completing the program may be recommended to the College but it is the responsibility of the candidates to provide acceptable and appropriate immigration documentation permitting them to work in Ontario. For further information about the Ontario College of Teachers, please see www.oct.ca.

Requirements

Concurrent Bachelor of Education Indigenous Program – Primary/Junior

- In addition to the program requirements listed below, students may choose to pursue a major in Indigenous Studies or another single-major General program in the first three years of study.
- Students who have fulfilled the requirements for a General degree may graduate with a Specialization in Applied Indigenous Knowledge, Indigenous Performance, or Nishinaabemowin if they have successfully completed the required credits (see Indigenous Studies program).

- Students must include at least 3.0 credits with a grade of 60% or higher, leading to majors in different disciplines, in the first three years of the program.
- Students should ensure that they have satisfied the University degree requirement for at least 4.0 credits at the 3000 level or beyond.
- Students must have an academic status of Good Standing (a minimum cumulative average of 60%) at the completion of year 3 to continue to year 4.
- A pass in all EDUC courses in years 4 and 5 is required for the Bachelor of Education – Indigenous degree. Academic performance equivalent to a minimum grade of 77% will be required for a pass.
- "Q" signifies 0.25 credit; "H" signifies 0.5 credit; "Y" signifies 1.0 credit; "P" signifies 0.0 credit.
- A student who has failed two or more EDUC courses, or who has failed a single EDUC course twice, may not continue in the program without re-application and acceptance to the BEd – Indigenous program.
- In order to graduate, teacher candidates must successfully complete: field experiences and workshops (years 1-3); four classroom practica, literacy tutoring placement, and alternative settings placement (years 4-5).
- Any teacher candidate who receives a final rating of unsuccessful in two placements will fail the practicum component of the program and will not receive the BEd or be recommended for certification by the Ontario College of Teachers.
- All curriculum courses incorporate Ontario Curriculum policy documents and other related Ministry policy documents that direct the professional practice of teachers in Ontario.
- All courses reflect the Ontario College of Teachers' Foundations of Professional Practice, incorporating ethical standards and standards of practice.
- Students elect to specialize in one of two teaching divisions: Primary/Junior (Grades JK to 6) or Intermediate/Senior (Grades 7 to 12). For Intermediate/Senior, see Indigenous Bachelor of Education. Students in the Intermediate/Senior division select course electives based on their personal choice of teaching specializations.
- Please consult the academic timetable, available through myTrent, for information on Arts & Science (Year 1 – Year 3) courses that will be offered, including when they will be scheduled.

Primary/Junior Program

Year 1

- 0.5 EDUC credit consisting of EDUC-INDG 1030H
- 0.5 INDG credit consisting of INDG 1001H
- 1.0 INDG credit from INDG 2250Y or 2800Y
- 3.0 credits in addition to the above

Year 2

- 2.0 INDG credits consisting of INDG 2100Y and 3350Y
- 3.0 credits in addition to the above

Year 3

- 1.0 EDUC credit consisting of EDUC 3050H and 4050H
- 4.0 credits in addition to the above

Year 4

- 5.5 EDUC credits consisting of EDUC 4100H, 4121H, 4133H, 4180H, 4337H, 4464H, 4561H, 4571H, 4574H, 4901H, and 4902H
- Catholic Stream students also require EDUC 4705Q (0.25 credit)

Year 5

- 5.0 EDUC credits consisting of EDUC 4160Q, 4170Q, 4190H, 4300H, 4335H, 4465H, 4563H, 4564H, 4573H, 4903H, and 4904H

B.ED.IS - Education - BEd - Intermediate/Senior

Overview

Academic Level
Undergraduate

Credential
Bachelor of Education

Description
www.trentu.ca/education/programs/consecutive-bed

The School of Education and Professional Learning, which offers the Consecutive Bachelor of Education program, combines attention to individual learners in small class settings with a community-based approach. The program is guided by a philosophy of ecological and social justice, recognition of learner diversity, and a commitment to professional performance. Through foundations and curriculum courses, candidates are provided the opportunity to engage critically with recent advances in theory, research, and practice. Teaching placements allow candidates to ground their learning in practical classroom experience, as they attend to individual student needs, multiple modes of learning, human diversity, and curriculum-building. Distinctive aspects of the Trent BEd include: a reading tutoring program, an alternative settings placement, expertise in special needs, professional identity development, multiple literacies, and legal aspects of education. The Consecutive Bachelor of Education program is accredited by the Ontario College of Teachers and meets all of the core content areas mandated under regulation. The School collaborates closely with educators in the region, including those working in primary and secondary schools, local colleges, and community organizations.

Full-time programs of study are offered for students interested in teaching at the Primary/Junior levels (K–Grade 6) or at the Intermediate/Senior levels (Grades 7–12). The full-time program is a two-year program where students complete two terms (fall and winter) in each of two consecutive years.

Teaching subjects at the Intermediate/Senior levels include:

- Anishinaabemowin (Ojibwe)
- Biology
- Chemistry
- Dramatic Arts
- English
- Environmental Science

- First Nations, Métis and Inuit Studies
- French as a Second Language
- Geography
- Health and Physical Education
- History
- Mathematics
- Physics
- Visual Arts

Admission Requirements

Applicants must have an approved degree from an accredited degree-granting institution and a minimum average of 70%, based upon the last 10.0 full-year credits (or equivalents) in an undergraduate degree program completed at the time of application. College transfer courses will not be considered. Applicants are also required to submit a Profile of Experience including the names of two referees. For further details on the academic requirements and information about the Profile of Experience, please consult www.trentu.ca/education/consecutive. Applicants with Honours (4-year) degrees are given preference over those with General (3-year) degrees. Members of a visible racial minority, Aboriginal peoples, and persons with a disability may apply for an equity admissions place in the Bachelor of Education program using the Equity Admission Form.

English Proficiency Requirements

English is the normal language of instruction and communication at Trent University. Therefore, an applicant whose primary language is not English, or whose previous education has been conducted in another language, must demonstrate a command of English sufficient to meet the demands of classroom instruction, written assignments, and participation in tutorials and discussions.

All applicants are required to meet one of the following criteria:

- Their mother tongue or first language is English.
- They have studied full-time for at least three years in a university where the language of instruction and examination was English and which was located in a country where the dominant language spoken is English.
- They have achieved the required level of proficiency on one of the following English language tests:
    - TOEFL (Test of English as a Foreign Language)
        - Paper-based (PBT) and Test of Spoken English (TSE): A score of at least 600 on the paper-based TOEFL, with scores of at least 58 on each of the listening and reading components, 5.5 on the Test of Written English (TWE), and a minimum score of 60 on the TSE.
        - Internet-based (IBT): An overall score of 100.
    - IELTS (International English Language Testing Services): An overall score of at least 7 on the Academic Module of IELTS with scores of at least 6.5 in reading and listening and scores of at least 7 in writing and speaking.
    - CAEL (Canadian Academic English Language): An overall score of 70.

Please be advised that English language proficiency score requirements are subject to change. Candidates are expected to have a demonstrated proficiency in English. The University reserves the right to require English language testing, upgrading, or withdrawal from the program if candidates do not meet the expected level of proficiency.

Certification

Successful completion of the practicum is a necessary requirement for successful completion of the program. Upon successful completion of the program, candidates are awarded a BEd degree. The School of Education and Professional Learning reserves the right to recommend candidates to the Ontario College of Teachers for the Certificate of Qualification to teach in Ontario. Non-Canadians completing the program may be recommended to the College but it is the responsibility of the candidates to provide acceptable and appropriate immigration documentation permitting them to work in Ontario. BA.AGRS - Ancient Greek & Roman Studies - BA General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (General)

Description
The ancient Greeks and Romans have shaped many later societies. Their enduring mythology, influential leaders, and foundational philosophical and narrative texts underlie many modern institutions, such as political governing bodies and educational systems, as well as popular cultural artefacts, films, and video games. In the Ancient Greek & Roman Studies (AGRS) program, students learn that acquiring a deep understanding of the virtues and challenges of past societies can better enable us to comprehend and re-shape our own worlds. AGRS students study ancient literature, history, art history and archaeology, myth, religion, gender, slavery, poverty and wealth, philosophy, environment, and languages (Latin and Greek). From Homer to Alexander the Great, from Julius Caesar to Constantine and beyond, we study the complexities of ancient society and their continuing significance.

INFORMATION & ADDITIONAL NOTES

- Senior seminar courses are offered according to faculty availability. Students may take more than one such course in one year or in their overall program.
- Reading courses may be offered according to faculty availability. Interested students should consult with the program before the first week of classes. Students may take more than one such course in their overall program.
- Students may also study Mediterranean archaeology in field school courses offered by other Canadian and non-Canadian universities for credit on a Letter of Permission, with program approval.
- Students considering graduate work in Ancient Greek & Roman Studies are strongly advised to include as many credits in Greek and Latin as possible in their program, to begin the study of German and French as undergraduates, and to consult with the program coordinator.

Requirements

Bachelor of Arts Program in Ancient Greek & Roman Studies

- For the purposes of University regulations concerning the maximum number of credits in a single discipline (8.0 for General), all AGRS, GREK, and LATN credits are counted toward the Ancient Greek & Roman Studies degree.

Single-major General program. 15.0 credits including the following 7.0 credits:

- 1.0 AGRS credit consisting of AGRS 2103H and 2303H
- 0.5 AGRS credit from AGRS 2205H or 2206H
- 2.0 AGRS, GREK, and/or LATN credits at the 3000 level or beyond in addition to the above
- 1.0 AGRS, GREK, and/or LATN credit at the 2000 level or beyond in addition to the above
- 2.5 AGRS, GREK, and/or LATN credits in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The joint-major General program. 15.0 credits including the following 5.0 credits:

- 1.0 AGRS credit consisting of AGRS 2103H and 2303H
- 0.5 AGRS credit from AGRS 2205H or 2206H
- 1.0 AGRS, GREK, and/or LATN credit at the 3000 level or beyond
- 2.5 AGRS, GREK, and/or LATN credits in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

Specializations

Specialization in Greek & Latin

BA.ANTH - Anthropology - BA General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (General)

Description
www.trentu.ca/anthropology

Anthropology is the study of human cultural, behavioural, and biological variability. It is a discipline integrating four subfields: archaeology, linguistic anthropology, biological anthropology, and cultural anthropology. Archaeologists document the material remains of past societies to understand and to explain patterns of cultural behaviour and cultural change. Linguists study languages worldwide and in relation to society and culture. Biological anthropologists investigate human evolution, growth, and development in relation to environmental, genetic, and cultural factors. Cultural anthropologists work with living people worldwide, recording their ways of life and beliefs and interpreting their findings to understand and explain the similarities and differences in cultural practices. Anthropologists are unified by their interest in human variability and the manner in which different individuals, communities, and societies, whether in the past or present, relate to each other at scales ranging from the local to global.

INFORMATION & ADDITIONAL NOTES

- Students who plan to take upper-year archaeology courses are strongly encouraged to take ANTH 2121H and 2122H, which are both prerequisites for many upper-year archaeology courses.
- Through the Study Abroad Exchange Program, students may travel to Belize for a semester or a year and take courses at Galen University. Information on the program is available at www.trentu.ca/studyabroad/trent-students.

Requirements

Bachelor of Arts Program in Anthropology

- Students in the joint-major program in Anthropology and Global Development Studies may substitute GDST-ANTH 2500H and 2600H for 1.0 credit from 2000-level ANTH courses in their Anthropology requirements.
- For the Specializations in Bioarchaeology, Biological Anthropology, Environmental Archaeology, and Mediterranean Archaeology, see 'Specializations' tab.

The single-major General program. 15.0 credits including the following 6.0 credits:

- 2.0 ANTH credits consisting of ANTH 1001H, 2001H, 2123H, and 2410H
- 0.5 ANTH credit from ANTH 3123H or 3991H
- 1.5 ANTH credits at the 3000 level or beyond in addition to the above
- 2.0 ANTH credits in addition to the above, including 0.5 credit from each of Categories A, B, and C

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The joint-major General program. 15.0 credits including the following 5.0 credits:

- 2.0 ANTH credits consisting of ANTH 1001H, 2001H, 2123H, and 2410H
- 0.5 ANTH credit from ANTH 3123H or 3991H
- 2.5 ANTH credits in addition to the above, including 0.5 credit from each of Categories A, B, and C

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

BA.CAST - Canadian Studies - BA General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (General)

Description
www.trentu.ca/canadianstudies

The Canadian Studies program is housed in the School for the Study of Canada / École d'études canadiennes. Students learn about the diverse, often contested meanings of the Canadian experience and Canadian citizenship, and explore how even as the transnational attracts critical and public attention, the nation remains the major administrative and imaginative unit organizing people's lives. The program's focus is on the Canadian nation in a global context. Interdisciplinary Canadian Studies courses are offered in four areas: culture, literature, and the arts; policy, economy, and society; identities and social movements; and space, place, and region; and encourage thought about Canadian history, institutions, ideology, and social justice.

Requirements

Bachelor of Arts Program in Canadian Studies

- The same course may not satisfy more than one Canadian Studies category requirement.
- Students may count no more than 1.0 credit from CAST reading courses toward their Canadian Studies degree requirements.
- CAST 4000Y/4001H, community-based research courses (CAST 3810Y, 3811H, 3813H, 4810Y, 4811H, 4813H), and reading courses (CAST 3900Y, 3901H, 3903H, 4900Y, 4901H, 4903H) are not assigned to a column category, and can be used to fulfill the remaining non-column degree/diploma requirements.

The single-major General program. 15.0 credits including the following 6.0 credits:

- 1.0 CAST credit from CAST 1100H and one of 1101H, 1103H, 1104H, or 1105H
- 3.0 CAST credits at the 3000 level or beyond
- 2.0 CAST credits in addition to the above
- Must include at least 1.0 credit from each of Categories A, B, C, and D

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The joint-major General program. 15.0 credits including the following 5.0 credits:

- 1.0 CAST credit from CAST 1100H and one of 1101H, 1103H, 1104H, or 1105H
- 2.0 CAST credits at the 3000 level or beyond
- 2.0 CAST credits in addition to the above
- Must include at least 0.5 credit from each of Categories A, B, C, and D

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

BA.CHYS - Child & Youth Studies - BA General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (General)

Description
www.trentu.ca/durham/program/child-youth-studies

A unique multidisciplinary degree program with strong foundations in sociology, psychology, education, and the humanities, this degree will inspire students to think about child and youth development from a number of perspectives. Students will learn about child and youth rights and legal issues, and how children develop emotionally, socially, artistically, intellectually, and physically.

INFORMATION & ADDITIONAL NOTES

- A limited number of spaces in Trent University's Consecutive Bachelor of Education program are reserved each year for students in the Honours program in Child & Youth Studies. To be considered, students must make an application through the Teacher Education Application Service (www.ouac.on.ca/teas). The top six students who have a minimum average of 75% or higher on their last 10.0 credits at time of application, and who meet all Child & Youth Studies and undergraduate degree requirements, will be offered guaranteed admission to the BEd program at Trent. Child & Youth Studies students who do not meet the above criteria are still encouraged to apply and will be considered for admission on an individual basis.

Requirements

Bachelor of Arts Program in Child & Youth Studies

The single-major General program. 15.0 credits including the following 6.5 credits:

- 4.0 CHYS credits consisting of CHYS 1000H, 1001H, 1002H, 2001H, 2005H, 2006H, 2010H, and 3001H
- 0.5 CHYS credit at the 2000 level in addition to the above
- 1.0 CHYS credit at the 3000 level in addition to the above
- 0.5 SOCI credit consisting of SOCI 1001H
- 0.5 PSYC credit from PSYC 1020H or 1030H

In addition to the program requirements listed above, students must satisfy the University degree requirements.

BA.COIS - Computing Systems - BA General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (General)

Description
The Bachelor of Arts General program in Computing Systems is available only as a single-major.

Requirements

Bachelor of Arts Program in Computing Systems

The single-major General program. 15.0 credits including the following 8.0 credits:

- 3.0 COIS credits consisting of COIS 1010H, 1020H, 1620H, 2240H, 2300H, and 3400H
- 0.5 COIS credit from COIS 2020H or 2620H
- 2.5 COIS credits at the 3000 level or beyond in addition to the above
- 2.0 COIS credits in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

BA.COMM - Communications - BA General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (General)

Description
www.trentu.ca/durham/academics/degrees-and-programs/communications-ba

Exclusive to Trent University Durham GTA, this program prepares students for long and satisfying careers in a variety of fields including public and media relations, business communication, social media strategy, project management, fundraising, and event management. Communications encourages students to develop and refine durable and transferable skills, prized by a variety of employers. The program features courses in strategic communication, project management, writing, research, public speaking, and numeracy. With a core group of Communications courses and a range of relevant selections from other programs, a Communications degree helps students to become creative, logical, and integrative thinkers and expert communicators.

Requirements

Bachelor of Arts Program in Communications

- For students in a joint major with Policing & Community Well-Being or Sociology, PLCW 2100H and SOCI 2151H are equivalent to COMM 2010H for program requirements but do not count as a Communications credit. Students who have successfully completed PLCW 2100H or SOCI 2151H are not permitted to take COMM 2010H but must substitute another half-credit course in Communications at the 2000 level or beyond in order to fulfill degree requirements.

The single-major General program. 15.0 credits including the following 6.0 credits:

- 3.5 COMM credits consisting of COMM 1000H, 1001H, 2001H, 2002H, 2010H, and 3000Y
- 1.0 COMM credit in addition to the above
- 0.5 WRIT credit consisting of WRIT 1001H
- 1.0 credit from COMM in addition to the above and/or from ADMN 1000H, 2080H, 2100H, 2410H, CUST-MDST 1535H, 2186H, 2535H, 3139H, 3184H, 3186H, 3535H, INDG-MDST 2030H, 3102Y, SOCI-CAST-MDST 3450H, or WRIT 2002H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The joint-major General program. 15.0 credits including the following 5.0 credits:

- 3.5 COMM credits consisting of COMM 1000H, 1001H, 2001H, 2002H, 2010H, and 3000Y
- 0.5 COMM credit in addition to the above
- 0.5 WRIT credit consisting of WRIT 1001H
- 0.5 credit from COMM in addition to the above or from ADMN 1000H, 2080H, 2100H, 2410H, 3150H, CUST-MDST 1535H, 2186H, 2535H, 3139H, 3184H, 3186H, 3535H, INDG-MDST 2030H, 3102Y, or SOCI-CAST-MDST 3450H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

BA.CUST - Cultural Studies - BA General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (General)

Description
www.trentu.ca/culturalstudies

The Department of Culture, Arts, and Media offers training in the history, theory, and practice of culture, with an emphasis on literature, the arts (especially visual art, music, theatre, and film), and media. Interdisciplinary courses consider culture both historically and in relation to the increasingly interconnected and complex contemporary world. Intensive workshop classes give students hands on experience with creative writing, studio art, theatre and performance, film, and audio production.

Cultural Studies majors select their courses from three different areas of concentration: Integrated Arts; Film, Literature & Narrative; and Criticism & Theory. Students have the option of pursuing a Specialization in a particular area.

Requirements

Bachelor of Arts Program in Cultural Studies

- With permission of the Chair, students may count up to 1.0 credit from the following ENGL courses toward their Cultural Studies program requirements: ENGL 2609H, 2709H, 2851H, 2853H, 3750Y/3851H. For information on individual courses, see English Literature.

The single-major General program. 15.0 credits including the following 6.0 credits:

- 1.0 CUST credit at the 1000 level
- 5.0 CUST credits at the 2000 level or beyond

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The joint-major General program. 15.0 credits including the following 5.0 credits:

- 1.0 CUST credit at the 1000 level
- 4.0 CUST credits at the 2000 level or beyond

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

Specializations

Specialization in Criticism & Theory

Specialization in Film, Literature & Narrative

Specialization in Integrated Arts

BA.ECON - Economics - BA General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (General)

Description
www.trentu.ca/economics

Economics is the academic discipline most discussed by the general public, yet it is also one of the least understood. Economics is the social science that deals with problems of scarcity through a systematic and logical framework for analyzing how a society solves such problems as which goods and services to produce, how to organize production, and for whom goods and services are to be produced. Knowledge of economics is necessary for understanding and dealing intelligently with current topics like unemployment, economic growth, income inequality, the environment, globalization, and various forms of market regulation. Besides its importance in understanding contemporary social issues, economics is useful in developing career skills for business, law, teaching, public administration, and research. Both verbal and mathematical training are involved in the study of economics.

INFORMATION & ADDITIONAL NOTES

- A 4U Mathematics course is strongly recommended for students who plan to major in Economics.

Requirements

Bachelor of Arts Program in Economics

- ECON 2000H, 2010H, and 2610H are considered equivalent to the 3000 level in order to satisfy the University requirement for at least 4.0 credits at the 3000 or 4000 level in the General program.

The single-major General program. 15.0 credits including the following 6.0 credits:

- 3.0 ECON credits consisting of ECON 1010H, 1020H, 1250H, 2000H, 2010H, and 2200H
- 3.0 ECON credits in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The joint-major General program. 15.0 credits including the following 5.0 credits:

- 2.0 ECON credits consisting of ECON 1010H, 1020H, 2000H, and 2010H
- 3.0 ECON credits in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

BA.ENGL - English Literature - BA General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (General)

Description
www.trentu.ca/english

Words matter. In literature, they can help us understand our world and our place in it; they can introduce us to people, places, and experiences we wouldn't otherwise have access to; they can speak to a history of ideas and experiences that are vital, turbulent, and inspiring; they can inspire our own creativity and help us figure out how to better communicate our own ideas.

With our recently-revised curriculum, you'll have a chance to read widely, in exciting new areas of study while still gaining a foundational understanding of literary history and developing durable and transferable skills in close reading, clear and persuasive writing, and creative thinking. In the early years of our program, you'll be introduced to the fundamentals of literary study, while having the chance to sample new literatures, time-tested classics, unique genres, and creative writing. In the later years, you'll continue those literary explorations and encounter dynamic periods in literary history. With courses on medieval legends, graphic novels, Shakespearean plays, popular literatures, critical theory, and creative writing, you'll have a chance to pursue whatever literatures interest you and help you achieve your academic and career goals. For more information, please see the department website.

Requirements

Bachelor of Arts Program in English Literature

The single-major General program. 15.0 credits including the following 6.0 credits:

- 1.0 ENGL credit at the 1000 level
- 5.0 ENGL credits at the 2000 level or beyond, including at least 1.0 credit from category A and at least 0.5 credit from category B

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The joint-major General program. 15.0 credits including the following 5.0 credits:

- 1.0 ENGL credit at the 1000 level
- 4.0 ENGL credits at the 2000 level or beyond, including at least 1.0 credit from category A and at least 0.5 credit from category B

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of two programs in a joint-major degree.

BA.ERST - Environmental & Resource Studies - BA General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (General)

Description
www.trentu.ca/ers

Environmental & Resource Science/Studies within the Trent School of the Environment provides many opportunities to study the environment, with more than 100 courses in all aspects of environmental science and policy. Many of these courses emphasize practical experience, including field work in Trent's network of nature areas and in local communities. The program offers a high degree of flexibility in course selection, including options for a year abroad, community-based research courses, placements and internships, and Honours theses.

INFORMATION & ADDITIONAL NOTES

- Science courses, which fulfill University requirements for the BSc, are designated Environmental & Resource Science (ERSC) and marked as Science; arts courses are designated Environmental & Resource Studies (ERST).
- Any course involving work with live vertebrate animals requires the Animal Care Course.
- Community-based research, placement, reading and Honours thesis courses normally require a minimum cumulative average of 75%.
- There may be a small additional fee for field trips in certain courses.
- The Accelerated Master's program in Environmental & Life Sciences allows students to obtain a research-based MSc within a shorter timeframe. See www.trentu.ca/els/experience/msc-program/accelerated-masters-program for details.

Requirements

Bachelor of Arts Program in Environmental & Resource Studies

The single-major General program. 15.0 credits including the following 7.5 credits:

- 1.5 ERSC/ERST/SAFS credits from ERSC 1010H, 1020H, 1040H, 1060H, ERST 1030H, or SAFS 1001H
- 2.5 ERST credits consisting of ERST 2100H, 2510H, 2520H, 2525H, and 3000H
- 2.5 ERST credits at the 3000 level or beyond in addition to the above
- 0.5 ERST credit at the 2000 level or beyond in addition to the above
- 0.5 ERSC credit at the 2000 level or beyond

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The joint-major General program. 15.0 credits including the following 6.0 credits:

- 1.5 ERSC/ERST/SAFS credits from ERSC 1010H, 1020H, 1040H, 1060H, ERST 1030H, or SAFS 1001H
- 2.5 ERST credits consisting of ERST 2100H, 2510H, 2520H, 2525H, and 3000H
- 1.5 ERST credits at the 3000 level or beyond in addition to the above
- 0.5 ERSC credit at the 2000 level or beyond

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree, with the following exception: for students pursuing a joint-major degree in Environmental & Resource Studies and Geography, one of ERSC 1010H, ERSC 1020H, CLIM-ERSC-GEOG 1060H, or SAFS 1001H may be used to simultaneously satisfy the requirements of both programs.

BA.FREN - French Studies - BA General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (General)

Description
www.trentu.ca/french

Housed in the School for the Study of Canada / École d'études canadiennes, the French Studies program includes an array of courses on Franco-Canadian and francophone cultures and literatures, and French language. With courses from the elementary to the advanced levels, the program will help you begin, develop, or deepen your mastery of the French language. Courses on the literatures and cultures of Quebec, French Canada, France, and the world's Francophonie, ranging from cinema to science fiction to translation to Indigenous literatures, will provide you with a thorough understanding of the national and international Francophonie beyond the mere mastering of the French language. The program will help you become a bilingual, linguistically and culturally aware individual, and shape your future as a teacher, public servant, graduate student, scholar, or global citizen. As a central feature, the Study Abroad program in Nantes, France, gives students majoring in French Studies an opportunity to develop and refine their knowledge of French in a European context, in a city that has a strong connection with Canada.

INFORMATION & ADDITIONAL NOTES

- FREN 1010H is intended for complete beginners with no previous exposure to French; it is especially suited to students who have not attended a Canadian secondary school.
- FREN 1020H and 1030H are for students with grade 9 (1 U/M) or grade 10 (2 U/M) French.
- FREN 1060H and 1070H are for students with grade 11 (3 U/M) French, whose level of proficiency is not high enough for 1101H and 1102H or who do not intend to pursue a major.
- FREN 1101H and 1102H are for students with grade 12 (4 U/M) French and are required for a major or minor in French Studies.

- FREN 2051H is a prerequisite for all 3000- and 4000-level courses in literature and should normally be taken by students in their second year. It is not to be taken concurrently with or subsequent to any 3000-level literature course.
- Students without grade 12 (4 U/M) French or equivalent who wish to take their first Trent French course will be asked upon registration to take a French placement test. Instructions on how to find the test are available at www.trentu.ca/french/program.

Requirements

Bachelor of Arts Program in French Studies

- FREN 1000Y, 1010H, 1020H (1001H), 1030H (1002H), 1060H, 1070H, 2060H, 2070H, and 4059H are not for credit toward the major in French Studies.

The single-major General program. 15.0 credits including the following 6.0 credits:

- 2.0 FREN credits consisting of FREN 1101H, 1102H, 2051H, and 2452H
- 0.5 FREN credit from FREN 2451H, 3506H, or 3507H
- 1.0 FREN credit from FREN 2151H, 2152H, 3051H, 3052H, 3053H, or 4053H
- 0.5 FREN credit from FREN 3231H, 3232H, 3831H, or 3832H; or any 4000-level course on a Quebec subject with permission of the chair
- 0.5 FREN credit from FREN 2236H, 3237H, 3238H, 3239H, or 3301H; or any 4000-level course on a Quebec subject with permission of the chair
- 1.0 FREN credit at the 3000 level or beyond in addition to the above
- 0.5 FREN credit in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The joint-major General program. 15.0 credits including the following 5.0 credits:

- 1.5 FREN credits consisting of FREN 1101H, 1102H, and 2051H
- 1.5 FREN credits from FREN 2151H, 2152H, 2451H, or 2452H
- 0.5 FREN credit from FREN 3231H, 3232H, 3831H, or 3832H; or any 4000-level course on a Quebec subject with permission of the chair
- 0.5 FREN credit from FREN 2236H, 3237H, 3238H, 3239H, or 3301H; or any 4000-level course on a Quebec subject with permission of the chair
- 1.0 FREN credit at the 3000 level or beyond in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

BA.GDST - Global Development Studies - BA General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (General)

Description
www.trentu.ca/ids

Global Development Studies involves the examination of societies and cultures undergoing rapid change, and of the complex global relations shaping issues such as agriculture, the environment, the global economy, culture and identity, human rights, and social transformation. The program is offered with the co-operation of the following departments and programs: Anthropology, Cultural Studies, Economics, Environmental & Resource Science/Studies, Gender & Social Justice, Geography, History, Indigenous Studies, Political Studies, and Sociology.

Note: the General degree program in Global Development Studies is available only as a joint-major. The Honours degree program is available as a single- or joint-major.

Requirements

Bachelor of Arts Program in Global Development Studies

- Students in the joint-major program in Anthropology and Global Development Studies may substitute GDST-ANTH 2500H and 2600H for 1.0 credit from 2000-level ANTH courses in their Anthropology requirements.
- Students may count no more than 1.0 credit in GDST reading courses toward their Global Development Studies degree requirements.
- Students are strongly encouraged to include ECON 1010H and 1020H in their choice of elective courses.

The joint-major General program. 15.0 credits including the following 5.0 credits:

- 2.5 GDST credits consisting of GDST 1001H, 1002H, 2010H, 2251H, and 3001H
- 1.0 GDST credit at the 3000 level or beyond from Category A
- 1.5 GDST credits in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

BA.GEOG - Geography - BA General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (General)

Description
www.trentu.ca/geography

The Trent School of the Environment offers BA and BSc programs in Geography. Students may earn a single-major or joint-major degree with a wide range of other University departments or programs. Students earning a degree with a major in another subject may also obtain a minor in Geography. The program has a strong emphasis on field-based learning and interdisciplinary study.

INFORMATION & ADDITIONAL NOTES

- There may be a small additional fee for field trips in certain courses.

Requirements

Bachelor of Arts Program in Geography

- Students who have successfully completed PSYC 2019H are exempt from the GEOG 2080H requirement for the joint-major or minor in Geography. This exemption will not, however, alter the minimum number of credits in Geography required for the degree.
- Students who have taken MATH 1052H and achieved a grade of at least 75% are exempt from taking GEOG 2080H, and from the GEOG 2080H prerequisite for other Geography courses. This exemption will not, however, alter the minimum number of credits in Geography required for the degree.
- GEOG 1030H and 1040H are prerequisites for most upper-level Geography courses. Students should check individual course descriptions for prerequisites.

The single-major General program. 15.0 credits including the following 7.5 credits:

- 2.5 GEOG credits consisting of GEOG 1030H, 1040H, 2090H, 2510H, and 3100H
- 0.5 credit from ERSC 1010H, 1020H, GEOG 1060H, or SAFS 1001H
- 0.5 GEOG credit from GEOG 2001H, 2401H, 2460H, 2530H, or 2540H
- 2.0 GEOG credits at the 3000 level or beyond in addition to the above
- 2.0 GEOG credits at the 2000 level or beyond in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The joint-major General program. 15.0 credits including the following 6.0 credits:

- 2.5 GEOG credits consisting of GEOG 1030H, 1040H, 2090H, 2510H, and 3100H
- 0.5 credit from ERSC 1010H, 1020H, GEOG 1060H, or SAFS 1001H
- 0.5 GEOG credit from GEOG 2001H, 2401H, 2460H, 2530H, or 2540H
- 2.0 GEOG credits at the 3000 level or beyond in addition to the above
- 0.5 GEOG credit at the 2000 level or beyond in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree, with the following exception: for students pursuing a joint-major degree in Geography and Environmental & Resource Science/Studies, one of ERSC 1010H, ERSC 1020H, CLIM-ERSC-GEOG 1060H, or SAFS 1001H may be used to simultaneously satisfy the requirements of both programs.

Specializations

Specialization in Climate Change

BA.GESO - Gender & Social Justice - BA General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (General)

Description
www.trentu.ca/gendersocialjustice

The program offered by the Department of Gender & Social Justice examines how systems of power, including gender relations and ideas about gender, shape every site of human interaction, from the personal to the institutional, and the local to the global. Gender relations and gendered identities are understood in constant interaction with race, class, ability, sexuality, citizenship, nation, and in connection to land, place, and cultural context. Courses investigate a broad range of issues, including how people experience configurations of systemic power—capitalism, white supremacy, colonialism, heteropatriarchy, ableism, and so on—within different contexts; how media and popular culture challenge and reproduce dominant cultural narratives; how social justice scholars and activists are re-envisioning public policies in health, social welfare, climate, land, arts, and education; how processes of global migration and labour are gendered, racialized, and colonial; how dominant institutions like the family, schools, and the state have been historically constituted and shape social identities and opportunities; and how diverse activists, land protectors, artists, and social justice movements work for and make change.

As an interdisciplinary program, Gender & Social Justice draws on theoretical perspectives and methodologies from a wide range of fields such as History, Political Studies, Psychology, Sociology, Anthropology, English Literature, Indigenous Studies, Cultural Studies, Global Development Studies, Canadian Studies, and the natural sciences. The program combines theory with practice, fosters critical thinking and research, and encourages students' involvement with local and broader communities.

Requirements

Bachelor of Arts Program in Gender & Social Justice

- No more than 1.0 credit from reading courses may count toward the number of GESO credits required for the single- and joint-major General degrees.

The single-major General program. 15.0 credits including the following 6.0 credits:

- 2.0 GESO credits consisting of GESO 1001H, 1002H, 2141H, and 3021H
- 1.0 GESO credit at the 3000 level or beyond in addition to the above
- 3.0 GESO credits in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The joint-major General program. 15.0 credits including the following 5.0 credits:

- 2.0 GESO credits consisting of GESO 1001H, 1002H, 2141H, and 3021H
- 3.0 GESO credits in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

Specialization in Sexuality Studies

BA.HIST - History - BA General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (General)

Description
www.trentu.ca/history

The History Department offers courses on Canadian, American, Latin American, European, Russian, African, Middle Eastern, and Asian history. They explore such themes as women's history, Indigenous history, ethnicity, work, culture (both popular and elite), political history (both domestic and international), war, illness, heritage, and applied history. The department is committed to small-group learning, effective teacher-student interaction, excellence in research, and creative links to other academic programs and public institutions.

INFORMATION & ADDITIONAL NOTES

- Enrolment limits will apply to many courses above the 1000 level. Please refer to the Academic Timetable for more information.
- Departures from any regulations must be authorized by the department through the chair.
- Students who take more than one 1000-level History course are reminded that there is a maximum number of History courses allowable in the degree.

Requirements

Bachelor of Arts Program in History

- One credit from the following Ancient Greek & Roman Studies courses may be counted as a credit in History: AGRS 2520H, 3100H, or 3140H. Please note that many other AGRS courses are cross-listed and can be taken as History credits.

The single-major General program. 15.0 credits including the following 6.0 credits:

- 1.0 HIST credit at the 1000 level
- 2.0 HIST credits at the 3000 level or beyond
- 3.0 HIST credits at the 2000 or beyond in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The joint-major General program. 15.0 credits including the following 5.0 credits:

- 1.0 HIST credit at the 1000 level
- 2.0 HIST credits at the 3000 level or beyond
- 2.0 HIST credits at the 2000 or beyond in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

BA.IESS - Indigenous Environmental Studies - BA General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (General)

Description
www.trentu.ca/ies

Indigenous Environmental Studies & Sciences at Trent University is an innovative and multidisciplinary program offered jointly by the School of the Environment and the Chanie Wenjack School for Indigenous Studies. It brings together principles of both Indigenous knowledge and Western science. Instruction integrating these approaches will provide students with the necessary knowledge and skills, including both critical and integrative thinking abilities, to begin to address the complex environmental problems facing Indigenous communities, governments, business, industry, research, and society in general. The foundation upon which the program is based recognizes both the strengths and limitations of any single perspective, and seeks to develop interactive and integrative thinking to address environmental, health, and social issues. Learning and problem-solving are focused on benefiting both Indigenous and non-Indigenous communities.

INFORMATION & ADDITIONAL NOTES

- There is no option to pursue a joint-major in Indigenous Environmental Studies & Sciences and Indigenous Studies or a joint-major in Indigenous Environmental Studies & Sciences and Environmental & Resource Science/Studies.
- Students who have earned the Diploma in the Indigenous Environmental Studies & Sciences may apply for admission to the BA or BSc degrees. Credits earned in the Diploma program are transferable to the BA and BSc degrees.
- Indigenous students seeking admission to this or other University programs should contact the Aboriginal enrolment advisor in the First Peoples House of Learning to inquire about getting special assistance with the admission process.
- There may be a small additional fee for field trips in certain courses.

Requirements

Bachelor of Arts Program in Indigenous Environmental Studies

- IESS 3635H, 3636H, 4630H, INDG 4050H, and an Indigenous language course are recommended for the degree.

The single-major General program. 15.0 credits including the following 7.5 credits:

- 1.5 IESS credits consisting of IESS 1001H and 2601Y
- 1.0 IESS credit from IESS 3631H and 3632H or 3731H and 3732H
- 1.0 IESS credit from IESS 4730Y or 4740Y
- 1.0 ERSC credit consisting of ERSC 1010H and 1020H
- 1.0 INDG credit consisting of INDG 1001H and 1002H
- 0.5 BIOL or ERSC credit from BIOL-ERSC 2260H, ERSC 2240H, or ERSC-BIOL 2701H
- 1.0 ERST, ERSC, or INDG credit at the 3000 level or beyond in addition to the above
- 0.5 ERST, ERSC, or INDG credit in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements.

The joint-major General program. 15.0 credits including the following 6.0 credits:

- 1.5 IESS credits consisting of IESS 1001H and 2601Y
- 1.0 IESS credit from IESS 3631H and 3632H or 3731H and 3732H
- 1.0 ERSC credit consisting of ERSC 1010H and 1020H
- 1.0 INDG credit consisting of INDG 1001H and 1002H
- 0.5 BIOL or ERSC credit from BIOL-ERSC 2260H, ERSC 2240H, or ERSC-BIOL 2701H
- 1.0 ERST, ERSC, or INDG credit at the 3000 level or beyond in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

Specialization in Indigenous Performance

Specialization in Nishinaabemowin

BA.INDG - Indigenous Studies - BA General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (General)

Description
www.trentu.ca/indigenous

Indigenous Studies is a multi-disciplinary examination, analysis, and reflection upon Indigenous experiences in Canada and around the world. This exploration, based in Western and Indigenous epistemologies, aims to develop a more complex understanding of this experience in its many dimensions: political, economic, social, cultural, and spiritual. The Chanie Wenjack School for Indigenous Studies offers a wide variety of courses allowing students to explore a particular aspect of this experience as well as opportunities for studying their interrelatedness. The knowledge gained forms a foundation for working more effectively with Indigenous peoples. The School also collaborates with the School of Business through the Specialization in Niigaaniiwin—The Art of Leading, with the School of the Environment in offering the Indigenous Environmental Studies & Sciences program, and with the School of Education through the Bachelor of Education – Indigenous.

INFORMATION & ADDITIONAL NOTES

- Courses fulfilling the Indigenous Course Requirement are marked “ICR” in the individual course descriptions.
- Students wishing to enrol in a reading course (INDG 3900Y, 3901H, 3902H, 4900Y, 4901H, 4902H), community-based practicum (INDG 3860Y, 3861H, 3862H, 4860Y, 4861H, 4862H), or double credit thesis (INDG 4020D) must obtain the School’s approval in the term prior to the course offering. The course must be identified with one of the categories to support the degree requirements. Students may count up to 2.0 credits from INDG practicum courses toward their Indigenous Studies degree requirements.
- There is overlap between Indigenous Studies course categories since individual courses address topic areas which are relevant to more than one category. If

a student wishes to vary a course category for their degree requirements, they may make an appointment with the School to present their case.

Requirements

Bachelor of Arts Program in Indigenous Studies

The single-major General program. 15.0 credits including the following 6.0 credits:

- 3.0 INDG credits consisting of INDG 1001H, 1002H, 2100Y, and 3813Y
- 2.0 INDG credits at the 3000 level or beyond in addition to the above
- 1.0 INDG credit in addition to the above
- Must include at least 0.5 credit from three of the four categories

In addition to the program requirements listed above, students must satisfy the University degree requirements.

The joint-major General program. 15.0 credits including the following 5.0 credits:

- 2.0 INDG credits consisting of INDG 1001H, 1002H, and 2100Y
- 1.0 INDG credit at the 3000 level or beyond
- 2.0 INDG credits in addition to the above
- Must include at least 0.5 credit from three of the four categories

In addition to the program requirements listed above, students must satisfy the University degree requirements.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

Specialization in Applied Indigenous Knowledge

Specialization in Indigenous Performance

BA.INFO - Information Systems - BA General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (General)

Description
www.trentu.ca/cois

Information systems specialists are concerned with the flow, storage, and access to information both within and across organizational boundaries, encompassing systems that are both computational and non-computational. They require a broad systems perspective and an appreciation of both technical matters like databases, networks, and telecommunications, as well as non-technical matters such as ethics, law, and digital culture.

INFORMATION & ADDITIONAL NOTES

- The Bachelor of Arts program in Information Systems is available only as a joint-major.

Requirements

Bachelor of Arts Program in Information Systems

- Students may not graduate with a joint-major degree in any two of the following three areas of study: Computer Science, Computing Systems, and Information Systems.

The joint-major General program. 15.0 credits including the following 5.0 credits:

- 2.0 COIS credits consisting of COIS 1010H, 1020H, 1620H, and 2620H
- 2.0 COIS credits at the 3000 level or beyond
- 1.0 COIS credit in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

BA.MDST - Media Studies - BA General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (General)

Description
www.trentu.ca/mediastudies

The Media Studies program at Trent takes an interdisciplinary approach to the understanding of media practices and effects. Students take courses in a range of disciplines including Cultural Studies, Anthropology, Philosophy, Computer Science, Canadian Studies, and Sociology, engaging with a range of ethical, theoretical, and technical concerns related to the implications of the human-technology interface for knowledge, individuality, and community. The program provides academic background for work in the media, communications, and any other field where media literacy is vital.

INFORMATION & ADDITIONAL NOTES

- Students may not graduate with a degree in Media Studies and a Cultural Studies Specialization in Film & Media.
- Students pursuing the Media Studies degree take courses offered by several departments. For a list of courses arranged by discipline, see www.trentu.ca/mediastudies/program/courses-discipline.

Requirements

Bachelor of Arts Program in Media Studies

The single-major General program. 15.0 credits including the following 6.0 credits:

- 1.0 MDST credit consisting of MDST 1010H and 1535H
- 1.0 MDST credit from MDST 2035Y or 2535H and 3535H
- 4.0 MDST credits in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The joint-major General program. 15.0 credits including the following 5.0 credits:

- 1.0 MDST credit consisting of MDST 1010H and 1535H
- 1.0 MDST credit from MDST 2035Y or 2535H and 3535H
- 3.0 MDST credits in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

BA.PHIL - Philosophy - BA General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (General)

Description
www.trentu.ca/philosophy

The Philosophy Department at Trent aims to provide students with skills in creating, understanding, evaluating, defending, and criticizing arguments. Some students recognize the intrinsic merits and interests of Philosophy. Our program ensures that these students are provided with grounding in the history of the discipline as well as opportunities to explore areas of particular philosophical interest. Other students wish to develop the kinds of critical reading, writing, thinking, and speaking skills that are best taught in Philosophy courses. These students recognize the value of these skills whatever discipline they study at Trent and whatever futures they imagine for themselves. The undergraduate program at Trent offers programs that are designed to satisfy the needs of both kinds of students.

Requirements

Bachelor of Arts Program in Philosophy

- It is strongly recommended that students successfully complete two of PHIL 1000H, 1100H, or 1200H before enrolling in upper-level Philosophy courses.
- It is strongly recommended that students majoring in Philosophy take PHIL-AGRS 2420H and/or 2430H before they take PHIL 3420H or 3430H, and that they take PHIL-AGRS 2420H and/or 2430H in the second year of the program.
- PHIL-COIS 2410H is strongly recommended for all students in Philosophy, especially for those intending to do graduate work in Philosophy.
- No more than 1.0 credit from reading courses may count toward the number of Philosophy credits required for the degree.

The single-major General program. 15.0 credits including the following 6.0 credits:

- 2.0 PHIL credits at the 3000 level or beyond
- 4.0 PHIL credits in addition to the above

- The 6.0 credits must include 2.0 PHIL credits from PHIL 2420H, 2430H, 3420H, 3430H, 4530H, or 4540H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The joint-major General program. 15.0 credits including the following 5.0 credits:

- 1.5 PHIL credits at the 3000 level or beyond
- 3.5 PHIL credits in addition to the above
- The 5.0 credits must include 1.0 PHIL credit from PHIL 2420H, 2430H, 3420H, 3430H, 4530H, or 4540H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

Specializations

Specialization in Ethics

BA.PLCW - Policing & Community Well-Being - BA General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (General)

Description
www.trentu.ca/durham/program/policing-community-well-being

Policing and Community Well-Being at Trent provides an understanding of the main theoretical concepts and practices by police and other social agencies and organizations as they relate to complex social issues impacting community safety and well-being. Students develop a wide range of skills, from interpreting crime and social disorder data to contributing to a multi-disciplinary approach to social development in order to reduce and prevent the incidence of crime and social disorder. Graduates will be prepared for the modern police service, as well as service in other social agencies and municipal governance (law, community research, conflict mediator, policy analyst) that collaborate across sectors to achieve the goals of community safety and well-being for all.

Requirements

Bachelor of Arts Program in Policing and Community Well-Being

- Students in the program are recommended to include one of SOCI 2430H, 2610H, or 2615H as electives for the degree.

The single-major General program. 15.0 credits including the following 7.0 credits:

- 4.5 PLCW credits consisting of PLCW 1001H, 1003H, 2002H, 2005H, 2010H, 2100H, 3002H, 3003H, and 3007H
- 1.0 PLCW credit at the 2000 level or beyond in addition to the above
- 0.5 FRSC credit consisting of FRSC 1100H
- 1.0 SOCI credit consisting of SOCI 1001H and 1002H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

BA.POST - Political Studies - BA General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (General)

Description
www.trentu.ca/politicalstudies

The Department of Political Studies provides for general study and for concentration in one or more fields—world politics, Canadian politics, and political theory. All three major fields of Political Studies are interconnected through four overlapping thematic clusters: (1) institutions, law, and policy, (2) political economy, (3) political culture and identity, and (4) alternative politics—allowing for a large variety of combinations for individual study.

INFORMATION & ADDITIONAL NOTES

- The Political Studies Department also offers a joint-major Honours program in International Political Economy, undergraduate certificates in Democratic Leadership and Political Leadership, and an Option in Leadership. See Calendar entries for more information.
- Global Power & Politics is a recognized Section of the Political Studies Department, offering an Option in Global Power & Politics. Political Studies courses delivered by members of the Global Power & Politics Section are marked (GP) in the individual course descriptions. The Centre for the Critical Study of Global Power & Politics is a Research Centre devoted to research in Global Power & Politics. The Centre is both a research centre and a resource for courses offered by members of the Global Power & Politics Section.
- Students interested in the possibility of registering for a reading course (POST 3900Y, 3901H, 3902H, 3903H, 4900Y, 4901H, 4902H, 4903H), research practicum (POST 4800Y, 4801H, 4802H), internship (POST 4870Y, 4871H, 4872H), or thesis (POST 4020D) should consult with the department regarding prerequisites and application procedures.

Requirements

Bachelor of Arts Program in Political Studies

The single-major General program. 15.0 credits including the following 6.0 credits:

- 1.5 POST credits consisting of POST 1001H, 1002H, and 3600H
- 2.0 POST credits from POST 2011H, 2012H, 2231H, 2232H, 2351H, or 2352H
- 1.5 POST credits at the 3000 level in addition to the above
- 1.0 POST credit in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The joint-major General program. 15.0 credits including the following 5.0 credits:

- 1.5 POST credits consisting of POST 1001H, 1002H, and 3600H
- 2.0 POST credits from POST 2011H, 2012H, 2231H, 2232H, 2351H, or 2352H
- 1.5 POST credits at the 3000 level in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

Specializations

Specialization in Global Politics & International Studies

Specialization in Political Theory

Specialization in Public Policy

BA.PSYC - Psychology - BA General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (General)

Description
www.trentu.ca/psychology

Psychology is defined as the scientific study of behaviour and the mind. As such, psychological research provides insight into questions on topics such as newborn infants' preference for their mother's voice, the link between personality and academic achievement or physical health, how sleep influences learning and memory, the identification of individuals who are at risk for Alzheimer's disease or cancer, sexual negotiation and behaviour in young adults, or even how you understand these words you are reading right now. Psychology is a scientific discipline with a multitude of practical applications: it deals with every aspect of our lives, and in its application of scientific methods to questions of human concern, it helps us to better understand how and why people act, think, and feel the way they do. The Psychology program at Trent ensures that students acquire research skills and a broad-based background in the basic content of the discipline, and that they have the opportunity at upper levels to focus on more specialized topics and to become involved in original research.

INFORMATION & ADDITIONAL NOTES

- 60% or higher in PSYC 1020H and 1030H is a prerequisite for all upper-level Psychology courses.
- A 4U Mathematics course is strongly recommended for students who plan to major in Psychology.
- Most courses at the 2000 and 3000 level in the department are assigned to one of two categories (Natural Science or Social Science). Students in the single-major or joint-major program in Psychology must include in their program a range of courses chosen from each category, as indicated in the requirements for the various program options.
- Any course involving work with live vertebrate animals requires the Animal Care Course. The Animal Care Course requirement is indicated in some course descriptions but may also apply to others. Check with the course instructor if in doubt.

- For non-majors taking courses where PSYC 2018H or 2019H is a prerequisite, a statistics course in another discipline may be substituted, but only if the permission of the department has been granted.
- A maximum 2.0 credits consisting of either reading courses (PSYC 3900Y, 3901H, 3902H, 4900Y, 4901H, and 4902H) and/or research practicum courses (PSYC 3801H, 3802H, 4801H, and 4802H) may be counted toward the course requirements for a major or joint-major degree in Psychology.
- Research practicum and reading courses are only open to students in the single-major or joint-major Honours programs in Psychology.
- Offerings of 4000-level courses change from year to year. A listing of the 4000 level courses can be found on the academic timetable.

Requirements

Bachelor of Arts Program in Psychology

- The department offers both a BA and a BSc degree. Students completing the single-major or joint-major General BSc program require 11.0 science credits, including at least 1.5 science credits in addition to Psychology and cross-listed Psychology courses. The 1.0 MATH credit requirement must be completed for all Psychology BSc degrees. PSYC 2018H and 2019H fulfill the requirement for 1.0 credit in Mathematics for the single-major (Honours or General) BSc in Psychology.

The single-major General program. 15.0 credits including the following 6.0 credits:

- 2.0 PSYC credits consisting of PSYC 1020H, 1030H, 2018H, and 2019H
- 0.5 PSYC credit from A2
- 0.5 PSYC credit from B2
- 0.5 PSYC credit from A3
- 0.5 PSYC credit from B3
- 1.0 PSYC credit at the 3000 level or beyond in addition to the above
- 1.0 PSYC credit in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The joint-major General program. 15.0 credits including the following 5.0 credits:

- 2.0 PSYC credits consisting of PSYC 1020H, 1030H, 2018H, and 2019H
- 0.5 PSYC credit from A2
- 0.5 PSYC credit from B2
- 0.5 PSYC credit from A3
- 0.5 PSYC credit from B3
- 0.5 PSYC credit at the 3000 level or beyond in addition to the above
- 0.5 PSYC credit in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

BA.SOCI - Sociology - BA General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (General)

Description
www.trentu.ca/sociology

Sociology at Trent provides students with a tool kit of theories, research skills, and factual information to enable them to think critically about the changing social conditions they are living through, and about the efforts of people to direct that change. Building on a common core of required courses in theory and research methods, Sociology at Trent offers a wide range of courses in topics such as social inequality, culture, deviance, criminal justice, gender and sexuality, work, migration, race and ethnicity, health and illness, aging, and health care.

INFORMATION & ADDITIONAL NOTES

- The program has two tiers: foundation courses in basic areas of Sociology at the 1000 and 2000 level, and courses in specialized areas of Sociology at the 2000, 3000, and 4000 level. The foundation courses aim to provide grounding in the core theoretical and methodological aspects of the discipline. The specialized courses permit students to study in some detail particular substantive areas in Sociology.
- A pass in SOCI 1001H and 60% or higher in SOCI 1002H is a prerequisite for all upper-level Sociology courses, with the possible exception of cross-listed courses, for which students should check the prerequisites.
- 3000-level courses are open to students who have completed 5.0 university credits, including at least 1.0 credit in Sociology at the 2000 level.
- 4000-level courses are open to students who have completed 10.0 university credits, including SOCI 2110H, SOCI 2151H, SOCI 3151H, and 2.0 additional 3000-level credits, of which at least 1.0 must be SOCI. Exceptions may be made for cross-listed courses, or with permission of the instructor.

Requirements

Bachelor of Arts Program in Sociology

- For students in a joint major with Child & Youth Studies, Communications, or Policing & Community Well-Being, CHYS-COMM 2010H and PLCW 2100H are equivalent to SOCI 2151H for program requirements but do not count as a Sociology credit. Students who have successfully completed CHYS-COMM 2010H or PLCW 2100H are not permitted to take SOCI 2151H but must substitute another half-credit course in Sociology at the 2000 level or beyond in order to fulfill degree requirements.

The single-major General program. 15.0 credits including the following 6.0 credits:

- 2.5 SOCI credits consisting of SOCI 1001H, 1002H, 2110H, 2151H, and 3151H
- 0.5 SOCI credit from SOCI 3100H or 3111H
- 1.5 SOCI credits at the 3000 level or beyond in addition to the above
- 1.5 SOCI credits in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The joint-major General program. 15.0 credits including the following 5.0 credits:

- 2.5 SOCI credits consisting of SOCI 1001H, 1002H, 2110H, 2151H, and 3151H
- 0.5 SOCI credit from SOCI 3100H or 3111H
- 0.5 SOCI credit at the 3000 level or beyond in addition to the above
- 1.5 SOCI credits in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

BA.SPEC - Individualized Studies - BA General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (General)

Description
Normally students choose a program of study determined by the academic regulations leading to a major or joint-major in Arts or Science. In exceptional circumstances, students of superior academic ability and intellectual independence may design an individualized program of study, selecting courses from various disciplines to explore a theme of their own choosing. Before designing such a program, students are encouraged to speak with an Academic Advisor about their personal academic goals (see Academic Advising).

The following guidelines apply:

This program is intended for students who have given evidence of superior academic ability and intellectual independence, and is normally available only as an Honours degree.

The Individualized Studies program consists of 20.0 credits of which at least 2.0 must be at the 4000 level. A minimum cumulative average of 75% should normally be maintained.

Students must apply for the program through an Academic Advisor. The application must include a rationale for the choice of courses, including reasons why the proposed program of study cannot be accommodated within an existing major or joint-major program, and must identify the remaining courses required.

Students must discuss the intended program with an Academic Advisor before the end of the first year of studies. Students who have completed 5.0 credits may be considered retroactively for an Individualized Studies program.

The Academic Advisor will: ensure that the program meets the University's degree requirements, ensure that the student has obtained approval from the academic departments or programs concerned, and confirm that the required courses for program completion will be available on the proposed schedule.

The Academic Advisor and the student must present the program to the Committee on Undergraduate Petitions (CUP) for approval. Once approved, any changes must be discussed with the Academic Advisor and reported to CUP.

An individualized study program in Global Studies is available as an Honours degree through Trent International. The program combines Study Abroad with internationally oriented studies in three or more disciplines. Students are normally required to study a language other than English, at least to the intermediate level, and to spend one year of undergraduate study in another country. Students must apply for entry into this program through Trent International (not an Academic Advisor) by April 1 in the first year of studies. A list of proposed courses and a rationale for these choices should be submitted with the application. For application information and further details please contact Trent International.

BAH.ACEC - Accounting & Economics - BA Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
www.trentu.ca/business

The School of Business and the Department of Economics jointly offer a four-year Honours program leading to a BA in Accounting and Economics. The program is for students who are interested in studying economics and pursuing a CPA designation. The program provides students with intensive exposure to accounting concepts and applications, and provides the economic background to enable students to understand financial markets and the macroeconomic business environment.

Students take the core of two degrees. This program covers all courses in accounting required for entry into the CPA's professional education program. Students will not only be prepared for a career as an accountant, they will have a foundation in economic theory and in economic data analytics.

This degree is novel in that it is focused very specifically on numeracy, accounting concepts, economic theory, and financial analytics. The degree allows students to take the full set of accounting courses that would be unavailable for students pursuing an Economics major. It also allows students interested in an accounting program to explore financial markets and financial data analytics in greater detail and depth.

The program has several options for experiential learning. There is a co-op option for students wanting directly related work experience. Students may also pursue an individual placement or internship opportunity. Courses in the program will include access to the Financial Intelligence and Innovation Hub, providing financial market insight and direct experience on the Bloomberg platform and other prominent data sources. In several upper-year courses, students will explore case studies, and will explore and analyze real world data, including firm financial data, financial market data and macroeconomic data.

INFORMATION & ADDITIONAL NOTES

Requirements

- Students entering the Accounting & Economics program are required to have completed a secondary school senior-level mathematics course in good standing.

Bachelor of Arts Program in Accounting & Economics

The single-major Honours program. 20.0 credits including the following 15.5 credits:

- 7.5 ADMN credits consisting of ADMN 1221H, 2100H, 2221H, 3032H, 3121H, 3200H, 3221H, 3250H, 3321H, 3710H, 4300H, 4301H, 4302H, 4303H, and 4710H
- 5.0 ECON credits consisting of ECON 1010H, 1020H, 1250H, 2000H, 2010H, 2200H, 3000H, 3010H, 3200H, and 4041H
- 0.5 ECON credit at the 3000 level or beyond in addition to the above
- 1.5 ECON credits in addition to the above
- 1.0 COIS credit consisting of COIS-MDST 1010H and COIS-ADMN 1620H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

BAH.ACEC.COOP - Accounting & Economics - Co-op

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
www.trentu.ca/business

Co-op is an opportunity for students to gain work-integrated experiential learning that will help them get a head start on a career. The Accounting & Economics Co-op assists graduating students in achieving a competitive edge while generating experience within a wide range of sectors. Co-op gives the students a chance to obtain 12 months of practical experience on the job, develop or enhance technical skills, explore career options, network with a variety of individuals and organizations, learn from mentors and tutors, enhance communication and presentation skills, and develop technical writing skills.

INFORMATION & ADDITIONAL NOTES

- Co-op students are responsible for paying tuition for their academic courses, ancillary fees, and levies. All Trent students are charged ancillary fees every Fall & Winter term. Co-op students will experience the same cycle for their ancillary fee payments regardless of when they are out on work terms. Co-op students do not pay tuition during their work terms.
- Co-op students are responsible for paying the compulsory Co-op Fee a total of five times during their degree program, and the Co-op fee will be applied to their student account in Year 2 Fall, Year 2 Winter, Year 3 Fall, Year 3 Winter, and Year 4 Fall.
- Students are encouraged to meet with their co-op coordinator each year to confirm they are meeting program requirements.

Requirements

Bachelor of Arts Program in Accounting & Economics – Co-op

- Co-op students must satisfy the requirements for the single-major BA Honours in Accounting & Economics and the Co-op requirements listed below.

- The Accounting & Economics Co-op is a competitive direct-entry program with a limited number of student places. To remain in the co-op, students must successfully complete the required work term preparation course COOP 2000H with a minimum 70% progression requirement and maintain a minimum 75% cumulative average throughout their study terms. In addition, students must receive satisfactory evaluations during each of their work terms. Students who do not achieve a minimum 70% in COOP 2000H will be withdrawn from the co-op program but may continue their studies in Accounting & Economics or transfer to a major in a different subject. Once withdrawn, students are not eligible to re-enter the co-op program.
- Co-op students cannot register in ADMN 4870H/ 4880H: Field Placement or ADMN 4890Y: Business Internship.
- Accounting Co-op students are recommended to specialize in accounting to meet CPA preparatory course requirements to be accepted into the CPA Professional Education Program (PEP) upon graduation. Work terms should ideally be in areas such as financial accounting, management accounting, auditing, taxation, financial analysis, or corporate finance. These experiences are crucial for developing the skills necessary for a successful career in accounting.
- Three non-credit co-op work terms are required for the Accounting & Economics Co-op (COOP 2100P, 3100P, 4100P). Students should be prepared to relocate for work terms. It is preferred that work term 2 and work term 3 are with the same employer. Work terms are normally available in Ontario or Canada. The schedule is listed below. Students who choose to explore any additions (minor, specialization, option) to the single-major Honours may require additional time to complete their degrees, as all courses are not offered in every term. It is expected that students follow the set work term schedule. Co-op students are discouraged from taking a course at Trent or on Letter of Permission while on a work term.
- For specific details about the work term schedule for students in the Accounting & Economics Co-op program, please contact the School of Business at schoolofbusinesscoops@trentu.ca.
- Students on a work term must complete learning objectives, a midterm evaluation, a final evaluation, and a final work term report. Co-op employers will also complete a midterm evaluation and final evaluation of the student's work term. Upon receiving the completed documentation and upon a satisfactory employer assessment, a Pass (P) or Fail (F) will be assigned for COOP 2100P, 3100P, and 4100P. At the completion of all three work terms, students will be required to complete a capstone oral presentation in which they reflect on their work terms and time in the co-op program.
- Every effort is made by the School of Business to find suitable work term employers for students enrolled in the co-op, but the School cannot guarantee a work term opportunity for every student. The hiring process is competitive and dependent upon many factors including market conditions and the academic performance of a student. Co-op students secure positions through successful participation in the co-op interview process and/or their own job search activities. Withdrawal from the co-op program will not normally be approved while a student is on a work term.
- Students who are unable to obtain a suitable co-op employer in an upcoming work term are expected to continue with their academic program on a full-time basis. A missed work term can be made up. In the event that a co-op student is unable to complete three work terms, yet otherwise fulfills all degree requirements, the student will be awarded an Honours Bachelor of Arts in Accounting & Economics degree.

BAH.ADMN - Business Administration - BA Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts, Honours

Description
www.trentu.ca/business

The Honours Business Administration program enables students to develop an understanding of the nature of organizational life, to communicate more effectively, to learn the techniques of financial and management accounting, and to gain knowledge of managerial planning and strategy formation. In addition to core business subjects, the program emphasizes communication and creative problem-solving skills that are essential to future career success. A strong emphasis on group work provides an ideal environment in which to practice these skills. An essential feature of the program is its focus on the human side of organizations to recognize and value the people who actually make organizations work. The School of Business encourages students to develop a broad base of knowledge, an understanding of the larger social issues facing organizations, and the capacity for critical analysis. Students can gain real work experience through placement, internship and co-op opportunities.

Note: The Bachelor of Arts program in Business Administration is available only as a joint-major.

Requirements

Bachelor of Arts Joint-Major Program in Business Administration

- Specializations are available only to students in the Honours program (BBA or joint-major BA/BSc). Students may obtain only one Business Administration specialization as part of an Honours degree.
- A minimum grade of 65% is required in any course counting toward Business Administration specialization requirements.
- Students may count ADMN specialization credits at the 3000 and 4000 level toward the requirement of 1.5 ADMN elective credits at the 3000 or 4000 level in the joint-major Honours program.
- Students may count ADMN specialization credits at the 4000 level toward the requirement of 0.5 ADMN elective credit at the 4000 level in the joint-major Honours program (excluding ADMN 4820Y, 4870H, 4880H, 4890Y, 4900Y, 4901H, 4902H, 4903H).
- Honours students may choose to complete only one of the Specialization in Economics or the minor in Economics.

The joint-major Honours program. 20.0 credits including the following 8.5 credits:

- 4.5 ADMN credits consisting of ADMN 1000H, 1221H, 2100H, 2220H, 2221H, 2510H, 3032H, 3200H, and 3300H
- 0.5 ADMN credit at the 4000 level (excluding ADMN 4820Y, 4870H, 4880H, 4890Y, 4900Y, 4901H, 4902H, 4903H)
- 1.5 ADMN credits at the 3000 level or beyond in addition to the above
- 0.5 ADMN credit from ADMN 1250H or from 0.5 ADMN credit at the 2000 level or beyond in addition to the above
- 1.5 ECON credits consisting of ECON 1010H, 1020H, and 2200H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

Specializations

Specialization in Accounting

Specialization in Economics

Specialization in Entrepreneurship

Specialization in Ethics & Sustainability

Specialization in Finance

Specialization in Global Innovation, Entrepreneurship, and Social Change

Specialization in Human Resource Management

Specialization in Information Systems & e-Commerce

Specialization in Logistics and Supply Chain Management

Specialization in Marketing & Consumer Culture

Specialization in Niigaaniiwin—The Art of Leading

BAH.AGRS - Ancient Greek & Roman Studies - BA Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
The ancient Greeks and Romans have shaped many later societies. Their enduring mythology, influential leaders, and foundational philosophical and narrative texts underlie many modern institutions, such as political governing bodies and educational systems, as well as popular cultural artefacts, films, and video games. In the Ancient Greek & Roman Studies (AGRS) program, students learn that acquiring a deep understanding of the virtues and challenges of past societies can better enable us to comprehend and re-shape our own worlds. AGRS students study ancient literature, history, art history and archaeology, myth, religion, gender, slavery, poverty and wealth, philosophy, environment, and languages (Latin and Greek). From Homer to Alexander the Great, from Julius Caesar to Constantine and beyond, we study the complexities of ancient society and their continuing significance.

INFORMATION & ADDITIONAL NOTES

- Senior seminar courses are offered according to faculty availability. Students may take more than one such course in one year or in their overall program.
- Reading courses may be offered according to faculty availability. Interested students should consult with the program before the first week of classes. Students may take more than one such course in their overall program.
- Students may also study Mediterranean archaeology in field school courses offered by other Canadian and non-Canadian universities for credit on a Letter of Permission, with program approval.
- Students considering graduate work in Ancient Greek & Roman Studies are strongly advised to include as many credits in Greek and Latin as possible in their program, to begin the study of German and French as undergraduates, and to consult with the program coordinator.

Requirements

Bachelor of Arts Program in Ancient Greek & Roman Studies

- For the purposes of University regulations concerning the maximum number of credits in a single discipline (13.0 for Honours), all AGRS, GREK, and LATN credits are counted toward the Ancient Greek & Roman Studies degree.

The single-major Honours program. 20.0 credits including the following 9.0 credits:

- 1.0 AGRS credit consisting of AGRS 2103H and 2303H
- 0.5 AGRS credit from AGRS 2205H or 2206H
- 0.5 AGRS credit from AGRS 4001H, 4002H, or 4003H
- 4.0 AGRS, GREK, and/or LATN credits at the 3000 level or beyond in addition to the above
- 1.0 AGRS, GREK, and/or LATN credit at the 2000 level or beyond in addition to the above
- 2.0 AGRS, GREK, and/or LATN credits in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The joint-major Honours program. 20.0 credits including the following 7.0 credits:

- 1.0 AGRS credit consisting of AGRS 2103H and 2303H
- 0.5 AGRS credit from AGRS 2205H or 2206H
- 0.5 AGRS credit from AGRS 4001H, 4002H, or 4003H
- 2.0 AGRS, GREK, and/or LATN credits at the 3000 level or beyond in addition to the above
- 1.0 AGRS, GREK, and/or LATN credit at the 2000 level or beyond in addition to the above
- 2.0 AGRS, GREK, and/or LATN credits in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

Specializations

Specialization in Greek & Latin

BAH.AGRS.COOP - Ancient Greek & Roman Studies - Co-op

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
www.trentu.ca/coop

Co-op is an opportunity for students to gain work-integrated experiential learning that will help them get a head start on a career. The Ancient Greek & Roman Studies Co-op assists graduating students in achieving a competitive edge while generating experience within a wide range of sectors. Specifically, co-op gives the students a chance to obtain 12 months of practical experience on the job, develop or enhance technical skills, explore career options, network with a variety of individuals and organizations, learn from mentors and tutors, enhance communication and presentation skills, and develop technical writing skills.

INFORMATION AND ADDITIONAL NOTES

- Co-op students are responsible for paying tuition for their academic courses, ancillary fees, and levies. All Trent students are charged ancillary fees every Fall & Winter term. Co-op students will experience the same cycle for their ancillary fee payments regardless of when they are out on work terms. Co-op students do not pay tuition during their work terms.
- Co-op students are responsible for paying the compulsory Co-op Fee a total of five times during their degree program, and the Co-op fee will be applied to their student account in Year 2 Fall, Year 2 Winter, Year 3 Fall, Year 3 Winter, and Year 4 Fall.
- Students are encouraged to meet with their Co-op Coordinator at CareerSpace each year for support with their co-op work terms, career development, and to confirm they are meeting co-op progression requirements.

Requirements

Bachelor of Arts Program in Ancient Greek & Roman Studies — Co-op

- Co-op students must satisfy the requirements for the single-major BA Honours in Ancient Greek & Roman Studies and the Co-op requirements listed below.
- Ancient Greek & Roman Studies Co-op is a competitive direct-entry program with a limited number of student places. Students who are not admitted directly may apply for admission after commencing studies at Trent and may be admitted on a competitive basis provided there are available spaces in the program.
- To remain in the co-op program, students must complete the required work term preparation and reflection courses (COOP 2000H and 4000H) with a minimum 70% progression requirement in COOP 2000H and 65% in COOP 4000H, and maintain a minimum 75% cumulative average throughout their study terms. In addition, students must continue to receive satisfactory evaluations during each of their three work terms. Students who do not achieve a minimum 70% in COOP 2000H will be withdrawn from the Co-op program but may continue their studies in Ancient Greek & Roman Studies or transfer to a major in a different subject. Once withdrawn, students are not eligible to re-enter the Co-op program. Students who do not achieve a minimum 65% in COOP 4000H but otherwise fulfill all degree requirements will be awarded an Honours degree in Ancient Greek & Roman Studies without the Co-op designation.
- Three non-credit co-op work terms are required for the BA program in Ancient Greek & Roman Studies Co-op (COOP 2100P, 3100P, 4100P). The prerequisite for the first work term (COOP 2100P) for students in this program is completion of COOP 2000H with a minimum grade of 70% and completion of at least 10.0 academic credits. The schedule for the single-major Honours program is listed below. Students who choose to explore any additions (minor, specialization, or option) to a single-major Honours may require additional time to complete their degrees, as all courses are not offered in every term. It is expected that students follow the set work term schedule. Students are encouraged to work with an academic advisor for support with degree mapping.

YEAR	FALL	WINTER	SUMMER
Year 1	Study Term 1	Study Term 2	Study Term 3
Year 2	Study Term 4	Study Term 5	Work Term 1
Year 3	Study Term 6	Study Term 7	Work Term 2
Year 4	Work Term 3	Study Term 8	–

- Students on a work term must complete learning objectives, a midterm evaluation, a final evaluation, and a final work term report. Co-op employers will also complete a midterm evaluation and final evaluation of the student's work term. Upon receiving the completed documentation and upon a satisfactory employer assessment, a Pass (P) or Fail (F) will be assigned for COOP 2100P, 3100P, and 4100P. CareerSpace makes every effort to find suitable work terms for students enrolled in the co-op program, but a work term opportunity cannot be guaranteed for every student. The work term process is competitive and dependent upon many factors including market conditions, the preparedness of a student including their job applications and performance in job interviews, and the academic performance of a student. Co-op students secure positions through successful participation in the co-op interview process and/or their own job search activities. Withdrawal from the co-op program will not normally be approved while a student is on a work term. Students are not permitted to take an academic course during a scheduled work term.
- Students who are unable to obtain a suitable co-op opportunity in an upcoming work term are expected to continue with their academic program on a full-time basis. A single missed work term can be made up, but in the event that a co-op student cannot secure their work term for a second time, they will be withdrawn from the co-op program. If a student is unable to complete three work terms yet otherwise fulfills all degree requirements, the student will be awarded an Honours Bachelor of Arts in Ancient Greek & Roman Studies.

BAH.AIST - Artificial Intelligence - BA Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
Artificial Intelligence is an interdisciplinary program enabling students not only to gain theoretical understanding of learning models and intelligence, but to integrate and synthesize this knowledge in connection with the foundational areas of computation, statistics, cognition and philosophy across a breadth of application areas. The program in Artificial Intelligence will equip students to grapple with the complex ethical, conceptual, technique and institutional challenges associated with the growing demands for a variety of career options related to AI and its applications.

The Artificial Intelligence program responds to the rapid advancements of today's technology, the growing demand for AI professionals in industry, organizations, academic research, both locally and globally. The program integrates multiple academic units, encouraging students to explore AI from diverse perspectives and understand its applications across various domains.

The program will enable students to understand the theoretical foundation of Artificial Intelligence and Machine Learning (ML), gain knowledge on philosophy and AI, develop skills in computer programming and communication, and experience AI applications in various areas. Topics include computer programming and applications, machine learning tools and algorithms, communications, ethics and logical studies, social and economic impacts and research. The program incorporates methodologies for systems and applications of data analytics from different perspectives. Students will gain real-world experience through hands-on lab practice and capstone projects, and will have the opportunity to complete a research practicum or a co-op. The BA program covers the basics of computer programming, machine learning tools, and algorithms, and focuses on logical reasoning, ethics, human learning, and the social aspects and implications of AI.

Requirements

Bachelor of Arts Program in Artificial Intelligence

The single-major Honours program. 20 credits including the following 10.0 credits:

- 3.0 AIST credits consisting of AIST 1000H, 1400H, 3004H, 3270H, 3550H, and 4270H
- 2.5 COIS credits consisting of COIS 1020H, 1620H, 2240H, 3510H and 3560H
- 1.0 PHIL credit consisting of PHIL 2270H and 2410H
- 1.0 PHIL credit from PHIL 1000H, 1100H, or 1200H
- 0.5 PHIL credit from PHIL 3320H or PHIL-AIST 3410H
- 0.5 PHIL credit from PHIL 3360H or 3370H
- 0.5 PHIL credit from PHIL 4540H or 4710H
- 1.0 credit from AIST 2030H, 3030H, 3653H, 3960H, 4258H, 4430H, 4445H, ADMN 3610H, COIS 3030H, COIS-MDST 3820H, or LSCM 3000H

In addition to the program requirements listed above, students must satisfy the University Degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The joint-major Honours program. 20.0 credits including the following 8.5 credits:

- 3.0 AIST credits consisting of AIST 1000H, 1400H, 3004H, 3270H, 3550H, and 4270H
- 2.5 COIS credits consisting of COIS 1020H, 1620H, 2240H, 3510H, and 3560H
- 1.0 PHIL credit consisting of PHIL 2270H and 2410H
- 1.0 PHIL credit from PHIL 1000H, 1100H, or 1200H
- 0.5 PHIL credit from PHIL 3320H, 3360H, 3370H, or PHIL-AIST 3410H
- 0.5 credit from AIST 4430H, AIST 4445H, PHIL 4540H, or PHIL 4710H

In addition to the program requirements listed above, students must satisfy the University Degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

Due to overlapping requirements, it is not possible to combine Artificial Intelligence and Computing Systems in a joint-major Honours degree. A joint major is possible between Artificial Intelligence and Philosophy, but no credit may be double-counted. Please contact the Artificial Intelligence program office (aist@trentu.ca) for further information and advisement.

- Students who are unable to obtain a suitable co-op opportunity in an upcoming work term are expected to continue with their academic program on a full-time basis. If a student is unable to secure their 12-month work term in Year 3 Summer, the missed work term experience would be delayed to Year 4 Fall. If a co-op student fails to secure their work term experience in Year 4 Fall or is unable to complete their 12-month co-op work term yet otherwise fulfills degree requirements, they will be awarded an Honours Bachelor of Arts or Bachelor of Science in Artificial Intelligence.

BAH.ANTH - Anthropology - BA Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
www.trentu.ca/anthropology

Anthropology is the study of human cultural, behavioural, and biological variability. It is a discipline integrating four subfields: archaeology, linguistic anthropology, biological anthropology, and cultural anthropology. Archaeologists document the material remains of past societies to understand and to explain patterns of cultural behaviour and cultural change. Linguists study languages worldwide and in relation to society and culture. Biological anthropologists investigate human evolution, growth, and development in relation to environmental, genetic, and cultural factors. Cultural anthropologists work with living people worldwide, recording their ways of life and beliefs and interpreting their findings to understand and explain the similarities and differences in cultural practices. Anthropologists are unified by their interest in human variability and the manner in which different individuals, communities, and societies, whether in the past or present, relate to each other at scales ranging from the local to global.

INFORMATION & ADDITIONAL NOTES

- Due to overlapping requirements, it is not possible to combine Anthropology and Archaeology in a joint-major Honours degree.
- It is not possible to combine Anthropology and Forensic Science in a joint-major Honours degree.
- Students who plan to take upper-year archaeology courses are strongly encouraged to take ANTH 2121H and 2122H, which are both prerequisites for many upper-year archaeology courses.
- Students planning to enter graduate school are strongly advised to take ANTH 2001H, 2002H, 2121H, 2122H, 2410H, and 2450H; if they are planning to continue in archaeology, they are strongly advised to take both ANTH 3123H and 3991H.

- The Accelerated Master's program in Anthropology allows students to obtain a research-based MA or MSc within a shorter timeframe. Students who are interested in applying should contact the Anthropology graduate program director.
- Through the Study Abroad Exchange Program, students may travel to Belize for a semester or a year and take courses at Galen University. Information on the program is available at www.trentu.ca/studyabroad/trent-students.

Requirements

Bachelor of Arts Program in Anthropology

- Students may count no more than 1.0 credit from reading courses in Anthropology or equivalent toward the Honours degree.
- Students in the joint-major program in Anthropology and Global Development Studies may substitute GDST-ANTH 2500H and 2600H for 1.0 credit from 2000-level ANTH courses in their Anthropology requirements.

The single-major Honours program. 20.0 credits including the following 10.0 credits:

- 2.0 ANTH credits consisting of ANTH 1001H, 2001H, 2123H, and 2410H
- 0.5 ANTH credit from ANTH 3123H or 3991H
- 1.0 ANTH credit at the 4000 level
- 3.5 ANTH credits at the 3000 level or beyond in addition to the above, including 0.5 credit from each of Categories A, B, and C
- 3.0 ANTH credits in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The joint-major Honours program. 20.0 credits including the following 7.0 credits:

- 2.0 ANTH credits consisting of ANTH 1001H, 2001H, 2123H, and 2410H
- 0.5 ANTH credit from ANTH 3123H or 3991H
- 1.0 ANTH credit at the 4000 level
- 1.5 ANTH credits at the 3000 level or beyond in addition to the above
- 2.0 ANTH credits in addition to the above, including 0.5 credit from each of Categories A, B, and C

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

BAH.ANTH.COOP - Anthropology - Co-op (BA)

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
www.trentu.ca/coop

Co-op is an opportunity for students to gain work-integrated experiential learning that will help them get a head start on a career. The Anthropology Co-op assists graduating students in achieving a competitive edge while generating experience within a wide range of sectors. Specifically, co-op gives the students a chance to obtain 12 months of practical experience on the job, develop or enhance technical skills, explore career options, network with a variety of individuals and organizations, learn from mentors and tutors, enhance communication and presentation skills, and develop technical writing skills.

INFORMATION & ADDITIONAL NOTES

- Co-op students are responsible for paying tuition for their academic courses, ancillary fees, and levies. All Trent students are charged ancillary fees every Fall & Winter term. Co-op students will experience the same cycle for their ancillary fee payments regardless of when they are out on work terms. Co-op students do not pay tuition during their work terms.
- Co-op students are responsible for paying the compulsory Co-op Fee a total of five times during their degree program, and the Co-op fee will be applied to their student account in Year 2 Fall, Year 2 Winter, Year 3 Fall, Year 3 Winter, and Year 4 Fall.
- Students are encouraged to meet with their Co-op Coordinator at CareerSpace each year for support with their co-op work terms, career development, and to confirm they are meeting co-op progression requirements.

Requirements

Bachelor of Arts Program in Anthropology — Co-op

- Co-op students must satisfy the requirements for the single-major BA Honours in Anthropology and the Co-op requirements listed below.
- The Anthropology Co-op is a competitive direct-entry program with a limited number of student places. Students who are not admitted directly may apply for admission after commencing studies at Trent and may be admitted on a competitive basis provided there are available spaces in the program.
- To remain in the co-op program, students must complete the required work term preparation and reflection courses (COOP 2000H and 4000H) with a minimum 70% progression requirement in COOP 2000H and 65% in COOP 4000H, and maintain a 75% cumulative average throughout their study terms. In addition, students must continue to receive satisfactory evaluations during each of their three work terms. Students who do not achieve a minimum 70% in COOP 2000H will be withdrawn from the co-op program but may continue their studies in Anthropology or transfer to a major in a different subject. Once withdrawn, students are not eligible to re-enter the co-op program. Students who do not achieve a minimum 65% in COOP 4000H but otherwise fulfill all degree requirements will be awarded an Honours degree in Anthropology without the Co-op designation.
- Three non-credit co-op work terms are required for the BA/BSc program in Anthropology Co-op (COOP 2100P, 3100P, 4100P). The prerequisite for the first work term (COOP 2100P) for students in this program is completion of COOP 2000H with a minimum grade of 70% and completion of at least 10.0 academic credits. The schedule for the single-major Honours program is listed below. Students who choose to explore any additions (minor, specialization, or option) to a single-major Honours may require additional time to complete their degrees, as all courses are not offered in every term. It is expected that students follow the set work term schedule. Students are encouraged to work with an academic advisor for support with degree mapping.

YEAR	FALL	WINTER	SUMMER
Year 1	Study Term 1	Study Term 2	Study Term 3
Year 2	Study Term 4	Study Term 5	Work Term 1
Year 3	Study Term 6	Study Term 7	Work Term 2
Year 4	Work Term 3	Study Term 8	–

- Students on a work term must complete learning objectives, a midterm evaluation, a final evaluation, and a final work term report. Co-op employers will also complete a midterm evaluation and final evaluation of the student's work term. Upon receiving the completed documentation and upon a satisfactory employer assessment, a Pass (P) or Fail (F) will be assigned for COOP 2100P, 3100P, and 4100P. CareerSpace makes every effort to find suitable work terms for students enrolled in the co-op program, but a work term opportunity cannot be guaranteed for every student. The work term process is competitive and dependent upon many factors including market conditions, the preparedness of a student including their job applications and performance in job interviews, and the academic performance of a student. Co-op students secure positions through successful participation in the co-op interview process and/or their own job search activities. Withdrawal from the co-op program will not normally be approved while a student is on a work term. Students are not permitted to take an academic course during a scheduled work term.
- Students who are unable to obtain a suitable co-op opportunity in an upcoming work term are expected to continue with their academic program on a full-time basis. A single missed work term can be made up, but in the event that a co-op student cannot secure their work term for a second time, they will be withdrawn from the co-op program. If a student is unable to complete three work terms yet otherwise fulfills all degree requirements, the student will be awarded an Honours Bachelor of Arts or an Honours Bachelor of Science in Anthropology.

BAH.ARCH - Archaeology - BA Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
www.trentu.ca/archaeology

The Archaeology program focuses on the interdisciplinary and comparative study of the human past through the material record. Courses focus on comparative world archaeology, field and analytic methods, laboratory techniques, theory and ethics, and the archaeology of specific geographic regions. Current geographic areas of academic expertise are the Americas, Europe and the Mediterranean, and Southeast Asia. Degree options provide students with foundational training in the methodological, theoretical, and professional aspects of contemporary archaeological practice.

INFORMATION & ADDITIONAL NOTES

- Due to overlapping requirements, it is not possible to combine Anthropology and Archaeology in a joint-major Honours degree combination. A joint major is possible between Ancient Greek & Roman Studies and Archaeology, but no credit may be double-counted.
- Students are strongly advised to plan course selection carefully in order to acquire needed prerequisites and to prepare for graduate school or careers in different specialties. Advising information is available on the Archaeology program website.
- Students are required to gain relevant, practical archaeological experience. They are encouraged to do so by taking one of three field courses (ANTH 3000Y, ANTH-AGRS 3850Y/3851H, or ANTH 3855H), which are normally offered in the summer, or by taking a combination of laboratory and/or field courses (ANTH 3151H, 3152H, 3153H, and/or 3165H), which are normally offered during the regular school year (except for ANTH 3165H, which is normally offered in the summer). Alternatively, students may register in a field school or lab methods course at another university by obtaining a Letter of

Permission from the Office of the Registrar prior to registering in the course. See Letters of Permission for additional details.

- Students who already have extensive field and/or laboratory experience (such as from previous archaeological employment) should consult with the program coordinator, who may consider waiving the degree requirement for a field or lab course. At a minimum, students would normally have to have the equivalent of four weeks of full-time work in the field and/or lab (i.e., 160 hours total). If such a waiver is approved, the student will need to substitute an additional course, with the coordinator's approval, in order to meet the total number of required courses.

Requirements

Bachelor of Arts Program in Archaeology

- A minimum grade of 60% in ANTH-AGRS 1030H is required for the Honours BA in Archaeology.

The single-major Honours program. 20.0 credits including the following 10.0 credits:

- 3.0 ANTH credits consisting of ANTH 1001H, 1030H, 2121H, 2122H, 2123H, and 3123H
- 1.0 ANTH credit from ANTH 3000Y, 3151H, 3152H, 3153H, 3165H, 3850Y, 3851H, or 3855H
- 1.0 ANTH credit from Categories A and/or B at the 4000 level
- 2.5 ANTH credits from Categories A and/or B at the 3000 level or beyond in addition to the above
- 2.5 ANTH credits from Categories A and/or B in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The joint-major Honours program. 20.0 credits including the following 7.0 credits:

- 3.0 ANTH credits consisting of ANTH 1001H, 1030H, 2121H, 2122H, 2123H, and 3123H
- 1.0 ANTH credit from ANTH 3000Y, 3151H, 3152H, 3153H, 3165H, 3850Y, 3851H, or 3855H
- 1.0 ANTH credit from Categories A and/or B at the 4000 level
- 2.0 ANTH credits from Categories A and/or B at the 3000 level or beyond in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

BAH.CAST - Canadian Studies - BA Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
www.trentu.ca/canadianstudies

The Canadian Studies program is housed in the School for the Study of Canada / École d'études canadiennes. Students learn about the diverse, often contested meanings of the Canadian experience and Canadian citizenship, and explore how even as the transnational attracts critical and public attention, the nation remains the major administrative and imaginative unit organizing people's lives. The program's focus is on the Canadian nation in a global context. Interdisciplinary Canadian Studies courses are offered in four areas: culture, literature, and the arts; policy, economy, and society; identities and social movements; and space, place, and region; and encourage thought about Canadian history, institutions, ideology, and social justice.

Requirements

Bachelor of Arts Program in Canadian Studies

- The same course may not satisfy more than one Canadian Studies category requirement.
- Students may count no more than 1.0 credit from CAST reading courses toward their Canadian Studies degree requirements.
- CAST 4000Y/4001H, community-based research courses (CAST 3810Y, 3811H, 3813H, 4810Y, 4811H, 4813H), and reading courses (CAST 3900Y, 3901H, 3903H, 4900Y, 4901H, 4903H) are not assigned to a column category, and can be used to fulfill the remaining non-column degree/diploma requirements.

The single-major Honours program. 20.0 credits including the following 10.0 credits:

- 1.0 CAST credit from CAST 1100H and one of 1101H, 1103H, 1104H, or 1105H
- 2.0 CAST credits at the 4000 level

- 4.0 CAST credits at the 3000 level or beyond in addition to the above
- 3.0 CAST credits in addition to the above
- Must include at least 1.0 credit from each of Categories A, B, C, and D

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The joint-major Honours program. 20.0 credits including the following 7.0 credits:

- 1.0 CAST credit from CAST 1100H and one of 1101H, 1103H, 1104H, or 1105H
- 2.0 CAST credits at the 4000 level
- 3.0 CAST credits at the 3000 level or beyond in addition to the above
- 1.0 CAST credit in addition to the above
- Must include at least 1.0 credit from each of Categories A, B, C, and D

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

Co-op is an opportunity for students to gain work-integrated experiential learning that will help them get a head start on a career. The Canadian Studies Co-op assists graduating students in achieving a competitive edge while generating experience within a wide range of sectors. Specifically, co-op gives the students a chance to obtain 12 months of practical on-the-job experience, develop or enhance technical skills, explore career options, network with various individuals and organizations, learn from mentors and tutors, enhance communication and presentation skills, and develop technical writing skills.

INFORMATION & ADDITIONAL NOTES

- Co-op students are responsible for paying tuition for their academic courses, ancillary fees, and levies. All Trent students are charged ancillary fees every Fall & Winter term. Co-op students will experience the same cycle for their ancillary fee payments regardless of when they are out on work terms. Co-op students do not pay tuition during their work terms.
- Co-op students are responsible for paying the compulsory Co-op Fee a total of five times during their degree program, and the Co-op fee will be applied to their student account in Year 2 Fall, Year 2 Winter, Year 3 Fall, Year 3 Winter, and Year 4 Fall.
- Students are encouraged to meet with their Co-op Coordinator at CareerSpace each year for support with their co-op work terms, career development, and to confirm they are meeting co-op progression requirements.

Requirements

Bachelor of Arts Program in Canadian Studies — Co-op

- Co-op students must satisfy the requirements for the single-major BA Honours in Canadian Studies and the Co-op requirements listed below.
- Canadian Studies Co-op is a competitive direct-entry program with a limited number of student places. Students who are not admitted directly may apply for admission after commencing studies at Trent and may be admitted on a competitive basis provided there are available spaces in the program.
- To remain in the co-op program, students must complete the required work term preparation and reflection courses (COOP 2000H and 4000H) with a minimum 70% progression requirement in COOP 2000H and 65% in COOP 4000H, and maintain a minimum 75% cumulative average throughout their study terms. In addition, students must continue to receive satisfactory evaluations during each of their three work terms. Students who do not achieve a minimum 70% in COOP 2000H will be withdrawn from the co-op program but may continue their studies in Canadian Studies or transfer to a major in a different subject. Once withdrawn, students are not eligible to re-enter the co-op program. Students who do not achieve a minimum 65% in COOP 4000H but otherwise fulfill all degree requirements will be awarded an Honours degree in Canadian Studies without the Co-op designation.
- Three non-credit co-op work terms are required for the BA program in Canadian Studies Co-op (COOP 2100P, 3100P, and 4100P). The prerequisite for the first work term (COOP 2100P) for students in this program is completion of COOP 2000H with a minimum grade of 70% and completion of at least 10.0 academic credits. The schedule for the single-major Honours program is listed below. Students who choose to explore any additions (minor, specialization, or option) to a single-major Honours may require additional time to complete their degrees, as all courses are not offered in every term. It is expected that students follow the set work term schedule. Students are encouraged to work with an academic advisor for support with degree mapping.

YEAR	FALL	WINTER	SUMMER
Year 1	Study Term 1	Study Term 2	Study Term 3
Year 2	Study Term 4	Study Term 5	Work Term 1
Year 3	Study Term 6	Study Term 7	Work Term 2
Year 4	Work Term 3	Study Term 8	

- Students on a work term must complete learning objectives, a midterm evaluation, a final evaluation, and a final work term report. Co-op employers will also complete a midterm evaluation and final evaluation of the student's work term. Upon receiving the completed documentation and upon a satisfactory employer assessment, a Pass (P) or Fail (F) will be assigned for COOP 2100P, 3100P, and 4100P. CareerSpace makes every effort to find suitable work terms for students enrolled in the co-op program, but a work term opportunity cannot be guaranteed for every student. The work term process is competitive and dependent upon many factors including market conditions, the preparedness of a student including their job applications and performance in job interviews, and the academic performance of a student. Co-op students secure positions through successful participation in the co-op interview process and/or their own job search activities. Withdrawal from the co-op program will not normally be approved while a student is on a work term. Students are not permitted to take an academic course during a scheduled work term.
- Students who are unable to obtain a suitable co-op opportunity in an upcoming work term are expected to continue with their academic program on a full-time basis. A single missed work term can be made up, but in the event that a co-op student cannot secure their work term for a second time, they will be withdrawn from the co-op program. If a student is unable to complete three work terms yet otherwise fulfills all degree requirements, the student will be awarded an Honours Bachelor of Arts in Canadian Studies.

BAH.CAST.SWAN - Canadian Studies - BA Honours - Swansea Law

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
Program Website

Trent University, in partnership with Swansea University, United Kingdom, offers a dual degree leading to a Trent Bachelor of Arts (Honours) degree (BA) or Bachelor of Business Administration (BBA) and a Single Honours Law degree (LLB) from Swansea. The program allows students to complete the requirements for both degrees in a structured six-year program of study.

Upon admission to Trent University, students select a major in one of the available subjects for the dual degree. Students spend their first two years of full-time study at Trent in Peterborough or Durham, taking 10.0 credits toward their Bachelor of Arts (Honours) or Bachelor of Business Administration program (5.0 credits per academic year). Students then transfer to Swansea University for years three, four, and five to complete their study in the LLB degree program, taking on a full-time course load (120 credits per academic year, which equates to a normal 5.0-credit per year Canadian university course load). Following successful completion of the LLB with the required minimum overall average, students are awarded transfer credits and return to Trent to complete the requirements for the BA or BBA program, which include courses focused in Canadian Law (LAWS courses) to help prepare them for the National Committee on Accreditation exams.

Students will graduate at the end of the sixth year with both an undergraduate Bachelor of Arts (Honours) or Bachelor of Business Administration degree from Trent University and a Single Honours Law degree from Swansea University.

As this is a dual degree and not a joint degree, Swansea University reserves all rights to make adjustments to the required courses for the LLB degree at any point in time. The most up-to-date program overview can be found on the Swansea University website.

ACADEMIC PROGRESSION

Application to the Trent/Swansea dual degree is through the Ontario University Application Centre. Students must achieve a minimum secondary school average of 80% to be admitted to the program. This entry grade is subject to change annually based on the application cohort and the number of spaces available in the program; however, the minimum average for acceptance to the program will never fall below 80%.

To progress successfully to year three of the dual degree and to commence the LLB portion at Swansea University, students must complete the required Intent to Continue communication and must meet the requirements below:

- declared program major for the Trent BA or BBA degree from the list of majors included in the program;
- successful completion of years one and two at Trent University, including all courses required for the declared major, with a minimum cumulative average of 77%;
- successful completion of no fewer than 10.0 Trent University credits before enrolling in classes at Swansea (a maximum of 5.0 transfer credits is allowable toward this total);
- obtained and provided proof of an approved Tier 4 (General) Study Visa;
- confirmation that they have not been found to have breached any University regulations; and,
- have no known reasons to be denied access to the United Kingdom.

Following successful completion of the LLB degree at Swansea University, student transcripts will be forwarded to the Office of the Registrar at Trent University to ensure standards are met and at this point students will be reactivated as current students at Trent University. Once students enter into the final year of study to obtain all requirements for successful completion of the Dual Degree Bachelor of Arts (Honours) or Bachelor of Business Administration degree, they will be awarded the 5.0 transfer credits toward their degree completion.

Students currently studying at Trent, and transfer students from other postsecondary institutions who have been admitted to Trent University, may be able to access the Trent/Swansea dual degree. Contact the Trent/Swansea Law Program Coordinator for further details.

Requirements

Bachelor of Arts Program in Canadian Studies – Trent/Swansea Dual Degree

The single-major Honours program. 20.0 credits including the following:

Year 1

5.0 credits including the following:

- 1.0 CAST credit from CAST 1100H and one of 1101H, 1103H, 1104H, or 1105H
- 1.0 CAST credit in addition to the above from Categories A, B, C, and/or D*
- 3.0 elective credits, 0.5 ICR credit from the Approved Indigenous Course List

Year 2

5.0 credits including the following:

- 1.0 CAST credit at the 3000 level or beyond*
- 2.0 CAST credits in addition to the above*
- 2.0 elective credits

Years 3-5 – at Swansea

**Students must take Swansea's Canadian Constitutional Law (LAA362) module in Year 5 (their final year at Swansea) if it is offered, as Trent will not likely offer LAWS 4030H Canadian Constitutional Law during the subsequent year. Students who take LAA362 at Swansea will receive a transfer credit for LAWS 4030H in place of 0.5 3000level ARTS unassigned transfer credit, which will require them to take an additional 0.5 elective credit in Year 6 instead.

Year 6

5.0 transfer credits awarded for successful completion of LLB program (years 3-5):

- 2.0 unassigned CAST credits at the 3000 level
- 1.0 unassigned CAST credit at the 4000 level
- 2.0 unassigned ARTS credits at the 3000 level
- 5.0 credits including the following:
- 2.5 LAWS credits consisting of LAWS 4000H, 4010H, 4020H, 4030H**, and 4040H
- 1.0 CAST credit at the 4000 level*
- 1.0 CAST credit at the 3000 level or beyond in addition to the above*
- 0.5 elective credit

*At least 1.0 credit from each of Categories A, B, C, and D must be included overall in the program by the end of Year 6 (see BA Honours in Canadian Studies for details; transfer credits do not fulfill category requirements)

IMPORTANT GENERAL NOTES

- In addition to the program requirements, students must satisfy the University degree requirements. Students are encouraged to complete the requirement for 0.5 credit from the Approved Indigenous Course List in either year one or year two of the program.
- Students are encouraged to take additional courses in their declared major as electives, but the total number of credits in the major discipline may not exceed 13.0.
- LAWS 4050H is recommended to be taken as an elective in year six of the program where possible.
- Prerequisites for required courses will normally be waived for students in the Trent/Swansea dual degree. Prior to registration in any course in the major for which a waiver is needed, students must contact the chair of the department, indicate that they are enrolled in the dual degree program, and request permission to register without the prerequisite.
- Successful completion of the LLB degree program with a minimum weighted average of 40% (according to Swansea University's grading scale) is required to award students with transfer credits toward the Trent BA or BBA degree. Per-course grade average to be determined.
- In year six of the dual degree, 2.5 Trent University credits in Canadian Law as prescribed by the Program must be completed, in addition to 2.5 credits required per their Trent degree requirements. The Canadian Law courses are intended to support students in writing their National Committee on Accreditation (NCA) exams. Students must take Swansea's Canadian Constitutional Law (LAA362) module in Year 5 (their final year at Swansea) if it is offered, as Trent will not likely offer LAWS 4030H Canadian Constitutional Law during the subsequent year. Completion of LAA362 at Swansea satisfies the Year 6 requirement to take LAWS 4030H and means students will have an additional 0.5 elective credit in Year 6 instead.

- Note to Trent Durham GTA students in the Trent/ Swansea Law Dual Degree: for Year 6, the required 4000-level LAWS courses are only offered in Peterborough.

BAH.CHYS - Child & Youth Studies - BA Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
www.trentu.ca/durham/program/child-youth-studies

A unique multidisciplinary degree program with strong foundations in sociology, psychology, education, and the humanities, this degree will inspire students to think about child and youth development from a number of perspectives. Students will learn about child and youth rights and legal issues, and how children develop emotionally, socially, artistically, intellectually, and physically.

INFORMATION & ADDITIONAL NOTES

- A limited number of spaces in Trent University's Consecutive Bachelor of Education program are reserved each year for students in the Honours program in Child & Youth Studies. To be considered, students must make an application through the Teacher Education Application Service (www.ouac.on.ca/teas). The top six students who have a minimum average of 75% or higher on their last 10.0 credits at time of application, and who meet all Child & Youth Studies and undergraduate degree requirements, will be offered guaranteed admission to the BEd program at Trent. Child & Youth Studies students who do not meet the above criteria are still encouraged to apply and will be considered for admission on an individual basis.

Requirements

Bachelor of Arts Program in Child & Youth Studies

- For students in a joint major with Policing & Community Well-Being or Sociology, PLCW 2100H and SOCI 2151H are equivalent to CHYS 2010H for program requirements but do not count as a Child & Youth Studies credit. Students who have successfully completed PLCW 2100H or SOCI 2151H are not

permitted to take CHYS 2010H but must substitute another CHYS course at the 2000 level or beyond in order to fulfill degree requirements.

The single-major Honours program. 20.0 credits including the following 9.0 credits:

- 4.0 CHYS credits consisting of CHYS 1000H, 1001H, 1002H, 2001H, 2005H, 2006H, 2010H, and 3001H
- 0.5 CHYS credit at the 2000 level in addition to the above
- 2.0 CHYS credits at the 3000 level in addition to the above
- 1.5 CHYS credits at the 4000 level
- 0.5 SOCI credit consisting of SOCI 1001H
- 0.5 PSYC credit from PSYC 1020H or 1030H

In addition to the program requirements listed above, students must satisfy the University degree requirements.

The joint-major Honours program. 20.0 credits including the following 8.0 credits:

- 4.0 CHYS credits consisting of CHYS 1000H, 1001H, 1002H, 2001H, 2005H, 2006H, 2010H, and 3001H
- 1.5 CHYS credits at the 3000 level in addition to the above
- 1.5 CHYS credits at the 4000 level
- 0.5 SOCI credit consisting of SOCI 1001H
- 0.5 PSYC credit from PSYC 1020H or 1030H

In addition to the program requirements listed above, students must satisfy the University degree requirements.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

BAH.COIS - Computing Systems - BA Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
The Bachelor of Arts Honours program in Computing Systems is available only as a joint-major.

Requirements

Bachelor of Arts Program in Computing Systems

- Students may not graduate with a joint-major degree in any two of the following three areas of study: Computer Science, Computing Systems, and Information Systems.

The joint-major Honours program. 20.0 credits including the following 7.5 credits:

- 3.0 COIS credits consisting of COIS 1010H, 1020H, 1620H, 2240H, 2300H, and 3400H
- 0.5 COIS credit from COIS 2020H or 2620H
- 1.0 COIS credit at the 4000 level
- 1.5 COIS credits at the 3000 level or beyond in addition to the above
- 1.5 COIS credits in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

BAH.COMM - Communications - BA Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
www.trentu.ca/durham/academics/degrees-and-programs/communications-ba

Exclusive to Trent University Durham GTA, this program prepares students for long and satisfying careers in a variety of fields including public and media relations, business communication, social media strategy, project management, fundraising, and event management. Communications encourages students to develop and refine durable and transferable skills, prized by a variety of employers. The program features courses in strategic communication, project management, writing, research, public speaking, and numeracy. With a core group of Communications courses and a range of relevant selections from other programs, a Communications degree helps students to become creative, logical, and integrative thinkers and expert communicators.

Requirements

Bachelor of Arts Program in Communications

- For students in a joint major with Policing & Community Well-Being or Sociology, PLCW 2100H and SOCI 2151H are equivalent to COMM 2010H for program requirements but do not count as a Communications credit. Students who have successfully completed PLCW 2100H or SOCI 2151H are not permitted to take COMM 2010H but must substitute another half-credit course in Communications at the 2000 level or beyond in order to fulfill degree requirements.

The single-major Honours program. 20.0 credits including the following 9.0 credits:

- 3.5 COMM credits consisting of COMM 1000H, 1001H, 2001H, 2002H, 2010H, and 4000Y
- 1.5 COMM credits at the 3000 level or beyond in addition to the above
- 1.5 COMM credits in addition to the above
- 1.0 WRIT credit consisting of WRIT 1001H and 2002H
- 1.5 credits from COMM in addition to the above and/or from ADMN 1000H, 2080H, 2100H, 2410H, 3150H, 4160H, ANTH-MDST 4820H, CUST-MDST 1535H, 2186H, 2535H, 3139H, 3184H, 3186H, 3535H, INDG-MDST 2030H, 3102Y, or SOCI-CAST-MDST 3450H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The joint-major Honours program. 20.0 credits including the following 7.5 credits:

- 3.5 COMM credits consisting of COMM 1000H, 1001H, 2001H, 2002H, 2010H, and 4000Y
- 1.5 COMM credits at the 3000 level or beyond in addition to the above
- 0.5 COMM credit in addition to the above
- 1.0 WRIT credit consisting of WRIT 1001H and 2002H
- 1.0 credit from COMM in addition to the above and/or from ADMN 1000H, 2080H, 2100H, 2410H, 3150H, 4160H, ANTH-MDST 4820H, CUST-MDST 1535H, 2186H, 2535H, 3139H, 3184H, 3186H, 3535H, INDG-MDST 2030H, 3102Y, or SOCI-CAST-MDST 3450H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

Specializations

Specialization in Business Communication

Specialization in Public Relations

BAH.COMM.COOP - Communications - Co-op

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
Co-op is an opportunity for students to gain work-integrated experiential learning that will help them get a head start on a career. The Communications Co-op assists graduating students in achieving a competitive edge while generating experience within a wide range of sectors. Specifically, co-op gives the students a chance to obtain 12 months of practical experience on the job, develop or enhance technical skills, explore career options, network with a variety of individuals and organizations, learn from mentors and tutors, enhance communication and presentation skills, and develop technical writing skills.

INFORMATION & ADDITIONAL NOTES

- Co-op students are responsible for paying tuition for their academic courses, ancillary fees, and levies. All Trent students are charged ancillary fees every Fall & Winter term. Co-op students will experience the same cycle for their ancillary fee payments regardless of when they are out on work terms. Co-op students do not pay tuition during their work terms.
- Co-op students are responsible for paying the compulsory Co-op Fee a total of five times during their degree program, and the Co-op fee will be applied to their student account in Year 2 Fall, Year 2 Winter, Year 3 Fall, Year 3 Winter, and Year 4 Fall.
- Students are encouraged to meet with their Co-op Coordinator at CareerSpace each year for support with their co-op work terms, career development, and to confirm they are meeting co-op progression requirements.
- Communications Co-op is a competitive direct-entry program with a limited number of student places. Students who are not admitted directly may apply for admission after commencing studies at Trent and may be admitted on a competitive basis provided there are available spaces in the program.
- To remain in the co-op program, students must complete the required work term preparation and reflection courses (COOP 2000H and 4000H) with a minimum 70% progression requirement in COOP 2000H and 65% in COOP 4000H, and maintain a minimum 75% cumulative average throughout their study terms. In addition, students must continue to receive satisfactory evaluations during each of their three work terms. Students who do not achieve a minimum 70% in COOP 2000H will be withdrawn from the co-op program but may continue their studies in Communications or transfer to a major in a different subject. Once withdrawn, students are not eligible to re-enter the co-op program. Students who do not achieve a minimum 65% in COOP 4000H but otherwise fulfill all degree requirements will be awarded an Honours degree in Communications without the Co-op designation.
- Three non-credit co-op work terms are required for the BA program in Communications (COOP 2100P, 3100P, and 4100P.). The prerequisite for the first work term (COOP 2100P) for students in this program is completion of COOP 2000H with a minimum grade of 70% and completion of at least 10.0 academic credits. The schedule for the single-major Honours is listed below. Students who choose to explore any additions (minor, specialization, or option) to a single-major Honours may require additional time to complete their degrees, as all courses are not offered in every term. It is expected that students follow the set work term schedule. Students are encouraged to work with an academic advisor for support with degree mapping.

Requirements

Bachelor of Arts Program in Communications — Co-op

- Co-op students must satisfy the requirements for the single-major BA Honours in Communications and the Co-op requirements listed below.

YEAR	FALL	WINTER	SUMMER
Year 1	Study Term 1	Study Term 2	Study Term 3
Year 2	Study Term 4	Study Term 5	Work Term 1
Year 3	Study Term 6	Study Term 7	Work Term 2
Year 4	Work Term 3	Study Term 8	--

- Students on a work term must complete learning objectives, a midterm evaluation, a final evaluation, and a final work term report. Co-op employers will also complete a midterm evaluation and final evaluation of the student's work term. Upon receiving the completed documentation and upon a satisfactory employer assessment, a Pass (P) or Fail (F) will be assigned for COOP 2100P, 3100P, and 4100P. CareerSpace makes every effort to find suitable work terms for students enrolled in the co-op program, but a work term opportunity cannot be guaranteed for every student. The work term process is competitive and dependent upon many factors including market conditions, the preparedness of a student including their job applications and performance in job interviews, and the academic performance of a student. Co-op students secure positions through successful participation in the co-op interview process and/or their own job search activities. Withdrawal from the co-op program will not normally be approved while a student is on a work term. Students are not permitted to take an academic course during a scheduled work term.
- Students who are unable to obtain a suitable co-op opportunity in an upcoming work term are expected to continue with their academic program on a full-time basis. A single missed work term can be made up, but in the event that a co-op student cannot secure their work term for a second time, they will be withdrawn from the co-op program. If a student is unable to complete three work terms yet otherwise fulfills all degree requirements, the student will be awarded an Honours Bachelor of Arts in Communications.

BAH.COMM.SWAN - Communications - BA Honours - Swansea Law

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
Program Website

Trent University, in partnership with Swansea University, United Kingdom, offers a dual degree leading to a Trent Bachelor of Arts (Honours) degree (BA) or Bachelor of Business Administration (BBA) and a Single Honours Law degree (LLB) from Swansea. The program allows students to complete the requirements for both degrees in a structured six-year program of study.

Upon admission to Trent University, students select a major in one of the available subjects for the dual degree. Students spend their first two years of full-time study at Trent in Peterborough or Durham, taking 10.0 credits toward their Bachelor of Arts (Honours) or Bachelor of Business Administration program (5.0 credits per academic year). Students then transfer to Swansea University for years three, four, and five to complete their study in the LLB degree program, taking on a full-time course load (120 credits per academic year, which equates to a normal 5.0-credit per year Canadian university course load). Following successful completion of the LLB with the required minimum overall average, students are awarded transfer credits and return to Trent to complete the requirements for the BA or BBA program, which include courses focused in Canadian Law (LAWS courses) to help prepare them for the National Committee on Accreditation exams.

Students will graduate at the end of the sixth year with both an undergraduate Bachelor of Arts (Honours) or Bachelor of Business Administration degree from Trent University and a Single Honours Law degree from Swansea University.

As this is a dual degree and not a joint degree, Swansea University reserves all rights to make adjustments to the required courses for the LLB degree at any point in time. The most up-to-date program overview can be found on the Swansea University website.

ACADEMIC PROGRESSION

Application to the Trent/Swansea dual degree is through the Ontario University Application Centre. Students must achieve a minimum secondary school average of 80% to be admitted to the program. This entry grade is subject to change annually based on the application cohort and the number of spaces available in the program; however, the minimum average for acceptance to the program will never fall below 80%.

To progress successfully to year three of the dual degree and to commence the LLB portion at Swansea University, students must complete the required Intent to Continue communication and must meet the requirements below:

- declared program major for the Trent BA or BBA degree from the list of majors included in the program;
- successful completion of years one and two at Trent University, including all courses required for the declared major, with a minimum cumulative average of 77%;
- successful completion of no fewer than 10.0 Trent University credits before enrolling in classes at Swansea (a maximum of 5.0 transfer credits is allowable toward this total);
- obtained and provided proof of an approved Tier 4 (General) Study Visa;
- confirmation that they have not been found to have breached any University regulations; and,
- have no known reasons to be denied access to the United Kingdom.

Following successful completion of the LLB degree at Swansea University, student transcripts will be forwarded to the Office of the Registrar at Trent University to ensure standards are met and at this point students will be reactivated as current students at Trent University. Once students enter into the final year of study to obtain all requirements for successful completion of the Dual Degree Bachelor of Arts (Honours) or Bachelor of Business Administration degree, they will be awarded the 5.0 transfer credits toward their degree completion.

Students currently studying at Trent, and transfer students from other postsecondary institutions who have been admitted to Trent University, may be able to access the Trent/Swansea dual degree. Contact the Trent/Swansea Law Program Coordinator for further details.

Requirements

Bachelor of Arts Program in Communications – Trent/Swansea Dual Degree

The single-major Honours program. 20.0 credits including the following:

Year 1

5.0 credits including the following:

- 1.0 COMM credit consisting of COMM 1000H and 1001H
- 1.0 WRIT credit consisting of WRIT 1001H and 2002H
- 0.5 credit from ADMN 1000H, 2080H, 2100H, 2100H, 2410H, CUST-MDST 1535H, 2186H, 2535H, or INDG-MDST 2030H
- 2.5 elective credits, including 0.5 ICR credit from the Approved Indigenous Course List

Year 2

5.0 credits including the following:

- 0.5 COMM credit consisting of COMM 2010H
- 1.5 COMM credits in addition to the above
- 1.5 credits in addition to the above from COMM and/or ADMN 1000H, 2080H, 2100H, 2410H, 3150H, CUST-MDST 1535H, 2186H, 2535H, 3139H, 3184H, 3186H, 3535H, INDG-MDST 2030H, 3102Y, or SOCI-CAST-MDST 3450H
- 1.5 elective credits

Years 3-5 – at Swansea

*Students must take Swansea's Canadian Constitutional Law (LAA362) module in Year 5 (their final year at Swansea) if it is offered, as Trent will not likely offer LAWS 4030H Canadian Constitutional Law during the subsequent year. Students who take LAA362 at Swansea will receive a transfer credit for LAWS 4030H in place of 0.5 3000-level ARTS unassigned transfer credit, which will require them to take an additional 0.5 elective credit in Year 6 instead.

Year 6

5.0 transfer credits awarded for successful completion of LLB program (years 3-5):

- 1.0 unassigned COMM credit at the 3000 level
- 4.0 unassigned ARTS credits at the 3000 level

5.0 credits including the following:

- 2.5 LAWS credits consisting of LAWS 4000H, 4010H, 4020H, 4030H*, and 4040H
- 1.0 COMM credit consisting of COMM 4000Y
- 0.5 COMM credit at the 3000 level or beyond in addition to the above
- 0.5 credit in addition to the above in COMM or from ADMN 1000H, 2080H, 2100H, 2410H, 3150H, 4160H, 4820H, CUST-MDST 1535H, 2186H, 2535H, 3139H, 3184H, 3186H, 3535H, INDG-MDST 2030H, 3102Y, or SOCI-CAST-MDST 3450H
- 0.5 elective credit

Note: In year 6, students will take COMM courses at the Durham – GTA Campus, and LAWS courses at the Symons Campus in Peterborough.

IMPORTANT GENERAL NOTES

- In addition to the program requirements, students must satisfy the University degree requirements below. Students are encouraged to complete the requirement for 0.5 credit from the Approved Indigenous Course List in either year one or year two of the program.
- Students are encouraged to take additional courses in their declared major as electives, but the total number of credits in the major discipline may not exceed 13.0.
- LAWS 4050H is recommended to be taken as an elective in year six of the program where possible.
- Prerequisites for required courses will normally be waived for students in the Trent/Swansea dual degree. Prior to registration in any course in the major for which a waiver is needed, students must contact the chair of the department, indicate that they are enrolled in the dual degree program, and request permission to register without the prerequisite.
- Successful completion of the LLB degree program with a minimum weighted average of 40% (according to Swansea University's grading scale) is required to award students with transfer credits toward the Trent BA or BBA degree. Per-course grade average to be determined.
- In year six of the dual degree, 2.5 Trent University credits in Canadian Law as prescribed by the Program must be completed, in addition to 2.5 credits required per their Trent degree requirements. The Canadian Law courses are intended to support students in writing their National Committee on Accreditation (NCA) exams. Students must take Swansea's Canadian Constitutional Law (LAA362) module in Year 5 (their final year at Swansea) if it is offered, as Trent will not likely offer LAWS 4030H Canadian Constitutional Law during the subsequent year. Completion of LAA362 at Swansea satisfies the Year 6 requirement to take LAWS 4030H and means students will have an additional 0.5 elective credit in Year 6 instead.
- Note to Trent Durham GTA students in the Trent/Swansea Law Dual Degree: for Year 6, the required 4000-level LAWS courses are only offered in Peterborough.

BAH.CRIM - Criminology - BA Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
www.trentu.ca/criminology

Criminology at Trent, offered by the Department of Sociology, provides the opportunity for both a hybrid and fully online degree. The program emphasizes a critical interdisciplinary approach to the study of criminalization and various practices of social control and punishment. Its unique approach to both 'the criminal' and 'the prisoner' offers students disciplinary breadth, that provides a historical and contemporary analysis of how social inequality intersects with rates of victimization, criminalization, and punishment, especially for Indigenous and traditionally marginalized people. In the upper year of the degree program, learning will focus on progressive law and policy reforms such as restorative justice that are rooted in Indigenous knowledge, critical aging, and feminist anti-violence research. With experiential learning opportunities in years three and four, graduates will develop a wide range of skills from digital competency as well as analytical approaches to law and policy focused research, interpreting criminalization and punishment data, and development of and engagement with community-based responses to violence, harm, and social disadvantage.

Requirements

Bachelor of Arts Program in Criminology

- Students who have successfully completed SOCI 3160H, ECON-ADMN 2200H, GEOG-ERSC-BIOL 2080H, MATH 1051H, MATH 1052H, PSYC 2019H, PSYC 3015Y, or PSYC 3016H are not permitted to take CRIM 3617H but must substitute another half-credit course in Criminology or Sociology at the 3000 level or beyond in order to fulfill degree requirements.
- CRIM 4950H is only being offered in the 2024-2025 and 2025-2026 academic years. First-year students seeking experiential opportunities are advised to apply for the Criminology Co-op program. For information about transferring into co-op, see the Careerspace website.

The single-major Honours program. 20.0 credits including the following 12.0 credits:

- 3.0 CRIM credits consisting of CRIM 1615H, 2616H, 2617H, 3617H, 3650H, and 3660H
- 2.0 CRIM credits at the 4000 level
- 2.5 CRIM credits at the 3000 level or beyond in addition to the above
- 1.0 CRIM credit in addition to the above
- 0.5 FRSC credit consisting of FRSC 1100H
- 1.0 INDG credit consisting of INDG 1001H and 3201H
- 1.0 SOCI credit consisting of SOCI 1001H and 1002H
- 0.5 WRIT credit consisting of WRIT 1001H
- 0.5 SOCI credit from SOCI 2220H or 2610H

In addition to the program requirements listed above, students must satisfy the University degree requirements.

BAH.CRIM.COOP - Criminology - Co-op

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
www.trentu.ca/coop

Co-op is an opportunity for students to gain work-integrated experiential learning that will help them get a head start on a career. The Criminology Co-op assists graduating students in achieving a competitive edge while generating experience within a wide range of sectors. Specifically, co-op gives the students a chance to obtain 12 months of practical experience on the job, develop or enhance technical skills, explore career options, network with a variety of individuals and organizations, learn from mentors and tutors, enhance communication and presentation skills, and develop technical writing skills.

INFORMATION & ADDITIONAL NOTES

- Co-op students are responsible for paying tuition for their academic courses, ancillary fees, and levies. All Trent students are charged ancillary fees every Fall & Winter term. Co-op students will experience the same cycle for their ancillary fee payments regardless of when they are out on work terms. Co-op students do not pay tuition during their work terms.
- Co-op students are responsible for paying the compulsory Co-op Fee a total of five times during their degree program, and the Co-op fee will be applied to their student account in Year 2 Fall, Year 2 Winter, Year 3 Fall, Year 3 Winter, and Year 4 Fall.
- Students are encouraged to meet with their Co-op Coordinator at CareerSpace each year for support with their co-op work terms, career development, and to confirm they are meeting co-op progression requirements.

Requirements

Bachelor of Arts Program in Criminology — Co-op

- Co-op students must satisfy the requirements for the single-major BA Honours in Criminology and the Co-op requirements listed below.
- Criminology Co-op is a competitive direct-entry program with a limited number of student places. Students who are not admitted directly may apply for admission after commencing studies at Trent and may be admitted on a competitive basis provided there are available spaces in the program.
- To remain in the co-op program, students must complete the required work term preparation and reflection courses (COOP 2000H and 4000H) with a minimum 70% progression requirement in COOP 2000H and 65% in COOP 4000H, and maintain a minimum 75% cumulative average throughout their study terms. In addition, students must receive satisfactory evaluations during each of their work terms. Students who do not achieve a minimum 70% in COOP 2000H will be withdrawn from the co-op program but may continue their studies in Criminology or transfer to a major in a different subject. Once withdrawn, students are not eligible to re-enter the co-op program. Students who do not achieve a minimum 65% in COOP 4000H but otherwise fulfill all degree requirements will be awarded an Honours degree in Criminology without the Co-op designation.
- Three non-credit co-op work terms are required for the BA program in Criminology (COOP 2100P, 3100P, and 4100P). The prerequisite for the first work term (COOP 2100P) for students in this program is completion of COOP 2000H with a minimum grade of 70% and completion of at least 10.0 academic credits. The schedule is listed below. Students who choose to explore any additions (minor or option) to the single-major Honours may require additional time to complete their degrees, as all courses are not offered in every term. It is expected that students follow the set work term schedule. Students are encouraged to work with an academic advisor for support with degree mapping.

- Prerequisites will normally be waived to allow co-op students to take required courses simultaneously, as needed, to complete the requirements of the degree within the outlined schedule. Prior to registration in any course in the major for which a waiver is needed, students must submit a Prerequisite Waiver form to the department through the MyTrent system.

YEAR	FALL	WINTER	SUMMER
Year 1	Study Term 1	Study Term 2	Study Term 3
Year 2	Study Term 4	Study Term 5	Work Term 1
Year 3	Study Term 6	Study Term 7	Work Term 2
Year 4	Work Term 3	Study Term 8	

- Students on a work term must complete learning objectives, a midterm evaluation, a final evaluation, and a final work term report. Co-op employers will also complete a midterm evaluation and final evaluation of the student's work term. Upon receiving the completed documentation and upon a satisfactory employer assessment, a Pass (P) or Fail (F) will be assigned for COOP 2100P, 3100P, and 4100P. CareerSpace makes every effort to find suitable work terms for students enrolled in the co-op program, but a work term opportunity cannot be guaranteed for every student. The work term process is competitive and dependent upon many factors including market conditions, the preparedness of a student including their job applications and performance in job interviews, and the academic performance of a student. Co-op students secure positions through successful participation in the co-op interview process and/or their own job search activities. Withdrawal from the co-op program will not normally be approved while a student is on a work term. Students are not permitted to take an academic course during a scheduled work term.
- Students who are unable to obtain a suitable co-op opportunity in an upcoming work term are expected to continue with their academic program on a full-time basis. A missed work term can be made up, but in the event that a co-op student is unable to complete three work terms yet otherwise fulfills all degree requirements, the student will be awarded an Honours Bachelor of Arts in Criminology.

BAH.CRIM.SWAN - Criminology - BA Honours - Swansea Law

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
Program Website

Trent University, in partnership with Swansea University, United Kingdom, offers a dual degree leading to a Trent Bachelor of Arts (Honours) degree (BA) or Bachelor of Business Administration (BBA) and a Single Honours Law degree (LLB) from Swansea. The program allows students to complete the requirements for both degrees in a structured six-year program of study.

Upon admission to Trent University, students select a major in one of the available subjects for the dual degree. Students spend their first two years of full-time study at Trent in Peterborough or Durham, taking 10.0 credits toward their Bachelor of Arts (Honours) or Bachelor of Business Administration program (5.0 credits per academic year). Students then transfer to Swansea University for years three, four, and five to complete their study in the LLB degree program, taking on a full-time course load (120 credits per academic year, which equates to a normal 5.0-credit per year Canadian university course load). Following successful completion of the LLB with the required minimum overall average, students are awarded transfer credits and return to Trent to complete the requirements for the BA or BBA program, which include courses focused in Canadian Law (LAWS courses) to help prepare them for the National Committee on Accreditation exams.

Students will graduate at the end of the sixth year with both an undergraduate Bachelor of Arts (Honours) or Bachelor of Business Administration degree from Trent University and a Single Honours Law degree from Swansea University.

As this is a dual degree and not a joint degree, Swansea University reserves all rights to make adjustments to the required courses for the LLB degree at any point in time. The most up-to-date program overview can be found on the Swansea University website.

ACADEMIC PROGRESSION

Application to the Trent/Swansea dual degree is through the Ontario University Application Centre. Students must achieve a minimum secondary school average of 80% to be admitted to the program. This entry grade is subject to change annually based on the application cohort and the number of spaces available in the program; however, the minimum average for acceptance to the program will never fall below 80%.

To progress successfully to year three of the dual degree and to commence the LLB portion at Swansea University, students must complete the required Intent to Continue communication and must meet the requirements below:

- declared program major for the Trent BA or BBA degree from the list of majors included in the program;
- successful completion of years one and two at Trent University, including all courses required for the declared major, with a minimum cumulative average of 77%;
- successful completion of no fewer than 10.0 Trent University credits before enrolling in classes at Swansea (a maximum of 5.0 transfer credits is allowable toward this total);
- obtained and provided proof of an approved Tier 4 (General) Study Visa;
- confirmation that they have not been found to have breached any University regulations; and,
- have no known reasons to be denied access to the United Kingdom.

Following successful completion of the LLB degree at Swansea University, student transcripts will be forwarded to the Office of the Registrar at Trent University to ensure standards are met and at this point students will be reactivated as current students at Trent University. Once students enter into the final year of study to obtain all requirements for successful completion of the Dual Degree Bachelor of Arts (Honours) or Bachelor of Business Administration degree, they will be awarded the 5.0 transfer credits toward their degree completion.

Students currently studying at Trent, and transfer students from other postsecondary institutions who have been admitted to Trent University, may be able to access the Trent/Swansea dual degree. Contact the Trent/Swansea Law Program Coordinator for further details.

Requirements

Bachelor of Arts Program in Criminology – Trent/Swansea Dual Degree

The single-major Honours program. 20.0 credits including the following:

Year 1

5.0 credits including the following:

- 0.5 CRIM credit consisting of CRIM 1615H
- 0.5 CRIM credit in addition to the above
- 0.5 FRSC credit consisting of FRSC 1100H
- 0.5 INDG credit consisting of INDG 1001H
- 1.0 SOCI credit consisting of SOCI 1001H and 1002H
- 0.5 WRIT credit consisting of WRIT 1001H
- 1.5 elective credits, including 0.5 ICR credit from the Approved Indigenous Course List

Year 2

5.0 credits including the following:

- 2.5 CRIM credits consisting of CRIM 2616H, 2617H, 3617H, 3650H, and 3660H
- 0.5 CRIM credit at the 3000 level or beyond in addition to the above
- 0.5 INDG credit consisting of INDG 3201H
- 0.5 SOCI credit from SOCI 2220H or 2610H
- 1.0 elective credit

Years 3-5 – At Swansea

*Students must take Swansea's Canadian Constitutional Law (LAA362) module in Year 5 (their final year at Swansea) if it is offered, as Trent will not likely offer LAWS 4030H Canadian Constitutional Law during the subsequent year. Students who take LAA362 at Swansea will receive a transfer credit for LAWS 4030H in place of 0.5 3000-level ARTS unassigned transfer credit, which will require them to take an additional 0.5 elective credit in Year 6 instead.

Year 6

5.0 transfer credits awarded for successful completion of LLB program (years 3-5):

- 0.5 unassigned CRIM credit at the 2000 level

- 1.0 unassigned CRIM credit at the 3000 level
- 1.0 unassigned CRIM credit at the 4000 level
- 2.5 unassigned ARTS credits at the 3000 level

5.0 credits including the following:

- 2.5 LAWS credits consisting of LAWS 4000H, 4010H, 4020H, 4030H*, and 4040H
- 1.0 CRIM credit at the 4000 level
- 1.0 CRIM credit at the 3000 level or beyond in addition to the above
- 0.5 elective credit

Note: Students are advised to consult the Criminology program coordinator for a prerequisite waiver to complete CRIM 2616H and 3000-level CRIM courses simultaneously in year two of the program.

IMPORTANT GENERAL NOTES

- In addition to the program requirements, students must satisfy the University degree requirements. Students are encouraged to complete the requirement for 0.5 credit from the Approved Indigenous Course List in either year one or year two of the program.
- Students are encouraged to take additional courses in their declared major as electives, but the total number of credits in the major discipline may not exceed 13.0.
- LAWS 4050H is recommended to be taken as an elective in year six of the program where possible.
- Prerequisites for required courses will normally be waived for students in the Trent/Swansea dual degree. Prior to registration in any course in the major for which a waiver is needed, students must contact the chair of the department, indicate that they are enrolled in the dual degree program, and request permission to register without the prerequisite.
- Successful completion of the LLB degree program with a minimum weighted average of 40% (according to Swansea University's grading scale) is required to award students with transfer credits toward the Trent BA or BBA degree. Per-course grade average to be determined.
- In year six of the dual degree, 2.5 Trent University credits in Canadian Law as prescribed by the Program must be completed, in addition to 2.5 credits required per their Trent degree requirements. The Canadian Law courses are intended to support students in writing their National Committee on Accreditation (NCA) exams. Students must take Swansea's Canadian Constitutional Law (LAA362) module in Year 5 (their final year at Swansea) if it is offered, as Trent will not likely offer LAWS 4030H Canadian Constitutional Law during the subsequent year. Completion of LAA362 at Swansea satisfies the Year 6 requirement to take LAWS 4030H and means students will have an additional 0.5 elective credit in Year 6 instead.
- Note to Trent Durham GTA students in the Trent/Swansea Law Dual Degree: for Year 6, the required 4000-level LAWS courses are only offered in Peterborough.

BAH.CUST - Cultural Studies - BA Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
www.trentu.ca/culturalstudies

The Department of Culture, Arts, and Media offers training in the history, theory, and practice of culture, with an emphasis on literature, the arts (especially visual art, music, theatre, and film), and media. Interdisciplinary courses consider culture both historically and in relation to the increasingly interconnected and complex contemporary world. Intensive workshop classes give students hands on experience with creative writing, studio art, theatre and performance, film, and audio production.

INFORMATION & ADDITIONAL NOTES

- Cultural Studies majors select their courses from three different areas of concentration: Integrated Arts; Film, Literature & Narrative; and Criticism & Theory. Students have the option of pursuing a Specialization in a particular area.
- The Accelerated Master of Arts program in Cultural Studies allows students to obtain a Master's degree in Cultural Studies within one to two terms less than students in the regular Master's program. Students apply to the Accelerated Master of Arts program during the spring term which precedes the last year of their undergraduate program in Cultural Studies. The research starts in the fourth year. Upon graduation, students begin the MA program in May or September, just after completion of the undergraduate program. Students who are interested in applying should contact the Cultural Studies graduate program director.

Requirements

Bachelor of Arts Program in Cultural Studies

- With permission of the Chair, students may count up to 1.0 credit from the following ENGL courses toward their Cultural Studies program requirements: ENGL 2609H, 2709H, 2851H, 2853H, 3750Y/3851H. For information on individual courses see English Literature.

The single-major Honours program. 20.0 credits including the following 9.0 credits:

- 1.0 CUST credit at the 1000 level
- 2.0 CUST credits at the 4000 level
- 6.0 CUST credits at the 2000 level or beyond in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The joint-major Honours program. 20.0 credits including the following 7.0 credits:

- 1.0 CUST credit at the 1000 level
- 2.0 CUST credits at the 4000 level
- 4.0 CUST credits at the 2000 level or beyond in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

Specializations

Specialization in Criticism & Theory

Specialization in Film, Literature & Narrative

Specialization in Integrated Arts

Bachelor of Arts Program in Cultural Studies – Trent/Swansea Dual Degree

The single-major Honours program. 20.0 credits including the following:

Year 1

5.0 credits including the following:

- 1.0 CUST credit at the 1000 level
- 1.0 CUST credit at the 2000 level or beyond
- 3.0 elective credits, including 0.5 ICR credit from the Approved Indigenous Course List

Year 2

5.0 credits including the following:

- 4.0 CUST credits at the 2000 level or beyond
- 1.0 elective credit

Years 3-5 – at Swansea

*Students must take Swansea's Canadian Constitutional Law (LAA362) module in Year 5 (their final year at Swansea) if it is offered, as Trent will not likely offer LAWS 4030H Canadian Constitutional Law during the subsequent year. Students who take LAA362 at Swansea will receive a transfer credit for LAWS 4030H in place of 0.5 3000-level ARTS unassigned transfer credit, which will require them to take an additional 0.5 elective credit in Year 6 instead.

Year 6

5.0 transfer credits awarded for successful completion of LLB program (years 3-5):

- 1.0 unassigned CUST credit at the 4000 level
- 4.0 unassigned ARTS credits at the 3000 level

5.0 credits including the following:

- 2.5 LAWS credits consisting of LAWS 4000H, 4010H, 4020H, 4030H*, and 4040H
- 1.0 CUST credit at the 4000 level
- 1.0 CUST credit at the 3000 level or beyond in addition to the above
- 0.5 elective credit

Note: Students declaring a Cultural Studies major in the Trent/Swansea program are recommended to take the following modules at Swansea if available:

- LAA 227/327 Media Law
- LAA 328 Cybercrime
- LAA 341 Sports Law and Liability
- LAA 342 Legal Issues in Sport
- LAA 340 Work Placement Research Project or LAA 339 Law Dissertation

IMPORTANT GENERAL NOTES

- In addition to the program requirements, students must satisfy the University degree requirements. Students are encouraged to complete the requirement for 0.5 credit from the Approved Indigenous Course List in either year one or year two of the program.
- Students are encouraged to take additional courses in their declared major as electives, but the total number of credits in the major discipline may not exceed 13.0.
- LAWS 4050H is recommended to be taken as an elective in year six of the program where possible.
- Prerequisites for required courses will normally be waived for students in the Trent/Swansea dual degree. Prior to registration in any course in the major for which a waiver is needed, students must contact the chair of the department, indicate that they are enrolled in the dual degree program, and request permission to register without the prerequisite.
- Successful completion of the LLB degree program with a minimum weighted average of 40% (according to Swansea University's grading scale) is required to award students with transfer credits toward the Trent BA or BBA degree. Per-course grade average to be determined.
- In year six of the dual degree, 2.5 Trent University credits in Canadian Law as prescribed by the Program must be completed, in addition to 2.5 credits required per their Trent degree requirements. The Canadian Law courses are intended to support students in writing their National Committee on Accreditation (NCA) exams. Students must take Swansea's Canadian Constitutional Law (LAA362) module in Year 5 (their final year at Swansea) if it is offered, as Trent will not likely offer LAWS 4030H Canadian Constitutional Law during the subsequent year. Completion of LAA362 at Swansea satisfies the Year 6 requirement to take LAWS 4030H and means students will have an additional 0.5 elective credit in Year 6 instead.
- Note to Trent Durham GTA students in the Trent/Swansea Law Dual Degree: for Year 6, the required 4000-level LAWS courses are only offered in Peterborough.

BAH.ECON - Economics - BA Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
www.trentu.ca/economics

Economics is the academic discipline most discussed by the general public, yet it is also one of the least understood. Economics is the social science that deals with problems of scarcity through a systematic and logical framework for analyzing how a society solves such problems as which goods and services to produce, how to organize production, and for whom goods and services are to be produced. Knowledge of economics is necessary for understanding and dealing intelligently with current topics like unemployment, economic growth, income inequality, the environment, globalization, and various forms of market regulation. Besides its importance in understanding contemporary social issues, economics is useful in developing career skills for business, law, teaching, public administration, and research. Both verbal and mathematical training are involved in the study of economics.

INFORMATION & ADDITIONAL NOTES

- A 4U Mathematics course is strongly recommended for students who plan to major in Economics.

Requirements

Bachelor of Arts Program in Economics

- ECON 2000H, 2010H, and 2610H are considered equivalent to the 3000 level in order to satisfy the University requirement for at least 7.0 credits at the 3000 or 4000 level in the Honours program.
- It is strongly recommended that students in the single-major Honours program complete ECON 3200H and 3250H within the first 14.0 credits.
- It is strongly recommended that students in the joint-major Honours program complete ECON-ADMN 1250H in their second term, and ECON 3200H within the first 14.0 credits.

The single-major Honours program. 20.0 credits including the following 9.5 credits:

- 6.5 ECON credits consisting of ECON 1010H, 1020H, 1250H, 2000H, 2010H, 2200H, 3000H, 3010H, 3200H, 3250H, 4000H, 4041H, and 4050H
- 1.0 ECON credit at the 3000 level or beyond in addition to the above
- 2.0 ECON credits in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The joint-major Honours program. 20.0 credits including the following 7.0 credits:

- 4.0 ECON credits consisting of ECON 1010H, 1020H, 1250H, 2000H, 2010H, 2200H, 3200H, and 4041H
- 1.0 ECON credit from ECON 3000H and 3010H, ECON 3000H and 4000H, or ECON 3010H and 4050H
- 0.5 ECON credit at the 3000 level or beyond in addition to the above
- 1.5 ECON credits in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

BAH.ECON.COOP - Economics - Co-op (BA)

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
Co-op is an opportunity for students to gain work-integrated experiential learning that will help them get a head start on a career. The Economics Co-op assists graduating students in achieving a competitive edge by gaining experience across a wide range of sectors. Specifically, co-op gives the students a chance to obtain 12 months of practical on-the-job experience, develop or enhance technical skills, explore career options, network with a variety of individuals and organizations, learn from mentors and tutors, enhance communication and presentation skills, and develop technical writing skills.

INFORMATION AND ADDITIONAL NOTES

- Co-op students are responsible for paying tuition for their academic courses, ancillary fees, and levies. All Trent students are charged ancillary fees every Fall & Winter term. Co-op students will experience the same cycle for their ancillary fee payments regardless of when they are out on work terms. Co-op students do not pay tuition during their work terms.
- Co-op students are responsible for paying the compulsory Co-op Fee a total of five times during their degree program, and the Co-op fee will be applied to their student account in Year 2 Fall, Year 2 Winter, Year 3 Fall, Year 3 Winter, and Year 4 Fall.
- Students are encouraged to meet with their co-op coordinator each year to confirm they are meeting program requirements.

Requirements

Bachelor of Arts Program in Economics — Co-op

- Co-op students must satisfy the requirements for the single-major BA Honours in Economics and the Co-op requirements listed below.
- Economics Co-op is a competitive direct-entry program with a limited number of student places. Students who are not admitted directly may apply for admission after commencing studies at Trent, and may be admitted on a competitive basis, provided there are available spaces in the program.
- To remain in the co-op program, students must complete the required work term preparation and reflection courses (COOP 2000H and 4000H) with a minimum 70% progression requirement in COOP 2000H and 65% in COOP 4000H, and maintain a minimum 75% cumulative average throughout their study terms. In addition, students must continue to receive satisfactory evaluations during each of their three work terms. Students who do not achieve a minimum 70% in COOP 2000H will be withdrawn from the co-op program but may continue their studies in Economics or transfer to a major in a different subject. Once withdrawn, students are not eligible to re-enter the co-op program. Students who do not achieve a minimum 65% in COOP 4000H but otherwise fulfill all degree requirements will be awarded an Honours degree in Economics without the Co-op designation.
- Three non-credit co-op work terms are required for the BA and BSc programs in Economics Co-op (COOP 2100P, 3100P, and 4100P). Student should be prepared to relocate for work terms. It is preferred that work term 2 and work term 3 are with the same employer. Work terms are normally available in Ontario or Canada. The schedule for the single-major Honours program is listed below. Students who choose to explore any additions (minor or option) to a single-major Honours may require additional time to complete their degrees, as all courses are not offered in every term. It is expected that students follow the set work term schedule. Students are encouraged to work with an academic advisor for support with degree mapping. Co-op students are discouraged from taking a course at Trent or on Letter of Permission while on a work term.
- For specific details about the work term schedule for students in the Economics Co-op program, please contact the School of Business at schoolofbusinesscoops@trentu.ca.
- Students on a work term must complete learning objectives, a midterm evaluation, a final evaluation, and a final work term report. Co-op employers will also complete a midterm evaluation and final

evaluation of the student's work term. Upon receiving the completed documentation and upon a satisfactory employer assessment, a Pass (P) or Fail (F) will be assigned for COOP 2100P, 3100P, and 4100P. Every effort is made by the Department to find suitable work term employers for students enrolled in the co-op. The Department cannot, however, guarantee a work term opportunity for every student. The hiring process is competitive and dependent upon many factors including market conditions and the academic performance of a student. Co-op students secure positions through successful participation in the co-op interview process and/or their own job search activities. Withdrawal from the co-op program will not normally be approved while a student is on a work term.

- Students who are unable to obtain a suitable co-op employer in an upcoming work term are expected to continue with their academic program on a full-time basis. A missed work term can be made up. In the event that a co-op student is unable to complete three work terms, yet otherwise fulfills all degree requirements, the student will be awarded an Honours Bachelor of Arts in Economics degree.

BAH.ECON.SWAN - Economics - BA Honours - Swansea Law

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
Program Website

Trent University, in partnership with Swansea University, United Kingdom, offers a dual degree leading to a Trent Bachelor of Arts (Honours) degree (BA) or Bachelor of Business Administration (BBA) and a Single Honours Law degree (LLB) from Swansea. The program allows students to complete the requirements for both degrees in a structured six-year program of study.

Upon admission to Trent University, students select a major in one of the available subjects for the dual degree. Students spend their first two years of full-time study at Trent in Peterborough or Durham, taking 10.0 credits toward their Bachelor of Arts (Honours) or Bachelor of Business Administration program (5.0 credits per academic year). Students then transfer to Swansea University for years three, four, and five to complete their study in the LLB degree program, taking on a full-time course load (120 credits per academic year, which equates to a normal 5.0-credit per year Canadian university course load). Following successful completion of the LLB with the required minimum overall average, students are awarded transfer credits and return to Trent to complete the requirements for the BA or BBA program, which include courses focused in Canadian Law (LAWS courses) to help prepare them for the National Committee on Accreditation exams.

Students will graduate at the end of the sixth year with both an undergraduate Bachelor of Arts (Honours) or Bachelor of Business Administration degree from Trent University and a Single Honours Law degree from Swansea University.

As this is a dual degree and not a joint degree, Swansea University reserves all rights to make adjustments to the required courses for the LLB degree at any point in time. The most up-to-date program overview can be found on the Swansea University website.

ACADEMIC PROGRESSION

Application to the Trent/Swansea dual degree is through the Ontario University Application Centre. Students must achieve a minimum secondary school average of 80% to be admitted to the program. This entry grade is subject to change annually based on the application cohort and the number of spaces available in the program; however, the minimum average for acceptance to the program will never fall below 80%.

To progress successfully to year three of the dual degree and to commence the LLB portion at Swansea University, students must complete the required Intent to Continue communication and must meet the requirements below:

- declared program major for the Trent BA or BBA degree from the list of majors included in the program;
- successful completion of years one and two at Trent University, including all courses required for the declared major, with a minimum cumulative average of 77%;
- successful completion of no fewer than 10.0 Trent University credits before enrolling in classes at Swansea (a maximum of 5.0 transfer credits is allowable toward this total);
- obtained and provided proof of an approved Tier 4 (General) Study Visa;
- confirmation that they have not been found to have breached any University regulations; and,
- have no known reasons to be denied access to the United Kingdom.

Following successful completion of the LLB degree at Swansea University, student transcripts will be forwarded to the Office of the Registrar at Trent University to ensure standards are met and at this point students will be reactivated as current students at Trent University. Once students enter into the final year of study to obtain all requirements for successful completion of the Dual Degree Bachelor of Arts (Honours) or Bachelor of Business Administration degree, they will be awarded the 5.0 transfer credits toward their degree completion.

Students currently studying at Trent, and transfer students from other postsecondary institutions who have been admitted to Trent University, may be able to access the Trent/Swansea dual degree. Contact the Trent/Swansea Law Program Coordinator for further details.

Requirements

Bachelor of Arts Program in Economics – Trent/Swansea Dual Degree

The single-major Honours program. 20.0 credits including the following:

Year 1

5.0 credits including the following:

- 2.0 ECON credits consisting of ECON 1010H, 1020H, 1250H, and 2200H
- 3.0 elective credits, including 0.5 ICR credit from the Approved Indigenous Course List

Year 2

5.0 credits including the following:

- 3.0 ECON credits consisting of ECON 2000H, 2010H, 3000H, 3010H, 3200H, and 3250H
- 2.0 elective credits

Years 3-5 – at Swansea

*Students must take Swansea's Canadian Constitutional Law (LAA362) module in Year 5 (their final year at Swansea) if it is offered, as Trent will not likely offer LAWS 4030H Canadian Constitutional Law during the subsequent year. Students who take LAA362 at Swansea will receive a transfer credit for LAWS 4030H in place of 0.5 3000-level ARTS unassigned transfer credit, which will require them to take an additional 0.5 elective credit in Year 6 instead.

Year 6

5.0 transfer credits awarded for successful completion of LLB program (years 3-5):

- 2.0 unassigned ECON credits at the 3000 level
- 1.0 unassigned ECON credit at the 4000 level
- 2.0 unassigned ARTS credits at the 3000 level

5.0 credits including the following:

- 2.5 LAWS credits consisting of LAWS 4000H, 4010H, 4020H, 4030H*, and 4040H
- 1.5 ECON credits consisting of ECON 4000H, 4041H, and 4050H
- 1.0 elective credit

Note: Students are advised to consult the Department of Economics for specific course selection guidelines and prerequisite waivers for degree progression planning.

IMPORTANT GENERAL NOTES

- In addition to the program requirements, students must satisfy the University degree requirements. Students are encouraged to complete the requirement for 0.5 credit from the Approved Indigenous Course List in either year one or year two of the program.
- Students are encouraged to take additional courses in their declared major as electives, but the total number of credits in the major discipline may not exceed 13.0.
- LAWS 4050H is recommended to be taken as an elective in year six of the program where possible.
- Prerequisites for required courses will normally be waived for students in the Trent/Swansea dual degree. Prior to registration in any course in the major for which a waiver is needed, students must contact the chair of the department, indicate that they are enrolled in the dual degree program, and request permission to register without the prerequisite.
- Successful completion of the LLB degree program with a minimum weighted average of 40% (according to Swansea University's grading scale) is required to award students with transfer credits toward the Trent BA or BBA degree. Per-course grade average to be determined.
- In year six of the dual degree, 2.5 Trent University credits in Canadian Law as prescribed by the Program must be completed, in addition to 2.5 credits required per their Trent degree requirements. The Canadian Law courses are intended to support students in writing their National Committee on Accreditation (NCA) exams. Students must take Swansea's Canadian Constitutional Law (LAA362) module in Year 5 (their final year at Swansea) if it is offered, as Trent will not likely offer LAWS 4030H Canadian Constitutional Law during the subsequent year. Completion of LAA362 at Swansea satisfies the Year 6 requirement to take LAWS 4030H and means students will have an additional 0.5 elective credit in Year 6 instead.
- Note to Trent Durham GTA students in the Trent/Swansea Law Dual Degree: for Year 6, the required 4000-level LAWS courses are only offered in Peterborough.

BAH.ENGL - English Literature - BA Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
www.trentu.ca/english

Words matter. In literature, they can help us understand our world and our place in it; they can introduce us to people, places, and experiences we wouldn't otherwise have access to; they can speak to a history of ideas and experiences that are vital, turbulent, and inspiring; they can inspire our own creativity and help us figure out how to better communicate our own ideas.

With our recently-revised curriculum, you'll have a chance to read widely, in exciting new areas of study while still gaining a foundational understanding of literary history and developing durable and transferable skills in close reading, clear and persuasive writing, and creative thinking. In the early years of our program, you'll be introduced to the fundamentals of literary study, while having the chance to sample new literatures, time-tested classics, unique genres, and creative writing. In the later years, you'll continue those literary explorations and encounter dynamic periods in literary history. With courses on medieval legends, graphic novels, Shakespearean plays, popular literatures, critical theory, and creative writing, you'll have a chance to pursue whatever literatures interest you and help you achieve your academic and career goals. For more information, please see the department website.

INFORMATION & ADDITIONAL NOTES

- The Accelerated Master of Arts program in English allows students to obtain a Master's degree in English (Public Texts) within one to two terms less than students in the regular Master's program. Students apply to the Accelerated Master of Arts program during the spring term which precedes the last year of their undergraduate program in English Literature. The research starts in the fourth year. Upon graduation, students begin the MA program in May or September, just after completion of the undergraduate program. Students who are interested in applying should contact the English (Public Texts) graduate program director.

Requirements

Bachelor of Arts Program in English Literature

The single-major Honours program. 20.0 credits including the following 10.0 credits:

- 1.0 ENGL credit at the 1000 level
- 1.0 ENGL credit at the 4000 level
- 8.0 ENGL credits at the 2000 level or beyond in addition to the above, including at least 1.0 credit from category A and at least 0.5 credit from category B

In addition to the program requirements listed above, students must satisfy the University degree requirements below, including 0.5 credit from the Approved Indigenous Course List.

The joint-major Honours program. 20.0 credits including the following 8.0 credits:

- 1.0 ENGL credit at the 1000 level
- 1.0 ENGL credit at the 4000 level
- 6.0 ENGL credits at the 2000 level or beyond in addition to the above, including at least 1.0 credit from category A and at least 0.5 credit from category B

In addition to the program requirements listed above, students must satisfy the University degree requirements below, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of two programs in a joint-major degree.

BAH.ENGL.COOP - English Literature - Co-op

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
Co-op is an opportunity for students to gain work-integrated experiential learning that will help them get a head start on a career. The English Literature Co-op assists graduating students in achieving a competitive edge while generating experience within a wide range of sectors. Specifically, co-op gives the students a chance to obtain 12 months of practical experience on the job, develop or enhance technical skills, explore career options, network with a variety of individuals and organizations, learn from mentors and tutors, enhance communication and presentation skills, and develop technical writing skills.

INFORMATION & ADDITIONAL NOTES

- Co-op students are responsible for paying tuition for their academic courses, ancillary fees, and levies. All Trent students are charged ancillary fees every Fall & Winter term. Co-op students will experience the same cycle for their ancillary fee payments regardless of when they are out on work terms. Co-op students do not pay tuition during their work terms.
- Co-op students are responsible for paying the compulsory Co-op Fee a total of five times during their degree program, and the Co-op fee will be applied to their student account in Year 2 Fall, Year 2 Winter, Year 3 Fall, Year 3 Winter, and Year 4 Fall.
- Students are encouraged to meet with their Co-op Coordinator at CareerSpace each year for support with their co-op work terms, career development, and to confirm they are meeting co-op progression requirements.

Requirements

Bachelor of Arts Program in English Literature — Co-op

- Co-op students must satisfy the requirements for the single-major BA Honours in English Literature and the Co-op requirements listed below.
- English Literature Co-op is a competitive direct-entry program with a limited number of student places. Students who are not admitted directly may apply for admission after commencing studies at Trent and may be admitted on a competitive basis provided there are available spaces in the program.
- To remain in the co-op program, students must complete the required work term preparation and reflection courses (COOP 2000H and 4000H) with a minimum 70% progression requirement in COOP 2000H and 65% in COOP 4000H, and maintain a minimum 75% cumulative average throughout their study terms. In addition, students must continue to receive satisfactory evaluations during each of their three work terms. Students who do not achieve a minimum 70% in COOP 2000H will be withdrawn from the co-op program but may continue their studies in English Literature or transfer to a major in a different subject. Once withdrawn, students are not eligible to re-enter the co-op program. Students who do not achieve a minimum 65% in COOP 4000H but otherwise fulfill all degree requirements will be awarded an Honours degree in English Literature without the Co-op designation.
- Three non-credit co-op work terms are required for the BA program in English Literature Co-op (COOP 2100P, 3100P, and 4100P). The prerequisite for the first work term (COOP 2100P) for students in this program is completion of COOP 2000H with a minimum grade of 70% and completion of at least 10.0 academic credits. The schedule for the single-major Honours program is listed below. Students who choose to explore any additions (minor, specialization, or option) to a single-major Honours may require additional time to complete their degrees, as all courses are not offered in every term. It is expected that students follow the set work term schedule. Students are encouraged to work with an academic advisor for support with degree mapping.

YEAR	FALL	WINTER	SUMMER
Year 1	Study Term 1	Study Term 2	Study Term 3
Year 2	Study Term 4	Study Term 5	Work Term 1
Year 3	Study Term 6	Study Term 7	Work Term 2
Year 4	Work Term 3	Study Term 8	–

- Students on a work term must complete learning objectives, a midterm evaluation, a final evaluation, and a final work term report. Co-op employers will also complete a midterm evaluation and final evaluation of the student's work term. Upon receiving the completed documentation and upon a satisfactory employer assessment, a Pass (P) or Fail (F) will be assigned for COOP 2100P, 3100P, and 4100P. CareerSpace makes every effort to find suitable work terms for students enrolled in the co-op program, but a work term opportunity cannot be guaranteed for every student. The work term process is competitive and dependent upon many factors including market conditions, the preparedness of a student including their job applications and performance in job interviews, and the academic performance of a student. Co-op students secure positions through successful participation in the co-op interview process and/or their own job search activities. Withdrawal from the co-op program will not normally be approved while a student is on a work term. Students are not permitted to take an academic course during a scheduled work term.
- Students who are unable to obtain a suitable co-op opportunity in an upcoming work term are expected to continue with their academic program on a full-time basis. A single missed work term can be made up, but in the event that a co-op student cannot secure their work term for a second time, they will be withdrawn from the co-op program. If a student is unable to complete three work terms yet otherwise fulfills all degree requirements, the student will be awarded an Honours Bachelor of Arts in English Literature.

BAH.ENGL.SWAN - English Literature - BA Honours - Swansea Law

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
Program Website

Trent University, in partnership with Swansea University, United Kingdom, offers a dual degree leading to a Trent Bachelor of Arts (Honours) degree (BA) or Bachelor of Business Administration (BBA) and a Single Honours Law degree (LLB) from Swansea. The program allows students to complete the requirements for both degrees in a structured six-year program of study.

Upon admission to Trent University, students select a major in one of the available subjects for the dual degree. Students spend their first two years of full-time study at Trent in Peterborough or Durham, taking 10.0 credits toward their Bachelor of Arts (Honours) or Bachelor of Business Administration program (5.0 credits per academic year). Students then transfer to Swansea University for years three, four, and five to complete their study in the LLB degree program, taking on a full-time course load (120 credits per academic year, which equates to a normal 5.0-credit per year Canadian university course load). Following successful completion of the LLB with the required minimum overall average, students are awarded transfer credits and return to Trent to complete the requirements for the BA or BBA program, which include courses focused in Canadian Law (LAWS courses) to help prepare them for the National Committee on Accreditation exams.

Students will graduate at the end of the sixth year with both an undergraduate Bachelor of Arts (Honours) or Bachelor of Business Administration degree from Trent University and a Single Honours Law degree from Swansea University.

As this is a dual degree and not a joint degree, Swansea University reserves all rights to make adjustments to the required courses for the LLB degree at any point in time. The most up-to-date program overview can be found on the Swansea University website.

ACADEMIC PROGRESSION

Application to the Trent/Swansea dual degree is through the Ontario University Application Centre. Students must achieve a minimum secondary school average of 80% to be admitted to the program. This entry grade is subject to change annually based on the application cohort and the number of spaces available in the program; however, the minimum average for acceptance to the program will never fall below 80%.

To progress successfully to year three of the dual degree and to commence the LLB portion at Swansea University, students must complete the required Intent to Continue communication and must meet the requirements below:

- declared program major for the Trent BA or BBA degree from the list of majors included in the program;
- successful completion of years one and two at Trent University, including all courses required for the declared major, with a minimum cumulative average of 77%;
- successful completion of no fewer than 10.0 Trent University credits before enrolling in classes at Swansea (a maximum of 5.0 transfer credits is allowable toward this total);
- obtained and provided proof of an approved Tier 4 (General) Study Visa;
- confirmation that they have not been found to have breached any University regulations; and,
- have no known reasons to be denied access to the United Kingdom.

Following successful completion of the LLB degree at Swansea University, student transcripts will be forwarded to the Office of the Registrar at Trent University to ensure standards are met and at this point students will be reactivated as current students at Trent University. Once students enter into the final year of study to obtain all requirements for successful completion of the Dual Degree Bachelor of Arts (Honours) or Bachelor of Business Administration degree, they will be awarded the 5.0 transfer credits toward their degree completion.

Students currently studying at Trent, and transfer students from other postsecondary institutions who have been admitted to Trent University, may be able to access the Trent/Swansea dual degree. Contact the Trent/Swansea Law Program Coordinator for further details.

Requirements

Bachelor of Arts Program in English Literature – Trent/Swansea Dual Degree

The single-major Honours program. 20.0 credits including the following:

Year 1

5.0 credits including the following:

- 1.0 ENGL credit at the 1000 level
- 1.0 ENGL credit at the 2000 level or beyond*
- 3.0 elective credits, including 0.5 ICR credit from the Approved Indigenous Course List

Year 2

5.0 credits including the following:

- 4.0 ENGL credits at the 2000 level or beyond*
- 1.0 elective credit

*At least 1.0 credit from Category A and at least 0.5 credit from Category B must be included overall in the program by the end of Year 6 (see BA Honours in English Literature for Categories)

Years 3-5 – at Swansea

**Students must take Swansea's Canadian Constitutional Law (LAA362) module in Year 5 (their final year at Swansea) if it is offered, as Trent will not likely offer LAWS 4030H Canadian Constitutional Law during the subsequent year. Students who take LAA362 at Swansea will receive a transfer credit for LAWS 4030H in place of 0.5 3000-level ARTS unassigned transfer credit, which will require them to take an additional 0.5 elective credit in Year 6 instead.

Year 6

5.0 transfer credits awarded for successful completion of LLB program (years 3-5):

- 2.0 unassigned ENGL credits at the 3000 level
- 3.0 unassigned ARTS credits at the 3000 level

5.0 credits including the following:

- 2.5 LAWS credits consisting of LAWS 4000H, 4010H, 4020H, 4030H**, and 4040H
- 2.0 ENGL credits, at least 1.0 credit at the 4000 level*
- 0.5 elective credit

*At least 1.0 credit from Category A and at least 0.5 credit from Category B must be included overall in the program by the end of Year 6 (see BA Honours in English Literature for Categories)

IMPORTANT GENERAL NOTES

- In addition to the program requirements, students must satisfy the University degree requirements. Students are encouraged to complete the requirement for 0.5 credit from the Approved Indigenous Course List in either year one or year two of the program.
- Students are encouraged to take additional courses in their declared major as electives, but the total number of credits in the major discipline may not exceed 13.0.
- LAWS 4050H is recommended to be taken as an elective in year six of the program where possible.
- Prerequisites for required courses will normally be waived for students in the Trent/Swansea dual degree. Prior to registration in any course in the major for which a waiver is needed, students must contact the chair of the department, indicate that they are enrolled in the dual degree program, and request permission to register without the prerequisite.
- Successful completion of the LLB degree program with a minimum weighted average of 40% (according to Swansea University's grading scale) is required to award students with transfer credits toward the Trent BA or BBA degree. Per-course grade average to be determined.
- In year six of the dual degree, 2.5 Trent University credits in Canadian Law as prescribed by the Program must be completed, in addition to 2.5 credits required per their Trent degree requirements. The Canadian Law courses are intended to support students in writing their National Committee on Accreditation (NCA) exams. Students must take Swansea's Canadian Constitutional Law (LAA362) module in Year 5 (their final year at Swansea) if it is offered, as Trent will not likely offer LAWS 4030H Canadian Constitutional Law during the subsequent year. Completion of LAA362 at Swansea satisfies the Year 6 requirement to take LAWS 4030H and means students will have an additional 0.5 elective credit in Year 6 instead.
- Note to Trent Durham GTA students in the Trent/Swansea Law Dual Degree: for Year 6, the required 4000-level LAWS courses are only offered in Peterborough.

BAH.ERST - Environmental & Resource Studies - BA Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
www.trentu.ca/ers

Environmental & Resource Science/Studies within the Trent School of the Environment provides many opportunities to study the environment, with more than 100 courses in all aspects of environmental science and policy. Many of these courses emphasize practical experience, including field work in Trent's network of nature areas and in local communities. The program offers a high degree of flexibility in course selection, including options for a year abroad, community-based research courses, placements and internships, and Honours theses.

INFORMATION & ADDITIONAL NOTES

- Science courses, which fulfill University requirements for the BSc, are designated Environmental & Resource Science (ERSC) and marked Science; arts courses are designated Environmental & Resource Studies (ERST).
- Any course involving work with live vertebrate animals requires the Animal Care Course.
- Community-based research, placement, reading and Honours thesis courses normally require a minimum cumulative average of 75%.
- There may be a small additional fee for field trips in certain courses.
- The Accelerated Master's program in Environmental & Life Sciences allows students to obtain a research-based MSc within a shorter timeframe. See www.trentu.ca/els/experience/msc-program/accelerated-masters-program for details.

Requirements

Bachelor of Arts Program in Environmental & Resource Studies

The single-major Honours program. 20.0 credits including the following 11.5 credits:

- 1.5 ERSC/ERST/SAFS credits from ERSC 1010H, 1020H, 1040H, 1060H, ERST 1030H, or SAFS 1001H
- 2.5 ERST credits consisting of ERST 2100H, 2510H, 2520H, 2525H, and 3000H
- 0.5 credit from the TSE Capstone Course List*
- 5.0 ERST credits at the 3000 level or beyond in addition to the above
- 1.0 ERST credit at the 2000 level or beyond in addition to the above
- 1.0 ERSC credit at the 2000 level or beyond in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The joint-major Honours program. 20.0 credits including the following 8.0 credits:

- 1.5 ERSC/ERST/SAFS credits from ERSC 1010H, 1020H, 1040H, 1060H, ERST 1030H, or SAFS 1001H
- 2.5 ERST credits consisting of ERST 2100H, 2510H, 2520H, 2525H, and 3000H
- 0.5 credit from the TSE Capstone Course List*
- 2.5 ERST credits at the 3000 level or beyond in addition to the above
- 1.0 ERSC credit at the 2000 level or beyond in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree, with the following exception: for students pursuing a joint-major degree in Environmental & Resource Studies and Geography, one of

ERSC 1010H, ERSC 1020H, CLIM-ERSC-GEOG 1060H, or SAFS 1001H may be used to simultaneously satisfy the requirements of both programs.

BAH.ERST.COOP - Environmental & Resource Studies - Co-op

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
Environmental & Resource Studies Co-op will be available as of the 2027-2028 Academic Year.

www.trentu.ca/coop

Co-op is an opportunity for students to gain work-integrated experiential learning that will help them get a head start on a career. The Environmental & Resource Studies Co-op assists graduating students in achieving a competitive edge while generating experience within a wide range of sectors. Specifically, co-op gives the students a chance to obtain 12 months of practical experience on the job, develop or enhance technical skills, explore career options, network with a variety of individuals and organizations, learn from mentors and tutors, enhance communication and presentation skills, and develop technical writing skills.

INFORMATION AND ADDITIONAL NOTES

- The Environmental & Resource Studies Co-op is available at Trent's Peterborough campus only.
- Co-op students are responsible for paying tuition for their academic courses, ancillary fees, and levies. All Trent students are charged ancillary fees every Fall & Winter term. Co-op students will experience the same cycle for their ancillary fee payments regardless of when they are out on work terms. Co-op students do not pay tuition during their work terms.
- Co-op students are responsible for paying the compulsory Co-op Fee a total of five times during their degree program, and the Co-op fee will be applied to their student account in Year 3 Fall, Year 3 Winter, Year 4 Fall, Year 4 Winter, and Year 5 Fall.
- Students are encouraged to meet with their Co-op Coordinator at CareerSpace each year for support with their co-op work terms, career development, and to confirm they are meeting co-op progression requirements.

Requirements

Bachelor of Arts Program in Environmental & Resource Studies— Co-op

- Environmental & Resource Studies Co-op will be available as of the 2027-2028 Academic Year.
- Co-op students must satisfy the requirements for the single-major BA Honours in Environmental & Resource Studies and the Co-op requirements listed below.
- Environmental & Resource Studies Co-op is a competitive direct-entry program with a limited number of student places. Students who are not admitted directly may apply for admission after commencing studies at Trent and may be admitted on a competitive basis provided there are available spaces in the program.
- To remain in the co-op program, students must complete the required work term preparation course (COOP 2000H) with a minimum 70% progression requirement, and maintain a 75% cumulative average throughout their study terms. In addition, students must continue to receive satisfactory evaluations during each of their three work terms. Students who do not achieve a minimum 70% in COOP 2000H will be withdrawn from the co-op program but may continue their studies in Environmental & Resource Studies or transfer to a major in a different subject. Once withdrawn, students are not eligible to re-enter the co-op program.
- Students in the Environmental & Resource Studies Co-op follow the co-op continuing model where they complete one 12-month work term (COOP 2100P, 3100P and 4100P) with a single employer. The prerequisite for the first work term (COOP 2100P) for students in this program is completion of COOP 2000H with a minimum grade of 70% and completion of at least 10.0 academic credits. The schedule for the single-major Honours program is listed below. Students who choose to explore any additions (minor, specialization, or option) to a single-major Honours may require additional time to complete their degrees, as all courses are not offered in every term. It is expected that students follow the set work term schedule. Students are encouraged to work with an academic advisor for support with degree mapping.

YEAR	FALL	WINTER	SUMMER
Year 1	Study Term 1	Study Term 2	–
Year 2	Study Term 3	Study Term 4	COOP 2000H
Year 3	Study Term 5	Study Term 6	Work Term
Year 4	Work Term	Work Term	–
Year 5	Study Term 7	Study Term 8	–

- Students on a work term must complete learning objectives, a midterm evaluation, a final evaluation, and a final work term report. Co-op employers will also complete a midterm evaluation and final evaluation of the student's work term. Upon receiving the completed documentation and upon a satisfactory employer assessment, a Pass (P) or Fail (F) will be assigned for COOP 2100P, 3100P, and 4100P.
- CareerSpace and the Trent School of the Environment make every effort to find suitable work terms for students enrolled in the co-op program, but a work term opportunity cannot be guaranteed for every student. The work term process is competitive and dependent upon many factors including market conditions, the preparedness of a student including their job applications and performance in job interviews, and the academic performance of a student. Co-op students secure positions through successful participation in the co-op interview process and/or their own job search activities. Withdrawal from the co-op program will not normally be approved while a student is on a work term. Students are not permitted to take an academic course during a scheduled work term.
- Students who are unable to obtain a suitable co-op opportunity in an upcoming work term are expected to continue with their academic program on a full-time basis. A single missed work term can be made up, but in the event that a co-op student cannot secure their work term for a second time, they will be withdrawn from the co-op program. If a student is unable to complete three work terms yet otherwise fulfills all degree requirements, the student will be awarded an Honours Bachelor of Arts in Environmental & Resource Studies.

BAH.ERST.SWAN - Environmental & Resource Studies - BA Honours - Swansea Law

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
Program Website

Trent University, in partnership with Swansea University, United Kingdom, offers a dual degree leading to a Trent Bachelor of Arts (Honours) degree (BA) or Bachelor of Business Administration (BBA) and a Single Honours Law degree (LLB) from Swansea. The program allows students to complete the requirements for both degrees in a structured six-year program of study.

Upon admission to Trent University, students select a major in one of the available subjects for the dual degree. Students spend their first two years of full-time study at Trent in Peterborough or Durham, taking 10.0 credits toward their Bachelor of Arts (Honours) or Bachelor of Business Administration program (5.0 credits per academic year). Students then transfer to Swansea University for years three, four, and five to complete their study in the LLB degree program, taking on a full-time course load (120 credits per academic year, which equates to a normal 5.0-credit per year Canadian university course load). Following successful completion of the LLB with the required minimum overall average, students are awarded transfer credits and return to Trent to complete the requirements for the BA or BBA program, which include courses focused in Canadian Law (LAWS courses) to help prepare them for the National Committee on Accreditation exams.

Students will graduate at the end of the sixth year with both an undergraduate Bachelor of Arts (Honours) or Bachelor of Business Administration degree from Trent University and a Single Honours Law degree from Swansea University.

As this is a dual degree and not a joint degree, Swansea University reserves all rights to make adjustments to the required courses for the LLB degree at any point in time. The most up-to-date program overview can be found on the Swansea University website.

ACADEMIC PROGRESSION

Application to the Trent/Swansea dual degree is through the Ontario University Application Centre. Students must achieve a minimum secondary school average of 80% to be admitted to the program. This entry grade is subject to change annually based on the application cohort and the number of spaces available in the program; however, the minimum average for acceptance to the program will never fall below 80%.

To progress successfully to year three of the dual degree and to commence the LLB portion at Swansea University, students must complete the required Intent to Continue communication and must meet the requirements below:

- declared program major for the Trent BA or BBA degree from the list of majors included in the program;
- successful completion of years one and two at Trent University, including all courses required for the declared major, with a minimum cumulative average of 77%;
- successful completion of no fewer than 10.0 Trent University credits before enrolling in classes at Swansea (a maximum of 5.0 transfer credits is allowable toward this total);
- obtained and provided proof of an approved Tier 4 (General) Study Visa;
- confirmation that they have not been found to have breached any University regulations; and,
- have no known reasons to be denied access to the United Kingdom.

Following successful completion of the LLB degree at Swansea University, student transcripts will be forwarded to the Office of the Registrar at Trent University to ensure standards are met and at this point students will be reactivated as current students at Trent University. Once students enter into the final year of study to obtain all requirements for successful completion of the Dual Degree Bachelor of Arts (Honours) or Bachelor of Business Administration degree, they will be awarded the 5.0 transfer credits toward their degree completion.

Students currently studying at Trent, and transfer students from other postsecondary institutions who have been admitted to Trent University, may be able to access the Trent/Swansea dual degree. Contact the Trent/Swansea Law Program Coordinator for further details.

Requirements

Bachelor of Arts Program in Environmental & Resource Studies – Trent/Swansea Dual Degree

The single-major Honours program. 20.0 credits including the following:

Year 1

5.0 credits including the following:

- 1.5 ERSC/ERST/SAFS credits from ERSC 1010H, 1020H, 1040H, 1060H, ERST 1030H, or SAFS 1001H
- 1.5 ERST credits consisting of ERST 2100H, 2520H, and 2525H
- 2.0 elective credits, including 0.5 ICR credit from the Approved Indigenous Course List

Year 2

5.0 credits including the following:

- 1.0 ERST credits consisting of ERST 2510H and 3000H
- 1.0 ERST credit at the 3000 level or beyond in addition to the above
- 1.0 ERST credit at the 2000 level or beyond in addition to the above
- 1.0 ERSC credit at the 2000 level or beyond
- 1.0 elective credit

Years 3-5 – at Swansea

**Students must take Swansea's Canadian Constitutional Law (LAA362) module in Year 5 (their final year at Swansea) if it is offered, as Trent will not likely offer LAWS 4030H Canadian Constitutional Law during the subsequent year. Students who take LAA362 at Swansea will receive a transfer credit for LAWS 4030H in place of 0.5 3000-level ARTS unassigned transfer credit, which will require them to take an additional 0.5 elective credit in Year 6 instead.

Year 6

5.0 transfer credits awarded for successful completion of LLB program (years 3-5):

- 3.0 unassigned ERSC/T credits at the 3000 level
- 2.0 unassigned ARTS credits at the 3000 level

5.0 credits including the following:

- 2.5 LAWS credits consisting of LAWS 4000H, 4010H, 4020H, 4030H, and 4040H
- 0.5 credit from the TSE Capstone Course List (see BA Honours in Environmental & Resource Studies)
- 1.0 ERST credit at the 3000 level or beyond in addition to the above
- 1.0 elective credit

Note: Students declaring an Environmental & Resource Studies major at Trent in the Trent/Swansea program are recommended to take the following modules at Swansea if available:

- LAA 311 Planning Law
- LAA 310 Environmental Law: Regulatory Approaches
- LAA 312 Nature Conservation Law

IMPORTANT GENERAL NOTES

- In addition to the program requirements, students must satisfy the University degree requirements below.
- Students are encouraged to take additional courses in their declared major as electives, but the total number of credits in the major discipline may not exceed 13.0.
- LAWS 4050H is recommended to be taken as an elective in year six of the program where possible.
- Prerequisites for required courses will normally be waived for students in the Trent/Swansea dual degree. Prior to registration in any course in the major for which a waiver is needed, students must contact the chair of the department, indicate that they are enrolled in the dual degree program, and request permission to register without the prerequisite.
- Successful completion of the LLB degree program with a minimum weighted average of 40% (according to Swansea University's grading scale) is required to award students with transfer credits toward the Trent BA or BBA degree. Per-course grade average to be determined.
- In year six of the dual degree, 2.5 Trent University credits in Canadian Law as prescribed by the Program must be completed, in addition to 2.5 credits required per their Trent degree requirements. The Canadian Law courses are intended to support students in writing their National Committee on Accreditation (NCA) exams. Students must take Swansea's Canadian Constitutional Law (LAA362) module in Year 5 (their final year at Swansea) if it is offered, as Trent will not likely offer LAWS 4030H Canadian Constitutional Law during the subsequent year. Completion of LAA362 at Swansea satisfies the Year 6 requirement to take LAWS 4030H and means students will have an additional 0.5 elective credit in Year 6 instead.
- Note to Trent Durham GTA students in the Trent/Swansea Law Dual Degree: for Year 6, the required 4000-level LAWS courses are only offered in Peterborough.

BAH.FCST - French & Canadian Studies - BA Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
www.trentu.ca/canada

Housed in the School for the Study of Canada / École d'études canadiennes, the French and Canadian Studies program integrates elements from both the French Studies and Canadian Studies major programming. It offers a balanced curriculum featuring courses taught in French and courses taught in English. This program is designed for individuals seeking to deepen their knowledge acquired in Immersion and French high school from English Canadian regions, as well as those who have received English-language education in French-speaking areas. It caters to anyone eager to develop or enhance their bilingual competence, including mature and international students aspiring to obtain a multicultural, bilingual education.

INFORMATION & ADDITIONAL NOTES

- Students entering the French & Canadian Studies program are required to have completed grade 12 (4U/M or equivalent) French.

Requirements

Bachelor of Arts Program in French & Canadian Studies

The single-major Honours program. 20.0 credits including the following 10.0 credits:

- 0.5 CAST credit consisting of CAST 1100H
- 0.5 CAST credit from CAST 1101H, 1103H, or 1104H
- 2.5 CAST credits from CAST 2003H, 2041H, 2090H, 2236H, 2810H, 3042H, 3094H, or 4551H
- 1.0 CAST credit at the 3000 level or beyond in addition to the above
- 1.0 FREN credit consisting of FREN 1102H and 2452H
- 1.5 FREN credits from FREN 2051H, 2151H, 2152H, 3051H, 3052H, 3053H, or 4053H
- 2.0 FREN credits from FREN 2236H, 3231H, 3232H, 3237H, 3238H, 3239H, 3831H, 3832H, 4030H, 4227H, 4228H, 4251H, 4301H, 4501H, or 4521H
- 1.0 FREN credit at the 4000 level in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

BAH.FREN - French Studies - BA Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
www.trentu.ca/french

Housed in the School for the Study of Canada / École d'études canadiennes, the French Studies program includes an array of courses on Franco-Canadian and francophone cultures and literatures, and French language. With courses from the elementary to the advanced levels, the program will help you begin, develop, or deepen your mastery of the French language. Courses on the literatures and cultures of Quebec, French Canada, France, and the world's Francophonie, ranging from cinema to science fiction to translation to Indigenous literatures, will provide you with a thorough understanding of the national and international Francophonie beyond the mere mastering of the French language. The program will help you become a bilingual, linguistically and culturally aware individual, and shape your future as a teacher, public servant, graduate student, scholar, or global citizen. As a central feature, the Study Abroad program in Nantes, France, gives students majoring in French Studies an opportunity to develop and refine their knowledge of French in a European context, in a city that has a strong connection with Canada.

INFORMATION & ADDITIONAL NOTES

- FREN 1010H is intended for complete beginners with no previous exposure to French; it is especially suited to students who have not attended a Canadian secondary school.
- FREN 1020H and 1030H are for students with grade 9 (1 U/M) or grade 10 (2 U/M) French.
- FREN 1060H and 1070H are for students with grade 11 (3 U/M) French, whose level of proficiency is not high enough for 1101H and 1102H or who do not intend to pursue a major.
- FREN 1101H and 1102H are for students with grade 12 (4 U/M) French and are required for a major or minor in French Studies.
- FREN 2051H is a prerequisite for all 3000- and 4000-level courses in literature and should normally be taken by students in their second year. It is not to be taken concurrently with or subsequent to any 3000-level literature course.
- Students without grade 12 (4 U/M) French or equivalent who wish to take their first Trent French course will be asked upon registration to take a French placement test. Instructions on how to find the test are available at www.trentu.ca/french/program.

Requirements

Bachelor of Arts Program in French Studies

- FREN 1000Y, 1010H, 1020H (1001H), 1030H (1002H), 1060H, 1070H, 2060H, 2070H, and 4059H are not for credit toward the major in French Studies.

The single-major Honours program. 20.0 credits including the following 10.0 credits:

- 2.0 FREN credits consisting of FREN 1101H, 1102H, 2051H, and 2452H
- 0.5 FREN credit from FREN 2451H, 3506H, or 3507H
- 1.0 FREN credit from FREN 2151H, 2152H, 3051H, 3052H, 3053H, or 4053H
- 0.5 FREN credit from FREN 3231H, 3232H, 3831H, 3832H, 4227H, 4228H, 4500Y, 4501H, or 4521H
- 0.5 FREN credit from FREN 2236H, 3237H, 3238H, 3239H, 3301H, 4301H, 4302H, 4611H, 4700Y, or 4701H
- 2.0 FREN credits at the 3000 level or beyond in addition to the above
- 3.0 FREN credits in addition to the above
- 0.5 FREN credit in addition to the above; or 0.5 LATN credit; or 0.5 AGRS, CAST, CUST, GESO, HIST, LING, or PHIL credit with prior approval of the program coordinator and written permission from the course instructor that assignments will be submitted in French
- At least 2.0 of the total 10.0 credits must be at the 4000 level

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The joint-major Honours program. 20.0 credits including the following 7.0 credits:

- 2.0 FREN credits consisting of FREN 1101H, 1102H, 2051H, and 2452H
- 0.5 FREN credit from FREN 2451H, 3506H, or 3507H
- 1.0 FREN credit from FREN 2151H, 2152H, 3051H, 3052H, 3053H, or 4053H
- 0.5 FREN credit from FREN 3231H, 3232H, 3831H, 3832H, 4227H, 4228H, 4500Y, 4501H, or 4521H
- 0.5 FREN credit from FREN 2236H, 3237H, 3238H, 3239H, 3301H, 4301H, 4302H, 4611H, 4700Y, or 4701H
- 1.0 FREN credit at the 3000 level or beyond in addition to the above
- 1.5 FREN credits in addition to the above
- At least 1.0 of the total 7.0 credits must be at the 4000 level

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

Specialization in Quebec & Franco-Canadian Studies

BAH.FREN.COOP - French Studies - Co-op

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
www.trentu.ca/coop

Co-op is an opportunity for students to gain work-integrated experiential learning that will help them get a head start on a career. The French Studies Co-op assists graduating students in achieving a competitive edge while generating experience within a wide range of sectors. Specifically, co-op gives the students a chance to obtain 12 months of practical experience on the job, develop or enhance technical skills, explore career options, network with a variety of individuals and organizations, learn from mentors and tutors, enhance communication and presentation skills, and develop technical writing skills.

INFORMATION AND ADDITIONAL NOTES

- Co-op students are responsible for paying tuition for their academic courses, ancillary fees, and levies. All Trent students are charged ancillary fees every Fall & Winter term. Co-op students will experience the same cycle for their ancillary fee payments regardless of when they are out on work terms. Co-op students do not pay tuition during their work terms.
- Co-op students are responsible for paying the compulsory Co-op Fee a total of five times during their degree program, and the Co-op fee will be applied to their student account in Year 2 Fall, Year 2 Winter, Year 3 Fall, Year 3 Winter, and Year 4 Fall.
- Students are encouraged to meet with their Co-op Coordinator at CareerSpace each year for support with their co-op work terms, career development, and to confirm they are meeting co-op progression requirements.

Requirements

Bachelor of Arts Program in French Studies — Co-op

- Co-op students must satisfy the requirements for the single-major Ba Honours in French Studies and the Co-op requirements listed below.
- French Studies Co-op is a competitive direct-entry program with a limited number of student places. Students who are not admitted directly may apply for admission after commencing studies at Trent and may be admitted on a competitive basis provided there are available spaces in the program.
- To remain in the co-op program, students must complete the required work term preparation and reflection courses (COOP 2000H and 4000H) with a minimum 70% progression requirement in COOP 2000H and 65% in COOP 4000H, and maintain a minimum 75% cumulative average throughout their study terms. In addition, students must continue to receive satisfactory evaluations during each of their three work terms. Students who do not achieve a minimum 70% in COOP 2000H will be withdrawn from the co-op program but may continue their studies in French Studies or transfer to a major in a different subject. Once withdrawn, students are not eligible to re-enter the co-op program. Students who do not achieve a minimum 65% in COOP 4000H but otherwise fulfill all degree requirements will be awarded an Honours degree in French Studies without the Co-op designation.
- Three non-credit co-op work terms are required for the BA program in French Studies Co-op (COOP 2100P, 3100P, 4100P). The prerequisite for the first work term (COOP 2100P) for students in this program is completion of COOP 2000H with a minimum grade of 70% and completion of at least 10.0 academic credits. The schedule for the single-major Honours program is listed below. Students who choose to explore any additions (minor, specialization, or option) to a single-major Honours may require additional time to complete their degrees, as all courses are not offered in every term. It is expected that students follow the set work term schedule. Students are encouraged to work with an academic advisor for support with degree mapping.

YEAR	FALL	WINTER	SUMMER
Year 1	Study Term 1	Study Term 2	Study Term 3
Year 2	Study Term 4	Study Term 5	Work Term 1
Year 3	Study Term 6	Study Term 7	Work Term 2
Year 4	Work Term 3	Study Term 8	–

- Students on a work term must complete learning objectives, a midterm evaluation, a final evaluation, and a final work term report. Co-op employers will also complete a midterm evaluation and final evaluation of the student's work term. Upon receiving the completed documentation and upon a satisfactory employer assessment, a Pass (P) or Fail (F) will be assigned for COOP 2100P, 3100P, and 4100P. CareerSpace makes every effort to find suitable work terms for students enrolled in the co-op program, but a work term opportunity cannot be guaranteed for every student. The work term process is competitive and dependent upon many factors including market conditions, the preparedness of a student including their job applications and performance in job interviews, and the academic performance of a student. Co-op students secure positions through successful participation in the co-op interview process and/or their own job search activities. Withdrawal from the co-op program will not normally be approved while a student is on a work term. Students are not permitted to take an academic course during a scheduled work term.
- Students who are unable to obtain a suitable co-op opportunity in an upcoming work term are expected to continue with their academic program on a full-time basis. A single missed work term can be made up, but in the event that a co-op student cannot secure their work term for a second time, they will be withdrawn from the co-op program. If a student is unable to complete three work terms yet otherwise fulfills all degree requirements, the student will be awarded an Honours Bachelor of Arts in French Studies.

BAH.FRSC - Forensic Science - BA Honours (joint major)

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
The joint-major Forensic Science program integrates the study of science and law with investigative practice and theory. Students learn the foundational science of forensics through the study of anthropology, biology, and chemistry. These foundational science courses complement the specialized forensics courses offered in the program. The program particularly emphasizes emerging developments in DNA forensic applications and crime scene investigation through courses in laboratory techniques and related case work.

From the beginning of their forensic studies at Trent, students are fully immersed in a functioning forensic research and service environment located in the DNA Building. Students practice case work, learn team-building, analyze ethical and legal issues related to evidence, and face the challenge of communicating complex scientific evidence within the legal system. Students in the program may also participate in a placement/mentorship course where they gain valuable real-world experience and begin to develop their professional network.

The joint-major degree option offered by the Department of Forensic Science can be taken in conjunction with other departments or programs including, but not limited to, Biology, Psychology, Chemistry, Computer Science, and Physics & Astronomy. Students enrolled in the joint-major program can enrol in a number of the same courses that are provided to BScFS students and have the option of obtaining either an Honours Bachelor of Science (BSc) or an Honours Bachelor of Arts (BA) degree.

Note: The Bachelor of Arts program in Forensic Science is available only as a joint-major.

Requirements

Bachelor of Arts Joint-Major Program in Forensic Science

- The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree, with the following exceptions:
    - Students pursuing a joint-major Honours degree in Forensic Science and Biology are required to take the following courses which simultaneously satisfy the requirements of both programs: BIOL 1020H, BIOL 1030H, MATH 1051H, and MATH 1052H.
    - Students pursuing a joint-major Honours degree in Forensic Science and Chemistry are required to take the following courses which simultaneously satisfy the requirements of both programs: CHEM 1000H, CHEM 1010H, MATH 1110H, and MATH 1122H.
- It is not possible to combine Forensic Science and Anthropology in a joint-major Honours degree.
- For students in a joint major with Biology, BIOL 2000H is equivalent to FRSC 2020H for program requirements but does not count as a Forensic Science credit. Students who have successfully completed BIOL 2000H are not permitted to take FRSC 2020H but must substitute another FRSC course at the 2000 level or beyond in order to fulfill degree requirements.
- 1.0 MATH credit at the 1000 level, 1.0 BIOL or CHEM credit at the 1000 level, and 60% or higher in each of FRSC 1030H and 1100H are prerequisites for required course FRSC 2011H.

The joint-major Honours program. 20.0 credits including the following 8.5 credits:

- 2.5 FRSC credits consisting of FRSC 1030H, 1100H, 2011H, 2020H, and 3100H
- 2.5 FRSC credits at the 3000 level or beyond in addition to the above
- 1.5 FRSC credits in addition to the above
- 1.0 MATH credit at the 1000 level
- 1.0 BIOL credit or 1.0 CHEM credit at the 1000 level

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

BAH.GDST - Global Development Studies - BA Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
www.trentu.ca/ids

Global Development Studies involves the examination of societies and cultures undergoing rapid change, and of the complex global relations shaping issues such as agriculture, the environment, the global economy, culture and identity, human rights, and social transformation. The program is offered with the co-operation of the following departments and programs: Anthropology, Cultural Studies, Economics, Environmental & Resource Science/Studies, Gender & Social Justice, Geography, History, Indigenous Studies, Political Studies, and Sociology.

Requirements

Bachelor of Arts Program in Global Development Studies

- Students in the joint-major program in Anthropology and Global Development Studies may substitute GDST-ANTH 2500H and 2600H for 1.0 credit from 2000-level ANTH courses in their Anthropology requirements.
- Students may count no more than 1.0 credit in GDST reading courses toward their Global Development Studies degree requirements.
- Students are strongly encouraged to include ECON 1010H and 1020H in their choice of elective courses.

The single-major Honours program. 20.0 credits including the following 10.0 credits:

- 3.0 GDST credits consisting of GDST 1001H, 1002H, 2010H, 2251H, 3001H, and 4100H
- 2.5 GDST credits at the 4000 level in addition to the above, with no more than 1.0 credit from Category B
- 4.5 GDST credits in addition to the above, with no more than 2.0 credits from Category B

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The joint-major Honours program. 20.0 credits including the following 7.0 credits:

- 3.0 GDST credits consisting of GDST 1001H, 1002H, 2010H, 2251H, 3001H, and 4100H
- 1.0 GDST credit at the 4000 level in addition to the above from Category A
- 3.0 GDST credits in addition to the above, with no more than 1.5 credits from Category B

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

BAH.GDST.COOP - Global Development Studies - Co-op

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
www.trentu.ca/coop

Co-op is an opportunity for students to gain work-integrated experiential learning that will help them get a head start on a career. The Global Development Studies Co-op assists graduating students in achieving a competitive edge while generating experience within a wide range of sectors. Specifically, co-op gives the students a chance to obtain 12 months of practical experience on the job, develop or enhance technical skills, explore career options, network with a variety of individuals and organizations, learn from mentors and tutors, enhance communication and presentation skills, and develop technical writing skills.

INFORMATION AND ADDITIONAL NOTES

- Co-op students are responsible for paying tuition for their academic courses, ancillary fees, and levies. All Trent students are charged ancillary fees every Fall & Winter term. Co-op students will experience the same cycle for their ancillary fee payments regardless of when they are out on work terms. Co-op students do not pay tuition during their work terms.
- Co-op students are responsible for paying the compulsory Co-op Fee a total of five times during their degree program, and the Co-op fee will be applied to their student account in Year 2 Fall, Year 2 Winter, Year 3 Fall, Year 3 Winter, and Year 4 Fall.
- Students are encouraged to meet with their Co-op Coordinator at CareerSpace each year for support with their co-op work terms, career development, and to confirm they are meeting co-op progression requirements.

Requirements

Bachelor of Arts Program in Global Development Studies — Co-op

- Co-op students must satisfy the requirements for the single-major Ba Honours in Global Development Studies and the Co-op requirements listed below.
- Global Development Studies Co-op is a competitive direct-entry program with a limited number of student places. Students who are not admitted directly may apply for admission after commencing studies at Trent and may be admitted on a competitive basis provided there are available spaces in the program.
- To remain in the co-op program, students must complete the required work term preparation and reflection courses (COOP 2000H and 4000H) with a minimum 70% progression requirement in COOP 2000H and 65% in COOP 4000H, and maintain a minimum 75% cumulative average throughout their study terms. In addition, students must continue to receive satisfactory evaluations during each of their three work terms. Students who do not achieve a minimum 70% in COOP 2000H will be withdrawn from the co-op program but may continue their studies in Global Development Studies or transfer to a major in a different subject. Once withdrawn, students are not eligible to re-enter the co-op program. Students who do not achieve a minimum 65% in COOP 4000H but otherwise fulfill all degree requirements will be awarded an Honours degree in Global Development Studies without the Co-op designation.
- Three non-credit co-op work terms are required for the BA program in Global Development Studies Co-op (COOP 2100P, 3100P, and 4100P). The schedule for the single-major Honours program is listed below. Students who choose to explore any additions (minor, specialization, or option) to a single-major Honours may require additional time to complete their degrees, as all courses are not offered in every term. It is expected that students follow the set work term schedule. Students are encouraged to work with an academic advisor for support with degree mapping.

YEAR	FALL	WINTER	SUMMER
Year 1	Study Term 1	Study Term 2	Study Term 3
Year 2	Study Term 4	Study Term 5	Work Term 1
Year 3	Study Term 6	Study Term 7	Work Term 2
Year 4	Work Term 3	Study Term 8	–

- Students on a work term must complete learning objectives, a midterm evaluation, a final evaluation, and a final work term report. Co-op employers will also complete a midterm evaluation and final evaluation of the student's work term. Upon receiving the completed documentation and upon a satisfactory employer assessment, a Pass (P) or Fail (F) will be assigned for COOP 2100P, 3100P, and 4100P. CareerSpace makes every effort to find suitable work terms for students enrolled in the co-op program, but a work term opportunity cannot be guaranteed for every student. The work term process is competitive and dependent upon many factors including market conditions, the preparedness of a student including their job applications and performance in job interviews, and the academic performance of a student. Co-op students secure positions through successful participation in the co-op interview process and/or their own job search activities. Withdrawal from the co-op program will not normally be approved while a student is on a work term. Students are not permitted to take an academic course during a scheduled work term.
- Students who are unable to obtain a suitable co-op opportunity in an upcoming work term are expected to continue with their academic program on a full-time basis. A single missed work term can be made up, but in the event that a co-op student cannot secure their work term for a second time, they will be withdrawn from the co-op program. If a student is unable to complete three work terms yet otherwise fulfills all degree requirements, the student will be awarded an Honours Bachelor of Arts in Global Development Studies.

BAH.GDST.SWAN - Global Development Studies - BA Honours - Swansea Law

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
Program Website

Trent University, in partnership with Swansea University, United Kingdom, offers a dual degree leading to a Trent Bachelor of Arts (Honours) degree (BA) or Bachelor of Business Administration (BBA) and a Single Honours Law degree (LLB) from Swansea. The program allows students to complete the requirements for both degrees in a structured six-year program of study.

Upon admission to Trent University, students select a major in one of the available subjects for the dual degree. Students spend their first two years of full-time study at Trent in Peterborough or Durham, taking 10.0 credits toward their Bachelor of Arts (Honours) or Bachelor of Business Administration program (5.0 credits per academic year). Students then transfer to Swansea University for years three, four, and five to complete their study in the LLB degree program, taking on a full-time course load (120 credits per academic year, which equates to a normal 5.0-credit per year Canadian university course load). Following successful completion of the LLB with the required minimum overall average, students are awarded transfer credits and return to Trent to complete the requirements for the BA or BBA program, which include courses focused in Canadian Law (LAWS courses) to help prepare them for the National Committee on Accreditation exams.

Students will graduate at the end of the sixth year with both an undergraduate Bachelor of Arts (Honours) or Bachelor of Business Administration degree from Trent University and a Single Honours Law degree from Swansea University.

As this is a dual degree and not a joint degree, Swansea University reserves all rights to make adjustments to the required courses for the LLB degree at any point in time. The most up-to-date program overview can be found on the Swansea University website.

ACADEMIC PROGRESSION

Application to the Trent/Swansea dual degree is through the Ontario University Application Centre. Students must achieve a minimum secondary school average of 80% to be admitted to the program. This entry grade is subject to change annually based on the application cohort and the number of spaces available in the program; however, the minimum average for acceptance to the program will never fall below 80%.

To progress successfully to year three of the dual degree and to commence the LLB portion at Swansea University, students must complete the required Intent to Continue communication and must meet the requirements below:

- declared program major for the Trent BA or BBA degree from the list of majors included in the program;
- successful completion of years one and two at Trent University, including all courses required for the declared major, with a minimum cumulative average of 77%;
- successful completion of no fewer than 10.0 Trent University credits before enrolling in classes at Swansea (a maximum of 5.0 transfer credits is allowable toward this total);
- obtained and provided proof of an approved Tier 4 (General) Study Visa;
- confirmation that they have not been found to have breached any University regulations; and,
- have no known reasons to be denied access to the United Kingdom.

Following successful completion of the LLB degree at Swansea University, student transcripts will be forwarded to the Office of the Registrar at Trent University to ensure standards are met and at this point students will be reactivated as current students at Trent University. Once students enter into the final year of study to obtain all requirements for successful completion of the Dual Degree Bachelor of Arts (Honours) or Bachelor of Business Administration degree, they will be awarded the 5.0 transfer credits toward their degree completion.

Students currently studying at Trent, and transfer students from other postsecondary institutions who have been admitted to Trent University, may be able to access the Trent/Swansea dual degree. Contact the Trent/Swansea Law Program Coordinator for further details.

Requirements

Bachelor of Arts Program in Global Development Studies – Trent/Swansea Dual Degree

The single-major Honours program. 20.0 credits including the following:

Year 1

5.0 credits including the following:

- 1.0 GDST credit consisting of GDST 1001H and 1002H
- 4.0 elective credits, including 0.5 ICR credit from the Approved Indigenous Course List

Year 2

5.0 credits including the following:

- 1.5 GDST credits consisting of GDST 2010H, 2251H, and 3001H
- 2.5 GDST credits in addition to the above, with no more than 2.0 credits from Category B (see Ba Honours in Global Development Studies for Categories)
- 1.0 elective credit

Years 3-5 – at Swansea

*Students must take Swansea's Canadian Constitutional Law (LAA362) module in Year 5 (their final year at Swansea) if it is offered, as Trent will not likely offer LAWS 4030H Canadian Constitutional Law during the subsequent year. Students who take LAA362 at Swansea will receive a transfer credit for LAWS 4030H in place of 0.5 3000-level ARTS unassigned transfer credit, which will require them to take an additional 0.5 elective credit in Year 6 instead.

Year 6

5.0 transfer credits awarded for successful completion of LLB program (years 3-5):

- 2.0 unassigned GDST credits at the 3000 level
- 1.0 unassigned GDST credit at the 4000 level
- 2.0 unassigned ARTS credits at the 3000 level

5.0 credits including the following:

- 2.5 LAWS credits consisting of LAWS 4000H, 4010H, 4020H, 4030H*, and 4040H
- 0.5 GDST credit consisting of GDST 4100H
- 1.5 GDST credits at the 4000 level in addition to the above, with no more than 1.0 credit from Category B (see Global Development Studies section for details)
- 0.5 elective credit

IMPORTANT GENERAL NOTES

- In addition to the program requirements, students must satisfy the University degree requirements. Students are encouraged to complete the requirement for 0.5 credit from the Approved Indigenous Course List in either year one or year two of the program.
- Students are encouraged to take additional courses in their declared major as electives, but the total number of credits in the major discipline may not exceed 13.0.
- LAWS 4050H is recommended to be taken as an elective in year six of the program where possible.
- Prerequisites for required courses will normally be waived for students in the Trent/Swansea dual degree. Prior to registration in any course in the major for which a waiver is needed, students must contact the chair of the department, indicate that they are enrolled in the dual degree program, and request permission to register without the prerequisite.
- Successful completion of the LLB degree program with a minimum weighted average of 40% (according to Swansea University's grading scale) is required to award students with transfer credits toward the Trent BA or BBA degree. Per-course grade average to be determined.
- In year six of the dual degree, 2.5 Trent University credits in Canadian Law as prescribed by the Program must be completed, in addition to 2.5 credits required per their Trent degree requirements. The Canadian Law courses are intended to support students in writing their National Committee on Accreditation (NCA) exams. Students must take Swansea's Canadian Constitutional Law (LAA362) module in Year 5 (their final year at Swansea) if it is offered, as Trent will not likely offer LAWS 4030H Canadian Constitutional Law during the subsequent year. Completion of LAA362 at Swansea satisfies the Year 6 requirement to take LAWS 4030H and means students will have an additional 0.5 elective credit in Year 6 instead.

- Note to Trent Durham GTA students in the Trent/ Swansea Law Dual Degree: for Year 6, the required 4000-level LAWS courses are only offered in Peterborough.

BAH.GEOG - Geography - BA Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
www.trentu.ca/geography

The Trent School of the Environment offers BA and BSc programs in Geography. Students may earn a single-major or joint-major degree with a wide range of other University departments or programs. Students earning a degree with a major in another subject may also obtain a minor in Geography. The program has a strong emphasis on field-based learning and interdisciplinary study. Students in the Honours program are encouraged to explore the thesis and community-based research options as valuable training for postgraduate studies and job-related experience.

INFORMATION & ADDITIONAL NOTES

- There may be a small additional fee for field trips in certain courses.
- The Accelerated Master's program in Environmental & Life Sciences allows students to obtain a research-based MSc within a shorter timeframe. See www.trentu.ca/els/experience/msc-program/accelerated-masters-program for details.

Requirements

Bachelor of Arts Program in Geography

- Students who have successfully completed PSYC 2019H are exempt from the GEOG 2080H requirement for the joint-major or minor in Geography. This exemption will not, however, alter the minimum number of credits in Geography required for the degree.
- Students who have taken MATH 1052H and achieved a grade of at least 75% are exempt from taking GEOG 2080H, and from the GEOG 2080H prerequisite for other Geography courses. This exemption will not, however, alter the minimum number of credits in Geography required for the degree.

- GEOG 1030H and 1040H are prerequisites for most upper-level Geography courses. Students should check individual course descriptions for prerequisites.

The single-major Honours program. 20.0 credits including the following 11.5 credits:

- 2.5 GEOG credits consisting of GEOG 1030H, 1040H, 2090H, 2510H, and 3100H
- 0.5 credit from ERSC 1010H, 1020H, GEOG 1060H, or SAFS 1001H
- 1.0 GEOG credit from GEOG 2001H, 2401H, 2460H, 2530H, or 2540H
- 0.5 credit from the TSE Capstone Course List*
- 5.0 GEOG credits at the 3000 level or beyond in addition to the above
- 2.0 GEOG credits at the 2000 level or beyond in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The joint-major Honours program. 20.0 credits including the following 8.0 credits:

- 2.5 GEOG credits consisting of GEOG 1030H, 1040H, 2090H, 2510H, and 3100H
- 0.5 credit from ERSC 1010H, 1020H, GEOG 1060H, or SAFS 1001H
- 1.0 GEOG credit from GEOG 2001H, 2401H, 2460H, 2530H, or 2540H
- 0.5 credit from the TSE Capstone Course List*
- 1.5 GEOG credits at the 3000 level or beyond in addition to the above
- 2.0 GEOG credits at the 2000 level or beyond in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree, with the following exception: for students pursuing a joint-major degree in Geography and Environmental & Resource Science/Studies, one of ERSC 1010H, ERSC 1020H, CLIM-ERSC-GEOG 1060H, or SAFS 1001H may be used to simultaneously satisfy the requirements of both programs.

BAH.GEOG.COOP - Geography - Co-op (BA)

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
Geography Co-op will be available as of the 2027-2028 Academic Year.

www.trentu.ca/coop

Co-op is an opportunity for students to gain work-integrated experiential learning that will help them get a head start on a career. The Geography Co-op assists graduating students in achieving a competitive edge while generating experience within a wide range of sectors. Specifically, co-op gives the students a chance to obtain 12 months of practical experience on the job, develop or enhance technical skills, explore career options, network with a variety of individuals and organizations, learn from mentors and tutors, enhance communication and presentation skills, and develop technical writing skills.

INFORMATION AND ADDITIONAL NOTES

- The Geography Co-op is available at Trent's Peterborough campus only.
- Co-op students are responsible for paying tuition for their academic courses, ancillary fees, and levies. All Trent students are charged ancillary fees every Fall & Winter term. Co-op students will experience the same cycle for their ancillary fee payments regardless of when they are out on work terms. Co-op students do not pay tuition during their work terms.
- Co-op students are responsible for paying the compulsory Co-op Fee a total of five times during their degree program, and the Co-op fee will be applied to their student account in Year 3 Fall, Year 3 Winter, Year 4 Fall, Year 4 Winter, and Year 5 Fall.
- Students are encouraged to meet with their Co-op Coordinator at CareerSpace each year for support with their co-op work terms, career development, and to confirm they are meeting co-op progression requirements.

Requirements

Bachelor of Arts Program in Geography — Co-op

- Geography Co-op will be available as of the 2027-2028 Academic Year.
- Co-op students must satisfy the requirements for the single-major BA Honours in Geography and the Co-op requirements listed below.
- Geography Co-op is a competitive direct-entry program with a limited number of student places. Students who are not admitted directly may apply for admission after commencing studies at Trent and may be admitted on a competitive basis provided there are available spaces in the program.
- To remain in the co-op program, students must complete the required work term preparation course (COOP 2000H) with a minimum 70% progression requirement, and maintain a 75% cumulative average throughout their study terms. In addition, students must continue to receive satisfactory evaluations during each of their three work terms. Students who do not achieve a minimum 70% in COOP 2000H will be withdrawn from the co-op program but may continue their studies in Geography or transfer to a major in a different subject. Once withdrawn, students are not eligible to re-enter the co-op program.
- Students in the Geography Co-op follow the co-op continuing model where they complete one 12-month work term (COOP 2100P, 3100P and 4100P) with a single employer. The prerequisite for the first work term (COOP 2100P) for students in this program is completion of COOP 2000H with a minimum grade of 70% and completion of at least 10.0 academic credits. The schedule for the single-major Honours program is listed below. Students who choose to explore any additions (minor, specialization, or option) to a single-major Honours may require additional time to complete their degrees, as all courses are not offered in every term. It is expected that students follow the set work term schedule. Students are encouraged to work with an academic advisor for support with degree mapping.

YEAR	FALL	WINTER	SUMMER
Year 1	Study Term 1	Study Term 2	–
Year 2	Study Term 3	Study Term 4	COOP 2000H
Year 3	Study Term 5	Study Term 6	Work Term
Year 4	Work Term	Work Term	–
Year 5	Study Term 7	Study Term 8	–

- Students on a work term must complete learning objectives, a midterm evaluation, a final evaluation, and a final work term report. Co-op employers will also complete a midterm evaluation and final evaluation of the student's work term. Upon receiving the completed documentation and upon a satisfactory employer assessment, a Pass (P) or Fail (F) will be assigned for COOP 2100P, 3100P, and 4100P.
- CareerSpace and the Trent School of the Environment make every effort to find suitable work terms for students enrolled in the co-op program, but a work term opportunity cannot be guaranteed for every student. The work term process is competitive and dependent upon many factors including market conditions, the preparedness of a student including their job applications and performance in job interviews, and the academic performance of a student. Co-op students secure positions through successful participation in the co-op interview process and/or their own job search activities. Withdrawal from the co-op program will not normally be approved while a student is on a work term. Students are not permitted to take an academic course during a scheduled work term.
- Students who are unable to obtain a suitable co-op opportunity in an upcoming work term are expected to continue with their academic program on a full-time basis. A single missed work term can be made up, but in the event that a co-op student cannot secure their work term for a second time, they will be withdrawn from the co-op program. If a student is unable to complete three work terms yet otherwise fulfills all degree requirements, the student will be awarded an Honours Bachelor of Arts in Geography.

BAH.GEOG.SWAN - Geography - BA Honours - Swansea Law

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
Program Website

Trent University, in partnership with Swansea University, United Kingdom, offers a dual degree leading to a Trent Bachelor of Arts (Honours) degree (BA) or Bachelor of Business Administration (BBA) and a Single Honours Law degree (LLB) from Swansea. The program allows students to complete the requirements for both degrees in a structured six-year program of study.

Upon admission to Trent University, students select a major in one of the available subjects for the dual degree. Students spend their first two years of full-time study at Trent in Peterborough or Durham, taking 10.0 credits toward their Bachelor of Arts (Honours) or Bachelor of Business Administration program (5.0 credits per academic year). Students then transfer to Swansea University for years three, four, and five to complete their study in the LLB degree program, taking on a full-time course load (120 credits per academic year, which equates to a normal 5.0-credit per year Canadian university course load). Following successful completion of the LLB with the required minimum overall average, students are awarded transfer credits and return to Trent to complete the requirements for the BA or BBA program, which include courses focused in Canadian Law (LAWS courses) to help prepare them for the National Committee on Accreditation exams.

Students will graduate at the end of the sixth year with both an undergraduate Bachelor of Arts (Honours) or Bachelor of Business Administration degree from Trent University and a Single Honours Law degree from Swansea University.

As this is a dual degree and not a joint degree, Swansea University reserves all rights to make adjustments to the required courses for the LLB degree at any point in time. The most up-to-date program overview can be found on the Swansea University website.

ACADEMIC PROGRESSION

Application to the Trent/Swansea dual degree is through the Ontario University Application Centre. Students must achieve a minimum secondary school average of 80% to be admitted to the program. This entry grade is subject to change annually based on the application cohort and the number of spaces available in the program; however, the minimum average for acceptance to the program will never fall below 80%.

To progress successfully to year three of the dual degree and to commence the LLB portion at Swansea University, students must complete the required Intent to Continue communication and must meet the requirements below:

- declared program major for the Trent BA or BBA degree from the list of majors included in the program;
- successful completion of years one and two at Trent University, including all courses required for the declared major, with a minimum cumulative average of 77%;
- successful completion of no fewer than 10.0 Trent University credits before enrolling in classes at Swansea (a maximum of 5.0 transfer credits is allowable toward this total);
- obtained and provided proof of an approved Tier 4 (General) Study Visa;
- confirmation that they have not been found to have breached any University regulations; and,
- have no known reasons to be denied access to the United Kingdom.

Following successful completion of the LLB degree at Swansea University, student transcripts will be forwarded to the Office of the Registrar at Trent University to ensure standards are met and at this point students will be reactivated as current students at Trent University. Once students enter into the final year of study to obtain all requirements for successful completion of the Dual Degree Bachelor of Arts (Honours) or Bachelor of Business Administration degree, they will be awarded the 5.0 transfer credits toward their degree completion.

Students currently studying at Trent, and transfer students from other postsecondary institutions who have been admitted to Trent University, may be able to access the Trent/Swansea dual degree. Contact the Trent/Swansea Law Program Coordinator for further details.

Requirements

Bachelor of Arts Program in Geography – Trent/Swansea Dual Degree

The single-major Honours program. 20.0 credits including the following:

Year 1

5.0 credits including the following:

- 1.0 GEOG credit consisting of GEOG 1030H and 1040H
- 0.5 credit from ERSC 1010H, 1020H, GEOG 1060H, or SAFS 1001H
- 1.0 GEOG credit from GEOG 2001H, 2401H, 2460H, 2530H, or 2540H
- 2.5 elective credits, including 0.5 ICR credit from the Approved Indigenous Course List

Year 2

5.0 credits including the following:

- 1.5 GEOG credits consisting of GEOG 2090H, 2510H, and 3100H
- 1.0 GEOG credit at the 3000 level or beyond in addition to the above
- 2.0 GEOG credits at the 2000 level or beyond in addition to the above
- 0.5 elective credit

Years 3-5 – at Swansea

**Students must take Swansea's Canadian Constitutional Law (LAA362) module in Year 5 (their final year at Swansea) if it is offered, as Trent will not likely offer LAWS 4030H Canadian Constitutional Law during the subsequent year. Students who take LAA362 at Swansea will receive a transfer credit for LAWS 4030H in place of 0.5 3000-level ARTS unassigned transfer credit, which will require them to take an additional 0.5 elective credit in Year 6 instead.

Year 6

5.0 transfer credits awarded for successful completion of LLB program (years 3-5):

- 3.0 unassigned GEOG credits at the 3000 level
- 2.0 unassigned ARTS credits at the 3000 level

5.0 credits including the following:

- 2.5 LAWS credits consisting of LAWS 4000H, 4010H, 4020H, 4030H, and 4040H
- 0.5 credit from the TSE Capstone Course List (see BA Honours in Geography)
- 1.0 GEOG credit at the 3000 level or beyond in addition to the above
- 1.0 elective credit

IMPORTANT GENERAL NOTES

- In addition to the program requirements, students must satisfy the University degree requirements.
- Students are encouraged to take additional courses in their declared major as electives, but the total number of credits in the major discipline may not exceed 13.0.
- LAWS 4050H is recommended to be taken as an elective in year six of the program where possible.
- Prerequisites for required courses will normally be waived for students in the Trent/Swansea dual degree. Prior to registration in any course in the major for which a waiver is needed, students must contact the chair of the department, indicate that they are enrolled in the dual degree program, and request permission to register without the prerequisite.
- Successful completion of the LLB degree program with a minimum weighted average of 40% (according to Swansea University's grading scale) is required to award students with transfer credits toward the Trent BA or BBA degree. Per-course grade average to be determined.
- In year six of the dual degree, 2.5 Trent University credits in Canadian Law as prescribed by the Program must be completed, in addition to 2.5 credits required per their Trent degree requirements. The Canadian Law courses are intended to support students in writing their National Committee on Accreditation (NCA) exams. Students must take Swansea's Canadian Constitutional Law (LAA362) module in Year 5 (their final year at Swansea) if it is offered, as Trent will not likely offer LAWS 4030H Canadian Constitutional Law during the subsequent year. Completion of LAA362 at Swansea satisfies the Year 6 requirement to take LAWS 4030H and means students will have an additional 0.5 elective credit in Year 6 instead.

- Note to Trent Durham GTA students in the Trent/ Swansea Law Dual Degree: for Year 6, the required 4000-level LAWS courses are only offered in Peterborough.

BAH.GESO - Gender & Social Justice - BA Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
www.trentu.ca/gendersocialjustice

The program offered by the Department of Gender & Social Justice examines how systems of power, including gender relations and ideas about gender, shape every site of human interaction, from the personal to the institutional, and the local to the global. Gender relations and gendered identities are understood in constant interaction with race, class, ability, sexuality, citizenship, nation, and in connection to land, place, and cultural context. Courses investigate a broad range of issues, including how people experience configurations of systemic power—capitalism, white supremacy, colonialism, heteropatriarchy, ableism, and so on—within different contexts; how media and popular culture challenge and reproduce dominant cultural narratives; how social justice scholars and activists are re-envisioning public policies in health, social welfare, climate, land, arts, and education; how processes of global migration and labour are gendered, racialized, and colonial; how dominant institutions like the family, schools, and the state have been historically constituted and shape social identities and opportunities; and how diverse activists, land protectors, artists, and social justice movements work for and make change.

As an interdisciplinary program, Gender & Social Justice draws on theoretical perspectives and methodologies from a wide range of fields such as History, Political Studies, Psychology, Sociology, Anthropology, English Literature, Indigenous Studies, Cultural Studies, Global Development Studies, Canadian Studies, and the natural sciences. The program combines theory with practice, fosters critical thinking and research, and encourages students' involvement with local and broader communities.

Requirements

Bachelor of Arts Program in Gender & Social Justice

- No more than 2.0 credits from reading courses may count toward the number of GESO credits required for the single- and joint-major Honours degrees.

The single-major Honours program. 20.0 credits including the following 10.0 credits:

- 3.0 GESO credits consisting of GESO 1001H, 1002H, 2141H, 3021H, and 4995Y
- 7.0 GESO credits in addition to the above, including at least 2.0 credits from GESO 2151H, 2487H, 2711H, 3052H/4052H, 3122H/4122H, 3141H, 3150H/4150H, 3151H, 3250H/4250H, 3400H, 3431H/4431H, 3796H/4796H, 3860H, 3962H, 3965H, 3966H, or 3990H/4990H
- In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The joint-major Honours program. 20.0 credits including the following 7.0 credits:

- 3.0 GESO credits consisting of GESO 1001H, 1002H, 2141H, 3021H, and 4995Y
- 4.0 GESO credits in addition to the above, including at least 1.0 credit from GESO 2151H, 2487H, 2711H, 3052H/4052H, 3122H/4122H, 3141H, 3150H/4150H, 3151H, 3250H/4250H, 3400H, 3431/4431H, 3796H/4796H, 3860H, 3962H, 3965H, 3966H, or 3990H/4990H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

BAH.GESO.COOP - Gender & Social Justice - Co-op

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
www.trentu.ca/coop

Co-op is an opportunity for students to gain work-integrated experiential learning that will help them get a head start on a career. The Gender & Social Justice Co-op assists graduating students in achieving a competitive edge while generating experience within a wide range of sectors. Specifically, co-op gives the students a chance to obtain 12 months of practical experience on the job, develop or enhance technical skills, explore career options, network with a variety of individuals and organizations, learn from mentors and tutors, enhance communication and presentation skills, and develop technical writing skills.

INFORMATION AND ADDITIONAL NOTES

- Co-op students are responsible for paying tuition for their academic courses, ancillary fees, and levies. All Trent students are charged ancillary fees every Fall & Winter term. Co-op students will experience the same cycle for their ancillary fee payments regardless of when they are out on work terms. Co-op students do not pay tuition during their work terms.
- Co-op students are responsible for paying the compulsory Co-op Fee a total of five times during their degree program, and the Co-op fee will be applied to their student account in Year 2 Fall, Year 2 Winter, Year 3 Fall, Year 3 Winter, and Year 4 Fall.
- Students are encouraged to meet with their Co-op Coordinator at CareerSpace each year for support with their co-op work terms, career development, and to confirm they are meeting co-op progression requirements.

Requirements

Bachelor of Arts Program in Gender & Social Justice — Co-op

- Co-op students must satisfy the requirements for the single-major BA Honours in Gender & Social Justice and the Co-op requirements listed below.
- Gender & Social Justice Co-op is a competitive direct-entry program with a limited number of student places. Students who are not admitted directly may apply for admission after commencing studies at Trent and may be admitted on a competitive basis provided there are available spaces in the program.
- To remain in the co-op program, students must complete the required work term preparation and reflection courses (COOP 2000H and 4000H) with a minimum 70% progression requirement in COOP 2000H and 65% in COOP 4000H, and maintain a minimum 75% cumulative average throughout their study terms. In addition, students must continue to receive satisfactory evaluations during each of their three work terms. Students who do not achieve a minimum 70% in COOP 2000H will be withdrawn from the co-op program but may continue their studies in Gender & Social Justice or transfer to a major in a different subject. Once withdrawn, students are not eligible to re-enter the co-op program. Students who do not achieve a minimum 65% in COOP 4000H but otherwise fulfill all degree requirements will be awarded an Honours degree in Gender & Social Justice without the Co-op designation.
- Three non-credit co-op work terms are required for the BA program in Gender & Social Justice Co-op (COOP 2100P, 3100P, 4100P). The prerequisite for the first work term (COOP 2100P) for students in this program is completion of COOP 2000H with a minimum grade of 70% and completion of at least 10.0 academic credits. The schedule for the single-major Honours program is listed below. Students who choose to explore any additions (minor, specialization, option) to a single-major Honours may require additional time to complete their degrees, as all courses are not offered in every term. It is expected that students follow the set work term schedule. Students are encouraged to work with an academic advisor for support with degree mapping.

YEAR	FALL	WINTER	SUMMER
Year 1	Study Term 1	Study Term 2	Study Term 3
Year 2	Study Term 4	Study Term 5	Work Term 1
Year 3	Study Term 6	Study Term 7	Work Term 2
Year 4	Work Term 3	Study Term 8	–

- Students on a work term must complete learning objectives, a midterm evaluation, a final evaluation, and a final work term report. Co-op employers will also complete a midterm evaluation and final evaluation of the student's work term. Upon receiving the completed documentation and upon a satisfactory employer assessment, a Pass (P) or Fail (F) will be assigned for COOP 2100P, 3100P, and 4100P. CareerSpace makes every effort to find suitable work terms for students enrolled in the co-op program, but a work term opportunity cannot be guaranteed for every student. The work term process is competitive and dependent upon many factors including market conditions, the preparedness of a student including their job applications and performance in job interviews, and the academic performance of a student. Co-op students secure positions through successful participation in the co-op interview process and/or their own job search activities. Withdrawal from the co-op program will not normally be approved while a student is on a work term. Students are not permitted to take an academic course during a scheduled work term.
- Students who are unable to obtain a suitable co-op opportunity in an upcoming work term are expected to continue with their academic program on a full-time basis. A single missed work term can be made up, but in the event that a co-op student cannot secure their work term for a second time, they will be withdrawn from the co-op program. If a student is unable to complete three work terms yet otherwise fulfills all degree requirements, the student will be awarded an Honours Bachelor of Arts in Gender & Social Justice.

Once students enter into the final year of study to obtain all requirements for successful completion of the Dual Degree Bachelor of Arts (Honours) or Bachelor of Business Administration degree, they will be awarded the 5.0 transfer credits toward their degree completion.

Students currently studying at Trent, and transfer students from other postsecondary institutions who have been admitted to Trent University, may be able to access the Trent/Swansea dual degree. Contact the Trent/Swansea Law Program Coordinator for further details.

Requirements

Bachelor of Arts Program in Gender & Social Justice – Trent/Swansea Dual Degree

The single-major Honours program. 20.0 credits including the following:

Year 1

5.0 credits including the following:

- 1.0 GESO credit consisting of GESO 1001H and 1002H
- 4.0 elective credits, including 0.5 ICR credit from the Approved Indigenous Course List

Year 2

5.0 credits including the following:

- 1.0 GESO credit consisting of GESO 2141H and 3021H
- 3.0 GESO credits in addition to the above*
- 1.0 elective credit

Years 3-5 – at Swansea

**Students must take Swansea's Canadian Constitutional Law (LAA362) module in Year 5 (their final year at Swansea) if it is offered, as Trent will not likely offer LAWS 4030H Canadian Constitutional Law during the subsequent year. Students who take LAA362 at Swansea will receive a transfer credit for LAWS 4030H in place of 0.5 3000-level ARTS unassigned transfer credit, which will require them to take an additional 0.5 elective credit in Year 6 instead.

Year 6

5.0 transfer credits awarded for successful completion of LLB program (years 3-5):

- 2.0 unassigned GESO credits at the 3000 level
- 1.0 unassigned GESO credit at the 4000 level
- 2.0 unassigned ARTS credits at the 3000 level

5.0 credits including the following:

- 2.5 LAWS credits consisting of LAWS 4000H, 4010H, 4020H, 4030H**, and 4040H
- 1.0 GESO credit consisting of GESO 4995Y
- 1.0 GESO credit in addition to the above*
- 0.5 elective credit

*At least 2.0 credits from GESO 2151H, 2487H, 2711H, 3052H/4052H, 3122H/4122H, 3141H, 3150H/4150H, 3151H, 3250H/4250H, 3400H, 3431H/4431H, 3796H/4796H, 3860H, 3962H, 3965H, 3966H, or 3990H/4990H must be included overall in the program by the end of Year 6

IMPORTANT GENERAL NOTES

- In addition to the program requirements, students must satisfy the University degree requirements. Students are encouraged to complete the requirement for 0.5 credit from the Approved Indigenous Course List in either year one or year two of the program.
- Students are encouraged to take additional courses in their declared major as electives, but the total number of credits in the major discipline may not exceed 13.0.
- LAWS 4050H is recommended to be taken as an elective in year six of the program where possible.
- Prerequisites for required courses will normally be waived for students in the Trent/Swansea dual degree. Prior to registration in any course in the major for which a waiver is needed, students must contact the chair of the department, indicate that they are enrolled in the dual degree program, and request permission to register without the prerequisite.
- Successful completion of the LLB degree program with a minimum weighted average of 40% (according to Swansea University's grading scale) is required to award students with transfer credits toward the Trent BA or BBA degree. Per-course grade average to be determined.
- In year six of the dual degree, 2.5 Trent University credits in Canadian Law as prescribed by the Program must be completed, in addition to 2.5 credits required per their Trent degree requirements. The Canadian Law courses are intended to support students in writing their National Committee on Accreditation (NCA) exams. Students must take Swansea's Canadian Constitutional Law (LAA362) module in Year 5 (their final year at Swansea) if it is offered, as Trent will not likely offer LAWS 4030H Canadian Constitutional Law during the subsequent year. Completion of LAA362 at Swansea satisfies the Year 6 requirement to take LAWS 4030H and means students will have an additional 0.5 elective credit in Year 6 instead.
- Note to Trent Durham GTA students in the Trent/Swansea Law Dual Degree: for Year 6, the required 4000-level LAWS courses are only offered in Peterborough.

BAH.HIST - History - BA Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
www.trentu.ca/history

The History Department offers courses on Canadian, American, Latin American, European, Russian, African, Middle Eastern, and Asian history. They explore such themes as women's history, Indigenous history, ethnicity, work, culture (both popular and elite), political history (both domestic and international), war, illness, heritage, and applied history. The department is committed to small-group learning, effective teacher-student interaction, excellence in research, and creative links to other academic programs and public institutions.

INFORMATION & ADDITIONAL NOTES

- Enrolment limits will apply to many courses above the 1000 level. Please refer to the Academic Timetable for more information.
- Departures from any regulations must be authorized by the department through the chair.
- Students who take more than one 1000-level History course are reminded that there is a maximum number of History courses allowable in the degree.
- The Accelerated Master of Arts program in History allows students to obtain a Master's degree in History within one to two terms less than students in the regular Master's program. Students apply to the Accelerated Master of Arts program during the spring term which precedes the last year of their undergraduate program in History. The research starts in the fourth year. Upon graduation, students begin the MA program in May or September, just after completion of the undergraduate program. Students who are interested in applying should contact the History graduate program director.

Requirements

Bachelor of Arts Program in History

- 1.0 credit from the following Ancient Greek & Roman Studies courses may be counted as a credit in History: AGRS 2520H, 3100H, or 3140H. Please note that many other AGRS courses are cross-listed and can be taken as History credits.

The single-major Honours program. 20.0 credits including the following 10.0 credits:

- 1.0 HIST credit at the 1000 level
- 2.0 HIST credits at the 4000 level
- 3.0 HIST credits at the 3000 level or beyond in addition to the above
- 4.0 HIST credits at the 2000 or beyond in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The joint-major Honours program. 20.0 credits including the following 8.0 credits:

- 1.0 HIST credit at the 1000 level
- 2.0 HIST credits at the 4000 level
- 2.0 HIST credits at the 3000 level or beyond in addition to the above
- 3.0 HIST credits at the 2000 or beyond in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

- Three non-credit co-op work terms are required for the BA program in History Co-op (COOP 2100P, 3100P, and 4100P). The prerequisite for the first work term (COOP 2100P) for students in this program is completion of COOP 2000H with a minimum grade of 70% and completion of at least 10.0 academic credits. The schedule for the single-major Honours program is listed below. Students who choose to explore any additions (minor, specialization, option) to a single-major Honours may require additional time to complete their degrees, as all courses are not offered in every term. It is expected that students follow the set work term schedule. Students are encouraged to work with an academic advisor for support with degree mapping.

Requirements

Bachelor of Arts Program in History— Co-op

- Co-op students must satisfy the requirements for the single-major BA Honours in History and the Co-op requirements listed below.

YEAR	FALL	WINTER	SUMMER
Year 1	Study Term 1	Study Term 2	Study Term 3
Year 2	Study Term 4	Study Term 5	Work Term 1
Year 3	Study Term 6	Study Term 7	Work Term 2
Year 4	Work Term 3	Study Term 8	–

- Students on a work term must complete learning objectives, a midterm evaluation, a final evaluation, and a final work term report. Co-op employers will also complete a midterm evaluation and final evaluation of the student's work term. Upon receiving the completed documentation and upon a satisfactory employer assessment, a Pass (P) or Fail (F) will be assigned for COOP 2100P, 3100P, and 4100P. CareerSpace makes every effort to find suitable work terms for students enrolled in the co-op program, but a work term opportunity cannot be guaranteed for every student. The work term process is competitive and dependent upon many factors including market conditions, the preparedness of a student including their job applications and performance in job interviews, and the academic performance of a student. Co-op students secure positions through successful participation in the co-op interview process and/or their own job search activities. Withdrawal from the co-op program will not normally be approved while a student is on a work term. Students are not permitted to take an academic course during a scheduled work term.
- Students who are unable to obtain a suitable co-op opportunity in an upcoming work term are expected to continue with their academic program on a full-time basis. A single missed work term can be made up, but in the event that a co-op student cannot secure their work term for a second time, they will be withdrawn from the co-op program. If a student is unable to complete three work terms yet otherwise fulfills all degree requirements, the student will be awarded an Honours Bachelor of Arts in History.

BAH.HIST.SWAN - History - BA Honours - Swansea Law

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
Program Website

Trent University, in partnership with Swansea University, United Kingdom, offers a dual degree leading to a Trent Bachelor of Arts (Honours) degree (BA) or Bachelor of Business Administration (BBA) and a Single Honours Law degree (LLB) from Swansea. The program allows students to complete the requirements for both degrees in a structured six-year program of study.

Upon admission to Trent University, students select a major in one of the available subjects for the dual degree. Students spend their first two years of full-time study at Trent in Peterborough or Durham, taking 10.0 credits toward their Bachelor of Arts (Honours) or Bachelor of Business Administration program (5.0 credits per academic year). Students then transfer to Swansea University for years three, four, and five to complete their study in the LLB degree program, taking on a full-time course load (120 credits per academic year, which equates to a normal 5.0-credit per year Canadian university course load). Following successful completion of the LLB with the required minimum overall average, students are awarded transfer credits and return to Trent to complete the requirements for the BA or BBA program, which include courses focused in Canadian Law (LAWS courses) to help prepare them for the National Committee on Accreditation exams.

Students will graduate at the end of the sixth year with both an undergraduate Bachelor of Arts (Honours) or Bachelor of Business Administration degree from Trent University and a Single Honours Law degree from Swansea University.

As this is a dual degree and not a joint degree, Swansea University reserves all rights to make adjustments to the required courses for the LLB degree at any point in time. The most up-to-date program overview can be found on the Swansea University website.

ACADEMIC PROGRESSION

Application to the Trent/Swansea dual degree is through the Ontario University Application Centre. Students must achieve a minimum secondary school average of 80% to be admitted to the program. This entry grade is subject to change annually based on the application cohort and the number of spaces available in the program; however, the minimum average for acceptance to the program will never fall below 80%.

To progress successfully to year three of the dual degree and to commence the LLB portion at Swansea University, students must complete the required Intent to Continue communication and must meet the requirements below:

- declared program major for the Trent BA or BBA degree from the list of majors included in the program;
- successful completion of years one and two at Trent University, including all courses required for the declared major, with a minimum cumulative average of 77%;
- successful completion of no fewer than 10.0 Trent University credits before enrolling in classes at Swansea (a maximum of 5.0 transfer credits is allowable toward this total);
- obtained and provided proof of an approved Tier 4 (General) Study Visa;
- confirmation that they have not been found to have breached any University regulations; and,
- have no known reasons to be denied access to the United Kingdom.

Following successful completion of the LLB degree at Swansea University, student transcripts will be forwarded to the Office of the Registrar at Trent University to ensure standards are met and at this point students will be reactivated as current students at Trent University. Once students enter into the final year of study to obtain all requirements for successful completion of the Dual Degree Bachelor of Arts (Honours) or Bachelor of Business Administration degree, they will be awarded the 5.0 transfer credits toward their degree completion.

Students currently studying at Trent, and transfer students from other postsecondary institutions who have been admitted to Trent University, may be able to access the Trent/Swansea dual degree. Contact the Trent/Swansea Law Program Coordinator for further details.

Requirements

Bachelor of Arts Program in History – Trent/ Swansea Dual Degree

The single-major Honours program. 20.0 credits including the following:

Year 1

5.0 credits including the following:

- 1.0 HIST credit at the 1000 level
- 4.0 elective credits, including 0.5 ICR credit from the Approved Indigenous Course List

Year 2

5.0 credits including the following:

- 4.0 HIST credits at the 2000 level or beyond*
- 1.0 elective credit

Years 3-5 – at Swansea

*Students must take Swansea's Canadian Constitutional Law (LAA362) module in Year 5 (their final year at Swansea) if it is offered, as Trent will not likely offer LAWS 4030H Canadian Constitutional Law during the subsequent year. Students who take LAA362 at Swansea will receive a transfer credit for LAWS 4030H in place of 0.5 3000-level ARTS unassigned transfer credit, which will require them to take an additional 0.5 elective credit in Year 6 instead.

Year 6

5.0 transfer credits awarded for successful completion of LLB program (years 3-5):

- 2.0 unassigned HIST credits at the 3000 level
- 1.0 unassigned HIST credit at the 4000 level
- 2.0 unassigned ARTS credits at the 3000 level

5.0 credits including the following:

- 2.5 LAWS credits consisting of LAWS 4000H, 4010H, 4020H, 4030H*, and 4040H
- 1.0 HIST credit at the 3000 level
- 1.0 HIST credit at the 4000 level
- 0.5 elective credit

IMPORTANT GENERAL NOTES

- In addition to the program requirements, students must satisfy the University degree requirements. Students are encouraged to complete the requirement for 0.5 credit from the Approved Indigenous Course List in either year one or year two of the program.
- Students are encouraged to take additional courses in their declared major as electives, but the total number of credits in the major discipline may not exceed 13.0.
- LAWS 4050H is recommended to be taken as an elective in year six of the program where possible.
- Prerequisites for required courses will normally be waived for students in the Trent/Swansea dual degree. Prior to registration in any course in the major for which a waiver is needed, students must contact the chair of the department, indicate that they are enrolled in the dual degree program, and request permission to register without the prerequisite.
- Successful completion of the LLB degree program with a minimum weighted average of 40% (according to Swansea University's grading scale) is required to award students with transfer credits toward the Trent BA or BBA degree. Per-course grade average to be determined.
- In year six of the dual degree, 2.5 Trent University credits in Canadian Law as prescribed by the Program must be completed, in addition to 2.5 credits required per their Trent degree requirements. The Canadian Law courses are intended to support students in writing their National Committee on Accreditation (NCA) exams. Students must take Swansea's Canadian Constitutional Law (LAA362) module in Year 5 (their final year at Swansea) if it is offered, as Trent will not likely offer LAWS 4030H Canadian Constitutional Law during the subsequent year. Completion of LAA362 at Swansea satisfies the Year 6 requirement to take LAWS 4030H and means students will have an additional 0.5 elective credit in Year 6 instead.
- Note to Trent Durham GTA students in the Trent/Swansea Law Dual Degree: for Year 6, the required 4000-level LAWS courses are only offered in Peterborough.

BAH.HURI - Human Rights & Global Justice - BA Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
www.trentu.ca/ids

The Human Rights & Global Justice program takes an interdisciplinary approach to global and international dimensions of human rights, their dynamics, and reach, as well as their diverse forms and expressions in local, regional, and national settings. The curriculum is organized around the key themes of legal instruments, historical foundations, societal movements, and critical examinations of human rights limitations. It is offered with the co-operation of the following departments and schools: Canadian Studies, Gender & Social Justice, Indigenous Studies, Philosophy, Political Studies, and Sociology.

INFORMATION & ADDITIONAL NOTES

- Swansea Dual Law Degree, Trent-in-Bolivia, and Trent-in-Ghana: Students going abroad in their third year should complete HURI 2005H (Fall) and HURI 3121H (Winter) in their second year. Participants in the Trent-Swansea Law Dual Degree may include LAWS 4000H as a Category A course and LAWS 4030H and 4040H as Category B courses.

Requirements

Bachelor of Arts Program in Human Rights & Global Justice

The single-major Honours program. 20.0 credits including the following 10.0 credits:

- 2.5 HURI credits consisting of HURI 1001H, 1002H, 2005H, 3121H, and 4001H
- 0.5 HURI credit from HURI 2010H or 2251H
- 0.5 credit from GDST 3800D/3802D, GDST 3830H, GDST 3850H, GESO 3122H/4122H, HURI-GDST 4220Y/4221Y, or POST 4850H

- 2.0 credits from A/B at the 3000 level in addition to the above, at least 1.0 of which must be from Category A and no more than 1.0 credit from Category B
- 2.0 credits from A/B at the 4000 level in addition to the above, at least 1.0 credit of which must be from Category A and no more than 1.0 credit from Category B
- 2.5 credits from A/B in addition to the above, at least 1.5 of which must be from Category A and no more than 1.0 credit from Category B

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The joint-major Honours program. 20.0 credits including the following 7.5 credits:

- 2.5 HURI credits consisting of HURI 1001H, 1002H, 2005H, 3121H, and 4001H
- 0.5 HURI credit from HURI 2010H or 2251H
- 0.5 credit from GDST 3800D/3802D, GDST 3830H, GDST 3850H, GESO 3122H/4122H, HURI-GDST 4220Y/4221Y, or POST 4850H
- 1.5 credits from A/B at the 3000 level in addition to the above, at least 1.0 credit of which must be from Category A and no more than 0.5 credit from Category B
- 1.0 credit from A/B at the 4000 level in addition to the above, at least 0.5 credit of which must be from Category A
- 1.5 credits from A/B in addition to the above, at least 1.0 of which must be from Category A and no more than 0.5 credit from Category B

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

BAH.HURI.COOP - Human Rights & Global Justice - Co-op

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
www.trentu.ca/coop

Co-op is an opportunity for students to gain work-integrated experiential learning that will help them get a head start on a career. The Human Rights & Global Justice Co-op assists graduating students in achieving a competitive edge while generating experience within a wide range of sectors. Specifically, co-op gives the students a chance to obtain 12 months of practical experience on the job, develop or enhance technical skills, explore career options, network with a variety of individuals and organizations, learn from mentors and tutors, enhance communication and presentation skills, and develop technical writing skills.

INFORMATION AND ADDITIONAL NOTES

- Co-op students are responsible for paying tuition for their academic courses, ancillary fees, and levies. All Trent students are charged ancillary fees every Fall & Winter term. Co-op students will experience the same cycle for their ancillary fee payments regardless of when they are out on work terms. Co-op students do not pay tuition during their work terms.
- Co-op students are responsible for paying the compulsory Co-op Fee a total of five times during their degree program, and the Co-op fee will be applied to their student account in Year 2 Fall, Year 2 Winter, Year 3 Fall, Year 3 Winter, and Year 4 Fall.
- Students are encouraged to meet with their Co-op Coordinator at CareerSpace each year for support with their co-op work terms, career development, and to confirm they are meeting co-op progression requirements.

Requirements

Bachelor of Arts Program in Human Rights and Global Justice — Co-op

- Co-op students must satisfy the requirements for the single-major BA Honours in Human Rights & Global Justice and the Co-op requirements listed below.
- Human Rights & Global Justice Co-op is a competitive direct-entry program with a limited number of student places. Students who are not admitted directly may apply for admission after commencing studies at Trent and may be admitted on a competitive basis provided there are available spaces in the program.
- To remain in the co-op program, students must complete the required work term preparation and reflection courses (COOP 2000H and 4000H) with a minimum 70% progression requirement in COOP 2000H and 65% in COOP 4000H, and maintain a minimum 75% cumulative average throughout their study terms. In addition, students must continue to receive satisfactory evaluations during each of their three work terms. Students who do not achieve a minimum 70% in COOP 2000H will be withdrawn from the co-op program but may continue their studies in Human Rights & Global Justice or transfer to a major in a different subject. Once withdrawn, students are not eligible to re-enter the co-op program. Students who do not achieve a minimum 65% in COOP 4000H but otherwise fulfill all degree requirements will be awarded an Honours degree in Human Rights & Global Justice without the Co-op designation.
- Three non-credit co-op work terms are required for the BA program in Human Rights & Global Justice Co-op (COOP 2100P, 3100P, and 4100P). The prerequisite for the first work term (COOP 2100P) for students in this program is completion of COOP 2000H with a minimum grade of 70% and completion of at least 10.0 academic credits. The schedule for the single-major Honours program is listed below. Students who choose to explore any additions (minor, specialization, or option) to a single-major Honours may require additional time to complete their degrees, as all courses are not offered in every term. It is expected that students follow the set work term schedule. Students are encouraged to work with an academic advisor for support with degree mapping.

YEAR	FALL	WINTER	SUMMER
Year 1	Study Term 1	Study Term 2	Study Term 3
Year 2	Study Term 4	Study Term 5	Work Term 1
Year 3	Study Term 6	Study Term 7	Work Term 2
Year 4	Work Term 3	Study Term 8	–

- Students on a work term must complete learning objectives, a midterm evaluation, a final evaluation, and a final work term report. Co-op employers will also complete a midterm evaluation and final evaluation of the student's work term. Upon receiving the completed documentation and upon a satisfactory employer assessment, a Pass (P) or Fail (F) will be assigned for COOP 2100P, 3100P, and 4100P. CareerSpace makes every effort to find suitable work terms for students enrolled in the co-op program, but a work term opportunity cannot be guaranteed for every student. The work term process is competitive and dependent upon many factors including market conditions, the preparedness of a student including their job applications and performance in job interviews, and the academic performance of a student. Co-op students secure positions through successful participation in the co-op interview process and/or their own job search activities. Withdrawal from the co-op program will not normally be approved while a student is on a work term. Students are not permitted to take an academic course during a scheduled work term.
- Students who are unable to obtain a suitable co-op opportunity in an upcoming work term are expected to continue with their academic program on a full-time basis. A single missed work term can be made up, but in the event that a co-op student cannot secure their work term for a second time, they will be withdrawn from the co-op program. If a student is unable to complete three work terms yet otherwise fulfills all degree requirements, the student will be awarded an Honours Bachelor of Arts in Human Rights & Global Justice.

BAH.HURI.SWAN - Human Rights & Global Justice - BA Honours - Swansea Law

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
Program Website

Trent University, in partnership with Swansea University, United Kingdom, offers a dual degree leading to a Trent Bachelor of Arts (Honours) degree (BA) or Bachelor of Business Administration (BBA) and a Single Honours Law degree (LLB) from Swansea. The program allows students to complete the requirements for both degrees in a structured six-year program of study.

Upon admission to Trent University, students select a major in one of the available subjects for the dual degree. Students spend their first two years of full-time study at Trent in Peterborough or Durham, taking 10.0 credits toward their Bachelor of Arts (Honours) or Bachelor of Business Administration program (5.0 credits per academic year). Students then transfer to Swansea University for years three, four, and five to complete their study in the LLB degree program, taking on a full-time course load (120 credits per academic year, which equates to a normal 5.0-credit per year Canadian university course load). Following successful completion of the LLB with the required minimum overall average, students are awarded transfer credits and return to Trent to complete the requirements for the BA or BBA program, which include courses focused in Canadian Law (LAWS courses) to help prepare them for the National Committee on Accreditation exams.

Students will graduate at the end of the sixth year with both an undergraduate Bachelor of Arts (Honours) or Bachelor of Business Administration degree from Trent University and a Single Honours Law degree from Swansea University.

As this is a dual degree and not a joint degree, Swansea University reserves all rights to make adjustments to the required courses for the LLB degree at any point in time. The most up-to-date program overview can be found on the Swansea University website.

ACADEMIC PROGRESSION

Application to the Trent/Swansea dual degree is through the Ontario University Application Centre. Students must achieve a minimum secondary school average of 80% to be admitted to the program. This entry grade is subject to change annually based on the application cohort and the number of spaces available in the program; however, the minimum average for acceptance to the program will never fall below 80%.

To progress successfully to year three of the dual degree and to commence the LLB portion at Swansea University, students must complete the required Intent to Continue communication and must meet the requirements below:

- declared program major for the Trent BA or BBA degree from the list of majors included in the program;
- successful completion of years one and two at Trent University, including all courses required for the declared major, with a minimum cumulative average of 77%;
- successful completion of no fewer than 10.0 Trent University credits before enrolling in classes at Swansea (a maximum of 5.0 transfer credits is allowable toward this total);
- obtained and provided proof of an approved Tier 4 (General) Study Visa;
- confirmation that they have not been found to have breached any University regulations; and,
- have no known reasons to be denied access to the United Kingdom.

Following successful completion of the LLB degree at Swansea University, student transcripts will be forwarded to the Office of the Registrar at Trent University to ensure standards are met and at this point students will be reactivated as current students at Trent University. Once students enter into the final year of study to obtain all requirements for successful completion of the Dual Degree Bachelor of Arts (Honours) or Bachelor of Business Administration degree, they will be awarded the 5.0 transfer credits toward their degree completion.

Students currently studying at Trent, and transfer students from other postsecondary institutions who have been admitted to Trent University, may be able to access the Trent/Swansea dual degree. Contact the Trent/Swansea Law Program Coordinator for further details.

Requirements

Bachelor of Arts Program in Human Rights & Global Justice – Trent/Swansea Dual Degree

The single-major Honours program. 20.0 credits including the following:

Year 1

5.0 credits including the following:

- 1.0 HURI credit consisting of HURI 1001H and 1002H
- 0.5 HURI credit from HURI 2010H or 2251H
- 0.5 credit from Category A or B (see BA Honours in Human Rights & Global Justice for Categories)
- 3.0 elective credits, including 0.5 ICR credit from the Approved Indigenous Course List

Year 2

5.0 credits including the following:

- 1.0 HURI credit consisting of HURI 2005H and 3121H
- 2.0 credits from Category A or B in addition to the above, including at least 1.5 credits from Category A (see BA Honours in Human Rights & Global Justice for Categories)
- 2.0 elective credits

Years 3-5 – At Swansea

**Students must take Swansea's Canadian Constitutional Law (LAA362) module in Year 5 (their final year at Swansea) if it is offered, as Trent will not likely offer LAWS 4030H Canadian Constitutional Law during the subsequent year. Students who take LAA362 at Swansea will receive a transfer credit for LAWS 4030H in place of 0.5 3000-level ARTS unassigned transfer credit, which will require them to take an additional 0.5 elective credit in Year 6 instead.

Year 6

5.0 transfer credits awarded for successful completion of LLB program (years 3-5):

- 2.0 unassigned HURI credits at the 3000 level
- 3.0 unassigned ARTS credits at the 3000 level

5.0 credits including the following:

- 2.5 LAWS credits consisting of LAWS 4000H, 4010H, 4020H, 4030H, and 4040H*
- 0.5 HURI credit consisting of HURI 4001H
- 0.5 credit from GDST 3800D/3802D, GDST 3830H, GDST 3850H, GESO 3122H/4122H, HURI-GDST 4220Y/4221Y, or POST 4850H
- 1.0 credit at the 4000 level from Category A or B addition to the above, including at least 0.5 credit from Category A (see BA Honours in Human Rights & Global Justice for Categories)
- 0.5 elective credit

*For students in the Trent/Swansea Law Dual Degree, LAWS 4000H will be considered a HURI "Category A" course and either LAWS 4030H or 4040H will be considered a HURI "Category B" course.

Note: Students declaring a Human Rights & Global Justice major at Trent are recommended to take some of the following modules at Swansea if available:

- LAA 217/314 Employment Law: Rights and Obligations
- LAA 218/315 Employment Law: Enforcing Rights
- LAA 224/324 Human Rights Law
- LAA 228/329 Human Rights and Social Justice
- LAA 222/333 International Law: Principles and Procedures

IMPORTANT GENERAL NOTES

- In addition to the program requirements, students must satisfy the University degree requirements. Students are encouraged to complete the requirement for 0.5 credit from the Approved Indigenous Course List in either year one or year two of the program.
- Students are encouraged to take additional courses in their declared major as electives, but the total number of credits in the major discipline may not exceed 13.0.
- LAWS 4050H is recommended to be taken as an elective in year six of the program where possible.
- Prerequisites for required courses will normally be waived for students in the Trent/Swansea dual degree. Prior to registration in any course in the major for which a waiver is needed, students must contact

the chair of the department, indicate that they are enrolled in the dual degree program, and request permission to register without the prerequisite.

- Successful completion of the LLB degree program with a minimum weighted average of 40% (according to Swansea University's grading scale) is required to award students with transfer credits toward the Trent BA or BBA degree. Per-course grade average to be determined.
- In year six of the dual degree, 2.5 Trent University credits in Canadian Law as prescribed by the Program must be completed, in addition to 2.5 credits required per their Trent degree requirements. The Canadian Law courses are intended to support students in writing their National Committee on Accreditation (NCA) exams. Students must take Swansea's Canadian Constitutional Law (LAA362) module in Year 5 (their final year at Swansea) if it is offered, as Trent will not likely offer LAWS 4030H Canadian Constitutional Law during the subsequent year. Completion of LAA362 at Swansea satisfies the Year 6 requirement to take LAWS 4030H and means students will have an additional 0.5 elective credit in Year 6 instead.
- Note to Trent Durham GTA students in the Trent/Swansea Law Dual Degree: for Year 6, the required 4000-level LAWS courses are only offered in Peterborough.

BAH.IESS - Indigenous Environmental Studies - BA Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
www.trentu.ca/ies

Indigenous Environmental Studies & Sciences at Trent University is an innovative and multidisciplinary program offered jointly by the School of the Environment and the Chanie Wenjack School for Indigenous Studies. It brings together principles of both Indigenous knowledge and Western science. Instruction integrating these approaches will provide students with the necessary knowledge and skills, including both critical and integrative thinking abilities, to begin to address the complex environmental problems facing Indigenous communities, governments, business, industry, research, and society in general. The foundation upon which the program is based recognizes both the strengths and limitations of any single perspective, and seeks to develop interactive and integrative thinking to address environmental, health, and social issues. Learning and problem-solving are focused on benefiting both Indigenous and non-Indigenous communities.

INFORMATION & ADDITIONAL NOTES

- There is no option to pursue a joint-major in Indigenous Environmental Studies & Sciences and Indigenous Studies or a joint-major in Indigenous Environmental Studies & Sciences and Environmental & Resource Science/Studies.
- Students who have earned the Diploma in the Indigenous Environmental Studies & Sciences may apply for admission to the BA or BSc degrees. Credits earned in the Diploma program are transferable to the BA and BSc degrees.
- Indigenous students seeking admission to this or other University programs should contact the Aboriginal enrolment advisor in the First Peoples House of Learning to inquire about getting special assistance with the admission process.
- There may be a small additional fee for field trips in certain courses.

- The Accelerated Master's program in Environmental & Life Sciences allows students to obtain a research-based MSc within a shorter timeframe. See https://www.trentu.ca/els/experience/msc-program/accelerated-masters-program for details.

Requirements

Bachelor of Arts Program in Indigenous Environmental Studies

- IESS 3635H, 3636H, 4630H, INDG 4050H, and an Indigenous language course are recommended for the degree.

The single-major Honours program. 20.0 credits including the following 10.5 credits:

- 5.5 IESS credits consisting of IESS 1001H, 2601Y, 3631H, 3632H, 3731H, 3732H, 4730Y, and 4740Y
- 1.0 ERSC credit consisting of ERSC 1010H and 1020H
- 2.0 INDG credits consisting of INDG 1001H, 1002H, and 3813Y
- 0.5 BIOL or ERSC credit from BIOL-ERSC 2260H, ERSC 2240H, or ERSC-BIOL 2701H
- 1.0 ERST and/or ERSC credit at the 3000 level or beyond in addition to the above
- 0.5 ERST, ERSC, or INDG credit in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements.

The joint-major Honours program. 20.0 credits including the following 7.0 credits:

- 1.5 IESS credits consisting of IESS 1001H and 2601Y
- 1.0 IESS credit from IESS 3631H and 3632H or 3731H and 3732H
- 1.0 IESS credit from IESS 4730Y or 4740Y
- 1.0 ERSC credit consisting of ERSC 1010H and 1020H
- 1.0 INDG credit consisting of INDG 1001H and 1002H
- 0.5 BIOL or ERSC credit from BIOL-ERSC 2260H, ERSC 2240H, or ERSC-BIOL 2701H
- 1.0 ERST, ERSC, or INDG credit at the 3000 level or beyond in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

BAH.IESS.COOP - Indigenous Environmental Studies - Co-op

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
Indigenous Environmental Studies Co-op will be available as of the 2027-2028 Academic Year.

www.trentu.ca/coop

Co-op is an opportunity for students to gain work-integrated experiential learning that will help them get a head start on a career. The Indigenous Environmental Studies Co-op assists graduating students in achieving a competitive edge while generating experience within a wide range of sectors. Specifically, co-op gives the students a chance to obtain 12 months of practical experience on the job, develop or enhance technical skills, explore career options, network with a variety of individuals and organizations, learn from mentors and tutors, enhance communication and presentation skills, and develop technical writing skills.

INFORMATION & ADDITIONAL NOTES

- The Indigenous Environmental Studies Co-op is only available to students in the Bachelor of Arts program.
- Co-op students are responsible for paying tuition for their academic courses, ancillary fees, and levies. All Trent students are charged ancillary fees every Fall & Winter term. Co-op students will experience the same cycle for their ancillary fee payments regardless of when they are out on work terms. Co-op students do not pay tuition during their work terms.
- Co-op students are responsible for paying the compulsory Co-op Fee a total of five times during their degree program, and the Co-op fee will be applied to their student account in Year 2 Fall, Year 2 Winter, Year 3 Fall, Year 3 Winter, and Year 4 Fall.
- Students are encouraged to meet with their Co-op Coordinator at CareerSpace each year for support with their co-op work terms, career development, and to confirm they are meeting co-op progression requirements.

Requirements

Bachelor of Arts Program in Indigenous Environmental Studies — Co-op

- Indigenous Environmental Studies Co-op will be available as of the 2027-2028 Academic Year.
- Co-op students must satisfy the requirements for the single-major BA Honours in Indigenous Environmental Studies and the Co-op requirements listed below.
- Indigenous Environmental Studies Co-op is a competitive direct-entry program with a limited number of student places. Students who are not admitted directly may apply for admission after commencing studies at Trent and may be admitted on a competitive basis provided there are available spaces in the program.
- To remain in the co-op program, students must complete the required work term preparation and reflection courses (COOP 2000H and 4000H) with a minimum 70% progression requirement in COOP 2000H and 65% in COOP 4000H, and maintain a minimum 75% cumulative average throughout their study terms. In addition, students must continue to receive satisfactory evaluations during each of their three work terms. Students who do not achieve a minimum 70% in COOP 2000H will be withdrawn from the co-op program but may continue their studies in Indigenous Environmental Studies or transfer to a major in a different subject. Once withdrawn, students are not eligible to re-enter the co-op program. Students who do not achieve a minimum 65% in COOP 4000H but otherwise fulfill all degree requirements will be awarded an Honours degree in Indigenous Environmental Studies without the Co-op designation.
- Three non-credit co-op work terms are required for the BA program in Indigenous Environmental Studies Co-op (COOP 2100P, 3100P, 4100P). The prerequisite for the first work term (COOP 2100P) for students in this program is completion of COOP 2000H with a minimum grade of 70% and completion of at least 10.0 academic credits. The schedule for the single-major Honours program is listed below. Students who choose to explore any additions (minor, specialization, option) to a single-major Honours may require additional time to complete their degrees, as

all courses are not offered in every term. It is expected that students follow the set work term schedule. Students are encouraged to work with an academic advisor for support with degree mapping.

YEAR	FALL	WINTER	SUMMER
Year 1	Study Term 1	Study Term 2	Study Term 3
Year 2	Study Term 4	Study Term 5	Work Term 1
Year 3	Study Term 6	Study Term 7	Work Term 2
Year 4	Work Term 3	Study Term 8	–

- Students on a work term must complete learning objectives, a midterm evaluation, a final evaluation, and a final work term report. Co-op employers will also complete a midterm evaluation and final evaluation of the student's work term. Upon receiving the completed documentation and upon a satisfactory employer assessment, a Pass (P) or Fail (F) will be assigned for COOP 2100P, 3100P, and 4100P. CareerSpace makes every effort to find suitable work terms for students enrolled in the co-op program, but a work term opportunity cannot be guaranteed for every student. The work term process is competitive and dependent upon many factors including market conditions, the preparedness of a student including their job applications and performance in job interviews, and the academic performance of a student. Co-op students secure positions through successful participation in the co-op interview process and/or their own job search activities. Withdrawal from the co-op program will not normally be approved while a student is on a work term. Students are not permitted to take an academic course during a scheduled work term.
- Students who are unable to obtain a suitable co-op opportunity in an upcoming work term are expected to continue with their academic program on a full-time basis. A single missed work term can be made up, but in the event that a co-op student cannot secure their work term for a second time, they will be withdrawn from the co-op program. If a student is unable to complete three work terms yet otherwise fulfills all degree requirements, the student will be awarded an Honours Bachelor of Arts in Indigenous Environmental Studies.

BAH.INDG - Indigenous Studies - BA Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
www.trentu.ca/indigenous

Indigenous Studies is a multi-disciplinary examination, analysis, and reflection upon Indigenous experiences in Canada and around the world. This exploration, based in Western and Indigenous epistemologies, aims to develop a more complex understanding of this experience in its many dimensions: political, economic, social, cultural, and spiritual. The Chanie Wenjack School for Indigenous Studies offers a wide variety of courses allowing students to explore a particular aspect of this experience as well as opportunities for studying their interrelatedness. The knowledge gained forms a foundation for working more effectively with Indigenous peoples. The School also collaborates with the School of Business through the Specialization in Niigaaniiwin—The Art of Leading, with the School of the Environment in offering the Indigenous Environmental Studies & Sciences program, and with the School of Education through the Bachelor of Education – Indigenous.

INFORMATION & ADDITIONAL NOTES

- Courses fulfilling the Indigenous Course Requirement are marked "ICR" in the individual course descriptions.
- Students wishing to enrol in a reading course (INDG 3900Y, 3901H, 3902H, 4900Y, 4901H, 4902H), community-based practicum (INDG 3860Y, 3861H, 3862H, 4860Y, 4861H, 4862H), or double credit thesis (INDG 4020D) must obtain the School's approval in the term prior to the course offering. The course must be identified with one of the categories to support the degree requirements. Students may count up to 2.0 credits from INDG practicum courses toward their Indigenous Studies degree requirements.
- There is overlap between Indigenous Studies course categories since individual courses address topic areas which are relevant to more than one category. If

a student wishes to vary a course category for their degree requirements, they may make an appointment with the School to present their case.

Requirements

Bachelor of Arts Program in Indigenous Studies

The single-major Honours program. 20.0 credits including the following 9.0 credits:

- 4.0 INDG credits consisting of INDG 1001H, 1002H, 2100Y, 3813Y, 4201H, and 4202H
- 2.0 INDG credits at the 4000 level in addition to the above
- 3.0 INDG credits in addition to the above
- Must include at least 0.5 credit from each of the four categories

In addition to the program requirements listed above, students must satisfy the University degree requirements.

The joint-major Honours program. 20.0 credits including the following 7.0 credits:

- 4.0 INDG credits consisting of INDG 1001H, 1002H, 2100Y, 3813Y, 4201H, and 4202H
- 1.0 INDG credit at the 4000 level in addition to the above
- 2.0 INDG credits in addition to the above
- Must include at least 0.5 credit from two of the four categories

In addition to the program requirements listed above, students must satisfy the University degree requirements.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

BAH.INDG.SWAN - Indigenous Studies - BA Honours - Swansea Law

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
Program Website

Trent University, in partnership with Swansea University, United Kingdom, offers a dual degree leading to a Trent Bachelor of Arts (Honours) degree (BA) or Bachelor of Business Administration (BBA) and a Single Honours Law degree (LLB) from Swansea. The program allows students to complete the requirements for both degrees in a structured six-year program of study.

Upon admission to Trent University, students select a major in one of the available subjects for the dual degree. Students spend their first two years of full-time study at Trent in Peterborough or Durham, taking 10.0 credits toward their Bachelor of Arts (Honours) or Bachelor of Business Administration program (5.0 credits per academic year). Students then transfer to Swansea University for years three, four, and five to complete their study in the LLB degree program, taking on a full-time course load (120 credits per academic year, which equates to a normal 5.0-credit per year Canadian university course load). Following successful completion of the LLB with the required minimum overall average, students are awarded transfer credits and return to Trent to complete the requirements for the BA or BBA program, which include courses focused in Canadian Law (LAWS courses) to help prepare them for the National Committee on Accreditation exams.

Students will graduate at the end of the sixth year with both an undergraduate Bachelor of Arts (Honours) or Bachelor of Business Administration degree from Trent University and a Single Honours Law degree from Swansea University.

As this is a dual degree and not a joint degree, Swansea University reserves all rights to make adjustments to the required courses for the LLB degree at any point in time. The most up-to-date program overview can be found on the Swansea University website.

ACADEMIC PROGRESSION

Application to the Trent/Swansea dual degree is through the Ontario University Application Centre. Students must achieve a minimum secondary school average of 80% to be admitted to the program. This entry grade is subject to change annually based on the application cohort and the number of spaces available in the program; however, the minimum average for acceptance to the program will never fall below 80%.

To progress successfully to year three of the dual degree and to commence the LLB portion at Swansea University, students must complete the required Intent to Continue communication and must meet the requirements below:

- declared program major for the Trent BA or BBA degree from the list of majors included in the program;
- successful completion of years one and two at Trent University, including all courses required for the declared major, with a minimum cumulative average of 77%;
- successful completion of no fewer than 10.0 Trent University credits before enrolling in classes at Swansea (a maximum of 5.0 transfer credits is allowable toward this total);
- obtained and provided proof of an approved Tier 4 (General) Study Visa;
- confirmation that they have not been found to have breached any University regulations; and,
- have no known reasons to be denied access to the United Kingdom.

Following successful completion of the LLB degree at Swansea University, student transcripts will be forwarded to the Office of the Registrar at Trent University to ensure standards are met and at this point students will be reactivated as current students at Trent University. Once students enter into the final year of study to obtain all requirements for successful completion of the Dual Degree Bachelor of Arts (Honours) or Bachelor of Business Administration degree, they will be awarded the 5.0 transfer credits toward their degree completion.

Students currently studying at Trent, and transfer students from other postsecondary institutions who have been admitted to Trent University, may be able to access the Trent/Swansea dual degree. Contact the Trent/Swansea Law Program Coordinator for further details.

Requirements

Bachelor of Arts Program in Indigenous Studies – Trent/Swansea Dual Degree

The single-major Honours program. 20.0 credits including the following:

Year 1

5.0 credits including the following:

- 1.0 INDG credit consisting of INDG 1001H and 1002H
- 1.0 INDG credit from Category A* (INDG 2250Y, 2800Y recommended)
- 0.5 INDG credit from Category C* (INDG 1500H, 1510H recommended)
- 0.5 INDG credit from Category D* (INDG 2010H, 2020H recommended)
- 2.0 elective credits

*see BA Honours in Indigenous Studies for Categories

Year 2

5.0 credits including the following:

- 3.0 INDG credits consisting of INDG 2100Y, 3401H, 3402H, and 3813Y
- 1.0 INDG credit at the 3000 level or beyond in addition to the above
- 1.0 elective credit

Years 3-5 – at Swansea

**Students must take Swansea's Canadian Constitutional Law (LAA362) module in Year 5 (their final year at Swansea) if it is offered, as Trent will not likely offer LAWS 4030H Canadian Constitutional Law during the subsequent year. Students who take LAA362 at Swansea will receive a transfer credit for LAWS 4030H in place of 0.5 3000-level ARTS unassigned transfer credit, which will require them to take an additional 0.5 elective credit in Year 6 instead.

Year 6

5.0 transfer credits awarded for successful completion of LLB program (years 3-5):

- 1.0 unassigned INDG credit at the 4000 level
- 4.0 unassigned ARTS credits at the 3000 level

5.0 credits including the following:

- 2.5 LAWS credits consisting of LAWS 4000H, 4010H, 4020H, 4030H**, and 4040H
- 1.0 INDG credit consisting of INDG 4201H and 4202H
- 1.0 additional INDG credit at the 4000 level
- 0.5 elective credit

IMPORTANT GENERAL NOTES

- In addition to the program requirements, students must satisfy the University degree requirements. Students are encouraged to complete the requirement for 0.5 credit from the Approved Indigenous Course List in either year one or year two of the program.
- Students are encouraged to take additional courses in their declared major as electives, but the total number of credits in the major discipline may not exceed 13.0.
- LAWS 4050H is recommended to be taken as an elective in year six of the program where possible.
- Prerequisites for required courses will normally be waived for students in the Trent/Swansea dual degree. Prior to registration in any course in the major for which a waiver is needed, students must contact the chair of the department, indicate that they are enrolled in the dual degree program, and request permission to register without the prerequisite.
- Successful completion of the LLB degree program with a minimum weighted average of 40% (according to Swansea University's grading scale) is required to award students with transfer credits toward the Trent BA or BBA degree. Per-course grade average to be determined.
- In year six of the dual degree, 2.5 Trent University credits in Canadian Law as prescribed by the Program must be completed, in addition to 2.5 credits required per their Trent degree requirements. The Canadian Law courses are intended to support students in writing their National Committee on Accreditation (NCA) exams. Students must take Swansea's Canadian Constitutional Law (LAA362) module in Year 5 (their final year at Swansea) if it is offered, as Trent will not likely offer LAWS 4030H Canadian Constitutional Law during the subsequent year. Completion of LAA362 at Swansea satisfies the Year 6 requirement to take LAWS 4030H and means students will have an additional 0.5 elective credit in Year 6 instead.
- Note to Trent Durham GTA students in the Trent/Swansea Law Dual Degree: for Year 6, the required 4000-level LAWS courses are only offered in Peterborough.

BAH.INFO - Information Systems - BA Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
www.trentu.ca/cois

Information systems specialists are concerned with the flow, storage, and access to information both within and across organizational boundaries, encompassing systems that are both computational and non-computational. They require a broad systems perspective and an appreciation of both technical matters like databases, networks, and telecommunications, as well as non-technical matters such as ethics, law, and digital culture.

INFORMATION & ADDITIONAL NOTES

- The Bachelor of Arts program in Information Systems is available only as a joint-major.

Requirements

Bachelor of Arts Program in Information Systems

- Students may not graduate with a joint-major degree in any two of the following three areas of study: Computer Science, Computing Systems, and Information Systems.

The joint-major Honours program. 20.0 credits including the following 7.0 credits:

- 3.5 COIS credits consisting of COIS 1010H, 1020H, 1620H, 2240H, 2620H, 3030H, and 3850H
- 0.5 COIS credit at the 4000 level
- 1.5 COIS credits at the 3000 level or beyond in addition to the above
- 1.5 COIS credits in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

BAH.IPE - International Political Economy - BA Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
The joint-major Honours program in International Political Economy (IPE) is offered by the Department of Political Studies and is intended for students with an interest in the interconnected nature of the study of politics and economics at the international and global levels, which they wish to explore while pursuing a joint-major Honours option in another discipline or program. The rise of the global South, the worsening of income and wealth inequalities, the displacement of workers through outsourcing and robotics, the migratory flows of persons, financialization, a resurgence of nationalist social forces have raised the prominence of the study of IPE in recent years among scholars and students from a wide variety of academic backgrounds. IPE merges Political Studies with Economics and Global Development Studies, as well as Anthropology, English Literature, Environmental & Resource Science/Studies, Gender & Social Justice, History, and Indigenous Studies.

Requirements

Bachelor of Arts Program in International Political Economy

- Courses taken abroad may be counted toward the joint-major by special permission of the program coordinator.

The joint-major Honours program. 20.0 credits including the following 7.0 credits:

- 1.0 ECON credit consisting of ECON 1010H and 1020H
- 1.0 POST credit consisting of POST 1001H and 1002H
- 1.0 credit from GDST 2010H, GDST 3001H, POST 2231H, or POST 2232H
- 1.0 credit from category A
- 1.0 credit from category B
- 1.0 credit from category C
- 1.0 additional credit from one of category A, B, or C
- At least 1.0 of the total 7.0 credits must be at the 3000 level
- At least 1.0 of the total 7.0 credits must be at the 4000 level

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

BAH.LSCM - Supply Chain Management - BA Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
The program enables students to obtain a foundation in the theory, practice, and analytical techniques required to understand, model, and solve complex supply chain problems in the modern world of business. The program provides an interdisciplinary breadth of knowledge including accounting, economics, modelling, computing, and statistics.

INFORMATION & ADDITIONAL NOTES

- For information on individual courses, see Calendar entries for Mathematics & Statistics, Business Administration, Economics, and Computer Science.
- Students entering the Supply Chain Management program are required to have completed a secondary school senior-level mathematics course in good standing. It is strongly recommended that applicants have both MHF4U and MCV4U. A minimum average of 75% on courses considered for admission is required.

Requirements

Bachelor of Arts Program in Supply Chain Management

The single-major Honours program. 20.0 credits including the following 14.0 credits:

- 5.0 LSCM credits consisting of LSCM 1001H, 2002H, 2003H, 2005H, 3000H, 3100H, 3400H, 3500H, 4200H, and 4400H
- 1.0 LSCM credit from LSCM 4500Y, 4600Y, or 4890Y
- 3.0 ADMN credits consisting of ADMN 1221H, 2080H, 2100H, 2221H, 3032H, and 3430H
- 3.0 COIS credits consisting of COIS 1010H, 1620H, 2620H, 3510H, 3750H, and 3850H
- 2.0 ECON credits consisting of ECON 1010H, 1020H, 1250H, and 2200H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

BAH.MDST - Media Studies - BA Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
www.trentu.ca/mediastudies

The Media Studies program at Trent takes an interdisciplinary approach to the understanding of media practices and effects. Students take courses in a range of disciplines including Cultural Studies, Anthropology, Philosophy, Computer Science, Canadian Studies, and Sociology, engaging with a range of ethical, theoretical, and technical concerns related to the implications of the human-technology interface for knowledge, individuality, and community. The program provides academic background for work in the media, communications, and any other field where media literacy is vital.

INFORMATION & ADDITIONAL NOTES

- Students may not graduate with a degree in Media Studies and a Cultural Studies Specialization in Film & Media.
- Students pursuing the Media Studies degree take courses offered by several departments. For a list of courses arranged by discipline, see www.trentu.ca/mediastudies/program/courses-discipline.
- The Accelerated Master of Arts program in Cultural Studies allows students to obtain a Master's degree in Cultural Studies within one to two terms less than students in the regular Master's program. Students apply to the Accelerated Master of Arts program during the spring term which precedes the last year of their undergraduate program in Media Studies. The research starts in the fourth year. Upon graduation, students begin the MA program in May or September, just after completion of the undergraduate program. Students who are interested in applying should contact the Cultural Studies graduate program director.

Requirements

Bachelor of Arts Program in Media Studies

The single-major Honours program. 20.0 credits including the following 9.0 credits:

- 1.0 MDST credit consisting of MDST 1010H and 1535H
- 1.0 MDST credit from MDST 2035Y or 2535H and 3535H
- 1.0 MDST credit at the 4000 level
- 6.0 MDST credits in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The joint-major Honours program. 20.0 credits including the following 7.0 credits:

- 1.0 MDST credit consisting of MDST 1010H and 1535H
- 1.0 MDST credit from MDST 2035Y or 2535H and 3535H
- 5.0 MDST credits in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

BAH.MDST.COOP - Media Studies - Co-op

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
www.trentu.ca/coop

Co-op is an opportunity for students to gain work-integrated experiential learning that will help them get a head start on a career. The Media Studies Co-op assists graduating students in achieving a competitive edge while generating experience within a wide range of sectors. Specifically, co-op gives the students a chance to obtain 12 months of practical experience on the job, develop or enhance technical skills, explore career options, network with a variety of individuals and organizations, learn from mentors and tutors, enhance communication and presentation skills, and develop technical writing skills.

INFORMATION & ADDITIONAL NOTES

- Co-op students are responsible for paying tuition for their academic courses, ancillary fees, and levies. All Trent students are charged ancillary fees every Fall & Winter term. Co-op students will experience the same cycle for their ancillary fee payments regardless of when they are out on work terms. Co-op students do not pay tuition during their work terms.
- Co-op students are responsible for paying the compulsory Co-op Fee a total of five times during their degree program, and the Co-op fee will be applied to their student account in Year 2 Fall, Year 2 Winter, Year 3 Fall, Year 3 Winter, and Year 4 Fall.
- Students are encouraged to meet with their Co-op Coordinator at CareerSpace each year for support with their co-op work terms, career development, and to confirm they are meeting co-op progression requirements.

Requirements

Bachelor of Arts Program in Media Studies — Co-op

- Co-op students must satisfy the requirements for the single-major BA Honours in Media Studies and the Co-op requirements listed below.
- Media Studies Co-op is a competitive direct-entry program with a limited number of student places. Students who are not admitted directly may apply for admission after commencing studies at Trent and may be admitted on a competitive basis provided there are available spaces in the program.
- To remain in the co-op program, students must complete the required work term preparation and reflection courses (COOP 2000H and 4000H) with a minimum 70% progression requirement in COOP 2000H and 65% in COOP 4000H, and maintain a minimum 75% cumulative average throughout their study terms. In addition, students must continue to receive satisfactory evaluations during each of their three work terms. Students who do not achieve a minimum 70% in COOP 2000H will be withdrawn from the co-op program but may continue their studies in Media Studies or transfer to a major in a different subject. Once withdrawn, students are not eligible to re-enter the co-op program. Students who do not achieve a minimum 65% in COOP 4000H but otherwise fulfill all degree requirements will be awarded an Honours degree in Media Studies without the Co-op designation.
- Three non-credit co-op work terms are required for the BA program in Media Studies Co-op (COOP 2100P, 3100P, 4100P). The prerequisite for the first work term (COOP 2100P) for students in this program is completion of COOP 2000H with a minimum grade of 70% and completion of at least 10.0 academic credits. The schedule for the single-major Honours program is listed below. Students who choose to explore any additions (minor, specialization, option) to a single-major Honours may require additional time to complete their degrees, as all courses are not offered in every term. It is expected that students follow the set work term schedule. Students are encouraged to work with an academic advisor for support with degree mapping.

YEAR	FALL	WINTER	SUMMER
Year 1	Study Term 1	Study Term 2	Study Term 3
Year 2	Study Term 4	Study Term 5	Work Term 1
Year 3	Study Term 6	Study Term 7	Work Term 2
Year 4	Work Term 3	Study Term 8	–

- Students on a work term must complete learning objectives, a midterm evaluation, a final evaluation, and a final work term report. Co-op employers will also complete a midterm evaluation and final evaluation of the student's work term. Upon receiving the completed documentation and upon a satisfactory employer assessment, a Pass (P) or Fail (F) will be assigned for COOP 2100P, 3100P, and 4100P. CareerSpace makes every effort to find suitable work terms for students enrolled in the co-op program, but a work term opportunity cannot be guaranteed for every student. The work term process is competitive and dependent upon many factors including market conditions, the preparedness of a student including their job applications and performance in job interviews, and the academic performance of a student. Co-op students secure positions through successful participation in the co-op interview process and/or their own job search activities. Withdrawal from the co-op program will not normally be approved while a student is on a work term. Students are not permitted to take an academic course during a scheduled work term.
- Students who are unable to obtain a suitable co-op opportunity in an upcoming work term are expected to continue with their academic program on a full-time basis. A single missed work term can be made up, but in the event that a co-op student cannot secure their work term for a second time, they will be withdrawn from the co-op program. If a student is unable to complete three work terms yet otherwise fulfills all degree requirements, the student will be awarded an Honours Bachelor of Arts in Media Studies.

BAH.MDST.SWAN - Media Studies - BA Honours - Swansea Law

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
Program Website

Trent University, in partnership with Swansea University, United Kingdom, offers a dual degree leading to a Trent Bachelor of Arts (Honours) degree (BA) or Bachelor of Business Administration (BBA) and a Single Honours Law degree (LLB) from Swansea. The program allows students to complete the requirements for both degrees in a structured six-year program of study.

Upon admission to Trent University, students select a major in one of the available subjects for the dual degree. Students spend their first two years of full-time study at Trent in Peterborough or Durham, taking 10.0 credits toward their Bachelor of Arts (Honours) or Bachelor of Business Administration program (5.0 credits per academic year). Students then transfer to Swansea University for years three, four, and five to complete their study in the LLB degree program, taking on a full-time course load (120 credits per academic year, which equates to a normal 5.0-credit per year Canadian university course load). Following successful completion of the LLB with the required minimum overall average, students are awarded transfer credits and return to Trent to complete the requirements for the BA or BBA program, which include courses focused in Canadian Law (LAWS courses) to help prepare them for the National Committee on Accreditation exams.

Students will graduate at the end of the sixth year with both an undergraduate Bachelor of Arts (Honours) or Bachelor of Business Administration degree from Trent University and a Single Honours Law degree from Swansea University.

As this is a dual degree and not a joint degree, Swansea University reserves all rights to make adjustments to the required courses for the LLB degree at any point in time. The most up-to-date program overview can be found on the Swansea University website.

ACADEMIC PROGRESSION

Application to the Trent/Swansea dual degree is through the Ontario University Application Centre. Students must achieve a minimum secondary school average of 80% to be admitted to the program. This entry grade is subject to change annually based on the application cohort and the number of spaces available in the program; however, the minimum average for acceptance to the program will never fall below 80%.

To progress successfully to year three of the dual degree and to commence the LLB portion at Swansea University, students must complete the required Intent to Continue communication and must meet the requirements below:

- declared program major for the Trent BA or BBA degree from the list of majors included in the program;
- successful completion of years one and two at Trent University, including all courses required for the declared major, with a minimum cumulative average of 77%;
- successful completion of no fewer than 10.0 Trent University credits before enrolling in classes at Swansea (a maximum of 5.0 transfer credits is allowable toward this total);
- obtained and provided proof of an approved Tier 4 (General) Study Visa;
- confirmation that they have not been found to have breached any University regulations; and,
- have no known reasons to be denied access to the United Kingdom.

Following successful completion of the LLB degree at Swansea University, student transcripts will be forwarded to the Office of the Registrar at Trent University to ensure standards are met and at this point students will be reactivated as current students at Trent University. Once students enter into the final year of study to obtain all requirements for successful completion of the Dual Degree Bachelor of Arts (Honours) or Bachelor of Business Administration degree, they will be awarded the 5.0 transfer credits toward their degree completion.

Students currently studying at Trent, and transfer students from other postsecondary institutions who have been admitted to Trent University, may be able to access the Trent/Swansea dual degree. Contact the Trent/Swansea Law Program Coordinator for further details.

Requirements

Bachelor of Arts Program in Media Studies – Trent/Swansea Dual Degree

The single-major Honours program. 20.0 credits including the following:

Year 1

5.0 credits including the following:

- 1.0 MDST credit consisting of MDST 1010H and 1535H
- 1.0 MDST credit in addition to the above
- 3.0 elective credits, including 0.5 ICR credit from the Approved Indigenous Course List

Year 2

5.0 credits including the following:

- 1.0 MDST credit from MDST 2035Y or 2535H and 3535H
- 3.0 MDST credits in addition to the above
- 1.0 elective credit

Years 3-5 – at Swansea

*Students must take Swansea's Canadian Constitutional Law (LAA362) module in Year 5 (their final year at Swansea) if it is offered, as Trent will not likely offer LAWS 4030H Canadian Constitutional Law during the subsequent year. Students who take LAA362 at Swansea will receive a transfer credit for LAWS 4030H in place of 0.5 3000-level ARTS unassigned transfer credit, which will require them to take an additional 0.5 elective credit in Year 6 instead.

Year 6

5.0 transfer credits awarded for successful completion of LLB program (years 3-5):

- 1.0 unassigned MDST credit at the 3000 level
- 4.0 unassigned ARTS credits at the 3000 level

5.0 credits including the following:

- 2.5 LAWS credits consisting of LAWS 4000H, 4010H, 4020H, 4030H*, and 4040H
- 1.0 MDST credit at the 4000 level
- 1.0 MDST credit at the 3000 level or beyond in addition to the above

- 0.5 elective credit

Note: Students declaring a Media Studies major in the Trent/Swansea program are recommended to take the following modules at Swansea if available:

- LAA 227/327 Media Law
- LAA 328 Cybercrime

IMPORTANT GENERAL NOTES

- In addition to the program requirements, students must satisfy the University degree requirements. Students are encouraged to complete the requirement for 0.5 credit from the Approved Indigenous Course List in either year one or year two of the program.
- Students are encouraged to take additional courses in their declared major as electives, but the total number of credits in the major discipline may not exceed 13.0.
- LAWS 4050H is recommended to be taken as an elective in year six of the program where possible.
- Prerequisites for required courses will normally be waived for students in the Trent/Swansea dual degree. Prior to registration in any course in the major for which a waiver is needed, students must contact the chair of the department, indicate that they are enrolled in the dual degree program, and request permission to register without the prerequisite.
- Successful completion of the LLB degree program with a minimum weighted average of 40% (according to Swansea University's grading scale) is required to award students with transfer credits toward the Trent BA or BBA degree. Per-course grade average to be determined.
- In year six of the dual degree, 2.5 Trent University credits in Canadian Law as prescribed by the Program must be completed, in addition to 2.5 credits required per their Trent degree requirements. The Canadian Law courses are intended to support students in writing their National Committee on Accreditation (NCA) exams. Students must take Swansea's Canadian Constitutional Law (LAA362) module in Year 5 (their final year at Swansea) if it is offered, as Trent will not likely offer LAWS 4030H Canadian Constitutional Law during the subsequent year. Completion of LAA362 at Swansea satisfies the Year 6 requirement to take LAWS 4030H and means students will have an additional 0.5 elective credit in Year 6 instead.
- Note to Trent Durham GTA students in the Trent/Swansea Law Dual Degree: for Year 6, the required 4000-level LAWS courses are only offered in Peterborough.

BAH.PHIL - Philosophy - BA Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
www.trentu.ca/philosophy

The Philosophy Department at Trent aims to provide students with skills in creating, understanding, evaluating, defending, and criticizing arguments. Some students recognize the intrinsic merits and interests of Philosophy. Our program ensures that these students are provided with grounding in the history of the discipline as well as opportunities to explore areas of particular philosophical interest. Other students wish to develop the kinds of critical reading, writing, thinking, and speaking skills that are best taught in Philosophy courses. These students recognize the value of these skills whatever discipline they study at Trent and whatever futures they imagine for themselves. The undergraduate program at Trent offers programs that are designed to satisfy the needs of both kinds of students.

Requirements

Bachelor of Arts Program in Philosophy

- It is strongly recommended that students successfully complete two of PHIL 1000H, 1100H, or 1200H before enrolling in upper-level Philosophy courses.
- It is strongly recommended that students majoring in Philosophy take PHIL-AGRS 2420H and/or 2430H before they take PHIL 3420H or 3430H, and that they take PHIL-AGRS 2420H and/or 2430H in the second year of the program.
- PHIL-COIS 2410H is strongly recommended for all students in Philosophy, especially for those intending to do graduate work in Philosophy.
- No more than 1.0 credit from reading courses may count toward the number of Philosophy credits required for the degree.
- Students may earn a joint-major Honours BSc in Philosophy and a Science subject if they satisfy the departmental requirements for the joint-major Honours program in Philosophy and in the Science subject and if they complete 14.0 science credits. PHIL-COIS 2410H, PHIL-PSYC 2270H, PHIL 2780H, and PHIL-PSYC 3020H count as science credits. Students who wish to earn a BSc should consult with the chair of the department very early in their program.

The single-major Honours program. 20.0 credits including the following 9.0 credits:

- 1.5 PHIL credits at the 4000 level
- 3.5 PHIL credits at the 3000 level or beyond in addition to the above
- 4.0 PHIL credits in addition to the above
- The 9.0 credits must include:
- 0.5 PHIL credit from PHIL 1200H or 2410H
- 2.0 PHIL credits from PHIL 2420H, 2430H, 3420H, 3430H, 4530H, or 4540H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The joint-major Honours program. 20.0 credits including the following 7.0 credits:

- 1.0 PHIL credit at the 4000 level
- 2.5 PHIL credits at the 3000 level or beyond in addition to the above
- 3.5 PHIL credits in addition to the above
- The 7.0 credits must include 2.0 PHIL credits from PHIL 2420H, 2430H, 3420H, 3430H, 4530H, or 4540H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

- 2.5 LAWS credits consisting of LAWS 4000H, 4010H, 4020H, 4030H*, and 4040H

- 0.5 PHIL credit from PHIL 3420H or 3430H (dependent on which was completed in year two at Trent)
- 1.0 PHIL credit at the 4000 level
- 0.5 PHIL credit at the 3000 level or beyond in addition to the above
- 0.5 elective credit

IMPORTANT GENERAL NOTES

- In addition to the program requirements, students must satisfy the University degree requirements. Students are encouraged to complete the requirement for 0.5 credit from the Approved Indigenous Course List in either year one or year two of the program.
- Students are encouraged to take additional courses in their declared major as electives, but the total number of credits in the major discipline may not exceed 13.0.
- LAWS 4050H is recommended to be taken as an elective in year six of the program where possible.
- Prerequisites for required courses will normally be waived for students in the Trent/Swansea dual degree. Prior to registration in any course in the major for which a waiver is needed, students must contact the chair of the department, indicate that they are enrolled in the dual degree program, and request permission to register without the prerequisite.
- Successful completion of the LLB degree program with a minimum weighted average of 40% (according to Swansea University's grading scale) is required to award students with transfer credits toward the Trent BA or BBA degree. Per-course grade average to be determined.
- In year six of the dual degree, 2.5 Trent University credits in Canadian Law as prescribed by the Program must be completed, in addition to 2.5 credits required per their Trent degree requirements. The Canadian Law courses are intended to support students in writing their National Committee on Accreditation (NCA) exams. Students must take Swansea's Canadian Constitutional Law (LAA362) module in Year 5 (their final year at Swansea) if it is offered, as Trent will not likely offer LAWS 4030H Canadian Constitutional Law during the subsequent year. Completion of LAA362 at Swansea satisfies the Year 6 requirement to take LAWS 4030H and means students will have an additional 0.5 elective credit in Year 6 instead.
- Note to Trent Durham GTA students in the Trent/ Swansea Law Dual Degree: for Year 6, the required 4000-level LAWS courses are only offered in Peterborough.

BAH.PLCW - Policing & Community Well-Being - BA Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
www.trentu.ca/durham/program/policing-community-well-being

Policing & Community Well-Being at Trent provides an understanding of the main theoretical concepts and practices by police and other social agencies and organizations as they relate to complex social issues impacting community safety and well-being. Students develop a wide range of skills, from interpreting crime and social disorder data to contributing to a multi-disciplinary approach to social development in order to reduce and prevent the incidence of crime and social disorder. Graduates will be prepared for the modern police service, as well as service in other social agencies and municipal governance (law, community research, conflict mediator, policy analyst) that collaborate across sectors to achieve the goals of community safety and well-being for all.

Requirements

Bachelor of Arts Program in Policing and Community Well-Being

- For students in a joint major with Child & Youth Studies, Communications, or Sociology, CHYS-COMM 2010H and SOCI 2151H are equivalent to PLCW 2100H for program requirements but do not count as a Policing & Community Well-Being credit. Students who have successfully completed CHYS-COMM 2010H or SOCI 2151H are not permitted to take PLCW 2100H but must substitute another PLCW course at the 2000 level or beyond in order to fulfill degree requirements.
- Students in the program are recommended to include one of SOCI 2430H, 2610H, or 2615H as electives for the degree.
- Students may take only one of PLCW 4004Y or PLCW 4005Y for credit.

The single-major Honours program. 20.0 credits including the following 9.0 credits:

- 5.0 PLCW credits consisting of PLCW 1001H, 1003H, 2002H, 2005H, 2010H, 2100H, 3002H, 3003H, 3004H, and 3007H
- 1.5 PLCW credits at the 4000 level
- 1.0 PLCW credit at the 2000 level or beyond in addition to the above
- 0.5 FRSC credit consisting of FRSC 1100H
- 1.0 SOCI credit consisting of SOCI 1001H and 1002H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The joint-major Honours program. 20.0 credits including the following 8.5 credits:

- 5.0 PLCW credits consisting of PLCW 1001H, 1003H, 2002H, 2005H, 2010H, 2100H, 3002H, 3003H, 3004H, and 3007H
- 1.5 PLCW credits at the 4000 level
- 0.5 PLCW credit at the 2000 level or beyond in addition to the above
- 0.5 FRSC credit consisting of FRSC 1100H
- 1.0 SOCI credit consisting of SOCI 1001H and 1002H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

BAH.POST - Political Studies - BA Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
www.trentu.ca/politicalstudies

The Department of Political Studies provides for general study and for concentration in one or more fields—world politics, Canadian politics, and political theory. All three major fields of Political Studies are interconnected through four overlapping thematic clusters: (1) institutions, law, and policy, (2) political economy, (3) political culture and identity, and (4) alternative politics—allowing for a large variety of combinations for individual study.

INFORMATION & ADDITIONAL NOTES

- The Political Studies Department also offers a joint-major Honours program in International Political Economy, undergraduate certificates in Democratic Leadership and Political Leadership, and an Option in Leadership. See Calendar entries for more information.
- Global Power & Politics is a recognized Section of the Political Studies Department, offering an Option in Global Power & Politics. Political Studies courses delivered by members of the Global Power & Politics Section are marked (GP) in the individual course descriptions. The Centre for the Critical Study of Global Power & Politics is a Research Centre devoted to research in Global Power & Politics. The Centre is both a research centre and a resource for courses offered by members of the Global Power & Politics Section.
- Students interested in the possibility of registering for a reading course (POST 3900Y, 3901H, 3902H, 3903H, 4900Y, 4901H, 4902H, 4903H), research practicum (POST 4800Y, 4801H, 4802H), internship (POST 4870Y, 4871H, 4872H), or thesis (POST 4020D) should consult with the department regarding prerequisites and application procedures.

Requirements

Bachelor of Arts Program in Political Studies

The single-major Honours program. 20.0 credits including the following 9.0 credits:

- 1.5 POST credits consisting of POST 1001H, 1002H, and 3600H
- 1.0 POST credit from POST 2011H, 2012H, 2231H, or 2232H
- 0.5 POST credit from POST 2351H or 2352H
- 2.0 POST credits at the 4000 level
- 3.0 POST credits at the 3000 level or beyond in addition to the above
- 1.0 POST credit in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The joint-major Honours program. 20.0 credits including the following 7.0 credits:

- 1.5 POST credits consisting of POST 1001H, 1002H, and 3600H
- 1.0 POST credit from POST 2011H, 2012H, 2231H, or 2232H
- 0.5 POST credit from POST 2351H or 2352H
- 2.0 POST credits at the 4000 level
- 1.5 POST credits at the 3000 level or beyond in addition to the above
- 0.5 POST credit in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

Specializations

Specialization in Global Politics & International Studies

Specialization in International Law & Policy

Specialization in Political Theory

BAH.POST.COOP - Political Studies - Co-op

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
Co-op is an opportunity for students to gain work-integrated experiential learning that will help them get a head start on a career. The Political Studies Co-op assists graduating students in achieving a competitive edge while generating experience within a wide range of sectors. Specifically, co-op gives the students a chance to obtain 12 months of practical experience on the job, develop or enhance technical skills, explore career options, network with a variety of individuals and organizations, learn from mentors and tutors, enhance communication and presentation skills, and develop technical writing skills.

INFORMATION & ADDITIONAL NOTES

- Co-op students are responsible for paying tuition for their academic courses, ancillary fees, and levies. All Trent students are charged ancillary fees every Fall & Winter term. Co-op students will experience the same cycle for their ancillary fee payments regardless of when they are out on work terms. Co-op students do not pay tuition during their work terms.
- Co-op students are responsible for paying the compulsory Co-op Fee a total of five times during their degree program, and the Co-op fee will be applied to their student account in Year 2 Fall, Year 2 Winter, Year 3 Fall, Year 3 Winter, and Year 4 Fall.
- Students are encouraged to meet with their Co-op Coordinator at CareerSpace each year for support with their co-op work terms, career development, and to confirm they are meeting co-op progression requirements.
- Political Studies Co-op is a competitive direct-entry program with a limited number of student places. Students who are not admitted directly may apply for admission after commencing studies at Trent and may be admitted on a competitive basis provided there are available spaces in the program.
- To remain in the co-op program, students must complete the required work term preparation and reflection courses (COOP 2000H and 4000H) with a minimum 70% progression requirement in COOP 2000H and 65% in COOP 4000H, and maintain a minimum 75% cumulative average throughout their study terms. In addition, students must continue to receive satisfactory evaluations during each of their three work terms. Students who do not achieve a minimum 70% in COOP 2000H will be withdrawn from the Co-op program but may continue their studies in Political Studies or transfer to a major in a different subject. Once withdrawn, students are not eligible to re-enter the Co-op program. Students who do not achieve a minimum 65% in COOP 4000H but otherwise fulfill all degree requirements will be awarded an Honours degree in Political Studies without the Co-op designation.
- Three non-credit co-op work terms are required for the BA program in Political Studies Co-op (COOP 2100P, 3100P, 4100P). The prerequisite for the first work term (COOP 2100P) for students in this program is completion of COOP 2000H with a minimum grade of 70% and completion of at least 10.0 academic credits. The schedule for the single-major Honours program is listed below. Students who choose to explore any additions (minor, specialization, or option) to a single-major Honours may require additional time to complete their degrees, as all courses are not offered in every term. It is expected that students follow the set work term schedule. Students are encouraged to work with an academic advisor for support with degree mapping.

Requirements

Bachelor of Arts Program in Political Studies — Co-op

- Co-op students must satisfy the requirements for the single-major BA Honours in Political Studies and the Co-op requirements listed below.

YEAR	FALL	WINTER	SUMMER
Year 1	Study Term 1	Study Term 2	Study Term 3
Year 2	Study Term 4	Study Term 5	Work Term 1
Year 3	Study Term 6	Study Term 7	Work Term 2
Year 4	Work Term 3	Study Term 8	–

- Students on a work term must complete learning objectives, a midterm evaluation, a final evaluation, and a final work term report. Co-op employers will also complete a midterm evaluation and final evaluation of the student's work term. Upon receiving the completed documentation and upon a satisfactory employer assessment, a Pass (P) or Fail (F) will be assigned for COOP 2100P, 3100P, and 4100P. CareerSpace makes every effort to find suitable work terms for students enrolled in the co-op program, but a work term opportunity cannot be guaranteed for every student. The work term process is competitive and dependent upon many factors including market conditions, the preparedness of a student including their job applications and performance in job interviews, and the academic performance of a student. Co-op students secure positions through successful participation in the co-op interview process and/or their own job search activities. Withdrawal from the co-op program will not normally be approved while a student is on a work term. Students are not permitted to take an academic course during a scheduled work term.
- Students who are unable to obtain a suitable co-op opportunity in an upcoming work term are expected to continue with their academic program on a full-time basis. A single missed work term can be made up, but in the event that a co-op student cannot secure their work term for a second time, they will be withdrawn from the co-op program. If a student is unable to complete three work terms yet otherwise fulfills all degree requirements, the student will be awarded an Honours Bachelor of Arts in Political Studies.

BAH.POST.SWAN - Political Studies - BA Honours - Swansea Law

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
Program Website

Trent University, in partnership with Swansea University, United Kingdom, offers a dual degree leading to a Trent Bachelor of Arts (Honours) degree (BA) or Bachelor of Business Administration (BBA) and a Single Honours Law degree (LLB) from Swansea. The program allows students to complete the requirements for both degrees in a structured six-year program of study.

Upon admission to Trent University, students select a major in one of the available subjects for the dual degree. Students spend their first two years of full-time study at Trent in Peterborough or Durham, taking 10.0 credits toward their Bachelor of Arts (Honours) or Bachelor of Business Administration program (5.0 credits per academic year). Students then transfer to Swansea University for years three, four, and five to complete their study in the LLB degree program, taking on a full-time course load (120 credits per academic year, which equates to a normal 5.0-credit per year Canadian university course load). Following successful completion of the LLB with the required minimum overall average, students are awarded transfer credits and return to Trent to complete the requirements for the BA or BBA program, which include courses focused in Canadian Law (LAWS courses) to help prepare them for the National Committee on Accreditation exams.

Students will graduate at the end of the sixth year with both an undergraduate Bachelor of Arts (Honours) or Bachelor of Business Administration degree from Trent University and a Single Honours Law degree from Swansea University.

As this is a dual degree and not a joint degree, Swansea University reserves all rights to make adjustments to the required courses for the LLB degree at any point in time. The most up-to-date program overview can be found on the Swansea University website.

ACADEMIC PROGRESSION

Application to the Trent/Swansea dual degree is through the Ontario University Application Centre. Students must achieve a minimum secondary school average of 80% to be admitted to the program. This entry grade is subject to change annually based on the application cohort and the number of spaces available in the program; however, the minimum average for acceptance to the program will never fall below 80%.

To progress successfully to year three of the dual degree and to commence the LLB portion at Swansea University, students must complete the required *Intent to Continue* communication and must meet the requirements below:

- declared program major for the Trent BA or BBA degree from the list of majors included in the program;
- successful completion of years one and two at Trent University, including all courses required for the declared major, with a minimum cumulative average of 77%;
- successful completion of no fewer than 10.0 Trent University credits before enrolling in classes at Swansea (a maximum of 5.0 transfer credits is allowable toward this total);
- obtained and provided proof of an approved Tier 4 (General) Study Visa;
- confirmation that they have not been found to have breached any University regulations; and,
- have no known reasons to be denied access to the United Kingdom.

Following successful completion of the LLB degree at Swansea University, student transcripts will be forwarded to the Office of the Registrar at Trent University to ensure standards are met and at this point students will be reactivated as current students at Trent University. Once students enter into the final year of study to obtain all requirements for successful completion of the Dual Degree Bachelor of Arts (Honours) or Bachelor of Business Administration degree, they will be awarded the 5.0 transfer credits toward their degree completion.

Students currently studying at Trent, and transfer students from other postsecondary institutions who have been admitted to Trent University, may be able to access the Trent/Swansea dual degree. Contact the Trent/Swansea Law Program Coordinator for further details.

Requirements

Bachelor of Arts Program in Political Studies – Trent/Swansea Dual Degree

The single-major Honours program. 20.0 credits including the following:

Year 1

5.0 credits including the following:

- 1.0 POST credit consisting of POST 1001H and 1002H
- 4.0 elective credits, including 0.5 ICR credit from the Approved Indigenous Course List

Year 2

5.0 credits including the following:

- 0.5 POST credit consisting of POST 3600H
- 1.0 POST credit from POST 2011H, 2012H, 2231H, or 2232H
- 0.5 POST credit from POST 2351H or 2352H
- 1.0 POST credit in addition to the above
- 2.0 elective credits

Years 3-5 – at Swansea

*Students must take Swansea's Canadian Constitutional Law (LAA362) module in Year 5 (their final year at Swansea) if it is offered, as Trent will not likely offer LAWS 4030H Canadian Constitutional Law during the subsequent year. Students who take LAA362 at Swansea will receive a transfer credit for LAWS 4030H in place of 0.5 3000-level ARTS unassigned transfer credit, which will require them to take an additional 0.5 elective credit in Year 6 instead.

Year 6

5.0 transfer credits awarded for successful completion of LLB program (years 3-5):

- 2.5 unassigned POST credits at the 3000 level
- 0.5 unassigned POST credit at the 4000 level
- 2.0 unassigned ARTS credits at the 3000 level

5.0 credits including the following:

- 2.5 LAWS credits consisting of LAWS 4000H, 4010H, 4020H, 4030H*, and 4040H
- 1.5 POST credits at the 4000 level

- 0.5 POST credit at the 3000 level or beyond in addition to the above
- 0.5 elective credit

Note: Students declaring a Political Studies major at Trent in the Trent/Swansea program are recommended to take some of the following modules at Swansea if available:

- LAA 228/329 Human Rights and Social Justice
- LAA 222/333 International Law: Principles and Procedures
- LAA 221/331 International Disputes Settlement
- LAA 244/344 Multi-Level Governance
- LAA 213/304 World Trade Law
- LAA 320 Terrorism: The Legal Response

IMPORTANT GENERAL NOTES

- In addition to the program requirements, students must satisfy the University degree requirements. Students are encouraged to complete the requirement for 0.5 credit from the Approved Indigenous Course List in either year one or year two of the program.
- Students are encouraged to take additional courses in their declared major as electives, but the total number of credits in the major discipline may not exceed 13.0.
- LAWS 4050H is recommended to be taken as an elective in year six of the program where possible.
- Prerequisites for required courses will normally be waived for students in the Trent/Swansea dual degree. Prior to registration in any course in the major for which a waiver is needed, students must contact the chair of the department, indicate that they are enrolled in the dual degree program, and request permission to register without the prerequisite.
- Successful completion of the LLB degree program with a minimum weighted average of 40% (according to Swansea University's grading scale) is required to award students with transfer credits toward the Trent BA or BBA degree. Per-course grade average to be determined.
- In year six of the dual degree, 2.5 Trent University credits in Canadian Law as prescribed by the Program must be completed, in addition to 2.5 credits required per their Trent degree requirements. The Canadian Law courses are intended to support students in writing their National Committee on Accreditation (NCA) exams. Students must take Swansea's Canadian Constitutional Law (LAA362) module in Year 5 (their final year at Swansea) if it is offered, as Trent will not likely offer LAWS 4030H Canadian Constitutional Law during the subsequent year. Completion of LAA362 at Swansea satisfies the Year 6 requirement to take LAWS 4030H and means students will have an additional 0.5 elective credit in Year 6 instead.
- Note to Trent Durham GTA students in the Trent/Swansea Law Dual Degree: for Year 6, the required 4000-level LAWS courses are only offered in Peterborough.

BAH.PSYC - Psychology - BA Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
www.trentu.ca/psychology

Psychology is defined as the scientific study of behaviour and the mind. As such, psychological research provides insight into questions on topics such as newborn infants' preference for their mother's voice, the link between personality and academic achievement or physical health, how sleep influences learning and memory, the identification of individuals who are at risk for Alzheimer's disease or cancer, sexual negotiation and behaviour in young adults, or even how you understand these words you are reading right now. Psychology is a scientific discipline with a multitude of practical applications: it deals with every aspect of our lives, and in its application of scientific methods to questions of human concern, it helps us to better understand how and why people act, think, and feel the way they do. The Psychology program at Trent ensures that students acquire research skills and a broad-based background in the basic content of the discipline, and that they have the opportunity at upper levels to focus on more specialized topics and to become involved in original research.

INFORMATION & ADDITIONAL NOTES

- 60% or higher in PSYC 1020H and 1030H is a prerequisite for all upper-level Psychology courses.
- A 4U Mathematics course is strongly recommended for students who plan to major in Psychology.
- Most courses at the 2000 and 3000 level in the department are assigned to one of two categories (Natural Science or Social Science). Students in the single-major or joint-major program in Psychology must include in their program a range of courses chosen from each category, as indicated in the requirements for the various program options.
- Any course involving work with live vertebrate animals requires the Animal Care Course. The Animal Care Course requirement is indicated in some course descriptions but may also apply to others. Check with the course instructor if in doubt.
- For non-majors taking courses where PSYC 2018H or 2019H is a prerequisite, a statistics course in another discipline may be substituted, but only if the permission of the department has been granted.
- A maximum 2.0 credits consisting of either reading courses (PSYC 3900Y, 3901H, 3902H, 4900Y, 4901H, and 4902H) and/or research practicum courses (PSYC 3801H, 3802H, 4801H, and 4802H) may be counted toward the course requirements for a major or joint-major degree in Psychology.
- Research practicum and reading courses are only open to students in the single-major or joint-major Honours programs in Psychology.
- Offerings of 4000-level courses change from year to year. A listing of the 4000 level courses can be found on the academic timetable.
- The Psychology Honours thesis is a major research project counting as 2.0 credits in PSYC or combining 1.0 credit in PSYC and 1.0 in the other discipline in a joint-major. Both options are open to joint-majors.

Requirements

Bachelor of Arts Program in Psychology

- There are two options within the single- and joint-major Honours programs in Psychology, the course option and thesis option. For the requirements, see below.
- The department offers both a BA and a BSc degree. Students completing the single-major or joint-major Honours BSc program require 14.0 science credits, including at least 2.0 science credits that are not Psychology or cross-listed Psychology courses. The 1.0 MATH credit requirement must be completed for all Psychology BSc degrees. PSYC 2018H and 2019H fulfill the requirement for 1.0 credit in Mathematics for the single-major (Honours or General) BSc in Psychology.
- Students may obtain only one specialization as part of an Honours Psychology degree.

The single-major Honours program. (Course or Thesis Options available.) 20.0 credits including the following 10.0 credits:

- 2.5 PSYC credits consisting of PSYC 1020H, 1030H, 2018H, 2019H, and 3016H

- 0.5 PSYC credit from A2
- 0.5 PSYC credit from B2
- 1.0 PSYC credit from A3
- 1.0 PSYC credit from B3
- 1.0 PSYC credit at the 4000 level
- 3.5 PSYC credits in addition to the above; select from Course Option or Thesis Option:
    - For Course Option: 3.5 PSYC credits, at least 2.5 at the 3000 level or beyond, or
    - For Thesis Option: 3.5 PSYC credits including PSYC 3017H, 4020D (double-credit thesis), and 1.0 additional PSYC credit at the 3000 level or beyond

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The joint-major Honours program. (Course or Thesis Options available.) 20.0 credits including the following 8.0 or 9.0 credits:

- 2.5 PSYC credits consisting of PSYC 1020H, 1030H, 2018H, 2019H, and 3016H
- 0.5 PSYC credit from A2
- 0.5 PSYC credit from B2
- 1.0 PSYC credit from A3
- 1.0 PSYC credit from B3
- 1.0 PSYC credit at the 4000 level
- 1.5 or 2.5 PSYC credits in addition to the above; select from Course Option or Thesis Option:
    - For Course Option: 1.5 PSYC credits, at the 3000 level or beyond, or
    - For Thesis Option: 1.5 PSYC credits consisting of PSYC 3017H and 4010Y (single-credit thesis) only when combined with 1.0 credit in the other joint-major discipline; or 2.5 PSYC credits consisting of PSYC 3017H and 4020D (double-credit thesis in Psychology)

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

A2: Natural Science / A3: Natural Science / B2: Social Science / B3: Social Science

A2	A3	B2	B3
PSYC 2200H PSYC 2210H PSYC 2400H PSYC 2600H — — — — — — — — — — — —	PSYC 3210H PSYC 3220H PSYC 3230H PSYC 3240H PSYC 3420H PSYC 3430H PSYC 3440H PSYC 3451H PSYC 3460H PSYC 3610H PSYC 3790H — — — —	PSYC 2300H PSYC 2310H PSYC 2550H PSYC 2700H — — — — — — — — — — —	PSYC 3300H PSYC 3330H PSYC 3500H PSYC 3510H PSYC 3550H PSYC 3560H PSYC 3590H PSYC 3710H PSYC 3725H PSYC 3730H PSYC 3740H PSYC 3750H PSYC 3760H PSYC 3770H PSYC 3780H

Specializations

Specialization in Behavioural and Cognitive Neuroscience

Specialization in Health & Well-Being

Specialization in Psychological Development

Specialization in Psychological Research Methods and Data Analysis

Note: Students may choose to complete only one of the four Psychology specializations.

BAH.PSYC.COOP - Psychology - Co-op (BA)

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
www.trentu.ca/coop

Co-op is an opportunity for students to gain work-integrated experiential learning that will help them get a head start on a career. The Psychology Co-op assists graduating students in achieving a competitive edge while generating experience within a wide range of sectors. Specifically, co-op gives the students a chance to obtain 12 months of practical experience on the job, develop or enhance technical skills, explore career options, network with a variety of individuals and organizations, learn from mentors and tutors, enhance communication and presentation skills, and develop technical writing skills.

INFORMATION AND ADDITIONAL NOTES

- The Psychology Co-op is available at Trent's Peterborough campus only.
- Co-op students are responsible for paying tuition for their academic courses, ancillary fees, and levies. All Trent students are charged ancillary fees every Fall & Winter term. Co-op students will experience the same cycle for their ancillary fee payments regardless of when they are out on work terms. Co-op students do not pay tuition during their work terms.
- Co-op students are responsible for paying the compulsory Co-op Fee a total of five times during their degree program, and the Co-op fee will be applied to their student account in Year 3 Fall, Year 3 Winter, Year 4 Fall, Year 4 Winter, and Year 5 Fall.
- Students are encouraged to meet with their Co-op Coordinator at CareerSpace each year for support with their co-op work terms, career development, and to confirm they are meeting co-op progression requirements.

Requirements

Bachelor of Arts Program in Psychology — Co-op

- Co-op students must satisfy the requirements for the single-major BA Honours in Psychology and the Co-op requirements listed below.
- Psychology Co-op is a competitive direct-entry program with a limited number of student places. Students who are not admitted directly may apply for admission after commencing studies at Trent and may be admitted on a competitive basis provided there are available spaces in the program.
- To remain in the co-op program, students must complete the required work term preparation and reflection courses (COOP 2000H and 4000H) with a minimum 70% progression requirement in COOP 2000H and 65% in COOP 4000H, and maintain a minimum 75% cumulative average throughout their study terms. In addition, students must continue to receive satisfactory evaluations during each of their three work terms. Students who do not achieve a minimum 70% in COOP 2000H will be withdrawn from the Co-op program but may continue their studies in Psychology or transfer to a major in a different subject. Once withdrawn, students are not eligible to re-enter the Co-op program. Students who do not achieve a minimum 65% in COOP 4000H but otherwise fulfill all degree requirements will be awarded an Honours degree in Psychology without the Co-op designation.
- Students in the Psychology Co-op follow the co-op continuing model where they complete one 12-month work term (COOP 2100P, 3100P and 4100P) with a single employer. The prerequisite for the first work term (COOP 2100P) for students in this program is completion of COOP 2000H with a minimum grade of 70% and completion of at least 12.0 academic credits. The set work term schedule is listed below. Students who choose to explore any additions (minor, specialization, or option) to a single-major Honours may require additional time to complete their degrees, as all courses are not offered in every term. It is expected that students follow the set work term schedule. Students are encouraged to work with an academic advisor for support with degree mapping.

YEAR	FALL	WINTER	SUMMER
Year 1	Study Term 1	Study Term 2	–
Year 2	Study Term 3	Study Term 4	–
Year 3	Study Term 5	Study Term 6	Work Term
Year 4	Work Term	Work Term	–
Year 5	Study Term 7	Study Term 8	–

- Students on a work term must complete learning objectives, a midterm evaluation, a final evaluation, and a final work term report. Co-op employers will also complete a midterm evaluation and final evaluation of the student's work term. Upon receiving the completed documentation and upon a satisfactory employer assessment, a Pass (P) or Fail (F) will be assigned for COOP 2100P, 3100P, and 4100P. CareerSpace makes every effort to find suitable work terms for students enrolled in the co-op program, but a work term opportunity cannot be guaranteed for every student. The work term process is competitive and dependent upon many factors including market conditions, the preparedness of a student including their job applications and performance in job interviews, and the academic performance of a student. Co-op students secure positions through successful participation in the co-op interview process and/or their own job search activities. Withdrawal from the co-op program will not normally be approved while a student is on a work term. Students are not permitted to take an academic course during a scheduled work term.
- Students who are unable to obtain a suitable co-op opportunity in an upcoming work term are expected to continue with their academic program on a full-time basis. If a student is unable to secure their 12-month work term in Year 3 Summer, the missed work term experience would be delayed to Year 4 Fall. If a co-op student fails to secure their work term experience in Year 4 Fall or is unable to complete their 12-month co-op work term yet otherwise fulfills degree requirements, they will be awarded an Honours Bachelor of Arts or Bachelor of Science in Psychology.

BAH.SAFS - Sustainable Agriculture & Food Systems - BA Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
www.trentu.ca/agriculture

The Sustainable Agriculture & Food Systems program is offered by the Trent School of the Environment. The program examines the environmental, social, and ethical consequences of conventional agriculture; investment in industrial crops to supply fuel and materials; ongoing risks to food security and human health; demand for local food production in the context of global food trade; cultural and social critiques of our food system, including advocacy of animal rights; urban agriculture, regenerative practices, and First Nations agricultural practices. Graduates of the program will be equipped to contribute to discussions regarding sustainability of our food systems, will gain the knowledge to create positive change to our agri-food system, and will have the skills to pursue diverse employment opportunities in agriculture and food.

INFORMATION & ADDITIONAL NOTES

- Both the BA and BSc programs are designed to provide an opportunity for interdisciplinary study of agriculture and food. Accordingly, students pursuing either degree will take courses from several departments, as described in the program requirements below.
- Courses in Sustainable Agriculture & Food Systems fulfilling University science course requirements for the BSc are marked Science in the individual course descriptions.
- There may be a small additional fee for field trips in certain courses.
- The Accelerated Master's program in Environmental & Life Sciences allows students to obtain a research-based MSc within a shorter timeframe. See https://www.trentu.ca/els/experience/msc-program/accelerated-masters-program for details.

Requirements

Bachelor of Arts Program in Sustainable Agriculture & Food Systems

- The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree, with the following exceptions:
    - For students pursuing a joint-major Honours degree in Sustainable Agriculture & Food Systems and Environmental & Resource Science/Studies, only ERSC 1010H and SAFS-ERSC 1020H may be used to simultaneously satisfy the requirements of both programs.
    - For students pursuing a joint-major Honours degree in Sustainable Agriculture & Food Systems and Global Development Studies, only GDST 1001H and 1002H may be used to simultaneously satisfy the requirements of both programs.

The single-major Honours program. 20.0 credits including the following 13.0 credits:

- 4.5 SAFS credits consisting of SAFS 1001H, 1020H, 2350H, 2500H, 3302H, 3341H, 3370H, 3602H, and 4100H
- 0.5 credit from the TSE Capstone Course List*
- 2.0 SAFS credits at the 3000 level or beyond in addition to the above
- 2.0 SAFS credits in addition to the above
- 0.5 ERSC credit consisting of ERSC 1010H
- 1.0 GDST credit consisting of GDST 1001H and 1002H
- 1.0 GEOG credit consisting of GEOG 1030H and 1040H
- 1.5 ERSC/T credits from ERSC 2240H, ERST 2100H, 2510H, 2520H, or 2525H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The joint-major Honours program. 20.0 credits including the following 7.5 credits:

- 2.0 SAFS credits consisting of SAFS 1001H, 1020H, 2350H, and 2500H
- 0.5 credit from the TSE Capstone Course List*
- 2.0 SAFS credits at the 3000 level or beyond in addition to the above
- 1.5 SAFS credits in addition to the above
- 0.5 ERSC credit consisting of ERSC 1010H
- 1.0 GDST credit consisting of GDST 1001H and 1002H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

BAH.SAFS.COOP - Sustainable Agriculture & Food Systems - Co-op (BA)

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
Sustainable Agriculture & Food Systems Co-op will be available as of the 2027-2028 Academic Year.

www.trentu.ca/coop

Co-op is an opportunity for students to gain work-integrated experiential learning that will help them get a head start on a career. The Sustainable Agriculture & Food Systems Co-op assists graduating students in achieving a competitive edge while generating experience within a wide range of sectors. Specifically, co-op gives the students a chance to obtain 12 months of practical experience on the job, develop or enhance technical skills, explore career options, network with a variety of individuals and organizations, learn from mentors and tutors, enhance communication and presentation skills, and develop technical writing skills.

INFORMATION AND ADDITIONAL NOTES

- The Sustainable Agriculture & Food Systems Co-op is available at Trent's Peterborough campus only.
- Co-op students are responsible for paying tuition for their academic courses, ancillary fees, and levies. All Trent students are charged ancillary fees every Fall & Winter term. Co-op students will experience the same cycle for their ancillary fee payments regardless of when they are out on work terms. Co-op students do not pay tuition during their work terms.
- Co-op students are responsible for paying the compulsory Co-op Fee a total of five times during their degree program, and the Co-op fee will be applied to their student account in Year 3 Fall, Year 3 Winter, Year 4 Fall, Year 4 Winter, and Year 5 Fall.
- Students are encouraged to meet with their Co-op Coordinator at CareerSpace each year for support with their co-op work terms, career development, and [illegible] Sustainable Agriculture & Food Systems Co-op.

Requirements

Bachelor of Arts Program in Sustainable Agriculture & Food Systems — Co-op

- Sustainable Agriculture & Food Systems Co-op will be available as of the 2027-2028 Academic Year.
- Co-op students must satisfy the requirements for the single-major BA Honours in Sustainable Agriculture and Food Systems and the Co-op requirements listed below.
- Sustainable Agriculture & Food Systems Co-op is a competitive direct-entry program with a limited number of student places. Students who are not admitted directly may apply for admission after commencing studies at Trent and may be admitted on a competitive basis provided there are available spaces in the program.
- To remain in the co-op program, students must complete the required work term preparation course (COOP 2000H) with a minimum 70% progression requirement, and maintain a 75% cumulative average throughout their study terms. In addition, students must continue to receive satisfactory evaluations during each of their three work terms. Students who do not achieve a minimum 70% in COOP 2000H will be withdrawn from the co-op program but may continue their studies in Sustainable Agriculture & Food Systems or transfer to a major in a different subject. Once withdrawn, students are not eligible to re-enter the co-op program.
- Students in the Sustainable Agriculture & Food Systems Co-op follow the co-op continuing model where they complete one 12-month work term (COOP 2100P, 3100P and 4100P) with a single employer. The prerequisite for the first work term (COOP 2100P) for students in this program is completion of COOP 2000H with a minimum grade of 70% and completion of at least 10.0 academic credits. The schedule for the single-major Honours program is listed below. Students who choose to explore any additions (minor, specialization, or option) to a single-major Honours may require additional time to complete their degrees, as all courses are not offered in every term. It is expected that students follow the set work term schedule. Students are encouraged to work with an academic advisor for support with degree mapping.

YEAR	FALL	WINTER	SUMMER

- Students who are unable to obtain a suitable co-op opportunity in an upcoming work term are expected to continue with their academic program on a full-time basis. A single missed work term can be made up, but in the event that a co-op student cannot secure their work term for a second time, they will be withdrawn from the co-op program. If a student is unable to complete three work terms yet otherwise fulfills all degree requirements, the student will be awarded an Honours Bachelor of Arts in Sustainable Agriculture & Food Systems.

BAH.SOCI - Sociology - BA Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
www.trentu.ca/sociology

Sociology at Trent provides students with a tool kit of theories, research skills, and factual information to enable them to think critically about the changing social conditions they are living through, and about the efforts of people to direct that change. Building on a common core of required courses in theory and research methods, Sociology at Trent offers a wide range of courses in topics such as social inequality, culture, deviance, criminal justice, gender and sexuality, work, migration, race and ethnicity, health and illness, aging, and health care.

INFORMATION & ADDITIONAL NOTES

- The program has two tiers: foundation courses in basic areas of Sociology at the 1000 and 2000 level, and courses in specialized areas of Sociology at the 2000, 3000, and 4000 level. The foundation courses aim to provide grounding in the core theoretical and methodological aspects of the discipline. The specialized courses permit students to study in some detail particular substantive areas in Sociology.
- A pass in SOCI 1001H and 60% or higher in SOCI 1002H is a prerequisite for all upper-level Sociology courses, with the possible exception of cross-listed courses, for which students should check the prerequisites.
- 3000-level courses are open to students who have completed 5.0 university credits, including at least 1.0 credit in Sociology at the 2000 level.
- 4000-level courses are open to students who have completed 10.0 university credits, including SOCI 2110H, SOCI 2151H, SOCI 3151H, and 2.0 additional 3000-level credits, of which at least 1.0 must be SOCI. Exceptions may be made for cross-listed courses, or with permission of the instructor.

Requirements

Bachelor of Arts Program in Sociology

- Students who have successfully completed CRIM 3617H, ECON-ADMN 2200H, GEOG-ERSC-BIOL 2080H, MATH 1051H, MATH 1052H, PSYC 2019H, PSYC 3015Y, or PSYC 3016H are not permitted to take SOCI 3160H but must substitute another half-credit course in Sociology at the 3000 level or beyond in order to fulfill degree requirements.
- For students in a joint major with Child & Youth Studies, Communications, or Policing & Community Well-Being, CHYS-COMM 2010H and PLCW 2100H are equivalent to SOCI 2151H for program requirements but do not count as a Sociology credit. Students who have successfully completed CHYS-COMM 2010H or PLCW 2100H are not permitted to take SOCI 2151H but must substitute another half-credit course in Sociology at the 2000 level or beyond in order to fulfill degree requirements.

The single-major Honours program. 20.0 credits including the following 10.0 credits:

- 3.0 SOCI credits consisting of SOCI 1001H, 1002H, 2110H, 2151H, 3151H, and 3160H
- 0.5 SOCI credit from SOCI 3100H or 3111H
- 2.0 SOCI credits at the 4000 level
- 2.5 SOCI credits at the 3000 level or beyond in addition to the above
- 2.0 SOCI credits in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The joint-major Honours program. 20.0 credits including the following 7.5 credits:

- 3.0 SOCI credits consisting of SOCI 1001H, 1002H, 2110H, 2151H, 3151H, and 3160H
- 0.5 SOCI credit from SOCI 3100H or 3111H
- 1.0 SOCI credit at the 4000 level
- 1.5 SOCI credits at the 3000 level or beyond in addition to the above
- 1.5 SOCI credits in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

BAH.SOCI.SWAN - Sociology - BA Honours - Swansea Law

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
Program Website

Trent University, in partnership with Swansea University, United Kingdom, offers a dual degree leading to a Trent Bachelor of Arts (Honours) degree (BA) or Bachelor of Business Administration (BBA) and a Single Honours Law degree (LLB) from Swansea. The program allows students to complete the requirements for both degrees in a structured six-year program of study.

Upon admission to Trent University, students select a major in one of the available subjects for the dual degree. Students spend their first two years of full-time study at Trent in Peterborough or Durham, taking 10.0 credits toward their Bachelor of Arts (Honours) or Bachelor of Business Administration program (5.0 credits per academic year). Students then transfer to Swansea University for years three, four, and five to complete their study in the LLB degree program, taking on a full-time course load (120 credits per academic year, which equates to a normal 5.0-credit per year Canadian university course load). Following successful completion of the LLB with the required minimum overall average, students are awarded transfer credits and return to Trent to complete the requirements for the BA or BBA program, which include courses focused in Canadian Law (LAWS courses) to help prepare them for the National Committee on Accreditation exams.

Students will graduate at the end of the sixth year with both an undergraduate Bachelor of Arts (Honours) or Bachelor of Business Administration degree from Trent University and a Single Honours Law degree from Swansea University.

As this is a dual degree and not a joint degree, Swansea University reserves all rights to make adjustments to the required courses for the LLB degree at any point in time. The most up-to-date program overview can be found on the Swansea University website.

ACADEMIC PROGRESSION

Application to the Trent/Swansea dual degree is through the Ontario University Application Centre. Students must achieve a minimum secondary school average of 80% to be admitted to the program. This entry grade is subject to change annually based on the application cohort and the number of spaces available in the program; however, the minimum average for acceptance to the program will never fall below 80%.

To progress successfully to year three of the dual degree and to commence the LLB portion at Swansea University, students must complete the required *Intent to Continue* communication and must meet the requirements below:

- declared program major for the Trent BA or BBA degree from the list of majors included in the program;
- successful completion of years one and two at Trent University, including all courses required for the declared major, with a minimum cumulative average of 77%;
- successful completion of no fewer than 10.0 Trent University credits before enrolling in classes at Swansea (a maximum of 5.0 transfer credits is allowable toward this total);
- obtained and provided proof of an approved Tier 4 (General) Study Visa;
- confirmation that they have not been found to have breached any University regulations; and,
- have no known reasons to be denied access to the United Kingdom.

Following successful completion of the LLB degree at Swansea University, student transcripts will be forwarded to the Office of the Registrar at Trent University to ensure standards are met and at this point students will be reactivated as current students at Trent University. Once students enter into the final year of study to obtain all requirements for successful completion of the Dual Degree Bachelor of Arts (Honours) or Bachelor of Business Administration degree, they will be awarded the 5.0 transfer credits toward their degree completion.

Students currently studying at Trent, and transfer students from other postsecondary institutions who have been admitted to Trent University, may be able to access the Trent/Swansea dual degree. Contact the Trent/Swansea Law Program Coordinator for further details.

Requirements

Bachelor of Arts Program in Sociology – Trent/Swansea Dual Degree

The single-major Honours program. 20.0 credits including the following:

Year 1

5.0 credits including the following:

- 1.5 SOCI credits consisting of SOCI 1001H, 1002H, and 2110H
- 3.5 elective credits, including 0.5 ICR credit from the Approved Indigenous Course List

Year 2

5.0 credits including the following:

- 1.0 SOCI credit consisting of 2151H and 3151H
- 0.5 SOCI credit from SOCI 3100H or 3111H
- 2.0 SOCI credits in addition to the above
- 1.5 elective credits

Years 3-5 – at Swansea

*Students must take Swansea's Canadian Constitutional Law (LAA362) module in Year 5 (their final year at Swansea) if it is offered, as Trent will not likely offer LAWS 4030H Canadian Constitutional Law during the subsequent year. Students who take LAA362 at Swansea will receive a transfer credit for LAWS 4030H in place of 0.5 3000-level ARTS unassigned transfer credit, which will require them to take an additional 0.5 elective credit in Year 6 instead.

Year 6

5.0 transfer credits awarded for successful completion of LLB program (years 3-5):

- 2.0 unassigned SOCI credits at the 3000 level
- 1.0 unassigned SOCI credit at the 4000 level
- 2.0 unassigned ARTS credits at the 3000 level

5.0 credits including the following:

- 2.5 LAWS credits consisting of LAWS 4000H, 4010H, 4020H, 4030H*, and 4040H
- 0.5 SOCI credit consisting of SOCI 3160H
- 1.0 SOCI credit at the 4000 level

- 0.5 SOCI credit at the 3000 level or beyond in addition to the above
- 0.5 elective credit

IMPORTANT GENERAL NOTES

- In addition to the program requirements, students must satisfy the University degree requirements. Students are encouraged to complete the requirement for 0.5 credit from the Approved Indigenous Course List in either year one or year two of the program.
- Students are encouraged to take additional courses in their declared major as electives, but the total number of credits in the major discipline may not exceed 13.0.
- LAWS 4050H is recommended to be taken as an elective in year six of the program where possible.
- Prerequisites for required courses will normally be waived for students in the Trent/Swansea dual degree. Prior to registration in any course in the major for which a waiver is needed, students must contact the chair of the department, indicate that they are enrolled in the dual degree program, and request permission to register without the prerequisite.
- Successful completion of the LLB degree program with a minimum weighted average of 40% (according to Swansea University's grading scale) is required to award students with transfer credits toward the Trent BA or BBA degree. Per-course grade average to be determined.
- In year six of the dual degree, 2.5 Trent University credits in Canadian Law as prescribed by the Program must be completed, in addition to 2.5 credits required per their Trent degree requirements. The Canadian Law courses are intended to support students in writing their National Committee on Accreditation (NCA) exams. Students must take Swansea's Canadian Constitutional Law (LAA362) module in Year 5 (their final year at Swansea) if it is offered, as Trent will not likely offer LAWS 4030H Canadian Constitutional Law during the subsequent year. Completion of LAA362 at Swansea satisfies the Year 6 requirement to take LAWS 4030H and means students will have an additional 0.5 elective credit in Year 6 instead.
- Note to Trent Durham GTA students in the Trent/Swansea Law Dual Degree: for Year 6, the required 4000-level LAWS courses are only offered in Peterborough.

BAH.SPEC - Individualized Studies - BA Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts (Honours)

Description
Normally students choose a program of study determined by the academic regulations leading to a major or joint-major in Arts or Science. In exceptional circumstances, students of superior academic ability and intellectual independence may design an individualized program of study, selecting courses from various disciplines to explore a theme of their own choosing. Before designing such a program, students are encouraged to speak with an Academic Advisor about their personal academic goals (see Academic Advising).

The following guidelines apply:

This program is intended for students who have given evidence of superior academic ability and intellectual independence, and is normally available only as an Honours degree.

The Individualized Studies program consists of 20.0 credits of which at least 2.0 must be at the 4000 level. A minimum cumulative average of 75% should normally be maintained.

Students must apply for the program through an Academic Advisor. The application must include a rationale for the choice of courses, including reasons why the proposed program of study cannot be accommodated within an existing major or joint-major program, and must identify the remaining courses required.

Students must discuss the intended program with an Academic Advisor before the end of the first year of studies. Students who have completed 5.0 credits may be considered retroactively for an Individualized Studies program.

The Academic Advisor will: ensure that the program meets the University's degree requirements, ensure that the student has obtained approval from the academic departments or programs concerned, and confirm that the required courses for program completion will be available on the proposed schedule.

The Academic Advisor and the student must present the program to the Committee on Undergraduate Petitions (CUP) for approval. Once approved, any changes must be discussed with the Academic Advisor and reported to CUP.

An individualized study program in Global Studies is available as an Honours degree through Trent International. The program combines Study Abroad with internationally oriented studies in three or more disciplines. Students are normally required to study a language other than English, at least to the intermediate level, and to spend one year of undergraduate study in another country. Students must apply for entry into this program through Trent International (not an Academic Advisor) by April 1 in the first year of studies. A list of proposed courses and a rationale for these choices should be submitted with the application. For application information and further details please contact Trent International.

BAS.ASCI - Arts & Science - BAS Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts & Science (Honours)

Description
www.trentu.ca/bas

The Honours Bachelor of Arts & Science program is designed for students with interests in both the sciences and the arts. The program offers students the freedom and opportunity to blend creativity and analytical rigor, social expertise, and empirical acumen, and discover new knowledge at the intersections. The Honours BAS also offers students an excellent opportunity to gain skills comprising research excellence in the sciences and arts, professional-level oral and written communication, creativity, and inventiveness. This skill set and broad knowledge base is highly sought after by employers, graduate schools, and professional programs including medicine, veterinary medicine, dentistry, teaching, and law.

In first-year Arts & Science (ASCI) courses, students formulate research questions, gather evidence, and cultivate insights from the various academic disciplines to support the interpretation of evidence as well as an appreciation for diverse knowledges and research methods. In second year, students examine case studies in the arts and sciences from multiple perspectives and explore how societal and cultural forces shape inquiry and influence the reception of results. By year three, students are poised to engage in student-driven research in the Arts and Science Colloquium, integrating methodologies and theoretical approaches acquired in the first- and second-year ASCI courses. In the final year, students complete coursework for their majors and/or minors and are free to pursue research projects or experiential learning opportunities in their major or minor areas of study, and/or through Honours Thesis or Reading Course options in the BAS program. Throughout the program students hone their skills in communication, critical thinking, qualitative analysis, and quantitative reasoning while enjoying the benefits of a small cohort led by passionate and engaged faculty.

INFORMATION & ADDITIONAL NOTES

- Students are strongly encouraged to include a mix of humanities and social sciences credits in the 3.0 non-science credit requirement. Credits satisfying the breadth requirement may simultaneously count toward majors, minors, specializations, and options.
- Students should ensure that they have satisfied the University degree requirement for at least 7.0 credits at the 3000 level or beyond.
- Science credits include any courses designated as SCIE in individual course descriptions in the Academic Calendar.

Requirements

Bachelor of Arts & Science – Honours Program

The Honours program. 20.0 credits which include:

- 2.0 ASCI credits consisting of ASCI 1001H, 1002H, 2001H, and 3001H
- At least 3.0 science credits and 3.0 non-science credits in addition to the above
- The courses satisfying the requirements for one of the following:
    - A single-major Honours program
    - A single-major Honours program with a minor in another subject
    - A joint-major Honours program in a humanities or social sciences subject and joint-major Honours program in a science subject
    - A minor in a humanities or social sciences subject and a minor in a science subject

Notes

- Not every combination of subjects is available. Students should confirm their academic plan with Academic Advising.
- In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

- Students are not required to complete 14.0 science credits or 1.0 MATH credit for an Honours Bachelor of Arts & Science (BAS) degree.
- The same course may not simultaneously satisfy the requirements of both programs in a joint major, or of both minor subjects.

BAS.ASCI.COOP - Arts & Science - Co-op

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts & Science (Honours)

Description
www.trentu.ca/coop

Co-op is an opportunity for students to gain work-integrated experiential learning that will help them get a head start on a career. The Bachelor of Arts & Science Co-op assists graduating students in achieving a competitive edge while generating experience within a wide range of sectors. Specifically, co-op gives the students a chance to obtain 12 months of practical experience on the job, develop or enhance technical skills, explore career options, network with a variety of individuals and organizations, learn from mentors and tutors, enhance communication and presentation skills, and develop technical writing skills.

INFORMATION & ADDITIONAL NOTES

- Co-op students are responsible for paying tuition for their academic courses, ancillary fees, and levies. All Trent students are charged ancillary fees every Fall & Winter term. Co-op students will experience the same cycle for their ancillary fee payments regardless of when they are out on work terms. Co-op students do not pay tuition during their work terms.
- Co-op students are responsible for paying the compulsory Co-op Fee a total of five times during their degree program, and the Co-op fee will be applied to their student account in Year 2 Fall, Year 2 Winter, Year 3 Fall, Year 3 Winter, and Year 4 Fall.
- Students are encouraged to meet with their Co-op Coordinator at CareerSpace each year for support with their co-op work terms, career development, and to confirm they are meeting co-op progression requirements.

Requirements

Bachelor of Arts & Science — Honours Co-op Program

- Co-op students must satisfy the requirements for the Bachelor of Arts & Science (Honours) and the Co-op requirements listed below.
- Bachelor of Arts & Science Co-op is a competitive direct-entry program with a limited number of student places. Students who are not admitted directly may apply for admission after commencing studies at Trent and may be admitted on a competitive basis provided there are available spaces in the program.
- To remain in the co-op program, students must complete the required work term preparation and reflection courses (COOP 2000H and 4000H) with a minimum 70% progression requirement in COOP 2000H and 65% in COOP 4000H, and maintain a minimum 75% cumulative average throughout their study terms. In addition, students must continue to receive satisfactory evaluations during each of their three work terms. Students who do not achieve a minimum 70% in COOP 2000H will be withdrawn from the co-op program but may continue their studies in Arts & Science or transfer to a major in a different subject. Once withdrawn, students are not eligible to re-enter the co-op program. Students who do not achieve a minimum 65% in COOP 4000H but otherwise fulfill all degree requirements will be awarded an Honours Bachelor of Arts & Science degree without the Co-op designation.
- Three non-credit co-op work terms are required for the Bachelor of Arts & Science Co-op (COOP 2100P, 3100P, 4100P). The prerequisite for the first work term (COOP 2100P) for students in this program is completion of COOP 2000H with a minimum grade of 70% and completion of at least 10.0 academic credits. The schedule for the single-major Honours program is listed below. Students who choose to explore a minor, specialization, or option may require additional time to complete their degrees, as all courses are not offered in every term. It is expected that students follow the set work term schedule. Students are encouraged to work with an academic advisor for support with degree mapping.

YEAR	FALL	WINTER	SUMMER
Year 1	Study Term 1	Study Term 2	Study Term 3
Year 2	Study Term 4	Study Term 5	Work Term 1
Year 3	Study Term 6	Study Term 7	Work Term 2
Year 4	Work Term 3	Study Term 8	--

- Students on a work term must complete learning objectives, a midterm evaluation, a final evaluation, and a final work term report. Co-op employers will also complete a midterm evaluation and final evaluation of the student's work term. Upon receiving the completed documentation and upon a satisfactory employer assessment, a Pass (P) or Fail (F) will be assigned for COOP 2100P, 3100P, and 4100P. CareerSpace makes every effort to find suitable work terms for students enrolled in the co-op program, but a work term opportunity cannot be guaranteed for every student. The work term process is competitive and dependent upon many factors including market conditions, the preparedness of a student including their job applications and performance in job interviews, and the academic performance of a student. Co-op students secure positions through successful participation in the co-op interview process and/or their own job search activities. Withdrawal from the co-op program will not normally be approved while a student is on a work term. Students are not permitted to take an academic course during a scheduled work term.
- Students who are unable to obtain a suitable co-op opportunity in an upcoming work term are expected to continue with their academic program on a full-time basis. A single missed work term can be made up, but in the event that a co-op student cannot secure their work term for a second time, they will be withdrawn from the co-op program. If a student is unable to complete three work terms yet otherwise fulfills all degree requirements, the student will be awarded an Honours Bachelor of Arts & Science degree.

BASG.ASCI - Arts & Science - BAS General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts & Science (General)

Description
The General Arts & Science program is open to current Trent students only. To earn the General degree, currently enrolled Trent students must first consult with an Academic Advisor and apply to the Committee on Undergraduate Petitions (CUP) for approval. To be eligible to apply, students must have successfully completed a minimum of 10.0 university credits.

For the Trent/Swansea Bachelor of Arts & Science – Medical dual degree program, a direct-entry program leading to a General Bachelor of Arts & Science (BAS) degree from Trent University and a Bachelor of Science (BSc) from Swansea University, see Bachelor of Arts & Science (General).

Requirements

Bachelor of Arts & Science – General Program

The General program. 15.0 credits including the following 1.5 credits:

- 0.5 ASCI credit from ASCI 1001H, 1002H, or 2001H
- 0.5 science credit
- 0.5 non-sciences credit

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List. Students are not required to complete 11.0 science credits or 1.0 MATH credit for a General Bachelor of Arts & Science (BAS) degree.

BASG.MED - Arts & Science - BAS General - Swansea Medical

Overview

Academic Level
Undergraduate

Credential
Bachelor of Arts & Science (General)

Description
www.trentu.ca/bas/program/bachelor-arts-sciencemedical-sciences-trentswansea-dual-degree

Trent University, in partnership with Swansea University, United Kingdom, offers a dual degree leading to a Bachelor of Arts and Science (General) degree (BAS) from Trent and a Bachelor of Science degree (BSc) from Swansea.

The program allows students to complete the requirements for both degrees in a structured four-year program of study. Students spend their first two years of full-time study at Trent in Peterborough, taking 10.0 credits toward their Bachelor of Arts and Science (General) program (5.0 credits per academic year). Students then transfer to Swansea University for years three and four to complete their study in the Bachelor of Science (BSc) degree program at Swansea, taking on a full-time course load (120 credits per academic year, which equates to a normal 5.0-credit per year Canadian university course load), and paying tuition according to Swansea's fees in British currency (for information about tuition at Swansea University see www.swansea.ac.uk/trent).

The following subject areas are eligible through this partnership at Swansea University (students choose one): Applied Medial Science, Medical Biochemistry, Medical Genetics, Medical Pharmacology, Population Health, and Medical Science. These programs of study at Swansea represent stand-alone honours bachelor's degrees and lead to exciting career opportunities in their own right. In addition, each degree program offers a Pathway to Medicine option which includes a bespoke module, healthcare-related placements or observations and specialist preparation for applications to the Graduate Entry Medicine degree (MB BCh).

Following successful completion of the BSc with the required minimum overall average, students are awarded transfer credits and will be eligible to graduate at the end of the fourth year with both an undergraduate Bachelor of Arts and Science (General) degree from Trent University and an Honours Bachelor of Science degree from Swansea University. As this is a dual

degree and not a joint degree, Swansea University reserves all rights to make adjustments to the required courses for the BSc degree at any point in time. The most up-to-date program overview can be found at www.swansea.ac.uk/medicine/pathways.

Academic Progression

Application to the Trent/Swansea BAS-Medical dual degree is through the Ontario University Application Centre (www.ouac.on.ca). Students must achieve a minimum secondary school average of 80% and Grade 12U English. Other recommended courses include 12U Chemistry, Biology and Math (either Calculus, Data Management or Advanced Functions) to be considered for admission to the program. This entry grade is subject to change annually based on the application cohort and the number of spaces available in the program; however, the minimum average for acceptance to the program will never fall below 80%.

To progress successfully to year three of the dual degree at Swansea University, students must complete an Intent to Continue onto Studies form in order to transfer to Swansea for the BSc portion of the dual degree and must have:

- successfully completed years one and two at Trent University with a minimum cumulative average of 77%;
- successfully completed no fewer than 10.0 Trent University credits before enrolling in classes at Swansea (no transfer credits are allowable toward this total and Trent credits must be completed by the end of the Winter term in Year 2);
- obtained and provided proof of an approved Tier 4 (General) Study Visa;
- are in 'good academic standing' at Trent; and,
- no known reasons to be denied access to the United Kingdom.

Following successful completion of the BSc degree at Swansea University, student transcripts will be forwarded to the Office of the Registrar at Trent University to ensure standards are met for awarding of transfer credits. At this point the student's academic records will be fully reviewed to confirm eligibility for graduation from the dual degree program. Students currently studying at Trent and transfer students from other post-secondary institutions who have been admitted to Trent University may be able to access the Trent/Swansea BAS-Medical dual degree. Contact the Bachelor of Arts & Science Program office at bas@trentu.ca for further details.

Requirements

Bachelor of Arts & Science Program – Trent/Swansea Medical

- In addition to the program requirements, students must satisfy the University degree requirements.
- Students who complete the Trent/Swansea BAS-Medical dual degree program are exempt from the requirement that 5.0 of the last 7.0 credits obtained by a candidate for a Trent University degree must be completed at Trent.
- Successful completion of the BSc degree program with a minimum weighted average of 40% (according to Swansea University's grading scale) is required to award students with transfer credits toward the Trent BAS (General) degree. Per-course grade average to be determined.

The General program. 15.0 credits including the following:

Year 1

5.0 credits including the following:

- 1.0 ASCI credit consisting of ASCI 1001H and 1002H
- 2.0 BIOL credits consisting of BIOL 1020H, 1030H, 1500H, and 1501H
- 1.0 CHEM credit consisting of CHEM 1000H and 1010H
- 0.5 PSYC credit consisting of PSYC 1030H
- 0.5 credit from the Approved Indigenous Course List

Year 2

5.0 credits including the following:

- 1.5 BIOL credits consisting of BIOL 2000H, 2050H, and 2070H
- 1.0 CHEM credit consisting of CHEM 2100H and 2300H
- 0.5 NURS credit consisting of NURS 2000H
- 0.5 ASCI credit from ASCI 2001H or 3001H
- 1.5 credits in addition to the above from Humanities or Social Sciences

Years 3-4 - At Swansea

End of Year 4

5.0 transfer credits awarded for successful completion of BSc program (years 3-4):

- 1.0 unassigned Science credit at the 2000 level
- 4.0 unassigned Science credits at the 3000 level

BBA.ADMN - Business Administration - BBA Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Business Administration (Honours)

Description
www.trentu.ca/business

The School of Business at Trent University offers a four-year Honours program leading to a Bachelor of Business Administration (BBA) degree. The program enables students to develop an understanding of the nature of organizational life, to communicate more effectively, to learn the techniques of financial and management accounting, and to gain knowledge of managerial planning and strategy formation. In addition to core business subjects, the program emphasizes communication and creative problem-solving skills that are essential to future career success. A strong emphasis on group work provides an ideal environment in which to practice these skills. An essential feature of the program is its focus on the human side of organizations—to recognize and value the people who actually make organizations work. The School of Business encourages students to develop a broad base of knowledge, an understanding of the larger social issues facing organizations, and the capacity for critical analysis. Students can gain real work experience through placement, internship, and co-op opportunities.

INFORMATION & ADDITIONAL NOTES

- Students entering the Bachelor of Business Administration program are required to have completed a secondary school senior-level mathematics course in good standing.
- Students transferring into the program from another university or community college will have their transcript assessed by the Office of the Registrar for course credit transfer. Students transferring into the program from another department or program should consult with the associate director of the program to review their course of study.
- The School of Business offers a BBA and Master of Management Fast Track Program. This path combines the 20-credit Honours Bachelor of Business Administration (single-major BBA) with the 5-credit

Master of Management (MSMG). The MSMG portion of the program can be completed in 12 consecutive months instead of 16. Students may enter this pathway in their first year of the Honours BBA or any subsequent year. To qualify for progression to the master's, students must graduate with a minimum overall average of 77% in the final 10.0 undergraduate credits. In addition to the 12.0 credits required for the Honours BBA, students must complete an additional 0.5 4000-level ADMN credit and 0.5 3000- or 4000-level ADMN credit. Within these 13.0 credits, students must also complete three of ADMN 3300H, 3250H, 3550H, or 3800H. Students must confirm their intention to progress to the MSMG in their final year of the BBA. Students may opt out at any point and graduate with an Honours BBA degree. For more information, please see Fast Track Peterborough or Fast Track Durham.

Requirements

Bachelor of Business Administration Program

- Specializations are available only to students in the Honours program (BBA or joint-major BA/BSc).
- Students may obtain only one specialization as part of an Honours BBA degree.
- A minimum grade of 65% is required in any course counting toward Business Administration specialization requirements.
- Honours students may count ADMN specialization credits at the 3000 and 4000 level toward the requirement of 3.5 ADMN elective credits at the 3000 or 4000 level in the BBA program.
- Honours students may count ADMN specialization credits at the 4000 level toward the requirement of 0.5 ADMN elective credit at the 4000 level in the BBA program (excluding ADMN 4820Y, 4870H, 4880H, 4890Y, 4900Y, 4901H, 4902H, 4903H).
- Honours students may choose to complete only one of the Specialization in Economics or the minor in Economics.

The BBA Honours program. 20.0 credits including the following 12.0 credits:

- 5.0 ADMN credits consisting of ADMN 1000H, 1221H, 2100H, 2220H, 2221H, 2230H, 2510H, 3032H, 3200H, and 3300H
- 0.5 ADMN credit from ADMN 1250H or 2600H
- 0.5 ADMN credit from ADMN 4032H, 4040H, 4101H, or 4450H
- 0.5 ADMN credit at the 4000 level in addition to the above (excluding ADMN 4820Y, 4870H, 4880H, 4890Y, 4900Y, 4901H, 4902H, 4903H)
- 3.5 ADMN credits at the 3000 level or beyond in addition to the above
- 0.5 ADMN credit at the 2000 level or beyond in addition to the above
- 1.5 ECON credits consisting of ECON 1010H, 1020H, and 2200H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

Specializations

Specialization in Accounting

Specialization in Economics

Specialization in Entrepreneurship

Specialization in Ethics & Sustainability

Specialization in Finance

Specialization in Global Innovation, Entrepreneurship, and Social Change

Specialization in Niigaaniiwin—The Art of Leading

BBA.ADMN.ACCT.COOP - Business Administration - Co-op (Accounting)

Overview

Academic Level
Undergraduate

Credential
Bachelor of Business Administration (Honours)

Description
www.trentu.ca/coop

Co-op is an opportunity for students to gain work-integrated experiential learning that will help them get a head start on a career. The Accounting Co-op assists graduating students in achieving a competitive edge while generating experience within a wide range of sectors. Co-op gives the students a chance to obtain 12 months of practical experience on the job, develop or enhance technical skills, explore career options, network with a variety of individuals and organizations, learn from mentors and tutors, enhance communication and presentation skills, and develop technical writing skills.

INFORMATION & ADDITIONAL NOTES

- Co-op students are responsible for paying tuition for their academic courses, ancillary fees, and levies. All Trent students are charged ancillary fees every Fall & Winter term. Co-op students will experience the same cycle for their ancillary fee payments regardless of when they are out on work terms. Co-op students do not pay tuition during their work terms.
- Co-op students are responsible for paying the compulsory Co-op Fee a total of five times during their degree program, and the Co-op fee will be applied to their student account in Year 2 Fall, Year 2 Winter, Year 3 Fall, Year 3 Winter, and Year 4 Fall.
- Students are encouraged to meet with their co-op coordinator each year to confirm they are meeting program requirements.

Requirements

Bachelor of Business Administration – Accounting Co-op

- Co-op students must satisfy the requirements for the Bachelor of Business Administration (Honours) and the Co-op requirements listed below.
- The Accounting Co-op is a competitive direct-entry program with a limited number of student places. To remain in the co-op, students must successfully complete the required work term preparation course COOP 2000H with a minimum 70% progression requirement and maintain a minimum 75% cumulative average throughout their study terms. In addition, students must receive satisfactory evaluations during each of their work terms. Students who do not achieve a minimum 70% in COOP 2000H will be withdrawn from the co-op program but may continue their studies in Business Administration or transfer to a major in a different subject. Once withdrawn, students are not eligible to re-enter the co-op program.
- Co-op students cannot register in ADMN 4870H/ 4880H: Field Placement or ADMN 4890Y: Business Internship.
- Accounting Co-op students are recommended to specialize in accounting to meet CPA preparatory course requirements to be accepted into the CPA Professional Education Program (PEP) upon graduation. Work terms should ideally be in areas such as financial accounting, management accounting, auditing, taxation, financial analysis, or corporate finance. These experiences are crucial for developing the skills necessary for a successful career in accounting.
- Three non-credit co-op work terms are required for the Accounting Co-op (COOP 2100P, 3100P, 4100P). Students should be prepared to relocate for work terms. It is preferred that work term 1 and work term 2 are with the same employer. Work terms are normally available in Ontario or Canada. The schedule is listed below. Students who choose to explore any additions (minor, specialization, option) to the single-major Honours may require additional time to complete their degrees, as all courses are not offered in every term. It is expected that students follow the

set work term schedule. Co-op students are discouraged from taking a course at Trent or on Letter of Permission while on a work term.

- For specific details about the work term schedule for students in the Accounting Co-op program, please contact the School of Business at schoolofbusinesscoops@trentu.ca.
- Students on a work term must complete learning objectives, a midterm evaluation, a final evaluation, and a final work term report. Co-op employers will also complete a midterm evaluation and final evaluation of the student's work term. Upon receiving the completed documentation and upon a satisfactory employer assessment, a Pass (P) or Fail (F) will be assigned for COOP 2100P, 3100P, and 4100P. At the completion of all three work terms, students will be required to complete a capstone oral presentation in which they reflect on their work terms and time in the co-op program.
- Every effort is made by the School of Business to find suitable work term employers for students enrolled in the co-op, but the School cannot guarantee a work term opportunity for every student. The hiring process is competitive and dependent upon many factors including market conditions and the academic performance of a student. Co-op students secure positions through successful participation in the co-op interview process and/or their own job search activities. Withdrawal from the co-op program will not normally be approved while a student is on a work term.
- Students who are unable to obtain a suitable co-op employer in an upcoming work term are expected to continue with their academic program on a full-time basis. A missed work term can be made up. In the event that a co-op student is unable to complete three work terms, yet otherwise fulfills all degree requirements, the student will be awarded a Bachelor of Business Administration (Honours) degree.

BBA.ADMN.SWAN - Business Administration - BBA Honours - Swansea Law

Overview

Academic Level
Undergraduate

Credential
Bachelor of Business Administration (Honours)

Description
Program Website

Trent University, in partnership with Swansea University, United Kingdom, offers a dual degree leading to a Trent Bachelor of Arts (Honours) degree (BA) or Bachelor of Business Administration (BBA) and a Single Honours Law degree (LLB) from Swansea. The program allows students to complete the requirements for both degrees in a structured six-year program of study.

Upon admission to Trent University, students select a major in one of the available subjects for the dual degree (see majors below). Students spend their first two years of full-time study at Trent in Peterborough or Durham, taking 10.0 credits toward their Bachelor of Arts (Honours) or Bachelor of Business Administration program (5.0 credits per academic year). Students then transfer to Swansea University for years three, four, and five to complete their study in the LLB degree program, taking on a full-time course load (120 credits per academic year, which equates to a normal 5.0-credit per year Canadian university course load). Following successful completion of the LLB with the required minimum overall average, students are awarded transfer credits and return to Trent to complete the requirements for the BA or BBA program, which include courses focused in Canadian Law (LAWS courses) to help prepare them for the National Committee on Accreditation exams.

Students will graduate at the end of the sixth year with both an undergraduate Bachelor of Arts (Honours) or Bachelor of Business Administration degree from Trent University and a Single Honours Law degree from Swansea University.

As this is a dual degree and not a joint degree, Swansea University reserves all rights to make adjustments to the required courses for the LLB degree at any point in time. The most up-to-date program overview can be found on the Swansea University website.

ACADEMIC PROGRESSION

Application to the Trent/Swansea dual degree is through the Ontario University Application Centre. Students must achieve a minimum secondary school average of 80% to be admitted to the program. This entry grade is subject to change annually based on the application cohort and the number of spaces available in the program; however, the minimum average for acceptance to the program will never fall below 80%.

To progress successfully to year three of the dual degree and to commence the LLB portion at Swansea University, students must complete the required Intent to Continue communication and must meet the requirements below:

- declared program major for the Trent BA or BBA degree from the list of majors included in the program;
- successful completion of years one and two at Trent University, including all courses required for the declared major, with a minimum cumulative average of 77%;
- successful completion of no fewer than 10.0 Trent University credits before enrolling in classes at Swansea (a maximum of 5.0 transfer credits is allowable toward this total);
- obtained and provided proof of an approved Tier 4 (General) Study Visa;
- confirmation that they have not been found to have breached any University regulations; and,
- have no known reasons to be denied access to the United Kingdom.

Following successful completion of the LLB degree at Swansea University, student transcripts will be forwarded to the Office of the Registrar at Trent University to ensure standards are met and at this point students will be reactivated as current students at Trent University. Once students enter into the final year of study to obtain all requirements for successful completion of the Dual Degree Bachelor of Arts (Honours) or Bachelor of Business Administration degree, they will be awarded the 5.0 transfer credits toward their degree completion.

Students currently studying at Trent, and transfer students from other postsecondary institutions who have been admitted to Trent University, may be able to access the Trent/Swansea dual degree. Contact the Trent/Swansea Law Program Coordinator for further details.

Requirements

Bachelor of Business Administration Program – Trent/Swansea Dual Degree

The single-major Honours program. 20.0 credits including the following:

Year 1

5.0 credits including the following:

- 1.5 ADMN credits consisting of ADMN 1000H, 1221H, and 2221H
- 1.0 ECON credit consisting of ECON 1010H and 1020H
- 0.5 ADMN credit at the 2000 level or beyond in addition to the above
- 2.0 elective credits, including 0.5 ICR credit from the Approved Indigenous Course List

Year 2

5.0 credits including the following:

- 2.5 ADMN credits consisting of ADMN 2100H, 2220H, 2230H, 2510H, and 3300H
- 0.5 ADMN credit from ADMN 1250H or 2600H
- 0.5 ADMN credit at the 3000 level or beyond in addition to the above
- 0.5 ECON credit consisting of ECON 2200H
- 1.0 elective credit

Years 3-5 – at Swansea

Students must take Swansea's Canadian Constitutional Law (LAA362) module in Year 5 (their final year at Swansea) if it is offered, as Trent will not likely offer LAWS 4030H Canadian Constitutional Law during the subsequent year. Students who take LAA362 at Swansea will receive a transfer credit for LAWS 4030H in place of 0.5 3000-level ARTS unassigned transfer credit, which will require them to take an additional 0.5 elective credit in Year 6 instead.

Year 6

5.0 transfer credits awarded for successful completion of LLB program (years 3-5):

- 3.0 unassigned ADMN credits at the 3000 level
- 2.0 unassigned ARTS credits at the 3000 level

5.0 credits including the following:

- 2.5 LAWS credits consisting of LAWS 4000H, 4010H, 4020H, 4030H*, and 4040H
- 1.0 ADMN credit consisting of ADMN 3200H and 3032H
- 0.5 ADMN credit from ADMN 4032H, 4040H, 4101H, or 4450H
- 0.5 ADMN credit at the 4000 level in addition to the above (excluding ADMN 4870H, 4880H, 4890Y, 4820Y, and 4900Y)
- 0.5 elective credit

Note: Students are advised to consult the School of Business for specific course selection guidelines and prerequisite waivers for degree progression planning.

IMPORTANT GENERAL NOTES

- In addition to the program requirements, students must satisfy the University degree requirements. Students are encouraged to complete the requirement for 0.5 credit from the Approved Indigenous Course List in either year one or year two of the program.
- Students are encouraged to take additional courses in their declared major as electives, but the total number of credits in the major discipline may not exceed 13.0.
- LAWS 4050H is recommended to be taken as an elective in year six of the program where possible.
- Prerequisites for required courses will normally be waived for students in the Trent/Swansea dual degree. Prior to registration in any course in the major for which a waiver is needed, students must contact the chair of the department, indicate that they are enrolled in the dual degree program, and request permission to register without the prerequisite.
- Successful completion of the LLB degree program with a minimum weighted average of 40% (according to Swansea University's grading scale) is required to award students with transfer credits toward the Trent BA or BBA degree. Per-course grade average to be determined.
- In year six of the dual degree, 2.5 Trent University credits in Canadian Law as prescribed by the Program must be completed, in addition to 2.5 credits required per their Trent degree requirements. The Canadian Law courses are intended to support students in

writing their National Committee on Accreditation (NCA) exams. Students must take Swansea's Canadian Constitutional Law (LAA362) module in Year 5 (their final year at Swansea) if it is offered, as Trent will not likely offer LAWS 4030H Canadian Constitutional Law during the subsequent year. Completion of LAA362 at Swansea satisfies the Year 6 requirement to take LAWS 4030H and means students will have an additional 0.5 elective credit in Year 6 instead.

- Note to Trent Durham GTA students in the Trent/Swansea Law Dual Degree: for Year 6, the required 4000-level LAWS courses are only offered in Peterborough.

BBAG.ADMN - Business Administration - BBA General

Overview

Academic Level
Undergraduate

Credential
7a70820d-f1e5-42a5-a963-1d51bc088a8b

Description

www.trentu.ca/business

The School of Business at Trent University offers a three-year General program leading to a Bachelor of Business Administration (BBA) degree. The program enables students to develop an understanding of the nature of organizational life, to communicate more effectively, to learn the techniques of financial and management accounting, and to gain knowledge of managerial planning and strategy formation. In addition to core business subjects, the program emphasizes communication and creative problem solving skills that are essential to future career success. The General program places particular value on giving students a clear grounding in essential business concepts while allowing room to explore complementary areas through electives. An essential feature of the program is its focus on the human side of organizations—to recognize and value the people who actually make organizations work. Students are encouraged to develop a broad base of knowledge and to engage critically with the social issues that shape contemporary organizations. Because the General BBA is designed as a streamlined three year degree with a clear academic focus, internship and co op options are not included as part of this program.

Notes

- Students entering the Bachelor of Business Administration program are required to have completed a secondary school senior-level mathematics course in good standing.
- Students transferring into the program from another university or community college will have their transcript assessed by the Office of the Registrar for course credit transfer. Students transferring into the program from another department or program should consult with the associate director of the program to review their course of study.

- Specializations are not available to students in the General BBA program. A specialization may only be completed as part of an Honours degree (BBA or joint-major BA/BSc in Business Administration).

Requirements

Bachelor of Business Administration Program

The BBA General program. 15.0 credits including the following 9.0 credits:

- 5.0 ADMN credits consisting of ADMN 1000H, 1221H, 2100H, 2220H, 2221H, 2230H, 2510H, 3032H, 3200H, and 3300H
- 0.5 ADMN credit from ADMN 1250H or 2600H
- 1.5 ADMN credits at the 3000 level or beyond in addition to the above
- 0.5 ADMN credit at the 2000 level or beyond in addition to the above
- 1.5 ECON credits consisting of ECON 1010H, 1020H, and 2200H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

BES.ERSS - Environmental Science/ Studies - BESS Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Environmental Science/Studies

Description
www.trentu.ca/ers

Environmental & Resource Science/Studies within the Trent School of the Environment provides many opportunities to study the environment, with more than 100 courses in all aspects of environmental science and policy. Many of these courses emphasize practical experience, including field work in Trent's network of nature areas and in local communities. The Honours Bachelor of Environmental Science/Studies (BESS) is a unique degree program that formally combines both the arts and sciences in the study of the environment.

INFORMATION & ADDITIONAL NOTES

- Students applying to this program are required to have a minimum admission average of 75%.

Requirements

Bachelor of Environmental Science/Studies Program

The single-major Honours program. 20.0 credits including the following 14.0 credits:

- 1.5 ERSC/ERST/SAFS credits from ERSC 1010H, 1020H, 1040H, 1060H, ERST 1030H, or SAFS 1001H
- 1.5 ERSC credits consisting of ERSC 2080H, 2090H, and 2220H
- 0.5 ERST credit consisting of ERST 3000H
- 0.5 ERSC credit from ERSC 2230H or 2240H
- 1.0 ERST credit from ERST 2100H, 2520H, or 2525H
- 0.5 credit from the TSE Capstone Course List*
- 6.0 ERSC/T credits at the 3000 level or beyond in addition to the above

- 1.0 ERSC credit at the 2000 level or beyond in addition to the above
- 1.0 ERST credit at the 2000 level or beyond in addition to the above
- 0.5 MATH credit consisting of MATH 1051H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

BES.ERSS.COOP - Environmental Studies/Science (BESS) - Co-op

Overview

Academic Level
Undergraduate

Credential
Bachelor of Environmental Science/Studies

Description
Environmental Studies/Science Co-op will be available as of the 2027-2028 Academic Year.

www.trentu.ca/coop

Co-op is an opportunity for students to gain work-integrated experiential learning that will help them get a head start on a career. The Environmental Studies/Science Co-op assists graduating students in achieving a competitive edge while generating experience within a wide range of sectors. Specifically, co-op gives the students a chance to obtain 12 months of practical experience on the job, develop or enhance technical skills, explore career options, network with a variety of individuals and organizations, learn from mentors and tutors, enhance communication and presentation skills, and develop technical writing skills.

INFORMATION AND ADDITIONAL NOTES

- The Environmental Studies/Science Co-op is available at Trent's Peterborough campus only.
- Co-op students are responsible for paying tuition for their academic courses, ancillary fees, and levies. All Trent students are charged ancillary fees every Fall & Winter term. Co-op students will experience the same cycle for their ancillary fee payments regardless of when they are out on work terms. Co-op students do not pay tuition during their work terms.
- Co-op students are responsible for paying the compulsory Co-op Fee a total of five times during their degree program, and the Co-op fee will be applied to their student account in Year 3 Fall, Year 3 Winter, Year 4 Fall, Year 4 Winter, and Year 5 Fall.
- Students are encouraged to meet with their Co-op Coordinator at CareerSpace each year for support with their co-op work terms, career development, and to confirm they are meeting co-op progression requirements.

Requirements

Bachelor of Environmental Studies/Science Program — Co-op

- Environmental Studies/Science Co-op will be available as of the 2027-2028 Academic Year.
- Co-op students must satisfy the requirements for the Bachelor of Environmental Science/Studies and the Co-op requirements listed below.
- Environmental Studies/Science Co-op is a competitive direct-entry program with a limited number of student places. Students who are not admitted directly may apply for admission after commencing studies at Trent and may be admitted on a competitive basis provided there are available spaces in the program.
- To remain in the co-op program, students must complete the required work term preparation course (COOP 2000H) with a minimum 70% progression requirement, and maintain a 75% cumulative average throughout their study terms. In addition, students must continue to receive satisfactory evaluations during each of their three work terms. Students who do not achieve a minimum 70% in COOP 2000H will be withdrawn from the co-op program but may continue their studies in Environmental Studies/ Science or transfer to a major in a different subject. Once withdrawn, students are not eligible to re-enter the co-op program.
- Students in the Environmental Studies/Science Co-op follow the co-op continuing model where they complete one 12-month work term (COOP 2100P, 3100P and 4100P) with a single employer. The prerequisite for the first work term (COOP 2100P) for students in this program is completion of COOP 2000H with a minimum grade of 70% and completion of at least 10.0 academic credits. The schedule for the single-major Honours program is listed below. Students who choose to explore any additions (minor, specialization, or option) to a single-major Honours may require additional time to complete their degrees, as all courses are not offered in every term. It is expected that students follow the set work term schedule. Students are encouraged to work with an academic advisor for support with degree mapping.

YEAR	FALL	WINTER	SUMMER
Year 1	Study Term 1	Study Term 2	–
Year 2	Study Term 3	Study Term 4	COOP 2000H
Year 3	Study Term 5	Study Term 6	Work Term
Year 4	Work Term	Work Term	–
Year 5	Study Term 7	Study Term 8	–

- Students on a work term must complete learning objectives, a midterm evaluation, a final evaluation, and a final work term report. Co-op employers will also complete a midterm evaluation and final evaluation of the student's work term. Upon receiving the completed documentation and upon a satisfactory employer assessment, a Pass (P) or Fail (F) will be assigned for COOP 2100P, 3100P, and 4100P.
- CareerSpace and the Trent School of the Environment make every effort to find suitable work terms for students enrolled in the co-op program, but a work term opportunity cannot be guaranteed for every student. The work term process is competitive and dependent upon many factors including market conditions, the preparedness of a student including their job applications and performance in job interviews, and the academic performance of a student. Co-op students secure positions through successful participation in the co-op interview process and/or their own job search activities. Withdrawal from the co-op program will not normally be approved while a student is on a work term. Students are not permitted to take an academic course during a scheduled work term.
- Students who are unable to obtain a suitable co-op opportunity in an upcoming work term are expected to continue with their academic program on a full-time basis. A single missed work term can be made up, but in the event that a co-op student cannot secure their work term for a second time, they will be withdrawn from the co-op program. If a student is unable to complete three work terms yet otherwise fulfills all degree requirements, the student will be awarded an Honours Bachelor of Environmental Studies/Science (BESS).

BS.ANTH - Anthropology - BSc General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (General)

Description
www.trentu.ca/anthropology

Anthropology is the study of human cultural, behavioural, and biological variability. It is a discipline integrating four subfields: archaeology, linguistic anthropology, biological anthropology, and cultural anthropology. Archaeologists document the material remains of past societies to understand and to explain patterns of cultural behaviour and cultural change. Linguists study languages worldwide and in relation to society and culture. Biological anthropologists investigate human evolution, growth, and development in relation to environmental, genetic, and cultural factors. Cultural anthropologists work with living people worldwide, recording their ways of life and beliefs and interpreting their findings to understand and explain the similarities and differences in cultural practices. Anthropologists are unified by their interest in human variability and the manner in which different individuals, communities, and societies, whether in the past or present, relate to each other at scales ranging from the local to global.

INFORMATION & ADDITIONAL NOTES

- Students who plan to take upper-year archaeology courses are strongly encouraged to take ANTH 2121H and 2122H, which are both prerequisites for many upper-year archaeology courses.
- Courses in Anthropology fulfilling University science course requirements for the BSc are marked SCIE in the individual course descriptions.
- Through the Study Abroad Exchange Program, students may travel to Belize for a semester or a year and take courses at Galen University. Information on the program is available at www.trentu.ca/studyabroad/trent-students.

Requirements

Bachelor of Science Program in Anthropology

The single-major General program. 15.0 credits including the following 8.5 credits:

- 4.5 ANTH credits consisting of ANTH 1001H, 1030H, 2123H, 2150H, 2410H, 3123H, 3153H, 3404H, and 3731H
- 1.0 ANTH credit at the 3000 level or beyond in addition to the above
- 1.0 ANTH credit in addition to the above, including 0.5 credit from two of Categories A, B, and C
- 1.0 MATH credit (MATH 1051H and 1052H are recommended)
- 1.0 credit in BIOL, CHEM, MATH, and/or PHYS in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 11.0 science credits and 0.5 credit from the Approved Indigenous Course List.

The joint-major General program. 15.0 credits including the following 7.5 credits:

- 4.5 ANTH credits consisting of ANTH 1001H, 1030H, 2123H, 2150H, 2410H, 3123H, 3153H, 3404H, and 3731H
- 1.0 ANTH credit in addition to the above, including 0.5 credit from two of Categories A, B, and C
- 1.0 MATH credit (MATH 1051H and 1052H are recommended)
- 1.0 credit in BIOL, CHEM, MATH, and/or PHYS in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 11.0 science credits and 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

BS.BICE - Biochemistry & Molecular Biology - BSc General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (General)

Description
The chemistry of life processes is at the essence of all living things. The Biochemistry & Molecular Biology program is designed to provide a foundation in the chemistry of biological systems, combining study of analytical, organic, inorganic, and physical chemistry with biochemistry, molecular biology, and cell physiology. Students completing the program will have a detailed understanding of the processes that control and mediate health, illness, reproduction, growth, and ultimately life itself. Honours research projects introduce students to modern methods in protein chemistry, bioengineering, and molecular biology.

INFORMATION & ADDITIONAL NOTES

- The Biochemistry & Molecular Biology program is a sequence of courses offered by the Departments of Biology and Chemistry that compose an integrated whole. For information on individual courses see Calendar entries for Biology and Chemistry.
- Students wishing to transfer to a single-major program in Biology or Chemistry should consult the chair of the appropriate department when they have successfully completed 8.0 to 10.0 credits.
- An average of 75% in all previous Chemistry courses and permission of the coordinator are prerequisites for CHEM 4030Y and 4040D.

Requirements

Bachelor of Science Program in Biochemistry & Molecular Biology

- A maximum of 2.0 credits in thesis and/or project courses may be counted toward a Biochemistry & Molecular Biology degree.
- An average of 75% in all previous Chemistry courses and permission of the coordinator are prerequisites for CHEM 4030Y and 4040D.

The single-major General program. 15.0 credits including the following 12.0 credits:

- 2.5 BIOL credits consisting of BIOL 1020H, 1030H, 2050H, 2070H, and 3080H
- 5.0 CHEM credits consisting of CHEM 1000H, 1010H, 2100H, 2110H, 2200H, 2300H, 2410H, 2500H, 3310H, and 3320H
- 2.0 BIOL credits from BIOL 3250H, 3830H, 3840H, 4080H, 4130H, 4160H, 4250H, 4260H, 4340H, 4370H, 4380H, 4550H, 4600H, 4830H, or 4840H
- 1.0 CHEM credit at the 3000 level in addition to the above
- 1.0 MATH credit consisting of MATH 1110H and 1122H
- 0.5 PHYS credit from PHYS 1001H or 1060H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

BS.BIOL - Biology - BSc General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (General)

Description
www.trentu.ca/biology

Biology is the study of life at all levels of organization, from molecular and cell to population and community. Students who complete a single major in Biology will have a broad introduction to these topics, along with the opportunity to specialize in aspects of biology that interest them. The Biology Department offers two Specializations, one in Conservation Biology, the other in Health Sciences. In addition, the Biochemistry & Molecular Biology program is shared with the Chemistry Department and the Forensic Biology program is shared with the Department of Forensic Science. Students may choose to do joint-major degrees with other departments or programs, including Environmental & Resource Science/ Studies, Chemistry, Forensic Science, Geography, Anthropology, and Psychology, among others.

INFORMATION & ADDITIONAL NOTES

- Students who have not taken any 4U calculus courses are recommended to take MATH 1006H as the required 0.5 credit from MATH 1006H or 1110H.
- Transfer students should consult with the department chair or coordinator before selecting courses.
- Any course involving work with live vertebrate animals requires the Animal Care Course. The Animal Care Course requirement is indicated in some course descriptions but may also apply to others. Check with the Biology Office or course instructor if in doubt.
- Fees may be levied for safety equipment and lab manuals. If fees are required for field trips, or if field trips occur outside the timetabled period, instructors will offer alternative assignments.

Requirements

Bachelor of Science Program in Biology

- The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree, with the following exceptions:
    - Students pursuing a joint-major Honours or General degree in Biology and Chemistry are required to take the following MATH courses: MATH 1051H, 1052H, 1110H, and 1122H. MATH 1110H simultaneously satisfies the requirements of both programs.
    - Students pursuing a joint-major Honours degree in Biology and Forensic Science are required to take the following courses which simultaneously satisfy the requirements of both programs: BIOL 1020H, BIOL 1030H, MATH 1051H, and MATH 1052H.
- BIOL 1001H, 1050H, 1051H, 1500H, and 1501H are not for credit toward a major, joint-major, or minor in Biology.
- Students may take a maximum of 3.5 credits from any combination of placement, thesis, directed research, and community-based research project courses.

The single-major General program. 15.0 credits including the following 8.5 credits:

- 3.5 BIOL credits consisting of BIOL 1020H, 1030H, 2000H, 2050H, 2070H, 2260H, and 2600H
- 1.5 BIOL, BIOC, or BIOM credits at the 3000 level or beyond
- 1.0 BIOL, BIOC, or BIOM credit at the 2000 level or beyond in addition to the above
- 1.0 CHEM credit consisting of CHEM 1000H and 1010H
- 1.0 MATH credit consisting of MATH 1051H and 1052H
- 0.5 MATH credit from MATH 1006H or 1110H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List and 11.0 science credits.

The joint-major General program. 15.0 credits including the following 6.5 credits:

- 3.5 BIOL credits consisting of BIOL 1020H, 1030H, 2000H, 2050H, 2070H, 2260H, and 2600H
- 1.0 BIOL, BIOC, or BIOM credit at the 3000 level or beyond
- 0.5 BIOL, BIOC, or BIOM credit at the 2000 level or beyond in addition to the above
- 1.0 MATH credit consisting of MATH 1051H and 1052H
- 0.5 MATH credit from MATH 1006H or 1110H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List and 11.0 science credits.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

BS.CEPY - Chemical Physics - BSc General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (General)

Description
The Chemical Physics program is designed for students who are interested in the study of the physics and physical chemistry of molecular and atomic-scale systems, and condensed matter. Course emphasis is on the physics and physical chemistry of atomic, molecular, and bulk systems, as well as the mathematical techniques and approaches needed to do quantitative work in these areas. A Chemical Physics education at Trent involves working closely with faculty and staff in formal lecture and informal laboratory and tutorial/workshop settings. Students enrol in either a General or an Honours program. Honours research projects offer an opportunity for students to obtain first-hand experience in modern chemical physics research design and methods.

INFORMATION & ADDITIONAL NOTES

- The Chemical Physics program is a sequence of courses that compose an integrated whole and are offered by the Departments of Chemistry, Mathematics & Statistics, and Physics & Astronomy. For information on individual courses see Calendar entries for these departments.

Requirements

Bachelor of Science Program in Chemical Physics

- 60% or higher in MATH 1120H or 1121H is required for upper-level Physics courses; MATH 1350H is a prerequisite for upper-level Mathematics courses.

The single-major General program. 15.0 credits including the following 10.0 credits:

- 2.0 CHEM credits consisting of CHEM 1000H, 1010H, 2500H, and 3520H
- 3.0 PHYS credits consisting of PHYS 1001H, 1002H, 2130H, 2610H, and 3200Y

- 0.5 COIS credit consisting of COIS 1020H
- 0.5 MATH credit from MATH 1110H or 1111H (recommended)
- 0.5 MATH credit from MATH 1120H or 1121H (recommended)
- 2.0 MATH credits consisting of MATH 2110H, 2120H, 2150H, and 3150H
- 1.0 CHEM credit from CHEM 3120H, 4220H, 4400H, 4500H, 4520H, or 4515H
- 0.5 CHEM, PHYS, or MATH credit at the 2000 level or beyond in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List and 11.0 science credits.

BS.CHEM - Chemistry - BSc General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (General)

Description
www.trentu.ca/chemistry

Chemistry is the central discipline of science, with interdisciplinary links to all other physical and life science disciplines. The Chemistry Department offers a comprehensive range of courses in the fundamentals of analytical, biochemical, environmental, inorganic, organic, and physical chemistry. Upper-level courses include study in advanced fundamentals, as well as computational, bio-inorganic, and materials chemistry. Chemistry education at Trent involves working closely with faculty and staff in formal lecture and informal laboratory and tutorial/workshop settings. Students enrol in either a General or an Honours program. Many students in the Honours program choose to do a research project in which they obtain first-hand experience in modern chemical research design and methods.

INFORMATION & ADDITIONAL NOTES

- A 4U Chemistry or equivalent is a prerequisite for CHEM 1000H and 1010H. Students without this prerequisite should contact the departmental office for advice prior to the opening of registration in the spring.
- All students taking Chemistry courses that have a laboratory component will be expected to pay a laboratory course fee of $3.50 per lab course and to pay for breakage of equipment and/or glassware on a per-item basis, billed monthly to their student account.

Requirements

Bachelor of Science Program in Chemistry

- The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree, with the following exceptions:
    - Students pursuing a joint-major Honours or General degree in Chemistry and Biology are required to take the following MATH courses: MATH 1051H, 1052H, 1110H, and 1122H. MATH 1110H simultaneously satisfies the requirements of both programs.
- A maximum of 2.0 credits may be taken in Chemistry project courses (CHEM 4010Y, 4011H, 4012H, 4020D, 4030Y, 4031H, 4032H, 4040D).
- No more than 2.0 credits from thesis or project courses may be counted toward any degree offered wholly or jointly by the Chemistry Department.

The single-major General program. 15.0 credits including the following 7.5 credits:

- 4.0 CHEM credits consisting of CHEM 1000H, 1010H, 2100H, 2110H, 2410H, 2420H, 2500H, and 3520H
- 2.0 CHEM credits at the 3000 level in addition to the above
- 0.5 CHEM credit in addition to the above
- 1.0 MATH credit consisting of MATH 1110H and 1122H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List and 11.0 science credits.

The joint-major General program. 15.0 credits including the following 6.0 credits:

- 2.5 CHEM credits consisting of CHEM 1000H, 1010H, 2100H, 2410H, and 2500H
- 0.5 CHEM credit at the 2000 level in addition to the above
- 2.0 CHEM credits at the 3000 level
- 1.0 MATH credit consisting of MATH 1110H and 1122H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List and 11.0 science credits.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

BS.CHEM.SWAN - Chemistry - BSc General - Swansea Chemical Engineering

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (General)

Description
www.trentu.ca/engineering

Trent University, in partnership with Swansea University, United Kingdom, offers a dual degree leading to a Bachelor of Science (General) degree (BSc) and a Bachelor of Engineering degree (BEng). The program allows students to complete the requirements for both degrees in a structured four-year program of study.

Students spend their first two years of full-time study at Trent in Peterborough, taking 10.0 credits toward their Bachelor of Science (General) program in Chemistry (5.0 credits per academic year). Students then transfer to Swansea University for years three and four to complete their study in the Chemical Engineering (BEng) degree program, taking on a full-time course load (120 credits per academic year, which equates to a normal 5.0-credit per year Canadian university course load). Following successful completion of the BEng with the required minimum overall average, students are awarded transfer credits and will be eligible to graduate at the end of the fourth year with both an undergraduate Bachelor of Science (General) degree from Trent University and a Bachelor of Engineering degree from Swansea University. As this is a dual degree and not a joint degree, Swansea University reserves all rights to make adjustments to the required courses for the BEng degree at any point in time. The most up-to-date program overview can be found at www.swansea.ac.uk/undergraduate/courses/engineering-applied-sciences/chemical-engineering/beng-chemical-engineering/.

Academic Progression

Application to the Trent/Swansea Chemical Engineering dual degree is through the Ontario University Application Centre (ouac.on.ca). Students must achieve a minimum secondary school average of 80% and Grade 12U English, Chemistry, Physics and Math (either Calculus or Advanced Functions) to be considered for admission to the program. This entry grade is subject to change annually based on the application cohort and the number of spaces available in the program; however, the minimum average for acceptance to the program will never fall below 80%.

To progress successfully to year three of the dual degree at Swansea University, students must complete an *Intent to Continue onto Studies* form in order to transfer to Swansea for the BEng portion of the dual degree and must have:

- successfully completed years one and two at Trent University with a minimum cumulative average of 77%;
- successfully completed no fewer than 10.0 Trent University credits before enrolling in classes at Swansea (no transfer credits are allowable toward this total and Trent credits must be completed by the end of the Winter term in Year 2);
- declared the program major for the Trent BSc degree;
- obtained and provided proof of an approved Tier 4 (General) Study Visa;
- are in 'good academic standing' at Trent; and,
- no known reasons to be denied access to the United Kingdom.

Following successful completion of the BEng degree at Swansea University, student transcripts will be forwarded to the Office of the Registrar at Trent University to ensure standards are met for awarding of transfer credits. At this point the student academic records will be fully reviewed to confirm eligibility for graduation from the dual degree program. Students currently studying at Trent and transfer students from other post-secondary institutions who have been admitted to Trent University may be able to access the Trent/Swansea Chemical Engineering dual degree. Contact the Office of the Registrar for further details.

Requirements

Bachelor of Science Program in Chemistry – Trent/Swansea Chemical Engineering Dual Degree

- In addition to the program requirements, students must satisfy the University degree requirements below.

- Students who complete the Trent/Swansea Chemical Engineering dual degree program are exempt from the requirement that 5.0 of the last 7.0 credits obtained by a candidate for a Trent University degree must be completed at Trent.
- Successful completion of the BEng degree program with a minimum weighted average of 40% (according to Swansea University's grading scale) is required to award students with transfer credits toward the Trent BSc (General) degree. Per-course grade average to be determined.

The single-major General program. 15.0 credits including the following:

Year 1

5.0 credits including the following:

- 1.0 CHEM credit consisting of CHEM 1000H and 1010H
- 1.5 MATH credits consisting of MATH 1110H, 1122H, and 1350H
- 1.0 PHYS credit consisting of PHYS 1001H and 1002H
- 0.5 COIS credit consisting of COIS 1020H
- 0.5 INDG credit from the Approved Indigenous Course List
- 0.5 elective credit

Year 2

5.0 credits including the following:

- 3.0 CHEM credits consisting of CHEM 2100H, 2110H, 2410H, 2500H, 2810H, and 3520H
- 1.5 MATH credits consisting of MATH 2110H, 2120H, and 2150H
- 0.5 elective credit (CHEM 2420H recommended)

Years 3-4 - At Swansea

End of Year 4

5.0 transfer credits awarded for successful completion of BEng program (years 3-4):

- 1.0 CHEM credit consisting of CHEM 3400H and 3410H
- 0.5 unassigned CHEM credit at the 2000 level
- 1.5 unassigned CHEM credits at the 3000 level
- 1.0 unassigned Science credit at the 2000 level
- 1.0 unassigned Science credit at the 3000 level

BS.COIS - Computer Science - BSc General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (General)

Description
www.trentu.ca/cois

The study of computer science is central to our understanding of how the world processes, manages, and communicates information. It is a field which impacts all disciplines and has redefined how we work, interact, and conduct our day-to-day lives. Computer science specialists design, implement, and integrate software applications which may execute on any system of computing devices, from supercomputers to game boards. They use theories, methodologies, and techniques that help ensure that the system is robust and useable.

INFORMATION & ADDITIONAL NOTES

- Courses in Computer Science fulfilling University science credit requirements for the BSc are marked SCIE in the individual course descriptions.
- Students majoring in Computer Science and who have had some programming experience may consider enrolling in both COIS 1010H and 1020H in the Fall term to increase their options for additional COIS courses earlier in their program.
- MATH 1110H and 1120H are recommended for students in a Computer Science program who are interested in postgraduate studies.

Requirements

Bachelor of Science Program in Computer Science

The single-major General program. 15.0 credits including the following 9.5 credits:

- 3.5 COIS credits consisting of COIS 1010H, 1020H, 2020H, 2240H, 2300H, 3020H, and 3400H
- 2.0 COIS credits at the 3000 level or beyond in addition to the above
- 2.0 COIS credits in addition to the above
- 1.5 MATH credits consisting of MATH 1350H, 1550H, and 2600H
- 0.5 MATH credit from MATH 1005H or 1110H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List and 11.0 science credits.

BS.ECON - Economics - BSc General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (General)

Description
www.trentu.ca/economics

Economics is the academic discipline most discussed by the general public, yet it is also one of the least understood. Economics is the social science that deals with problems of scarcity through a systematic and logical framework for analyzing how a society solves such problems as which goods and services to produce, how to organize production, and for whom goods and services are to be produced. Knowledge of economics is necessary for understanding and dealing intelligently with current topics like unemployment, economic growth, income inequality, the environment, globalization, and various forms of market regulation. Besides its importance in understanding contemporary social issues, economics is useful in developing career skills for business, law, teaching, public administration, and research. Both verbal and mathematical training are involved in the study of economics.

INFORMATION & ADDITIONAL NOTES

- A 4U Mathematics course is strongly recommended for students who plan to major in Economics.
- Courses in Economics fulfilling University science course requirements for the BSc are marked SCIE in the individual course descriptions.

Requirements

Bachelor of Science Program in Economics

- ECON-ADMN 2200H and ECON 3200H fulfill the requirement for 1.0 MATH credit for the BSc in Economics.
- ECON 2000H, 2010H, and 2610H are considered equivalent to the 3000 level in order to satisfy the University requirement for at least 4.0 credits at the 3000 or 4000 level in the General program.

The single-major General program. 15.0 credits including the following 6.0 credits:

- 3.0 ECON credits consisting of ECON 1010H, 1020H, 1250H, 2000H, 2010H, and 2200H
- 3.0 ECON credits in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List. For the BSc, 11.0 science credits are required including 1.0 MATH credit.

The joint-major General program. 15.0 credits including the following 5.0 credits:

- 2.0 ECON credits consisting of ECON 1010H, 1020H, 2000H, and 2010H
- 3.0 ECON credits in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List. For the BSc, 11.0 science credits are required including 1.0 MATH credit.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

BS.ERCE - Environmental Chemistry - BSc General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (General)

Description
Solving many environmental problems requires a solid background in both chemistry and environmental science. The Environmental Chemistry program has been designed to provide a thorough grounding in fundamental chemical principles as well as a detailed understanding of environmental issues and their scientific context. Graduates of the program will have experience with advanced instrumentation and modern analytical techniques, and will be prepared to handle challenging environmental problems from a multidisciplinary perspective.

INFORMATION & ADDITIONAL NOTES

- The Environmental Chemistry program is a sequence of courses that compose an integrated whole and are offered by the Chemistry Department and the School of the Environment. For information on individual courses see Calendar entries for Chemistry and for Environmental & Resource Science/Studies.

Requirements

Bachelor of Science Program in Environmental Chemistry

- ERSC 3551H is recommended for the program.

The single-major General program. 15.0 credits including the following 11.0 credits:

- 4.0 CHEM credits consisting of CHEM 1000H, 1010H, 2410H, 2420H, 2500H, 2620H, 3520H, and 3610H
- 3.0 ERSC credits consisting of ERSC 1010H, 1020H, 2240H, 3450H, 3701H, and 4060H
- 1.0 CHEM credit from CHEM 2100H and 2110H for organic chemistry; or from CHEM 2200H and 3200H for inorganic chemistry
- 0.5 CHEM credit from CHEM 3400H or 3410H
- 1.0 BIOL credit consisting of BIOL 1020H and 1030H
- 1.0 MATH credit consisting of MATH 1110H and 1122H
- 0.5 MATH or PHYS credit from MATH 1051H, PHYS 1001H, or PHYS 1060H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

BS.ERSC - Environmental & Resource Science - BSc General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (General)

Description
www.trentu.ca/ers

Environmental & Resource Science/Studies within the Trent School of the Environment provides many opportunities to study the environment, with more than 100 courses in all aspects of environmental science and policy. Many of these courses emphasize practical experience, including field work in Trent's network of nature areas and in local communities. The program offers a high degree of flexibility in course selection, including options for a year abroad, community-based research courses, placements and internships, and Honours theses.

INFORMATION & ADDITIONAL NOTES

- Science courses, which fulfill University requirements for the BSc, are designated Environmental & Resource Science (ERSC) and marked Science; arts courses are designated Environmental & Resource Studies (ERST).
- Any course involving work with live vertebrate animals requires the Animal Care Course.
- Community-based research, placement, reading and Honours thesis courses normally require a minimum cumulative average of 75%.
- There may be a small additional fee for field trips in certain courses.

Requirements

Bachelor of Science Program in Environmental & Resource Science

The single-major General program. 15.0 credits including the following 7.5 credits:

- 1.5 ERSC/ERST/SAFS credits from ERSC 1010H, 1020H, 1040H, 1050H, ERST 1030H, or SAFS 1001H
- 2.5 ERSC credits consisting of ERSC 2080H, 2090H, 2220H, 2230H, and 2240H
- 0.5 ERST credit consisting of ERST 3000H
- 2.0 ERSC credits at the 3000 level or beyond
- 0.5 ERST credit at the 2000 level or beyond in addition to the above
- 0.5 MATH credit consisting of MATH 1051H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List and 11.0 science credits including 1.0 MATH credit (MATH 1051H and 0.5 additional credit).

The joint-major General program. 15.0 credits including the following 6.0 credits:

- 1.5 ERSC/ERST/SAFS credits from ERSC 1010H, 1020H, 1040H, 1060H, ERST 1030H, or SAFS 1001H
- 2.5 ERSC credits consisting of ERSC 2080H, 2090H, 2220H, 2230H, and 2240H
- 0.5 ERST credit consisting of ERST 3000H
- 0.5 ERSC credit at the 3000 level or beyond
- 0.5 ERST credit at the 2000 level or beyond in addition to the above
- 0.5 MATH credit consisting of MATH 1051H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List and 11.0 science credits including 1.0 MATH credit (MATH 1051H and 0.5 additional credit).

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree, with the following exception: for students pursuing a joint-major degree in Environmental & Resource Science and Geography, one of ERSC 1010H, ERSC 1020H, CLIM-ERSC-GEOG 1060H, or SAFS 1001H may be used to simultaneously satisfy the requirements of both programs.

Specializations

Specialization in Climate Change

BS.GEOG - Geography - BSc General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (General)

Description
www.trentu.ca/geography

The Trent School of the Environment offers BA and BSc programs in Geography. Students may earn a single-major or joint-major degree with a wide range of other University departments or programs. Students earning a degree with a major in another subject may also obtain a minor in Geography. The program has a strong emphasis on field-based learning and interdisciplinary study.

INFORMATION & ADDITIONAL NOTES

- There may be a small additional fee for field trips in certain courses.

Requirements

Bachelor of Science Program in Geography

- Courses in Geography fulfilling University science course requirements for the BSc are marked Science in the individual course descriptions.
- Students who have successfully completed PSYC 2019H are exempt from the GEOG 2080H requirement for the joint-major or minor in Geography. This exemption will not, however, alter the minimum number of credits in Geography required for the degree.
- Students who have taken MATH 1052H and achieved a grade of at least 75% are exempt from taking GEOG 2080H, and from the GEOG 2080H prerequisite for other Geography courses. This exemption will not, however, alter the minimum number of credits in Geography required for the degree.
- GEOG 1030H and 1040H are prerequisites for most upper-level Geography courses. Students should check individual course descriptions for prerequisites.

The single-major General program. 15.0 credits including the following 7.5 credits:

- 2.5 GEOG credits consisting of GEOG 1030H, 1040H, 2080H, 2090H, and 3100H
- 0.5 credit from ERSC 1010H, 1020H, GEOG 1060H, or SAFS 1001H
- 0.5 GEOG credit from GEOG 2180H, 2310H, 2320H, 2710H, or 2810H
- 2.0 GEOG science credits at the 3000 level or beyond in addition to the above
- 1.5 GEOG science credits at the 2000 level or beyond in addition to the above
- 0.5 MATH credit consisting of MATH 1051H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List and 11.0 science credits including 1.0 MATH credit.

The joint-major General program. 15.0 credits including the following 6.0 credits:

- 2.5 GEOG credit consisting of GEOG 1030H, 1040H, 2080H, 2090H, and 3100H
- 0.5 credit from ERSC 1010H, 1020H, GEOG 1060H, or SAFS 1001H
- 0.5 GEOG credit from GEOG 2180H, 2310H, 2320H, 2710H, or 2810H
- 2.0 GEOG science credits at the 3000 level or beyond in addition to the above
- 0.5 MATH credit consisting of MATH 1051H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List and 11.0 science credits including 1.0 MATH credit.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree, with the following exception: for students pursuing a joint-major degree in Geography and Environmental & Resource Science/Studies, one of ERSC 1010H, ERSC 1020H, CLIM-ERSC-GEOG 1060H, or SAFS 1001H may be used to simultaneously satisfy the requirements of both programs.

Specializations

Specialization in Climate Change

BS.IESS - Indigenous Environmental Science - BSc General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (General)

Description
www.trentu.ca/ies

Indigenous Environmental Studies & Sciences at Trent University is an innovative and multidisciplinary program offered jointly by the School of the Environment and the Chanie Wenjack School for Indigenous Studies. It brings together principles of both Indigenous knowledge and Western science. Instruction integrating these approaches will provide students with the necessary knowledge and skills, including both critical and integrative thinking abilities, to begin to address the complex environmental problems facing Indigenous communities, governments, business, industry, research, and society in general. The foundation upon which the program is based recognizes both the strengths and limitations of any single perspective, and seeks to develop interactive and integrative thinking to address environmental, health, and social issues. Learning and problem-solving are focused on benefiting both Indigenous and non-Indigenous communities.

INFORMATION & ADDITIONAL NOTES

- There is no option to pursue a joint-major in Indigenous Environmental Studies & Sciences and Indigenous Studies or a joint-major in Indigenous Environmental Studies & Sciences and Environmental & Resource Science/Studies.
- Students who have earned the Diploma in the Indigenous Environmental Studies & Sciences may apply for admission to the BA or BSc degrees. Credits earned in the Diploma program are transferable to the BA and BSc degrees.
- Indigenous students seeking admission to this or other University programs should contact the Aboriginal enrolment advisor in the First Peoples House of Learning to inquire about getting special assistance with the admission process.
- There may be a small additional fee for field trips in certain courses.

Requirements

Bachelor of Science Program in Indigenous Environmental Science

- IESS 3635H, 3636H, 4630H, INDG 4050H, and an Indigenous language course are recommended for the degree.

The single-major General program. 15.0 credits including the following 7.5 credits:

- 4.5 IESS credits consisting of IESS 1001H, 2601Y, 3631H, 3632H, 3731H, 3732H, and 4740Y
- 1.0 ERSC credit consisting of ERSC 1010H and 1020H
- 1.0 INDG credit consisting of INDG 1001H and 1002H
- 1.0 ERSC credit from ERSC 2220H, 2230H, 2240H, 2260H, or 2080H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 11.0 science credits which include 1.0 MATH credit.

The joint-major General program. 15.0 credits including the following 6.0 credits:

- 3.5 IESS credits consisting of IESS 1001H, 2601Y, 3631H, 3632H, 3731H, and 3732H
- 1.0 ERSC credit consisting of ERSC 1010H and 1020H
- 1.0 INDG credit consisting of INDG 1001H and 1002H
- 0.5 credit from BIOL 1020H, BIOL-ERSC 2260H, GEOG-ERSC 1040H, ERSC 2220H, ERSC 2230H, or ERSC 2240H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 11.0 science credits which include 1.0 MATH credit.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

Specializations

Specialization in Applied Indigenous Knowledge

Specialization in Indigenous Performance

Specialization in Nishinaabemowin

BS.INFO - Information Systems - BSc General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (General)

Description
www.trentu.ca/cois

Information systems specialists are concerned with the flow, storage, and access to information both within and across organizational boundaries, encompassing systems that are both computational and non-computational. They require a broad systems perspective and an appreciation of both technical matters like databases, networks, and telecommunications, as well as non-technical matters such as ethics, law, and digital culture.

INFORMATION & ADDITIONAL NOTES

- The Bachelor of Science program in Information Systems is available only as a joint-major.
- Courses in Computer Science fulfilling University science credit requirements for the BSc are marked SCIE in the individual course descriptions.

Requirements

Bachelor of Science Program in Information Systems

- Students may not graduate with a joint-major degree in any two of the following three areas of study: Computer Science, Computing Systems, and Information Systems.

The joint-major General program. 15.0 credits including the following 5.0 credits:

- 2.0 COIS credits consisting of COIS 1010H, 1020H, 1620H, and 2620H
- 2.0 COIS credits at the 3000 level or beyond
- 1.0 COIS credit in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List. For the BSc, 11.0 science credits are required including 1.0 MATH credit.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

BS.MATH - Mathematics - BSc General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (General)

Description
www.trentu.ca/math

The curriculum in Mathematics & Statistics has been designed to accommodate a wide variety of interests in both pure and applied mathematics. All students in the Mathematics major program must take core courses in calculus, algebra, probability, and statistics. The intent is to provide students with both breadth and depth in Mathematics while allowing them to pursue those areas that interest them.

INFORMATION & ADDITIONAL NOTES

- MATH 1001H, 1080H, 2080Y, 2081H, and 2082H do not satisfy the Mathematics requirement for a Bachelor of Science degree.
- Students wishing to register for a reading course require either an 85% minimum in any prerequisite for the course or the chair's approval.

Requirements

Bachelor of Science Program in Mathematics

The single-major General program. 15.0 credits including the following 6.0 credits:

- 0.5 MATH credit from MATH 1110H or 1111H (recommended)
- 0.5 MATH credit from MATH 1120H or 1121H (recommended)
- 3.0 MATH credits consisting of MATH 1350H, 1550H, 2110H, 2200H, 2350H, and 2560H
- 1.0 credit from MATH 2120H, 2150H, 2260H, 2570H, 2600H, or COIS 1020H
- 0.5 MATH credit from MATH 3150H, 3160H, 3180H, 3200H, 3310H, 3510H, 3560H, 3561H, 3630H, 3770H, or 3790H

- 0.5 MATH credit at the 3000 level or beyond in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List and 11.0 science credits.

The joint-major General program. 15.0 credits including the following 5.0 credits:

- 0.5 MATH credit from MATH 1110H or 1111H (recommended)
- 0.5 MATH credit from MATH 1120H or 1121H (recommended)
- 2.5 MATH credits consisting of MATH 1350H, 1550H, 2110H, 2200H, and 2560H
- 0.5 credit from MATH 2120H, 2150H, 2260H, 2350H, 2570H, 2600H, or COIS 1020H
- 0.5 MATH credit from MATH 3150H, 3160H, 3180H, 3310H, 3350H, 3510H, 3560H, 3561H, 3630H, 3610H, 3770H, or 3790H
- 0.5 MATH credit at the 3000 level or beyond in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List and 11.0 science credits.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

BS.PHYS - Physics - BSc General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (General)

Description
www.trentu.ca/physics

Physics is the most fundamental of the natural sciences. It includes the study of electricity and magnetism, gravitation, electronics, the motion of projectiles and rotating bodies, heat, light and sound, and the interactions between the smallest particles that make up matter: electrons, protons, neutrons, and quarks. Because of their fundamental nature, the concepts of physics underlie much of modern astronomy, chemistry, biology, medicine, and engineering. In particular, the traditional route to becoming an astronomer has been through an undergraduate degree in physics. Discoveries in physics and astronomy continue to broaden our understanding of the universe, advance space travel, speed up global electronic communications, lead to new products such as ferroelectric computer memories, assist forensic science, and improve medical diagnostic techniques.

Requirements

Bachelor of Science Program in Physics

- 60% or higher in MATH 1120H or 1121H is required for upper-level Physics courses.
- MATH 1350H is a prerequisite for upper-level Mathematics courses.

The single-major General program. 15.0 credits including the following 8.0 credits:

- 4.5 PHYS credits consisting of PHYS 1001H, 1002H, 2130H, 2150H, 2610H, 2700H, 3130H, and 3200Y
- 1.0 PHYS credit in addition to the above
- 0.5 COIS credit consisting of COIS 1020H
- 0.5 MATH credit from MATH 1110H or 1111H (recommended)
- 0.5 MATH credit from MATH 1120H or 1121H (recommended)

- 1.0 MATH credit consisting of MATH 2110H and 2120H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List and 11.0 science credits.

The joint-major General program. 15.0 credits including the following 7.0 credits:

- 4.5 PHYS credits consisting of PHYS 1001H, 1002H, 2130H, 2150H, 2610H, 2700H, 3130H, and 3200Y
- 0.5 COIS credit consisting of COIS 1020H
- 0.5 MATH credit from MATH 1110H or 1111H (recommended)
- 0.5 MATH credit from MATH 1120H or 1121H (recommended)
- 1.0 MATH credit consisting of MATH 2110H and 2120H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List and 14.0 science credits.

A cross-listed course can count only once toward the required numbers of credits within a joint-major degree.

BS.PSYC - Psychology - BSc General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (General)

Description
www.trentu.ca/psychology

Psychology is defined as the scientific study of behaviour and the mind. As such, psychological research provides insight into questions on topics such as newborn infants' preference for their mother's voice, the link between personality and academic achievement or physical health, how sleep influences learning and memory, the identification of individuals who are at risk for Alzheimer's disease or cancer, sexual negotiation and behaviour in young adults, or even how you understand these words you are reading right now. Psychology is a scientific discipline with a multitude of practical applications: it deals with every aspect of our lives, and in its application of scientific methods to questions of human concern, it helps us to better understand how and why people act, think, and feel the way they do. The Psychology program at Trent ensures that students acquire research skills and a broad-based background in the basic content of the discipline, and that they have the opportunity at upper levels to focus on more specialized topics and to become involved in original research.

INFORMATION & ADDITIONAL NOTES

- 60% or higher in PSYC 1020H and 1030H is a prerequisite for all upper-level Psychology courses.
- A 4U Mathematics course is strongly recommended for students who plan to major in Psychology.
- All courses in Psychology fulfill University science course requirements for the BSc.
- Most courses at the 2000 and 3000 level in the department are assigned to one of two categories (Natural Science or Social Science). Students in the single-major or joint-major program in Psychology must include in their program a range of courses chosen from each category, as indicated in the requirements for the various program options.
- Any course involving work with live vertebrate animals requires the Animal Care Course. The Animal Care Course requirement is indicated in some course descriptions but may also apply to others. Check with the course instructor if in doubt.

- For non-majors taking courses where PSYC 2018H or 2019H is a prerequisite, a statistics course in another discipline may be substituted, but only if the permission of the department has been granted.
- A maximum 2.0 credits consisting of either reading courses (PSYC 3900Y, 3901H, 3902H, 4900Y, 4901H, and 4902H) and/or research practicum courses (PSYC 3801H, 3802H, 4801H, and 4802H) may be counted toward the course requirements for a major or joint-major degree in Psychology.
- Research practicum and reading courses are only open to students in the single-major or joint-major Honours programs in Psychology.
- Offerings of 4000-level courses change from year to year. A listing of the 4000 level courses can be found on the academic timetable.

Requirements

Bachelor of Science Program in Psychology

- The department offers both a BA and a BSc degree. Students completing the single-major or joint-major General BSc program require 11.0 science credits, including at least 1.5 science credits in addition to Psychology and cross-listed Psychology courses. The 1.0 MATH credit requirement must be completed for all Psychology BSc degrees. PSYC 2018H and 2019H fulfill the requirement for 1.0 credit in Mathematics for the single-major (Honours or General) BSc in Psychology.

The single-major General program. 15.0 credits including the following 6.0 credits:

- 2.0 PSYC credits consisting of PSYC 1020H, 1030H, 2018H, and 2019H
- 0.5 PSYC credit from A2
- 0.5 PSYC credit from B2
- 0.5 PSYC credit from A3
- 0.5 PSYC credit from B3
- 1.0 PSYC credit at the 3000 level or beyond in addition to the above
- 1.0 PSYC credit in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

For the BSc, 11.0 science credits including 1.0 MATH credit are required for the General degree of which at least 1.5 science credits (SCIE designated courses) are in addition to Psychology courses and courses cross-listed with Psychology. PSYC 2018H and 2019H fulfill the requirement for 1.0 credit in Mathematics for the single-major BSc in Psychology.

The joint-major General program. 15.0 credits including the following 5.0 credits:

- 2.0 PSYC credits consisting of PSYC 1020H, 1030H, 2018H, and 2019H
- 0.5 PSYC credit from A2
- 0.5 PSYC credit from B2
- 0.5 PSYC credit from A3
- 0.5 PSYC credit from B3
- 0.5 PSYC credit at the 3000 level or beyond in addition to the above
- 0.5 PSYC credit in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List. The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

For the BSc, 11.0 science credits including 1.0 MATH credit are required for the General degree of which at least 1.5 science credits (SCIE designated courses) are in addition to Psychology courses and courses cross-listed with Psychology. PSYC 2018H and 2019H fulfill the requirement for 1.0 credit in Mathematics for the single-major BSc in Psychology.

BS.SPEC - Individualized Studies - BSc General

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (General)

Description
Normally students choose a program of study determined by the academic regulations leading to a major or joint-major in Arts or Science. In exceptional circumstances, students of superior academic ability and intellectual independence may design an individualized program of study, selecting courses from various disciplines to explore a theme of their own choosing. Before designing such a program, students are encouraged to speak with an Academic Advisor about their personal academic goals (see Academic Advising).

The following guidelines apply:

This program is intended for students who have given evidence of superior academic ability and intellectual independence, and is normally available only as an Honours degree.

The Individualized Studies program consists of 20.0 credits of which at least 2.0 must be at the 4000 level. A minimum cumulative average of 75% should normally be maintained.

Students must apply for the program through an Academic Advisor. The application must include a rationale for the choice of courses, including reasons why the proposed program of study cannot be accommodated within an existing major or joint-major program, and must identify the remaining courses required.

Students must discuss the intended program with an Academic Advisor before the end of the first year of studies. Students who have completed 5.0 credits may be considered retroactively for an Individualized Studies program.

The Academic Advisor will: ensure that the program meets the University's degree requirements, ensure that the student has obtained approval from the academic departments or programs concerned, and confirm that the required courses for program completion will be available on the proposed schedule.

The Academic Advisor and the student must present the program to the Committee on Undergraduate Petitions (CUP) for approval. Once approved, any changes must be discussed with the Academic Advisor and reported to CUP.

An individualized study program in Global Studies is available as an Honours degree through Trent International. The program combines Study Abroad with internationally oriented studies in three or more disciplines. Students are normally required to study a language other than English, at least to the intermediate level, and to spend one year of undergraduate study in another country. Students must apply for entry into this program through Trent International (not an Academic Advisor) by April 1 in the first year of studies. A list of proposed courses and a rationale for these choices should be submitted with the application. For application information and further details please contact Trent International.

BSF.FRSC - Forensic Science - BScFS Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Forensic Science

Description
www.trentu.ca/forensicscience

The Bachelor of Science in Forensic Science (BScFS) is a direct-entry professional degree program with a limited number of student places. This program integrates the study of science and law with investigative practice and theory. Students in Trent's Forensic Science degree program learn the foundational science of forensics through the study of anthropology, biology, and chemistry. These foundational science courses complement the specialized forensics courses offered in the program. The degree particularly emphasizes emerging developments in DNA forensic applications and crime scene investigation through courses in laboratory techniques and related case work.

From the beginning of their forensic studies at Trent, BScFS students are fully immersed in a functioning forensic research and service environment located in the DNA Building. Students practice case work, learn team-building, analyze ethical and legal issues related to evidence, and face the challenge of communicating complex scientific evidence within the legal system. Students in the program may also participate in a placement/mentorship course where they gain valuable "real-world" experience and begin to develop their professional network.

INFORMATION & ADDITIONAL NOTES

- The BScFS is a direct-entry program with a limited number of student places. A secondary school diploma and six Ontario U/UM credits including one 4U credit in each of Chemistry, Biology, English, and Mathematics are required for admission. 3U Physics is highly recommended. Normally, students with an overall average lower than 75% will not be admitted to the program.
- The Accelerated Master's program in Environmental & Life Sciences allows students to obtain a research-based MSc within a shorter timeframe. See www.trentu.ca/els/experience/msc-program/accelerated-masters-program for details.

Requirements

Bachelor of Science in Forensic Science Program

- 1.0 MATH credit at the 1000 level, 1.0 BIOL or CHEM credit at the 1000 level, and 60% or higher in each of FRSC 1030H and 1100H are prerequisites for required course FRSC 2011H.

The single-major Honours program. 20.0 credits including the following 16.0 credits:

- 6.0 FRSC credits consisting of FRSC 1030H, 1100H, 2011H, 2020H, 2050H, 2100H, 3010H, 3020H, 3100H, 3110H, 3700H, and 4312H
- 0.5 FRSC credit from FRSC 3000H or 3111H
- 2.5 FRSC credits at the 4000 level in addition to the above
- 1.0 FRSC credit in addition to the above
- 1.0 ANTH credit consisting of ANTH 1001H and 2410H
- 1.0 BIOL credit consisting of BIOL 1030H and 3080H
- 2.5 CHEM credits consisting of CHEM 1000H, 1010H, 2300H, 2410H, and 2420H
- 1.0 MATH credit consisting of MATH 1051H and 1052H
- 0.5 PHYS credit from PHYS 1000H or 1001H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List and 14.0 science credits.

Specializations

Specialization in Law & Policing

BSH.ADMN - Business Administration - BSc Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
www.trentu.ca/business

The Honours Business Administration program enables students to develop an understanding of the nature of organizational life, to communicate more effectively, to learn the techniques of financial and management accounting, and to gain knowledge of managerial planning and strategy formation. In addition to core business subjects, the program emphasizes communication and creative problem-solving skills that are essential to future career success. A strong emphasis on group work provides an ideal environment in which to practice these skills. An essential feature of the program is its focus on the human side of organizations to recognize and value the people who actually make organizations work. The School of Business encourages students to develop a broad base of knowledge, an understanding of the larger social issues facing organizations, and the capacity for critical analysis. Students can gain real work experience through placement, internship and co-op opportunities.

Note: The Bachelor of Science program in Business Administration is available only as a joint-major.

Requirements

Bachelor of Science Joint-Major Program in Business Administration

- Specializations are available only to students in the Honours program (BBA or joint-major BA/BSc). Students may obtain only one Business Administration specialization as part of an Honours degree.
- A minimum grade of 65% is required in any course counting toward Business Administration specialization requirements.

- Students may count ADMN specialization credits at the 3000 and 4000 level toward the requirement of 1.5 ADMN elective credits at the 3000 or 4000 level in the joint-major Honours program.
- Students may count ADMN specialization credits at the 4000 level toward the requirement of 0.5 ADMN elective credit at the 4000 level in the joint-major Honours program (excluding ADMN 4820Y, 4870H, 4880H, 4890Y, 4900Y, 4901H, 4902H, 4903H).
- Honours students may choose to complete only one of the Specialization in Economics or the minor in Economics.

The joint-major Honours program. 20.0 credits including the following 8.5 credits:

- 4.5 ADMN credits consisting of ADMN 1000H, 1221H, 2100H, 2220H, 2221H, 2510H, 3032H, 3200H, and 3300H
- 0.5 ADMN credit at the 4000 level (excluding ADMN 4820Y, 4870H, 4880H, 4890Y, 4900Y, 4901H, 4902H, 4903H)
- 1.5 ADMN credits at the 3000 level or beyond in addition to the above
- 0.5 ADMN credit from ADMN 1250H or from 0.5 ADMN credit at the 2000 level or beyond in addition to the above
- 1.5 ECON credits consisting of ECON 1010H, 1020H, and 2200H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List. For the BSc, 14.0 science credits are required including 1.0 MATH credit.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

Specializations

Specialization in Accounting

Specialization in Economics

Specialization in Entrepreneurship

Specialization in Ethics & Sustainability

Specialization in Finance

Specialization in Global Innovation, Entrepreneurship, and Social Change

Specialization in Human Resource Management

Specialization in Information Systems & e-Commerce

Specialization in Logistics and Supply Chain Management

Specialization in Marketing & Consumer Culture

Specialization in Niigaaniiwin—The Art of Leading

BSH.AIST - Artificial Intelligence - BSc Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
Artificial Intelligence is an interdisciplinary program enabling students not only to gain theoretical understanding of learning models and intelligence, but to integrate and synthesize this knowledge in connection with the foundational areas of computation, statistics, cognition and philosophy across a breadth of application areas. The program in Artificial Intelligence will equip students to grapple with the complex ethical, conceptual, technique and institutional challenges associated with the growing demands for a variety of career options related to AI and its applications.

The Artificial Intelligence program responds to the rapid advancements of today's technology, the growing demand for AI professionals in industry, organizations, academic research, both locally and globally. The program integrates multiple academic units, encouraging students to explore AI from diverse perspectives and understand its applications across various domains.

The program will enable students to understand the theoretical foundation of Artificial Intelligence and Machine Learning (ML), gain knowledge on philosophy and AI, develop skills in computer programming and communication, and experience AI applications in various areas. Topics include computer programming and applications, machine learning tools and algorithms, communications, ethics and logical studies, social and economic impacts and research. The program incorporates methodologies for systems and applications of data analytics from different perspectives. Students will gain real-world experience through hands-on lab practice and capstone projects, and will have the opportunity to complete a research practicum or a co-op. The BSc program emphasizes algorithms, design, analysis and practical implementation with a stronger focus on quantitative methods.

Requirements

Bachelor of Science Program in Artificial Intelligence

The single-major Honours program. 20 credits including the following 11.0 credits:

- 5.0 AIST credits consisting of AIST 1000H, 1400H, 2000H, 2010H, 3550H, 3561H, 3570H, 4400H, 4550H, and 4851H
- 1.0 AIST credit from AIST 3270H, 3410H, or 4270H
- 2.5 COIS credits consisting of COIS 1020H, 2020H, 2040H, 2240H, and 3510H
- 1.5 MATH credits consisting of MATH 1110H, 1350H, and 1550H
- 1.0 credit from AIST 3004H, AIST 3960H, AIST 4430H, AIST 4445H, AIST 4570H, COIS 3040H, or MATH-COIS 3350H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 14.0 science credits and 0.5 credit from the Approved Indigenous Course List.

The joint-major Honours program. 20.0 credits including the following 9.0 credits:

- 4.0 AIST credits consisting of AIST 1000H, 1400H, 2000H, 2010H, 3550H, 3570H, 4550H, and 4851H
- 0.5 AIST credit from AIST 3270H or 3410H
- 0.5 AIST credit from AIST 4270H, 4430H, or 4445H
- 2.5 COIS credits consisting of COIS 1020H, 1620H, 2020H, 2040H, and 3510H
- 1.5 MATH credits consisting of MATH 1110H, 1350H, and 1550H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 14.0 science credits and 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

Due to overlapping requirements, it is not possible to combine Artificial Intelligence and Computer Science in a joint-major degree.

BSH.AIST.COOP - Artificial Intelligence - Co-op (BSc)

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
www.trentu.ca/coop

Co-op is an opportunity for students to gain work-integrated experiential learning that will help them get a head start on a career. The Artificial Intelligence Co-op assists graduating students in achieving a competitive edge while generating experience within a wide range of sectors. Specifically, co-op gives the students a chance to obtain 12 months of practical experience on the job, develop or enhance technical skills, explore career options, network with a variety of individuals and organizations, learn from mentors and tutors, enhance communication and presentation skills, and develop technical writing skills.

INFORMATION & ADDITIONAL NOTES

- Co-op students are responsible for paying tuition for their academic courses, ancillary fees, and levies. All Trent students are charged ancillary fees every Fall & Winter term. Co-op students will experience the same cycle for their ancillary fee payments regardless of when they are out on work terms. Co-op students do not pay tuition during their work terms.
- Co-op students are responsible for paying the compulsory Co-op Fee a total of five times during their degree program, and the Co-op fee will be applied to their student account in Year 3 Fall, Year 3 Winter, Year 4 Fall, Year 4 Winter, and Year 5 Fall.
- Students are encouraged to meet with their Co-op Coordinator at CareerSpace each year for support with their co-op work terms, career development, and to confirm they are meeting co-op progression requirements.

Requirements

Bachelor of Science Program in Artificial Intelligence — Co-op

- Co-op students must satisfy the requirements for the single-major BSc Honours in Artificial Intelligence and the Co-op requirements listed below.
- Artificial Intelligence Co-op is a competitive direct-entry program with a limited number of student places. Students who are not admitted directly may apply for admission after commencing studies at Trent and may be admitted on a competitive basis provided there are available spaces in the program.
- To remain in the co-op program, students must complete the required work term preparation and reflection courses (COOP 2000H and 4000H) with a minimum 70% progression requirement in COOP 2000H and 65% in COOP 4000H, and maintain a minimum 75% cumulative average throughout their study terms. In addition, students must continue to receive satisfactory evaluations during each of their three work terms. Students who do not achieve a minimum 70% in COOP 2000H will be withdrawn from the co-op program but may continue their studies in Artificial Intelligence or transfer to a major in a different subject. Once withdrawn, students are not eligible to re-enter the co-op program. Students who do not achieve a minimum 65% in COOP 4000H but otherwise fulfill all degree requirements will be awarded an Honours degree in Artificial Intelligence without the Co-op designation.
- Students in the Artificial Intelligence Co-op follow the co-op continuing model where they complete one 12-month work term (COOP 2100P, 3100P and 4100P) with a single employer. The prerequisite for the first work term (COOP 2100P) for students in this program is completion of COOP 2000H with a minimum grade of 70% and completion of at least 12.0 academic credits. The set work term schedule is listed below. Students who choose to explore any additions (minor, specialization, or option) to a single-major Honours may require additional time to complete their degrees, as all courses are not offered in every term. It is expected that students follow the set work term schedule. Students are encouraged to work with an academic advisor for support with degree mapping.

YEAR	FALL	WINTER	SUMMER
Year 1	Study Term 1	Study Term 2	-
Year 2	Study Term 3	Study Term 4	-
Year 3	Study Term 5	Study Term 6	Work Term
Year 4	Work Term	Work Term	-
Year 4	Study Term 7	Study Term 8	-

- Students on a work term must complete learning objectives, a midterm evaluation, a final evaluation, and a final work term report. Co-op employers will also complete a midterm evaluation and final evaluation of the student's work term. Upon receiving the completed documentation and upon a satisfactory employer assessment, a Pass (P) or Fail (F) will be assigned for COOP 2100P, 3100P, and 4100P. CareerSpace makes every effort to find suitable work terms for students enrolled in the co-op program, but a work term opportunity cannot be guaranteed for every student. The work term process is competitive and dependent upon many factors including market conditions, the preparedness of a student including their job applications and performance in job interviews, and the academic performance of a student. Co-op students secure positions through successful participation in the co-op interview process and/or their own job search activities. Withdrawal from the co-op program will not normally be approved while a student is on a work term. Students are not permitted to take an academic course during a scheduled work term.
- Students who are unable to obtain a suitable co-op opportunity in an upcoming work term are expected to continue with their academic program on a full-time basis. If a student is unable to secure their 12-month work term in Year 3 Summer, the missed work term experience would be delayed to Year 4 Fall. If a co-op student fails to secure their work term experience in Year 4 Fall or is unable to complete their 12-month co-op work term yet otherwise fulfills degree requirements, they will be awarded an Honours Bachelor of Arts or Bachelor of Science in Artificial Intelligence.

BSH.ANTH - Anthropology - BSc Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
www.trentu.ca/anthropology

Anthropology is the study of human cultural, behavioural, and biological variability. It is a discipline integrating four subfields: archaeology, linguistic anthropology, biological anthropology, and cultural anthropology. Archaeologists document the material remains of past societies to understand and to explain patterns of cultural behaviour and cultural change. Linguists study languages worldwide and in relation to society and culture. Biological anthropologists investigate human evolution, growth, and development in relation to environmental, genetic, and cultural factors. Cultural anthropologists work with living people worldwide, recording their ways of life and beliefs and interpreting their findings to understand and explain the similarities and differences in cultural practices. Anthropologists are unified by their interest in human variability and the manner in which different individuals, communities, and societies, whether in the past or present, relate to each other at scales ranging from the local to global.

INFORMATION & ADDITIONAL NOTES

- Due to overlapping requirements, it is not possible to combine Anthropology and Archaeology in a joint-major Honours degree.
- It is not possible to combine Anthropology and Forensic Science in a joint-major Honours degree.
- Courses in Anthropology fulfilling University science course requirements for the BSc are marked SCIE in the individual course descriptions.
- Students who plan to take upper-year archaeology courses are strongly encouraged to take ANTH 2121H and 2122H, which are both prerequisites for many upper-year archaeology courses.
- Students planning to enter graduate school are strongly advised to take ANTH 2001H, 2002H, 2121H, 2122H, 2410H, and 2450H; if they are planning to continue in archaeology, they are strongly advised to take both ANTH 3123H and 3991H.

- The Accelerated Master's program in Anthropology allows students to obtain a research-based MA or MSc within a shorter timeframe. Students who are interested in applying should contact the Anthropology graduate program director.
- Through the Study Abroad Exchange Program, students may travel to Belize for a semester or a year and take courses at Galen University. Information on the program is available at www.trentu.ca/studyabroad/trent-students.

Requirements

Bachelor of Science Program in Anthropology

- Students may count no more than 1.0 credit from reading courses in Anthropology or equivalent toward the Honours degree.

The single-major Honours program. 20.0 credits including the following 12.0 credits:

- 4.5 ANTH credits consisting of ANTH 1001H, 1030H, 2123H, 2150H, 2410H, 3123H, 3153H, 3404H, and 3731H
- 1.0 ANTH credit at the 4000 level
- 3.0 ANTH credits at the 3000 level or beyond in addition to the above
- 1.5 ANTH credits in addition to the above, including 0.5 credit from each of Categories A, B, and C
- 1.0 MATH credit (MATH 1051H and 1052H are recommended)
- 1.0 credit in BIOL, CHEM, MATH, and/or PHYS in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 14.0 science credits and 0.5 credit from the Approved Indigenous Course List.

The joint-major Honours program. 20.0 credits including the following 9.0 credits:

- 4.5 ANTH credits consisting of ANTH 1001H, 1030H, 2123H, 2150H, 2410H, 3123H, 3153H, 3404H, and 3731H
- 1.0 ANTH credit at the 4000 level
- 0.5 ANTH credit at the 3000 level or beyond in addition to the above
- 1.0 ANTH credit in addition to the above, including 0.5 credit from two of Categories A, B, and C
- 1.0 MATH credit (MATH 1051H and 1052H are recommended)
- 1.0 credit in BIOL, CHEM, MATH, and/or PHYS in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 14.0 science credits and 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

BSH.ANTH.COOP - Anthropology - Co-op (BSc)

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
www.trentu.ca/coop

Co-op is an opportunity for students to gain work-integrated experiential learning that will help them get a head start on a career. The Anthropology Co-op assists graduating students in achieving a competitive edge while generating experience within a wide range of sectors. Specifically, co-op gives the students a chance to obtain 12 months of practical experience on the job, develop or enhance technical skills, explore career options, network with a variety of individuals and organizations, learn from mentors and tutors, enhance communication and presentation skills, and develop technical writing skills.

INFORMATION & ADDITIONAL NOTES

- Co-op students are responsible for paying tuition for their academic courses, ancillary fees, and levies. All Trent students are charged ancillary fees every Fall & Winter term. Co-op students will experience the same cycle for their ancillary fee payments regardless of when they are out on work terms. Co-op students do not pay tuition during their work terms.
- Co-op students are responsible for paying the compulsory Co-op Fee a total of five times during their degree program, and the Co-op fee will be applied to their student account in Year 2 Fall, Year 2 Winter, Year 3 Fall, Year 3 Winter, and Year 4 Fall.
- Students are encouraged to meet with their Co-op Coordinator at CareerSpace each year for support with their co-op work terms, career development, and to confirm they are meeting co-op progression requirements.

Requirements

Bachelor of Science Program in Anthropology — Co-op

- Co-op students must satisfy the requirements for the single-major BSc Honours in Anthropology and the Co-op requirements listed below.
- The Anthropology Co-op is a competitive direct-entry program with a limited number of student places. Students who are not admitted directly may apply for admission after commencing studies at Trent and may be admitted on a competitive basis provided there are available spaces in the program.
- To remain in the co-op program, students must complete the required work term preparation and reflection courses (COOP 2000H and 4000H) with a minimum 70% progression requirement in COOP 2000H and 65% in COOP 4000H, and maintain a 75% cumulative average throughout their study terms. In addition, students must continue to receive satisfactory evaluations during each of their three work terms. Students who do not achieve a minimum 70% in COOP 2000H will be withdrawn from the co-op program but may continue their studies in Anthropology or transfer to a major in a different subject. Once withdrawn, students are not eligible to re-enter the co-op program. Students who do not achieve a minimum 65% in COOP 4000H but otherwise fulfill all degree requirements will be awarded an Honours degree in Anthropology without the Co-op designation.
- Three non-credit co-op work terms are required for the BA/BSc program in Anthropology Co-op (COOP 2100P, 3100P, 4100P). The prerequisite for the first work term (COOP 2100P) for students in this program is completion of COOP 2000H with a minimum grade of 70% and completion of at least 10.0 academic credits. The schedule for the single-major Honours program is listed below. Students who choose to explore any additions (minor, specialization, or option) to a single-major Honours may require additional time to complete their degrees, as all courses are not offered in every term. It is expected that students follow the set work term schedule. Students are encouraged to work with an academic advisor for support with degree mapping.

YEAR	FALL	WINTER	SUMMER
Year 1	Study Term 1	Study Term 2	Study Term 3
Year 2	Study Term 4	Study Term 5	Work Term 1
Year 3	Study Term 6	Study Term 7	Work Term 2
Year 4	Work Term 3	Study Term 8	–

- Students on a work term must complete learning objectives, a midterm evaluation, a final evaluation, and a final work term report. Co-op employers will also complete a midterm evaluation and final evaluation of the student's work term. Upon receiving the completed documentation and upon a satisfactory employer assessment, a Pass (P) or Fail (F) will be assigned for COOP 2100P, 3100P, and 4100P. CareerSpace makes every effort to find suitable work terms for students enrolled in the co-op program, but a work term opportunity cannot be guaranteed for every student. The work term process is competitive and dependent upon many factors including market conditions, the preparedness of a student including their job applications and performance in job interviews, and the academic performance of a student. Co-op students secure positions through successful participation in the co-op interview process and/or their own job search activities. Withdrawal from the co-op program will not normally be approved while a student is on a work term. Students are not permitted to take an academic course during a scheduled work term.
- Students who are unable to obtain a suitable co-op opportunity in an upcoming work term are expected to continue with their academic program on a full-time basis. A single missed work term can be made up, but in the event that a co-op student cannot secure their work term for a second time, they will be withdrawn from the co-op program. If a student is unable to complete three work terms yet otherwise fulfills all degree requirements, the student will be awarded an Honours Bachelor of Arts or an Honours Bachelor of Science in Anthropology.

BSH.ARCH - Archaeology - BSc Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
www.trentu.ca/archaeology

The Archaeology program focuses on the interdisciplinary and comparative study of the human past through the material record. Courses focus on comparative world archaeology, field and analytic methods, laboratory techniques, theory and ethics, and the archaeology of specific geographic regions. Current geographic areas of academic expertise are the Americas, Europe and the Mediterranean, and Southeast Asia. Degree options provide students with foundational training in the methodological, theoretical, and professional aspects of contemporary archaeological practice.

INFORMATION & ADDITIONAL NOTES

- Due to overlapping requirements, it is not possible to combine Anthropology and Archaeology in a joint-major Honours degree combination. A joint major is possible between Ancient Greek & Roman Studies and Archaeology, but no credit may be double-counted.
- Courses in Anthropology fulfilling University science course requirements for the BSc are marked SCIE in the individual course descriptions.
- Students are strongly advised to plan course selection carefully in order to acquire needed prerequisites and to prepare for graduate school or careers in different specialties. Advising information is available on the Archaeology program website.
- Students are required to gain relevant, practical archaeological experience. They are encouraged to do so by taking one of three field courses (ANTH 3000Y, ANTH-AGRS 3850Y/3851H, or ANTH 3855H), which are normally offered in the summer, or by taking a combination of laboratory and/or field courses (ANTH 3151H, 3152H, 3153H, and/or 3165H), which are normally offered during the regular school year (except for ANTH 3165H, which is normally offered in the summer). Alternatively, students may register in a field school or lab methods

course at another university by obtaining a Letter of Permission from the Office of the Registrar prior to registering in the course. See Letters of Permission for additional details.

- Students who already have extensive field and/or laboratory experience (such as from previous archaeological employment) should consult with the program coordinator, who may consider waiving the degree requirement for a field or lab course. At a minimum, students would normally have to have the equivalent of four weeks of full-time work in the field and/or lab (i.e., 160 hours total). If such a waiver is approved, the student will need to substitute an additional course, with the coordinator's approval, in order to meet the total number of required courses.

Requirements

Bachelor of Science Program in Archaeology

- A minimum grade of 60% in ANTH-AGRS 1030H is required for the Honours BSc in Archaeology.

The single-major Honours program. 20.0 credits including the following 14.5 credits:

- 3.5 ANTH credits consisting of ANTH 1001H, 1030H, ANTH 2121H, 2122H, 2123H, 2150H, and 3123H
- 1.0 ANTH credit from ANTH 3000Y, 3151H, 3152H, 3153H, 3165H, 3850Y, 3851H, or 3855H
- 2.5 ANTH credits from ANTH 2410H, 3153H, 3155H, 3175H, 3185H, 3404H, 3405H, 3680H, 3731H, 4180H, 4185H, or 4420H
- 1.0 ANTH credit from Categories A and/or B at the 4000 level
- 1.0 ANTH credit from Categories A and/or B at the 3000 level or beyond in addition to the above
- 1.0 ANTH credit from Categories A and/or B in addition to the above
- 0.5 GEOG credit consisting of GEOG 1040H
- 1.5 credits from BIOL 1020H, BIOL 1030H, CHEM 1000H, CHEM 1010H, PHYS 1000H, or PHYS 1060H
- 1.0 MATH credit (MATH 1051H and 1052H are recommended)
- 1.5 credits in BIOL, CHEM, MATH, and/or PHYS in addition to the above

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

BSH.BICE - Biochemistry & Molecular Biology - BSc Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
The chemistry of life processes is at the essence of all living things. The Biochemistry & Molecular Biology program is designed to provide a foundation in the chemistry of biological systems, combining study of analytical, organic, inorganic, and physical chemistry with biochemistry, molecular biology, and cell physiology. Students completing the program will have a detailed understanding of the processes that control and mediate health, illness, reproduction, growth, and ultimately life itself. Honours research projects introduce students to modern methods in protein chemistry, bioengineering, and molecular biology.

INFORMATION & ADDITIONAL NOTES

- The Biochemistry & Molecular Biology program is a sequence of courses offered by the Departments of Biology and Chemistry that compose an integrated whole. For information on individual courses see Calendar entries for Biology and Chemistry.
- Students wishing to transfer to a single-major program in Biology or Chemistry should consult the chair of the appropriate department when they have successfully completed 8.0 to 10.0 credits.
- An average of 75% in all previous Chemistry courses and permission of the coordinator are prerequisites for CHEM 4030Y and 4040D.

Requirements

Bachelor of Science Program in Biochemistry & Molecular Biology

- A maximum of 2.0 credits in thesis and/or project courses may be counted toward a Biochemistry & Molecular Biology degree.

The single-major Honours program. 20.0 credits including the following 16.0 credits:

- 2.5 BIOL credits consisting of BIOL 1020H, 1030H, 2050H, 2070H, and 3080H
- 5.0 CHEM credits consisting of CHEM 1000H, 1010H, 2100H, 2110H, 2200H, 2300H, 2410H, 2500H, 3310H, and 3320H
- 2.0 BIOL credits from BIOL 3250H, 3830H, 3840H, 4080H, 4130H, 4160H, 4250H, 4260H, 4340H, 4370H, 4380H, 4550H, 4600H, 4830H, or 4840H
- 1.0 CHEM credit at the 3000 level in addition to the above
- 1.0 CHEM credit at the 4000 level
- 3.0 BIOL and/or CHEM credits at the 3000 level or beyond in addition to the above
- 1.0 MATH credit consisting of MATH 1110H and 1122H
- 0.5 PHYS credit from PHYS 1001H or 1060H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

BSH.BIOC - Conservation Biology - BSc Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
www.trentu.ca/biology/programs/conservation-biology-bsc

Conservation biology is the branch of the biological sciences that deals with the causes, the consequences, and the ways to stem biodiversity loss. Biodiversity is the rich mix of species on Earth that underpins the resilience of ecosystems which, ultimately, support our lives and livelihoods. Many scientists propose that modern society has entered the Anthropocene—a new epoch where human influences on the Earth's natural systems are pervasive and permanent. In this epoch, we will need skilled practitioners who can inform planning and economic activities through the lens of strong scientific understanding in conservation biology. These practitioners will be knowledgeable in ecology, animal and plant diversity, evolution, organismal biology and behaviour, and population genetics. They will ably convey their knowledge to non-specialists. The Conservation Biology program draws from such courses in the Department of Biology, supplemented with those from Chemistry, Mathematics & Statistics, Physics & Astronomy, and the School of the Environment. This suite of courses provides students with the practical and conceptual foundations of the science of biological conservation.

INFORMATION & ADDITIONAL NOTES

- Two versions of the degree are available: The Bachelor of Science Honours program, which includes a fourth-year placement, and the Bachelor of Science Honours Co-op program.
- There is no joint-major program, General program, or minor in Conservation Biology.
- As Conservation Biology is a limited enrolment program, fulfillment of the minimum requirements does not necessarily guarantee admission. Entrance is competitive, particularly for the co-op stream. A secondary diploma and six Ontario 4U or 4M courses with a minimum 75% overall final average are required. These include ENG4U (Grade 12 English), SCH4U (Grade 12 Chemistry), SBI4U (Grade 12 Biology), and MHF4U (Advanced Functions) or

MCV4U (Calculus and Vectors). SPH4U (Grade 12 Physics) is recommended. The admission average is calculated using the four required courses and the next two highest 4U/M-level courses.

- Students may apply to enter the Conservation Biology program (placement) after first year if they have successfully completed the following courses with a minimum combined average of 75%: BIOL 1020H, BIOL 1030H, BIOL-PHYS 1060H or PHYS 1001H or PHYS 1000H, CHEM 1000H, CHEM 1010H, ERSC 1010H, ERSC 1020H, MATH 1051H, MATH 1052H, and either MATH 1006H or 1110H.
- Students who have not taken any 4U (or equivalent) calculus courses are recommended to take MATH 1006H as the required 0.5 credit from MATH 1006H or 1110H.
- The Accelerated Master's program in Environmental & Life Sciences allows students to obtain a research-based MSc within a shorter timeframe.

Requirements

Bachelor of Science Program in Conservation Biology

- To remain in the program, students must maintain a minimum combined average of 75% over all BIOL and BIOC courses. This average is calculated using all BIOL and BIOC completed for credit, excluding PHYS-BIOL 1060H. Students who are unable to achieve these grades may switch to the Honours program in Biology, transfer to a BSc or BA program in another discipline and fulfill any degree requirements for a major, or repeat courses (subject to Trent University's policy on repeating courses) until they achieve the required grades to apply for readmission to the program.
- BIOL 4400Y: Placement in Conservation Biology. Students must inform the Biology Department of their intention to enrol in the course in the preceding academic year.

The single-major Honours program. 20.0 credits including the following 16.5 credits:

- 1.0 BIOC credit consisting of BIOC 2010H and 4100H
- 7.5 BIOL credits consisting of BIOL 1020H, 1030H, 2000H, 2050H, 2070H, 2260H, 2600H, 3111H, 3380H, 3391H, 3600H, 4400Y, 4500H, and 4510H
- 0.5 BIOL credit from BIOL 3170H or 3190H
- 1.0 CHEM credit consisting of CHEM 1000H and 1010H
- 1.0 ERSC credit consisting of ERSC 1010H and 1020H
- 0.5 ERST credit consisting of ERST 3250H
- 1.0 MATH credit consisting of MATH 1051H and 1052H
- 0.5 MATH credit from MATH 1006H or 1110H
- 0.5 PHYS credit from PHYS 1000H, 1001H, or PHYS-BIOL 1060H
- At least 3.0 credits in addition to the above from the following:
    - BIOL-ERSC-SAFS 2350H
    - BIOL 3050H
    - BIOL 3051H
    - BIOL 3080H
    - BIOL 3090H
    - BIOL 3120H
    - BIOL 3140H
    - BIOL 3170H
    - BIOL 3180H
    - BIOL 3190H
    - BIOL 3200H
    - BIOL 3340H
    - BIOL-PSYC 3360H
    - BIOL 3830H
    - BIOL 3840H
    - BIOL 3850H, 3851H, 3852H, 3853H
    - BIOL 3901H**
    - BIOL 3902H**
    - BIOL 4010Y/4020D**
    - BIOL-ERSC 4030H
    - BIOL 4140H
    - BIOL 4150H

- BIOL 4180H
- BIOL-ERSC 4330H
- BIOL 4340H
- BIOL 4410H
- BIOL 4520H
- BIOL 4550H
- BIOL 4610H
- BIOL 4830H
- BIOL 4900Y**
- ERSC-GEOG 3010H
- ERSC 3160H
- ERSC 3200Y
- ERSC-BIOL 3260H
- ERSC 3510H
- ERSC-GEOG-SAFS 3650H
- ERSC-BIOL 4240H
- ERSC 4520H
- ERSC-GEOG 4640H
- ERSC/ERST 4801H
- ERSC/ERST 4802H
- ERST-POST 2100H
- ERST 3110H
- ERST-CAST-FRSC-POST 3120H
- ERST-PHIL 3301H
- ERST-PHIL-SAFS 3302H
- ERST-CAST-HIST 4670H
- GEOG-ERSC 3020H

**Thesis/directed research project must be conservation related. Approval must be obtained from the program coordinator for thesis/directed research credit(s) to be included within this list.

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List

Description
www.trentu.ca/biology/programs/conservation-biology-bsc

Conservation biology is the branch of the biological sciences that deals with the causes, the consequences, and the ways to stem biodiversity loss. Biodiversity is the rich mix of species on Earth that underpins the resilience of ecosystems which, ultimately, support our lives and livelihoods. Many scientists propose that modern society has entered the Anthropocene—a new epoch where human influences on the Earth's natural systems are pervasive and permanent. In this epoch, we will need skilled practitioners who can inform planning and economic activities through the lens of strong scientific understanding in conservation biology. These practitioners will be knowledgeable in ecology, animal and plant diversity, evolution, organismal biology and behaviour, and population genetics. They will ably convey their knowledge to non-specialists. The Conservation Biology program draws from such courses in the Department of Biology, supplemented with those from Chemistry, Mathematics & Statistics, Physics & Astronomy, and the School of the Environment. This suite of courses provides students with the practical and conceptual foundations of the science of biological conservation.

INFORMATION & ADDITIONAL NOTES

- Two versions of the degree are available: The Bachelor of Science Honours program, which includes a fourth-year placement, and the Bachelor of Science Honours Co-op program.
- There is no joint-major program, General program, or minor in Conservation Biology.
- As Conservation Biology is a limited enrolment program, fulfillment of the minimum requirements does not necessarily guarantee admission. Entrance is competitive, particularly for the co-op stream. A secondary diploma and six Ontario 4U or 4M courses with a minimum 80% overall final average are required. These include ENG4U (Grade 12 English), SCH4U (Grade 12 Chemistry), SBI4U (Grade 12 Biology), and MHF4U (Advanced Functions) or

MCV4U (Calculus and Vectors). SPH4U (Grade 12 Physics) is recommended. The admission average is calculated using the four required courses and the next two highest 4U/M-level courses.

- Students may apply on a competitive basis to enter the Conservation Biology Co-op program after first year if they have successfully completed the following courses with a minimum combined average of 80%: BIOL 1020H, BIOL 1030H, BIOL-PHYS 1060H or PHYS 1001H or PHYS 1000H, CHEM 1000H, CHEM 1010H, ERSC 1010H, ERSC 1020H, MATH 1051H, MATH 1052H, and either MATH 1006H or 1110H.
- For information on individual courses see Calendar entries under the appropriate department.
- Students who have not taken any 4U (or equivalent) calculus courses are recommended to take MATH 1006H as the required 0.5 credit from MATH 1006H or 1110H.
- The Accelerated Master's program in Environmental & Life Sciences allows students to obtain a research-based MSc within a shorter timeframe.

Requirements

Bachelor of Science Program in Conservation Biology – Co-op

- To remain in the co-op program, students must maintain a minimum combined average of 80% over all BIOL and BIOC courses. This average is calculated using all BIOL and BIOC completed for credit, excluding PHYS-BIOL 1060H. Students who are unable to achieve these grades may switch to the Honours program in Conservation Biology (placement) or the Honours program in Biology, transfer to a BSc or BA program in another discipline and fulfill any degree requirements for a major, or repeat courses (subject to Trent University's policy on repeating courses) until they achieve the required grades to apply for readmission to the program.
- To remain in the co-op program, students must complete the required work term preparation course COOP 2000H with a minimum 70% progression requirement. COOP 2000H must be successfully completed before students begin the first work term. In addition, students must continue to receive satisfactory employer evaluations during each of their three work terms. Students who do not achieve a minimum 70% in COOP 2000H will be withdrawn from the Co-op program but may continue their studies in Conservation Biology (placement) or transfer to a major in a different subject.
- Three non-credit co-op work terms are required for the BSc program in Conservation Biology – Co-op (COOP 2100P, 3100P, and 4100P). Work terms occur in the Summer term, depending on the student's progression and availability of work-term hosts; students must meet with the Co-op, Placement, and Internship Coordinator the semester prior to each work term.
- Every effort is made by the department to find suitable work terms for students enrolled in the co-op program, but the department cannot guarantee a work term opportunity for every student. The work term process is competitive and dependent upon many factors including market conditions and the academic performance of a student. Co-op students secure positions through successful participation in the co-op interview process and/or their own job search activities.
- Students returning from a work term must submit a report describing the nature of the work undertaken and the experience gained. A grade of S (satisfactory) or U (unsatisfactory) is assigned based on the report and the employer's assessment. The report is normally due within the first two weeks of the study term following the completion of a work term.
- Students who are unable to obtain a suitable co-op opportunity in an upcoming work term are expected to continue with their academic program on a full-time basis. A missed work term can be made up, but if a student is unable to complete three work terms yet otherwise fulfills all degree requirements, the student will be awarded an Honours Bachelor of Science in Conservation Biology (placement).
- Co-op students are responsible for paying tuition for their academic courses, ancillary fees, and levies. All Trent students are charged ancillary fees every Fall & Winter term. Co-op students will experience the same cycle for their ancillary fee payments regardless of when they are out on work terms. Co-op students do not pay tuition during their work terms. Co-op students are responsible for paying the compulsory Co-op Fee a total of five times during their degree

program, and the Co-op fee will be applied to their student account in Year 2 Fall, Year 2 Winter, Year 3 Fall, Year 3 Winter, and Year 4 Fall.

The single-major Honours program. 20.0 credits including the following 16.5 credits:

- 1.0 BIOC credit consisting of BIOC 2010H and 4100H
- 6.5 BIOL credits consisting of BIOL 1020H, 1030H, 2000H, 2050H, 2070H, 2260H, 2600H, 3111H, 3380H, 3391H, 3600H, 4500H, and 4510H
- 0.5 BIOL credit from BIOL 3170H or 3190H
- 1.0 CHEM credit consisting of CHEM 1000H and 1010H
- 0.5 COOP credit consisting of COOP 2000H
- 1.0 ERSC credit consisting of ERSC 1010H and 1020H
- 0.5 ERST credit consisting of ERST 3250H
- 1.0 MATH credit consisting of MATH 1051H and 1052H
- 0.5 MATH credit from MATH 1006H or 1110H
- 0.5 PHYS credit from PHYS 1000H, 1001H, or PHYS-BIOL 1060H
- At least 3.5 credits in addition to the above from the following:
    - BIOL-ERSC-SAFS 2350H
    - BIOL 3050H
    - BIOL 3051H
    - BIOL 3080H
    - BIOL 3090H
    - BIOL 3140H
    - BIOL 3170H
    - BIOL 3180H
    - BIOL 3190H
    - BIOL 3200H
    - BIOL 3340H
    - BIOL-PSYC 3360H
    - BIOL 3830H
    - BIOL 3840H
    - BIOL 3850H, 3851H, 3852H, 3853H
    - BIOL 3901H**
    - BIOL 3902H**
    - BIOL 4010Y/4020D**
    - BIOL-ERSC 4030H
    - BIOL 4110H
    - BIOL 4140H
    - BIOL 4150H
    - BIOL 4180H
    - BIOL-ERSC 4330H
    - BIOL 4340H
    - BIOL 4410H
    - BIOL 4520H
    - BIOL 4550H
    - BIOL 4610H
    - BIOL 4830H
    - BIOL 4900Y**
    - ERSC-GEOG 3010H
    - ERSC 3160H
    - ERSC 3200Y
    - ERSC-BIOL 3260H
    - ERSC 3510H
    - ERSC-GEOG-SAFS 3650H
    - ERSC-BIOL 4240H
    - ERSC 4520H
    - ERSC-GEOG 4640H
    - ERSC/ERST 4801H
    - ERSC/ERST 4802H
    - ERST-POST 2100H
    - ERST 3110H
    - ERST-CAST-FRSC-POST 3120H
    - ERST-PHIL 3301H
    - ERST-PHIL-SAFS 3302H
    - ERST-CAST-HIST 4670H
    - GEOG-ERSC 3020H

**Thesis/directed research project must be conservation related. Approval must be obtained from the program coordinator for thesis/directed research credit(s) to be included within this list.

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

BSH.BIOL - Biology - BSc Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
www.trentu.ca/biology

Biology is the study of life at all levels of organization, from molecular and cell to population and community. Students who complete a single major in Biology will have a broad introduction to these topics, along with the opportunity to specialize in aspects of biology that interest them. The Biology Department offers two Specializations, one in Conservation Biology, the other in Health Sciences. In addition, the Biochemistry & Molecular Biology program is shared with the Chemistry Department and the Forensic Biology program is shared with the Department of Forensic Science. Students may choose to do joint-major degrees with other departments or programs, including Environmental & Resource Science/ Studies, Chemistry, Forensic Science, Geography, Anthropology, and Psychology, among others.

INFORMATION & ADDITIONAL NOTES

- Students who have not taken any 4U calculus courses are recommended to take MATH 1006H as the required 0.5 credit from MATH 1006H or 1110H.
- Transfer students should consult with the department chair or coordinator before selecting courses.
- Any course involving work with live vertebrate animals requires the Animal Care Course. The Animal Care Course requirement is indicated in some course descriptions but may also apply to others. Check with the Biology Office or course instructor if in doubt.
- Fees may be levied for safety equipment and lab manuals. If fees are required for field trips, or if field trips occur outside the timetabled period, instructors will offer an alternative option.
- It is recommended that courses taken in the fourth year of the Honours program be beyond the 2000 level.
- Students intending to pursue graduate studies are encouraged to take BIOL 4010Y or 4020D.

- The Accelerated Master's program in Environmental & Life Sciences allows students to obtain a research-based MSc within a shorter timeframe.

Requirements

Bachelor of Science Program in Biology

- The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree, with the following exceptions:
    - Students pursuing a joint-major Honours or General degree in Biology and Chemistry are required to take the following MATH courses: MATH 1051H, 1052H, 1110H, and 1122H. MATH 1110H simultaneously satisfies the requirements of both programs.
    - Students pursuing a joint-major Honours degree in Biology and Forensic Science are required to take the following courses which simultaneously satisfy the requirements of both programs: BIOL 1020H, BIOL 1030H, MATH 1051H, and MATH 1052H.
- For students in a joint major with Forensic Science, FRSC 2020H is equivalent to BIOL 2000H for program requirements but does not count as a Biology credit. Students who have successfully completed FRSC 2020H are not permitted to take BIOL 2000H but must substitute another BIOL course at the 2000 level or beyond in order to fulfill degree requirements.
- BIOL 1001H, 1050H, 1051H, 1500H, and 1501H are not for credit toward a major, joint-major, or minor in Biology.
- Students may take a maximum of 3.5 credits from any combination of placement, thesis, directed research, and community-based research project courses.

The single-major Honours program. 20.0 credits including the following 13.5 credits:

- 3.5 BIOL credits consisting of BIOL 1020H, 1030H, 2000H, 2050H, 2070H, 2260H, and 2600H
- 5.0 BIOL, BIOC, or BIOM credits at the 3000 level or beyond
- 1.5 BIOL, BIOC, or BIOM credits at the 2000 level or beyond in addition to the above
- 1.0 CHEM credit consisting of CHEM 1000H and 1010H
- 1.0 MATH credit consisting of MATH 1051H and 1052H
- 0.5 MATH credit from MATH 1006H or 1110H
- 0.5 PHYS credit from PHYS 1000H, 1001H, or PHYS-BIOL 1060H
- 0.5 credit in a humanities subject: AGRS, ARAB, ASLA, CAST, CHIN, CUST, ENGL, FREN, GESO, GREK, GRMN, HIST, HURI, ITAL, LATN, LING, PHIL, RUSS, SPAN, UNIV (excluding UNIV 1003H), WRIT

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List and 14.0 science credits.

The joint-major Honours program. 20.0 credits including the following 8.5 credits:

- 3.5 BIOL credits consisting of BIOL 1020H, 1030H, 2000H, 2050H, 2070H, 2260H, and 2600H
- 2.5 BIOL, BIOC, or BIOM credits at the 3000 level or beyond
- 1.0 BIOL, BIOC, or BIOM credit at the 2000 level or beyond in addition to the above
- 1.0 MATH credit consisting of MATH 1051H and 1052H
- 0.5 MATH credit from MATH 1006H or 1110H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List and 14.0 science credits.

Specializations

Specialization in Natural History

BSH.BIOM - Biomedical Science - BSc Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
www.trentu.ca/biology/programs/biomedical-science-bsc

Students who complete the Biomedical Science degree will appreciate that many techniques and experimental approaches to health and medicine are complementary, and will be able to apply the principles they have learned to assess and solve problems as they relate to real-world health issues. The program gives students training in both practical and theoretical aspects of a diversity of medically related topics. A distinctive feature of the program is the requirement that students intern with a collaborating agency or individual sponsor in a health or medical science setting.

INFORMATION & ADDITIONAL NOTES

- Biomedical Science is a direct entry program with a limited number of student places. A secondary school diploma and six Ontario 4U or 4M courses with a minimum 75% overall final average is required for admission. These include ENG4U (Grade 12 English); MHF4U (Advanced Functions) or MCV4U (Calculus and Vectors); SCH4U (Grade 12 Chemistry); SBI4U (Grade 12 Biology); and SPH4U (Grade 12 Physics) or SES4U (Earth and Space Science). The admission average is calculated using the applicant's five required courses noted above and the highest additional 4U/M-level course grade. As this is a limited enrolment program, fulfillment of the minimum requirements does not guarantee admission.
- Students may apply on a competitive basis to enter the Biomedical Science program after first year if a minimum cumulative average of 75% in specific courses has been achieved. See www.trentu.ca/biology/programs/biomedical-science-bsc for details.
- There is no joint-major program, General program, or minor in Biomedical Science.
- For information on individual courses see Calendar entries under the appropriate discipline.
- Students intending to pursue graduate studies or work in research laboratories are recommended to complete an Honours research thesis (BIOL 4020D).
- The Accelerated Master's program in Environmental & Life Sciences allows students to obtain a research-based MSc within a shorter timeframe.
- Students intending to pursue studies in professional schools (medical, dental, pharmacy, etc.) should consult the most recent academic requirements of the schools they are interested in applying to.

Requirements

Bachelor of Science Program in Biomedical Science

- To remain in the program, students must maintain a minimum cumulative average of 75%. Students who are unable to achieve these grades may switch to the Honours program in Biology, transfer to a BSc or BA program in another discipline and make up any degree requirements for a major, or repeat courses (subject to Trent University's policy on repeating courses) until they achieve the required grades to apply for readmission to the program.
- Students may take a maximum of 3.5 credits from any combination of placement, thesis, directed research, and community-based research project courses.

The single-major Honours program. 20.0 credits including the following 14.0 credits:

- 0.5 BIOM credit consisting of BIOM 1000H
- 2.5 BIOL credits consisting of BIOL 2050H, 2070H, 2600H, 3040H, and 3080H
- 1.5 CHEM credits consisting of CHEM 1000H, 1010H, and 2100H
- 1.0 MATH credit consisting of MATH 1110H and 1120H
- 0.5 PHIL credit consisting of PHIL 2390H
- 1.0 PSYC credit consisting of PSYC 1020H and 1030H
- 1.0 BIOL credit from BIOL 1020H, 1500H, or 1501H
- 0.5 BIOL credit from BIOL 3830H or 3840H
- 0.5 CHEM credit from CHEM 2110H or 2300H

- 0.5 MATH credit from MATH 1051H or 1550H
- 0.5 PHYS credit from PHYS 1001H or 1060H
- 0.5 credit from BIOL 2000H, GEOG-ERSC 2080H, MATH 2560H, PSYC 2018H, or PSYC 2019H
- 1.0 BIOM credit from BIOM 4450Y and 2.5 credits in addition to the above from the following;
  or 0.5 BIOM credit from BIOM 4451H or 4460H and 3.0 credits in addition to the above from the following:

    - PHIL 4390H
    - PSYC 3240H
    - PSYC 3460H
    - PSYC 4225H

**Thesis/directed research project must be health related. Approval must be obtained from the program coordinator for thesis/directed research credit(s) to be included within this list.

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List and 14.0 science credits.

BSH.CEPY - Chemical Physics - BSc Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
The Chemical Physics program is designed for students who are interested in the study of the physics and physical chemistry of molecular and atomic-scale systems, and condensed matter. Course emphasis is on the physics and physical chemistry of atomic, molecular, and bulk systems, as well as the mathematical techniques and approaches needed to do quantitative work in these areas. A Chemical Physics education at Trent involves working closely with faculty and staff in formal lecture and informal laboratory and tutorial/workshop settings. Students enrol in either a General or an Honours program. Honours research projects offer an opportunity for students to obtain first-hand experience in modern chemical physics research design and methods.

INFORMATION & ADDITIONAL NOTES

- The Chemical Physics program is a sequence of courses that compose an integrated whole and are offered by the Departments of Chemistry, Mathematics & Statistics, and Physics & Astronomy. For information on individual courses see Calendar entries for these departments.

Requirements

Bachelor of Science Program in Chemical Physics

- 60% or higher in MATH 1120H or 1121H is required for upper-level Physics courses; MATH 1350H is a prerequisite for upper-level Mathematics courses.

The single-major Honours program. 20.0 credits including the following 14.0 credits:

- 4.0 PHYS credits consisting of PHYS 1001H, 1002H, 2130H, 2610H, 3200Y, 3610H, and 4610H
- 3.0 CHEM credits consisting of CHEM 1000H, 1010H, 2500H, 3520H, 4500H, and 4515H
- 0.5 COIS credit consisting of COIS 1020H
- 0.5 MATH credit from MATH 1110H or 1111H (recommended)
- 0.5 MATH credit from MATH 1120H or 1121H (recommended)
- 2.0 MATH credits consisting of MATH 2110H, 2120H, 2150H, and 3150H
- 1.0 CHEM credit from CHEM 3120H, 4220H, 4400H, or 4520H
- 2.0 CHEM, PHYS, or MATH credits at the 4000 level in addition to the above
- 0.5 CHEM, PHYS, or MATH credit at the 2000 level or beyond in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

BSH.CHEM - Chemistry - BSc Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
www.trentu.ca/chemistry

Chemistry is the central discipline of science, with interdisciplinary links to all other physical and life science disciplines. The Chemistry Department offers a comprehensive range of courses in the fundamentals of analytical, biochemical, environmental, inorganic, organic, and physical chemistry. Upper-level courses include study in advanced fundamentals, as well as computational, bio-inorganic, and materials chemistry. Chemistry education at Trent involves working closely with faculty and staff in formal lecture and informal laboratory and tutorial/workshop settings. Students enrol in either a General or an Honours program. Many students in the Honours program choose to do a research project in which they obtain first-hand experience in modern chemical research design and methods.

INFORMATION & ADDITIONAL NOTES

- A 4U Chemistry or equivalent is a prerequisite for CHEM 1000H and 1010H. Students without this prerequisite should contact the departmental office for advice prior to the opening of registration in the spring.
- All students taking Chemistry courses that have a laboratory component will be expected to pay a laboratory course fee of $3.50 per lab course and to pay for breakage of equipment and/or glassware on a per-item basis, billed monthly to their student account.
- The single-major Honours degree program in Chemistry is accredited by the Canadian Society for Chemistry.
- The Accelerated Master's program in Environmental & Life Sciences allows students to obtain a research-based MSc within a shorter timeframe. See www.trentu.ca/els/experience/msc-program/accelerated-masters-program.

Requirements

Bachelor of Science Program in Chemistry

- The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree, with the following exceptions:
    - Students pursuing a joint-major Honours or General degree in Chemistry and Biology are required to take the following MATH courses: MATH 1051H, 1052H, 1110H, and 1122H. MATH 1110H simultaneously satisfies the requirements of both programs.
    - Students pursuing a joint-major Honours degree in Chemistry and Forensic Science are required to take the following courses which simultaneously satisfy the requirements of both programs: CHEM 1000H, CHEM 1010H, MATH 1110H, and MATH 1122H.
- A maximum of 2.0 credits may be taken in Chemistry project courses (CHEM 4010Y, 4011H, 4012H, 4020D, 4030Y, 4031H, 4032H, 4040D).
- No more than 2.0 credits from thesis or project courses may be counted toward any degree offered wholly or jointly by the Chemistry Department.

The single-major Honours program. 20.0 credits including the following 14.5 credits:

- 5.5 CHEM credits consisting of CHEM 1000H, 1010H, 2100H, 2110H, 2200H, 2300H, 2410H, 2420H, 2500H, 3200H, and 3520H
- 0.5 CHEM credit from CHEM 3400H or 3410H
- 2.0 CHEM credits at the 3000 level in addition to the above
- 3.0 CHEM credits at the 4000 level, including at least 1.5 credits in lecture courses
- 1.0 science credit at the 4000 level or 1.0 CHEM credit at the 3000 level or beyond in addition to the above
- 1.0 PHYS credit consisting of PHYS 1001H and 1002H
- 1.0 MATH credit consisting of MATH 1110H and 1122H

- 0.5 MATH or COIS credit in addition to the above (excluding MATH 1001H and 1080H)

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The joint-major Honours program. 20.0 credits including the following 8.5 credits:

- 2.5 CHEM credits consisting of CHEM 1000H, 1010H, 2100H, 2410H, and 2500H
- 0.5 CHEM credit at the 2000 level in addition to the above
- 2.0 CHEM credits at the 3000 level
- 2.0 CHEM credits at the 4000 level
- 1.0 MATH credit consisting of MATH 1110H and 1122H
- 0.5 MATH or COIS credit in addition to the above (excluding MATH 1001H and 1080H)

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List and 14.0 science credits.

BSH.CHEM.COOP - Chemistry - Co-op

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
www.trentu.ca/coop

Co-op is an opportunity for students to gain degree-related work experience. The Chemistry Co-op assists graduating students in achieving a competitive edge while generating experience within a wide range of sectors. Specifically, co-op gives the students a chance to obtain 12 months of practical experience on the job, develop or enhance technical skills, explore career options, network with a variety of individuals and organizations, learn from mentors and tutors, enhance communication and presentation skills, and develop technical writing skills.

INFORMATION & ADDITIONAL NOTES

- Co-op students are responsible for paying tuition for their academic courses, ancillary fees, and levies. All Trent students are charged ancillary fees every Fall & Winter term. Co-op students will experience the same cycle for their ancillary fee payments regardless of when they are out on work terms. Co-op students do not pay tuition during their work terms.
- Co-op students are responsible for paying the compulsory Co-op Fee a total of five times during their degree program, and the Co-op fee will be applied to their student account in Year 3 Fall, Year 3 Winter, Year 4 Fall, Year 4 Winter, and Year 5 Fall.
- Students are encouraged to meet with their Co-op Coordinator at CareerSpace each year for support with their co-op work terms, career development, and to confirm they are meeting co-op progression requirements.

Requirements

Bachelor of Science Program in Chemistry — Co-op

- Co-op students must satisfy the requirements for the single-major BSc Honours in Chemistry and the Co-op requirements listed below.
- Chemistry Co-op is a competitive direct entry program with a limited number of student places. Students who are not admitted directly may apply for admission after commencing studies at Trent and be admitted provided there are available spaces in the program.
- To remain in the co-op program, students must:
    - complete the required co-op work term preparation course COOP 2000H with a minimum grade of 70%;
    - achieve a minimum grade of 75% in each of the following courses: CHEM 2100H, 2110H, 2200H, 2300H, 2410H, 2420H, and 2500H;
    - maintain a 75% cumulative average throughout their study terms; and
    - complete the required components of three work terms (COOP 2100P, 3100P, and 4100P) and receive satisfactory evaluations during each of their work terms.
- Students who do not achieve a minimum 70% in COOP 2000H will be withdrawn from the co-op program but may continue their studies in Chemistry or transfer to a major in a different subject. Once withdrawn, students are not eligible to re-enter the co-op program.
- Students in the Chemistry Co-op follow the co-op continuing model where they complete one 12-month work term (COOP 2100P, 3100P and 4100P) with a single employer. The prerequisite for the first work term (COOP 2100P) for students in this program is completion of COOP 2000H with a minimum grade of 70% and completion of at least 12.0 academic credits. The set work term schedule is listed below. Students who choose to explore any additions (minor, specialization, or option) to a single-major Honours may require additional time to complete their degrees, as all courses are not offered in every term. It is expected that students follow the set work term schedule. Students are encouraged to work with an academic advisor for support with degree mapping.

YEAR	FALL	WINTER	SUMMER
Year 1	Study Term 1	Study Term 2	–
Year 2	Study Term 3	Study Term 4	–
Year 3	Study Term 5	Study Term 6	Work Term
Year 4	Work Term	Work Term	–
Year 5	Study Term 7	Study Term 8	–

- Students on a work term must complete learning objectives, a midterm evaluation, a final evaluation, and a final work term report. Co-op employers will also complete a midterm evaluation and final evaluation of the student's work term. Upon receiving the completed documentation and upon a satisfactory employer assessment, a Pass (P) or Fail (F) will be assigned for COOP 2100P, 3100P, and 4100P.
- CareerSpace makes every effort to find suitable work terms for students enrolled in the co-op program, but a work term opportunity cannot be guaranteed for every student. The work term process is competitive and dependent upon many factors including labour market conditions, the preparedness of a student including their job applications and performance in job interviews, and the academic performance of a student. Co-op students secure positions through successful participation in the co-op interview process and/or their own job search activities. Withdrawal from the co-op will not normally be approved while a student is on a work term. Students are not permitted to take an academic course during a scheduled work term.
- Students who are unable to obtain a suitable co-op opportunity in an upcoming work term are expected to continue with their academic program on a full-time basis. If a student is unable to secure their 12-month work term in Year 3 Summer, the missed work term experience would be delayed to Year 4 Fall. If a co-op student fails to secure their work term experience in Year 4 Fall or is unable to complete their

12-month co-op work term yet otherwise fulfills degree requirements, they will be awarded an Honours Bachelor of Science in Chemistry.

BSH.CLIM - Climate Change Science & Policy - BSc Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
www.trentu.ca/environment

Note: This program is not accepting new students in 2026-2027.

The Climate Change Science & Policy program is unique in that it couples a biophysical and chemical understanding of climate change with the social, political, and technological aspects of climate policy. Students are provided with an educational foundation to become climate change specialists within the government, corporate, non-profit, and education sectors. The courses and learning outcomes align with the Intergovernmental Panel on Climate Change (IPCC) working groups, namely 'science,' 'impacts,' and 'mitigation.' The 'science' of climate change requires an understanding of physics, chemistry, and geography; the 'impacts' of climate change require an understanding of ecology, resource management, hydrology, planning, economics, and social justice; and the 'mitigation' of climate change requires an understanding of policy, business, finance, law, and energy technologies.

INFORMATION & ADDITIONAL NOTES

- A 4U Chemistry or equivalent is a prerequisite for CLIM-ERSC 1060H (1050H).
- There may be a small additional fee for field trips in certain courses.

Requirements

Bachelor of Science Program in Climate Change Science & Policy

The single-major Honours program. 20.0 credits including the following 13.0 credits:

- 3.5 CLIM credits consisting of CLIM 1060H, 2050H, 3005H, 3470H, 4001H, 4002H, and 4003H
- 0.5 BIOL credit consisting of BIOL 1020H

- 0.5 CHEM credit consisting of CHEM 2620H
- 1.0 ECON credit consisting of ECON 1010H and 3810H
- 1.5 ERSC credits consisting of ERSC 1010H, 2220H, and 2300H
- 2.0 ERST credits consisting of ERST 2100H, 3250H, 3502H, and 4140H
- 2.5 GEOG credits consisting of GEOG 1040H, 2180H, 2460H, 2530H, and 3440H
- 1.0 MATH credit consisting of MATH 1005H and 1051H
- 0.5 PHYS credit consisting of PHYS 1000H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List and 14.0 science credits.

Note: This program is not accepting new students in 2026-2027.

BSH.COIS - Computer Science - BSc Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
www.trentu.ca/cois

The study of computer science is central to our understanding of how the world processes, manages, and communicates information. It is a field which impacts all disciplines and has redefined how we work, interact, and conduct our day-to-day lives.

Computer science specialists design, implement, and integrate software applications which may execute on any system of computing devices, from supercomputers to game boards. They use theories, methodologies, and techniques that help ensure that the system is robust and useable.

INFORMATION & ADDITIONAL NOTES

- Students entering the Honours program in Computer Science are required to have completed a secondary school senior-level mathematics course in good standing.
- Courses in Computer Science fulfilling University science credit requirements for the BSc are marked SCIE in the individual course descriptions.
- Students majoring in Computer Science and who have had some programming experience may consider enrolling in both COIS 1010H and 1020H in the Fall term to increase their options for additional COIS courses earlier in their program.
- MATH 1110H and 1120H are recommended for students in a Computer Science program who are interested in postgraduate studies.

Requirements

Bachelor of Science Program in Computer Science

- Students may not graduate with a joint-major degree in any two of the following three areas of study: Computer Science, Computing Systems, and Information Systems.

The single-major Honours program. 20.0 credits including the following 12.5 credits:

- 4.0 COIS credits consisting of COIS 1010H, 1020H, 2020H, 2240H, 2300H, 3020H, 3380H, and 3400H
- 2.0 COIS credits at the 4000 level
- 2.5 COIS credits at the 3000 level or beyond in addition to the above
- 2.0 COIS credits in addition to the above
- 1.5 MATH credits consisting of MATH 1350H, 1550H, and 2600H
- 0.5 MATH credit from MATH 1005H or 1110H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List and 14.0 science credits.

The joint-major Honours program. 20.0 credits including the following 8.5 credits:

- 3.0 COIS credits consisting of COIS 1010H, 1020H, 2020H, 2240H, 2300H, and 3400H
- 1.0 COIS credit at the 4000 level
- 1.5 COIS credits at the 3000 level or beyond in addition to the above
- 1.0 COIS credit in addition to the above
- 1.5 MATH credits consisting of MATH 1350H, 1550H, and 2600H
- 0.5 MATH credit from MATH 1005H or 1110H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List and 14.0 science credits.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

Specializations

Specialization in Data Analytics

Specialization in Software Engineering

Specialization in Theoretical Computer Science

BSH.COIS.COOP - Computer Science - Co-op

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
Co-op is an opportunity for students to gain experiential learning which will help them get a head start on a career. The Computer Science Co-op assists graduating students in achieving a competitive edge while generating experience within the industry. Specifically, co-op gives the students a chance to obtain 12 months of practical experience on the job, develop or enhance technical skills, explore career options, network with a variety of individuals and companies, learn from mentors and tutors, enhance communication and presentation skills, and develop technical writing skills.

INFORMATION & ADDITIONAL NOTES

- Co-op students are responsible for paying tuition for their academic courses, ancillary fees, and levies. All Trent students are charged ancillary fees every Fall & Winter term. Co-op students will experience the same cycle for their ancillary fee payments regardless of when they are out on work terms. Co-op students do not pay tuition during their work terms.
- Co-op students are responsible for paying the compulsory Co-op Fee a total of five times during their degree program, and the Co-op fee will be applied to their student account in Year 2 Fall, Year 2 Winter, Year 3 Fall, Year 3 Winter, and Year 4 Fall.
- Students are encouraged to meet with with their Co-op Coordinator at CareerSpace each year for support with their co-op work terms, career development, and to confirm they are meeting co-op progression requirements.
- Computer Science Co-op is a competitive program with a limited number of spaces. Students who are admitted directly may choose to follow a 4-year or 5-year degree completion pathway. Students who are not admitted directly may apply for admission after commencing studies at Trent and be admitted on a competitive basis provided there are available spaces in the program. Students who are not admitted directly may only follow a 5-year degree completion pathway. See the Careerspace website for information about transferring into co-op.
- Co-op students are strongly recommended to complete COIS 1400H, 2430H, and 3430H as electives in the program prior to commencing their first work term.
- To remain in the co-op program, students must complete the required work term preparation course COOP 2000H with a minimum 70% progression requirement and maintain a minimum 75% cumulative average throughout their study terms. Students who do not achieve a minimum 70% in COOP 2000H will be withdrawn from the co-op program but may continue their studies in Computer Science or transfer to a major in a different subject. Once withdrawn, students are not eligible to re-enter the co-op program.
- Three non-credit co-op work terms are required for the BSc program in Computer Science Co-op (COOP 2100P, 3100P, 4100P). The prerequisite for the first work term (COOP 2100P) for students in this program is completion of COOP 2000H with a minimum grade of 70% and completion of at least 8.0 academic credits for the four-year structure and at least 12.0 academic credits for the five-year structure.
- The set work term schedules for the 4-year and 5-year structures are listed below. In the event of an extenuating circumstance or a missed work term, any deviation could result in students requiring additional time to complete the program, as not all courses required for the degree are offered in every term.

4-Year Co-op Structure

- The 4-year co-op is open only to students directly admitted to the program.

Requirements

Bachelor of Science Program in Computer Science – Co-op

- Co-op students must satisfy the requirements for the single-major BSc Honours in Computer Science and the Co-op requirements listed below.

YEAR	FALL	WINTER	SUMMER
Year 1	Study Term 1	Study Term 2	Study Term 3
Year 2	Study Term 4	Work Term 1	Work Term 2
Year 3	Study Term 5	Study Term 6	Work Term 3
Year 4	Study Term 7	Study Term 8	-

5-Year Co-op Structure

- The 5-year co-op is open to students directly admitted to the program and students transferring into the program. Students complete one 12-month work term (COOP 2100P, 3100P, and 4100P) with a single employer.

YEAR	FALL	WINTER	SUMMER
Year 1	Study Term 1	Study Term 2	-
Year 2	Study Term 3	Study Term 4	-
Year 3	Study Term 5	Study Term 6	Work Term
Year 4	Work Term	Work Term	-
Year 5	Study Term 7	Study Term 8	-

- Students on a work term must complete learning objectives, a midterm evaluation, a final evaluation, and a final work term report. Co-op employers will also complete a midterm evaluation and final evaluation of the student's work term. Upon receiving the completed documentation and upon a satisfactory employer assessment, a Pass (P) or Fail (F) will be assigned for COOP 2100P, 3100P, and 4100P.
- CareerSpace makes every effort to find suitable work terms for students enrolled in the co-op program, but a work term opportunity cannot be guaranteed for every student. The work term process is competitive and dependent upon many factors including labour market conditions, the preparedness of a student including their job applications and performance in job interviews, and the academic performance of a student. Co-op students secure positions through successful participation in the co-op interview process and/or their own job search activities. Withdrawal from the co-op will not normally be approved while a student is on a work term. Students are not permitted to take an academic course during a scheduled work term.
- Students who are unable to obtain a suitable co-op opportunity in an upcoming work term are expected to continue with their academic program on a full-time basis. A student following the 4-year structure can make up a missed work term, but in the event that a co-op student is unable to complete three work terms yet otherwise fulfills all degree requirements, the student will be awarded an Honours Bachelor of Science in Computer Science (and if applicable, any of the Specializations: Theoretical Computer Science, Data Analytics, and/or Software Engineering). If a student following the 5-year structure is unable to secure their 12-month work term in Year 3 Summer, the missed work term will be delayed to Year 4 Fall. If a student fails to secure their work term in Year 4 Fall or is unable to complete their 12-month work term yet otherwise fulfills all degree requirements, the student will be awarded an Honours Bachelor of Science in Computer Science (and if applicable, any of the Specializations: Theoretical Computer Science, Data Analytics, and/or Software Engineering).

BSH.COPH - Computer Science & Physics - BSc Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
This program is designed to meet the needs of students interested in electronic, hardware, and interfacing aspects of computers, which are based on fundamental principles of physics and mathematics.

INFORMATION & ADDITIONAL NOTES

- The Honours program in Computer Science & Physics is a sequence of courses that compose an integrated whole and are offered by the Departments of Computer Science, Mathematics & Statistics, and Physics & Astronomy. For more information on individual courses, see Calendar entries for these departments.

Requirements

Bachelor of Science Program in Computer Science & Physics

- 60% or higher in MATH 1120H or 1121H is required for upper-level Physics courses; MATH 1350H is a prerequisite for upper-level Mathematics courses.

The single-major Honours program. 20.0 credits including the following 15.0 credits:

- 3.5 COIS credits consisting of COIS 1010H, 1020H, 2020H, 2300H, 2320H, 3320H, and 3380H
- 4.5 PHYS credits consisting of PHYS 1001H, 1002H, 2130H, 2250H, 2610H, 3200Y, 3610H, and 4610H
- 0.5 MATH credit from MATH 1110H or 1111H (recommended)
- 0.5 MATH credit from MATH 1120H or 1121H (recommended)
- 3.5 MATH credits consisting of MATH 1350H, 1550H, 2110H, 2120H, 2150H, 2600H, and 3150H
- 0.5 COIS credit from COIS 3400H or 4470H
- 1.0 COIS credit from COIS 4310H, 4350H, 4370H, or 4400H
- 1.0 PHYS credit from PHYS 4050H, 4220H, 4240H, 4310H, 4520H, 4605H, or 4700H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

BSH.DATA - Data Science - BSc Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
www.trentu.ca/cois

The techniques associated with the field of data science and the analysis of large volumes of data have quickly become one of the most sought-after skill sets around the world. The efficient analysis of large datasets in science, humanities, medicine, finance, government, and almost all businesses will require a generation of programmers, analysts, and developers who are familiar with techniques suitable for the analysis of large datasets.

The Data Science program will prepare students for challenging opportunities in the field of data science and big data analytics across application domains. Students will gain knowledge and experience in data analysis, statistical and information management techniques, including programming, visualization, and predictive modelling in the digital and business world. The program is unique in that students select an area of focus such as business, economics, environmental science, history, mathematics, or sociology in which to apply their data analytics skills. Students will explore the evolution of data science, use statistical concepts and techniques to represent information received, apply data management systems and technologies in organizations, and predict trends and represent big data findings visually to key stakeholders.

Requirements

Bachelor of Science Program in Data Science

- In each year of the program, students are required to take 1.0 credit from a chosen area of focus in any Honours subject offered at Trent (other than Computer Science), for a total of 4.0 credits in that subject. If a Minor in the subject is available, students may graduate with the Minor by selecting the appropriate courses and taking any additional credits required for the Minor (see individual program entries of the Calendar for details).

The single-major Honours program. 20.0 credits including the following 15.0 credits:

- 6.0 COIS credits consisting of COIS 1010H, 1020H, 1400H, 2020H, 2400H, 2430H, 2520H, 3380H, 3400H, 3510H, 4010H, and 4020H
- 1.5 MATH credits consisting of MATH 1350H, 1550H, and 2560H
- 0.5 COIS credit from COIS 2240H, 2300H, or COIS-ADMN 2620H
- 0.5 COIS credit from COIS-MDST 3560H or COIS-ADMN 3850H
- 2.0 COIS credits from COIS 4050H, 4350H, 4400H, 4450H, 4470H, or 4550H
- 0.5 MATH credit from MATH 1005H or 1110H
- 4.0 credits in the chosen area of focus

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List and 14.0 science credits.

BSH.ECON - Economics - BSc Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
www.trentu.ca/economics

Economics is the academic discipline most discussed by the general public, yet it is also one of the least understood. Economics is the social science that deals with problems of scarcity through a systematic and logical framework for analyzing how a society solves such problems as which goods and services to produce, how to organize production, and for whom goods and services are to be produced. Knowledge of economics is necessary for understanding and dealing intelligently with current topics like unemployment, economic growth, income inequality, the environment, globalization, and various forms of market regulation. Besides its importance in understanding contemporary social issues, economics is useful in developing career skills for business, law, teaching, public administration, and research. Both verbal and mathematical training are involved in the study of economics.

INFORMATION & ADDITIONAL NOTES

- A 4U Mathematics course is strongly recommended for students who plan to major in Economics.

Requirements

Bachelor of Science Program in Economics

- ECON-ADMN 2200H and ECON 3200H fulfill the requirement for 1.0 MATH credit for the BSc in Economics.
- ECON 2000H, 2010H, and 2610H are considered equivalent to the 3000 level in order to satisfy the University requirement for at least 7.0 credits at the 3000 or 4000 level in the Honours program.
- It is strongly recommended that students in the single-major Honours program complete ECON 3200H and 3250H within the first 14.0 credits.
- It is strongly recommended that students in the joint-major Honours program complete ECON-ADMN 1250H in their second term, and ECON 3200H within the first 14.0 credits.

The single-major Honours program. 20.0 credits including the following 9.5 credits:

- 6.5 ECON credits consisting of ECON 1010H, 1020H, 1250H, 2000H, 2010H, 2200H, 3000H, 3010H, 3200H, 3250H, 4000H, 4041H, and 4050H
- 1.0 ECON credit at the 3000 level or beyond in addition to the above
- 2.0 ECON credits in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List. For the BSc, 14.0 science credits are required including 1.0 MATH credit.

The joint-major Honours program. 20.0 credits including the following 7.0 credits:

- 4.0 ECON credits consisting of ECON 1010H, 1020H, 1250H, 2000H, 2010H, 2200H, 3200H, and 4041H
- 1.0 ECON credit from ECON 3000H and 3010H, ECON 3000H and 4000H, or ECON 3010H and 4050H
- 0.5 ECON credit at the 3000 level or beyond in addition to the above
- 1.5 ECON credits in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List. For the BSc, 14.0 science credits are required including 1.0 MATH credit.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

BSH.ECON.COOP - Economics - Co-op (BSc)

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
Co-op is an opportunity for students to gain work-integrated experiential learning that will help them get a head start on a career. The Economics Co-op assists graduating students in achieving a competitive edge by gaining experience across a wide range of sectors. Specifically, co-op gives the students a chance to obtain 12 months of practical on-the-job experience, develop or enhance technical skills, explore career options, network with a variety of individuals and organizations, learn from mentors and tutors, enhance communication and presentation skills, and develop technical writing skills.

INFORMATION AND ADDITIONAL NOTES

- Co-op students are responsible for paying tuition for their academic courses, ancillary fees, and levies. All Trent students are charged ancillary fees every Fall & Winter term. Co-op students will experience the same cycle for their ancillary fee payments regardless of when they are out on work terms. Co-op students do not pay tuition during their work terms.
- Co-op students are responsible for paying the compulsory Co-op Fee a total of five times during their degree program, and the Co-op fee will be applied to their student account in Year 2 Fall, Year 2 Winter, Year 3 Fall, Year 3 Winter, and Year 4 Fall.
- Students are encouraged to meet with their co-op coordinator each year to confirm they are meeting program requirements.

Requirements

Bachelor of Science Program in Economics — Co-op

- Co-op students must satisfy the requirements for the single-major BSc Honours in Economics and the Co-op requirements listed below.
- Economics Co-op is a competitive direct-entry program with a limited number of student places. Students who are not admitted directly may apply for admission after commencing studies at Trent, and may be admitted on a competitive basis, provided there are available spaces in the program. To remain in the co-op program, students must complete the required work term preparation and reflection courses (COOP 2000H and 4000H) with a minimum 70% progression requirement in COOP 2000H and 65% in COOP 4000H, and maintain a minimum 75% cumulative average throughout their study terms. In addition, students must continue to receive satisfactory evaluations during each of their three work terms. Students who do not achieve a minimum 70% in COOP 2000H will be withdrawn from the co-op program but may continue their studies in Economics or transfer to a major in a different subject. Once withdrawn, students are not eligible to re-enter the co-op program. Students who do not achieve a minimum 65% in COOP 4000H but otherwise fulfill all degree requirements will be awarded an Honours degree in Economics without the Co-op designation.
- Three non-credit co-op work terms are required for the BA and BSc programs in Economics Co-op (COOP 2100P, 3100P, and 4100P). Student should be prepared to relocate for work terms. It is preferred that work term 2 and work term 3 are with the same employer. Work terms are normally available in Ontario or Canada. The schedule for the single-major Honours program is listed below. Students who choose to explore any additions (minor or option) to a single-major Honours may require additional time to complete their degrees, as all courses are not offered in every term. It is expected that students follow the set work term schedule. Students are encouraged to work with an academic advisor for support with degree mapping. Co-op students are discouraged from taking a course at Trent or on Letter of Permission while on a work term.
- For specific details about the work term schedule for students in the Economics Co-op program, please contact the School of Business at schoolofbusinesscoops@trentu.ca.
- Students on a work term must complete learning objectives, a midterm evaluation, a final evaluation, and a final work term report. Co-op employers will also complete a midterm evaluation and final

evaluation of the student's work term. Upon receiving the completed documentation and upon a satisfactory employer assessment, a Pass (P) or Fail (F) will be assigned for COOP 2100P, 3100P, and 4100P. Every effort is made by the Department to find suitable work term employers for students enrolled in the co-op. The Department cannot, however, guarantee a work term opportunity for every student. The hiring process is competitive and dependent upon many factors including market conditions and the academic performance of a student. Co-op students secure positions through successful participation in the co-op interview process and/or their own job search activities. Withdrawal from the co-op program will not normally be approved while a student is on a work term.

- Students who are unable to obtain a suitable co-op employer in an upcoming work term are expected to continue with their academic program on a full-time basis. A missed work term can be made up. In the event that a co-op student is unable to complete three work terms, yet otherwise fulfills all degree requirements, the student will be awarded an Honours Bachelor of Science in Economics degree.

BSH.ECRT - Ecological Restoration - BSc Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
www.trentu.ca/ecologicalrestoration

The curriculum of the Ecological Restoration BSc degree is designed to meet the knowledge requirements of the international Society for Ecological Restoration, which allows students to become a Certified Ecological Restoration Practitioner In-Training, following graduation. While studying at Trent, students also receive complimentary SER membership, unlocking free access to valuable learning resources, networking opportunities, and professional development benefits. The Ecological Restoration BSc curriculum combines foundational courses in ecology, environmental chemistry, soil science, and hydrology with applied studies in resource conservation, environmental policy, and restoration ecology. Students gain expertise in sampling design, data management, field techniques, GIS, and statistical analysis. Known as "the science of hope," the program prepares graduates to restore ecosystems and protect biodiversity.

Requirements

Bachelor of Science Program in Ecological Restoration

The single-major Honours program. 20.0 credits including the following 14.0 credits:

- 5.5 ERSC credits consisting of ERSC 1010H, 1020H, 2220H, 2240H, 2260H, 3200Y, 3510H, 3551H, 4520H, and 4530H
- 0.5 ERST credit consisting of ERST 3110H
- 0.5 ERSC/ERST credit from ERSC 2701H, ERST 3501H, or 3502H
- 1.0 ERST credit from ERST 2100H, 2520H, or 2525H
- 0.5 ERST credit from ERST 3120H, 3301H, or 3250H
- 0.5 credit from the TSE Capstone Course List*
- 0.5 BIOL credit consisting of BIOL 1020H

- 3.0 GEOG credits consisting of GEOG 1040H, 2080H, 2090H, 2401H, 2460H, and 3560H
- 1.0 MATH credit consisting of MATH 1051H and 1052H
- 0.5 SAFS credit consisting of SAFS-ERSC 3545H
- 0.5 GEOG credit from GEOG 3530H or 3540H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List and 14.0 science credits.

BSH.ECRT.COOP - Ecological Restoration - Co-op

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
Ecological Restoration Co-op will be available as of the 2027-2028 Academic Year.

www.trentu.ca/coop

Co-op is an opportunity for students to gain work-integrated experiential learning that will help them get a head start on a career. The Ecological Restoration Co-op assists graduating students in achieving a competitive edge while generating experience within a wide range of sectors. Specifically, co-op gives the students a chance to obtain 12 months of practical experience on the job, develop or enhance technical skills, explore career options, network with a variety of individuals and organizations, learn from mentors and tutors, enhance communication and presentation skills, and develop technical writing skills.

INFORMATION AND ADDITIONAL NOTES

- The Ecological Restoration Co-op is available at Trent's Peterborough campus only.
- Co-op students are responsible for paying tuition for their academic courses, ancillary fees, and levies. All Trent students are charged ancillary fees every Fall & Winter term. Co-op students will experience the same cycle for their ancillary fee payments regardless of when they are out on work terms. Co-op students do not pay tuition during their work terms.
- Co-op students are responsible for paying the compulsory Co-op Fee a total of five times during their degree program, and the Co-op fee will be applied to their student account in Year 3 Fall, Year 3 Winter, Year 4 Fall, Year 4 Winter, and Year 5 Fall.
- Students are encouraged to meet with their Co-op Coordinator at CareerSpace each year for support with their co-op work terms, career development, and to confirm they are meeting co-op progression requirements.

Requirements

Bachelor of Science Program in Ecological Restoration — Co-op

- Ecological Restoration Co-op will be available as of the 2027-2028 Academic Year.
- Co-op students must satisfy the requirements for the single-major BSc Honours in Ecological Restoration and the Co-op requirements listed below.
- Ecological Restoration Co-op is a competitive direct-entry program with a limited number of student places. Students who are not admitted directly may apply for admission after commencing studies at Trent and may be admitted on a competitive basis provided there are available spaces in the program.
- To remain in the co-op program, students must complete the required work term preparation course (COOP 2000H) with a minimum 70% progression requirement, and maintain a 75% cumulative average throughout their study terms. In addition, students must continue to receive satisfactory evaluations during each of their three work terms. Students who do not achieve a minimum 70% in COOP 2000H will be withdrawn from the co-op program but may continue their studies in Ecological Restoration or transfer to a major in a different subject. Once withdrawn, students are not eligible to re-enter the co-op program.
- Students in the Ecological Restoration Co-op follow the co-op continuing model where they complete one 12-month work term (COOP 2100P, 3100P and 4100P) with a single employer. The prerequisite for the first work term (COOP 2100P) for students in this program is completion of COOP 2000H with a minimum grade of 70% and completion of at least 10.0 academic credits. The schedule for the single-major Honours program is listed below. Students who choose to explore any additions (minor, specialization, or option) to a single-major Honours may require additional time to complete their degrees, as all courses are not offered in every term. It is expected that students follow the set work term schedule. Students are encouraged to work with an academic advisor for support with degree mapping.

YEAR	FALL	WINTER	SUMMER
Year 1	Study Term 1	Study Term 2	–
Year 2	Study Term 3	Study Term 4	COOP 2000H
Year 3	Study Term 5	Study Term 6	Work Term 1
Year 4	Work Term 2	Work Term 3	–
Year 5	Study Term 7	Study Term 8	–

- Students on a work term must complete learning objectives, a midterm evaluation, a final evaluation, and a final work term report. Co-op employers will also complete a midterm evaluation and final evaluation of the student's work term. Upon receiving the completed documentation and upon a satisfactory employer assessment, a Pass (P) or Fail (F) will be assigned for COOP 2100P, 3100P, and 4100P.
- CareerSpace and the Trent School of the Environment make every effort to find suitable work terms for students enrolled in the co-op program, but a work term opportunity cannot be guaranteed for every student. The work term process is competitive and dependent upon many factors including market conditions, the preparedness of a student including their job applications and performance in job interviews, and the academic performance of a student. Co-op students secure positions through successful participation in the co-op interview process and/or their own job search activities. Withdrawal from the co-op program will not normally be approved while a student is on a work term. Students are not permitted to take an academic course during a scheduled work term.
- Students who are unable to obtain a suitable co-op opportunity in an upcoming work term are expected to continue with their academic program on a full-time basis. A single missed work term can be made up, but in the event that a co-op student cannot secure their work term for a second time, they will be withdrawn from the co-op program. If a student is unable to complete three work terms yet otherwise fulfills all degree requirements, the student will be awarded an Honours Bachelor of Science in Ecological Restoration.

BSH.EGEO - Environmental Geoscience - BSc Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
www.trentu.ca/environment

Geoscientists play a crucial role in the sustainable development of Earth resources that individuals, industries, and countries, such as Canada, rely upon every day. Students in Trent's Environmental Geoscience program study the Earth's geologic and natural systems to understand the environment and the impacts of human activities. With experiential learning at its core, this professionally accredited program equips students with the skills needed to tackle pressing environmental challenges from climate change to contaminated groundwater to geohazards, leading them to exciting careers as geoscientists.

INFORMATION & ADDITIONAL NOTES

- Trent's Environmental Geoscience program meets the knowledge requirements of Professional Geoscientists Ontario (PGO) in the environmental geoscience stream. Courses that are used to meet these requirements have been approved by PGO. In the case of a student receiving a waiver for a required course, it is the student's responsibility to ensure that the PGO knowledge requirements are being met. Furthermore, it is the applicant who must demonstrate to the PGO that they meet each individual knowledge requirement.
- For information on individual courses see Calendar entries for Biology, Chemistry, Computer Science, Environmental & Resource Science/Studies, Geography, Mathematics & Statistics, and Physics & Astronomy.
- There may be a small additional fee for field trips in certain courses.
- The Accelerated Master's program in Environmental & Life Sciences allows students to obtain a research-based MSc within a shorter timeframe. See www.trentu.ca/els/experience/msc-program/accelerated-masters-program for details.

Requirements

Bachelor of Science Program in Environmental Geoscience

The single-major Honours program. 20.0 credits including the following 15.5 credits:

- 5.5 EGEO credits consisting of EGEO 1040H, 2001H, 2090H, 2540H, 3001H, 3002H, 3003H, 3530H, 3560H, 3590H, and 4060H
- 0.5 BIOL credit consisting of BIOL 1020H
- 1.5 CHEM credits consisting of CHEM 1000H, 1010H, and 2620H
- 1.5 ERSC credits consisting of ERSC 1010H, 2230H, and 2240H
- 1.0 GEOG credit consisting of GEOG 2080H and 2460H
- 0.5 MATH credit consisting of MATH 1110H
- 0.5 MATH credit from MATH 1122H* or 1550H*
- 0.5 PHYS credit from PHYS 1000H or 1001H
- 1.0 credit from category A in addition to the above
- 3.0 credits from category B in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

CATEGORY A	CATEGORY B
Additional Foundation Science	**Other Geoscience**
BIOL 1030H CHEM 2410H COIS 1020H COIS 1400H MATH 1122H* MATH 1550H* PHYS 1002H — — — — — —	EGEO 2180H EGEO 2401H EGEO 4000H EGEO 4020D EGEO 4080H ERSC 3450H ERSC 4530H GEOG-ERSC 3010H GEOG 3020H GEOG 3440H GEOG 3540H GEOG-ERSC-SAFS 3650H GEOG 4090H

*Important note: Asterisked courses may only be counted once toward program requirements. Students are strongly encouraged to take additional courses listed in category B beyond the program requirements to extend their Geoscience background.

BSH.EGEO.COOP - Environmental Geoscience - Co-op

Overview

- Students who are unable to obtain a suitable co-op opportunity in an upcoming work term are expected to continue with their academic program on a full-time basis. A single missed work term can be made up, but in the event that a co-op student cannot secure their work term for a second time, they will be withdrawn from the co-op program. If a student is unable to complete three work terms yet otherwise fulfills all degree requirements, the student will be awarded an Honours Bachelor of Science in Environmental Geoscience.

BSH.ERCE - Environmental Chemistry - BSc Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
Solving many environmental problems requires a solid background in both chemistry and environmental science. The Environmental Chemistry program has been designed to provide a thorough grounding in fundamental chemical principles as well as a detailed understanding of environmental issues and their scientific context. Graduates of the program will have experience with advanced instrumentation and modern analytical techniques, and will be prepared to handle challenging environmental problems from a multidisciplinary perspective.

INFORMATION & ADDITIONAL NOTES

- The Environmental Chemistry program is a sequence of courses that compose an integrated whole and are offered by the Chemistry Department and the School of the Environment. For information on individual courses see Calendar entries for Chemistry and for Environmental & Resource Science/Studies.
- The Accelerated Master's program in Environmental & Life Sciences allows students to obtain a research-based MSc within a shorter timeframe. See www.trentu.ca/els/experience/msc-program/accelerated-masters-program for details.

Requirements

Bachelor of Science Program in Environmental Chemistry

- ERSC 3551H is recommended for the program.

The single-major Honours program. 20.0 credits including the following 15.0 credits:

- 6.5 CHEM credits consisting of CHEM 1000H, 1010H, 2100H, 2200H, 2300H, 2410H, 2420H, 2500H, 2620H, 3400H, 3410H, 3520H, and 3610H

- 3.0 ERSC credits consisting of ERSC 1010H, 1020H, 2240H, 3450H, 3701H, and 4060H
- 1.0 CHEM credit from CHEM 4300H, 4400H or 4500H
- 2.0 CHEM or ERSC credits at the 3000 level or beyond in addition to the above
- 1.0 BIOL credit consisting of BIOL 1020H and 1030H
- 1.0 MATH credit consisting of MATH 1110H and 1122H
- 0.5 MATH or PHYS credit from MATH 1051H, PHYS 1001H, or PHYS 1060H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

It is expected that students follow the set work term schedule. Students are encouraged to work with an academic advisor for support with degree mapping.

YEAR	FALL	WINTER	SUMMER
Year 1	Study Term 1	Study Term 2	–
Year 2	Study Term 3	Study Term 4	COOP 2000H
Year 3	Study Term 5	Study Term 6	Work Term
Year 4	Work Term	Work Term	–
Year 5	Study Term 7	Study Term 8	–

- Students on a work term must complete learning objectives, a midterm evaluation, a final evaluation, and a final work term report. Co-op employers will also complete a midterm evaluation and final evaluation of the student's work term. Upon receiving the completed documentation and upon a satisfactory employer assessment, a Pass (P) or Fail (F) will be assigned for COOP 2100P, 3100P, and 4100P.
- CareerSpace and the Trent School of the Environment make every effort to find suitable work terms for students enrolled in the co-op program, but a work term opportunity cannot be guaranteed for every student. The work term process is competitive and dependent upon many factors including market conditions, the preparedness of a student including their job applications and performance in job interviews, and the academic performance of a student. Co-op students secure positions through successful participation in the co-op interview process and/or their own job search activities. Withdrawal from the co-op program will not normally be approved while a student is on a work term. Students are not permitted to take an academic course during a scheduled work term.
- Students who are unable to obtain a suitable co-op opportunity in an upcoming work term are expected to continue with their academic program on a full-time basis. A single missed work term can be made up, but in the event that a co-op student cannot secure their work term for a second time, they will be withdrawn from the co-op program. If a student is unable to complete three work terms yet otherwise fulfills all degree requirements, the student will be awarded an Honours Bachelor of Science in Environmental Chemistry.

BSH.ERSC - Environmental & Resource Science - BSc Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
www.trentu.ca/ers

Environmental & Resource Science/Studies within the Trent School of the Environment provides many opportunities to study the environment, with more than 100 courses in all aspects of environmental science and policy. Many of these courses emphasize practical experience, including field work in Trent's network of nature areas and in local communities. The program offers a high degree of flexibility in course selection, including options for a year abroad, community-based research courses, placements and internships, and Honours theses.

INFORMATION & ADDITIONAL NOTES

- Science courses, which fulfill University requirements for the BSc, are designated Environmental & Resource Science (ERSC) and marked Science; arts courses are designated Environmental & Resource Studies (ERST).
- Any course involving work with live vertebrate animals requires the Animal Care Course.
- Students who have taken CHEM 1000H and 1010H and achieved an average combined grade of at least 70% are exempt from the requirement to take ERSC 2220H for the BSc or BESS degrees. This exemption will not, however, alter the minimum number of credits in Environmental & Resource Science/Studies required for the degree.
- Community-based research, placement, reading and Honours thesis courses normally require a minimum cumulative average of 75%.
- There may be a small additional fee for field trips in certain courses.
- The Accelerated Master's program in Environmental & Life Sciences allows students to obtain a research-based MSc within a shorter timeframe. See www.trentu.ca/els/experience/msc-program/accelerated-masters-program for details.

Requirements

Bachelor of Science Program in Environmental & Resource Science

The single-major Honours program. 20.0 credits including the following 12.0 credits:

- 1.5 ERSC/ERST/SAFS credits from ERSC 1010H, 1020H, 1040H, 1060H, ERST 1030H, or SAFS 1001H
- 2.5 ERSC credits consisting of ERSC 2080H, 2090H, 2220H, 2230H, and 2240H
- 0.5 ERST credit consisting of ERST 3000H
- 0.5 credit from the TSE Capstone Course List*
- 5.0 ERSC credits at the 3000 level or beyond in addition to the above
- 0.5 ERSC credit at the 2000 level or beyond in addition to the above
- 1.0 ERST credit at the 2000 level or beyond in addition to the above
- 0.5 MATH credit consisting of MATH 1051H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List and 14.0 science credits including 1.0 MATH credit (MATH 1051H and 0.5 additional credit).

The joint-major Honours program. 20.0 credits including the following 8.0 credits:

- 1.5 ERSC/ERST/SAFS credits from ERSC 1010H, 1020H, 1040H, 1060H, ERST 1030H, or SAFS 1001H
- 2.5 ERSC credits consisting of ERSC 2080H, 2090H, 2220H, 2230H, and 2240H
- 0.5 ERST credit consisting of ERST 3000H
- 0.5 credit from the TSE Capstone Course List*
- 2.0 ERSC credits at the 3000 level or beyond in addition to the above
- 0.5 ERST credit at the 2000 level or beyond in addition to the above
- 0.5 MATH credit consisting of MATH 1051H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List and 14.0 science credits including 1.0 MATH credit (MATH 1051H and 0.5 additional credit).

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree, with the following exception: for students pursuing a joint-major degree in Environmental & Resource Science and Geography, one of ERSC 1010H, ERSC 1020H, CLIM-ERSC-GEOG 1060H, or SAFS 1001H may be used to simultaneously satisfy the requirements of both programs.

BSH.ERSC.COOP - Environmental & Resource Science - Co-op

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
Environmental & Resource Science Co-op will be available as of the 2027-2028 Academic Year.

www.trentu.ca/coop

Co-op is an opportunity for students to gain work-integrated experiential learning that will help them get a head start on a career. The Environmental & Resource Science Co-op assists graduating students in achieving a competitive edge while generating experience within a wide range of sectors. Specifically, co-op gives the students a chance to obtain 12 months of practical experience on the job, develop or enhance technical skills, explore career options, network with a variety of individuals and organizations, learn from mentors and tutors, enhance communication and presentation skills, and develop technical writing skills.

INFORMATION AND ADDITIONAL NOTES

- The Environmental & Resource Science Co-op is available at Trent's Peterborough campus only.
- Co-op students are responsible for paying tuition for their academic courses, ancillary fees, and levies. All Trent students are charged ancillary fees every Fall & Winter term. Co-op students will experience the same cycle for their ancillary fee payments regardless of when they are out on work terms. Co-op students do not pay tuition during their work terms.
- Co-op students are responsible for paying the compulsory Co-op Fee a total of five times during their degree program, and the Co-op fee will be applied to their student account in Year 3 Fall, Year 3 Winter, Year 4 Fall, Year 4 Winter, and Year 5 Fall.
- Students are encouraged to meet with their Co-op Coordinator at CareerSpace each year for support with their co-op work terms, career development, and to confirm they are meeting co-op progression requirements.

Requirements

Bachelor of Science Program in Environmental & Resource Science — Co-op

- Environmental & Resource Science Co-op will be available as of the 2027-2028 Academic Year.
- Co-op students must satisfy the requirements for the single-major BSc Honours in Environmental & Resource Science and the Co-op requirements listed below.
- Environmental & Resource Science Co-op is a competitive direct-entry program with a limited number of student places. Students who are not admitted directly may apply for admission after commencing studies at Trent and may be admitted on a competitive basis provided there are available spaces in the program.
- To remain in the co-op program, students must complete the required work term preparation course (COOP 2000H) with a minimum 70% progression requirement, and maintain a 75% cumulative average throughout their study terms. In addition, students must continue to receive satisfactory evaluations during each of their three work terms. Students who do not achieve a minimum 70% in COOP 2000H will be withdrawn from the co-op program but may continue their studies in Environmental & Resource Science or transfer to a major in a different subject. Once withdrawn, students are not eligible to re-enter the co-op program.
- Students in the Environmental & Resource Science Co-op follow the co-op continuing model where they complete one 12-month work term (COOP 2100P, 3100P and 4100P) with a single employer. The prerequisite for the first work term (COOP 2100P) for students in this program is completion of COOP 2000H with a minimum grade of 70% and completion of at least 10.0 academic credits. The schedule for the single-major Honours program is listed below. Students who choose to explore any additions (minor, specialization, or option) to a single-major Honours may require additional time to complete their degrees, as all courses are not offered in every term. It is expected that students follow the set work term schedule. Students are encouraged to work with an academic advisor for support with degree mapping.

YEAR	FALL	WINTER	SUMMER
Year 1	Study Term 1	Study Term 2	–
Year 2	Study Term 3	Study Term 4	COOP 2000H
Year 3	Study Term 5	Study Term 6	Work Term
Year 4	Work Term	Work Term	–
Year 5	Study Term 7	Study Term 8	–

- Students on a work term must complete learning objectives, a midterm evaluation, a final evaluation, and a final work term report. Co-op employers will also complete a midterm evaluation and final evaluation of the student's work term. Upon receiving the completed documentation and upon a satisfactory employer assessment, a Pass (P) or Fail (F) will be assigned for COOP 2100P, 3100P, and 4100P.
- CareerSpace and the Trent School of the Environment make every effort to find suitable work terms for students enrolled in the co-op program, but a work term opportunity cannot be guaranteed for every student. The work term process is competitive and dependent upon many factors including market conditions, the preparedness of a student including their job applications and performance in job interviews, and the academic performance of a student. Co-op students secure positions through successful participation in the co-op interview process and/or their own job search activities. Withdrawal from the co-op program will not normally be approved while a student is on a work term. Students are not permitted to take an academic course during a scheduled work term.
- Students who are unable to obtain a suitable co-op opportunity in an upcoming work term are expected to continue with their academic program on a full-time basis. A single missed work term can be made up, but in the event that a co-op student cannot secure their work term for a second time, they will be withdrawn from the co-op program. If a student is unable to complete three work terms yet otherwise fulfills all degree requirements, the student will be awarded an Honours Bachelor of Science in Environmental & Resource Science.

BSH.FINA - Financial Science - BSc Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
The Financial Science program enables students to obtain a foundation in the theory, practice, and analytical techniques required to understand, model, and solve complex financial problems in the modern world of finance. The program provides an interdisciplinary breadth of knowledge including accounting, economics, finance, mathematical modelling, computing, and statistics.

INFORMATION & ADDITIONAL NOTES

- For information on individual courses, see Calendar entries for Mathematics & Statistics, Business Administration, Economics, and Computer Science.

Requirements

Bachelor of Science Program in Financial Science

- Students may not graduate with a major in Financial Science and a minor in Mathematics.

The single-major Honours program. 20.0 credits including the following 14.0 credits:

- 3.0 ADMN credits consisting of ADMN 1221H, 3200H, 3700H, 4300H, 4700H, and 4720H
- 0.5 COIS credit consisting of COIS 1020H
- 3.0 ECON credits consisting of ECON 1010H, 1020H, 2000H, 2010H, 3020H, and 3200H
- 0.5 MATH credit from MATH 1110H or 1111H
- 0.5 MATH credit from MATH 1120H or 1121H
- 5.5 MATH credits consisting of MATH 1350H, 1550H, 2110H, 2150H, 2350H, 2560H, 2570H, 3180H, 3510H, 3560H, and 4510H
- 0.5 ECON credit from ECON 4060H or 4200H

- 0.5 MATH credit from MATH-COIS 3350H, MATH 3561H, or 4560H

In addition to the program requirements listed above, students must satisfy the University degree requirements below, including 0.5 credit from the Approved Indigenous Course List and 14.0 science credits.

BSH.FRAN - Forensic Anthropology - BSc Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
www.trentu.ca/anthropology/programs/undergraduate/bsc-forensic-anthropology

The Forensic Anthropology program integrates the study of science and law with investigative practice and theory. Students receive a comprehensive biological anthropology education through the study of human evolution, growth and development in relation to environmental, genetic, and cultural factors. Students practice case work, learn team-building, analyze ethical and legal issues related to evidence, and face the challenge of communicating complex scientific evidence within the legal system. Students in the program may also participate in a placement/mentorship course where they gain valuable "real-world" experience and begin to develop their professional network.

INFORMATION & ADDITIONAL NOTES

- The Bachelor of Science in Forensic Anthropology is a direct-entry program with a limited number of student places. A secondary school diploma and six Ontario U/UM credits including one 4U credit in each of Biology, English, and Mathematics are required for admission. Normally, students with an overall average lower than 75% will not be admitted to the program.
- It is not possible to combine Anthropology and Forensic Science in a joint-major Honours degree. There is no joint-major program, General program, or minor in Forensic Anthropology.
- This program is only available on the Peterborough campus.

Requirements

Bachelor of Science Program in Forensic Anthropology

The single-major Honours program. 20.0 credits including the following 16.5 credits:

- 3.5 FRSC credits consisting of FRSC 1030H, 1100H, 2011H, 2020H, 2100H, 3010H, and 4312H
- 2.5 FRSC credits at the 4000 level in addition to the above
- 3.5 ANTH credits consisting of ANTH 1001H, 1030H, 2123H, 2150H, 2410H, 3404H, and 3405H
- 3.0 ANTH credits from ANTH 3123H, 3153H, 3540H, 3731H, 4420H, 4425H, or 4430H
- 1.0 ANTH credit from ANTH 3000Y, 3151H, 3460H, 3850Y, 3851H, 3852Y, 3855H, 4153H, or 4163H
- 0.5 ANTH credit at the 4000 level in addition to the above (may include ANTH 4153H, 4163H, 4420H, 4425H, or 4430H if not taken to fulfill the previous line)
- 1.5 BIOL credits consisting of BIOL 1030H, 1500H, and 2050H
- 1.0 MATH credit consisting of MATH 1051H and 1052H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List and 14.0 science credits.

BSH.FRBI - Forensic Biology - BSc Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
www.trentu.ca/forensicscience

The Forensic Biology program integrates the study of science and law with investigative practice and theory. Students receive a comprehensive biology education through the study of life at all levels of organization from molecular and cell through whole organisms to population and community. Students practice case work, learn team-building, analyze ethical and legal issues related to evidence, and face the challenge of communicating complex scientific evidence within the legal system. Students in the program may also participate in a placement/mentorship course where they gain valuable "real-world" experience and begin to develop their professional network.

INFORMATION & ADDITIONAL NOTES

- The Bachelor of Science in Forensic Biology is a direct-entry program with a limited number of student places. A secondary school diploma and six Ontario U/UM credits including one 4U credit in each of Chemistry, Biology, English, and Mathematics are required for admission. 4U Physics is highly recommended. Normally, students with an overall average lower than 75% will not be admitted to the program.

Requirements

Bachelor of Science Program in Forensic Biology

- Students who have not completed any 4U (or equivalent) calculus courses are recommended to take MATH 1006H as the required 0.5 credit from MATH 1006H or 1110H.

The single-major Honours program. 20.0 credits including the following 15.5 credits:

- 2.5 FRSC credits consisting of FRSC 1030H, 1100H, 2011H, 2100H, and 4312H
- 3.0 BIOL credits consisting of BIOL 1020H, 1030H, 2050H, 2070H, 2260H, and 2600H
- 0.5 FRSC or BIOL credit from FRSC 2020H or BIOL 2000H
- 0.5 FRSC or BIOL credit from FRSC 3700H or BIOL 3600H
- 2.0 FRSC credits from FRSC 3000H, 3111H, 4250H, 4570H, 4600H, or 4800H
- 1.0 BIOL credit from BIOL 3040H, 3080H, 4130H, 4380H, or 4630H
- 1.0 BIOL credit from BIOL 3090H, 3140H, 3330H, 3340H, 4140H, or 4180H
- 2.0 FRSC and/or BIOL credits from FRSC 4020D, BIOL 4020D, or FRSC 4021Y and BIOL 4010Y; or 1.0 credit from FRSC 4010Y, FRSC 4890Y, or BIOL 4890Y and 1.0 additional FRSC or BIOL credit at the 4000 level
- 1.0 CHEM credit consisting of CHEM 1000H and 1010H
- 1.0 MATH credit consisting of MATH 1051H and 1052H
- 0.5 MATH credit from MATH 1006H or 1110H
- 0.5 PHYS credit from PHYS 1000H, 1001H, or 1060H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List and 14.0 science credits.

BSH.FRCH - Forensic Chemistry - BSc Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
www.trentu.ca/forensicscience www.trentu.ca/chemistry

The Forensic Chemistry program integrates the study of science and law with investigative practice and theory. Students receive a comprehensive chemistry education including a range of courses in analytical, biochemical, environmental, inorganic, organic, and physical chemistry. Students practice case work, learn team-building, analyze ethical and legal issues related to evidence, and face the challenge of communicating complex scientific evidence within the legal system. Students in the program may also participate in a placement/mentorship course where they gain valuable "real-world" experience and begin to develop their professional network.

INFORMATION & ADDITIONAL NOTES

- The Bachelor of Science in Forensic Chemistry is a direct-entry program with a limited number of student places. A secondary school diploma and six Ontario U/UM credits including one 4U credit in each of Chemistry, Biology, English, and Mathematics are required for admission. 4U Physics is highly recommended. Normally, students with an overall average lower than 75% will not be admitted to the program.

Requirements

Bachelor of Science Program in Forensic Chemistry

The single-major Honours program. 20.0 credits including the following 17.0 credits:

- 4.0 FRSC credits consisting of FRSC 1030H, 1100H, 2011H, 2020H, 2100H, 3730H, 4312H, and 4730H
- 6.5 CHEM credits consisting of CHEM 1000H, 1010H, 2100H, 2110H, 2200H, 2300H, 2410H, 2420H, 2500H, 3400H, 3410H, 3520H, and 4400H
- 2.0 CHEM and/or FRSC credits at the 4000 level in addition to above
- 1.0 CHEM credit at the 3000 level or beyond in addition to above
- 1.5 FRSC credits at the 3000 level or beyond in addition to above
- 1.0 MATH credit consisting of MATH 1110H and 1122H
- 1.0 PHYS credit consisting of PHYS 1001H and 1002H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List and 14.0 science credits.

BSH.FRCH.COOP - Forensic Chemistry - Co-op

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
Forensic Chemistry Co-op will be available as of the 2027-2028 Academic Year.

Co-op is an opportunity for students to gain work-integrated experiential learning that will help them get a head start on a career. The Forensic Chemistry Co-op assists graduating students in achieving a competitive edge while generating experience within a wide range of sectors. Specifically, co-op gives the students a chance to obtain 12 months of practical experience on the job, develop or enhance technical skills, explore career options, network with a variety of individuals and organizations, learn from mentors and tutors, enhance communication and presentation skills, and develop technical writing skills.

INFORMATION & ADDITIONAL NOTES

- Co-op students are responsible for paying tuition for their academic courses, ancillary fees, and levies. All Trent students are charged ancillary fees every Fall & Winter term. Co-op students will experience the same cycle for their ancillary fee payments regardless of when they are out on work terms. Co-op students do not pay tuition during their work terms.
- Co-op students are responsible for paying the compulsory Co-op Fee a total of five times during their degree program, and the Co-op fee will be applied to their student account in Year 3 Fall, Year 3 Winter, Year 4 Fall, Year 4 Winter, and Year 5 Fall.
- Students are encouraged to meet with the Forensic Chemistry co-op coordinator each year for support with their co-op work terms, career development, and to confirm they are meeting co-op progression requirements.

Requirements

Honours Bachelor of Science Program in Forensic Chemistry—Co-op

- Forensic Chemistry Co-op will be available as of the 2027-2028 Academic Year.
- Co-op students must satisfy the requirements for the BSc Honours in Forensic Chemistry and the Co-op requirements listed below.
- Forensic Chemistry Co-op is a competitive direct-entry program with a limited number of student places. A secondary school diploma and six Ontario 4U or 4M courses with a minimum 80% overall final average is required for admission. These include SCH4U (Chemistry), MHF4U (Advanced Functions), MCV4U (Calculus and Vectors), SPH4U (Physics), and ENG4U (English). Students who are not admitted directly may apply for admission after commencing studies at Trent and may be admitted on a competitive basis provided there are available spaces in the program.
- To remain in the co-op program, students must:
    - complete the required co-op work term preparation course COOP 2000H with a minimum 70% progression requirement;
    - achieve a minimum 75% in each of their required 2000-level courses: CHEM 2100H, 2110H, 2200H, 2300H, 2410H, 2420H, and 2500H;
    - maintain a 75% cumulative average in their courses throughout their study terms; and
    - complete the required components of three work terms (COOP 2100P, 3100P, and 4100P) and receive satisfactory evaluations during each of their work terms.
- Students who do not achieve a minimum 70% in COOP 2000H will be withdrawn from the co-op program but may continue their studies in Forensic Chemistry or transfer to a major in a different subject. Once withdrawn, students are not eligible to re-enter the co-op program.
- Students in the Forensic Chemistry Co-op follow the co-op continuing model where they complete one 12-month work term (COOP 2100P, 3100P and 4100P) with a single employer. The prerequisite for

the first work term (COOP 2100P) for students in this program is completion of COOP 2000H with a minimum grade of 70% and completion of at least 12.0 academic credits. The set work term schedule is listed below. Students who choose to explore any additions (minor, specialization, or option) to a single-major Honours may require additional time to complete their degrees, as all courses are not offered in every term. It is expected that students follow the set work term schedule. Students are encouraged to work with an academic advisor for support with degree mapping. The typical schedule is listed below.

YEAR	FALL	WINTER	SUMMER
Year 1	Study Term 1	Study Term 2	–
Year 2	Study Term 3	Study Term 4	–
Year 3	Study Term 5	Study Term 6	Work Term
Year 4	Work Term	Work Term	–
Year 5	Study Term 7	Study Term 8	–

- Students on a work term must complete learning objectives, a midterm evaluation, a final evaluation, and a final work term report. Co-op employers will also complete a midterm evaluation and final evaluation of the student's work term. Upon receiving the completed documentation and upon a satisfactory employer assessment, a Pass (P) or Fail (F) will be assigned for COOP 2100P, 3100P, and 4100P.
- The Department of Forensic Science makes every effort to find suitable work terms for students enrolled in the co-op program, but a work term opportunity cannot be guaranteed for every student. The work term process is competitive and dependent upon many factors including market conditions, the preparedness of a student including their job applications and performance in job interviews, and the academic performance of a student. Co-op students secure positions through successful participation in the co-op interview process and/or their own job search activities. Withdrawal from the co-op program will not normally be approved while a student is on a work term. Students are not permitted to take an academic course during a scheduled work term.
- Students who are unable to obtain a suitable co-op opportunity in an upcoming work term are expected to continue with their academic program on a full-time basis. A missed work term can be made up, but in the event that a co-op student is unable to complete three work terms yet otherwise fulfills all degree requirements, the student will be awarded an Honours Bachelor of Science in Forensic Chemistry.

BSH.FRSC - Forensic Science - BSc Honours (joint major)

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
The joint-major Forensic Science program integrates the study of science and law with investigative practice and theory. Students learn the foundational science of forensics through the study of anthropology, biology, and chemistry. These foundational science courses complement the specialized forensics courses offered in the program. The program particularly emphasizes emerging developments in DNA forensic applications and crime scene investigation through courses in laboratory techniques and related case work.

From the beginning of their forensic studies at Trent, students are fully immersed in a functioning forensic research and service environment located in the DNA Building. Students practice case work, learn team-building, analyze ethical and legal issues related to evidence, and face the challenge of communicating complex scientific evidence within the legal system. Students in the program may also participate in a placement/mentorship course where they gain valuable real-world experience and begin to develop their professional network.

The joint-major degree option offered by the Department of Forensic Science can be taken in conjunction with other departments or programs including, but not limited to, Biology, Psychology, Chemistry, Computer Science, and Physics & Astronomy. Students enrolled in the joint-major program can enrol in a number of the same courses that are provided to BScFS students and have the option of obtaining either an Honours Bachelor of Science (BSc) or an Honours Bachelor of Arts (BA) degree.

Requirements

Bachelor of Science Joint-Major Program in Forensic Science

- The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree, with the following exceptions:
    - Students pursuing a joint-major Honours degree in Forensic Science and Biology are required to take the following courses which simultaneously satisfy the requirements of both programs: BIOL 1020H, BIOL 1030H, MATH 1051H, and MATH 1052H.
    - Students pursuing a joint-major Honours degree in Forensic Science and Chemistry are required to take the following courses which simultaneously satisfy the requirements of both programs: CHEM 1000H, CHEM 1010H, MATH 1110H, and MATH 1122H.
- It is not possible to combine Forensic Science and Anthropology in a joint-major Honours degree.
- 1.0 MATH credit at the 1000 level, 1.0 BIOL or CHEM credit at the 1000 level, and 60% or higher in each of FRSC 1030H and 1100H are prerequisites for required course FRSC 2011H.

The joint-major Honours program. 20.0 credits including the following 8.5 credits:

- 2.5 FRSC credits consisting of FRSC 1030H, 1100H, 2011H, 2020H, and 3100H
- 2.5 FRSC credits at the 3000 level or beyond in addition to the above
- 1.5 FRSC credits in addition to the above
- 1.0 MATH credit at the 1000 level
- 1.0 BIOL credit or 1.0 CHEM credit at the 1000 level

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List. For the BSc, 14.0 science credits are required.

Specializations

Specialization in Law & Policing

BSH.GEOG - Geography - BSc Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
www.trentu.ca/geography

The Trent School of the Environment offers BA and BSc programs in Geography. Students may earn a single-major or joint-major degree with a wide range of other University departments or programs. Students earning a degree with a major in another subject may also obtain a minor in Geography. The program has a strong emphasis on field-based learning and interdisciplinary study. Students in the Honours program are encouraged to explore the thesis and community-based research options as valuable training for postgraduate studies and job-related experience.

INFORMATION & ADDITIONAL NOTES

- Courses in Geography fulfilling University science course requirements for the BSc are marked Science in the individual course descriptions.
- There may be a small additional fee for field trips in certain courses.
- The Accelerated Master's program in Environmental & Life Sciences allows students to obtain a research-based MSc within a shorter timeframe. See www.trentu.ca/els/experience/msc-program/accelerated-masters-program for details.

Requirements

Bachelor of Science Program in Geography

- Students who have successfully completed PSYC 2019H are exempt from the GEOG 2080H requirement for the joint-major or minor in Geography. This exemption will not, however, alter the minimum number of credits in Geography required for the degree.
- Students who have taken MATH 1052H and achieved a grade of at least 75% are exempt from taking GEOG 2080H, and from the GEOG 2080H prerequisite for

other Geography courses. This exemption will not, however, alter the minimum number of credits in Geography required for the degree.

- GEOG 1030H and 1040H are prerequisites for most upper-level Geography courses. Students should check individual course descriptions for prerequisites.

The single-major Honours program. 20.0 credits including the following 11.5 credits:

- 2.5 GEOG credits consisting of GEOG 1030H, 1040H, 2080H, 2090H, and 3100H
- 0.5 credit from ERSC 1010H, 1020H, GEOG 1060H, or SAFS 1001H
- 1.0 GEOG credit from GEOG 2180H, 2310H, 2320H, 2710H, or 2810H
- 0.5 credit from the TSE Capstone Course List*
- 5.0 GEOG science credits at the 3000 level or beyond in addition to the above
- 1.5 GEOG science credits at the 2000 level or beyond in addition to the above
- 0.5 MATH credit consisting of MATH 1051H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List and 14.0 science credits including 1.0 MATH credit.

The joint-major Honours program. 20.0 credits including the following 8.0 credits:

- 2.5 GEOG credits consisting of GEOG 1030H, 1040H, 2080H, 2090H, and 3100H
- 0.5 credit from ERSC 1010H, 1020H, GEOG 1060H, or SAFS 1001H
- 1.0 GEOG credit from GEOG 2180H, 2310H, 2320H, 2710H, or 2810H
- 0.5 credit from the TSE Capstone Course List*
- 1.5 GEOG science credits at the 3000 level or beyond in addition to the above
- 1.5 GEOG science credits at the 2000 level or beyond in addition to the above
- 0.5 MATH credit consisting of MATH 1051H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List and 14.0 science credits including 1.0 MATH credit.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree, with the following exception: for students pursuing a joint-major degree in Geography and Environmental & Resource Science/Studies, one of ERSC 1010H, ERSC 1020H, CLIM-ERSC-GEOG 1060H, or SAFS 1001H may be used to simultaneously satisfy the requirements of both programs.

BSH.GEOG.COOP - Geography - Co-op (BSc)

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
Geography Co-op will be available as of the 2027-2028 Academic Year.

www.trentu.ca/coop

Co-op is an opportunity for students to gain work-integrated experiential learning that will help them get a head start on a career. The Geography Co-op assists graduating students in achieving a competitive edge while generating experience within a wide range of sectors. Specifically, co-op gives the students a chance to obtain 12 months of practical experience on the job, develop or enhance technical skills, explore career options, network with a variety of individuals and organizations, learn from mentors and tutors, enhance communication and presentation skills, and develop technical writing skills.

INFORMATION AND ADDITIONAL NOTES

- The Geography Co-op is available at Trent's Peterborough campus only.
- Co-op students are responsible for paying tuition for their academic courses, ancillary fees, and levies. All Trent students are charged ancillary fees every Fall & Winter term. Co-op students will experience the same cycle for their ancillary fee payments regardless of when they are out on work terms. Co-op students do not pay tuition during their work terms.
- Co-op students are responsible for paying the compulsory Co-op Fee a total of five times during their degree program, and the Co-op fee will be applied to their student account in Year 3 Fall, Year 3 Winter, Year 4 Fall, Year 4 Winter, and Year 5 Fall.
- Students are encouraged to meet with their Co-op Coordinator at CareerSpace each year for support with their co-op work terms, career development, and to confirm they are meeting co-op progression requirements.

Requirements

Bachelor of Science Program in Geography — Co-op

- Geography Co-op will be available as of the 2027-2028 Academic Year.
- Co-op students must satisfy the requirements for the single-major BSc Honours in Geography and the Co-op requirements listed below.
- Geography Co-op is a competitive direct-entry program with a limited number of student places. Students who are not admitted directly may apply for admission after commencing studies at Trent and may be admitted on a competitive basis provided there are available spaces in the program.
- To remain in the co-op program, students must complete the required work term preparation course (COOP 2000H) with a minimum 70% progression requirement, and maintain a 75% cumulative average throughout their study terms. In addition, students must continue to receive satisfactory evaluations during each of their three work terms. Students who do not achieve a minimum 70% in COOP 2000H will be withdrawn from the co-op program but may continue their studies in Geography or transfer to a major in a different subject. Once withdrawn, students are not eligible to re-enter the co-op program.
- Students in the Geography Co-op follow the co-op continuing model where they complete one 12-month work term (COOP 2100P, 3100P and 4100P) with a single employer. The prerequisite for the first work term (COOP 2100P) for students in this program is completion of COOP 2000H with a minimum grade of 70% and completion of at least 10.0 academic credits. The schedule for the single-major Honours program is listed below. Students who choose to explore any additions (minor, specialization, or option) to a single-major Honours may require additional time to complete their degrees, as all courses are not offered in every term. It is expected that students follow the set work term schedule. Students are encouraged to work with an academic advisor for support with degree mapping.

YEAR	FALL	WINTER	SUMMER
Year 1	Study Term 1	Study Term 2	–
Year 2	Study Term 3	Study Term 4	COOP 2000H
Year 3	Study Term 5	Study Term 6	Work Term
Year 4	Work Term	Work Term	–
Year 5	Study Term 7	Study Term 8	–

- Students on a work term must complete learning objectives, a midterm evaluation, a final evaluation, and a final work term report. Co-op employers will also complete a midterm evaluation and final evaluation of the student's work term. Upon receiving the completed documentation and upon a satisfactory employer assessment, a Pass (P) or Fail (F) will be assigned for COOP 2100P, 3100P, and 4100P.
- CareerSpace and the Trent School of the Environment make every effort to find suitable work terms for students enrolled in the co-op program, but a work term opportunity cannot be guaranteed for every student. The work term process is competitive and dependent upon many factors including market conditions, the preparedness of a student including their job applications and performance in job interviews, and the academic performance of a student. Co-op students secure positions through successful participation in the co-op interview process and/or their own job search activities. Withdrawal from the co-op program will not normally be approved while a student is on a work term. Students are not permitted to take an academic course during a scheduled work term.
- Students who are unable to obtain a suitable co-op opportunity in an upcoming work term are expected to continue with their academic program on a full-time basis. A single missed work term can be made up, but in the event that a co-op student cannot secure their work term for a second time, they will be withdrawn from the co-op program. If a student is unable to complete three work terms yet otherwise fulfills all degree requirements, the student will be awarded an Honours Bachelor of Science in Geography.

BSH.HEAL - Health - BSc Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
Students in the BSc Health program will explore the multidimensional concept of health as defined by The World Health Organization emphasizing physical, mental, and social well-being. Students will critically examine patterns of health and wellness, morbidity, and mortality from a multi-disciplinary perspective. Courses include a focus on measuring health and illness, health behaviour, illness representations, models and values of health promotion, program evaluation, and health communications.

Admission Requirements

A secondary diploma and six Ontario 4U or 4M courses with a minimum 75% average, including ENG 4U, SBI4U, and at least one of MHF4U or MCV4U, are required.

Requirements

Bachelor of Science Program in Health

- PSYC 2018H and 2019H fulfill the requirement for 1.0 credit in Mathematics for the BSc in Health.
- Students continuing to graduate school are advised to take HEAL 4010Y: Research Thesis Project.

The single-major Honours program. 20.0 credits including the following 10.5 credits:

- 3.0 HEAL credits consisting of HEAL 1005H, 2005H, 3001H, 3755H, 4003H, and 4700H
- 2.0 BIOL credits consisting of BIOL 1500H, 1501H, 3640H, and 3660H
- 3.0 PSYC credits consisting of PSYC 1020H, 1030H, 2018H, 2019H, 2200H, and 3750H
- 0.5 PSYC credit at the 2000 level in addition to the above
- 2.0 SOCI credits consisting of SOCI 1001H, 2015H, 2630H, and 3631H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List and 14.0 science credits.

BSH.IESS - Indigenous Environmental Science - BSc Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
www.trentu.ca/ies

Indigenous Environmental Studies & Sciences at Trent University is an innovative and multidisciplinary program offered jointly by the School of the Environment and the Chanie Wenjack School for Indigenous Studies. It brings together principles of both Indigenous knowledge and Western science. Instruction integrating these approaches will provide students with the necessary knowledge and skills, including both critical and integrative thinking abilities, to begin to address the complex environmental problems facing Indigenous communities, governments, business, industry, research, and society in general. The foundation upon which the program is based recognizes both the strengths and limitations of any single perspective, and seeks to develop interactive and integrative thinking to address environmental, health, and social issues. Learning and problem-solving are focused on benefiting both Indigenous and non-Indigenous communities.

INFORMATION & ADDITIONAL NOTES

- There is no option to pursue a joint-major in Indigenous Environmental Studies & Sciences and Indigenous Studies or a joint-major in Indigenous Environmental Studies & Sciences and Environmental & Resource Science/Studies.
- Students who have earned the Diploma in the Indigenous Environmental Studies & Sciences may apply for admission to the BA or BSc degrees. Credits earned in the Diploma program are transferable to the BA and BSc degrees.
- Indigenous students seeking admission to this or other University programs should contact the Aboriginal enrolment advisor in the First Peoples House of Learning to inquire about getting special assistance with the admission process.
- There may be a small additional fee for field trips in certain courses.
- The Accelerated Master's program in Environmental & Life Sciences allows students to obtain a research-based MSc within a shorter timeframe. See https://www.trentu.ca/els/experience/msc-program/accelerated-masters-program for details.

Requirements

Bachelor of Science Program in Indigenous Environmental Science

- IESS 3635H, 3636H, 4630H, INDG 4050H, and an Indigenous language course are recommended for the degree.

The single-major Honours program. 20.0 credits including the following 10.5 credits:

- 5.5 IESS credits consisting of IESS 1001H, 2601Y, 3631H, 3632H, 3731H, 3732H, 4730Y, and 4740Y
- 1.0 ERSC credit consisting of ERSC 1010H and 1020H
- 1.0 INDG credit consisting of INDG 1001H and 1002H
- 2.0 ERSC credits from ERSC 2080H, 2220H, 2230H, 2240H, or 2260H
- 1.0 ERSC credit at the 3000 level or beyond in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 14.0 science credits which include 1.0 MATH credit.

The joint-major Honours program. 20.0 credits including the following 7.5 credits:

- 4.5 IESS credits consisting of IESS 1001H, 2601Y, 3631H, 3632H, 3731H, 3732H, and 4740Y
- 1.0 ERSC credit consisting of ERSC 1010H and 1020H
- 1.0 INDG credit consisting of INDG 1001H and 1002H
- 1.0 ERSC credit from ERSC 2220H, 2230H, 2240H, or 2260H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 14.0 science credits which include 1.0 MATH credit.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

Specializations

Specialization in Applied Indigenous Knowledge

BSH.INFO - Information Systems - BSc Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
www.trentu.ca/cois

Information systems specialists are concerned with the flow, storage, and access to information both within and across organizational boundaries, encompassing systems that are both computational and non-computational. They require a broad systems perspective and an appreciation of both technical matters like databases, networks, and telecommunications, as well as non-technical matters such as ethics, law, and digital culture.

INFORMATION & ADDITIONAL NOTES

- The Bachelor of Science program in Information Systems is available only as a joint-major.
- Courses in Computer Science fulfilling University science credit requirements for the BSc are marked SCIE in the individual course descriptions.

Requirements

Bachelor of Science Program in Information Systems

- Students may not graduate with a joint-major degree in any two of the following three areas of study: Computer Science, Computing Systems, and Information Systems.

The joint-major Honours program. 20.0 credits including the following 7.0 credits:

- 3.5 COIS credits consisting of COIS 1010H, 1020H, 1620H, 2240H, 2620H, 3030H, and 3850H
- 0.5 COIS credit at the 4000 level
- 1.5 COIS credits at the 3000 level or beyond in addition to the above
- 1.5 COIS credits in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List. For the BSc, 14.0 science credits are required including 1.0 MATH credit.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

BSH.KINE - Kinesiology - BScKin Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
www.trentu.ca/kinesiology

Kinesiology is the scientific study of human movement with a focus on health and well-being, including prevention of injury and chronic disease. The focus of the degree program is human performance and function across the lifespan. Students gain the knowledge and skills to become a kinesiology practitioner, able to prescribe individualized exercise programs to improve or maintain the health, functional capacity, and well-being of a range of healthy and clinical populations.

Students in this program have the opportunity to engage in a clinical/community practicum or research project during the fourth year of study. This degree provides the skills and knowledge to pursue multiple career pathways, including writing the competency exam to become a Registered Kinesiologist through the College of Kinesiologists of Ontario.

INFORMATION & ADDITIONAL NOTES

- The BScKin is a direct-entry professional degree program with a limited number of student spaces. A secondary school diploma and six Ontario U/UM credits (or equivalent) are required. These credits must include English (ENG4U, with a minimum grade of 60%); one of Advanced Functions (MHF4U), Calculus and Vectors (MCV4U), or Data Management (MDM4U); and two of Biology (SBI4U), Chemistry (SCH4U), Physics (SPH4U), or Kinesiology (PSK4U). Admission is competitive and an average of higher than 75% may be required.

Requirements

Bachelor of Science in Kinesiology Program

- PSYC 2018H and 2019H fulfill the requirement for 1.0 credit in Mathematics for the BScKin.

- Students are required to obtain and submit proof of current Standard First Aid CPR-C Certification from a provider satisfactory to the Department of Kinesiology prior to entry into 4000-level KINE courses. Failure to submit proof of certification will result in the student's inability to enter or continue in certain 4000-level KINE courses (including but not limited to KINE 4005H, 4050H, and 4051H). The fee for any course taken to achieve First Aid and CPR certification will be at the student's own expense.

The single-major Honours program. 20.0 credits including the following 16.0 credits:

- 6.0 KINE credits consisting of KINE 1001H, 2001H, 2002H, 2003H, 2210H, 3001H, 3002H, 3725H, 4002H, 4005H, 4190H, and 4710H
- 1.0 KINE credit from KINE 4010Y or 4050H and 4051H
- 1.5 BIOL credits consisting of BIOL 1500H, 1501H, and 3660H
- 2.5 NURS credits consisting of NURS 1550H, 2000H, 2015H, 2550H, and 3031H
- 3.0 PSYC credits consisting of PSYC 1020H, 1030H, 2018H, 2019H, 2550H, and 3750H
- 1.5 SOCI credits consisting of SOCI 1001H, 1002H, and 2630H
- 0.5 PHYS credit from PHYS 1060H (recommended) or 1000H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

BSH.KINE.COOP - Kinesiology - Co-op

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
Co-op is an opportunity for students to gain work-integrated experiential learning which will help them get a head start on a career. The Kinesiology Co-op assists graduating students in achieving a competitive edge while generating experience within a wide range of sectors. Specifically, co-op gives the students a chance to obtain 12 months of practical experience on the job, develop or enhance technical skills, explore career options, network with a variety of individuals and organizations, learn from mentors and tutors, enhance communication and presentation skills, and develop technical writing skills.

INFORMATION & ADDITIONAL NOTES

- Co-op students are responsible for paying tuition for their academic courses, ancillary fees, and levies. All Trent students are charged ancillary fees every Fall & Winter term. Co-op students will experience the same cycle for their ancillary fee payments regardless of when they are out on work terms. Co-op students do not pay tuition during their work terms.
- Co-op students are responsible for paying the compulsory Co-op Fee a total of five times during their degree program, and the Co-op fee will be applied to their student account in Year 3 Fall, Year 3 Winter, Year 4 Fall, Year 4 Winter, and Year 5 Fall.
- Students are encouraged to meet with their Co-op Coordinator at CareerSpace each year for support with their co-op work terms, career development, and to confirm they are meeting co-op progression requirements.

Requirements

Bachelor of Science in Kinesiology — Co-op

- Co-op students must satisfy the requirements for the Bachelor of Science in Kinesiology (BScKin) and the Co-op requirements listed below.

- Kinesiology Co-op is a competitive direct-entry program with a limited number of student places. Students who are not admitted directly may apply for admission after commencing studies at Trent and be admitted provided there are available spaces in the program.
- To remain in the co-op program, students must complete the required co-op work term preparation and reflection courses (COOP 2000H and 4000H) with a minimum 70% progression requirement in COOP 2000H and 65% in COOP 4000H, and maintain a minimum 75% cumulative average throughout their study terms. In addition, co-op students must continue to receive satisfactory evaluations during their work terms. Students who do not achieve a minimum 70% in COOP 2000H will be withdrawn from the co-op program but may continue their studies in Kinesiology or transfer to a major in a different subject. Once withdrawn, students are not eligible to re-enter the co-op program. Students who do not achieve a minimum 65% in COOP 4000H but otherwise fulfill all degree requirements will be awarded an Honours degree in Kinesiology without the co-op designation.
- Students in the Bachelor of Science in Kinesiology Co-op are not eligible to take KINE 4050H (Professional Practice Theory) or KINE 4051H (Professional Practicum) for credit. Students may take KINE 4010Y (Research Thesis/Project) for credit.
- Students in the Kinesiology Co-op follow the co-op continuing model where they complete one 12-month work term (COOP 2100P, 3100P and 4100P) with a single employer. The prerequisite for the first work term (COOP 2100P) for students in this program is completion of COOP 2000H with a minimum grade of 70% and completion of at least 12.0 academic credits. The set work term schedule is listed below.

YEAR	FALL	WINTER	SUMMER
Year 1	Study Term 1	Study Term 2	-
Year 2	Study Term 3	Study Term 4	-
Year 3	Study Term 5	Study Term 6	Work Term
Year 4	Work Term	Work Term	-
Year 5	Study Term 7	Study Term 8	–

- Students on their 12-month work term must complete learning objectives, a midterm evaluation, a final evaluation, and a final work term report during each 4-month term. Co-op employers will also complete final evaluations of the student's work term. Upon receiving the completed documentation and upon a satisfactory employer assessment, a grade of Pass (P) or Fail (F) will be assigned for COOP 2100P, 3100P, and 4100P.
- CareerSpace makes every effort to find suitable work terms for students enrolled in the co-op program, but a work term opportunity cannot be guaranteed for every student. The work term process is competitive and dependent upon many factors including market conditions, the preparedness of a student including their job applications and performance in job interviews, and the academic performance of a student. Co-op students secure positions through successful participation in the co-op interview process and/or their own job search activities. Withdrawal from the co-op program will not normally be approved while a student is on a work term. Students are not permitted to take an academic course during a scheduled work term.
- Students who are unable to obtain a suitable co-op opportunity in an upcoming work term are expected to continue with their academic program on a full-time basis. If a student is unable to secure their 12-month work term in Year 3 Summer, the missed work term experience would be delayed to Year 4 Fall. If a co-op student fails to secure their work term experience in Year 4 Fall or is unable to complete their 12-month co-op work term yet otherwise fulfills degree requirements, they will be awarded an Honours Bachelor of Science in Kinesiology degree.

BSH.MAEC - Mathematical Economics - BSc Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
This program is intended for mathematically talented students who are considering graduate studies and possibly a research career in economics.

INFORMATION & ADDITIONAL NOTES

- For information on individual courses, see Calendar entries for Economics and Mathematics & Statistics.
- Students wishing to transfer to a single major in either Economics or Mathematics should consult the chair of the appropriate department before beginning third year.
- The following courses are particularly suited to the Mathematical Economics program, and students may wish to consider them as electives: MATH-PHYS 2150H, MATH 2350H, 3350H, 3510H, 3560H, 4560H, 4561H, and 4570H.

Requirements

Bachelor of Science Program in Mathematical Economics

- Students who have completed MATH 1110H or 1111H, 1350H, 1550H, and 2560H are exempt from the ECON 1250H or 2200H prerequisite for other ECON courses.

The single-major Honours program. 20.0 credits including the following 13.0 credits:

- 5.5 ECON credits consisting of ECON 1010H, 1020H, 2000H, 2010H, 3000H, 3010H, 3200H, 3250H, 4000H, 4041H, and 4050H
- 0.5 MATH credit from MATH 1110H or 1111H
- 0.5 MATH credit from MATH 1120H or 1121H
- 3.0 MATH credits consisting of MATH 1350H, 1550H, 2110H, 2560H, 2570H, and 4510H
- 0.5 MATH-ECON credit consisting of MATH-ECON 4251H
- 0.5 ECON credit from ECON 4060H or 4200H
- 1.0 ECON credit at the 3000 level or beyond in addition to the above
- 1.5 ECON credits in addition to the above, excluding ECON-ADMN 1250H (2250H) and 2200H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List and 14.0 science credits.

BSH.MAPH - Mathematical Physics - BSc Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
Physics is the most fundamental of the natural sciences, and mathematics is the language of physics. This program integrates study of the central theoretical frameworks of physics with the mathematical methods that form their foundations.

INFORMATION & ADDITIONAL NOTES

- The Honours program in Mathematical Physics is a sequence of courses that compose an integrated whole and are offered by the Departments of Mathematics & Statistics and Physics & Astronomy.
- For information on individual courses see Calendar entries for Mathematics, Physics, and Computer Science.

Requirements

Bachelor of Science Program in Mathematical Physics

The single-major Honours program. 20.0 credits including the following 14.0 credits:

- 0.5 MATH credit from MATH 1110H or 1111H (recommended)
- 0.5 MATH credit from MATH 1120H or 1121H (recommended)
- 3.0 MATH credits consisting of MATH 1350H, 1550H, 2110H, 2120H, 2350H, and 3770H
- 5.5 PHYS credits consisting of PHYS 1001H, 1002H, 2130H, 2610H, 2700H, 3200Y, 3610H, 4220H, 4610H, and 4700H
- 2.5 MATH-PHYS credits consisting of MATH-PHYS 2150H, 3130H, 3150H, 3160H, and 4140H
- 0.5 MATH-COIS credit consisting of MATH-COIS 3180H
- 0.5 COIS credit consisting of COIS 1020H
- 0.5 MATH credit from MATH 2570H, 3560H, 4120H, or 4180H
- 0.5 PHYS credit from PHYS 4050H, 4240H, 4310H, 4520H, or 4605H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

BSH.MATH - Mathematics - BSc Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
www.trentu.ca/math

The curriculum in Mathematics & Statistics has been designed to accommodate a wide variety of interests in both pure and applied mathematics. All students in the Mathematics major program must take core courses in calculus, algebra, probability, and statistics. The intent is to provide students with both breadth and depth in Mathematics while allowing them to pursue those areas that interest them.

INFORMATION & ADDITIONAL NOTES

- MATH 1001H, 1080H, 2080Y, 2081H, and 2082H do not satisfy the Mathematics requirement for a Bachelor of Science degree.
- Students wishing to register for a reading course require either an 85% minimum in any prerequisite for the course or the chair's approval.

Requirements

Bachelor of Science Program in Mathematics

The single-major Honours program. 20.0 credits including the following 11.0 credits:

- 0.5 MATH credit from MATH 1110H or 1111H (recommended)
- 0.5 MATH credit from MATH 1120H or 1121H (recommended)
- 4.0 MATH credits consisting of MATH 1350H, 1550H, 2110H, 2120H, 2200H, 2350H, 2560H, and 4800H
- 0.5 credit from MATH 2150H, 2260H, 2570H, 2600H, or COIS 1020H
- 2.0 MATH credits from two of the following paired credits: MATH 3150H and 4120H or MATH 3150H and 4230H (only one of these pairs may be counted); MATH 3310H and 4360H; MATH 3560H and 4561H; MATH 3790H and 4790H; or MATH 3630H and 4630H
- 2.5 MATH credits at the 3000 level or beyond in addition to the above
- 1.0 MATH credit at the 2000 level or beyond in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List and 14.0 science credits.

The joint-major Honours program. 20.0 credits including the following 7.5 credits:

- 0.5 MATH credit from MATH 1110H or 1111H (recommended)
- 0.5 MATH credit from MATH 1120H or 1121H (recommended)
- 4.0 MATH credits consisting of MATH 1350H, 1550H, 2110H, 2120H, 2200H, 2350H, 2560H, and 4800H
- 0.5 credit from MATH 2150H, 2260H, 2570H, 2600H, or COIS 1020H
- 1.0 MATH credit from one of the following paired credits: MATH 3150H and 4120H; MATH 3150H and 4230H; MATH 3310H and 4360H; MATH 3560H and 4561H; MATH 3790H and 4790H; or MATH 3630H and 4630H
- 1.0 MATH credit at the 3000 level or beyond in addition to the above

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List and 14.0 science credits.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

Specializations

Specialization in Mathematical Finance

Specialization in Statistics

BSH.PHYS - Physics - BSc Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
www.trentu.ca/physics

Physics is the most fundamental of the natural sciences. It includes the study of electricity and magnetism, gravitation, electronics, the motion of projectiles and rotating bodies, heat, light and sound, and the interactions between the smallest particles that make up matter: electrons, protons, neutrons, and quarks. Because of their fundamental nature, the concepts of physics underlie much of modern astronomy, chemistry, biology, medicine, and engineering. In particular, the traditional route to becoming an astronomer has been through an undergraduate degree in physics. Discoveries in physics and astronomy continue to broaden our understanding of the universe, advance space travel, speed up global electronic communications, lead to new products such as ferroelectric computer memories, assist forensic science, and improve medical diagnostic techniques.

INFORMATION & ADDITIONAL NOTES

- The Honours program satisfies the academic requirements for the Professional Physicist credential by the Canadian Association of Physicists.

Requirements

Bachelor of Science Program in Physics

- MATH 1550H is strongly recommended for students in the Honours program; MATH 1350H is a prerequisite for upper-level Mathematics courses.
- 60% or higher in MATH 1120H or 1121H is required for upper-level Physics courses.

The single-major Honours program. 20.0 credits including the following 12.5 credits:

- 7.5 PHYS credits consisting of PHYS 1001H, 1002H, 2130H, 2150H, 2610H, 2700H, 3130H, 3150H, 3200Y, 3610H, 4140H, 4220H, 4610H, and 4700H
- 1.0 PHYS credit at the 4000 level in addition to the above
- 1.5 PHYS credits in addition to the above
- 0.5 COIS credit consisting of COIS 1020H
- 0.5 MATH credit from MATH 1110H or 1111H (recommended)
- 0.5 MATH credit from MATH 1120H or 1121H (recommended)
- 1.0 MATH credit consisting of MATH 2110H and 2120H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List and 14.0 science credits.

The joint-major Honours program. 20.0 credits including the following 9.0 credits:

- 6.0 PHYS credits consisting of PHYS 1001H, 1002H, 2130H, 2150H, 2610H, 2700H, 3130H, 3150H, 3200Y, 3610H, and 4610H
- 0.5 PHYS credit at the 4000 level in addition to the above
- 0.5 COIS credit consisting of COIS 1020H
- 0.5 MATH credit from MATH 1110H or 1111H (recommended)
- 0.5 MATH credit from MATH 1120H or 1121H (recommended)
- 1.0 MATH credit consisting of MATH 2110H and 2120H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List and 14.0 science credits.

A cross-listed course can count only once toward the required numbers of credits within a joint-major degree.

BSH.PSYC - Psychology - BSc Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
www.trentu.ca/psychology

Psychology is defined as the scientific study of behaviour and the mind. As such, psychological research provides insight into questions on topics such as newborn infants' preference for their mother's voice, the link between personality and academic achievement or physical health, how sleep influences learning and memory, the identification of individuals who are at risk for Alzheimer's disease or cancer, sexual negotiation and behaviour in young adults, or even how you understand these words you are reading right now. Psychology is a scientific discipline with a multitude of practical applications: it deals with every aspect of our lives, and in its application of scientific methods to questions of human concern, it helps us to better understand how and why people act, think, and feel the way they do. The Psychology program at Trent ensures that students acquire research skills and a broad-based background in the basic content of the discipline, and that they have the opportunity at upper levels to focus on more specialized topics and to become involved in original research.

INFORMATION & ADDITIONAL NOTES

- 60% or higher in PSYC 1020H and 1030H is a prerequisite for all upper-level Psychology courses.
- A 4U Mathematics course is strongly recommended for students who plan to major in Psychology.
- All courses in Psychology fulfill University science course requirements for the BSc.
- Most courses at the 2000 and 3000 level in the department are assigned to one of two categories (Natural Science or Social Science). Students in the single-major or joint-major program in Psychology must include in their program a range of courses chosen from each category, as indicated in the requirements for the various program options.
- Any course involving work with live vertebrate animals requires the Animal Care Course. The Animal Care Course requirement is indicated in some course descriptions but may also apply to others. Check with the course instructor if in doubt.
- For non-majors taking courses where PSYC 2018H or 2019H is a prerequisite, a statistics course in another discipline may be substituted, but only if the permission of the department has been granted.
- A maximum 2.0 credits consisting of either reading courses (PSYC 3900Y, 3901H, 3902H, 4900Y, 4901H, and 4902H) and/or research practicum courses (PSYC 3801H, 3802H, 4801H, and 4802H) may be counted toward the course requirements for a major or joint-major degree in Psychology.
- Research practicum and reading courses are only open to students in the single-major or joint-major Honours programs in Psychology.
- Offerings of 4000-level courses change from year to year. A listing of the 4000 level courses can be found on the academic timetable.
- The Psychology Honours thesis is a major research project counting as 2.0 credits in PSYC or combining 1.0 credit in PSYC and 1.0 in the other discipline in a joint-major. Both options are open to joint-majors.

Requirements

Bachelor of Science Program in Psychology

- There are two options within the single- and joint-major Honours programs in Psychology, the course option and thesis option. For the requirements, see below.
- The department offers both a BA and a BSc degree. Students completing the single-major or joint-major Honours BSc program require 14.0 science credits, including at least 2.0 science credits that are not Psychology or cross-listed Psychology courses. The 1.0 MATH credit requirement must be completed for all Psychology BSc degrees. PSYC 2018H and 2019H fulfill the requirement for 1.0 credit in Mathematics for the single-major (Honours or General) BSc in Psychology.
- Students may obtain only one specialization as part of an Honours Psychology degree.

The single-major Honours program. (Course or Thesis Options available.) 20.0 credits including the following 10.0 credits:

- 2.5 PSYC credits consisting of PSYC 1020H, 1030H, 2018H, 2019H, and 3016H
- 0.5 PSYC credit from A2
- 0.5 PSYC credit from B2
- 1.0 PSYC credit from A3
- 1.0 PSYC credit from B3
- 1.0 PSYC credit at the 4000 level
- 3.5 PSYC credits in addition to the above; select from Course Option or Thesis Option:
    - For Course Option: 3.5 PSYC credits, at least 2.5 at the 3000 level or beyond, or
    - For Thesis Option: 3.5 PSYC credits including PSYC 3017H, 4020D (double-credit thesis), and 1.0 additional PSYC credit at the 3000 level or beyond

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

For the BSc, 14.0 science credits including 1.0 MATH credit are required for the Honours degree of which at least 2.0 science credits (SCIE designated courses) are in addition to Psychology courses and courses cross-listed with Psychology. PSYC 2018H and 2019H fulfill the requirement for 1.0 credit in Mathematics for the single-major BSc in Psychology.

The joint-major Honours program. (Course or Thesis Options available.) 20.0 credits including the following 8.0 or 9.0 credits:

- 2.5 PSYC credits consisting of PSYC 1020H, 1030H, 2018H, 2019H, and 3016H
- 0.5 PSYC credit from A2
- 0.5 PSYC credit from B2
- 1.0 PSYC credit from A3
- 1.0 PSYC credit from B3
- 1.0 PSYC credit at the 4000 level
- 1.5 or 2.5 PSYC credits in addition to the above; select from Course Option or Thesis Option:
    - For Course Option: 1.5 PSYC credits, at the 3000 level or beyond, or
    - For Thesis Option: 1.5 PSYC credits consisting of PSYC 3017H and 4010Y (single-credit thesis) only when combined with 1.0 credit in the other joint-major discipline; or 2.5 PSYC credits consisting of PSYC 3017H and 4020D (double-credit thesis in Psychology)

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

For the BSc, 14.0 science credits including 1.0 MATH credit are required for the Honours degree of which at least 2.0 science credits (SCIE designated courses) are in addition to Psychology courses and courses cross-listed with Psychology. PSYC 2018H and 2019H fulfill the requirement for 1.0 credit in Mathematics for the single-major BSc in Psychology.

A2: Natural Science / A3: Natural Science / B2: Social Science / B3: Social Science

A2	A3	B2	B3
PSYC 2200H PSYC 2210H PSYC 2400H PSYC 2600H — — — — — — — — — —	PSYC 3210H PSYC 3220H PSYC 3230H PSYC 3240H PSYC 3420H PSYC 3430H PSYC 3440H PSYC 3451H PSYC 3460H PSYC 3610H PSYC 3790H — — — —	PSYC 2300H PSYC 2310H PSYC 2550H PSYC 2700H — — — — — — — — — —	PSYC 3300H PSYC 3330H PSYC 3500H PSYC 3510H PSYC 3550H PSYC 3560H PSYC 3590H PSYC 3710H PSYC 3725H PSYC 3730H PSYC 3740H PSYC 3750H PSYC 3760H PSYC 3770H PSYC 3780H

Note: Students may choose to complete only one of the four Psychology specializations.

Specializations

Specialization in Behavioural and Cognitive Neuroscience

Specialization in Health & Well-Being

Specialization in Psychological Development

Specialization in Psychological Research Methods and Data Analysis

BSH.PSYC.COOP - Psychology - Co-op (BSc)

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
www.trentu.ca/coop

Co-op is an opportunity for students to gain work-integrated experiential learning that will help them get a head start on a career. The Psychology Co-op assists graduating students in achieving a competitive edge while generating experience within a wide range of sectors. Specifically, co-op gives the students a chance to obtain 12 months of practical experience on the job, develop or enhance technical skills, explore career options, network with a variety of individuals and organizations, learn from mentors and tutors, enhance communication and presentation skills, and develop technical writing skills.

INFORMATION & ADDITIONAL NOTES

- The Psychology Co-op is available at Trent's Peterborough campus only.
- Co-op students are responsible for paying tuition for their academic courses, ancillary fees, and levies. All Trent students are charged ancillary fees every Fall & Winter term. Co-op students will experience the same cycle for their ancillary fee payments regardless of when they are out on work terms. Co-op students do not pay tuition during their work terms.
- Co-op students are responsible for paying the compulsory Co-op Fee a total of five times during their degree program, and the Co-op fee will be applied to their student account in Year 3 Fall, Year 3 Winter, Year 4 Fall, Year 4 Winter, and Year 5 Fall.
- Students are encouraged to meet with their Co-op Coordinator at CareerSpace each year for support with their co-op work terms, career development, and to confirm they are meeting co-op progression requirements.

Requirements

Bachelor of Science Program in Psychology — Co-op

- Co-op students must satisfy the requirements for the single-major BSc Honours in Psychology and the Co-op requirements listed below.
- Psychology Co-op is a competitive direct-entry program with a limited number of student places. Students who are not admitted directly may apply for admission after commencing studies at Trent and may be admitted on a competitive basis provided there are available spaces in the program.
- To remain in the co-op program, students must complete the required work term preparation and reflection courses (COOP 2000H and 4000H) with a minimum 70% progression requirement in COOP 2000H and 65% in COOP 4000H, and maintain a minimum 75% cumulative average throughout their study terms. In addition, students must continue to receive satisfactory evaluations during each of their three work terms. Students who do not achieve a minimum 70% in COOP 2000H will be withdrawn from the Co-op program but may continue their studies in Psychology or transfer to a major in a different subject. Once withdrawn, students are not eligible to re-enter the Co-op program. Students who do not achieve a minimum 65% in COOP 4000H but otherwise fulfill all degree requirements will be awarded an Honours degree in Psychology without the Co-op designation.
- Students in the Psychology Co-op follow the co-op continuing model where they complete one 12-month work term (COOP 2100P, 3100P and 4100P) with a single employer. The prerequisite for the first work term (COOP 2100P) for students in this program is completion of COOP 2000H with a minimum grade of 70% and completion of at least 12.0 academic credits. The set work term schedule is listed below. Students who choose to explore any additions (minor, specialization, or option) to a single-major Honours may require additional time to complete their degrees, as all courses are not offered in every term. It is expected that students follow the set work term schedule. Students are encouraged to work with an academic advisor for support with degree mapping.

YEAR	FALL	WINTER	SUMMER
Year 1	Study Term 1	Study Term 2	–
Year 2	Study Term 3	Study Term 4	–
Year 3	Study Term 5	Study Term 6	Work Term
Year 4	Work Term	Work Term	–
Year 5	Study Term 7	Study Term 8	–

- Students on a work term must complete learning objectives, a midterm evaluation, a final evaluation, and a final work term report. Co-op employers will also complete a midterm evaluation and final evaluation of the student's work term. Upon receiving the completed documentation and upon a satisfactory employer assessment, a Pass (P) or Fail (F) will be assigned for COOP 2100P, 3100P, and 4100P. CareerSpace makes every effort to find suitable work terms for students enrolled in the co-op program, but a work term opportunity cannot be guaranteed for every student. The work term process is competitive and dependent upon many factors including market conditions, the preparedness of a student including their job applications and performance in job interviews, and the academic performance of a student. Co-op students secure positions through successful participation in the co-op interview process and/or their own job search activities. Withdrawal from the co-op program will not normally be approved while a student is on a work term. Students are not permitted to take an academic course during a scheduled work term.
- Students who are unable to obtain a suitable co-op opportunity in an upcoming work term are expected to continue with their academic program on a full-time basis. If a student is unable to secure their 12-month work term in Year 3 Summer, the missed work term experience would be delayed to Year 4 Fall. If a co-op student fails to secure their work term experience in Year 4 Fall or is unable to complete their 12-month co-op work term yet otherwise fulfills degree requirements, they will be awarded an Honours Bachelor of Arts or Bachelor of Science in Psychology.

BSH.SAFS - Sustainable Agriculture & Food Systems - BSc Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
www.trentu.ca/agriculture

The Sustainable Agriculture & Food Systems program is offered by the Trent School of the Environment. The program examines the environmental, social, and ethical consequences of conventional agriculture; investment in industrial crops to supply fuel and materials; ongoing risks to food security and human health; demand for local food production in the context of global food trade; cultural and social critiques of our food system, including advocacy of animal rights; urban agriculture, regenerative practices, and First Nations agricultural practices. Graduates of the program will be equipped to contribute to discussions regarding sustainability of our food systems, will gain the knowledge to create positive change to our agri-food system, and will have the skills to pursue diverse employment opportunities in agriculture and food.

INFORMATION & ADDITIONAL NOTES

- Both the BA and BSc programs are designed to provide an opportunity for interdisciplinary study of agriculture and food. Accordingly, students pursuing either degree will take courses from several departments, as described in the program requirements below.
- Courses in Sustainable Agriculture & Food Systems fulfilling University science course requirements for the BSc are marked Science in the individual course descriptions.
- There may be a small additional fee for field trips in certain courses.
- The Accelerated Master's program in Environmental & Life Sciences allows students to obtain a research-based MSc within a shorter timeframe. See https://www.trentu.ca/els/experience/msc-program/accelerated-masters-program for details.

Requirements

Bachelor of Science Program in Sustainable Agriculture & Food Systems

The single-major Honours program. 20.0 credits including the following 12.5 credits:

- 2.0 SAFS credits consisting of SAFS 1001H, 1020H, 2350H, and 2500H
- 0.5 SAFS credit from SAFS 3002H or 3530H
- 0.5 SAFS credit from SAFS 3560H or 3650H
- 0.5 credit from the TSE Capstone Course List*
- 2.0 SAFS credits at the 3000 level or beyond in addition to the above
- 1.5 SAFS credits in addition to the above
- 1.0 BIOL credit consisting of BIOL 1020H and 2260H
- 1.5 ERSC credits consisting of ERSC 1010H, 2220H, and 2240H
- 1.5 GEOG credits consisting of GEOG 1030H, 1040H, and 2530H
- 1.0 ERSC credit from ERSC 4520H, 4530H, or 4640H
- 0.5 GEOG credit from GEOG 2080H or 2090H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List and 14.0 science credits including 1.0 MATH credit (MATH 1051H and 1052H are recommended).

The joint-major Honours program. 20.0 credits including the following 7.5 credits:

- 1.5 SAFS credits consisting of SAFS 1001H, 1020H, and 2350H
- 0.5 SAFS credit from SAFS 3002H or 3530H
- 0.5 credit from the TSE Capstone Course List*
- 2.0 SAFS credits at the 3000 level or beyond in addition to the above
- 0.5 SAFS credit in addition to the above
- 1.0 BIOL credit consisting of BIOL 1020H and 2260H
- 1.5 ERSC credits consisting of ERSC 1010H, 2220H, and 2240H

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List and 14.0 science credits including 1.0 MATH credit (MATH 1051H and 1052H are recommended).

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree, with the following exceptions:

- For students pursuing a joint-major Honours degree in Sustainable Agriculture & Food Systems and Environmental & Resource Science/Studies, only ERSC 1010H and SAFS-ERSC 1020H may be used to simultaneously satisfy the requirements of both programs.
- For students pursuing a joint-major Honours degree in Sustainable Agriculture & Food Systems and Global Development Studies, only GDST 1001H and 1002H may be used to simultaneously satisfy the requirements of both programs.

BSH.SAFS.COOP - Sustainable Agriculture & Food Systems - Co-op (BSc)

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
Sustainable Agriculture & Food Systems Co-op will be available as of the 2027-2028 Academic Year.

www.trentu.ca/coop

Co-op is an opportunity for students to gain work-integrated experiential learning that will help them get a head start on a career. The Sustainable Agriculture & Food Systems Co-op assists graduating students in achieving a competitive edge while generating experience within a wide range of sectors. Specifically, co-op gives the students a chance to obtain 12 months of practical experience on the job, develop or enhance technical skills, explore career options, network with a variety of individuals and organizations, learn from mentors and tutors, enhance communication and presentation skills, and develop technical writing skills.

INFORMATION AND ADDITIONAL NOTES

- The Sustainable Agriculture & Food Systems Co-op is available at Trent's Peterborough campus only.
- Co-op students are responsible for paying tuition for their academic courses, ancillary fees, and levies. All Trent students are charged ancillary fees every Fall & Winter term. Co-op students will experience the same cycle for their ancillary fee payments regardless of when they are out on work terms. Co-op students do not pay tuition during their work terms.
- Co-op students are responsible for paying the compulsory Co-op Fee a total of five times during their degree program, and the Co-op fee will be applied to their student account in Year 3 Fall, Year 3 Winter, Year 4 Fall, Year 4 Winter, and Year 5 Fall.

- Students are encouraged to meet with their Co-op Coordinator at CareerSpace each year for support with their co-op work terms, career development, and [illegible]

Requirements

Bachelor of Science Program in Sustainable Agriculture & Food Systems — Co-op

- Sustainable Agriculture & Food Systems Co-op will be available as of the 2027-2028 Academic Year.
- Co-op students must satisfy the requirements for the single-major BSc Honours in Sustainable Agriculture and Food Systems and the Co-op requirements listed below.
- Sustainable Agriculture & Food Systems Co-op is a competitive direct-entry program with a limited number of student places. Students who are not admitted directly may apply for admission after commencing studies at Trent and may be admitted on a competitive basis provided there are available spaces in the program.
- To remain in the co-op program, students must complete the required work term preparation course (COOP 2000H) with a minimum 70% progression requirement, and maintain a 75% cumulative average throughout their study terms. In addition, students must continue to receive satisfactory evaluations during each of their three work terms. Students who do not achieve a minimum 70% in COOP 2000H will be withdrawn from the co-op program but may continue their studies in Sustainable Agriculture & Food Systems or transfer to a major in a different subject. Once withdrawn, students are not eligible to re-enter the co-op program.
- Students in the Sustainable Agriculture & Food Systems Co-op follow the co-op continuing model where they complete one 12-month work term (COOP 2100P, 3100P and 4100P) with a single employer. The prerequisite for the first work term (COOP 2100P) for students in this program is completion of COOP 2000H with a minimum grade of 70% and completion of at least 10.0 academic credits. The schedule for the single-major Honours program is listed below. Students who choose to explore any additions (minor, specialization, or option) to a single-major Honours may require additional time to complete their degrees, as all courses are not offered in every term. It is expected that students follow the set work term schedule. Students are encouraged to work with an academic advisor for support with degree mapping.

YEAR	FALL	WINTER	SUMMER
Year 1	Study Term 1	Study Term 2	–
Year 2	Study Term 3	Study Term 4	COOP 2000H
Year 3	Study Term 5	Study Term 6	Work Term
Year 4	Work Term	Work Term	–
Year 5	Study Term 7	Study Term 8	–

- Students on a work term must complete learning objectives, a midterm evaluation, a final evaluation, and a final work term report. Co-op employers will also complete a midterm evaluation and final evaluation of the student's work term. Upon receiving the completed documentation and upon a satisfactory employer assessment, a Pass (P) or Fail (F) will be assigned for COOP 2100P, 3100P, and 4100P.
- CareerSpace and the Trent School of the Environment make every effort to find suitable work terms for students enrolled in the co-op program, but a work term opportunity cannot be guaranteed for every student. The work term process is competitive and dependent upon many factors including market conditions, the preparedness of a student including their job applications and performance in job interviews, and the academic performance of a student. Co-op students secure positions through successful participation in the co-op interview process and/or their own job search activities. Withdrawal from the co-op program will not normally be approved while a student is on a work term. Students are not permitted to take an academic course during a scheduled work term.
- Students who are unable to obtain a suitable co-op opportunity in an upcoming work term are expected to continue with their academic program on a full-time basis. A single missed work term can be made up, but in the event that a co-op student cannot secure their work term for a second time, they will be withdrawn from the co-op program. If a student is unable to complete three work terms yet otherwise fulfills all degree requirements, the student will be awarded an Honours Bachelor of Science in Sustainable Agriculture & Food Systems.

BSH.SOEN.COOP - Software Engineering - BSc Honours Co-op

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
www.trentu.ca/coop

Software engineering is the branch of computer science that deals with the design, development, testing, and maintenance of software applications. Software engineers apply engineering principles and knowledge of programming languages to build software solutions for end users. The software engineer works as part of a team to design, implement, test, maintain, and document software solutions. Because these solutions are typically large and complex, the software engineer must deal on several levels of abstraction and draw on sound methodologies and practices to produce software that is correct, robust, maintainable, and extensible. The software engineer therefore bridges the gap between the requirements of a client and the software solution to meet those requirements. A graduate of the Software Engineering Co-op program will not only have technical skills, but also interpersonal skills to work within the dynamics of a group.

Co-op is an opportunity for students to gain experiential learning which will help them get a head start on a career. The Software Engineering Co-op assists graduating students in achieving a competitive edge while generating experience within the industry. Specifically, co-op gives the students a chance to obtain 12 months of practical experience on the job, develop or enhance technical skills, explore career options, network with a variety of individuals and companies, learn from mentors and tutors, enhance communication and presentation skills, and develop technical writing skills. Co-op combines academic instruction and practical experience, allowing students to develop work skills and gain experience while obtaining a formal education.

INFORMATION & ADDITIONAL NOTES

- Software Engineering Co-op is a competitive direct-entry program with a limited number of student places. Students who are not admitted directly may apply for admission after commencing studies at Trent and may be admitted on a competitive basis provided there are available spaces in the program.
- For information on individual courses see Calendar entries under the appropriate discipline.
- Students in the Software Engineering Co-op follow the co-op continuing model where they complete one 12-month work term (COOP 2100P, 3100P and 4100P) with a single employer. The prerequisite for the first work term (COOP 2100P) for students in this program is completion of at least 12.0 university credits. The set work term schedule is listed below. Students are admitted on a full-time basis and complete the program over a five-year period.

YEAR	FALL	WINTER	SUMMER
Year 1	Study Term 1	Study Term 2	-
Year 2	Study Term 3	Study Term 4	-
Year 3	Study Term 5	Study Term 6	Work Term
Year 4	Work Term	Work Term	-
Year 5	Study Term 7	Study Term 8	-

- CareerSpace makes every effort to find suitable work terms for students enrolled in the co-op program, but a work term opportunity cannot be guaranteed for every student. The work term process is competitive and dependent upon many factors including market conditions, the preparedness of a student including their job applications and performance in job interviews, and the academic performance of a student. Co-op students secure positions through successful participation in the co-op interview process and/or their own job search activities. Withdrawal from the co-op program will not normally be approved while a student is on a work term. Students are not permitted to take an academic course during a scheduled work term.
- Students who are unable to obtain a suitable co-op opportunity in an upcoming work term are expected to continue with their academic program on a full-time basis. If a student is unable to secure their 12-month work term in Year 3 Summer, the missed work term experience would be delayed to Year 4 Fall. If a co-op student fails to secure their work term experience in Year 4 Fall or is unable to complete their 12-month continuous co-op work term yet otherwise fulfills degree requirements, they may apply for

approval to continue in the Software Engineering program and graduate with an Honours Bachelor of Science in Software Engineering degree.

- Co-op students are responsible for paying tuition for their academic courses, ancillary fees, and levies. All Trent students are charged ancillary fees every Fall and Winter term. Co-op students will experience the same cycle for their ancillary fee payments regardless of when they are out on work terms. Co-op students do not pay tuition during their work terms. Co-op students are responsible for paying the compulsory Co-op Fee a total of five times during their degree program, and the Co-op fee will be applied to their student account in Year 3 Fall, Year 3 Winter, Year 4 Fall, Year 4 Winter, and Year 5 Fall.
- Students are encouraged to meet with their Co-op Coordinator at CareerSpace each year for support with their co-op work terms, career development, and to confirm they are meeting co-op progression requirements.
- Though the BSc in Software Engineering does not lead to certification as a professional engineer, students will graduate with many marketable skills for careers in areas like software development, web design, and database administration. Students will also be prepared to pursue graduate studies in Software Engineering.

Requirements

Bachelor of Science Program in Software Engineering – Co-op

- This program is offered as a co-op program only and therefore students are required to achieve the co-op requirements. Graduating students must fulfill the requirements for the Honours degree in Software Engineering and successfully complete the single 12-month work term experience (COOP 2100P, 3100P, and 4100P) prior to the final academic term.
- To remain in the program, students must successfully complete the required work term preparation course COOP 2000H with a minimum 70% progression requirement and achieve a minimum 75% average in completed COIS courses and a minimum 70% cumulative average throughout their study terms. In addition, students must continue to receive satisfactory evaluations during their work terms. Students who do not maintain these requirements will be required to meet with the co-op program coordinator and will be considered for continuation on a case-by-case basis. Students who do not achieve a minimum 70% in COOP 2000H will be withdrawn from the co-op program but may continue their studies in Software Engineering or transfer to a major in a different subject. Once withdrawn, students are not eligible to re-enter the co-op program.
- Students on their 12-month work term must complete learning objectives, a midterm evaluation, a final evaluation, and a final work term report during each 4-month term. Co-op employers will also complete evaluations of the student's work term. Upon receiving the completed documentation and upon a satisfactory employer assessment, a grade of Pass (P) or Fail (F) will be assigned for COOP 2100P, 3100P, and 4100P.
- Students who are unable to complete the required 12-month co-op work term may apply for approval to continue in the Software Engineering program. Approval will be required, and students must meet all requirements of the program, and in addition must complete COIS 4000Y to be eligible to graduate with an Honours BSc in Software Engineering.

The single-major Honours program. 20.0 credits including the following 16.0 credits:

- 8.5 COIS credits consisting of COIS 1010H, 1020H, 1400H, 2020H, 2040H, 2240H, 2300H, 2430H, 2520H, 3030H, 3040H, 3050H, 3060H, 3065H, 3400H, 4060H, and 4065H
- 0.5 COIS credit from COIS 3320H or 3380H
- 0.5 COIS credit from COIS 4050H or 4100H
- 0.5 COIS credit from COIS 4310H, 4350H, or 4370H
- 0.5 COOP credit consisting of COOP 2000H
- 2.0 MATH credits consisting of MATH 1110H, 1350H, 1550H, and 2600H
- 0.5 MATH credit from MATH 1051H or 2560H
- 1.0 ADMN credit
- 1.0 arts credit from AGRS, ANTH, CAST, CRIM, CUST, ECON, ENGL, FREN, GDST, GESO, HIST, HURI, IESS, INDG, PHIL, POST, SOCI, or SWRK
- 1.0 science credit from BIOL, CHEM, ERSC, FRSC, GEOG, or PHYS

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

BSH.SPEC - Individualized Studies - BSc Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
Normally students choose a program of study determined by the academic regulations leading to a major or joint-major in Arts or Science. In exceptional circumstances, students of superior academic ability and intellectual independence may design an individualized program of study, selecting courses from various disciplines to explore a theme of their own choosing. Before designing such a program, students are encouraged to speak with an Academic Advisor about their personal academic goals (see Academic Advising).

The following guidelines apply:

This program is intended for students who have given evidence of superior academic ability and intellectual independence, and is normally available only as an Honours degree.

The Individualized Studies program consists of 20.0 credits of which at least 2.0 must be at the 4000 level. A minimum cumulative average of 75% should normally be maintained.

Students must apply for the program through an Academic Advisor. The application must include a rationale for the choice of courses, including reasons why the proposed program of study cannot be accommodated within an existing major or joint-major program, and must identify the remaining courses required.

Students must discuss the intended program with an Academic Advisor before the end of the first year of studies. Students who have completed 5.0 credits may be considered retroactively for an Individualized Studies program.

The Academic Advisor will: ensure that the program meets the University's degree requirements, ensure that the student has obtained approval from the academic departments or programs concerned, and confirm that the required courses for program completion will be available on the proposed schedule.

The Academic Advisor and the student must present the program to the Committee on Undergraduate Petitions (CUP) for approval. Once approved, any changes must be discussed with the Academic Advisor and reported to CUP.

An individualized study program in Global Studies is available as an Honours degree through Trent International. The program combines Study Abroad with internationally oriented studies in three or more disciplines. Students are normally required to study a language other than English, at least to the intermediate level, and to spend one year of undergraduate study in another country. Students must apply for entry into this program through Trent International (not an Academic Advisor) by April 1 in the first year of studies. A list of proposed courses and a rationale for these choices should be submitted with the application. For application information and further details please contact Trent International.

BSH.WASC - Water Sciences - BSc Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science (Honours)

Description
www.trentu.ca/watersciences

Freshwater systems provide many essential ecosystem services, such as clean water, food, energy, recreation, climate regulation, and waste assimilation. As human populations and economies grow, demand for these ecosystem services will continue to increase. The Water Sciences program provides students with the knowledge and skills they need to respond to contemporary water challenges, in Canada and internationally. A cooperative undertaking of the School of the Environment and the Departments of Biology and Chemistry, the program draws from courses which together provide students with the technical and theoretical foundation for study of the science of water and the aquatic environment.

INFORMATION & ADDITIONAL NOTES

- For information on individual courses see Calendar entries for Biology, Chemistry, Environmental & Resource Science/Studies, and Geography.
- There may be a small additional fee for field trips in certain courses.
- The Accelerated Master's program in Environmental & Life Sciences allows students to obtain a research-based MSc within a shorter timeframe. See www.trentu.ca/els/experience/msc-program/accelerated-masters-program for details.

Requirements

Bachelor of Science Program in Water Sciences

The single-major Honours program. 20.0 credits including the following 15.5 credits:

- 2.0 WASC credits consisting of WASC 2120H, 2530H, 3530H, and 4060H

- 2.5 BIOL credits consisting of BIOL 1020H, 1030H, 2260H, 3050H, and 4330H
- 1.5 CHEM credits consisting of CHEM 1000H, 1010H, and 2620H
- 2.5 ERSC credits consisting of ERSC 1010H, 1020H, 2240H, 3510H, and 3701H
- 2.0 GEOG credits consisting of GEOG 1040H, 2080H, 2090H, and 2460H
- 1.0 MATH credit consisting of MATH 1051H and 1052H
- 1.0 credit from BIOL 2000H, BIOL 2070H, CHEM 2410H, CHEM 2420H, CHEM 2500H, ERSC 2230H, or GEOG 2540H
- 2.0 credits from:
    - WASC-GEOG 3420H
    - WASC-GEOG 3540H
    - WASC-ERSC-BIOL-GEOG 4070H
    - WASC-GEOG 4080H
    - BIOL 3051H
    - BIOL 3140H
    - BIOL 3190H
    - BIOL 3250H
    - BIOL 3340H
    - BIOL-ERSC 3380H
    - CHEM-ERSC 3610H
    - ERST 3000H
    - ERSC 3702H
    - ERSC-BIOL 4240H
    - ERSC 4520H
    - ERSC 4530H
    - GEOG-CLIM-ERSC 3470H
    - GEOG-EGEO-ERSC-SAFS 3560H
    - GEOG 3860H
- At least 1.0 credit from:
    - WASC-ERSC-GEOG 4703H
    - BIOL 3850H, 3851H, 3852H, 3853H
    - BIOL 4010Y/4020D
    - BIOL-ERSC 4030H
    - CHEM 4010Y/4020D
    - CHEM 4011H
    - CHEM 4012H
    - ERSC 3160H
    - ERSC-GDST 3230H
    - ERSC 3905Y, 3906H
    - ERSC 4010Y/4020D
    - ERSC-GEOG 4640H
    - ERSC 4830Y, 4840H
    - ERSC 4905Y, 4906H
    - GEOG 4010Y/4020D
    - GEOG 4830Y

In addition to the program requirements listed above, students must satisfy the University degree requirements, including 0.5 credit from the Approved Indigenous Course List.

BSN.COMP - Nursing - BScN - Compressed

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science Nursing

Description
www.trentu.ca/nursing

The Bachelor of Science in Nursing program at Trent University is a direct-entry professional degree program with a limited number of student places. The program leads to a Bachelor of Science in Nursing degree (BScN). The program includes three streams of study—a collaborative program, a compressed (second entry) program, and a post-bridge PN to BScN pathway.

The compressed program is open to students with sufficient university credits. Opportunities for practical application of theoretical principles are offered throughout the program. Using a holistic approach to care, students learn to assess client needs and to plan, provide, and evaluate care; students also learn to advocate for quality health care. Various teaching methods are used in the programs including lectures, labs, seminars, case studies, simulations, and online learning.

At each level of the program there is a specific focus for theory and practice. Clinical placements are selected so that students are exposed to a variety of practice environments as they learn the complexities of caring for individuals, families, groups, and communities. Subject to availability and agency requirements, students may have the opportunity to seek specialized placements and/or to develop a specific practice focus in Indigenous communities, mental health, rural health, aging, or women's health and gender.

Trent does not offer a post-RN to BScN program. Individuals holding current registration as an RN (or equivalent) with the College of Nurses of Ontario, any other Canadian nursing regulatory body, or internationally, are not eligible for admission to the compressed or collaborative BScN programs at the School of Nursing. Individuals are not eligible for admission to the compressed or collaborative programs if they already hold a BScN (or equivalent) degree. In addition, the program is not structured to support the admission of individuals who have completed physician education in Canada or internationally. RPNs seeking entry to the program must be registrants in good standing and without practice restrictions with the College of Nurses of Ontario.

Admission Requirements

- A secondary school diploma, including six Ontario 4U or 4M credits (or equivalent), is required for admission. These credits must include English (ENG4U) and one 4U credit in Biology, Chemistry, and Mathematics, each with a minimum grade of 70%. To be considered for acceptance into the program, candidates must possess a minimum average of 75% calculated using the required courses noted above and the two highest additional 4U/M course grades.
- For the compressed program, qualified candidates will have previously completed: some or all of a post-secondary degree with a minimum average of 70%; PSYC 1020H and 1030H or an approved equivalent with a minimum grade of 60%; and at least 2.0 credits at the 1000 level and 1.0 credit at the 2000 level. Students admitted without PSYC 1020H and 1030H or the approved equivalents will be required to complete those courses once enrolled into the program.
- Students enrolled in the Diploma in Indigenous Learning for future Nursing students will be admitted to the Compressed or Collaborative BScN program if their cumulative average is 70% and they have obtained a minimum 60% in each of the courses in the diploma program.
- Candidates for the Trent post-bridge pathway will have met the criteria for admission to the George Brown bridging program and will have graduated from the bridging program with a minimum cumulative average of 75% and not less than 70% in any element of the bridging pathway for which advanced standing credit will be assigned by Trent.
- Candidates who are requesting to transfer from another nursing program must complete the Nursing Transfer Protocol of the Office of Admissions. Potential transfer students must provide written consent for Trent University to seek information about the students' academic and clinical performance in their previous program(s).
- In addition, all successful applicants are required to obtain and submit non-academic requirements (NARs) by the deadlines prior to entry into clinical practice. NARs must be renewed on an ongoing basis throughout the duration in the program. For deadlines and renewal cycles, students should reference the TFSON website section on non-academic requirements.
- NARs include but are not limited to:
    - medical documentation, including completion of the Immunization and Communicable Disease form;
    - current CPR-C, HCP, or BLS Certification (within the past 12 months) from a provider satisfactory to the School of Nursing;
    - initial two-step TB skin testing or clearance, with annual one-step;
    - mask fit testing current within 2 years;
    - criminal record check with vulnerable sector screening, to be renewed annually;
    - proof of having received the seasonal influenza vaccine annually.
- NARs are subject to change as required by placement agencies. Failure to complete or renew NARs within the designated timeframes will result in the student's inability to enter or continue in clinical practice.
- A student with a criminal record that is unacceptable to a clinical placement agency may not be able to complete the program. Students who cannot be vaccinated for medical reasons must submit medical documentation.
- Students who have been withdrawn from the Trent/Fleming School of Nursing for failing two or more NURS theory courses may be considered for readmission to the program if, after withdrawing, they take five one-semester courses transferable to the University within the 12 months prior to applying for readmission. Students must have a cumulative average of at least 75% in all courses taken in these semesters. At least three of these courses must be in sciences. These may be used as electives as per the BScN degree requirements.
- Students who have been required to withdraw and are applying for readmission may be required, as part of the admission process, to demonstrate nursing knowledge and skills learned to date, including medication calculations, in order to determine an appropriate placement in the program.
- Students who have been required to withdraw and who, after being readmitted, fail another NURS course or have a cumulative average lower than 65% will be required to withdraw and not be readmitted to the Trent/Fleming School of Nursing.

Requirements

Bachelor of Science in Nursing Program

- In addition to the program requirements listed below, students must satisfy the University degree requirements.
- There are no options for a General degree, minor, or joint-major program in Nursing.
- All degree requirements must be met within seven years of commencing the program. For students in the PN to BScN program, all degree requirements must be met within seven years of commencing the bridge (George Brown) portion of the program.
- A minimum cumulative average of 65% is required at graduation for the BScN degree.
- A maximum of 3.0 credits with D grades (50-59%), in courses that are not designated required courses, can be counted toward the BScN degree. Students must achieve a minimum of 60% in all Nursing or designated required courses, including the course selected for the third year "forced choice" requirement.
- Students must maintain a cumulative average of at least 65% in the BScN program. If at the end of any term a student's cumulative average falls below 65%, they will be required to meet with the School of Nursing's academic advisor. Students who fail to raise their cumulative average to at least 65% in the subsequent term will be required to meet with both the School of Nursing's academic advisor and the program coordinator and, in collaboration with them, develop and follow a plan to improve their grades. Students who at the end of a third term have failed to raise their cumulative average to at least 65% will be withdrawn from the BScN program but not from the University.
- Students who fail 2.0 credits of courses will be withdrawn from the BScN program but not from the University. Failure in a NURS course is considered to be a grade of less than 60% or a Fail; failure in any other course is considered to be a grade less than 50% or a Fail.
- Students will be allowed to repeat one Nursing theory course for which they have received a grade lower than 60%. Failure to raise this grade to 60% or higher will result in withdrawal from the BScN program but not from the University. Students who receive a second grade lower than 60% in a Nursing theory course will not be allowed to repeat that course and will be withdrawn from the BScN program but not from the University.
- Students will be allowed to repeat one failed Nursing practice course over the duration of the program. A second failing grade in a Nursing practice course (either a repeated or different practice course) will result in withdrawal from the BScN program but not from the University.
- In the event of a failed Nursing practice course, students, in conjunction with faculty, will develop a practice recovery plan regarding all course objectives which were not successfully met, and this recovery plan will be followed when the student repeats the Nursing practice course.
- Nursing practice experiences are graded on a pass/fail basis. For courses that have both clinical and lab components, students must pass both components in order to pass the entire course.
- Attendance at learning activities in the TFSON Clinical Simulation Hub, orientation to clinical practice, and clinical practice is mandatory. Failure to attend learning activities with the simulation hub or clinical practice may result in a failing grade. Failure to attend orientation will result in the student being removed from the clinical practice course, and any related classroom co-requisites, for that term. A student may be required to attend orientation for clinical practice in the week before the actual start date of the term.
- Unsafe or unprofessional nursing practice may be considered to be professional misconduct. Please see the School of Nursing Student Handbook for details related to the Policy on Professional Conduct.
- Students who have been given an unsatisfactory evaluation and have been removed from the clinical practice setting for either unsafe or unprofessional behaviour may be required to do additional learning and may be placed only one subsequent time in that clinical course.
- Students transferring into the program from another university or community college will have their transcripts assessed by the Admissions Office for course credit transfer. Students transferring into the

program from another Trent or Fleming department or program should consult with the School of Nursing to confirm their course of study.

Compressed Program

The compressed program leading to an Honours degree in Nursing (BScN) consists of 20.0 credits with at least 12.0 credits in Nursing. 1.0 credit consisting of PSYC 1020H and 1030H or approved equivalent is required (minimum grades of 60%). Students will normally have completed a minimum of 2.0 additional 1000-level elective credits and 1.0 2000-level elective credit. At least 0.5 of the elective credits must be from the Approved Indigenous Course List. Students admitted without PSYC 1020H and 1030H or the approved equivalents will be required to complete those courses once enrolled into the program. The program must include:

Year 1 (including Summer session)

- 5.0 NURS credits consisting of NURS 1002H, 1010H, 1020H**, 1100H, 1550H, 2001H, 2003H, 2021H**, 2031H, and 2550H
- 1.0 BIOL credit consisting of BIOL 1500H and 1501H
- 0.5 credit elective at the 3000 level or beyond

Year 2 (including Summer session)

- 5.5 NURS credits consisting of NURS 2000H, 3000H, 3001H, 3004H, 3020H**, 3021H**, 3031H, 3550H, and 4020C**
- 0.5 NURS credit from NURS 2020H** or 2022H**
- 0.5 credit from the Forced Choice Elective Group: NURS 3560H, PHIL 2390H, PSYC 3560H, PSYC 3750H, or SOCI-GESO 2430H
- 0.5 NURS credit from the Advanced Topics Group*: NURS 4005H (with permission), 4009H (with permission), 4011H/4012H, 4100H, 4102H, 4103H, 4104H, 4105H, 4106H, 4108H, 4109H, 4201H, 4203H, 4204H, 4205H, 4207H, 4208H, or 4740Y
- 0.5 credit elective at the 3000 level or beyond

Year 3 (Fall term)

- 1.5 NURS credits consisting of NURS 4021C**
- 0.5 NURS credit from the Advanced Topics Group*: NURS 4005H (with permission), 4009H (with permission), 4011H/4012H, 4100H, 4102H, 4103H, 4104H, 4105H, 4106H, 4108H, 4109H, 4201H, 4203H, 4204H, 4205H, 4207H, 4208H, or 4740Y

*Note: Advanced Topics

In all BScN programs, students are required to take at least 1.0 NURS credit from Advanced Topics. A maximum of 1.5 credits from NURS Advanced Topics may be counted toward the BScN degree. Students must successfully complete both NURS 4011H and 4012H to obtain credit for these courses.

**Note: Clinical Courses

Students must have submitted documentation satisfactory to the School of Nursing for all non-academic requirements by the TFSON's designated deadlines. For deadlines and renewal cycles, students should reference the TFSON website section on non-academic requirements.

Students also must be registered in the clinical course for the following terms by the dates indicated below:

- Spring/Summer terms (SN1, S12, SN2): March 15
- Fall term (FA): July 15
- Winter term (WI): November 15

Students not in compliance with this expectation will be ineligible for clinical practice, and related co-requisite NURS courses, in that term.

"C" suffix identifies a course which is equal to 1.5 credits.

BSN.NUGB - Nursing - BScN - Compressed at George Brown

Overview

Academic Level
Undergraduate

Credential
Bachelor of Science Nursing

Description
The Bachelor of Science in Nursing program at Trent University is a direct-entry professional degree program with a limited number of student places. The program leads to a Bachelor of Science in Nursing degree (BScN). The program includes three streams of study—a collaborative program, a compressed (second entry) program, and a post-bridge PN to BScN pathway.

The post-bridge PN to BScN pathway is open to students who have successfully completed the two bridging semesters at George Brown College. Opportunities for practical application of theoretical principles are offered throughout the program. Using a holistic approach to care, students learn to assess client needs and to plan, provide, and evaluate care; students also learn to advocate for quality health care. Various teaching methods are used in the programs including lectures, labs, seminars, case studies, simulations, and online learning.

At each level of the program there is a specific focus for theory and practice. Clinical placements are selected so that students are exposed to a variety of practice environments as they learn the complexities of caring for individuals, families, groups, and communities. Subject to availability and agency requirements, students may have the opportunity to seek specialized placements and/or to develop a specific practice focus in Indigenous communities, mental health, rural health, aging, or women's health and gender.

Trent does not offer a post-RN to BScN program. Individuals holding current registration as an RN (or equivalent) with the College of Nurses of Ontario, any other Canadian nursing regulatory body, or internationally, are not eligible for admission to the compressed or collaborative BScN programs at the School of Nursing. Individuals are not eligible for admission to the compressed or collaborative programs if they already hold a BScN (or equivalent) degree. In addition, the program is not structured to support the admission of individuals who have completed physician education in Canada or internationally. RPNs seeking entry to the program must be registrants in good standing and without practice restrictions with the College of Nurses of Ontario.

Admission Requirements

- A secondary school diploma, including six Ontario 4U or 4M credits (or equivalent), is required for admission. These credits must include English (ENG4U) and one 4U credit in Biology, Chemistry, and Mathematics, each with a minimum grade of 70%. To be considered for acceptance into the program, candidates must possess a minimum average of 75% calculated using the required courses noted above and the two highest additional 4U/M course grades.
- Students enrolled in the Diploma in Indigenous Learning for future Nursing students will be admitted to the Compressed or Collaborative BScN program if their cumulative average is 70% and they have obtained a minimum 60% in each of the courses in the diploma program.
- Candidates for the Trent post-bridge pathway will have met the criteria for admission to the George Brown bridging program and will have graduated from the bridging program with a minimum cumulative average of 75% and not less than 70% in any element of the bridging pathway for which advanced standing credit will be assigned by Trent.
- Candidates who are requesting to transfer from another nursing program must complete the Nursing Transfer Protocol of the Office of Admissions. Potential transfer students must provide written consent for Trent University to seek information about the students' academic and clinical performance in their previous program(s).
- In addition, all successful applicants are required to obtain and submit non-academic requirements (NARs) by the deadlines prior to entry into clinical practice. NARs must be renewed on an ongoing basis throughout the duration in the program. For deadlines and renewal cycles, students should reference the TFSON website section on non-academic requirements.
- NARs include but are not limited to:
    - medical documentation, including completion of the Immunization and Communicable Disease form;
    - current CPR-C, HCP, or BLS Certification (within the past 12 months) from a provider satisfactory to the School of Nursing;
    - initial two-step TB skin testing or clearance, with annual one-step;

    - mask fit testing current within 2 years;
    - criminal record check with vulnerable sector screening, to be renewed annually;
    - proof of having received the seasonal influenza vaccine annually.
- NARs are subject to change as required by placement agencies. Failure to complete or renew NARs within the designated timeframes will result in the student's inability to enter or continue in clinical practice.
- A student with a criminal record that is unacceptable to a clinical placement agency may not be able to complete the program. Students who cannot be vaccinated for medical reasons must submit medical documentation.
- Students who have been withdrawn from the Trent/Fleming School of Nursing for failing two or more NURS theory courses may be considered for readmission to the program if, after withdrawing, they take five one-semester courses transferable to the University within the 12 months prior to applying for readmission. Students must have a cumulative average of at least 75% in all courses taken in these semesters. At least three of these courses must be in sciences. These may be used as electives as per the BScN degree requirements.
- Students who have been required to withdraw and are applying for readmission may be required, as part of the admission process, to demonstrate nursing knowledge and skills learned to date, including medication calculations, in order to determine an appropriate placement in the program.
- Students who have been required to withdraw and who, after being readmitted, fail another NURS course or have a cumulative average lower than 65% will be required to withdraw and not be readmitted to the Trent/Fleming School of Nursing.

Requirements

Bachelor of Science in Nursing Program

- In addition to the program requirements listed below, students must satisfy the University degree requirements.
- There are no options for a General degree, minor, or joint-major program in Nursing.
- All degree requirements must be met within seven years of commencing the program. For students in the PN to BScN program, all degree requirements must be met within seven years of commencing the bridge (George Brown) portion of the program.
- A minimum cumulative average of 65% is required at graduation for the BScN degree.
- A maximum of 3.0 credits with D grades (50-59%), in courses that are not designated required courses, can be counted toward the BScN degree. Students must achieve a minimum of 60% in all Nursing or designated required courses, including the course selected for the third year "forced choice" requirement.
- Students must maintain a cumulative average of at least 65% in the BScN program. If at the end of any term a student's cumulative average falls below 65%, they will be required to meet with the School of Nursing's academic advisor. Students who fail to raise their cumulative average to at least 65% in the subsequent term will be required to meet with both the School of Nursing's academic advisor and the program coordinator and, in collaboration with them, develop and follow a plan to improve their grades. Students who at the end of a third term have failed to raise their cumulative average to at least 65% will be withdrawn from the BScN program but not from the University.
- Students who fail 2.0 credits of courses will be withdrawn from the BScN program but not from the University. Failure in a NURS course is considered to be a grade of less than 60% or a Fail; failure in any other course is considered to be a grade less than 50% or a Fail.
- Students will be allowed to repeat one Nursing theory course for which they have received a grade lower than 60%. Failure to raise this grade to 60% or higher will result in withdrawal from the BScN program but not from the University. Students who receive a second grade lower than 60% in a Nursing theory course will not be allowed to repeat that course and will be withdrawn from the BScN program but not from the University.
- Students will be allowed to repeat one failed Nursing practice course over the duration of the program. A second failing grade in a Nursing practice course

(either a repeated or different practice course) will result in withdrawal from the BScN program but not from the University.

- In the event of a failed Nursing practice course, students, in conjunction with faculty, will develop a practice recovery plan regarding all course objectives which were not successfully met, and this recovery plan will be followed when the student repeats the Nursing practice course.
- Nursing practice experiences are graded on a pass/fail basis. For courses that have both clinical and lab components, students must pass both components in order to pass the entire course.
- Attendance at learning activities in the TFSON Clinical Simulation Hub, orientation to clinical practice, and clinical practice is mandatory. Failure to attend learning activities with the simulation hub or clinical practice may result in a failing grade. Failure to attend orientation will result in the student being removed from the clinical practice course, and any related classroom co-requisites, for that term. A student may be required to attend orientation for clinical practice in the week before the actual start date of the term.
- Unsafe or unprofessional nursing practice may be considered to be professional misconduct. Please see the School of Nursing Student Handbook for details related to the Policy on Professional Conduct.
- Students who have been given an unsatisfactory evaluation and have been removed from the clinical practice setting for either unsafe or unprofessional behaviour may be required to do additional learning and may be placed only one subsequent time in that clinical course.
- Students transferring into the program from another university or community college will have their transcripts assessed by the Admissions Office for course credit transfer. Students transferring into the program from another Trent or Fleming department or program should consult with the School of Nursing to confirm their course of study.

Post-Bridge PN to BScN Pathway

The post-bridge PN to BScN pathway leading to an Honours degree in Nursing (BScN) consists of 20.0 credits, with at least 12.0 credits in NURS. Upon completion of their RPN and approved bridge program, students will normally have completed and received transfer credit for BIOL 1500H, 1501H, NURS 1002H, 1010H, 1020H, 1100H, 1550H, 2001H, 2021H, 2550H, 3021H, PSYC 1020H, 1030H, 2.0 elective credits at 1000 level, and 0.5 credit elective at 2000 level. At least 0.5 of the elective credits must be from the Approved Indigenous Course List. The program must include:

Year 1 (including Summer session)

- 5.0 NURS credits consisting of NURS 2000H, 2003H, 2031H, 3000H, 3001H, 3004H, 3005H, 3020H**, 3031H, and 3550H
- 0.5 NURS credit from NURS 2020H** or 2022H**
- 0.5 credit from the Forced Choice Elective Group: NURS 3560H, PHIL 2390H, PSYC 3560H, PSYC 3750H, or SOCI-GESO 2430H
- 0.5 credit elective at the 2000 level or beyond

Year 2

- 3.0 NURS credits consisting of NURS 4020C** and 4021C**
- 1.0 NURS credit from the Advanced Topics Group*: NURS 4005H (with permission), 4009H (with permission), 4011H/4012H, 4100H, 4102H, 4103H, 4104H, 4105H, 4106H, 4108H, 4109H, 4201H, 4203H, 4204H, 4205H, 4207H, 4208H, or 4740Y
- 0.5 credit elective at the 3000 level or beyond

*Note: Advanced Topics

In all BScN programs, students are required to take at least 1.0 NURS credit from Advanced Topics. A maximum of 1.5 credits from NURS Advanced Topics may be counted toward the BScN degree. Students must successfully complete both NURS 4011H and 4012H to obtain credit for these courses.

**Note: Clinical Courses

Students must have submitted documentation satisfactory to the School of Nursing for all non-academic requirements by the TFSON's designated deadlines. For deadlines and renewal cycles, students should reference the TFSON website section on non-academic requirements.

Students also must be registered in the clinical course for the following terms by the dates indicated below:

- Spring/Summer terms (SN1, S12, SN2): March 15
- Fall term (FA): July 15
- Winter term (WI): November 15

Students not in compliance with this expectation will be ineligible for clinical practice, and related co-requisite NURS courses, in that term.

"C" suffix identifies a course which is equal to 1.5 credits.

Bachelor of Science Nursing

Description
www.trentu.ca/nursing

The Bachelor of Science in Nursing program at Trent University is a direct-entry professional degree program with a limited number of student places. The program leads to a Bachelor of Science in Nursing degree (BScN). The program includes three streams of study—a collaborative program, a compressed (second entry) program, and a post-bridge PN to BScN pathway.

The integrated, collaborative four-year program, with an option that allows completion in three-and-a-half years, is offered with Fleming College for students entering with appropriate secondary school credits or equivalent. Opportunities for practical application of theoretical principles are offered throughout the program. Using a holistic approach to care, students learn to assess client needs and to plan, provide, and evaluate care; students also learn to advocate for quality health care. Various teaching methods are used in the programs including lectures, labs, seminars, case studies, simulations, and online learning.

At each level of the program there is a specific focus for theory and practice. Clinical placements are selected so that students are exposed to a variety of practice environments as they learn the complexities of caring for individuals, families, groups, and communities. Subject to availability and agency requirements, students may have the opportunity to seek specialized placements and/or to develop a specific practice focus in Indigenous communities, mental health, rural health, aging, or women's health and gender.

Trent does not offer a post-RN to BScN program. Individuals holding current registration as an RN (or equivalent) with the College of Nurses of Ontario, any other Canadian nursing regulatory body, or internationally, are not eligible for admission to the compressed or collaborative BScN programs at the School of Nursing. Individuals are not eligible for admission to the compressed or collaborative programs if they already hold a BScN (or equivalent) degree. In addition, the program is not structured to support the admission of individuals who have completed physician education in Canada or internationally.

RPNs seeking entry to the program must be registrants in good standing and without practice restrictions with the College of Nurses of Ontario.

Admission Requirements

- A secondary school diploma, including six Ontario 4U or 4M credits (or equivalent), is required for admission. - Nursing practice experiences are graded on a pass/fail basis. For courses that have both clinical and lab components, students must pass both components in order to pass the entire course.
- Attendance at learning activities in the TFSON Clinical Simulation Hub, orientation to clinical practice, and clinical practice is mandatory. Failure to attend learning activities with the simulation hub or clinical practice may result in a failing grade. Failure to attend orientation will result in the student being removed from the clinical practice course, and any related classroom co-requisites, for that term. A student may be required to attend orientation for clinical practice in the week before the actual start date of the term.
- Unsafe or unprofessional nursing practice may be considered to be professional misconduct. Please see the School of Nursing Student Handbook for details related to the Policy on Professional Conduct.
- Students who have been given an unsatisfactory evaluation and have been removed from the clinical practice setting for either unsafe or unprofessional behaviour may be required to do additional learning and may be placed only one subsequent time in that clinical course.
- Students transferring into the program from another university or community college will have their transcripts assessed by the Admissions Office for course credit transfer. Students transferring into the program from another Trent or Fleming department or program should consult with the School of Nursing to confirm their course of study.

Collaborative Program

The four-year collaborative program leading to an Honours degree in Nursing (BScN) consists of 20.0 credits, with at least 12.0 credits in NURS. At least 0.5 of the elective credits must be from the Approved Indigenous Course List. The program must include:

Year 1

- 2.5 NURS credits consisting of NURS 1002H, 1010H, 1020H**, 1100H, and 1550H
- 1.0 BIOL credit consisting of BIOL 1500H and 1501H
- 0.5 PSYC credit from PSYC 1030H or 1020H
- 1.0 credit elective at the 1000 level or beyond

Students are introduced to the profession of nursing through courses addressing health at the individual level, healthy aging, and the basic concepts in professional practice. This initial exploration of nursing is supported by science courses relevant to nursing and electives of the student's choice. Students are encouraged to develop a focus in an area of interest and to pursue electives within that focus.

Year 2

- 3.0 NURS credits consisting of NURS 2000H, 2001H, 2003H, 2021H**, 2031H, and 2550H
- 0.5 NURS credit from NURS 2020H** or 2022H**
- 0.5 PSYC credit from PSYC 1020H or 1030H
- 1.0 credit elective at the 1000 level or beyond

Students focus on community and family health, developing specific knowledge regarding the impact of illness on families and communities, and on the further development of knowledge in sciences relevant to the practice of nursing. Continued development of a specific area of focus is encouraged.

Year 3

- 3.5 NURS credits consisting of NURS 3000H, 3001H, 3004H, 3020H**, 3021H**, 3031H, and 3550H
- 0.5 credit from the Forced Choice Elective Group: NURS 3560H, PHIL 2390H, PSYC 3560H, PSYC 3750H, or SOCI-GESO 2430H
- 1.0 credit elective at the 2000 level or beyond

Students will focus on aspects of illness, both acute and chronic. Concepts of illness, the patho-physiology underlying disease conditions and related nursing and health care interventions are addressed in nursing theory and practice courses. Continued development of a specific area of focus is encouraged.

Year 4

- 3.0 NURS credits consisting of NURS 4020C** and 4021C**
- 1.0 NURS credit from the Advanced Topics Group*: NURS 4005H (with permission), 4009H (with permission), 4011H/4012H, 4100H, 4102H, 4103H, 4104H, 4105H, 4106H, 4108H, 4109H, 4201H, 4203H, 4204H, 4205H, 4207H, 4208H, or 4740Y
- 1.0 credit elective at the 3000 level or beyond

Students focus extensively on integrating knowledge and skills to become novice professionals. Clinical practice settings are chosen in consultation with the student to allow exploration of areas of interest, where possible and subject to the student meeting established requirements. The development of specific areas of focus related to clinical practice choices is furthered in nursing and other elective courses.

*Note: Advanced Topics

In all BScN programs, students are required to take at least 1.0 NURS credit from Advanced Topics. A maximum of 1.5 credits from NURS Advanced Topics may be counted toward the BScN degree. Students must successfully complete both NURS 4011H and 4012H to obtain credit for these courses.

**Note: Clinical Courses

Students must have submitted documentation satisfactory to the School of Nursing for all non-academic requirements by the TFSON's designated deadlines. For deadlines and renewal cycles, students should reference the TFSON website section on non-academic requirements.

Students also must be registered in the clinical course for the following terms by the dates indicated below:

- Spring/Summer terms (SN1, S12, SN2): March 15
- Fall term (FA): July 15
- Winter term (WI): November 15

Students not in compliance with this expectation will be ineligible for clinical practice, and related co-requisite NURS courses, in that term.

"C" suffix identifies a course which is equal to 1.5 credits.

BSW.SWRK - Social Work - BSW Honours

Overview

Academic Level
Undergraduate

Credential
Bachelor of Social Work (Honours)

Description
www.trentu.ca/socialwork

The challenging field of social work provides essential supports to communities by helping its individuals, groups, and families meet their basic human needs, and by creating the conditions necessary for social change. The Bachelor of Social Work (BSW) at Trent University prepares graduates with the knowledge and skills for meaningful professional practice in a wide range of social work contexts. Through an interdisciplinary curriculum grounded in social justice, human rights, and cultural humility, students develop a strong foundation of clinical knowledge, critical thinking skills, and social responsibility. In the general years (years 1 and 2), students explore a range of contemporary themes connected to social work from across disciplines. Students admitted to the professional years (years 3 and 4) focus almost exclusively on social work theory and practice, including 700 hours of supervised placement.

INFORMATION & ADDITIONAL NOTES

- The Honours Bachelor of Social Work (BSW) program consists of 20.0 credits, with at least 11.5 SWRK credits.
- Any student can declare a major in Social Work in the general years (years 1 and 2). 1000- and 2000-level SWRK courses are open to all students.
- Students must apply to enter year 3 of the Social Work program; the first of two professional years. To be eligible to apply, students must meet the academic requirements below. A limited number of students are admitted to the Peterborough Symons Campus and to the Durham GTA Campus. Since admission to the professional years is not guaranteed, students should consider fulfilling the requirements for an alternate major when selecting courses in years 1 and 2.
- Students will be charged an application fee to apply for admission to the professional years.
- Students are admitted on a full-time basis to the professional years of the Social Work program and must normally complete the program requirements over two consecutive years.

Admission Requirements – Years 1 and 2

- High School: A secondary school diploma, including six Ontario 4U or 4M credits (or equivalent), is required for admission. These credits must include English (ENG4U) with a minimum 60%. Candidates must possess a minimum overall average of 70%.
- Post-secondary: Students with college or university transfer credits will be evaluated on an individual basis and should contact the Admissions Office for more information. Students with transfer credits should see an academic advisor for assistance in planning their course of study.

Applying to the Professional Years (Years 3 and 4)

Minimum Academic Requirements:

- To be considered for admission to year 3 (the professional years), by May 15 of the application year, students must have met the following requirements:
    - successful completion of the following 10.0 credits with a minimum cumulative average of 70%:
    - 2.0 SWRK credits consisting of SWRK 1000H, 1001H, 2001H, and 2004H
    - 6.0 credits in Humanities and/or Social Sciences and/or Psychology, at least 3.0 credits of which must be at the 2000 level or beyond
    - 2.0 credits in addition to the above
    - a minimum grade of 70% in each of SWRK 1000H, 1001H, 2001H, and 2004H

Non-Academic Requirement:

- Students submit a supplemental application. For details, see the BSW Professional Years Admissions Package.

Notes:

- For students with more than 10.0 university credits, the best 8.0 credits that meet the requirements of the general years (6.0 credits in Humanities and/or Social

Sciences and/or Psychology, and 2.0 additional credits) plus the 2.0 required SWRK credits, will be used in the calculation of the average.

- Transfer credits may be counted toward the minimum 10.0 credits required for admission to the professional years. If transfer credit has been assigned for SWRK 1000H, 1001H, 2001H, and/or 2004H, the minimum grade requirement is met with a "Pass" grade in the course(s).
- If transfer credit has been assigned for SWRK 3000Y (1.0 credit), students may count this credit toward the minimum 10.0 credits required for admission to the professional years.
- Students who have been assigned transfer credit for SWRK 3000Y must complete a series of five non-credit professional development workshops to bridge to placement in year 4 of the Bachelor of Social Work program. Please see the Social Work Student Handbook for further details.

Requirements

Bachelor of Social Work Program

- In addition to the program requirements listed below, students must satisfy the University degree requirements.
- Social Work is a four-year program leading to an Honours Bachelor of Social Work degree. There is no joint-major program, General program, or minor in Social Work.
- Students must achieve a minimum of 65% in all required 3000- and 4000-level SWRK courses in order to progress in the program and to graduate.
- Students must achieve a minimum cumulative average of 65% in order to graduate with a BSW degree.
- Social Work Field Education Placement courses (SWRK 3000Y and 4000D) are graded on a pass/fail basis. In order to graduate, students must pass both placements.
- Students may repeat each of SWRK 1000H, 1001H, 2001H, and 2004H in order to improve their grades for application to the professional years. Students can repeat these courses up to the maximum number of attempts allowed by University regulations.
- Students will be allowed to repeat no more than two third- or fourth-year required SWRK courses for which they have received a grade lower than 65%. Failure to raise this grade to 65% or better will result in withdrawal from the BSW program but not from the University. Students who receive a third grade lower than 65% in a third-year or fourth-year required SWRK course will be withdrawn from the BSW program but not from the University.
- Students will be allowed to repeat one failed Social Work Field Education placement over the duration of the program. A second failing grade in a Social Work Field Education placement (either a repeated or different placement course) will result in withdrawal from the BSW program but not from the University.
- For required SWRK courses in the professional years of the program, students must register on the campus to which they were admitted. Only if space permits, and if a request is made to the director prior to the start of the term, will requests to register on the other campus be considered.
- Attendance at integration seminars, orientation days, and placements is mandatory. Please see the Bachelor of Social Work's Student Handbook for further details.
- All courses reflect the Canadian Association of Social Workers (CASW) Code of Ethics and Guidelines for Ethical Practice, the Ontario College of Social Workers and Social Service Workers Association (OCSWSSW) Code of Ethics and Standards of Practice, and the Canadian Association for Social Work Education (CASWE-ACFTS) Accreditation Standards.
- Unsafe, unethical, or unprofessional social work practice is considered to be professional misconduct. Please see the Bachelor of Social Work's Student Handbook for details related to the Policy on Professional Conduct and Suitability.

The four-year program leading to an Honours degree in Social Work consists of 20.0 credits, with at least 11.5 credits in SWRK. The program must include:

Year 1

- 1.0 SWRK credit consisting of SWRK 1000H and 1001H
- 3.0 credits at the 1000 level or beyond in Humanities and/or Social Sciences and/or Psychology

- 1.0 credit in addition to the above

Year 2

- 1.0 SWRK credit consisting of SWRK 2001H and 2004H
- 3.0 credits at the 2000 level or beyond in Humanities and/or Social Sciences and/or Psychology
- 1.0 credit in addition to the above

Professional Years

Year 3

- 4.5 SWRK credits consisting of SWRK 3000Y, 3001H, 3002H, 3003H, 3004H, 3005H, 3006H, and 3007H
- 0.5 SWRK credit at the 3000 level in addition to the above

Year 4

- 4.0 SWRK credits consisting of SWRK 4000D, 4001H, 4002H, 4005H, and 4006H
- 0.5 SWRK credit at the 3000 level in addition to the above
- 0.5 elective credit in addition to the above (may be from SWRK)

CERT.ACCS - Accounting & Computer Science - Postgraduate Certificate

Overview

Academic Level
Undergraduate

Credential
Postgraduate Certificate in Accounting & Computer Science

Description
The Postgraduate Certificate in Accounting & Computer Science is available to students who hold an undergraduate degree in a subject other than accounting from any accredited university.

This 4-term program will be of interest to recent graduates wishing to earn their CPA designation and pursue a professional career in accounting while also improving their understanding of relevant computer science. The postgraduate certificate covers all prerequisite undergraduate courses required by CPA Ontario. Upon completion students will be able to work in the accounting field, enrol in accredited graduate programs in accounting, and/or enrol in the CPA Professional Education Program as they continue their pursuit towards their CPA designation. Internationally educated applicants are encouraged to familiarize themselves with CPA Ontario's assessment process for evaluating the applicant's undergraduate degree(s).

Study Options

- Campus: Peterborough only
- Full-time studies: International and domestic students
- Part-time studies: Domestic students only

Application Procedure

- Candidates may apply through the Trent website. An official transcript must accompany the application.
- Applicants should determine the program and campus location they wish to study at and research the program length, courses, and available start terms and campuses prior to applying. After an application is submitted, changes to programs and campuses will not be made without a new, paid application. Once students are registered in courses, students will not be permitted to change programs or campuses.

Requirements

Postgraduate Certificate in Accounting & Computer Science

The certificate program consists of the following 10.0 credits:

- 7.0 ADMN credits consisting of ADMN 1221H, 2221H, 3032H, 3121H, 3200H, 3221H, 3250H, 3321H, 3710H, 4300H, 4301H, 4302H, 4303H, and 4710H
- 1.5 COIS credits consisting of COIS 1620H, 2520H, and 2620H
- 1.5 ECON credits consisting of ECON 1010H, 1020H, and 2200H

University Requirement

- A minimum cumulative average of 60% is required to graduate with a postgraduate certificate.

Notes

- CPA Ontario requires students to have a grade of 50% or higher in each of the non-core courses (ADMN 1221H, 2221H, 3250H, ECON 1010H, 1020H, 2200H, and COIS 1620H) and a grade of 60% or higher in each of the core courses (ADMN 3032H, 3121H, 3200H, 3221H, 3321H, 3710H, 4300H, 4301H, 4302H, 4303H, and 4710H). Students must also have an overall average of 65% in the core courses for admission into the CPA PEP.
- Students are advised to follow the list of courses by term posted on the School of Business website and should not vary this schedule.
- Students who commence the program in September must follow this schedule:
    - Study term 1: Fall
    - Study term 2: Winter
    - No studies in the Summer term
    - Study term 3: Fall
    - Study term 4: Winter
- Students who commence the program in January must study over consecutive terms.
- For individual course descriptions, see Business Administration, Economics, and Computer Science. Please consult the academic timetable for information on when courses will be scheduled.
- Students who hold an undergraduate degree from Trent University may have a maximum of 1.0 credit (two 0.5-credit courses) from their degree applied to their postgraduate certificate program. Students entering additional postgraduate certificate programs may count a maximum of 1.0 credit (two 0.5-credit courses) toward the additional postgraduate certificate program.

Requirements

Postgraduate Certificate in Accounting

The certificate program consists of the following 9.0 credits:

- 7.0 ADMN credits consisting of ADMN 1221H, 2221H, 3032H, 3121H, 3200H, 3221H, 3250H, 3321H, 3710H, 4300H, 4301H, 4302H, 4303H, and 4710H
- 1.5 ECON credits consisting of ECON 1010H, 1020H, and 2200H
- 0.5 COIS credit consisting of COIS 1620H

University Requirement

- A minimum cumulative average of 60% is required to graduate with a postgraduate certificate.

Notes

- CPA Ontario requires students to have a grade of 50% or higher in each of the non-core courses (ADMN 1221H, 2221H, 3250H, ECON 1010H, 1020H, 2200H, and COIS 1620H) and a grade of 60% or higher in each of the core courses (ADMN 3032H, 3121H, 3200H, 3221H, 3321H, 3710H, 4300H, 4301H, 4302H, 4303H, and 4710H). Students must also have an overall average of 65% in the core courses for admission into the CPA PEP.
- Students are advised to follow the list of courses by term posted on the School of Business website and should not vary this schedule.
- Students who start in September must study in fall, winter, take the summer off, fall and winter. Students who start in January must study over consecutive terms.
- For individual course descriptions, see Business Administration, Economics, and Computer Science. Please consult the academic timetable for information on when courses will be scheduled.
- Students who hold an undergraduate degree in Business Administration (single-major BBA or joint-major BA/BSc) from Trent University may have a maximum of 3.5 credits (ADMN 1221H, 2221H, 3200H, 3032H, ECON 1010H, 1020H, and 2200H) from their degree applied to the postgraduate certificate program.

- Students who hold an undergraduate degree from Trent University in a subject other than Business Administration may have a maximum of 1.0 credit (two 0.5-credit courses) from their degree applied to the postgraduate certificate program. Students entering additional postgraduate certificate programs may count a maximum of 1.0 credit (two 0.5-credit courses) toward the additional postgraduate certificate program.

CERT.AIDA - Artificial Intelligence & Data Analytics - Postgraduate Certificate

Overview

Academic Level

Undergraduate

Credential

2beed9de-a01f-4aac-888c-fb04eb5f8e2b

Description

The Postgraduate Certificate in Artificial Intelligence & Data Analytics is available to students who hold an undergraduate degree from any accredited university. It is suggested that students have some experience or familiarity with computer programming or technology to give them a greater opportunity to be successful in this highly technical program.

This program will provide students with fundamental concepts and methodologies related to artificial intelligence (AI), machine learning (ML), human-computer interaction (HCI) and their applications in other areas such as information systems and analysis. This certificate also provides higher-level knowledge and skills related to the technical aspects of Artificial Intelligence, Statistics, and Data Management. Topics will also cover the history, social and political impacts, ethics, privacy, bias, and limitations of AI to complement students' technical knowledge.

Study Options

- Campus: Durham GTA
- Full-time or part-time studies

Application Procedure

- Candidates may apply through the Trent website. An official transcript must accompany the application.
- Applicants should determine the program and campus location they wish to study at and research the program length, courses, and available start terms and campuses prior to applying. After an application is submitted, changes to programs or campuses will not be made without a new, paid application. Once students are registered in courses, students will not be permitted to change programs or campus location.

Requirements

Postgraduate Certificate in Artificial Intelligence & Data Analytics

The certificate program consists of the following 8.5 credits:

- 5.0 AIST credits consisting of AIST 1000H, 1400H, 2000H, 2010H, 3004H, 3270H, 3550H, 3570H, 4430H, and 4851H
- 3.5 COIS credits consisting of COIS 1010H, 1020H, 1620H, 2020H, 2320H, 2620H, and 3020H

University Requirement

- A minimum cumulative average of 60% is required to graduate with a postgraduate certificate.

Notes

- Please consult the academic timetable for information on when courses will be scheduled.
- Students who hold an undergraduate degree from Trent University may have a maximum of 1.0 credit (two 0.5-credit courses) from their degree applied to their postgraduate certificate program. Students entering additional postgraduate certificate programs may count a maximum of 1.0 credit (two 0.5-credit courses) toward the additional postgraduate certificate program.

CERT.AIFA - Applied Artificial Intelligence & Financial Analytics - Postgraduate Certificate

Overview

Academic Level

Undergraduate

Credential

Postgraduate Certificate in Applied Artificial Intelligence & Financial Analytics

Description

The Postgraduate Certificate in Applied Artificial Intelligence & Financial Analytics is available to students who hold an undergraduate degree from any accredited university.

This 4-term program will provide students with fundamental concepts and methodologies related to artificial intelligence (AI), machine learning, and human-computer interaction. Topics will also cover history, social and political impacts, ethics, privacy, bias, and limitations of AI. Applications of AI in finance and communications will be studied. In particular, the program will help equip students with the economic reasoning and computational tools to tackle leading-edge problems in the world of investments and financial markets.

Study Options

- Campus: Durham GTA
- Full-time studies: International and domestic students
- Part-time studies: Domestic students only

Application Procedure

- Candidates may apply through the Trent website. An official transcript must accompany the application.
- Applicants should determine the program and campus location they wish to study at and research the program length, courses, and available start terms and campuses prior to applying. After an application is submitted, changes to programs or campuses will not be made without a new, paid application. Once students are registered in courses, students will not be permitted to change programs or campuses.

Requirements

Postgraduate Certificate in Applied Artificial Intelligence & Financial Analytics

The certificate program consists of the following 9.0 credits:

- 5.0 AIST credits consisting of AIST 1000H, 1400H, 2000H, 2010H, 3004H, 3270H, 3550H, 4430H, 4550H, and 4851H
- 0.5 COIS credit consisting of COIS 1020H
- 2.0 ECON credits consisting of ECON 1010H, 1020H, 1250H, and 3020H
- 1.5 FINA credits consisting of FINA 4101H, 4102H, and 4103H

University Requirement

- A minimum cumulative average of 60% is required to graduate with a postgraduate certificate.

Notes

- See descriptions for individual courses under the appropriate discipline. Please consult the academic timetable for information on when courses will be scheduled.
- Students enrolled in the certificate program may take ECON 1020H concurrently with ECON 3020H.
- Students who hold an undergraduate degree from Trent University may have a maximum of 1.0 credit (two 0.5-credit courses) from their degree applied to their postgraduate certificate program. Students entering additional postgraduate certificate programs may count a maximum of 1.0 credit (two 0.5-credit courses) toward the additional postgraduate certificate program.

CERT.ASL - American Sign Language - Undergraduate Certificate

Overview

Academic Level
Undergraduate

Credential
American Sign Language

Description

The undergraduate Certificate in American Sign Language (ASL) provides students with an opportunity to develop intermediate-level proficiency in ASL for the purposes of career advancement and/or communicative skills in the Deaf community.

The undergraduate certificate may be awarded as a stand-alone credential or in conjunction with an Honours or General degree. Students taking the Certificate in ASL in conjunction with an Honours or General degree may apply to graduate with the certificate either upon completion of the required 2.5 credits or upon completion of their degree. Courses taken as part of this undergraduate certificate may be used concurrently to satisfy university degree requirements. All credits may be used concurrently toward the Option in Languages, and the LING credit and 1.0 ASLA credits may be used concurrently toward the Option in Linguistics.

Students who wish to take the Certificate in ASL as a stand-alone credential may enter the certificate program with no prior experience in ASL. The certificate is open to students who have the equivalent of Ontario Grade 12 or qualify as mature students. The certificate will be awarded upon successful completion of the program. A Trent University transcript will identify all courses undertaken and grades received. Credits earned in the certificate program are transferable to the General or Honours BA and BSc degrees.

Requirements

Certificate in American Sign Language

The certificate program consists of the following 2.5 credits:

- 2.0 ASLA credits consisting of ASLA 1001H, 1002H, 2001H, and 2002H
- 0.5 LING credit from LING 1001H or 3060H

The certificate may be awarded as a stand-alone credential or in conjunction with an Honours or General degree.

CERT.DEML - Democratic Leadership - Undergraduate Certificate

Overview

Academic Level
Undergraduate

Credential
44dce5d3-f00b-4781-936f-955ade00f7f4

Description
The undergraduate Certificate in Democratic Leadership provides students with an opportunity to deepen and extend their knowledge about political leadership, and to receive recognition for their political leadership proficiency and training for the purposes of career advancement and/or further study.

INFORMATION & ADDITIONAL NOTES

- This undergraduate certificate may be awarded as a stand-alone credential or in conjunction with an Honours or General degree.
- Students may choose to graduate with only one of the Option in Leadership or the Certificate in Democratic Leadership.
- As a stand-alone credential, the Certificate in Democratic Leadership is open to students who have the equivalent of Ontario Grade 12 or qualify as mature students. The certificate will be awarded upon successful completion of the program. A Trent University transcript will identify all courses undertaken and grades received. Credits earned in the certificate program are transferable to the BA degree.

CERT.DGMK - Digital Marketing - Postgraduate Certificate

Overview

Academic Level
Undergraduate

Credential
Postgraduate Certificate in Digital Marketing

Description
The Postgraduate Certificate in Digital Marketing is available to students who hold an undergraduate degree from any accredited university.

This program will be of interest to recent graduates wishing to acquire good business acumen in maintaining a web presence for an enterprise. The topics covered include key areas in marketing and public relations, as well as the specifics of relevant topics like website best practices, customer relations, and social media strategy.

Study Options

- Campus: Durham GTA
- Full-time studies: International and domestic students
- Part-time studies: Domestic students only

Application Procedure

- Candidates may apply through the Trent website. An official transcript must accompany the application.
- Applicants should determine the program and campus location they wish to study at and research the program length, courses, and available start terms and campuses prior to applying. After an application is submitted, changes to programs or campuses will not be made without a new, paid application. Once students are registered in courses, students will not be permitted to change programs or campuses.

Requirements

Postgraduate Certificate in Digital Marketing

The certificate program consists of the following 9.0 credits:

- 2.0 ADMN credits consisting of ADMN 2080H, 2100H, 3150H, and 3170H
- 3.5 COIS credits consisting of COIS 1010H, 1020H, COIS-ADMN 1620H, COIS 2430H, COIS-ADMN 2620H, COIS 3430H, and COIS-ADMN 3750H
- 2.5 COMM credits consisting of COMM 2002H, 3002H, 3003H, 3004H, and 3005H
- 1.0 ECON credit consisting of ECON 1010H and 1020H

University Requirement

- A minimum cumulative average of 60% is required to graduate with a postgraduate certificate.

Notes

- For individual course descriptions, see Business Administration, Economics, Communications, and Computer Science. Please consult the academic timetable for information on when courses will be scheduled.
- Students who hold an undergraduate degree from Trent University may have a maximum of 1.0 credit (two 0.5-credit courses) from their degree applied to their postgraduate certificate program. Students entering additional postgraduate certificate programs may count a maximum of 1.0 credit (two 0.5-credit courses) toward the additional postgraduate certificate program.

CERT.ECOM - E-Commerce - Postgraduate Certificate

Overview

Academic Level
Undergraduate

Credential
Postgraduate Certificate in E-Commerce

CERT.FREN - French - Undergraduate Certificate

Overview

Academic Level
Undergraduate

Credential
French

Description
The undergraduate Certificate in French provides students with an opportunity to improve their French language skills and to receive recognition for their proficiency level for the purposes of career advancement or further study.

This undergraduate certificate may be awarded as a stand-alone credential or in conjunction with an Honours or General degree.

Students taking the Certificate in French in conjunction with an Honours or General degree will be awarded the certificate upon successful completion of the required 3.0 credits. Courses taken as part of this undergraduate certificate may be used concurrently to satisfy university degree requirements.

Students who wish to take this undergraduate certificate as a stand-alone credential may enter the certificate program based on the results of the placement test. The certificate is open to students who have the equivalent of Ontario Grade 12 or qualify as mature students. The certificate will be awarded upon successful completion of the program. A Trent University transcript will identify all courses undertaken and grades received. Credits earned in the certificate program are transferable to the General or Honours BA and BSc degrees.

Students who successfully complete the Certificate in French will have reached the BBB level required by the Public Service Commission of the Government of Canada.

Requirements

Certificate in French

The certificate program consists of the following 3.0 credits:

- 3.0 FRSL credits consisting of FRSL 1020H, 1030H, 2020H, 2030H, 3020H, and 3030H

CERT.HEAL - Health & Wellness - Postgraduate Certificate

Overview

Academic Level
Undergraduate

Credential
Postgraduate Certificate in Health & Wellness

Description
The Postgraduate Certificate in Health & Wellness is available to students who hold an undergraduate degree from any accredited university.

The interdisciplinary program will be of interest to recent graduates wishing to acquire knowledge and skills related to the relationship between behaviour and health focusing on health, wellness and the prevention and treatment of illness. The certificate program covers such topics as health communication, program evaluation, understanding health behaviour, lifestyle, mental health, psychology of health, among others. This certificate program is designed to expand the knowledge and skills of students who have graduated with degrees in health, physical and social sciences, nursing, and related disciplines in ways that are applicable for success working in health- and wellness-related fields.

Study Options

- Campus: Peterborough
- Full-time or part-time studies

Application Procedure

- Candidates may apply through the Trent website. An official transcript must accompany the application.
- Applicants should determine the program and campus location they wish to study at and research the program length, courses, and available start terms and campuses prior to applying. After an application is submitted, changes to programs or campuses will not be made without a new, paid application. Students entering additional postgraduate certificate programs may count a maximum of 1.0 credit (two 0.5-credit courses) toward the additional postgraduate certificate program.

CERT.HRM - Human Resource Management - Postgraduate Certificate

Overview

Academic Level
Undergraduate

Credential
Postgraduate Certificate in Human Resource Management

Description
The Postgraduate Certificate in Human Resource Management is available to students who hold an undergraduate degree from any accredited university.

Upon successful completion of the 5.0 credits, students will have satisfied the nine subject areas required for the "Certified Human Resources Professional Designation (CHRP)" and be eligible to write the CHRP Knowledge Exam (CHRP-KE). For CHRP, students must achieve a cumulative average of 70% in all courses, with no individual course mark less than 65%. In order to take the exam, a student must be an enrolled member of the Human Resources Professionals Association (HRPA) of Ontario, which involves a monetary fee to the Association.

Study Options

- Campus: Peterborough
- Full-time or part-time studies

Application Procedure

- Candidates may apply through the Trent website. An official transcript must accompany the application.
- Applicants should determine the program and campus location they wish to study at and research the program length, courses, and available start terms and campuses prior to applying. After an application is submitted, changes to programs or campuses will not be made without a new, paid application. Once students are registered in courses, students will not be permitted to change programs or campuses.

Requirements

Postgraduate Certificate in Human Resource Management

The certificate program consists of the following 5.0 credits:

- 5.0 ADMN credits consisting of ADMN 1221H, 2220H, 2221H, 2230H, 3220H, 3230H, 3260H, 3270H, 3280H, and 3500H

University Requirement

- A minimum cumulative average of 60% is required to graduate with a postgraduate certificate.

Notes

- Upon successful completion of the 5.0 credits, students will have satisfied the nine subject areas required for the "Certified Human Resources Professional Designation (CHRP)" and be eligible to write the CHRP Knowledge Exam (CHRP-KE). For CHRP, students must achieve a cumulative average of 70% in all courses, with no individual course mark less than 65%. In order to take the exam, a student must be an enrolled member of the Human Resources Professionals Association (HRPA) of Ontario, which involves a monetary fee to the Association.
- Students are advised to follow the list of courses by term posted on the School of Business website and should not vary this schedule.
- Full time, the certificate is completed over two consecutive terms.
- If a full-time student, ADMN 1221H, 2220H, and 2230H should be completed in the first term; a part-time student should complete ADMN 1221H, 2220H, and 2230H before taking other required ADMN credits.
- For individual course descriptions, see Business Administration and Economics. Please consult the academic timetable for information on when courses will be scheduled.
- Students who hold an undergraduate degree in Business Administration (single-major BBA or joint-major BA/BSc) from Trent University may have a maximum of 2.0 credits (ADMN 1221H, 2221H, 2220H, and 2230H) from their degree applied to the postgraduate certificate program.
- Students who hold an undergraduate degree from Trent University in a subject other than Business Administration may have a maximum of 1.0 credit (two 0.5-credit courses) from their degree applied to their postgraduate certificate program. Students entering additional postgraduate certificate programs may count a maximum of 1.0 credit (two 0.5-credit courses) toward the additional postgraduate certificate program.

CERT.LCS - Language & Communication Sciences - Undergraduate Certificate

Overview

Academic Level
Undergraduate

Credential
8bf08556-9076-433c-989e-0cd5a2b1dc42

Description
The Undergraduate Certificate in Language and Communication Sciences (LCS) provides students with an opportunity to have relevant courses in linguistics, psychology, and biology formally recognized for the purpose of applying for professional programs in speech-language pathology or related areas.

Notes

- The undergraduate certificate may be awarded as a stand-alone credential or in conjunction with an Honours or General degree. Students taking this undergraduate certificate in conjunction with an Honours or General degree may apply to graduate with the certificate either upon completion of the required 4.5 credits or upon completion of their degree.
- Courses taken as part of this undergraduate certificate may be used concurrently to satisfy university degree requirements. All LING credits may be used concurrently toward the Option in Languages and the Option in Linguistics.
- Students who wish to take the Certificate in LCS as a stand-alone credential may enter the certificate program with no prior experience in LCS. The certificate is open to students who have the equivalent of Ontario Grade 12 or qualify as mature students. The certificate will be awarded upon successful completion of the program. A Trent University transcript will identify all courses undertaken and grades received. Credits earned in the certificate program are transferable to the General or Honours BA and BSc degrees.
- Direct applicants to the certificate program must normally have completed LING 1001H, PSYC 1020H, and PSYC 1030H (or equivalent) prior to commencing the program as non-degree students. Contact the Languages & Linguistics Program Coordinator for more information.

Requirements

Certificate in Language and Communication Sciences

The certificate program consists of the following 4.5 credits:

- 1.0 LING credit consisting of LING-ANTH 2010H and LING 3500H
- 0.5 LING credit from LING 2002H, 2003H, 3003H, or 3060H
- 1.0 BIOL credit consisting of BIOL 1500H and 1501H
- 1.0 PSYC credit consisting of PSYC 2018H and 2550H
- 1.0 PSYC credit from PSYC 2400H, 3451H, 3500H, 4150H, or 4570H

CERT.LEAD - Political Leadership - Undergraduate Certificate

Overview

Academic Level
Undergraduate

Credential
2253c8d8-d3f3-4706-8c90-83669fc9a51b

Description
The undergraduate Certificate in Political Leadership provides students with an opportunity to improve their knowledge about political leadership, and to receive recognition for their political leadership proficiency and training for the purposes of career advancement and/or further study.

- 1.0 SPAN credit consisting of SPAN 2001H and 2002H (or SPAN 2000Y)
- 0.5 LING credit from LING 1001H or 3060H

CIRD - Circumpolar Studies - Diploma

Overview

Academic Level
Undergraduate

Credential
Circumpolar Studies

Description
www.trentu.ca/environment/circumpolar-studies

The Trent School of the Environment offers a unique online diploma for students who wish to undertake a single academic year of study (September to April) focused upon the landscape, peoples, and contemporary issues of concern in the Circumpolar world. Students study of the Circumpolar region from a variety of interdisciplinary perspectives. Introductory courses begin with the examination of the geography, history, and biophysical and physical systems of the Sub-Arctic and Arctic regions. The diploma curriculum then turns to the Indigenous and contemporary peoples of the region, traditional economies and knowledge, governance systems, human security issues, and overall questions of economic development, cultural resilience, and environmental sustainability.

Eligibility

Applicants must either be students registered in, or graduates of, an accredited post-secondary educational institution normally other than Trent University. An official transcript, including evidence of the content of courses completed and grades received, must accompany the application. Application to the diploma program should be made to the Ontario Universities' Application Centre at www.ouac.on.ca.

Only students enrolled in the diploma program may obtain the diploma. Trent students enrolled in a degree program may choose to complete the Option in Circumpolar Studies.

Language Requirements

In accordance with University regulations, applicants must have a competence in written and spoken English.

The Diploma

The diploma is awarded in the spring. Upon successful completion of the diploma, students may apply for admission to an undergraduate degree program at Trent University. Credits earned in the diploma program are transferable to a degree.

Requirements

The Diploma in Circumpolar Studies consists of the following 5.0 credits:

- 1.5 GEOG credits consisting of GEOG 1045H, 2320H, and 2330H
- 1.0 CAST credit consisting of CAST 3241H and 3243H
- 1.0 INDG credit consisting of INDG 3745H and 3750H
- 1.0 GEOG credit from GEOG 2811H, 3390H, or 3640H
- 0.5 credit from ERST-GEOG 2812H, ERST-INDG 3740H, GEOG-CAST 2810H, or GEOG 3904H

Students must obtain a minimum cumulative average of 60% in the courses in the program to qualify for the diploma.

Description
www.trentu.ca/canadianstudies

The Canadian Studies diploma program is housed in the School for the Study of Canada / École d'études canadiennes. Students learn about the diverse, often contested meanings of the Canadian experience and Canadian citizenship, and explore how even as the transnational attracts critical and public attention, the nation remains the major administrative and imaginative unit organizing people's lives. The program's focus is on the Canadian nation in a global context. Interdisciplinary Canadian Studies courses are offered in four areas: culture, literature, and the arts; policy, economy, and society; identities and social movements; and space, place, and region; and encourage thought about Canadian history, institutions, ideology, and social justice.

The School for the Study of Canada / École d'études canadiennes offers a diploma for students who wish to undertake a single academic year (September to April) focused directly upon Canadian political economy, society, environment, and culture. Students wishing to enrol in the diploma program must apply in writing to the chair, indicating course preferences. As the number of spaces is limited, acceptance is not automatic. The Canadian Studies program coordinator or designate selects the successful candidates in consultation with the Admissions Committee.

Eligibility

Applicants must either be students registered in, or graduates of, an accredited post-secondary educational institution normally other than Trent University. An official transcript, including evidence of the content of courses completed and grades received, must accompany the application.

Language Requirements

In accordance with University regulations, applicants must have a competence in written and spoken English. Facility in the French language is desirable but not compulsory.

Visas, Fees, and Accommodation

International students admitted to the diploma program are expected to make their own arrangements for visas, financing, and accommodation during the year at Trent. Nevertheless, every effort will be made to assist in this process.

The Diploma

The diploma is awarded in the spring. Upon successful completion of the diploma, students may apply for admission to the BA program in Canadian Studies. Credits earned in the diploma program are transferable to the BA degree.

Requirements

Diploma in Canadian Studies

- Students planning to continue on to graduate school are encouraged to take 2.0 credits at the 4000 level.
- For students taking a fifth credit, CAST 1100H and one of 1101H, 1103H, 1104H, or 1105H is recommended.

The diploma program consists of the following 4.0 credits:

- 4.0 CAST credits including 1.0 credit from each category (A, B, C, D)
- At least 2.0 of the above credits must be at the 3000 level or beyond

Students must obtain a minimum of 60% in each of the courses in the program to qualify for the diploma.

FOIL - Foundations of Indigenous Learning - Diploma

Overview

Academic Level
Undergraduate

Credential
Fnd. in Indigenous Learning

Description
The transition year diploma program for Indigenous students offers a pathway to the undergraduate academic programs offered by Trent: Bachelor of Arts, Bachelor of Business Administration, Bachelor of Science, Bachelor of Social Work, and Bachelor of Education – Indigenous. The transition year diploma program is open to Indigenous students who have the equivalent of Grade 12 or who qualify as mature students. Alternatively, admission may be approved by the director of the First Peoples House of Learning. All courses receive a university credit.

Requirements

Diploma in Indigenous Learning

- All students admitted to the transition year diploma program must complete the summer Bridge Program.
- Upon successful completion of the transition year, students will receive a Diploma in Indigenous Learning and can continue to an Honours or General Bachelor of Arts or Bachelor of Science program, the Bachelor of Business Administration program, the Bachelor of Social Work program, or the concurrent Bachelor of Education – Indigenous program. Credits earned in the diploma program can be transferred to these degrees.
- To transition to a degree program, students must complete the diploma courses with a minimum cumulative average of 60%.
- Students who plan to access a degree program upon completion of the transition year are encouraged to meet with an academic advisor to plan course selection carefully. Students should check the requirements for the academic program that they wish to pursue and ensure that they select the appropriate first-year courses.

- Academic and social transition support and mentorship will be provided by the First Peoples House of Learning.
- Application to the Diploma program should be made by contacting the First Peoples House of Learning at FPHLenrolment@trentu.ca or via the Ontario Universities' Application Centre at www.ouac.on.ca.
- Inquiries may be directed to the First Peoples House of Learning at FPHLenrolment@trentu.ca.

The Diploma in Indigenous Learning consists of the following 4.0 credits:

- 1.0 INDG credit consisting of INDG 1011H and 1012H
- 0.5 credit from the Approved Indigenous Course List
- 0.5 Bridge Program credit from UNIV 1003H, 1004H, or 1005H
- 2.0 university credits in least two different disciplines at 1000 level or beyond in addition to the above

Diploma in Indigenous Learning – For Future Nursing Students

The Diploma program offers a pathway to the Bachelor of Science in Nursing program within the Trent/Fleming School of Nursing.

To be admitted to the compressed Nursing program, students must meet the following requirements:

- Successful completion of the Diploma in Indigenous Learning with a minimum cumulative average of 70% and a minimum 60% in each course
- Fulfillment of admissions criteria for the Bachelor of Science in Nursing compressed program (see Nursing)

Students should include PSYC 1020H in the Diploma program, as well as courses in Mathematics, Chemistry, and/or Biology if not previously taken as 4U secondary school credits with the minimum grades required for admission to the Nursing program.

GDIP.BEMA - Bioenvironmental Monitoring & Assessment - G.Dip (Course Based)

Overview

Academic Level
Graduate

Credential
Bioenvironmental Monitoring & Assessment

Description
The Graduate Diploma (G.Dip) in Bioenvironmental Monitoring and Assessment (BEMA) Program is an interdisciplinary program in the natural sciences. It is served by faculty principally from the departments of Biology, Forensic Science, and School of the Environment, as well as adjunct faculty. Two Tier 1 Canada Research Chairs are appointed to the program. The aim of the program is to provide students with a background in the theory and practice of biological monitoring and assessment within an environmental context.

Requirements

Graduate Diploma in Bioenvironmental Monitoring & Assessment. 8 months (2 terms)

Complete the following requirements:

- 2.0 core course credits: BEMA 5000H, BEMA 5002H, BEMA 5004H, and BEMA 5003H or BEMA 5008H
- 1.0 elective credits in addition to the above*

*Unless approved, elective credits must be taken from BEMA elective course list.

Note: The same course cannot be used to meet multiple degree requirements.

Program Regulations

The general regulations and requirements for graduate degrees at Trent University apply to the Bioenvironmental Monitoring and Assessment Program. Application for admission should be received by February 1 for consideration for Fall admission into the program. Applicants should hold an undergraduate Honours (4-year) degree in Biology, Environmental Science, Geography, or an equivalent science degree. Students in the G.Dip program are required to take four core courses and two electives.

Students must attain at least a B- (70%) in all core courses to remain registered in the program. Students who obtain less than 70% in an elective course may take another course in substitution, if available. If 70% is not obtained in the substituted course, the student will then be obliged to withdraw from the program. Students who obtain less than 70% in a core course will not be permitted to retake the course and will be required to withdraw from the program, unless otherwise permitted through appeal to the program.

GDIP.EDUC.EDCL - Educational and Community Leadership - G.Dip (Course Based)

Overview

Academic Level
Graduate

Credential
Educational and Community Leadership

Description
Building on the previously established Master of Education in Educational Studies, this graduate diploma is focused on Educational and Community Leadership. It is aimed at professionals interested in pursuing leadership roles in education and community contexts. In this program you will explore teaching and learning contexts within and beyond the classroom. This personalized approach will support you in your educational learning goals, whether you work in education or industry, community or public service. This program was designed especially for students in fulltime employment, and encourages you to chart your own course of study and follow it at your own pace.

Graduates of this program will be awarded a Graduate Diploma in Educational and Community Leadership.

Requirements

Graduate Diploma in Educational and Community Leadership

Complete the following requirements:

- 0.5 required credit from: EDUC 5010H
- 0.5 required credit from: EDUC 5020H, EDUC 5030H, EDUC 5031H, EDUC 5210H or EDUC 5920H

- 1.5 elective credits in addition to the above*

*Unless approved, elective credits must be taken from EDUC graduate course list

Note: The same course cannot be used to meet multiple degree requirements.

Program Regulations

The general regulations and requirements of Trent University apply to the Graduate Diploma in Educational and Community Leadership. To be considered for admission, applicants must have achieved a four-year bachelor's degree (BA/BSc, or equivalent), or a three-year bachelor's degree plus a BEd degree (or equivalent), from an accredited university, with a minimum GPA of 73% (B) in their last 10 credits. Applicants must meet English language proficiency requirements as described in the Graduate Academic Calendar.

Graduate Diploma candidates who wish to "ladder" into the Master of Education program must demonstrate success in the graduate courses and should have approval from the Program Director. Applicants who would not be admitted to the MEd on academic grounds may apply to the graduate diploma, and if admitted, demonstrate improved academic ability (77% or greater across the five courses) in order to proceed into the MEd program. Laddering from the Graduate Diploma to the MEd requires approval of the Program Director.

GDIP.ICA - Instrumental Chemical Analysis - G.Dip (Course Based)

Overview

Academic Level
Graduate

Credential
Instrumental Chemical Analysis

Description
Many aspects of modern environmental science, health sciences, and biology are dependent on high quality chemical data and the determination of elements and compounds found at very low concentrations in a variety of media. To measure these substances at such low concentrations requires state-of-the-science analytical instruments and knowledge of quality control, quality assurance, and data processing. The Instrumental Chemical Analysis program is in response to a critical need for people who have both the theoretical understanding of how modern instruments function and the skills to operate them. This professional graduate program gives graduates practical skills and theoretical foundation for jobs in commercial, academic and government laboratories. There are two streams within the Instrumental Chemical Analysis program: A Graduate Diploma (GDip) in Instrumental Chemical Analysis and a Master of Instrumental Chemical Analysis (M.ICA). The Diploma is a 8 month course-based option that does not include the co-op placement or preparatory course.

TRENT UNIVERSITY

INSTRUMENTAL CHEMICAL ANALYSIS M.ICA/G.DIP

Requirements

Graduate Diploma in Instrumental Chemical Analysis

Complete the following requirements:

- 4.5 credits: ICAN 5001H, ICAN 5002H, ICAN 5003H, ICAN 5004H, ICAN 5005H, ICAN 5110H, ICAN 5120H, ICAN 5121H, ICAN 5122H

Program Regulations

Proposed progression through the Graduate Diploma program:

- Semester 1: complete 4 half credit (0.50) courses:

  ICAN 5001H-ENLS 5088H: Mass Spectrometry
  ICAN 5002H: Advanced Analytical Separation Techniques
  ICAN 5004H: Statistical Analysis and Data Processing
  ICAN 5120H: Sample Preparation

- Semester 2: complete 5 half credit (0.50) courses:

  ICAN 5003H: Accreditation and Quality Management Systems
  ICAN 5005H: Instrument Maintenance and Repair
  ICAN 5110H: Troubleshooting Analytical Methods and Instruments

  ICAN 5121H: ICP-MS & LC-MS/MS
  ICAN 5122H: Other Analytical Methods Overview

Program Regulations

The general regulations and requirements of Trent University apply to the Instrumental Chemical Analysis graduate program. Students are admitted to the program once a year for studies beginning the following September. Applicants are required to hold a four-year Bachelors of Science degree in any relevant science including biology, biochemistry, chemistry, environmental science, forensic science, physics, or health science. Applicants must have achieved an average of at least an upper second-class standing (B+/77%) in the work of the last 10 full academic credits or the last two undergraduate years (full-time equivalent). Students should also be able to demonstrate some relevant analytical laboratory experience.

IESD - Indigenous Environmental Studies - Diploma

Overview

Academic Level
Undergraduate

Credential
Indigenous Env. Studies Dip.

Description
The Diploma in Indigenous Environmental Studies & Sciences is intended for students of Indigenous ancestry who may be interested in specific educational opportunities or a pathway to a university degree.

INFORMATION & ADDITIONAL NOTES

- The Diploma is a two-year program open to students who have the equivalent of Ontario Grade 12 or qualify as mature students.
- Foundational courses INDG 1011H and 1012H provide the academic skills, attitudes, strategies, and mutual support systems that students need to be successful in a university environment.
- The Diploma will be awarded upon successful completion of the program. A Trent University transcript will identify all courses undertaken and grades received.
- Students who have earned the Diploma may apply for admission to the BA or BSc program. Credits earned in the Diploma program are transferable to the General or Honours BA and BSc degrees.
- Indigenous students seeking admission to this or other University programs should contact the Aboriginal enrolment advisor in the First Peoples House of Learning to inquire about special assistance with the admission process.

Requirements

Diploma in Indigenous Environmental Studies & Sciences

The diploma program consists of the following 7.5 credits:

- 2.0 IESS credits consisting of IESS 1001H, 2601Y, and 3631H

- 3.0 INDG credits consisting of INDG 1001H, 1002H, 1011H, 1012H, 1500H, and 1510H
- 1.0 ERSC credit consisting of ERSC 1010H and 1020H
- 0.5 credit from BIOL-ERSC 2260H or ERSC 2240H
- 1.0 credit from ERST-CAST 2520H, ERST-CAST 2525H, CAST-ERST-GEOG 2043H or 2044H

Program Description
Yellowknives Dene First Nation (YKDFN) Indigenous Environmental Studies and Sciences Diploma.

Description
www.trentu.ca/iess

In collaboration with Yellowknives Dene First Nation, the Indigenous Environmental Studies & Sciences Diploma is intended for students of Indigenous ancestry who may be interested in specific educational opportunities or a pathway to a university degree.

INFORMATION & ADDITIONAL NOTES

- The Diploma is a two-year program open to students who have the equivalent of Ontario Grade 12 equivalent (including Northwest Territories Grade 12), or qualify as mature students. Students will apply directly to Yellowknives Dene First Nation with the recommendation for admission made to Trent University.
- The Diploma will be awarded upon successful completion of the program. A Trent University transcript will identify all courses undertaken and grades received.
- Students who have earned the Diploma may apply for admission to the BA or BSc program. Credits earned in the Diploma program are transferable to the General or Honours BA and BSc degrees.
- For more information, contact the Indigenous Environmental Studies & Sciences Program Coordinator.

Requirements

The diploma program consists of the following 7.5 credits:

- 2.0 IESS credits consisting of IESS 1001H, 2601Y, and 3631H
- 1.0 ERSC credit consisting of ERSC 1010H and 1020H
- 0.5 INDG credit consisting of INDG 1001H
- 4.0 credits from ERSC 2240H, 3635H, 3890H, GEOG 1045H, INDG 1011H, 1012H, 1500H, 1510H, 2100Y, or 3901H

M.ARTM - Arts Management - M.ARTM (Co-op)

Overview

Academic Level
Graduate

Credential
Master of Arts Management

Program Description
Course Based

Description
The Master of Arts Management graduate program is designed to provide a unique educational opportunity at the Master's level for students who are considering a career in arts management and administration, or for professionals in the practice who wish to advance their skills and enhance their knowledge of the field. Students will develop the scholarly knowledge, applied skills, critical thinking, and creative problem-solving abilities that will provide a strong foundation for professionals working in arts organizations, government ministries, municipal departments, not-for-profit arts organizations, non-governmental organizations (NGOs), private and public foundations, and small social or cultural enterprises.

These objectives are achieved through a combination of course work and in the culminating co-op placement undertaken in conjunction with an arts organization, government department, public agency or cultural enterprise, with a required research report. The intended learning outcomes of the program are to deepen our students' understanding of arts policy and practice, impart key administrative skills and core management thought, and through practical engagement in the co-op, develop hands-on experience and problem-solving skills which will aid them in finding future employment and achieving excellence in their professional practice. Graduates will obtain knowledge of Canadian and international policy and management practices concerning the arts, issues and trends in cultural creation, production and distribution, and they will be able to analyze methodologies of administrative practice, thereby making the skills learned transferable to other areas of policy development as well.

Requirements

Master of Arts Management

Complete the following 6.0 credit requirements:

- 4.0 required credits including; ARTM 5000H, ARTM 5500H, ARTM 5020H, CSID 5702H, CSID 5202H, MSMG 5030H, MSMG 5300H, MSMG 5940H
- 0.5 credits in COOP 5000H
- 1.0 credits in ARTM 5700Y or ARTM 5800Y
- 0.5 credits in elective course

Program Regulations

- The general regulations and requirements of Trent University for the MSc or MA degree apply to this graduate program. Students in the course-based streams are normally admitted into the program once a year for studies beginning in the following September
- The normal requirement for admission into the Program is an upper second class (77% or better) (B+ at Trent) standing or its equivalent, in an Honours BSc or BA degree

• A grade of at least B- (70%) must be obtained in each of the graduate courses. For further details, see Failed Course Policy

• The expected time of completion for the program is normally twelve (12) months for full-time course based students

• Co-op students are required to pay a $750 administrative co-op fee during their Summer work term. The Co-op Assistance Program is available to support students in financial need with co-op expenses

• Students are encouraged to meet with their Co-op Coordinator at CareerSpace for support with their co-op job search and career development

M.BEMA - Bioenvironmental Monitoring & Assessment - M.BEMA (Course Based)

Overview

Academic Level
Graduate

Credential
MASTER OF BIOENVRIONMENTAL

Program Description
Course Based

Description
The Master of Bioenvironmental Monitoring and Assessment (M.BEMA) Program is an interdisciplinary program in the natural sciences. It is served by faculty principally from the departments of Biology, Forensic Science, and School of the Environment, as well as adjunct faculty. Two Tier 1 Canada Research Chairs are appointed to the program. The aim of the program is to provide students with a background in the theory and practice of biological monitoring and assessment within an environmental context, as well as practical experience through a professional work placement with government, conservation authority, environmental consultant, or non-governmental agency.

TRENT UNIVERSITY
BEMA GRADUATE PROGRAM

Requirements

Master of Bioenvironmental Monitoring & Assessment. 12 months (3 terms)

A one-year course-based degree. Students will take online courses for eight months (September to May), followed by a 15-week placement (May to August) and one-week face-to-face capstone course (late August). In Terms 1 and 2, students

complete eight (8) online half-credit courses (5 required core courses and 3 electives). In Term 3, the Placement (1.5 credits) and Capstone courses (half-credit) are completed.

Complete the following requirements:

- 3.0 core course credits: BEMA 5000H, BEMA 5002H, BEMA 5003H, BEMA 5004H, BEMA 5008H and BEMA 5014H
- 1.5 core course credit: BEMA 5013C
- 1.5 elective credits in addition to the above*

*Unless approved, elective credits must be taken from BEMA course list

Note: The same course cannot be used to meet multiple degree requirements.

Program Regulations

The general regulations and requirements for graduate degrees at Trent University apply to the Bioenvironmental Monitoring and Assessment Program. Application for admission should be received by February 1 for consideration for Fall admission into the program. Applicants should hold an undergraduate Honours (4-year) degree in Biology, Environmental Science, Geography, or an equivalent science degree. Students in the Masters (M.BEMA) program are required to take five core and three elective courses (Fall/Winter online), and the Placement and the Capstone core courses (in-person, in Spring and Summer). Students enrolled in part-time studies must take BEMA 5000H and BEMA 5003H in the first fall term, if completing the program in two years. M.BEMA students must complete all online courses prior to starting the Placement and Capstone courses, unless approved by the Program Director.

Students must attain at least a B- (70%) in all core courses to remain registered in the program. Students who obtain less than 70% in an elective course may take another course in substitution, if available. If 70% is not obtained in the substituted course, the student will then be obliged to withdraw from the program. Students who obtain less than 70% in a core course will not be permitted to retake the course and will be required to withdraw from the program, unless otherwise permitted through appeal to the program.

M.ICA - Instrumental Chemical Analysis - M.ICA (Co-op)

Overview

Academic Level
Graduate

Credential
Master of Instrumental Chemical Analysis

Program Description
Course Based

Description
Many aspects of modern environmental science, health sciences, and biology are dependent on high quality chemical data and the determination of elements and compounds found at very low concentrations in a variety of media. To measure these substances at such low concentrations requires state-of-the-science analytical instruments and knowledge of quality control, quality assurance, and data processing. The Instrumental Chemical Analysis program is in response to a critical need for people who have both the theoretical understanding of how modern instruments function and the skills to operate them. This professional graduate program gives graduates practical skills and theoretical foundation for jobs in commercial, academic and government laboratories. There are two streams within the Instrumental Chemical Analysis program: A Graduate Diploma (GDip) in Instrumental Chemical Analysis and a Master of Instrumental Chemical Analysis (M.ICA).

Requirements

Master of Instrumental Chemical Analysis

Complete the following requirements:

- 5.0 credits: ICAN 5001H, ICAN 5002H, ICAN 5003H, ICAN 5004H, ICAN 5005H, ICAN 5110H, ICAN 5120H, ICAN 5121H and ICAN 5122H*, COOP 5000H
- 0.5 credit: ICAN 5200H

  *Advanced standing if CHEM-4422H completed at Trent University, with a minimum grade of (B-/70%) within the last three years.

Program Regulations

Proposed progression through the M.ICA program:

- Semester 1: complete 5 half credit (0.50) courses:

  ICAN 5001H-ENLS 5088H: Mass Spectrometry
  ICAN 5002H: Advanced Analytical Separation Techniques
  ICAN 5004H: Statistical Analysis and Data Processing
  ICAN 5120H: Sample Preparation
  COOP 5000H: Professional Foundations

- Semester 2: complete 5 half credit (0.50) courses:

  ICAN 5003H: Accreditation and Quality Management Systems
  ICAN 5005H: Instrument Maintenance and Repair

  ICAN 5110H: Troubleshooting Analytical Methods and Instruments
  ICAN 5121H: ICP-MS & LC-MS/MS
  ICAN 5122H: Other Analytical Methods Overview*

- Semester 3: complete half credit (0.5) course:

  ICAN 5200H: Co-op Placement

  Students who are not able to complete, obtain, or are not successful in the co-op placement will graduate with the Diploma.

Program Regulations

The general regulations and requirements of Trent University apply to the Instrumental Chemical Analysis graduate program. Students are admitted to the program once a year for studies beginning the following September. Applicants are required to hold a four-year Bachelors of Science degree in any relevant science including biology, biochemistry, chemistry, environmental science, forensic science, physics, or health science. Applicants must have achieved an average of at least an upper second-class standing (B+/77%) in the work of the last 10 full academic credits or the last two undergraduate years (full-time equivalent). Students should also be able to demonstrate some relevant analytical laboratory experience.

Students who are not able to complete, obtain, or are not successful in the placement will graduate with the Diploma.

*Students admitted to the program that have completed CHEM-4422H at Trent University, with a minimum grade of (B-/70%) within the last three years will be admitted with advanced standing, and will not be required to complete ICAN-5122H as part of the M.ICA degree requirements.

Co-op students are required to pay a $750 administrative co-op fee during their Summer work term. The Co-op Assistance Program is available to support students in financial need with co-op expenses.

Students are encouraged to meet with their Co-op Coordinator at CareerSpace for support with their co-op job search and career development.

Credential
Master of Management

Program Description
Course Based, Durham Campus

Description
The Master of Management graduate program is a 16-month course-based graduate program offered at the Durham campus. Designed for individuals aspiring to leadership roles in Canada or internationally, the program equips students with the critical skills needed to thrive in today's competitive job market.

Students may begin either program directly after their university graduation or after gaining post graduation work experience. The program provides a comprehensive foundation in key business and management areas, including accounting, corporate finance, marketing, strategic planning, and crisis management.

Beyond technical proficiency, the program emphasizes the importance of understanding broader social and ethical issues impacting business organizations today.

Delivered over four academic terms, students complete four courses in each of the first three terms, followed by a work integrated learning experience in the final term, offering valuable real-world application of their studies. Domestic students have an option of part-time studies. Majority of course offerings have a remote option.

TRENT UNIVERSITY
MASTER OF MANAGEMENT

Requirements

Master of Management (Durham)

Complete the following requirements:

- 6.0 credits from: MSMG 5030H, MSMG 5050H, MSMG 5100H, MSMG 5120H, MSMG 5210H, MSMG 5220H, MSMG 5250H, MSMG 5260H, MSMG 5300H, MSMG 5710H, MSMG 5720H and MSMG 5800H
- 1.0 credit from: MSMG 5000Y

Program Regulations

The Master of Management graduate program is governed by the general regulations and requirements of the University. Students may choose to pursue the Master of Management program on either a full-time or part-time basis, providing flexibility to accommodate diverse academic and professional commitments.

To be considered for admission, applicants must hold a joint or single-major Honours B.A. or B.Sc. degree (or equivalent), with a minimum average of B+ (77% or GPA 3.3) in the final ten undergraduate credits. In addition to meeting the minimum academic requirements, admission decisions are based on the availability of space and the relevance of the applicant's prior academic background and training.

Applicants are expected to have a foundational understanding of research methodology. This may be demonstrated through previous coursework in calculus or successful completion of an undergraduate quantitative methods course, the latter of which is especially beneficial for success in the program.

Admission is competitive and enrolment is limited. Preference will be given to applicants who exceed the minimum requirements and those with relevant work experience. Ideally, applicants should have completed their undergraduate degree within the past five years.

MSMG Pre-Masters stream admission. The Master of Management (MSMG) Pre-Masters stream provides a pathway to graduate level studies for students who wish to complete an additional year of study to qualify for the graduate level program in MSMG. The program allows students to build the necessary academic foundation to transition seamlessly into the MSMG program. Students who have a 3-year bachelors degree or who do not meet the MSMG's entrance average can take the MSMG Pre-Masters program. Admission to the Pre-Master's program will require a 70% average and will be dependent on consultation with the MSMG graduate director.

Students will take a suite of relevant undergraduate courses in the form of a one year post-graduate certificate in E-Commerce at either the Peterborough or Durham campus.

Upon completing, students who obtain a 77% average in the post-graduate certificate will be able to commence the Masters degree the following September with permission of the graduate director.

To graduate, students must successfully complete 13 courses, including a work-integrated learning component, typically undertaken in the final term. Prior to beginning this placement, students must complete three preparatory workshops and maintain a minimum cumulative average of 70%. A grade of at least B- (70%) is required in each graduate-level course. For further details, students should consult the School of Graduate Studies' Failed Course Policy.

Description
The Master of Management: Health Care Management is a 16-month course-based graduate program delivered at the Durham campus. Tailored for individuals pursuing leadership roles in the dynamic and complex health care sector, the program prepares graduates to navigate the strategic and operational challenges inherent in health care delivery, particularly in the context of limited resources and growing societal needs.

Students may begin either program directly after their university graduation or after gaining post graduation work experience. The curriculum is designed to foster a deep understanding of the broader social and organizational issues that shape the modern health care landscape, while also building core management competencies.

Delivered over four academic terms, students complete four courses in each of the first three terms, followed by a work integrated learning experience in the final term. The experiential component allows students to apply their knowledge in real-world health care settings, bridging theory with practice. Domestic students have an option of part-time studies. Majority of course offerings have a remote option.

Description
The Master of Management: Strategic Change Management is a 16-month, course-based graduate program located on the Durham campus. Designed for individuals aspiring to leadership roles in Canada or internationally, the program equips students with the strategic thinking and adaptive management skills needed to excel in today's rapidly evolving global job market.

Students may begin either program directly after their university graduation or after gaining post graduation work experience. The curriculum has been developed to meet the needs of modern employers, providing a strong foundation across a wide range of business and management disciplines—including accounting, corporate finance, marketing, strategic planning, and crisis management.

With a focus on navigating organizational transformation, the program also encourages students to engage with the broader social, economic, and ethical issues that influence business operations in a changing world.

Structured over four academic terms, students complete four courses in each of the first three terms, followed by a work-integrated learning opportunity in the final term. This experiential component allows students to apply their knowledge in real-world health care settings, bridging theory with practice. Domestic students have an option of part-time studies. Majority of course offerings have a remote option.

Master of Management: Strategic Change Management Fast Track (Durham)

Complete the following requirements:

- 4.0 credits from: MSMG 5030H, MSMG 5050H, MSMG 5100H, MSMG 5210H, MSMG 5220H, MSMG 5300H, MSMG 5900H and MSMG 5940H
- 1.0 credit from: MSMG 5000Y

MA.AGNG - Interdisciplinary Aging Studies - MA (Thesis)

Overview

Academic Level
Graduate

Credential
Master of Arts

Program Description
Thesis

Description

The MA in Interdisciplinary Aging Studies is a research-based program leading to the degree of Master of Arts that is offered in-person on both a full- and part-time basis. The expected completion time for the full-time program is two years, and the part-time program is four years. The program is designed to foster an understanding of key conceptual and methodological foundations of interdisciplinary aging studies, executed from both research-based and applied (e.g., experiential learning) approaches. It provides training in social science and humanities fields related to the study of aging, including social-cultural dimensions of aging; systems, services and policy; cultural/ literary studies, performance, and creative arts; social justice, especially equity, diversity and inclusion. It also provides training in fields related to the study of the biology and psychology of again, and in professional fields requiring expertise in aging.

The MA program emphasizes the importance of developing skills in critical analysis of contemporary aging issues and practical approaches to aging-related challenges across different contexts – ranging from individual experiences of aging to the societal complexities of aging populations. With this degree, MA graduates will be prepared for traditional positions within academia (University) or to pursue non-academic career paths, where in-depth research training is required, such as public and non-profit sectors, and managerial-level positions in institutions and community organizations that support older adults.

Requirements

Master of Arts in Interdisciplinary Aging Studies. Complete the following requirements:

- 1.0 credit from: AGNG 5000H and AGNG 5003H
- 1.0 credit from: AGNG 5001Y or AGNG 5002Y
- Thesis Project
- 1.0 elective credit in addition to the above*

*Unless approved, elective credit must be taken from AGNG course list

Note: The same course cannot be used to meet multiple degree requirements.

Program Regulations

Applicants to the MA program will normally have completed a 4-year Honours BA or BSc from an accredited institution, with an overall average of at least B+ (77% GPA 3.3) in the last four semesters (full-time equivalent).

Applicants will normally have completed a supervised research project, such as a thesis, program evaluation, or community-based research project, or include a 250-word statement that indicates their capacity to conduct independent research.

Admissions to the MA program are based on the availability of appropriate faculty as supervisors and committee members, feasibility of the applicant's proposed course of study and research project, appropriateness of the applicant's previous education and training. Alternatives to grades will be considered, such as a history of volunteer work or paid work experience with older adults or other relevant groups, or other commensurate life experience.

MA.AMOD - Applied Modelling & Quantitative Methods - MA (Thesis)

Overview

Academic Level
Graduate

Credential
Master of Arts

Program Description
Thesis

Description

Applied Modelling & Quantitative Methods (AMOD) is an interdisciplinary program which leads to a MA degree in the application of techniques and theory of modelling in the natural sciences and social sciences. The thesis program is designed to overcome some of the barriers to interdisciplinary collaboration by bringing together, at the graduate level, students who are actively applying modelling techniques in a broad range of disciplines (e.g., Biology, Business Administration, Chemistry, Computer Science, Economics, Geography, Mathematics, Physics & Astronomy, and Psychology). Although AMOD is oriented towards quantitative models, utilizing computational, mathematical or statistical techniques, it is discipline-based and is not a program in applied mathematics.

AMOD currently offers three course-based streams in Big Data Analytics, Big Data Financial Analytics and Data Science & Analytics for a MSc degree.

All streams share two primary objectives:

1. the teaching of fundamental and common analytical modelling techniques required for research in a large number of quantitative fields;
2. the cross-fertilization that comes from sharing ideas with researchers in other disciplines, and the development of the communication skills required for this to occur.

The thesis stream has the objective of providing sufficient training in a home discipline, including coursework and a research thesis, to permit progression to a disciplinary PhD program.

Requirements

Master of Arts in Applied Modelling and Quantitative Methods.

Complete the following requirements:

- 0.5 credit from: AMOD 5220H, AMOD 5230H or AMOD 5240H
- 1.0 credit from: AMOD 5901H and AMOD 5902H
- Thesis Project
- 1.5 elective credits in addition to the above*

*Unless approved, elective credits must be taken from AMOD course list

Note: The same course cannot be used to meet multiple degree requirements.

Program Regulations

The general regulations and requirements of Trent University for the MA degree apply to this graduate program. The thesis stream accepts applications for the September, January and May intakes of each academic year. The normal requirement for admission into the AMOD program is an upper second class (77% or better) (B+ at Trent) standing or its equivalent, in a joint or single Honours BSc or BA degree. Before acceptance into the thesis-based stream, a core faculty member must be identified to supervise the student's work.

A grade of at least B- (70%) must be obtained in each of the graduate courses. For further details, see Failed Course Policy.

The expected time of completion for the program is normally two years for full-time thesis based students.

MA.ANTH - Anthropology - MA (Thesis)

Overview

Academic Level
Graduate

Credential
Master of Arts

Program Description
Thesis

Description
In addition to providing a thorough grounding in anthropological theory and research methods as a preparation for professional careers and/or continuing study at the PhD level, our program produces graduates with sufficient depth and breadth of outlook to meet the need for resourcefulness, versatility and adaptability in modern society. Areas of strength within the MA program include: landscape archaeology, lithic technology, material culture studies, mortuary practices, public archaeology, and ethnographic studies. Regional areas of emphasis include: the ancient Greek and Roman worlds, Southeast Asia, Mesoamerica, and Oceania.

Requirements

Master of Arts in Anthropology.

Complete the following requirements:

- 1.0 credit from: Normally ANTH 5000Y or ANTH 5100Y
- 1.0 credit from: ANTH 5500Y
- 1.0 ANTH 5000 level credit in addition to the above
- Original thesis research with oral examination

Note: The same course cannot be used to meet multiple degree requirements.

Program Regulations

The general regulations and requirements of Trent University for the MA/MSc degree apply to graduate study in Anthropology. Students are admitted to the program once a year for studies beginning in the following September. Applications should be received by February 1 to be considered for admission and funding. To be eligible for admission, the applicant must possess a joint or single Honours BSc or BA degree or equivalent in Anthropology or a related field, with an average of at least an upper second class standing (B+, 77%) in the work of the last four semesters or the last two undergraduate years (full-time equivalent). Applicants to the program are expected to have a foundation in appropriate research methodology. They may be required to take an undergraduate course deemed necessary to their program of graduate study, e.g., ANTH 3000Y, ANTH 3100Y, ANTH 3150Y or ANTH 3990Y. Students will be accepted into the MA or MSc stream based on committee review of their proposed topic of study, undergraduate degree, and supervisory recommendation. Major changes to the proposed thesis topic may result in a transfer to from the MA to MSc stream, or vice-versa.

Candidates who have fulfilled the admission requirements are required to take three full graduate credits, including either ANTH 5000Y, and normally ANTH 5000Y or ANTH 5100Y. Full-time students are normally required to complete these courses in their first year of study; part-time students are normally required to complete their course work in the first three years of study. The number of undergraduate courses allowed for credit at the graduate level cannot exceed 1/3 the number of required courses for the program. In addition to completion of the course work, students in the MA/MSc program in Anthropology are required to conduct research and write a thesis in an area of interest to be identified and approved in consultation with the student's supervisory committee, and to pass an oral examination in defense of the thesis. The text of the thesis is not to exceed forty thousand words, excluding bibliography. Students will present their thesis research at first- and second-year graduate colloquia. Students are subject to a review of their performance at the beginning of the winter session of each academic year. There is no formal language requirement, but students will be required to demonstrate (to the satisfaction of the supervisor) an acceptable capacity to read in a language or languages

considered necessary for purposes of research. In addition, students may be expected to show adequate background knowledge in a related discipline, e.g., art history.

Expected time to completion for the Anthropology MA/MSc program is two years for full-time, four years for part-time.

MA.CSID.COUR - Canadian Studies & Indigenous Studies - MA (Major Research Paper)

Overview

Academic Level
Graduate

Credential
Master of Arts

Program Description
Major Research Paper

Description
The interdisciplinary MA in Canadian Studies & Indigenous Studies program is a collaborative effort that draws on a diverse range of Trent faculty. Thematic areas for the degree include: Indigenous Peoples in Canada and Indigenous-Settler relations; Canadian culture, including literature, theory, the visual arts and cultural heritage; politics, economy, labour, social policy, and community development; environmental politics, policy and natural heritage; women and gender in Canada; identities and difference, including the study of region and place, race, ethnicity, sexual orientation, and disabilities; Canada in the global context, including circumpolar relations.

Through course work and the writing of a thesis or a major research paper, the MA program offers students advanced exploration of themes and debates in Canadian Studies & Indigenous Studies as well as a grounding in methodological and theoretical approaches to current scholarly research and writing. Critical and engaged writing, thinking and discussion are encouraged not only through the curriculum, but also through conferences, visiting speakers, student workshops, and other events and activities sponsored by the Frost Centre.

The MA is offered by the Frost Centre for Canadian Studies & Indigenous Studies, established in 1982 and named for Trent's first Chancellor and a former premier of Ontario, Leslie Frost. Within the School for the Study of Canada/École d'études canadiennes, the Frost Centre is the home for two graduate programs, including the MA in Canadian Studies & Indigenous Studies, and the PhD in Canadian Studies. The Centre strives to create a vibrant space for scholarly research, writing, and discussion about debates and issues central to a critical understanding of Canada.

All students must attain at least B-/70% in their course work. Additional requirements appropriate to the candidate's field may be specified by the supervisory committee. The expected time of completion of the degree is two years for thesis option, and 12 months for coursebased option.

Requirements

Master of Arts in Canadian Studies & Indigenous Studies (Major Research Paper). Complete the following requirements.

- 3.0 CSID graduate courses credits, including CSID 5000Y Core Colloquium
- Major Research Paper

A written major research paper, to be examined by a supervisor and one other Frost faculty member, from a different academic unit or program from the supervisor. Policies relating to the research paper are laid out online.

*Unless approved, elective credits must be taken from CSID course list of 5000-level courses.

Note: The same course cannot be used to meet multiple degree requirements.

Program Regulations

The general regulations and requirements of Trent University for the MA degree apply to the Canadian Studies & Indigenous Studies program. Students are admitted to the program once a year for studies beginning the following September. Applicants must have achieved an average of at least (B+/77%) in the work over the last 10 full academic credits or the last two undergraduate years (fulltime equivalent). Students are also expected to have taken undergraduate courses broadly related to themes in Canadian Studies or Indigenous Studies, or be willing to take such courses as their make-up, usually before admission. As well, students must have a clear interest in an interdisciplinary graduate experience. Course selection must be made in consultation with their supervisor and/or the Frost Centre Director.

All students must attain at least B-/70% in their course work. Additional requirements appropriate to the candidate's field may be specified by the supervisory committee. The expected time of completion of the degree is two years for thesis option, and 12 months for coursebased option.

MA.CUST.COUR - Cultural Studies - MA (Major Research Paper)

Overview

Academic Level
Graduate

Credential
Master of Arts

Program Description
Major Research Paper

Description
Interdisciplinary in spirit and theoretical in emphasis, this MA program focuses on contemporary issues in the arts, humanities and social sciences from the perspectives of cultural and media theory.

The aim of the program is to enable students to engage culture, theory and politics in the context of intensive collegial discussion and substantive projects of research. All students pursue a core seminar (CUST 5000Y) in addition to electives. In our one-year stream, students write a Major Research Paper; in our two-year stream, students write a longer Master's Thesis. For both streams, students may pursue research-creation projects in addition to traditional research projects. An annual speakers' series is organized in conjunction with the CUST 5000Y seminar. The degree program is intended both as a preparation for doctoral studies, and as a qualification for those pursuing a nonacademic career, for example, in teaching, media, law and government service. Recently, areas of emphasis within the program have been: nature, culture and technology; gender and the body; science as knowledge and discourse; social and political theory; life in the anthropocene.

TRENT UNIVERSITY
CULTURAL STUDIES MA

Requirements

Master of Arts in Cultural Studies (Major Research Paper).
Complete the following requirements.

- 1.0 credit from: CUST 5000Y
- Major Research Project
- 2.0 elective credits in addition to the above*

*Unless approved, elective credits must be taken from CUST graduate course list

Note: The same course cannot be used to meet multiple degree requirements.

Program Regulations

The general regulations and requirements of Trent University for the MA degree apply to the Cultural Studies program.

The admission deadline is February 1 for fall admission into the program. Admission is competitive for a limited number of places. To be considered, applicants should have an Honours degree with a minimum B+ (77%) in the last two years of full-time study, demonstrated aptitude for interdisciplinary study, and an appropriate area of intellectual and research interest.

Students must attain at least a B- (70%) standing in the course work. For further details, see Failed Course Policy.

Competency in a second language is not a requirement, although additional requirements appropriate to the candidate's field, including language competency, may be specified by the supervisory committee.

MA.ENGL.COUR - English Literature (Public Texts) - MA (Major Research Paper)

Overview

Academic Level
Graduate

Credential
Master of Arts

Program Description
Major Research Paper

Description
The constantly evolving material forms of texts and their modes of circulation shape publics into being, and are shaped by publics in turn. In the MA in English Literature at Trent University, our students will develop new ways of looking at the production of texts, their circulation, and the relationship between texts and their publics, exploring issues that are emerging as central to literary research in the twenty-first century.

A key element of this program is the combination of theory and practice. Thus in the Public Texts Colloquium, students will be brought together with faculty, visiting scholars and experts (e.g., archivists, librarians, printers, publishers, editors, booksellers, book designers) for an intensive exploration of relevant historical, theoretical and practical issues. In the same spirit, students will be able to customize their studies by choosing one of four different paths to the degree: some may wish to embark on a concentrated study of some aspect of the subject by writing a thesis; others may wish to combine additional courses with a major research paper; and still others may elect to combine their academic studies with the practical experience of an internship or a research-creation project. This flexibility assures that, in addition to being prepared for further studies at the PhD level in English literature and in allied areas such as Print Culture or the History of the Book, our graduates will develop professional skills applicable to fields such as publishing, editing, communications, journalism, or archival work.

Students in the English MA Public Texts program may also participate in Trent University's Graduate Collaborative Specialization programs in Feminist and Gender Studies or in Aging Studies, undertaking specialized research in these areas. For further information, please refer to the Collaborative Specializations section of this academic calendar.

Requirements

Master of Arts in English (Public Texts) (Major Research Paper).
Complete the following requirements:

- ENGL 5001H: Colloquium (Pass/Fail) (0.5 credit)
- ENGL 5003H: Research and Professional Development Seminar (Pass/Fail) (0.5 credit)
- ENGL 5007H: Public Texts (0.5 credit)
- 3 elective courses (total of 1.5 credits)*
- ENGL 5500Y: Major Research Paper (1.0 credit)

*Unless approved, elective credits must be taken from ENGL graduate course list

Note: The same course cannot be used to meet multiple degree requirements.

Program Regulations

The general regulations and requirements of Trent University for the MA degree apply to this graduate program. To be considered for admission, students must have completed an Honours Degree in English Literature or in another field relevant to Public Texts, with an average of at least B+ (77%, GPA 3.3) overall and A- (80%, GPA 3.7) in English courses, or equivalent. In some cases students without an Honours Degree will be accepted into the Program either on the condition that they earn further undergraduate credits as specified by the Graduate Program Selection Committee or that they provide the Committee with a convincing case for admission based on professional experience.

The Graduate Programs Selection Committee will begin the selection process as of the application submission date of February 1 until all available positions/spaces are filled.

Applications received after this date will be accepted and may be considered for funding until all available positions/ spaces are filled.

Students must maintain at least a second class standing (B-70%) in their work. For further details, see Failed Course Policy. There is no language requirement, although additional requirements appropriate to the candidate's field, including requirements with regard to language, may be specified by the supervisory committee. Students who intend to pursue doctoral work will be strongly encouraged to develop a reading ability in at least one language in addition to English.

The general regulations and requirements of Trent University for the MA degree apply to this graduate program. To be considered for admission, students must have completed an Honours Degree in English Literature or in another field relevant to Public Texts, with an average of at least B+ (77%, GPA 3.3) overall and A- (80%, GPA 3.7) in English courses, or equivalent. In some cases students without an Honours Degree will be accepted into the Program either on the condition that they earn further undergraduate credits as specified by the Graduate Program Selection Committee or that they provide the Committee with a convincing case for admission based on professional experience.

The Graduate Programs Selection Committee will begin the selection process as of the application submission date of February 1 until all available positions/spaces are filled.

Applications received after this date will be accepted and may be considered for funding until all available positions/ spaces are filled.

Students must maintain at least a second class standing (B-70%) in their work. For further details, see Failed Course Policy. There is no language requirement, although additional requirements appropriate to the candidate's field, including requirements with regard to language, may be specified by the supervisory committee. Students who intend to pursue doctoral work will be strongly encouraged to develop a reading ability in at least one language in addition to English.

MA.HIST.COUR - History - MA (Major Research Paper)

Overview

Academic Level
Graduate

Credential
Master of Arts

Program Description
Major Research Paper

Description
The History MA program at Trent offers students research opportunities in six fields of study covering a wide-range of geographic, temporal, and theoretical interests: Colonialism and Conflict, Regional and Trans-National History, Social and Cultural History, Iberian-American History, Canadian History, and European History. This intellectual breadth, Trent's commitment to small group teaching and fostering close mentoring relationships between faculty and graduate students, ensure a high-quality graduate student experience.

The program affords students the personal attention and flexibility they need to achieve their academic goals and gives them an opportunity to pursue the full range of the historian's craft. Graduates of the MA program will be well prepared to pursue either doctoral studies in history or professional careers that build on historical expertise.

The program combines course work and an intensive research project. Students can choose between two program streams. The "Course-Based" Stream will require students to take the required full-credit Core Course and four half-credit courses, and write a Major Research Paper. In the "Thesis-Based" Stream the students will take the Core Course and two half-credit courses, and write a longer Research Thesis. The Core Course on theory, historiography, and methodology will provide students with a thorough grounding in historical issues, methods, theories, and debates. This course will also enable graduate students to interact on a weekly basis, fostering collegiality and intellectual exchange.

Requirements

Master of Arts in History (Major Research Paper). Complete the following requirements:

- 1.0 credit from: HIST 5100Y
- Major Research Paper (HIST 5500Y)
- 2.0 elective credits in addition to the above*

*Unless approved, elective credits must be taken from HIST graduate course list

The same course cannot be used to meet multiple degree requirements.

The Major Research Paper will be modeled on a scholarly journal article. It will be approximately 30–50 pages long, excluding notes and bibliography.

Program Regulations

The general regulations and requirements of Trent University for the MA degree apply to this graduate program.

Students are normally admitted into the Program once a year for studies beginning in the following September. The History Graduate Program Committee will begin the selection process immediately following the application submission date of February 1. Applications received after this date will be accepted and considered for funding until all available positions/spaces are filled.

Students must attain at least a B- (70%) in all course work to remain registered in their program. For further details, see Failed Course Policy.

Entrance Requirements

Applicants to the MA program normally will be expected to have completed a BA Single or Joint Major Honours Degree in History, with a minimum 77% (GPA 3.67 on the 4 point scale) average in the last ten undergraduate credits.

Additional considerations:

- Availability of the appropriate faculty as instructors, supervisors and committee members.
- Appropriateness of the applicant's previous education and training.
- Feasibility of the applicant's proposed course of study and project.
- Availability of appropriate academic resources (library, interlibrary, online, archival, oral, etc).
- Command of appropriate language/s by the applicant.

MA.SUST.COOP - Sustainability Studies - MA (Co-op)

Overview

Academic Level
Graduate

Credential
Master of Arts

Program Description
CoOp

Description
The MA in Sustainability Studies develops leaders in the field who can actively advance research and practice in critical sustainability-based challenges, such as environmental protection and conservation, sustainable enterprise, and positive social change. The curriculum involves a customized individual Study Plan for each student, consisting of a balance of core and elective courses. The Co-op stream is designed to give students real-world experience in their chosen sustainability field and can be a pivotal step in the transition from being a student to a working professional. Graduates of this discipline will find opportunities in a number of realms, from academia to industry, to government and non-profit sector. Students will be encouraged to have an impact on the future policies and practices within their chosen field.

Students who are not able to complete, obtain or are not successful in their placement may request to move to the Major Research Paper stream to complete their requirements.

Co-op students are required to pay a $750 administrative co-op fee during their Summer work term. The Co-op Assistance Program is available to support students in financial need with co-op expenses

Students are encouraged to meet with their Co-op Coordinator at CareerSpace for support with their co-op job search and career development.

Requirements

Master of Arts in Sustainability Studies (Co-op)

Complete the following requirements:

4.0 credits from:
• SUST 5000Y: Perspectives on Sustainability (total of 1.0 credit)
• SUST 5010H: Colloquium (Pass/Fail) (total of 0.5 credit)
• SUST 5002H: Research Methods (total of 0.5 credit)

• SUST 5600H: Social Innovation & Leadership (total of 0.5 credit)
• COOP 5000H: Professional Foundations (total of 0.5 credit)
• SUST 5700Y: Internship & Leadership in Sustainability (total of 1.0 credit)

Note: The same course cannot be used to meet multiple degree requirements.

Program Regulations

The general regulations and requirements of Trent University for the MA degree apply to graduate study in Sustainability Studies. Students are admitted to the program once a year for studies beginning in the following September. Applications should be received by February 1 to be considered for admission and funding. To be eligible for admission, the applicant must possess a joint- or single major Honours BSc or BA degree or equivalent in a related field, with a minimum average of A- (80%, GPA 3.7) in the last ten undergraduate credits. In addition to meeting the minimum admission average, admission decisions will be made based on: availability of the appropriate faculty as instructors, supervisors and committee members; appropriateness of the applicant's previous education and training; and the feasibility of the applicant's proposed course of study and project. Applicants to the program are expected to have a foundation in appropriate research methodology. Additional requirements appropriate to the candidate's area of study may be suggested by the selection committee. Students may be required to take an undergraduate course deemed necessary to their program of graduate study. Candidates must maintain at least a second class standing (B-70%) in their work. For further details, see Failed Course Policy.

CURRICULUM COMPONENTS

The 4.0 credit Co-op Stream includes a core course on sustainability, participation in a Student Faculty and Community Colloquium, and the internship course. A number of elective courses are offered, in collaboration with other graduate programs at Trent, to allow students to pursue selected issues in research methods, environmental policy, environmental history, sustainable enterprise such as strategic management, non-profit management, social enterprise and entrepreneurship with greater depth.

PROGRAM STRUCTURE

The Co-op stream requires students to complete a professional placement (paid or unpaid) that offers students practical experience alongside practicing professionals, and allows you to graduate with a distinct notation on your degree.

MED.EDUC.COUR - Educational Studies - MEd (Course Based)

Overview

Academic Level
Graduate

Credential
Master of Education

Program Description
Course Based

Description
The Master of Education offers graduate students the opportunity to explore educational theory and research to gain the critical insights needed for transformative practice. Major themes of the program include ecological and social justice, leadership and educational administration, critical literacies, Indigenous knowledge, and curriculum inquiry. The program is interdisciplinary, providing students with the opportunity to work with professors from across the university including Business Administration, Canadian Studies, English Literature, Indigenous Studies, History, Psychology, and more. Because the Master of Education can be utilized in a variety of settings, it is a valuable degree for today's dynamic workforce.

The objectives of the program are to:

- Emphasize critical practices and pedagogies;
- Encourage and celebrate excellence and innovation in teaching, learning, research and student development;
- Attract students through flexible part-time and full-time program pacing options;
- Offer students the prospect of enhanced employment opportunities for leadership roles in education.

Qualities and transferable skills developed in the program include: initiative, decision-making in complex situations, critical analysis of systemic processes, intellectual independence required for continuing professional development, ethical behaviour consistent with academic integrity for research, understanding of theory and the research process, experience in scholarly and professional writing, and the ability to apply new knowledge in a wide range of educational contexts. The course-only structure will suit professionals seeking a Masters qualification for professional advancement. Research practice and experience will be embedded in each of the courses, ensuring that students gain a good understanding of the nature of educational research. The Masters in Educational Studies course stream synthesis will require students to demonstrate their ability to access, critically read, and apply research literature to an area of interest.

TRENT UNIVERSITY
MASTER OF EDUCATIONAL STUDIES

Requirements

Master of Education in Educational Studies (Course Based).
Complete the following requirements:

- 0.5 credit from: EDUC 5010H
- 0.5 credit from: EDUC 5020H, EDUC 5030H, EDUC 5031H, EDUC 5032H or EDUC 5210H
- 4.0 elective credits in addition to the above*

*Unless approved, elective credits must be taken from EDUC graduate course list

Note: The same course cannot be used to meet multiple degree requirements.

Program Regulations

The general regulations and requirements of Trent University for the MEd degree apply to this graduate program. To be considered for admission, students must have completed an honours degree with an average of at least B+ (77%, GPA 3.3) in the last 10 undergraduate courses. Applicants with a general degree (3 years) plus a domestic BEd also eligible to apply. Applicants with a general degree plus an international BEd may be considered on a case-by-case basis.

Additional considerations:

- Availability of the appropriate faculty as instructors, supervisors and committee members.
- Appropriateness of the applicant's previous education and training.
- Feasibility of the applicant's proposed course of study and project.

- Command of appropriate language/s by the applicant.
- The Graduate Programs Selection Committee will begin the selection process in the weeks following the application submission date of February 1.
- Students must maintain at least a second class standing (B- 70%) in their work. For further details, see Failed Course Policy.

Master of Education

Program Description
Research Project

Description
The Master of Education offers graduate students the opportunity to explore educational theory and research to gain the critical insights needed for transformative practice. Major themes of the program include ecological and social justice, leadership and educational administration, critical literacies, Indigenous knowledge, and curriculum inquiry. The program is interdisciplinary, providing students with the opportunity to work with professors from across the university including Business Administration, Canadian Studies, English Literature, Indigenous Studies, History, Psychology, and more. Because the Master of Education can be utilized in a variety of settings, it is a valuable degree for today's dynamic workforce.

The objectives of the program are to:

- Emphasize critical practices and pedagogies;
- Encourage and celebrate excellence and innovation in teaching, learning, research and student development;
- Attract students through flexible part-time and full-time program pacing options;
- Offer students the prospect of enhanced employment opportunities for leadership roles in education.

Qualities and transferable skills developed in the program include: initiative, decision-making in complex situations, critical analysis of systemic processes, intellectual independence required for continuing professional development, ethical behaviour consistent with academic integrity for research, understanding of theory and the research process, experience in scholarly and professional writing, and the ability to apply new knowledge in a wide range of educational contexts.

The major research paper pathway is especially suited to professionals working in the field who want to expand their knowledge base in relation to their current practices, leadership roles, and future responsibilities. The goal is to create

opportunities for combining scholarly reflection with practical involvement and self-initiated fieldwork. The major research paper will emphasize practice-based modes of investigation, such as action research of classroom practice, leadership initiatives, and curriculum development. The paper will be equal to a thesis in academic quality but be more limited in scope and/or originality. The major research paper will be reviewed by two faculty in the M.Ed. program.

Additional considerations:

- Availability of the appropriate faculty as instructors, supervisors and committee members.
- Appropriateness of the applicant's previous education and training.
- Feasibility of the applicant's proposed course of study and project.
- Command of appropriate language/s by the applicant.
- The Graduate Programs Selection Committee will begin the selection process in the weeks following the application submission date of February 1.

MINR.ARCH - Archaeology - Minor

Overview

Academic Level
Undergraduate

Credential
Minor

Description
www.trentu.ca/archaeology

Students who have fulfilled the requirements for a single- or joint-major Honours degree in a subject other than Anthropology or Archaeology may graduate with a minor in Archaeology if they have successfully completed the courses listed below.

The Minor in Archaeology consists of the following 5.0 credits:

- 2.0 ANTH credits consisting of ANTH 1001H, 1030H, 2123H, and 3123H
- 1.0 ANTH credit from ANTH 2121H, 2122H, 2205H, or 2206H
- 2.0 ANTH credits from Categories A and/or B at the 3000 level or beyond

The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

Categories

- A: Archaeology
- B: Biological Anthropology

Notes

- Courses fulfilling the Indigenous Course Requirement are marked "ICR" in the individual course descriptions.
- Students wishing to enrol in a reading course (INDG 3900Y, 3901H, 3902H, 4900Y, 4901H, 4902H), community-based practicum (INDG 3860Y, 3861H, 3862H, 4860Y, 4861H, 4862H), or double credit thesis (INDG 4020D) must obtain the School's approval in the term prior to the course offering. The course must be identified with one of the categories to support the degree requirements. Students may count up to 2.0 credits from INDG practicum courses toward their Indigenous Studies degree requirements.
- There is overlap between Indigenous Studies course categories since individual courses address topic areas which are relevant to more than one category. If a student wishes to vary a course category for their degree requirements, they may make an appointment with the School to present their case.

The minor in Political Studies consists of the following 5.0 credits:

- 1.5 POST credits consisting of POST 1001H, 1002H, and 3600H
- 2.0 POST credits from POST 2011H, 2012H, 2231H, 2232H, 2351H, or 2352H
- 1.5 POST credits at the 3000 level in addition to the above

MINR.PSYC - Psychology - Minor

Overview

Academic Level
Undergraduate

Credential
Minor

Description
www.trentu.ca/psychology

Students who have fulfilled the requirements for a single- or joint-major Honours degree in another subject may graduate with a minor in Psychology if they have successfully completed the courses listed below.

The Minor in Psychology consists of the following 5.0 credits:

- 2.0 PSYC credits consisting of PSYC 1020H, 1030H, 2018H, and 2019H
- 0.5 PSYC credit from A2
- 0.5 PSYC credit from B2
- 0.5 PSYC credit from A3
- 0.5 PSYC credit from B3
- 0.5 PSYC credit at the 3000 level or beyond in addition to the above
- 0.5 PSYC credit in addition to the above

A2: Natural Science / A3: Natural Science / B2: Social Science / B3: Social Science

A2	A3	B2	B3
PSYC 2200H PSYC 2210H PSYC 2400H PSYC 2600H — — — — — — — — — — —	PSYC 3210H PSYC 3220H PSYC 3230H PSYC 3240H PSYC 3420H PSYC 3430H PSYC 3440H PSYC 3451H PSYC 3460H PSYC 3610H PSYC 3790H — — — —	PSYC 2300H PSYC 2310H PSYC 2550H PSYC 2700H — — — — — — — — — — —	PSYC 3300H PSYC 3330H PSYC 3500H PSYC 3510H PSYC 3550H PSYC 3560H PSYC 3590H PSYC 3710H PSYC 3725H PSYC 3730H PSYC 3740H PSYC 3750H PSYC 3760H PSYC 3770H PSYC 3780H

Notes

- 60% or higher in PSYC 1020H and 1030H is a prerequisite for all upper-level Psychology courses.
- Most courses at the 2000 and 3000 level in the department are assigned to one of two categories (Natural Science or Social Science). Students in the single-major or joint-major program in Psychology must include in their program a range of courses chosen from each category, as indicated in the requirements for the various program options.
- Any course involving work with live vertebrate animals requires the Animal Care Course. The Animal Care Course requirement is indicated in some course descriptions but may also apply to others. Check with the course instructor if in doubt.
- For non-majors taking courses where PSYC 2018H or 2019H is a prerequisite, a statistics course in another discipline may be substituted, but only if the permission of the department has been granted.
- Research practicum and reading courses are only open to students in the single-major or joint-major Honours programs in Psychology.
- Offerings of 4000-level courses change from year to year. A listing of the 4000 level courses can be found on the academic timetable.

MINR.SOCI - Sociology - Minor

Overview

Academic Level
Undergraduate

Credential
Minor

Description
www.trentu.ca/sociology

Students who have fulfilled the requirements for a single- or joint-major Honours degree in another subject may graduate with a minor in Sociology if they have successfully completed the courses listed below.

The minor in Sociology consists of the following 5.0 credits:

- 2.5 SOCI credits consisting of SOCI 1001H, 1002H, 2110H, 2151H, and 3151H
- 0.5 SOCI credit from SOCI 3100H or 3111H
- 1.0 SOCI credit at the 3000 level or beyond in addition to the above
- 1.0 SOCI credit in addition to the above

Notes

- A pass in SOCI 1001H and 60% or higher in SOCI 1002H is a prerequisite for all upper-level Sociology courses, with the possible exception of cross-listed courses, for which students should check the prerequisites.
- 3000-level courses are open to students who have completed 5.0 university credits, including at least 1.0 credit in Sociology at the 2000 level.
- 4000-level courses are open to students who have completed 10.0 university credits, including SOCI 2110H, SOCI 2151H, SOCI 3151H, and 2.0 additional 3000-level credits, of which at least 1.0 must be SOCI. Exceptions may be made for cross-listed courses, or with permission of the instructor.
- Students who have successfully completed CRIM 3617H, ECON-ADMN 2200H, GEOG-ERSC-BIOL 2080H, MATH 1051H, MATH 1052H, PSYC 2019H, PSYC 3015Y, or PSYC 3016H are not permitted to take SOCI 3160H but must substitute another half-credit course in Sociology at the 3000 level or beyond in order to fulfill degree requirements.

MS.AMOD - Applied Modelling & Quantitative Methods - MSc (Thesis)

Overview

Academic Level
Graduate

Credential
Master of Science

Program Description
Thesis

Description
Applied Modelling & Quantitative Methods (AMOD) is an interdisciplinary program which leads to a MSc degree in the application of techniques and theory of modelling in the natural sciences and social sciences. The thesis program is designed to overcome some of the barriers to interdisciplinary collaboration by bringing together, at the graduate level, students who are actively applying modelling techniques in a broad range of disciplines (e.g., Biology, Business Administration, Chemistry, Computer Science, Economics, Geography, Mathematics, Physics & Astronomy, and Psychology). Although AMOD is oriented towards quantitative models, utilizing computational, mathematical or statistical techniques, it is discipline-based and is not a program in applied mathematics.

AMOD currently offers three course-based streams in Big Data Analytics, Big Data Financial Analytics and Data Science & Analytics for a MSc degree.

All streams share two primary objectives:

1. the teaching of fundamental and common analytical modelling techniques required for research in a large number of quantitative fields;
2. the cross-fertilization that comes from sharing ideas with researchers in other disciplines, and the development of the communication skills required for this to occur.

The thesis stream has the objective of providing sufficient training in a home discipline, including coursework and a research thesis, to permit progression to a disciplinary PhD program.

MS.AMOD.DATA - Applied Modelling & Quantitative Methods: Big Data Analytics - MSc (Course Based)

Overview

Academic Level
Graduate

Credential
Master of Science

Program Description
Big Data Analytics

Description
Applied Modelling & Quantitative Methods (AMOD) is an interdisciplinary program which leads to a MSc degree in the application of techniques and theory of modelling in the natural sciences and social sciences. The program is designed to overcome some of the barriers to interdisciplinary collaboration by bringing together, at the graduate level, students who are actively applying modelling techniques in a broad range of disciplines (e.g., Biology, Business Administration, Chemistry, Computer Science, Economics, Geography, Mathematics, Physics & Astronomy, and Psychology). Although AMOD is oriented towards quantitative models, utilizing computational, mathematical or statistical techniques, it is discipline-based and is not a program in applied mathematics.

AMOD currently offers three course-based streams in Big Data Analytics, Big Data Financial Analytics and Data Science and Analytics for a MSc degree. The program also offers a thesis-based stream for a MSc or MA degree.

All streams share two primary objectives:

1. the teaching of fundamental and common analytical modelling techniques required for research in a large number of quantitative fields;
2. the cross-fertilization that comes from sharing ideas with researchers in other disciplines, and the development of the communication skills required for this to occur.

Requirements

Master of Science in Applied Modelling and Quantitative Methods.

Complete the following requirements:

- 0.5 credit from: AMOD 5220H, AMOD 5230H or AMOD 5240H
- 1.0 credit from: AMOD 5901H and AMOD 5902H
- Thesis Project
- 1.5 elective credits in addition to the above*

*Unless approved, elective credits must be taken from AMOD course list

Note: The same course cannot be used to meet multiple degree requirements.

Program Regulations

The general regulations and requirements of Trent University for the MSc degree apply to this graduate program. The thesis stream accepts applications for the September, January and May intakes of each academic year. The normal requirement for admission into the AMOD program is an upper second class (77% or better) (B+ at Trent) standing or its equivalent, in a joint or single Honours BSc or BA degree. Before acceptance into the thesis-based stream, a core faculty member must be identified to supervise the student's work.

A grade of at least B- (70%) must be obtained in each of the graduate courses. For further details, see Failed Course Policy.

The expected time of completion for the program is normally two years for full-time thesis based students.

Upon completing, students who obtain a 77% average in the post-graduate certificate will be able to commence the master's degree the following September with permission of the AMOD graduate director.

A grade of at least B- (70%) must be obtained in each of the graduate courses. For further details, see Failed Course Policy.

The expected time of completion for the program is normally 16 months for full-time Big Data Analytics course based students.

Requirements

Master of Science in Applied Modelling & Quantitative Methods: Big Data Analytics

Complete the following requirements:

- Completion of 5 courses (3.0 credits) from: AMOD 5210H, AMOD 5230H, AMOD 5240H, AMOD 5260H, and AMOD 5630Y
- Completion of 4 courses (2.0 credits) from: AMOD 5410H, 5420H, 5430H, 5440H, 5450H, 5460H, 5470H

Program Regulations

The general regulations and requirements of Trent University for the MSc degree apply to this graduate program. The normal requirement for admission into the AMOD program is an upper second class (77% or better) (B+ at Trent) standing or its equivalent, in a joint or single Honours BSc or BA degree.

AMOD Pre-Masters stream admission. The Master of Applied Modelling and Quantitative Methods (AMOD) Pre-Masters stream provides a pathway to graduate level studies for students who wish to complete an additional year of study to qualify for the graduate level program in AMOD. The program allows students to build the necessary academic foundation to transition seamlessly into the AMOD program. Students who have a 3-year bachelors degree or who do not meet the AMOD's entrance average can take the AMOD Pre-Masters program. Admission to the Pre-Master's program will require a 70% average and will be dependent on the approval of the AMOD graduate director.

Students will take a suite of relevant undergraduate courses in the form of a one year postgraduate certificate in E-Commerce at either the Peterborough or Durham campus.

Complete the following requirements:

- Completion of 5 courses (3.0 credits) from: AMOD 5210H, AMOD 5230H, AMOD 5240H, AMOD 5260H, and AMOD 5630Y
- Completion of 4 courses (2.0 credits) from: AMOD 5220H, AMOD 5520H, AMOD 5530H, AMOD 5540H, AMOD 5560H, AMOD 5570H or AMOD 5440H

Program Regulations

The general regulations and requirements of Trent University for the MSc degree apply to this graduate program. The normal requirement for admission into the AMOD program is an upper second class (77% or better) (B+ at Trent) standing or its equivalent, in a joint or single Honours BSc or BA degree.

AMOD Pre-Masters stream admission. The Master of Applied Modelling and Quantitative Methods (AMOD) Pre-Masters stream provides a pathway to graduate level studies for students who wish to complete an additional year of study to qualify for the graduate level program in AMOD. The program allows students to build the necessary academic foundation to transition seamlessly into the AMOD program. Students who have a 3-year bachelors degree or who do not meet the AMOD's entrance average can take the AMOD Pre-Masters program. Admission to the Pre-Master's program will require a 70% average and will be dependent on the approval of the AMOD graduate director.

Students will take a suite of relevant undergraduate courses in the form of a one year postgraduate certificate in E-Commerce at either the Peterborough or Durham campus.

MS.ANTH - Anthropology - MSc (Thesis)

Overview

Academic Level
Graduate

Credential
Master of Science

Program Description
Thesis

Description
In addition to providing a thorough grounding in anthropological theory and research methods as a preparation for professional careers and/or continuing study at the PhD level, our program produces graduates with sufficient depth and breadth of outlook to meet the need for resourcefulness, versatility and adaptability in modern society. Areas of strength within the MSc program include: stable isotopes, bioarchaeology, maritime (underwater archaeology), environmental archaeology, medical anthropology, and zooarchaeology. Regional areas of emphasis include: South America, Ontario, Atlantic Canada, Mesoamerica, Europe, and Southwest Asia.

Requirements

Master of Science in Anthropology.

Complete the following requirements:

- 1.0 credit from: Normally ANTH 5000Y or ANTH 5100Y
- 1.0 credit from: ANTH 5500Y
- 1.0 ANTH 5000 level credit in addition to the above
- Original thesis research with oral examination

Note: The same course cannot be used to meet multiple degree requirements.

Program Regulations

The general regulations and requirements of Trent University for the MA/MSc degree apply to graduate study in Anthropology. Students are admitted to the program once a year for studies beginning in the following September. Applications should be received by February 1 to be considered for admission and funding. To be eligible for admission, the applicant must possess a joint or single Honours BSc or BA degree or equivalent in Anthropology or a related field, with an average of at least an upper second class standing (B+, 77%) in the work of the last four semesters or the last two undergraduate years (full-time equivalent). Applicants to the program are expected to have a foundation in appropriate research methodology. They may be required to take an undergraduate course deemed necessary to their program of graduate study, e.g., ANTH 3000Y, ANTH 3100Y, ANTH 3150Y or ANTH 3990Y. Students will be accepted into the MA or MSc stream based on committee review of their proposed topic of study, undergraduate degree, and supervisory recommendation. Major changes to the proposed thesis topic may result in a transfer to from the MA to MSc stream, or vice-versa.

Candidates who have fulfilled the admission requirements are required to take three full graduate credits, including either ANTH 5000Y, and normally ANTH 5000Y or ANTH 5100Y. Full-time students are normally required to complete these courses in their first year of study; part-time students are normally required to complete their course work in the first three years of study. The number of undergraduate courses allowed for credit at the graduate level cannot exceed 1/3 the number of required courses for the program. In addition to completion of the course work, students in the MA/MSc program in Anthropology are required to conduct research and write a thesis in an area of interest to be identified and approved in consultation with the student's supervisory committee, and to pass an oral examination in defense of the thesis. The text of the thesis is not to exceed forty thousand words, excluding bibliography. Students will present their thesis research at first- and second-year graduate colloquia. Students are subject to a review of their performance at the beginning of the winter session of each academic year. There is no formal language requirement, but students will be required to demonstrate (to the satisfaction of the supervisor) an

acceptable capacity to read in a language or languages considered necessary for purposes of research. In addition, students may be expected to show adequate background knowledge in a related discipline, e.g., art history.

Expected time to completion for the Anthropology MA/MSc program is two years for full-time, four years for part-time.

MS.BEMA - Bioenvironmental Monitoring & Assessment - MSc (Thesis)

Overview

Academic Level
Graduate

Credential
Master of Science

Program Description
Thesis

Description
The Master of Science (MSc) in Bioenvironmental Monitoring and Assessment (BEMA) Program is an interdisciplinary program in the natural sciences. It is served by faculty principally from the departments of Biology, Forensic Science, and School of the Environment, as well as adjunct faculty. Two Tier 1 Canada Research Chairs are appointed to the program. The aim of the program is to provide students with a background in the theory and practice of biological monitoring and assessment within an environmental context, as well as practical experience through a professional work placement with government, conservation authority, environmental consultant, or non-governmental agency.

TRENT UNIVERSITY
BEMA GRADUATE PROGRAM

Requirements

Master of Science in Bioenvironmental Monitoring & Assessment. 28 months (7 terms)

A 28-month degree including a thesis and professional placement. Students will complete one online course, Data Analysis OR Sampling Design, in Year 1 (one half-credit), and a 4-month professional placement in Year 2 (1.5 credits), and complete a thesis (worth 6 half credits). The MSc degree will

focus on applied and problem-driven original research, where students can use existing data or collect their own data as a basis for their research.

Complete the following requirements:

- 0.5 core course credit: BEMA 5003H or BEMA 5008H
- 1.5 course credit credit: BEMA 5013C
- Thesis Project

Program Regulations

The general regulations and requirements for graduate degrees at Trent University apply to the Bioenvironmental Monitoring and Assessment Program. Application for admission should be received by February 1 for consideration for Fall admission into the program. Applicants should hold an undergraduate Honours (4-year) degree in Biology, Environmental Science, Geography, or an equivalent science degree. Students in the Masters (MSc) program are required to take one core course, complete a professional placement and a thesis.

Students must attain at least a B- (70%) in all core courses to remain registered in the program. Students who obtain less than 70% in a core course will not be permitted to retake the course and will be required to withdraw from the program, unless otherwise permitted through appeal to the program.
