Message From The President

Dear Trent Students,

I am pleased to take a moment to personally welcome you to Trent University. Congratulations on your decision to join a vibrant community of students, faculty, and staff. We are here to help you excel—academically, personally and on the road to your next milestone, be that a career, another degree, or an international experience.

As a member of our community, you join a distinguished group of scholars and alumni who have taken advantage of the Trent environment to become leaders who are shaping our future. They include famous authors, Nobel Prize winners, business leaders, and alumni who have enjoyed successful careers in government, law, medicine, teaching, science, and a host of other professions.

You are joining the Trent community at an exciting time, as we continue to transform student life on campus. At our Peterborough campus we have recently opened the doors to our transformed Bata Library. This revitalized library of the future offers a modern, state-of-the-art, connected university library for students to learn, study and engage. At our Durham Greater Toronto Area campus, we have exciting expansion plans. Trent Durham GTA is expanding our program offerings, but also expanding in size to add several new facilities and amenities, including a new residence.

As you study at Trent, I invite you to be open to new opportunities and programs that you had not previously considered. I encourage you to touch base with our new Careerspace team who is working to offer every student at Trent an experiential learning experience that is sure to contribute to your success as you enter the workforce, or try expanding your education through one of the many Study Abroad options offered through Trent International.

This calendar provides you with information on the many programs, courses, opportunities, and services available to you at Trent. Step outside of your comfort zone, and explore the many new opportunities you will encounter during your time at Trent. Discover new disciplines; inquire and engage with our award-winning faculty; contribute to conversations at your college or campus; and consider giving back to the communities in which you live and learn.

Trent University is truly a community that supports you and your own unique goals. We are here to help your own story unfold and I’m delighted you have chosen Trent for this important chapter. I look forward to seeing you on campus.

Leo Groarke, PhD
President & Vice-Chancellor

Welcome To Trent

About Trent
One of Canada’s top universities, Trent University was founded on the ideal of interactive learning that’s personal, purposeful, and transformative. Consistently recognized nationally for leadership in teaching, research, and student satisfaction, Trent attracts excellent students from across the country and around the world. Here, undergraduate and graduate students connect and collaborate with faculty, staff, and their peers through diverse communities that span residential colleges, classrooms, disciplines, hands-on research, and co-curricular and community-based activities. Across all disciplines, Trent brings critical, integrative thinking to life every day. Today Trent’s unique approach to personal development through supportive, collaborative community engagement is in demand more than ever. Students lead the way by co-creating experiences rooted in dialogue, diverse perspectives, and collaboration. In a learning environment that builds life-long passion for inclusion, leadership, and social change, Trent’s students, alumni, faculty, and staff are engaged global citizens who are catalysts in developing sustainable solutions to complex issues. Trent’s Peterborough campus boasts award-winning architecture in a breathtaking natural setting on the banks of the Otonabee River, just 90 minutes from downtown Toronto, while Trent University Durham – GTA delivers a distinct mix of programming in the Greater Toronto Area.

Undergraduate Studies at Trent
Trent University has a strong commitment to undergraduate studies. We offer an impressive range of academically rigorous programs across the arts and sciences, as well as professional and specialty programs, with all the benefits of high-quality teaching within a personal, close-knit community. No wonder Trent has been named Ontario’s #1 primarily undergraduate university seven years in a row.

Trent University Durham – GTA
trentu.ca/durham

Scott Henderson (PhD, MA East Anglia, BA Trent), Dean and Head, Trent University Durham – GTA
In 2010, Trent University Durham – GTA moved to its bright, new campus located at 55 Thornton Road S. in Oshawa where it continues its 40 plus year commitment to offering post-secondary education in the liberal arts and sciences in the Durham region and the GTA. Fall/Winter and Summer session courses taught by Durham-based faculty, and complemented by some faculty from Peterborough, enable students to pursue full degrees in the following, including some degrees unique to Durham – GTA:
- Anthropology
- Business Administration
- Child & Youth Studies (Durham – GTA only)
- Communications & Critical Thinking (Durham – GTA only)
- English Literature
- Gender & Women’s Studies
- History
- Media Studies
- Philosophy
- Policing & Community Well-being (Durham – GTA only)
- Psychology
- Social Work
- Sociology
In addition, Trent University Durham – GTA now offers three postgraduate certificate programs and a new graduate degree.

– Human Resource Management
– Marketing & Entrepreneurship
– Senior Police Leadership (Durham – GTA only)

Graduate Degree:
– Masters in Management (Durham – GTA only)

Options are also offered, including:
– International Development Studies
– Legal Studies
– Marketing

Trent University Durham – GTA students who wish to pursue majors in other disciplines can supplement their Durham – GTA courses with courses taught at the Peterborough campus.

Trent University Durham – GTA also offers a range of electives from other disciplines that enrich and enhance the majors. Day and evening courses are available and are listed on the Trent University Durham – GTA website. The campus now features two fully interactive videoconference classrooms where students have the opportunity to take a number of courses without having to travel to Peterborough. Academic advisors, knowledgeable across the disciplines, assist and support current students in the planning of their academic programs, and are also available to meet with prospective students to discuss university education. An engaged faculty and staff, the on-site library, student peer mentors, and a rich program of visiting speakers, writers, and other academic events all contribute to the small, friendly, and stimulating environment of the Thornton Road campus. For more information, please visit our website.

**Using the Academic Calendar**

The online version of this Calendar and its supplement(s) may be found on the University’s website at [trentu.ca/calendar](http://trentu.ca/calendar) and is the University’s official version. In the case of a discrepancy between a printed version and the online version, the online Calendar will be considered accurate.

The University reserves the right to make changes after the publication of this Calendar. Any updates applicable to the current academic year will be posted online in a supplement. Previous versions of the Academic Calendar and accompanying supplements are available online and in the Office of the Registrar.

It is the responsibility of all students to familiarize themselves with the specific requirements for the degree or diploma that they seek. While advice and counselling are readily available, it is the students’ responsibility to ensure that the courses in which they register fulfill their degree and program requirements.

**Effective Date of Undergraduate Calendar**

The Undergraduate Calendar is effective on May 1 of the year in which it is published. All policies, course information, and degree regulations apply to the Summer session unless otherwise indicated.

**Disclaimer and Limitation of Liability**

No liability shall be incurred by Trent University for loss or damage suffered or incurred by any student or third party as a result of delays, suspension or termination of services, practica, seminars, placements, courses or classes or other activities by reason of natural disasters, civil unrest or disobedience, labour disputes, work stoppages, strikes, lockouts, financial exigency, restrictive laws or governmental regulations, orders or directives, inability to procure materials, trades or labour, weather, utility interruptions, damage to University property, acts of war or terrorism, threats to
the safety or security of the University, its property, or people, or other happenings or occurrences beyond the reasonable control of Trent University.

In respect of any Claim for damages or indemnification by any person (a “Claimant”) under the terms and conditions of this Calendar and its academic and non-academic regulations against Trent University or any of its employees, governors, members, officers, or agents (any of them, a “Defendant”), whether based in contract (whether or not a fundamental breach of contract), tort (including negligence), or otherwise, the Claimant’s sole and exclusive remedy shall be to receive from the Defendants (in the aggregate) payment for actual and direct damages to a maximum aggregate amount for all such Claims equal to the fees payable and paid by the Claimant to Trent University respecting the services, practica, seminars, placements, courses or classes, or other activities governed under this Calendar in the twelve months preceding the Claim.

In no event shall Trent University be liable for any indirect, economic, special, punitive, commercial, incidental, exemplary, or consequential damages (including without limitation lost profits, loss of business revenue or earnings, lost data, damages caused by delays, or a failure to realize expected savings or revenue) directly or indirectly arising out of or in connection with delays, suspension or termination of services, practica, seminars, placements, courses or classes, or other activities, or the terms and conditions of this Calendar and its academic and non-academic regulations whether or not such damages could reasonably be foreseen or their likelihood was disclosed to the parties.

Jurisdiction/Governing Law

This Calendar, its rules and regulations, and the rights and obligations of the parties hereunder shall be governed by the laws of the Province of Ontario. Any action or proceeding for relief regarding these provisions shall be brought in the Province of Ontario.

Rights & Responsibilities

• The University recognizes its responsibility to provide students with proper information. This Calendar, including all Calendar supplements, and course syllabuses constitute the only contracts between students and the University. It is incumbent upon students to be aware of and adhere to program regulations, requirements, and published deadlines. The University used best efforts, insofar as reasonably possible, to confirm the accuracy of this Calendar at the time it was published; however, the University retains the right, at its sole discretion and without notice, to revise or alter its curriculum, including but not limited to cancelling programs, in which case this Calendar may no longer be accurate. It is understood and agreed that the University will not be in any way liable or legally responsible for such inaccuracies.

• Every member of Trent University—faculty, staff, or student—has a right to freedom from discrimination in the University by another faculty, staff member, or student because of age, ancestry, citizenship, colour, creed, disability, ethnic origin, family status, gender identity/expression, marital status, place of origin, race, record of offences (in employment only), sex and sexual orientation. (For details, please consult Trent’s Policy on Discrimination and Harassment on the Trent University Centre for Human Rights, Equity & Accessibility web page.)

• Trent University recognizes its responsibility to those of its students, faculty, and staff with disabilities. The University undertakes to make reasonable accommodations to ensure access to its academic programs and physical facilities, short of undue hardship, while protecting the academic integrity of the University.

• Trent University residences and buildings are smoke-free.

• Trent University manages personal information of individuals in accordance with applicable legislation and University policies on the protection of personal privacy.
Protection of Personal Information

Notification of Collection, Use, and Disclosure of Personal Information

Students’ personal information is collected, used, and disclosed by Trent University under the authority of Section 18(3)(c) of The Trent University Act, 1962-63.

Applicants and Prospective Students

Trent University may collect and use personal information from prospective students to communicate with them about University programs, process applications, determine eligibility for admission and student awards, administer surveys, research enrolment issues, and maintain related statistical data.

Current Students

Once admitted and enrolled in an academic program, a student’s information is used by the University to deliver academic and administrative programs and services. This includes but is not limited to: recording academic progress, creating the permanent student record, providing financial aid, delivering student services, conducting program reviews/appraisals, and communicating with students regarding University business. Personal information may also be used by the University, its authorized agents, approved researchers, and/or the provincial and federal government for statistical research purposes.

Trent University is required to disclose personal information such as Ontario Education Numbers, student characteristics, and educational outcomes to the Ministry of Training, Colleges and Universities under s. 15 of the Ministry of Training, Colleges and Universities Act, R.S.O. 1990, Chapter M.19, as amended. The ministry collects this data for purposes such as planning, allocating, and administering public funding to colleges, universities, and other post-secondary educational and training institutions and to conduct research and analysis, including longitudinal studies, and statistical activities conducted by or on behalf of the ministry for purposes that relate to post-secondary education and training. Further information on how the Ministry of Training, Colleges and Universities uses this personal information is available on the ministry’s website: ontario.ca/page/ministry-advanced-education-and-skills-development (English) or www.ontario.ca/fr/page/ministere-de-lenseignement-superieur-et-de-la-formation-professionnelle (French), or by writing to the Director, Post-secondary Finance and Information Management Branch, Post-secondary Education Division, 7th Floor, Mowat Block, 900 Bay Street, Toronto, ON M7A 1L2.

Students who hold a graduate teaching assistantship or other position covered by the Canadian Union of Public Employees (CUPE II) are, by nature of their employment, members of CUPE Local 3908. The University provides the names and trentu.ca email addresses of these students to CUPE for the purpose of communications related to the student’s membership in the union.

The University may disclose limited and specific student information to its recognized student government associations (Trent Central Student Association, Trent Graduate Student Association, Trent Durham Student Association, and Trent-Fleming Nursing Students’ Association) for the purposes of administering their membership programs, elections, and health plans. For student health benefit plans, the sponsoring association securely transfers the name, sex, date of birth, student number, and in some cases the trentu.ca email address, of eligible student members to its health benefits provider and carrier to enable them to establish eligibility, grant access to the benefits portal, and verify the identity of students enrolled in the health plan. The University may provide the names of college members to college cabinets for member identification purposes.

Where students are enrolled in collaborative academic programs, Trent University may be required to transfer personal information to another post-secondary institution. Wherever possible, students will be provided with a separate notice explaining any information-sharing required to jointly administer their program. Information relating to academic integrity misconduct (e.g., falsification of documents) may be shared with other post-secondary educational institutions. Select information may be shared with government funding agencies to process financial assistance applications, with collection agencies for outstanding accounts, and with contracted service providers acting on behalf
of the University. Credit card information is transferred to an independent processing company in order to process payments.

To the extent permitted by the Ontario Freedom of Information and Protection of Privacy Act, personal information may be disclosed to law enforcement agencies. The University may also be required to contact an appropriate third party about a student in compassionate circumstances or in compelling circumstances affecting the health or safety of an individual or group.

Information regarding graduation and graduation awards is made public at the time of convocation. The name, year, and program of award winners may be shared with donors, and academic awards and scholarships may be celebrated within the University community.

Limited student personal information, including name, sex, date of birth, home address, email, and phone number of students registered at Trent University Durham – GTA, is provided on a confidential basis to the City of Oshawa – Recreation & Culture Services for the sole purpose of confirming eligibility of, and managing registration for, athletics fitness membership under the terms and conditions of multi-year fitness membership agreement between the Trent Durham – GTA Student Association (TDSA) and the Corporation of the City of Oshawa.

Alumni
Unless individuals have requested otherwise, the University may keep in touch with alumni for purposes that support the mission of the University, including surveys, institutional research, invitations to events, philanthropy, newsletters, and other information on programs and services.

From time to time, the University may enter into an agreement with a statistical research firm to conduct surveys on behalf of the University. These firms may contact groups of prospective students, current students, or alumni by email to request their participation in a survey. Participation is voluntary in all cases and individuals may choose not to be contacted further for survey purposes.

Questions on how student information is collected, used, or disclosed at Trent University, or special concerns/requests regarding the management of a student’s personal information, may be directed to the University Registrar, Office of the Registrar, Blackburn Hall, Trent University, 1600 West Bank Drive, Peterborough, ON K9L 0G2, or email: registrar@trentu.ca.

Notification of Use and Disclosure of Personal Information to Statistics Canada
Statistics Canada is the national statistical agency. As such, Statistics Canada carries out hundreds of surveys each year on a wide range of matters, including education.

It is essential to be able to follow students across time and institutions to understand, for example, the factors affecting enrolment demand at postsecondary institutions. The increased emphasis on accountability for public investment means that it is also important to understand ‘outcomes’. In order to conduct such studies, Statistics Canada asks all colleges and universities to provide data on students and graduates. Institutions collect and provide to Statistics Canada, student identification information (student’s name, student ID number, Social Insurance Number), student contact information (address and telephone number), student demographic characteristics, enrolment information, previous education, and labour force activity.

The federal Statistics Act provides the legal authority for Statistics Canada to obtain access to personal information held by educational institutions. The information may be used for statistical purposes only, and the confidentiality provisions of the Statistics Act prevent the information from being released in any way that would identify a student.

Students may contact Statistics Canada via e-mail if they have any questions: statcan.PSIS-SIEP.statcan@canada.ca.
Student Records Policies

Access to Student Record Policy
By applying for admission to Trent University and by registering in programs or courses at the University, students accept the University’s right to collect pertinent personal and academic information. The information is used to assess their qualifications for admission, establish and update a record of their academic performance, determine their eligibility for awards and scholarships, determine government funding, and allow the University to undertake its obligations under The Trent University Act, 1962-63. For further information on the collection and use of this information, or if you have concerns about the collection and use of this information, please contact the University Registrar at registrar@trentu.ca.

All documentation provided to the University to support an application for admission, housing, financial awards, or any petition or appeal becomes the property of the University. The University Registrar, in the Office of the Registrar, is the custodian of all official physical and electronic academic records of all students who have been or are currently registered in academic programs at Trent University. The Office of the Registrar strives to ensure the security and privacy of personal information through the application of appropriate systems for access to that information, the development of procedures, and the education and training of staff and faculty to treat personal information in confidence.

Trent University’s Principles on Access to Confidential Student Records and Disclosure of Information
The University will not disclose personal information it has collected except in the following circumstances:
1. the person has consented in writing to disclosure of specific information for a particular purpose;
2. the person has authorized in writing another individual to act on their behalf or participate in their affairs at the University;
3. the information is required by an authorized staff person in the course of their work;
4. to comply with legal requirements, including but not limited to, granting of access to Statistics Canada;
5. in compelling or compassionate circumstances, or as otherwise permitted under the Freedom of Information and Protection of Privacy Act.

The University will disclose information about students who have graduated, such as degree conferred, date, medals, and scholarships, as this information is printed in the convocation program. Whether a student is currently registered is not considered to be public information and may not be disclosed except as specified in the above Principles.

I. Disclosure to the student:
1. Students normally have the right to review the information contained in their hard-copy file, with the exception of confidential evaluations and letters of reference provided by a third party. Students who wish to review their hard-copy file must make an appointment with the University Registrar (or designate). Any student who is not satisfied with the access provided may make a formal request under the Freedom of Information and Protection of Privacy Act through the office of the access/privacy officer: trentu.ca/access-privacy/access.
2. Students may request that incorrect information in their files be corrected and that those who may have received incorrect information are notified of the change. Students seeking to correct their information may be asked to complete a formal access/correction request.
3. Students have access to their electronic record through myAcademic Record. This includes biographic and academic information.
4. Documents submitted by or for the student in support of the application for admission or for transfer credit become the property of Trent University and will not be released or redirected. In rare instances, authorized by the University Registrar or designate, an original transcript may be released to the student and a copy retained in the file with an explanation for this action.

5. Students with no outstanding financial obligations to the University may, upon written request and payment of a fee, obtain an official transcript of their academic record at the University or have copies sent to a third party. Transcripts will show scholarships, awards, and prizes granted, courses taken, grades achieved, academic status, and degrees conferred.

6. Students with outstanding financial obligations to the University will be denied access to information such as grades, official transcripts, and degree certificates, and will be unable to add courses.

II. Disclosure to faculty and administrative officers of the University:
Faculty and administrative staff of the University who require access to student records in order to carry out their official duties are given access on a need-to-know basis.

III. Disclosure to parents, guardians, educational institutions, and agencies:
1. Requests for student record information received from another institution of learning or from other organizations will be permitted only with written authorization from the student; such authorization specifies the information to be provided (e.g., official transcript) and to whom the information is to be sent.

2. Student record information (including application, admission, and/or registration information) will not be released to a third party, such as a parent or guardian, without the student’s written authorization.

IV. Disclosure to government agencies:
Student record information may be provided in the following instances:

1. in response to a court order, summons, or subpoena directing the University to release information;

2. to provide the Ministry of Training, Colleges and Universities with enrolment reports;

3. to provide data to Statistics Canada for national surveys;

4. to provide data as required by professional licensing and certification bodies;

5. to provide information as allowed under access/privacy legislation.

V. Disclosure to student governments:
All registered students pay student association fees. The Trent Central Student Association, the College Cabinets, and the Trent Durham Student Association (the “Associations”) do, from time to time, require specific student record information for particular purposes. The Office of Student Affairs is authorized to provide the Associations with labels, lists, and/or e-mail addresses for the purposes of communicating with students or determining their eligibility for some services.
### Important Dates

Students are responsible for being familiar with, and adhering to, published dates and deadlines, especially in relation to adding and dropping courses. Bachelor of Education and Bachelor of Science in Nursing students should contact their departments for pertinent dates.

Academic Programs

Degree, Diploma, & Certificate Programs

Degree Programs
- Bachelor of Arts (General)—BA
- Bachelor of Arts (Honours)—BA (Honours)
- Bachelor of Arts & Science (Honours)—BAS
- Bachelor of Business Administration (Honours)—BBA
- Bachelor of Education—BEd
- Bachelor of Environmental Science/Studies (Honours)—BESS
- Bachelor of Health Sciences—BHS
  (Note: Offered in collaboration with the University of Ontario Institute of Technology.)
- Bachelor of Science (General)—BSc
- Bachelor of Science (Honours)—BSc (Honours)
- Bachelor of Science in Forensic Science—BScFS
- Bachelor of Science in Nursing—BScN
- Bachelor of Social Work (Honours)—BSW

Diploma Programs
- Canadian Studies
- Circumpolar Studies
- Foundations of Indigenous Learning
- Indigenous Environmental Studies & Sciences

Certificate Programs
- Human Resource Management
- Marketing & Entrepreneurship
- Senior Police Leadership

Notes
- The University encourages students in Bachelor of Arts and Bachelor of Science programs to plan an Honours degree. The Honours degree is the basic qualification for entry to graduate programs.
- The Honours degree programs, the Bachelor of Science degree programs in Nursing and in Forensic Science, and the Bachelor of Social Work, are 20-credit programs.
- The General degree programs are 15-credit programs.
- The Consecutive Bachelor of Education program is 10.0 credits in the Public Stream and 10.25 credits in the Catholic Stream.
- The Concurrent Bachelor of Education – Indigenous program is 25.25 credits.
Degree Requirements

Applicable Calendar for Degree Completion
Students must satisfy both University Degree Requirements and Program Requirements.

Program Requirements
Students must normally satisfy the Program Requirements in effect at the time of their declaration of major to the program. As changes are made to program requirements, students may choose to complete their studies under the program requirements of any subsequent Academic Calendar provided they were enrolled in the program during that academic year and meet these requirements in their entirety. Joint-majors must use the same calendar year for both major programs. This regulation is not applicable to students enrolled in the Bachelor of Science in Nursing and Bachelor of Education programs.

It is the responsibility of the student to consult the appropriate Academic Calendar(s) and to follow regulations and requirements as stated. Students will have the opportunity to declare their calendar year when applying to graduate.

Ten years from the year of declared major, students who have not yet completed their degree and wish to do so must follow the program requirements in the current year’s Academic Calendar. For the Nursing BScN degree, please see the School of Nursing’s specific degree requirements.
University Degree Requirements

Students must satisfy the University Degree Requirements as published in the current Academic Calendar.

For requirements for the Consecutive Bachelor of Education program see p. 144. Requirements for all other programs consist of:

1. an academic status of Good Standing
2. requirements for specific programs as outlined in the Academic Programs section of this Calendar
3. at least 3.0 credits, with a grade of 60% or higher, leading to majors in different disciplines
4. a maximum of 7.0 credits at the 1000-level can count towards the degree
5. a maximum of 1.0 credit with a D grade (50–59%) in courses in a major or each joint-major or minor; not applicable to students enrolled in BScN or BSW
6. at least 0.5 credit from the Approved Indigenous Course List* (see p. 16)

* This requirement applies to all students beginning studies at Trent in the Fall 2018 term or thereafter.

Notes

- The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.
- Students must complete a minimum of 10.0 credits at Trent University to qualify for a Trent University Honours degree and a minimum of 7.5 credits to qualify for a Trent University General degree. Five of the last 7.0 credits must be completed at Trent University.
- The maximum credits which can be required in each discipline of a joint-major is 6.0 for General programs and 8.0 for Honours programs.
Requirements for a Bachelor of Science Degree

- Fourteen science credits (including 1.0 in Mathematics, but not from MATH 1001H, 1080H, or 2080Y) are required for the Honours degree.
- Eleven science credits (including 1.0 in Mathematics, but not from MATH 1001H, 1080H or 2080Y) are required for the General degree.
- Courses fulfilling University science credit requirements for the BSc are marked (Sc) in the individual course descriptions.
- The Forensic Science degree (BScFS) and Nursing degree (BScN) are stand-alone professional degrees in science. Please see these departments’ specific degree requirements.

Some programs lead to a Science degree. Other programs lead either to an Arts or Science degree, depending on the courses taken.

Requirement for a Minor

A minor is a prescribed set of at least 5.0 credits providing a secondary area of focus different from a student’s major. A minor may only be completed as part of an Honours degree. Normally the requirements of a minor are the same as those of the corresponding joint-major General degree, and is offered only in subject areas in which a major exists. A minor will be notated on the academic transcript but does not appear on the degree parchment. Students who have fulfilled the requirements for a single-major or joint-major Honours degree may apply to the Office of the Registrar for a minor in a different subject. See individual department and program entries for details.
Approved Indigenous Course List

The following courses fulfill the Indigenous Course Requirement (ICR) for students beginning studies in the Fall 2018 term and thereafter. Please see individual academic program sections for course descriptions.

- CAST-ERST-GEOG-INDG 2040Y: Canada: The Land
- CAST-INDG-WMST 2485H: Indigenous Women’s Creative Non-Fiction
- CAST-INDG-WMST 3485H: Indigenous Women’s Writing in Canada
- CHYS-INDG 2006H: Indigenous Knowledge for Children and Youth
- CUST-INDG 1570H: The Origins of Theatre: Performance in Indigenous and Cultural Studies

Notes

• Academic Timetable
  Please consult the online academic timetable (trentu.ca/timetable) for information on courses that will be offered in 2019–2020, including when they will be scheduled.

• Animal Care Course
  This non-credit course deals with the ethical principles, legal aspects, and practical considerations of animal research. The course has no prerequisites and is mandatory for all students whose coursework or research will involve handling of and/or experimentation with live vertebrate animals. This course is offered online. Consult the “Animal Care Training” link on the Animal Care web page (trentu.ca/research/animalcare.php), the Dean of Science, the Departments of Biology, Chemistry, or Psychology, or the School of the Environment for access information.

• Human Research
  All undergraduate student research involving humans must be reviewed and approved in accordance with the Tri-Council Policy on Ethical Conduct for Research with Humans. Please consult with the Research Ethics Board representative in your department.
General University Courses

» UNIV 1003H: Exploring Great Problems Through Scientific Inquiry (Sc)
   Students explore three significant, complex, and challenging scientific problems from a variety of perspectives. Through this exploration, students strengthen their information seeking, group work, research, critical thinking, reflection, and presentation skills. Students are grouped in “problem teams” and experience a range of workshops that introduce different applications of scientific inquiry. Limited enrolment.

» UNIV 1004H: Reflective Writing and Critical Engagement
   Students explore various approaches to integrating knowledge and critical engagement with different texts and contexts through the processes of reflection, writing, and research. Through this exploration, students strengthen their skills in self-reflection, critical thinking, applied learning, information seeking, and academic communication. Limited enrolment.

» UNIV 2000H: Foundations of Elder Abuse Education and Prevention
   An introduction to elder abuse and strategies for elder abuse awareness and prevention. Developed by Elder Abuse Ontario and the Trent Centre for Aging & Society, this course provides a foundation for students intending to work with older adults in various sectors (health care, social services, education, business, etc.). Prerequisite: 4.0 university credits.

» WRIT 1001H: Write in Time
   This writing-intensive course aims to provide practical and cumulative skills in writing clearly, correctly, and persuasively across disciplines and situations. The course assumes the importance of a close relationship among reading, thinking, and writing, and operates on the premise that the practice of writing encourages thinking and promotes innovative, insightful reflection.

» WRIT 2002H: Write It Up: Effective Communication
   Continues to develop the skills for clear and persuasive writing introduced in WRIT 1001H. Open to students in all disciplines, this writing-intensive course focuses on advancing effective rhetorical strategies in the contexts of academic and professional writing with an emphasis on persuasion, ease, and grace in written communication. Prerequisite: WRIT 1001H.

» WRIT 2003H: Workplace Communications
   In this writing-intensive course, students learn to be proficient in the kinds of communication essential to a variety of workplaces. Students are introduced to key concepts in communication theory, practise a range of formats, and take part in a multi-stage simulation. Prerequisite: WRIT 1001H. Excludes ADMN 3410H.

» WRIT 3003H: Writing With Your “I”
   A writing-intensive overview of first-person non-fiction, this course examines critical uses of the personal. Students consider how the subjective, political, and social meet in critical writing that embraces and uses “I” in memoirs, personal essays, political philosophy, travel writing, and other forms. Original first-person writing is required. Prerequisite: 4.0 university credits including 0.5 credit from WRIT 1001H, ENGL 1001H, 1003H, 1005H, 1851H, or 2001H.
Ancient Greek & Roman Studies

trentu.ca/agrs

Program Coordinator
H. Elton, BA (Sheffield), DPhil (Oxford)

Associated Faculty
R. Fitzsimons, Anthropology; G. Kovacs, English Literature; J. P. Moore, Anthropology; B. Stoyles, Philosophy

Classics is the study of the ancient Greek and Roman cultures (ca. 3000 BCE–641 CE), the two intertwined civilizations that lie at the root of modern Western culture. Figures of myth, great leaders, creators of profoundly moving poetry and drama, great philosophers and artists who produced some of the world’s most exquisite art and architecture—from Homer to Alexander the Great, from Julius Caesar to Constantine and beyond—the legacies of these individuals have deeply influenced many later ages and are still highly relevant today. We have more evidence about the Greeks and Romans than most other early cultures: poetry, plays, novels, prose treatises, histories, vases, sculpture, architecture, inscriptions, and papyri. At Trent, students can study ancient literature in all its forms, the history of Greece and Rome, art history and archaeology (including ancient Egypt), myth and religion, women in antiquity, philosophy, and classical languages (Latin and classical Greek).

Notes
• For the purposes of University regulations concerning the maximum number of credits in a single discipline (13.0 for Honours, 8.0 for General), all AHCL, GREK, and LATN credits are counted toward the Ancient Greek & Roman Studies degree.
• Senior seminar courses are offered according to faculty availability. Students may take more than one such course in one year or in their overall program.
• Reading courses may be offered according to faculty availability. Interested students should consult with the program before the first week of classes. Students may take more than one such course in their overall program.
• Students may also study Mediterranean archaeology in field school courses offered by other Canadian and non-Canadian universities for credit on a Letter of Permission, with program approval.
• For the Archaeology program, see p. 40. For the Option in Linguistics, see p. 410; for the Option in Pre-modern Studies, see p. 416; for the Option in Theatre Studies, see p. 418.
• Students considering graduate work in Ancient Greek & Roman Studies are strongly advised to include as many credits in Greek and Latin as possible in their program, to begin the study of German and French as undergraduates, and to consult with the program coordinator.

Bachelor of Arts Program in Ancient Greek & Roman Studies

• In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).
• The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.
• AHCL 2102H or AHCL 2105H can be substituted for AHCL 2103H; AHCL 2301H or AHCL 2302H can be substituted for AHCL 2303H.
**The single-major Honours program.** 20.0 credits including the following 9.0 credits:
- 1.0 AHCL credit consisting of AHCL 2103H and 2303H
- 0.5 AHCL credit from AHCL 2205H or 2206H
- 0.5 AHCL credit from AHCL 4001H, 4002H, or 4003H
- 4.0 AHCL, GREK, and/or LATN credits at the 3000 level or beyond in addition to the above
- 1.0 AHCL, GREK, and/or LATN credit at the 2000 level or beyond in addition to the above
- 2.0 AHCL, GREK, and/or LATN credits in addition to the above

**The joint-major Honours program.** 20.0 credits including the following 7.0 credits:
- 1.0 AHCL credit consisting of AHCL 2103H and 2303H
- 0.5 AHCL credit from AHCL 2205H or 2206H
- 0.5 AHCL credit from AHCL 4001H, 4002H, or 4003H
- 2.0 AHCL, GREK, and/or LATN credits at the 3000 level or beyond in addition to the above
- 1.0 AHCL, GREK, and/or LATN credit at the 2000 level or beyond in addition to the above
- 2.0 AHCL, GREK, and/or LATN credits in addition to the above

**The single-major General program.** 15.0 credits including the following 7.0 credits:
- 1.0 AHCL credit consisting of AHCL 2103H and 2303H
- 0.5 AHCL credit from AHCL 2205H or 2206H
- 2.0 AHCL, GREK, and/or LATN credits at the 3000 level or beyond in addition to the above
- 1.0 AHCL, GREK, and/or LATN credit at the 2000 level or beyond in addition to the above
- 2.5 AHCL, GREK, and/or LATN credits in addition to the above

**The joint-major General program.** 15.0 credits including the following 5.0 credits:
- 1.0 AHCL credit consisting of AHCL 2103H and 2303H
- 0.5 AHCL credit from AHCL 2205H or 2206H
- 1.0 AHCL, GREK, and/or LATN credit at the 3000 level or beyond
- 2.5 AHCL, GREK, and/or LATN credits in addition to the above

**The minor in Ancient Greek & Roman Studies** consists of the following 5.0 credits:
- 1.0 AHCL credit consisting of AHCL 2103H and 2303H
- 0.5 AHCL credit from AHCL 2205H or 2206H
- 1.0 AHCL, GREK, and/or LATN credit at the 3000 level or beyond
- 2.5 AHCL, GREK, and/or LATN credits in addition to the above

**Specialization in Greek & Latin**
The Specialization in Greek & Latin is open to students who wish to pursue an increased emphasis on the core languages of classical archaeology, history, and literature. Most graduate programs in these fields require such language training.

In most cases, achieving the Specialization in Greek & Latin in four years is only possible if the student takes courses in both Greek and Latin, starting at least one language in the first year. The availability of the Specialization in Greek and Latin, and of Greek and Latin courses beyond the 2000 level, is subject to program staffing conditions. Interested students should consult the program coordinator of Ancient Greek & Roman Studies as early as possible.

Students who have fulfilled the requirements for a single- or joint-major degree in Ancient Greek & Roman Studies may graduate with a Specialization in Greek & Latin if they have successfully completed 5.0 credits in GREK and LATN.
Please consult the academic timetable for information on courses that will be offered in 2019–2020, including when they will be scheduled.

» **AHCL-ANTH 1030H: Archaeology I: Accessing the Past (Sc) (see Anthropology)**

» **AHCL-HIST 1100H: War in the Desert**
   A study of ancient wars fought in desert conditions between the Late Bronze Age and late antiquity. Includes an introduction to the problems of reading primary sources, ancient military history, military operations in deserts, and logistics.

» **AHCL-ANTH 1200H: The Trojan War: An Epic of Archaeology**
   Provides an introduction to the study of Classics through the story of the Trojan War, focusing on such topics as the nature of epic, the archaeology of the Bronze Age, and the reception and transmission of the Trojan War story in Greek art and literature. Excludes AHCL 1000Y, 1401H, 1402H.

» **AHCL 1300H: Gods, Heroes, Monsters**
   An examination of Greek and Roman myths in their cultural contexts, including the relationship between gods and mortals, the nature of “myth” itself, and how the stories were received and interpreted both in antiquity and more recently. Excludes AHCL 2350H.

» **AHCL-HIST 2051H: Early Medieval Europe, 300–1050 (see History)**

» **AHCL-HIST 2103H: Approaches to Classical Historians**
   An introduction to ancient history from Archaic Greece to the late Roman Empire, examining both the history of this period and its construction by ancient writers. Prerequisite: 4.0 university credits. Excludes AHCL 2100Y, 2102H, 2105H.

» **AHCL-ANTH 2201H: Introduction to Egyptian Archaeology from the Pharaohs to the Romans (see Anthropology)**

» **AHCL-ANTH 2205H: Archaeology and Art History of Ancient Greece (see Anthropology)**

» **AHCL-ANTH 2206H: Archaeology and Art History of Ancient Rome (see Anthropology)**

» **AHCL 2303H: Approaches to Classical Literature**
   The literature of the ancient Greek and Romans constitutes one of the most influential set of texts in world history. Reaching from antiquity to the digital age, this course introduces students to core methodological approaches, including issues of language and translation, the textual tradition, and theoretical approaches. Prerequisite 4.0 university credits. Excludes AHCL 2300Y, 2301H, 2302H.

» **AHCL 2340H: Ancient Epic**
   Warfare. Exotic travel. Sometimes even love. Engaging the greatest human concerns, epic endured as one of the most popular poetic genres in the Greek and Roman worlds. Trace epic’s evolution from oral narrative to crafted literary masterpiece as we consider representative works, from Homer to Vergil and beyond. Prerequisite: 4.0 university credits.

» **AHCL-PHIL 2420H: Ancient Philosophy I: Pre-Socratics to Plato (see Philosophy)**

» **AHCL-PHIL 2430H: Ancient Philosophy II: Aristotle and the Hellenists (see Philosophy)**

» **AHCL 2510H: Olympians and Gladiators**
   Explores the role of sports and competition in the ancient Greek and Roman worlds through engagement with the literary, artistic, and archaeological evidence for athletic and gladiatorial contests, their reception, and their legacy in today’s world. Prerequisite: 4.0 university credits. Excludes AHCL 3410H.
» **AHCL-WMST 2520H: Women in the Ancient World, 700 BCE–600 CE**  
Introduces students to the social and cultural presence, significance, and role of women in ancient Greece and Rome. Particular attention will be given to those few sources and evidence that offer a female perspective from these patriarchal societies, including literature, philosophical and medical treatises, law codes, and the visual arts. Prerequisite: 4.0 university credits. Excludes AHCL-WMST 2310H, 2320H.

» **AHCL 2999H: Origins of Modern Terminology**  
Introduces students to the role of ancient Greek and Latin in technical terminology and generates a core vocabulary of words and word parts to better comprehend complex etymologies. A modular approach allows students to target specific streams in science, medicine, law, and other fields. No prior knowledge of Greek or Latin needed. Not for credit toward a major or minor in Ancient Greek & Roman Studies.

» **AHCL 3100H: The Athenian Empire**  
During the fifth century BCE, the Athenian Empire controlled the Aegean. This course covers political, economic, and intellectual developments relating to events such as the construction of the Parthenon and the Melian Dialogue. Prerequisite: 4.0 university credits including AHCL 2103H or 2105H.

» **AHCL-HIST 3103H: Ancient Warfare**  
An in-depth study of the practice of ancient warfare from the Bronze Age to the Arab Invasions. Themes examined for each era include logistics, recruiting, intelligence, strategy, and naval warfare. Prerequisite: 8.0 university credits. Excludes AHCL 3101H.

» **AHCL-HIST 3130H: The Augustan Principate and Its Origins, 44 BCE–14 CE**  
A study of the political, administrative, social, and cultural history from the assassination of Julius Caesar to the death of Augustus, with special attention paid to the ancient sources. Prerequisite: 4.0 university credits. Excludes AHCL 3963H.

» **AHCL 3140H: The Greek States to the End of the Persian Wars**  
Examines the rise of the Greek city-states at the end of the Archaic Period (ca.700–480 BCE), touching upon such themes as the formation of a Greek identity; citizenship, tyranny, and democracy; slavery; women and patriarchy; Greek rationalism; Herodotus and the creation of history; and the Persian Wars. Prerequisite: 8.0 university credits including AHCL 2103H or 2105H.

» **AHCL-HIST 3171H: Alexander the Great and His Age**  
Offers both a survey of the life and deeds of Alexander and an examination of the background, the ancient sources (studied in English), and modern assessments. Prerequisite: 4.0 university credits. Excludes AHCL 3170H.

» **AHCL-HIST 3180H: The Late Roman Empire, 305–ca. 600 CE**  
The emergence of Christianity as the state religion under Constantine; the collapse of the Empire in the West and its replacement by Germanic kingdoms; the survival of the Empire in the East and the birth of Byzantine civilization. Prerequisite: 4.0 university credits. Excludes AHCL 3120H.

» **AHCL-ANTH-HIST 3190H: Ancient Anatolia**  
A study of Anatolia in Antiquity. Topics include Lydian, Achaemenid, Seleucid, and Roman Empires, urbanism, roads, local languages and cultures, including Lycia, Isauria, and Pontus, as well as village life and cities such as Sagalassus, Ephesus, Sinop, and Euchaita. Prerequisite: 4.0 university credits.

» **AHCL-ANTH-HIST 3221H: State Religion in Ancient Greece & Rome (see Anthropology)**

» **AHCL-ANTH-HIST 3222H: Mystery Cults and Restricted Rituals in the Ancient Mediterranean (see Anthropology)**

» **AHCL-ANTH 3240H: Etruscan Archaeology, ca. 1000–200 BCE (see Anthropology)**

» **AHCL-ANTH 3250H: Aegean Bronze Age Archaeology (see Anthropology)**
» AHCL-ANTH 3251H: The Archaeology of Ancient Athens (see Anthropology)

» AHCL-ANTH-HIST 3275H: Cultural Identity and Ancient North Africa (see Anthropology)

» AHCL-WMST 3310H: Love, Sex, and Death in the Ancient World
Ancient Greeks and Romans explored concepts of love, sexual roles, and violence through writing that inspires scholars and artists to this day. This course draws upon works ranging from ancient drama and poetry to philosophy and epitaphs in order to explore both ancient attitudes and their critical reception. Prerequisite: 8.0 university credits.

» AHCL 3320H: Tragedy in the Ancient World
A study of tragedy of the Athenian fifth century and Roman first century CE, covering the surviving works of Aeschylus, Sophocles, Euripides, and Seneca. Among the themes considered: the roles played by family, community, violence, and justice in tragedy, as well as exploration of notions of the “tragic.” Prerequisite: 8.0 university credits. Excludes AHCL 2300Y, 2305H.

» AHCL 3330H: Comedy in the Ancient World
A study of what the ancient Greeks and Romans found funny. Considers the representative authors of Old Comedy (Aristophanes), New Comedy (Menander), and Roman Comedy (Plautus and Terence). Thematic concerns may include social and political influences; ancient taboos and decorum; and the evolution of comedy. Prerequisite: 8.0 university credits. Excludes AHCL 2300Y, 2305H.

» AHCL 3351H: Romance, Fantasy, and Adventure in the Ancient World
Did the ancients distinguish between “fiction” or “fantasy” and “non-fiction” as we do? Topics include the “quest theme” (Gilgamesh, Odyssey, Voyage of Argo, Lucian’s “True” History), the concept of Utopia (the myth of Atlantis), and stories of sex and love (Ephesian Story, Satyricon, Golden Ass). Prerequisite: 8.0 university credits. Excludes AHCL 3350Y.

» AHCL-ANTH 3850Y: Field Course in Ancient Mediterranean Archaeology (Sc) (see Anthropology)

» AHCL 3900Y, 3905H: Reading Course
Provides an opportunity for more intensive or broader study of a selected topic which is pursued under the direction of a member of the program. Students must obtain the agreement of a faculty member to supervise the course. Prerequisite: 8.0 university credits including 2.0 AHCL credits, 1.0 of which must be at the 3000 or 4000 level.

» AHCL 4001H, 4002H: Senior Seminar
Students gain practical experience in the processes of scholarly investigations and dissemination of findings by engaging in the ongoing research project of the instructor. Prerequisite: 10.0 university credits, including AHCL course(s) to be specified on a course-by-course basis.

» AHCL-ANTH 4003H: Senior Seminar in Classical Archaeology (see Anthropology)

» AHCL-ANTH 4145H: Cultural Heritage: Threats and Responses (see Anthropology)

» AHCL-ANTH-ERSC 4180H: Collapse of Complex Societies (see Anthropology)

» AHCL-ANTH-ERSC 4185H: Human Impact on Ancient Environments (see Anthropology)

» AHCL-PHIL 4430H: Advanced Topics in Ancient Philosophy (see Philosophy)

» AHCL 4900Y, 4905H: Reading Course
Provides an opportunity for more intensive or broader study of a selected topic which is pursued under the direction of a member of the program. Students must obtain the agreement of a faculty member to supervise the course. Prerequisite: 8.0 university credits including 2.0 credits in AHCL, one of which must be at the 3000 or 4000 level.
Greek and Latin Courses

» **GREK 1000H: Elementary Greek 1**
An introduction to the basic elements of classical Greek providing the fundamentals of grammar and vocabulary. Some easy selections of ancient Greek are read in this course.

» **GREK 1001H: Elementary Greek 2**
A continued introduction to the basic elements of classical Greek. Some basic selections of ancient Greek are read in this course. Prerequisite: 60% or higher in GREK 1000H or permission of program.

» **GREK 2000H: Intermediate Greek 1**
Continuation of classical Greek syntax and grammar, followed by readings from ancient authors. Prerequisite: 60% or higher in GREK 1001H or permission of program.

» **GREK 2001H: Intermediate Greek 2**
Completion of classical Greek syntax and grammar, followed by readings from ancient authors. Prerequisite: 60% or higher in GREK 2000H or permission of program.

» **GREK 3000H: Advanced Greek**
Furthers the study of classical Greek, involving reading, translation, analysis of original Greek texts, and intensive study of Greek grammatical principles. Prerequisite: At least 80% in GREK 2001H. Because the core texts change from year to year, students may take the course more than once with permission of program. Excludes GREK 3000Y, 3001H, 3002H.

» **LATN 1000H: Elementary Latin 1**
An introduction to Latin through reading and comprehension, covering Wheelock ch. 1–15. Special emphasis is placed on acquiring a working vocabulary and on a grasp of Latin syntax. For students who have little or no previous knowledge of the language but who wish to be able to understand “the basics.”

» **LATN 1001H: Elementary Latin 2**
An introduction to Latin through reading and comprehension, covering Wheelock ch. 16–30. Special emphasis is placed on acquiring a working vocabulary and on a grasp of Latin syntax. Prerequisite: 60% or higher in LATN 1000H or permission of program.

» **LATN 2000H: Intermediate Latin 1**
Wheelock ch. 31–40 followed by selections from ancient authors. Prerequisite: 60% or higher in LATN 1001H or permission of program.

» **LATN 2001H: Intermediate Latin 2**
Selections from ancient authors. Prerequisite: 60% or higher in LATN 2000H or permission of program.

» **LATN 3000H: Advanced Latin**
Further advances understanding of Latin through a thorough and vigorous regimen of translation, composition, and study of advanced grammar. Prerequisite: At least 80% in LATN 2001H. Because the core texts change from year to year, students may take the course more than once with permission of program. Excludes LATN 3000Y, 3001H, 3002H.
Anthropology

trentu.ca/anthropology

Associate Professor and Chair of the Department

R. D. Fitzsimons, BA, MA (Toronto), PhD (Cincinnati)

Professors

J. Conolly, BA (Toronto), MSc (Southampton), MA, PhD (University College London)
G. Iannone, BA (Simon Fraser), MA (Trent), PhD (University College London)
P. Manning, BA (Reed), MA, PhD (Chicago)
A. Meneley, BA (McGill), MA, PhD (New York) (on leave Fall 2019)

Associate Professors

L. Dubreuil, BSc, MSc (Aix-Marseille), PhD (Bordeaux) (on leave 2019–2020)
S. Hepburn, BA (Calgary; Cambridge), MA (McGill), MA, PhD (Cornell) (on leave Winter 2020)
A. Keenleyside, BA (McMaster), BEd (OISE, Toronto), MA (Alberta), PhD (McMaster)
R. I. Lohmann, BA, MA, PhD (Wisconsin–Madison)
J. P. Moore, BA (Wilfrid Laurier), MA, PhD (McMaster)
E. Morin, BSc, MSc (Montréal), DEA (Paris Ouest Nanterre), PhD (Michigan) (on leave 2019–2020)
M. Munson, BA (Miami, Ohio), MA, PhD (New Mexico) (on leave Winter 2020)
J. S. Williams, BA (McMaster), MA (Western), PhD (Calgary)

Assistant Professor and Canada Research Chair

P. Szpak, BA (McMaster), PhD (Western)

Senior Lecturer

H. Haines, BA (Toronto), PhD (University College London)

Anthropology is the study of human cultural, behavioural, and biological variability. It is a discipline integrating four subfields: archaeology, linguistic anthropology, biological anthropology, and cultural anthropology. Archaeologists document the material remains of past societies to understand and to explain patterns of cultural behaviour and cultural change. Linguists study languages worldwide and in relation to society and culture. Biological anthropologists investigate human evolution, growth, and development in relation to environmental, genetic, and cultural factors. Cultural anthropologists work with living people worldwide, recording their ways of life and beliefs and interpreting their findings to understand and explain the similarities and differences in cultural practices. Anthropologists are unified by their interest in human variability and the manner in which different individuals, communities, and societies, whether in the past or present, relate to each other at scales ranging from the local to global.

Notes

• Courses in Anthropology fulfilling University science course requirements for the BSc are marked “(Sc)” in the individual course descriptions.
• Students planning to enter graduate school are strongly advised to take ANTH 2001H, 2002H, 2121H, 2122H, 2311H, 2312H, 2410H, and 2450H; if they are planning to continue in archaeology, they are strongly advised to take both ANTH 3100Y and 3991H.
• For the Archaeology program, see p. 40.
Bachelor of Arts and Bachelor of Science Programs in Anthropology

- In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).
- The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.
- Students in the joint-major program in Anthropology and International Development Studies may substitute IDST-ANTH 2500H and 2600H for 1.0 credit from 2000-level ANTH courses in their Anthropology requirements.

The single-major Honours program. 20.0 credits including the following 10.0 credits:
- 1.0 ANTH credit at the 4000 level
- 4.0 ANTH credits at the 3000 level or beyond in addition to the above, including ANTH 3100Y and/or 3991H
- 5.0 ANTH credits in addition to the above, including ANTH 2001H and/or 2121H and 2122H
- For the BSc, 14.0 science credits are required for the Honours degree, including 1.0 MATH credit; MATH 1051H and 1052H are recommended

The joint-major Honours program. 20.0 credits including the following 7.0 credits:
- 1.0 ANTH credit at the 4000 level
- 2.0 ANTH credits at the 3000 level or beyond in addition to the above, including ANTH 3100Y and/or 3991H
- 4.0 ANTH credits in addition to the above, including ANTH 2001H and/or 2121H and 2122H
- For the BSc, 14.0 science credits are required for the Honours degree, including 1.0 MATH credit; MATH 1051H and 1052H are recommended

The single-major General program. 15.0 credits including the following 6.0 credits:
- 2.0 ANTH credits at the 3000 level or beyond, including ANTH 3100Y and/or 3991H
- 4.0 ANTH credits in addition to the above, including ANTH 2001H or 2121H and 2122H
- For the BSc, 11.0 science credits are required in the General degree, including 1.0 MATH credit; MATH 1051H and 1052H are recommended

The joint-major General program. 15.0 credits including the following 5.0 credits:
- 2.0 ANTH credits at the 3000 level or beyond, including ANTH 3100Y and/or 3991H
- 3.0 ANTH credits in addition to the above, including ANTH 2001H or 2121H and 2122H
- For the BSc, 11.0 science credits are required in the General degree, including 1.0 MATH credit; MATH 1051H and 1052H are recommended

The minor in Anthropology consists of the following 5.0 credits:
- 2.0 ANTH credits at the 3000 level or beyond, including ANTH 3100Y and/or 3991H
- 3.0 ANTH credits in addition to the above, including ANTH 2001H and/or 2121H and 2122H

Year Abroad Program – Ghana

The Ghana Year Abroad program is designed primarily for Honours students in the single-major or joint-major programs in Anthropology or International Development Studies who have completed 9.0 university credits with an overall average of at least 70%.

The Ghana program consists of the following 5.0 credits:
- IDST-ANTH 3770Y, IDST-ANTH 3781Y (IDST 3780Y), IDST-ANTH 3790Y, and IDST-ANTH-ERST-SAFS 3800D
Please consult the academic timetable for information on courses that will be offered in 2019–2020, including when they will be scheduled.

» ANTH 1001H: General Anthropology (Sc)
Anthropology is the study of humankind and anything to do with humans across time and space. This course surveys anthropology as a whole, emphasizing how biological, archaeological, linguistic, and cultural anthropology's topics, methods, and findings combine to create a holistic understanding of humanity's origins, prehistory, languages, and ways of life. Excludes ANTH 1000Y, 1010H, 1020H.

» ANTH 1002H: Applied Anthropology
This course surveys uses of anthropology to solve problems and achieve goals in business, sustainability, technology, development, health, education, forensics, politics, and careers. It explores ways anthropological research can improve the effectiveness of anything people set out to achieve, since humans are always part of the process. Offered only at Trent University Durham – GTA.

» ANTH-AHCL 1030H: Archaeology I: Accessing the Past (Sc)
Explores the origin, development, challenges, and lessons of archaeological practice around the world, with a focus on specific, illustrative case studies drawn from the history of the discipline. Excludes AHCL 1001H.

» ANTH-AHCL 1200H: The Trojan War: An Epic of Archaeology (see Ancient Greek & Roman Studies)

» ANTH 2001H: Cultural Anthropology
An introduction to the history, theory, methods, and findings of cultural anthropology, the ethnographic study of contemporary peoples' ways of living and thinking. This course surveys systems of exchange, kinship, politics, and belief across cultures. Excludes ANTH 2000Y.

» ANTH 2002H: Ethnographic Exploration
What is it like to live in different cultures and come to see the world as they do? Through in-depth encounters with several of the world's cultures through ethnographies, this course provides a cross-cultural understanding of humankind. Excludes ANTH 2000Y.

» ANTH-LING 2010H: Phonetics (see French & Francophone Studies)

» ANTH-LING 2020H: Digging Up Dead Languages (see French & Francophone Studies)

» ANTH 2030H: Technology and Humanity
An introduction to the origin, development, and diversity of technologies in human prehistory and ethnology. Includes archaeological, biological, cultural, and linguistic anthropological perspectives on the role of technologies in human evolution and culture change. Offered only at Trent University Durham – GTA.

» ANTH 2040H: Law and Order in Ancient and Contemporary Cultures
An examination of social control and organization in past and present societies around the world. The findings of archaeological, biological, cultural, and linguistic anthropology are combined to understand the range of political and justice systems as ways of defining and solving human problems. Offered only at Trent University Durham – GTA.

» ANTH 2050H: Introduction to Ontario Historical Archaeology Field and Laboratory Methods (Sc)
An introduction to basic excavation and laboratory techniques at an historic site in the Oshawa area. Work is divided between field and classroom settings. Students must be available for both components. Summers only—confirm with department office. Limited enrolment. Pre- or co-requisite: ANTH 2121H and 2122H or permission of instructor.
ANTH 2121H: Foragers to Farmers: The Archaeology of Early Societies (Sc)
Archaeology aims to reconstruct and explain the evolution of cultural behaviour in humans. This course surveys major topics in archaeology beginning with the earliest records of human culture to the emergence and expansion of agricultural societies. Excludes ANTH 2120Y.

ANTH 2122H: Farms to Empires: The Archaeology of Complexity (Sc)
A comparative survey of how archaeologists have documented and interpreted the evidence related to the emergence of proto-urban and urban settlements, city-states, and empires. Major themes addressed include political and social organization, craft production, art, religion, trade and exchange, social elites, and military power. Excludes ANTH 2120Y.

ANTH 2123H: Archaeology II: Methods of Analysis (Sc)
Introduces students to the ways archaeologists obtain data to build knowledge of the past. Students are provided with a critical appreciation and understanding of a representative range of methods used in archaeological survey, excavation and in post-excision analysis.

ANTH 2150H: Archaeological Science I: Introduction to Archaeological Science (Sc)
An exploration of archaeological science (dating techniques, isotopic analysis, ancient DNA, material characterization) through case studies with an emphasis on the articulation of scientific techniques and archaeological research questions. Themes explored include human origins, diet, migration, status, and trade. Prerequisite: 4.0 university credits.

ANTH-AHCL 2201H: Introduction to Egyptian Archaeology from the Pharaohs to the Romans
The methods and achievements of archaeologists and the art history of Egypt from the period of the Pharaohs, through the Persians and the Greeks to the Romans. Prerequisite: 4.0 university credits.

ANTH-AHCL 2205H: Archaeology and Art History of Ancient Greece
An introduction to Greek material culture from the Bronze Age through the Hellenistic Period. Topics include the birth of Western art, the formation of a Greek identity, the relationship to contemporary social developments, and the lasting legacy of Greece in the modern world (including theatres, sculpture, coins, and city-planning). Prerequisite: 4.0 university credits. Excludes AHCL-ANTH 2200Y.

ANTH-AHCL 2206H: Archaeology and Art History of Ancient Rome
An introduction to Roman material culture from the Iron Age through the Late Empire. Topics include the development of a distinctively Roman culture, the influence of the Greek world, the spread of Roman imperialism, the impact of Christianity, and the continuing relevance of Roman institutions in modern society. Prerequisite: 4.0 university credits. Excludes AHCL-ANTH 2200Y.

ANTH 2311H: Anthropology of Language
Covers the basic issues involved in situating diverse languages within diverse cultures and societies, placing the study of genres or ways of speaking in socio-cultural contexts of use, attending to the way people’s ideas about what language is and what it is for shape the ways they speak. Prerequisite: 3.0 university credits. Excludes ANTH 2310Y.

ANTH 2312H: Anthropology of Media
As media proliferate globally, people are developing culturally-specific understandings of how these media shape communication and what kinds of utterances belong to which media. This course is a linguistic and cultural anthropological exploration of the way people’s ideas about different communicative media shape the ways they use these media. Prerequisite: 3.0 university credits. Excludes ANTH 2310Y.
**ANTH 2410H: Biological Anthropology II: Darwin, Death, and Disease (Sc)**
Students learn about the roles of evolution, disease, and death in shaping modern human and non-human primate biology, behaviour, and distribution. Students learn more about research methods and applications of this research. Topics covered include evolution, infectious disease, growth and development, forensic anthropology, skeletal anatomy, and nutrition. Prerequisite: ANTH 1001H or 1010H or permission of instructor. Excludes ANTH 2400Y.

**ANTH 2450H: Plagues and People (Sc)**
Focuses on the origins of plagues and the biological and social impact of major epidemics, past and present, on human societies. Themes explored include the role of human behaviour in the outbreak of disease, responses to epidemics, and human evolution and disease. Prerequisite: ANTH 2410H or permission of instructor. Excludes ANTH 3450H.

**ANTH-BIOL 2470H: Primate Behaviour (Sc)**
A general survey of the Order Primates, focusing on their history, classification, distribution, ecology, and behaviour within an evolutionary/adaptive context, with emphasis on the comparisons of non-human primates with the human species. Prerequisite: ANTH 1001H or ANTH 1010H. Excludes ANTH-BIOL 3470H.

**ANTH-GEOG-IDST-SAFS-SOCI 2500H: The World Food System (see International Development Studies)**

**ANTH-IDST-SAFS 2600H: Peasants, Food, and Agrarian Change (see International Development Studies)**

**ANTH 3000Y: Field Methods and Techniques in Anthropology (Sc)**
An introduction to methods and techniques of discovery, analysis, and interpretation in a field situation in any one sub-discipline (archaeology, cultural, physical, or linguistic anthropology). Summers only—confirm with the department office. Limited enrolment. Prerequisite: Permission of instructor.

**ANTH-EGEO-FRSC 3001H: Applied and Environmental Geophysics (Sc) (see Environmental Geoscience)**

**ANTH 3007H: Buddhism, Culture, and Society**
Buddhism is based in a canonical tradition. Buddhist practice, however, is embedded in—transformed by and transforming—local contexts. We explore ethnographic accounts of how the ideas of Siddhartha (The Buddha) variously exist in different cultural and social contexts. Prerequisite: ANTH 2001H or 9.0 university credits including ANTH 1020H or permission of instructor.

**ANTH 3100Y: Archaeology III: Key Ideas and Current Issues (Sc)**
Examines both the history of archaeological thought and practice, in addition to addressing archaeology’s role in the contemporary world. Topics may include those related to evolution, the environment, race, ethnicity, gender, repatriation, and ethics, in addition to current and emerging debates in the discipline. Prerequisite: ANTH 2121H and 2122H or permission of instructor.

**ANTH 3101H: Anthropology of Gifts and Commodities**
Explores classic and contemporary anthropological discussions of the relationship between gifts and commodities. We explore a wide range of topics from personhood, identity, labour/work, gender, class, nature, and love, and examine how each of these are implicated in and constituted by the production, exchange and consumption of gifts, commodities and gift-commodity hybrids. Prerequisite or co-requisite: ANTH 3991H or permission of instructor. Excludes ANTH-SOCI 4100H.
» **ANTH 3112H: North American Archaeology (Sc)**
Covers the archaeology of North America, from Paleoindians through the nineteenth century. Subjects include the shift from hunting and foraging to agriculture, the development of complexity, trade relationships and interregional interaction, shifting religious beliefs and practices, and the consequences of European contact and settlement. Prerequisite: ANTH 2121H and 2122H or permission of instructor. Excludes ANTH 3110Y.

» **ANTH 3121H: Archaeology of Ancient Mesoamerica (Sc)**
A survey of the ancient Native civilizations of Mexico and Central America from the earliest settlement to the European conquest. Includes a study of Aztecs, Maya, Olmec, and other societies of Mesoamerica. Prerequisite: ANTH 2121H and 2122H or permission of instructor. Excludes ANTH 4120Y.

» **ANTH 3151H: Lab Methods: Lithics and Bone (Sc)**
The description and analysis of materials from archaeological contexts, including stone tools, bone tools, shell, and ecofacts. This course focuses on hands-on analysis of materials. Fundamental techniques of recording and cataloguing, such as drawing and photography of artifacts, are taught throughout. Prerequisite: ANTH 2121H and 2122H or permission of instructor. Excludes ANTH 3150Y.

» **ANTH 3152H: Lab Methods: Ceramics and Historics (Sc)**
Introduces students to basic methods for analyzing of archaeological ceramics and historic artifacts, focusing on ceramic technology and the production of glass and metal artifacts as technologies that transform raw materials into new substances. Prerequisite: ANTH 2121H and 2122H or permission of instructor. Excludes ANTH 3150Y.

» **ANTH-BIOL 3153H: Archaeological Science II: Ancient Biomolecules (Sc)**
Ancient biomolecules (proteins, lipids, DNA), the conditions under which they preserve, how they are isolated and analyzed. Topics include stable isotopes, ancient DNA, proteomics, and organic residue analysis. Labs provide students with hands-on experience with techniques commonly used in archaeological science (emphasis on bone chemistry). Prerequisite: ANTH 2150H or three of BIOL 1020H, BIOL 1030H, CHEM 1000H, CHEM 1010H, GEOG 1040H, or PHYS 1001H.

» **ANTH 3160H: Peoples of Pacific Oceania**
From tiny coral atolls to lush jungles to vast deserts, this course explores the diverse peoples of Polynesia, Micronesia, Melanesia, and Australia. Topics include the prehistoric occupation of the islands; regional patterns in human biology, language, and culture; and the ethnography of several specific groups. Prerequisite: 4.0 university credits.

» **ANTH 3165H: Maritime Archaeology**
This course introduces students to the archaeology of human interaction with water. Topics include the archaeology of waterside settlements, inundated and maritime landscapes, as well as the archaeology of small watercraft, ships, and related infrastructure including wharfs, docks, and harbours. Methodological and theoretical approaches are equally emphasized. Prerequisite: ANTH-AHCL 1030H or permission of instructor.

» **ANTH-ERSC-GEOG 3175H: The Archaeology of Natural Disasters (Sc)**
Lectures explore the science of natural disasters, and issues relating to resilience and risk management in the contemporary world. Seminars focus on the archaeology of natural disasters, with particular emphasis on how human conceptions of the environment condition people's perceived vulnerability, and eventually their responses, to sudden environmental changes. Prerequisite: 10.0 university credits or permission of instructor.
» ANTH-ERSC-GEOG 3185H: The Archaeology of Climate Change (Sc)
Lectures and readings examine the science of climate change, outline how climate change influenced cultural development in the past, and assess how human perceptions of the environment conditioned the varying responses to climate change. Seminars focus on key methodological and/or theoretical issues, and specific case studies from the archaeological record. Prerequisite: 10.0 university credits or permission of instructor.

» ANTH-AHCL-HIST 3190H: Ancient Anatolia (see Ancient Greek & Roman Studies)

» ANTH-AHCL-HIST 3221H: State Religion in Ancient Greece and Rome
Offers critical examination of the structure, function, and practices of official religion between the late Iron Age and the rise of monotheism in the late antique Mediterranean. Archaeological remains and ancient texts demonstrate how state-sponsored cults served to bind the populace and codify social and political behaviour. Prerequisite: 8.0 university credits including both AHCL 2102H and 2105H or both ANTH-AHCL 2205H and 2206H. Excludes AHCL-ANTH 3220Y.

» ANTH-AHCL-HIST 3222H: Mystery Cults and Restricted Rituals in the Ancient Mediterranean
In ancient Greece and Rome, exclusionary rituals and secretive initiation cults like those of Dionysos, Mithras, Isis, and Christianity overturned entrenched social norms and threatened the cohesion of the state. Archaeological and written evidence provide evidence for the origins, impact, and legacy of such practices in the ancient Mediterranean. Prerequisite: 8.0 university credits including both AHCL 2102H and 2105H or both ANTH-AHCL 2205H and 2206H. Excludes AHCL-ANTH 3220Y.

» ANTH-AHCL 3240H: Etruscan Archaeology, ca. 1000–200 BCE
The material culture of the Etruscans, who rivalled the major Mediterranean powers in trade and warfare and whose art, architecture, and beliefs profoundly influenced ancient Roman culture. Prerequisite: 4.0 university credits including ANTH-AHCL 2205H or 2206H.

» ANTH-AHCL 3250H: Aegean Bronze Age Archaeology
An exploration of the material culture of the Aegean Basin from the Neolithic Period through the Late Bronze Age (ca. 8000–1100 BCE), focusing on such topics as the built environment, art and symbolism, trade and exchange, religion and burial customs, and social stratification and state formation. Prerequisite: 4.0 university credits including ANTH-AHCL 2205H.

» ANTH-AHCL 3251H: The Archaeology of Ancient Athens
Examines the material culture of ancient Athens from the Neolithic Period to the Slavic Invasions in the sixth century CE, focusing on changes in the socio-political structure of the city throughout its history by exploring art and architecture, trade and exchange, ritual and mortuary customs, and state formation. Prerequisite: ANTH-AHCL 2205H. Excludes AHCL 3958H.

» ANTH 3260H: Culture and Mortality
Although cultures are diverse, people of all cultures die. We explore the questions of death from the perspectives of many cultures as interpreted by anthropologists. In light of this cross-cultural examination, we ask what it means to be “mortal.” Prerequisite: ANTH 2001H or permission of instructor.

» ANTH 3270H: Anthropology of Religion
An exploration of how anthropologists have approached phenomena such as witchcraft, shamanism, ritual, and myth as a way of understanding the epistemologies and cosmologies of people in diverse cultural contexts. Prerequisite: ANTH 2001H or permission of instructor.
» ANTH-AHCL-HIST 3275H: Cultural Identity and Ancient North Africa
By critically comparing archaeological and textual evidence with scholarly publications, we examine attitudes toward culture and self-identification in ancient North Africa (ca. 700 BCE–450 CE), as expressed by both ancient peoples and scholars of the past circa 150 years, a period of tremendous change in political and academic thought. Prerequisite: 6.0 university credits. Excludes AHCL 3961H.

» ANTH 3290H: Senses and Culture
Considers the senses as culturally mediated and culture as sensually mediated. Examines a diversity of non-Western sensoria, and also questions such as: Are there five senses, or is this one specific construct? Has Western culture always been dominated by vision? Prerequisite: ANTH 2001H or permission of instructor.

» ANTH-ERSC 3333H: Ecological Anthropology (Sc)
Examines human participation in ecosystems, including how people and cultures cause and react to environmental challenges. We explore interdependence among humans and the rest of nature, how people in various cultures and times conceptualize and interact with their environment, and ways to identify and promote cultures of sustainability.

» ANTH 3390H: Anthropology of the City
An anthropological introduction to urbanization, with a special emphasis on the social and material life of the city, including infrastructures from streets and sidewalks to power grids. Emphasis is placed on the use of ethnographic analysis to understand how processes of urban society manifest themselves in everyday life. Prerequisite: ANTH 2001H or both 2311H and 2312H or permission of instructor. Excludes ANTH 4290H.

» ANTH-BIOL-FRSC 3404H: Human Osteology (Sc)
A lab-based introduction to the anatomy and biology of the human skeleton. Topics include basic skeletal anatomy, bone biology and development, the functional morphology of bones, identification of complete and fragmentary bones, and skeletal pathology. Prerequisite: ANTH 2410H. Excludes ANTH-BIOL-FRSC 3415Y, 3420H.

» ANTH-FRSC 3405H: Forensic Anthropology (Sc)
An introduction to forensic anthropology. Focuses on the methods used by forensic anthropologists to analyze unidentified skeletal remains, including sex determination, age estimation, stature estimation, assessment of ancestry, and identification of trauma and pathology. Prerequisite: ANTH-BIOL-FRSC 3404H. Excludes ANTH-BIOL-FRSC 3415Y, 3420H.

» ANTH-BIOL 3460H: Biocultural Explorations of the Human Life Course (Sc)
A survey of the human life course through a bio-cultural lens, focusing on life history theory, demography, growth and development, adaptive human biology, determinants of health, and aging. The human species on the individual and population levels is seen as a product of evolutionary and biological forces, and of culture and society. Prerequisite: ANTH 1001H or both 1010H and 1020H or permission of instructor.

» ANTH 3540H: Mortuary Archaeology (Sc)
Examines the act of burial from an archaeological perspective. We focus on temporal trends in mortuary customs from Neandertals to modern humans. Gender, age, ethnic, and social differences in burial patterns are also explored. Prerequisite: ANTH 2001H or 2410H or both 2121H and 2122H, or permission of instructor. Excludes ANTH-AHCL 4410H.

» ANTH 3550H: Hunters-Gatherers
Examines variability within and between hunter-gatherer groups and sees how differences can be understood in an ecological and social perspective. To illustrate the diversity of hunter-gatherer adaptations, this course draws on case studies from Europe, Asia, the Americas, and Oceania. Prerequisite: ANTH 2001H or both 2121H and 2122H.
» ANTH 3650H: Landscape and Settlement Archaeology (Sc)
Explores the spatial dimension of archaeological data and its relationship to ecology and human
behaviour. Approaches to the distributions of artifacts and sites, the organization of buildings
and settlements, and the interactions between cultures are discussed. Both techniques of analysis
and interpretative concepts are presented. Prerequisite: ANTH 2121H and 2122H or permission of
instructor.

» ANTH-ERSC 3680H: Environmental Archaeology (Sc)
Focuses on the concepts and methods used by archaeologists to investigate the long-term
interactions between humans and the environment. Explores the wide diversity of approaches
(geomorphology, paleobotany, archaeozoology, paleoentomology, and isotopic analyses)
developed over the years in order to sharpen our understanding of past human–environment
dynamics. Prerequisite: ANTH 1001H; or ANTH 1010H and 1020H; or ERSC 1010H and 1020H; or
permission of instructor. Excludes ANTH 3520Y.

» ANTH 3731H: Archaeozoology (Sc)
Introduces the analysis and interpretation of animal remains in archaeological sites. Students
become familiar with the interpretation of faunal assemblages and learn through hands-on
practice and discussions to think critically about the implications that can be drawn from these
remains. Limited enrolment. Prerequisite: ANTH 2121H or 2122H or 2410H or permission of
instructor. Excludes ANTH 3730Y.

» ANTH-COIS 3745H: Virtual Worlds: The Anthropology of Online Communities
Focuses on worlds creating in playable media (games), including both massively multiple online
games (MMOGs) and tabletop role-playing games. “Virtual” society is now an increasingly taken-for-granted aspect of everyday sociality. This course develops tools and theories for the study of
virtual worlds, online and offline. Prerequisite: 4.0 university credits.

» ANTH-SAFS 3746H: Anthropology of Drinks and Drinking
Drinks and drinking as meaningful and material forms pervade all social life. This course explores
ethnographically the way the materiality of specific drinks—water (tap, mineral, purified), coffee,
gin, wine, vodka, beer—serves as a social medium in specific times and places. Prerequisite: ANTH
2001H or 2002H or 2311H or 2312H or SAFS 1001H or permission of instructor.

» ANTH 3747H: Language and Media
Explores the intersection of language and media from an anthropological perspective. While
spoken language is often treated as unmediated in relation to its mediated forms, we treat
speech and voice as one medium alongside others, some which reproduce more, and others less,
embodied properties of voice. Prerequisite: ANTH 2311H and 2312H.

» ANTH-CUST 3748H: Anthropology of Animation
Explores anthropologically the concept of animation—the attribution of human agency and life to
nonhumans or media forms that create such an “illusion of life”—covering animated nonhumans
from religious images, dolls, puppets, automatons, and robots to animated characters and brand
mascots across different animated media (cel animation, rotoscope, stop-motion, puppetry).
Prerequisite: ANTH 2001H or 2002H or 2312H or CUST 1535H or permission of instructor.

» ANTH 3749H: Contemporary Legends and Other Stories
Contemporary (“urban”) legends are just one of many genres of storytelling analyzed by
anthropologists and folklorists across cultures. This course uses linguistic anthropology to locate
contemporary legends in relation to other narrative genres of folklore, including myths and
fairytales, and new media forms, including the folklore of the internet. Prerequisite: One of
ANTH 2001H, 2002H, 2311H, or 2312H (ANTH 2311H strongly recommended); or permission of
instructor.

» ANTH-IDST 3770Y: Society, Culture, and Development in Africa (see International
Development Studies)
ANTH 3780H: Topics in Religion and Culture
A focused study of a particular topic in the study of religion and culture. Topics change from year to year. Prerequisite: ANTH 2001H or permission of instructor. Excludes ANTH 4270H.

ANTH-IDST 3781Y: Ghana Seminar (see International Development Studies)

ANTH-IDST 3790Y: Local Dynamics of Change (see International Development Studies)

ANTH-IDST-ERST-SAFS 3800D: Community Development (see International Development Studies)

ANTH 3810H: Monsters: Societies Seen Through Their Others
Examines the linguistic, semiotic, and cultural constitution of figures of otherness or “alterity” that both define the boundaries and provide inverted images of societies and languages, paying particular attention to figures of monstrous alterity, both physical and linguistic monstrosity, and various dimensions of difference. Prerequisite: ANTH 2001H or both 2311H and 2312H or permission of instructor. Excludes ANTH 4810H.

ANTH-SAFS 3820H: Culture and Food
Examines classic issues in the anthropology of food. We focus on etiquette of food consumption, food and sex, food and religion and morality, food exchange and preparation, vegetarianism and meat eating, and cannibalism. Prerequisite: ANTH 2001H or permission of instructor.

ANTH-AHCL 3850Y: Field Course in Ancient Mediterranean Archaeology (Sc)
A field course in archaeological methods and techniques at a Classical or Near Eastern site in the Mediterranean. Spring/summers only—confirm with the department office. Prerequisite: Permission of instructor and 1.0 credit from ANTH-AHCL 2205H, ANTH-AHCL 2206H, ANTH 2121H, or ANTH 2122H. Limited enrolment.

ANTH-LING 3860H: Field Methods in Linguistics (see French & Francophone Studies)

ANTH-IDST 3890Y: Latin American Economies, Cultures, and Societies (see International Development Studies)

ANTH 3991H: Theories of Society and Culture
Structured thematically, this course surveys the principal theoretical developments in the discipline. Prerequisite: ANTH 2001H. Excludes ANTH 3990Y.

ANTH 3992H: Ethnographic Methods and Ethics
Covers research design, field methods, ethics, styles of ethnographic writing, and ongoing critical debates about methodology. Prerequisite: ANTH 2001H or permission of instructor. Excludes ANTH 4160Y.

ANTH-AHCL 4003H: Senior Seminar in Classical Archaeology
Students gain practical experience in the processes of scholarly investigations and dissemination of findings by engaging in the ongoing research project of the instructor. Prerequisite: 10.0 university credits, including AHCL course(s) to be specified on a course-by-course basis.

ANTH 4004H, 4005H: Research Seminar
An advanced research seminar in which students engage and contribute to a research question or theme defined by the course instructor. Topics vary by year and instructor. Prerequisite: 10.0 university credits and permission of instructor.

ANTH 4010Y, 4020D: Honours Thesis (Sc depending upon topic)
ANTH 4020D is a double credit in Anthropology. ANTH 4010Y is a single credit because the same thesis is submitted to the other department/program in a joint-major. Students undertake a specific research project and write a thesis of 12,000 to 15,000 words on a well-defined topic. Arrangements begin with the chair of the department March 1 of the preceding academic year and departmental approval must be completed before March 31. Prerequisite: 9.0 university credits including ANTH 3100Y or 3991H; courses directly relevant to the thesis topic; and a minimum 80% cumulative average in ANTH courses completed.
» **ANTH-AHCL 4145H: Cultural Heritage: Threats and Responses**  
The cultural identity of living peoples and the appreciation of the human past rely on the safeguarding of tangible heritage, yet physical remains of the past are under constant threat of destruction, disappearance, or distortion. What underlies these threats, and how effectively are legal and professional standards addressing them? Prerequisite: 8.0 university credits.

» **ANTH-CAST-INDG 4155H: Great Lakes Archaeology (Sc)**  
A critical review of the archaeology of the Great Lakes region of North America, from the earliest evidence of human presence to European colonization. Seminars address the long-term historical and evolutionary nature of landscapes and societies, focusing on environmental change and population history, technology, subsistence, settlement, trade and exchange, and socio-political organization. Prerequisite: ANTH 2121H and 2122H or permission of instructor. Excludes ANTH 4151Y.

» **ANTH-INDG 4165H: Anthropology, Museums, and Indigenous Peoples**  
Anthropological collecting and display have made museums an arena for shifting relationships between settler-colonial society and Indigenous peoples. Critically examining recent practice in museum anthropology, including forms of repatriation and the use of anthropological collections by Indigenous researchers, this course explores implications of changing praxis for anthropology as a discipline. Prerequisite: 10.0 university credits.

» **ANTH 4170H: Archaeology and Popular Culture**  
Provides a critical assessment of ways in which archaeology and archaeologists are portrayed in various forms of popular culture, including films, television dramas, documentaries, cartoons, fiction novels, magazines, video and board games, and science fiction. Prerequisite: ANTH 2121H and 2122H; and 3000Y or 3100Y; or permission of instructor. Excludes ANTH 4931H.

» **ANTH-AHCL-ERSC 4180H: Collapse of Complex Societies (Sc)**  
Using anthropological theory and archaeologically-generated data sets, this course explores the characteristics of, and reasons for, the “collapse” of complex societies. The focus is on the last two phases of the “Adaptive Cycle”: release and reorganization. Implications for the contemporary world are also discussed. Prerequisite: 10.0 university credits or permission of instructor.

» **ANTH-AHCL-ERSC 4185H: Human Impact on Ancient Environments (Sc)**  
Using archaeological and environmental theory and diverse data sets, lectures and student research projects explore human impacts on ancient environments. The focus is on the first two phases of the “Adaptive Cycle”: exploitation and conservation. Seminars concentrate on contemporary environmental issues. Prerequisite: 10.0 university credits or permission of instructor.

» **ANTH-SAFS 4350H: Origins and Spread of Agriculture (Sc)**  
Provides students with a critical understanding of the theoretical models and archaeological evidence for the origins and spread of agricultural societies. The course explores evolutionary, ecological and social theories and reviews genetic, linguistic, archaeobotanical, zooarchaeological and settlement data from Southwest and Southeast Asia, Europe, and the Americas. Prerequisite: 9.0 university credits including ANTH 2121H and 2122H, or permission of the instructor. Excludes ANTH 4290H in 2009.

» **ANTH 4420H: Palaeopathology (Sc)**  
Focuses on the study of disease in human skeletal remains. Emphasis is placed on the description and diagnosis of bone pathology, theoretical issues underlying the reconstruction of the health of past populations, and recent molecular and microscopic approaches to the study of disease in bone. Prerequisite: ANTH-BIOL-FRSC 3404H and ANTH-FRSC 3405H (or ANTH-BIOL-FRSC 3420H) or permission of instructor.
» **ANTH 4430H: Advanced Skeletal Biology (Sc)**
Explores how and why past populations are reconstructed from skeletal samples, with emphasis on current theoretical and methodological issues in skeletal biology. Topics include methods of age estimation, growth and development, palaeodemography, palaeopathology, chemical analysis of bones and teeth, population studies, dental anthropology, and ancient DNA. Prerequisite: ANTH-BIOL-FRSC 3404H and ANTH-FRSC 3405H (or ANTH-BIOL-FRSC 3420H) or permission of the instructor. Excludes ANTH 3430H.

» **ANTH-BIOL-SAFS 4440H: Nutritional Anthropology (Sc)**
Examines human dietary behaviour as a product of interactions among ecology, culture, and biology. It focuses on basic nutritional and ecological principles, diet from evolutionary, comparative, and historical perspectives, cultural factors influencing diet, food as medicine, and the impact of under-nutrition on human physiology and behaviour. Prerequisite: ANTH 2410H or permission of instructor.

» **ANTH 4500H: Advanced Archaeological Lab Methods (Sc)**
Provides advanced training in archaeological laboratory methods. Students work on processing and analyzing an archaeological collection held by the Department of Anthropology, completing research reports on a topic of their choosing, in consultation with the course instructor. Prerequisite: ANTH 3151H and 3152H, or permission of instructor.

» **ANTH-IDST-SOCI 4512H: Contemporary Issues in Global Health (see International Development Studies)**

» **ANTH-INDG 4631H: Indigenous Communities and Cultural Heritage (see Indigenous Studies)**

» **ANTH 4710H: The Maya (Sc)**
Survey of the ancient and modern Maya of Central America. Examines the culture of the contemporary Maya, one of the largest Indigenous groups of the Americas, as well as the archaeology of pre-Columbian Maya civilization. Prerequisite: ANTH 2121H and 2122H or permission of instructor. Excludes ANTH 3710H.

» **ANTH-IDST 4750H: Perspectives on Ethnicity (see International Development Studies)**

» **ANTH-IDST 4760H: Family and Modernity (see International Development Studies)**

» **ANTH-IDST-INDG 4770H: Anthropology of Colonialism**
Provides an historical anthropological exploration of colonialism. Drawing on case studies from Eurasia, North America, the Middle East, Asia, and Africa, it focuses on the colonial construction of categories of language, race, ethnicity, gender, and sexuality, and how such cultural categories have been transformed and/or reproduced in the postcolonial present. Prerequisite: ANTH 2001H. Co-requisite: ANTH 3991H.

» **ANTH 4820H: Anthropology of Technology**
Takes a critical anthropological perspective on the category of technology in its historical and social/cultural contexts. Explores the social/cultural life of technological artifacts from steam engines to the Internet, with an emphasis on media technologies. Prerequisite: ANTH 2001H or 2312H or CUST 2035Y or 2535H or permission of instructor.

» **ANTH-POST-SAFS 4830H: Anthropology of Food Politics**
Explores moral and ethical dimensions of food production and circulation. The politics of excess and want, national cuisines, reactions to industrial and fast food (the Slow Food movement, culinary connoisseurship). Food distribution, from home to restaurants and fast food joints, is examined in the context of changing demands of work. Prerequisite: ANTH 2001H or permission of instructor.
» **ANTH 4900Y, 4901H, 4902H: Reading Course (Sc depending upon topic)**  
Designed for students to pursue special interests largely through independent study. Signature of instructor and department required. Details to be arranged in advance consultation with faculty in Anthropology and proposals to be submitted to the chair of the department for approval and signature. Completed applications with the appropriate supporting documents will be forwarded to the Office of the Dean of Arts & Science for approval prior to the add deadline for the requested term.

» **ANTH-WMST 4932H: Sex, Gender, and Environmental Justice (see Gender & Women’s Studies)**
Archaeology

trentu.ca/archaeology

Program Coordinator
Chair of the Department of Anthropology
R. D. Fitzsimons, BA, MA (Toronto), PhD (Cincinnati)

Associated Faculty
J. Conolly, Anthropology; L. Dubreuil, Anthropology; H. Elton, Cultural Studies; H. Haines, Anthropology; G. Iannone, Anthropology; A. Keenleyside, Anthropology; J. P. Moore, Anthropology; E. Morin, Anthropology; M. Munson, Anthropology; P. Szpak, Anthropology; J. S. Williams, Anthropology

The Archaeology program focuses on the interdisciplinary and comparative study of the human past through the material record. Courses focus on comparative world archaeology, field and analytic methods, laboratory techniques, theory and ethics, and the archaeology of specific geographic regions. Current geographic areas of academic expertise are the Americas, Europe and the Mediterranean, and Southeast Asia. Degree options provide students with foundational training in the methodological, theoretical, and professional aspects of contemporary archaeological practice.

Notes

• Students are strongly advised to plan course selection carefully in order to acquire needed prerequisites and to prepare for graduate school or careers in different specialties. Advising information is available on the Archaeology program website.

• Students are required to gain relevant archaeological field and/or laboratory experience. They are encouraged to take one of two existing field courses, ANTH 3000Y or ANTH-AHCL 3850Y, which are normally offered in the summer, and/or the laboratory courses, ANTH 3151H and 3152H, which are normally offered during the regular school year. Alternatively, students may register in a field school or lab methods course at another university by obtaining a Letter of Permission from the Office of the Registrar prior to registering in the course. See Letters of Permission (p. 482) for additional details.

• Students who already have extensive field and/or laboratory experience (such as from previous archaeological employment) should consult with the program coordinator, who may consider waiving the degree requirement for a field or lab course. At a minimum, students would normally have to have the equivalent of four weeks of full-time work in the field and/or lab (i.e., 160 hours total). If such a waiver is approved, the student will need to substitute an additional course, with the coordinator’s approval, in order to meet the total number of required courses.

• Courses fulfilling University science course requirements for the BSc are marked “Sc” in the individual course descriptions.

• Students with an interest in Geographical Information Systems (GIS) are recommended to incorporate the Option in Geographical Information Systems, a joint program with Fleming College, into their program (see p. 407).
Bachelor of Arts Program in Archaeology

- In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).
- The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.
- Due to overlapping requirements, it is not possible to combine Anthropology and Archaeology in a joint-major Honours degree combination. A joint major is possible between Ancient Greek & Roman Studies and Archaeology, but no credit may be double-counted.
- A minimum grade of 60% in ANTH-AHCL 1030H (or AHCL 1001H) is required for the Honours BA in Archaeology.

The single-major Honours program. 20.0 credits including the following 10.0 credits:
- 3.0 ANTH credits consisting of ANTH 1030H (or AHCL 1001H), 2121H, 2122H, 2123H, and 3100Y
- 1.0 ANTH credit from ANTH 2001H, 2002H, 2311H, 2312H, 2410H, or 2450H
- 1.0 ANTH credit from ANTH 3000Y, 3151H, 3152H, 3153H, 3165H, or 3850Y (or equivalent: see Notes, above)
- 1.0 credit from the Archaeology course list at the 4000 level
- 2.0 credits in addition to the above from the Archaeology course list at the 3000 level or beyond
- 2.0 credits in addition to the above from the Archaeology course list

The joint-major Honours program. 20.0 credits including the following 7.0 credits:
- 2.0 ANTH credits consisting of ANTH-AHCL 1030H (or AHCL 1001H), ANTH 2123H, and 3100Y
- 1.0 ANTH credit from ANTH 2121H, 2122H, ANTH-AHCL 2205H, or 2206H
- 1.0 ANTH credit from ANTH 3000Y, 3151H, 3152H, 3153H, 3165H, or 3850Y (or equivalent: see Notes, above)
- 1.0 credit from the Archaeology course list at the 4000 level
- 2.0 credits in addition to the above from the Archaeology course list at the 3000 level or beyond
Bachelor of Science Program in Archaeology

- In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).
- A minimum grade of 60% in ANTH-AHCL 1030H (or AHCL 1001H) is required for the Honours BSc in Archaeology.

The single-major Honours program. 20.0 credits including the following 12.0 credits:
- 3.5 ANTH credits consisting of ANTH 1030H (or AHCL 1001H), 2121H, 2122H, 2123H, 2150H, and 3100Y
- 0.5 GEOG credit consisting of GEOG 1040H
- 1.5 credits from BIOL 1020H, BIOL 1030H, CHEM 1000H, CHEM 1010H, or PHYS 1060H
- 1.0 ANTH credit from ANTH 3000Y, 3151H, 3152H, 3153H, 3165H, or 3850Y (or equivalent: see Notes, above)
- 2.5 ANTH credits from ANTH 2410H, 3153H, 3155H, 3175H, 3185H, 3404H, 3405H, 3680H, 3731H, 4180H, 4185H, 4420H, or 4440H
- 1.0 credit in addition to the above from the Archaeology course list at the 3000 level or beyond
- 2.0 credits in addition to the above from the Archaeology course list
- 1.0 credit from the Archaeology course list at the 4000 level must be included in the above 12.0 credits
- 14.0 science credits are required for the Honours degree, including 1.0 MATH credit; MATH 1051H and 1052H are strongly recommended

Specialization in Environmental Archaeology

Students who have fulfilled the requirements for a single- or joint-major Bachelor of Arts or a Bachelor of Science degree in Archaeology may graduate with a Specialization in Environmental Archaeology if they have successfully completed the following 4.0 credits:
- 0.5 ANTH credit consisting of ANTH 3680H
- 3.5 ANTH credits from ANTH 2150H, 3001H, 3153H, 3165H, 3175H, 3180H, 3185H, 3550H, 3650H, 3731H, 4185H, or 4350H

Specialization in Mediterranean Archaeology

Students who have fulfilled the requirements for a single- or joint-major Bachelor of Arts or a Bachelor of Science degree in Archaeology may graduate with a Specialization in Mediterranean Archaeology if they have successfully completed the following 4.0 credits:
- 1.5 ANTH-AHCL credits consisting of ANTH-AHCL 1200H, 2205H, and 2206H
- 2.5 ANTH-AHCL credits from ANTH-AHCL 2201H, 3221H, 3222H, 3240H, 3250H, 3251H, 3252H, 3275H, 4003H, or 4145H
Minor in Archaeology

Students who have fulfilled the requirements for a single- or joint-major Honours degree in a subject other than Anthropology may graduate with a minor in Archaeology if they have successfully completed the courses listed below.

The Minor in Archaeology consists of the following 5.0 credits:
- 2.0 ANTH credits consisting of ANTH-AHCL 1030H (or AHCL 1001H), ANTH 2123H, and 3100Y
- 0.5 ANTH credit from ANTH 1001H, 1002H, 1010H, or 1020H
- 1.0 ANTH credit from ANTH 2121H, 2122H, ANTH-AHCL 2205H, or 2206H
- 1.5 credits from the Archaeology course list at the 3000 level or beyond

Archaeology Course List

The following list does not include ANTH-AHCL 1030H, ANTH 2123H, or ANTH 3100Y, which are core courses for all Archaeology degrees.

Arts & Science

trentu.ca/bas

Program Coordinator
To be named

Program Committee

S. Bailey, English Literature; S. Bocking, Environment; G. Burness, Biology; J. Freeland, Biology; H. Elton, Cultural Studies; M. Howes, Philosophy; P. Lafleur, Environment; S. Rafferty, Chemistry; K. Siena, History; A. Slepkov, Physics & Astronomy; R. Smith, Forensic Science

The Honours Bachelor of Arts & Science program is designed for students with interests in both the sciences and the arts. The program offers students the freedom and opportunity to blend creativity and analytical rigor, social expertise and empirical acumen, and discover new knowledge at the intersections. The Honours BAS also offers students an excellent opportunity to gain skills comprising research excellence in the sciences and arts, professional-level oral and written communication, creativity, and inventiveness. This skill set and broad knowledge-base is highly sought after by employers, graduate schools, and professional programs including medicine, veterinary medicine, dentistry, teaching, and law.

In first-year Arts & Science (ASCI) courses, students formulate research questions, gather evidence, and cultivate insights from the various academic disciplines to support the interpretation of evidence. In second year, students examine case studies in the arts and sciences from multiple perspectives and explore how societal and cultural forces shape inquiry and influence the reception of results. By year three, students are poised to engage in student-driven research in the Arts and Science Colloquium, integrating methodologies and theoretical approaches acquired in the first- and second-year ASCI courses. In the final year, students complete coursework for their majors and/or minors and are free to pursue research projects or experiential learning opportunities in their major or minor areas of study. Throughout the program students hone their skills in writing, speaking, and quantitative reasoning.

Admission Requirements
The Bachelor of Arts & Science is normally a direct-entry program with a limited number of student places, although transfer students will be assessed on a case-by-case basis. Normally, students with an overall average lower than 75% will not be admitted to the program.

Notes
- Students should ensure that they have satisfied the University degree requirement for at least 7.0 credits at the 3000 level or beyond.
- Science credits include any courses designated by “Sc” in individual course descriptions in the Academic Calendar.
Bachelor of Arts & Science – Honours Program

- In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).
- The same course may not simultaneously satisfy the requirements of both programs in a joint major, or of both minor subjects.
- Students are strongly encouraged to include a mix of humanities and social sciences credits in the 3.0 non-science credit requirement. Credits satisfying the breadth requirement may simultaneously count toward majors, minors, specializations, and options.

The Honours program. 20.0 credits which include:
- 2.0 ASCI credits consisting of ASCI 1001H and 1002H (or 1000Y), 2001H (or 3000H), and 3001H
- At least 3.0 science credits and 3.0 non-science credits in addition to the above
- The courses satisfying the requirements for one of the following:
  a) A single-major Honours program
  b) A single-major Honours program with a minor in another subject
  c) A joint-major Honours program in a humanities or social sciences subject and joint-major Honours program in a science subject (see p. 18 for subjects by division)
  d) A minor in a humanities or social sciences subject and a minor in a science subject (see p. 18 for subjects by division)

Bachelor of Arts & Science – General Program

- The General program in Arts & Science is not a direct entry program. It is open to current Trent students only. To earn the General degree, currently enrolled Trent students must first consult with an Academic Advisor and apply to the Committee on Undergraduate Petitions (CUP) for approval. To be eligible to apply, students must have successfully completed a minimum of 10.0 university credits.
- In addition to the program requirements listed below, students must satisfy the following University degree requirements:
  - an academic status of Good Standing
  - at least 3.0 credits, with a grade of 60% or higher, leading to majors in different disciplines
  - at least 0.5 credit from the Approved Indigenous Course List (see p. 16)*
  - a maximum of 7.0 credits at the 1000 level
  - a minimum of 4.0 credits at the 3000 level or beyond
  - a maximum of 8.0 credits in a single discipline
  - a minimum cumulative average of 60% required for graduation
- * This requirement applies to all students beginning studies at Trent in the Fall 2018 term or thereafter.

The General program. 15.0 credits including the following 1.5 credits:
- 0.5 ASCI credit from ASCI 1001H, 1002H, or 2001H
- 0.5 science credit
- 0.5 non-sciences credit
Please consult the academic timetable for information on courses that will be offered in 2019–2020, including when they will be scheduled.

» **ASCI 1001H: Arts and Science I: Interdisciplinary Perspectives**  
Introduces students to interdisciplinary thought and problem solving by focusing on an aspect of the natural world (e.g., water). The course has a broad focus and integrates perspectives from various disciplines such as history, science and technology studies, philosophy, sociology, literary studies, and the visual and performing arts. Excludes ASCI 1000Y.

» **ASCI 1002H: Arts and Science II: Theory and Practice**  
A continuation of Arts and Science I, this course further develops methods of interdisciplinary enquiry by focusing on a specific human-made object (e.g., the wheel) as technology and metaphor. Integrates perspectives from various disciplines such as history, science and technology studies, philosophy, sociology, literary studies, and the visual and performing arts. Excludes ASCI 1000Y.

» **ASCI 2001H: Case Studies in Arts and Science**  
Perspectives from the social sciences, humanities, arts, and sciences are used to explore some of the history, social implications, scientific and medical applications, and ongoing controversies around a particular aspect of the natural or socially constructed world. Students analyze and assess methods of reasoning and argumentation and develop skills in communication and debate. Prerequisite: 4.0 university credits or permission of the coordinator. Excludes ASCI 3000H.

» **ASCI 3001H: Arts and Science Colloquium**  
Students will engage in independent research and investigation and subsequently communicate that research—both within and between disciplines—to a variety of audiences. Emphasis will be on how to communicate clearly and succinctly, how to develop a storyline, and how to determine whether material is appropriate to the audience. Prerequisite: 4.0 university credits including 70% or higher in ASCI 2001H or 3000H, or permission of the coordinator. Excludes ASCI 4000Y.
Biochemistry & Molecular Biology

Program Coordinators

Chair of the Department of Biology
To be named

Chair of the Department of Chemistry
A. J. Vreugdenhil, BSc (Queen’s), PhD (McGill)

Professors
See faculty listings in Biology and Chemistry

The chemistry of life processes is at the essence of all living things. The Biochemistry & Molecular Biology program is designed to provide a foundation in the chemistry of biological systems, combining study of analytical, organic, inorganic, and physical chemistry with biochemistry, molecular biology, and cell physiology. Students completing the program will have a detailed understanding of the processes that control and mediate health, illness, reproduction, growth, and ultimately life itself. Honours research projects introduce students to modern methods in protein chemistry, bioengineering, and molecular biology.

Bachelor of Science Program in Biochemistry & Molecular Biology

• In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).
• The Biochemistry & Molecular Biology program is a sequence of courses offered by the Departments of Biology and Chemistry that compose an integrated whole. For information on individual courses see Calendar entries for Biology and Chemistry.
• Students wishing to transfer to a single-major program in Biology or Chemistry should consult the chair of the appropriate department when they have successfully completed 8.0 to 10.0 credits.
• A maximum of 2.0 credits in thesis and/or project courses may be counted toward a Biochemistry & Molecular Biology degree.
• An average of 75% in all previous Chemistry and Biology courses and permission of the coordinator are prerequisites for CHEM 4030Y and 4040D.
• For the Specialization in Health Sciences, see p. 52.

The single-major Honours program. 20.0 credits including the following 16.0 credits:
  – 2.5 BIOL credits consisting of BIOL 1020H, 1030H, 2050H, 2070H, and 3080H
  – 5.0 CHEM credits consisting of CHEM 1000H, 1010H, 2100H, 2110H, 2200H, 2300H, 2400H, 2500H, 3310H, and 3320H
  – 2.0 BIOL credits from BIOL 3250H, 3830H, 3840H, 4080H, 4130H, 4160H, 4260H, 4320H, 4340H, 4370H, 4380H, 4600H, or 4840H
  – 1.0 CHEM credit at the 3000 level in addition to the above
  – 1.0 CHEM credit at the 4000 level
  – 3.0 BIOL and/or CHEM credits at the 3000 level or beyond in addition to the above
  – 1.0 MATH credit from MATH 1110H and 1120H; or from MATH 1005H and another 0.5 MATH credit (excluding MATH 1001H and 1080H)
  – 0.5 PHYS credit from PHYS 1001H or 1060H
The single-major General program. 15.0 credits including the following 12.0 credits:
- 2.5 BIOL credits consisting of BIOL 1020H, 1030H, 2050H, 2070H, and 3080H
- 5.0 CHEM credits consisting of CHEM 1000H, 1010H, 2100H, 2110H, 2200H, 2300H, 2400H, 2500H, 3310H, and 3320H
- 2.0 BIOL credits from BIOL 3250H, 3830H, 3840H, 4080H, 4130H, 4160H, 4260H, 4320H, 4340H, 4370H, 4380H, 4600H, or 4840H
- 1.0 CHEM credit at the 3000 level in addition to the above
- 1.0 MATH credit from MATH 1110H and 1120H; or from MATH 1005H and another 0.5 MATH credit (excluding MATH 1001H and 1080H)
- 0.5 PHYS credit from PHYS 1001H or 1060H
Chair of the Department
To be named

Professor and Canada Research Chair
D. Murray, BSc (McGill), MSc (Alberta), PhD (Wisconsin)

Professor and David Schindler Endowed Professor of Aquatic Science
P. Frost, BSc (Rochester), MSc (Ohio State), PhD (Arizona State)

Professors
C. Brunetti, BSc, PhD (McMaster)
G. Burness, BSc (Memorial), MSc (Brock), PhD (British Columbia)
M. Dorken, BSc (Guelph), MSc (Queen’s), PhD (Toronto)
N. Emery, BSc (Queen’s), PhD (Calgary)
J. Freeland, BSc (Saskatchewan), MSc, PhD (Queen’s)
E. Nol, BSc (Michigan), MSc (Guelph), PhD (Toronto)
J. Schaefer, BSc (McGill), MSc (Manitoba), PhD (Saskatchewan)
P. Wilson, BSc, MSc, PhD (McMaster) (on leave Fall 2019)
M. Xenopoulos, BSc, MSc (Québec à Montréal), PhD (Alberta)
J. Yee, BSc (Toronto), MSc (Queen’s), PhD (British Columbia)

Associate Professors
I. Brenner, RN, BSc, BPhysEd, BScN (Toronto), MSc (Queen’s), PhD (Toronto)
C. Kapron, BSc (Waterloo), MSc, PhD (McGill) (on leave Winter 2020)
L. Kerr, BSc, MSc (Carleton), PhD (British Columbia)

Assistant Professors
R. Huber, BSc, PhD (Toronto)
S. West, BPHE, MSc, PhD (Toronto)

Senior Lecturer
D. Beresford, BSc (Trent), BEd (Queen’s), PhD (Trent)

Adjunct Faculty
H. Bates, BSc (Ottawa), PhD (Toronto)
W. Dew, BSc, MSc (Laurentian), PhD (Lakehead)
S. Jamieson, BSc (Memorial), MSc (New Brunswick), PhD (Simon Fraser)
A. Medeiros, BSc (Brock), MES, PhD (York)
J. Northrup, BS (Bates), MSc (Alberta), PhD (Colorado State)

Honorary Associate
B. Maini, BA (Cambridge), MB BS (London), MA (Cantab), DA, FRCA, FRCPC
Biology is the study of life at all levels of organization, from molecular and cell to population and community. Students who complete a single major in Biology will have a broad introduction to these topics, along with the opportunity to specialize in aspects of biology that interest them. The Biology Department offers two Specializations, one in Conservation Biology, the other in Health Sciences. In addition, the Biochemistry & Molecular Biology program is shared with the Chemistry Department and the Forensic Biology program is shared with the Forensic Science Program. Students may choose to do joint-major degrees with other departments or programs, including Environmental & Resource Science/Studies, Chemistry, Forensic Science, Geography, Anthropology, and Psychology, among others.

Notes

• For fulfilling the University requirement of 1.0 credit in Mathematics in the BSc program, the following combinations are recommended: MATH 1110H and 1120H, 1051H and 1052H, or 1005H and 1550H.
• Transfer students should consult with the department chair or coordinator before selecting courses.
• Any course involving work with live vertebrate animals requires the Animal Care Course, which is described on p. 19 of the Calendar. The Animal Care Course requirement is indicated in some course descriptions, but may also apply to others. Check with the Biology Office or course instructor if in doubt.
• Fees may be levied for field trips.
• Students may take a maximum of 1.0 credit in Biology reading courses.
• It is recommended that courses taken in the fourth year of the Honours program be beyond the 2000 level.
• Students intending to pursue graduate studies are encouraged to take BIOL 4010Y or 4020D.
• For the Biochemistry & Molecular Biology program, see p. 47.

Bachelor of Science Program in Biology

• In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).
• The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

The single-major Honours program. 20.0 credits including the following 12.0 credits:
– 3.5 BIOL credits consisting of BIOL 1020H, 1030H, 2000H, 2050H, 2070H, 2260H, and 2600H
– 6.5 BIOL credits in addition to the above
– 1.0 CHEM credit consisting of CHEM 1000H and 1010H
– 0.5 PHYS credit from PHYS 1001H or PHYS-BIOL 1060H
– 0.5 credit in a humanities subject (AHCL, GREK, LATN, CAST, CCTH, CUST, ENGL, HIST, PHIL, WMST, FREN, ARAB, ASLA, CHIN, GRMN, ITAL, LING, RUSS, or SPAN – see p. 18 for humanities programs)
– 14.0 science credits are required for the Honours degree, including 1.0 MATH credit

The joint-major Honours program. 20.0 credits including the following 7.0 credits:
– 3.5 BIOL credits consisting of BIOL 1020H, 1030H, 2000H, 2050H, 2070H, 2260H, and 2600H
– 3.5 BIOL credits in addition to the above
– 14.0 science credits are required for the Honours degree, including 1.0 MATH credit
The single-major General program. 15.0 credits including the following 7.0 credits:
- 3.5 BIOL credits consisting of BIOL 1020H, 1030H, 2000H, 2050H, 2070H, 2260H, and 2600H
- 2.5 BIOL credits in addition to the above
- 1.0 CHEM credit consisting of CHEM 1000H and 1010H
- 11.0 science credits are required for the General degree, including 1.0 MATH credit

The joint-major General program. 15.0 credits including the following 5.0 credits:
- 3.5 BIOL credits consisting of BIOL 1020H, 1030H, 2000H, 2050H, 2070H, 2260H, and 2600H
- 1.5 BIOL credits in addition to the above
- 11.0 science credits are required for the General degree, including 1.0 MATH credit

The minor in Biology consists of the following 5.0 credits:
- 3.5 BIOL credits consisting of BIOL 1020H, 1030H, 2000H, 2050H, 2070H, 2260H, and 2600H
- 1.5 BIOL credits in addition to the above

Specialization in Conservation Biology

Program Coordinator
M. Xenopoulos, BSc, MSc (Québec à Montréal), PhD (Alberta)

The Specialization in Conservation Biology is designed to provide students with theoretical and practical training in the conservation of living organisms. It capitalizes, in part, on the expertise and activities of collaborating regional, provincial, or national agencies such as the Ministry of Natural Resources, the Toronto Zoo, regional Conservation Authorities, the Royal Ontario Museum, or Environment and Climate Change Canada. A distinctive feature of the Specialization is the opportunity for a placement with a collaborating agency.

Note
- BIOL 4400Y: Placement in Conservation Biology. Students must apply in the academic year before enrolment in the course. Application forms may be obtained from the department website at trentu.ca/biology/experience. Enrolment is limited and competitive.

Courses
Students who have fulfilled the requirements for a single- or joint-major Honours degree in Biology may graduate with a Specialization in Conservation Biology if they have successfully completed the following 6.0 credits:
- 2.0 BIOL credits consisting of BIOL-ERSC 2260H, 3380H, BIOL 3600H (or 3620H), and 4390H
- 1.0 BIOL credit consisting of BIOL 4400Y (must apply by April in year prior to enrolment)
3.0 credits from the following:

- BIOL 2600H
- BIOL 3050H
- BIOL 3090H
- BIOL 3140H
- BIOL 3170H
- BIOL 3190H
- BIOL 3340H
- BIOL-PSYC 3360H
- BIOL 3850H
- BIOL 3851H
- BIOL 3852H
- BIOL 4030H

- 2019–2020 Undergraduate Calendar

Specialization in Health Sciences

Program Coordinator
L. Kerr, BSc, MSc (Carleton), PhD (British Columbia)

The Specialization in Health Sciences is intended for students who are interested in a career related to health care or research. The Specialization gives students training in both the practical and theoretical aspects of a diversity of medically-related topics.

Notes
- The Specialization is open to students in the single- or joint-major Honours programs in Biology or in Biochemistry & Molecular Biology.
- 2019–2020 is the final academic year that students who have 13.5 credits and have declared a major in Biology or in Biochemistry & Molecular Biology may apply to enrol in BIOL 4450Y (Placement in Health Sciences) or BIOL 4460H (Internship in Medical Sciences). Students are required to obtain approval of the Specialization coordinator to register. Application forms may be obtained from the department website at trentu.ca/biology/experience and must be submitted to the placement officer.
- Many medical schools require General Biology, General Chemistry, Physics, and a Humanities or Social Sciences course for admission. Students should consult each school for specific requirements.
- Students intending to pursue graduate studies are strongly encouraged to take a research thesis course (BIOL 4010Y or 4020D).

Courses

Students who have fulfilled the requirements for a single- or joint-major Honours degree in Biology or Biochemistry & Molecular Biology may graduate with a Specialization in Health Sciences if they have successfully completed the following 9.0 credits with a minimum 75% overall average:

- 2.5 BIOL credits consisting of BIOL 1020H, 1030H, 2050H, 2070H, and 3080H
- 1.0 CHEM credit consisting of CHEM 1000H and 1010H
- 0.5 BIOL credit from BIOL 3830H or 3840H
5.0 credits from the following:

- ANTH-SAFS 3280H
- ANTH-BIOL 3460H
- ANTH 4280H*
- BIOL 2110H
- BIOL 3040H
- BIOL-PSYC 3210H
- BIOL 3250H
- BIOL 3640H
- BIOL 3660H
- BIOL 3830H (if not taken as a required course)
- BIOL 3840H (if not taken as a required course)
- BIOL 4010Y**
- BIOL 4020D**
- BIOL 4080H
- BIOL 4110H
- BIOL 4130H
- BIOL 4160H
- BIOL 4190H
- BIOL 4260H
- BIOL 4320H
- BIOL 4340H
- BIOL 4350H*
- BIOL 4355H
- BIOL 4360H*
- BIOL 4370H
- BIOL-ANTH-SAFS 4440H
- BIOL 4380H
- BIOL 4630H
- BIOL 4710H

- SOCI 3631H

*no longer offered.

**Thesis must be health-related. Approval must be obtained from the specialization coordinator for thesis credit(s) to be included within this list.

Please consult the academic timetable for information on courses that will be offered in 2019–2020, including when they will be scheduled.
» BIOL-PHYS 1060H: Physics for the Life Sciences (Sc) (see Physics)

» BIOL 2000H: Methods of Biological Inquiry (Sc)
Provides experience in asking and answering questions in biology, exploring the power of the scientific method, and the importance of critical analysis. Examples involve a wide diversity of organisms and approaches, involving the use of a variety of statistical tools. Prerequisite: 60% or higher in BIOL 1020H or 1030H or BIOM 1000H.

» BIOL-FRSC 2050H: Introduction to Genetics (Sc)
Develops a basic understanding of genetics. Mendelian inheritance, chromosome structure, genetic recombination, mutation, the structure of DNA, the nature of genes, and current topics in genetics are investigated using examples from plants, animals, insects, bacteria, fungi, and viruses. Prerequisite: 60% or higher in BIOL 1030H or BIOM 1000H, and 60% or higher in one of BIOL 1020H or 1050H.

» BIOL 2070H: Cell Biology (Sc)
An introduction to cell structure and function, including the organization, physiology, architecture, and interactions of cells. Cellular mechanisms of differentiation, development, cancer, and the immune response are explored. Prerequisite: 60% or higher in BIOL 1030H or BIOM 1000H. Recommended: CHEM 1000H and 1010H.

» BIOL-ERSC-GEOG 2080H: Natural Science Statistics (Sc) (see Geography)

» BIOL 2100H: Biology of Invertebrates (Sc)
An introduction to the diversity of invertebrate animals, emphasizing their evolutionary relationships and functional, behavioural, and ecological aspects of their biology. An emphasis is also placed on field techniques of collection and identification of various invertebrate groups. Prerequisite: 60% or higher in BIOL 1020H or 1030H or BIOM 1000H.

» BIOL 2110H: Biology of Vertebrates (Sc)
An introduction to the diversity of vertebrate animals, emphasizing their evolutionary relationships and functional, behavioural, and ecological aspects of their biology. Required dissections. Prerequisite: 60% or higher in BIOL 1020H or 1030H or BIOM 1000H.

» BIOL-NURS 2250H: Kinesiology I: Anatomy of Human Movement (Sc) (see Nursing)

» BIOL-ERSC 2260H: Introductory Ecology (Sc)
An examination of the interactions between organisms and their environment at the levels of the population, community, and ecosystem. Covers basic concepts, theories, and methods used in ecology and the application of these to ecological and environmental problems. Prerequisite: 60% or higher in BIOL 1020H.

» BIOL-NURS 2270H: Kinesiology II: Exercise Physiology (Sc) (see Nursing)

» BIOL 2290H: Plants in Society (Sc)
An examination of the importance of plants in society. Topics include an in-depth look at the role of plants in human population growth, biotechnology, food safety, medicines, and commercial products. Prerequisite: 60% or higher in BIOL 1020H.

» BIOL-CHEM 2300H: Biochemical Concepts (Sc) (see Chemistry)

» BIOL-ANTH 2470H: Primate Behaviour (Sc) (see Anthropology)

» BIOL 2600H: Evolution (Sc)
A study of the pattern of the evolution of life over the past billion years focusing on key events and transitions, and the underlying processes that made them happen. Prerequisite: 60% or higher in BIOL 2050H.

» BIOL-ERSC-EDUC 2701H: Environmental Education: Biological Issues (Sc) (see Environmental & Resource Science/Studies)
Not for credit toward a major or minor in Biology.
» BIOL-ERSC-EDUC 2702H: Environmental Education: Fostering Stewardship and a Sustainable Future (Sc) (see Environmental & Resource Science/Studies)
Not for credit toward a major or minor in Biology.

» BIOL-FRSC 3000H: Laboratory DNA Forensics (Sc) (see Forensic Science)

» BIOL 3040H: Histology (Sc)
A study of the four basic animal tissue types and how these tissues are subsequently organized into organ systems. An important emphasis is the relation of tissue form to function. Prerequisite: 7.5 university credits including 60% or higher in BIOL 2070H.

» BIOL 3050H: Limnology (Sc)
A study of the ecology of freshwater ecosystems, biology, geochemistry, and physics of freshwater lakes, rivers, and streams. Field trips. Prerequisite: 7.5 university credits including 60% or higher in BIOL-ERSC 2260H. Recommended: CHEM 1000H and 1010H.

» BIOL 3051H: River and Stream Biology (Sc)
Explores the ecological properties of rivers and streams. Theoretical concepts of river function are used as foundations for developing knowledge of aquatic communities. Also considers problems in conservation and management of river and stream ecosystems, and addresses how ecological principles are applied to these problems. Prerequisite: 7.5 university credits including 60% or higher in BIOL-ERSC 2260H. Recommended: CHEM 1000H and 1010H.

» BIOL 3080H: Molecular Biology (Sc)
Fundamental concepts in molecular biology with emphasis on the exploration of structure, function, and cellular synthesis of DNA and RNA. Techniques in recombinant DNA technology as well as their applications in biomedical, forensic, and pharmaceutical research are discussed. Basic techniques in molecular biology and scientific calculations are also introduced. Prerequisite: 7.5 university credits including 60% or higher in BIOL 2050H and a pass in both CHEM 1000H and 1010H. Recommended: BIOL 2070H.

» BIOL 3090H: Biology of Insects (Sc)
An introduction to the organization and diversity of insects. Lectures emphasize insect physiology, ecology, and behaviour. An insect collecting kit for making required insect collection will be available for cash deposit from the Biology Department in April preceding the beginning of the course. Prerequisite: 7.5 university credits including 60% or higher in BIOL 1020H and 60% or higher in one of BIOL 1030H or BIOM 1000H.

» BIOL 3140H: Fish Ecology (Sc)
The biology of fishes with emphasis on biotic and abiotic factors that affect their life histories, distribution, population dynamics, feeding, and growth. Field work. Prerequisite: 7.5 university credits including 60% or higher in BIOL-ERSC 2260H. Strongly recommended: MATH 1051H, MATH 1052H, BIOL-ERSC-GEOG 2080H.

» BIOL-ANTH 3153H: Archaeological Science II: Ancient Biomolecules (Sc) (see Anthropology)

» BIOL 3170H: Plant Evolution and Diversity (Sc)
Examines major transitions in the evolution of terrestrial plants with a focus on the evolutionary relationships among the main lineages of the flowering plants and the mechanisms underlying the tremendous diversity of this group. Prerequisite: 7.5 university credits including 60% or higher in BIOL 2600H.

» BIOL 3180H: Plants in Action (Sc)
Due to a sessile nature, plant functioning is unique and highly dynamic. Emphasizing the flowering plants, this course provides an introduction to plant anatomy, physiology, and molecular biology. It examines the mechanisms by which plants work and survive in their role as energy providers to the biosphere. Prerequisite: 7.5 university credits including 60% or higher in BIOL 1020H and at least 1.0 BIOL credit at the 2000 level. Strongly recommended: BIOL 3170H.
» BIOL 3190H: Wild Plants of Ontario (Sc)
An introduction to Ontario’s remarkable plant diversity, with emphasis on the study of common flowering plant families. Examines the natural history of plants in the Ontario flora, highlighting key concepts in plant evolution, ecology, and reproductive biology. This is a field course, and a separate course fee to cover transportation and accommodation will be levied. Prerequisite: 7.5 university credits including 60% or higher in BIOL 1020H and at least 1.0 BIOL credit at the 2000 level.

» BIOL-PSYC 3210H: Principles of the Nervous System (Sc)
An intensive coverage of the central nervous system, its anatomy, and physiological interactions. Emphasizes subcortical and cortical brain structures and their functional characteristics. Prerequisite: 8.0 university credits including a pass in PSYC 2200H or 60% or higher in one of BIOL 2070H, 2110H, 2130H, or 3840H.

» BIOL-PSYC 3220H: Neuropsychology (Sc) (see Psychology)
» BIOL-SAFS 3240H: Agricultural Entomology (Sc) (see Sustainable Agriculture & Food Systems)
» BIOL 3250H: Microbiology (Sc)
An introduction to microbiology with consideration given to the diversity of microscopic forms, their presence in various habitats, and their impact on humanity. Heavy emphasis is placed on laboratory work. Prerequisite: 7.5 university credits including 60% or higher in BIOL 2070H.

» BIOL-CHEM 3310H: Protein Chemistry and Enzymology (Sc) (see Chemistry)
» BIOL-CHEM 3320H: Metabolism (Sc) (see Chemistry)
» BIOL-FRSC 3330H: Forensic Entomology (Sc)
Many insect species associated with the process of decay of corpses and their maggots have been used as an important tool for identifying both the timing and location of death. This course explores the relationship between insects and the decay of corpses. Prerequisite: 7.5 university credits including 1.0 BIOL credit at the 2000 level and 60% or higher in one of BIOL 1030H or BIOM 1000H.

» BIOL 3340H: Herpetology (Sc)
An introduction to the biology of amphibians and reptiles. Includes an overview of past and current diversity, the use of amphibians and reptiles as model organisms for biological research, the importance of these animals in ecological communities, and issues in conservation and management. Prerequisite: 7.5 university credits of which 2.0 must be BIOL credits including 60% or higher in BIOL 2260H.

» BIOL-PSYC 3360H: Behavioural Ecology (Sc)
An introduction to the ecological, physiological, and evolutionary mechanisms which influence the behaviour of animals, with emphasis on social relations, mating systems, selection, and co-evolution. Prerequisite: 7.5 university credits including 60% or higher in BIOL-ERSC 2260H and BIOL 2600H, and at least one additional 0.5 BIOL credit at the 2000 level.

» BIOL-ERSC-SAFS 3370H: Organic Agriculture: Principles and Practices (Sc) (see Sustainable Agriculture & Food Systems)
» BIOL-ERSC 3380H: Advanced Ecology (Sc)
Examines current theoretical and applied problems in ecology. Emphasis is placed on developing problem-solving skills, critical evaluation of ecological studies, modelling, and an in-depth look at recent advances in theories and laboratory and field techniques used in solving problems in individual, population, community, and ecosystem ecology. Prerequisite: 7.5 university credits including 60% or higher in BIOL-ERSC 2260H.

» BIOL-ANTH-FRSC 3404H: Human Osteology (Sc) (See Anthropology)
» BIOL-ANTH 3460H: Biocultural Explorations of Human Life Course (Sc) (see Anthropology)
» BIOL-PHYS 3510H: Astrobiology: Life in the Universe (Sc) (see Physics)

» BIOL 3600H: Ecological Genetics (Sc)
Ecological genetics uses genetic data to investigate ecological and evolutionary processes in natural populations. This course uses theoretical and “real world” approaches to investigate topics that include natural selection and adaptation, behavioural ecology, conservation genetics, invasive species, and phylogeography. Prerequisite: 7.5 university credits including a minimum 60% in each of BIOL-FRSC 2050H, BIOL-ERSC 2260H, and BIOL 2600H. Excludes BIOL-FRSC 3620H, 3700H.

» BIOL 3640H: Epidemiology (Sc)
Epidemiology is the systematic study of human diseases and their causes and the application of what is learned to improve health. This course reviews the basic principles and methods of epidemiology, with an emphasis on critical thinking and application to public health and clinical research. Prerequisite: 7.5 university credits including one of BIOL 2000H, NURS 2030H, MATH 2560H, or PSYC 2018H.

» BIOL 3660H: Critical Nutrition (Sc)
Nutrition is the integrative science of what foods our body requires for health, growth, maintenance, and reproduction. This course covers the fundamentals of human nutrition, critically assesses evidence underlying dietary claims, and enables students to think critically about the complex interrelationships between food, nutrition, health, and society. Prerequisite: 7.5 university credits including 60% or higher in BIOL 1051H and 2070H.

» BIOL-FRSC 3700H: Applied Population Genetics (Sc) (see Forensic Science)

» BIOL 3830H: Animal Physiology I (Sc)
The processes of digestion, osmoregulation and excretion, circulatory systems and gaseous exchange, muscles, respiration, metabolism, and their control are considered. Uses a comparative approach, first discussing the basic principles of the physiology of these processes and then examining the means whereby different organisms perform them. Prerequisite: 7.5 university credits including a pass in CHEM 1000H and 1010H and 60% or higher in BIOL 2070H. Strongly recommended: CHEM 2300H and Animal Care Course (p. 19).

» BIOL 3840H: Animal Physiology II (Sc)
An examination of fundamental concepts in sensory, endocrine, and reproductive physiology. Prerequisite: 7.5 university credits including a pass in CHEM 1000H and 1010H and 60% or higher in BIOL 2070H.

» BIOL 3850H, 3851H, 3852H, 3853H: Field Course (Sc)
Spring and summer courses are offered through the Ontario Universities Program in Field Biology. Prerequisite: A minimum cumulative average of 60%.

» BIOL 3890Y, 3891H: Community-Based Research Project (Sc)
Students are placed in research projects with community organizations in the Peterborough area. Each placement is supervised jointly by a faculty member and a representative of a community organization. For details see Community-Based Research Program (p. 429). Prerequisite: A minimum cumulative average of 75% and 3.0 BIOL credits taught by members of the Trent Biology Department.
» **BIOL 4010Y, 4020D: Research Thesis (Sc)**

Students investigate a specific field of interest under the guidance of a faculty member. BIOL 4020D is a double credit in Biology. BIOL 4010Y is a single credit because the same thesis is submitted to the other department/program in a joint-major or is submitted in conjunction with BIOL 4400Y. Prerequisite: 15.0 university credits; the Animal Care Course (p. 19), if applicable; a minimum average of 75% in BIOL courses completed; and agreement of a faculty member to supervise the project. (In some cases, it may be possible to take BIOL 4020D with an overall average of 70% in Biology courses if recommended by a faculty member willing to supervise it.) To be accepted into a joint thesis course, the student must meet the requirements of both programs. Applications may be obtained from the department website at trentu.ca/biology/experience.

» **BIOL-ERSC 4030H: Research Design and Data Analysis (Sc)**

Theoretical and practical instruction in design of research projects, with emphasis on appropriate statistical methods through the use of the statistical program R. Prerequisite: A minimum overall average of 65% in completed BIOL courses and 10.0 university credits including one of MATH 1052H (or 1050Y) or BIOL-GEOG-ERSC 2080H. Excludes GEOG 3030H.

» **BIOL-CHEM 4040D: Project Course in Biochemistry (Sc) (see Chemistry)**

» **BIOL-ERSC-GEOG 4060H: The Geochemistry of Natural Waters (Sc) (see Environmental & Resource Science/Studies)**

» **BIOL-ERSC-GEOG 4070H: The Fate of Contaminants in the Aquatic Environment (Sc) (see Environmental & Resource Science/Studies)**

» **BIOL 4080H: Developmental Biology (Sc)**

An exploration of the cellular and molecular bases of embryonic development. Emphasis is placed on how the intricate and diverse processes of embryogenesis are dependent on common mechanisms, including cell division, cell death, adhesion, migration, gene expression, and intra- and inter-cellular signalling. Prerequisite: A minimum overall average of 65% in completed BIOL courses and 10.0 university credits including BIOL 2070H.

» **BIOL 4110H: Infectious Disease Biology (Sc)**

An examination of current concepts of the biology, epidemiology, and evolution of infectious diseases. Topics include emerging disease, the meaning of symptoms, effects of infectious disease on human evolution, Darwinian medicine, vaccines, and virulence. Prerequisite: A minimum overall average of 65% in completed BIOL courses and 10.0 university credits.

» **BIOL 4130H: Human Cell Biology (Sc)**

Focuses on fundamental aspects of human cell biology ranging from organelle function to intercellular communication. Recent technological advances in the field are also discussed. The goal of this course is to develop a holistic view of the cell to enable an understanding of its importance to life and human disease. Prerequisite: A minimum overall average of 65% in completed BIOL courses and 10.0 university credits including BIOL 2050H, 2070H, and 3080H.

» **BIOL 4140H: Ornithology (Sc)**

An introduction to the study of birds. Covers broad areas in ornithology, including field identification, systematics, ecology, behaviour, anatomy, physiology, management, and conservation. Field trip at cost to student. Prerequisite: A minimum overall average of 65% in completed BIOL courses and 10.0 university credits including at least 2.0 BIOL credits at the 2000 level.

» **BIOL 4150H: Biology of Marine Mammals (Sc)**

Investigates the biology, ecology, and evolutionary history of marine mammals (whales, dolphins, sirenians, and seals). Emphasis is also placed on the use of scientific inquiry and critical thinking to evaluate marine mammal research methodology and conservation. Prerequisite: A minimum overall average of 65% in completed BIOL courses and 10.0 university credits including BIOL-ERSC 2260H.
» **BIOL 4160H: Immunology (Sc)**  
An introduction to the immune system, including a discussion of the organs, cells, and molecules that constitute, as well as regulate, the immune system. Health-related aspects of the immune system, such as immunodeficiency, tumour immunology, and allergies are also explored. Prerequisite: A minimum overall average of 65% in completed BIOL courses and 10.0 university credits including BIOL 2070H.

» **BIOL 4180H: Mammalogy (Sc)**  
An exploration of the evolution, anatomy, ecology, behaviour, and management of terrestrial mammals. Labs are devoted to field techniques and species identification, with emphasis on Canadian forms. One-day field trip at cost to the student. Prerequisite: A minimum overall average of 65% in completed BIOL courses and 10.0 university credits including BIOL 2110H and BIOL-ERSC 2260H.

» **BIOL 4190H: Biology of Physical Activity (Sc)**  
Examines the physiological and biochemical adaptations to acute and chronic exercise with specific emphasis placed upon the oxygen transport system. The effects of a variety of conditions including age, gender, environmental conditions, and disease on these adaptations are also considered. Prerequisite: A minimum overall average of 65% in completed BIOL courses and 10.0 university credits including BIOL 1051H or 3830H.

» **BIOL 4210H: Ichthyology (Sc)**  
The fishes represent the most diverse vertebrate group on earth. This course discusses how fishes evolved to be able to survive and thrive in an extremely wide range of environments, giving special attention to a comparison of the anatomy, physiology, and life history between different groups of fish. Required dissections. Prerequisite: A minimum overall average of 65% in completed BIOL courses and 10.0 university credits including BIOL 2110H.

» **BIOL 4220H: Research and Writing in Biological Sciences (Sc)**  
Covers the principles of good writing in general, with a particular focus on science research and writing. Students complete a series of assignments based on a topic of interest, while developing writing and communication skills. Prerequisite: A minimum overall average of 75% and 15.0 university credits including at least 5.0 BIOL credits, or permission of the instructor.

» **BIOL-ERSC 4240H: Fisheries Assessment and Management (Sc) (see Environmental & Resource Science/Studies)**

» **BIOL 4260H: Virology (Sc)**  
Discusses current virology topics with a particular emphasis on the impact of viruses on society. The biology and biochemistry of animal viruses are examined with analysis of selected topics including emerging viral diseases, viral gene therapy, viruses and immune system, viruses and cancer, and bioterrorism. Prerequisite: A minimum overall average of 65% in completed BIOL courses and 10.0 university credits including BIOL 2070H.

» **BIOL-SAFS-ERSC-GEOG 4270H: Integrated Nutrient Management for Sustainable Agriculture (Sc) (see Sustainable Agriculture & Food Systems)**

» **BIOL-CHEM 4300H: Bioinorganic Chemistry (Sc) (see Chemistry)**

» **BIOL-CHEM 4310H: Current Topics in Biochemistry (Sc) (see Chemistry)**

» **BIOL 4320H: Pharmacology (Sc)**  
An introduction to human pharmacology divided into two sections: pharmaco-kinetics and pharmacodynamics. Drugs to be studied include mainstream medications such as antibiotics, ethanol, and drugs used in the treatment of pain, high blood pressure, asthma, ulcers, and depression, as well as a brief discussion of alternative medications. Prerequisite: A minimum overall average of 65% in completed BIOL courses and 10.0 university credits including both CHEM 1000H and 1010H and one of BIOL 3830H or 3840H.
» BIOL-ERSC 4330H: Global Change of Aquatic Ecosystems (Sc)
Emphasizes the causes and consequences of global environmental change and their interactions with ecological processes in freshwater ecosystems. Issues such as biodiversity, population growth and water use, global warming, land use, emergent diseases, dams, aquaculture, fisheries, water supply, and sustainability are discussed. Prerequisite: A minimum overall average of 65% in completed BIOL courses and 10.0 university credits including MATH 1052H (or 1050Y) and one of BIOL 2000H or BIOL-ERSC 2260H. Recommended: GEOG-BIOL-ERSC 2080H.

» BIOL 4340H: Biological Stoichiometry (Sc)
Biological stoichiometry is the study of balance of energy and multiple chemical elements in living systems including its effects on organismal biochemistry, nutrition, physiology, and ecological dynamics. This course focuses on the principles, application, and recent advances in the field of biological stoichiometry. Prerequisite: A minimum overall average of 65% in completed BIOL courses and 10.0 university credits including one of BIOL 2070H or BIOL-ERSC 2260H.

» BIOL 4355H: Pathophysiology of Disease (Sc)
Introduces the symptoms of various diseases and the disordered physiological processes that cause these symptoms. Seminars examine specific diseases through discussion of case studies. By the end of the course, students should be able to understand and describe how physiological processes are altered in various common diseased states. Prerequisite: A minimum overall average of 65% in completed BIOL courses; 10.0 university credits including BIOL 3830H or BIOL 3840H or BIOL 1051H plus 2.0 BIOL credits at the 2000 level. Excludes BIOL 4350H, 4360H.

» BIOL 4370H: Advanced Microbiology (Sc)
Examines the impact of microorganisms on scientific research, the environment, and human health and disease. Particular emphasis is placed on new or emerging areas of microbiology such as microbial ecology, microbial evolution, the human microbiome, and antibiotic resistance. Prerequisite: A minimum overall average of 65% in completed BIOL courses and 10.0 university credits including BIOL 3250H.

» BIOL 4380H: Advanced Molecular Biology (Sc)
An introduction to mechanisms controlling gene expression and applications of recombinant DNA technology. Topics include transcription initiation and post-transcriptional regulation, structure of transcription factors, and specific examples of genetic switches in both prokaryotes and eukaryotes. Seminars include discussion and analysis of journal articles on gene expression research. Prerequisite: A minimum overall average of 65% in completed BIOL courses and 10.0 university credits including BIOL 3080H.

» BIOL-ERSC 4390H: Conservation Biology (Sc)
A focus on the causes and consequences of reductions to biodiversity and the strategies to counterbalance these reductions from both their biological and human dimensions. Prerequisite: A minimum overall average of 65% in completed BIOL courses and 10.0 university credits. Strongly recommended: BIOL-ERSC 2260H.

» BIOL 4400Y: Placement in Conservation Biology (Sc)
An apprenticeship at a collaborating agency working in biological conservation. Students assist in a project pertaining to research and conservation of living things for the equivalent of approximately six hours per week. Evaluation is based on a written appraisal from the agency, as well as a written report and an oral presentation. Open only to Honours students in Biology or Conservation Biology. Prerequisite: 13.5 university credits, a minimum cumulative average of 75%, BIOL 3600H (or 3620H), and BIOL-ERSC 2260H; or permission of instructor. Co-requisite: BIOL-ERSC 4390H. Enrolment is limited and competitive. Students must apply in the academic year before enrolment in the course. Application forms may be obtained from the department website at trentu.ca/biology/experience and must be submitted to the placement officer. BIOL 4400Y may be taken jointly with BIOL 4010Y where the project warrants, but the student may not receive credit for a single-credit thesis in another department or program.
BIOL-ANTH-SAFS 4440H: Nutritional Anthropology (Sc) (see Anthropology)

BIOL-BIOM 4450Y: Placement in Health Sciences (Sc) (See Biomedical Science)

BIOL-BIOM 4460H: Placement in Medical Sciences (Sc) (See Biomedical Science)

BIOL 4500H: Population Dynamics (Sc)
Analysis of animal and plant population demography, including theoretical population ecology, population size and survival estimation, patterns and mechanisms in population growth and regulation, multispecies population dynamics, harvesting, and population projection models. Prerequisite: A minimum overall average of 65% in completed BIOL courses and 10.0 university credits including BIOL 3380H.

BIOL-FRSC 4510H: Species-at-Risk Biology and Policy (Sc)
Examines the quantitative assessment of biological parameters impacting species and populations at risk under governmental species-at-risk legislation. Prerequisite: A minimum overall average of 65% in completed BIOL courses and 10.0 university credits including BIOL-FRSC 2050H or BIOL 2260H.

BIOL 4520H: Biology of Invasions (Sc)
Examines the biology of animal and plant invasions, focusing on the life history adaptations and dispersal strategies which contribute to their success at both the individual and population levels. Prerequisite: A minimum overall average of 65% in completed BIOL courses and 10.0 university credits including BIOL-ERSC 2260H.

BIOL-FRSC 4570H: Biocrime and Bioterrorism (Sc) (see Forensic Science)

BIOL-FRSC 4600H: Applied Molecular Genetics (Sc) (see Forensic Science)

BIOL 4610H: Evolutionary Ecology (Sc)
Explores the processes shaping adaptive evolution and key aspects of organismal fitness, including life spans, sex, and gender. Seminars reinforce lecture material, but also cover additional topics. Two writing assignments provide opportunities for independent study. Prerequisite: A minimum overall average of 65% in completed BIOL courses and 10.0 university credits including BIOL 2600H and BIOL-ERSC 2260H.

BIOL 4630H: Epigenetics (Sc)
Epigenetics is the study of gene functions that are mitotically and/or meiotically heritable, but which do not entail a change in the sequence of DNA. This course reviews these epigenetics mechanisms and discusses how they influence cellular identity, development, predisposition to disease, tumorigenesis, and onset of neurological disorders. Prerequisite: A minimum overall average of 65% in completed BIOL courses and 10.0 university credits including BIOL 3080H.

BIOL 4710H: Exercise in Chronic Disease (Sc)
Examines the impact of chronic diseases on mobility, physical activity, and exercise, and how to assess physical function. Also examines the impact of exercise on chronic disease prevention, progression, and treatment (“exercise as medicine”). Students are introduced to clinical research in exercise and chronic disease. Prerequisite: A minimum overall average of 65% in completed BIOL courses; 10.0 university credits; one of BIOL 1051H, 3830H, or 3840H; and one of BIOL 2000H, PSYC 2018H, or PSYC 2019H. BIOL 4190H recommended.

BIOL-FRSC 4800H: Bioinformatics (Sc) (see Forensic Science)

BIOL-PSYC 4840H: Neuroendocrinology (Sc)
Explores the interactions between the central nervous and endocrine systems, focusing on the hypothalamic-pituitary-adrenal axis. Examines the control of hormone release, including neurotransmitter modulation and steroid feedback during both homeostatic and stressor-induced states. Also, the interaction among stressors, behaviour, the endocrine system, and disease is considered. Prerequisite: A minimum overall average of 65% in completed BIOL courses and 10.0 university credits including one of BIOL 1051H, BIOL 3840H, or BIOL-PSYC 3210H.
» **BIOL 4900Y, 4901H, 4902H, 4903H: Reading Course (Sc)**  
Provides an opportunity for more intensive or broader study of a selected topic under the guidance of a faculty member. Prerequisite: 10.0 university credits; 3.0 BIOL credits; and a minimum average of 75% in BIOL courses completed. Application forms may be obtained from the department website at [trentu.ca/biology/experience](http://trentu.ca/biology/experience).

Professors
See faculty listings in Biology, Chemistry, Mathematics, Philosophy, Physics & Astronomy, and Psychology

Students who complete the Biomedical Science degree will appreciate that many techniques and experimental approaches to health and medicine are complementary, and will be able to apply the principles they have learned to assess and solve problems as they relate to real-world health issues. The program gives students training in both practical and theoretical aspects of a diversity of medically-related topics. A distinctive feature of the program is the requirement that students intern with a collaborating agency or individual sponsor in a health or medical science setting.

Notes
• Biomedical Science is a direct entry program with a limited number of student places. A secondary school diploma and six Ontario 4U or 4M courses with a minimum 75% overall final average is required for admission. These include ENG4U (Grade 12 English); MHF4U (Advanced Functions) or MCV4U (Calculus and Vectors); SCH4U (Grade 12 Chemistry); SBI4U (Grade 12 Biology); and SPH4U (Grade 12 Physics) or SES4U (Earth and Space Science). As this is a limited enrolment program, fulfillment of the minimum requirements does not necessarily guarantee admission.
• Students may apply on a competitive basis to enter the Biomedical Science program after first year if a minimum cumulative average of 75% in specific courses has been achieved. See trentu.ca/biology/programs/biomedical-science-bsc for details.
• To remain in the program, students must maintain a minimum cumulative average of 75%. Students who are unable to achieve these grades may switch to the Honours program in Biology, transfer to a BSc or BA program in another discipline and make up any degree requirements for a major, or repeat courses (subject to Trent University’s policy on repeating courses) until they achieve the required grades to apply for readmission to the program.
• For information on individual courses see Calendar entries under the appropriate discipline.
• Students intending to pursue graduate studies or work in research laboratories are recommended to complete an Honours research thesis (BIOL 4020D).
• Students intending to pursue studies in professional schools (medical, dental, pharmacy, etc.) should consult the most recent academic requirements of the schools they are interested in applying to.
• There is no joint-major program, General program, or minor in Biomedical Science.
Bachelor of Science Program in Biomedical Science

- In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).

The single-major Honours program. 20.0 credits including the following 14.0 credits:
- 0.5 BIOM credit consisting of BIOM 1000H
- 3.5 BIOL credits consisting of BIOL 1050H, 1051H, 2050H, 2070H, 2600H, 3040H, and 3080H
- 1.5 CHEM credits consisting of CHEM 1000H, 1010H, and 2100H
- 1.5 MATH credits consisting of MATH 1110H, 1120H, and 1550H
- 0.5 PHIL credit consisting of PHIL 2390H
- 1.0 PSYC credit consisting of PSYC 1020H and 1030H
- 0.5 BIOL credit from BIOL 3830H or 3840H
- 0.5 CHEM credit from CHEM 2110H or 2300H
- 0.5 PHYS credit from PHYS 1001H or 1060H
- 0.5 credit from BIOL 2000H, MATH 2560H, or PSYC 2018H
- 1.0 BIOM credit from BIOM 4450Y and 2.5 credits from the following; or 0.5 BIOM credit from BIOM 4460H and 3.0 credits from the following:
  - ANTH-BIOL-SAFS 4440H
  - BIOL-PSYC 3210H
  - BIOL 3250H
  - BIOL 3640H
  - BIOL 3660H
  - BIOL 3830H (if not taken as a required course)
  - BIOL 3840H (if not taken as a required course)
  - BIOL 4080H
  - BIOL 4130H
  - BIOL 4160H
  - BIOL 4190H
  - BIOL 4260H
  - BIOL 4320H

- 14.0 science credits are required for the Honours degree
Please consult the academic timetable for information on courses that will be offered in 2019–2020, including when they will be scheduled.

» BIOM 1000H: Introduction to Biomedical Science (Sc)
Examines mechanisms and determinants of health and disease by focusing on molecular and cellular processes. Students are introduced to theories and research techniques in cellular and molecular biology, genetics, microbiology, biochemistry, physiology, and psychology. Open only to students in the Biomedical Science program. Excludes BIOL 1030H.

» BIOM-BIOL 4450Y: Placement in Health Sciences (Sc)
A placement in a medically or health related setting for the equivalent of six hours a week for 24 weeks. Students are required to write a report on their placement. Open only to students in the Biomedical Science program. Prerequisite: A minimum cumulative average of 75% and 13.5 university credits including BIOL 2050H, BIOL 2070H, BIOL 3080H, CHEM 1000H, and CHEM 1010H; or permission of instructor. Co-requisite: BIOL 3830H or 3840H. Excludes BIOM-BIOL 4460H.

» BIOM-BIOL 4460H: Placement in Medical Sciences (Sc)
A placement in a hospital, human, or animal health-care setting (e.g., dental or veterinary clinic) for at least three hours a week for 12 weeks. Students are assigned practical readings and background theory from their preceptor(s). Open only to students in the Biomedical Science program. Prerequisite: A minimum cumulative average of 75%, a minimum overall average of 80% in completed BIOL courses, and 13.5 university credits including BIOL 3830H or 3840H. Co-requisite: BIOL 4160H and 4320H. Enrolment is limited and competitive. Students must apply in the year before anticipated enrolment in the course. Application forms may be obtained from the Biology website under forms at trentu.ca/biology/experience and must be submitted before April 15. Students may not apply retroactively. Excludes BIOM-BIOL 4450Y.
Business Administration

trentu.ca/business

Acting Director of the School of Business
B. Lew, BSc, MBA (Alberta), PhD (Queen’s)

Associate Director of the School of Business
To be named

Professors
D. Newhouse, (Onondaga), BSc, MBA (Western)
S. Simola, BSW, BA (McMaster), MA (Queen’s), MBA (Wilfrid Laurier), PhD (Queen’s)

Associate Professors
K. Collins, BA (Western), MA (Queen’s), PhD (Ottawa), LLM (Western), CPA, CGA
(on leave 2019–2020)
R. Dart, BSc (Trent), MES, PhD (York)
A. El-Amir, BA (American University in Cairo), MSc, PhD (Stirling)
A. Zohar, BA, MES, PhD (York)

Assistant Professors
K. Chen, BBA (York), PhD (Wilfred Laurier)
A. Malik, BCom, MBA, MS (Punjab), MBA (Ryerson), PhD (York)
J. Zhang, BEng (Jiangxi), MSc (Concordia), PhD (Concordia)

Senior Lecturer
J. Morales, MBA (Yucatán), MIBA (Nancy, La Salle), PhD (Sterling)

The School of Business at Trent University offers a four-year Honours program leading to a Bachelor of Business Administration (BBA) degree. The program enables students to develop an understanding of the nature of organizational life, to communicate more effectively, to learn the techniques of financial and management accounting, and to gain knowledge of managerial planning and strategy formation. In addition to core business subjects, the program emphasizes communication and creative problem-solving skills that are essential to future career success. A strong emphasis on group work provides an ideal environment in which to practice these skills. An essential feature of the program is its focus on the human side of organizations—to recognize and value the people who actually make organizations work. We encourage our students to develop a broad base of knowledge, an understanding of the larger social issues facing organizations, and the capacity for critical analysis.

Notes
• Students entering the program are required to have completed a secondary school senior-level mathematics course in good standing.
• Students transferring into the program from another university or community college will have their transcript assessed by the Office of the Registrar for course credit transfer. Students transferring into the program from another department or program should consult with the associate director of the program to review their course of study.
• Students who have completed 14.0 credits are encouraged to review their course selection to ensure that all program requirements are met. Please see the Program website for course planning sheets.
• For the Option in Marketing, see p. 411.
• For the Postgraduate Certificates in Human Resource Management and in Marketing & Entrepreneurship, see p. 443.

Bachelor of Business Administration Program
• In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).
• A minimum grade of 60% in each of ADMN 1000H, ADMN 1021H, ECON 1010H, and ECON 1020H is required for the Bachelor of Business Administration (BBA).
• A minimum cumulative average of 65% is required at graduation for the BBA degree.
• Students may obtain only one specialization as part of a BBA degree.
• A minimum grade of 65% is required in any course counting toward BBA specialization requirements.
• Students may count ADMN specialization credits at the 3000 and 4000 level toward the requirement of 3.0 ADMN elective credits at the 3000 or 4000 level in the BBA program.

The BBA Honours program. 20.0 credits including the following 11.5 credits:
– 3.0 ADMN credits at the 3000 level or beyond in addition to the above
– 2.0 ECON credits consisting of ECON 1010H, 1020H, 2200H, and 2250H

Bachelor of Arts and Bachelor of Science Programs in Business Administration
• In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).
• The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.
• A minimum grade of 60% in each of ADMN 1000H, ADMN 1021H, ECON 1010H, and ECON 1020H is required for the joint-major Honours BA or BSc in Business Administration.

The joint-major Honours program. 20.0 credits including the following 8.0 credits:
– 2.0 ADMN credits at the 3000 level or beyond in addition to the above
– 1.0 ECON credit consisting of ECON 1010H and 1020H
– For the BSc, 14.0 science credits are required for the Honours degree

The minor in Business Administration consists of the following 5.0 credits:
– 2.5 ADMN credits consisting of ADMN 1000H, 1021H, 2021H, 2010H, and 2510H
– 1.5 ADMN credits at the 3000 level or beyond
– 1.0 ADMN credit in addition to the above
Specialization in Accounting

Program Coordinator

J. Morales, MBA (Yucatán), MIBA (Nancy, La Salle), PhD (Sterling)

Accounting is an essential language and a key management system for all types of businesses, and the Specialization in Accounting is designed to allow BBA students to study accounting in some depth. Students who wish to pursue the CPA Ontario designation are strongly recommended to consult directly with CPA ([cpaontario.ca](http://cpaontario.ca)) to learn more about the required courses and the processes for admission to the profession.

Courses

Students who have fulfilled the requirements for a Bachelor of Business Administration may graduate with a Specialization in Accounting if they have also successfully completed the following 5.5 credits with a minimum grade of 65% in each and an overall average of at least 70%:

- 3.5 ADMN credits consisting of ADMN 1021H, 2021H, 3021H, 3121H, 3200H, 3221H, and 3321H
- 2.0 ADMN credits from ADMN 1620H, 3250H, 3700H, 3710H, 4300H, 4301H, 4302H, 4303H, or 4710H

Specialization in Economics

Program Coordinator

B. Lew, BSc, MBA (Alberta), PhD (Queen’s)

Students who have fulfilled the requirements for a Bachelor of Business Administration degree may graduate with a Specialization in Economics if they have also successfully completed the following 3.5 credits with a minimum grade of 65% in each:

- 2.5 credits consisting of ADMN 3700H, ECON 2000H, 2010H, 3020H, and 3120H
- 0.5 credit from ADMN 4870H (or 3870H) or 0.5 ECON credit beyond those required for the BBA (ECON 1010H, 1020H, 2200H, 2250H)
- 0.5 additional ECON credit beyond those required for the BBA

Specialization in Entrepreneurship

Program Coordinator

To be named

Students who have fulfilled the requirements for a Bachelor of Business Administration degree may graduate with a Specialization in Entrepreneurship if they have also successfully completed the following 3.5 credits with a minimum grade of 65% in each:

- 1.5 ADMN credits consisting of ADMN 3420H, 3430H, and 3750H
- 2.0 ADMN credits from ADMN 1510H, 3150H, 3160H, 3170H, 3560H, 4450H, or 4870H (or 3870H)
Specialization in Ethics & Sustainability

Program Coordinator

S. Simola, BSW, BA (McMaster), MA (Queen’s), MBA (Wilfrid Laurier), PhD (Queen’s)

Students who have fulfilled the requirements for a Bachelor of Business Administration degree may graduate a Specialization in Ethics & Sustainability if they have also successfully completed the following 4.0 credits with a minimum grade of 65% in each:

- 0.5 ADMN credit consisting of ADMN 3300H
- 1.0 ADMN credit from ADMN 4250H, 4260H, or 4450H
- 1.0 credit from PHIL 1100H, PHIL 2110H, PHIL 2390H, PHIL 3110H, PHIL-POST 3140H, PHIL-POST 3180H, ERST-PHIL 3301H*, ERST-PHIL 3302H* (or 3300Y*), PHIL-COIS 3370H, or PHIL 4310H
- 1.0 credit from ERST-POST 2100H, ERST-CAST-POST 3120H, ERSC 3160H, ERST 3250H, ERST-PHIL 3301H*, ERST-PHIL 3302H* (or 3300Y*), ERST-GEOG 4140H (or ERST 4130H), ERST-PHIL 4705H, ERSC/ERST 4801H, HIST-ERST 3756H, or INDG-ERSC 4730Y
- 1.0 additional credit from the courses listed above

*may only count toward one list

Notes

- With the permission of the specialization coordinator, students may substitute 0.5 credit not on the above lists provided the course has significant content on ethics and/or sustainability.
- The same course may not simultaneously satisfy the requirements of the Specialization in Ethics & Sustainability and the Option in Applied Ethics.

Specialization in Finance

Program Coordinator

J. Zhang, BEng (Jiangxi), MSc (Concordia), PhD (Concordia)

Students who have fulfilled the requirements for a Bachelor of Business Administration may graduate with a Specialization in Finance if they have also successfully completed the following 5.5 credits with a minimum grade of 65% in each and an overall average of at least 70%:

- 2.0 ADMN credits from ADMN 3200H, 3321H, 3700H, 4300H, 4700H, or 4720H
- 2.0 ECON credits consisting of ECON 2000H, 3000H, 3020H, and 3200H
- 1.0 MATH credit from MATH 1005H, 1110H, 1120H, 1350H, or 1550H
- 0.5 credit from ADMN 3250H, ADMN 3550H, COIS 3510H, ECON 3120H, ECON 3400H, ECON 4200H, or MATH 3350H
Specialization in Human Resource Management

Program Coordinator

A. Malik, BCom, MBA, MS (Punjab), MBA (Ryerson), PhD (York)

Upon successful completion of the 5.5 credits associated with the Specialization in Human Resource Management, students will have satisfied all of the course requirements for the “Certified Human Resources Professional Designation™” and be eligible to write the National Knowledge Exam.™ By HRPA standards, students must achieve a cumulative average of 70% in all courses, with no individual course mark less than 65%. In order to take the exam, a student must be an enrolled member of the Human Resources Professionals Association of Ontario, which involves a monetary fee to the Association.

The “Certified Human Resources Professional Designation” is the only legislated certification for Human Resources Professionals in North America. Currently, the HRPA requires the completion of nine subject areas, which are all offered at Trent. CHRP, NKE, and NPPA are trademarks of HRPA and used under license. Licensing does not equate to program review, approval, or endorsement.

Courses

Students who have fulfilled the requirements for a Bachelor of Business Administration or a joint-major Honours degree in Business Administration may graduate with a Specialization in Human Resource Management if they have also successfully completed the following 5.5 credits with a minimum grade of 65% in each and an overall average of at least 70%:

- 0.5 ECON credit consisting of ECON 3500H

Specialization in Information Systems & e-Commerce

Program Coordinator

R. T. Hurley, BSc (New Brunswick), PhD (Waterloo)

Students who have fulfilled the requirements for a Bachelor of Business Administration degree may graduate with a Specialization in Information Systems & e-Commerce if they have also successfully completed the following 3.5 credits with a minimum grade of 65% in each:

- 1.0 ADMN credit consisting of ADMN 1620H and 2620H
- 0.5 COIS credit consisting of COIS 1010H
- 1.0 ADMN credit from ADMN 3750H, 3850H, or 4870H (or 3870H)
- 0.5 COIS credit from COIS 1020H or 1520H
- 0.5 COIS credit from COIS 3030H or 3400H
Specialization in Marketing & Consumer Culture

Program Coordinator

A. El-Amir, BA (American University, Cairo), MSc, PhD (Stirling)

Students who have fulfilled the requirements for a Bachelor of Business Administration degree may graduate with a Specialization in Marketing & Consumer Culture if they have also successfully completed the following 4.0 credits with a minimum grade of 65% in each from the following list of courses:

- 0.5 ADMN credit consisting of ADMN 2100H
- 3.5 ADMN credits from ADMN 2080H, 2410H (or 3410H), 3150H, 3160H, 3170H, 3560H, 3750H, or 4870H (or 3870H)

Note

• Students pursuing a Specialization in Marketing & Consumer Culture are strongly encouraged to develop a wider foundation in the social sciences.

Specialization in Niigaaniiwin—The Art of Leading

Program Coordinator

D. Newhouse, (Onondaga), BSc, MBA (Western)

The Niigaaniiwin—The Art of Leading Specialization brings together two knowledge systems—Western business practices and Indigenous ways of knowing and working—with a view to developing students’ ability to work skillfully in the twenty-first-century business environment.

Courses

Students who have fulfilled the requirements for a Bachelor of Business Administration may graduate with a Specialization in Niigaaniiwin—The Art of Leading, if they have successfully completed the following 3.5 credits with a minimum grade of 65% in each:

- 1.0 INDG credit consisting of INDG 1001H and 1002H (or 1000Y)
Please consult the academic timetable for information on courses that will be offered in 2019–2020, including when they will be scheduled.

» ADMN 1000H: Contemporary Issues in Management and Organization
   Provides a macro framework and context for the management discipline by examining a wide selection of issues which affect both the practice and the conceptualization of management and organization. Issues studied include globalization, information technology, demographics, diversity, sustainability, and recent developments in management theory.

» ADMN 1021H: Financial Accounting I
   An introduction to the theory of financial accounting and the preparation of financial statements, the theoretical framework of accrual accounting, and the Generally Accepted Accounting Principles (GAAP), including double-entry accounting and the accounting cycle. Professional ethics, behaviour, and corporate social responsibility are integrated into the context of control and accountability.

» ADMN-INDG 1500H: Foundations of Indigenous Community Development (see Indigenous Studies)

» ADMN-INDG 1510H: Foundations of Indigenous Community Economic Development (see Indigenous Studies)

» ADMN-COIS 1620H: Introduction to Information Systems (Sc) (see Computing & Information Systems)

» ADMN 2010H: Management Skills
   Examines the theory and practice of foundational skills important to management and organization in private, non-profit, and public sectors. Focuses on conceptual skills, communication skills, and interpersonal skills. Prerequisite: 2.0 university credits.

» ADMN 2021H: Financial Accounting II
   Builds on Financial Accounting I, focusing on the limitations, controversies, problems, and shortcomings with accounting and accounting information. Students analyze financial statements and critically evaluate financial reports. Professional ethics, behaviour, and corporate social responsibility are integrated into the context of control and accountability. Prerequisite: ADMN 1021H.

» ADMN 2080H: Managerial and Market Research
   Focuses on primary research and its use in problem solving and decision-making. Covers qualitative and quantitative research design, planning, implementation, and analysis. Research methods studied include surveys, focus groups, analytical interviews, ethnography, and action research. Prerequisite: 1.0 ADMN credit.

» ADMN 2100H: Introduction to Marketing
   Aims to give students a basic understanding of marketing and its core concepts—how a marketing approach can be implemented and managed in a range of markets, situations, and organizations. Prerequisite: 1.0 ADMN credit.

» ADMN-ECON 2200H: Introduction to Statistics for Economics and Management (Sc) (see Economics)

» ADMN 2220H: Organizational Behaviour
   A conceptual and methodological analysis of the way individuals react to their employment environment. Topics include motivation, job satisfaction, leadership, group dynamics, and decision-making. Prerequisite: 1.0 ADMN credit.
» **ADMN 2230H: Human Resource Management**  
A survey of the concepts and practices in the major functions of human resource management. Topics include human resource forecasting, human rights, recruitment and selection, training and development, collective bargaining, performance appraisal, and compensation. Pre- or co-requisite: ADMN 2220H.

» **ADMN-ECON 2250H: Introduction to Mathematics for Economics and Management (Sc)**  
(see Economics)

» **ADMN 2410H: Communications in Organizations**  
Verbal and non-verbal communication, social cognition, self-perception/concept, conflict theory, and their relevance to life in groups and organizations. Prerequisite: 2.0 university credits including ADMN 1000H. Excludes ADMN 3410H, WRIT 2003H.

» **ADMN 2510H: Organization Theory**  
An introduction to organization theory and an examination of specific organizations. Structure, process, environment, and other aspects of organizations are approached through different frames, images, and perspective analysis. Prerequisite: 1.0 ADMN credit.

» **ADMN-COIS 2620H: Systems Analysis and Design (Sc)**  
(see Computing & Information Systems)

» **ADMN 3021H: Fundamentals of Managerial Accounting**  
An introduction to the basic concepts and procedures used in the collection and manipulation of accounting data for ongoing management decision-making. Topics include manufacturing accounting, cost accounting and variance analysis, cost allocation, cost-volume-profit analysis, and an introduction to budgeting. Prerequisite: ADMN 2021H.

» **ADMN-INDG 3040H: The Meaning of Work in the Contemporary World**  
(see Indigenous Studies)

» **ADMN 3121H: Intermediate Management Accounting**  
Builds on Fundamentals of Managerial Accounting. The focus is internal accounting concepts, functions, and processes required to successfully manage an organization. Major topics include quantitative analyses of cost functions; strategy, balance scorecard, and profitability analysis; spoilage, rework, and scrap; inventory cost management strategy; and capital budgeting. Prerequisite: ADMN 3021H.

» **ADMN 3150H: Advertising**  
Students learn the way advertisements work, the many techniques used in advertising, and the impact of advertisements on the individual and society. The power of image and identity ads is emphasized. Prerequisite: ADMN 2100H.

» **ADMN 3160H: Branding**  
Introduces the concept of branding and reviews the theoretical approaches guiding the management of the branding process. Students learn, through tales of best practice, the tools to create and sustain brands via integrating strategic marketing with marketing communications. Prerequisite: ADMN 2100H.

» **ADMN 3170H: Introduction to Retail Marketing**  
Introduces students to retailing and provides an understanding of the types of businesses, strategies, operations, formats, and environments through which retailing is carried out. Prerequisite: ADMN 2100H.
» ADMN 3200H: Financial Management
A survey of the fundamental concepts of corporate finance, including the tax environment, financial planning and control, working capital management, capital budgeting, the market for long-term securities, debt and preferred shares, valuation and rates of return, and the cost of capital. These concepts are applied to particular cases. Prerequisite: ADMN 2021H and ADMN-ECON 2200H.

» ADMN 3220H: Organizational Selection in the Canadian Workplace
Designed to help students understand the matching process that takes place between individuals and organizations. Seeks to understand the principles, issues, trends, and legislative requirements affecting the recruitment and selection process. Prerequisite: ADMN 2220H and 2230H.

Builds on the fundamentals of Financial Accounting I and II. The focus is the asset side of the Balance Sheet and Revenue Recognition criteria within the context of the Canadian financial reporting environment. The identification, discussion, and critique of accounting principles such as the International Financial Reporting Standards (IFRS) and Accounting Standards for Private Enterprises (ASPE) form an important component. Prerequisite: ADMN 2220H.

» ADMN 3230H: Training and Development: A Cross-Cultural Approach
An interdisciplinary course which deals with training and development from a cross-cultural perspective. Particular attention is given to theory and results of relevant comparative and organizational research. Coaching, leadership, and workplace diversity are important components. Prerequisite: ADMN 2220H and 2230H.

» ADMN 3250H: The Legal Environment of Business
Addresses the legal limits in which business operates and the laws with which business decisions must comply. It utilizes actual case decisions and engages in examination of public and private law, contemporary issues in terms of human rights, the Charter, administrative law, and employment issues in relation to the operation of a business. Prerequisite: 3.0 ADMN credits.

» ADMN 3260H: Perspectives on Occupational Health and Safety
Focuses on the legislative, technical, political, and social issues associated with the effective management of occupational health and safety concerns in contemporary Canadian organizations. Prerequisite: ADMN 2220H and 2230H.

» ADMN 3270H: Human Resource Planning
Provides an understanding of the essential elements of the human resource planning process in organizations. Students acquire knowledge in analyzing and programming for human resource requirements in the challenging environment of technological change, corporate repositions, rightsizing, cost containment, and pro-structuring improvements. Prerequisite: ADMN 2220H and 2230H.

» ADMN 3280H: Motivation and Compensation Systems
Provides the student with an understanding of the process, issues, and techniques involved in developing and administering compensation programs. Students gain knowledge of the theoretical and applied aspects of the compensation function, the linkage between the compensation function, and the overall management process. Prerequisite: ADMN 2220H and 2230H.

» ADMN 3300H: Personal Ethics in Organizations and Business
An introduction to personal ethics in business and organizations. Major theories of ethics are applied to case studies. Students learn to identify ethical issues, reflect on their own values, and support their ideas with rational discussion. Prerequisite: 8.0 university credits, at least 3.0 of which must be ADMN credits including ADMN 2010H.

» ADMN-ECON-IDST 3310H: The Economics of Developing Countries (Sc) (see Economics)

» ADMN-SOCI 3320H: Organizational Sociology (see Sociology)
ADMN 3321H: Intermediate Financial Accounting II
Focuses on the liabilities and shareholder equity sections of the Balance Sheet and Off-Balance Sheet items such as complex financial instruments. The identification, discussion, and critique of measurement and disclosure issues under the International Financial Reporting Standards (IFRS) and Accounting Standards for Private Enterprises (ASPE) form an important component. Prerequisite: ADMN 2021H.

ADMN-ECON-IDST 3330H: The Economics of Global Interdependence (Sc) (see Economics)

ADMN-SOCI 3340H: Sociology of Work (see Sociology)

ADMN-CAST-HIST 3390H: Creating Modern Capitalism: Cases in Global and Canadian Perspective (see History)

ADMN 3400H: Markets, Governments, and Organizations
Provides the theoretical framework for critically evaluating the way societies control organizations through government regulation, through the governance of the organization, and by creating the institutions that enable markets to function. Prerequisite: 3.0 ADMN credits.

ADMN 3420H: Entrepreneurship
Focuses on issues and questions of entrepreneurship and entrepreneurs, covering issues ranging from the creation and development of business ideas and models to sociological, psychological, and economic considerations of the origin and function of entrepreneurs in business as well as non-profit and community settings. Prerequisite: 3.0 ADMN credits.

ADMN 3430H: New Venture Planning and Design
A hands-on exercise in business planning, business design, and business management with a focus on start-up and small business contexts. Primary coursework is undertaken in the development of a feasible business plan, including structural, financial, marketing, and human resource considerations. Prerequisite: 3.0 ADMN credits including ADMN 2021H.

ADMN 3440H: Introduction to the Third Sector—Non-Profit and Non-Governmental Organizations
An introduction to the “third sector”—organizations variously characterized as non-profit, NGO, social enterprise, and civil society. Special focus is on organizations in health, social development, environment, and international development domains. Prerequisite: 3.0 ADMN credits.

ADMN 3441H: Social Enterprise and Social Innovation
Focuses on the emerging fields of social enterprise, social entrepreneurship and social innovation, and examines organizational and intervention models in broader social systems. Significant attention is paid to designing organizational and career solutions responding to important social and environmental needs. Prerequisite: 9.0 university credits.

ADMN 3550H: Operations Management, Concepts, and Cases
Concerned with the way organizations transform inputs into outputs, taking a systems approach to organizations. Students learn to recognize and analyze operations of both service and manufacturing organizations, addressing the design of both types of organizations and the management of quality, inventory, and supply change issues. Prerequisite: ADMN 2021H, 2510H, and ADMN-ECON 2200H.

ADMN 3560H: Organizational Analysis
Develops diverse skills in the analysis of complex organizational issues, and proficiency in presenting and communicating ideas within a tight timeframe. It adopts experiential learning methods in order to develop effective decision-making and critical thinking skills. It requires students to integrate theories from multiple business disciplines to real-world situations in team-level decision-making contexts. Prerequisite: 3.0 ADMN credits including ADMN 2021H.
» ADMN 3700H: Investments
   An introduction to the fundamental principles and concepts of financial markets and instruments available in Canada. Emphasizes understanding the investment background, developments in investment theory, valuation principles and practices, and ethical investments. Prerequisite: ADMN 2021H, 3021H, and 3200H.

» ADMN 3710H: Taxation—Individual
   Focuses on the taxation of individuals within the confines of Canadian tax legislation and the Income Tax Act. Students explore the taxation of individuals with the help of cases, blended learning, and concept questions. Emphasizes the interdisciplinary aspect of personal taxation with reference to the fields of accounting, economics, finance, and law. Prerequisite: ADMN 2021H and 3021H.

» ADMN-COIS 3750H: Principles of Online Marketing (Sc) (see Computing & Information Systems)

» ADMN 3800H: Foundations of Leadership
   Designed to help students understand what it means to be an effective leader. The main emphasis is on developing self-awareness related to leadership abilities as well as the practice of leadership. Examines topics such as the nature of leadership, different perspectives on leadership, developing key leadership skills, and leading organizational change initiatives. Prerequisite: ADMN 2010H and 2220H.

» ADMN-COIS 3850H: Fundamentals of Project Management (Sc) (see Computing & Information Systems)

» ADMN 4030H: Strategic Management
   Focuses on the definition and analysis of strategic problems faced by business and government organizations in adapting to changes in their internal and external environments. Students are expected to draw broadly on knowledge and skills developed over their first three years. Prerequisite: 12.0 university credits of which 5.0 must be ADMN credits. Excludes ADMN 4000Y.

» ADMN 4101H: Thinking About Management
   An exploration of the intersection and interconnectedness of management theory, personal values, attitudes and beliefs, and managerial action. This guided exploration in this often invisible landscape is undertaken using a variety of material: classical and contemporary writings on management, art, literature, and film. Prerequisite: 12.0 university credits of which 5.0 must be ADMN credits. Excludes ADMN 4100Y.

» ADMN-PHIL 4250H: Business Ethics and Corporations
   Examines a number of ethical issues raised by for-profit corporations, including whether corporations are moral agents and the purpose of corporations. Considers stakeholder theory, stockholder theory, Integrative Social Contact Theory, and CSR. Analyzes numerous case studies of corporate actions. Prerequisite: 12.0 university credits, of which 5.0 must be ADMN credits including ADMN 3300H; or both PHIL 1200H and 2110H. Excludes ADMN-PHIL 4200Y.

» ADMN-POST-IDST 4255H: Globalization and the Politics of Work (see Political Studies)

» ADMN-PHIL 4260H: Ethics and Capitalism
   Examines ethical issues raised by the free-market capitalist economic system such as justice and the distribution of wealth, capitalism and democracy, and ecological sustainability. Several theories of justice are considered. Prerequisite: 12.0 university credits, of which 5.0 must be ADMN credits including ADMN 3300H; or both PHIL 1200H and 2110H. Excludes ADMN-PHIL 4200Y.

» ADMN 4300H: Financial Management II
   Provides students with an in-depth examination of advanced financial management theories in a Canadian setting. Students will gain an understanding of complex financial management techniques, for example, raising capital, capital structure, dividend and dividend policy, net working capital, mergers and acquisitions, and risk management. Prerequisite: ADMN 3200H.
» ADMN 4301H: Auditing
Designed to introduce students to auditing and assurance standards and procedures. Students explore the nature and purpose of the auditing function, as well as client risk profiles, control risk, internal controls, audit planning, evidence collection, and reporting. Prerequisite: ADMN 3221H.

» ADMN 4302H: Advanced Management Accounting
Designed to provide an advanced understanding of management accounting concepts, the use of accounting information in decision-making, and the strategic and interdisciplinary implications therein. Explores the use of quantitative and qualitative information in management’s decision-making for planning and control; designing and evaluating management control systems and corporate governance structures; and their strategic effectiveness. Prerequisite: ADMN 3021H and 3121H.

» ADMN 4303H: Advanced Financial Accounting
Provides students with an in-depth examination of advanced financial accounting topics in Canada. Students learn to account for intercorporate investments, business combinations, foreign currency transactions and translation, and not-for-profit organizations. Prerequisite: ADMN 3221H and 3321H.

» ADMN 4450H: Perspectives and Practices for Organizational Sustainability
Introduces students to the “triple bottom line” approach by defining sustainability in organizations as balanced progress toward economic performance, social justice, and environmental quality. Examines approaches and methods of the sustainability paradigm and the way they are used in various areas. Prerequisite: 12.0 university credits, of which 5.0 must be ADMN credits.

» ADMN 4460H: Managing for Workplace Psychological Health and Wellness
Focuses on managing for a specific type of human sustainability, that of workplace psychological health. Although psychological health concerns occurring either prior or parallel to employment are considered, this course focuses on the influence of organizational policies, processes, and dynamics on employee psychological health and wellness. Prerequisite: ADMN 2220H and 3300H.

» ADMN-INDG 4500H: Indigenous Perspectives on Twenty-First-Century Business and Organizational Issues (ICR) (see Indigenous Studies)

» ADMN 4700H: Derivatives
A comprehensive course in derivative markets and instruments (for example, forwards, futures, swaps, and options). By the end of the course, students will have good knowledge of how these products work, are priced, and how financial institutions hedge risks with the help of derivative instruments. Prerequisite: ADMN 3200H.

» ADMN 4710H: Taxation—Corporate
Provides students with a comprehensive understanding of the taxation of corporations in Canada, drawing from the areas of financial and managerial accounting, microeconomics, and finance. Topics include, but are not limited to, the computation of corporate taxes, corporate tax planning, reorganizations, partnerships, joint ventures, and the taxation of corporate investment income. Prerequisite: ADMN 2021H, 3021H, and 3200H.

» ADMN 4720H: Financial Markets and Institutions
Covers financial markets and institutions including commercial banks, insurance companies, mutual fund industries, and pension funds corporations. From the technical and practical perspective, students learn how to analyze these financial institutions’ (FI) financial statement and recent trends, and analyze risks FIs managers may face. Prerequisite: 12.0 university credits of which 5.0 must be ADMN credits including ADMN 3200H and 3700H.
» **ADMN 4820Y/4830H: Community-Based Research Project**
Students are placed in research projects with community organizations in the Peterborough area. Each placement is supervised jointly by a faculty member and a representative of a community organization. For details, see Community-Based Research Program ([p. 429](#) or [trentu.ca/tcrc](#)). Prerequisite: 10.0 university credits, a minimum 75% cumulative average, and approval of director of the program. Students may take only one of ADMN 4820Y or 4830H for credit.

» **ADMN 4870H: Field Placement 1**
Bridges academic theory with field-based learning. Working with local agencies in the community, students combine field experience with reflective practice. Students interview for various placements identified by the School of Business, or if approved by the School of Business, students may secure their own learning opportunity. Prerequisite: A minimum 72% cumulative average, 12.0 university credits of which 5.0 must be ADMN credits, and permission of course administrator. Excludes ADMN 3870H.

» **ADMN 4880H: Field Placement 2**
A second opportunity to bridge academic theory with field-based learning. Again, working with local agencies, students receive a real-life learning opportunity either at a new agency or by returning to the first placement host. Students interview for various placements identified by the School of Business, or if approved by the School of Business, students may secure their own learning opportunity. Prerequisite: A minimum 72% cumulative average, 12.0 university credits of which 5.0 must be ADMN credits including ADMN 4870H (or 3870H), and permission of course administrator.

» **ADMN 4900Y, 4901H, 4902H, 4903H: Reading Course**
Provides an opportunity for more intensive or broader study of a selected topic under the guidance of a faculty member. Open only to single- and joint-majors in the Business Administration program. Prerequisite: 12.0 university credits, of which 5.0 must be ADMN credits; a minimum 75% cumulative average; and permission of instructor, the director of program, and the dean prior to the opening of registration in the spring.

Lew, Economics; B. L. Marshall, Sociology; J. Miron, History; M. Steffler, English Literature; T. Whillans, Environment; D. White, Sociology; R. A. Wright, History; S. Wurtele, Environment

We teach students about the diverse, often contested meanings of the Canadian experience and Canadian citizenship. We explore how even as the transnational attracts critical and public attention, the nation remains the major administrative and imaginative unit organizing people’s lives. Our focus, in research and in the classroom, is on the Canadian nation in a global context. We offer interdisciplinary courses in four areas: culture, literature, and the arts; policy, economy, and society; identities and social movements; and space, place, and region; while encouraging thought about Canadian history, institutions, ideology, and social justice.
Bachelor of Arts Program in Canadian Studies

- In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).
- The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.
- The same course may not satisfy more than one Canadian Studies category requirement.
- Students may count no more than 1.0 credit from CAST reading courses toward their Canadian Studies degree requirements.
- CAST 4000Y/4001H, community-based research courses (CAST 3810Y, 3811H, 3813H, 4810Y, 4811H, 4813H), and reading courses (CAST 3900Y, 3901H, 3903H, 4900Y, 4901H, 4903H) are not assigned to a column category, and can be used to fulfill the remaining non-column degree/diploma requirements.
- Courses fulfilling the Indigenous Course Requirement (p. 16) are marked “ICR” in the individual course descriptions.

The single-major Honours program. 20.0 credits including the following 10.0 credits:
- 1.0 CAST credit from CAST 1100H and one of 1101H, 1103H, or 1104H
- 2.0 CAST credits at the 4000 level
- 4.0 CAST credits at the 3000 level or beyond in addition to the above
- 3.0 CAST credits in addition to the above
- Must include at least 1.0 credit from each of Categories A, B, C, and D

The joint-major Honours program. 20.0 credits including the following 7.0 credits:
- 1.0 CAST credit from CAST 1100H and one of 1101H, 1103H, or 1104H
- 2.0 CAST credits at the 4000 level
- 3.0 CAST credits at the 3000 level or beyond in addition to the above
- 1.0 CAST credit in addition to the above
- Must include at least 1.0 credit from each of Categories A, B, C, and D

The single-major General program. 15.0 credits including the following 6.0 credits:
- 1.0 CAST credit from CAST 1100H and one of 1101H, 1103H, or 1104H
- 3.0 CAST credits at the 3000 level or beyond
- 2.0 CAST credits in addition to the above
- Must include at least 1.0 credit from each of Categories A, B, C, and D

The joint-major General program. 15.0 credits including the following 5.0 credits:
- 1.0 CAST credit from CAST 1100H and one of 1101H, 1103H, or 1104H
- 2.0 CAST credits at the 3000 level or beyond
- 2.0 CAST credits in addition to the above
- Must include at least 0.5 credit from each of Categories A, B, C, and D

The minor in Canadian Studies consists of the following 5.0 credits:
- 1.0 CAST credit from CAST 1100H and one of 1101H, 1103H, or 1104H
- 2.0 CAST credits at the 3000 level or beyond
- 2.0 CAST credits in addition to the above
- Must include at least 0.5 credit from each of Categories A, B, C, and D

Diploma in Canadian Studies

Canadian Studies offers a diploma for students who wish to undertake a single academic year (September to April) focused directly upon Canadian political economy, society, environment, and culture. Students wishing to enrol in the diploma program must apply in writing to the chair, indicating course preferences. As the number of spaces is limited, acceptance is not automatic. The chair or designate selects the successful candidates in consultation with the Admissions Committee.

Eligibility

Applicants must either be students registered in, or graduates of, an accredited post-secondary educational institution normally other than Trent University. An official transcript, including evidence of the content of courses completed and grades received, must accompany the application.

Language Requirements

In accordance with University regulations, applicants must have a competence in written and spoken English. Facility in the French language is desirable but not compulsory.

Visas, Fees, and Accommodation

International students admitted to the diploma program are expected to make their own arrangements for visas, financing, and accommodation during the year at Trent. Nevertheless, every effort will be made to assist in this process.

The Diploma

The diploma is awarded in the spring along with a Trent University transcript identifying all courses undertaken and grades received. Upon successful completion of the diploma, students may apply for admission to the BA program in Canadian Studies. Credits earned in the diploma program are transferable to the BA degree.

Courses

- The diploma program consists of 4.0 CAST credits consisting of 1.0 credit from each category (A, B, C, D)
- At least 2.0 of the above credits must be at the 3000 level or beyond
- For students taking a fifth credit, CAST 1100H and one of 1101H, 1103H, or 1104H is recommended
- Students planning to continue on to graduate school are encouraged to take 2.0 credits at the 4000 level
- Students must obtain a minimum of 60% in each of the courses in the program to qualify for the Diploma
Please consult the academic timetable for information on courses that will be offered in 2019–2020, including when they will be scheduled.

» CAST-HIST 1020Y: Modern Canada: Nation and Citizenship (see History)

» CAST 1100H: Conflicted Canada
An introduction to the conflicts, contexts, and challenges of Canada and what it means to be Canadian. Exploring social, political, and cultural upheavals to the land itself, topics may include colonization and conquest, identity, regional conflict, representations from Riel to hockey, immigration, and art. Excludes CAST 1000Y.

» CAST 1101H: Canada: Images and Realities of a Nation
What is our image of Canada and what is its reality? This course compares the often conflicting images of Canada and traces their roots to the nation’s political and economic history. Topics may include a history of Canadian prosperity, democracy, the rule of law, and social and political accommodation. Excludes CAST 1000Y.

» CAST 1102H: Études francophones dans un environnement canadien / Francophone Studies in a Canadian Environment (see French & Francophone Studies)

» CAST 1103H: Global Canada
Does the world really “need more Canada”? How do Canadians understand themselves and their country within a global context? This course critically analyzes Canada’s role internationally exploring the important world events that have shaped Canadian society and their impact on the notion of Canadian citizenship and Canada as a nation. Excludes CAST 1000Y.

» CAST 1104H: Local Lives: Everyday Dimensions of Canadian Life
While often imagined as a national construct, everyday Canadians’ lives are largely organized at the local level. This course explores the local, focusing upon the key social organizations and institutions that shape the real experience of ordinary Canadians, especially with the urban experience. Excludes CAST 1000Y.

» CAST-INDG-POST 2001H: Indigenous Peoples and State Relationships (ICR) (see Indigenous Studies)

» CAST-INDG-POST 2002H: Indigenous Peoples and Resurgence (ICR) (see Indigenous Studies)

» CAST-POST 2011H: Governing Canada: Issues and Challenges (see Political Studies)

» CAST-POST 2012H: Democratizing Canada: Contemporary Issues (see Political Studies)

» CAST-HIST 2021H: French Colonialism in Canada, 1500–1763 (see History)

» CAST-ERST-GEOG-INDG 2040Y: Canada: The Land (ICR)
An interdisciplinary enquiry into the function and idea of the land in Canadian traditions. Themes may include Aboriginal rights, settlement, sources of land law, post-colonialism, regionalism, urban/rural conflict over natural resource extraction and waste disposal, sustainability, environmental racism, energy, climate change, and representations of land and landscape in literature and the visual arts. Prerequisite: 3.0 university credits.

» CAST-HIST 2211H: Violence and the Project of Canada: From Spectacular Punishment to Genocide, 1600s to 1800s (see History)

» CAST-HIST-POST 2215H: “Empire Ontario,” 1867–1945
A study of Ontario as a political, economic, and cultural region. Topics may include provincial political culture and state formation; writers and artists; farms, factories, and cities; education policy; First Nations; the provincial north; Ontario in the Great Depression; Ontario and Canada. Prerequisite: 3.0 university credits.
CAST-HIST-POST 2225H: Ontario Since 1945: From “The Common Good” to “Common Sense”
Explores transformations in Ontario politics, culture, and social and economic life from the Second World War to the present. Themes may include immigration, human rights, Toronto’s growth, the Ontario north, economic restructuring from the Autopact to NAFTA, health, education and social policy, and the impact of the common sense revolution. Prerequisite: 3.0 university credits.

CAST-HIST 2235H: The Almost Kingdom: Canada, 1837–1885
Explores the history of the creation of Canada in the middle decades of the nineteenth century. Beginning with the rebellions in Upper and Lower Canada in 1837 and 1838, the course traces debates about democracy and nationhood through the battles over responsible government in the 1840s, the confederation process in the 1860s, and the expansion of Canada westward up to 1885. Prerequisite: 3.0 university credits or permission of the chair.

CAST-GEOG-POST-WMST 2245H: Social and Political Economy of Contemporary Canadian Immigration
Introduces students to the shift in immigration policy and experience of immigrant resettlement in the most diversified period of Canadian immigration. Canada is known worldwide as an immigrant-receiving nation; using gender, class, and race analysis we examine the contemporary context for Canada’s policy of immigration and the political and economic consequences of immigration in Canada. Prerequisite: 3.0 university credits.

CAST-HIST-INDG 2256H: The Histories of Indigenous Peoples in Canada
A study of Indigenous involvement in the fur trade and imperial politics of the eighteenth century, the development of European “civilizing” policies, and the growth and ideology of the modern Indigenous political movement. Prerequisite: 3.0 university credits, including 1.0 CAST or HIST or INDG credit at the 1000 level with a minimum of 60%. Excludes CAST-HIST-INDG 2255Y.

CAST-HIST-POST 2285H: Canada in the 1960s: Irony and Identity
Explores the 1960s, a decade of shifting meanings of “Canadian.” The accent is on the ironies of Canadian identity. Topics may include fiscal policy, youth cultures, the women’s movement, racial identity and the Chuvalo-Ali fight, sex scandals and politics, working-class revolt, upheavals in Quebec, and the challenge of Aboriginal rights. Prerequisite: 3.0 university credits.

CAST-HIST 2331H: The Making of Canada to 1873 (see History)

CAST-HIST 2350Y: Canadian History, 1873–Present (see History)

CAST-HIST 2360Y/2361H: Canadian History Through Murder, Execution, Assassination, and Suicide from Confederation to the War on Terror (see History)

CAST-FREN 2452H: Civilisation québécoise / Quebec Civilization (see French & Francophone Studies)

CAST-INDG-WMST 2485H: Indigenous Women’s Creative Non-Fiction (ICR)
Focuses on creative non-fiction by Indigenous women, including autobiography, life-writing, memoir, mixed-genre essays, and family/community stories revisiting the oral tradition. Emphasizes work published in Canada; includes some “border-crossing” work published in the United States. Excludes CAST-INDG-WMST 3480Y. Prerequisite: 4.0 university credits including one of CAST 1101H, INDG 1001H, or WMST 1001H.

CAST-ERST 2520H: Natural Resource Management: Theory and Comparative Cases (see Environmental & Resource Science/Studies)

CAST-ERST 2525H: Critical Environmental Thinking: Political Economy and Policy Process (see Environmental & Resource Science/Studies)
CAST-WMST 2600Y: Documenting Canada
Explores attempts to document “real” aspects of Canadian life in order to question how we think we know about Canada. We discuss the genres of documentary film, poetry, and prose, the questions of power they raise, and the forms of creativity they generate. Prerequisite: 3.0 university credits. Excludes CAST-WMST 2000Y, ENGL 3550Y.

CAST-ECON 2610H: The Canadian Economy (see Economics)

CAST-GEOG 2710H: Cities: An Introduction to Urban Geography (see Geography)

CAST-WMST-HIST 2711H: Acting Up! Feminism and History in Canada (see Gender & Women’s Studies)

CAST-WMST 2755H: Women in Canada: Women and the Arts
Selected studies in Canadian women’s artistic expression, exploring a variety of art forms and genres. Includes fiction about gender and the arts in Canada. Prerequisite: 3.0 university credits.

CAST-GEOG 2810H: Canada’s People and Places (see Geography)

CAST-GEOG 2811H: The International North and the Arctic Council (see Geography)

CAST-HIST-SAFS 2821H: Food in History (see History)
An interdisciplinary study of the social practices of space, race, community, identity, and difference in Canada. In the first term we “unmap” the relationship between place and identity through selected case studies from various regions in Canada. In the second term we examine immigration, multiculturalism, globalization, and diaspora. Prerequisite: 6.0 university credits.

CAST-HIST 3010Y/3011H: Everyday History
A behind-the-scenes history of everyday life in Canada, exposing the complex histories of such common activities as drinking, barbecuing, gambling, and sex. The course emphasizes the “otherness” of previous moments in time as a way to foster an awareness of the contingency of our current historical moment. Prerequisite: 6.0 university credits. Students may take only one of CAST-HIST 3010Y or 3011H for credit.

CAST-POST-INDG 3015H: Urban Governance in Canada (see Political Studies)

CAST-HIST 3021H: The History of French Canada, 1763–1890 (see History)

CAST-HIST 3022H: French Canada and Quebec since 1890 (see History)

CAST-CUST 3031H: TV Guide: Television in Canada
An introduction to television in Canada focusing on issues, content, and regulation from the 1950s until current day, including the impact of digital and Internet broadcasting. Themes include race, politics, region, and identity in the context of Canadian TV culture. Prerequisite: 4.0 university credits including 1.0 CAST or CUST credit at the 1000 level.

CAST-HIST 3061H: Trudeau’s Canada (see History)

CAST-HIST 3071H: Public History I (see History)

CAST-HIST 3072H: Public History II (see History)

CAST-POST 3091H: Law and Constitutional Issues (see Political Studies)

CAST-POST 3092H: Law and the Charter of Rights and Freedoms (see Political Studies)

CAST-INDG 3103H: Screen Shots: Indigenous Documentaries and Cinematic Storytelling (see Indigenous Studies)

CAST-ERST-POST 3120H: Canadian Environmental Policy (see Environmental & Resource Science/Studies)
» CAST-ERST-WMST 3141H: Gender, Health, and Environments (see Gender & Women’s Studies)
» CAST-HIST-WMST 3160Y: Canadian Women’s History (see History)
» CAST-HIST-WMST 3161H: Colonizing Women: Canada Before the Twentieth Century (see Gender & Women’s Studies)
» CAST-HIST-WMST 3162H: Modernizing Women: Twentieth-Century Canada (see Gender & Women’s Studies)
» CAST-HIST 3170H: Trump, Trudeau, Trees, Trade and Other Stuff: Contemporary Canada and the United States (see History)
» CAST-POST 3210H: Ordering World Politics II: Canadian Foreign Policy in the Twentieth Century and Beyond (see Political Studies)
» CAST-GEOG-WMST 3220H: Gender, Society, and Space (see Geography)
» CAST-FREN 3231H: Théâtre québécois / Québécois Theatre (see French & Francophone Studies)
» CAST-FREN 3232H: Poésie québécoise / Québécois Poetry (see French & Francophone Studies)
» CAST-FREN 3237H: Littératures francophones de l’Amérique du Nord / Francophone Literatures of North America (see French & Francophone Studies)
» CAST-FREN-INDG 3238H: Littératures autochtones de langue française au Canada / French Language Indigenous Literature in Canada (ICR) (see French & Francophone Studies)
» CAST-FREN 3239H: Littérature franco-ontarienne / Franco-Ontarian Literature (see French & Francophone Studies)
» CAST 3241H: Histories of the Canadian North
  Introduces students to major themes in the Canadian Northern history, from pre-contact to the creation of the territory of Nunavut in 1999. The major themes focus on evolving cultural, political, socio-economic, and environmental histories. Prerequisite: 6.0 university credits or permission of the instructor. Excludes CAST-HIST 3240Y.
» CAST 3243H: The Contemporary Canadian North in A Circumpolar Context
  Explores issues in the contemporary Canadian North with a focus on social, political, economic, and environmental issues. Students are encouraged to critically examine Canada’s Northern strategies and compare these to the social and economic priorities of Arctic leaders and Indigenous peoples living in remote Northern communities. Prerequisite: 6.0 university credits or permission of the instructor. Excludes CAST-HIST 3240Y.
» CAST-GEOG 3270H: Canada: Nation, State, and Territory (see Geography)
» CAST-ERST-GEOG 3330H: Wilderness Resources (see Geography)
  Explores the policy initiatives and socio-economic conditions of the Welfare State era as they affected First Nations. With a focus on Welfare State ideology, the course examines issues of health, the surveillance and intervention of social welfare officials, unemployment, population growth, community development, and education that undercut communities. Prerequisite: 6.0 university credits.
» CAST-ERST-SAFS 3340H: The Canadian Food System: Community Perspectives and Experiences (see Sustainable Agriculture & Food Systems)
» CAST-GEOG 3370H: Geography of Tourism (see Geography)
CAST-HIST-ADMN 3390H: Creating Modern Capitalism: Cases in Global and Canadian Perspective (see History)

CAST-WMST-POST 3431H: Growing Gap: Gender (In)Justice in Canada (see Gender & Women’s Studies)

CAST-SOCI 3450H: The Sociology of Communication and Media in Canada (see Sociology)

CAST-ENGL-INDG 3481H: Indigenous Fiction (ICR) (see English Literature)

CAST-ENGL-INDG 3483H: Indigenous Poetry (ICR) (see English Literature)

CAST-INDG-WMST 3485H: Indigenous Women’s Writing in Canada (ICR)
An overview of fiction, poetry, and drama by Indigenous women writers publishing in Canada, with emphasis on the modern and contemporary period. Interpretive frameworks influenced by Western (Euro-Canadian) and Indigenous traditions, and used in this course, include but are not limited to feminist, literary, and anti-colonialist approaches. Prerequisite: 5.0 university credits. Excludes CAST-INDG 3480Y, 3970H.

CAST-ENGL 3500Y/3501H: I Am Canadian (see English Literature)

CAST-ENGL 3502Y/3503H: Contemporary CanLit (1960–Now) (see English Literature)

CAST-ENGL 3504Y/3505H: Where is Here? An Examination of Space and Place in Canadian Literature (see English Literature)

CAST-ENGL-WMST 3506Y/3507H: Canadian Women’s Writing
A selection of Canadian women’s prose fiction from the 1960s to the present. Includes mainstream authors, (translated) francophone writers, recent Indigenous writers, and innovative young authors. Prerequisite: 4.0 university credits. Excludes CAST-ENGL-WMST 2660Y. Students may take only one of CAST 3506Y or 3507H for credit.

CAST-INDG-SOCI-WMST 3508H: Indigenous Genders, Sexualities, and Relationships (see Indigenous Studies)

CAST-ENGL 3509H: Twenty-first Century Canadian Literature (see English Literature)

An exploration of space/law in the making of Canadian identity. Prerequisite 6.0 university credits. Excludes CAST-GEOG-POST 4621H.

CAST-GEOG 3640H: Geography of the Polar Regions (Sc) (see Geography)

CAST-POST-SOCI 3661H: Race, Ethnicities, and Multiculturalism (see Sociology)

CAST-POST-SOCI 3665H: Canada: State, Society, Power
Interrogates the political economy tradition in Canada from its roots to more contemporary approaches, examining the dynamics of Canadian economic, political, and social development. Addresses issues associated with the development of a resource-based and branch-plant economy, globalization and continental integration, and inequality, discrimination, and social justice. Prerequisite: 6.0 university credits.

CAST-POST-WMST 3671H: Gender and Politics in Canada: Cultural and Media Interventions (see Political Studies)

CAST-POST-WMST 3672H: Gender Diversity and Politics in Canada (see Political Studies)

CAST-ENGL-WMST 3709H: Girlhood Bodies and Narratives: Canadian and Global (see English Literature)

CAST-GEOG 3710H: Urban and Regional Planning (see Geography)

CAST-ERST-GEOG 3720H: Urban Environments (see Geography)
CAST-GEOG 3730H: Social Geography (see Geography)

CAST-HIST 3758H: History of Western Canada
A history of the Canadian West from its Aboriginal origins to the present focusing on the political, cultural, and economic transitions between the many different “wests,” which may include Aboriginal space, fur-trade society, resource frontier, and hotbeds of both Canadian conservatism and socialism. Prerequisite: 6.0 university credits. Excludes CAST-HIST 3757Y, 3957Y.

CAST-GEOG 3760H: The Rural-Urban Fringe (see Geography)

CAST-ERST 3780H: Canadian Renewable Resource Economics and Project Planning (see Environmental & Resource Science/Studies)

CAST-HIST-POST 3785H: Canada in the 1980s: Culture and Conflict
The 1980s in Canada were a time of tremendous change. Exploring the cultural, economic, political, and social transformations of the decade, this course examines a diversity of issues, which may include, for example, MuchMusic’s impact, constitutional battles, free trade, the “new” West’s emergence, and the Oka Crisis. Prerequisite: 6.0 university credits.

CAST-GEOG 3800H: Regional Economic Geography of Canada (see Geography)

CAST 3810Y, 3811H, 3813H: Community-Based Research Project
Students are placed in research projects with community organizations in the Peterborough or Haliburton area. Each placement is supervised jointly by a faculty member and a representative of a community organization. For details see Community-Based Research Program (p. 429). Prerequisite: 10.0 university credits and a minimum 75% cumulative average.

CAST-FREN 3831H: Le roman québécois des origines à 1945 / The Québécois Novel from Its Origin to 1945 (see French & Francophone Studies)

CAST-FREN 3832H: Le roman québécois de 1945 à nos jours / The Québécois Novel from 1945 to Today (see French & Francophone Studies)

CAST-SOCI-WMST 3860H: Gender, Race, and Class (see Gender & Women’s Studies)

CAST 3900Y, 3901H, 3903H: Reading Course
A structured course arranged between student and instructor, approved by the chair, involving independent study of material. Regular meetings and detailed written work. See program website for further details and requirements.

CAST-WMST-POST-SOCI 3962H: Gender, Sexualities, and the Law (see Gender & Women’s Studies)

CAST-SOCI-WMST 3966H: Criminalizing and Punishing Women (see Gender & Women’s Studies)

CAST-HIST-INDG 4000Y/4001H: Research Seminar in Indigenous History
The seminar focuses on ethnohistorical method and Indigenous historiography. Structured to give students experience in all the elements involved in producing a piece of professional historical research. Prerequisite: 14.0 university credits including 1.0 CAST, HIST, or INDG credit at the 1000 level. Students may take only one of CAST-HIST-INDG 4000Y or 4001H for credit.

CAST 4010Y, 4020D: Honours Thesis
CAST 4010Y is a single credit; CAST 4020D is a double credit. See program website for more information. Arrangements to be made through the chair. Prerequisite: 14.0 university credits and a minimum 75% cumulative average.

CAST-INDG 4051H: Transforming Settler Consciousness: Complexities, Challenges, and Possibilities (see Indigenous Studies)
» CAST-POST 4055H: Contemporary Canadian Problems (see Political Studies)
» CAST-HIST 4061H: Trudeau’s Canada (see History)
» CAST-HIST 4071H: Public History I (see History)
» CAST-POST 4081H: Canadian Politics and Public Policy (see Political Studies)
» CAST-POST 4082H: Federal and Provincial Power in Canada (see Political Studies)
» CAST-HIST 4100Y: Topics in Canadian History (see History)
» CAST-INDG 4150Y: Kanonhsionni’on:we: The Longhouse of One Family (see Indigenous Studies)
» CAST-ANTH-INDG 4155H: Great Lakes Archaeology (Sc) (see Anthropology)
» CAST-HIST-WMST 4160Y: Canadian Women’s History (see History)
» CAST-HIST 4200Y: Canadian Images
Explores ways of seeing, understanding, and representing Canada and its cultures in visual media, including, for example, painting, photography, the graphic arts, and video art. Analysis is nested in the traditions of Canadian art history and the international literature on theories of visual culture. Prerequisite: 14.0 university credits.
» CAST-CUST-FREN 4229Y: Science-fiction et fantastique québécois / Quebec Science Fiction and Fantasy (see French & Francophone Studies)
» CAST-IDST-POST 4240Y: Canada, Globalization, and International Development (see International Development Studies)
» CAST-POST-WMST 4431H: Growing Gap: Gender (In)Justice in Canada (see Gender & Women’s Studies)
» CAST-GEOG-SAFS 4444H: Rural Community Sustainability (see Geography)
» CAST-POST 4460H: Security, Surveillance, and the Making of the Contemporary Canadian State
“Peace, order, and good government” is a cornerstone of Canadian Confederation and legislative practice. In times of emergency, governments can transgress the rights of citizens in the effort to protect them—from themselves. The central concern for this course is to examine what is at stake for citizens when a State exerts its power to maintain the “peace.” Prerequisite: 14.0 university credits.
» CAST-ENGL 4500Y/4501H: Advanced Studies in Canadian Literature (see English Literature)
» CAST-ENGL 4503H: Advanced Studies in Early Canadian Writing (see English Literature)
» CAST-FREN 4520Y: Montréal (see French & Francophone Studies)
» CAST-SOCI-WMST 4551H: Gender and Disability in Canada
Explores how difference—especially who is labelled “different”—changes according to social, political, and cultural factors and interests. We focus on disability and its intersection with other identity-based categories, including gender, race, and sexuality. Readings come from Canadian literature and film, critical theory, social policy, and the mass media. Prerequisite: 14.0 university credits. Excludes CAST-SOCI-WMST 4550Y.
» CAST-GEOG-POST 4555H: City, Economy, and Society: Urban Restructuring and the Global Economy
Focuses on contemporary issues facing Canadian cities in comparative perspective. It locates cities within the global circuit of capital, examines the ways in which cities are being reordered to enhance their global competitiveness and standing, and analyzes the effects of restructuring on communities and the struggles for social justice. Prerequisite: 14.0 university credits.
   An exploration of space/law in the making of Canadian identity. Prerequisite: 14.0 university credits. Excludes CAST-GEOG-POST 3621H.

» **CAST-ERST-HIST 4670H: Environmental History (see Environmental & Resource Science/Studies)**

» **CAST-HIST-POST 4772H: Canadian Social Policy, 1951–Present**
   Examines the evolution of social policy from the mid-twentieth century to the present, including governmental, professional, and organizational responses to poverty, health care, old age, children's rights, mental illness, physical disability, family fragmentation, and caregiving. Prerequisite: 14.0 university credits. Excludes CAST-HIST-POST 4770Y.

» **CAST 4810Y, 4811H, 4813H: Community-Based Research Project**
   Students are placed in research projects with community organizations in the Peterborough or Haliburton area. Each placement is supervised jointly by a faculty member and a representative of a community organization. For details see Community-Based Research Program (p. 429). Prerequisite: 14.0 university credits and a minimum 75% cumulative average.

» **CAST 4850Y, 4851H: Field Course**
   A structured course of supervised activity in the field, including detailed written work. Arrangements to be made through the chair.

» **CAST 4900Y, 4901H, 4903H: Reading Course**
   A structured course arranged between student and instructor, approved by the chair, involving independent study of material. Regular meetings and detailed written work. See program website for details and requirements.

» **CAST-WMST 4951H: Special Topic: Canadian Childhoods Today**
   Examines Canadian childhoods from the 1960s to the present. Topics include theories and constructions of childhood, sport and recreation, consumer cultures, technology's impacts, health, images and literary representations, gender and sexualities, resistances and rebellions, Indigenous experiences, and work. Prerequisite: 14.0 university credits or permission of the instructor.

» **CAST-HIST 4960Y: Ordinary (Canadian) Lives: Autobiography, Orality, and Local History**
   Through autobiography and oral data relative to "place," this course explores the transformative processes at work in the creation of a multicultural society, principally the revitalizing consequences inherent in immigration and migration to a new place, the role of resistance, and the persistence of cultural practices in that national formulation. Prerequisite: 14.0 university credits.

» **CAST-HIST 4970Y/4971H: Canada Since 1945**
   Examines the history of Canada since the Second World War with an emphasis on political history. Topics include the post-World War II economic boom, the social transformations of the long 1960s, Quebec and English Canadian nationalism, Americanization, and the policies of key prime ministers including St. Laurent, Diefenbaker, Pearson, Trudeau, and Mulroney. Mandatory weekend retreat/workshop in September. Prerequisite: 14.0 university credits. Students may take only one of CAST-HIST 4970Y or 4971H for credit.
Chemical Physics

Program Coordinators

Chair of the Department of Chemistry
A. J. Vreugdenhil, BSc (Queen’s), PhD (McGill)

Chair of the Department of Physics & Astronomy
R. Wortis, BSc (Harvard), MSc, PhD (Illinois)

Professors
See faculty listings in Chemistry, Mathematics, and Physics & Astronomy

The Chemical Physics program is designed for students who are interested in the study of the physics and physical chemistry of molecular and atomic-scale systems, and condensed matter. Course emphasis is on the physics and physical chemistry of atomic, molecular, and bulk systems, as well as the mathematical techniques and approaches needed to do quantitative work in these areas. A Chemical Physics education at Trent involves working closely with faculty and staff in formal lecture and informal laboratory and tutorial/workshop settings. Students enrol in either a General or an Honours program. Honours research projects offer an opportunity for students to obtain first-hand experience in modern chemical physics research design and methods.

Bachelor of Science Program in Chemical Physics

- In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).
- The Chemical Physics program is a sequence of courses that compose an integrated whole and are offered by the Departments of Chemistry, Mathematics, and Physics & Astronomy. For information on individual courses see Calendar entries for these departments.
- 60% or higher in MATH 1120H is required for upper-level Physics courses; MATH 1350H is a prerequisite for upper-level Mathematics courses.

The single-major Honours program. 20.0 credits including the following 14.0 credits:
- 3.0 CHEM credits consisting of CHEM 1000H, 1010H, 2500H, 3520H, 4500H, and 4515H
- 4.0 PHYS credits consisting of PHYS 1001H, 1002H, 2610H, 2620H, 3200Y, 3610H and 4610H
- 3.0 MATH credits consisting of MATH 1110H, 1120H, 2110H, 2120H, 2150H, and 3150H
- 0.5 COIS credit consisting of COIS 1020H
- 1.0 CHEM credit from CHEM 3120H, 4220H, 4400H, 4500H, 4520H, or 4515H
- 0.5 CHEM, PHYS, or MATH credit at the 2000 level or beyond in addition to the above
- 11.0 science credits are required for the General degree

Associate Professor and Chair of the Department
A. J. Vreugdenhil, BSc (Queen’s), PhD (McGill)

Professors
H. Hintelmann, BSc, PhD (Hamburg)
S. Narine, BSc, MSc (Trent), PhD (Guelph)
J. M. Parnis, BSc, PhD (Toronto)
S. P. Rafferty, BSc (Waterloo), PhD (British Columbia)
I. Svishchev, MSc (Moscow State), PhD (USSR Academy of Sciences)
D. Wallschläger, MSc (Bochum), PhD (Bremen)

Associate Professor
D. A. Ellis, BSc (Glasgow), MSc (Aberdeen), MSc, PhD (Toronto)

Senior Lecturer
T. Stotesbury, BSc (Trent), MSc (Auckland), PhD (Trent)

Adjunct Faculty
B. Georg, MSc (Muenster), DSc (ETH Zurich)
M. Johansson, MSc, PhD (Lund)
J. Shipley, MD, HBSc, FCFP, CCFP (EM) (FPA)
N. Stock, BSc (Waterloo), MSc (Guelph), PhD (Toronto)

Chemistry is the central discipline of science, with interdisciplinary links to all other physical and life science disciplines. The Chemistry Department offers a comprehensive range of courses in the fundamentals of analytical, biochemical, environmental, inorganic, organic, and physical chemistry. Upper-level courses include study in advanced fundamentals, as well as computational, bio-inorganic, and materials chemistry. Chemistry education at Trent involves working closely with faculty and staff in formal lecture and informal laboratory and tutorial/workshop settings. Students enrol in either a General or an Honours program. Many students in the Honours program choose to do a research project in which they obtain first-hand experience in modern chemical research design and methods.

Notes
• A 4U Chemistry or equivalent is a prerequisite for CHEM 1000H and 1010H. Students without this prerequisite should contact the departmental office for advice prior to the opening of registration in the spring.
• All students taking Chemistry courses that have a laboratory component will be expected to pay for breakage of equipment and/or glassware on a per-item basis, billed monthly to their student account.
• The single-major Honours degree program in Chemistry is accredited by the Canadian Society for Chemistry.
• For the Biochemistry & Molecular Biology, Environmental Chemistry, and Chemical Physics programs, see the relevant sections of the Calendar.
Bachelor of Science Program in Chemistry

- In addition to the program requirements listed below, students must satisfy the University degree requirements (see p.14).
- The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.
- A maximum of 2.0 credits may be taken in Chemistry project courses (CHEM 4010Y, 4011H, 4012H, 4020D, 4030Y, 4031H, 4032H, 4040D).
- No more than 2.0 credits from thesis or project courses may be counted toward any degree offered wholly or jointly by the Chemistry Department.

The single-major Honours program. 20.0 credits including the following 14.0 credits:
- 5.0 CHEM credits consisting of CHEM 1000H, 1010H, 2100H, 2110H, 2200H, 2300H, 2400H, 2500H, 3200H, and 3520H
- 0.5 CHEM credit from CHEM 3400H or 3410H
- 2.0 CHEM credits at the 3000 level in addition to the above
- 3.0 CHEM credits at the 4000 level, including at least 1.5 credits in lecture courses
- 1.0 science credit at the 4000 level or 1.0 CHEM credit at the 3000 level or beyond in addition to the above
- 1.0 PHYS credit consisting of PHYS 1001H and 1002H
- 1.0 MATH credit from MATH 1110H and 1120H; or from MATH 1005H and one of MATH 1350H or 1550H
- 0.5 MATH or COIS credit in addition to the above (excluding MATH 1001H and 1080H)

The joint-major Honours program. 20.0 credits including the following 8.5 credits:
- 2.5 CHEM credits consisting of CHEM 1000H, 1010H, 2100H, 2400H, and 2500H
- 0.5 CHEM credit at the 2000 level in addition to the above
- 2.0 CHEM credits at the 3000 level
- 2.0 CHEM credits at the 4000 level
- 1.0 MATH credit from MATH 1110H and 1120H; or from MATH 1005H and one of MATH 1350H or 1550H
- 0.5 MATH or COIS credit in addition to the above (excluding MATH 1001H and 1080H)
- 14.0 science credits are required for the Honours degree

The single-major General program. 15.0 credits including the following 7.0 credits:
- 3.5 CHEM credits consisting of CHEM 1000H, 1010H, 2100H, 2110H, 2400H, 2500H, and 3520H
- 2.0 CHEM credits at the 3000 level in addition to the above
- 0.5 CHEM credit in addition to the above
- 1.0 MATH credit from MATH 1110H and 1120H; or from MATH 1005H and one of MATH 1350H or 1550H
- 11.0 science credits are required for the General degree
The joint-major General program. 15.0 credits including the following 6.0 credits:
- 2.5 CHEM credits consisting of CHEM 1000H, 1010H, 2100H, 2400H, and 2500H
- 0.5 CHEM credit at the 2000 level in addition to the above
- 2.0 CHEM credits at the 3000 level
- 1.0 MATH credit from MATH 1110H and 1120H; or from MATH 1005H and one of MATH 1350H or 1550H
- 11.0 science credits are required for the General degree

The minor in Chemistry consists of the following 5.0 credits:
- 1.0 CHEM credit consisting of CHEM 1000H and 1010H
- 2.0 CHEM credits at the 2000 level
- 2.0 CHEM credits at the 3000 level

Please consult the academic timetable for information on courses that will be offered in 2019–2020, including when they will be scheduled.

» CHEM 1000H: Introductory Chemistry I (Sc)
Essential aspects of general, molecular, and intermolecular chemistry. Topics include atomic structure, bonding, equilibrium, acids-bases, gases, liquids, solutions, and the solid state. Emphasis is on the relation between molecular and physical properties. Prerequisite: 4U Chemistry or equivalent or permission of instructor (see notes).

» CHEM 1010H: Introductory Chemistry II (Sc)
Essential aspects of physical, inorganic, organic, and biological chemistry. Topics include redox chemistry, kinetics, thermodynamics, and an introduction to inorganic, environmental, organic, and biological chemistry. Prerequisite: CHEM 1000H or equivalent, or permission of instructor (see notes).

» CHEM 2100H: Introductory Organic Chemistry I (Sc)
An introduction and overview of organic compounds and reactions within synthetic methodology are presented for alkanes, alkenes, alkynes, and alkyl halides. The concepts of stereochemistry are introduced. The driving force behind reactions is examined. Prerequisite: CHEM 1000H and 1010H.

» CHEM 2110H: Introductory Organic Chemistry II (Sc)
The thermodynamics and kinetics pertaining to mechanistic organic chemistry are investigated with case example classes of compounds. The application and theory of MS, IR, UV, and NMR spectroscopy in the structural determination of organic compounds are introduced. Prerequisite: CHEM 2100H.

» CHEM 2200H: Transition Metal Chemistry (Sc)
The bonding and structure of coordination compounds of the d-block transition metals; mechanisms of ligand exchange and redox reactions; physical and chemical properties of d-block elements. Prerequisite: CHEM 2500H.

» CHEM-BIOL 2300H: Biochemical Concepts (Sc)
Introduces key molecules and concepts in biochemistry. Topics include the properties of water, the thermodynamics of biological systems, and the behaviour of biomolecules in water. Focuses on each of the four major classes of biomolecules—proteins, nucleic acids, carbohydrates, and lipids—as they apply to biological systems. Prerequisite: CHEM 1000H and 1010H.
CHEM 2400H: Analytical Chemistry (Sc)
The theory and practice of chemical analysis including dealing with chemical data, wet chemical techniques, electrochemistry, instrumental methods, and separations. Prerequisite: CHEM 1000H and 1010H.

CHEM 2500H: Elements of Physical Chemistry: Quantum Mechanics and Reaction Kinetics (Sc)
An introduction to the properties of atoms and molecules, and the theory and practice of chemical reaction kinetics. Prerequisite: Both CHEM 1000H and 1010H and one of MATH 1120H or 1005H.

CHEM-ERSC 2610H: Atmospheric Environmental Chemistry (Sc)
Designed for students who have taken general chemistry, this course explores and discusses topics such as the greenhouse effect, chemistry of the ozone layer, air pollution, photochemical smog, and acid rain. Prerequisite: CHEM 1000H and 1010H. Excludes CHEM-ERSC 2600Y.

CHEM-ERSC 2620H: Aquatic Environmental Chemistry (Sc)
Exposes the main chemical principles that govern environmental processes in natural waters such as rivers, lakes, estuaries, and oceans. Includes the chemical composition of aquatic systems and the behaviour of aqueous pollutants such as metals and pesticides. Prerequisite: CHEM 1000H and 1010H. Recommended: CHEM-ERSC 2610H. Excludes CHEM-ERSC 2600Y.

CHEM 3102H: Advanced Synthetic Organic Chemistry (Sc)
The structure, reactivity, and synthesis of biologically and industrially important organic molecules are considered. Particular emphasis is placed upon oxygen, sulfur, and nitrogen organic functional group chemistry. The thermodynamics and kinetics of reaction mechanisms of these functional groups are considered. Prerequisite: CHEM 2100H and 2110H. Excludes CHEM 3100Y.

CHEM 3110H: Advanced Synthetic Organic Chemistry: Biological Applications (Sc)
Biologically important reaction pathways that are employed in the synthesis of organic molecules are considered. Particular emphasis is placed upon the chemistry of carbonyl compounds and amines. An introduction to the organic chemistry of metabolic pathways, including pericyclic reactions, is provided. Prerequisite: CHEM 3102H. Excludes CHEM 3100Y.

CHEM 3120H: Computational Chemistry (Sc)
Theory and application of molecular mechanics, semi-empirical and ab initio methods in the investigation of molecular structure, properties, and reactivity. Includes a computer lab component using modern research-level software. Prerequisite: CHEM 2500H, 2100H, and 2110H. Excludes CHEM 4120H.

CHEM 3200H: Chemistry of the Main-Group Elements (Sc)
Structure and bonding in compounds of the main group elements, including symmetry, correlation of physical and chemical properties with electronic structure, crystalline solids, and band theory. Qualitative comparison of the second-row elements with the heavier elements in the group. Prerequisite: CHEM 2200H and 2500H.

CHEM-BIOL 3310H: Protein Chemistry and Enzymology (Sc)
The structure and function of proteins, key protein biophysical methods, and enzyme mechanisms are treated in detail. Students use web-based resources such as ExPASy and the Protein Data Bank, and gain practical laboratory experience in bioseparations and the determination of enzyme rate parameters. Prerequisite: CHEM-BIOL 2300H and one of CHEM 2100H or 2110H.

CHEM-BIOL 3320H: Metabolism (Sc)
The key topics are biological processes that produce and use high-energy biomolecules. These include membrane transport, multienzyme pathways, and their regulation. With their skills acquired in CHEM-BIOL 3310H, students are given more freedom for independent laboratory work in devising and executing their own enzyme purification scheme. Prerequisite: CHEM-BIOL 3310H. Excludes CHEM-BIOL 3300H.
» **CHEM-ERSC-FRSC 3400H: Chromatography (Sc)**
Theory and practice of chromatography, sampling, and quality control. Particular emphasis is placed on applications in environmental analysis. Prerequisite: CHEM 2400H.

» **CHEM-ERSC-FRSC 3410H: Methods of Spectral Analysis (Sc)**
Modern analytical spectroscopic instrumentation, techniques, and application to the analysis of organic, inorganic, and biochemical contaminants with a particular focus on the forensic and environmental fields are addressed. Prerequisite: CHEM 2400H. Strongly recommended: CHEM 2100H and 2110H.

» **CHEM 3520H: Elements of Physical Chemistry: Thermodynamics (Sc)**
An introduction to thermodynamics: the First and Second Laws. The properties of gases, thermochemistry, and principles of chemical equilibrium. Phase diagrams of typical materials. Prerequisite: Both CHEM 1000H and 1010H and one of MATH 1120H or 1005H. Excludes CHEM 2510H.

» **CHEM-ERSC 3600H: Aqueous Environmental Geochemistry (Sc)**
Focuses on the inorganic processes and on the chemistry at the terrestrial-aquatic interface. The principles and applications of chemical weathering, adsorption-desorption, and redox reactions are particularly emphasized. Combines theory and environmental applications. Prerequisite: Both CHEM-ERSC 2610H and 2620H; and either CHEM 2400H or both ERSC 2220H and 2230H.

» **CHEM-ERSC 3610H: Ocean and River Chemistry (Sc)**
Focuses on the parameters controlling the natural water chemistry in surface and subsurface systems. These key processes involve chemical reactions and kinetics, pH control of equilibria, chemical speciation, and photochemical processes. Combines theory and environmental applications. Prerequisite: CHEM-ERSC 2620H; and either CHEM 2400H or both ERSC 2220H and 2230H. Recommended: CHEM-ERSC 3600H.

» **CHEM-FRSC 3720H: Advanced Topics in Forensic Chemistry (Sc) (see Forensic Science)**

» **CHEM 4010Y, 4011H, 4012H: Project Course in Chemistry (Sc)**
Study, usually involving experimental research, under the supervision of a faculty member; includes two seminars and a written thesis. At least eight hours per week. Pre- or co-requisite: Two Chemistry lecture half-courses at the 4000 level; an average of 75% in all previous Chemistry courses; and permission of instructor. Contact coordinator as soon as possible and no later than the end of the preceding Winter term.

» **CHEM 4020D: Project Course in Chemistry (double credit) (Sc)**
Approximately 16 hours per week; otherwise, as CHEM 4010Y. Pre- or co-requisite: Two Chemistry lecture half-courses at the 4000 level; an average of 75% in all previous Chemistry courses; and permission of instructor.

» **CHEM 4030Y, 4031H, 4032H: Project Course in Biochemistry (Sc)**
Study, usually involving experimental research, under the supervision of a faculty member; includes two seminars and a written thesis. At least eight hours per week. Pre- or co-requisite: Two CHEM or BIOL lecture half-courses at the 4000 level; an average of 75% in all previous Chemistry courses; and permission of the instructor. Contact coordinator as soon as possible and no later than the end of the previous Winter term. Only available to students who are pursuing the Biochemistry & Molecular Biology degree and may not be combined with more than 1.0 credit in a project course in any other discipline.

» **CHEM-BIOL 4040D: Project Course in Biochemistry (double credit) (Sc)**
At least 16 hours per week; otherwise as CHEM 4030Y. May not be combined with any other project courses for credit toward the Biochemistry & Molecular Biology degree. Prerequisite: An average of 75% in all previous Chemistry courses and permission of instructor.
» CHEM 4110H: Medicine and Chemistry: The Design, Synthesis, and Analysis of Drugs (Sc)  
Medicinal and pharmaceutical chemistry are highly interdisciplinary areas of practical and applied chemistry that are adjoined with chemical and structural biology and flank areas such as biochemistry, molecular biology, pharmacology, toxicology, and veterinary and human medicine. This course presents the design, synthesis, and analysis of pharmaceutical and bio-active molecules. Prerequisite: CHEM 3102H and 3110H.

» CHEM 4140H: Polymeric Materials (Sc)  
Polymers are one of the most far-reaching chemical developments in everyday life. This course explores the chemistry of polymer materials including their synthesis, characterization, and applications, with a focus on the major classes of polymers and recent advances in polymer materials. Prerequisite: CHEM 2100H and 2110H.

» CHEM 4200H: Organometallic Chemistry (Sc)  
Chemistry of organic and inorganic ligands at metallic centres, including the carbon-metal bond, catalysis, organic ligand transformations, and reactions at metallic centres. Prerequisite: CHEM 2200H.

» CHEM 4220H: Inorganic Materials (Sc)  
Structure and bonding theory in inorganic molecules is expanded for extended structures (clusters and solids). Topics include band structures in metals, semiconductors, and insulators; superconductors and nanoscale materials. Prerequisite: CHEM 3200H or both CHEM 2200H and 4200H.

» CHEM-BIOL 4300H: Bioinorganic Chemistry (Sc)  
The essential biological roles of metals are usually acknowledged but seldom discussed in most biochemistry courses. Includes an introduction to coordination chemistry and a survey of the roles of metals in enzyme catalysis, oxygen transport, photosynthesis, cell mobility, gene expression, and environmental toxicity. Prerequisite: CHEM-BIOL 3310H and 3320H; or CHEM 2200H and CHEM-BIOL 2300H.

» CHEM-BIOL 4310H: Current Topics in Biochemistry (Sc)  
A survey of the questions that are of greatest interest to biochemists. Relies extensively on reading and understanding primary literature sources published within the last four years. Students give presentations in class as part of the course evaluation. Prerequisite: CHEM-BIOL 3310H and 3320H.

» CHEM 4400H: Mass Spectrometry (Sc)  
An introduction to the principles and modern applications of mass spectrometry in chemical analysis. Topics include fundamentals of ion chemistry, ionization techniques, mass-analyzer and detector design, and applications of hybrid and tandem instrumental design in analytical and organic chemistry and biochemistry. Prerequisite: CHEM 2500H.

» CHEM-ERSC 4410H: Fundamentals and Applications of ICP-MS (Sc)  
Theory of spectrometric techniques for elemental analysis. Students become acquainted with the current literature and research in analytical/environmental chemistry. Prerequisite: CHEM-ERSC 3400H or 3410H or permission of instructor.

» CHEM 4430H: Applications of NMR Spectroscopy (Sc)  
Focuses on the practical employment of NMR within organic, biochemical, and environmental fields. Provides a review of the basic theory and instrumentation of NMR, introduces simple 1D, followed by more complex 2D and 3D spectral acquisition and interpretation techniques, and includes heteronuclear elements. Prerequisite: CHEM 2100H, 2110H, and 2500H. Highly recommended: CHEM 3410H. Excludes CHEM 4130H.
» CHEM 4500H: Photochemistry (Sc)
Introduction to theory and practice of photochemistry. Topics include interaction of matter with light, unimolecular decomposition, energy transfer processes, photochemical activation, and organic photochemistry, as well as applications in environmental and industrial processes. Prerequisite: CHEM 2500H.

» CHEM 4515H: Chemical Thermodynamics and Reaction Kinetics (Sc)
Modern chemical thermodynamics and kinetics. Introduction to statistical thermodynamics: molecular interpretation of entropy and internal energy. Reaction rate theories: gas phase and solution reaction dynamics. Prerequisite: CHEM 2500H, CHEM 3520H, and MATH 1120H; or permission of instructor. Recommended: MATH 2110H and 2120H. Excludes CHEM 3510H.

» CHEM 4520H: Principles of Water Science and Technology (Sc)
Designed for students whose main background is in chemistry, this course is an expanded study of the unique properties and role of water in nature and technology. Topics include essential properties of water and aqueous mixtures, chemistry behind clean drinking water, municipal wastewater treatment, water chemistry in power generation systems. Prerequisite: One of CHEM 2500H or 3520H or both CHEM-ERSC 2610H and 2620H.

» CHEM-FRSC 4710H: Molecules of Murder (Sc)
Provides a chemical perspective of molecules related to death and poisoning found in contemporary contexts. We explore a range of natural and synthetic molecules and how they are integrated into the applied analytical studies of decomposition, bodily fluid identification, contemporary toxicology, and other specialized topics in forensic chemistry. Prerequisite: CHEM 2110H, 2300H, and 3400H.

» CHEM 4900Y, 4901H, 4902H: Reading Course (Sc)
Topics from one of the following fields: analytical chemistry, biochemistry, inorganic chemistry, organic chemistry, physical chemistry, and theoretical chemistry. Project work outside the laboratory may be involved. Offered only by prior arrangement through department office.
Child & Youth Studies

trentu.ca/durham

Senior Lecturer and Program Coordinator
A. Agostino, BA, MA, PhD (York)

Associated Faculty
S. Brown, English Literature; C. Bruce, Education; K. Buccieri, Sociology; N. Im-Bolter, Psychology; B. Niblett, Education; K. Pendleton Jiménez, Education, Gender & Women’s Studies; P. Sherman, Indigenous Studies

A unique interdisciplinary degree program, Child & Youth Studies focuses on how children and youth learn through play. With strong foundations in sociology, psychology, education, and the humanities, this degree will inspire students to think about child and youth development through the eyes of a child. Students will learn about child and youth rights and legal issues, and how children develop emotionally, socially, artistically, intellectually, and physically. Students will also gain a deep understanding of how to apply playful pedagogies for learning.

Notes
• Students pursuing a joint-major degree in Child & Youth Studies and a discipline other than Psychology or Sociology are advised to plan course selection carefully to ensure the requirements can be met within the chosen program.
• This program is offered only at Trent University Durham – GTA.
• A limited number of spaces in Trent University’s Consecutive Bachelor of Education program are reserved each year for students in the Honours program in Child & Youth Studies. To be considered, students must make an application through the Teacher Education Application Service (ouac.on.ca/tea). The top six students who have a minimum average of 75% or higher on their last 10.0 credits at time of application, and who meet all Child & Youth Studies and undergraduate degree requirements, will be offered guaranteed admission to the BEd program at Trent. Child & Youth Studies students who do not meet the above criteria are still encouraged to apply and will be considered for admission on an individual basis.

Bachelor of Arts Program in Child & Youth Studies
• In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).
• The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.
• For students in a joint major with Sociology, SOCI 2151H is equivalent to CHYS 2000H for program requirements, but does not count as a Child & Youth Studies credit. Students who have successfully completed SOCI 2151H are not permitted to take CHYS 2000H, but must substitute another CHYS course at the 2000 level or beyond in order to fulfill degree requirements.

The single-major Honours program. 20.0 credits including the following 9.0 credits:
– 1.5 CHYS credits at the 3000 level in addition to the above
– 1.0 CHYS credit at the 4000 level
– 1.5 PSYC credits consisting of PSYC 1020H, 1030H, and 3500H (or 2500H)
– 1.0 SOCI credit consisting of SOCI 1001H and 1002H
– 0.5 WRIT credit consisting of WRIT 1001H
The joint-major Honours program. 20.0 credits including the following 8.0 credits:
- 1.0 CHYS credit at the 3000 level in addition to the above
- 1.0 CHYS credit at the 4000 level
- 1.0 PSYC credit consisting of PSYC 1020H and 1030H
- 1.0 SOCI credit consisting of SOCI 1001H and 1002H
- 0.5 WRIT credit consisting of WRIT 1001H

The single-major General program. 15.0 credits including the following 6.5 credits:
- 0.5 CHYS credit at the 3000 level in addition to the above
- 1.0 PSYC credit consisting of PSYC 1020H and 1030H
- 1.0 SOCI credit consisting of SOCI 1001H and 1002H
- 0.5 WRIT credit consisting of WRIT 1001H

Please consult the academic timetable for information on courses that will be offered in 2019–2020, including when they will be scheduled.

» CHYS 1000H: Introduction to Child and Youth Studies
Provides an introduction to the field of child and youth studies. Key topics discussed include the history of childhood, theories of children and youth, the home and family, socialization, representations in the mass media, victimization and protection, child care and education, race/ethnicity, family disruptions, and living in poverty.

» CHYS 1001H: Child and Youth: Theory and Voice
Students explore child and youth studies theory in relation to the experiences of children and youth represented in literature and popular culture. Students work on critical literacy skills as they learn to locate their own biographies and biases, and develop their voices within the theoretical landscape.

» CHYS 1002H: Playful Pedagogy
Provides an introduction to how we consider creative engagement, and how children play with simple and complex ideas such as family and belonging; citizenship and collaboration; identity and emotional development; cognition and intellectual development; playing with math ideas, language and literature; and fantasy play and the imagination.

» CHYS-CCTH 2000H: Introduction to Research Methods
Offers an introduction to research design and methods. Covers a broad spectrum of research methods so that students will understand the predominant research practices within the fields of social studies and the humanities. Prerequisite: 1.0 CHYS or CCTH credit. Excludes SOCI 2151H.

» CHYS 2001H: Child and Youth Rights and Legal Issues
Surveys legal issues and the Canadian legal framework as they intersect with and impact the lives of children and youth. Rights and obligations with respect to education, criminal justice, health care, discipline, child protection, and custody are among legal areas reviewed and discussed. Prerequisite: 1.0 CHYS credit.

» CHYS 2003H: Children: Learning Through the Arts
Taking an interdisciplinary approach, this course examines child development within the areas of music, creative movement, the visual arts, drama, and language arts. Prerequisite: 1.0 CHYS credit.
» **CHYS-INDG 2006H: Indigenous Knowledge for Children and Youth (ICR)**
Students have the opportunity to explore how Indigenous knowledge informs child and youth development, learning, relationships, and care. Course content draws upon decolonizing theories and methodologies, epistemologies of the land, oral storytelling traditions, and contemporary art and culture. Prerequisite: 4.0 university credits.

» **CHYS 3001H: Case Studies of Professional Ethics and Risk Management**
Through lecture- and problem-based learning, this course examines risk management and ethical issues relating to children and youth. Topics discussed include professional relationships, working with diverse communities, assessing risk, and self-care. Students are asked to reflect on how professional practice is situated within a wider social context. Prerequisite: 7.0 university credits including 60% or higher in CHYS 2001H.

» **CHYS 3002H: Playful Contexts of Children, Youth, and Learning**
Children and youth learn in a wide range of formal and informal settings. Contexts to be examined include immediate surroundings (e.g., home, school, neighbourhood) and extended environments (e.g., museums, nature, technology-mediated settings). This course inquires into the many contexts of play and the learning generated from engaging in play activities. Prerequisite: 7.0 university credits.

» **CHYS 3003H: Arts: Theory to Practice**
Participants in this course use an interdisciplinary approach to examine child development within the areas of the arts. Students learn how to empower children as creative individuals. The critical role played by the arts in cognitive and social-emotional development and in creating community is also examined. Prerequisite: 7.0 university credits.

» **CHYS 3005H: Imagination in Child and Youth Culture**
Explores imagination’s crucial part in developing empathy and thus moral and ethical comprehension through the various media that comprise the child and youth’s cultural environment, including songs, poems, plays, stories, film, television, and games. Prerequisite: 7.0 university credits.

» **CHYS 3007H: Children’s Knowledge of Death, Dying, and Bereavement**
Designed to provide a comprehensive introduction to theories and empirical findings on children and youth’s understanding of death, dying, and bereavement. The course explores a range of current topics such as suicide, bereavement theories, and the needs of dying children and youth. Prerequisite: 7.0 university credits.

» **CHYS 3880H: Career Development Through Community Service Learning**
Provides students with the necessary foundations for career development and future planning. A focus is placed on professional and personal preparedness for individuals seeking work-integrated learning opportunities such as field placements, capstone projects, and community-based research. Prerequisite: A minimum 70% cumulative average, 10.0 university credits, and for non-Child & Youth Studies majors, permission of the course administrator.

» **CHYS 4000H: Contemporary Issues in Child and Youth Studies**
Provides a critical perspective on contemporary issues, policy, and practice relating to children and youth. Topics explored include child poverty, immigrant and refugee youth, consumerism, racism, advocacy, sexuality, and gender issues. Students reflect on how the lives of young people are shaped by intersecting social factors. Prerequisite: 12.0 university credits including 1.5 CHYS credits at the 3000 level.

» **CHYS-PLCW 4001H: Youth Offending and Youth Justice**
Students are introduced to various topics relating to youth justice in Canada. We examine how young offenders have been constructed and responded to over time, with a focus on the Youth Criminal Justice Act. Special issues addressed include youth gangs, Indigenous youth, criminalized girls, homelessness, and restorative justice. Prerequisite: 12.0 university credits including 1.5 CHYS credits at the 3000 level or 1.5 PLCW credits at the 3000 level.
» CHYS 4003H: Inclusion and Diversity in Children and Youth
Students explore the construction of disability in children and youth. Topics include historical and current state of inclusion and belonging in a variety of formal and informal play contexts, social and medical models of disability, and the role of universal design and universal design for creating equitable play opportunities. Prerequisite: 12.0 university credits including 1.5 CHYS credits at the 3000 level.

» CHYS 4800Y: Independent Research Studies
Students have the opportunity to apply the theoretical and practical concepts acquired throughout the Child & Youth Studies program through an advanced review and critical analysis of research literature as it applies to an area of personal interest. Prerequisite: 12.0 university credits including 60% or higher in CHYS 2000H and a minimum 65% average in completed CHYS courses. Open only to Child & Youth Studies majors.

» CHYS 4880H, 4881H: Placement—Field Based Learning
This placement allows students the opportunity to gain practical experience in settings such as foster homes, shelters, residential treatment facilities, and community outreach programs. During the placement, coursework lends support to the field experience. Prerequisite: 12.0 university credits including 70% or higher in CHYS 3001H and a minimum 65% average in completed CHYS courses. Open only to Child & Youth Studies majors.
The Trent School of the Environment offers a unique online diploma for students who wish to undertake a single academic year of study (September to April) focused upon the landscape, peoples, and contemporary issues of concern in the Circumpolar world. Students study of the Circumpolar region from a variety of interdisciplinary perspectives. Introductory courses begin with the examination of the geography, history, and biophysical and physical systems of the Sub-Arctic and Arctic regions. The diploma curriculum then turns to the Indigenous and contemporary peoples of the region, traditional economies and knowledge, governance systems, human security issues, and overall questions of economic development, cultural resilience, and environmental sustainability.

**Eligibility**
Applicants must either be students registered in, or graduates of, an accredited post-secondary educational institution normally other than Trent University. An official transcript, including evidence of the content of courses completed and grades received, must accompany the application. Application to the diploma program should be made to the Ontario Universities’ Application Centre at [ouac.on.ca](http://ouac.on.ca).

Only students enrolled in the diploma program may obtain the diploma. Trent students enrolled in a degree program may choose to complete the Option in Circumpolar Studies (see p. 404).

**Language Requirements**
In accordance with University regulations, applicants must have a competence in written and spoken English.

**The Diploma**
The diploma is awarded in the spring along with a Trent University transcript identifying all courses undertaken and grades received. Upon successful completion of the diploma, students may apply for admission to an undergraduate degree program at Trent University. Credits earned in the diploma program are transferable to a degree.

**Courses**
- Students must obtain a minimum cumulative average of 60% in the courses in the program to qualify for the diploma.
- See Geography, Canadian Studies, Environmental & Resource Science/Studies, and Indigenous Studies for individual course descriptions.

**The Diploma in Circumpolar Studies** consists of the following 5.0 credits:
- 2.5 GEOG credits consisting of GEOG 1045H, 2320H, 2330H, 3390H, and 3640H
- 1.0 CAST credit consisting of CAST 3241H and 3243H
- 0.5 ERST credit consisting of ERST 3740H
- 1.0 INDG credit consisting of INDG 3745H and 3750H
Communications & Critical Thinking

trentu.ca/durham

Program Coordinator
To be named

Associate Professor
S. Henderson, BA (Trent), MA, PhD (East Anglia)

Exclusive to Trent University Durham – GTA, this program prepares students for long and satisfying careers in a variety of fields. Communications & Critical Thinking encourages students to develop and refine durable and transferable skills, prized by a variety of employers. By combining a few required courses—in project management, writing, research, and numeracy, for example—with ones (selected by students themselves) from other programs, students will learn to become creative, logical, and integrative thinkers and expert communicators.

The Communications & Critical Thinking program is available as a three-year General degree or as an Option.

Notes
• Students should ensure that they have satisfied the University degree requirement for at least 4.0 credits at the 3000 level or beyond in the General program.
• There is no joint-major program, Honours program, or minor in Communications & Critical Thinking.
• For the Option in Communications & Critical Thinking, available to students enrolled in a single- or joint-major program in a different subject, see p. 405.
• This program is offered only at Trent University Durham – GTA.

Bachelor of Arts Program in Communications & Critical Thinking
• In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).

The single-major General program. 15.0 credits including the following 5.0 credits:
– 0.5 COIS credit consisting of COIS 3850H
– 0.5 PHIL credit consisting of PHIL 1200H
– 1.0 WRIT credit consisting of WRIT 1001H and 2002H
Communications & Critical Thinking

Please consult the academic timetable for information on courses that will be offered in 2019–2020, including when they will be scheduled.

- **CCTH 1000H: Happiness: An Introduction to Interdisciplinary Studies**
  This course has two aims: one, to introduce students to the burgeoning field of happiness studies; and, two, to help students understand the benefits and challenges of interdisciplinary study. We will ask the question, “What does it take to be happy?”—and answer it by reading widely in psychology, literature, sociology, economics, philosophy, and cultural studies.

- **CCTH-MATH 1080H: Math for Everyday Life (Sc) (see Mathematics)**

- **CCTH-CHYS 2000H: Introduction to Research Methods (see Child & Youth Studies)**

- **CCTH 2003H: Becoming Digital: Reading, Writing, and Creating**
  Provides students with the tools they need to navigate the changes to thought and communication that digital technology has wrought. This course not only offers insight into how technology has changed how we read and write, but also how we change with it. Students also engage in making digital media/objects they study.

- **CCTH 3000Y: Interdisciplinary Studies Capstone**
  In this project-based course, students conduct research on a specific issue or question related to the overall goals of the program. Students are expected to respond to this issue or question by synthesizing their previous learning and experience in the program. Students work in teams and with faculty members and community organizations. Prerequisite: CCTH 1000H, CCTH 2000H, and COIS 3850H; or permission of instructor.

- **COIS-ADMN 3850H: Fundamentals of Project Management (see Computing & Information Systems)**

- **PHIL 1200H: Critical Thinking (see Philosophy)**

- **WRIT 1001H: Write in Time (see General University Courses)**

- **WRIT 2002H: Write It Up: Effective Communication (see General University Courses)**
The study of computing and information systems is central to our understanding of how the world processes, manages, and communicates information. It is a field which impacts all disciplines and has redefined how we work, interact, and conduct our day-to-day lives. The Department of Computing & Information Systems offers two streams of study: Computing Systems (major, joint-major, and minor) and Information Systems (joint-major and minor). Under the Computing Systems stream, three specializations are also offered: Computer Science, Data Analytics, and Software Engineering.

The computing systems specialist designs, implements, and integrates software applications which may execute on any system of computing devices, from supercomputers to game boards. He or she uses theories, methodologies, and techniques that help ensure that the system is robust and useable. The information systems specialist, on the other hand, is concerned with the flow, storage, and access to information both within and across organizational boundaries, encompassing systems that are both computational and non-computational. He or she requires a broad systems perspective and an appreciation of both technical matters like databases, networks, and telecommunications, as well as non-technical matters such as ethics, law, and digital culture. The minor in Computer Studies offers the study of computing from a generalist point of view. This option may particularly appeal to students in the humanities, liberal arts, teacher education, or those with a general interest in computing.

Notes

• In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).
• Courses in Computing & Information Systems fulfilling University science credit requirements for the BSc are marked “Sc” in the individual course descriptions.
• The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.
• Students may not graduate with a joint-major degree in Computing Systems and Information Systems.
• Students majoring in Computing Systems and who have had some programming experience may consider enrolling in both COIS 1010H and 1020H in the Fall term to increase their options for additional COIS courses earlier in their program.
• COIS 1010H and 1020H are offered in both the Fall and Winter terms.
• Students in an Information Systems program may substitute COIS 1020H for COIS 1520H in their requirements.
• MATH 1110H and 1120H are recommended for students in a Computing Systems program who are interested in postgraduate studies.
• For the program in Computing Systems & Physics, see the relevant section of the Calendar.

Bachelor of Science Program in Computing Systems

The single-major Honours program in Computing Systems. 20.0 credits including the following 12.5 credits:
– 4.0 COIS credits consisting of COIS 1010H, 1020H, 2020H, 2240H, 2300H, 3020H, 3380H, and 3400H
– 2.0 COIS credits at the 4000 level
– 2.5 COIS credits at the 3000 level or beyond in addition to the above
– 2.0 COIS credits in addition to the above
– 1.5 MATH credits consisting of MATH 1350H, 1550H, and 2600H
– 0.5 MATH credit from MATH 1005H or 1110H
– For the BSc, 14.0 science credits are required for the Honours degree

The joint-major Honours program in Computing Systems. 20.0 credits including the following 8.5 credits:
– 3.0 COIS credits consisting of COIS 1010H, 1020H, 2020H, 2240H, 2300H, and 3400H
– 1.0 COIS credit at the 4000 level
– 1.5 COIS credits at the 3000 level or beyond in addition to the above
– 1.0 COIS credit in addition to the above
– 1.5 MATH credits consisting of MATH 1350H, 1550H, and 2600H
– 0.5 MATH credit from MATH 1005H or 1110H
– For the BSc, 14.0 science credits are required for the Honours degree

The single-major General program in Computing Systems. 15.0 credits including the following 9.5 credits:
– 3.0 COIS credits consisting of COIS 1010H, 1020H, 2020H, 2240H, 2300H, and 3400H
– 2.5 COIS credits at the 3000 level or beyond in addition to the above
– 2.0 COIS credits in addition to the above
– 1.5 MATH credits consisting of MATH 1350H, 1550H, and 2600H
– 0.5 MATH credit from MATH 1005H or 1110H
– For the BSc, 11.0 science credits are required for the General degree
**Bachelor of Arts Program in Computing Systems**

The joint-major Honours program in Computing Systems. 20.0 credits including the following 7.5 credits:
- 2.5 COIS credits consisting of COIS 1010H, 1620H, 2240H, 2300H, and 3400H
- 0.5 COIS credit from COIS 1020H or 1520H
- 0.5 COIS credit from COIS 2020H or 2620H
- 1.0 COIS credit at the 4000 level
- 1.5 COIS credits at the 3000 level or beyond in addition to the above
- 1.5 COIS credits in addition to the above

The single-major General program in Computing Systems. 15.0 credits including the following 8.0 credits:
- 2.5 COIS credits consisting of COIS 1010H, 1620H, 2240H, 2300H, and 3400H
- 0.5 COIS credit from COIS 1020H or 1520H
- 0.5 COIS credit from COIS 2020H or 2620H
- 2.5 COIS credits at the 3000 level or beyond in addition to the above
- 2.0 COIS credits in addition to the above

**Bachelor of Arts and Bachelor of Science Programs in Information Systems**

The joint-major Honours program in Information Systems. 20.0 credits including the following 7.0 credits:
- 3.5 COIS credits consisting of COIS 1010H, 1520H, 1620H, 2240H, 2620H, 3030H, and 3850H
- 0.5 COIS credit at the 4000 level
- 1.5 COIS credits at the 3000 level or beyond in addition to the above
- 1.5 COIS credits in addition to the above
- For the BSc, 14.0 science credits are required for the Honours degree, including 1.0 MATH credit

The joint-major General program in Information Systems. 15.0 credits including the following 5.0 credits:
- 2.0 COIS credits consisting of COIS 1010H, 1520H, 1620H, and 2620H
- 2.0 COIS credits at the 3000 level or beyond
- 1.0 COIS credit in addition to the above
- For the BSc, 11.0 science credits are required for the General degree, including 1.0 MATH credit
Minors in Computing & Information Systems

Students who have fulfilled the requirements for a single-major or joint-major BA or BSc Honours degree in another subject may graduate with one of the following minors in Computing & Information Systems.

The minor in Computer Studies consists of 5.0 COIS credits, at least 2.0 at the 3000 level or beyond.

The minor in Computing Systems consists of the following 6.5 credits:
- 1.5 COIS credits consisting of COIS 1010H, 1020H, and 2020H
- 2.0 COIS credits at the 3000 level or beyond
- 1.5 COIS credits in addition to the above
- 1.0 MATH credit consisting of MATH 1350H and 1550H
- 0.5 MATH credit from MATH 1005H or 1110H

The minor in Data Analytics consists of the following 5.0 credits:
- 2.0 COIS credits consisting of COIS 1010H, 3400H, 3510H, and 4400H
- 0.5 COIS credit from COIS 1020H or 1520H
- 0.5 COIS credit from COIS 2020H or 2620H
- 1.0 COIS credit at the 3000 level or beyond in addition to the above
- 1.0 COIS credit in addition to the above

The minor in Information Systems consists of the following 5.0 credits:
- 2.0 COIS credits consisting of COIS 1010H, 1520H, 1620H, and 2620H
- 2.0 COIS credits at the 3000 level or beyond
- 1.0 COIS credit in addition to the above

Specialization in Computer Science

Program Coordinator

B. G. Patrick, BCS (Concordia), MSc (Queen’s), PhD, MBA (McGill)

The computer scientist studies and develops software systems which interface most closely with the underlying hardware. These systems are grounded in both mathematical and non-mathematical paradigms such as object-orientation, relations, and complexity theory. Because the computer scientist bridges the gap between software and hardware systems, he or she develops applications which exploit the speed and power of digital computation, designing new models of computation and new methods of problem-solving. The Specialization in Computer Science fully prepares students to pursue graduate studies in both theoretical and applied computer science.

Students who have fulfilled the requirements for a single-major Honours degree in Computing Systems may graduate with a Specialization in Computer Science if they have also successfully completed the following 8.0 credits:
- 3.0 COIS credits consisting of COIS 2320H, 3030H, 3050H, 3320H, 4050H, and 4100H
- 1.0 credit from ADMN
- 1.0 arts credit from AHCL, CAST, CUST, ENGL, FREN, HIST, PHIL, SPAN or WMST
- 1.0 science credit from BIOL, CHEM, ERSC, FRSC, GEOG, or PHYS
- 2.0 additional credits outside of COIS and MATH
Specialization in Data Analytics

Program Coordinator

S. M. McConnell, BSc, MSc, PhD (Queen’s)

Today, there is a clear trend away from single-core processors, even in contemporary desktop machines, and toward the analysis of large datasets in the realm of Big Data Science. The efficient analysis of large scientific and retail datasets will require a generation of programmers, analysts, and developers who are familiar with techniques suitable for the analysis of Big Data. The Specialization in Data Analytics provides a solid foundation in those techniques, including parallel programming, visualization, and predictive modelling.

Students who have fulfilled the requirements for a single-major Honours degree in Computing Systems may graduate with a Specialization in Data Analytics if they have also successfully completed the following 3.5 credits:

- 3.5 COIS credits consisting of COIS 3030H, 3510H, 3560H, 4350H, 4400H, 4470H, and 4550H

Specialization in Software Engineering

Program Coordinator

O. Alam, BSc (King Abdulaziz), MSc (Queen's), PhD (McGill)

The software engineer works as part of a team to design, implement, test, maintain, and document software solutions. Because these solutions are typically large and complex, the software engineer must deal on several levels of abstraction and draw on sound methodologies and practices to produce software which is correct, robust, maintainable, and extensible. The software engineer therefore bridges the gap between the requirements of a client and the software solution to meet those requirements. He or she must have not only technical skills, but also interpersonal skills to work within the dynamics of a group. The capstone of the Specialization in Software Engineering is a full-year team project (COIS 4000Y) which exercises all phases of software development on a real-world application.

Students who have fulfilled the requirements for a single-major Honours degree in Computing Systems may graduate with a Specialization in Software Engineering if they have also successfully completed the following 9.0 credits:

- 4.0 COIS credits consisting of COIS 3030H, 3040H, 3050H, 3320H, 3420H, 3850H, and 4000Y
- 1.0 credit from ADMN
- 1.0 arts credit from AHCL, CAST, CUST, ENGL, FREN, HIST, PHIL, SPAN, or WMST
- 1.0 science credit from BIOL, CHEM, ERSC, FRSC, GEOG, or PHYS
- 2.0 additional credits outside of COIS and MATH
Computing Systems Co-op

Program Coordinator

R. T. Hurley, BSc (New Brunswick), PhD (Waterloo)

Co-op is an opportunity for students to gain experiential learning which will help them get a head start on a career. The Computing Systems Co-op assists graduating students in achieving a competitive edge while generating experience within the industry. Specifically, Co-op gives the students a chance to obtain 12 months of practical experience on the job, develop or enhance technical skills, explore career options, network with a variety of individuals and companies, learn from mentors and tutors, enhance communication and presentation skills, and develop technical writing skills.

Program Requirements

To achieve the Co-op designation, graduating students must fulfill the requirements for a single-major Honours degree in Computing Systems and successfully complete three non-credit work term courses (COIS 2700H, 3700H, and 4700H) prior to the final academic term. Students in the Computing Systems Co-op may also choose to complete a Specialization in Computer Science, Data Analytics, and/or Software Engineering.

Co-op combines academic instruction and practical experience, allowing students to develop work skills and gain experience while obtaining a formal education. The work/study sequence in the Computing Systems Co-op consists of eight study terms interspersed with three paid work terms. Students are admitted on a full-time basis and complete the program over a four-year period. Other than Year 1, the schedule below is not mandatory, but any deviation could result in students requiring additional time to complete the program, as not all courses required for the degree are offered in every term.

**Year 1**

**Fall (Study 1)**
- 1.5 COIS credits consisting of COIS 1010H, 1020H, and 2830H
- 0.5 MATH credit from MATH 1005H or 1110H
- 0.5 additional credit*

**Winter (Study 2)**
- 1.5 COIS credits consisting of COIS 2240H, 2300H, COIS-ADMN 1620H
- 0.5 MATH credit consisting of MATH 1550H
- 0.5 additional credit**

**Summer (Study 3)**
- 1.5 COIS credits consisting of COIS 2020H, 3400H, and 3420H
- 1.0 additional credit (S61*) (S62**)  
  *Suggested: MATH 1005H, 1110H, 1120H, 1350H, or 1550H  
  **Suggested: COIS-ADMN 3850H
Notes

- Placement in the Co-op is competitive with a limited number of spaces. Students who are not admitted directly may apply for admission after commencing studies at Trent and be admitted provided there are available spaces in the program.

- To remain in the Co-op, students must achieve a minimum 75% average in COIS courses and a minimum 70% cumulative average throughout their study terms. In addition, Co-op students must continue to receive satisfactory evaluations during their work terms. Students who do not maintain these requirements will be required to meet with the departmental Co-op Committee and will be considered for continuation on a case-by-case basis.

- Students in the Co-op are required to pay an administrative fee for each work term. These non-refundable fees are set by the University. Co-op students are also responsible for tuition and incidental fees related to their study terms and costs related to any Trent courses taken while completing a work term.

- Every effort is made by the department to find suitable work term placements for students enrolled in the Co-op, but the department cannot guarantee a work term opportunity for every student. The placement process is competitive and dependent upon market conditions as well as the academic performance, skills, motivation, maturity, attitude, and potential of a student. Co-op students secure positions through successful participation in the co-op interview process and/or their own job search activities. No more than two of the three placements may be with the same employer. Withdrawal from the Co-op will not normally be approved while a student is on a work term.

- Students returning from a work term must submit a report and give a presentation describing the nature of the work undertaken and the experience gained. A grade of S (satisfactory) or U (unsatisfactory) is assigned based on the report/presentation and the employer’s assessment. The report is normally due within the first two weeks of the study term following the completion of a work term, with the presentation being scheduled by the department later that term.

- Students who are unable to obtain a suitable Co-op placement in an upcoming work term are expected to continue with their academic program on a full-time basis. A missed work term can be made up, but in the event that a Co-op student is unable to complete three work terms but fulfills the remainder of the degree requirements, the student will be awarded an Honours Bachelor of Science in Computing Systems (and if applicable, any of the Specializations: Computer Science, Data Analytics, and/or Software Engineering).

Please consult the academic timetable for information on courses that will be offered in 2019–2020, including when they will be scheduled.

» COIS 1010H: The Digital World (Sc)
Digital systems have redefined how we work, communicate, and play—just think about the World Wide Web, mobile camera phones, video games, and e-business. Core topics examine the underlying technologies of both computing and information systems and how they have become an integral and indispensable part of our daily lives.

» COIS 1020H: Programming for Computing Systems (Sc)
Programming for computing systems requires a solid foundation in the software development process, including algorithmic design, abstraction, implementation, testing, and documentation. Core topics include sequencing, selection, iteration, simple data types, expressions, and arrays, as well as the object-oriented notions of classes, methods, inheritance, and polymorphism. Pre- or co-requisite: COIS 1010H or PHYS 1001H or MATH 1110H. Students without prior programming experience should take COIS 1010H as a prerequisite.
COIS 1520H: Programming for Information Systems (Sc)
Programming for information systems requires a solid foundation in the basic programming constructs and how programs interact with databases, networks, and human users. Core topics include sequencing, selection, iteration, simple data types, expressions, and arrays, as well as graphical user interfaces, database connectivity, programming for the web, and file management. Recommended: COIS 1010H.

COIS-ADMN 1620H: Introduction to Information Systems (Sc)
Wherever and whenever information is required, an information system is also required. Core topics include the use of information systems for strategic advantage, their basic underlying technologies, the types of information systems and how they are constructed, managed, and replaced, as well as their ethical and legal use. Prerequisite: COIS 1010H.

COIS 2020H: Data Structures and Algorithm (Sc)
Data structures define how data are represented, whereas algorithms define how the data structures are manipulated. Core topics include the concepts of encapsulation, information hiding, inheritance, and time complexity, as well as dynamic arrays, linked lists, binary heaps, hash tables, binary search trees, balanced trees, adjacency lists/matrices, and sorting. Prerequisite: COIS 1020H. Recommended: MATH 1350H.

COIS 2240H: Software Design and Modelling (Sc)
Good software design and modelling is a necessary prerequisite for the production of software which is correct, robust, and maintainable. Using the standard Unified Modeling Language (UML) to specify design, core topics include use cases; classes and class membership; aggregation, composition, and inheritance; virtual functions and polymorphism; state diagrams; and design patterns. Prerequisite: COIS 1020H or both COIS 1520H and COIS-ADMN 2620H.

COIS-PHYS 2250H: Electronics (Sc) (see Physics & Astronomy)

COIS 2300H: Computer Organization (Sc)
Computer organization is the level of abstraction between the digital logic and the operating system. At this level, computing subsystems refer to hardware pieces built from lower-level building blocks. Core topics include the central processing unit, memory hierarchy, and input/output organization. Topics are supplemented with assembly language programming. Prerequisite: COIS 1020H or 1520H.

COIS-PHYS 2310H: Computational Physics (Sc) (see Physics & Astronomy)

COIS 2320H: Digital Logic (Sc)
Digital logic describes how computer hardware actually works at the logic gate and circuit level. Core topics include Boolean algebra, Karnaugh maps, the minimization of Boolean functions and the design of combinational and sequential circuits, including adders, decoders, multiplexers, flip-flops, and memory circuits. Prerequisite: COIS 1020H or 1520H.

COIS-PHIL 2410H: Symbolic Logic (Sc) (see Philosophy)

COIS-MATH 2600H: Discrete Structures (Sc) (see Mathematics)

COIS-ADMN 2620H: Systems Analysis and Design (Sc)
Systems analysis and design identifies the informational needs/resources of an organization and specifies appropriate information systems to meet the needs and exploit the resources for strategic advantage. Core topics include the current methodologies, techniques, and tools used for both the analysis and design. Managerial and organizational issues are also discussed. Prerequisite: COIS-ADMN 1620H.
» COIS-FRSC 2750H: Computer Crime and Forensics (Sc)
Computer crime is the fastest-growing area of illegal activity in the world. Users beware! After some background information (how computers work, number systems, information-hiding algorithms), we examine the schemes and techniques used by computer criminals, the forensic techniques used to catch the criminals, and ways to prevent victimization. Recommended prerequisite: COIS 1010H.

» COIS 2800H: Digital Culture
Interactive digital technology and the convergence of computing, communications, public media, and entertainment have had profound cultural implications. Core topics address current concerns such as the World Wide Web, multimedia design, virtual spaces, social domains, and the blogosphere. Recommended prerequisite: COIS 1010H. This course cannot be counted as a science credit.

» COIS 2830H: Multimedia and Design (Sc)
Multimedia concepts, such as photo and video editing, visual effects, 3D assets, and even writing style serve as tools to explore concepts and challenges in modern user experience design, with a focus on web pages, game design, and user interfaces. Principles of design covers core concepts such as the discoverability of features, understanding diverse human users, complexity of feedback, and how computer systems interpret and react to human actions. Recommended prerequisite: COIS 1010H.

» COIS 3020H: Data Structures and Algorithms II (Sc)
A continuation of COIS 2020H, this course introduces more complex data structures for specific applications and extends the techniques for algorithmic design and analysis. Core topics include data structures for spell checkers, memory management, and graphs, as well as the fundamental, divide-and-conquer algorithms for sorting and order statistics. Prerequisite: COIS 2020H.

» COIS 3030H: Software Specification and Development (Sc)
The development of large software systems relies on sound methodologies and techniques to manage the inherent complexity and to produce quality software which satisfies the client or customer. Core topics include various software development paradigms and their usage, as well as the importance of feasibility studies, requirements analysis, and specification. Prerequisite: COIS 2240H.

» COIS 3040H: Advanced Software Architecture and Design (Sc)
Software architecture is concerned with the high-level design, interface, and relationships among the components that make up a software system. Testing ensures that these components work properly on their own and within an integrated system. Core topics include architecture description languages, as well as maintenance strategies and various testing methodologies. Prerequisite: COIS 2020H and 3030H.

» COIS 3050H: Formal Languages and Automata (Sc)
Formal languages and automata are the underlying theoretical foundations of computer science. Core topics include regular languages and finite automata, context-free languages and pushdown automata, the Turing machine and its languages. Real world applications, unsolvable problems, and their relevance to the semantics of programming are also discussed. Prerequisite: COIS 1020H. Recommended: COIS-MATH 2600H.

» COIS-MATH 3180H: Introduction to Numerical and Computational Methods (Sc) (see Mathematics)

» COIS-PHYS 3200Y: Electricity and Magnetism (Sc) (see Physics & Astronomy)

» COIS-MATH 3210H: Mathematical Cryptography (Sc) (see Mathematics)
» COIS 3320H: Fundamentals of Operating Systems (Sc)
An operating system is the software component of a computing system which is responsible for the management and accessibility of the hardware resources. Core topics include process management, synchronization, processor allocation, primary and secondary storage management, file management, security, and user interfaces. Topics are illustrated using contemporary operating systems. Prerequisite: COIS 2020H and 2300H.

» COIS-MATH 3350H: Linear Programming (Sc) (see Mathematics)

» COIS-PHIL 3370H: Cyberethics (see Philosophy)

» COIS 3380H: Systems Programming in C (Sc)
Systems programming produces software which provides services to the computer hardware. Using systems programming techniques in a Unix-style environment and using machine-oriented programming languages such as C/C++, core topics include procedural programming, shell programming, pipes, file processing, system calls, signals, and basic network programming. Prerequisite: COIS 2300H. Recommended: COIS 2020H.

» COIS 3400H: Database Management Systems (Sc)
A database is a structured collection of data, whereas a database management system facilitates the creation, querying, and maintenance of databases. Core topics include the relational model, entity-relationship diagrams, relational algebra, SQL, database application development, storage and indexing, and normalization. Topics are illustrated using a relational DBMS. Prerequisite: COIS 1020H or both COIS 1520H and COIS-ADMN 2620H.

» COIS 3420H: Web Application Development (Sc)
The development of web applications is an integral component of software development in an Internet-based world. Core topics include front-end design, client-side scripting, server-side programming, database connectivity, data persistence, security, extensible mark-up, usability, and accessibility. Prerequisite: COIS 2020H or 2240H. Recommended: COIS 3400H.

» COIS 3510H: Data Visualization (Sc)
Data visualization is a main step in the analysis of data in a wide range of scientific research areas as well as business applications. We discuss general approaches, tools, and techniques for the visualization of various types of data, including spatial data, graph data, and time series data. Prerequisite: 10.0 university credits or permission of instructor. Recommended: COIS 1020H or 1520H.

» COIS-CUST 3533H: Game Studies (see Cultural Studies)

» COIS 3560H: Human-Computer Interaction (Sc)
The study of human-computer interaction incorporates ideas from computer science, behavioural science, and design to improve interaction between people and computers. Core topics include multidisciplinary, intuitive design, computer-supported co-operative education/work, ubiquitous computing, prototyping, collaboration, social interaction, augmented reality, haptics, heuristics, interfaces, workstation independence. Prerequisite: 5.0 university credits. Excludes COIS 3950H: Human Computer Interaction.

» COIS-ANTH 3745H: Virtual Worlds: The Anthropology of Online Communities (see Anthropology)

» COIS-ADMN 3750H: Principles of Online Marketing (Sc)
Businesses today must effectively leverage the Internet and develop an online strategy which complements their traditional business practices. Core topics include website best practices, online marketing and customer relationships, positioning businesses online, and social networking for small and large enterprises. Topics are consolidated with a professional business proposal. Prerequisite: COIS-ADMN 1620H or ADMN 1000H or permission of instructor.
» COIS 3820H: History and Impact of Computing (Sc)
The history of digital computation is relatively recent, but all around us. By introducing the key people whose insight, inventiveness, and industry have defined the digital world, a framework is developed within which all students can appreciate the fundamental milestones of computing and their impact on the world. Prerequisite: 5.0 university credits.

» COIS-ADMN 3850H: Fundamentals of Project Management (Sc)
Good project management focuses on the practical realities of getting things done with limited time and resources according to specifications determined by others—with successful outcomes. This course prepares students to write the professional certification exams offered by the Project Management Institute and the Project Management Association of Canada. Prerequisite: 10.0 university credits or COIS 2240H or COIS-ADMN 2620H or permission of instructor.

» COIS 3860H: Internship Project (Sc)
Students work at a site external to the department for 80–120 hours. In recognition of the scope of possible projects, this work can either be performed during 2–3 one-week (not necessarily consecutive) sessions, or during 10–15 full-day sessions in consecutive weeks. Students meet on a regular basis with their faculty mentor. Prerequisite: A minimum 75% cumulative average and 10.0 university credits including 5.0 COIS credits.

» COIS 3901H: Reading Course (Sc)
Students are required to submit a course proposal and have it approved by the departmental curriculum committee before enrolling.

» COIS 4000Y: Software Engineering Project (Sc)
The software engineering project is a capstone course and provides students with the practical experience in the analysis, design, implementation, testing, and documentation of a real-world software product. Working as a team with clients, the project draws substantially on the theoretical knowledge gained in all previous COIS courses. Prerequisite: COIS 3040H. Pre- or co-requisite: COIS-ADMN 3850H. Recommended: COIS 3400H and 3420H. Excludes COIS 4850H.

» COIS 4050H: Advanced Algorithms (Sc)
Algorithmic techniques provide generalized approaches to solving a wide variety of problems, whereas algorithmic analysis provides the basis of comparison among different solutions. Core topics include the algorithmic techniques of divide-and-conquer, dynamic programming, and greedy algorithms, as well as the analytical techniques of problem classification, asymptotic analysis, and recurrence relations. Prerequisite: COIS 2020H and COIS-MATH 2600H. Recommended: COIS 3020H.

» COIS 4100H: Comparative Programming Languages (Sc)
Evaluating and selecting the most appropriate programming language for an application is a critical step in software development. Core topics include the types of programming languages as well as the principal design and implementation issues for control structures, data types, subprograms, exception handling, and concurrency. Prerequisite: COIS 2020H and 1.0 COIS credit at the 3000 or 4000 level.

» COIS-MATH 4215H: Mathematical Logic (Sc) (see Mathematics)

» COIS 4310H: Computer Networks (Sc)
A computer network links together two or more computers to enable the transfer of data. Core topics include data communication, network hardware and software, network architecture and protocols, local area and wide area networks, end-to-end routing protocols, wireless networks, Quality of Service, multimedia support, and network management. Prerequisite: COIS 3320H.
» **COIS 4350H: High Performance Computing (Sc)**
High performance computing is the use of advanced computer architectures to solve problems which require significant processing power, memory access, or storage. Core topics include advanced computer architectures, programming for shared and distributed memory machines, networking issues, caching, performance evaluation, and parallel algorithms. Topics are supplemented with case studies. Prerequisite: COIS 3320H.

» **COIS 4400H: Data Mining (Sc)**
Data mining is the extraction of previously unknown and potentially useful patterns from large data sets. Core topics include the statistical foundations of data mining, sampling mechanisms, missing data, clustering, classification, and outlier detection. Case studies cover a wide variety of applications such as astronomy and marketing. Prerequisite: 1.0 COIS credit at the 3000 or 4000 level and one of COIS 2020H or COIS-ADMN 2620H.

» **COIS 4470H: Modelling and Simulation (Sc)**
Modelling and simulation enables us to construct mathematical or computer-based representations of real-world phenomena. Three steps are typically followed: modelling the key parameters, implementing a program to simulate behaviour, and analyzing the results. Core topics include pseudo-random number generation, discrete-event and next-event simulation, output analysis, and queuing theory. Prerequisite: MATH 1550H and COIS 2020H.

» **COIS 4480H: Computer Graphics (Sc)**
Computer graphics are everywhere, from computer-animated movies and games to virtual reality and telepresence. This course introduces the fundamental mathematical and computational concepts of computer graphics. Topics include hardware, the OpenGL suite, line drawing, two-dimensional transformations, two-dimensional clipping algorithms, three-dimensional representations, three-dimensional clipping, line removal techniques, splines, and ray tracing. Prerequisite: COIS 2020H, COIS 2830H, and MATH 1350H.

» **COIS 4550H: Artificial Intelligence (Sc)**
Artificial intelligence is the study of those techniques which create perceptions of “machine intelligence” and “intelligent agents.” Topics may include but are not limited to expert systems, various evolutionary learning systems such as genetic algorithms, genetic programming, and neural networks. The impact and ethics of artificial intelligence are also examined. Prerequisite: 10.0 university credits including one of COIS 1020H, 1520H, or COIS-ADMN 1620H.

» **COIS 4600H: Conceptual Analysis (Sc)**
Conceptual analysis is an important cognitive skill for systems analysis, database design, and other disciplines. Discourse analysis, including semantics and semiotics, and conceptualizing the referent world in terms of abstractions and ontologies, will be emphasized. Prerequisite: 10.0 university credits.

» **COIS 4850H: Information Systems Project (Sc)**
A capstone course which provides students with the practical experience in the analysis and design (but not implementation) of a real-world information system. Working as a team with clients, the project draws substantially on the theoretical knowledge gained in all previous COIS courses. Prerequisite: COIS-ADMN 2620H, COIS 3030H, and COIS 3850H. Recommended: COIS 3400H. Excludes COIS 4000Y.

» **COIS 4900Y, 4901H, 4902H: Advanced Reading Course (Sc)**
Students are required to submit a course proposal and have it approved by the departmental curriculum committee before enrolling.
Computing Systems & Physics

Program Coordinators

Chair of the Department of Computing & Information Systems
R. T. Hurley, BSc (New Brunswick), PhD (Waterloo)

Chair of the Department of Physics & Astronomy
R. Wortis, BSc (Harvard), MSc, PhD (Illinois)

Professors
See faculty listings in Computing & Information Systems, Mathematics, and Physics & Astronomy

This program is designed to meet the needs of students interested in electronic, hardware, and interfacing aspects of computers, which are based on fundamental principles of physics and mathematics.

Bachelor of Science Program in Computing Systems & Physics

• In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).

• The Honours program in Computing Systems & Physics is a sequence of courses that compose an integrated whole and are offered by the Departments of Computing & Information Systems, Mathematics, and Physics & Astronomy. For more information on individual courses, see Calendar entries for these departments.

• 60% or higher in MATH 1120H is required for upper-level Physics courses; MATH 1350H is a prerequisite for upper-level Mathematics courses.

The single-major Honours program. 20.0 credits including the following 15.0 credits:
– 3.5 COIS credits consisting of COIS 1010H, 1020H, 2020H, 2300H, 2320H, 3320H, and 3380H
– 4.0 PHYS credits consisting of PHYS 1001H, 1002H, 2610H, 2620H, 3200Y, 3610H and 4610H
– 4.5 MATH credits consisting of MATH 1110H, 1120H, 1350H, 1550H, 2110H, 2120H, 2150H, 2600H, and 3150H
– 0.5 COIS credit from COIS 3400H or 4470H
– 1.0 COIS credit from COIS 4310H, 4350H, or 4400H
– 0.5 PHYS credit from PHYS 2250H or 2310H
– 1.0 PHYS credit from PHYS 4050H, 4220H, 4240H, 4310H, 4410H, 4520H, or 4700H
Conservation Biology

trentu.ca/biology/programs/conservation-biology-bsc

Program Coordinator

E. Nol, BSc (Michigan), MSc (Guelph), PhD (Toronto)

Professors

See faculty listings in Biology, Chemistry, Environment, Mathematics, and Physics & Astronomy

Conservation biology is the branch of the biological sciences that deals with the causes, the consequences, and the ways to stem biodiversity loss. Biodiversity is the rich mix of species on Earth that underpins the resilience of ecosystems which, ultimately, support our lives and livelihoods. Many scientists propose that modern society has entered the Anthropocene—a new epoch where human influences on the Earth’s natural systems are pervasive and permanent. In this epoch, we will need skilled practitioners who can inform planning and economic activities through the lens of strong scientific understanding in conservation biology. These practitioners will be knowledgeable in ecology, animal and plant diversity, evolution, organismal biology and behaviour, and population genetics. They will ably convey their knowledge to non-specialists. The Conservation Biology program draws from such courses in the Department of Biology, supplemented with those from Chemistry, Mathematics, Physics & Astronomy, and the School of the Environment. This suite of courses provides students with the practical and conceptual foundations of the science of biological conservation.

Two versions of the degree are available: The Bachelor of Science Honours program, which includes a fourth-year placement, and the Bachelor of Science Honours Co-op program.

Notes

• As Conservation Biology is a limited enrolment program, fulfillment of the minimum requirements does not necessarily guarantee admission. Entrance is competitive, particularly for the co-op stream.
• For information on individual courses see Calendar entries under the appropriate discipline.
• There is no joint-major program, General program, or minor in Conservation Biology.
Bachelor of Science Program in Conservation Biology

- In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).

- Conservation Biology (placement) is a direct-entry program with a limited number of student places. A secondary diploma and six Ontario 4U or 4M courses with a minimum 75% overall final average are required. These include ENG4U (Grade 12 English), SCH4U (Grade 12 Chemistry), SBI4U (Grade 12 Biology), and MHF4U (Advanced Functions) or MCV4U (Calculus and Vectors). SPH4U (Grade 12 Physics) is recommended. The admission average is calculated using the four required courses and the next two highest 4U/M-level courses.

- For 2019–2020, students may apply to enter the Conservation Biology program (placement) after first year if they have successfully completed the following courses with a minimum cumulative average of 75%: BIOL 1020H, BIOL 1030H, BIOL-PHYS 1060H, CHEM 1000H, CHEM 1010H, ERSC 1010H, ERSC 1020H, and either MATH 1051H and 1052H or MATH 1005H and 1550H.

- To remain in the program, students must maintain a minimum average of 75% in all BIOL courses completed. Students who are unable to achieve these grades may switch to the Honours program in Biology, transfer to a BSc or BA program in another discipline and make up any degree requirements for a major, or repeat courses (subject to Trent University’s policy on repeating courses) until they achieve the required grades to apply for readmission to the program.

- BIOL 4400Y: Placement in Conservation Biology. Students must inform the Biology Department of their intention to enrol in the course in the preceding academic year.

The single-major Honours program. 20.0 credits including the following 15.5 credits:
- 1.0 BIOC credit consisting of BIOC 2010H and 3010H
- 1.0 CHEM credit consisting of CHEM 1000H and 1010H
- 1.0 ERSC credit consisting of ERSC 1010H and 1020H
- 0.5 ERST credit consisting of ERST 3250H
- 0.5 GEOG credit consisting of GEOG-BIOL-ERSC 2080H
- 1.0 MATH credit from MATH 1051H and 1052H or from MATH 1005H and 1550H
- 0.5 PHYS credit from PHYS 1001H or PHYS-BIOL 1060H
- At least 3.0 credits from the following:
  - BIOC 4100H
  - BIOC 4200H
  - BIOL 3051H
  - BIOL 3080H
  - BIOL 3090H
  - BIOL 3140H
  - BIOL 3180H
  - BIOL 3190H
  - BIOL 3340H
  - BIOL-PSYC 3360H
  - BIOL 3840H
  - BIOL 4010Y/4020D
  - BIOL 4100H
  - BIOL 4110H
  - BIOL 4140H
  - BIOL 4150H
  - BIOL 4180H
  - BIOL-ERSC 4330H
  - BIOL 4340H
  - BIOL-PSYC 3360H
  - BIOL 4340H
  - BIOL 4520H
  - BIOL 4610H
  - ERSC 3510H
  - ERSC-BIOL 4240H
  - ERST-BIOL 4330H
  - ERST-PHIL 3301H
  - ERST-POST 2100H
  - ERST-CAST-POST 3120H
  - ERST-PHIL 3301H
Bachelor of Science Program in Conservation Biology – Co-op

- In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).

- Conservation Biology Co-op is a direct-entry program with a limited number of student places. A secondary diploma and six Ontario 4U or 4M courses with a minimum 80% overall final average are required. These include ENG4U (Grade 12 English), SCH4U (Grade 12 Chemistry), SBI4U (Grade 12 Biology), and MHF4U (Advanced Functions) or MCV4U (Calculus and Vectors). SPH4U (Grade 12 Physics) is recommended. The admission average is calculated using the four required courses and the next two highest 4U/M-level courses.

- For 2019–2020, students may apply on a competitive basis to enter the Conservation Biology Co-op program after first year if they have successfully completed the following courses with a minimum cumulative average of 80%: BIOL 1020H, BIOL 1030H, BIOL-PHYS 1060H, CHEM 1000H, CHEM 1010H, ERSC 1010H, ERSC 1020H, and either MATH 1051H and 1052H or MATH 1005H and 1550H.

- To remain in the co-op program, students must maintain a minimum average of 80% in all BIOL courses completed. Students who are unable to achieve these grades may switch to the Honours program in Conservation Biology (placement) or the Honours program in Biology, transfer to a BSc or BA program in another discipline and make up any degree requirements for a major, or repeat courses (subject to Trent University’s policy on repeating courses) until they achieve the required grades to apply for readmission to the program.

- Students will be required to pay a co-op fee.

- Three co-op work terms are required for the BSc program in Conservation Biology – Co-op. Work terms will normally occur in the Summer term following the second year, the Winter term of the third year, and the Fall term of the fourth year. At the end of each co-op work term a report will be required.

The single-major Honours program. 20.0 credits including the following 15.5 credits:
- 2.0 BIOC credits consisting of BIOC 2010H, 3010H, 4100H, and 4200H
- 1.0 CHEM credit consisting of CHEM 1000H and 1010H
- 1.0 ERSC credit consisting of ERSC 1010H and 1020H
- 0.5 ERST credit consisting of ERST 3250H
- 0.5 GEOG credit consisting of GEOG-BIOL-ERSC 2080H
- 1.0 MATH credit from MATH 1051H and 1052H or from MATH 1005H and 1550H
- 0.5 PHYS credit from PHYS 1001H or PHYS-BIOL 1060H
- At least 3.0 credits from the following:
  - BIOL 3050H
  - BIOL 3051H
  - BIOL 3080H
  - BIOL 3090H
  - BIOL 3140H
  - BIOL 3170H
  - BIOL 3180H
  - BIOL 3340H
  - BIOL-PSYC 3360H
  - BIOL 3830H
  - BIOL 3840H
  - BIOL 4010Y/4020D
  - BIOL 4110H
  - BIOL 4140H
  - BIOL 4150H
  - BIOL 4180H
  - BIOL-ERSC 3360H
  - BIOL 4340H
  - BIOL 4520H
  - BIOL 4610H
  - ERSC 3510H
  - ERSC-BIOL 4240H
  - ERST-POST 2100H
  - ERST-CAST-POST 3120H
  - ERST-PHIL 3301H
  - BIOL-ERSC 4330H
Conservation Biology

Please consult the academic timetable for information on courses that will be offered in 2019–2020, including when they will be scheduled.

» BIOC 2010H: Communicating Conservation Biology I
Conservation is only as effective as it is communicated. In this course, students are introduced to storytelling to convey scientific knowledge. With emphasis on writing, students learn to express themselves with clarity and economy, and practise the skills of explaining and synthesizing peer-reviewed science to specialist and non-specialist audiences. Prerequisite: BIOL 1020H and 1030H.

» BIOC 3010H: Communicating Conservation Biology II
Conservation relies on communicating the peer-reviewed literature. In this course, students hone their skills at conveying peer-reviewed science in oral form. Students learn to create and deliver compelling presentations, including designing effective slides, improving their style and pace of delivery, mastering non-verbal communication, and responding to questions. Prerequisite: BIOL 2010H.

» BIOC 4100H: Advanced Communicating Conservation Biology I
Science is the foundation of conservation knowledge; storytelling is the impetus for conservation action. In this advanced course, students broaden their communication repertoire through film, photography, social media, and new technologies. Emphasis is on the solutions to abate the decline of biodiversity, so that citizens, politicians, and planners can act. Prerequisite: BIOC 2010H and 3010H.

» BIOC 4200H: Advanced Communicating Conservation Biology II
The users of the knowledge of conservation biology are diverse: government practitioners, NGOs, policy-makers, Indigenous groups, media, and the public. In this advanced course, students develop skills for speaking to the media and politicians, giving expert testimony, crafting op-eds and press releases, and engaging in other forms of public outreach. Prerequisite: BIOC 2010H and 3010H.
Cultural Studies

trentu.ca/culturalstudies

Associate Professor and Chair of the Department
L. Mitchell, BA (Thompson Rivers), MA (York), PhD (Victoria)

Professors
J. Bordo, BA (McGill & Alberta), MA, MPhil, PhD (Yale) (on leave Winter 2020)
H. Elton, BA (Sheffield), DPhil (Oxford)
A. O’Connor, BA (Trinity College, Dublin), MA, PhD (York)
J. Penney, BA, MA (Alberta), PhD (Duke)

Associate Professors
V. de Zwaan, BA (Trent), MA (McGill), PhD (Toronto) (on leave Winter 2020)
M. Epp, BA (Saskatchewan), MA (McGill), PhD (Alberta)
H. M. Hodges, BA (Queen’s), MA, PhD (Toronto)
I. Junyk, BA (Western), MA (Queen’s), PhD (Chicago) (on leave Winter 2020)

Assistant Professor
K. Egan, BA (Carleton), MA (York/Ryerson), MFA (Bard), PhD (York/Ryerson)

The department offers study in the history, theory, and practice of culture, with an emphasis on literature, the arts (visual art, music, theatre, and film), and media. Interdisciplinary courses consider culture both historically and in relation to the increasingly interconnected and complex contemporary world. Intensive workshop classes give students hands on experience with creative writing, studio art, theatre and performance, film, and audio production.

Notes
• Students who wish to take an upper-level Cultural Studies course in first year must obtain the permission of the instructor and of the chair of the department.
• For the Media Studies program, see p. 301. For the Option in Theatre Studies, see p. 418.
• The Accelerated Master of Arts program in Cultural Studies allows students to obtain a Master’s degree in Cultural Studies within one to two terms less than students in the regular Master’s program. Students apply to the Accelerated Master of Arts program during the spring term which precedes the last year of their undergraduate program in Cultural Studies. The research starts in the fourth year. Upon graduation, students begin the MA program in May or September, just after completion of the undergraduate program. Students who are interested in applying should contact the Cultural Studies graduate program director.
Bachelor of Arts Program in Cultural Studies

- In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).
- The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.
- With permission of the Chair, students may count up to 1.0 credit from the following courses toward their Cultural Studies degree requirements: ENGL 2609H, ENGL 2709H, ENGL 2851H, ENGL 2853H, ENGL 3601H, ENGL 3607H, ENGL 3750Y/3851H. For information on individual courses see English Literature.

The single-major Honours program. 20.0 credits including the following 9.0 credits:
- 1.0 CUST credit at the 1000 level
- 2.0 CUST credits at the 4000 level
- 6.0 CUST credits at the 2000 level or beyond in addition to the above

The joint-major Honours program. 20.0 credits including the following 7.0 credits:
- 1.0 CUST credit at the 1000 level
- 2.0 CUST credits at the 4000 level
- 4.0 CUST credits at the 2000 level or beyond in addition to the above

The single-major General program. 15.0 credits including the following 6.0 credits:
- 1.0 CUST credit at the 1000 level
- 5.0 CUST credits at the 2000 level or beyond

The joint-major General program. 15.0 credits including the following 5.0 credits:
- 1.0 CUST credit at the 1000 level
- 4.0 CUST credits at the 2000 level or beyond

The minor in Cultural Studies consists of the following 5.0 credits:
- 1.0 CUST credit at the 1000 level
- 4.0 CUST credits at the 2000 level or beyond
Specializations
Cultural Studies majors select their courses from four different areas of concentration, which are described below. Students have the option of pursuing a Specialization in a particular area.

Students who have fulfilled the requirements for a single- or joint-major degree in Cultural Studies may graduate with a Specialization if they have successfully completed 4.0 CUST credits in the chosen Specialization category. The same course may not simultaneously count toward two or more Specializations.

A – Integrated Arts
Courses in modern, contemporary, and experimental visual art, music, theatre, and film that ground artistic practices, products, and events in cultural, historical, media, and political contexts. Small and intensive art, theatre, film, video, photography, and music workshop courses, taught by practicing artists, are available. Certain courses (especially in theatre and visual arts) are counted as “teachables” for Teacher Education Stream students. Theatre courses count toward the Option in Theatre Studies, while visual arts courses count toward the Option in Visual Arts.

B – Literature & Narrative
Courses in comparative literature, world literature, and other kinds of storytelling in different media contexts, such as theatre, oral narrative, television, and film. Discussions open up the relationships between narrative and culture, sometimes with a focus on historical contexts (such as modernism, postmodernism, surrealism), and sometimes as engagements with specific genres, such as science fiction, historical fiction, utopian fiction, experimental fiction.

C – Film & Media
Courses in film, radio, television, popular culture, and social or new media, that examine the specificities, as well as the pervasive influences in culture, of each medium, sometimes in direct comparison with each other, and sometimes in the context of inquiry into the theoretical and historical contexts of modern and contemporary media. Small, intensive workshops in media production are available.

D – Culture & Theory
Interdisciplinary, multimedia courses in social and cultural theory that focus on engagements with complex, contemporary themes, such as gender and sexuality, the modern body, ideology, globalization, technology, the senses, psychoanalysis, ethics, and the law. Includes courses that provide theoretical introductions to the different fields of study offered by the Department.

</table>
Please consult the academic timetable for information on courses that will be offered in 2019–2020, including when they will be scheduled.

» CUST 1500H: Introduction to the Study of Modern Culture
  Provides an interdisciplinary approach to thinking about how we understand the practices of both “everyday life” and the roles of art works, media, and other forms of cultural expression in contemporary culture. The course changes focus from year to year. Excludes CUST 1000Y.

» CUST 1510H: Introduction to the Integrated Arts
  Introduces students to the historical, theoretical, and comparative study of the integrated arts—visual art, film, theatre, and music. Combines lectures, workshops, and events that include film screenings, performances, and field trips. The course has a special focus each year. Excludes CUST 1000Y.

» CUST 1520H: Introduction to World Literature
  An introduction to the study of literature in a global context. Spanning antiquity and modernity, East and West, we consider English translations of great works in relation to culture, history, and other forms of media and expression. The course has a special focus each year. Field trip fee. Excludes CUST 1000Y.

» CUST 1535H: Introduction to Media Studies
  An introduction to media studies that starts with students’ own experiences of contemporary media. It seeks to give students an understanding of these media and how they emerged. Leads into second-year courses in the history and theory of media, in changing media practices, and in digital culture. Excludes CUST 1035Y.

» CUST-INDG 1570H: The Origins of Theatre: Performance in Indigenous and Cultural Studies (ICR)
  An introduction to the study of theatre and performance. The course examines the roots of theatre in oral traditions, storytelling, and appropriate ritual practices. Students have the opportunity to engage with the course material through stories, readings, and practical workshop experience.

» CUST 2016Y: Introduction to Visual Studies
  A communications approach in aesthetic theory for the study of the visual arts, images, and sites. Considers ritual, mnemonic, architectural, and sculpture sites in preparation for addressing modern picturing from its extraordinary emergence in Renaissance art and science to its hyperbolic technologization in photographic, filmic, televisual, and digital media. Field trips fee: $40–$70. Prerequisite: 4.0 university credits.

» CUST 2029Y: Science Fiction
  An introduction to the history, theory, and representative works and authors of science fiction, from Shelley and Wells to Dick, Le Guin, and Gibson. Examines stories of alternate worlds, technoculture, and space adventure, including cyborgs, alien encounters, non-contemporary earth life, and human destiny. Prerequisite: 4.0 university credits.

» CUST 2035Y/2535H: Media and Society
  An introduction to key innovations in the media ranging from papyrus to wearable computers. Analyzes the effect these innovations have had on society from diverse perspectives, including critical interpretation, political economy, sociology, anthropology, gender studies, and media ecology, giving students a toolbox to be used in other Media Studies courses. Prerequisite: 4.0 university credits. Students may take only one of CUST 2035Y or 2535H for credit. CUST 2535H offered only at Trent University Durham – GTA.
» **CUST 2045Y: Music and Society**
   An introduction to music as cultural practice, exploring formulations of the relationship between music and society offered by ethnomusicology, sociology, semiotics, and feminist theory. Emphasis is placed on the development of listening skills through engaging with a variety of musical texts/practices from Western art music, popular music, and world music traditions. No formal background in music required. Field trip fee: $45. Prerequisite: 4.0 university credits.

» **CUST-ERST 2114H: Workshop: Ecological Art**
   Explores the history, theoretical foundations, and practices of environmental and ecologically attuned art, ranging from 1960s-70s “Earthworks” to place-based and ephemeral eco-art to current bioremedial and trash art. Students create their own “eco” artworks, learning techniques such as pigment-making from local plants, found object sculpture, and weaving using invasive species. Prerequisite: 4.0 university credits.

» **CUST 2186H: Workshop: Photography**
   An introductory photography course looking at analog and/or digital photography. Historical and contemporary issues are examined through practical hands-on experiences, including basic use of cameras, darkroom techniques, and basic digital post-production. Course fee: $100. Prerequisite: 4.0 university credits or permission of instructor.

» **CUST-WMST 2210H: Gender and Popular Culture (see Gender & Women’s Studies)**

» **CUST 2236H: New Media Literacy**
   Offers opportunities to practice new media literacies, including those related to online learning, while also providing theoretical frameworks through which to better understand these same literacies and practices. Prerequisite: 4.0 university credits.

» **CUST 2511H: Workshop: Drawing**
   A basic drawing course exploring techniques and ideas in the visual arts. Historical and contemporary issues are examined through practical hands-on experiences. Art materials fee: $65. Prerequisite: 4.0 university credits or permission of instructor. Recommended pre- or co-requisite: CUST 2016Y. Excludes CUST 2111Y.

» **CUST 2522H: Culture and the Novel**
   Considers the historical development of the novel from a global perspective. Ranging from the Enlightenment to postmodernism, this course examines the relationship between the novel and its social, political, and cultural contexts. Readings range from popular fiction to avant-garde literature and graphic novels, and include authors such as Flaubert, Faulkner, Garcia Márquez, and Gaiman. Prerequisite: 4.0 university credits. Excludes CUST 2022Y.

» **CUST 2526H: Workshop: Narrative and Performance**
   In a group context, students develop several creative writing projects, both individual and collective. Regular discussions about the social functions of narrative, and emphasis on the performative presentation of the projects as a means of bridging the gap between private and public text. Prerequisite: 4.0 university credits or permission of instructor.

» **CUST 2527H: Surrealism and the Languages of Narrative**
   Surrealism was an interdisciplinary movement dedicated to revolutionizing our tools of thought. This course considers the surrealist program as a general cultural critique of the way we tell stories to ourselves, focusing on the crises of the object and the subject that it explores. Prerequisite: 4.0 university credits.

» **CUST 2528H: West Indian Storytelling (World Literature)**
   Explores the mixing of literary and oral traditions in the West Indies; we will be concerned with novels and poems, and also with calypso, carnival, reggae, folk stories, and folk proverbs as we explore a folk tradition and a popular culture shaped by resistance to slavery, colonialism, and cultural imperialism. Prerequisite: 4.0 university credits.
CUST 2547H: Pop After Rock
Exploration of popular music after the emergence of rock and roll that engages theoretical, historical, and cultural contexts for discussing specific generations of music between 1945 and 2014. Prerequisite: 4.0 university credits.

CUST 2551H: Popular Culture and Modern Thought: Ideology, Language
Examines how culture and modern thought shape one another. We consider major currents of modern thought through a variety of media: film, literature (fiction, autobiography, theatre), and the visual arts, focusing on the relation between culture and politics as well as the question of culture and language. Prerequisite: 4.0 university credits.

CUST 2552H: Popular Culture and Modern Thought: Gender, Globalization, and the Virtual
Continues the interrogation of popular culture and modern thought through film, literature, and the visual arts. It is composed of three interrelated units focusing on the following contemporary issues: gender and sexuality; cultures of globalization; and technologies of the virtual. Prerequisite: 4.0 university credits.

CUST 2560H: The Making of the Modern Body
Examines a range of contemporary cultural practices such as tattooing, virtual reality, organ donation, imprisonment, and yoga that open up different paradigms for thinking about the body as a product of culture as much as nature. Prerequisite: 4.0 university credits. Excludes CUST 2060Y.

CUST 2572H: Workshop: Performance and Protest
What happens to theatre when we take it out of the theatre? This course concentrates on an in-depth study of the theories and the practice of Augusto Boal, the Brazilian theorist and activist who has posed this question more comprehensively than any other practitioner of the late twentieth century. Prerequisite: 4.0 university credits or permission of instructor.

CUST 2581H: Introduction to Film I: What Is Cinema?
A wide-ranging and diverse introduction to the film medium, this course focuses on the component elements of cinema: mise-en-scène, cinematography, editing, sound, narrative, genre, digitization, and “post-cinema.” It examines the vocabulary of film analysis, cultivates techniques for writing engagingly about the medium, and develops viewing skills to enhance the cinematic experience. Prerequisite: 4.0 university credits. Excludes CUST 2081Y.

CUST 2582H: Introduction to Film II: Film Movements, Film History
A wide-ranging and diverse introduction to the film medium, this course focuses on elements of filmmaking history, covering the origin and development of cinema technology; the medium’s material contexts; and intellectual and aesthetic concerns of major film movements. It develops critical viewing and writing skills that enhance the cinematic experience. Prerequisite: 4.0 university credits. Excludes CUST 2081Y.

CUST-HIST-ERST 2805H: Green Screen: Film and Environmental History (see History)

CUST-CAST 3031H: TV Guide: Television in Canada (see Canadian Studies)

CUST 3087Y: Community-Based Research Project
Students are placed in research projects with community organizations in the Peterborough area. Each placement is supervised jointly by a faculty member and a representative of a community organization. For details see Community-Based Research Program (p. 429). Prerequisite: 10.0 university credits and a minimum 75% cumulative average.
» CUST 3111Y: Workshop: Visual Arts Studio
An introductory studio exploring two-, three- and four-dimensional art production using a variety of materials and techniques. Emphasis is placed on research-creation, the exploration of materials and concepts (with attention to space, form, image, and experience), and the intersection of traditional and contemporary practices (including the relationship between art and technology). Art materials fee: $100. Prerequisite: 4.0 university credits including 1.0 CUST credit or permission of instructor.

» CUST-INDG 3128H: Indigenous Science Fiction and Speculative Storytelling (see Indigenous Studies)

» CUST 3133H: Workshop: Game Design
Drawing on readings from game studies, students engage the conceptual issues and practical details of player experience and design by analyzing and creating a wide range of games. Students leave the class with a playable prototype for an analog or digital game. Prerequisite: 4.0 university credits.

» CUST 3139H: Workshop: Radio and Podcast
A hands-on workshop introducing the theoretical concepts and practical skills of radio storytelling, from documentary to fiction, field production to experimentation. Students use their own smartphones. Required fee for studio time (Peterborough only): $75. Prerequisite: 4.0 university credits or permission of instructor.

» CUST 3142H: Workshop: Experimental Music
Experimental music is composed and performed. Neither genre nor technique, experimental music is constantly pushing at boundaries. Special attention is paid to John Cage and musicians he influenced, together with post-punk and various current DIY practices. No previous experience with making music is required. Prerequisite: 4.0 university credits including 1.0 CUST credit or permission of instructor. Excludes CUST 3146Y.

» CUST 3143H: Workshop: Electronic Music
Students learn the basics of software music production, generate one or more pieces of music, and explore the media critically in discussions of both theoretical and practical texts. Music and songwriting skills are developed in conjunction with software learning. No previous training in music making is required. Prerequisite: 4.0 university credits including 1.0 CUST credit or permission of instructor. Excludes CUST 3146Y.

» CUST 3175Y: Workshop: Staging Ideas
A practical course in modern acting with a focus on methods of performance in works that dramatize ideas and the conflicts between them. Workshop fee: $50. Limited enrolment. Prerequisite: 4.0 university credits including 1.0 WORKS credit or permission of instructor.

» CUST 3184H: Workshop: Documentary Film
A workshop course in 16mm filmmaking with an emphasis on experimental documentary work using lightweight film cameras. Required fee for materials: $125. Prerequisite: 4.0 university credits including 1.0 CUST credit or permission of the instructor. Excludes CUST 3185Y.

» CUST 3186H: Workshop: Experimental Film
Students carry out a series of visual exercises in Super-8 film and 16mm film. The emphasis for this course is on avant-garde cinema practices. Required fee for materials: $100. Prerequisite: 4.0 university credits including 1.0 CUST credit or permission of the instructor. Excludes CUST 3185Y.

» CUST-WMST 3250H: Queer Feminisms (see Gender & Women’s Studies)

» CUST-POST 3465H: Politics and Film (see Political Studies)

» CUST-POST 3475H: Media of Politics (see Political Studies)
» CUST 3515H: Modernism and the Avant-Garde
Examines one of the most important cultural movements of the twentieth century—modernism. It traces this movement from its genesis in the dynamic city culture of the fin de siècle, to its embodiment in avant-garde art, literature, and cinema, and concludes by considering its problematic transition into postmodernism. Prerequisite: 4.0 university credits. Excludes CUST 3015Y.

» CUST 3522H: Experimental Fiction
Traces an international “tradition” of modern and contemporary experimental texts, focusing on such figures as Proust, Joyce, Kafka, Borges, Calvino, Nabokov, Cortázar, and Rushdie. Individual works are related to theories of narrative and cognate developments in other arts which help to place them in both aesthetic and cultural contexts. Prerequisite: 4.0 university credits. Excludes CUST 3022Y.

» CUST 3526H: Cli-Fi: Climate Change Fiction
A study of novels, graphic novels, films, and other media that explore the before, during, and after of climate change. Themes include science, technology, capitalism, survival, and the shifting relationship between the human and non-human worlds. Prerequisite: 4.0 university credits. Excludes CUST 4526H.

» CUST 3529H: Utopia (Future Fiction)
A study of the speculative social imagination in utopian and anti-utopian literature of Western modernity. Examines the narrative construction of equality, progress, gender, identity, technoculture, globalization, and cultural politics from More and Bacon in the Renaissance to Orwell, Piercy, and Lem in contemporary science fiction. Prerequisite: 4.0 university credits. Excludes CUST 3029Y.

» CUST 3531H: Mass Media and War
Media coverage of war from the Mexican Revolution to the Iraq War with an emphasis on reportage and the field of journalism. Prerequisite: 4.0 university credits.

» CUST-IDST 3532H: Issues in Global Media
The uses of media for development; problems of global mass media; the Internet and the digital divide; and alternative media such as community radio. Emphasis on culture and mass media in Latin America, but some discussion of other parts of the developing world. Prerequisite: 4.0 university credits. Excludes CUST-IDST 3032Y.

» CUST-COIS 3533H: Game Studies
An introduction to game studies that explores the implications of games and play. What can games tell us about what we value, how we think, and who we are? Prerequisite: 4.0 university credits.

» CUST 3535H: Television Studies
An introduction to television studies with an emphasis on the historical transformations of TV from the 1950s to the YouTube era. Prerequisite: 4.0 university credits.

» CUST 3538H: Radio Studies
Introduction to the history and theory of radio broadcasting from the early twentieth century to the age of the Internet. Prerequisite: 4.0 university credits.

» CUST 3542H: Music Studies: The Black Atlantic
“The Black Atlantic” refers to the radically complex, open-ended cultures of West Africa, the Americas, and Western Europe that formed in the wake of colonialism and the Atlantic slave trade. We consider their musics, including blues, R&B, jazz, funk, soul, Afrobeat, juju, rumba, salsa, reggae, dancehall, and various further hybrids. Prerequisite: 4.0 university credits or permission of the instructor. Excludes CUST 3045Y.
» CUST 3543H: Music Studies: Local Roots and Global Routes
This course listens to traditional music from the British Isles, Japan, India, and Indonesia in dialogue with modern hybrids from around the globe. We engage issues including the problematics of identity politics; modernization and modernity; European and American cultural imperialism; cultural hybridity and issues of authenticity; and class politics and “popular music.” Prerequisite: 4.0 university credits or permission of the instructor. Excludes CUST 3045Y.

» CUST 3545H: Music and Media—An Archaeology
Explores the various functions of music in drama, film, television, and computer games, and considers how media adapt and adapt to a way of communicating that is (at least) as old as human civilization. Prerequisite: 4.0 university credits or permission of the instructor.

» CUST 3547H: Music and Politics
Charts the philosophical heritage of music and community, examines the practical roles of music, musicians, and listeners, and details the rise of music genres based in class, gender, nationality, ethnicity, and other indices of political community. Prerequisite: 4.0 university credits or permission of the instructor; CUST 2045Y recommended. Excludes CUST 4547H.

» CUST 3550H: Studies in Cultural Theory
This seminar reflects on issues in cultural theory. Specific focus will depend on instructor. Prerequisite: 4.0 university credits or permission of the instructor. Excludes CUST 3050Y, 4050Y, 4550H.

» CUST 3556H/3056Y: Place Matters—Art, Letters, and Landscape
Beginning with the question What is landscape?, this course considers landscape in art and letters as an entrance into the very question of place: What is a place? What place is this? A fee of $75 for field excursions. Prerequisite: 4.0 university credits. Students may take only one of CUST 3056Y or 3556H for credit.

» CUST-POST 3571H/3570Y: Cultural Politics (see Political Studies)

» CUST 3572H: Workshop: Epic Theatre
The workshop engages the complicated dialectics in Bertolt Brecht’s “Epic Theatre.” Readings address the political, aesthetic, and cultural contexts for Brecht’s work, as well as the influence of Brecht on subsequent representational and narrative practices. A combination of practical experimentation and critical analysis each week. Prerequisite: 4.0 university credits or permission of the instructor.

» CUST 3573H: Workshop: Theatre of the Absurd
The Theatre of the Absurd has been one of the most influential movements in twentieth and twenty-first century theatre and performance. This course focuses on the development of the ideas and practices that it expresses, and pays particular attention to the dramatic works of Samuel Beckett. Prerequisite: 4.0 university credits.

» CUST 3580H: Text and Image
Considers the relationship between word and image in a range of media objects, including comics, graphic novels, visual essays, graffiti, novels, paintings, and cinema. Also engages the long philosophical tradition of thinking about the relationship between seeable and sayable in such thinkers as Horace, Gotthold, Lessing, Freud, and Foucault. Prerequisite: 4.0 university credits. Excludes CUST 3080Y, 4080Y, 4580H.

» CUST 3581H: World Cinema I: Experiment and Innovation
Explores experiments and innovations in European and American cinemas in their relation to film cultures elsewhere, focusing on the aesthetics and politics of cinematic form. How does the way a film is made influence its meaning and reception? Features films from Africa, Latin America, West Asia, and other regions. Excludes CUST 3081Y.
» CUST 3582H: World Cinema II: Images of Globalization
Considers the problematic of world cinema in contemporary film from the perspective of the impact of globalization on film production internationally. Themes addressed include colonialism and neocolonialism, the national and the postnational, the political economy of film production, film language and cultural authenticity, and feminism and sexuality. Excludes CUST 3081Y.

» CUST-ANTH 3748H: Anthropology of Animation (see Anthropology)

» CUST 3900Y, 3901H, 3902H: Reading Course
A course of individual study supervised by a faculty member. The proposed syllabus requires permission of the instructor and the chair of the department prior to registering in the course. Proposals should be submitted by March 31 for reading courses to begin in the following Fall term, and by November 30 for reading courses due to be taken in the Winter term.

» CUST 4010Y, 4020D: Honours Thesis
CUST 4020D is a double credit in Cultural Studies. CUST 4010Y is a single credit because the same thesis is submitted to the other department/program in a joint-major. A major research project leading to a thesis of about 15,000 words. Deadline for a thesis abstract and bibliography (signed by the thesis supervisor) is May 1 in the student’s third year. Prerequisite: 10.0 university credits including 3.0 CUST credits and permission of instructor.

» CUST 4041Y/4541H: Internship in Media and Cultural Studies
Designed to permit a student in Media Studies or Cultural Studies, under the direction of a faculty member and with the approval of the department, to apply their skills in media to specific practical endeavours. Students must obtain the agreement of a faculty member to supervise the course and apply for permission to enrol prior to the commencement of the session in which the course will be offered. Prerequisite: A minimum 65% cumulative average, 10.0 university credits including 3.0 CUST credits, and permission of the department. Students may take only one of CUST 4041Y or 4541H for credit.

» CUST 4070Y: Advanced Studies in Theatre and the Performing Arts
Special topics have included the history and practice of theatre directing; experimental performance styles of traditionally marginalized groups; parody and performance; the work of Bertolt Brecht; theories of subjectivity and narrative; performance theory and performance art; and genre experimentation. Prerequisite: 10.0 university credits including 3.0 CUST credits or permission of instructor.

» CUST-HIST 4090Y: American Visual Culture (see History)

» CUST 4136H: Workshop: Mediated Realities
Examines diverse spatial media experiences with a focus on documentary, narrative, and visual culture. Engaging through experimentation with mapping and GIS tools, location-based media, augmented reality, and virtual reality, students participate in a major project using the digital imaging resources at Bata Library’s Moore Innovation and Research Hub. Prerequisite: 10.0 university credits including 3.0 CUST credits or permission of instructor.

» CUST 4173H: Workshop: Adaptation and Performance
An advanced performance workshop course that explores the creative possibilities and critical questions that emerge in the process of transferring a text from one medium or genre to another. Primary materials include works by Chekhov, Homer, Malle, Mikhalkov, and Borges. Secondary materials include Bakhtin, Benjamin, Brecht, and Stanislavsky. Prerequisite: 10.0 university credits including 3.0 CUST credits or permission of instructor.

» CUST-FREN-CAST 4229Y: Science-fiction et fantastique québécois / Quebec Science Fiction and Fantasy (see French & Francophone Studies)

» CUST-WMST 4250H: Queer Feminisms (see Gender & Women’s Studies)
» CUST-FREN 4302H: Cinéma francophone / Francophone Cinema (see French & Francophone Studies)

» CUST 4512H: Arts of Conflict: Violence, Art, and The Irish Republican Army
   Explores practical and theoretical conflicts between political violence and its cultural artifacts, including literature, film, murals, sculpture, and parades. The focus is on texts, images, and public displays studied in specific cultural contexts. Prerequisite: 10.0 university credits including 3.0 CUST credits.

» CUST 4515H/4015Y: Art Culture Theory
   An advanced seminar in visual cultural studies that is geopoietic in its study of aesthetically invested sites, whether as representations such as landscapes (pictures and texts), inscriptions as lieux (monuments and architecture), or as events (sojourns and rituals). Occasional field trips. Prerequisite: 10.0 university credits including 3.0 CUST credits or permission of the instructor. Students may take only one of CUST 4015Y or 4515H for credit.

» CUST 4522H: Advanced Topics in Narrative: Handcuffed to (Literary) History
   Examination of ways in which four complex postmodern novels by such authors as Isabel Allende, Thomas Pynchon, Milan Kundera, and Christa Wolf follow, play with, or violate the realist conventions of historical fiction. Theoretical approaches in the course include works by Friedrich Nietzsche, Brian McHale, Linda Hutcheon, and Hayden White. Prerequisite: 10.0 university credits including 3.0 CUST credits or permission of instructor.

» CUST 4523H: Shapeshifters: Narrative Adaptations Across Media
   Engages specific “cases” of adaptations across media, including “Snow White,” Pride and Prejudice, and The Walking Dead, to explore contemporary issues in adaptation studies such as the nature of the object; the question of “fidelity”; and the formal and material conditions of narrative production related to different media. Prerequisite: 10.0 university credits including 3.0 CUST credits; or CUST 1535H, COIS 1010H, and either CUST 2035Y or 2535H; or permission of instructor.

» CUST 4526H: Cli-Fi: Climate Change Fiction
   A study of novels, graphic novels, films, and other media that explore the before, during, and after of climate change. Themes include science, technology, capitalism, survival, and the shifting relationship between the human and non-human worlds. Prerequisite: 10.0 university credits including 3.0 CUST credits or permission of instructor. Excludes CUST 3526H.

» CUST 4529H: Advanced Studies in Science Fiction
   Examines representations of the subject constituted in Western techno culture, including post-human configurations such as the robot, the cyborg, and artificial and virtual intelligence. Fictional and critical/theoretical speculations examine changing understandings of subjectivity, agency, the body, and community in the context of advanced technologies. Prerequisite: 10.0 university credits including 3.0 CUST credits or permission of instructor. Excludes CUST 4029Y.

» CUST 4535H: Contemporary Topics in Media Studies
   Theoretical and critical perspectives on the history, economy, and politics of selected aspects of mass media and popular culture. Previous topics have included zines, underground culture, social media, and the work of scholars like Pierre Bourdieu and Michel Foucault. Prerequisite: 10.0 university credits including 3.0 CUST credits; or CUST 1535H, COIS 1010H, and either CUST 2035Y or 2535H; or permission of instructor. Excludes CUST 4035Y.

» CUST-POST 4538H: Media Ecologies
   Examines some theories and practices for the analysis of media ecologies. “Media ecologies” refers to the worlds, sensibilities, and perceptibilities that our interactions with media enable. Detailed attention is given to media objects, the role of the culture-maker, and the critical political analysis of human/non-human entanglement(s). May include a course fee: $50. Prerequisite: 10.0 university credits including 3.0 CUST credits; or CUST 1535H, COIS 1010H, and either CUST 2035Y or 2535H; or permission of instructor.
» CUST 4547H: Music and Politics  
Charts the philosophical heritage of music and community, examines the practical roles of music, musicians, and listeners, and details the rise of music genres based in class, gender, nationality, ethnicity, and other indices of political community. Prerequisite: 10.0 university credits including 3.0 CUST credits or permission of instructor; CUST 2045Y recommended. Excludes CUST 3547H.

» CUST 4550H: Advanced Studies in Cultural Theory  
This seminar reflects on issues in cultural theory. Specific focus will depend on instructor. Prerequisite: 10.0 university credits including 3.0 CUST credits or permission of the instructor. Excludes CUST 3050Y, 3550H, 4050Y.

» CUST 4565H: Psychoanalysis and Cultural Studies  
Psychoanalysis is a major discourse of our modernity; it has massively influenced how we study and engage with culture. How does the unconscious mediate human creativity? We address the question by staging encounters with cutting-edge thinkers who bring psychoanalytic insights to bear on culture in fresh and exciting ways. Prerequisite: 10.0 university credits including 3.0 CUST credits or permission of instructor. Excludes CUST 4065Y, 49511, 4650.

» CUST 4580H: Text and Image  
Considers the relationship between word and image in a range of media objects, including comics, graphic novels, visual essays, graffiti, novels, paintings, and cinema. Also engages the long philosophical tradition of thinking about the relationship between seeable and sayable in such thinkers as Horace, Gotthold, Lessing, Freud, and Foucault. Excludes CUST 3080Y, 3580H, 4080Y.

» CUST 4586H: Cinema in the Digital Age  
An advanced seminar in film studies that considers the materiality of new media and the effects of new modes of inscription, transmission, and reception on the cultural space of “cinema.” Prerequisite: 10.0 university credits including 3.0 CUST credits; or CUST 1535H, COIS 1010H, and either CUST 2035Y or 2535H; or permission of instructor.

» CUST-FREN 4611H: Littérature et contestation / Literature and Contestation (see French & Francophone Studies)

» CUST-ENGL 4703H: Special Topic: Critical World Building (see English Literature)

» CUST 4900Y, 4901H, 4902H: Reading Course  
A course of individual study supervised by a faculty member. The proposed syllabus requires permission of the instructor and the chair of the department prior to registering in the course. Proposals should be submitted by March 31 for reading courses to begin in the following Fall term, and by November 30 for reading courses due to be taken in the Winter term. Prerequisite: 10.0 university credits including 3.0 CUST credits or permission of instructor.
Ecological Restoration

Application to the Ecological Restoration program is through the Ontario College Application Service: ontariocolleges.ca

trentu.ca/ecologicalrestoration

Program Coordinator
T. Whillans, BA (Guelph), MSc, PhD (Toronto)

Professors
See faculty listings in Environment

Trent University, in collaboration with Fleming College, offers a Joint Degree/Diploma in Ecological Restoration. The Trent-Fleming Ecological Restoration degree/diploma was created in response to growing global recognition of environmental disturbance and the science of remediation. Related to this is the need for a specialized set of skills and knowledge in the environmental sector. As an emerging field of expertise, ecological restoration is learned by direct engagement in the recovery of damaged and degraded ecosystems. The collaboration between Trent and Fleming involves the sharing of faculty, teaching, field study courses, applied projects, and resources over the four years of the program.

Students spend their first two years at Fleming College’s School of Environmental and Natural Resource Sciences in Lindsay, where they build science, planning, and communications skills while practising ecological restoration through field courses and project work. Students then attend Trent University in Peterborough for the final two years of the program, where they can choose either to specialize or continue to balance theory and practice in a more broad-based degree program.

Students graduate at the end of year four with both a college diploma and university degree (BSc Honours) in Ecological Restoration.

Fleming College—Year 1 and Year 2

Semester 1 (Year 1)
COMM0131: Critical Thinking and Communication
ECOS0013: Ecosystem Skills
GEOM0036: Geospatial Techniques (GIS)
MATH0063: Applied Math in Natural Resource Sciences
SCIE0135: Applied Chemistry in Ecological Restoration
SCIE0118: Environmental Science I

Semester 2 (Year 1)
ECOS0027: Introduction to Ecology
FSTY0050: Trees and Shrubs of Ontario
GEOM0021: GIS Principles
SCIE0119: Environmental Science II
SCIE0120: Introductory Chemistry I
Semester 3 (Year 2)
APST0083: Restoration Ecology Field Camp
ECOS0031: Introduction to Indigenous Environmental Studies: History and Culture
FSTY0075: Introduction to Plant Community Systematics
GEOL0021: Principles of Hydrogeology
MATH0086: Math I
SCIE0121: Introductory Chemistry II

Semester 4 (Year 2)
COMM0137: Readings in Environment and Restoration
ECOS0030: Introduction to Indigenous Environmental Studies: Culture and the Environment
MATH0087: Math II
SCIE0136: Methods in Environmental Science
ECOS36: Introduction to Ecological Land Classification

Trent University—Year 3 and Year 4
• 3000- and 4000-level courses may be taken in either year, provided the prerequisites have been met.
• See listing of recommended elective courses. Students are encouraged to enrol in required course options not taken (i.e., 3301H, 3302H, 3311H, 3312H, 3501H, 3502H). Students are encouraged to explore other Environmental & Resource Science/Studies course offerings, as well as those available across the range of Trent departments.
• Suggested field courses are ERSC 3220H, 3230H, 3850H, 3860H, 3870H, 3880H, ERSC/ERST 3905Y, 3906H, 4801H, 4905Y, 4906H, EGEO 3003H, and BIOL 3190H, but other possibilities exist.

Trent University Required Courses
10.0 credits including the following:
– 1.0 ERST credit consisting of ERST 2100H and 3780H
– 1.0 ERSC credit consisting of ERSC 4520H and 4530H
– 1.0 ERST credit from ERST 3301H, 3302H, 3311H, or 3312H (or ERSC/ERST 3300Y or 3310Y)
– 0.5 ERSC credit from ERSC 3501H or 3502H
– 1.0 ERSC and/or ERST elective credit at the 4000 level in addition to the above
– 1.5 ERSC and/or ERST elective credits in addition to the above
– 2.5 additional elective credits at the 3000 level or beyond
– 1.5 additional elective credits
– At least 4.0 of the 6.5 elective credits must be science credits
– An approved field course at the 3000 or 4000 level must be included in the total 10.0 credits
Economics

trentu.ca/economics

Professor and Chair of the Department

B. Lew, BSc, MBA (Alberta), PhD (Queen’s)

Professors

M. Arvin, BSc (London), MPhil (Oxford), PhD (Queen’s)
B. Cater, BA, MA (Toronto), PhD (York)
S. Choudhry, MA (Chittagong), MA (McGill), PhD (Manitoba) (on leave Winter 2020)

Senior Lecturer

Z. Kayani, BA (Karachi), MSc (Islamabad), PhD (Washington State)

Associated Faculty

Economics is the academic discipline most discussed by the general public, yet it is also one of the least understood. Economics is the social science that deals with problems of scarcity through a systematic and logical framework for analyzing how a society solves such problems as which goods and services to produce, how to organize production, and for whom goods and services are to be produced. Knowledge of economics is necessary for understanding and dealing intelligently with current topics like unemployment, economic growth, income inequality, the environment, globalization, and various forms of market regulation. Besides its importance in understanding contemporary social issues, economics is useful in developing career skills for business, law, teaching, public administration, and research. Both verbal and mathematical training are involved in the study of economics.

Notes

• 60% or higher in ECON 1010H and 1020H is a prerequisite for all upper-level Economics courses, with the possible exception of cross-listed courses, for which students should check the prerequisites.
• Courses in Economics fulfilling University science course requirements for the BSc are marked “Sc” in the individual course descriptions.
• ECON 2000H, 2010H, and 2610H are considered equivalent to the 3000 level in order to satisfy the University requirement for at least 7.0 credits beyond the 2000 level in the Honours program and at least 4.0 in the General program.
• It is strongly recommended that students in the single-major Honours program complete ECON 3200H and 3250H within the first 14.0 credits.
• It is strongly recommended that students in the joint-major Honours program complete ECON-ADMN 2250H and ECON 3200H within the first 14.0 credits.
• ECON 4010Y may be substituted (by Economics majors only) for ECON 4041H under specific conditions. Students wishing to pursue this option must obtain departmental approval by April 30 of the preceding year.
Bachelor of Arts and Bachelor of Science Programs in Economics

• In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).
• The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.
• ECON-ADMN 2200H and ECON 3200H fulfill the requirement for 1.0 MATH credit for the BSc in Economics.

The single-major Honours program. 20.0 credits which includes the following 9.5 credits:
- 6.5 ECON credits consisting of ECON 1010H, 1020H, 2000H, 2010H, 2200H, 2250H, 3000H, 3010H, 3200H, 3250H, 4000H, 4041H (or 4040Y), and 4050H
- 1.0 ECON credit at the 3000 level or beyond in addition to the above
- 2.0 ECON credits in addition to the above
- For the BSc, 14.0 science credits are required for the Honours degree, including 1.0 MATH credit

The joint-major Honours program. 20.0 credits which includes the following 7.0 credits:
- 4.0 ECON credits consisting of ECON 1010H, 1020H, 2000H, 2010H, 2200H, 2250H, 3200H, and 4041H (or 4040Y)
- 1.0 ECON credit from ECON 3000H and 4000H or from ECON 3010H and 4050H
- 0.5 ECON credit at the 3000 level or beyond in addition to the above
- 1.5 ECON credits in addition to the above
- For the BSc, 14.0 science credits are required for the Honours degree, including 1.0 MATH credit

The single-major General program. 15.0 credits which includes the following 6.0 credits:
- 3.0 ECON credits in addition to the above
- For the BSc, 11.0 science credits are required for the General degree, including 1.0 MATH credit

The joint-major General program. 15.0 credits which includes the following 5.0 credits:
- 2.0 ECON credits consisting of ECON 1010H, 1020H, 2000H, and 2010H
- 3.0 ECON credits in addition to the above
- For the BSc, 11.0 science credits are required for the General degree, including 1.0 MATH credit

The minor in Economics consists of the following 5.0 credits:
- 2.0 ECON credits consisting of ECON 1010H, 1020H, 2000H, and 2010H
- 3.0 ECON credits in addition to the above
» ECON 1010H: Introductory Microeconomics (Sc)
An introductory treatment of markets, prices, and outputs based on the behaviour of consumers, business firms, and the structure and organization of industries. Selected economic and social policies, including taxation, international markets, and trade policy, are also examined.

» ECON 1020H: Introductory Macroeconomics (Sc)
An introductory study of the total economy in terms of GDP, employment, unemployment, prices, and inflation using simple economic models. The Canadian banking system, monetary policy, the government sector, government budgets, and fiscal policy are examined. Selected aspects of international trade, the balance of payments, and exchange rates are included.

» ECON 2000H: Intermediate Microeconomic Theory I (Sc)
An examination of problems of demand and supply, market equilibrium, and market structure. A comprehensive treatment of the theoretical techniques used to deal with problems of resource allocation and applications of those techniques. Develops skills necessary for advanced work in economics. Prerequisite: 60% or higher in ECON 1010H and 1020H.

» ECON 2010H: Intermediate Macroeconomic Theory I (Sc)
A study of output (GDP), employment, and inflation in the national economy, including the effects of monetary, fiscal, and exchange rate policies. Current macroeconomic models are used to examine fluctuations in economic activity, and the objectives, design, implementation, and evaluation of monetary and fiscal policies. Prerequisite: 60% or higher in ECON 1010H and 1020H.

» ECON-NURS-SOCI 2015H: Critical Perspectives on Aging (Sc) (see Nursing)

» ECON-ADMN 2200H: Introduction to Statistics for Economics and Management (Sc)
Introduces statistical methods in an applied setting with an emphasis on the development of theory through interactive learning. The material covered includes descriptive statistics, data analysis, inference, and estimation techniques. Prerequisite: 60% or higher in ECON 1010H and 1020H.

» ECON-ADMN 2250H: Introduction to Mathematics for Economics and Management (Sc)
Topics include partial and general equilibrium, elementary linear algebra, elementary calculus, basic optimization theory, comparative static analysis, and linear programming. These tools are integrated with and applied to micro and macroeconomic theory and managerial economics. Prerequisite: 60% or higher in ECON 1010H and 1020H.

» ECON-CAST 2610H: The Canadian Economy
Problems and policies in Canadian economic development since 1929. Topics include the legacy of the Depression; government policy on trade, immigration, and foreign investment; macroeconomic stabilization and social welfare; trends in employment and unemployment; exchange rate policy; fiscal policy; and government budget deficits. Prerequisite: 60% or higher in ECON 1010H and 1020H.

» ECON 3000H: Intermediate Microeconomic Theory II (Sc)
A continuation of ECON 2000H, examining the theory of general equilibrium, factor markets, externalities, public goods, and asymmetric information. Game theory is introduced. Prerequisite: ECON 2000H.

» ECON 3010H: Intermediate Macroeconomic Theory II (Sc)
A study of the monetary theory and financial markets as they relate to the performance of the aggregate economy and affect the design, implementation, and impact of monetary policy in Canadian and international contexts. Prerequisite: ECON 2010H.
» **ECON 3020H: Financial Economics**  
An introduction to the economic analysis of investment decisions and financial markets. Key concepts include present-value formula, market efficiency, portfolio choice, risk, arbitrage, and asymmetric information. Prerequisite: 60% or higher in ECON 1010H and 1020H.

» **ECON 3050H: Islamic Finance and Economics**  
The study of Islamic finance and economics introduces students to financing using alternatives to the interest rate. The course explores the principles governing Islamic finance, banking, insurance, money, and capital markets. It examines Islamic finance and banking in the global economy, with attention to the Canadian financial environment. Prerequisite: 60% or higher in ECON 1010H and 1020H.

» **ECON 3100H: Economic Growth**  
An exploration of the underlying determinants of economic growth, including factor accumulation and technological progress. Considers the importance of political and social institutions for the process of economic development. Topics include capital accumulation, human capital acquisition, technological change, commodity and factor flows, income inequality, climate change, and government policies. Prerequisite: 60% or higher in ECON 1010H and 1020H.

» **ECON 3110H: International Trade (Sc)**  
Topics include theories of world trade and the analysis of trade policy and trade relationships in the world economy; the theory and practice of protectionism and preferential trade arrangements; the political economy of trade policy; the role and performance of international organizations; environmental aspects of trade; and international labour standards and trade. Support course for International Development Studies. Prerequisite: 60% or higher in ECON 1010H and 1020H.

» **ECON 3120H: International Finance (Sc)**  
Topics include the operation of international money and capital markets; theoretical and policy aspects of exchange rates and the balance of payments; macroeconomic management of domestic open economies; and the evolution, management, and reform of the international financial system. Support course for International Development Studies. Prerequisite: 60% or higher in ECON 1010H and 1020H.

» **ECON 3160H: Public Economics (Sc)**  
Efficiency criteria is emphasized in the theory and provision of public goods, voting behaviour, intergovernmental grants, and fiscal federalism. Focus on discussion of the efficiency and equity criteria in the theory and practice of personal and corporate income taxes, payroll taxation, and local government taxation in Canada. Prerequisite: 60% or higher in ECON 1010H and 1020H.

» **ECON 3200H: Econometrics (Sc)**  
Provides an elementary but comprehensive introduction to econometrics. Simple and multiple regression, regression diagnostics, and problems with testing economic relationships are all introduced within the classical regression framework. Prerequisite: ECON-ADMN 2200H and 2250H; or MATH 2560H; or MATH 2570H. Pre- or co-requisite: Both ECON 2000H and 2010H or permission of instructor.

» **ECON 3210H: Applied Econometrics (Sc)**  
Integrates economic theory, econometric technique, and practical applications in empirical economics. The emphasis in this course is on the issues which arise in building empirical models. Students gain practical skill in the development of empirical models of the economy. Prerequisite: ECON 3200H or permission of the instructor.
» **ECON 3250H: Mathematical Economics and Economic Models (Sc)**
A continuation of ECON-ADMN 2250H. Mathematical techniques are used to set and solve economic problems. Topics include total differentiation, comparative static analysis under equilibrium models, unconstrained optimization, classical programming, concavity, convexity, quasi-concavity and quasi-convexity, homogeneous functions, integral calculus, exponential and logarithmic functions. Economic applications are stressed throughout. Prerequisite: ECON-ADMN 2250H or equivalent. Pre- or co-requisite: ECON 2000H and 2010H, or permission of instructor.

» **ECON-ADMN-IDST 3310H: The Economics of Developing Countries (Sc)**
Examines alternative models of growth and development, sectoral problems of LDCs (agriculture, education, health, environmental issues, etc.), planning strategies for economic development, and the diversity of the development experience. Prerequisite: 60% or higher in ECON 1010H and 1020H.

» **ECON-ADMN-IDST 3330H: The Economics of Global Interdependence (Sc)**
The world economy and the place of less developed nations in an increasingly interdependent global system. Topics include a market-friendly strategy for the poor; globalization and its impacts; the growing literature on foreign aid and debt; the oil crisis; water scarcity and the potential for international water conflicts. Prerequisite: 60% or higher in ECON 1010H and 1020H.

» **ECON 3400H: Managerial Economics**
A study of the various ways in which microeconomic principles and quantitative tools can be used to aid managers in making sound decisions. Topics include forecasting consumer demand, production and cost analysis, optimal pricing and production decisions, optimal hiring and investment decisions, and capital budgeting. Prerequisite: 60% or higher in ECON 1010H and 1020H.

» **ECON 3410H: Industrial Organization (Sc)**
Study of markets, including perfect competition, monopoly, and imperfect competition. Special topics include product differentiation, collusion, measures of market concentration, mergers and vertical integration, predatory pricing, entry deterrence, advertising, vertical restraints, and antitrust policies. Prerequisite: ECON 2000H. Pre- or co-requisite: ECON-ADMN 2250H or equivalent.

» **ECON 3500H: Economics of Industrial Relations**
Topics include employer–employee relations, human resource management, theory and practice of collective bargaining, strikes, economic aspects of unions, and economics of labour policy. Prerequisite: 60% or higher in ECON 1010H and 1020H.

» **ECON 3510H: Labour Economics (Sc)**
The economic theory of labour markets used to understand their outcomes and evaluate policies. Topics include wage determination, minimum wages, human capital theory, returns to schooling, optimal compensation, and unemployment. Prerequisite: ECON 2000H.

» **ECON-ERSC 3810H: Environmental Economics (Sc)**
Examines the links between economic activity and environmental degradation. Topics include the valuation of environmental amenities, the use of incentives in regulation, the economics and environmental effects of market failure, and the rationale for government intervention. Prerequisite: 60% or higher in ECON 1010H and 1020H or permission of instructor.

» **ECON 3840H: Health Economics**
Economic analysis of the organization, financing, and utilization of health services. Topics include patterns of consumer and provider behaviour, the functioning and regulation of markets for health services, and policy issues in the provision of health care in Canada. Prerequisite: 60% or higher in ECON 1010H and 1020H or permission of instructor.
» **ECON 3900Y, 3901H: Reading Course**  
Provides an opportunity for more intensive or broader study of a selected topic under the guidance of a faculty member. Prerequisite: 9.0 university credits, 60% or higher in ECON 1010H and 1020H, and permission of department chair.

» **ECON 4000H: Topics in Advanced Microeconomic Theory (Sc)**  
Topics include development of utility theory from axiomatic preference theory; the structure of utility functions; duality in consumer theory; decision-making under uncertainty; general equilibrium models; welfare economics; and game theory. Prerequisite: ECON 3000H, ECON-ADMN 2200H or equivalent, and 2250H or equivalent.

» **ECON 4010Y: Research Project (Sc)**  
Designed to help students develop independent research skills by working on a topic of individual interest, under the close supervision of a faculty advisor. Prerequisite: Open only to Honours Economics students who have earned at least 14.0 university credits, provided specific departmental criteria are met. Students must consult with the department prior to registration. Department approval by April 30 of the preceding year is required.

» **ECON 4041H: Research Methodology in Economics (Sc)**  
Designed to develop students’ abilities to conduct empirical research in economics. Students explore various forms of economic data and interpret and test economic models by applying statistical methods developed in the course of the program to interpret the data and draw inferences about the economic model tested. Prerequisite: Open only to Honours Economics students who have earned at least 14.0 university credits, including ECON 2000H, 2010H, and 3200H. Excludes ECON 4040Y.

» **ECON 4050H: Topics in Advanced Macroeconomics (Sc)**  
A study of selected topics and issues, including output and inflation models, business cycles and fluctuations, and alternative approaches to monetary and fiscal policy design and implementation. Prerequisite: ECON 3010H, ECON-ADMN 2200H or equivalent, and 2250H or equivalent.

» **ECON 4200H: Topics in Econometrics (Sc)**  
Examines theory and practice in the estimation and testing of economic models with an emphasis on alternatives to simple regression, as they relate to particular economic and statistical issues in an applied setting. Students gain experience in evaluating and refining empirical models of economic phenomena. Prerequisite: ECON 3200H.

» **ECON-MATH 4251H: Advanced Mathematical Methods for Economics (Sc) (see Mathematics)**

» **ECON 4900Y, 4901H: Reading Course**  
Provides an opportunity for more intensive or broader study of a selected topic under the guidance of a faculty member. Prerequisite: Open to students who have earned at least 14.0 university credits and have achieved an average of at least 75% in ECON courses completed, and permission of department chair.
Trent University offers four options for students intending to teach at the Elementary or Secondary levels in the Ontario School system:

- **Consecutive Bachelor of Education program** (p. 144), leading to a BEd from Trent University, open to students who have already completed a university degree.
- **Concurrent Bachelor of Education – Indigenous program** (p. 148), leading to a BEd from Trent University, open to self-identified Indigenous students.
- **Teacher Education Stream** (p. 159), a direct-entry program designed for students planning to teach at the elementary or secondary level. Students in the Teacher Education Stream who complete an Honours degree are eligible to be considered for a limited number of reserved spaces in the Trent Consecutive Bachelor of Education program (p. 144).
- **Option in Education** (p. 406), for students in an Honours or General program at Trent University who plan to apply to a Consecutive Education program at Trent University or elsewhere after completing their Trent degree.

### Consecutive Bachelor of Education Program

[trentu.ca/education/consecutive](http://trentu.ca/education/consecutive)

**Professor and Dean of the School of Education and Professional Learning**

- **C. Bruce**, BA, BEd (York), MA, PhD (Toronto)

**Professors**

- **P. Elliott**, BSc, PhD (Wales)
- **L. Iannacci**, BA, BEd (York), MEd, PhD (Western)
- **K. Young**, BA, BEd, MEd, PhD (York)

**Associate Professors**

- **N. Bell**, BA (Trent), BEd, MEd (Queen’s), PhD (Trent)
- **J. Muldoon**, BSc (Brock), MA (Guelph), PhD (McMaster)
- **B. Niblett**, BA, BOR, BEd, MEd, PhD (Lakehead)
- **K. Pendleton Jiménez**, BA (UC Berkeley), MFA (San Diego State), PhD (York)
- **W. Smale**, HBPE, BSc, BEd, MEd (Lakehead), PhD (Alberta) (on leave Winter 2020)

**Senior Lecturer**

- **C. Mooney**, BEd (South Hampton), MA (Open)

The School of Education and Professional Learning, which offers the Consecutive Bachelor of Education program, combines attention to individual learners in small class settings with a community-based approach. The program is guided by a philosophy of ecological and social justice, recognition of learner diversity, and a commitment to professional performance. Through foundations and curriculum courses, candidates are provided the opportunity to engage critically with recent advances in theory, research, and practice. Teaching placements allow candidates to ground their learning in practical classroom experience, as they attend to individual student needs, multiple modes of learning, human diversity, and curriculum-building. Distinctive aspects of the Trent BEd include: a reading tutoring program, an alternative settings placement, expertise in special needs, professional identity development, multiple literacies, and legal aspects of education. The
Consecutive Bachelor of Education program is accredited by the Ontario College of Teachers and meets all of the core content areas mandated under regulation. The School collaborates closely with educators in the region, including those working in primary and secondary schools, local colleges, and community organizations.

Full-time programs of study are offered for students interested in teaching at the Primary/Junior levels (K–Grade 6) or at the Intermediate/Senior levels (Grades 7–12). The full-time program is a two-year program where students complete two terms (fall and winter) in each of two consecutive years. Teaching subjects at the Intermediate/Senior levels include: Biology, Chemistry, Computer Studies, Dramatic Arts, English, French as a Second Language, Geography, Health and Physical Education, History, Mathematics, First Nations, Métis and Inuit Studies, Physics, and Visual Arts.

**Admission Requirements**

Applicants must have an approved degree from an accredited degree-granting institution and a minimum average of 70%, based upon the last 10.0 full-year credits (or equivalents) in an undergraduate degree program completed at the time of application. College transfer courses will not be considered. Applicants are also required to submit a Profile of Experience including the names of two referees. For further details on the academic requirements and information about the Profile of Experience, please consult trentu.ca/education/consecutive. Applicants with Honours (4-year) degrees are given preference over those with General (3-year) degrees. Members of a visible racial minority, Aboriginal peoples, and persons with a disability may apply for an equity admissions place in the Bachelor of Education program using the Equity Admission Form.

**English Proficiency Requirements**

English is the normal language of instruction and communication at Trent University. Therefore, an applicant whose primary language is not English, or whose previous education has been conducted in another language, must demonstrate a command of English sufficient to meet the demands of classroom instruction, written assignments, and participation in tutorials and discussions.

All applicants are required to meet one of the following criteria:

1. Their mother tongue or first language is English.
2. They have studied full-time for at least three years in a university where the language of instruction and examination was English and which was located in a country where the dominant language spoken is English.
3. They have achieved the required level of proficiency on one of the following English language tests:
   - TOEFL (Test of English as a Foreign Language)
     - Paper-based (PBT) and Test of Spoken English (TSE): A score of at least 600 on the paper-based TOEFL, with scores of at least 58 on each of the listening and reading components, 5.5 on the Test of Written English (TWE), and a minimum score of 60 on the TSE.
     - Internet-based (IBT): An overall score of 100.
   - IELTS (International English Language Testing Services): An overall score of at least 7 on the Academic Module of IELTS with scores of at least 6.5 in reading and listening and scores of at least 7 in writing and speaking.
   - MELAB (Michigan English Language Assessment Battery): An overall score of 92.

Please be advised that English language proficiency score requirements are subject to change. Candidates are expected to have a demonstrated proficiency in English. The University reserves the right to require English language testing, upgrading, or withdrawal from the program if candidates do not meet the expected level of proficiency.
Certification
Successful completion of the practicum is a necessary requirement for successful completion of the program. Upon successful completion of the program, candidates are awarded a BEd degree. The School of Education and Professional Learning reserves the right to recommend candidates to the Ontario College of Teachers for the Certificate of Qualification to teach in Ontario. Non-Canadians completing the program may be recommended to the College but it is the responsibility of the candidates to provide acceptable and appropriate immigration documentation permitting them to work in Ontario. For further information about the Ontario College of Teachers, please see oct.ca.

Notes
- “Q” signifies 0.25 credit; “H” signifies 0.5 credit; “Y” signifies 1.0 credit; “P” signifies 0.0 credit.
- All program options require 10.0 credits. The Catholic stream requires an additional 0.25 credit for a total of 10.25 credits.
- A minimum grade of 70% is required in all BEd courses for the Consecutive Bachelor of Education degree.
- Numerical equivalents of letter grades for courses offered by the Bachelor of Education (BEd) program read as follows: A+ (90-100), A (85-89); A- (80-84); B+ (77-79); B (73-76); B- (70-72); F (0-69).
- A student who has failed (a grade of less than 70%) two or more courses, or who has failed a single course twice, may not continue in the program without re-application and acceptance to the BEd program.
- In order to graduate, teacher candidates must successfully complete four placements: classroom practicum year 1, classroom practicum year 2, supporting literacy placement, and alternative settings placement.
- Any teacher candidate who receives a final rating of unsuccessful in two placements will fail the practicum component of the program and will not receive the BEd or be recommended for certification by the Ontario College of Teachers.
- All curriculum courses incorporate Ontario Curriculum policy documents and other related Ministry policy documents that direct the professional practice of teachers in Ontario.
- All courses reflect the Ontario College of Teachers’ Foundations of Professional Practice, incorporating ethical standards and standards of practice.
Program Options

1. **The Primary/Junior streams in the public school system.** 10.0 EDUC credits consisting of:
   
   **Year 1**
   - 5.0 EDUC credits consisting of EDUC 4100H, 4121H, 4133H, 4300P, 4301Y, 4313H, 4361H, 4561H, 4571H, and 4574H

   **Year 2**
   - 4.5 EDUC credits consisting of EDUC 4302Y, 4335H, 4336H, 4341H, 4362H, 4563H, 4564H, and 4573H
   - 0.5 EDUC credit from EDUC 4223H, 4381H, 4382H, 4383H, 4384H, 4385H, 4386H, or 4387H

2. **The Primary/Junior streams in the Catholic school system.** 10.25 EDUC credits consisting of:
   
   **Year 1**

   **Year 2**
   - 4.5 EDUC credits consisting of EDUC 4302Y, 4335H, 4336H, 4341H, 4364H, 4563H, 4564H, and 4573H
   - 0.5 EDUC credit from EDUC 4223H, 4381H, 4382H, 4383H, 4384H, 4385H, 4386H, or 4387H

3. **The Intermediate/Senior streams in the public school system.** 10.0 EDUC credits consisting of:
   
   **Year 1**
   - 3.5 EDUC credits consisting of EDUC 4200H, 4221H, 4233H, 4251H, 4300P, 4301Y, and 4361H
   - 2.0 EDUC credits from EDUC 4661Y, 4662Y, 4663Y, 4664Y, 4665Y, 4671Y, 4672Y, 4673Y, 4674Y, 4675Y, 4676Y, 4681Y, or 4682Y

   **Year 2**
   - 4.0 EDUC credits consisting of EDUC 4302Y, 4252H, 4313H, 4335H, 4336H, 4341H, and 4362H
   - 0.5 EDUC credit from EDUC 4223H, 4381H, 4382H, 4383H, 4384H, 4385H, 4386H, or 4387H

4. **Intermediate/Senior streams in the Catholic school system.** 10.25 EDUC credits consisting of:
   
   **Year 1**
   - 3.75 EDUC credits consisting of EDUC 4200H, 4221H, 4233H, 4251H, 4300P, 4301Y, 4344Q, and 4363H
   - 2.0 EDUC credits from EDUC 4661Y, 4662Y, 4663Y, 4664Y, 4665Y, 4671Y, 4672Y, 4673Y, 4674Y, 4675Y, 4676Y, 4681Y, or 4682Y

   **Year 2**
   - 4.0 EDUC credits consisting of EDUC 4302Y, 4252H, 4313H, 4335H, 4336H, 4341H, and 4364H
   - 0.5 EDUC credit from EDUC 4223H, 4381H, 4382H, 4383H, 4384H, 4385H, 4386H, or 4387H
Concurrent Bachelor of Education – Indigenous Program

Program Coordinator

N. Bell, BA (Trent), BEd, MEd (Queen’s), PhD (Trent)

The Bachelor of Education – Indigenous is a five-year concurrent degree program designed for Indigenous learners who are aiming to be Ontario-qualified educators (see program notes below for details). The program prepares students to teach in urban; rural; First Nations, Métis, Inuit (FNMI) communities; Public, and Catholic educational settings and supports them in developing a deep understanding of Indigenous cultures, knowledges, and languages. An emphasis on Indigenous ways of knowing and learning is central throughout the five years of the program, which includes a series of core courses that build these understandings while considering how they apply to educational contexts such as schooling, learning from the land, learning from Elders, and related experiences. The program also equips students with essential content knowledge and skills related to disciplines/subjects in Ontario schools at the Primary/Junior and Intermediate/Senior levels, particularly in the two final professional years of the program. Successful graduates will receive a Bachelor of Education degree and may also qualify for a General Bachelor of Arts or Bachelor of Science degree.

Admission Requirements

Applicants to the Bachelor of Education – Indigenous program must meet secondary school admission requirements (see Admissions, p. 453), and self-identify as having Indigenous ancestry (First Nations, Métis, or Inuit) using the Equity Admission Form.

Applicants who have attended a postsecondary institution may qualify for advanced standing in the program. Transfer credits will be evaluated on an individual basis.

For further details on admission requirements, please consult trentu.ca/futurestudents/program/indigenous-bachelor-education.

English Proficiency Requirements

English is the normal language of instruction and communication at Trent University. Therefore, an applicant whose primary language is not English, or whose previous education has been conducted in another language, must demonstrate a command of English sufficient to meet the demands of classroom instruction, written assignments, and participation in tutorials and discussions.

All applicants are required to meet one of the following criteria:

1. Their mother tongue or first language is English.

2. They have studied full-time for at least three years in a university where the language of instruction and examination was English and which was located in a country where the dominant language spoken is English.

3. They have achieved the required level of proficiency on one of the following English language tests:

   - TOEFL (Test of English as a Foreign Language).
     - Paper-based (PBT) and Test of Spoken English (TSE): A score of at least 600 on the paper-based TOEFL, with scores of at least 58 on each of the listening and reading components, 5.5 on the Test of Written English (TWE), and a minimum score of 60 on the TSE.
     - Internet-based (IBT): An overall score of 100.

   - IELTS (International English Language Testing Services): An overall score of at least 7 on the Academic Module of IELTS with scores of at least 6.5 in reading and listening and scores of at least 7 in writing and speaking.

   - MELAB (Michigan English Language Assessment Battery): An overall score of 92.
Please be advised that English language proficiency score requirements are subject to change. Candidates are expected to have a demonstrated proficiency in English. The University reserves the right to require English language testing, upgrading, or withdrawal from the program if candidates do not meet the expected level of proficiency.

Certification

Successful completion of the field and workshop experiences (years 1-3) and the practica and placements (years 4-5) are necessary requirements for successful completion of the program. Upon successful completion of the program, candidates are awarded a BEd degree. The School of Education and Professional Learning reserves the right to recommend candidates to the Ontario College of Teachers for the Certificate of Qualification to teach in Ontario. Non-Canadians completing the program may be recommended to the College but it is the responsibility of the candidates to provide acceptable and appropriate immigration documentation permitting them to work in Ontario. For further information about the Ontario College of Teachers, please see oct.ca.

Notes

• In addition to the program requirements listed below, students may choose to pursue a major in Indigenous Studies or another single-major General program in the first three years of study. Students who have fulfilled the program-specific and University degree requirements for a General degree will graduate with both a Bachelor of Education and a Bachelor of Arts (General) or a Bachelor of Science (General) in the chosen discipline.
• Students must include at least 3.0 credits with a grade of 60% or higher, leading to majors in different disciplines, in the first three years of the program.
• Students should ensure that they have satisfied the University degree requirement for at least 4.0 credits at the 3000 level or beyond.
• Students must have an academic status of Good Standing (a minimum cumulative average of 60%) at the completion of year 3 to continue to year 4.
• A minimum grade of 70% in all EDUC courses is required for the Bachelor of Education – Indigenous degree.
• “Q” signifies 0.25 credit; “H” signifies 0.5 credit; “Y” signifies 1.0 credit; “P” signifies 0.0 credit.
• Numerical equivalents of letter grades for EDUC courses offered by the School of Education read as follows: A+ (90-100), A (85-89); A- (80-84); B+ (77-79); B (73-76); B- (70-72); F (0-69).
• A student who has failed (a grade of less than 70%) two or more EDUC courses, or who has failed a single EDUC course twice, may not continue in the program without re-application and acceptance to the BEd – Indigenous program.
• In order to graduate, teacher candidates must successfully complete: field experiences and workshops (years 1-3); four classroom practica, literacy tutoring placement, and alternative settings placement (years 4-5).
• Any teacher candidate who receives a final rating of unsuccessful in two placements will fail the practicum component of the program and will not receive the BEd or be recommended for certification by the Ontario College of Teachers.
• All curriculum courses incorporate Ontario Curriculum policy documents and other related Ministry policy documents that direct the professional practice of teachers in Ontario.
• All courses reflect the Ontario College of Teachers’ Foundations of Professional Practice, incorporating ethical standards and standards of practice.
Program Options

- Students elect to specialize in one of two teaching divisions: Primary/Junior (Grades JK to 6) or Intermediate/Senior (Grades 7 to 12).
- Students in the Intermediate/Senior division will select course electives based on their personal choice of teaching specializations.
- For Education course descriptions, see below. For Arts & Science course descriptions, please see Indigenous Studies (p. 263) and other relevant program sections of the Calendar.
- Please consult the academic timetable, available through myTrent, for information on Arts & Science (Year 1 – Year 3) courses that will be offered in 2017–2018, including when they will be scheduled.

Primary/Junior Program

Year 1
- 1.0 INDG credit consisting of INDG 1001H and 1002H (or 1000Y)
- 1.0 INDG credit from INDG 2250Y or 2800Y
- 3.0 credits in addition to the above

Year 2
- 2.0 INDG credits consisting of INDG 2100Y and 2480Y
- 1.0 MATH credit consisting of MATH 2080Y
- 2.0 credits in addition to the above

Year 3
- 1.0 INDG credit consisting of INDG 3350Y
- 4.0 credits in addition to the above

Year 4
- 5.25 EDUC credits consisting of EDUC 4100H, 4133H, 4301Y, 4335H, 4344Q, 4421H, 4461H, 4464H, 4474H, and 4571H

Year 5
- 4.5 EDUC credits consisting of EDUC 4300P, 4301Y, 4313H, 4336H, 4341H, 4463H, 4465H, 4473H, and 4564H
- 0.5 EDUC credit from EDUC 4223H, 4381H, 4382H, 4383H, 4384H, 4385H, 4386H, or 4387H

Intermediate/Senior Program

Years 1–3
- 3.0 INDG credits consisting of INDG 1001H and 1002H (or 1000Y) and 2100Y and 3350Y
- 1.0 INDG credit from INDG 2250Y or 2800Y
- 12.0 credits in addition to the above, at least 5.0 credits in the first teaching specialization and at least 3.0 credits in the second teaching specialization (or 4.0 credits if the second teaching specialization is French or Ojibway)
Year 4

- 3.75 EDUC credits consisting of EDUC 4200H, 4233H, 4251H, 4301Y, 4335H, 4344Q, and 4464H
- 2.0 EDUC credits from EDUC 4661Y, 4662Y, 4663Y, 4664Y, 4665Y, 4671Y, 4672Y, 4673Y, 4674Y, 4675Y, 4676Y, 4681Y, or 4682Y

Year 5

- 4.0 EDUC credits consisting of EDUC 4252H, 4300P, 4302Y, 4313H, 4341H, 4336H, 4421H, and 4465H
- 0.5 EDUC credit from EDUC 4223H, 4381H, 4382H, 4383H, 4384H, 4385H, 4386H, or 4387H

Foundational Courses

» EDUC 4121H: Creating a Positive Learning Environment Through the Theoretical and Practical Approaches to Classroom Management (Primary/Junior)
Examines current theories of instructional design and classroom management as they interact to create a positive learning environment in the Primary/Junior context. Students examine and critically assess contemporary models of design and management to develop personal philosophies related to their own teaching.

» EDUC 4133H: Supporting Literacy and Learners with Special Needs (Primary/Junior)
An introduction to current educational research, theory, and professional practice regarding literacy instruction and learning diversity in supporting learners with special needs. Asset-oriented theoretical principles and approaches and models of inclusion informed by critical disabilities studies perspectives are explored. Provides a sound introduction to differentiated instruction and teachers’ legal and ethical responsibilities towards learners with special needs. Co-requisite: EDUC 4100H.

» EDUC 4221H: Creating a Positive Learning Environment Through the Theoretical and Practical Approaches to Classroom Management (Intermediate/Senior)
Examines current theories of instructional design and classroom management as they interact to create a positive learning environment in the Intermediate/Senior context. Students examine and critically assess contemporary models of design and management to develop personal philosophies related to their own teaching.

» EDUC 4233H: Supporting Literacy and Learners with Special Needs (Intermediate/Senior)
An introduction to current educational research, theory, and best practices regarding literacy instruction and learning diversity in supporting learners with special needs at the Intermediate/Senior levels. Models of inclusion and individualized instruction are explored with emphasis on legal responsibilities, program modification, and classroom accommodation. Co-requisite: EDUC 4200H.

» EDUC 4251H: Teaching Intermediate Learners Part 1 (Intermediate/Senior)
Critically examines the social, emotional, intellectual, and physical maturity and well-being of the adolescent learner from a range of researched and practical perspectives. Through supported theorizing, teacher candidates reflect on, and make sense of, practicum experiences in Grades 7-8.

» EDUC 4252H: Teaching Intermediate Learners Part 2 (Intermediate/Senior)
Participants develop teaching expertise across a wide range of disciplines and within disciplines to meet the needs of the adolescent learner. Participants develop and refine a detailed and integrated unit of study beyond their own teachable disciplines. Prerequisite: EDUC 4251H.
» EDUC 4313H: Sociocultural Perspectives on Human Development and Learning (Primary/Junior and Intermediate/Senior)
Offers a critical approach to the understanding of sociocultural and cognitive theories of human development. Examines how these theories apply to multiple contexts of education, including systemic processes, classroom practices, and embodied teaching and learning.

» EDUC 4335H: Indigenous, Environmental, and Sustainability Education (Primary/Junior and Intermediate/Senior) (ICR)
Examines current issues and theories of Indigenous education, environmental and eco-justice pedagogies, and cultural and linguistic diversity as they pertain to the learning environment for K-12 classrooms. Students examine and critically assess these issues and theories as they develop personal philosophies related to their own teaching and learning. Prerequisite: Open only to students in year 2 of the BEd program.

» EDUC 4336H: Cultural and Linguistic Diversity (CLD) (Primary/Junior and Intermediate/Senior)
Focuses on the culturally and linguistically diverse (CLD) learner at the elementary and secondary levels. Teacher candidates assess and apply theories of second language acquisition and learning to the development of instruction, programming, and assessment for CLD learners. A critical multicultural lens informs the course. Culturally responsive pedagogies are explored. Prerequisite: Open only to students in year 2 of the BEd program.

» EDUC 4341H: Educational Law, Ethics, and Professional Conduct (Primary/Junior and Intermediate/Senior)
Provides an overview of legal, ethical, and professional issues. Introduces past and current theoretical/philosophical knowledge in applied educational ethics as practiced in the profession. Teacher candidates begin to learn about their legal rights and responsibilities to all stakeholders in Ontario education.

» EDUC 4344Q: The Philosophical, Historical, and Curricular Context of Ontario Catholic Education (Primary/Junior and Intermediate/Senior)
Explores the legal, historical, and theological foundations and distinctive character of curriculum and the learning environment in the Ontario Catholic school system. Candidates develop the skills and attitudes to build effective classroom communities by exploring theories and practices of instructional design and the operational traditions of Catholic schools. Excludes EDUC 4343H.

» EDUC 4421H: Creating a Positive Learning Environment Through the Theoretical and Practical Approaches to Classroom Management (Primary/Junior; Indigenous Cohort)
Examines current theories of instructional design and classroom management as they interact to create a positive learning environment in the Primary/Junior context. Students examine and critically assess contemporary models of design and management to develop personal philosophies related to their own teaching.

Curriculum Courses (Primary/Junior)

» EDUC 4461H: Mathematics (Primary/Junior; Indigenous Cohort)
Focuses on developing a community of mathematics learners. Current theories related to teaching and learning mathematics are examined within the context of rich mathematical investigations. A variety of manipulatives and technologies are explored as tools for learning and assessment.

» EDUC 4463H: Science and Technology (Primary/Junior; Indigenous Cohort)
Teacher candidates critically assess the learning opportunities offered by science and technology. They experience how fundamental attributes of science can be explored through the elementary curriculum and the role that inquiry plays in this. The importance of pedagogy for science, technology, the environment, and society is emphasized.
» EDUC 4473H: Integrated Arts in the Elementary Classroom (Primary/Junior; Indigenous Cohort)
Teacher candidates learn how to integrate the arts into the elementary classroom. Drawing on current theory and practice in arts education, candidates focus on how children learn, create, and express ideas through the arts and consider ways that the arts can enrich learning across subject areas.

» EDUC 4474H: Health, Physical Education, and Dance in the Elementary Classroom (Primary/Junior; Indigenous Cohort)
Approaches to movement education incorporating theories of kinaesthetic learning in physical education. Teacher candidates engage with foundations of movement to develop comfort and confidence in integrating health and movement concepts into classroom practice. Understanding of child/youth mental health concerns and awareness of community mental health services are developed.

» EDUC 4561H: Mathematics (Primary/Junior)
Focuses on developing a community of mathematics learners. Current theories related to teaching and learning mathematics are examined within the context of rich mathematical investigations. A variety of manipulatives and technologies are explored as tools for learning and assessment.

» EDUC 4563H: Science and Technology (Primary/Junior)
Teacher candidates critically assess the learning opportunities offered by science and technology. They experience how fundamental attributes of science can be explored through the elementary curriculum and the role that inquiry plays in this. The importance of pedagogy for science, technology, the environment, and society is emphasized.

» EDUC 4564H: Social Studies (Primary/Junior)
Critically examines how children’s developing sense of place is reflected in the Ontario curriculum. Teacher candidates encounter opportunities to develop meaningful learning that leads to a deeper understanding of self; raised awareness of eco-social justice issues; and an understanding of Canada’s place in the world.

» EDUC 4571H: Language and Literacy (Primary/Junior)
Prepares teacher candidates for planning, teaching, and assessing comprehensive balanced literacy programs in the Primary and Junior divisions. Candidates recognize how theories of language and literacy development and instructional methodologies can be effectively applied to classroom practice.

» EDUC 4573H: Integrated Arts in the Elementary Classroom (Primary/Junior)
Teacher candidates learn how to integrate the arts into the elementary classroom. Drawing on current theory and practice in arts education, candidates focus on how children learn, create, and express ideas through the arts and consider ways that the arts can enrich learning across subject areas.

» EDUC 4574H: Health, Physical Education, and Dance in the Elementary Classroom (Primary/Junior)
Approaches to movement education incorporating theories of kinaesthetic learning in physical education. Teacher candidates engage with foundations of movement to develop comfort and confidence in integrating health and movement concepts into classroom practice. Understanding of child/youth mental health concerns and awareness of community mental health services are developed.
Curriculum Courses (Intermediate/Senior)

» EDUC 4661Y: Biology (Intermediate/Senior)
Examines contemporary learning theory pertaining to Biology education. Teacher candidates explore the philosophical basis of appropriate teaching and assessment methodologies to facilitate pupil learning and understanding. The unifying principles of the life sciences form a framework for the course.

» EDUC 4662Y: Chemistry (Intermediate/Senior)
Teacher candidates investigate theories of instructional practice supporting student learning in Chemistry. The foundational concepts of chemical science are linked to contemporary theories of assessment and evaluation of pupil performance to develop effective teaching and learning models.

» EDUC 4663Y: Computer Studies (Intermediate/Senior)
Topics include the study of hardware and software design applications, their impact on society, including cyberbullying; effective online research; and the importance of creating an appropriate digital footprint. Teacher candidates use a variety of Web 2.0 tools to create effective educational resources.

» EDUC 4664Y: Mathematics (Intermediate/Senior)
Focuses on pupil construction of mathematical concepts and skills through engagement as a community of learners. Exploration of current pedagogical theory in Mathematics, teaching practices, assessment techniques, and the skills and content areas of the curricula are critically examined.

» EDUC 4665Y: Physics (Intermediate/Senior)
Explores contemporary research and theoretical foundations of Physics instruction, focusing on pupil construction of knowledge. They apply these theories in designing effective physics courses which incorporate a wide range of teaching practices and assessment techniques to engage all learners.

» EDUC 4671Y: Dramatic Arts (Intermediate/Senior)
Critically examines current theory and practice of teaching Dramatic Arts in the Intermediate and Senior divisions. They apply educational theory and pedagogy in exploring a variety of teaching and assessment strategies for developing effective drama programs.

» EDUC 4672Y: English (Intermediate/Senior)
Investigates the theoretical foundations for teaching oral communication, reading, writing, and media studies in the Intermediate and Senior divisions. Teacher candidates apply research and theory in planning a balanced curriculum, evaluating student performance, preparing students to meet literacy expectations, and modifying programs according to individual needs.

» EDUC 4673Y: French as a Second Language (Intermediate/Senior)
Explores current pedagogical research and theory that supports the teaching/learning of listening, speaking, reading, and writing in French as a Second Language. Focuses on the models for the integration of language skills and culture and investigates a variety of instructional and assessment approaches for creating effective lessons and teaching units.

» EDUC 4674Y: History (Intermediate/Senior)
Provides the fundamentals in contemporary theory and practice of teaching History to pupils in the Intermediate and Senior divisions. Students are given opportunities to study the research and theoretical foundations for various models of history instruction, methods of assessment and evaluation of pupils, and effective course design.
EDUC 4675Y: Visual Arts: Theory and Practice (Intermediate/Senior)
Students engage in a critical exploration of visual art. Students take part in studio activities while they explore art history, aesthetics, and art criticism, balancing practical creation with considerations of the object, its role in society, and its relevance to the individual and to the larger community.

EDUC 4676Y: Health and Physical Education (Intermediate/Senior)
Provides a theoretical and practical foundation in health and physical education. Topics include trends in health and physical education, motor skill development, coaching, fundamental movement skills, building a community through co-operative games, strategies for integration, dance, and safety. Students experience practices and strategies for planning, instruction, and assessment.

EDUC 4681Y: Geography (Intermediate/Senior)
Provides the professional skills necessary for effective teaching of Geography at the Intermediate and Senior levels. Through a variety of teaching strategies and reflective practice, candidates investigate contemporary research, theories, and methods of teaching Geography, and assessing student learning in the subject area.

EDUC 4682Y: First Nations, Métis, and Inuit Studies (Intermediate/Senior)
Explores theoretical foundations for teaching First Nations, Métis, and Inuit Studies in Intermediate and Senior classrooms. They apply these theories to a critical examination of a variety of teaching and assessment practices appropriate to the subject area.

Practicum and Placement Courses

EDUC 4361H: Practicum Year 1: Developing Teaching Identity, Knowledge, and Skill (Primary/Junior and Intermediate/Senior; Public Stream)
Teacher candidates reflect upon personal identity, and how individual experiences and values impact teaching practice. We examine the importance of making meaningful observations of students; comprehensive planning (including individual lesson planning and unit planning using backward design); assessment for, of, and as learning; and strategies to create an engaging, exciting classroom environment.

EDUC 4362H: Practicum Year 2: Developing Teaching Identity, Knowledge, and Skill (Primary/Junior and Intermediate/Senior; Public Stream)
Teacher candidates bring experience, knowledge, skills and attitudes acquired in year 1 to their teacher preparation. Teacher candidates take a deeper look at the at the importance of making meaningful observations of students, comprehensive planning assessment, and strategies to create an engaging, exciting classroom environment to support the development and well-being of all learners. Prerequisite: EDUC 4361H.

EDUC 4363H: Practicum Year 1: Developing Teaching Identity, Knowledge, and Skill in a Catholic Education Setting (Primary/Junior and Intermediate/Senior; Catholic Stream)
Teacher candidates reflect upon personal identity, and how individual experiences and values impact teaching practice. We examine the importance of making meaningful observations of students; comprehensive planning (including individual lesson planning and unit planning using backward design); assessment for, of, and as learning; and strategies to create an engaging, exciting classroom environment in a Catholic education setting.
EDUC 4364H: Practicum Year 2: Developing Teaching Identity, Knowledge, and Skill in a Catholic Education Setting (Primary/Junior and Intermediate/Senior; Catholic Stream)
Teacher candidates bring experience, knowledge, skills and attitudes acquired in year 1 to their teacher preparation. Teacher candidates take a deeper look at the importance of making meaningful observations of students, comprehensive planning assessment, and strategies to create an engaging, exciting classroom environment in a Catholic education setting, to support the development and well-being of all learners. Prerequisite: EDUC 4363H.

EDUC 4464H: Practicum Year 1: Developing Teaching Identity, Knowledge, and Skill (Primary/Junior and Intermediate/Senior; Indigenous Cohort)
Teacher candidates reflect upon personal identity, and how individual experiences and values impact teaching practice. We examine the importance of making meaningful observations of students; comprehensive planning (including individual lesson planning and unit planning using backward design); assessment for, of, and as learning; and strategies to create an engaging, exciting classroom environment.

EDUC 4465H: Practicum Year 2: Developing Teaching Identity, Knowledge, and Skill (Primary/Junior and Intermediate/Senior; Indigenous Cohort)
Teacher candidates bring experience, knowledge, skills and attitudes acquired in year 1 to their teacher preparation. Teacher candidates take a deeper look at the importance of making meaningful observations of students, comprehensive planning assessment, and strategies to create an engaging, exciting classroom environment to support the development and well-being of all learners. Prerequisite: EDUC 4464H.

Practicum and Placements
The following practicums and placements are required for successful completion of the BEd program.

EDUC 4100H: Supporting Literacy and Learners with Special Needs Placement (Primary/Junior)
A field placement experience connected to EDUC 4133H that further develops the concepts and application of current educational research, theory, and professional practice regarding literacy instruction and learning diversity in supporting learners with special needs. Students develop empathy and understanding for learners faced with a variety of learning challenges. Co-requisite: EDUC 4133H.

EDUC 4200H: Supporting Literacy and Learners with Special Needs Placement (Intermediate/Senior)
A field placement experience connected to EDUC 4233H that further develops the concepts and application of current educational research, theory, and professional practice regarding literacy instruction and learning diversity in supporting learners with special needs. Students develop empathy and understanding for learners faced with a variety of learning challenges. Co-requisite: EDUC 4233H.

EDUC 4300P: Alternative Settings Placement
The alternative settings placement is designed as an opportunity for consolidation and enrichment of educational perspective and expertise through placement in a setting new to the teacher candidate. It also provides opportunities to explore careers outside of the classroom that are related to teaching.
» **EDUC 4301Y: Classroom Practicum Year 1**  
Practicum is the heart of teacher development and learning: it is where teacher candidates consolidate and extend their growing understanding of teaching and learning. Teacher candidates work with host professionals (certified teachers) to translate their knowledge, experiences, and coursework into meaningful classroom practice and to build comfort and skill in expected teaching competencies.

» **EDUC 4302Y: Classroom Practicum Year 2**  
Practicum is the heart of teacher development and learning: it is where teacher candidates consolidate and extend their growing understanding of teaching and learning. Teacher candidates work with host professionals (certified teachers). Expectations increase from the first year of the program and candidates continue to build on the skills and competencies started in year 1. Prerequisite: EDUC 4301Y.

**Elective Courses**
Year 2 Bachelor of Education students take one half-course elective (0.5 credit) in contemporary issues in education to further enrich their theoretical and practical understandings as an educator. Each year, a subset of the following specialized elective courses will be offered.

» **EDUC 4223H: Issues in Planning, Assessment, and Evaluation (Primary/Junior and Intermediate/Senior)**  
Through the application of current research and theoretical foundations, this course explores contemporary issues in planning, assessment, and evaluation, and their application to classroom teaching practice. Selection, design, and use of assessment tasks, tools, and data are addressed and critiqued, with opportunities for connections to all curriculum areas. Open only to students in year 2 of the BEd program.

» **EDUC 4381H: Literacy and Math in the Early Years (Primary/Junior and Intermediate/Senior)**  
Designed for teacher candidates who are interested in working with young children (ages 3-8). The course critically examines and assesses current curricula and policies related to early childhood education on national, provincial, and international levels. Special emphasis is placed on children’s literacy and mathematics. Open only to students in year 2 of the BEd program.

» **EDUC 4382H: Experiential and Adventure Education (Primary/Junior and Intermediate/Senior)**  
An exploration of experience as a vehicle for education, with a particular focus on analyzing how lived experience drives learning in intentionally designed hands-on environments such as outdoor adventure programs, community service learning, and inquiry-based approaches. Key questions surround uses of uncertainty, risk, choice, and mastery as tools for developing student understanding. Open only to students in year 2 of the BEd program.

» **EDUC 4383H: Indigenous Education (Primary/Junior and Intermediate/Senior)**  
Explores Indigenous ontology, epistemology, and pedagogy in teaching to and about Indigenous peoples. Explores infusion of Indigenous ways of knowing in public education and Indigenous culture-based education. Additional topics studied include educational policy, decolonization, identity, Indigenous student success, culturally relevant instruction, teacher capacity, teaching in Indigenous communities, and community partnership. Open only to students in year 2 of the BEd program.
» **EDUC 4384H: The Role of STEAM Education (Primary/Junior and Intermediate/Senior)**  
Integrates Science, Technology, Environmental Education, Engineering, the Arts, and Mathematics to develop a pedagogy of problem-solving that reconceptualizes challenges we face individually and collectively. Problematic issues of prioritizing STEAM subjects and careers, the use of current technologies, and employing assistive devices in classrooms, are also explored. Open only to students in year 2 of the BEd program.

» **EDUC 4385H: Teaching through Drama (Primary/Junior and Intermediate/Senior)**  
Explores components of drama that include play, process, interpretation and theatre, and demonstrates how drama can be used across various divisions (Kindergarten to Intermediate/Senior) and curriculum areas. Teacher candidates engage in developing their own drama pedagogy as it relates to the various divisional qualifications they are attaining. Open only to students in year 2 of the BEd program.

» **EDUC 4386H: Teacher Stories—Narrative and Practice (Primary/Junior and Intermediate/Senior)**  
Students analyze literature and write creatively about teacher identity and practice. We investigate novels, memoirs, short stories, and poetry about teachers’ lives, and have the opportunity to construct narratives of our own. We draw upon theories of teacher identity, educator reading and writing circles, and arts-based inquiry. Open only to students in year 2 of the BEd program.

» **EDUC 4387H: International Education and International Teaching (Primary/Junior and Intermediate/Senior)**  
Explores the world of international education and international teaching with a focus on the impact increasing global connectedness has on educational systems. Teacher candidates consider specific case studies of educational systems worldwide, with a view to comparing and contrasting these systems with their own experiences. The world of international teaching and related pathways will also be explored. Open only to students in year 2 of the BEd program.

» **EDUC 4388H: Modelling Digital Citizenship through Technology and Social Media Use in the Classroom**  
Teacher candidates engage with a range of tech devices and platforms from a practical stance in order to subsequently analyze classroom implications, including professional standards, laws and policies, the impact of social media on mental health and device use, and evidenced-based practices related to effective uses of technology in the classroom. Prerequisite: Open only to students in year 2 of the BEd program.
Teacher Education Stream

trentu.ca/education

The Teacher Education Stream is designed for students planning to teach at the elementary or secondary level. The program will provide students with academic and non-academic foundations for entrance into a Consecutive Teacher Education program and, ultimately, the teaching profession.

Candidates complete the requirements for an Honours degree as well as the Teacher Education Stream requirements at Trent University and then make application to the Consecutive Teacher Education program to pursue a Bachelor of Education at the Elementary (Primary/Junior) or Secondary (Intermediate/Senior) level. Please note that some Honours degrees have requirements that may not be compatible with the program requirements of the Teacher Education Stream (refer to p. 14 of the Academic Calendar for requirements which apply to all undergraduate degree programs). Students in the Teacher Education Stream may also consider completing the Option in Education (p. 406).

The transcripts of students graduating with an Honours degree who have successfully completed the requirements of the Teacher Education Stream will contain the notation “Teacher Education Stream.”

Admission Criteria

This is a direct-entry program with a limited number of student spaces. Admission decisions are based on an applicant’s academic average (a minimum of 75% is required on courses considered for admission). As this is a limited enrolment program, fulfillment of the minimum requirements does not necessarily guarantee admission.

Program Requirements

The following requirements apply for students entering the program from 2017–2018 onward:

Year 1
- 1.0 EDUC credit consisting of EDUC 1010H and 1020H

Year 2
- 1.0 EDUC credit consisting of EDUC 2010H and 2020H

Year 3
- One of the following:
  - Option 1: 0.5 EDUC credit consisting of EDUC 3010H
  - Option 2: Successful completion of a Year Abroad Program

Year 4
- 1.0 EDUC credit consisting of EDUC 4010H and 4020H

Entrance to the Trent University Consecutive Teacher Education Program

A limited number of spaces in the Bachelor of Education program are reserved each year for Teacher Education Stream students. To be considered, students in the Teacher Education Stream must make an application through the Teacher Education Application Service (ouac.on.ca/teas). Students who maintain an average of 85% or higher on their last 10.0 credits at time of application, and who meet all Teacher Education Stream and undergraduate degree requirements, will be offered guaranteed admission to the BEd program at Trent. Teacher Education Stream students who do not meet the above criteria are still encouraged to apply and will be considered for admission on an individual basis.

All Teacher Education Stream students who are interested in pursuing a Bachelor of Education degree should review the admission requirements for the Consecutive Bachelor of Education program (p. 144). Successful Bachelor of Education applicants must complete all Trent Honours...
degree requirements and teaching division prerequisites by the May preceding enrolment in the Bachelor of Education program.

Teacher Education Stream students who are interested in pursuing a Bachelor of Education at the Intermediate/Senior (I/S) level should take particular note of the requirements for teachable subjects (trentu.ca/education/consecutive). Admission to the BEd program at the I/S level is contingent on meeting the requirements for two teachable subjects, in addition to meeting the requirements listed above. The Teacher Education Stream advisor within the School of Education is available to support students in their course selection.

Please consult the academic timetable for information on courses that will be offered in 2019–2020, including when they will be scheduled.

» EDUC 1010H: Understanding Teaching and Learning 1
Introduces concepts and dispositions of teaching and learning. Investigates the nature of what it means to be a teacher and the relationship between “good” teaching and effective learning, with a particular focus on teaching as a reflective practice. Students begin to develop understandings of the broad scope of what it can mean to be “a teacher” in a variety of educational contexts. Includes at least 18 hours of field placement.

» EDUC 1020H: Understanding Teaching and Learning 2
Introduces concepts and dispositions of teaching and learning. Investigates the nature of what it means to be a teacher and the relationship between “good” teaching and effective learning, with a particular focus on social and environmental justice. Students begin to develop understandings of the broad scope of what it can mean to be “a teacher” in a variety of educational contexts. Includes at least 18 hours of field placement. Prerequisite: 60% or higher in EDUC 1010H.

» EDUC 2010H: Conceptions and Dispositions in Teaching and Learning 1
Expands the conceptions and dispositions of teaching and learning with a focus on the role of leadership, and an analysis of the representation of education in public spheres and the media. Includes at least 18 hours of field placement. Prerequisite: 60% or higher in EDUC 1020H.

» EDUC 2020H: Conceptions and Dispositions in Teaching and Learning 2
Investigates the nature of teaching, with a particular focus on making space and place for social justice in education, within and against the context of representations of teaching and learning in society and media. Includes at least 18 hours of field placement. Prerequisite: 60% or higher in EDUC 2010H.

» EDUC 3010H: Learning and Literacy
Explores a range of learning theorists and theories. This exploration is contextualized within the area of literacy development across the elementary and intermediate ages. Includes at least 18 hours of field placement. Prerequisite: 60% or higher in EDUC 2020H. Excludes EDUC 4000Y.

» EDUC 4010H: Topics in Mathematics Education
Considers both mathematical subject and pedagogical knowledge within the context of the elementary and intermediate ages. Explores the mathematical knowledge necessary to effectively support numeracy development for learners. Includes at least 18 hours of field placement. Prerequisite: 60% or higher in EDUC 3010H, or successful completion of a year abroad program and 60% or higher in EDUC 2020H.

» EDUC 4020H: A STEAM Driven Classroom
Considers the integration of science, technology, the environment, engineering, the arts, and mathematics within the context of the elementary and intermediate ages. Explores critical thinking and inquiry within this multidisciplinary approach to education. Includes at least 18 hours of field placement. Prerequisite: 60% or higher in EDUC 4010H.
English Literature

Associate Professor and Chair of the Department

H. M. Hodges, BA (Queen’s), MA, PhD (Toronto)

Professors

S. J. Bailey, BA (Queen’s), MA, PhD (Toronto)
R. Bode, BA, MA, PhD (Toronto)
S. W. Brown, BA, MA (Windsor), BA, PhD (Queen’s), FSA (Scotland)
K. A. Chittick, BA, MA (Toronto), PhD (Edinburgh)
S. Chivers, BA (Calgary), PhD (McGill)
J. Findon, BA (British Columbia), MA, PhD (Toronto) (on leave Fall 2019)
M. Steffler, BA (Victoria), MA, PhD (McMaster)

Associate Professors

M. C. Eddy, BA, MA (Western), PhD (Toronto) (on leave Winter 2020)
M. Epp, BA (Saskatchewan), MA (McGill), PhD (Alberta)
I. Junyk, BA (Western), MA (Queen’s), PhD (Chicago)
L. MacLeod, BA (Windsor), MA (McMaster), PhD (Memorial)
K. McGuire, BA (Queen’s), MA, PhD (Western)

Senior Lecturers

J. Baetz, BA, MA (McGill), PhD (York)
G. Kovacs, BA (Trent), MA (Memorial), PhD (Toronto)
R. Winger, BA (Mount Allison), BEd (Ottawa), MA (Guelph), PhD (Carleton)

Our flexible program offers virtually unlimited ways to explore the topics encompassed by the term English. Depending on your interests, academic goals, and career plans, you might focus your studies on literary history or contemporary studies, creative writing or drama, poetry or fiction, popular culture or health humanities—or any combination of these and other areas. We offer courses in everything from medieval drama to the evolution of punk rock, and from composition to critical theory. On our website (trentu.ca/english) you will find a range of recommended plans of study, including pathways for students planning to go on to graduate school or into teaching. And if none of these plans of study seem quite right for you, we’ll help you build the program you need. Contact us at englishadvice@trentu.ca.

Notes

- Recommended plans of study can be found on the English Department website at trentu.ca/english.
- The Accelerated Master of Arts program in English allows students to obtain a Master’s degree in English (Public Texts) within one to two terms less than students in the regular Master’s program. Students apply to the Accelerated Master of Arts program during the spring term which precedes the last year of their undergraduate program in English Literature. The research starts in the fourth year. Upon graduation, students begin the MA program in May or September, just after completion of the undergraduate program. Students who are interested in applying should contact the English (Public Texts) graduate program director.
Bachelor of Arts Program in English Literature

- In addition to the program requirements listed below, students must satisfy the University degree requirements, including the requirement for at least 7.0 credits at the 3000 level or beyond in the Honours program and at least 4.0 in the General program (see p. 14).

- The same course may not simultaneously satisfy the requirements of two programs in a joint-major degree.

- With permission of the chair, students may count up to 1.0 credit from the following courses toward their English Literature degree requirements:
  
  - AHCL 2303H
  - AHCL 2340H
  - AHCL-WMST 3310H
  - AHCL 3320H
  - AHCL 3330H
  - AHCL 3351H
  - CAST-WMST 2600Y
  - CAST-INDG-WMST 3485H
  - CAST-WMST 3506Y/3507H
  - CAST-WMST 3507H
  - CUST 2029Y
  - CUST 2526H
  - CUST 2528H
  - CUST 3522H
  - CUST 3526H/4526H
  - CUST 3529H
  - CUST 3572H
  - CUST 3573H
  - LING 3050H
  - WMST 2161H
  - WMST-CUST 3250H

  For information on individual courses see Calendar entries for Ancient Greek & Roman Studies, Canadian Studies, Cultural Studies, Gender & Women's Studies, and Linguistics.

The single-major Honours program. 20.0 credits including the following 10.0 credits:

- 1.0 ENGL credit at the 1000 level
- 1.0 ENGL credit at the 4000 level
- 8.0 ENGL credits at the 2000 level or beyond in addition to the above

The joint-major Honours program. 20.0 credits including the following 8.0 credits:

- 1.0 ENGL credit at the 1000 level
- 1.0 ENGL credit at the 4000 level
- 6.0 ENGL credits at the 2000 level or beyond in addition to the above

The single-major General program. 15.0 credits including the following 6.0 credits:

- 1.0 ENGL credit at the 1000 level
- 5.0 ENGL credits at the 2000 level or beyond

The joint-major General program. 15.0 credits including the following 5.0 credits:

- 1.0 ENGL credit at the 1000 level
- 4.0 ENGL credits at the 2000 level or beyond

The minor in English Literature consists of the following 5.0 credits:

- 1.0 ENGL credit at the 1000 level
- 4.0 ENGL credits at the 2000 level or beyond
Specialization in Literary History

An understanding of the evolution of literary forms is an important foundation for literary criticism and analysis. For this reason, all students of English, especially those planning to pursue their studies beyond the undergraduate level, benefit from an awareness of the English literary tradition. The Specialization in Literary History ensures that those who complete it have studied literature from all of the major historical periods of its development from the medieval to the modern.

Students who have fulfilled the requirements for a single- or joint-major Honours program in English Literature may graduate with a Specialization in Literary History if they have also successfully completed the following 4.5 credits with a minimum grade of 65% in each:

- Medieval literature: 1.0 ENGL credit from ENGL 2100Y, 2121H, 3121H, 3123H, 3125H, or 4120Y/4121H
- Renaissance literature: 1.0 ENGL credit from ENGL 2123H, 2150Y/2151H, 2152Y/2153H, 3153H, 3155H, 4150Y/4151H, or 4152Y/4153H
- Seventeenth and eighteenth century literature: 1.0 ENGL credit from ENGL 3200Y/3201H, 3203H, 3205H, 3207H, 3209H, 3250Y/3251H, or 4250Y/4251H
- Nineteenth century literature: 1.0 ENGL credit from ENGL 3300Y/3301H, 3400Y/3401H, 3403H, 3808Y, 4400Y/4401H, or 4503H
- Modern literature: 0.5 ENGL credit from ENGL 2802Y/2803H, 2804Y/2805H, 2806Y/2807H, 3412Y/3413H, 4450Y/4451H, 4802Y/4803H, 4804Y/4805H, or 4806Y/4807H

Please consult the academic timetable for information on courses that will be offered in 2019–2020, including when they will be scheduled.

- **ENGL 1001H: Truth, Lies, and Storytelling**
  When we tell stories, whether in song, poetry, drama, film, or prose, are we telling lies? How do literary fictions in any genre engage, reflect, distort, or heighten the truth? Can words get in the way of the truth? These questions will provide entrances into the texts in this course. Excludes ENGL 1000Y.

- **ENGL 1003H: Revolution!**
  Revolution is variously defined as a) a drastic and far-reaching change in ways of thinking and behaving, b) the overthrow of a government by those who are governed, and c) rotation: a single complete turn. This course looks at how authors create and respond to the revolutions that turn our world upside down and then, sometimes, back around again. Excludes ENGL 1000Y.

- **ENGL 1005H: Love and Hate**
  The subject of a million popular songs and poems, all great films, and all of Shakespeare’s tragedies, love and hate still defeat us. This course looks at how love and hate are represented in poetry, popular song, drama, and fiction and asks, if “love alters not,” why is it that “love will tear us apart”? Excludes ENGL 1000Y.

- **ENGL 1809H: Making a Scene**
  This course is about how to read a play as a guide to voice and movement. It is not a course about acting; it explores the concept of character, the relationships among silence, noise, sounds and voice, the difference between dialogue and monologue, the utility of stage directions, and the process of adaptation.

- **ENGL 1851H: The Writing Life: An Introduction to Creative Writing**
  An overview of writerly inspiration, perspiration, and contemplation, this course considers the creative process that leads to literary texts within and across a variety of genres, periods, and personalities. Readings and assignments include not only literary texts, but also essays on writing and the writing life.
» **ENGL 2001H: Reading Literature: A Practical Introduction**  
An introduction to critical practice and to the assumptions underlying a wide range of approaches to literature. Explores British, American, Canadian, and postcolonial works, and draws on parallels between literary and non-literary language and between literature and other forms of expression. Emphasis is placed on learning through writing. Excludes ENGL 2000Y.

» **ENGL 2100Y: Perilous Realms: Medieval and Renaissance Literature**  
An exploration of English literature from the medieval period through the Renaissance. Special attention is given to enchantment and the monstrous, romantic and heroic impulses, sacred and profane love, nostalgia for the old, and enthusiasm for the new. Prerequisite: 1.0 ENGL credit at the 1000 level with a minimum 60% in each. Excludes ENGL 2121H, 2123H.

» **ENGL 2121H: Perilous Realms I: Introduction to Medieval Literature**  
Provides an introduction to medieval English literature and traces the development of new genres and national, social, and cultural identities. Texts studied feature monsters and dragons, beautiful maidens and courageous knights, fairy lovers, and poor shepherds. Old English texts are read in translation; most Middle English texts are read in the original language. Prerequisite: 1.0 ENGL credit at the 1000 level with a minimum 60% in each course. Excludes ENGL 2100Y.

» **ENGL 2123H: Perilous Realms II: Introduction to Renaissance Literature**  
This course explores the literature of the Reformation and Renaissance, including the development of new genres and literary responses to historical events, the revival of classical learning, and the emergence of new national, social, and cultural identities, the romantic and heroic impulses, and the concepts of sacred and profane love. Prerequisite: 1.0 ENGL credit at the 1000 level with a minimum 60% in each course. ENGL 2121H strongly recommended. Excludes ENGL 2100Y.

» **ENGL 2150Y/2151H: Studies in Shakespeare**  
An examination of Shakespeare’s dramatic career through the study of representative works spanning the period from the early comedies to the last plays. Prerequisite: 4.0 university credits. Students may take only one of ENGL 2150Y or 2151H for credit.

» **ENGL 2152Y/2153H: Reading Shakespeare for the Classroom and Stage**  
Explores Shakespeare’s plays as texts for public spaces. Emphasis is on “hearing the plays” and on engaging the material in contemporary contexts, preparing students to teach or perform the texts. Coursework includes scene presentations focused on imagining Shakespeare’s theatrical intent and exploring how the texts awaken moral feeling in the audience. Prerequisite: 4.0 university credits. Students may take only one of ENGL 2152Y or 2153H for credit.

» **ENGL 2609H: Contagion**  
Explores intersections between medicine and literature with particular attention to the representation of outbreaks and pandemics in historical and contemporary fiction, graphic novels, dystopian works, and film. What does it mean to narrate contagion? What might fictions of contagion teach us about our communities, our priorities, and our (in)humanity? Prerequisite: 4.0 university credits.

» **ENGL 2703H: Literature and Social Justice**  
Studies a range of works from different periods and genres that raise moral questions and ethical dilemmas concerning issues of social justice involving race, ethnicity, class, gender, age, and other variables. Considers literature’s power to evoke the plight of the socially disadvantaged, and the implications for social change. Prerequisite: 4.0 university credits. Excludes ENGL 3703H.

» **ENGL-ERST 2705H: Literature and the Environment**  
An examination of selected works through a focus on the natural environment, including non-human forms of life. Studies examples of nature and environmental writing, but also brings ecocritical perspectives to a wide range of texts through discussions of the wilderness, gardens, waste, nature, culture, and other topics. Prerequisite: 4.0 university credits. Excludes ENGL 3705H.
» **ENGL 2706Y/2707H: Popular Fiction**
Explores the diverse forms, history, social functions and concerns of popular genre fiction. Our study of romance, crime, adventure, horror, fantasy, and speculative fiction considers especially the gendering of affective reading practices, as well as issues of cultural capital, literary taste, and the relation between elite and commercial writing. Prerequisite: 4.0 university credits. Students may take only one of ENGL 2706Y or 2707H for credit.

» **ENGL 2709H: Graphic Fiction**
A survey of graphic fiction and its subgenres. Topics may include the graphic novel, superheroes, comix, and manga. Prerequisite: 4.0 university credits.

» **ENGL 2751H: Literature and Sports**
The main goal of this course is to examine the various literary renditions of the world’s most popular sports. Discover, for instance, hockey’s dependence on violence, football’s ties to war culture, and baseball’s troubling national fantasies—all by reading an eclectic collection of plays, poems, novels, and short stories. Prerequisite: 4.0 university credits.

» **ENGL 2753H: Horror, Terror, and the Gothic**
Explores the Gothic as a literary genre and mode, beginning with its historical roots and tracking its permutations to the present day. Taking a range of interpretive methods (such as historical, aesthetic, and psychoanalytic approaches), it examines the enduring appeal of the frightening, the horrific, and the abject. Prerequisite: 4.0 university credits.

» **ENGL 2802Y/2803H: Modern Poetry**
An introduction to the works of some of the important poets writing in English in the twentieth century, designed to give an overview of modernism and its democratization of poetic language. Writers to be studied may include Yeats, Eliot, Pound, Williams, Stevens, Frost, Thomas, Auden, Bishop, Plath, Klein, and Page. Prerequisite: 4.0 university credits. Excludes ENGL 3802Y/3803H. Students may take only one of ENGL 2802Y or 2803H for credit.

» **ENGL 2804Y/2805H: Modern Drama**
Studies in the works of twentieth-century English, Irish, Canadian, and American playwrights. Writers to be studied may include Shaw, Wilde, Osborne, Pinter, Stoppard, Beckett, Churchill, Gems, Williams, Miller, Albee, Thompson, Walker, and Tremblay. Prerequisite: 4.0 university credits. Excludes ENGL 3804Y/3805H. Students may take only one of ENGL 2804Y or 2805H for credit.

» **ENGL 2806Y/2807H: Modern Fiction**
Examines the development of modern fiction from the flourishing of experimental modernism in the 1920s to contemporary voices and trends. The texts are interpreted from both a social/historical perspective and a formal aesthetic perspective. Prerequisite: 4.0 university credits. Excludes ENGL 3806Y/3807H. Students may take only one of ENGL 2806Y or 2807H for credit.

» **ENGL 2809H: Stage and Screen**
Examines the relationship between theatre and cinema, exploring the limitations of both genres through studying plays that have been made into films. Documentary, television and digital formats are also considered. Prerequisite: 4.0 university credits.

» **ENGL 2810Y: Children’s Literature**
A study of children’s literature from the eighteenth century to the present, addressing such topics as folk and fairy tales, the eighteenth-century popular press, the late nineteenth-century cult of the child, illustration, the “Golden Age,” and contemporary novels for middle-grade and YA readers. Prerequisite: 4.0 university credits including 1.0 ENGL credit. Excludes ENGL 3810Y.

» **ENGL 2811H: Children’s Literature: Poetry, Picture Books, and Plays**
Focuses on poetry, stories, picture books, and theatre for children: the emphasis is placed upon oral narratives, graphic culture, and performance. Texts include nursery rhymes, *Where the Wild Things Are*, *Peter Pan*, and Disney’s *Pinocchio*. Prerequisite: 4.0 university credits.
ENGL 2851H: Introductory Prose Writing Workshop
An introduction to the practice of writing prose, both fiction and non-fiction, this course asks students to experiment with a variety of contemporary prose forms. The course will benefit both those interested in pursuing writing careers and those intending to be teachers who hope to incorporate creative writing in their teaching practices. Prerequisite: 4.0 university credits including ENGL 1851H (or permission of the department). Excludes ENGL 2859H.

ENGL 2853H: Introductory Poetry Writing Workshop
A broad introduction to the practice of writing poetry, this course asks students to experiment with poetic creation in a variety of contemporary modes, forms, and contexts. Weekly writing and editing tasks are required, as is a careful consideration of poetic concepts, modes of working, assigned readings, and poetics. Prerequisite: 4.0 university credits including ENGL 1851H (or permission of the department). Excludes ENGL 2859H.

ENGL 2855H: Introduction to Creative Non-Fiction Workshop
This introductory class on creative non-fiction exposes students to the variety of texts grouped in this genre (personal essay, memoir, journalistic essay, case study, and hybrids), through discussion, practice, and workshop. Students consider issues such as audience, literary strategies, diction, voice, tone, and ethical responsibilities to living subjects. Prerequisite: 0.5 ENGL credit. ENGL 1851H is strongly recommended. Offered only at Trent University Durham – GTA.

ENGL 2859H: Introductory Creative Writing Workshop
An introduction to the practice of writing prose and poetry, this course asks students to experiment with a variety of contemporary forms. The course will benefit both those interested in pursuing writing careers and those intending to be teachers who hope to incorporate creative writing in their teaching practices. Prerequisite: 0.5 ENGL credit. ENGL 1851H is strongly recommended. Offered only at Trent University Durham – GTA. Excludes ENGL 2851H, 2853H.

ENGL 3040Y/3041H: Practicum Course
Designed to permit students, under the direction of a faculty member and with the approval of the department, to apply their skills in written and oral communication as well as their understanding of the role and function of literary culture to practical endeavours. See trentu.ca/english for details. Prerequisite: 4.0 ENGL credits and permission of the department. Students must obtain the agreement of a faculty member to supervise the course and apply for permission to enrol prior to the commencement of the session in which the course will be offered. Students may take only one of ENGL 3040Y or 3041H for credit.

ENGL 3100Y: History of the English Language
An active-learning voyage of exploration on how the English language functions, from its earliest records to its globalized forms in the twenty-first century. Study of Modern English structure, features of Old and Middle English, and contemporary language use in politics, marketing, cyber-culture, and sociolinguistics shape the course. Prerequisite: 4.0 university credits.

ENGL 3121H: Love, Honour, and the Pursuit of Happiness: Medieval Romance
Examines medieval romance through the lens of several overlapping sub-genres: penitential, family, and Arthurian romance. We will be attentive to how romance maps the stresses and changes in medieval culture—particularly in England—and how it becomes a vehicle for exploring political, social, and ideological change. Prerequisite: 1.0 ENGL credit at the 1000 level with a minimum 60% in each. Strongly recommended: ENGL 2100Y.

ENGL 3123H: Angels and Demons, Shepherds and Shrews: Medieval Drama
A close examination of the origins of English drama from the liturgy of the early Christian church to the secular comedy of the early sixteenth century. Liturgical Latin plays are read in translation; the medieval Cycle and morality plays are in Middle English. Prerequisite: 1.0 ENGL credit at the 1000 level with a minimum 60% in each. Strongly recommended: ENGL 2100Y.
ENGL 3125H: Desire, Sex, and Death on the Road to Canterbury: Chaucer's Canterbury Tales
Explores Chaucer's most famous work, *The Canterbury Tales*. Here Chaucer's world of competing voices is fully realized—violent and humorous, idealistic and corrupt, intensely religious and yet plagued by doubt. The fictional frame for this surprisingly modern approach to storytelling is an old and time-honoured activity: the pilgrimage. Prerequisite: 1.0 ENGL credit at the 1000 level with a minimum 60% in each. Strongly recommended: ENGL 2100Y.

ENGL 3153H: The Renaissance Theatre
The popular medium of Renaissance theatre offered one of the first outlets for a new breed of writer—the "professional." We explore the plays of several of Shakespeare's contemporaries (Marlowe, Jonson, Webster, and others) both as literary texts and theatrical events. Prerequisite: 4.0 university credits.

ENGL 3155H: Sex and Politics in Elizabethan Literature
Popular and aristocratic literary forms collided and intermixed in the English Renaissance, producing some of the greatest poetry and drama in English, and fascinating experiments in the new genre of prose fiction. We examine a range of Renaissance bestsellers, considering how writers and editors courted the reading public. Prerequisite: 4.0 university credits.

ENGL 3200Y/3201H: Milton and His Age
An examination of Milton's development as man and artist through the study of his major works, including *Comus*, *Lycidas*, and *Paradise Lost*. The course may also include a look at *L'Allegro*, *Il Penseroso*, *Paradise Regained*, and *Samson Agonistes*, as well as the selected works of contemporary authors such as Marvell and Bunyan. Prerequisite: 4.0 university credits. Students may take only one of ENGL 3200Y or 3201H for credit.

ENGL 3203H: Theatre and Journalism During the Restoration and Eighteenth Century
An examination of the fundamental connections between theatre and journalism from the first newspapers and magazines through contemporary examples of print and other media. Prerequisite: 4.0 university credits. Excludes ENGL 3202Y.

ENGL 3205H: Modern Laughter
Compares late seventeenth- and early eighteenth-century satire with that of the late twentieth and early twenty-first. Authors such as Lord Rochester, Aphra Behn, Jonathan Swift, Mart Montagu, Alexander Pope, and John Gay are studied alongside comedians such as Lenny Bruce, Richard Pryor, Joan Rivers, George Carlin, Louis C.K., Sarah Silverman, and Amy Schumer. Prerequisite: 4.0 university credits.

ENGL 3207H: The Age of Sensibility
Studies in the literature of “sensibility” which dominates the latter half of the eighteenth century, focusing on debates about character and national character and about moral and aesthetic taste, as expressed in a wide range of literary genres. Writers may include Johnson, Boswell, Rousseau, Goldsmith, Sterne, Sheridan, Burney, and Edmund Burke. Prerequisite: 4.0 university credits.

ENGL 3209H: The First Media Revolution
Examines both the rapid evolution of print media from 1660 through to the later eighteenth century brought about by the two-person printing press, and the new genres made possible by this technology: newspapers and magazines, pamphlets, encyclopaedias, cookbooks, comic books, engravings and cartoons, printed music, board games, maps and, of course, novels. Prerequisite: 4.0 university credits.

ENGL 3210Y: Foundations in Restoration to Romantic Literature
Explores the genres, aesthetics, philosophies, and politics of the Restoration to Romantics periods. Writers to be studied may include Milton, Congreve, Dryden, Behn, Defoe, Addison, Steele, Pope, Swift, Gay, Johnson, Fielding, Sterne, Franklin, Burns, Burke, Rousseau, Blake, Wollstonecraft, Wordsworth, Coleridge, Austen, P. B. Shelley, Mary Shelley, Byron, and Keats. Prerequisite: 4.0 university credits. Excludes ENGL 2200Y.
ENGL 3250Y/3251H: The Romantics
A study of the “Romantic revolution” and its aftermath in politics, mores, philosophy, religion, and aesthetics. Romantic writers include Blake, Wordsworth, Coleridge, Byron, the Shelleys, Keats, Austen, and others (such as Rousseau, Burke, Wollstonecraft). Prerequisite: 4.0 university credits. Excludes ENGL 3253H. Students may take only one of ENGL 3250Y or 3251H for credit.

ENGL 3300Y/3301H: American Literature: Back to the Future, Forward to the Past
Americans experienced the suffering of two civil wars in coming to a sense of nationhood and wrestled with formulating their own literary tradition into the twentieth century. This course surveys Americans’ writing about themselves since the eighteenth century through the filters of geographical regions, racial segregation, urban alienation, and modern aestheticism. Prerequisite: 4.0 university credits. Excludes ENGL 2300Y. Students may take only one of ENGL 3300Y or 3301H for credit.

ENGL 3304Y/3305H: Modern American Fiction
An examination of American fiction from the flourishing of modernism in the 1920s to contemporary voices and trends. The texts are interpreted as products of American culture, and also as examples of literary genres or aesthetic movements which have a complex history and development within and outside of American literary circles. Prerequisite: 4.0 university credits. Students may take only one of ENGL 3304Y or 3305H for credit.

ENGL 3306Y/3307H: In the Borderlands: Latino/Latina US Literature
Looks at the fiction of American writers of Latina/Latino backgrounds whose work addresses issues of maturation and the experience of living outside the dominant culture, and attempts to express the uniqueness of their experience in the United States through innovative narrative techniques. Prerequisite: 4.0 university credits. Students may take only one of ENGL 3306Y or 3307H for credit.

ENGL 3308Y/3309H: African American Literature
Although African American slaves were denied many civil liberties, including access to literacy, an African American literacy culture nonetheless emerged. This course examines that literary culture through its engagement with and contestation of canonical American literary texts. Prerequisite: 4.0 university credits. Students may take only one of ENGL 3308Y or 3309H for credit.

ENGL 3400Y/3401H: Darwin and His Publics
How do creative writers and artists engage with science? What did Victorians think of dinosaurs? How are science and the spiritual reconciled? Why do Victorian scientists write poetry? This course traces evolutionary ideas and responses in Victorian literature and culture, from Darwin to writing by novelists, poets, essayists, and children’s authors. Prerequisite: 4.0 university credits. Students may take only one of ENGL 3400Y or 3401H for credit.

ENGL 3403H: Those Wild Victorians
Studies in literary movements and genres of Victorian literature. Some of the movements and genres to be discussed include Pre-Raphaelitism, fin de siècle writings, sensation fiction, the New Woman novel, poetry. Prerequisite: 4.0 university credits. Offered only at Trent University Durham – GTA. Excludes ENGL 3402Y, 3405H, 3407H.

ENGL 3405H: Victorian Poetry
In the 1830s, it seemed as though poetry itself would die away forever in the face of the new Utilitarian political economy and Evangelical social reform movements, but an undercurrent of ‘Aestheticism’ kept poetry alive for an emerging generation who turned to ‘Decadence’ and Bohemian life in the modern city with its brothels and slums. Prerequisite: 4.0 university credits. Excludes ENGL 3402Y, 3403H.
» **ENGL 3407H: Victorian Literature and Society**
   In the aftermath of the defeat of Napoleon, Europe was convulsed by upheavals that continued throughout the century and culminated in the first modern terrorist bombings during the 1880s. Using novels and essays, this course looks at England in the Victorian era as it attempted to come to terms with its own political unrest. Prerequisite: 4.0 university credits. Excludes ENGL 3402Y, 3403H.

» **ENGL 3410Y/3411H: Twentieth-Century British Literature: History, Politics, Culture**
   Examines the echoes of Empire and “Englishness” in twentieth-century British literature, and traces the emergence of a distinctly post-Empire sensibility in contemporary British culture. Emphasis is placed on the two world wars, the collapse of Empire, the “rise” of the working class, and “new” colonial voices. Prerequisite: 4.0 university credits. Students may take only one of ENGL 3410Y or 3411H for credit.

» **ENGL 3412Y/3413H: Twentieth-Century British Literature: Literary Movements and Genres—Modernism and Its Aftermath**
   Modernism was the twentieth century’s most influential literary movement. Its repudiation of the modes of thought and art that preceded it worked to reconfigure our ideas of what literature is or can be. This course examines British High Modernism and its various legacies, most importantly anti-modernist and postmodernist approaches. Prerequisite: 4.0 university credits. Students may take only one of ENGL 3412Y or 3413H for credit.

» **ENGL 3451H: Contemporary African Fiction**
   In Ghana, Nigeria, Kenya, Botswana, Zimbabwe, and South Africa, an Anglophone African literature has emerged to address issues of neo-colonialism, national identity, the violence of civil war, the failure of democracy, and the effects of globalization. We examine both the politics and aesthetics of this literature. Prerequisite: 4.0 university credits.

» **ENGL-CAST-INDG 3481H: Indigenous Fiction (ICR)**
   Considers the expectations and functions of narrative, and examines the ways in which the fictions of Indigenous authors draw on, extend, and defy white European literary traditions, and incorporate narrative methods of their own traditions. Fictions by authors in both Canada and the United States will be included. Prerequisite: 4.0 university credits.

» **ENGL-CAST-INDG 3483H: Indigenous Poetry (ICR)**
   Considers the range of contemporary poetry by Indigenous authors from Canada and the United States, and the poems’ relations to traditional language forms and to literary traditions and genres. It begins with a brief study of “orature” and songs, and includes a discussion of one nineteenth-century exemplar. Prerequisite: 4.0 university credits.

» **ENGL-CAST 3500Y/3501H: I Am Canadian**
   In a range of places from nineteenth-century travel journals to twenty-first-century blogs, we find Canadians writing out their national identity for private and public consumption. We explore life writing in a variety of forms and locations in order to discuss auto/biographical texts of prominent and everyday Canadians, considering diverse declarations of what it means to be Canadian. Prerequisite: 4.0 university credits. Students may take only one of ENGL 3500Y or 3501H for credit.

» **ENGL-CAST 3502Y/3503H: Contemporary CanLit (1960–Now)**
   We explore critical, historical, aesthetic, and sociological contexts of the emergence of CanLit. Focusing on Anglophone cultural production since 1960, we read literary works alongside political speeches, government documents, visual artifacts, popular culture, and essays to explore how Canadians have formed and transformed a national literature over the last fifty years. Prerequisite: 4.0 university credits. Students may take only one of ENGL 3502Y or 3503H for credit.
» **ENGL-CAST 3504Y/3505H: Where is Here? An Examination of Space and Place in Canadian Literature**
An examination of Canadian literature’s geographic and social spaces, this course considers Canadian regionalism from a variety of perspectives. You might examine, among many other possibilities, the literatures of Toronto (or Winnipeg or Halifax or Vancouver), the poetry of the north, or the rise and fall of prairie fiction. Prerequisite: 4.0 university credits. Students may take only one of ENGL 3504Y or 3505H for credit.

» **ENGL-CAST-WMST 3506Y/3507H: Canadian Women’s Writing (see Canadian Studies)**

» **ENGL-CAST 3509H: Twenty-first Century Canadian Literature**
An overview of developments in Canadian literary culture since the year 2000, this course examines how contemporary Canadian writing challenges CanLit’s traditional notions of regionalism, multicultural inclusivity, gender performance and identity, community, feminism, white settler cultures, Indigenous reconciliation, cultural appropriation, nationalism, and various subjectivities. Prerequisite: 4.0 university credits.

» **ENGL 3601H: Twentieth Century Theory and Criticism**
Examines some of the major critical approaches to literature and interpretation in the twentieth century: formalism, structuralism and semiotics, reader-response criticism, new historicism, psychoanalytic criticism, deconstruction, and feminism. Prerequisite: 4.0 university credits. Excludes ENGL 3600Y.

» **ENGL 3603H: Is This Thing Any Good?: Literary Theory Before 1900**
This course addresses literary and aesthetic theory from Aristotle’s time until 1900. It addresses the various principles, suppositions, and standards which have been used in discussions of aesthetic and literary merit over the centuries, and interrogates the judgments and pre-judgments that tend to be involved whenever aesthetic determinations are made. Prerequisite: 4.0 university credits. Excludes ENGL 3600Y.

» **ENGL 3604Y/3605H: Race, Ethnicity, and Literature**
Provides an introduction to critical theories on race, ethnicity, and national culture as they relate to literary theory, criticism, and production. Topics may include racialized identities and difference, power, intersectionality, bodies, decolonialism, Indigenous Knowledge, whiteness, and literature from a range of traditions. Prerequisite: 4.0 university credits. Students may take only one of ENGL 3604Y or 3605H for credit.

» **ENGL 3607H: Producing Punk**
An investigation into the meaning of style and the politics of popular music, this course approaches the subject of UK punk theoretically (Adorno, Debord, Hebdige, Frith), historically (readings in political and cultural history), and analytically (punk music and fashion, fanzines, album covers, and ephemera). Prerequisite: 4.0 university credits.

» **ENGL-WMST 3609H: SickLit**
We read works that imagine disease, cure, and convalescence as gendered modes, asking how literature exposes pathologization and how authors rewrite illness beyond pathology. We focus on the regulation imposed by cultural and social understandings of “sickness” and the resistance posed by authors to medicalization. Prerequisite: 4.0 university credits. Excludes ENGL 3701H (2012FA).

» **ENGL-WMST 3701H: Writing the Body**
Studies how literary production is influenced by gender and sexuality, with selected works from different genres and literary periods in English. Areas of study may include the female literary tradition, discourses in masculinities, and queer and trans-gendered narratives, among others. Prerequisite: 4.0 university credits. Excludes ENGL-WMST 3700Y.
ENGL-WMST 3704H: Queer Lit
Examines literary and cultural representations of queerness through historical, theoretical, and aesthetic approaches. What does it mean for a text to be “queer”? How do sexual identities intersect with racial, ethnic, and religious ones? What can explorations of queerness as an identity category tell us about identity itself? Prerequisite: 4.0 university credits. Offered only at Trent University Durham – GTA.

ENGL 3707H: Literature and Globalization
An examination of literary and theoretical texts that interrogate the political, economic, and cultural effects of globalization. How does identity work if everyone’s hybrid? Does nationality matter in a world run by transnational corporations? What does “authentic” mean in this brave new McWorld? Prerequisite: 4.0 university credits.

ENGL-CAST-WMST 3709H: Girlhood Bodies and Narratives: Canadian and Global
Studies selected girlhood bodies and narratives as they have developed within the contexts of Canadian and global literature and popular culture. Focusing on the negotiation of girlhood bodies and narratives through a variety of spaces and over diverse borders, this course considers relationships between Canadian and global girlhoods. Prerequisite: 4.0 university credits including 1.0 ENGL credit or permission of the instructor.

ENGL 3755H: Literature and Mysticism
Despite the fact that mystical experience has traditionally been deemed “ineffable,” or indescribable, volumes of literature have been written describing and reflecting on it. This course examines such texts in the English literary tradition with an eye to uncovering the ways in which language is used to say the unsayable. Prerequisite: 4.0 university credits. Offered only at Trent University Durham – GTA.

ENGL 3808Y: The Novel
A study of the development of the English novel, stressing both its thematic and technical aspects. Writers to be studied may include Defoe, Richardson, Fielding, Sterne, Austen, Scott, Emily Brontë, Dickens, Eliot, Hardy, James, Conrad, Lawrence, and Woolf. Prerequisite: 4.0 university credits.

ENGL 3850Y/3851H: Intermediate Fiction Workshop
A writing-intensive workshop in original contemporary fiction, this course offers student writers an opportunity to deepen, extend, and enhance their current creative writing practices using a variety of fictional forms. Weekly writing, editing, reading, and live conversational critiques are required. Prerequisite: 4.0 university credits including ENGL 2853H or 2859H (or permission of the instructor, with portfolio submission). Students may take only one of ENGL 3850Y or 3851H for credit.

ENGL 3853H: Intermediate Poetry Writing Workshop
Aimed at poets already engaged in an ongoing poetic writing practice, this course asks students to complete weekly, original poetry writing in a variety of contemporary modes, complemented by ongoing readings and discussions of poetry and poetics and the development of peer editing skills. Prerequisite: ENGL 2853H or 2959H (or permission of the instructor, with portfolio submission).

ENGL 3855H: Creative Non-Fiction Workshop
Provides students with the opportunity to develop, through exercises and routines, a sustainable and robust writing practice, while exploring the connections between reportage and story, between documentary and art, between poetry and persuasion, and other relationships between the writer and the world. Prerequisite: ENGL 2855H or 6.0 university credits including one of ENGL 2851H, 2853H, or 2859H, or permission of the instructor.

ENGL 4020D: Honours Thesis
A double credit in which instruction in research methods leads to a thesis of about 15,000 words. The department deadline for a thesis abstract and bibliography (signed by the thesis supervisor) is May 1 of the student’s third year. See trentu.ca/english for details.
ENGL 4040Y/4041H: Practicum Course
Designed to permit students, under the direction of a faculty member and with the approval of the department, to apply their skills in written and oral communication as well as their understanding of the role and function of literary culture to practical endeavours. See trentu.ca/english for details. Prerequisite: 4.0 ENGL credits, including 2.0 credits at the 3000 level, a minimum cumulative average of 70%, and permission of the department. Students must obtain the agreement of a faculty member to supervise the course and apply for permission to enrol prior to the commencement of the session in which the course will be offered. Students may take only one of ENGL 4040Y or 4041H for credit.

ENGL 4101H: Advanced Studies in Old English Language and Literature
See trentu.ca/english for details. Prerequisite: 4.0 ENGL credits (or permission of the department). Excludes ENGL 4100Y.

ENGL 4107H: Topics in Print and Visual Culture
Topic for 2019–2020: Making an Impression: Printmaking, Illustration, and the Book. Traces the impact of making prints, from early associations with the printing press (letterpress) to the development of commercial book illustration. Topics may include science and illustration, the rise of illustrated children’s books, modernist prints and artists’ books, the woodblock and Civil War reporting, printmaking techniques and theory. Prerequisite: 10.0 university credits.

ENGL 4120Y/4121H: Advanced Studies in Middle English Language and Literature
Topic for 2019–2020: Medieval Manuscripts. This hands-on course explores medieval texts from medieval Ireland and the later English manuscripts of Chaucer’s Canterbury Tales, considering the reception of these works within the particular cultural moments that produced them. Students learn to read medieval scripts and focus on specific problems in editing Middle English texts.

ENGL 4150Y/4151H: Advanced Studies in Shakespeare
See trentu.ca/english for details. Prerequisite: 4.0 ENGL credits (or permission of the department). Students may take only one of ENGL 4150Y or 4151H for credit.

ENGL 4152Y/4153H: Advanced Studies in Renaissance Literature
Topic for 2019–2020 to be announced. See trentu.ca/english for details. Prerequisite: 4.0 ENGL credits (or permission of the department). Students may take only one of ENGL 4152Y or 4153H for credit.

ENGL 4200Y/4201H: Advanced Studies in Restoration and Eighteenth-Century Literature
See trentu.ca/english for details. Prerequisite: 4.0 ENGL credits (or permission of the department). Students may take only one of ENGL 4200Y or 4201H for credit.

ENGL 4209H: Materiality and the Text in the Digital Age
What happens to the study of the materiality of texts when a screen replaces the paper or parchment, and the stability of the written or printed signs is no longer guaranteed? Topics include paratexts and metadata, archival theory, the Digital Humanities, hypertexts, technology, and the book as fetish. Prerequisite: 14.0 university credits with a minimum cumulative average of 80% and permission of the instructor.

ENGL 4250Y/4251H: Advanced Studies in the Romantics
Topic for 2019–2020: The Romantic Epic: Wordsworth and Byron. The Prelude and Don Juan constitute the Romantic epic’s account of the world-changing events of the Romantic era, notably the French Revolution and the rise of liberalism in Europe and the Americas, as refracted through the poetic development of Wordsworth (Thirteen-Book Prelude, 1805) and Byron (1819-24). Prerequisite: 4.0 ENGL credits (or permission of the department). Students may take only one of ENGL 4250Y or 4251H for credit.
ENGL 4300Y/4301H: Advanced Studies in American Literature
Topic for 2019–2020 to be announced. See trentu.ca/english for details. Prerequisite: 4.0 ENGL credits (or permission of the department). Students may take only one of ENGL 4300Y or 4301H for credit.

ENGL 4400Y/4401H: Advanced Studies in Victorian Literature
See trentu.ca/english for details. Prerequisite: 4.0 ENGL credits (or permission of the department). Students may take only one of ENGL 4400Y or 4401H for credit.

ENGL 4450Y/4451H: Postcolonial Texts
See trentu.ca/english for details. Prerequisite: 4.0 ENGL credits (or permission of the department). Students may take only one of ENGL 4450Y or 4451H for credit.

ENGL-CAST 4500Y/4501H: Advanced Studies in Canadian Literature
Topic for 2019–2020 (Trent University Durham – GTA): Post Postmodernism: Twenty-First Century Canadian Poetry. What are Canadians writing and reading? Is there a post-(really, an afterlife? an extension? a break?) for postmodernism in Canadian literature? Eclectic reading list from avant-garde to conventional, lyric to anti-lyric. Determine and interpret common and exceptional features, markets, traditions, genres of the period. Prerequisite: 4.0 ENGL credits (or permission of the department). Students may take only one of ENGL 4500Y or 4501H for credit.

ENGL-CAST 4503H: Advanced Studies in Early Canadian Writing
Topic for 2019–2020: The study of early Canadian writing, primarily nineteenth-century, motivated by the aim to explain our present by looking at our past. May include diaries and early journalism; travel writing; fiction and poetry. Issues studied encompass critical geographies and migrations, Indigenous peoples and histories, transatlantic perspectives, questions of class and gender. Prerequisite: 10.0 university credits.

ENGL 4600Y/4601H: Advanced Studies in Critical Approaches to Literature
See trentu.ca/english for details. Prerequisite: 4.0 ENGL credits. Students may take only one of ENGL 4600Y or 4601H for credit.

ENGL-CUST 4703H: Special Topic: Critical World Building
We read detective fiction, dystopia/post-apocalyptic fiction, fantasy, science fiction, and the new weird with a focus on techniques and protocols of building generic storyworlds. We then engage in a collective world-building exercise that starts with a focus on a small region or conflict and develops a broader story world from that point. Prerequisite: 10.0 university credits including 3.0 ENGL or CUST credits.

ENGL 4800Y/4801H: Advanced Studies in Genre
Topic for 2019–2020: Considers the figure and phenomenon of the superhero—a central icon of contemporary popular culture. Focusing on comics, films, television shows, and video games, the course explores the history and politics of superheroes; deconstruction of the superhero myth; diversity and representation; origin, stories, psychology, and trauma. Prerequisite: 4.0 ENGL credits (or permission of the department). Students may take only one of ENGL 4800Y or 4801H for credit.

ENGL 4802Y/4803H: Advanced Studies in Modern Poetry
See trentu.ca/english for details. Prerequisite: 4.0 ENGL credits (or permission of the department). Students may take only one of ENGL 4802Y or 4803H for credit.

ENGL 4804Y/4805H: Advanced Studies in Modern Drama
See trentu.ca/english for details. Prerequisite: 4.0 ENGL credits (or permission of the department). Students may take only one of ENGL 4804Y or 4805H for credit.
ENGL 4806Y/4807H: Advanced Studies in Modern Fiction
Topic for 2019–2020 (Trent University Durham – GTA): Considers selected works by American author Edith Wharton in the context of several literary streams, including national (American) and transnational (British fiction and women’s writing). It considers Wharton’s significance in the movement from nineteenth-century literary trends into the twentieth and her appeal, including adaptations, in the twenty-first century. Prerequisite: 4.0 ENGL credits (or permission of the department). Students may take only one of ENGL 4806Y or 4807H for credit.

ENGL 4809H: Setting the Scene
Develops leadership, analytical, and directorial skills for students with a background in reading dramatic texts. Students participate in group work with students in ENGL 1809H as they learn to read plays as guides to voice and movement. Prerequisite: 4.0 ENGL credits (or permission of the department).

ENGL 4850Y/4851H: Advanced Seminar in Creative Writing
See trentu.ca/english for details. Prerequisite: 4.0 ENGL credits including 1.0 credit from ENGL 1851H, 2851H, 2853H, 2855H, 2859H, 3850Y/3851H, 3853H, or 3855H; or permission of the instructor. Students may take only one of ENGL 4850Y or 4851H for credit.

ENGL 4900Y, 4901H, 4902H: Reading Course
Allows the student to select, with the approval of the department, an area for research study which is then pursued under the direction of a member of the department. Students must obtain the agreement of a faculty member to supervise the course and apply for admission to enrol prior to the commencement of the session in which the course will be offered. See trentu.ca/english for details. Prerequisite: 4.0 ENGL credits, including 2.0 credits at the 3000 level, and a cumulative average of 70% or higher in all courses taken (or permission of the department).

Professor and Director of the Trent School of the Environment

S. Watmough, BSc (Liverpool Polytechnic), PhD (Liverpool John Moores)

Associate Director of the Trent School of the Environment

To be named

Professors

S. Bocking, BSc, MA, PhD (Toronto) (on leave Winter 2020)
J. M. Buttle, BA (Toronto), PhD (Southampton)
S. E. Franklin, BES, MA, PhD (Waterloo) (on leave Winter 2020)
H. Hintelmann, BSc, PhD (Hamburg)
P. M. Lafleur, BSc (Brandon), MSc (Trent), PhD (McMaster)
C. L. McKenna Neuman, BSc (Queen’s), MSc (Guelph), PhD (Queen’s) (on leave Winter 2020)
C. D. Metcalfe, BSc (Manitoba), MSc (New Brunswick), PhD (McMaster) (on leave Winter 2020)
H. N. Nicol, BA (Toronto), MES (York), PhD (Queen’s)
D. Wallschläger, MSc (Bochum), PhD (Bremen)

Professor and Canada Research Chair

M. W. Skinner, BA (Wilfrid Laurier), MA (Guelph), PhD (Queen’s)

Associate Professors

J. Aherne, BA, Grad. Dipl. (Trinity College Dublin), MApplSc, PhD (University College Dublin)
M. C. Eimers, BSc (Toronto), MSc (Trent), PhD (Waterloo)
C. Furgal, BSc (Western), MSc, PhD (Waterloo)
S. Hill, BSc, BA (Queen’s), PhD (Calgary), PEng (on leave 2019–2020)
R. Ponce-Hernandez, BEng, MSc (Chapingo), DPhil (Oxford)
S. Rutherford, BA (Toronto), MSc (Guelph), PhD (York)
T. Whillans, BA (Guelph), MSc, PhD (Toronto)
S. E. Wurtele, BSc (Trent), PhD (Queen’s)

Assistant Professor and Canada Research Chair

I. Power, BSc, PhD (Western)

Assistant Professor

K. Thompson, BSc (Western), PhD (Guelph)

Senior Lecturers

D. Beresford, BSc (Trent), BEd (Queen’s), PhD (Trent)
B. Hickie, BScAgr (Guelph), MSc, PhD (Waterloo)
R. Picton, MA (Carleton), PhD (Toronto)

Adjunct Faculty

E. Bennett, BSc, MSc (Trent), PhD (Koblenz-Landau)
R. Page, BA, MA (Queen’s), PhD (Oxford), ICD.D.
M. Seasons, BA (Queen’s), MEDES (Calgary), PhD (Waterloo)
Building on Trent University’s recognized leadership in teaching and research in all areas related to the environment, the Trent School of the Environment positions Trent University among Canada’s leading post-secondary environmental institutions, offering students the chance to make their mark on this planet in a thoughtful and sustainable way. The Trent School of the Environment offers a rich learning environment at every level of study. At the undergraduate level, the school boasts 13 degree programs and more than 100 environment-related courses across multiple disciplines in the arts and sciences, including:

- Bachelor of Science Program in Ecological Restoration (p. 136), offered in collaboration with Fleming College
- Bachelor of Science Program in Environmental & Resource Science (p. 177)
- Bachelor of Arts Program in Environmental & Resource Studies (p. 177)
- Bachelor of Environmental Science/Studies Program (p. 177)
- Bachelor of Science Program in Environmental Chemistry (p. 192)
- Bachelor of Science Program in Environmental Geoscience (p. 194)
- Bachelor of Arts Program in Indigenous Environmental Science (p. 258)
- Bachelor of Arts Program in Indigenous Environmental Studies (p. 258)
- Bachelor of Arts and Bachelor of Science Programs in Sustainable Agriculture & Food Systems (p. 373)
- Bachelor of Science Program in Water Sciences (p. 380)

In addition, students in these degree programs may choose to complete an Option in Planning (p. 412), an Option in Circumpolar Studies (p. 404), or an Option in Geographical Information Systems (p. 407). The Trent School for the Environment also offers a Diploma in Circumpolar Studies (p. 103).
Environmental & Resource Science/Studies

trentu.ca/ers

Program Coordinator
To be named

Associated Faculty

The Trent School of the Environment provides many opportunities to study the environment, with more than 100 courses in all aspects of environmental science and policy. Many of these courses emphasize practical experience, including field work in Trent’s network of nature areas and in local communities. Students can choose to pursue an Honours BA in Environmental & Resource Studies or an Honours BSc in Environmental & Resource Science. Students may earn a single-major or joint-major degree with any of more than 20 other University departments or programs that offer Honours degrees. The School also offers an Honours Bachelor of Environmental Science/Studies (BESS). Students earning a degree in another subject may also obtain a minor in Environmental & Resource Science or Studies. These programs offer a high degree of flexibility in course selection, including options for a year abroad, community research placements, and research and training internships within and outside of the University.

Notes
• Science courses, which fulfill University requirements for the BSc, are designated Environmental & Resource Science (ERSC) and marked “Sc”; arts courses are designated Environmental & Resource Studies (ERST).
• Any course involving work with live vertebrate animals requires the Animal Care Course, which is described on p. 19 of the Calendar.
• Students who have taken CHEM 1000H and 1010H and achieved a grade of at least 70% are exempt from the requirement to take ERSC 2220H for the BSc or BESS degrees. This exemption will not, however, alter the minimum number of credits in Environmental & Resource Science/Studies required for the degree.
• Community-based research and Honours thesis courses normally require a minimum cumulative average of 75%.
• Students with an interest in Geographical Information Systems (GIS) are recommended to incorporate the Option in Geographical Information Systems, a joint program with Fleming College, into their Honours program. A student taking the Option in GIS will receive 7.0 upper-year university credits from their third year at Fleming College, of which 4.5 will be ERSC/T credits. To obtain a degree in Environmental & Resource Science/Studies, students must complete a total of 10.0 ERSC/T credits:
  – 4.5 credits earned from Fleming College
  – 3.5 ERSC/T required credits for either the BA or BSc degree
  – 1.0 Category C credit (BA) or 1.0 Category A credit (BSc)
  – 1.0 Category D credit (capstone credit)
For more information about the Option in Geographical Information Systems, see p. 407.
Environmental & Resource Science/Studies

Bachelor of Arts Program in Environmental & Resource Studies, Bachelor of Science Program in Environmental & Resource Science, and Bachelor of Environmental Science/Studies

- In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).
- The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

</table>
Bachelor of Arts Program in Environmental & Resource Studies

The single-major Honours program. 20.0 credits including the following 10.0 credits:
- 1.0 ERSC credit consisting of ERSC 1010H and 1020H
- 2.5 ERST credits consisting of ERST 2100H, 2510H, 2520H, 2525H, and 3000H
- 0.5 ERSC/T credit from Category A
- 1.0 additional ERSC/T credit from Category B
- 2.0 additional ERST credits from Category C
- 1.0 ERSC/T credit from Category D
- 2.0 ERSC/T credits at the 3000 level or beyond in addition to the above

The joint-major Honours program. 20.0 credits including the following 7.5 credits:
- 1.0 ERSC credit consisting of ERSC 1010H and 1020H
- 2.5 ERST credits consisting of ERST 2100H, 2510H, 2520H, 2525H, and 3000H
- 0.5 ERSC/T credit from Category A
- 0.5 additional ERSC/T credit from Category B
- 1.0 additional ERST credit from Category C
- 0.5 ERSC/T credit from Category D
- 1.5 ERSC/T credits at the 3000 level or beyond in addition to the above

The minor in Environmental & Resource Studies consists of the following 5.0 credits:
- 1.0 ERSC credit consisting of ERSC 1010H and 1020H
- 2.0 ERST credits consisting of ERST 2100H, 2510H, 2520H, and 2525H
- 0.5 ERSC/T credit from Category A
- 0.5 additional ERSC/T credit from Category B
- 1.0 additional ERST credit from Category C
Bachelor of Science Program in Environmental & Resource Science

The single-major Honours program. 20.0 credits including the following 10.0 credits:
- 3.0 ERSC credits consisting of ERSC 1010H, 1020H, 2080H, 2220H, 2230H, and 2240H
- 0.5 ERST credit consisting of ERST 3000H
- 2.0 additional ERSC credits from Category A
- 1.0 additional ERSC/T credit from Category B
- 0.5 additional ERST credit from Category C
- 1.0 ERSC/T credit from Category D
- 2.0 ERSC/T credits at the 3000 level or beyond in addition to the above
- 14.0 science credits are required for the Honours degree, including 1.0 MATH credit

The joint-major Honours program. 20.0 credits including the following 7.5 credits:
- 3.0 ERSC credits consisting of ERSC 1010H, 1020H, 2080H, 2220H, 2230H, and 2240H
- 0.5 ERST credit consisting of ERST 3000H
- 1.0 additional ERSC credit from Category A
- 0.5 additional ERSC/T credit from Category B
- 0.5 additional ERST credit from Category C
- 0.5 ERSC/T credit from Category D
- 1.5 ERSC/T credits at the 3000 level or beyond in addition to the above
- 14.0 science credits are required for the Honours degree, including 1.0 MATH credit

The minor in Environmental & Resource Science consists of the following 5.0 credits:
- 3.0 ERSC credits consisting of ERSC 1010H, 1020H, 2080H, 2220H, 2230H, and 2240H
- 0.5 additional ERSC credit from Category A
- 0.5 additional ERSC/T credit from Category B
- 1.0 additional ERST credit from Category C

Bachelor of Environmental Science/Studies

- The Bachelor of Environmental Science/Studies is a unique degree program that combines both the arts and sciences in the study of the environment.
- Students applying to this direct-entry program are required to have a minimum admission average of 75%. To graduate from the program, students must obtain a minimum overall combined average of 75% in ERSC 1010H and 1020H.

The single-major Honours program. 20.0 credits including the following 14.0 credits:
- 2.0 ERSC credits consisting of ERSC 1010H, 1020H, 2080H, and 2220H
- 1.0 ERST credit consisting of ERST 2100H and 3000H
- 0.5 ERSC credit from ERSC 2230H or 2240H
- 0.5 ERST credit from ERST 2510H, 2520H, or 2525H
- 2.0 additional ERSC/T credits from Category A
- 1.0 additional ERSC/T credit from Category B
- 2.0 additional ERST credits from Category C
- 1.0 ERSC/T credit from Category D
- 2.0 ERSC credits at the 3000 level or beyond in addition to the above
- 2.0 ERST credits at the 3000 level or beyond in addition to the above
Please consult the academic timetable for information on courses that will be offered in 2019–2020, including when they will be scheduled.

» ERSC 1010H: Environmental Science and Sustainability (Sc)
  An interdisciplinary inquiry into the biophysical and social foundations that enable the study of environmental issues, emphasizing the scientific, political, social, economic, and historical dimensions of environmental issues. These dimensions are examined through a series of issues including climate change, air pollution, land and resource use, biodiversity and protected areas, contaminants, and water quality and quantity. Excludes ERSC 1000Y.

» ERSC 1020H: Cases in Environment and Sustainability (Sc)
  An interdisciplinary exploration of how humans use, affect, and protect the environment. Through in-depth case studies on environmental and/or resource issues, the complex interrelationships between humans and the environment are explored using scientific, social, political, economic, and numerical approaches. Excludes ERSC 1000Y.

» ERST-CAST-GEOG-INDG 2040Y: Canada: The Land (ICR) (see Canadian Studies)

» ERSC-GEOG-BIOL 2080H: Natural Science Statistics (Sc) (see Geography)

» ERSC-GEOG 2090H: Introduction to Geographical Information Systems (Sc) (see Geography)

» ERST-POST 2100H: Environmental Science and Politics
  The roles of science in current environmental controversies. Topics examine science and environmental ethics, the application of science to natural resource management, the contribution of science to action on international environmental problems such as climate change, and the role of science in making decisions about environmental risks. Prerequisite: 1.0 ERSC or POST credit at the 1000 level.

» ERST-CUST 2114H: Workshop: Ecological Art (see Cultural Studies)

» ERSC-IESS-INDG 2150H: Environmental Assessment Techniques for Indigenous Communities (Sc)
  This two-week residential field course is designed to provide students with appropriate Western scientific theory and basic scientific skills to address environmental assessment and natural resource issues frequently encountered by Indigenous communities. Pre- or co-requisite: INDG-ERST 2601Y. Not open to students in a Bachelor of Science program.

» ERSC 2220H: Environmental Assessment: Chemical and Laboratory Methods (Sc)
  Theory and methods for assessing the impacts of contaminants and related stressors in the environment. Emphasized are environmental chemistry and the nature, mobility, and potential impacts of pollutants. Students who have taken CHEM 1000H and 1010H and achieved a grade of at least 70% are exempt from the requirement to take ERSC 2220H. Prerequisite: ERSC 1010H and 1020H. Excludes ERSC 2210H.

» ERSC 2230H: Environmental Assessment: Sampling and Analysis (Sc)
  Theory and application of sampling design, data analysis, and monitoring for environmental assessment of effluent impacts, particularly of industry, municipalities, and agriculture. Prerequisite: ERSC 2220H or both CHEM 1000H and 1010H. Excludes ERSC 2210H.

» ERSC 2240H: Ecological Assessment for Natural Resource Management (Sc)
  Field survey design, techniques, and theory for the assessment of natural resources, including consideration of watershed and local scales, biotic indices, soils, hydrology, and policy/legal issues. Prerequisite: ERSC 1010H and 1020H. Excludes ERSC 2210H.

» ERSC-BIOL 2260H: Introductory Ecology (Sc) (see Biology)
» ERSC 2300H: Energy Science and Technology (Sc)
A discussion of the scientific principles of energy and thermodynamics, and the current and future prospects for energy production, conversion, storage, and transmission. Prerequisite: ERSC 1010H and 1020H.

» ERST-GEOG 2320H: Lands and Environments of the Circumpolar North (see Geography)
» ERST-GEOG 2330H: Changing Resources of the Circumpolar North (see Geography)
» ERSC-SAFS 2350H: Ecological Agriculture (Sc)
An exploration of the history and scientific basis of agriculture in southern Ontario, and the ecological underpinnings of farming. Nutrient cycling, crop rotation, integrated pest management, and grazing systems are discussed. Traditional, conventional, and intense systems are considered in the context of sustainability. Farm visits are included. Course materials fee: $10. Prerequisite: ERSC 1010H and 1020H. Recommended: SAFS 1001H, BIOL 1020H, or 1030H. Excludes ERSC-SAFS 3350H.

» ERSC-SAFS 2360H: Agriculture and Agricultural Alternatives (Sc)
Focuses on the origins and domestication of crops and livestock, and on the increasingly narrow genetic resources available to modern production systems. Conventional, intensive, and industrial farming systems are considered, as well as alternatives such as organic farming, biodynamics, and the development of niche markets. Farm visits are included. Prerequisite: ERSC 1010H and 1020H. Recommended: SAFS 1001H; BIOL 1020H or 1030H; and ERSC-SAFS 2350H or 3350H. Excludes ERSC-SAFS 3360H.

» ERSC-GEOG 2401H: Environmental Geology (Sc) (see Geography)
» ERST-GEOG 2510H: Qualitative Methods in Geography and Environmental Studies (see Geography)
» ERST-CAST 2520H: Natural Resource Management: Theory and Comparative Cases
Canadian natural resource management is examined with attention to the context within which management occurs, and the requirement to address different interests, understandings, and issues. Prerequisite: ERSC 1010H and 1020H.

» ERST-CAST 2525H: Critical Environmental Thinking: Political Economy and Policy Process
The context of market theory and ecological/resource economics is used to provide environmental students with experience in critical thinking. Objectives are to understand the framework of political economy, particularly Canadian, that informs contemporary political and economic practice, and to master basic elements of critical research and writing. Prerequisite: ERSC 1010H and 1020H; or 1.0 PHIL credit; or POST 1001H and 1002H.

» ERSC-GEOG 2530H: Water Resources (Sc) (see Geography)
» ERST-IESS-INDG 2601Y: Indigenous Knowledge Systems and the Natural Environment (ICR) (see Indigenous Studies)
» ERSC-CHEM 2610H: Atmospheric Environmental Chemistry (Sc) (see Chemistry)
» ERSC-CHEM 2620H: Aquatic Environmental Chemistry (Sc) (see Chemistry)
» ERSC-BIOL-EDUC 2701H: Environmental Education: Biological Issues (Sc)
The science behind environmental issues that are primarily biological in nature, including biodiversity, habitat loss, invasive species, and toxicity. Intended for prospective educators, natural area interpreters, and environmental communicators. Prerequisite: 5.0 university credits. Excludes ERSC-BIOL 2700Y.
ERSC-BIOL-EDUC 2702H: Environmental Education: Fostering Stewardship and a Sustainable Future (Sc)
The science behind environmental issues that are primarily physical or chemical in nature, including energy conservation, global warming, and air and water pollution. Intended for prospective educators, nature interpreters, and others interested in working with the public on environmental stewardship and sustainability initiatives. Prerequisite: 5.0 university credits; ERSC-BIOL 2701H highly recommended. Excludes ERSC-BIOL 2700Y.

ERST-ENGL 2705H: Literature and the Environment (see English Literature)

ERST-HIST-CUST 2805H: Green Screen: Film and Environmental History (see History)

ERST 3000H: Environmental Professional Practice
An exploration of the professional and social aspects of environmental and resource sciences and studies through applied problems and projects. Students are introduced to environmental professionals from government, non-profit organizations, and corporations. Students develop professional leadership skills by working in small groups to address a meaningful environmental problem. Prerequisite: 1.0 credit from ERSC 2220H, 2230H, ERST 2240H, 2510H, 2520H, or 2525H.

ERSC-SAFS 3002H: Environmental Implications of Agriculture (Sc) (see Sustainable Agriculture & Food Systems)

ERSC-EGEO-GEOG 3003H: Field Methods in Environmental Geoscience (Sc) (see Environmental Geoscience)

ERSC-GEOG 3010H: Fundamentals of Geographical Information Systems Analysis (Sc)
Focuses on Geographical Information Systems and analysis in the vector data domain (discrete object representation). It examines the fundamentals of spatial database development and the main analytical operations in vector. Practical application through laboratory exercises with examples from the urban and rural environment is a major component. Prerequisite: ERSC-GEOG-BIOL 2080H and ERSC-GEOG 2090H. Not open to students in the GIS Application Specialist Joint Program with Fleming College.

ERSC-GEOG 3020H: Remote Sensing of the Environment (Sc) (see Geography)

ERST-POST 3030H: Green Politics (see Political Studies)

ERST 3081H: Local Waste Management
Examines ways to address the wastes handled in the municipal waste management system. It includes residential, commercial, institutional, and non-hazardous industrial waste. The philosophy underlying this course is the transformation from a waste management approach to a resource management approach, where “wastes” are seen as “valuable used materials.” Prerequisite: 1.0 ERSC or ERST credit at the 2000 level or beyond. Excludes ERST 3080Y.

ERST 3082H: Issues in Waste Management
Examines several major issues in waste management, including extended producer responsibility, radioactive waste, hazardous waste cleanup, agricultural waste management, waste facility siting, waste in developing countries, and waste export and import. Prerequisite: 1.0 ERSC or ERST credit at the 2000 level or beyond. Excludes ERST 3080Y.

ERST 3110H: Environmental Impact Assessment: A Case Study Approach
Environmental impact assessment brings together scientific, economic, social, and political perspectives in an attempt to anticipate and manage environmental impacts. This course examines different approaches to environmental assessment, contrasting federal with provincial and social with biophysical. Prerequisite: 9.0 university credits including 1.0 ERSC or ERST credit at the 2000 level or beyond.
» **ERST-CAST-POST 3120H: Canadian Environmental Policy**  
An interdisciplinary inquiry into how environmental policies in Canada are developed, implemented, and improved, applying political, economic, legal, scientific, Indigenous, and moral perspectives. Focus is on federal, provincial, and municipal contexts, recognizing that the environment does not respect jurisdictions. Topics include energy and materials use, biodiversity, toxic substances, waste management, and land use. Prerequisite: 1.0 ERST, CAST, POST, or ADMN credit at the 2000 level or beyond. Excludes ERST-CAST-POST 3100Y.

» **ERST-CAST-WMST 3141H: Gender, Health, and Environments (see Gender & Women’s Studies)**

» **ERSC 3160H: Community-Based Natural Resource Management (Sc)**  
Examines critically and constructively community-based management of natural resources. Explores the topic of self-regulation and co-management by resource interest groups, drawing on cases from fisheries, forestry, wildlife, and integrated sectors. Traditional and developmental approaches are contrasted. Prerequisite: 1.0 ERSC or ERST credit at the 2000 level or beyond.

» **ERSC-ANTH-GEOG 3175H: The Archaeology of Natural Disasters (Sc) (see Anthropology)**  
Students majoring in Environmental & Resource Studies/Science may only take one of ERSC-ANTH-GEOG 3175H or 3185H as an ERSC credit.

» **ERSC-ANTH-GEOG 3185H: The Archaeology of Climate Change (Sc) (see Anthropology)**  
Students majoring in Environmental & Resource Studies/Science may only take one of ERSC-ANTH-GEOG 3175H or 3185H as an ERSC credit.

» **ERSC 3200Y: Management of Forest Ecosystems (Sc)**  
Offers an appreciation of the problems in managing forest ecosystems. Looks at the ecological processes which create and maintain forests and at how foresters attempt to manage them, and the environmental consequences of forestry practices; then examines case studies drawn from Ontario and other parts of the world. Prerequisite: ERSC-BIOL 2260H or ERSC 2210H or 2240H.

» **ERSC 3220H: Community Engaged Lacustrine Shoreline Assessment and Monitoring (Sc)**  
A field course covering approaches and methods for the assessment of lacustrine shorelines in collaboration with property owners. Prerequisite: BIOL-ERSC 2260H or ERSC 2240H or permission of instructor.

» **ERSC/ERST-IDST 3230H: Environmental Problems and Solutions in Small Island Developing States: A Field Course (Sc depending upon topic)**  
Barbados, like many islands in the West Indies, is facing a variety of challenges, such as overfishing, pollution, and loss of coral reefs and other habitats. This course, which has a one-week field component and an online component, introduces students to the challenges faced by Barbados and other islands, as well as potential solutions. The default credit for the course is ERSC, but students may take the course as an ERST credit provided this request is made to the instructor prior to the start of the course. Students pay a course fee in addition to travel costs. Prerequisite: ERSC 2230H or ERST-CAST 2520H or IDST 2000Y, or permission of the instructor.

» **ERST 3250H: Introduction to Environmental Law**  
A comprehensive overview of environmental law in Canada, examining the key environmental laws and policies at the provincial, federal, and international levels. Prerequisite: 9.0 university credits including ERSC 1010H and 1020H.

» **ERST-PHIL 3301H: Environmental Ethics**  
Provides a consideration of the moral dimensions of human/nonhuman relationships. We critically examine a range of systems of thought that address such ethical questions, including deep ecology, ecofeminism, Indigenous perspectives, and animal rights, with specific cases on each philosophical orientation. Deals explicitly with the ethical dimensions of ecological restoration. Prerequisite: 1.0 ERST or PHIL credit at the 2000 level or beyond. Excludes ERST 3300Y.
» ERST-PHIL-SAFS 3302H: Animals and Society
Provides an introduction to animal studies. Topics considered include the constructed divide between humans and non-human animals, societies' use of animals—for food, clothing, entertainment, companionship, research—and the implications of these relationships. The course also discusses animal rights, animal protection, and posthumanist perspectives. Prerequisite: 1.0 ERST or PHIL credit at the 2000 level or beyond. Excludes ERST 3300Y.

» ERST 3311H: Environmental Risk and the Risk Society
Examines social and cultural aspects of risk, with attention as well to the techniques of risk analysis. Themes discussed include the rise of industrial risk assessment, the relations between risk assessment and social and environmental impact assessment, and risk assessment science as professional practice. Prerequisite: 9.0 university credits including 0.5 ERSC or ERST credit at the 2000 level or beyond. Excludes ERSC/ERST 3310Y.

» ERST 3312H: Ecological Risk Assessment
Examines the recent development of ecological risk assessment and its relationship to political ecology, complexity, and communication. A variety of cultural and social themes are considered, including critical ecological theory, ecological restoration as professional practice, and the implications for political ethics. Prerequisite: 9.0 university credits including 0.5 ERSC or ERST credit at the 2000 level or beyond. Excludes ERSC/ERST 3310Y.

» ERST-CAST-GEOG 3330H: Wilderness Resources (see Geography)

» ERSC-ANTH 3333H: Ecological Anthropology (Sc) (see Anthropology)

» ERST-CAST-SAFS 3340H: The Canadian Food System: Community Perspectives and Experiences (see Sustainable Agriculture & Food Systems)

» ERSC-BIOL-SAFS 3370H: Organic Agriculture: Principles and Practices (Sc) (see Sustainable Agriculture & Food Systems)

» ERSC-BIOL 3380H: Advanced Ecology (Sc) (see Biology)

» ERST-GEOG 3390H: Contemporary Issues of the Circumpolar World (see Geography)

» ERSC-CHEM-FRSC 3400H: Chromatography (Sc) (see Chemistry)

» ERSC-CHEM-FRSC 3410H: Methods of Spectral Analysis (Sc) (see Chemistry)

» ERSC 3450H: Environmental Air Pollution (Sc)
The sources, distribution, and impacts of atmospheric pollution in urban and rural environments are discussed. Explores atmospheric monitoring, back-trajectory analysis, trends, and meteorology in assessing atmospheric pollution. Emphasis is on using Canadian monitoring data to investigate environmental air pollution. Prerequisite: ERSC 2230H or both CHEM 1000H and 1010H.

» ERST 3501H: Environment and Communication: Oral and Visual Presentation
Intended to develop skills for the oral and visual presentation of scientific information to interdisciplinary non-expert audiences. Students work with real scientific data to design and present the findings. Prerequisite: 9.0 university credits including ERSC 1010H and 1020H and 1.0 additional science credit.

» ERST 3502H: Environment and Communication: Writing and Reporting
Develops skills for plain-language communication of environmental science to non-scientific audiences (general public, community groups, decision-makers, media, and interdisciplinary workplace groups). Public science literacy, evolving media, and new communications technologies are examined. Written assignments in popular formats are emphasized. Prerequisite: 9.0 university credits including ERSC 1010H and 1020H and 1.0 additional science credit.
» **ERSC 3510H: Ecology and Management of Wetland Systems (Sc)**

Involves intensive first-hand study of wetland ecosystems in natural and culturally degraded states. Wetlands occur at the interface of terrestrial and aquatic ecosystems. Wetland management thus requires understanding of overlapping ecological processes and management practices common to most of Canada. Field trip fee: $30. Prerequisite: ERSC-BIOL 2260H or ERSC 2240H or 2210H or both ERST-CAST 2520H and 2525H.

» **ERSC 3551H: Pollution Ecology (Sc)**

The ecological and human health effects of environmental contaminants are examined as they relate to water, air, and soil pollution. Emphasis is on science but social issues are also addressed. Knowledge of biology and chemistry is useful. Prerequisite: One of ERSC 2210H, 2230H, 2240H, or ERSC-BIOL 2260H. Excludes ERSC 3550Y, 3570H, 3580H.

» **ERSC-GEOG-SAFS 3560H: Soil Science (Sc) (see Geography)**

» **ERSC-CHEM 3600H: Aqueous Environmental Geochemistry (Sc) (see Chemistry)**

» **ERST-IDST-POST-SAFS 3602H: Environment and Development**

 Examines environmental issues and conflicts in developing countries, applying a critical political ecology perspective to a range of current topics, including oil production, biodiversity conservation, and resource conflicts. There is also a special focus on agriculture and food systems. Prerequisite: IDST 2000Y or ERST-POST 2100H or ERST-CAST 2520H or POST 2200Y. Excludes ERST-IDST-POST 3601Y.

» **ERST-IDST-POST 3603H: Environmental Justice**

 Examines the dimensions and implications of the unequal global distribution of environmental benefits and harms, including its relation to colonial and post-colonial economic exploitation, and responses by scholars and activists. A range of cases are considered, including resource extraction, toxic materials, and climate change. Prerequisite: IDST 2000Y or ERST-POST 2100H or ERST-CAST 2520H or POST 2200Y. Excludes ERST-IDST-POST 3601Y.

» **ERSC-CHEM 3610H: Ocean and River Chemistry (Sc) (see Chemistry)**

» **ERST-IESS-INDG 3631H: Issues in Indigenous Environmental Studies (see Indigenous Studies)**

» **ERST-IESS-INDG 3632H: Global Issues in Indigenous Environmental Studies (see Indigenous Studies)**

» **ERST-IESS-INDG-SAFS 3634H: Introduction to Indigenous Food Systems (see Indigenous Studies)**

» **ERSC-GEOG-SAFS 3650H: Soil Management and Conservation (Sc)**

Soils represent one of the most important natural resources from the point of view of sustainable agriculture and forestry, and protection of habitat. This course explores the scientific basis and management options for conservation of soil resources. Prerequisite: ERSC 2210H or ERSC 2240H or GEOG 2401H or GEOG 3520H or both GEOG 2540H and 2560H. Recommended: ERSC-GEOG-SAFS 3560H.

» **ERSC 3661H: Biological Effects of Electromagnetic Fields (BEEF) (Sc)**

Deals with the biological effects of electromagnetic fields ranging in frequency from static to radio frequency radiation generated by technology (technofields), by the earth and sun (geofields), and by other living organisms (biofields). Students conduct major research in an area of their choice. Prerequisite: 9.0 university credits including ERSC 1010H and 1020H. Recommended: PHYS 1002H. Excludes ERSC 3660Y.

» **ERSC-ANTH 3680H: Environmental Archaeology (Sc) (see Anthropology)**
» **ERSC 3701H: Introduction to Environmental Toxicology and Chemistry (Sc)**
  Introduces students to the chemical, physical, and toxicological properties of organic and inorganic toxicants in aquatic and terrestrial environments. Students are also introduced to the principles of contaminant modelling as tools for predicting the fate and toxic effects of contaminants in the environment. Prerequisite: BIOL 1020H and 1030H; and ERSC 2230H or 2210H or 1.0 CHEM credit at the 1000 level. Excludes ERSC 3700Y, 3750H.

» **ERSC 3702H: Chemical Hazards in the Environment (Sc)**
  Focuses on examining the impacts of chemical contaminants on human health, as well as the effects of exposure to contaminants on organisms and ecosystems. The course is organized into a case history format. Students are also introduced to the principles of ecological risk assessment. Prerequisite: ERSC 3701H. Excludes ERSC 3700Y, 3750H.

» **ERSC-PSYC 3710H: Environmental Health (Sc)**
  Examines environmental risk factors that affect human health and well-being, including diet and lifestyle, water and food security, exposure to chemicals, climate change, and the relationship between human and environmental health. Some principles of epidemiology are covered. Current topics in environmental health are examined in tutorial sessions. Prerequisite: ERSC 1010H and 1020H; and one of ERSC 2230H or ERSC-INDG 2150H or ERST-INDG 2601Y or ERSC-BIOL 2701H (or 2700Y).

» **ERST-CAST-GEOG 3720H: Urban Environments (see Geography)**

» **ERSC/ERST-IESS-INDG 3730Y: Indigenous Peoples, Health, and the Environment (Sc depending upon topic)**
  Provides an introduction to the multidisciplinary field of environmental health and its application to understanding health among Indigenous peoples. Students gain an understanding of the concepts, theories, and methods used in environmental health, and apply this knowledge to the investigation of the changing health status of Indigenous populations. This course may be taken as a science credit by successfully undertaking an appropriate technical assignment. Prerequisite: One of ERSC 2240H or ERST-INDG 2601Y or ERSC-INDG 2150H; or NURS 1000H, 1002H, and 1010H.

» **ERST-INDG 3740H: Circumpolar Peoples, Health, and The Environment**
  Introduces students to the multidisciplinary subject area of circumpolar health with an emphasis on environment and its changing nature as a determinant of health for Indigenous and non-Indigenous residents of the North. Prerequisite: GEOG 1045H and INDG 3745H or permission of the instructor.

» **ERST-HIST 3756H: The Environmental Crisis: From the Atomic Bomb to Global Warming (see History)**

» **ERST-CAST 3780H: Canadian Renewable Resource Economics and Project Planning**
  Introduces students to the economic theory of renewable resources in the Canadian social, political, and regulatory context, and also to professional project planning and management. Students are introduced to project components such as scoping, scheduling, budgeting, communications, team and risk management, and environmental sustainability. Prerequisite: 1.0 ERST or CAST credit at the 2000 level or beyond.

» **ERST-ANTH-IDST-SAFS 3800D: Community Development (see International Development Studies)**

» **ERSC-ECON 3810H: Environmental Economics (Sc) (see Economics)**

» **ERSC/ERST 3840H: Community-Based Research Project (Sc depending upon topic)**
  Students are placed in research projects with community organizations in the Peterborough or Haliburton area. Each placement is supervised jointly by a faculty member and a representative of a community organization. For details see Community-Based Research Program (p. 429). Prerequisite: 10.0 university credits and a minimum cumulative average of 75%.
» **ERSC 3850Y, 3860H, 3870H, 3880H: Field Course (Sc)**
Spring and summer courses are offered through the Ontario Universities Program in Field Biology. Prerequisite: A minimum cumulative average of 60%.

» **ERSC/ERST 3900Y, 3901H, 3902H: Reading Course (Sc depending upon topic)**
A research course on a specific topic. Only open to Environmental & Resource Science/Studies majors or joint-majors. Prerequisite: 9.0 university credits and a minimum average of 75% in ERSC/ERST courses. Written permission must be obtained from the appropriate instructor and the chair of the program before registration.

» **ERSC/ERST 3905Y, 3906H: Field Course Research Project (Sc depending upon topic)**
An opportunity for students to take a non-university credit field course offered by an external provider, then return to Trent and for credit write one or more reports on research that they undertook during the field course. Prerequisite: 9.0 university credits and a minimum average of 75% in ERSC/ERST courses; or permission of the chair.

» **ERSC/ERST 4010Y/4020D: Honours Thesis (Sc depending upon topic)**
Design, implementation, and dissemination of a major research project in environmental science or studies featuring independent work under the supervision of a faculty supervisor. ERSC/ERST 4020D is a double credit in ERSC/ERST. ERSC/ERST 4010Y is a single credit because the same thesis is submitted to the other program in a joint-major. Prerequisite: 14.0 university credits and a minimum cumulative average of 75%. Students must find a faculty member who is agreeable to supervise their project. Applications are available from the TSE office, and should be submitted in the academic year before enrolment in the course.

» **ERSC-BIOL 4030H: Research Design and Data Analysis (Sc) (see Biology)**

» **ERSC-GEOG 4040H: Hydrochemical Fluxes in the Hydrosphere (Sc) (see Geography)**

» **ERSC-BIOL-GEOG 4060H: The Geochemistry of Natural Waters (Sc)**
Examines the chemistry of freshwater systems. Chemical and physical processes that lead to changes in water quality are discussed. The emphasis is on the concentrations and distributions of contaminants. Topics include watershed contributions of chemicals, acidification and the carbonate system, weathering, redox chemistry, trace metals, and synthetic organic contaminants. Prerequisite: ERSC 2230H or ERSC-CHEM 2620H.

» **ERSC-BIOL-GEOG 4070H: The Fate of Contaminants in the Aquatic Environment (Sc)**
Discusses approaches to predicting the fate of contaminants in aquatic systems. Basic assumptions and algorithms of fate models for toxic metals and organic xenobiotics are examined and students get hands-on experience in applying recent models to case studies. Prerequisite: ERSC-GEOG-BIOL 4060H.

» **ERST-GEOG 4140H: Climate and Energy Policy**
An interdisciplinary inquiry into social, political, institutional, and technical change as it relates to climate and energy policy. Themes for inquiry include policy and technology innovation and low-carbon energy transitions. Efforts are made to translate theory into practical action and intervention through community-based study. Prerequisite: One of GEOG 2460H, ERSC 2300H, ERST 2100H, 3120H, or 3250H. Excludes ERST 3130H, 4130H.

» **ERSC-AHCL-ANTH 4180H: Collapse of Complex Societies (Sc) (see Anthropology)**

» **ERSC-AHCL-ANTH 4185H: Human Impact on Ancient Environments (Sc) (see Anthropology)**
» ERSC-BIOL 4240H: Fisheries Assessment and Management (Sc)
Principles and practices of fisheries assessment and management, including an examination of management problems in freshwater and marine fisheries from ecological, socio-economic, and policy perspectives. Topics include stock assessment techniques, stocking and fertilization, management of warmwater and coldwater species, and local management initiatives. Prerequisite: 10.0 university credits including one of ERSC-BIOL 2260H or ERSC 2210H or 2240H. Recommended: One of ERSC 3510H or BIOL 3050H or 3140H. Students who have successfully completed ERST-CAST 2520H and 2525H may take the course, but must be prepared to do additional background reading.

» ERST 4250H: Environmental Law and Regulation
Provides students with a practical and detailed examination of the enactment, enforcement, and limitations of environmental law and policy. The course emphasizes Ontario’s environmental regime and focuses on a recent case study. Prerequisite: 10.0 university credits including ERST 3250H or permission of instructor.

» ERSC-BIOL-GEOG-SAFS 4270H: Integrated Nutrient Management for Sustainable Agriculture (Sc) (see Sustainable Agriculture & Food Systems)

» ERSC-BIOL 4330H: Global Change of Aquatic Ecosystems (Sc) (see Biology)

» ERSC 4350H: Climatic Change (Sc)
Examines the meteorological principles, measurements, and models that are the basis of current understanding of climatic change. It addresses, in particular, the biological impacts of climatic changes and the ways in which these biological changes might affect human resources and the process of climatic change itself. Prerequisite: 10.0 university credits including ERSC 1010H and 1020H; or GEOG 1040H; or PHYS 1002H; or BIOL 1020H and 1030H.

» ERSC-BIOL 4390H: Conservation Biology (Sc) (see Biology)

» ERSC-CHEM 4410H: Fundamentals and Applications of ICP-MS (Sc) (see Chemistry)

» ERSC-GEOG 4450H: Spatial Modelling with GIS (Sc) (see Geography)

» ERSC 4520H: Restoration Ecology (Sc)
The science of restoring and rehabilitating ecosystems. Principles, applications, and practical case studies are covered. No regular field or laboratory work is scheduled but some required field site visits are planned. Field trip fee: $20. Prerequisite: 10.0 university credits including ERSC-BIOL 2260H or ERSC 2240H or 2210H or both ERST-CAST 2520H and 2525H.

» ERSC 4530H: Remediation and Reclamation of Sites (Sc)
Examines conventional and emerging techniques used to reclaim and remediate degraded sites. Canadian cases are used to illustrate the relationship between principles of science, management, and policy. Prerequisite: 10.0 university credits including two of ERSC 2230H, 2240H, ERST-CAST 2520H, ERSC-BIOL 2260H.

» ERST-IDST-POST-SAFS 4610H: Global Environmental Policy
Focuses on perspectives, actors, institutions, and economic relationships as they relate to global environmental policy and instruments. The aim is to provide students with a solid understanding of linkages between the global political system and the natural environment. Prerequisite: 10.0 university credits. Recommended: One of ERST-IDST-POST 3602H or 3603H or POST 2200Y.

ERSC-GEOG 4640H: Integrated Watershed Management: Approaches and Methods (Sc)
Integrated ecosystems management is the focus of this course. It deals, first, with the methodological and practical aspects of watershed assessment, planning, decision-making, and management. Then, it examines comparatively the management of watersheds in the developing world, introducing students to strategies for planning and managing watersheds through case studies. Prerequisite: 10.0 university credits including ERSC 2210H or 2240H or ERSC-BIOL 2260H or both ERST-CAST 2520H and 2525H or GEOG 2540H and one of 2560H or 3520H.

ERST-CAST-HIST 4670H: Environmental History
Examines how and why our environment and our relationship with it have changed over time. Topics include how to do environmental history, shifts in ideas about natural resources and wilderness, the history of the Trent and Peterborough environments, the urban environment (particularly Toronto), and the history of environmental science and environmental politics. Prerequisite: 10.0 university credits.

ERSC-GEOG-WASC 4703H: Senior Seminar in Earth and Environmental Science (Sc)
Students examine the fundamental concepts of scientific research, including the role of research in managing environmental issues. A range of topics will be covered through guest seminars, group discussions, and an individual research project. In the project, students evaluate the scientific literature on an emerging environmental issue of their choosing. Prerequisite: Two 3000-level ERSC or GEOG courses and a minimum average of 75% in ERSC/ERST courses or GEOG courses. Excludes ERSC 4702Y.

ERST-POST 4704H: Senior Seminar in Environmental Politics
Advanced topics in the cultural, political, and social evaluation of environmental issues and problems. Each year a specific theme is covered, such as environmental professional practice, the normal and the pathological in ecology, or environmental sociology. Core topics include environmental standards, political ecology, and complex systems theory. Prerequisite: ERSC 1010H and 1020H, 1.0 3000-level POST credit, and a minimum average of 75% in ERSC/ERST courses. Recommended: ERSC/ERST 3311H and 3312H. Excludes ERST 4701Y.

ERST-PHIL 4705H: Environmental Aesthetics and the Environmental Imagination
This senior seminar in environmental philosophy examines the theme of environmental imagination. Topics include the use of artistic expression in environmental representation, environmental aesthetics, the theory of the environmental sublime, romanticism, and transcendental nature philosophy. Prerequisite: A minimum average of 75% in ERSC/ERST courses and one of ERST-PHIL 3301H or 3302H or 1.0 3000-level PHIL credit. Excludes ERST-PHIL 4700Y.

ERST/ERSC 4730Y: Sustainable Indigenous Communities (see Indigenous Studies)
ERSC/ERST-IESS-INDG 4740Y: Critical Investigations in Indigenous Peoples’ Health and the Environment (Sc depending upon topic) (see Indigenous Studies)
ERSC/ERST 4801H: Greening the Campus: Restoring and Sustaining Green Infrastructure (Sc depending upon topic)
Institutional approaches to sustaining the natural, naturalized, and cultivated environment and their uses at Trent University are investigated through applied field research projects and comparative experience in the literature. Prerequisite: 10.0 university credits including ERSC 2240H or ERST-GEOG 2510H, and a minimum average of 75% in ERSC/ERST courses, or permission of the instructor. Excludes ERSC/ERST 4800Y.

ERST/ERSC 4802H: Greening the Campus: Reimagining Use of the Built Environment (Sc depending upon topic)
Institutional approaches to sustaining the Trent University environment through management of the human-built abiotic features and their uses. Prerequisite: 10.0 university credits including ERSC 2240H or ERST-GEOG 2510H, and a minimum average of 75% in ERSC/ERST courses, or permission of the instructor. Excludes ERSC/ERST 4800Y.
» **ERST 4810H: Ecological Design**
Explores design process and ecological design principles related to human use of the land and sustainability. Lectures include design theory and communication, storm-water management, stream bio-engineering, developing site analysis skills for design, green buildings, and urban design strategies. Students apply lecture knowledge to a term-long project. Prerequisite: 10.0 university credits including one of ERSC 2240H, ERST-CAST 2520H, 2525H, ERSC-BIOL 2260H.

» **ERSC/ERST 4830Y, 4840H: Community-Based Research Project (Sc depending upon topic)**
Students are placed in research projects with community organizations in the Peterborough or Haliburton area. Each placement is supervised jointly by a faculty member and a representative of a community organization. For details see Community-Based Research Program (p. 429). Prerequisite: 14.0 university credits and a minimum cumulative average of 75%.

» **ERSC/ERST 4850Y, 4860H, 4870H, 4880H: Field Course (Sc depending upon topic)**
Spring and summer courses are offered through the Ontario Universities Program in Field Biology. Students wishing to count OUPFB field courses as capstone courses require permission of program chair. Prerequisite: A minimum cumulative average of 60%.

» **ERSC/ERST 4900Y, 4901H, 4902H: Reading Course (Sc depending upon topic)**
This is a research course on a specific topic. Only open to Environmental & Resource Science/Studies majors or joint-majors in the program. Prerequisite: 14.0 university credits and a minimum average of 75% in ERSC/ERST courses. Written permission must be obtained from the appropriate instructor and chair of the program before registration.

» **ERSC/ERST 4905Y, 4906H: Field Course Research Project (Sc depending upon topic)**
This course is an opportunity for students to take a non-university credit field course offered by an external provider, then return to Trent and for credit write one or more reports on research that they undertook during the field course. Prerequisite: 14.0 university credits and a minimum average of 75% in ERSC/ERST courses; or permission of the chair.

» **ERST-WMST 4990H: Gender and Environmental Justice (see Gender & Women’s Studies)**

Solving many environmental problems requires a solid background in both chemistry and environmental science. The Environmental Chemistry program has been designed to provide a thorough grounding in fundamental chemical principles as well as a detailed understanding of environmental issues and their scientific context. Graduates of the program will have experience with advanced instrumentation and modern analytical techniques, and will be prepared to handle challenging environmental problems from a multidisciplinary perspective.

Bachelor of Science Program in Environmental Chemistry

• In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).
• The Environmental Chemistry program is a sequence of courses that compose an integrated whole and are offered by the Chemistry Department and the School of the Environment. For information on individual courses see Calendar entries for Chemistry and for Environmental & Resource Science/Studies.
• ERSC 3551H and 4350H are recommended for both the Honours and the General program; CHEM-ERSC 3610H is highly recommended.

The single-major Honours program. 20.0 credits which include the following 15.5 credits:
– 6.0 CHEM credits consisting of CHEM 1000H, 1010H, 2100H, 2200H, 2300H, 2400H, 2500H, 2610H, 2620H, 3400H, 3410H, and 3520H
– 3.5 ERSC credits consisting of ERSC 1010H, 1020H, 2240H, 3450H, 3701H, 3702H, and 4070H
– 0.5 CHEM or ERSC credit from CHEM 3600H or ERSC 4060H
– 1.0 CHEM credit from CHEM 4300H, 4400H, 4410H, 4500H, or 4520H
– 2.0 CHEM or ERSC credits at the 3000 level or beyond in addition to the above
– 1.0 BIOL credit consisting of BIOL 1020H and 1030H
– 1.0 MATH credit consisting of MATH 1005H and 1051H
– 0.5 MATH or PHYS credit from MATH 1052H or PHYS 1001H or PHYS 1060H
The single-major General program. 15.0 credits which include the following 12.0 credits:
- 3.5 CHEM credits consisting of CHEM 1000H, 1010H, 2400H, 2500H, 2610H, 2620H, and 3520H
- 3.0 ERSC credits consisting of ERSC 1010H, 1020H, 2240H, 3450H, 3701H, and 3702H
- 1.0 CHEM credit from CHEM 2100H and 2110H for organic chemistry; or from CHEM 2200H and 3200H for inorganic chemistry
- 0.5 CHEM credit from CHEM 3400H or 3410H
- 1.5 ERSC credits in addition to the above
- 1.0 BIOL credit consisting of BIOL 1020H and 1030H
- 1.0 MATH credit consisting of MATH 1005H and 1051H
- 0.5 MATH or PHYS credit from MATH 1052H or PHYS 1001H or PHYS 1060H
Environmental Geoscience

trentu.ca/environment

Program Coordinator
I. M. Power, BSc, PhD (Western)

Associated Faculty
J. Buttle, Environment; M. C. Eimers, Environment; S. E. Franklin, Environment; P. Lafleur, Environment; C. McKenna Neuman, Environment; R. Ponce-Hernandez, Environment; D. Wallschläger, Environment, Chemistry; S. Watmough, Environment

The Trent School of the Environment offers the Environmental Geoscience program, which integrates the disciplines of geology, biology, chemistry, and geography to study the interaction between human activities and earth systems. Students receive foundational training in geoscience while also gaining knowledge in the other sciences. They will further develop their skills and experience from taking a breadth of advanced geoscience courses including a field methods course that provides opportunities to apply and master geoscience techniques.

Notes
• The curriculum of the Environmental Geoscience program satisfies the knowledge requirements for professional certification with the Association of Professional Geoscientists of Ontario.
• For information on individual courses see Calendar entries for Biology, Chemistry, Computing & Information Systems, Environmental & Resource Science/Studies, Geography, Mathematics, and Physics & Astronomy.

Bachelor of Science Program in Environmental Geoscience
• In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).

The single-major Honours program. 20.0 credits including the following 15.5 credits:
– 2.0 EGEO credits consisting of EGEO 2001H (or 3000H), 3001H, 3002H, and 3003H (or 2000H)
– 0.5 BIOL credit consisting of BIOL 1020H
– 1.5 CHEM credits consisting of CHEM 1000H, 1010H, and 2620H
– 1.5 ERSC credits consisting of ERSC 1010H, 2230H, and 2240H
– 4.0 GEOG credits consisting of GEOG 1040H, 2080H, 2090H, 2460H, 2540H, 3020H, 3560H, and 3590H
– 0.5 PHYS credit consisting of PHYS 1001H
– 0.5 MATH credit from MATH 1005H or 1110H*
– 0.5 MATH credit from MATH 1120H* or 1550H*
– 0.5 GEOG credit from GEOG 3530H* or 4080H*
– 0.5 credit from CHEM-ERSC 3600H* or ERSC-GEOG-BIOL 4060H*
– 1.0 credit from category A
– 2.5 credits from category B

*Important note: Asterisked courses may only be counted once toward program requirements. Students are encouraged to carefully plan when selecting courses to ensure they acquire prerequisites, particularly for ERSC 2240H, CHEM-ERSC 3600H, and GEOG 4080H. Furthermore, students are strongly encouraged to take additional courses listed in category B beyond the program requirements to extend their Geoscience background.
Please consult the academic timetable for information on courses that will be offered in 2019–2020, including when they will be scheduled.

» **EGEO-GEOG 2001H: Earth Materials (Sc)**
Introduces students to the study of rocks and minerals, including their description, classification, and origin. Rocks and minerals of environmental (e.g., human health) and economic importance are emphasized. Practical laboratory exercises enable students to become proficient at identifying rocks and minerals using physical and optical properties. Prerequisite: GEOG 1040H or permission of instructor. Excludes EGOE-GEOG 3000H.

» **EGEO-ANTH-FRSC 3001H: Applied and Environmental Geophysics (Sc)**
Geophysics is the study of geologic properties, processes and phenomena using non-destructive physical and mathematical methods, including reflection and refraction seismology, gravity and magnetics, and electrical and electromagnetic methods. This course emphasizes how geophysical techniques can be used for resource and archeological exploration, climate change detection, and environmental investigations. Prerequisite: PHYS 1001H or 1.0 MATH credit.

» **EGEO-GEOG 3002H: Structural Geology (Sc)**
Examines the causes and outcomes of deformation in the Earth’s crust. Students are introduced to the different geologic structures and methods to describe them, and will understand their relevance to mineral, water and fuel resources as well as subsurface contamination. Required field trips. Prerequisite: EGEO-GEOG 2001H.

» **EGEO-ERSC-GEOG 3003H: Field Methods in Environmental Geoscience (Sc)**
Students learn essential field skills, including designing a field study, mapping, and measurement techniques. The geology of Southern Ontario and its mining industry are examined along with the potential for environmental impacts. Most instruction takes place during required field trips with students submitting weekly technical reports. Prerequisite: EGEO-GEOG 2001H or permission of instructor. Excludes EGEO-ERSC-GEOG 2000H.

» **EGEO 4000H: Environmental Geoscience Placement/Outreach Experience (Sc)**
Designed to provide students with a capstone experience in Environmental Geoscience, which may include either a job-shadowing/placement experience or the development and presentation of an outreach/education module. Placement/job shadowing experiences occur at a local agency or firm, whereas education modules are developed and presented at a local elementary school, high school, or environmental camp, or on campus through the School of Education & Professional Learning or the Trent Academic Camps enrichment program. Prerequisite: Open only to students who are registered in the Environmental Geoscience program with 13.5 university credits completed. Students are eligible to apply in the year before anticipated enrolment in the course. Application forms can be obtained from the Trent School of the Environment Office.

» **EGEO 4020D: Honours Thesis (Sc)**
Design, implementation, and dissemination of a major research project in environmental geoscience featuring independent work under the supervision of a faculty supervisor. Prerequisite: 14.0 university credits and a minimum cumulative average of 75%. Students must find a faculty member who is agreeable to supervise their project. Applications are available from the Trent School of the Environment Office, and should be submitted in the academic year before enrolment in the course.
Forensic Biology

trentu.ca/forensicscience

Program Coordinators

Chair of the Forensic Science Program
To be named

Chair of the Department of Biology
To be named

Professors
See faculty listings in Forensic Science and Biology

The Forensic Biology program integrates the study of science and law with investigative practice and theory. Students receive a comprehensive biology education through the study of life at all levels of organization from molecular and cell to population and community. Students practice case work, learn team-building, analyze ethical and legal issues related to evidence, and face the challenge of communicating complex scientific evidence within the legal system. Students in the program may also participate in a placement/mentorship course where they gain valuable “real-world” experience and begin to develop their professional network.

Admission Requirements
The Bachelor of Science in Forensic Biology is a direct-entry program with a limited number of student places. A secondary school diploma and six Ontario U/UM credits including one 4U credit in each of Chemistry, Biology, English, and Mathematics are required for admission. 4U Physics is highly recommended. Normally, students with an overall average lower than 75% will not be admitted to the program.

Bachelor of Science Program in Forensic Biology

- In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).

The single-major Honours program. 20.0 credits including the following 16.5 credits:
- 6.0 FRSC credits consisting of FRSC 1011H, 1100H, 2020H, 2030H (or 1010H), 2100H, 3010H, 3020H, 3100H, 3700H, 4312H, 4570H, and 4600H
- 3.5 BIOL credits consisting of BIOL 1030H, 1050H, 1051H, 2050H, 2070H, 3080H, and 3330H
- 0.5 FRSC credit from FRSC 3000H or 3111H
- 2.0 FRSC credits from FRSC 4020D; or from one of FRSC 4010Y or 4890Y and 1.0 additional FRSC credit at the 4000 level
- 0.5 BIOL credit from BIOL 3040H or 3250H
- 0.5 ANTH credit consisting of ANTH 1010H
- 1.5 CHEM credits consisting of CHEM 1000H, 1010H, and 2300H
- 1.0 MATH credit consisting of MATH 1051H and 1052H
- 0.5 PHYS credit consisting of PHYS 1001H
- 0.5 CHEM credit from CHEM 2100H or 2400H

Trent University’s Forensic Science Program offers two degree options: a Bachelor of Science in Forensic Science (BScFS) and a joint-major degree.

The Bachelor of Science in Forensic Science (BScFS) is a direct-entry professional degree program with a limited number of student places. This program integrates the study of science and law with investigative practice and theory. Students in Trent’s Forensic Science degree program learn the foundational science of forensics through the study of anthropology, biology, and chemistry. These foundational science courses complement the specialized forensics courses offered in the program. The degree particularly emphasizes emerging developments in DNA forensic applications and crime scene investigation through courses in laboratory techniques and related case work.

From the beginning of their forensic studies at Trent, BScFS students are fully immersed in a functioning forensic research and service environment located in the DNA Building. Students practice case work, learn team-building, analyze ethical and legal issues related to evidence, and face the challenge of communicating complex scientific evidence within the legal system. Students in the program may also participate in a placement/mentorship course where they gain valuable “real-world” experience and begin to develop their professional network.

The joint-major degree option offered by the Forensic Science Program can be taken in conjunction with other departments or programs including, but not limited to, Biology, Psychology, Chemistry, Computing & Information Systems, Physics, and Anthropology. Students enrolled in the joint-major program can enrol in a number of the same courses that are provided to BScFS students and have the option of obtaining either an Honours Bachelor of Science (BSc) or an Honours Bachelor of Arts (BA) degree.
Admission Requirements
The BScFS is a direct-entry program with a limited number of student places. A secondary school diploma and six Ontario U/UM credits including one 4U credit in each of Chemistry, Biology, English, and Mathematics are required for admission. 4U Physics is highly recommended. Normally, students with an overall average lower than 75% will not be admitted to the program.

For students in the joint-major Honours program, see General Admission Requirements in the Calendar.

Bachelor of Science in Forensic Science Program
• In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).

The single-major Honours program. 20.0 credits including the following 17.0 credits:
– 6.0 FRSC credits consisting of FRSC 1011H, 1100H, 2020H, 2030H (or 1010H), 2050H, 2100H, 3010H, 3020H, 3100H, 3110H, 3700H (or 3620H), and 4312H
– 0.5 FRSC credit from FRSC 3000H or 3111H
– 0.5 FRSC credit from FRSC 3400H or 3410H
– 0.5 FRSC credit from FRSC 4570H or 4600H
– 2.0 FRSC credits from FRSC 4020D; or from one of FRSC 4010Y or 4890Y and 1.0 additional FRSC credit at the 4000 level
– 1.0 FRSC credit in addition to the above
– 1.0 ANTH credit consisting of ANTH 1010H and 2410H
– 2.0 BIOL credits consisting of BIOL 1030H, 1050H, 1051H, and 3080H
– 2.0 CHEM credits consisting of CHEM 1000H, 1010H, 2300H, and 2400H
– 1.0 MATH credit consisting of MATH 1051H and 1052H
– 0.5 PHYS credit consisting of PHYS 1001H

Bachelor of Arts and Bachelor of Science Joint-Major Programs in Forensic Science
• In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).
• The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

The joint-major Honours program. 20.0 credits including the following 7.0 credits:
– 3.0 FRSC credits consisting of FRSC 1011H, 1100H, 2020H, 2030H (or 1010H), 3010H, and 3100H
– 2.5 FRSC credits at the 3000 level or beyond in addition to the above
– 1.5 FRSC credits in addition to the above
– For the BSc, 14.0 science credits are required, including 1.0 MATH credit
Specialization in Law & Policing

The Specialization in Law & Policing requires a suite of courses deemed important for those interested in pursuing a career in enforcement or the law and an additional list of courses students can choose from based on their own interests within law and policing.

Students who have fulfilled the requirements for a Bachelor of Science in Forensic Science or a joint-major Bachelor of Arts or Bachelor of Science degree in Forensic Science may graduate with a Specialization in Law & Policing if they have successfully completed the following 4.0 credits:

- 2.5 FRSC credits consisting of FRSC 2100H, 2110H, 2750H, 3110H, and 4380H
- 1.5 credits from the following:

  - FRSC-BIOL 3000H
  - FRSC 3111H
  - FRSC 3800H
  - FRSC 4110H
  - FRSC 4111H
  - FRSC-PSYC 4320H
  - FRSC-BIOL 4570H
  - ANTH-FRSC 3405H
  - BIOL-FRSC 3330H
  - ERST 3250H
  - ERST 4250H
  - IDST-SOCI 3120H
  - IDST-SOCI 3121H
  - INDG 3401H
  - INDG 3402H
  - PHIL-POST 2150H
  - PHIL-POST 3140H
  - POST-CAST 3091H
  - POST-CAST 3092H
  - PSYC 2300H
  - PSYC 3240H
  - PSYC 3300H
  - PSYC 4310H
  - PSYC 4720H
  - SOCI 2615H
  - SOCI 4110H
  - SOCI 4270H
  - WMST-CAST-SOCI 3966H

Please consult the academic timetable for information on courses that will be offered in 2019–2020, including when they will be scheduled.

» FRSC 1011H: Introduction to Crime Scene Investigation (Sc)
  Introduces students to forensic investigations and crime scene processing. Students are instructed how to gather and document scientific evidence while processing crime scenes in the crime scene house, and then present their findings as written reports, and as expert witnesses in a courtroom setting.

» FRSC 1100H: Introduction to Canadian Justice
  Introduces students to the Canadian justice system with an emphasis on the criminal justice system. Students are provided opportunities to apply their knowledge through analyzing legal cases and various pieces of legislation, and participating in a mock trial.

» FRSC 2020H: Scientific Methodology in Forensic Science (Sc)
  Provides an introduction to the scientific method, data management, and basic statistics as a foundation for collecting, analyzing, and presenting scientific data in a scientific or forensic setting. Prerequisite: FRSC 2030H (or 1010H) and 1.5 additional science credits. Open only to students in Forensic Science (single- or joint-major), Forensic Biology, or Forensic Chemistry.

» FRSC 2030H: Foundations in Forensic Science (Sc)
  Introduces students to forensic science by exploring multiple disciplines, including forensic psychology, chemistry, entomology, pathology, and dentistry, plus DNA forensics, wildlife forensics, arson investigation, food forensics, and bioterrorism. Students are also instructed in investigative procedures using the crime scene house. Prerequisite: 60% or higher in FRSC 1011H or permission of instructor. Excludes FRSC 1010H.

» FRSC-BIOL 2050H: Introduction to Genetics (Sc) (See Biology)
» FRSC 2100H: Criminal Code  
Provides a systematic and detailed review of the Criminal Code. It focuses on implications of the Criminal Code for forensic science, current issues in its interpretation by the courts, and its implementation by law enforcement agencies. Prerequisite: 60% or higher in FRSC 1100H.

» FRSC 2110H: Police Powers  
Focuses on the legislation governing criminal investigations, including the Constitution Act and the Charter of Rights and Freedoms, the practical application of those laws, and their judicial interpretation in the day-to-day activities of police officers and other law enforcement personnel. Prerequisite: FRSC 2100H.

» FRSC 2220H: Forensic Chemistry (Sc)  
Designed to introduce the variety of sub-disciplines that encompass forensic chemistry. Students discover how analytical chemistry techniques can be applied to the areas of forensic toxicology, fire and explosives investigation, documents examination, firearms, and trace evidence analysis. Emphasizes a practical approach to the different types of examinations relevant to these sub-disciplines. Prerequisite: CHEM 2400H and FRSC 2030H (or 1010H).

» FRSC 2400H: Data Analysis in Forensic Science (Sc)  
The way in which data is generated and analyzed has changed. Ranging from genome sequence to forensic accounting to monitoring Internet traffic, Big Data has revolutionized business, research, and security. This course introduces students to the analysis and interpretation of Big Data by exposing them to its history, theory, and application. Prerequisite: MATH 1051H and 1052H.

» FRSC-COIS 2750H: Computer Crime and Forensics (Sc) (see Computing & Information Systems)

» FRSC-BIOL 3000H: Laboratory DNA Forensics (Sc)  
Examines the theoretical foundations and techniques of DNA analysis with leading-edge technology in light of forensic cases. Students learn the theory and practice of generating forensic DNA evidence. Prerequisite: FRSC-BIOL 2050H, 3700H (or 3620H), and BIOL 3080H.

» FRSC-EGEO-ANTH 3001H: Applied and Environmental Geophysics (Sc) (see Environmental Geoscience)

» FRSC 3010H: Crime Scene Investigation (Sc)  
Explores forensic investigation techniques—observation, analysis, evidence identification, collection and preservation, and interviewing. Emphasizes gathering experts’ scientific evidence and assessing it. Students explore use of evidence in Canadian court cases, the decision-making processes in court, and the roles of investigators, advocates, judges, and juries. Prerequisite: 60% or higher in FRSC 2020H and 2030H (or 1010H). Recommended: PHYS 1001H or PHYS-BIOL 1060H. Open only to students in Forensic Science (single- or joint-major), Forensic Biology, or Forensic Chemistry.

» FRSC 3020H: Workplace Readiness and Professional Ethics  
Students gain valuable skills necessary to be accepted into and excel in a professional environment. Emphasis is placed on effective communication and the professional ethics required to work in the high stakes field of forensic science. Prerequisite: 9.0 university credits including FRSC 2020H, 2030H (or 1010H), and 2100H. Application instructions to complete workplace integrated learning as opposed to a special project are provided during the Winter term of second year. Open only to students in Forensic Science (single-major), Forensic Biology, or Forensic Chemistry. Excludes FRSC 2010H.
FRSC 3100H: Trends in Forensic Science (Sc)
Covers recent developments in forensic science and reflects the recommendations of practitioners. Typically includes updates in the theory and practices related to DNA analysis, blood-spatter analysis, tire-track and footwear impressions, ballistics, and so forth. Prerequisite: 60% or higher in FRSC 2020H and 2030H (or 1010H). Open only to students in Forensic Science (single- or joint-major), Forensic Biology, or Forensic Chemistry.

FRSC 3110H: Criminology in Forensics
Provides students with a comprehensive view and appreciation of criminology, including the scientific study of criminal behaviour, its forms, causes, legal implications, and controls. Provides a forum for discussion and debate and enhances students’ knowledge of crime, criminal justice, and society in a forensic context. Prerequisite: 9.0 university credits including FRSC 2100H. Open only to students in Forensic Science (single- or joint-major), Forensic Biology, or Forensic Chemistry.

FRSC 3111H: Non-Human DNA Forensics (Sc)
DNA has revolutionized how human forensic investigations take place, yet there are a myriad of non-human applications of DNA technology, including food, wildlife, environmental, and bioterrorism forensics, the tracking of sources of disease outbreaks, and invasive species detection. Theoretical and practical foundations and techniques of DNA analysis are examined through forensic case reviews and in labs. Prerequisite: BIOL-FRSC 2050H, 3700H (or 3620H), and BIOL 3080H.

FRSC-BIOL 3330H: Forensic Entomology (Sc) (See Biology)

FRSC-CHEM-ERSC 3400H: Chromatography (Sc) (See Chemistry)

FRSC-ANTH-BIOL 3404H: Human Osteology (Sc) (See Anthropology)

FRSC-ANTH 3405H: Forensic Anthropology (Sc) (See Anthropology)

FRSC-CHEM-ERSC 3410H: Methods of Spectral Analysis (Sc) (See Chemistry)

FRSC-BIOL 3700H: Applied Population Genetics (Sc)
Introduces students to the application of genetics to the study of taxonomy, structure of natural populations, mating systems, and forensics. Topics include the molecular tools that quantify genetic variation, mathematical models of population structure, paternity analysis, and DNA fingerprinting. Prerequisite: 7.5 university credits including FRSC-BIOL 2050H, or permission of instructor. Excludes FRSC-BIOL 3620H, BIOL 3600H.

FRSC-HIST 3711H: The History of Incarceration (See History)

FRSC-CHEM 3720H: Advanced Topics in Forensic Chemistry (Sc)
Focuses on the major applications of various chemistry disciplines to forensic science. Specific focus is placed on the services which are routinely performed by the Chemistry section of the Centre for Forensic Sciences, including accelerants and explosives, drugs, paint, inks and dyes, polymers, and trace evidence. Prerequisite: CHEM 2300H, CHEM 2400H, and one of FRSC 2220H or CHEM 2110H. Strongly recommended: CHEM-FRSC 3410H.

FRSC-HIST 3751Y: The History of Crime in England (See History)

FRSC 3800H: Forensic Toxicology (Sc)
Analyses to test for the presence of alcohol, drugs, and poisons are frequently utilized in death and criminal cases to provide important information pertaining to forensic investigations. This course explores the pharmacology and interpretation of drugs and drug classes in the context of forensic science. Prerequisite: FRSC 2030H (or 1010H), CHEM 2300H, and CHEM 2400H. Open only to students in Forensic Science (single- or joint-major), Forensic Biology, or Forensic Chemistry.
» **FRSC 3900H: Reading Course**
Provides an opportunity for more intensive or broader study of a selected topic in forensic science under the guidance of a faculty member. Students may take only one reading course. May be taken as a science credit with permission of the department chair. Prerequisite: 10.0 university credits and permission of course supervisor. Open only to students in Forensic Science (single- or joint-major), Forensic Biology, or Forensic Chemistry.

» **FRSC 4010Y: Independent Project (Sc)**
This self-directed research course requires students to investigate research topics relating to forensic science and to prepare a thorough, detailed research proposal in an area of research pertinent to forensic science. Students defend their research questions and their proposed methodology in a class discussion. Research is carried out individually or working in small groups. Open only to students in Forensic Science (single-major), Forensic Biology, or Forensic Chemistry.

» **FRSC 4020D: Research Thesis (Sc)**
A double credit. Students design and carry out research under the supervision of a faculty member, and attend fourth-year Forensic Science seminars on research-related issues. Permission of the program and the availability of a thesis supervisor are required. Students are contacted by the course coordinator regarding the application process before the end of the Fall term of third year. Prerequisite: A minimum 80% cumulative average. Students with a cumulative average lower than 80% will be considered provided they include a written letter of support from a prospective supervisor with their application. Open only to students in Forensic Science (single- or joint-major), Forensic Biology, or Forensic Chemistry.

» **FRSC 4110H: Firearms and Ballistics (Sc)**
An introduction to firearm examination and ballistics. Students learn the science behind firearm examinations, including gunshot residue analyses, erased number restoration, and classification of firearms-related deaths. Students complete an independent case-based project and present firearms-related evidence to their peers. Prerequisite: 60% or higher in each of FRSC 2220H, FRSC 3100H, and one of PHYS 1001H, PHYS-FRSC 1020H, or PHYS-BIOL 1060H. Open only to students in Forensic Science (single- or joint-major), Forensic Biology, or Forensic Chemistry.

» **FRSC 4111H: Basic Bloodstain Pattern Analysis (Sc)**
Develops a fundamental knowledge of the discipline of bloodstain pattern analysis. Students learn the basic theoretical and practical aspects that are associated with the discipline. Scientific evidence-based analysis and conclusions are emphasized. Techniques are discussed in lectures; practical aspects are learned through participation in laboratory experimentation. Prerequisite: FRSC 1011H, 2030H (or 1010H), 3010H, and one of PHYS 1001H, PHYS-FRSC 1020H, or PHYS-BIOL 1060H. Open only to students in Forensic Science (single- or joint-major), Forensic Biology, or Forensic Chemistry.

» **FRSC 4312H: Presentation of Forensic Evidence**
Explores the legal functions and processes of courts and tribunals and the laws governing evidence and testimony by witnesses. Communication theory and techniques are applied to the experience of testifying in a courtroom setting and to understanding the impact of ethical and effective testimony. Prerequisite: 14.0 university credits including FRSC 2100H. Open only to students in Forensic Science (single-major), Forensic Biology, or Forensic Chemistry.

» **FRSC-PSYC 4320H: Forensic Psychology (Sc)**
Examines how empirical psychological research informs police, the law, and courts. Topics include suspect interrogation and lineups, critical approaches to deception detection, eyewitness memory and testimony, jury biases and jury selection, mental illness and drug courts, risk assessment tools and methods, psychopathy and predictive assessment, sexual and intimate partner violence, and theories of homicidal offenders. Prerequisite: FRSC 2100H and PSYC 2300H. Open only to students in Forensic Science (single-major), Forensic Biology, Forensic Chemistry, or the joint-major program in Forensic Science and Psychology.
» FRSC 4380H: Advanced Topics in Law and Policing
Allows fourth-year students specializing in law and policing the opportunity to delve into a topic area within that study in more detail. Students pick a focus area, research relevant case law and literature, and conduct independent investigation into the specialized area. Prerequisite: 60% or higher in each of FRSC 2110H, 3010H, 3100H, and 3110H.

» FRSC-BIOL 4510H: Species-at-Risk Biology and Policy (Sc) (See Biology)

» FRSC-BIOL 4570H: Biocrime and Bioterrorism (Sc)
Students gain knowledge of microbes and other biological agents used in criminal endeavours and an overview of the methods used to detect crimes involving biological agents and link them to individual perpetrators. Bioterrorism and agricultural bioterrorism are discussed. Prerequisite: 60% or higher in FRSC 2030H (or 1010H); and one of BIOL 3080H, FRSC 3000H, FRSC 3111H, or BIOL 3250H.

» FRSC-BIOL 4600H: Applied Molecular Genetics (Sc)
This seminar-based course introduces students to the application of DNA profiling to forensics, medical genetics, and natural resource management (molecular ecology/conservation genetics). Prerequisite: 10.0 university credits including BIOL-FRSC 3700H (or 3620H).

» FRSC 4700H: Forensic Biosensor Development (Sc)
Provides students with an introduction to biosensor development and applications using bioanalytical chemistry. In-depth description of instrumental techniques for characterization and detection of biomolecules and biologically active molecules is provided. The strategies for design and development of functional biosensors for applications in forensic sciences are described. Prerequisite: 60% or higher in each of FRSC 3400H, 3410H, 3720H, and 3800H.

» FRSC-CHEM 4710H: Molecules of Murder (Sc) (See Chemistry)

» FRSC-HIST 4751Y: The History of Crime in England (See History)

» FRSC-BIOL 4800H: Bioinformatics (Sc)
Biological data has grown in size and complexity. Bioinformatics—the application of computer programming to the management and analysis of biological information—is necessary for storing, manipulating, and analyzing large datasets. A tutorial-based computer lab focusing on genome sequence data allows students to learn the basics of computer programming and bioinformatics. Prerequisite: FRSC-BIOL 2050H, 4600H, and one of FRSC-BIOL 3000H or FRSC 3111H.

» FRSC 4890Y: Forensic Community-Based Research Project
Designed to allow fourth-year students the opportunity to work on a research project with a forensic community agency under the supervision of a faculty member. Students must contact the Forensic Science placement officer before the end of the Winter term of third year. Prerequisite: A minimum 75% cumulative average and 14.0 university credits including at least 3.0 FRSC credits at the 2000 or 3000 level. Open only to students in Forensic Science (single- or joint-major), Forensic Biology, or Forensic Chemistry.
French & Francophone Studies

trentu.ca/french

Associate Professor and Chair of the Department
  S. Bérard, MA, PhD (Québec à Montréal)

Professor
  J. Penney, BA, MA, (Alberta), PhD (Duke)

Associate Professor
  C. Sagarra, MA (Carleton), PhD (Ottawa)

Adjunct Faculty
  M. Boyne, BA (Trent), MA (Toronto), PhD (Lancaster)

French Studies
French Studies at Trent offers an array of courses on French language, and Franco-Canadian and francophone cultures and literatures. With courses from the elementary to the advanced levels, the Department will help you begin, develop, or deepen your mastery of the French language. Courses on the literatures and cultures of Quebec, French Canada, France, and the world’s Francophonie, ranging from cinema to science fiction to translation to Indigenous literatures, will provide you with a thorough understanding of the national and international Francophonie beyond the mere mastering of the French language. Our programs will help you shape your future as a teacher, public servant, graduate student, scholar, or citizen of the world. As a central feature, the Year Abroad program in Nantes, France, gives students majoring in French an opportunity to develop and refine their knowledge of French in a European context, in a city that has a strong connection with Canada.

Besides French, the Department also offers linguistics and an array of language courses, from Spanish to Chinese to Arabic. Please see below.

Notes

• FREN 1010H is intended for complete beginners with no previous exposure to French; it is especially suited to students who have not attended a Canadian secondary school.
• FREN 1020H and 1030H are for students with grade 9 (1 U/M) or grade 10 (2 U/M) French.
• FREN 1040H and 1050H are for students with grade 11 (3 U/M) French, whose level of proficiency is not high enough for 1101H and 1102H or who do not intend to pursue a major.
• FREN 1101H and 1102H are for students with grade 12 (4 U/M) French and are required for a major or minor in French Studies.
• FREN 2051H is a prerequisite for all 3000- and 4000-level courses in literature and should normally be taken by students in their second year. It is not to be taken concurrently with or subsequent to any 3000-level literature course.
• Students without grade 12 (4 U/M) French or equivalent who wish to take their first Trent French course will be asked upon registration to take the French placement test. Instructions on how to find the test will be provided automatically. Questions should be directed to the department.
Bachelor of Arts Program in French Studies

• In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).

• The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

• FREN 1000Y, 1010H, 1020H (1001H), 1030H (1002H), 1040H (2001H), 1050H (2002H), and 4059H are not for credit toward the major in French Studies.

The single-major Honours program. 20.0 credits including the following 10.0 credits:
  – 2.0 FREN credits consisting of FREN 1101H, 1102H, 2051H, and 2452H
  – 0.5 FREN credit from FREN 2451H, 3506H, or 3507H
  – 1.0 FREN credit from FREN 2151H, 2152H, 3051H, 3052H, 3053H, or 4053H
  – 0.5 FREN credit from FREN 3231H, 3232H, 3831H, 3832H, 4229Y, 4500Y, 4501H, or 4520Y
  – 0.5 FREN credit from FREN 3237H, 3238H, 3239H, 3301H, 4302H, 4611H, 4700Y, or 4701H
  – 2.0 FREN credits at the 3000 level or beyond in addition to the above
  – 3.0 FREN credits in addition to the above
  – 0.5 FREN credit in addition to the above; or 0.5 LATN credit; or 0.5 AHCL, CAST, CUST, HIST, LING, PHIL, or WMST credit with prior approval of the Department of French & Francophone Studies and written permission from the course instructor that assignments will be submitted in French
  – At least 2.0 of the total 10.0 credits must be at the 4000 level

The joint-major Honours program. 20.0 credits including the following 7.0 credits:
  – 2.0 FREN credits consisting of FREN 1101H, 1102H, 2051H, and 2452H
  – 0.5 FREN credit from FREN 2451H, 3506H, or 3507H
  – 1.0 FREN credit from FREN 2151H, 2152H, 3051H, 3052H, 3053H, or 4053H
  – 0.5 FREN credit from FREN 3231H, 3232H, 3831H, 3832H, 4229Y, 4500Y, 4501H, or 4520Y
  – 0.5 FREN credit from FREN 3237H, 3238H, 3239H, 3301H, 4302H, 4611H, 4700Y, or 4701H
  – 1.0 FREN credit at the 3000 level or beyond in addition to the above
  – 1.5 FREN credits in addition to the above
  – At least 1.0 of the total 7.0 credits must be at the 4000 level

The single-major General program. 15.0 credits including the following 6.0 credits:
  – 2.0 FREN credits consisting of FREN 1101H and 1102H, 2051H, and 2452H
  – 0.5 FREN credit from FREN 2451H, 3506H, or 3507H
  – 1.0 FREN credit from FREN 2151H, 2152H, 3051H, 3052H, 3053H, or 4053H
  – 0.5 FREN credit from FREN 3231H, 3232H, 3831H, or 3832H; or any 4000-level course on a Quebec subject with permission of the chair
  – 0.5 FREN credit from FREN 3237H, 3238H, 3239H, or 3301H; or any 4000-level course on a Quebec subject with permission of the chair
  – 1.0 FREN credit at the 3000 level or beyond in addition to the above
  – 0.5 FREN credit in addition to the above
The joint-major General program. 15.0 credits including the following 5.0 credits:
- 1.5 FREN credits consisting of FREN 1101H, 1102H, and 2051H
- 1.5 FREN credits from FREN 2151H, 2152H, 2451H, or 2452H
- 0.5 FREN credit from FREN 3231H, 3232H, 3831H, or 3832H; or any 4000-level course on a Quebec subject with permission of the chair
- 0.5 FREN credit from FREN 3237H, 3238H, 3239H, or 3301H; or any 4000-level course on a Quebec subject with permission of the chair
- 1.0 FREN credit at the 3000 level or beyond in addition to the above

The minor in French consists of the following 5.0 credits:
- 1.5 FREN credits consisting of FREN 1101H, 1102H, and 2051H
- 1.5 FREN credits from FREN 2151H, 2152H, 2451H, or 2452H
- 0.5 FREN credit from FREN 3231H, 3232H, 3831H, or 3832H; or any 4000-level course on a Quebec subject with permission of the chair
- 0.5 FREN credit from FREN 3237H, 3238H, 3239H, or 3301H; or any 4000-level course on a Quebec subject with permission of the chair
- 1.0 FREN credit at the 3000 level or beyond in addition to the above

Specialization in Quebec & Franco-Canadian Studies
Students who have fulfilled the requirements for a degree in French Studies may graduate with a Specialization in Quebec & Franco-Canadian Studies if they have successfully completed the following 4.0 credits:
- 4.0 FREN credits from FREN 2452H, 3231H, 3232H, 3237H, 3238H, 3239H, 3831H, 3832H, 4229Y, 4302H, 4500Y/4501H, 4520Y, or 4611H; or any reading course on a Quebec or Franco-Canadian subject with permission of department chair

Year Abroad Program – Nantes
Students in French Studies may apply to spend their second or third year of studies abroad, for which they will receive Trent credits. The Year Abroad program is offered at the University of Nantes, France. Prerequisite: FREN 1102H and a minimum average of 70% on all French courses at Trent (or equivalent). Honours candidates are especially encouraged to spend a year in Nantes. Honours students planning to participate in the Nantes program in their third year should take FREN 2051H and 2452H in their second year. In Nantes, students will be registered in FREN 3053H, 3203H, 3204H, 3306H, 3307H, 3506H, 3507H, and 4053H. Up to 1.0 additional credit may be obtained through courses offered by the University of Nantes, or students may elect to take an online course through Trent University.

To be considered for the program, students must apply in the Fall term of the academic year prior to the year abroad. Interested students should contact the Nantes program coordinator in their first year; they should also consult with an academic advisor and/or the department of their major for advice on courses to be taken before and after the year abroad.
Please consult the academic timetable for information on courses that will be offered in 2019–2020, including when they will be scheduled.

» FREN 1000Y: French Refresher
A course in oral and written French for students with limited knowledge of French (who do not have 3U/M or 4U/M French or its equivalent). Relies on textual as well as audio-visual and electronic support material. Not for credit toward a major in French Studies. Students whose level of French is judged by the instructor to be too advanced may not receive credit for this course. Excludes FREN 1001H, 1002H, 1020H, 1030H. Offered only in the summer.

» FREN 1010H: French for Beginners
An introductory course for students with no previous exposure to French (who do not have 1 U/M French or its equivalent). Elements of pronunciation, vocabulary, and basic linguistic structures are studied through dialogues and other exercises. Not for credit toward a major in French Studies. May not be taken concurrently with or subsequent to any other French course. Prepares students for FREN 1020H. Students whose level of French is judged by the instructor to be too advanced may not receive credit for this course. For students taking their first FREN course at Trent, admission to this course is based on the results of the French placement test.

» FREN 1020H: French Refresher I
A course in oral and written French for students with limited knowledge of French (who do not have 3U/M or 4U/M French or its equivalent). Relies on textual as well as audio-visual and electronic support material. Not for credit toward a major in French Studies. Students whose level of French is judged by the instructor to be too advanced may not receive credit for this course. For students taking their first FREN course at Trent, admission to this course is based on the results of the French placement test. For other students, FREN 1010H is the prerequisite; or permission of the instructor. Excludes FREN 1000Y, 1001H.

» FREN 1030H: French Refresher II
A course in oral and written French particularly geared to students who have taken FREN 1020H but also for students with an elementary knowledge of French (who do not have 3U/M or 4U/M French or its equivalent). Relies on textual as well as on audio-visual and electronic support material. Not for credit toward a major in French Studies. Students whose level of French is judged by the instructor to be too advanced may not receive credit for this course. For students taking their first FREN course at Trent, admission to this course is based on the results of the French placement test. For other students, FREN 1020H is the prerequisite; or permission of the instructor. Excludes FREN 1000Y, 1002H.

» FREN 1040H: Continuing French I
A course in oral and written French particularly geared to students who have taken FREN 1030H, but also open to students at a pre-intermediate level who recognize the need for a systematic acquisition/review of grammar to develop their oral and written skills. Not for credit toward a major in French Studies. May not be taken concurrently with, or following, FREN 1101H and 1102H. For students taking their first FREN course at Trent, admission to this course is based on the results of the French placement test. For other students, FREN 1030H is the prerequisite; or permission of the instructor. Excludes FREN 2000Y, 2001H.

» FREN 1050H: Continuing French II
A course in oral and written French particularly geared to students who have taken FREN 1040H, but also open to students at an advanced pre-intermediate level who recognize the need for a systematic acquisition/review of grammar to develop their oral and written skills. Not for credit toward a major in French Studies. May not be taken concurrently with, or following, FREN 1101H and 1102H. For students taking their first FREN course at Trent, admission to this course is based on the results of the French placement test. For other students, FREN 1040H is the prerequisite; or permission of the instructor. Excludes FREN 2000Y, 2002H.
» **FREN 1101H: Introduction aux études françaises / Introduction to French Studies**
   An introduction to textual comprehension, providing a basis for the critical appraisal of French and francophone literary discourse. Review of French grammar. Prerequisite: 4U/M French or FREN 1040H or permission of instructor. Excludes FREN 1100Y.

» **FREN-CAST 1102H: Études francophones dans un environnement canadien / Francophone Studies in a Canadian Environment**
   An examination of selected works and excerpts to provide a survey of Quebec and French Canadian literatures and cultures. Review of French grammar focusing on challenges specific to Canadian speakers. Prerequisite: 4U/M French or FREN 1040H or permission of instructor. Recommended: FREN 1101H. Excludes FREN 1100Y.

» **FREN 2051H: La lecture critique / Critical Reading**
   Lectures and tutorials elucidate the distinction between reading for pleasure and reading for critical understanding. Subjects include the characteristics of the principal genres; the elements of French rhetoric and poetics; textual analysis and essay writing; research skills; and standard citation and formatting. Prerequisite: FREN 1101H. Excludes FREN 1100Y.

» **FREN 2151H: Français intermédiaire avancé I / Advanced French Grammar I**
   Thorough review of grammar and intensive practice in French composition. Lectures present fundamental grammatical and syntactic concepts and categories from a linguistic point of view. Workshops focus on exercises designed to ensure integration of these grammatical structures. Seminars focus on textual comprehension, stylistics, and composition and involve weekly writing assignments. Prerequisite: FREN 1101H and 1102H or permission of the instructor. Excludes FREN 2150Y.

» **FREN 2152H: Français intermédiaire avancé II / Advanced French Grammar II**
   Continued review of grammar and syntax and intensive practice in French composition. Lectures present fundamental grammatical and syntactic concepts and categories from a linguistic point of view. Workshops focus on exercises designed to ensure integration of these grammatical structures. Seminars focus on textual comprehension, stylistics, and composition and involve weekly writing assignments. Prerequisite: FREN 1101H and 1102H or permission of the instructor. Excludes FREN 2150Y.

» **FREN 2451H: Cultures et société: La France et la Francophonie / Cultures and Society: France and the Francophonie**
   A survey of the social and cultural history of France and the francophone world from the seventeenth century to the present. Prerequisite: FREN 1102H or permission of instructor. Excludes FREN 2450Y.

» **FREN-CAST 2452H: Cultures et société: Le Québec et le Canada français / Cultures and Society: Quebec and French Canada**
   A survey of the development of a culture from la Nouvelle-France to present-day Quebec and French Canada. Prerequisite: FREN 1102H or permission of instructor. Excludes FREN 2450Y.

» **FREN 2453H: Culture and Society: Francophone Cities of the World**
   A survey of the social and cultural history of the francophone world through an exploration of major cities and regional metropolises. Taught in English. Not for credit toward a major in French Studies unless an arrangement is made with the instructor for permission to do readings and assignments in French. Offered only at Trent University Durham – GTA.

» **FREN 3051H: Stylistique comparée de l’anglais et du français / Comparative English-French Stylistics**
   An exploration of applied stylistics through the comparative observation of French and English with an emphasis on a Canadian perspective. Prerequisite: FREN 2152H. Excludes FREN 3050Y.
» **FREN 3052H: Traduction anglais-français / English-French Translation**
   An introduction to the theory and practice of the techniques of translation with an emphasis on a Canadian perspective. Prerequisite: FREN 2152H. Excludes FREN 3050Y.

» **FREN 3053H: Langue et expression écrite / Language and Written Expression**
   This writing-intensive course complemented with writing workshops is intended for students with upper intermediate to lower advanced knowledge of French. Through theory, exercises, and practical assignments, students learn how to use the potential of the French language to better relay their ideas in writing. Prerequisite: FREN 2151H or 2152H.

» **FREN 3150Y: Linguistique appliquée et phonétique / Applied Linguistics and Phonetics**
   Using a multimedia classroom environment, this course focuses on the complex sentence and tense concordances to explore writing techniques and to expand from a complex sentence to a well-organized paragraph. Phonetics will be introduced to present students with tools to correct pronunciation. Prerequisite: FREN 2152H.

» **FREN 3172H: Molière et son époque / Seventeenth-Century French Literature**
   Beginning with a study of competing movements and critical approaches (mannerism, baroque, etc.), and comparing literary representations to examples drawn from the fine arts, the seminar focuses on the tensions—between the individual and power, reason and passion, clarity and concision—that characterize the classical aesthetic. Prerequisite: FREN 2051H and 2451H. Excludes FREN 3170Y.

» **FREN 3182H: Le siècle Candide / Eighteenth-Century French Literature**
   Study of the discourse of reason, freedom, and authenticity in works by Voltaire, Diderot, and Rousseau. Juxtaposes philosophical and fictional works to focus on the connections between depictions of reason in the fictional works and the understanding of fiction that emerges from the philosophical texts. Prerequisite: FREN 2051H and 2451H. Excludes FREN 3180Y.

» **FREN 3191H: Le roman au temps des Misérables / The Nineteenth-Century French Novel**
   This survey shows how the French novel in the nineteenth century shaped a critical vision of post-revolutionary French capitalist society. From the Romantics to the Decadents. Prerequisite: FREN 2051H and 2451H. Excludes FREN 3190Y.

» **FREN 3192H: Des romantiques aux poètes maudits / Nineteenth-Century French Poetry**
   A study of poetry as an agent and reflection of social change in nineteenth-century France. An examination of selected works from Chateaubriand and Lamartine to Rimbaud and Mallarmé. Prerequisite: FREN 2051H and 2451H. Excludes FREN 3190Y.

» **FREN 3201H: Le roman français au XXe siècle / The French Novel of the Twentieth Century**
   A survey of the French novel in the twentieth century and its relation the notion of nouveau, from modernism to modernity to postmodernity—and beyond. Prerequisite: FREN 2051H and 2451H. Excludes FREN 3200Y, 3203H, 3204H.

» **FREN 3202H: Le théâtre français au XXe siècle / French Theatre of the Twentieth Century**
   A survey of a century of French theatre, from the théâtre de boulevard to the théâtre de l’absurde to contemporary forms. Prerequisite: FREN 2051H and 2451H. Excludes FREN 3200Y, 3203H, 3204H.

» **FREN 3203H: La vie littéraire française / French literature I**
   Modern and contemporary trends in literature: poetry, novels, theatre. Prerequisite: FREN 1102H and a minimum average of 70% on all FREN credits completed. Excludes FREN 3200Y, 3201H, 3202H. Offered only in Nantes.

» **FREN 3204H: La vie littéraire française / French literature II**
   Modern and contemporary trends in literature: poetry, novels, theatre. Prerequisite: FREN 1102H and a minimum average of 70% on all FREN credits completed. Excludes FREN 3200Y, 3201H, 3202H. Offered only in Nantes.
» **FREN-CAST 3231H: Théâtre québécois / Québécois Theatre**
A survey of the beginnings and evolution of Quebec theatre, concentrating on twentieth-century work and beyond. Prerequisite: FREN 2051H and 2452H, or permission of instructor. Excludes FREN-CAST 3230Y.

» **FREN-CAST 3232H: Poésie québécoise / Québécois Poetry**
A survey of the beginnings and evolution of Quebec poetry, from patriotic poetry to contemporary forms. Prerequisite: FREN 2051H and 2452H, or permission of instructor. Excludes FREN-CAST 3230Y.

» **FREN-CAST 3237H: Littératures francophones de l’Amérique du Nord / Francophone Literatures of North America**
Focuses on significant works of francophone literature of North America and studies them in their historical, political, sociological, and cultural context. Prerequisite: FREN 2051H and 2452H.

» **FREN-CAST-INDG 3238H: Littératures autochtones de langue française au Canada / French Language Indigenous Literature in Canada (ICR)**
Focuses on significant works of First Nations literature published in French and studies them in their historical, political, sociological, and cultural context. Prerequisite: FREN 2051H and 2452H.

» **FREN-CAST 3239H: Littérature franco-ontarienne / Franco-Ontarian Literature**
Focuses on significant works of Franco-Ontarian literature and studies them in their historical, political, social–economic, and cultural context. Prerequisite: FREN 2051H and 2452H.

» **FREN 3301H: La pensée française I / French Thought I**
Introduction to eighteenth-century French philosophers. Prerequisite: FREN 1102H and a minimum average of 70% on all FREN credits completed. Excludes FREN 3305Y. Offered only in Nantes.

» **FREN 3307H: La pensée française II / French Thought II**
Introduction to eighteenth-century French philosophers. Prerequisite: FREN 1102H and a minimum average of 70% on all FREN credits completed. Excludes FREN 3305Y. Offered only in Nantes.

» **FREN-HIST 3506H: La civilisation française I / French Civilization I**
A survey of the history of France from prehistoric times to the present. Prerequisite: FREN 1102H and a minimum average of 70% on all FREN credits completed. Excludes FREN-HIST 3505Y. Offered only in Nantes.

» **FREN-HIST 3507H: La civilisation française II / French Civilization II**
A survey of the history of France from prehistoric times to the present. Prerequisite: FREN 1102H and a minimum average of 70% on all FREN credits completed. Excludes FREN-HIST 3505Y. Offered only in Nantes.

» **FREN-CAST 3831H: Le roman québécois des origines à 1945 / The Québécois Novel from Its Origin to 1945**
A survey of the beginnings and evolution of the Quebec novel from its birth in 1837 to the nineteenth century to the “terroir” novel to the first representations of the city. Prerequisite: FREN 2051H and 2452H. Excludes FREN-CAST 3830Y, 4830Y.

» **FREN-CAST 3832H: Le roman québécois de 1945 à nos jours / The Québécois Novel from 1945 to Today**
A survey of the Quebec novel, from the end of World War II to contemporary times. Prerequisite: FREN 2051H and 2452H, or permission of instructor. Excludes FREN-CAST 3830Y, 4830Y.
» **FREN 3900Y, 3901H, 3902H: Lectures dirigées / Reading Course**
Prerequisite: FREN 1102H, a minimum average of 70% on all FREN credits completed, and permission of the department.

» **FREN 4010Y: Initiation à la recherche littéraire / Introduction to Literary Research**
Supervised research. Single credit course. 12,000 word thesis. Prerequisite: 5.0 FREN credits including 4.0 beyond the 1000 level, with a minimum of 60% in each; or permission of the department. Candidates must submit a written proposal to the department chair before May 1 of the preceding academic year.

» **FREN 4020D: Recherche littéraire avancée / Advanced Literary Research**
A double credit. Supervised research. 20,000 word thesis. Candidates must submit a written proposal to the department chair before May 1 of the preceding academic year. Prerequisite: 5.0 FREN credits including 4.0 beyond the 1000 level, with a minimum of 60% in each; or permission of the department.

» **FREN 4053H: La communication en contexte / Communication in Context**
This writing-intensive course complemented with writing workshops is intended for students with advanced knowledge of French. Through theory, exercises, assignments, and self-reflection, students learn how to maximize the potential of the French language to adapt their writing to various contexts. Prerequisite: 5.0 FREN credits including 4.0 beyond the 1000 level and one of FREN 2151H or 2152H or 3053H.

» **FREN 4059H: Reading French**
A course for advanced undergraduate or graduate students with beginners’ or no previous knowledge of French. Students learn how to identify elements and structure of the French sentence, connectors between sentences and paragraphs, and how to use the basic tools to efficiently read and translate from French to English for personal or academic purposes. Taught in English. Not for credit toward a major in French Studies. Prerequisite: 10.0 university credits. Excludes FREN 1100Y, 1101H, 1102H.

» **FREN 4150Y: L’analyse du discours / Discourse Analysis**
Using a multimedia classroom environment and individual and group exercises, this course uses short literary texts (poems, plays, and prose) to analyze contextual meaning, lexical fields, the marks of subjectivity and expressiveness, some figures of speech/rhetorical figures, tones and registers, and many elements of narratology. Prerequisite: 5.0 FREN credits including 4.0 beyond the 1000 level, with a minimum of 60% in each; or permission of the department.

» **FREN 4200Y: La critique littéraire / Literary Criticism**
Examines the various methods of literary criticism and studies relevant critical texts by French writers and literary critics. Prerequisite: 5.0 FREN credits including 4.0 beyond the 1000 level, with a minimum of 60% in each; or permission of the department.

» **FREN 4201H: Création littéraire / Creative Writing**
A creative writing workshop. Various writing techniques are applied; genres (poetry, short story, etc.) are explored through writing. Prerequisite: 5.0 FREN credits including 4.0 beyond the 1000 level, with a minimum of 60% in each; or permission of the department.

» **FREN 4202H: La critique littéraire française / French Literary Critique**
Covers French theory with a strong emphasis on twentieth-century theories: formalism, structuralism, social criticism, narratology, psychoanalytic criticism, semiotics, feminism. Prerequisite: 5.0 FREN credits including 4.0 beyond the 1000 level, with a minimum of 60% in each; or permission of the department. Excludes FREN 4200Y.
FREN-CAST-CUST 4229Y: Science-fiction et fantastique québécois / Québécois Science Fiction and Fantasy Literature
A study of Quebec science fiction and fantasy, both from a historical perspective, based on literary movements and tendencies, and from the perspective of genre theories, observing their constitutive traits, their similarities, and their fundamental differences. Prerequisite: 10.0 university credits, including 3.0 FREN credits beyond the 1000 level, or permission of the department. Excludes FREN 4500Y (2010-2011).

FREN-WMST 4251H: Questions de genre / Gender Issues
Consists of an exploration of gender issues in French language and literatures with a focus on questions specific to French Canada and Quebec. Prerequisite: 5.0 FREN credits including 4.0 beyond the 1000 level, with a minimum of 60% in each; or permission of the department.

FREN-CUST 4302H: Cinéma francophone / Francophone Cinema
Examines French-language cinema culture, primarily in Europe, Québec, the Caribbean, and West Africa. We consider the impact of decolonization and globalization on francophone cultures, addressing questions of racialization, marginalization, multiculturalism, and bilingualism, while learning about the cinema as a particular medium of artistic expression. Prerequisite: 10.0 university credits, including 3.0 FREN credits beyond the 1000 level, or permission of the department.

FREN 4500Y/4501H: Étude approfondie de la littérature québécoise / Advanced Study of Québécois Literature
Focuses on a specific topic linked to Quebec literature. Advanced study of the corpus based on relevant literary terminology. Prerequisite: 5.0 FREN credits including 4.0 beyond the 1000 level, with a minimum of 60% in each; or permission of the department. Students may take only one of FREN 4500Y or 4501H for credit.

FREN-CAST 4520Y: Montréal
A study of Montreal as a founding element in literary and artistic works, from its foundation in 1642 to the present, with an emphasis on contemporary, original French language representations. Prerequisite: 5.0 FREN credits including 4.0 beyond the 1000 level, with a minimum of 60% in each; or permission of the department.

FREN-CUST 4611H: Littérature et contestation / Literature and Contestation
An advanced interdisciplinary inquiry into French, francophone, and Québécois literatures and cultures of the second half of the twentieth century, focusing on texts that challenge the status quo with respect to cultural conventions, political power and class relations, gender roles and sexuality, the institution of the university, and the legacies of French and British colonialisms. Prerequisite: 10.0 university credits, including 3.0 FREN credits beyond the 1000 level, or permission of the department.

FREN 4700Y/4701H: Étude approfondie de la littérature francophone / Advanced Study of Francophone Literature
Focuses on a specific topic linked to francophone literature. Advanced study of the corpus based on relevant literary approaches. Prerequisite: 5.0 FREN credits including 4.0 beyond the 1000 level, with a minimum of 60% in each; or permission of the department. Students may take only one of FREN 4700Y or 4701H for credit.

FREN 4800Y/4801H: Étude approfondie de la littérature française / Advanced Study of French Literature
Focuses on a specific topic linked to French literature. Advanced study of the corpus based on relevant literary approaches. Prerequisite: 5.0 FREN credits including 4.0 beyond the 1000 level, with a minimum of 60% in each; or permission of the department. Students may take only one of FREN 4800Y or 4801H for credit.

FREN 4900Y, 4901H, 4902H: Lectures dirigées / Reading Course
Prerequisite: FREN 1102H and a minimum average of 70% on all FREN credits completed.
Linguistics

Linguistics courses are offered through the Trent Centre for Language and Linguistics (trentu.ca/tcll). For the Option in Linguistics, see p. 410.

Please consult the academic timetable for information on courses that will be offered in 2019–2020, including when they will be scheduled.

- **LING 1000Y: Introduction to Linguistics**
  An overview of the many approaches to the study of human languages. Topics covered include the descriptive study of words, sentences, and sounds; the role of language in society; how languages change over time; the development of writing systems; language learning; the brain and language. Excludes LING 1001H, 1002H, MODL 1000Y, 1001H, 1002H. Offered only in the summer.

- **LING 1001H: Sounds, Words, and Sentences: Concepts in Linguistics**
  An introduction to modern approaches to the descriptive analysis of sounds, words, and sentences, including extensive practice in the application of linguistic techniques. Excludes LING 1000Y, MODL 1000Y, 1001H.

- **LING 1002H: Linguistics in Action: How Languages Are Used**
  Approaches to the study of human language: how languages change over time, the role of language in society, the development of writing systems, language learning, the brain and language. Excludes LING 1000Y, MODL 1000Y, 1002H.

- **LING 2000H: Language Awareness for Teaching and Learning**
  An introduction to fundamental concepts in grammar from a comparative and contrastive perspective. Designed to assist students who are studying, or planning to teach, French and other modern languages and to illustrate the similarities and differences among the linguistic systems of (mainly) Indo-European language families. Excludes MODL 2000H.

- **LING 2001H: Continuing Linguistics**
  An intermediate course, focusing on phonology but including connections with morphology and syntax, designed to broaden students’ knowledge of descriptive linguistics and to expose them to a range of applications of linguistics in both English and other languages. Topics include phonemic analysis, syllables, morphophonemics, and grammar. Prerequisite: LING 1000Y or 1001H (or MODL 1001H). Excludes MODL 2001H.

- **LING-ANTH 2010H: Phonetics**
  An overview of articulatory and instrumental phonetics, including the mechanics of speech production, the accurate transcription of speech in any language, and the use of instruments to study the physical nature of speech sounds. Students learn all characters and values of the International Phonetic Alphabet, an indispensable tool for linguistic study and research. Prerequisite: LING 1000Y or 1001H (MODL 1001H). Excludes MODL 2010H.

- **LING-ANTH 2020H: Digging Up Dead Languages**
  An overview of the field of historical linguistics. Students are exposed to the principles and methods of historical research on languages, including topics related to language change and the reconstruction of extinct languages from their known daughter languages. Prerequisite: LING 1000Y or 1002H (or MODL 1002H). Excludes MODL 2020H.
LING 3050H: Language and Style: Analyzing How Literary and Non-literary Texts Make Meaning
An introduction to the methods of stylistics, including linguistic approaches to literary analysis, foregrounding and deviation, applications of stylistics to non-literary texts (journalism, speeches, advertising, etc.), and computer-based methods (corpus stylistics). Students develop practical skills in applying linguistic tools to a wide range of texts. Prerequisite: 4.0 university credits or permission of instructor. Recommended: 1.0 ENGL or LING (or MODL) credit at the 1000 level. Excludes MODL 3050H.

LING 3060H: Second Language Acquisition: Theory, Methods, and Practice
An overview of the field of second language acquisition and learning, with an emphasis on linguistic applications to the field, individual differences (affective and cognitive), learning and teaching styles, bilingualism, patterns of interlanguage development, fossilization, competence/performance, cultural factors, and the role of the first language. Prerequisite: 4.0 university credits or permission of instructor. Recommended: LING 1000Y or 1002H (or MODL 1002H). Excludes MODL 3060H.

LING-ANTH 3860H: Field Methods in Linguistics
An introduction to linguistic fieldwork. Students work either individually or in groups with a native language informant in the local community or, by special arrangement, in a remote location. Students develop a research question and complete a final report that focuses on phonetics/phonology, morphology, and/or syntax. Prerequisite: LING 1000Y or 1001H (or MODL 1001H). Highly recommended: LING 2001H or 2010H (or MODL 2001H or 2010H). Excludes MODL 3860H.

Language Courses
The Trent Centre for Language and Linguistics offers a range of introductory and intermediate languages courses and frequently offers new languages on an experimental basis, especially in the summer.

Please consult the academic timetable for information on courses that will be offered in 2019–2020, including when they will be scheduled.

ARAB 1000Y: Introduction to Arabic
Covers the fundamentals of speaking, listening, reading, and writing Arabic in its Modern Standard form (MSA), starting with the alphabet and moving on to the production of Arabic's distinctive speech sounds. Also covers the customs and culture of the Arab world. Designed for students with no knowledge of Modern Standard Arabic. Offered only in the summer. Excludes ARAB 1001H, 1002H.

ARAB 1001H: Introduction to Arabic I
Covers the fundamentals of speaking, listening, reading, and writing Arabic in its Modern Standard form (MSA), starting with the alphabet and moving on to the production of Arabic's distinctive speech sounds. Also covers the customs and culture of the Arab world. Designed for students with no knowledge of Modern Standard Arabic. Excludes ARAB 1000Y.

ARAB 1002H: Introduction to Arabic II
A continuation of ARAB 1001H, providing further exposure to speaking, listening, reading, and writing Modern Standard Arabic. Prerequisite: ARAB 1001H. Excludes ARAB 1000Y.
» **ARAB 2500H: Arab Cultures and Identities**
Examines different social and cultural practices in the Arab world through fictional and non-fictional texts, as well as film screenings, which touch upon the multiple identities of the Arab world, ranging from the culinary to the political, the sexual to the economic, and the scriptural to the secular. Taught in English.

» **ASLA 1001H: Introduction to American Sign Language I**
An introduction to ASL for students with no or minimal previous background. Develops basic proficiency in and understanding of the principles of ASL and encourages basic communicative competence in a second-language setting.

» **ASLA 1002H: Introduction to American Sign Language II**
An introduction to ASL for students with no or minimal previous background. Develops basic proficiency in and understanding of the principles of ASL and encourages basic communicative competence in a second-language setting. Prerequisite: ASLA 1001H or permission of the instructor.

» **CHIN 1000Y: Introduction to Mandarin Chinese**
An introduction to the Chinese language for beginners. Covers the phonology, elementary syntax, and characters of Mandarin Chinese, and develops cultural awareness. Students receive training in listening and speaking, in recognizing both simplified and traditional Chinese characters, and in using Pin Yin and Chinese character dictionaries. Students whose level of Mandarin Chinese is judged by the instructor to be too advanced may not receive credit for this course. Excludes CHIN 1001H, 1002H. Offered only in the summer.

» **CHIN 1001H: Introduction to Mandarin Chinese I**
An introduction to the Chinese language for beginners. Covers the phonology, elementary syntax, and characters of Mandarin Chinese, and develops cultural awareness. Students receive training in listening and speaking, in recognizing both simplified and traditional Chinese characters, and in using Pin Yin and Chinese character dictionaries. Students whose level of Mandarin Chinese is judged by the instructor to be too advanced may not receive credit for this course. Excludes CHIN 1000Y.

» **CHIN 1002H: Introduction to Mandarin Chinese II**
An introduction to the Chinese language for beginners. Covers the phonology, elementary syntax, and characters of Mandarin Chinese, and develops cultural awareness. Students receive training in listening and speaking, in recognizing both simplified and traditional Chinese characters, and in using Pin Yin and Chinese character dictionaries. Students whose level of Mandarin Chinese is judged by the instructor to be too advanced may not receive credit for this course. Prerequisite: CHIN 1001H. Excludes CHIN 1000Y.

» **CHIN 2100H: Oral Proficiency through Chinese Films**
This course is designed for those who have some background in the Chinese language and who want to further their Chinese oral proficiency. Students are exposed to language and culture with authentic Chinese materials selected from a wide range of Chinese films and dramas. Prerequisite: CHIN 1002H or permission of the instructor.

» **GRMN 1000Y: Introduction to German**
Designed for students with little or no knowledge of German, this course provides an introduction to spoken and written German through intensive teacher-student contact and interaction in small groups, as well as an introduction to present-day Germany. Not open to students with 4U German or equivalent or those judged by the instructor to be fluent in German. Excludes GRMN 1001H, 1002H. Offered only in the summer.
GRMN 1001H: Introduction to German I
Designed for students with little or no knowledge of German, this course provides an introduction to spoken and written German through intensive teacher-student interaction and interaction in small groups, as well as an introduction to present-day Germany. Not open to students with 4U German or those judged by the instructor to be fluent in German. Excludes GRMN 1000Y.

GRMN 1002H: Introduction to German II
A continuation of GRMN 1001H, this course provides an introduction to spoken and written German through intensive teacher-student contact and interaction in small groups, as well as an introduction to present-day Germany. Not open to students with 4U German or those judged by the instructor to be fluent in German. Prerequisite: GRMN 1001H or permission of instructor. Excludes GRMN 1000Y.

GRMN 2000Y: Intermediate German
Intermediate German language course with comprehensive grammar review and intensive language practice. Introduction to German literature and culture in the second half. Prerequisite: GRMN 1000Y or 1002H, Grade 12 German, 4U German, or permission of instructor. Excludes GRMN 2001H, 2002H. Offered only in the summer.

GRMN 2001H: Intermediate German I
Intermediate German language course with comprehensive grammar review and intensive language practice. Prerequisite: GRMN 1000Y or 1002H or permission of instructor. Excludes GRMN 2000Y.

GRMN 2002H: Intermediate German II
A continuation of GRMN 2001H, this course offers a comprehensive grammar review, language practice, and an introduction to German literature. Prerequisite: GRMN 2001H or permission of instructor. Excludes GRMN 2000Y.

ITAL 1001H: Introduction to Italian I
An introduction to spoken and written Italian for beginners. Seeks to develop all four language skills—speaking, aural comprehension, reading, and writing—and acquaints students with some of the culture and history of the Italian peninsula since the Middle Ages. Students whose level of Italian is judged by the instructor to be too advanced may not receive credit for this course. Excludes ITAL 1000Y.

ITAL 1002H: Introduction to Italian II
A continuation of ITAL 1001H, providing further exposure to speaking, listening, reading, and writing Italian. Prerequisite: ITAL 1001H. Excludes ITAL 1000Y.

RUSS 1001H: Introduction to Russian I
An introduction to the Russian language for students with no previous knowledge. Students are introduced to the Cyrillic alphabet and learn basic phrases and grammar to enable them to participate in basic conversations and to get around in a Russian-speaking environment.

RUSS 1002H: Introduction to Russian II
A continuation of the Russian language for students with some previous knowledge or who have taken RUSS 1001H. Students continue to learn phrases and more advanced grammar to improve their ability to get around in a Russian-speaking environment. Prerequisite: RUSS 1001H or permission of instructor.

SPAN 1000Y: Introduction to Spanish
An introduction to the Spanish language, with an emphasis on oral Spanish, pronunciation, reading, and writing. Students judged by the instructor to be fluent in Spanish may not receive credit for this course. Excludes HSST 1000Y, 1001H, 1002H, SPAN 1001H, 1002H. Offered only in the summer.
» **SPAN 1001H: Introduction to Spanish I**
An introduction to understanding, speaking, reading, and writing designed for students with limited or no knowledge of the language. The goal of the course is to encourage students to work towards developing control of everyday vocabulary and basic forms and constructions. Students judged by the instructor to be fluent in Spanish may not receive credit for this course. Excludes HSST 1000Y, 1001H, SPAN 1000Y.

» **SPAN 1002H: Introduction to Spanish II**
Builds on the knowledge gained in SPAN 1001H and continues to encourage students to work towards developing control of everyday vocabulary and basic forms and constructions. Seminar activities stress a communicative approach, which is reinforced through written exercises. Prerequisite: SPAN 1001H (or HSST 1001H) or permission of instructor. Students judged by the instructor to be fluent in Spanish may not receive credit for this course. Excludes HSST 1000Y, 1002H, SPAN 1000Y.

» **SPAN 2000Y: Continuing Spanish**
A language course with comprehensive review and practice, designed for students with advanced secondary school credits or other previous exposure to the language. Prerequisite: SPAN 1000Y or 1002H (or HSST 1000Y or 1002H) or permission of department. Excludes HSST 2000Y, 2001H, 2002H, SPAN 2001H, 2002H. Offered only in the summer.

» **SPAN 2001H: Continuing Spanish I**
Intended for students with prior knowledge of the Spanish language (two years of secondary school Spanish; travel or exchange programs), the course builds on the knowledge and use of the language acquired in SPAN 1001H and 1002H, or equivalent, with a focus on review of grammar structures and oral practice. Prerequisite: SPAN 1000Y or 1002H (or HSST 1000Y or 1002H) or permission of instructor. Excludes HSST 2000Y, 2001H, SPAN 2000Y.

» **SPAN 2002H: Continuing Spanish II**
This course builds on the knowledge and use of the Spanish language acquired in SPAN 2001H or equivalent. Designed for students who wish to further develop their reading, writing, and conversation skills in preparation for SPAN 2501H, 2502H, or other areas of study. Prerequisite: SPAN 2001H (or HSST 2001H) or permission of instructor. Excludes HSST 2000Y, 2002H, SPAN 2500Y.

» **SPAN 2501H: Intermediate Spanish I**
An intensive course that seeks to broaden language skills acquired in SPAN 1000Y or equivalent. Emphasis is on developing oral proficiency, writing, and reading, with a focus on grammar. The oral section aims to develop improved control and accuracy, enlarge active vocabulary, and reinforce grammar points. Prerequisite: 70% or higher in SPAN 1000Y or 1002H (or in HSST 1000Y or 1002H); or SPAN 2000Y or 2002H (or HSST 2002H); or permission of the instructor. Excludes HSST 2500Y, 2501H, SPAN 2500Y.

» **SPAN 2502H: Intermediate Spanish II**
SPAN 2502H is an intensive course that continues to broaden language skills acquired in SPAN 2501H or equivalent. Emphasis is on oral and written work, and reading comprehension with a focus on grammar. The oral section aims to develop improved control and accuracy, enlarge active vocabulary and reinforce grammar points. Prerequisite: SPAN 2000Y or 2002H or 2501H (or HSST 2002H or 2501H) or permission of the instructor. Excludes HSST 2500Y, 2502H, SPAN 2500Y.

» **SPAN 3001H: Advanced Spanish Grammar**
A practical course that aims to perfect language skills at an advanced level through practice in grammar, conversation, writing, and comprehension. Students continue to develop communicative competence by participating in interactive exercises and conversation. Preparation for the translation course. Prerequisite: SPAN 2500Y or 2502H (or HSST 2500Y or 2502H) or permission of instructor. Excludes HSST 3000Y, 3001H.

Penney, Cultural Studies; M. Rahman, Sociology; E. Stavro, Political Studies; M. Steffler, English Literature; D. White, Sociology; S. Wurtele, Environment

The Department of Gender & Women’s Studies explores gender relations and women’s experiences across cultures and nations, throughout history, and in contemporary societies. We examine how gender relations and gendered identities are understood in constant interaction with other important social, economic, and cultural categories and hierarchies, such as class, race, ability, and sexuality. Courses investigate a broad range of issues, including how media and popular culture can be both problematic and empowering for girls and women; how feminist scholars and activists are critiquing public policies in health, social welfare, and education; how globalization is gendered; how dominant institutions like the family, schools, and the state shape social identities and opportunities; how women’s and other social movements in the past and present challenge inequalities and envision peace and justice.

As an interdisciplinary department, Gender & Women’s Studies draws on theoretical perspectives and methodologies from a wide range of fields such as History, Political Studies, Psychology, Sociology, Anthropology, English Literature, Indigenous Studies, Cultural Studies, International Development Studies, Canadian Studies, and the natural sciences. We combine theory with empirical research, foster critical thinking, and encourage students’ involvement with local and broader communities.
Bachelor of Arts Program in Gender & Women’s Studies

- In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).
- The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.
- No more than 1.0 credit from reading courses may count toward the number of WMST credits required for the single- and joint-major General degree; and no more than 2.0 toward the number required for the single- and joint-major Honours degrees.

The single-major Honours program. 20.0 credits including the following 10.0 credits:
- 3.0 WMST credits consisting of WMST 1001H, 1002H, 2141H, 3021H, and 4995Y
- 7.0 WMST credits in addition to the above, including at least 2.0 credits from WMST 2151H, 2161H, 2487H, 2711H, 3122H/4122H, 3141H, 3250H, 3400H, 3431H/4431H, 3860H, or 3966H

The joint-major Honours program. 20.0 credits including the following 7.0 credits:
- 3.0 WMST credits consisting of WMST 1001H, 1002H, 2141H, 3021H, and 4995Y
- 4.0 WMST credits in addition to the above, including at least 1.0 credit from WMST 2151H, 2161H, 2487H, 2711H, 3122H/4122H, 3141H, 3250H, 3400H, 3431H/4431H, 3860H, or 3966H

The single-major General program. 15.0 credits including the following 6.0 credits:
- 2.0 WMST credits consisting of WMST 1001H, 1002H, 2141H, and 3021H
- 1.0 WMST credit at the 3000 level or beyond in addition to the above
- 3.0 WMST credits in addition to the above

The joint-major General program. 15.0 credits including the following 5.0 credits:
- 2.0 WMST credits consisting of WMST 1001H, 1002H, 2141H, and 3021H
- 3.0 WMST credits in addition to the above

The minor in Gender & Women’s Studies consists of the following 5.0 credits:
- 2.0 WMST credits consisting of WMST 1001H, 1002H, 2141H, and 3021H
- 3.0 WMST credits in addition to the above
Please consult the academic timetable for information on courses that will be offered in 2019–2020, including when they will be scheduled.

» **WMST 1001H: Thinking Gender: An Introduction**
   An introduction to key concepts, issues, and themes informing the field of gender and women’s studies. We challenge many taken-for-granted assumptions about gender relations, feminism, and human inequalities, and examine the social construction of sex and gender in relation to other categories such as “race,” class, disability, and sexuality. Excludes WMST 1000Y.

» **WMST 1002H: Gender Matters: Issues and Contexts**
   Considers gender, sex, and bodies in relation to contemporary challenges facing our world, both in North America and abroad. Through issues including media, popular culture, violence, sexuality, health, poverty, and globalization, we explore diverse women’s experiences and gender relations, and evaluate multiple pathways toward gender and economic justice for everyone. Excludes WMST 1000Y.

» **WMST-NURS 2121H: Women and Health**
   Addresses issues of importance to women as recipients and providers of health care and as subjects of health research. Students are introduced to various models of health and illness, and to the origins and theoretical underpinnings of the gendered dimensions of health in Canadian and global contexts. Prerequisite: 0.5 WMST credit at the 1000 level, or a minimum of 60% in all required NURS 1000-level courses, or permission of instructor. Excludes WMST 2120Y.

» **WMST-PHIL 2141H: Discovering Feminist Thought**
   What is feminist theory, and what does it have to do with making/practicing social change? This course explores some of the key historical and contemporary feminist theories, inviting debate about the many different ways that feminists have explained and analyzed social inequalities, imagined alternatives, and strategized for gender justice. Prerequisite: 4.0 university credits including 0.5 WMST credit at the 1000 level, or permission of instructor. Excludes WMST 2040Y.

» **WMST 2151H: Contemporary Feminisms**
   Uses a feminist lens to analyze a variety of contemporary social issues that may include sexual violence, migrant labour, transgender and queer politics, and environmental justice, as well as the new frontiers of transnational and digital feminist activism. Prerequisite: 4.0 university credits including 0.5 WMST credit at the 1000 level, or permission of instructor. Excludes WMST 2040Y.

» **WMST 2161H: Transnational Feminisms: Texts and Theories**
   Explores the textual and material traces of transnational feminism by tracing the cultural representation and recording of feminist interactions, collaboration, and activism between nations. What are the histories behind transnational collaborations and networks and what can various media, forms, and modes of representation tell us about feminism writ large? Prerequisite: WMST 1001H.

» **WMST-CUST 2210H: Gender and Popular Culture**
   Engages students in critical analyses of gender and popular cultures, film, television, print and Internet media, fictions, fashion, music, and dance. Examines the process through which gender relations are constructed within popular cultures, focusing on women as active agents in production and consumption of popular culture. Prerequisite: 4.0 university credits including 0.5 WMST or CUST credit at the 1000 level, or permission of instructor. Excludes WMST-CUST 2209Y.

» **WMST-CAST-GEOG-POST 2245H: The Social and Political Economy of Contemporary Canadian Immigration (see Canadian Studies)**
» WMST-IDST 2251H: Gender and International Development
An analysis of the political, economic, and cultural issues that confront women in their struggles for and against development in different localities across the globe. Theoretical and conceptual frameworks are explored and used to examine case studies of women’s experiences of work and social change in developing contexts. Prerequisite: 0.5 WMST or IDST credit at the 1000 level, or permission of instructor. Excludes WMST-IDST 2250Y.

» WMST 2410H: The Revolution Will Be Recorded: Popular Culture, Gender, and Social Movements
Examines the role of popular culture in various forms—including live theatre, music, fashion, film, and television—within Canadian and American social movements of the twentieth century that sought to reimagine gender. Emphasizes the role of race, class, sexuality, ability, and medium in the production and consumption of protest cultures.

» WMST-SOCI 2430H: Sociology of Gender (see Sociology)

» WMST-CAST-INDG 2485H: Indigenous Women’s Creative Non-Fiction (ICR) (see Canadian Studies)

» WMST-INDG 2487H: Decolonizing Feminisms
Looks at how contemporary feminisms can urgently turn to recognition and foregrounding of Indigenous peoples and their voices across territories. With emphasis on Indigenous women and 2SQ people as creative makers, vibrant thinkers, and vital members of our communities, we examine Indigenous/feminist acts of resistance, resilience and resurgence. Prerequisite: WMST 1001H.

» WMST-AHCL 2520H: Women in the Ancient World, 700 BCE–600 CE (see Ancient Greek & Roman Studies)

» WMST-CAST 2600Y: Documenting Canada (See Canadian Studies)

» WMST-CAST-HIST 2711H: Acting Up! Feminism and History in Canada
An overview of the history of feminist ideas, strategies, and actions in Canada. We explore the diversity and distinctiveness of Canadian feminism at different historical moments, celebrating the strength and creativity of organized and individual forms of resistance, while also probing the complicated, difficult, and sometimes “messy” workings of feminism. Prerequisite: 4.0 university credits including 0.5 WMST, CAST, or HIST credit at the 1000 level, or permission of instructor. Excludes WMST-CAST 2110H.

» WMST-CAST 2755H: Women in Canada: Women and the Arts (see Canadian Studies)

» WMST-HIST 2760Y: Women in Britain and Europe (see History)

» WMST 3021H: Discovering Feminist Research
How can research be used as a tool for social change? This course teaches students how to design feminist, anti-oppressive research in collaboration with community organizations. With attention to a range of current social issues, students learn about the theory, ethics, and design of engaged research. Prerequisite: 7.0 university credits including WMST 2141H and 0.5 additional WMST credit at the 2000 level or beyond, or permission of instructor. Excludes WMST 3020Y.

» WMST-NURS 3022H: Researching Women’s Lives
Focuses on Institutional Ethnography (IE) as a feminist methodological practice that begins from women’s standpoint—women’s lives as they are actually experienced at the intersections of class and identity. Prerequisite: 1.0 WMST or NURS credit at the 2000 level or beyond, or permission of the instructor. Excludes WMST 3020Y.
» **WMST 3031H: Doing Feminist Research: Making Social Change**
Students carry out a portion of the feminist research they designed in WMST 3021H, building their skills and experience as researchers for social change. With attention to implementing different methods and navigating the practicalities of research, they develop their capacity, confidence, and creativity as collaborative critical inquirers. Prerequisite: WMST 3021H. Excludes WMST 3020Y.

» **WMST-PHIL 3050H: Philosophy, Gender, and Feminism (see Philosophy)**

» **WMST 3122H: Activists and Activisms: Feminist and Decolonial Perspectives**
Students develop a critical analysis of contemporary social movements, including anti-racism, climate justice, border, and queer/trans activists. The course provides opportunities to participate in social change work while developing skills in activist research. With attention to feminist scholarship, students examine how groups are organizing in diverse ways. Prerequisite: 6.0 university credits including 1.0 WMST credit at the 2000 level or beyond, or permission of instructor. Excludes WMST 4122H.

» **WMST-CAST-ERST 3141H: Gender, Health, and Environments**
Examines feminist engagements, in theory and practice, with environmental movements, issues, and health concerns, primarily in North America but with attention to north/south interconnections. Topics may include ecological feminisms, environmental justice, gender and climate change, environmental links to breast cancer and reproductive health, green consumerism, and gendered food politics. Prerequisite: 7.0 university credits including 0.5 WMST credit at the 2000 level or beyond, or permission of instructor. Excludes WMST-CAST-ERST 3140Y.

» **WMST-CAST-HIST 3160Y: Canadian Women’s History (see History)**

» **WMST-CAST-HIST 3161H: Colonizing Women: Canada Before the Twentieth Century**
Examines selected themes on women and gender relations in early Canadian history, exploring how class, race, language, and culture shaped diverse women’s lives. Topics include gendered perspectives on First Nations-newcomer relations, slavery, white settler societies, the law and criminalization, women’s labour, education, and women’s early political and social organizing. Prerequisite: 1.0 WMST or HIST credit with a minimum 60% grade, or permission of instructor. Excludes HIST-CAST-WMST 3160Y, 4160Y.

» **WMST-CAST-HIST 3162H: Modernizing Women: Twentieth-Century Canada**
Focusing on Canadian women in the twentieth century, this course studies women’s political organizing; feminism; women’s experience of war; paid and unpaid work; immigrant experiences; sexuality; and modern colonialism. Emphasizes how class, race, language and culture create a diversity of women’s histories that were both distinct, but always closely interrelated. Prerequisite: 1.0 WMST or HIST credit with a minimum 60% grade, or permission of instructor. Excludes HIST-CAST-WMST 3160Y, 4160Y.

» **WMST-CAST-GEOG 3220H: Gender, Society, and Space (see Geography)**

» **WMST-CUST 3250H: Queer Feminisms**
Students explore bodies, desires, relations, and culture through queer and feminist theories. We consider connections among queer feminist scholarship, personal experience, political struggle, and artistic expression. Gender, sexuality, transgression, and intersectionality are central to the inquiry and conversation. Prerequisite: 7.0 university credits including 0.5 WMST credit at the 2000 level or beyond, or permission of instructor. Excludes WMST-CUST 4250H.

» **WMST-AHCL 3310H: Love, Sex, and Death in the Ancient World (see Ancient Greek & Roman Studies)**

» **WMST-HIST 3333H: Women Warriors and Heroic Mothers: Women and War in East Asia (see History)**

» **WMST-POST 3360H: The Body Politic / The Body in Politics (see Political Studies)**
» WMST-PHIL-SOCI 3400H: Feminism and Disability
Introduces students to critical perspectives that push thinking about disability beyond medical and social models. Focuses on connections between gender and disability. Explores feminist challenges to ableism. Other topics include bodies, race, sexuality, education, creativity, access, eugenics, intersections, and austerity. Prerequisite: 6.0 university credits. Excludes WMST 3300H.

» WMST-CAST-POST 3431H: Growing Gap: Gender (In)Justice in Canada
An intersectional feminist analysis of social welfare issues and policies in Canada. Focusing on topics including poverty, homelessness, childcare, and employment, we examine historical roots and contemporary contexts shaping the lives of women and marginalized groups bearing the brunt of the growing income gap and neoliberal threats to equality. Prerequisite: 6.0 university credits including 1.0 WMST, CAST, or POST credit at the 2000 level or beyond, or permission of instructor. Excludes WMST-CAST-POST 4430Y, 4431H.

» WMST-SOCI 3440H: Sexuality and the Social (see Sociology)

» WMST-CAST-INDG 3485H: Indigenous Women’s Writing (ICR) (see Canadian Studies)

» WMST-CAST-ENGL 3506Y/3507H: Canadian Women’s Writing (see Canadian Studies)

» WMST-CAST-INDG-SOCI 3508H: Indigenous Genders, Sexualities, and Relationships (see Indigenous Studies)

» WMST-ENGL 3609H: SickLit (see English Literature)

» WMST-CAST-POST 3671H: Gender and Politics in Canada: Cultural and Media Interventions (see Political Studies)

» WMST-CAST-POST 3672H: Gender Diversity and Politics in Canada (see Political Studies)

» WMST-ENGL 3701H: Writing the Body (see English Literature)

» WMST-ENGL 3704H: Queer Lit (see English Literature)

» WMST-CAST-ENGL 3709H: Girlhood Bodies and Narratives: Canadian and Global (see English Literature)

» WMST-PSYC 3740H: Psychology of Gender (see Psychology)

» WMST-PSYC 3796H: Feminist Psychologies (Sc)
Explores principles and practices of feminist psychology, theories of gender and sexual development, and the psychology of women. Focus is on feminist critiques of psychology and feminist contributions to psychology. Feminist relational, community, post-colonial, and narrative approaches are emphasized. Prerequisite: 6.0 university credits including 1.0 WMST credit at the 2000 level or beyond or 1.0 PSYC credit at 2000 level or beyond. Excludes WMST-PSYC 4796H.

» WMST 3820Y/3821H: Community Research Placement
The Trent Community Research Centre makes available to students research placements with community organizations. Projects are supervised jointly by a faculty member and representative of a community organization. Projects with sufficient gender content might be eligible for credit in Gender & Women’s Studies. For details, see Community-Based Research Program (p. 429). Prerequisite: 10.0 university credits and a minimum 75% cumulative average.

» WMST-CAST-SOCI 3860H: Gender, Race, and Class
An examination of critical scholarship analyzing power relations and women’s lived experiences through the intersections of gender, race, ethnicity, and class. Using historical and contemporary material, the course explores identity construction; gender, race, and class relations; and the maintenance of social and economic hierarchies in Canadian and international contexts. Prerequisite: 6.0 university credits including 1.0 WMST, CAST, or SOCI credit at 2000 level or beyond, or permission of instructor.
WMST-IDST-POST 3881H: Gender, Globalization, and Resistance (see International Development Studies)

WMST 3900Y, 3901H, 3902H, 3903H: Reading Course
A structured course arranged between student and instructor, and approved by the department chair, involving independent study of a topic that is not covered by regular courses. Only offered when faculty resources permit. Students must complete a Reading Course Registration form, available from the department office, prior to registering.

WMST-CAST-POST-SOCI 3962H: Gender, Sexualities, and the Law
Introduces students to key issues, theories, and debates concerning women, feminism, and the law, primarily in Canada. Approaching law as a site of regulation and constraint as well as a tool for feminist practice, the course examines issues such as family, sexuality, violence, pornography, prostitution, poverty, employment, and immigration. Prerequisite: 1.0 WMST, CAST, or POST credit, or permission of instructor.

WMST-CAST-SOCI 3966H: Criminalizing and Punishing Women
Looks at historical and contemporary criminologies about women in trouble across early to late modernity, with specific analysis of how women are punished and the conditions of their incarceration. Focuses on the Canadian criminal justice system, with comparative analysis of Australia and the UK. Prerequisite: 1.0 WMST, CAST, or SOCI credit, or permission of instructor.

WMST 4010Y: Honours Thesis
Consult the department office for information and for the required thesis registration form. Students wishing to take a double credit thesis with one credit applied to Gender & Women’s Studies and the second to a joint major should see the chair of the Gender & Women’s Studies Department.

WMST 4122H: Activists and Activisms: Feminist and Decolonial Perspectives
Students develop a critical analysis of contemporary social movements, including anti-racism, climate justice, border, and queer/trans activism. The course provides opportunities to participate in social change work while developing skills in activist research. With attention to feminist scholarship, students examine how groups are organizing in diverse ways. Prerequisite: 6.0 university credits including 1.0 WMST credit at the 2000 level or beyond, or permission of instructor. Excludes WMST 3122H.

WMST 4150H: Transgender Feminisms
Trans and feminist studies, neither of which are unified, monolithic and unrelated categories of theory and politics, strive to enable the imagination and enactment of gender diversity and sexual freedom. This course examines, and expands on, the formative and transformative impact that these communities have had on each other. Prerequisite: 1.0 WMST credit at the 3000 level or beyond or permission of instructor.

WMST-CAST-HIST 4160Y: Canadian Women’s History (see History)

WMST-INDG 4206H: Indigenous Women and Settler History in North America (see Indigenous Studies)

WMST-NURS 4208H: Nursing, Feminism, and Women’s Health (see Nursing)

WMST-CUST 4250H: Queer Feminisms
Students explore bodies, desires, relations, and culture through queer and feminist theories. We consider connections among queer feminist scholarship, personal experience, political struggle, and artistic expression. Gender, sexuality, transgression, and intersectionality are central to the inquiry and conversation. Prerequisite: 1.0 WMST credit at the 2000 level or beyond or permission of instructor. Excludes WMST-CUST 3250H.

WMST-FREN 4251H: Questions de genre / Gender Issues (see French & Francophone Studies)
WMST-CAST-POST 4431H: Growing Gap: Gender (In)Justice in Canada
An intersectional feminist analysis of social welfare issues and policies in Canada. Focusing on topics including poverty, homelessness, childcare, and employment, we examine historical roots and contemporary contexts shaping the lives of women and marginalized groups bearing the brunt of the growing income gap and neoliberal threats to equality. Prerequisite: 6.0 university credits including 1.0 WMST, CAST, or POST credit at the 2000 level or beyond, or permission of instructor. Excludes WMST-CAST-POST 3431H, 4430Y.

WMST-SOCI 4441H/1441H: Special Topics in Social Justice
A prison-based course that explores social justice from a variety of approaches such as critical race, feminism, sociological, philosophical, and literary theory across the humanities and social sciences. Using project-based learning strategies, university and incarcerated students learn collaboratively to examine principles of social justice with regards to a variety of topics such as truth and reconciliation, restorative justice, and social policy. Students attend weekly classes held in a correctional facility. Prerequisite: 14.0 university credits, a minimum cumulative average of 75%, and permission of instructor. Students are admitted through a competitive process, which involves submission of a written application, documentation of a criminal record check, and an interview with the instructor. As space is limited, not all applicants may be accepted. Contact Gender & Women’s Studies or Sociology for more information.

WMST-CAST-SOCI 4551H: Gender and Disability in Canada (see Canadian Studies)

WMST-HIST 4711H: Women and War in Modern Vietnam (see History)

WMST-PSYC 4796H: Feminist Psychologies (Sc)
Explores principles and practices of feminist psychology, theories of gender and sexual development, and the psychology of women. Focus is on feminist critiques of psychology and feminist contributions to psychology. Feminist relational, community, post-colonial, and narrative approaches are emphasized. Prerequisite: Either 2.0 WMST credits at the 2000 level or beyond or 1.0 WMST credit and PSYC 2700H and one of PSYC 3730H, 3740H, 3300H, or 3760H. Excludes WMST-PSYC 3796H.

WMST 4820Y, 4821H: Community Research Placement
The Trent Community Research Centre makes available to students research placements with community organizations. Projects are supervised jointly by a faculty member and representative of a community organization. Projects with sufficient gendered content might be eligible for credit in Gender & Women’s Studies. For details, see Community-Based Research Program (p. 429). Prerequisite: 10.0 university credits and a minimum cumulative average of 75%.

WMST 4900Y, 4901H, 4902H, 4903H: Reading Course
A structured course arranged between student and instructor, and approved by the department chair, involving independent study of a topic that is not already covered by regular courses. Only offered when faculty resources permit. Students must complete a Course Registration Form, available from the department office, prior to registering.

WMST-ANTH 4932H: Sex, Gender, and Science
An interdisciplinary introduction to the topic of women and gender in science. How is gender difference understood within scientific disciplines? Why are women under-represented in various science and technological fields? How are women, and feminist scholarship, changing science? Prerequisite: 8.0 university credits including 1.0 WMST credit at the 3000 level, or permission of instructor.

WMST-CAST 4951H: Special Topic: Canadian Childhoods Today (see Canadian Studies)
WMST-ERST 4990H: Gender and Environmental Justice
Examines debates and issues involved in understanding environmental problems from a gender and justice perspective. Students are introduced to environmental justice issues and concepts, feminist approaches and critiques, and explorations of emerging discourses, making links between justice, sustainability, and issues like climate change. Prerequisite: 8.0 university credits including 1.0 WMST or ERST credit at the 3000 level, or permission of instructor.

WMST 4995Y: Feminist Research Seminar
Students focus on a key area of feminist scholarship through intensive seminar discussions that may include guest lectures from various feminist faculty members from the Social Sciences and Humanities. Students engage in a major independent research project and collaboratively organize a public or campus event. Prerequisite: Open to Honours Gender & Women’s Studies students with 12.0 university credits including WMST 3021H.
The Trent School of the Environment offers BA and BSc programs in Geography. Students may earn a single-major or joint-major degree with a wide range of other University departments or programs. Students earning a degree with a major in another subject may also obtain a minor in Geography. The program has a strong emphasis on field-based learning and interdisciplinary study. Many courses are cross-listed with other departments and programs, including an Option in Geographical Information Systems linked with Fleming College. Students in the Honours program are encouraged to explore the thesis and community-based research options as valuable training for postgraduate studies and job-related experience.

Notes

- GEOG 1030H and 1040H are prerequisites for most upper-level Geography courses. Students should check individual course descriptions for prerequisites.
- Courses in Geography fulfilling University science course requirements for the BSc are marked “Sc” in the individual course descriptions.
- Students with an interest in Geographical Information Systems (GIS) are recommended to incorporate the Option in Geographical Information Systems, a joint program with Fleming College, into their Honours program. A student taking the Option in GIS will receive 7.0 university credits at the 3000 level from their third year at Fleming College, of which 4.5 will be GEOG credits. To obtain the BA or BSc in Geography, students must complete a total of 10.0 GEOG credits:
  - 4.5 credits earned from Fleming College
  - 5.0 (BA) or 4.5 (BSc) GEOG required credits
  - 0.5 (BA) or 1.0 (BSc) GEOG credits from category C (capstone credits)

For more information about the Option in Geographical Information Systems, see p. 407.
Bachelor of Arts and Bachelor of Science Programs in Geography

- In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).
- The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.
- The same course may not satisfy more than one category requirement.
- Students who have successfully completed PSYC 2019H are exempt from the GEOG 2080H requirement for the joint-major or minor in Geography. This exemption will not, however, alter the minimum number of credits in Geography required for the degree.
- Students who have taken MATH 1052H and achieved a grade of at least 75% are exempt from taking GEOG 2080H, and from the GEOG 2080H prerequisite for other Geography courses. This exemption will not, however, alter the minimum number of credits in Geography required for the degree.
- Approved reading courses may fulfill the Category A or Category B requirement.

Bachelor of Arts Program in Geography

The single-major Honours program. 20.0 credits including the following 10.0 credits:
- 3.0 GEOG credits consisting of GEOG 1030H, 1040H, 2080H, 2090H, 2510H, and 3100H
- 1.0 GEOG credit from GEOG 2310H, 2320H, 2330H, 2710H, or 2810H
- 0.5 GEOG credit from GEOG 2401H, 2460H, or 2540H
- 2.5 GEOG credits from Category A
- 1.0 GEOG credit from Category B
- 1.0 GEOG credit from Category C
- 1.0 GEOG credit in addition to the above

The joint-major Honours program. 20.0 credits including the following 7.0 credits:
- 3.0 GEOG credits consisting of GEOG 1030H, 1040H, 2080H, 2090H, 2510H, and 3100H
- 1.0 GEOG credit from GEOG 2310H, 2320H, 2330H, 2710H, or 2810H
- 0.5 GEOG credit from GEOG 2401H, 2460H, or 2540H
- 1.5 GEOG credits from Category A
- 0.5 GEOG credit from Category B
- 0.5 GEOG credit from Category C

The single-major General program. 15.0 credits including the following 6.0 credits:
- 3.0 GEOG credits consisting of GEOG 1030H, 1040H, 2080H, 2090H, 2510H, and 3100H
- 1.0 GEOG credit from GEOG 2310H, 2320H, 2330H, 2710H, or 2810H
- 0.5 GEOG credit from GEOG 2401H, 2460H, or 2540H
- 1.0 GEOG credit from Category A
- 0.5 GEOG credit from Category B

The joint-major General program. 15.0 credits including the following 5.0 credits:
- 1.5 GEOG credits consisting of GEOG 1030H, 1040H, and 3100H
- 1.0 GEOG credit from GEOG 2310H, 2320H, 2330H, 2710H, or 2810H
- 1.0 GEOG credit from GEOG 2310H, 2710H, or 2810H
- 0.5 GEOG credit from GEOG 2401H, 2460H, or 2540H
- 0.5 GEOG credit from Category A
- 0.5 GEOG credit from Category B

The minor in Geography consists of the following 5.0 credits:
- 1.0 GEOG credit consisting of GEOG 1030H and 1040H
- 1.0 GEOG credit from GEOG 2310H, 2320H, 2330H, 2710H, or 2810H
- 1.0 GEOG credit from GEOG 2310H, 2710H, or 2810H
- 0.5 GEOG credit from GEOG 2401H, 2460H, or 2540H
- 1.0 GEOG credit from Category A
- 0.5 GEOG credit from Category B
Bachelor of Science Program in Geography

The single-major Honours program. 20.0 credits which includes the following 10.0 credits:
- 2.5 GEOG credits consisting of GEOG 1030H, 1040H, 2080H, 2090H, and 3100H
- 0.5 GEOG credit from GEOG 2310H, 2320H, 2330H, 2710H, or 2810H
- 1.0 GEOG credit from GEOG 2401H, 2460H, or 2540H
- 1.0 GEOG credit from Category A (excluding GEOG 3020H and 4450H)
- 2.5 GEOG credits from Category B
- 1.0 GEOG credit from Category C
- 1.5 GEOG credits in addition to the above
- 14.0 science credits are required for the Honours degree, including 1.0 MATH credit

The joint-major Honours program. 20.0 credits which includes the following 7.0 credits:
- 2.5 GEOG credits consisting of GEOG 1030H, 1040H, 2080H, 2090H, and 3100H
- 0.5 GEOG credit from GEOG 2310H, 2320H, 2330H, 2710H, or 2810H
- 1.0 GEOG credit from GEOG 2401H, 2460H, or 2540H
- 0.5 GEOG credit from Category A (excluding GEOG 3020H and 4450H)
- 2.0 GEOG credits from Category B
- 0.5 GEOG credit from Category C
- 14.0 science credits are required for the Honours degree, including 1.0 MATH credit

The single-major General program. 15.0 credits which includes the following 6.0 credits:
- 2.5 GEOG credits consisting of GEOG 1030H, 1040H, 2080H, 2090H, and 3100H
- 0.5 GEOG credit from GEOG 2310H, 2320H, 2330H, 2710H, or 2810H
- 1.0 GEOG credit from GEOG 2401H, 2460H, or 2540H
- 0.5 GEOG credit from Category A (excluding GEOG 3020H and 4450H)
- 1.5 GEOG credits from Category B
- 11.0 science credits are required for the General degree, including 1.0 MATH credit

The joint-major General program. 15.0 credits which includes the following 5.0 credits:
- 2.5 GEOG credit consisting of GEOG 1030H, 1040H, 2080H, 2090H, and 3100H
- 0.5 GEOG credit from GEOG 2310H, 2320H, 2330H, 2710H, or 2810H
- 1.0 GEOG credit from GEOG 2401H, 2460H, or 2540H
- 0.5 GEOG credit from Category A (excluding GEOG 3020H and 4450H)
- 0.5 GEOG credit from Category B
- 11.0 science credits are required for the General degree, including 1.0 MATH credit

The minor in Geography consists of the following 5.0 credits:
- 2.0 GEOG credits consisting of GEOG 1030H, 1040H, 2080H, and 2090H
- 0.5 GEOG credit from GEOG 2310H, 2320H, 2330H, 2710H, or 2810H
- 1.0 GEOG credit from GEOG 2401H, 2460H, or 2540H
- 0.5 GEOG credit from Category A (excluding GEOG 3020H and 4450H)
- 1.0 GEOG credit from Category B
Please consult the academic timetable for information on courses that will be offered in 2019–2020, including when they will be scheduled.

» GEOG 1030H: Human Geographies in Global Context
Examines the spatial organization of human activity, the significance of places in human life, and people’s relationships with their environments. It includes study of people, their origins, culture, technology, economy, and impact on the environment. Field work.

» GEOG 1040H: Earth’s Physical Processes and Environments (Sc)
An examination of the atmospheric, tectonic, and geomorphic forces that shape Earth’s physical environments. Issues addressed include soil conservation, groundwater resources, and climate change. Field work. Prerequisite for all science courses in Geography. Excludes GEOG 1050H.

» GEOG 1045H: Introduction to the Circumpolar World
Introduces students to the landscape, peoples, and issues of the circumpolar region. Beginning with an examination of the geography, biological, and physical systems of the Subarctic and Arctic, the course then turns to the Indigenous and contemporary peoples of the region.

» GEOG-EGEO 2001H: Earth Materials (Sc) (see Environmental Geoscience)

» GEOG-CAST-ERST-INDG 2040Y: Canada: The Land (ICR) (see Canadian Studies)

» GEOG-BIOL-ERSC 2080H: Natural Science Statistics (Sc)
Covers commonly-used statistical tools in Biology, Geography, and Environmental & Resource Science. Lectures address basic statistical methods and background theory. Workshops involve computer-based assignments providing practical experience in statistical application. Prerequisite: One of GEOG 1030H or 1040H or 1050H; or both ERSC 1010H and 1020H; or both BIOL 1020H and 1030H.

» GEOG-ERSC 2090H: Introduction to Geographical Information Systems (Sc)
Introduces the fundamentals of GIS technology and applications. The essentials of GIS structural components, spatial data models, and the analytical GIS operations on such data models are examined in detail. Experience with GIS analysis is gained through laboratory exercises. Prerequisite: One of GEOG 1030H or 1040H or 1050H; or both ERSC 1010H and 1020H; or both BIOL 1020H and 1030H. Elementary or intermediate-level experience with microcomputers and their operating systems is desirable.

» GEOG-CAST-POST-WMST 2245H: The Social and Political Economy of Contemporary Canadian Immigration (see Canadian Studies)

» GEOG 2310H: Geography of Recreation
Examines the concepts, contexts, and methods for studying recreation geography, including historical and theoretical perspectives on recreation; the demand for recreation; the supply of land, facilities, and services for recreation; and the economic, environmental, and social impacts of recreation and tourism. Prerequisite: GEOG 1030H.

» GEOG-ERST 2320H: Lands and Environments of the Circumpolar North
Explores the lands and environments that define the Circumpolar region and identifies the key issues involving interaction between humans and their environments, examining climate change and its impacts on landscapes, biodiversity, and ecological systems. Provides a broad foundation for the study of circumpolar peoples, economies, landscapes, communities, and adaptation to climate change.

» GEOG-ERST 2330H: Changing Resources of the Circumpolar North
Provides students with an in-depth understanding of the key issues which define the future of resources and resource use in the Circumpolar North. Focuses upon the challenges of resource management for governments and communities, and assesses the potential conflicts derived from resource use. Prerequisite: GEOG 1045H and GEOG-ERST 2320H or permission of the instructor.
» GEOG-ERSC 2401H: Environmental Geology (Sc)
   Environmental geology examines the interactions between society and the geologic environment. This course begins with an introduction to the fundamental geologic processes and Earth materials, and then focuses on the most pressing geological issues of today, including fossil fuel and mineral extraction, natural hazards, climate change, water resources, and waste disposal. Prerequisite: GEOG 1040H. Excludes GEOG 2400Y.

» GEOG 2460H: The Global Climate System (Sc)
   A study of the physical elements of the global climate system. Deals with global and synoptic climatic processes including the structure of the atmosphere, radiation, atmospheric dynamics, general circulation, and the oceans. These concepts are applied to an introduction to the problem of climatic change and its prediction. Prerequisite: GEOG 1040H or both ERSC 1010H and 1020H.

» GEOG-IDST-ANTH-SAFS-SOCI 2500H: The World Food System (see International Development Studies)

» GEOG-ERST 2510H: Qualitative Methods in Geography and Environmental Studies
   Focuses on social science methods used in geographical and environmental research contexts. Methods examined include surveys, content analysis, interviews, focus groups, participatory action research, and community-based research. Prerequisite: ERSC 1010H and 1020H; or minimum of 60% in GEOG 1030H and in one of GEOG 1040H or 1050H.

» GEOG-ERSC 2530H: Water Resources (Sc)
   Uses case studies to examine the principles and processes that control the distribution and uses of water at global, continental, and watershed scales. Prerequisite: GEOG 1040H and one of GEOG 1030H or both ERSC 1010H and 1020H.

» GEOG 2540H: Process Geomorphology (Sc)
   Addresses a selection of sedimentary processes that create a variety of features observed at the surface of the earth. Emphasis is placed upon understanding and quantifying sediment production and transport. This knowledge is then extended to the interpretation of arid, coastal, and fluvial landforms. Prerequisite: GEOG 1040H or both ERSC 1010H and 1020H.

» GEOG-CAST 2710H: Cities: An Introduction to Urban Geography
   In cities, flows of people, money, information, and commodities intersect and are accompanied by economic, political, social, and cultural change. This course examines the transformation of contemporary North American cities by global chains of activity. Prerequisite: GEOG 1030H or SOCI 1002H or both ECON 1010H and 1020H.

» GEOG-CAST 2810H: Canada’s People and Places
   Explores the geography of Canada and its peoples and places. Examines the development of Canada’s cultural landscapes and regions, and the social, economic, and political development of the Canadian nation-state. Canada’s geography is explored as an east-west nation under increasing pressure from globalization and new national agendas. Prerequisite: GEOG 1030H.

» GEOG-CAST 2811H: The International North and the Arctic Council
   Introduces students to the international politics of the circumpolar region and concludes with a unique simulation of the Arctic Council at which students are challenged to develop real-life scenarios and to play the role of diplomatic and reach consensus on difficult areas of Arctic public policy. Prerequisite: GEOG 1045H or permission of the instructor.

» GEOG-EGEO 3002H: Structural Geology (Sc) (see Environmental Geoscience)

» GEOG-EGEO-ERSC 3003H: Field Methods in Environmental Geoscience (Sc) (see Environmental Geoscience)

» GEOG-ERSC 3010H: Fundamentals of Geographical Information Systems Analysis (Sc) (see Environmental & Resource Science/Studies)
» GEOG-ERSC 3020H: Remote Sensing of the Environment (Sc)
Introduces the science, technology, and environmental applications of Remote Sensing of a host of environmental variables whether locally, regionally, continentally, or globally. Knowledge about the manner, process, and timing of data capture, processing, and their interpretation for specific purposes are imperatives in modern environmental assessment and monitoring. Prerequisite: GEOG-ERSC 2090H or permission of instructor.

» GEOG 3100H: The Practice and Profession of Geography (Sc)
Provides an applied understanding of the practice of Geography with an emphasis on the development of local geographical knowledge in Peterborough and the Kawarthas. Prerequisite: 9.0 university credits including GEOG 1030H; one of GEOG 1040H or 1050H; and two of GEOG-BIOL-ERSC 2080H, GEOG-ERSC 2090H, or GEOG-ERST 2510H.

» GEOG 3110H: Foundations of Geographic Thought (Sc)
Examines significant conceptual approaches to the study of geography that have influenced contemporary Western geographic thought and practice. Prerequisite: 9.0 university credits including GEOG 1030H; one of GEOG 1040H or 1050H; and two of GEOG-BIOL-ERSC 2080H, GEOG-ERSC 2090H, or GEOG-ERST 2510H.

» GEOG-ANTH-ERSC 3175H: The Archaeology of Natural Disasters (see Anthropology)

» GEOG-ANTH-ERSC 3185H: The Archaeology of Climate Change (see Anthropology)

» GEOG-INDG 3201H: Indigenous Peoples in Urban Centres—City as Home (see Indigenous Studies)

» GEOG-INDG 3202H: Indigenous Peoples in Urban Centres—Selected Issues and Cities (see Indigenous Studies)

» GEOG-WMST-CAST 3220H: Gender, Society, and Space
Selected themes and topics examining the relationship between gender and spatial organization. Themes include the nature of domestic space; gendered use of public, private, and urban space; and the intersections between gender, sexuality, racism, and cultural difference. Prerequisite: GEOG-CAST 2710H or 2810H; or 1.0 WMST credit at the 2000 level or beyond; or permission of instructor.

» GEOG-CAST 3270H: Canada: Nation, State, and Territory
Explores the establishment of the territorial basis of the modern Canadian state, from the late eighteenth century to modern times, including the impact of climate change on Canada’s Arctic sovereignty. Its focus is upon the establishment of both internal and external borders, maritime spaces, and sub-national regions like Nunavik or Nunavut. Prerequisite: GEOG-CAST 2810H or permission of instructor.

» GEOG-CAST-ERST 3330H: Wilderness Management
An examination of the fundamental concepts of wilderness, including the history, planning, and management of wilderness resources with special reference to parks and protected areas in Canada and across the North. Prerequisite: GEOG 2310H or GEOG-CAST-ERST-INDG 2040Y or both ERST-CAST 2520H and 2525H.

» GEOG-CAST 3370H: Geography of Tourism
A critical perspective is used to explore the geographies of tourism-related industries and workplaces and the social and environmental impacts of tourism in urban and rural settings. Special attention is given to the Canadian experience. Prerequisite: GEOG 2310H.

» GEOG-ERST 3390H: Contemporary Issues of the Circumpolar World
Develops a basic appreciation of the most important contemporary challenges surrounding governance and politics, social issues, education and knowledge systems, and global issues in the circumpolar regions of the North. It explores the complexity and inter-relatedness of governance, social policy, gender, indigeneity, and law.
» **GEOG 3410H: Climate Change: The Physical Basis (Sc)**
Mechanisms and patterns of changes in weather and climate, both natural and anthropogenic. An understanding of the principles of general circulation, global and local energy balance models, and basic meteorological processes is assumed. Prerequisite: GEOG 2460H or 3440H.

» **GEOG 3420H: Snow and Ice (Sc)**
Emphasizes physical and geographical aspects of different ice forms and their implications for human and biological activity. Measurement of snow and ice are studied in practical laboratories. Some field work during the Reading Week is expected. Prerequisite: 9.0 university credits including GEOG-BIOL-ERSC 2080H and one of GEOG 2460H or 3440H, or permission of instructor.

» **GEOG 3440H: Microclimatology (Sc)**
Focuses on the physical mechanisms of flows of energy and mass between the earth surface and the atmosphere. A discussion of the principles of energy exchange is followed by their application to near surface environments. Prerequisite: GEOG-BIOL-ERSC 2080H and one of GEOG 2460H or 2540H. Excludes GEOG 2440H.

» **GEOG 3510H: Glacial and Quaternary Geomorphology (Sc)**
The principles of glaciology. Topics to be covered include glacial landforms and landscapes, particularly those of southern Ontario; quaternary history with illustrations of the principles and uses of radiocarbon dating, isotope ratio analysis, and pollen analysis; and the causes of Ice Ages. Prerequisite: One of GEOG 2401H, 2540H, or 3520H.

» **GEOG 3520H: Large-Scale Geomorphology (Sc)**
An examination of large landforms including continents, oceans, plates, hotspot swells, plateaus and island arcs, and of the processes in the Earth’s interior which generate them. Also examines weathering processes, and the evolution of landscapes and slopes. Lab work emphasizes the principles that link geomorphic processes to landforms. Prerequisite: GEOG 2460H or 2540H. Excludes GEOG 2560H.

» **GEOG 3530H: Hydrology (Sc)**
Study of the movement of water through the environment with emphasis on terrestrial aspects including interception, infiltration, soil moisture, groundwater, surface runoff, and stream-flow, also covering human impact on hydrological processes. Prerequisite: 9.0 university credits including GEOG-BIOL-ERSC 2080H and one of GEOG 2460H, 2540H, or 3440H. Field work.

» **GEOG 3540H: River Environments and Processes (Sc)**
Examines the morphology of rivers and river systems and relationships between process and form. Topics to be covered include erosion, transportation, and deposition of sediments; channel morphology, the drainage basin as a geomorphic unit; and human impact on river morphology. Field work. Prerequisite: GEOG-BIOL-ERSC 2080H and one of GEOG 2401H, 2540H, or 3520H, or permission of instructor.

» **GEOG-ERSC-SAFS 3560H: Soil Science (Sc)**
Soil is at the heart of terrestrial ecosystems. A sound understanding of soil science is necessary for physical geography, environmental science, engineering, and agriculture. This course describes the mechanisms of soil formation and the physical, chemical, and biological properties of soils, as well as current issues in soil science. Prerequisite: 9.0 university credits including one of ERSC 2240H or 2540H. GEOG-ERSC-BIOL 2080H is highly recommended.

» **GEOG 3590H: Sedimentary Processes (Sc)**
An advanced treatment of sedimentary processes that occur in a wide range of environmental contexts inclusive of benthic, coastal, and dryland systems. An emphasis is placed upon field and laboratory techniques for measurement, and on case studies. Prerequisite: One of GEOG 2401H, 2540H, or 3520H, or permission of instructor.

» **GEOG-CAST-POST 3621H: The Critical Space of Law: The Construction of National Identity and the Production of Subjects in Canada (see Canadian Studies)**
GEOG-CAST 3640H: Geography of the Polar Regions (Sc)
Study of selected aspects of the Polar regions with considerable reference to northern Canada but with the deliberate intention of developing comparisons between it and other parts of the Polar regions. Prerequisite: GEOG 1045H; or GEOG 1030H and one of 1040H or 1050H; or permission of instructor.

GEOG-ERSC-SAFS 3650H: Soil Management and Conservation (Sc) (see Environmental & Resource Science/Studies)

GEOG-CAST 3710H: Urban and Regional Planning
Examines the main planning principles which govern the economic, social, and physical development of cities and regions. Topics to be covered include national, provincial, regional, and municipal policies and their impact on urban and rural systems; historical development of planning in North America; and planning as a profession. Prerequisite: GEOG-CAST 2710H.

GEOG-CAST-ERST 3720H: Urban Environments
This interdisciplinary course challenges traditional conceptualizations and representations of Canadian cities as the antithesis of wilderness. Topics include the history of urban development, urban improvements, and urban green spaces; impacts of modernist suburban development on the urban form; rejections of modernist urban planning; and the value of an ecosystem approach to planning for urban sustainability. Prerequisite: GEOG-CAST 2710H or GEOG-CAST-ERST-INDG 2040Y or both ERST-CAST 2520H and 2525H.

GEOG-CAST 3730H: Social Geography
Explores the social structures of contemporary Western cities and communities by examining how social relations, social identities, and social inequalities are produced, and the role of space in constructing them. Geographical perspectives on gender, occupation, ethnicity, age, disability, poverty, health, and sexuality are emphasized. Prerequisite: GEOG-CAST 2710H or 2810H.

GEOG-CAST 3760H: The Rural-Urban Fringe
Studies rural-urban land conflicts occurring in the areas surrounding major cities, the problems arising from these conflicts, and the types of policy required to resolve them. A particular focus is the impact of urbanization on the countryside in Canada. Prerequisite: GEOG-CAST 2710H or SOCi 1002H or both ECON 1010H and 1020H.

GEOG 3790H: Exploring the Practice of Urban Planning
This field course explores the practice of urban planning though experiential learning. During an intensive field work component, students meet urban planning professionals, research site-specific planning projects, and apply the tools and methods of urban planning to a project-based final research report. Prerequisite: GEOG-CAST 3710H or permission of the instructor.

GEOG-CAST 3800H: Regional Economic Geography of Canada
Analysis of how a region grows; regional responses to national economic development; the land use structure of regions; regional planning principles; review of Canadian regional planning policies. Prerequisite: GEOG-CAST 2810H or both ECON 1010H and 1020H.

GEOG-NURS 3820H: Health Geography
Studies the relationships between health, place, and space. Traditional perspectives on the spatial dimensions of diseases, health inequalities, and health care services (“medical geography”) and contemporary place-based perspectives on health, care, and well-being (“health geography”) are examined with specific reference to global trends, vulnerable populations, and (un)healthy environments. Prerequisite: One of GEOG-CAST 2710H or 2810H; or a minimum 60% in all required 1000- and 2000-level NURS courses.
» GEOG 3860H: Field Research in Geography (Sc)
Recommended for all Geography majors. Students learn the skills for writing research proposals and project design, and design and carry out research projects in various geographical specializations. Centres on a mandatory field trip during the Reading Week—a minimum of six days in the field at cost to the student. Prerequisite: 9.0 university credits including GEOG 1030H; one of GEOG 1040H or 1050H; and two of GEOG-ERSC-BIOL 2080H, GEOG-ERSC 2090H, or GEOG-ERST 2510H.

» GEOG 3900Y, 3901H, 3902H, 3903H: Reading Course
Prerequisite: 9.0 university credits and a minimum average of 75% in GEOG courses. Open only to Geography majors or joint majors. Written permission must be obtained from the appropriate instructor and the program coordinator before registration.

» GEOG 3960H: Wealth, Power, and Space
An introduction to major themes in economic geography from a political economy perspective. The main areas of discussion are: theoretical and historical frameworks of the global economy and contemporary geo-economic trends, including the globalization of production processes; the rise of regional and global economic institutions and the uneven economic impact of the world economy as it contributes to economic development processes. Prerequisite: GEOG-CAST 2710H or 2810H. Excludes GEOG 2960H.

» GEOG 4010Y/4020D: Honours Thesis (Sc depending upon topic)
Design, implementation, and dissemination of a major research project in human or physical geography featuring independent work under the supervision of a faculty supervisor. GEOG 4020D is a double credit in Geography. GEOG 4010Y is a single credit because the same thesis is submitted to the other program in a joint-major. Prerequisite: 14.0 university credits and a minimum average of 75%. Students must find a faculty member who is agreeable to supervise their project. Applications are available from the TSE office, and should be submitted in the academic year before enrolment in the course. Excludes GEOG 4030Y, 4400Y, 4700Y, 4830Y.

» GEOG-ERSC 4040H: Hydrochemical Fluxes in the Hydrosphere (Sc)
Monitoring, analysis, and interpretation of hydrochemical fluxes within the hydrological cycle. Topics include measurement, sampling techniques and instrumentation for stream flow; soil water content; organic and inorganic constituents in the unsaturated and saturated zones; atmospheric vapour fluxes; precipitation and snow cover. Prerequisite: 9.0 university credits including GEOG-BIOL-ERSC 2080H and one of GEOG 2460H or 3440H, or permission of instructor.

» GEOG-BIOL-ERSC 4060H: The Geochemistry of Natural Waters (Sc) (see Environmental & Resource Science/Studies)

» GEOG-BIOL-ERSC 4070H: The Fate of Contaminants in the Aquatic Environment (Sc) (see Environmental & Resource Science/Studies)

» GEOG 4080H: Hydrogeology (Sc)
Examines the nature, occurrence, and movement of water in soil and groundwater systems. Physical and chemical aspects of groundwater are addressed, and the use of field techniques and mathematical models in the study of groundwater movement and contamination are emphasized. Prerequisite: 2.0 GEOG Category B credits including GEOG 3530H, or permission of instructor. Strongly recommended: Grade 12U Calculus and Vectors. Excludes GEOG 3550H.

» GEOG 4090H: Geosystems (Sc)
A capstone course for students interested in the environmental earth sciences. Introduces systems analysis, model parameterization, calibration and sensitivity. The wind tunnel is profiled as a hardware model. Students experiment with various forms of models in exploring the effects of disturbance and readjustment within selected geosystems. Prerequisite: GEOG-BIOL-ERSC 2080H and 2.0 GEOG Category B credits. Excludes GEOG 3570H.

» GEOG-IDST 4130H: Global Metropolis (see International Development Studies)
GEOG-ERST 4140H: Climate and Energy Policy (see Environmental & Resource Science/Studies)

GEOG-BIOL-ERSC-SAFS 4270H: Integrated Nutrient Management for Sustainable Agriculture (Sc) (see Sustainable Agriculture & Food Systems)

GEOG-CAST-SAFS 4444H: Rural Community Sustainability
A critical perspective on rural community development in Western developed economies. Examines how rural people, places, and systems respond to social, economic, and environmental change in the twenty-first century. Emphasis on rural and small town Canada. Prerequisite: 14.0 university credits including GEOG-CAST 3760H or permission of the instructor.

GEOG-ERSC 4450H: Spatial Modelling with Geographical Information Systems (Sc)
Focuses on quantitative techniques used in conjunction with Geographical Information Systems (GIS) to model spatial phenomena. There is instruction on spatial, geostatistical, and mathematical techniques and their interface with GIS. Open to graduates of the Fleming GIS program. Prerequisite: GEOG-ERSC 3010H or GIS Applications Specialist Certificate (or equivalent) and basic knowledge of statistics.

GEOG-CAST-POST 4555H: City, Economy, and Society: Urban Restructuring and the Global Economy (see Political Studies)

GEOG-CAST-POST 4621H: The Critical Space of Law: The Construction of National Identity and the Production of Subjects in Canada (see Canadian Studies)

GEOG-ERSC 4640H: Integrated Watershed Management: Approaches and Methods (Sc) (see Environmental & Resource Science/Studies)

GEOG-ERSC-WASC 4703H: Senior Seminar in Earth and Environmental Science (Sc) (see Environmental & Resource Science/Studies)

GEOG 4830Y: Community-Based Research in Geography (Sc)
Design, implementation, and dissemination of a major research project in applied human or physical geography with an emphasis on community-based research. Requires independent or team-based research, either through a placement arranged by the Trent Community Research Centre at the request of a community group, government agency or business, or under the auspices of the Geography Program. Prerequisite: 14.0 university credits including 2.0 GEOG credits from Category A and/or B and a minimum cumulative average of 75%. Open only to students pursuing a single- or joint-major Honours degree in Geography. Excludes GEOG 4010Y, 4020D, 4030Y, 4400Y, 4700Y.

Professor and Chair of the Department
A. Cazorla-Sánchez, BA, PhD (Granada)

Professors
D. Anastakis, BA (Western), MA, PhD (York)
F. Dunaway, BA (North Carolina–Chapel Hill), PhD (Rutgers)
I. Elbl, MA (Charles), MA, PhD (Toronto) (on leave 2019–2020)
J. Hurl-Eamon, BA (Western), MA (Queen’s), PhD (York)
C. Kay, BA (Toronto), MPhil (Oxford), MA, PhD (Yale)
D. M. K. Sheinin, BSc (Toronto), MA, PhD (Connecticut)
R. A. Wright, BA (Trent), MA, PhD (Queen’s)

Associate Professors
O. Andriewsky, BA (Brown), MA, PhD (Harvard)
M. Boulby, BA (Queen’s), MA (London), PhD (Toronto)
C. Durand, BA, MA (Montréal), PhD (McGill) (on leave 2019–2020)
F. Harris-Stoertz, BA (Calgary), MA, PhD (UC Santa Barbara)
J. Miron, BA (McGill), MA, PhD (York)
V. Nguyen-Marshall, BA (Dalhousie), MA, PhD (British Columbia)
K. Siena, BA (SUNY), MA (Rochester), PhD (Toronto)

Assistant Professor
A. Bialuschewski, MA, PhD (Kiel)

Adjunct Faculty
K. Keefer, BA, MA (Trent), PhD (York)
F. Timbers, BA (Trent), MA, PhD (Toronto)

The History Department offers courses on Canadian, American, Latin American, European, Russian, African, Middle Eastern, and Asian history. They explore such themes as women’s history, Aboriginal history, ethnicity, work, culture (both popular and elite), political history (both domestic and international), war, business, heritage, and applied history. The department is committed to small-group learning, effective teacher-student interaction, excellence in research, and creative links to other academic programs and public institutions.
Notes

- Enrolment limits will apply to many courses above the 1000 level. Please refer to the Academic Timetable for more information.
- Departures from any regulations must be authorized by the department through the chair.
- Students who take more than one 1000-level History course are reminded that there is a maximum number of History courses allowable in the degree. Please see p. 14 for more information.
- The Accelerated Master of Arts program in History allows students to obtain a Master’s degree in History within one to two terms less than students in the regular Master’s program. Students apply to the Accelerated Master of Arts program during the spring term which precedes the last year of their undergraduate program in History. The research starts in the fourth year. Upon graduation, students begin the MA program in May or September, just after completion of the undergraduate program. Students who are interested in applying should contact the History graduate program director.

Bachelor of Arts Program in History

- In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).
- The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.
- Students in the single-major or joint-major program in History or those seeking a minor in History must complete at least 0.5 credit from each of the three categories below. Some courses appear in two categories and fulfill two category requirements. Please note that not every course is assigned to a column. It is recommended that students considering a third year abroad satisfy this requirement in the second year of their program.
- One credit from the following Ancient Greek & Roman Studies courses may be counted as a credit in History: AHCL 2520H, 3100H, 3140H, or 3170H (AHCL 3070H, 3101H, 3102H, and 3120H are no longer offered, but also may be counted). Please note that many other AHCL courses are cross-listed and can be taken as History credits.

*no longer offered
The single-major Honours program. 20.0 credits including the following 10.0 credits:
- 1.0 HIST credit at the 1000 level
- 2.0 HIST credits at the 4000 level
- 3.0 HIST credits at the 3000 level or beyond in addition to the above
- 4.0 HIST credits at the 2000 or beyond in addition to the above
- Must include at least 0.5 credit from each of Categories A, B, and C

The joint-major Honours program. 20.0 credits including the following 8.0 credits:
- 1.0 HIST credit at the 1000 level
- 2.0 HIST credits at the 4000 level
- 2.0 HIST credits at the 3000 level or beyond in addition to the above
- 3.0 HIST credits at the 2000 or beyond in addition to the above
- Must include at least 0.5 credit from each of Categories A, B, and C

The single-major General program. 15.0 credits including the following 6.0 credits:
- 1.0 HIST credit at the 1000 level
- 2.0 HIST credits at the 3000 level or beyond
- 3.0 HIST credits at the 2000 or beyond in addition to the above
- Must include at least 0.5 credit from each of Categories A, B, and C

The joint-major General program. 15.0 credits including the following 5.0 credits:
- 1.0 HIST credit at the 1000 level
- 2.0 HIST credits at the 3000 level or beyond
- 2.0 HIST credits at the 2000 or beyond in addition to the above
- Must include at least 0.5 credit from each of Categories A, B, and C

The minor in History consists of the following 5.0 credits:
- 1.0 HIST credit at the 1000 level
- 2.0 HIST credits at the 3000 level or beyond
- 2.0 HIST credits at the 2000 or beyond in addition to the above
- Must include at least 0.5 credit from each of Categories A, B, and C
» HIST 1000Y: Canada
Introductory survey of the history of Canada. The course examines issues in Canada’s social, cultural, political, intellectual, regional, and economic history. Excludes HIST 1001H, 1002H, 1020Y.

» HIST-CAST 1020Y: Modern Canada: Nation and Citizenship
Explores the diverse and competing ideas of nation and citizenship since the colonial period. Topics include political citizenship, ideas of nation within Quebec, interpreting Canadian culture, language and identity, immigration and multiculturalism, Canada within a global economy, youth culture, the welfare state, and the national security state. Excludes HIST 1000Y, 1001H, 1002H. Offered only at Trent University Durham – GTA.

» HIST-AHCL 1100H: War in the Desert (see Ancient Greek & Roman Studies)

» HIST 1201H: Western Civilization from the Middle Ages to 1789
Subjects covered include the Middle Ages, the Renaissance, the Protestant Reformation, and the Enlightenment, among others. Excludes HIST 1200Y.

» HIST 1202H: Western Civilization from 1789 to the Present
Subjects covered include the French Revolution, the Industrial Revolution, the nineteenth-century women’s movement, the Russian Revolution, the world wars, Nazism, the Holocaust, and the Cold War, among others. Excludes HIST 1200Y.

» HIST 1400Y: Going Global: How Everyday Things and Ideas Shaped World History
Moving away from the history of famous men and major wars, this course provides a unique introduction to world history by examining the flow of goods and ideas. The course highlights not only the globalizing trends but also the ordinary people who produced and consumed them, or acted on them. Excludes HIST 1700Y, 1701H, 1702H.

» HIST 1500Y: Ten Days That Shook the World
Terror. An examination of ten events, both “big” and “small,” and how they can be linked to larger social, cultural, political, and economic transformations. Not a chronological survey, the course explores the nature of historical change through a series of case studies while introducing students to the basic methods of historical analysis.

» HIST 1601H: Love, Sex, and Intimacy in History
Love, sex, and intimacy have played an important role in history but are often obscured by the dictates of various prescriptive ideologies, or by the suspicions and stigmas surrounding them. This course addresses the power and various forms of love, sex, and intimacy from the Middle Ages to the present.

» HIST 1701H: World History to 1800
Examines themes in world history before 1800, paying special attention to Asia, Africa, Latin America, and the Middle East. Excludes HIST 1400Y, 1700Y.

» HIST 1702H: World History from 1800 to the Present
Examines themes in world history since 1800, paying special attention to Asia, Africa, Latin America, and the Middle East. Explores the creation of a global division between rich and poor nations. Excludes HIST 1400Y, 1700Y.

» HIST 1901H: Turned On: Technology, Science, and Historical Change
New technologies unleash new powers. Students explore historical moments when scientific or technological developments wrought profound change. Not a survey course, case studies like the printing press, vaccination, automobile, military technologies, and space travel allow students to investigate the mechanics of change at pivotal moments of cultural transformation.
HIST 2011H: The Making of Modernity: Enlightenment Europe
Following upon the successes of the Scientific Revolution, Europe transformed radically during the eighteenth century. This course explores the impact of rapid urbanization, exploding literacy, and the application of science to social issues like gender relations, sexuality, poverty, health care, and race, to chart Europe's development as it raced towards the era of democratic revolution. Prerequisite: 3.0 university credits or permission of the chair.

HIST-CAST 2021H: French Colonialism in Canada, 1500–1763
Provides an introductory survey of French colonialism in North America, from the first French incursions on the continent to the cession of its colonies to Britain in 1763. Prerequisite: 3.0 university credits or permission of the chair. Excludes HIST-CAST 3020Y.

HIST 2041H: The Age of Disasters, 1300–1500
The late medieval world was devastated by overwhelming calamities, including the Little Ice Age, the Black Death and other forms of “pestilence,” famines, economic crises, endless wars, rebellions, breakdown of order, ubiquitous violence, and religious turmoil. The course examines these disastrous developments, as well as the human efforts to cope. Prerequisite: 3.0 university credits or permission of the chair.

HIST-AHCL 2051H: Early Medieval Europe, 300–1050
Medieval Europe from the birth of Christianity and collapse of the Roman Empire in the West through the establishment of “barbarian” kingdoms, survival and transformation of the Eastern Roman Empire, spread of Islam, Carolingian Renaissance, ninth- and tenth-century invasions, and Europe's gradual recovery and reorganization around the year 1000. Prerequisite: 3.0 university credits or permission of the chair. Excludes HIST 2050Y.

HIST 2061H: High Medieval Europe, 1000–1325
Popularly associated with castles, cathedrals, crusades, and valiant knights, this period also saw the rapid development of powerful centralized governments, cities, international trade networks, technological innovation, universities, improved literacy, book production, art and architecture, church reform, social intolerance, and a new focus on the individual and individual emotion. Prerequisite: 3.0 university credits or permission of the chair. Excludes HIST 2050Y.

HIST 2071H: The Renaissance, 1300–1550
Explores the Renaissance both as a period in European history and a cultural development linked to the changes in European economy and society, religious concerns, political culture, learning, and art. Also examines the Renaissance as a perceived watershed in Western history and in the concept of Europe. Prerequisite: 3.0 university credits or permission of the chair. Excludes HIST 2050Y.

HIST 2080Y: The Social History of Europe, 1500–1800
Traces early modern European history, from the Renaissance to the French Revolution, with an emphasis on the different experiences of Europeans based upon their age, gender, class, and religion. Prerequisite: 3.0 university credits or permission of the chair.

HIST 2091H: Childhoods in the West, from the Middle Ages to the Cold War
By exploring shifting concepts and experiences of childhood in history, this course helps students to question some modern-day assumptions of the inherent ‘nature’ of childhood that guide parents, educators, and policymakers. Prerequisite: 3.0 university credits or permission of the chair.

HIST 2101H: War and Society before 1800
Explores how war has shaped and been shaped by society in the period before 1800. Specific case studies are chosen by the instructor. Prerequisite: 3.0 university credits or permission of the chair.

HIST 2102H: War and Society after 1800
Explores how war has shaped and been shaped by society in the period after 1800. Specific case studies are chosen by the instructor. Prerequisite: 3.0 university credits or permission of the chair.
» HIST-AHCL 2103H: Approaches to Classical Historians (see Ancient Greek & Roman Studies)

» HIST 2111H: United States History
Explores the history of the United States from pre-contact and early European settlement in the 1600s to civil war and reconstruction in the second half of the 1800s. Prerequisite: 3.0 university credits or permission of the chair. Excludes HIST 2110H, 2110Y. Not offered regularly.

» HIST 2200Y: Europe from the French Revolution to the Fall of Communism
A study of problems in the development of modern European societies from various perspectives, using a variety of modern and contemporary sources. Prerequisite: 3.0 university credits or permission of the chair. Excludes HIST 2201H.

» HIST-CAST 2211H: Violence and the Project of Canada: From Spectacular Punishment to Genocide, 1600s to 1800s
Seeks to destabilize conventional narratives of pre-twentieth-century Canadian history, which tend to present the region’s history as characterized by peaceful accommodation and “progress.” Instead, it looks at how violence was deeply ingrained in the colonial project of what would become Canada, and profoundly influenced social, political, racialized, class-based, and gender relations. Prerequisite: 3.0 university credits or permission of the chair.

» HIST-CAST-POST 2215H: “Empire Ontario,” 1867–1945 (see Canadian Studies)

» HIST-CAST-POST 2225H: Ontario Since 1945: From “The Common Good” to “Common Sense” (see Canadian Studies)

» HIST-CAST 2235H: The Almost Kingdom: Canada, 1837–1885 (see Canadian Studies)

» HIST-CAST-INDG 2256H: The Histories of Indigenous Peoples in Canada (see Canadian Studies)

» HIST-CAST 2285H: Canada in the 1960s: Irony and Identity (see Canadian Studies)

» HIST-INDG 2306H: Foundations for Indigenous History (ICR) (see Indigenous Studies)

» HIST-INDG 2307H: Colonial Encounters (ICR) (see Indigenous Studies)

» HIST-CAST 2331H: The Making of Canada to 1873
War, politics, and society in Canada from first encounters between Europeans and Indigenous peoples to the period of Confederation. Prerequisite: 3.0 university credits or permission of the chair. Excludes HIST-CAST 2330Y.

» HIST-CAST 2350Y: Canadian History, 1873–Present
An exploration of Canadian history since Confederation. Prerequisite: 3.0 university credits or permission of the chair. Excludes HIST-CAST 2360Y, 2361H. Not offered regularly.

» HIST-CAST 2360Y/2361H: Canadian History Through Murder, Execution, Assassination, and Suicide from Confederation to the War on Terror
Was Louis Riel a traitor who deserved to be executed? Did diplomat Herbert Norman kill himself because of American accusations that he was a Communist? Was the bombing of Air India Flight 182 “Canada’s 9/11”? This course uses such episodes to explore political, social, economic, and cultural changes in Canada. Prerequisite: 3.0 university credits or permission of the chair. Excludes HIST-CAST 2350Y. Students may take only one of HIST-CAST 2360Y or 2361H for credit.

» HIST 2382H: Canada at War in the Twentieth Century
An examination of Canada’s participation in military action during the twentieth century, including World Wars I and II, Korea, and more recent conflicts. Prerequisite: 3.0 university credits or permission of the chair.
» HIST 2391H: Smashers, Rummies, and the State: The Prohibition of Booze in Canada, 1855–1948
Using primary documents and scholarly analyses, this course explores the struggles across Canada between the “Smashers” or prohibitionists, who were rooted in evangelical religion and an early strain of feminism, and the “Rummies,” who fought to preserve a recreational drinking culture and the economic opportunities that it made possible. Prerequisite: 3.0 university credits or permission of the chair.

» HIST-IDST 2401H: The Emergence of Modern Africa Before 1880
A survey of the continent’s history from earliest pre-colonial times to the eve of European colonial conquest, focusing on diversity and change in African societies. Themes include the development of pre-colonial technology and trade, state formation, and Africa’s incorporation in the growing world economy. Prerequisite: 3.0 university credits or permission of the chair.

» HIST-IDST 2402H: The Emergence of Modern Africa Since 1880
A survey of the continent’s history from the colonial conquest of the late nineteenth century to the independent states of the present day. Themes include African resistance to colonial rule, social and economic change, African nationalism and decolonialization, underdevelopment and neo-colonialism, and the search for solutions to poverty and ethnic tensions. Prerequisite: 3.0 university credits or permission of the chair.

» HIST 2421H: Slavery and Freedom
A historical survey of slavery, slave trading, and the contested meanings of freedom in Africa, Brazil, Cuba, the United States, and the Caribbean. We examine revolutions, revolts, being bought and sold, representations of blackness, slave cultures, health, belief systems (Voodoo, Santeria, Obeah), abolition, post-emancipation diasporas, and reparations. Prerequisite: 3.0 university credits or permission of the chair.

» HIST-IDST 2422H: Unchained Africa—Resistance and Survival
Traces the legacies of the heritage which is central to black cultures in the Americas. Those sold from Africa brought skills to replicate communities as well as religious traditions like vodun. Despite savage efforts to erase them, diasporic populations resisted, maintaining their identities despite sustained violence and trauma. Prerequisite: 3.0 university credits or permission of the chair.

» HIST-IDST 2471H: Introduction to Latin America
Topics include Native resistance, colonial domination, slavery, independence, neo-colonialism, nation building, dictatorship, and revolutionary change. Prerequisite: 3.0 university credits or permission of the chair. Excludes HIST-IDST 2470Y.

» HIST 2601H: Public Health and Medicine: Doctors, Nurses, and Patients in History
Medicine is simultaneously scientific and social. What gets defined as a disease? Who heals? Who can access health care? Such questions reveal how political, cultural, and economic forces have shaped medicine throughout history. We explore topics highlighting this interaction between the scientific and the social in a variety of historical contexts. Prerequisite: 2.5 university credits or permission of the chair.

» HIST-PSYC 2621H: History of Psychiatry and Clinical Psychology
Surveys the social, cultural, institutional, and intellectual histories shaping Western world attitudes about the mind and brain, while exploring the histories of madness, mental deficiencies, insanity, and mental health during the period when psychiatry and psychology emerged as formal scientific disciplines. Prerequisite: 3.0 university credits or permission of the chair.

» HIST-WMST-CAST 2711H: Acting Up! Feminism and History in Canada (see Gender & Women’s Studies)
» HIST 2751H: The Rise and Fall of Ancient and Imperial East Asia
Examines the political and social developments of China, Japan, and Korea up to the late nineteenth century. The course begins with the rise of some of East Asia’s most fascinating and powerful empires. The transformation of this region in the mid-nineteenth century coincided with Western encroachment. Prerequisite: 3.0 university credits or permission of the chair.

» HIST 2752H: East Asia in War and Revolution (Nineteenth to Twentieth Centuries)
Examines the political and social developments of China, Japan, and Korea from the late nineteenth century onward. While the course explores how East Asians responded to the challenge of the rising West, it also focuses on the internal dynamics of these societies which resulted in wars and revolutions. Prerequisite: 3.0 university credits or permission of the chair.

» HIST-WMST 2760Y: Women in Britain and Europe
A survey of British/European women’s history from the Middle Ages to the twentieth century. Prerequisite: 3.0 university credits or permission of the chair. Not offered regularly.

» HIST 2801H: Film and History
Explores the intersections between film and history. Prerequisite: 3.0 university credits or permission of the chair. Excludes HIST 2800Y.

» HIST-CUST-ERST 2805H: Green Screen: Film and Environmental History
Considers feature, documentary, animated, and activist films that engage with critical environmental issues. Topics include popular portrayals of animals and endangered species; histories of environmental injustice; the development of environmentalism; the role of storytelling in history, science, and culture; and the challenges of depicting climate change and the Anthropocene. Prerequisite: 3.0 university credits or permission of the chair.

» HIST-CAST-SAFS 2821H: Food in History
Explores how and why foodways have changed in Canada and the Western world between 1492 and the present. It allows students to draw links between global questions and everyday life, gender and politics, and social class and health, while introducing various methods of historical inquiry. Prerequisite: 3.0 university credits or permission of the chair. Excludes HIST-CAST-SAFS 2820Y.

» HIST 2831H: The Politics of Sport in the Modern World
Explores the intersections of sport and politics across different regions and time-periods. Draws on historical and other sources to consider how sports have been used to advance political projects and agendas. Prerequisite: 3.0 university credits or permission of the chair.

» HIST 2832H: Sports Cultures in the Modern World
Uses sport as a prism through which to approach a range of cultural problems over the past century in societies around the world. Prerequisite: 3.0 university credits or permission of the chair.

» HIST-CAST 3010Y/3011H: Everyday History (see Canadian Studies)

» HIST-CAST 3021H: The History of French Canada, 1763–1890
Provides a detailed investigation of the history of French Canada from 1763 to the late nineteenth century. It covers numerous political transformations as well as economic, social, and cultural developments that shaped French-Canadian nationalism and collective identity. Prerequisite: 4.0 university credits or permission of the chair. Excludes HIST-CAST 3020Y.

» HIST-CAST 3022H: French Canada and Quebec Since 1890
Provides a detailed investigation of the history of French Canada and Quebec since 1890. It covers numerous political transformations as well as economic, social, and cultural developments that transformed, modernized, and liberalized French-Canadian nationalism, collective identity, and attitudes. Prerequisite: 4.0 university credits or permission of the chair. Excludes HIST-CAST 3020Y.
HIST-CAST 3061H: Trudeau’s Canada  
Examines the first Trudeau era and its enduring legacy vis-à-vis Canadian politics, culture, and society. Prerequisite: 4.0 university credits or permission of the chair. Excludes HIST-CAST 4061H. Offered only at Trent University Durham – GTA in alternate years.

HIST-CAST 3071H: Public History I  
The art of bringing history to a wider public. This course explores issues of memory, commemoration, heritage preservation and interpretation that face historic sites, museums, heritage societies, and archives in Canada and throughout the world. Excludes HIST-CAST 4071H. Prerequisite: 4.0 university credits or permission of the chair. Not offered regularly.

HIST-CAST 3072H: Public History II  
History in everyday life. Building upon the themes discussed in Public History I, this course explores how history is both viewed and used by the public in such everyday pursuits as tourism, film and television, the Internet, the courts, and popular writing. Prerequisite: 4.0 university credits or permission of the chair. Not offered regularly.

HIST-AHCL 3103H: Ancient Warfare (see Ancient History & Classics)

HIST 3121H: The United States Since 1945  
Explores the cultural, political, and social history of the United States from 1945 to the present. Topics include Cold War culture and the Vietnam War; civil rights, antiwar, and feminist movements; popular culture; and the history of political ideas, from liberalism and radicalism to conservatism and neoliberalism. Prerequisite: 4.0 university credits or permission of the chair. Excludes HIST 3120Y.

HIST-AHCL 3130H: The Augustan Principate and Its Origins, 44 BCE–14 CE (see Ancient Greek & Roman Studies)

HIST 3150Y/3151H: Culture and Politics in the International History of the United States, 1900–1989  
During the twentieth century, the United States emerged as a predominant world power. Course themes include the empire and expansionism; revolutionary struggle in Latin America, Asia, and Africa; ideological confrontation with the Soviet Union and China; and the impact of rapid cultural and social change in the United States on its international positions. Prerequisite: 4.0 university credits or permission of the chair. Excludes HIST 4150Y, 4151H. Students may take only one of HIST 3150Y or 3151H for credit.

HIST-CAST-WMST 3160Y: Canadian Women’s History  
Selected themes in Canadian women’s history from the eighteenth to the twentieth century. Emphasis is placed on class, race, and gender in shaping women’s experiences and on interpretive debates in women’s history. Prerequisite: 4.0 university credits or permission of the chair. Excludes HIST-CAST-WMST 3161H, 3162H, 4160Y. Offered only at Trent University Durham – GTA.

HIST-WMST-CAST 3161H: Colonizing Women: Canada Before the Twentieth Century (see Gender & Women’s Studies)

HIST-WMST-CAST 3162H: Modernizing Women: Twentieth-Century Canada (see Gender & Women’s Studies)

HIST-CAST 3170H: Trump, Trudeau, Trees, Trade and Other Stuff: Contemporary Canada and the United States  
How do we understand our complex and quickly changing twenty-first century world? This course examines contemporary issues in Canada and the United States in historical perspective by utilizing flashpoint issues, individuals, and events to explain longer trends and developments within a continental, cross-border analytical framework. Prerequisite: 4.0 university credits or permission of the chair. Excludes HIST-CAST 4290Y, 4957.

HIST-AHCL 3171H: Alexander the Great and His Age (see Ancient Greek & Roman Studies)
» **HIST-AHCL 3180H: The Late Roman Empire, 305–ca. 600 CE (see Ancient Greek & Roman Studies)**

» **HIST-AHCL-ANTH 3190H: Ancient Anatolia (see Ancient Greek & Roman Studies)**

» **HIST-AHCL-ANTH 3221H: State Religion in Ancient Greece and Rome (see Anthropology)**

» **HIST-AHCL-ANTH 3222H: Mystery Cults and Restricted Rituals in the Ancient Mediterranean (see Anthropology)**

» **HIST 3250Y: The Soviet Experiment**
A history of the Soviet Union from 1917 to 1991. The course examines this history as a series of social, political, economic, and cultural experiments with a focus on the complexities and contradictions of these transformations. Prerequisite: 4.0 university credits or permission of the chair.

» **HIST-AHCL-ANTH 3275H: Cultural Identity and Ancient North Africa (see Anthropology)**

» **HIST 3300Y/3301H: Modern German History, 1815 to the Present**
The political, social, economic, and cultural history of the modern German nation, with special emphasis on the eras of Wilhelmine Germany, the Weimar Republic, and the Third Reich. Prerequisite: 4.0 university credits or permission of the chair. Students may take only one of HIST 3300Y or 3301H for credit.

» **HIST 3310Y: The Nazi Holocaust and Modern Culture**
Examines the Nazi program of mass-murder in the context of earlier and later genocides, with particular emphasis on questions of agency and complicity. Topics include Nazi eugenics and race policy, the culture of the concentration camps, the role of ordinary Germans, resistance, and the Holocaust in popular culture. Prerequisite: 4.0 university credits or permission of the chair. Excludes HIST 4310Y. Offered only at Trent University Durham – GTA in alternate years.

» **HIST 3320H: A History of Comparative Genocide**
A history of comparative genocide that addresses the U.N. definition of genocide. The case studies include the examples of the Cambodian, Rwandan, Armenian, Bosnian, and Ukrainian genocides; we study the historical conditions that led to genocide in each case, the actions of the perpetrators, and the suffering of ordinary peoples. Prerequisite: 4.0 university credits or permission of the chair.

» **HIST 3330H: Japan, Pearl Harbor, and the Asia-Pacific War**
Why did Japan bomb Pearl Harbor and provoke the Pacific War? In order to answer this question and examine the impact of the war, this course traces the history of Japan’s imperialism and militarization, which led to war with Russia, China, and ultimately the United States. Prerequisite: 4.0 university credits or permission of the chair.

» **HIST-WMST 3333H: Women Warriors and Heroic Mothers: Women and War in East Asia**
Examines women’s wartime and postwar lives in China, Korea, Japan, and Vietnam. While concerned with wars’ brutal impacts, it also considers women’s agency and roles. The course also explores how the intersections of gender, sexuality, race, and class shaped women’s wartime experiences. Prerequisite: 4.0 university credits or permission of the chair.

» **HIST 3351H: World War I**
Examines the First World War from a global perspective. Through assigned readings, written assignments, and online discussions, students examine topics ranging from military operations in all the major theatres to studies of the war’s impact on the European and North American home fronts. Prerequisite: 4.0 university credits or permission of the chair. Excludes HIST 3350Y, 4370Y.
HIST 3355H: The Spanish Civil War
The Spanish Civil War (1936–1939) remains one of the most controversial and disputed conflicts in history. Was the Spanish Republic fighting for democracy against a tide of fascism that would soon swamp Europe? Did Franco save Spain from Stalinist communism? This class tackles these and other questions. Prerequisite: 4.0 university credits or permission of the chair.

HIST 3360Y: Era of the Second World War
Political, military, social, economic, and cultural aspects of the war. Prerequisite: 4.0 university credits or permission of the chair. Excludes HIST 3361H, 4360Y. Not offered regularly.

HIST 3361H: World War II
During the Second World War there were significant developments in military tactics and technology, but also in societal norms, ideology, and morality. This intensive course provides a detailed chronological-thematic overview of some of this conflict’s most important themes, controversies, and historical debates. Prerequisite: 4.0 university credits or permission of the chair. Excludes HIST 3360Y, 4360Y.

HIST 3381H: Espionage and National Security in North America
Examines the North American national-security state from the Cold War to the present, including domestic and foreign intelligence-gathering, state-sponsored espionage, surveillance, covert action and torture, propaganda, education, academic and medical research, dissidence and other subversive practices, and human rights. Prerequisite: 4.0 university credits or permission of the chair. Excludes HIST 4381H. Offered only at Trent University Durham – GTA in alternate years.

HIST-ADMN-CAST 3390H: Creating Modern Capitalism: Cases in Global and Canadian Perspective
Capitalism and globalization shape our world in profound ways. Utilizing a “glocal” approach that combines global and Canadian cases within a transnational context, this course seeks to interrogate and understand the evolution and development of modern capitalism and globalization from the late nineteenth century into the early twenty-first. Prerequisite: 4.0 university credits or permission of the chair. Excludes HIST 3080Y, 3081H.

HIST-IDST 3401H: Southern Africa in the Nineteenth Century
An examination of major issues, including the gradual British colonial conquest of the Xhosa people in the Cape, the Boer trek into the interior, African military resistance to colonial expansion, and the impact of mineral discoveries. Prerequisite: 4.0 university credits or permission of the chair. Offered in alternate years.

HIST-IDST 3402H: Southern Africa in the Twentieth Century
Themes include the Union of South Africa in 1910, the development of African nationalism and trade unions, the rise of the Apartheid state from 1948, wars of liberation in Angola and Mozambique, the Rhodesian crisis, South Africa’s campaign to destabilize the Frontline States in the 1980s, and post-Apartheid issues. Prerequisite: 4.0 university credits or permission of the chair. Offered in alternate years.

HIST 3480Y/3481H: Cuban–Canadian–US Relations
Explores Canadian and American relations with the Republic of Cuba from the era of the Spanish-American war to the present. Special emphasis is given to the Castro era, and to the divergent North American attitudes and policies toward the Cuban revolution. Prerequisite: 4.0 university credits or permission of the chair. Excludes HIST 3954, 4480Y, 4481H, 4952. Students may take only one of HIST 3480Y or 3481H for credit. Offered only at Trent University Durham – GTA.

HIST-FREN 3506H: La civilisation française I / French Civilization I (see French & Francophone Studies)

HIST-FREN 3507H: La civilisation française II / French Civilization II (see French & Francophone Studies)
» **HIST 3550H: Medieval Warfare**  
An examination of developments in warfare during the European Middle Ages (300–1500 CE). Prerequisite: 4.0 university credits or permission of the chair. Excludes HIST 3551Y, 4510Y, 4511H.

» **HIST 3560Y: The Family in England, 1500–1900**  
A social history of the changes in family life in England wrought by the Reformation, the Renaissance, civil war, the Enlightenment, and industrialization. While focusing upon plebeian families, it considers broad legal and social trends that affected all families and all members of the English household, including extended family, servants, and apprentices. Prerequisite: 4.0 university credits or permission of the chair. Excludes HIST 3953Y (2005-2006), 4560Y, 4959Y (2005-2006). Offered only at Trent University Durham – GTA in alternate years.

» **HIST 3565H: Everyday Life of Common Soldiers in the Napoleonic Wars**  
A look at the recruitment, camp, and battlefield adventures of men in the ranks of the British Army from 1803 to 1815. The course encourages students to think about creative ways to understand the daily lives of soldiers through simulated experiential learning. Prerequisite: 4.0 university credits or permission of the chair. Excludes HIST 4565H.

» **HIST 3580Y: Witchcraft and Magic in the Western World**  
Explores the phenomenon of witchcraft in early modern Europe and New England (1450–1750) in the context of family and community structures, religious beliefs, the legal system, health care, and dissemination of ideas, including the social-anthropological role of accusations and philosophies, and ideologies facilitating belief in witchcraft and its censure. Prerequisite: 4.0 university credits or permission of the chair. Excludes HIST 4580Y. Not offered regularly.

» **HIST 3600Y/3601H: The Age of Explorations, 1300–1650**  
Examines the changing place of world's oceans in European outlook, from fear-inspiring barriers to eagerly explored and hotly contested highways that enabled the personal fortunes and disasters, establishment of European seaborne empires, and exchanges of goods, germs, ideas, and to the often involuntary mixing of cultures. Prerequisite: 4.0 university credits or permission of the chair. Students may take only one of HIST 3600Y or 3601H for credit.

» **HIST 3650Y/3641H: The History of the Modern Middle East**  
A survey of the modern Middle East from nineteenth-century Ottoman rule to the present day. Prerequisite: 4.0 university credits or permission of the chair. Students may take only one of HIST 3650Y or 3641H for credit. Excludes HIST 3952Y (2004–2005).

» **HIST 3651H: Topics in the History of the Middle East**  
An advanced seminar course on select aspects of the history of the Middle East. Specific topics are determined yearly. Prerequisite: 4.0 university credits or permission of the chair. Excludes HIST 4650Y, 4651H.

» **HIST 3661H: The Roma People: From India to Canada, Fifteenth Century to Present**  
The figure of the gypsy/Roma has been both romanticized and denigrated. This course examines the cultural construction of gypsies/Roma from their first appearance in Europe in the fifteenth century until today. We focus on the cultural and political beliefs that have contributed to the formation of group identity. Prerequisite: 4.0 university credits or permission of the Chair. Excludes HIST 4661H.

» **HIST 3700Y: The Vietnam War (ca. 1950–1975)**  
Examines the social and political dimensions of the Vietnam War from the perspective of Vietnam. While the main focus is on the war’s impact on Vietnamese society, attention is also paid to the roles played by the US, the Communist Bloc, and the Cold War. Prerequisite: 4.0 university credits or permission of the chair. Excludes HIST 4700Y. Offered only at Trent University Durham – GTA.
» **HIST-FRSC 3711H: The History of Incarceration**
Explores the history of incarceration from the late 1700s to the modern day, focusing on the rise of institutions designed to segregate those labelled sick, deviant, or in need of reform. Through secondary and primary literature, incarceration is studied from the perspective of authorities, the public, and inmates. Prerequisite: 4.0 university credits or permission of the chair.

» **HIST 3730H: The History of the Future**
Explores the centuries-old obsession among Western elites with the political, technological, and social future of humankind. Special emphasis on anti-capitalist and eco-doom dystopians including Thomas Malthus, Karl Marx, and Paul Ehrlich. Prerequisite: 4.0 university credits or permission of the chair. Excludes HIST 4730H. Offered only at Trent University Durham – GTA.

» **HIST-FRSC 3751Y: The History of Crime in England**
A social history of crime between 1500 and 1900, from the perspective of the prosecutors and the courts as well as that of the criminals. Topics include witchcraft, sodomy, murder, theft, rape, and prostitution. Prerequisite: 4.0 university credits or permission of the chair. Excludes HIST 3850Y, 4751Y, 4850Y. Offered only at Trent University Durham – GTA in alternate years.

» **HIST 3755Y/3759H: The Early Modern Atlantic World**
Encompasses developments from the beginning of European settlement in the New World to the pre-revolutionary period in the mid-eighteenth century. Topics include the destruction and reconfiguration of indigenous societies, cross-cultural relations, European transatlantic migrations, the slave trade, and overseas trade, as well as war and conflict in colonial empires. Prerequisite: 4.0 university credits or permission of the chair. Students may take only one of HIST 3755Y or 3759H for credit.

» **HIST-ERST 3756H: The Environmental Crisis: From the Atomic Bomb to Global Warming**
A historical perspective on contemporary environmental problems, both within North America and around the globe. Topics include the impact of environmental thought; toxic threats to human health; landscape photography and media depictions of the environment; the rise of international environmentalism; and the current politics of global warming. Prerequisite: 4.0 university credits or permission of the chair. Excludes HIST-ERST 3956H.

» **HIST-CAST 3758H: History of Western Canada (see Canadian Studies)**

» **HIST-CAST-POST 3785H: Canada in the 1980s: Culture and Conflict (see Canadian Studies)**

» **HIST 3790H: Opium and the Making of the Modern World**
Opium consumption, trade, and prohibition have shaped the modern world. As a medical panacea and a social problem, opium has brought relief but also suffering to individuals and society. On a global scale, it has played a critical role in the spread of imperialism, capitalism, and war. Prerequisite: 4.0 university credits or permission of the chair.

» **HIST 3810H: Early Modern Europe**
Selected social, economic, institutional, intellectual, and cultural features of early modern Europe (ca.1500–ca.1800), with special emphasis on popular culture, including such themes as gender relations, sexuality, popular religion, riots, literacy, crime, and popular politics. Prerequisite: 4.0 university credits or permission of the chair. Excludes HIST 3800Y.

» **HIST 3820Y/3821H: Community-Based Research Project**
Students are placed in research projects with community organizations in the Peterborough or Haliburton area. Each placement is supervised jointly by a faculty member and a representative of a community organization. For details see Community-Based Research Program. Prerequisite: 10.0 university credits and a minimum 75% cumulative average. Students may take only one of HIST 3820Y or 3821H for credit. Excludes HIST 4820Y, 4821H.
» **HIST 3900Y, 3901H: Reading Course**  
Individual courses designed to provide opportunities for more intensive study of particular topics in areas of history offered by the department. Open to undergraduates in the third year of the History program. Permission from relevant instructors and departmental approval is essential before registering. Regular consultation during the year. Prerequisite: 4.0 university credits or permission of the chair.

» **HIST-CAST-INDG 4000Y/4001H: Research Seminar in Indigenous History (see Canadian Studies)**

» **HIST 4010Y/4020D: Honours Thesis**  
HIST 4020D is a double-credit research project leading to a thesis of about 15,000 words. HIST 4010Y is a single credit because the same thesis is submitted to the other department/program in a joint-major. Arrangements to be made through the chair of the department. The department deadline for a thesis abstract and bibliography (signed by the thesis supervisor) is May 1 of the student’s third year. See [trentu.ca/history](http://trentu.ca/history) for details. Prerequisite: 4.0 HIST credits.

» **HIST 4050Y: Topics in Medieval History**  
Current topic: Medieval Invention. Explores a variety of medieval innovations and their impact including castle and cathedral architecture, armour and weaponry, tournaments, food and drink, clothing and cloth-making, time-keeping, health and sanitation, water power, education, sainthood, printing, and more. Students have the option to recreate a medieval invention for credit. Prerequisite: 4.0 HIST credits or permission of the chair.

» **HIST-CAST 4061H: Trudeau’s Canada**  
Examines the first Trudeau era and its enduring legacy vis-à-vis Canadian politics, culture, and society. Prerequisite: 4.0 HIST or CAST credits or permission of the chair. Excludes HIST-CAST 3061H. Offered only at Trent University Durham – GTA in alternate years.

» **HIST-CAST 4071H: Public History I**  
The art of bringing history to a wider public. Explores issues of memory, commemoration, heritage preservation, and interpretation that face historic sites, museums, heritage societies, and archives in Canada and throughout the world. Prerequisite: 4.0 HIST or CAST credits or permission of the chair. Excludes HIST-CAST 3071H. Not offered regularly.

» **HIST-CUST 4090Y: American Visual Culture**  
A study of visual images in relation to broad themes in United States history. Topics include landscape painting and frontier expansion; documentary photography and political reform; mass media portrayals of feminism, civil rights, and other social movements; debates over monuments and memorials; Hollywood film; and the history of modern art. Prerequisite: 4.0 HIST credits or permission of the chair. Excludes HIST 4958Y.

» **HIST-CAST 4100Y: Topics in Canadian History**  
Topic will be announced on the department website. Prerequisite: 4.0 HIST or CAST credits or permission of the chair.

» **HIST 4150Y/4151H: Culture and Politics in the International History of the United States, 1900–1989**  
During the twentieth century, the United States emerged as a predominant world power. Course themes include the empire and expansionism; revolutionary struggle in Latin America, Asia, and Africa; ideological confrontation with the Soviet Union and China; and the impact of rapid cultural and social change in the United States on its international positions. Prerequisite: 4.0 HIST credits or permission of the chair. Excludes HIST 3150Y, 3151H, 3952H (2004WI). Students may take only one of HIST 4150Y or 4151H for credit. Not offered regularly.
» **HIST-CAST-WMST 4160Y: Canadian Women's History**  
Selected themes in Canadian women's history from the eighteenth to the twentieth century. Emphasis is placed on class, race, and gender in shaping women's experiences and on interpretive debates in women's history. Prerequisite: 4.0 HIST or CAST or WMST credits or permission of the chair. Excludes HIST-CAST-WMST 3160Y, 3161H, 3162H. Offered only at Trent University Durham – GTA.

» **HIST-CAST 4200Y: Canadian Images (see Canadian Studies)**

» **HIST 4300Y: Topics in Modern German History**  
Addresses the history of Nazism, including the aims and ideas of Hitler, Himmler, and Goebbels; youth and women in the Third Reich; ordinary Germans who cooperated with the Nazi state; Hitler's popularity; the chaotic Nazi political system; the terror of the SS; Nazi racial policies attacking Jews, Roma, the disabled, and gay men; the Second World War, the Holocaust; and the violent end in 1945. Prerequisite: 4.0 HIST credits or permission of the chair. Not offered regularly.

» **HIST 4310Y: The Holocaust**  
Seminar on the Holocaust and its victims, perpetrators, and bystanders. Topics include Nazi eugenics and race policy, the death camps, the SS and Nazi police battalions in Eastern Europe, the role of ordinary Germans, resistance, and the Holocaust in popular culture. Prerequisite: 4.0 HIST credits or permission of the chair. Excludes HIST 3310Y.

» **HIST 4360Y: Era of the Second World War**  
An examination of the Second World War era, 1939–45, with an emphasis on the military and cultural aspects of this global conflict, including its diplomatic origins, the impact of economic mobilization on the home fronts, the consequences of strategic bombing, and military operations in all the major theatres. Prerequisite: 4.0 HIST credits or permission of the chair. Excludes HIST 3360Y, 3361H, 4902Y. Not offered regularly.

» **HIST 4381H: Espionage and National Security in North America**  
Examines the North American national-security state from the Cold War to the present, including domestic and foreign intelligence-gathering, state-sponsored espionage, surveillance, covert action and torture, propaganda, education, academic and medical research, dissidence and other subversive practices, and human rights. Prerequisite: 4.0 HIST credits or permission of the chair. Excludes HIST 3381H. Offered only at Trent University Durham – GTA in alternate years.

» **HIST-INDG 4461H: Revolution, Subversion, and Power in Indigenous Latin America**  
Counters erasures of Indigenous Latin America from Mexico to Chile by focusing on indigenous resistance, revolution, integration, and subversion. Prerequisite: 4.0 HIST or INDG credits, or permission of the chair.

» **HIST 4470Y: Topics in Latin American History**  
Topic will be announced on the department website. Prerequisite: 4.0 HIST credits or permission of the chair. Not offered regularly.

» **HIST 4480Y/4481H: Cuban–Canadian–US Relations**  
Explores Canadian and American relations with the Republic of Cuba from the era of the Spanish-American war to the present. Special emphasis is given to the Castro era, and to the divergent North American attitudes and policies toward the Cuban revolution. Prerequisite: 4.0 HIST credits or permission of the chair. Excludes HIST 3480Y, 3481H, 3954, 4952. Students may take only one of HIST 4480Y or 4481H for credit. Offered only at Trent University Durham – GTA in summer.

» **HIST 4500Y: Renaissance Lives, 1350–1600**  
Examines the lives of individuals and families, both famous and ordinary, striving to make their way in the turbulence of the Renaissance period, shaped both by remarkable human achievements and creativity and by never-ending turmoil caused by climate change, epidemics, economic problems, wars, social conflicts, and religious crises. Prerequisite: 4.0 HIST credits or permission of the chair.
» **HIST 4510Y/4511H: Medieval Warfare**  
Themes in the history of warfare during the Middle Ages, including knights, chivalry, infantry, archers, guns, fortifications, siege warfare, logistics, tactics, and gender. Prerequisite: 4.0 HIST credits or permission of the chair. Excludes 3551Y, 3550H, 4050Y (2010–2011). Students may take only one of HIST 4510Y or 4511H for credit. Not offered regularly.

» **HIST 4550Y/4551H: Topics in the History of Early Modern Europe**  
Current topic: Medicine and Society in Europe, 1500–1800. Select aspects of the history of health, healing, and early modern culture. Prerequisite: 4.0 HIST credits or permission of the chair. Students may take only one of HIST 4550Y or 4551H for credit.

» **HIST 4560Y: The Family in England, 1500–1900**  
A social history of the changes in family life in England wrought by the Reformation, the Renaissance, civil war, the Enlightenment, and industrialization. While focusing upon plebeian families, it considers broad legal and social trends that affected all families and all members of the English household, including extended family, servants, and apprentices. Prerequisite: 4.0 HIST credits or permission of the chair. Excludes HIST 3560Y, 3953Y (2005–2006), 4959Y (2005-2006). Offered in alternate years.

» **HIST 4565H: Everyday Life of Common Soldiers in the Napoleonic Wars**  
A look at the recruitment, camp, and battlefield adventures of men in the ranks of the British Army from 1803 to 1815. The course encourages students to think about creative ways to understand the daily lives of soldiers through simulated experiential learning. Prerequisite: 4.0 HIST credits or permission of the chair. Excludes HIST 3565H.

» **HIST 4580Y: Witchcraft and Magic in the Western World**  
Explores the phenomenon of witchcraft in early modern Europe and New England (1450–1750) in the context of family and community structures, religious beliefs, the legal system, health care, and the dissemination of ideas, including the social-anthropological role of accusations and philosophies, and ideologies facilitating belief in witchcraft and its censure. Prerequisite: 4.0 HIST credits or permission of the chair. Excludes HIST 3580Y.

» **HIST 4600Y/4601H: Topics in Russian and East European History**  
Focuses on the Soviet dimension of the Second World War, beginning with 1939 and the signing of the Hitler-Stalin pact. Specifically, we explore three broad themes: Stalin’s wartime leadership, the performance of the Soviet military, and the experience of “ordinary people”. We consider the nature of historical explanation by looking at the scholarship that has emerged since the late 1980s. Prerequisite: 4.0 HIST credits or permission of the chair. Students may take only one of HIST 4600Y or 4601H for credit.

» **HIST 4650Y/4651H: Topics in the History of the Middle East**  
An advanced seminar course on select aspects of the history of the Middle East. Current topic: Islam and terrorism. Prerequisite: 4.0 HIST credits or permission of the chair. Excludes HIST 3651H, 4958Y (2004–2005). Students may take only one of HIST 4650Y or 4651H for credit.

» **HIST 4661H: Gypsies and Roma: From India to Canada, Fifteenth Century to Present**  
The figure of the gypsy/Roma has been both romanticized and denigrated. This course examines the cultural construction of gypsies/Roma from their first appearance in Europe in the fifteenth century until today. We focus on the cultural and political beliefs that have contributed to the formation of group identity. Prerequisite: 4.0 HIST credits or permission of the Chair. Excludes HIST 3661H.

» **HIST-CAST-ERST 4670H: Environmental History (see Environmental & Resource Science/Studies)**
Examines the social and political dimensions of the Vietnam War from the perspective of Vietnam. While the main focus is on the war's impact on Vietnamese society, attention is paid to the roles played by the US, the Communist Bloc, and the Cold War. Prerequisite: 4.0 HIST credits or permission of the chair. Excludes HIST 3700Y.

» HIST-WMST 4711H: Women and War in Modern Vietnam
Women played a major role in Vietnamese history, particularly in the wars that plagued Vietnam in the twentieth century. This course examines the contributions women made to the First Indochina War against French colonial rule as well as the subsequent Vietnam War, involving the United States. Prerequisite: 4.0 HIST or WMST credits, or permission of the chair. Not offered regularly.

» HIST 4730H: The History of the Future
Explores the centuries-old obsession among Western elites with the political, technological, and social future of humankind. Special emphasis on anti-capitalist and eco-doom dystopians including Thomas Malthus, Karl Marx, and Paul Ehrlich. Prerequisite: 4.0 HIST credits or permission of the chair. Excludes HIST 3730H. Offered only at Trent University Durham – GTA.

» HIST-FRSC 4751Y: The History of Crime in England
A social history of crime between 1500 and 1900, from the perspective of the prosecutors and the courts as well as that of the criminals. Topics include witchcraft, sodomy, murder, theft, rape, and prostitution. Prerequisite: 4.0 HIST credits or permission of the chair. Excludes HIST 3751Y, 3850Y, 4850Y, 4953Y. Offered in alternate years.

» HIST 4755Y/4757H: Early Modern Piracy
Examines two hundred years of maritime depredations from the first raid of a Spanish treasure fleet in 1523 to the suppression of piracy in 1726. It addresses social, economic, political, and cultural aspects of piracy, the underlying conditions, and the representations of this popular historical theme in the media. Prerequisite: 4.0 HIST credits permission of the chair. Excludes HIST 4951Y. Students may take only one of HIST 4755Y or 4757H for credit.

» HIST-CAST-POST 4772H: Canadian Social Policy 1951–2014 (see Canadian Studies)

» HIST 4800Y: History of Madness
Explores madness in the West from the seventeenth century to the present, seeking to understand how mental illness has been constructed by the medical profession and society, and by those labelled mad. Social and cultural issues are approached through sources including patient narratives, asylum records, and film. Prerequisite: 4.0 HIST credits or permission of the chair. Excludes HIST 4907Y.

» HIST 4820Y/4821H: Community-Based Research Project
Students are placed in research projects with community organizations in the Peterborough or Haliburton area. Each placement is supervised jointly by a faculty member and a representative of a community organization. For details see Community-Based Research Program. Prerequisite: 14.0 university credits and a minimum 75% cumulative average. Students may take only one of HIST 4820Y or 4821H for credit. Excludes HIST 3820Y, 3821H.

» HIST 4900Y, 4901H: Reading Course
Individual courses designed to provide opportunities for more intensive study of particular topics in areas of history offered by the department. Open to undergraduates in the fourth year of the Honours program in History. Permission from relevant instructors and departmental approval is essential before registering. Regular consultation during the year. Prerequisite: 4.0 HIST credits.

» HIST-CAST 4960Y: Ordinary (Canadian) Lives: Autobiography, Orality, and Local History (see Canadian Studies)

» HIST-CAST 4970Y/4971H: Canada Since 1945 (see Canadian Studies)

Indigenous Environmental Studies & Sciences at Trent University is an innovative and multidisciplinary program offered jointly by the School of the Environment and the Chanie Wenjack School for Indigenous Studies. It brings together principles of both Indigenous knowledge and Western science. Instruction integrating these approaches will provide students with the necessary knowledge and skills, including both critical and integrative thinking abilities, to begin to address the complex environmental problems facing Indigenous communities, governments, business, industry, research, and society in general. The foundation upon which the program is based recognizes both the strengths and limitations of any single perspective, and seeks to develop interactive and integrative thinking to address environmental, health, and social issues. Learning and problem-solving are focused on benefiting both Indigenous and non-Indigenous communities.

Notes

• Students who have earned the Diploma in the Indigenous Environmental Studies & Sciences Program may apply for admission to the BA or BSc degrees. Credits earned in the Diploma program are transferable to the BA and BSc degrees.

• Indigenous students seeking admission to this or other University programs should contact the Aboriginal enrolment advisor in the First Peoples House of Learning to inquire about getting special assistance with the admission process.

• There is no option to pursue a joint-major in Indigenous Environmental Studies & Sciences and Indigenous Studies or a joint-major in Indigenous Environmental Studies & Sciences and Environmental & Resource Science/Studies.
Bachelor of Arts Program in Indigenous Environmental Studies

- In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).
- IESS 3634H, IESS 4630H, INDG 4050H, and an Indigenous language course are recommended for the degree.

The single-major Honours program. 20.0 credits including the following 10.5 credits:
- 5.5 IESS credits consisting of IESS 1001H, 2601Y, 3631H, 3632H, 3730Y, 4730Y, and 4740Y
- 1.0 ERSC credit consisting of ERSC 1010H and 1020H
- 2.0 INDG credits consisting of INDG 1001H and 1002H (or 1000Y) and 3813Y
- 0.5 credit from BIOL-ERSC 2260H, ERSC 2240H, or ERSC-BIOL 2701H
- 1.0 ERST and/or ERSC credit at the 3000 level or beyond in addition to the above
- 0.5 ERST, ERSC, or INDG credit in addition to the above

The joint-major Honours program. 20.0 credits including the following 7.0 credits:
- 1.5 IESS credits consisting of IESS 1001H and 2601Y
- 1.0 IESS credit from IESS 3631H and 3632H or 3730Y
- 1.0 IESS credit from IESS 4730Y or 4740Y
- 1.0 ERSC credit consisting of ERSC 1010H and 1020H
- 1.0 INDG credit consisting of INDG 1001H and 1002H (or 1000Y)
- 0.5 BIOL or ERSC credit from BIOL-ERSC 2260H, ERSC 2240H, or ERSC-BIOL 2701H
- 1.0 ERST, ERSC, or INDG credit at the 3000 level or beyond in addition to the above

The single-major General program. 15.0 credits including the following 7.5 credits:
- 1.5 IESS credits consisting of IESS 1001H and 2601Y
- 1.0 IESS credit from IESS 3631H and 3632H or 3730Y
- 1.0 IESS credit from IESS 4730Y or 4740Y
- 1.0 ERSC credit consisting of ERSC 1010H and 1020H
- 1.0 INDG credit consisting of INDG 1001H and 1002H (or 1000Y)
- 0.5 BIOL or ERSC credit from BIOL-ERSC 2260H, ERSC 2240H, or ERSC-BIOL 2701H
- 1.0 ERST, ERSC, or INDG credit at the 3000 level or beyond in addition to the above
- 0.5 ERST, ERSC, or INDG credit in addition to the above

The joint-major General program. 15.0 credits including the following 6.0 credits:
- 1.5 IESS credits consisting of IESS 1001H and 2601Y
- 1.0 IESS credit from IESS 3631H and 3632H or 3730Y
- 1.0 ERSC credit consisting of ERSC 1010H and 1020H
- 1.0 INDG credit consisting of INDG 1001H and 1002H (or 1000Y)
- 0.5 BIOL or ERSC credit from BIOL-ERSC 2260H, ERSC 2240H, or ERSC-BIOL 2701H
- 1.0 ERST, ERSC, or INDG credit at the 3000 level or beyond in addition to the above
Bachelor of Science Program in Indigenous Environmental Science

- In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).
- IESS 3634H, IESS 4630H, INDG 4050H, and an Indigenous language course are recommended for the degree.

The single-major Honours program. 20.0 credits including the following 10.5 credits:
- 5.5 IESS credits consisting of IESS 1001H, 2601Y, 3631H, 3632H, 3730Y, 4730Y, and 4740Y
- 1.0 ERSC credit consisting of ERSC 1010H and 1020H
- 1.0 INDG credit consisting of INDG 1001H and 1002H (or 1000Y)
- 2.0 credits from ERSC 2220H, ERSC 2230H, ERSC 2240H, BIOL-ERSC 2260H, or GEOG-BIOL-ERSC 2080H
- 1.0 ERSC credit at the 3000 level or beyond in addition to the above
- 14.0 science credits are required for the Honours degree, including 1.0 MATH credit

The joint-major Honours program. 20.0 credits including the following 7.5 credits:
- 4.5 IESS credits consisting of IESS 1001H, 2601Y, 3631H, 3632H, 3730Y, and 4740Y
- 1.0 ERSC credit consisting of ERSC 1010H and 1020H
- 1.0 INDG credit consisting of INDG 1001H and 1002H (or 1000Y)
- 1.0 credit from ERSC 2220H, ERSC 2230H, ERSC 2240H, or BIOL-ERSC 2260H
- 14.0 science credits are required for the Honours degree, including 1.0 MATH credit

The single-major General program. 15.0 credits including the following 7.5 credits:
- 4.5 IESS credits consisting of IESS 1001H, 2601Y, 3631H, 3632H, 3730Y, and 4740Y
- 1.0 ERSC credit consisting of ERSC 1010H and 1020H
- 1.0 INDG credit consisting of INDG 1001H and 1002H (or 1000Y)
- 1.0 credit from ERSC 2220H, ERSC 2230H, ERSC 2240H, BIOL-ERSC 2260H, or GEOG-BIOL-ERSC 2080H
- 11.0 science credits are required for the General degree, including 1.0 MATH credit

The joint-major General program. 15.0 credits including the following 6.0 credits:
- 3.5 IESS credits consisting of IESS 1001H, 2601Y, 3631H, 3632H, and 3730Y
- 1.0 ERSC credit consisting of ERSC 1010H and 1020H
- 1.0 INDG credit consisting of INDG 1001H and 1002H (or 1000Y)
- 0.5 credit from BIOL 1020H, BIOL-ERSC 2260H, GEOG 1040H, ANTH 1010H, ERSC 2220H, ERSC 2230H, or ERSC 2240H
- 11.0 science credits are required for the General degree, including 1.0 MATH credit

Students who have fulfilled the requirements for a single-major or joint-major BA or BSc Honours degree in another subject may apply for a minor in Indigenous Environmental Studies & Sciences if they have successfully completed the courses listed below.

The minor in Indigenous Environmental Studies & Sciences consists of the following 6.0 credits:
- 3.5 IESS credits consisting of IESS 1001H, 2601Y, 3631H, 3632H, and 3730Y
- 1.0 ERSC credit consisting of ERSC 1010H and 1020H
- 1.5 INDG credits consisting of INDG 1001H and 1002H (or 1000Y) and 4050H
Diploma in Indigenous Environmental Studies & Sciences

The program also offers a Diploma, which is intended for students of Indigenous ancestry who may be interested in specific educational opportunities or a pathway to a university degree.

- The Diploma is a two-year program open to students who have the equivalent of Ontario Grade 12 or qualify as mature students.
- The Diploma will be awarded upon successful completion of the program. A Trent University transcript will identify all courses undertaken and grades received.
- Students who have earned the Diploma may apply for admission to the BA or BSc program. Credits earned in the Diploma program are transferable to the General or Honours BA and BSc degrees.
- Indigenous students seeking admission to this or other University programs should contact the Aboriginal enrolment advisor in the First Peoples House of Learning to inquire about special assistance with the admission process.

Courses

- INDG 1011H and 1012H provide the academic skills, attitudes, strategies, and mutual support systems that students need to be successful in a university environment.

The following 7.5 credits are required to complete the program:

- 2.0 IESS credits consisting of IESS 1001H, 2601Y, and 3631H
- 3.0 INDG credits consisting of INDG 1001H and 1002H (or 1000Y), 1011H and 1012H (or 1010Y), 1500H, and 1510H
- 1.0 ERSC credit consisting of ERSC 1010H and 1020H
- 0.5 credit from BIOL-ERSC 2260H or ERSC 2240H
- 1.0 credit from ERST-CAST 2520H, ERST-CAST 2525H, or CAST-ERST-GEOG-INDG 2040Y
Please consult the academic timetable for information on courses that will be offered in 2019–2020, including when they will be scheduled.

» IESS 1001H: Foundations in Indigenous Environmental Studies and Science (ICR)
   Introduces students to the foundational approaches, philosophies, values and methods used in Indigenous Environmental Studies. Teaching methods include lectures, written resource materials, classroom discussions, and experiential learning.

» IESS-ERSC-INDG 2150H: Environmental Assessment Techniques for Indigenous Communities (Sc) (see Environmental & Resource Science/Studies)

» IESS-INDG-ERST 2601Y: Indigenous Knowledge Systems and the Natural Environment (ICR) (see Indigenous Studies)

» IESS-ERST-INDG 3631H: Issues in Indigenous Environmental Studies (see Indigenous Studies)

» IESS-ERST-INDG 3632H: Global Issues in Indigenous Environmental Studies (see Indigenous Studies)

» IESS-ERST-INDG-SAFS 3634H: Introduction to Indigenous Food Systems (see Indigenous Studies)

» IESS-ERSC/ERST-INDG 3730Y: Indigenous Peoples’ Health and the Environment (see Environmental & Resource Science/Studies)

» IESS-INDG-ERST 4630H: Indigenous Environmental Research Protocols and Ethics (see Indigenous Studies)

» IESS-INDG-ERST 4730Y: Sustainable Indigenous Communities (see Indigenous Studies)

» IESS-INDG-ERST/ERSC-NURS 4740Y: Critical Investigations in Indigenous Peoples’ Health and the Environments (see Indigenous Studies)

Lecturer
B. Wall, Moktthewenkwwe (Bodwewaadmii Anishinaabe), BSc (Michigan Technological), MSc (UC Berkeley)

Indigenous Studies is a multi-disciplinary examination, analysis, and reflection upon Indigenous experiences in Canada and around the world. This exploration, based in Western and Indigenous epistemologies, aims to develop a more complex understanding of this experience in its many dimensions: political, economic, social, cultural, and spiritual. The Chanie Wenjack School for Indigenous Studies offers a wide variety of courses allowing students to explore a particular aspect of this experience as well as opportunities for studying their interrelatedness. The knowledge gained forms a foundation for working more effectively with Indigenous peoples. The School also collaborates with the School of Business through the Specialization in Niigaaniiwin—The Art of Leading and with the School of the Environment in offering the Indigenous Environmental Studies & Sciences program.

Notes
- For the Diploma in Foundations of Indigenous Learning, see below.
- For the Bachelor of Arts and Bachelor of Science programs, Minor, and Diploma in Indigenous Environmental Studies & Sciences, see Indigenous Environmental Studies & Sciences (see p. 258).
- For the Bachelor of Business Administration Specialization in Niigaaniiwin—The Art of Leading, see Business Administration (see p. 66).
- For the Option in Indigenous Reconciliation & Resurgence, see p. 408.
- Courses fulfilling the Indigenous Course Requirement (see p. 16) are marked “ICR” in the individual course descriptions.
Bachelor of Arts Program in Indigenous Studies

- In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).
- The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

The single-major Honours program. 20.0 credits including the following 10.0 credits:
- 5.0 INDG credits consisting of INDG 1001H and 1002H (or 1000Y), 2100Y, 3105Y, 3813Y, 4201H, and 4202H
- 5.0 INDG credits in addition to the above, including at least 0.5 credit from each of the four categories
- At least 3.0 of the total 10.0 credits must be at the 4000 level

The joint-major Honours program. 20.0 credits including the following 7.0 credits:
- 5.0 INDG credits consisting of INDG 1001H and 1002H (or 1000Y), 2100Y, 3105Y, 3813Y, 4201H, and 4202H
- 2.0 INDG credits in addition to the above, including at least 0.5 credit from two of the four categories
- At least 2.0 of the total 7.0 credits must be at the 4000 level

The single-major General program. 15.0 credits including the following 6.0 credits:
- 4.0 INDG credits consisting of INDG 1001H and 1002H (or 1000Y), 2100Y, 3105Y, and 3813Y
- 2.0 INDG credits in addition to the above, including at least 0.5 credit from three of the four categories
- At least 3.0 of the total 6.0 credits must be at the 3000 or 4000 level

The joint-major General program. 15.0 credits including the following 5.0 credits:
- 2.0 INDG credits consisting of INDG 1001H and 1002H (or 1000Y) and 2100Y
- 3.0 INDG credits in addition to the above, including at least 0.5 credit from three of the four categories
- At least 1.0 of the total 5.0 credits must be at the 3000 or 4000 level

The minor in Indigenous Studies consists of the following 5.0 credits:
- 2.0 INDG credits consisting of INDG 1001H and 1002H (or 1000Y) and 2100Y
- 3.0 INDG credits in addition to the above, including at least 0.5 credit from three of the four categories
- At least 1.0 of the total 5.0 credits must be at the 3000 or 4000 level

Note: Students wishing to enrol in a reading course (INDG 3900Y, 3901H, 3902H, 4900Y, 4901H, 4902H), community-based practicum (INDG 3860Y, 3861H, 3862H, 4860Y, 4861H, 4862H), or double credit thesis (INDG 4020D) must obtain the School's approval in the term prior to the course offering. The course must be identified with one of the above categories to support the degree requirements. Students may count up to 2.0 credits from INDG practicum courses toward their Indigenous Studies degree requirements.

There is overlap between categories since individual courses address topic areas which are relevant to more than one category. If you wish to vary a course category for your degree requirements you may make an appointment with the School to present your case.

Diploma in Foundations of Indigenous Learning

The Diploma in Foundations of Indigenous Learning is a two-year program open to Indigenous students who have the equivalent of Grade 12 or who qualify as mature students or whose admission is approved by the director of the First Peoples House of Learning and the Office of the Registrar. Students of Indigenous ancestry are encouraged to enrol. The Diploma is awarded upon successful completion of the program. With it is included a Trent University transcript identifying all courses undertaken and grades received. All courses receive a University credit.

Notes

• Upon successful completion of the Diploma program, students may apply for admission to the BA program. Credits earned in the program are transferable to the BA degree.
• Only students enrolled in the Diploma program may obtain the Diploma.
• Application to the Diploma program should be made to the Ontario University Application Centre at ouac.on.ca.
• Inquiries may be directed to the director of the First Peoples House of Learning at fphl@trentu.ca. Indigenous students seeking admission to this or other University programs must advise the director of the First Peoples House of Learning in order to activate admissions assistance.

Courses

Students are required to complete 8.0 credits, including 6.0 INDG credits. Some 2000-level Indigenous Studies courses are available to students in Year 1 of the Diploma. See the prerequisites for individual courses.

Year 1

- 2.0 INDG credits consisting of INDG 1001H and 1002H (or 1000Y), 1011H, and 1012H (or 1010Y)
- 1.0 INDG credit in addition to the above
- 1.0 credit in addition to the above, either in INDG or in another discipline at the 1000 level

Year 2

- 3.0 INDG credits in addition to the above at the 2000 or 3000 level
- 1.0 credit in addition to the above, either in INDG at the 2000 or 3000 level or in another discipline at the 1000 level

Diploma in Foundations of Indigenous Learning – For Future Nursing Students

The Diploma program offers a pathway to the Bachelor of Science in Nursing program within the Trent/Fleming School of Nursing.

To be admitted to the compressed Nursing program, students must meet the following requirements:

• Successful completion of the Diploma in Foundations of Indigenous Learning with a minimum cumulative average of 70% and a minimum 60% in each course
• Fulfillment of admissions criteria for the Bachelor of Science in Nursing compressed program (see Nursing)

Students should include PSYC 1020H in the Diploma program, as well as courses in Mathematics, Chemistry, and/or Biology if not previously taken as 4U secondary school credits with the minimum grades required for admission to the Nursing program.
Please consult the academic timetable for information on courses that will be offered in 2019–2020, including when they will be scheduled.

» INDG 1001H: The Foundation for Reconciliation (ICR)
  Provides a foundation for an informed and critical discussion of Indigenous peoples in Canada and
  the relationship between Indigenous and non-Indigenous peoples, cultures, societies, and states.
  The course explores the rationale for and need for the Canadian national project of reconciliation.
  Excludes INDG 1000Y.

» INDG 1002H: Critical Incidents in Modern Indigenous Life (ICR)
  Examines a selection of critical incidents in Indigenous life and history. Using the lens of cultural
  and political reimaginations we examine and discuss issues and ideas that shape the daily lives of
  Indigenous peoples in Canada and the world. Excludes INDG 1000Y.

» INDG 1011H: Foundations of Indigenous Learning: Writing
  Explores ways of learning in the university environment with an emphasis on Indigenous ways of
  experiential learning, including self-reflection. With a focus on writing in the academic setting, this
  course is devoted to improving academic and critical thinking skills in the context of a supportive
  in-class learning community. Open only to students in the Indigenous Studies Diploma program or
  with permission of the instructor. Excludes INDG 1010Y.

» INDG 1012H: Foundations of Indigenous Learning: Research
  Explores ways of learning in the university environment with an emphasis on Indigenous ways
  of experiential learning, including self-reflection. With a focus on research in the academic
  setting, this course is devoted to improving academic and critical thinking skills in the context of a
  supportive in-class learning community. Open only to students in the Indigenous Studies Diploma
  program or with permission of the instructor. Excludes INDG 1010Y.

» INDG-ADMN 1500H: Foundations of Indigenous Community Development
  Explores the foundational elements of community development in an Indigenous context.
  Emphasis is placed on experiencing the application of community development theories.
  Concepts of personal development, relationships between individual and community, meaningful
  conversations within community, and effective ways of working in community are discussed both
  theoretically and experientially.

» INDG-ADMN 1510H: Foundations of Indigenous Community Economic Development
  Examines lessons learned by First Nations that have taken control over their own economic
  development. A discussion of the history of Indigenous economic development before contact
  with Europeans is followed by a consideration of foundational community economic development
  concepts in relation to current best practices of First Nations.

» INDG-CUST 1570H: The Origins of Theatre: Performance in Indigenous and Cultural
  Studies (ICR) (see Cultural Studies)

  Examines the nature of Indigenous relationships with Canada and the impact those relationships
  have had upon Indigenous peoples and communities. The course engages with different
  understandings of self-government and sovereignty. Prerequisite: 0.5 INDG, CAST, or POST credit.
  Excludes INDG-POST 2000Y.

» INDG-CAST-POST 2002H: Indigenous Peoples and Resurgence (ICR)
  Examines the nature of Indigenous resurgence and contemporary struggles within the state. By
  understanding the different ways in which Indigenous peoples are reclaiming and revising
  their current relationships, students become aware of the impact Indigenous resurgence is having
  on Indigenous communities. Prerequisite: 0.5 INDG, CAST, or POST credit. Excludes INDG-POST
  2000Y.
» INDG-CHYS 2006H: Indigenous Knowledge for Children and Youth (ICR) (see Child & Youth Studies)

» INDG 2010H: Indigenous Contemporary Dance (ICR)
Indigenous contemporary dance is rich in heritage and multi-faceted in form, including social and ancient dances based in ceremony, contemporary derivations, and traditional choreography staged for theatrical performance. This course offers a study of the dance practice, history, and cultural context of the intertribal dance of the contemporary powwow. Open to first-year students.

» INDG 2020H: Indigenous Contemporary Music (ICR)
Provides an opportunity for students to obtain foundational performance knowledge of Indigenous drumming and song practice, along with the development of Indigenous contemporary music and its evolution from traditional music. Students explore song structure, instrumentation, and performance formats in an Indigenous environment of traditional and contemporary practitioners. Open to first-year students. Excludes 3957H.

» INDG 2030H: Indigenous Peoples and News Media in Canada (ICR)
Provides context for past and current portrayal of Indigenous topics in the media. With a better understanding of Indigenous cultures, histories, and perspectives, students can report stories related to Indigenous peoples, and about Indigenous peoples, more effectively.

» INDG-CAST-ERST-GEOG 2040Y: Canada: The Land (ICR) (see Canadian Studies)

» INDG 2100Y: Introduction to Indigenous Knowledge (ICR)
Examines the rich and complex nature of Indigenous knowledge (IK). It addresses the various components of IK through both written text and oral tradition. The course proceeds from the foundational assumption that IK is held and transmitted primarily by Elders, traditional people, and other knowledge holders. Recommended prerequisite: INDG 1001H (or 1000Y).

» INDG 2110Y: Introduction to Indigenous Theatre (ICR)
Performance cultures are expressed in the theory and practice of Indigenous artists. Traditional and contemporary oratory, storytelling, language, movement and music, individual and group expression—physical, emotional, vocal, and intellectual experiences—are enhanced through sensory exercises, improvisation, and text. Professionals translate cultural concepts to Indigenous and European methodologies. Open to first-year students.

» INDG-ERSC-IESS 2150H: Environmental Assessment Techniques for Indigenous Communities (Sc) (see Environmental & Resource Science/Studies)

» INDG 2200Y: Haudenosaunee Culture and Traditions (ICR)
A study of the cultural, political, social kinship, and knowledge foundations of traditional Six Nations society including Creation, Clans, the establishment of the Six Nations Confederacy, the Longhouse cycle of Ceremonies, and various contemporary issues. Pre- or co-requisite: INDG 1001H (or 1000Y) or permission of instructor.

» INDG 2250Y: Oral Mohawk (ICR)
An introduction to Mohawk designed for students with little or no knowledge of the language. This is a conversational course, emphasizing the use and understanding of Mohawk through the learning of the basic vocabulary and sentence patterns in class and in language laboratory. Students judged by the instructor to be fluent in Mohawk may not receive credit for this course. Open to first-year students. Excludes INDG 1050Y.

» INDG-CAST-HIST 2256H: The Histories of Indigenous Peoples in Canada (see Canadian Studies)
» **INDG-HIST 2306H: Foundations for Indigenous History (ICR)**
Explores Indigenous histories and grounding history in lands, knowledges, languages, and genders. Examines methodologies such as oral narratives, orality, and land-based research along with methods for gathering knowledge related to Indigenous histories. Explores scholarly positionality as historians, research ethics, and the various formats being used to articulate Indigenous histories. Recommended prerequisite: INDG 1001H. Excludes INDG 2305Y, 4205Y.

» **INDG-HIST 2307H: Colonial Encounters (ICR)**
Explores the multifaceted encounters that resulted from European colonialism. The focus of the course is on the lives and experiences of Indigenous peoples in Africa, Asia, the Americas, and the Pacific basin to develop a comprehensive understanding of colonialism and resistance on a global scale. Prerequisite: INDG 2306H or permission of instructor. Excludes INDG-HIST 2305Y.

» **INDG 2480Y: Indigenous Literature and Creative Writing (ICR)**
Examines examples of both traditional and contemporary Indigenous narratives, the critical discourse around Indigenous narratives, and creative writing by students with a concentration on poetry and prose. Students are asked to read their creative work in class. Pre- or co-requisite: INDG 1001H (or 1000Y) or 1.0 ENGL credit.

» **INDG-CAST-WMST 2485H: Indigenous Women’s Creative Non-Fiction (ICR) (see Canadian Studies)**

» **INDG-WMST 2487H: Decolonizing Feminisms (see Gender & Women’s Studies)**

» **INDG-ERST-IESS 2601Y: Indigenous Knowledge Systems and the Natural Environment (ICR)**
Explores Indigenous worldviews, environmental philosophies, and cultural values through exposure to the perspectives of Indigenous Elders, community people, political leaders, academics, activists, and scholars. Students are introduced to Indigenous knowledge as it pertains to the natural environment. Prerequisite: 4.0 university credits or permission of instructor.

» **INDG 2800Y: Introduction to Nishnaabemowin (ICR)**
A beginner’s course for students with little or no knowledge of the language, emphasizing the use and understanding of Nishnaabemowin through the learning of the basic vocabulary and sentence patterns in class and in the language laboratory. Open to first-year students.

Explores the interlinking facets of storytelling as it is found in oral traditions in both Indigenous and non-Indigenous societies, as expressed creatively in written forms, and as a foundation for “storytelling” performance; culminating in a masked storytelling performance. Prerequisite: INDG 2010H or 2020H or 2110Y or permission of instructor. Excludes INDG 3954H.

» **INDG-CAST-POST 3015H: Urban Governance in Canada (see Political Studies)**

» **INDG 3030H: Indigenous Dance Theatre**
A performance-intensive course that explores the presentation of oral and written texts. Dramatic themes are drawn from traditional, historic, and personal storylines. Using elements of Indigenous story, movement, dance, and voice, the course culminates in a production of the student’s own creation. Prerequisite: One of INDG 2010H, 2020H, 2110Y, or 3010H, or permission of instructor. Excludes INDG 3953H.

» **INDG-ADMN 3040H: The Meaning of Work in the Contemporary World**
Opens with a discussion of how “work” is seen and includes both Indigenous and non-Indigenous perspectives. Thereafter, a conversational model of personal and professional growth is used to assist students in examining themselves in relation to how they wish to participate in today’s world of work. Prerequisite: 5.0 university credits. Excludes INDG-ADMN 3959H.
» **INDG-IDST 3050Y: Indigenous and International Community Development (ICR)**
A study of various approaches to building sustainable Indigenous communities in Canada and internationally. Examines current initiatives related to protecting Indigenous territories, community economic development, gender, community wellness, and the arts. Examines ideological, political, economic, ecological, and social forces affecting Indigenous sovereignty and community control. Prerequisite: INDG 1001H (or 1000Y) or both IDST 1001H and 1002H or permission of instructor.

» **INDG 3060H: Theatre for Indigenous Communities**
Investigations in performance for Indigenous communities, focusing on the educational elements of Anishinaabeg storytelling. Skills in Indigenous dance/movement, ensemble work, music/voice, theatre games, storytelling, improvisation/clown, and Anishinaabemowin (Ojibwe language) are developed in class and taken into community workshop settings. Course fee: $100. Prerequisite: One of INDG 2010H, 2020H, 2110Y or 3010H, or permission of instructor.

» **INDG 3102Y: Images in Contemporary Media**
By examining the portrayal of First Nations peoples and their cultures in mass media, this course provides students with a better understanding of the power of television and film and the impacts of these images on the relationship, place, and space occupied by Indigenous peoples in contemporary society. Excludes INDG 3951.

» **INDG-CAST 3103H: Screen Shots: Indigenous Documentaries and Cinematic Storytelling**
Designed to allow students to examine the representation of Indigenous peoples via the narrative storytelling medium of documentary and cinematic films. The course specifically looks at how the National Film Board of Canada (NFB) has served as cultural platforms for storytelling about Indigenous peoples and also storytelling by Indigenous peoples.

» **INDG 3105Y: Indigenous Orality**
Explores Indigenous oral texts through two central strands: philosophical issues of orality, and practical issues of gathering and recording of Indigenous orality. We examine central issues of performance, metaphor, iconography of Indigenous narrative memory, and the social relationships which maintain and act as a vessel for orality. Prerequisite: INDG 1001H (or 1000Y).

» **INDG 3113Y: Indigenous Peoples of Mexico**
In this 20-day summer field course, students travel to two sites in Mexico (Mexico City and Oaxaca City) to study the contemporary situation of the Indigenous peoples of Mexico. Students travel to Indigenous communities and learn about Indigenous knowledge, culture, politics (including the Zapatistas movement), the arts and environmental issues. Students pay a program fee in addition to their own travel expenses. Prerequisite: INDG 1001H (or 1000Y) or permission of the instructor. Excludes INDG 3953Y (2009-2012).

» **INDG-CUST 3128H: Indigenous Science Fiction and Speculative Storytelling**
Topics include conceptualizing Indigenous science fiction; empire and Indigenous space; vampires, wihtikow, and the naming of darkness; anticolonial impulses of Indigenous science fiction and speculative storytelling; conceptualizing classical Cree and Anishinaabe narratives; Indigenous narratives of apocalypse.

» **INDG-GEOG 3201H: Indigenous Peoples in Urban Centres—City as Home**
Explores Indigenous peoples and the contemporary urban environment using a four directions analytic framework and the metaphor of city as home. Excludes INDG 3200Y.

» **INDG-GEOG 3202H: Indigenous Peoples in Urban Centres—Selected Issues and Cities**
Explores Indigenous peoples’ issues and experiences in selected urban environments in Canada and the world. Excludes INDG 3200Y.

» **INDG-CAST-FREN 3238H: Littératures autochtones de langue française au Canada / French Language Indigenous Literature in Canada (ICR) (see French & Francophone Studies)**
» **INDG 3306H: Settler–Indigenous Colonial Encounters in Early Canada**  
Explores the impacts of European settler colonialism in the Indigenous territories that currently form part of Ontario. Focusing between the late eighteenth century to the end of the nineteenth century, the effects of treaties, logging, settler land allocation, and the construction of roads and waterways are examined. Prerequisite: INDG 1001H (or 1000Y) or permission of the instructor.

» **INDG 3350Y: Indigenous and Ecologically Relevant Curriculum Design**  
Through land-based and experiential educational practices, students develop their knowledge, motivation, and skills toward facilitating the transmission of an environmental consciousness in the field of education. Additionally, students design inclusive learning spaces that meet the cultural needs of Indigenous students and the cross-cultural awareness needs of non-Indigenous students. Recommended prerequisite: INDG 1001H (or 1000Y).

» **INDG 3401H: Law and Indigenous Peoples: Foundations (ICR)**  
An introduction to the fundamental precepts, from both a philosophical and practical perspective, that form the foundation of Aboriginal law in Canada. The course content is taught with a balance of experiential learning exercises. Prerequisite: INDG 1001H (or 1000Y) or permission of instructor. Excludes INDG 3400Y.

» **INDG 3402H: Law and Indigenous Peoples: Litigating Aboriginal Rights**  
Examines and provides experience in the challenges of litigating Aboriginal rights in Canada. In addition to an examination of the significant court cases that now define the nature and extent of Aboriginal rights, students conduct a group exercise to simulate a negotiations scenario relating to the process of defining Aboriginal rights. Prerequisite: INDG 1001H (or 1000Y). Excludes INDG 3400Y.

» **INDG-CAST-ENGL 3481H: Indigenous Fiction (ICR) (see English Literature)**

» **INDG-CAST-ENGL 3483H: Indigenous Poetry (ICR) (see English Literature)**

» **INDG-CAST-WMST 3485H: Indigenous Women’s Writing in Canada (ICR) (see Canadian Studies)**

» **INDG-ERST-IESS 3631H: Issues in Indigenous Environmental Studies**  
Examines a wide range of contemporary environmental issues, conflicts and solutions in the context of Indigenous peoples and territories. Studies examine issues at local, provincial, and national levels, highlighting the multi-dimensional perspectives of Indigenous peoples in North America. Prerequisite: One of INDG 1001H, INDG 1002H (or INDG 1000Y), IESS 1001H, INDG-ERST-IESS 2601Y, or INDG-ERST-IESS 3632H; or permission of the instructor. Excludes INDG-ERST 3630Y.
INDG-ERST-IESS 3632H: Global Issues in Indigenous Environmental Studies
Explores the international dimensions of Indigenous Environmental Studies (IES) and examines a wide range of contemporary environmental issues, conflicts, and solutions in the context of Indigenous peoples and territories throughout the Americas and worldwide. Prerequisite: One of INDG 1001H, INDG 1002H (or INDG 1000Y), IESS 1001H, INDG-ERST-IESS 2601Y, or INDG-ERST-IESS 3631H; or permission of the instructor. Excludes INDG-ERST 3630Y.

INDG-ERST-IESS-SAFS 3634H: Introduction to Indigenous Food Systems
Provides students with the opportunity for self-directed research that examines the food systems of Indigenous peoples. Students explore a wide range of historical and contemporary food systems practices and issues that impact Indigenous communities and their connections to the ecosystems that support them. Recommended course for the program in Indigenous Environmental Studies/Science. Course fee: $35. Prerequisite: INDG-ERST 2601Y; or both ERSC 1010H and 1020H; or 10.0 university credits and permission of instructor.

INDG-ERSC/ERST-IESS 3730Y: Indigenous Peoples’ Health and the Environment (see Environmental & Resource Science/Studies)

INDG 3740H: Circumpolar Peoples, Health, and The Environment (see Environmental & Resource Science/Studies)

INDG 3745H: Peoples and Cultures of the Circumpolar World
An introduction to historic traditional cultures and contemporary peoples through both traditional Indigenous and Western perspectives. Identifies the broad and basic understanding of the histories and experiences of the peoples of the Circumpolar North, and the development of northern cultures. Explores and defines the cultural diversity present in the Circumpolar North with reference to environments, contact, and economic processes.

INDG 3750H: Language, Culture, Identity, and the Circumpolar World
A broad examination of circumpolar peoples in North America, northwest Russia, Siberia and northern Asia, Greenland, the North Atlantic, and northern Scandinavia. Notions of identity, culture, language, and self-determination are discussed. Provides a broad and basic description of the histories and experiences of the peoples of the circumpolar North and the development of northern cultures. Prerequisite: GEOG 1045H and INDG 3745H, or permission of the instructor.

INDG 3800Y: Intermediate Oral Nishnaabemowin
An intermediate course in conversation and pronunciation as well as an introductory exploration of the written orthography, using language laboratory and classroom participation. Prerequisite: INDG 2800Y or permission of instructor.

INDG 3813Y: Indigenous Studies Research Methodology
Prepares individuals researching for and with Indigenous peoples; examining Indigenous worldview as reflected in research, ethical considerations, and protocols; presents appropriate methodologies; develops skills in conducting a literature/source review, designing a research study, and selecting corresponding methodologies; reporting to make a contribution to Indigenous peoples and scholarship. Prerequisite: INDG 1001H (or 1000Y).

INDG 3851H: Anishinaabemowin on the Land (ICR)
A land-based language and culture course which explores Anishinaabemowin through experiential learning. Covers basic knowledge and history of the Anishinaabe writing system, as well as songs, chants, and dances, with a special focus on environmental knowledge and human relationships at sacred sites. Basic language skills are used in a practical way toward resolving environmental issues. Course fee for field component. Prerequisite: INDG 2800Y or permission of instructor. Excludes INDG 3850Y.
» **INDG 3852H: Harvesting Anishinaabemowin**  
A land-based and classroom weekend-intensive language and culture course which continues exploration of the Anishinaabemowin language through experiential learning appropriate to the patterns of the fall cycle. The course further contributes to basic knowledge and history of the Anishinaabe writing system, as well as gathering songs, chants, and dances, with a special focus on traditional environmental knowledge and human relationships at sacred sites. Course fee for field component. Prerequisite: INDG 2800Y or permission of instructor. Excludes INDG 3850Y.

» **INDG 3853H: Reflecting Anishnaabemowin in Our Stories**  
A classroom and land-based weekend-intensive language and culture course which explores Anishinaabemowin through experiential learning in the winter cycle. The course reflects on the basic knowledge and history of the Anishinaabe writing system gleaned, as well as on the language, purpose, and value of the songs, chants and dances, with a special focus on storytelling. Course fee for field component. Prerequisite: INDG 2800Y or permission of instructor. Excludes INDG 3850Y.

» **INDG 3860Y, 3861H, 3862H: Practicum Field Placement**  
Provides an opportunity for students to learn from experience through a practical hands-on assignment working with an organization that deals with Aboriginal peoples or addresses Aboriginal issues. Students should contact the School prior to the start of term in order to develop the proposal (written approval of the practicum proposal is required). Prerequisite: 10.0 university level credits, a 70% cumulative average, and written approval of director. Recommended: INDG 3813Y.

» **INDG 3900Y, 3901H, 3902H: Reading Course**  
Intended for third-year majors and for second-year students who wish to carry out independent research. Details must be arranged with the director before the end of the preceding academic year. Prerequisite: 5.0 university credits including INDG 1001H (or 1000Y) and a 70% cumulative average. Written approval of director is required.

» **INDG-CAST-HIST 4000Y/4001H: Research Seminar in Indigenous History (see Canadian Studies)**

» **INDG 4020D: Thesis**  
An in-depth study in library or field-oriented research supervised by a Research Project Committee, for which a double fee is charged. Details must be arranged with the director before the end of the preceding academic year. Prerequisite: INDG 1001H (or 1000Y), 2100Y, 3810H, 3830H, a 70% cumulative average, 10.0 university credits, and written approval of the director.

Allows students to investigate the value of supporting the initiatives in the Indigenous community nationally in Canada and worldwide and to find their place in that initiative. Prerequisite: 1.0 INDG credit or permission of instructor.

» **INDG-CAST 4051H: Transforming Settler Consciousness: Complexities, Challenges, and Possibilities**  
The formation of alliances in support of Indigenous sovereignty requires interrupting how settler consciousness in Canada sustains itself through national narratives that both render Indigenous peoples invisible and at the same time constructs “the Other.” This course examines such narratives and efforts to interrupt them through deliberate educational interventions. Prerequisite: INDG-CAST 4050H or permission of instructor.

» **INDG 4100Y: Seminar on Indigenous Knowledge**  
Explores contemporary Indigenous expressions and interpretations of traditional thought and beliefs. Modes of organizing, validating, and communicating knowledge form central themes. Prerequisite: INDG 1001H (or 1000Y) or permission of the instructor.
» **INDG-CAST 4150Y: Kanonhsionni’on:we: The Longhouse of One Family**
Journeying across Haudenosaunee Territory, retracing the path of the Peacemaker as he unified Five Warring Nations under the Great Tree of Peace, visiting the places where these historic events happened, including an opportunity to interact with the Haudenosaunee people and experience society, culture, traditions, and languages. Prerequisite: 9.0 university credits. Recommended: INDG 1001H, 2100Y, and 4100Y.

» **INDG-ANTH-CAST 4155H: Great Lakes Archaeology (Sc) (see Anthropology)**

» **INDG 4201H: Honours Collegium: Indigenous Peoples and Nation Building**
There are currently hundreds of initiatives across Canada where Indigenous peoples are envisioning a new future and toward this goal, are building new forms of Aboriginal nations. How do you build a new Aboriginal nation? What are some of the characteristics and challenges? In this course students are provided with a unique opportunity to address these and other questions in innovative and creative ways. Prerequisite: 15.0 university credits or permission of the instructor. Excludes INDG 4200Y.

» **INDG 4202H: Honours Collegium: Building a Four Directional Understanding**
Provides an opportunity to build an understanding, using a four directions model, of the knowledge and skills gained during previous courses of study. It attempts to answer the question: “How do I take all that I have learned about Indigenous peoples, from all the other courses that I have taken, and put this into a comprehensive whole that I can use in future employment or study?” Prerequisite: 15.0 university credits or permission of the instructor. Excludes INDG 4200Y.

» **INDG-WMST 4206H: Indigenous Women and Settler History in North America**
Explores historical representations of several Indigenous women in what is now North America. Particular attention is paid to the symbolic uses of these women and how their bodies been put into the service of settler histories. Prerequisite: INDG 2306H (or 2305Y). Excludes INDG-HIST-WMST 4205Y.

» **INDG 4300Y: Critical Theory and Indigenous Studies**
A seminar on the relation of contemporary Western social and political thought to Indigenous intellectual traditions and issues. Applies a broad range of theoretical approaches to develop understandings and insights of Indigenous and Western societies and the specific character of the interactions between them. Prerequisite: 5.0 university credits including INDG 1001H (or 1000Y) or 1.0 CUST credit or permission of instructor.

» **INDG-HIST 4461H: Revolution, Subversion, and Power in Indigenous Latin America (see History)**

» **INDG 4481H: Advanced Indigenous Literature and Creative Writing**
Examines examples of traditional and contemporary Indigenous written narratives and the critical discourse around them through the use of creative and critical writing. Prerequisite: INDG 1001H (or 1000Y) or 1.0 ENGL credit. Recommended: INDG 2480Y. Excludes INDG 4480Y.

» **INDG-ADMN 4500H: Indigenous Perspectives on Twenty-First-Century Business and Organizational Issues (ICR)**
An analysis of key issues facing business in the twenty-first century. A variety of Indigenous perspectives on issues are presented, discussed, and compared and contrasted with current mainstream business perspectives. The objective of the course is to expand the ability of students to consider important business issues and opportunities including an Indigenous perspective. Prerequisite: 10.0 university credits.
» **INDG-ERST-ISS 4630H: Indigenous Environmental Research Protocol and Ethics**

Offers an introductory exploration of research ethics and protocols within the context of Indigenous environmental studies. The course focuses upon the importance of balancing the recognition and protection of Indigenous rights and interests with the promotion of environmental and health research. Prerequisite: INDG 1001H (or 1000Y) or both ERSC 1010H and 1020H. Excludes INDG-ERST 3952H.

» **INDG-ANTH 4631H: Indigenous Communities and Cultural Heritage**

Aims to generate an understanding of the complex issues that surround the processes of cultural heritage management with regard to relationships with Indigenous peoples, their communities, and belief systems. Highlights community-based approaches, with, by, and for Indigenous and local communities. Prerequisite: 9.0 university credits including INDG 1001H (or 1000Y) or permission of instructor.

» **INDG-ERST-ISS 4730Y: Sustainable Indigenous Communities**

A research colloquium course that gives students an opportunity to examine concepts of sustainability, select their own research area, and develop a model for a “sustainable” community. Provides insight into Indigenous understandings and environmental impacts, and encourages a multidisciplinary approach to resolving issues. Prerequisite: 10.0 university credits including INDG 1001H (or 1000Y) or both ERSC 1010H and 1020H, or permission of the instructor. INDG-ERSC/T 3730Y is highly recommended.

Facilitates a critical examination of historical and contemporary issues in Indigenous peoples’ health with a particular emphasis on the relation to land and other dynamic environments as a determinant of health status by students. It provides a basic foundation in understanding the key determinants of health for Indigenous peoples in Canada and around the world. Prerequisite: ERSC/ERST-INDG 3730Y or permission of the instructor.

» **INDG-ANTH-IDST 4770H: Anthropology of Colonialism (see Anthropology)**

» **INDG 4800Y: Advanced Nishnaabemowin**

A continuation of the study of the Nishnaabemowin (Ojibway language). This course studies four different styles of Nishnaabe verbs. Prerequisite: INDG 3800Y or permission of instructor.

» **INDG 4850Y: Learning and Living on the Land: Focus on Nishnaabe and Cree Teachings**

This intensive 10-day summer field course examines Indigenous knowledge (IK) from a holistic “on-the-earth” perspective. The connections between IK, the Land, and students’ lives are explored. The course addresses the physical, mental, emotional, and spiritual aspects of IK, possessed and transmitted by Elders, traditional people, and other knowledge holders. Course fee: $600. Prerequisite: 5.0 university credits including INDG 1001H (or 1000Y) or 2800Y or 4100Y or permission of instructor. Excludes INDG 4955Y.

» **INDG 4860Y, 4861H, 4862H: Practicum Field Placement**

Provides an opportunity for students to learn from experience through a practical hands-on assignment working with an organization that deals with Aboriginal peoples or addresses Aboriginal issues. Students should contact the School prior to the start of term in order to develop the proposal (written approval of the practicum proposal is required). Prerequisite: 10.0 university level credits, a 70% cumulative average, and written approval of director. Recommended: INDG 3813Y.

» **INDG 4900Y, 4901H, 4902H: Reading Course**

Students may select an area of study under the direction of an adviser. Details are to be arranged through the chair of the program before the end of the preceding academic year. Prerequisite: 10.0 university credits including INDG 1001H (or 1000Y) and written approval of the chair of the program.
Individualized Studies Program

Normally students choose a program of study determined by the academic regulations leading to a major or joint-major in Arts or Science. In exceptional circumstances, students of superior academic ability and intellectual independence may design an individualized program of study, selecting courses from various disciplines to explore a theme of their own choosing. Before designing such a program, students are encouraged to speak with an Academic Advisor about their personal academic goals (see Academic Advising, p. 511).

The following guidelines apply:

• This program is intended for students who have given evidence of superior academic ability and intellectual independence, and is normally available only as an Honours degree.
• The Individualized Studies program consists of 20.0 credits of which at least 2.0 must be at the 4000 level. A minimum cumulative average of 75% should normally be maintained.
• Students must apply for the program through an Academic Advisor. The application must include a rationale for the choice of courses, including reasons why the proposed program of study cannot be accommodated within an existing major or joint-major program, and must identify the remaining courses required.
• Students must discuss the intended program with an Academic Advisor before the end of the first year of studies. Students who have completed 5.0 credits may be considered retroactively for an Individualized Studies program.
• The Academic Advisor will: ensure that the program meets the University’s degree requirements, ensure that the student has obtained approval from the academic departments or programs concerned, and confirm that the required courses for program completion will be available on the proposed schedule.
• The Academic Advisor and the student must present the program to the Committee on Undergraduate Petitions (CUP) for approval. Once approved, any changes must be discussed with the Academic Advisor and reported to CUP.

An individualized study program in Global Studies is available as an Honours degree through Trent International (see p. 428). The program combines Study Abroad with internationally oriented studies in three or more disciplines. Students are normally required to study a language other than English, at least to the intermediate level, and to spend one year of undergraduate study in another country. Students must apply for entry into this program through Trent International (not an Academic Advisor) by April 1 in the first year of studies. A list of proposed courses and a rationale for these choices should be submitted with the application. For application information and further details please contact Trent International.

Associate Professor and Chair of the Department

P. Shaffer, MA (Toronto), DPhil (Sussex)

Professors

A. H. Akram-Lodhi, BA (SOAS, London), MPhil (Cambridge), PhD (Manitoba)
W. Lem, MA, PhD (Toronto) (on leave Winter 2020)
C. O’Manique, BA (Carleton), MA, PhD (York) (on leave Fall 2019)

Associate Professors

F. Baban, BA, MA (Bogazici), PhD (Carleton)
C. Beyers, BA (Trent), MA (York), DPhil (Sussex) (on leave Fall 2019)
H. Uluorta, BA, BSW (British Columbia), MA (International Institute of Social Studies), PhD (York)
(on leave Winter 2020)

Associated Faculty

S. Bocking, Environment; S. Choudhry, Economics; R. Dart, Business; D. N. McCaskill,
Indigenous Studies; A. Meneley, Anthropology; A. O’Connor, Cultural Studies;
R. Ponce-Hernandez, Environment; D. Sheinin, History; T. Whillans, Environment

International Development Studies involves the examination of societies and cultures undergoing
rapid change, and of the complex global relations shaping issues such as agriculture, the
environment, the global economy, culture and identity, human rights, and social transformation.
It is offered with the co-operation of the following departments and programs: Anthropology,
Cultural Studies, Economics, Environmental & Resource Science/Studies, Gender & Women’s Studies,
Geography, History, Indigenous Studies, Political Studies, and Sociology.

Bachelor of Arts Program in International Development Studies

• In addition to the program requirements listed below, students must satisfy the University degree
requirements (see p. 14).
• The same course may not simultaneously satisfy the requirements of both programs in a joint-
major degree.
• Students in the joint-major program in Anthropology and International Development Studies may
substitute IDST-ANTH 2500H and 2600H for ANTH 2120Y, 2311H and 2312H, or 2400Y in their
Anthropology requirements.
• Students may count no more than 1.0 credit in IDST reading courses toward their International
Development Studies degree requirements.
• Students are strongly encouraged to include ECON 1010H and 1020H in their choice of elective
courses.
• Students who have fulfilled the requirements for a single-major or joint-major Honours degree in
another subject may apply for a minor or an option in International Development Studies. For the
Option in International Development Studies, see p. 277.

*no longer offered

The single-major Honours program. 20.0 credits including the following 10.0 credits:
- 3.0 IDST credits consisting of IDST 1001H, 1002H, 2000Y, and 3100Y
- 1.0 IDST credit at the 4000 level from Category A
- 1.0 IDST credit at the 4000 level in addition to the above, from Category A, B, or C
- 5.0 IDST credits in addition to the above, with no more than 1.0 credit from Category B and no more than 1.0 credit from Category D

The joint-major Honours program. 20.0 credits including the following 7.0 credits:
- 2.0 IDST credits consisting of IDST 1001H, 1002H, and 2000Y
- 1.0 IDST credit at the 4000 level from Category A
- 4.0 IDST credits in addition to the above, with no more than 1.0 credit from Category B and no more than 1.0 credit from Category D

The joint-major General program. 15.0 credits including the following 5.0 credits:
- 2.0 IDST credits consisting of IDST 1001H, 1002H, and 2000Y
- 1.0 IDST credit at the 3000 level or beyond from Category A
- 2.0 IDST credits in addition to the above, with no more than 1.0 credit from Category B and no more than 1.0 credit from Category D
The minor in International Development Studies consists of the following 5.0 credits:
- 2.0 IDST credits consisting of IDST 1001H, 1002H, and 2000Y
- 1.0 IDST credit at the 3000 level or beyond from Category A
- 2.0 IDST credits in addition to the above, with no more than 1.0 credit from Category B and no more than 1.0 credit from Category D

Specialization in African Studies
Students who have fulfilled the requirements for a single- or joint-major Honours degree in International Development Studies may graduate with a Specialization in African Studies if they have also successfully completed the following credits from area studies and the Ghana Year Abroad program:
- 5.0 credits from IDST 2401H, 2402H, 3010Y, 3401H, 3402H, 3770Y, 3781Y (3780Y), 3790Y, 3800D, or HIST 4410Y

Note
• No more than 1.0 credit from HIST-IDST 2401H, 2402H, 3401H, or 3402H may satisfy the Category B requirement for the Honours program in International Development Studies.

Specialization in Latin American Studies
Students who have fulfilled the requirements for a single- or joint-major Honours degree in International Development Studies may graduate with a Specialization in Latin American Studies if they have also successfully completed the following credits from the Ecuador Year Abroad program, Spanish language, and area studies:
- 1.0 SPAN credit from SPAN 1000Y or 1001H and 1002H*; or 1.0 SPAN credit from SPAN 2500Y or 2501H and 2502H**
- 5.0 credits from IDST 2471H, 3800D, 3870Y, 3880Y, 3890Y, SPAN 3001H, or POST 3430H
  * Students whose level of fluency in Spanish is judged by the instructor to exceed the level of SPAN 1000Y are exempt from this requirement.
  ** Students whose level of fluency in Spanish is judged by the instructor to exceed the level of SPAN 2500Y are exempt from this requirement.

Year Abroad Program – Ghana
The Ghana Year Abroad program is designed primarily for Honours students in the single-major or joint-major programs in International Development Studies or Anthropology who have completed 9.0 university credits with an overall average of at least 70%.

The Ghana program consists of the following 5.0 credits:
- IDST-ANTH 3770Y, IDST-ANTH 3781Y (3780Y), IDST-ANTH 3790Y, and IDST-ANTH-ERST-SAFS 3800D
Please consult the academic timetable for information on courses that will be offered in 2019–2020, including when they will be scheduled.

» IDST 1001H: Human Inequality in Global Perspective
A comparative and historical introduction to the basic ideas in international development studies, including the areas of global poverty and inequality; colonialism and decolonization; modernization, social change, and globalization; population and conflict; environment and climate change; and international development assistance. Excludes IDST 1000Y.

» IDST 1002H: Issues in Global Inequality
An introduction to the basic issues in contemporary international development studies, including the areas of gender and social class; food and agriculture; industrialization and trade; forms of social provisioning; and civil society and democracy. These issues are examined from a comparative perspective. Excludes IDST 1000Y.

» IDST 2000Y: Development Analysis
An examination of the strengths and limitations of the major perspectives that have informed the study of international development. Selected case studies and monographs are used to illustrate theory-building, analytical models, and sound empirical research. Prerequisite: IDST 1001H and 1002H or 4.0 university credits or permission of instructor.

» IDST-WMST 2251H: Gender and International Development (see Gender & Women’s Studies)

» IDST-HIST 2401H: The Emergence of Modern Africa Before 1880 (see History)

» IDST-HIST 2402H: The Emergence of Modern Africa Since 1880 (see History)

» IDST-HIST 2422H: Unchained Africa—Resistance and Survival (see History)

» IDST-HIST 2471H: Introduction to Latin America, 1500–1990 (see History)

» IDST-ANTH-GEOG-SAFS-SOCI 2500H: The World Food System
An interdisciplinary and comparative analysis of the impact of transformations in the world food system on contemporary agrarian societies. Prerequisite: 4.0 university credits or permission of instructor. Excludes IDST-ANTH 2210Y.

» IDST-ANTH-SAFS 2600H: Peasants, Food, and Agrarian Change
An examination of the impact of processes of commodification, market integration, and globalization on the social organization of food-producing rural communities in developing countries. Prerequisite: 4.0 university credits or permission of instructor. Excludes IDST-ANTH 2210Y.

» IDST 3000Y: Advanced Seminar in Development Theory and Research
An exploration of key classical and contemporary works in development studies. Prerequisite: A minimum 75% cumulative average and 9.0 university credits including IDST 2000Y or permission of instructor. Excludes IDST 4000Y.

» IDST-INDG 3050Y: Indigenous and International Community Development (ICR) (see Indigenous Studies)

» IDST 3100Y: International Development Studies in an Economic Context
An examination of the economic dimensions of international development issues. Prerequisite: 4.0 university credits including IDST 1001H and 1002H or permission of instructor.

» IDST-SOCI 3120H: Citizenship Rights and Development
An analysis of the concept of citizenship and rights and their role in social and political transformation. Includes social justice and citizenship struggles; critical perspectives on power; and various citizenship regimes and their implementation on national and global levels. Prerequisite: IDST 2000Y or SOCI 2110H (or 2100Y) or permission of instructor.
IDST-SOCI 3121H: Human Rights—Theory and Practice
A survey of the history, philosophical foundations, critical social theories, and mechanisms for
the implementation of international human rights, as well as of some of the main controversies
regarding specific kinds of human rights. Topics include women’s rights and capabilities;
culture and rights; economic and social rights; refugees and displacement; multinationals and
international human rights activism. Prerequisite: IDST 2000Y or SOCI 2110H (or 2100Y) or
permission of instructor.

IDST 3131H: The Cinema of Global Change in History
An exploration of the historical experience of development and underdevelopment through
documentaries, feature films, and ethnographic cinema, which focuses on the lived experiences of
people who struggle with and against colonialism and imperialism. The work of filmmakers from
developing and developed countries is used. Prerequisite: 4.0 university credits or permission of
instructor. Excludes IDST 3130Y.

IDST 3132H: The Cinema of Contemporary Global Change
An exploration of contemporary development and underdevelopment through documentaries,
feature films, and ethnographic cinema, which focuses on the lived experiences of people who
struggle with and against global inequalities, marginalization, urban poverty, alienation, and
gender inequality. Prerequisite: 4.0 university credits or permission of instructor. Excludes IDST
3130Y.

IDST-POST 3220H: Global Political Economy
An examination of the historical development of the global political economy and of key
debates in the field. Focuses on the ideas that underpin different political-economic systems, the
relationship between domestic and international political economy, finance and trade, and the
political economy of warfare. Prerequisite: 7.0 university credits including 1.0 IDST or POST credit
or permission of instructor.

IDST-ERSC/T 3230H: Environmental Problems and Solutions in Small Island Developing
States: A Field Course (Sc) (see Environmental & Resource Science/Studies)

IDST-POST 3281H: Government and Politics in the Middle East
Examines the main issues and state and non-state actors of the contemporary Middle East, with
a focus on political, social, economic, and ideological factors. Prerequisite: 10.0 university credits
including 1.0 IDST or POST credit at the 2000 level, or permission of the instructor. Excludes IDST-
POST 4280Y, 4281H.

IDST-POST 3282H: Politics of Arab-Israeli Conflict
Examines the main issues and state and non-state actors of the contemporary Arab-Israeli conflict,
with a focus on political and ideological factors. Prerequisite: 10.0 university credits including 1.0
IDST or POST credit at the 2000 level, or permission of the instructor. Excludes IDST-POST 4280Y,
4281H.

IDST-POST 3290H: Causes of War (see Political Studies)

IDST-ADMN-ECON 3310H: The Economics of Developing Countries (see Economics)

IDST-ADMN-ECON 3330H: The Economics of Global Interdependence (see Economics)

IDST-HIST 3401H: Southern Africa in the Nineteenth Century (see History)

IDST-HIST 3402H: Southern Africa in the Twentieth Century (see History)

IDST-CUST 3532H: Issues in Global Media (see Cultural Studies)

IDST-ERST-POST-SAFS 3602H: Environment and Development (see Environmental &
Resource Science/Studies)

IDST-ERST-POST 3603H: Environmental Justice (see Environmental & Resource Science/
Studies)
» IDST 3700Y, 3710H, 3720H: Community-Based Research Project
Students are placed in research projects with community organizations in the Peterborough area. Each placement is supervised jointly by a faculty member and a representative of a community organization. For details, see Community-Based Research Program (p. 429). Prerequisite: 10.0 university credits with a cumulative average of 75%.

» IDST-ANTH 3770Y: Society, Culture, and Development in Africa
The historical dimensions of socio-cultural diversity in sub-Saharan Africa are examined, along with the changing economic relationship of the area with the global economy; the politics of sub-regional conflict and continental and regional integration; trends toward democratization; and the strengthening of civil society. Offered only in Ghana.

» IDST-ANTH 3781Y: Ghana Seminar
Contemporary Ghana is examined in the light of its historical background and its patterns of stratification, religion, ethnicity, and gender. Processes of structural change, including economic policy, social and political movements are explored. Excludes IDST 3780Y. Offered only in Ghana.

» IDST-ANTH 3790Y: Local Dynamics of Change
The social, political, and economic conditions that encourage or block micro-level improvements are examined, as are the role of women’s organizations and other local institutions and their relations with local District Assemblies and other government authorities. Offered only in Ghana.

» IDST-ANTH-ERST-SAFS 3800D: Community Development
The theory and practice of community development, with an extensive field placement. Offered only in Ghana.

» IDST-POST-WMST 3881H: Gender, Globalization, and Resistance
Focuses on how globalization is transforming gender dynamics that underpin relationships between and within states, markets, civil society, and households. Introduces students to feminist perspectives on the global political economy, focusing on specific issues such as international trade agreements, labour, security, migration, health, environment, and human rights. Prerequisite: 1.0 IDST, POST, or WMST credit at the 2000 level or beyond, or permission of instructor. Excludes WMST-POST 3880Y, 4881H.

» IDST-ANTH 3890Y: Latin American Economies, Cultures, and Societies
An examination of the processes of social, cultural, and economic change in Latin America. Topics explored include colonialism, formations of states, production systems, inequality, gender, indigeneity, and livelihoods as well as political struggles against and for development. Prerequisite: 4.0 university credits or permission of instructor.

» IDST 4000Y: Advanced Seminar in Development Theory and Research
An exploration of key classical and contemporary works in development studies. Prerequisite: A minimum 75% cumulative average and 14.0 university credits including IDST 2000Y or permission of instructor. Excludes IDST 3000Y.

» IDST 4010Y, 4020D: Honours Thesis
IDST 4010Y is a single credit, IDST 4020D is a double credit. A specific scholarly project on a well-defined topic. Prerequisite: 14.0 university credits, a minimum 80% average in IDST courses, permission of department chair, and permission of instructor.

» IDST 4110H: Capitalism
An advanced introduction to debates over the origins, nature, and spread of capitalism. Highlights capitalism’s relationship to development, the environment, gender, identity, and politics. Prerequisite: 14.0 university credits including IDST 2000Y or permission of instructor.
» **IDST 4120H: Global Migration**  
An examination of the theoretical and conceptual debates that centre on the causes and consequences of international migration. Transnationalism, gender, citizenship, identity, social and spatial inequalities, labour markets, migrant livelihoods, politics, and social exclusion are all explored. Prerequisite: 14.0 university credits including IDST 2000Y or permission of instructor.

» **IDST-GEOG 4130H: Global Metropolis**  
An examination of cities and urbanization in a global context. Explores the metropolis and the global economy, urban inequalities, poverty, work, violence, marginalization, housing, the environment, and urban struggles. Comparative case studies are used. Prerequisite: 14.0 university credits including 1.0 IDST or GEOG credit at the 2000 level or permission of instructor.

» **IDST 4220Y: Assessment of Development Projects**  
An examination of techniques for analyzing and assessing development projects focusing on selected case studies of Canadian development assistance projects abroad. Project evaluation placement takes place in the second term. Open only to Honours students in International Development Studies. Prerequisite: 14.0 university credits including IDST 2000Y and permission of instructor or department chair required before registration.

» **IDST-POST-SOCI 4230H: Global Civil Society**  
An examination of the reactions by agents of global civil society to the process of economic globalization and its impact on the developing world. Prerequisite: 14.0 university credits including 1.0 IDST or POST or SOCI credit at the 2000 level or permission of instructor.

» **IDST-CAST-POST 4240Y: Canada, Globalization, and International Development**  
Canada’s place within twentieth- and twenty-first-century globalization, along with its North-South policies and practices, are examined. Topics include Fordism and post-Fordism, global production and social reproduction, environment, inequality, dissent, development assistance, and the roles of Canadian business and civil society in international development. Prerequisite: 14.0 university credits including 1.0 IDST or CAST or POST credit at the 2000 level or permission of instructor.

» **IDST-POST 4255H: Globalization and the Politics of Work (see Political Studies)**

» **IDST-POST 4260H: Global Governance and Social Justice**  
Provides an in-depth discussion of the relationship between global governance and social justice. Particular attention is paid to global institutions such as the UN and the World Bank to highlight issues of social justice on a global scale. Prerequisite: 14.0 university credits including 1.0 IDST or POST credit at the 2000 level or permission of instructor.

» **IDST-POST 4271H: History of Democracy and Global Order (see Political Studies)**

» **IDST-POST 4272H: Challenges for Democracy and Global Order (see Political Studies)**

» **IDST-ANTH-SOCI 4512H: Contemporary Issues in Global Health**  
Analyzes some of the critical global health issues and challenges that face humanity in the new century, and the manner in which global institutions are addressing those issues. Interdisciplinary in scope, the course draws on scholarship from global public health, political economy, biopolitics, and human rights. Prerequisite: 14.0 university credits including 1.0 IDST or ANTH or SOCI credit at the 2000 level or permission of instructor.

» **IDST-ERST-POST-SAFS 4610H: Global Environmental Policy (see Environmental & Resource Science/Studies)**
» **IDST-ANTH 4750H: Perspectives on Ethnicity**
   An examination of ethnic consciousness and identity formation through theoretical and ethnographic case studies in a variety of settings. Identity construction in relation to the processes of development is explored, as is the articulation and comparison of ethnicity with gender, class, kinship, nationalism, and other markers of social and cultural difference. Prerequisite: 14.0 university credits including ANTH 2001H or 2002H or IDST 2000Y or permission of instructor.

» **IDST-ANTH 4760H: Family and Modernity**
   An examination of the dynamics of the family and its relation to development. Themes considered include historical change in family forms; marriage patterns; gender relations and social hierarchy; and the role of kin and family in economic change. Prerequisite: 14.0 university credits including ANTH 2001H or 2002H or IDST 2000Y or permission of instructor.

» **IDST-ANTH-INDG 4770H: Anthropology of Colonialism (see Anthropology)**

» **IDST 4800Y, 4801H, 4802H: Research Practicum**
   Under the direct supervision of a departmental faculty member, research activities are undertaken within the faculty member’s ongoing research program. Open to Honours students in International Development Studies with 14.0 university credits, a minimum 80% cumulative average in all IDST courses completed, permission of instructor, and permission of department chair.

» **IDST 4900Y, 4901H, 4902H: Reading Course**
   Prerequisite: 14.0 university credits and permission of department chair and instructor.
International Political Economy

trentu.ca/ipe

Program Coordinator
H. M. Uluorta, BA, BSW (British Columbia), MA (International Institute of Social Studies), PhD (York)

The joint-major Honours program in International Political Economy (IPE) is offered by the Department of Political Studies and is intended for students with an interest in the interconnected nature of the study of politics and economics at the international and global levels, which they wish to explore while pursuing a joint-major Honours option in another discipline or program. The rise of the global South, the worsening of inequalities, the displacement of workers through outsourcing and robotics, financialization, a resurgence of nationalist social forces have raised the prominence of the study of IPE in recent years among scholars and students from a wide variety of academic backgrounds. IPE merges Political Studies with Economics and International Development Studies, as well as Anthropology, English Literature, Environmental & Resource Science/Studies, Gender & Women’s Studies, History, and Indigenous Studies.

Bachelor of Arts Program in International Political Economy

• In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).
• The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.
• Courses taken abroad may be counted toward the joint-major by special permission of the program coordinator.

The joint-major Honours program. 20.0 credits including the following 7.0 credits:

– 1.0 ECON credit consisting of ECON 1010H and 1020H
– 1.0 POST credit consisting of POST 1001H and 1002H
– 1.0 credit from POST 2230Y or IDST 2000Y
– 1.0 credit from Category A
– 1.0 credit from Category B
– 1.0 credit from Category C
– 1.0 additional credit from one of Category A, B, or C
– At least 1.0 of the total 7.0 credits must be at the 3000 level
– At least 1.0 of the total 7.0 credits must be at the 4000 level

</table>
2019–2020 will be the final year for acceptance into the program. Currently enrolled students will be able to complete the program requirements at Trent and Loyalist as outlined.

For September 2020, the University will be offering a new opportunity in Journalism. Students will receive a three-year General degree in Media Studies from Trent and a diploma from another partnering College.

The Trent/Loyalist Journalism program allows students to build a foundation in critical and analytical thinking, ethical awareness, and journalistic practice, while pursuing discipline-based study in a field of choice.

From years 1 to 3, students are based at Trent to complete the Journalism core courses as well as many of their joint-major discipline requirements. In each of years 1 and 2, students take a Journalism course that is included in the block transfer earned from Loyalist. In the summers following years 2 and 3, students attend an intensive six-week Journalism program at Loyalist College in Belleville, developing knowledge and skills in civic literacy, journalistic writing styles, media production, design and performance, with opportunities to apply their discipline-based studies from Trent (see notes). In year 4, students continue the Journalism curriculum at Loyalist. If required, students may take additional Trent electives or discipline-based courses in the summers following years 1 to 3. The final year is an integrated year in which students, though based at Loyalist, develop a capstone project that meets both the Trent joint-major discipline requirement for a major project at the Honours level and Loyalist’s requirements for enterprise journalism.

Students graduate with a Trent Honours joint-major degree, an advanced diploma in Journalism—Online, Print and Broadcast from Loyalist, and a comprehensive portfolio of work that demonstrates job-ready skills. The program concludes with an eight-week field placement in a professional broadcast, print, or online newsroom or related setting.

Notes

• In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).

• The same course may not simultaneously satisfy the requirements of both programs in the joint-major degree. Students are strongly advised to plan course selection carefully in order to meet this regulation, particularly in year 1 of the program. Advising information is available through the Journalism Office.

• Journalism offers a direct-entry joint-major Honours program only—there is no General program, single-major Honours program, or minor.

• In year 1 and year 2 of the program, students will be automatically registered in a 0.5-credit Loyalist course, taught at Trent’s Symons Campus. Therefore, students will normally enrol in 4.5 university credits in each of years 1 and 2.

• In year 4 of the program, students are required to enrol in JOUR 4010Y/4015C/4020D to complete the capstone project, which is counted toward the Trent joint-major discipline requirements.

• Joint-major Honours BA programs can normally be completed within four years, except for the joint-major Honours BA in Psychology, which can normally be completed within five years. Joint-major Honours BSc programs can normally be completed within five years. Note that for completion of these degrees, students may need to take courses during the summer session.
• For students who began the program prior to 2015–2016, the intensive six week summer Journalism program at Loyalist College in Belleville follows years 1 and 2.
• Detailed information about the program and progression through the degree is provided at trentu.ca/journalism.

Bachelor of Arts Program in Journalism

The joint-major Honours program. 20.0 credits which includes the following 10.5 credits:
- 1.5 Trent Journalism core credits consisting of PHIL 1200H and CUST 2035Y
- 1.5 Trent Journalism core credits from COIS 1010H, CUST 1535H, ENGL 1001H, ENGL 1851H, INDG 2030H, PHIL 1100H, or WRIT 1001H
- 7.5 credits awarded as block transfer on completion of the Ontario College Advanced Diploma in Journalism—Online, Print and Broadcast at Loyalist College with a minimum grade of 65% in each course and a minimum overall average of 70%

Bachelor of Science Program in Journalism

The joint-major Honours program. 20.0 credits which includes the following 10.5 credits:
- 1.5 Trent Journalism core credits consisting of PHIL 1200H and CUST 2035Y
- 1.5 Trent Journalism core credits from COIS 1010H, CUST 1535H, ENGL 1001H, ENGL 1851H, INDG 2030H, PHIL 1100H, or WRIT 1001H
- 7.5 credits awarded as block transfer on completion of the Ontario College Advanced Diploma in Journalism—Online, Print and Broadcast at Loyalist College with a minimum grade of 65% in each course and a minimum overall average of 70%
- 14.0 science credits are required for the Honours degree, including 1.0 MATH credit

Please consult the academic timetable for information on courses that will be offered in 2019–2020, including when they will be scheduled.

» COIS 1010H: The Digital World (Sc) (see Computing & Information Systems)
» CUST 1535H: Introduction to Media Studies (see Cultural Studies)
» CUST 2035Y: Media and Society (see Cultural Studies)
» ENGL 1001H: Truth, Lies, and Storytelling (see English Literature)
» ENGL 1851H: The Writing Life: An Introduction to Creative Writing (see English Literature)
» INDG 2030H: Indigenous Peoples and News Media in Canada (see Indigenous Studies)
» PHIL 1100H: Introduction to Philosophy: Moral and Political (see Philosophy)
» PHIL 1200H: Critical Thinking (see Philosophy)
» JOUR 4010Y/4015C/4020D: Journalism Project Course
  Students develop a project which integrates Journalism with the student’s chosen joint major discipline. There are many options for this project and students work with the course instructor (and a department supervisor if required) to create a course contract, develop a research proposal and project plan, and to ultimately create a final project fulfills the remaining requirements in the joint major discipline. Students in this course are based at Loyalist College, and this project must in whole or in part meet the Loyalist requirement for enterprise journalism. Prerequisite: Open only to joint-major Journalism students in their final year of study.
» WRIT 1001H: Write in Time (see General University Courses)
Kinesiology

[trentu.ca/kinesiology](trentu.ca/kinesiology)

**Program Coordinator**

**I. Brenner**, RN, BSc, BPhysEd, BScN (Toronto), MSc (Queen’s), PhD (Toronto)

Kinesiology is the scientific study of human movement with a focus on prevention of injury and chronic disease. Trent University collaborates with the University of Ontario Institute of Technology (UOIT) to deliver this comprehensive program in which the first two years are completed at Trent’s Peterborough campus, and years three and four at UOIT in Oshawa. Students gain the knowledge and skills to become a kinesiology practitioner, able to prescribe individualized exercise programs to improve or maintain the health, functional capacity, and well-being of a range of healthy and clinical populations.

Students in this major have the opportunity to apply for applied internship opportunities in the fourth year of study. Kinesiology is now a regulated health profession in Ontario and this degree provides the skills and knowledge to function as a health professional and write the competency exam to become a registered kinesiologist.

**Admission Requirements**

The Trent–UOIT Kinesiology degree pathway is a direct-entry program. A secondary school diploma and six Ontario U/UM credits (or equivalent) with a minimum average of 75% are required. These credits must include English (ENG4U, with a minimum grade of 60%), Biology (SBI4U), and one of Advanced Functions (MHF4U), Calculus and Vectors (MCV4U), or Mathematics of Data Management (MDM4U). Chemistry (SCH4U) is strongly recommended. Admission is competitive and an average of higher than 75% may be required.

The specific average for admission varies from year to year. Possession of the minimum requirements does not guarantee acceptance.

**Progression Requirements**

At the end of year two, qualified students progress into the Bachelor of Health Science (Honours) program in Kinesiology at UOIT, on an advanced standing basis, subsequent to successful completion of the following 10.0 Trent University credits with a minimum 75% cumulative average:

| BIOL 1020H | NURS 1550H | PSYC 1020H |
| BIOL 1030H | NURS 2000H | PSYC 1030H |
| BIOL 1050H | NURS 2345H | PSYC 2018H |
| BIOL 1051H | NURS-BIOL 2250H | PSYC 2019H |
| CHEM 1000H | NURS-BIOL 2270H | PSYC 2210H |
| CHEM 1010H | NURS 2550H | 0.5 additional university credit |
| CHEM-BIOL 2300H | PHYS-BIOL 1060H |

For information on individual courses, see Calendar entries for Biology, Chemistry, Nursing, Physics, and Psychology.

Professors
See faculty listings in Economics and in Mathematics

This program is intended for mathematically talented students who are considering graduate studies and possibly a research career in economics.

Bachelor of Science Program in Mathematical Economics

- In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).
- For information on individual courses, see Calendar entries for Economics and for Mathematics.
- Students wishing to transfer to a single major in either Economics or Mathematics should consult the chair of the appropriate department before beginning third year.
- The following courses are particularly suited to the Mathematical Economics program, and students may wish to consider them as electives: MATH-PHYS 2150H, MATH 2350H, 2570H, 3700H, 3510H, 3560H, 3610H, MATH-ECON 4251H (if not taken as a required course), MATH 4510H (if not taken as a required course), and 4561H.

The single-major Honours program. 20.0 credits including the following 13.0 credits:
- 3.5 MATH credits consisting of MATH 1110H, 1120H, 1350H, 1550H, 2110H, 2560H, and 3350H
- 0.5 credit from MATH-ECON 4251H or MATH 4510H
- 1.0 ECON credit at the 3000 level or beyond in addition to the above
- 2.0 ECON credits in addition to the above (excluding ECON-ADMN 2200H and 2250H)
- 14.0 science credits are required for the Honours degree
Mathematical Physics

Program Coordinators

Chair of the Department of Mathematics
W. Feng, BSc (Hebei), MSc (Shaanxi), PhD (Glasgow)

Chair of the Department of Physics & Astronomy
R. Wortis, BSc (Harvard), MSc, PhD (Illinois)

Professors
See faculty listings in Mathematics and in Physics & Astronomy

Physics is the most fundamental of the natural sciences, and mathematics is the language of physics. This program develops, in parallel, experience with the central theoretical frameworks of physics and facility with the mathematical methods which form the foundation and tools of physics.

Bachelor of Science Program in Mathematical Physics

• In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).
• The Honours program in Mathematical Physics is a sequence of courses that compose an integrated whole and are offered by the Departments of Mathematics and Physics & Astronomy.
• For information on individual courses see Calendar entries for Mathematics, Physics & Astronomy, and Computing & Information Systems.

The single-major Honours program. 20.0 credits including the following 14.0 credits:
- 4.0 MATH credits consisting of MATH 1110H, 1120H, 1350H, 1550H, 2110H, 2120H, 2350H, and 3770H
- 2.5 MATH-PHYS credits consisting of MATH-PHYS 2150H, 3130H, 3150H, 3160H, and 4140H (or 3140H)
- 5.5 PHYS credits consisting of PHYS 1001H, 1002H, 2610H, 2620H, 2700H, 3200Y, 3610H and 4610H (or 4600Y), 4220H, and 4700H
- 0.5 COIS credit consisting of COIS 1020H
- 0.5 MATH credit from MATH 2570H (or 3570H), 3560H, 4120H, or 4180H
- 0.5 PHYS credit from PHYS 4050H, 4240H, 4310H, 4410H, or 4520H
- 0.5 credit from MATH-COIS 3180H (or 2180H) or PHYS-COIS 2310H
Mathematics

trentu.ca/math

Professor and Chair of the Department

W. Feng, BSc (Hebei), MSc (Shaanxi), PhD (Glasgow)

Professors

K. Abdella, BSc (Trent), MSc (Alberta), PhD (Western)
M. Pollanen, BSc (Carleton), MSc, PhD (Toronto)

Associate Professor

S. Bilaniuk, BSc (Toronto), AM, PhD (Dartmouth)

Assistant Professors

W. Burr, BScEng, MSc, PhD (Queen’s)
X. Wang, BSc (Capital Normal), PhD (Western)

The curriculum in Mathematics has been designed to accommodate a wide variety of interests in both pure and applied mathematics. All students in the Mathematics major program must take core courses in calculus, algebra, probability, and statistics. The intent is to provide students with both breadth and depth in Mathematics while allowing them to pursue those areas that interest them.

Notes

• MATH 1001H, 1080H, and 2080Y do not satisfy the Mathematics requirement for a Bachelor of Science degree.
• Students wishing to register for a reading course require either an 85% minimum in any prerequisite for the course or the chair’s approval.

Bachelor of Science Program in Mathematics

• In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).
• The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.
• The following core courses are required for all Mathematics majors and joint-majors: MATH 1110H, 1120H, 1350H, 1550H, 2110H, 2200H, and 2560H.

The single-major Honours program. 20.0 credits including the following 11.0 credits:
– 5.0 MATH credits consisting of MATH 1110H, 1120H, 1350H, 1550H, 2110H, 2120H, 2200H, 2350H, 2560H, and 4800H
– 0.5 credit from MATH 2150H, 2260H, 2600H, 3180H (or 2180H), or COIS 1020H
– 1.0 MATH credit from MATH 3150H, 3160H, 3310H, 3350H, 3510H, 3560H, 3610H, 3770H, or 3790H
– 1.0 MATH credit at the 2000 level or beyond in addition to the above
– 2.0 MATH credits at the 3000 level or beyond in addition to the above
– 1.5 MATH credits at the 4000 level in addition to the above
– 14.0 science credits are required for the Honours degree
The joint-major Honours program. 20.0 credits including the following 7.5 credits:
- 5.0 MATH credits consisting of MATH 1110H, 1120H, 1350H, 1550H, 2110H, 2120H, 2200H, 2350H, 2560H, and 4800H
- 0.5 credit from MATH 2150H, 2260H, 2600H, 3180H (or 2180H), or COIS 1020H
- 1.0 MATH credit from MATH 3150H, 3160H, 3310H, 3350H, 3510H, 3560H, 3610H, 3770H, or 3790H
- 1.0 MATH credit at the 4000 level in addition to the above
- 14.0 science credits are required for the Honours degree

The single-major General program. 15.0 credits including the following 6.0 credits:
- 4.0 MATH credits consisting of MATH 1110H, 1120H, 1350H, 1550H, 2110H, 2200H, 2350H, and 2560H
- 1.0 credit from MATH 2120H, 2150H, 2260H, 2600H, 3180H (or 2180H), or COIS 1020H
- 0.5 MATH credit from MATH 3150H, 3160H, 3310H, 3350H, 3510H, 3560H, 3610H, 3770H, or 3790H
- 0.5 MATH credit at the 3000 level or beyond in addition to the above
- 11.0 science credits are required for the General degree

The joint-major General program. 15.0 credits including the following 5.0 credits:
- 3.5 MATH credits consisting of MATH 1110H, 1120H, 1350H, 1550H, 2110H, 2200H, and 2560H
- 0.5 credit from MATH 2120H, 2150H, 2260H, 2350H, 2600H, 3180H (or 2180H), or COIS 1020H
- 0.5 MATH credit from MATH 3150H, 3160H, 3310H, 3350H, 3510H, 3560H, 3610H, 3770H, or 3790H
- 0.5 MATH credit at the 3000 level or beyond in addition to the above
- 11.0 science credits are required for the General degree

The minor in Mathematics consists of 5.0 MATH credits, excluding MATH 1001H, 1005H, 1051H, 1052H, 1080H, and 2080Y.

Specialization in Mathematical Finance
Students who have fulfilled the requirements for a single-major Honours degree in Mathematics may graduate with a Specialization in Mathematical Finance if they have successfully completed the following 6.5 credits:
- 5.0 MATH credits consisting of MATH 2150H, 2560H, 2570H (or 3570H), 3150H, 3160H, 3180H (or 2180H), 3350H, 3510H, 3560H, and 4510H
- 1.5 ECON credits consisting of ECON 1010H, 1020H, and 3020H

Note
- The following courses are recommended: COIS 1020H, MATH 4120H, MATH 4560H.
Specialization in Statistics

Students who have fulfilled the requirements for a single- or joint-major Honours degree in Mathematics may graduate with a Specialization in Statistics if they have successfully completed the following 4.5 credits:

- 3.0 MATH credits consisting of MATH 2560H, 2570H, 3180H, 3560H, 4560H, and 4561H
- 1.0 COIS credit consisting of COIS 1010H and 1020H
- 0.5 credit from MATH 4570H, 4850Y, 4851H, 4852H, or COIS 4400H

Note

- The following courses are strongly recommended for students planning to pursue graduate studies in statistics: MATH 2200H, 3160H, 3770H, 3790H, 4620H.

Please consult the academic timetable for information on courses that will be offered in 2019–2020, including when they will be scheduled.

» MATH 1001H: Precalculus Mathematics (Sc)
  Designed for students needing to strengthen their math background in preparation for further courses in mathematics or the sciences. Topics include rational numbers, decimal representation, real numbers, inequalities, algebraic expressions; trigonometry; functions, including algebraic, exponential, logarithmic, and trigonometric functions; analytic geometry; simple sequences and series. Prerequisite: Ontario Grade 11 Functions and Relations (MCR3U) or equivalent. Not open to students enrolled in or with credit for any MATH courses other than MATH 1051H, 1052H, 1350H, or 2080Y. Does not satisfy the Mathematics requirement for a Bachelor of Science degree. Not for credit toward a major or minor in Mathematics.

» MATH 1005H: Applied Calculus (Sc)
  An introduction to the methods and applications of calculus. Derivatives, exponential and logarithmic functions, optimization problems, related rates, integration, partial derivatives, differential equations. Selected applications from the natural and social sciences. Prerequisite: A Grade 12U mathematics course or its equivalent. Not open to students enrolled in or with credit for MATH 1110H or 1120H. Not for credit toward a major or minor in Mathematics.

» MATH 1051H: Non-Calculus Statistics I: Elementary Probability and Statistics (Sc)
  Data summary, elementary probability, discrete and continuous distributions, the central limit theorem, estimation and hypotheses testing. This course uses high school mathematics as a foundation and involves the use of computer software. Not open to students enrolled in or with credit for MATH 2560H. Not for credit toward a major or minor in Mathematics. Excludes MATH 1050Y.

» MATH 1052H: Non-Calculus Statistics II: Elementary Statistical Methods (Sc)
  Linear regression models, goodness-of-fit and analysis of contingency tables, analysis of variance for completely randomized design, randomized block design and factorial design, nonparametric tests. Use of computer methods for analysis of real data sets. Prerequisite: MATH 1051H. Not for credit toward a major or minor in Mathematics. Excludes MATH 1050Y.

» MATH-CCTH 1080H: Math for Everyday Life (Sc)
  Should you buy a ticket for 6/49 or Super 7? If you test positive for a rare disease, what is the chance that you actually have it? How are E. coli bacteria and interest rates related? These are some of the questions we investigate in this course. We also look into the use, misuse, and abuse of mathematics in the media. Prerequisite: Ontario Grade 11 Functions & Relations (MCR3U) or equivalent. Not open to students enrolled in or with credit for any other MATH courses. Does not satisfy the Mathematics requirement for a Bachelor of Science degree. Not for credit toward a major or minor in Mathematics.
» **MATH 1100H: Calculus I: Limits, Derivatives, and Integrals (Sc)**
Limits, differentiation, and integration through the basic substitution rule, with applications to other areas of mathematics and the physical and social sciences. Prerequisite: Grade 12 Advanced Functions or equivalent with at least 60%. Strongly recommended: Grade 12U Calculus and Vectors. Excludes MATH 1100Y, 1101Y.

» **MATH 1120H: Calculus II: Integrals and Series (Sc)**
Techniques and applications of integration, sequences, series, and power series, with applications to other areas of mathematics and the physical and social sciences. Prerequisite: MATH 1110H. Excludes MATH 1100Y, 1101Y.

» **MATH 1350H: Linear Algebra I: Matrix Algebra (Sc)**
Vectors, systems of linear equations, matrices, determinants, linear transformations, eigenvalues, and eigenvectors. Prerequisite: A Grade 12U mathematics course with at least 60%. Recommended: Grade 12U Calculus and Vectors.

» **MATH 1550H: Probability I: Introduction to Probability (Sc)**
Probability, random variables, probability distributions. Does not count as the Introductory Statistics course required for admission to some professional schools. Prerequisite: MATH 1005H or 1110H or permission of instructor.

» **MATH-EDUC 2080Y: Mathematics for Teacher Education (Sc)**
A course in mathematics and mathematical thinking for prospective elementary school teachers. Number systems and counting, graphs and networks, symmetry and patterns, mathematics in nature and art, probability and statistics, measurement and growth. Excludes any MATH course, or its equivalent, which counts toward a major or minor in Mathematics. Does not satisfy the Mathematics requirement for a Bachelor of Science degree.

» **MATH 2110H: Calculus III: Calculus of Several Variables (Sc)**
Multivariable functions, curves, and surfaces in two and three dimensions. Partial differentiation and applications. Multiple integrals. Prerequisite: 60% or higher in MATH 1350H and in 1120H.

» **MATH 2120H: Calculus IV: Vector Calculus (Sc)**
Parametric curves and surfaces, vector functions and fields. Line integrals, Green’s Theorem. Surface integrals, curl and divergence, Stokes’ and Divergence Theorems. Prerequisite: MATH 2110H.

» **MATH-PHYS 2150H: Ordinary Differential Equations (Sc)**
First order equations; qualitative and numerical methods. Second order linear equations. Linear systems. Applications to physical and biological models. Laplace transforms. Prerequisite: 60% or higher in MATH 1350H.

» **MATH 2200H: Mathematical Reasoning (Sc)**
Introduces concepts and methods that are essential for all advanced courses in pure mathematics. Intended for Mathematics majors early in their program. Logic, abstraction, proof techniques. Basic combinatorics. Sets, functions, (in/sur/bi)jections. Cantor’s transfinite arithmetic. Number theory: divisibility, prime factorization, modular arithmetic. Prerequisite: MATH 1120H or 1350H.

» **MATH 2260H: Geometry I: Euclidean Geometry (Sc)**
Elements of Euclidean geometry, stressing links to modern mathematical methods. Geometric transformations and symmetry. Recommended for Education students. Prerequisite: One of MATH 1005H, 1110H, or 1350H.

» **MATH 2350H: Linear Algebra II: Vector Spaces (Sc)**
Complex numbers, vector spaces, basis and dimension, linear transformations, diagonalization, quadratic forms, least squares, inner product spaces, orthogonality. Prerequisite: MATH 1110H and 1350H.
MATH 2560H: Statistics I: Introduction and Applications (Sc)
An introduction to applied statistical methods. Probability distributions and the central limit theorem, methods of point estimation, confidence intervals, hypothesis testing, comparative inferences, and nonparametric methods. Computer methods in statistics. Prerequisite: MATH 1550H and one of MATH 1005H or 1110H.

MATH 2570H: Probability II: Intermediate Probability (Sc)
Intermediate probability theory as a basis for further study in mathematical statistics and advanced probability, including stochastic processes. Random variables, jointly distributed random variables, transformations and generating functions, conditioning and conditional expectation. Binomial, Poisson, Exponential, Gamma, and Normal distributions. Prerequisite: MATH 1350H, 1550H, and one of MATH 1005H or 1110H. Excludes MATH 3570H.

MATH-COIS 2600H: Discrete Structures (Sc)
Mathematics related to computer science, including sets and relations, counting techniques and recursive relations, trees and networks. Applications to analysis of algorithms, data structure, and optimization problems. Prerequisite: MATH 1350H and 1120H; or COIS 1020H, MATH 1350H, and one of MATH 1005H or 1110H.

MATH-PHYS 3130H: Classical Mechanics (Sc) (see Physics & Astronomy)

MATH-PHYS 3150H: Partial Differential Equations (Sc)

MATH-PHYS 3160H: Methods of Applied Mathematics (Sc)
Differential equations in applied mathematics, including Bessel, Legendre, hypergeometric, Laguerre, Hermite, Chebyshev, etc. Series and numerical solutions. Properties of the special functions arising from these equations. Prerequisite: MATH-PHYS 2150H. Recommended: MATH 2200H.

MATH-COIS 3180H: Introduction to Numerical and Computational Methods (Sc)
Error analysis, nonlinear equations, linear systems, interpolation methods, numerical differentiation and integration and initial value problems. Prerequisite: 60% or higher in MATH 1005H or 1110H. Excludes MATH-COIS 2180H.

MATH 3200H: Number Theory (Sc)
Divisibility (GCDs, LCMs, Euclidean algorithm, Bezout’s identity). Linear Diophantine Equations. Prime numbers (Factorization; Fermat/Mersenne numbers; pseudoprimes; Carmichael numbers). Modular Arithmetic (Chinese Remainder Theorem; Fermat/Euler theorem). Group of units mod m. Primitive roots. Quadratic Residues (Legendre symbols; Quadratic Reciprocity). Prerequisite: MATH 1350H and 2200H.

MATH-COIS 3210H: Mathematical Cryptography (Sc)
» MATH 3260H: Geometry II: Projective and Non-Euclidean Geometry (Sc)
Elements of projective and non-Euclidean geometry, including an introduction to axiomatic systems. Prerequisite: MATH 1110H or 1350H.

» MATH 3310H: Algebra III: Introduction to Abstract Algebra (Sc)
An introduction to the fundamental algebraic structures: groups, rings, fields. Subgroups and subrings, homomorphisms and isomorphisms, quotient structures, finite fields. Selected applications. Prerequisite: 60% or higher in MATH 2200H and 2350H. Excludes MATH 3320H, 3360H.

» MATH-COIS 3350H: Linear Programming (Sc)
An introduction to the concepts, techniques, and applications of linear programming and discrete optimization. Topics include the simplex method, duality, game theory, and integer programming. Prerequisite: MATH 1350H.

» MATH 3510H: Mathematical Finance (Sc)

» MATH 3560H: Statistics II: Linear Statistical Models (Sc)
Linear and generalized linear models, introduction to smoothing and simulation, additive models, and topics in distributions and dimensionality. Prerequisite: MATH 1350H and 2560H. Recommended: MATH 2350H.

» MATH 3610H: Discrete Optimization (Sc)
An introduction to the concepts, techniques, and applications of discrete optimization. Topics include integer programming, dynamic programming, network optimization, and approximation methods for NP hard problems. Prerequisite: MATH 1350H and one of MATH 2200H or MATH-COIS 2600H.

» MATH 3700H: Metric Geometry and Topology (Sc)

» MATH 3770H: Complex Analysis (Sc)

» MATH 3790H: Real Analysis (Sc)
The real number system. Limits. Continuity. Differentiability. Mean-value theorem. Convergence of sequences and series. Uniform convergence. Prerequisite: Prerequisite: 60% or higher in MATH 1120H and 2200H.

» MATH 3810H: Ancient and Classical Mathematics (Sc)
Traces the historical development of mathematics from prehistory to medieval times, and the interactions between the development of mathematics and other major trends in human culture and civilization. We study the mathematics of ancient Egypt and Mesopotamia, and classical Greece and Rome. Prerequisite: MATH 1120H. Recommended: MATH 2200H or 2350H.
» **MATH 3820H: Mathematics from Medieval to Modern Times (Sc)**  
Traces the development of mathematical ideas, abstraction, and proofs. The genesis of modern arithmetic in medieval India, the birth of algebra in the Islamic world, and their influence on medieval European mathematics. Renaissance mathematics (polynomial equations, analytic geometry). The Enlightenment (calculus, number theory). The apotheosis of rigour since the nineteenth century. Prerequisite: MATH 1120H. Recommended: MATH 2200H or 2350H.

» **MATH 3900Y, 3901H, 3902H, 3903H, 3904H: Reading Course (Sc)**  
Details may be obtained by consulting the department. Prerequisite: 85% minimum in any prerequisite for the course; or permission of department chair.

» **MATH 4120H: Mathematical Modelling I (Sc)**  
Provides an introduction to the mathematical modelling process and applies this process to simple mathematical modelling problems arising from a variety of application areas in science and engineering. Mathematical modelling techniques, such as differential equations, discrete systems, and numerical methods along with computer aids are utilized. Prerequisite: MATH-PHYS 2150H.

» **MATH-PHYS 4140H: Advanced Classical Mechanics (Sc) (see Physics & Astronomy)**

» **MATH 4180H: Advanced Numerical Methods (Sc)**  
Deals with a variety of numerical methods for solving ordinary and partial differential equations arising from scientific and engineering applications. Topics include finite difference, adaptive techniques, multi-step methods, Runge-Kutta methods, direct and iterative methods for systems, stability and convergence. Prerequisite: MATH 2150H and 3180H (or 2180H).

» **MATH-COIS 4215H: Mathematical Logic (Sc)**  
An introduction to the syntax and semantics of propositional and first-order logics through the Soundness, Completeness, and Compactness Theorems. Prerequisite: MATH 2150H and 3180H (or 2180H).

» **MATH-ECON 4251H: Advanced Mathematical Methods for Economics (Sc)**  
Provides the fundamental mathematical methods that are required to understand advanced topics in economics and to analyze economic models. Also useful for students who intend to pursue graduate studies in in economics, business, or applied mathematics. Topics include differential equations, difference equations, optimization, optimal control theory, and calculus of variation. Prerequisite: ECON 3250H or both MATH 2110H and 2150H.

» **MATH 4310H: Algebra IV: Galois Theory (Sc)**  
Extension fields and Galois groups; the fundamental theorem of Galois Theory; the insolubility of the quintic. Prerequisite: MATH 3310H.

» **MATH 4400H: Mathematics Through Problem-Solving (Sc)**  
A seminar-based course in problem solving. Topics include invariants, number properties, polynomials, functional equations, inequalities, combinatorial games. Prerequisite: MATH 2200H. Excludes MATH 4951H.

» **MATH 4510H: Mathematical Risk Management (Sc)**  
Basic mathematical theory and computational techniques for how financial institutions can quantify and manage risks in portfolios of assets. Topics include: mean-variance portfolio analysis, the capital asset pricing model and Value at Risk (VaR). Prerequisite: MATH 1550H and 2110H.

» **MATH 4560H: Topics in Statistics (Sc)**  
Selected topics in statistics, including time series analysis, advanced modeling and regression, computational statistics, and computational algorithms for statistics. Prerequisite: MATH 2560H and one of MATH 3560H or 2570H (or 3570H). Recommended: MATH 2350H.
» MATH 4561H: Sampling and Design of Experiments (Sc)
Sampling and design of experiments. Topics in design of experiments include ANOVA, randomized block designs, factorial designs, blocking and confounding in factorial designs, response surface methods. Topics in sampling include simple random, systematic, stratified and cluster sampling, sample size estimation, unequal probability sampling, and multistage designs. Prerequisite: MATH 2350H and 2560H. Recommended: MATH 3560H.

» MATH 4570H: Probability III: Stochastic Processes (Sc)
Discrete- and continuous-time Markov chains, birth and death processes, random walk problems, elementary renewal theory, Markov processes, Poisson processes, queueing theory. Prerequisite: MATH 2570H and one of MATH 3700H, 3770H, or 3790H.

» MATH 4610H: Introduction to Graph Theory (Sc)
An introduction to graph theory with emphasis on both theory and applications and algorithms related to computer science, operation research, and management science. Prerequisite: MATH 2200H or MATH-COIS 2600H.

» MATH 4620H: Introduction to Combinatorics (Sc)
An introduction to combinatorics. The topics include counting techniques, generating functions, and block design. Prerequisite: MATH 2200H.

» MATH 4710H: Chaos, Symbolic Dynamics, Fractals (Sc)
An introduction to discrete dynamical systems. Periodicity, attraction. Parametrized families of functions, bifurcation, chaos. Symbolic dynamics, conjugacy, Cantor Sets. Deterministic fractals, fractal dimension, Lyapunov exponents, entropy. Prerequisite: MATH 3700H or 3770H or 3790H.

» MATH 4800H: Mathematics Honours Project (Sc)
Working under the guidance of an approved faculty supervisor, students independently study an area of mathematics, write a paper on the topic, and give a presentation describing the research conducted. Prerequisite: Any two of MATH 3150H, 3160H, 3310H, 3350H, 3510H, 3560H, 2570H (or 3570H), 3610H, 3770H, or 3790H.

» MATH 4810H: Perspectives in Mathematics I (Sc)
Team-taught by three instructors. Each instructor teaches a four-week module on a special topic. Prerequisite: 60% or higher in 1.0 MATH credit at the 3000- or 4000-level.

» MATH 4850Y, 4851H, 4852H: Community-Based Research Project (Sc)
Students are placed in research projects with community organizations in the Peterborough area. Each placement is supervised jointly by a faculty member and a representative of a community organization. For details see Community-Based Research Program (p. 429). Prerequisite: MATH 2560H, one of MATH 3560H or 4561H, and a cumulative average of at least 75%. Students may take either MATH 4850Y or, one or both of 4851H and 4852H for credit.

» MATH 4900Y, 4903H, 4904H: Reading Course (Sc)
Details may be obtained by consulting the department. Prerequisite: 85% minimum in any prerequisite for the course, or permission of department chair.
Media Studies

trentu.ca/mediastudies

Program Coordinator
To be named

Associated Faculty
S. Chivers, English Literature; K. Egan, Cultural Studies; P. Manning, Anthropology;
L. Mitchell, Cultural Studies; A. O’Connor, Cultural Studies

The Media Studies program at Trent takes an interdisciplinary approach to the understanding of media practices and effects. Students take courses in a range of disciplines including Cultural Studies, Anthropology, Philosophy, Computing & Information Systems, Canadian Studies, and Sociology, engaging with a range of ethical, theoretical, and technical concerns related to the implications of the human-technology interface for knowledge, individuality, and community. The program provides academic background for work in the media, communications, and any other field where media literacy is vital.

Notes
• Students may not graduate with a degree in Media Studies and a Cultural Studies Specialization in Film & Media.
• Students pursuing the Media Studies degree take courses offered by several departments, as listed below. See descriptions for individual courses under the appropriate discipline.
• The Accelerated Master of Arts program in Cultural Studies allows students to obtain a Master’s degree in Cultural Studies within one to two terms less than students in the regular Master’s program. Students apply to the Accelerated Master of Arts program during the spring term which precedes the last year of their undergraduate program in Media Studies. The research starts in the fourth year. Upon graduation, students begin the MA program in May or September, just after completion of the undergraduate program. Students who are interested in applying should contact the Cultural Studies graduate program director.

Bachelor of Arts Program in Media Studies
• In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).
• The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.
• For students substituting CUST 1035Y for CUST 1535H in a Media Studies program, COIS 1010H and CUST 2035Y are required, plus a number of additional credits from the Media Studies course list depending on the program chosen: 6.5 credits, at least 1.0 at the 4000 level, for the single-major Honours program; or 4.5 credits for the joint-major Honours program; or 2.5 credits for the minor.

The single-major Honours program. 20.0 credits including the following 9.0 credits:
– 0.5 COIS credit consisting of COIS 1010H
– 0.5 CUST credit consisting of CUST 1535H
– 1.0 CUST credit from CUST 2035Y or 2535H and 3535H
– 1.0 credit from the Media Studies course list at the 4000 level
– 6.0 credits from the Media Studies course list in addition to the above
The joint-major Honours program. 20.0 credits including the following 7.0 credits:
- 0.5 COIS credit consisting of COIS 1010H
- 0.5 CUST credit consisting of CUST 1535H
- 1.0 CUST credit from CUST 2035Y or 2535H and 3535H
- 5.0 credits from the Media Studies course list in addition to the above

The single-major General program. 15.0 credits including the following 6.0 credits:
- 0.5 COIS credit consisting of COIS 1010H
- 0.5 CUST credit consisting of CUST 1535H
- 1.0 CUST credit from CUST 2035Y or 2535H and 3535H
- 4.0 credits from the Media Studies course list in addition to the above

The joint-major General program. 15.0 credits including the following 5.0 credits:
- 0.5 COIS credit consisting of COIS 1010H
- 0.5 CUST credit consisting of CUST 1535H
- 1.0 CUST credit from CUST 2035Y or 2535H and 3535H
- 3.0 credits from the Media Studies course list in addition to the above

The minor in Media Studies consists of the following 5.0 credits:
- 0.5 COIS credit consisting of COIS 1010H
- 0.5 CUST credit consisting of CUST 1535H
- 1.0 CUST credit from CUST 2035Y or 2535H and 3535H
- 3.0 credits from the Media Studies course list in addition to the above

Media Studies Course List

Anthropology
ANTH 2311H: Anthropology of Language
ANTH 2312H: Anthropology of Media
ANTH-COIS 3745H: Virtual Worlds: The Anthropology of Online Communities
ANTH 3747H: Language and Media
ANTH-CUST 3748H: Anthropology of Animation
ANTH 4820H: Anthropology of Technology

Business Administration
ADMN 3150H: Advertising
ADMN 3160H: Branding

Canadian Studies
CAST-WMST 2600Y: Documenting Canada
CAST-CUST 3031H: TV Guide: Television in Canada

Computing & Information Systems
COIS 1010H: The Digital World
COIS 2800H: Digital Culture
COIS 2830H: Multimedia and Design
COIS 3560H: Human-Computer Interaction
COIS 3820H: History and Impact of Computing
Cultural Studies
- CUST 1535H: Introduction to Media Studies
- CUST 2035Y/2535H: Media and Society
- CUST 2186H: Workshop: Photography
- CUST 2236H: New Media Literacy
- CUST 2581H: Introduction to Film I: What Is Cinema?
- CUST 2582H: Introduction to Film II: Film Movements, Film History
- CUST 3580H/4580H: Text and Image
- CUST 3133H: Workshop: Game Design
- CUST 3139H: Workshop: Radio and Podcast
- CUST 3142H: Workshop: Experimental Music
- CUST 3143H: Workshop: Electronic Music Production
- CUST 3184H: Workshop: Documentary Film
- CUST 3186H: Workshop: Experimental Film
- CUST 3531H: Mass Media and War
- CUST-IDST 3532H: Issues in Global Media
- CUST-COIS 3533H: Game Studies
- CUST 3535H: Television Studies
- CUST 3538H: Radio Studies
- CUST 3545H: Music and Media—An Archaeology
- CUST 3581H: World Cinema I: Experiment and Innovation
- CUST 3582H: World Cinema II: Images of Globalization
- CUST 4035Y: Contemporary Topics in Media Studies
- CUST 4041Y/4541H: Internship in Media and Cultural Studies
- CUST 4136H: Workshop: Mediated Realities
- CUST-POST 4538H: Media Ecologies
- CUST 4586H: Cinema in the Digital Age

English Literature
- ENGL 3203H: Theatre and Journalism During the Restoration and Eighteenth Century
- ENGL 3209H: The First Media Revolution
- ENGL 3607H: Producing Punk

Gender & Women’s Studies
- WMST-CUST 2210H: Gender and Popular Culture

Associate Professor and Dean of the Trent/Fleming School of Nursing

K. Woodend, RN, BScN, MSc (Ottawa), PhD (Toronto)

Compressed BScN Program Coordinator

J. Sims, RN, BScN (Ryerson), MN (Charles Sturt)

Collaborative Program Coordinator

R. Walker, RN, BScN (Trent), MN (Athabasca)

Post-PN Bridge to BScN Pathway Coordinator

D. Diniz, RN, BScN (Ryerson), MEd (Toronto)

Associate Professors

I. Brenner, RN, BSc, BPhysEd, BScN (Toronto), MSc (Queen’s), PhD (Toronto), PhD (Queen’s)
C. Gilmer, RN, BScN (Western), MHScN, DHIhSc (Charles Sturt)
M. McIntosh, RN, BScN, MScN (Toronto), PhD (Alberta)
C. Thibeault, RN, BScN (Mount Saint Vincent), MN (Memorial), PhD (McGill) (on leave Winter 2020)

Assistant Professors

J. Mackie, BSc, PhD (Queen’s)
S. West, BPHE, MSc, PhD (Toronto)

Senior Lecturers

A. Celestini, RN, BA, BScN (Windsor), MHS (Athabasca)
M. Pestill, RN, BScN (Laurentian), MN (Toronto), DNP (Walden)

Lecturer

V. Reid-de Jong, RN, BScN (Ryerson), MSc (D’Youville)

Fleming College Faculty Members

E. Buck-McFadyen, RN, BScN (Queen’s), MScN (York)
B. Cable-Williams, RN, BScN (Queen’s), MN (Dalhousie), PhD (Alberta)
K. English, RN, BScN (Ryerson), MN (Toronto)
A. MacLeod, RN, BScN (McGill), MPH (Michigan)
P. Tracey, RN, BScN (Ryerson), MHSc (Athabasca), PhD (Toronto)
J. Tyerman, RN, BA (Ottawa), BScN (Athabasca), MScN, PhD (Queen’s)

Adjunct Faculty

S. O’Keefe-McCarthy, RN, BScN (Ryerson), MScN, PhD (Toronto)
The Bachelor of Science in Nursing program at Trent University is a direct-entry professional degree program with a limited number of student places. The program leads to a Bachelor of Science in Nursing degree (BScN). The program includes three streams of study—a collaborative program, a compressed (second entry) program, and a post-bridge PN to BScN pathway.

An integrated, collaborative four-year program, with an option that allows completion in three-and-a-half years, is offered with Fleming College for students entering with appropriate secondary school credits or equivalent. The compressed program is open to students with sufficient university credits. The post-bridge PN to BScN pathway is open to students who have successfully completed the two bridging semesters at George Brown College. Opportunities for practical application of theoretical principles are offered throughout all three programs. Using a holistic approach to care, students learn to assess client needs and to plan, provide, and evaluate care; students also learn to advocate for quality health care. Various teaching methods are used in the programs including lectures, labs, seminars, case studies, simulations, and online learning.

At each level of the program there is a specific focus for theory and practice. Clinical placements are selected so that students are exposed to a variety of practice environments as they learn the complexities of caring for individuals, families, groups, and communities. Subject to availability and agency requirements, students may have the opportunity to seek specialized placements and/or to develop a specific practice focus in Indigenous communities, mental health, rural health, aging, or women’s health and gender.

Trent does not offer a post-RN to BScN program. Individuals holding current registration as an RN (or equivalent) with the College of Nurses of Ontario, any other Canadian nursing regulatory body, or internationally, are not eligible for admission to the compressed or collaborative BScN programs at the School of Nursing. Individuals are not eligible for admission to the compressed or collaborative programs if they already hold a BScN (or equivalent) degree. In addition, the program is not structured to support the admission of individuals who have completed physician education in Canada or internationally. RPNs seeking entry to the program must be registrants in good standing and without practice restrictions with the College of Nurses of Ontario.

Admission Requirements

A secondary school diploma, including six Ontario 4U or 4M credits (or equivalent), is required for admission. These credits must include English (ENG4U) with a minimum grade of 70% and one 4U credit in each of Biology, Chemistry, and Mathematics, each with a minimum grade of 65%. Candidates must possess a minimum average of 75% calculated over the required courses plus the next best two 4U/M courses to be considered for acceptance into the program. In addition, a CASPer™ assessment must be completed, the results of which will be considered as part of the adjudication process.

For the compressed program, qualified candidates will have previously completed: some or all of a post-secondary degree with a minimum average of 70%; PSYC 1020H and 1030H or an approved equivalent with a minimum grade of 60%; and at least 2.0 credits at the 1000 level and 1.0 credit at the 2000 level. Students admitted without PSYC 1020H and 1030H or the approved equivalents will be required to complete those courses once enrolled into the program. In addition, a CASPer™ assessment must be completed, the results of which will be considered as part of the adjudication process.

Students enrolled in the Diploma in Foundations of Indigenous Learning for future Nursing students will be admitted to the Compressed or Collaborative BScN program if their cumulative average is 70% and they have obtained a minimum 60% in each of the courses in the diploma program (p. 266).

Candidates for the Trent post-bridge pathway will have met the criteria for admission to the George Brown bridging program and will have graduated from the bridging program with a minimum cumulative average of 75% and not less than 70% in any element of the bridging pathway for which advanced standing credit will be assigned by Trent.
Candidates who are requesting to transfer from another nursing program must complete the Nursing Transfer Protocol of the Office of Admissions. Potential transfer students must provide written consent for Trent University to seek information about the students’ academic and clinical performance in their previous program(s).

In addition, all successful applicants are required to obtain and submit the following documentation by March 10 for the Spring term (SN1, S12); May 10 for the Summer term (SN2); July 10 for the Fall term (FA); or November 10 for the Winter term (WI):

- medical documentation, including completion of the Immunization and Communicable Disease form;
- current CPR-C or HCP Certification (within the past 12 months) from a provider satisfactory to the School of Nursing;
- initial two-step TB skin testing or clearance, with annual one-step;
- proof of tetanus immunization current within 10 years;
- mask fit testing current within 2 years;
- criminal record check with vulnerable sector screening, to be renewed annually;
- proof of having received the seasonal influenza vaccine annually.

If a non-academic requirement expires during the term and the student is active in clinical, then proof of renewal must be submitted before it expires.

A student with a criminal record that is unacceptable to a clinical placement agency may not be able to complete the program. Students who cannot be vaccinated for medical reasons must submit medical documentation.

Students who have been withdrawn from the Trent/Fleming School of Nursing for failing two or more NURS theory courses may be considered for readmission to the program if, after withdrawing, they take five one-semester courses transferable to the University within the 12 months prior to applying for readmission. Students must have a cumulative average of at least 75% in all courses taken in these semesters. At least three of these courses must be in sciences. These may be used as electives as per the BScN degree requirements.

Students who have been required to withdraw and are applying for readmission may be required, as part of the admission process, to demonstrate nursing knowledge and skills learned to date, including medication calculations, in order to determine an appropriate placement in the program.

Students who have been required to withdraw and who, after being readmitted, fail another NURS course or have a cumulative average lower than 65% will be required to withdraw and not be readmitted to the Trent/Fleming School of Nursing.

**Bachelor of Science in Nursing Program**

- In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).
- There are no options for a General degree, minor, or joint-major program in Nursing.
- All degree requirements must be met within seven years of commencing the program. For students in the PN to BScN program, all degree requirements must be met within seven years of commencing the bridge (George Brown) portion of the program.
- A minimum cumulative average of 65% is required at graduation for the BScN degree.
- A maximum of 3.0 credits with D grades (50-59%), in courses that are not designated required courses, can be counted toward the BScN degree. Students must achieve a minimum of 60% in all Nursing or designated required courses, including the course selected for the third year “forced choice” requirement.
- Students must maintain a cumulative average of at least 65% in the BScN program. If at the end of any term a student’s cumulative average falls below 65%, they will be required to meet with the School of Nursing’s academic advisor. Students who fail to raise their cumulative average to
at least 65% in the subsequent term will be required to meet with both the School of Nursing’s academic advisor and the program coordinator and, in collaboration with them, develop and follow a plan to improve their grades. Students who at the end of a third term have failed to raise their cumulative average to at least 65% will be withdrawn from the BScN program but not from the University.

- Students who fail 2.0 credits of courses will be withdrawn from the BScN program but not from the University.
- Students will be allowed to repeat one Nursing theory course for which they have received a grade lower than 60%. Failure to raise this grade to 60% or higher will result in withdrawal from the BScN program but not from the University. Students who receive a second grade lower than 60% in a Nursing theory course will not be allowed to repeat that course and will be withdrawn from the BScN program but not from the University.
- Students will be allowed to repeat one failed Nursing practice course over the duration of the program. A second failing grade in a Nursing practice course (either a repeated or different practice course) will result in withdrawal from the BScN program but not from the University.
- In the event of a failed Nursing practice course, students, in conjunction with faculty, will develop a practice recovery plan regarding all course objectives which were not successfully met and this recovery plan will be followed when the student repeats the Nursing practice course.
- Nursing practice experiences are graded on a pass/fail basis. For courses that have both clinical and lab components, students must pass both components in order to pass the entire course.
- Attendance at learning centre sessions, orientation to clinical practice, and clinical practice is mandatory. Failure to attend learning centre sessions or clinical practice may result in a failing grade. Failure to attend orientation will result in the student being removed from the clinical practice course, and any related classroom co-requisites, for that term. A student may be required to attend orientation for clinical practice in the week before the actual start date of the term.
- Students must meet all competencies outlined in theory and practice courses to meet standards for entry to practice.
- Unsafe or unprofessional nursing practice is considered to be professional misconduct. Please see the School of Nursing Student Handbook for details related to the Policy on Professional Conduct.
- Students who have been given an unsatisfactory evaluation and have been removed from the clinical practice setting for either unsafe or unprofessional behaviour may be placed only one subsequent time in that clinical course.
- Students transferring into the program from another university or community college will have their transcripts assessed by the Office of the Registrar for course credit transfer. Students transferring into the program from another Trent or Fleming department or program should consult with the School of Nursing to confirm their course of study.
- For students who have completed the George Brown College Post-PN Bridging Pathway to the BScN: The GBC bridging program leading to an Honours degree in Nursing (BScN) consists of 20.0 credits, with at least 12.0 credits in Nursing. Credits noted as advanced standing (up to 9.0 of 20.0 for RPN and bridge courses combined) are awarded, subject to successful completion of the two-year community college PN program and the approved post-PN bridge courses.
Collaborative Program

The four-year collaborative program leading to an Honours degree in Nursing (BScN) consists of 20.0 credits, with at least 12.0 credits in NURS. At least 0.5 of the elective credits must be from the Approved Indigenous Course List (p. 16). The program must include:

Year 1
- 2.5 NURS credits consisting of NURS 1000H, 1001H, 1002H, 1020H**, and 1550H
- 1.0 BIOL credit consisting of BIOL 1050H and 1051H
- 0.5 PSYC credit from PSYC 1030H or 1020H
- 1.0 credit elective at the 1000 level or beyond

Students are introduced to the profession of nursing through courses addressing health at the individual level, healthy aging, and the basic concepts in professional practice. This initial exploration of nursing is supported by science courses relevant to nursing and electives of the student’s choice. Students are encouraged to develop a focus in an area of interest and to pursue electives within that focus.

Year 2
- 0.5 PSYC credit from PSYC 1020H or 1030H
- 1.0 credit elective at the 1000 level or beyond

Students focus on community and family health, developing specific knowledge regarding the impact of illness on families and communities, and on the further development of knowledge in sciences relevant to the practice of nursing. Continued development of a specific area of focus is encouraged.

Year 3
- 3.5 NURS credits consisting of NURS 3000H, 3001H, 3004H, 3020H**, 3021H**, 3031H (or 3030H), and 3550H
- 0.5 credit from the Forced Choice Elective Group: NURS 3560H, PHIL 2390H, PSYC 3560H, PSYC 3750H, or SOCI-WMST 2430H
- 1.0 credit elective at the 2000 level or beyond

Students will focus on aspects of illness, both acute and chronic. Concepts of illness, the pathophysiology underlying disease conditions and related nursing and health care interventions are addressed in nursing theory and practice courses. Continued development of a specific area of focus is encouraged.

Year 4
- 1.5 NURS credits consisting of NURS 4020C**
- 1.5 NURS credits from NURS 4021C** or 4022C**
- 0.5 NURS credit from Advanced Topics Group 1*
- 0.5 NURS credit from Advanced Topics Group 2*
- 1.0 credit elective at the 3000 level or beyond

Students focus extensively on integrating knowledge and skills to become novice professionals. Clinical practice settings are chosen in consultation with the student to allow exploration of areas of interest, where possible and subject to the student meeting established requirements. The development of specific areas of focus related to clinical practice choices is furthered in nursing and other elective courses.
Compressed Program

The compressed program leading to an Honours degree in Nursing (BScN) consists of 20.0 credits with at least 12.0 credits in Nursing. 1.0 credit consisting of PSYC 1020H and 1030H or approved equivalent is required (minimum grades of 60%). Students will normally have completed a minimum of 2.0 additional 1000-level elective credits and 1.0 2000-level elective credit. At least 0.5 of the elective credits must be from the Approved Indigenous Course List (p. 16). Students admitted without PSYC 1020H and 1030H or the approved equivalents will be required to complete those courses once enrolled into the program. The program must include:

Year 1 (including Summer session)
- 1.0 BIOL credit consisting of BIOL 1050H and 1051H
- 0.5 credit elective at the 3000 level or beyond

Year 2 (including Summer session)
- 0.5 credit from the Forced Choice Elective Group: NURS 3560H, PHIL 2390H, PSYC 3560H, PSYC 3750H, or SOCI-WMST 2430H
- 0.5 NURS credit from one of Advanced Topics Group 1 or Group 2*
- 0.5 credit elective at the 3000 level or beyond

Year 3 (Fall term)
- 1.5 NURS credits from NURS 4021C** or 4022C**
- 0.5 NURS credit from one of Advanced Topics Group 2 or Group 1*
Post-Bridge PN to BScN Pathway

The post-bridge PN to BScN pathway leading to an Honours degree in Nursing (BScN) consists of 20.0 credits, with at least 12.0 credits in NURS. Upon completion of their RPN and approved bridge program, students will normally have completed and received transfer credit for BIOL 1050H, 1051H, NURS 1000H, 1001H, 1002H, 1020H, 1550H, 2001H, 2021H, 2550H, 3021H, PSYC 1020H, 1030H, 2.0 elective credits at 1000 level, and 0.5 credit elective at 2000 level. At least 0.5 of the elective credits must be from the Approved Indigenous Course List (p. 16). The program must include:

Year 1 (including Summer session)
- 5.5 NURS credits consisting of NURS 2000H, 2003H, 2020H**, 2031H (or 2030H), 3000H, 3001H, 3004H, 3020H**, 3031H (or 3030H), 3005H, and 3550H
- 0.5 credit from the Forced Choice Elective Group: NURS 3560H, PHIL 2390H, PSYC 3560H, PSYC 3750H, or SOCI-WMST 2430H
- 0.5 credit elective at the 2000 level or beyond

Year 2
- 1.5 NURS credits consisting of 4020C**
- 1.5 NURS credits from NURS 4021C** or 4022C**
- 0.5 NURS credit from one of Advanced Topics Group 1*
- 0.5 NURS credit from one of Advanced Topics Group 2*
- 0.5 credit elective at the 3000 level or beyond

*Note: Advanced Topics

In all BScN programs, students are required to take at least 0.5 NURS credit from each of the Advanced Topics groupings listed below:

A maximum of 1.5 credits from NURS Advanced Topics may be counted toward the BScN degree. Students who successfully complete either NURS 4740Y or both NURS 4011H and 4012H are considered to have fulfilled the requirements for both Advanced Topic groupings. (Students must successfully complete both NURS 4011H and 4012H to obtain credit for these courses.)

**Note: Clinical Courses

Students must have submitted documentation satisfactory to the School of Nursing for all non-academic requirements and must be registered in the clinical course for the following terms by the dates indicated below:
- Spring term (SN1, S12): March 10
- Summer term (SN2): May 10
- Fall term (FA): July 10
- Winter term (WI): November 10

Students not in compliance with this expectation will be ineligible for clinical practice, and related co-requisite NURS courses, in that term.

“C” suffix identifies a course which is equal to 1.5 credits.
» NURS 1000H: The Individual as Nurse (Sc)
Introduction to self as healthy individual, as learner, and as nurse. Key concepts introduced within this course include the metaparadigm of nursing (person, health, environment, and nursing), critical relational inquiry, communication, stress, coping, individual health behaviour change, and cultural sensitivity.

» NURS 1001H: Nursing as a Profession (Sc)
Introduction to the history, image, and structure of nursing as a profession. Key topics include introduction to attributes of professionalism, self-regulation, professional organizations and healthy workplaces, professional conduct, accountability, inter-professional collaboration, the nurse–client relationship, professional communication, the nursing process, and personal and professional values.

» NURS 1002H: Introduction to Foundational Practice Concepts (Sc)
A focus on the older individual living with support. Core concepts include adaptation, dependence/independence, aging, and end-of-life. Topics include ethics (autonomy, competence, consent, confidentiality, privacy), relational inquiry, and therapeutic relationships. Prerequisite: 60% or higher in NURS 1000H and 1001H. Co-requisite: NURS 1020H.

» NURS 1020H: Clinical Practice in a Residential Setting** (Sc)
Practice course including learning centre activities (introduction to basic nursing skills and assessment) and group practice within a resident-centered long-term care home. Prerequisite: Students must submit documentation satisfactory to the School of Nursing for all non-academic requirements by the deadline designated for each term; and 60% or higher in NURS 1000H, 1001H, and 1550H. Co-requisite: NURS 1002H.

» NURS 1550H: Introductory Life Sciences for Health Professionals (Sc)
An overview of introductory principles in human nutrition, microbiology, and pharmacology, including introductory drug calculations. The course focuses on personal health and wellness, and introduces the most basic elements of these topics as they relate to nursing practice. Prerequisite: 4U Biology and Chemistry. Excludes BIOL 1550H, CHEM 1700H.

» NURS 2000H: Health Promotion and Population Health (Sc)
Examination of concepts relevant to practice with vulnerable community populations, including social determinants of health, health promotion, population health, epidemiology, and marginalization. Topics include ethical issues in community practice (POA, advanced directives, accessibility, equity), critical social theory, social justice, and environmental effects on health. Prerequisite: A pass in NURS 1020H and 60% or higher in NURS 1000H, 1001H, and 1002H for Nursing students; or enrolment in the Kinesiology program. Co-requisite for Nursing students: NURS 2020H.

» NURS 2001H: The Family in the Community (Sc)
We elucidate concepts, skills, and practices relevant to family nursing practice as relational inquiry. Key concepts include pragmatism, objectivity, relational inquiry, health promotion, cultural safety, reflexivity, being in-relation, relational capacity, and nursing across difference. Prerequisite: A pass in NURS 1020H and 60% or higher in NURS 1000H, 1001H, and 1002H. Co-requisite: NURS 2021H.

» NURS 2003H: Nursing Therapeutics and Disease Condition (Sc)
A comprehensive survey of the patho-physiology underlying most common diseases seen in practice. Topics include diseases of the skeletal, nervous, endocrine, muscular, cardiovascular, respiratory, digestive, urinary, and reproductive systems. Prerequisite: A pass in NURS 1020H and 60% or higher in NURS 1000H, 1001H, 1002H, 2550H, BIOL 1050H, and 1051H.
- **NURS-ECON-SOCI 2015H: Critical Perspectives on Aging (Sc)**
  An introduction to aging from critical perspectives. Drawing on multidisciplinary perspectives within the Trent Centre for Aging and Society, this course provides a foundation for understanding and analyzing the meaning and significance of aging for individuals, communities, and societies. Topics include life course influences, representations and problematization of aging, and places for aging. Open to non-Nursing students.

- **NURS 2016H: Introduction to Traditional Chinese Medicine (Sc)**
  Students learn about the history, regulation, and practice of Traditional Chinese Medicine (TCM). This includes the philosophy of TCM, the principles and methods used in diagnosing illness, developing treatment plans, promoting health, and how TCM and Western health care approaches can be used synergistically.

- **NURS 2020H: Community-Based Nursing Practice** (Sc)
  Practice course involving independent placement in a community setting (public health, clinics, agencies, schools). The student explores a specific topic of interest related to health promotion or population health. Supported by Learning Centre activities relevant to practice in community including interviewing skills, immunization, and assessment (developmental, mental health, sexual). Prerequisite: Students must submit documentation satisfactory to the School of Nursing for all non-academic requirements by the deadline designated for each term; a pass in NURS 1020H; 60% or higher in NURS 1000H, 1001H, and 1002H; and 60% or higher in one of PSYC 1020H or 1030H. Co-requisite: NURS 2000H.

- **NURS 2021H: Family Focused Practice** (Sc)
  Group practice in a setting focused on families dealing with health transitions. Settings may include long-term care, mental health, public health, or maternal/child. Supported by Learning Centre activities relevant to family-focused practice, including breastfeeding support, sexual health counselling, and assessment (cultural, prenatal, postnatal, neonatal). Prerequisite: Students must submit documentation satisfactory to the School of Nursing for all non-academic requirements by the deadline designated for each term; a pass in NURS 1020H; and 60% or higher in NURS 1000H, 1001H, 1002H, and 1550H. Co-requisite: NURS 2001H.

- **NURS 2031H: Quantitative Research for Health Care Professionals (Sc)**
  An introductory course in health research with an emphasis on quantitative methods. Includes an introduction to health care research and the research process, ethical and legal considerations, research designs and methods, data analysis, and critical appraisal of research findings to inform practice. NURS 2031H and 3031H fulfill the Mathematics requirement for the BScN. Prerequisite: A pass in NURS 1020H and 60% or higher in NURS 1000H, 1001H, and 1002H. Excludes NURS 2030H, 3030H.

- **NURS-WMST 2121H: Women and Health (see Gender & Women’s Studies)**

- **NURS-BIOL 2250H: Kinesiology I: Anatomy of Human Movement (Sc)**
  Through didactic classroom lecturing, hands-on laboratories, use of models, and computer-based software examples, students take a regional approach to examine the anatomy and neural control of the musculoskeletal system. Special emphasis is on learning how the various regional structures contribute (both individually and synergistically) toward producing movement patterns. Prerequisite: 60% or higher in BIOL 1050H. Open only to students in the Kinesiology program.

- **NURS-BIOL 2270H: Kinesiology II: Exercise Physiology (Sc)**
  Concepts of exercise physiology with an emphasis on the biochemical, circulatory, respiratory and musculoskeletal adaptations to both acute and chronic bouts of physical activity and exercise and its relation. Special attention is put upon the application of the physiological principles of conditioning for health promotion in an aging population. Prerequisite: 60% or higher in BIOL 1051H. Open only to students in the Kinesiology program.
NURS 2345H: Introduction to Injury Management (Sc)
Covers the fundamentals of sports injury management with emphasis on musculoskeletal injuries of the extremities. Emergency assessment, care, and treatment of the limbs, including basic taping and support techniques, will be covered. Review of functional anatomy provides the foundation for understanding the mechanisms of injury and possible injury prevention. Open only to students in the Kinesiology program. Prerequisite: 60% or higher in BIOL 1050H and NURS 2250H.

NURS 2550H: Advanced Life Sciences for Health Professionals (Sc)
A detailed examination of selected principles in human nutrition, microbiology, and pharmacology. The course focuses on health through the lifespan and the impact of living in a community, as well as medications used in the treatment of central nervous system disorders. Prerequisite: 60% or higher in NURS 1550H. Excludes BIOL 2130H, 2140H, BIOL-CHEM 2550H.

NURS 3000H: Experiencing Acute Illness (Sc)
Examination of the concepts relevant to practice with adults in a hospital setting experiencing acute illness. Focus on recognizing and responding to abnormal results and symptoms in selected disease processes and planned surgical interventions. Topics include safety (nosocomial infections, outbreaks, pandemic) and ethics (consequentialism, deontology, virtue ethics). Prerequisite: A pass in NURS 2020H and 2021H; 60% or higher in NURS 2000H, 2001H, 2003H, and 2550H; and 60% or higher in NURS 2031H (or 2030H) or both PSYC 2018H and 2019H. Co-requisite: NURS 3020H.

NURS 3001H: Living With Chronic Disease (Sc)
Examination of practice concepts related to hospitalized adults experiencing chronic or palliative disease processes. Focus on stress, crisis, anticipating care needs, planning/evaluation of care. Topics include BPGs related to falls, skin integrity, restraints; ethics (end-of-life issues, euthanasia); clinical leadership practices (case coordination, groups, discharge planning, inter-professional relationships). Prerequisite: A pass in NURS 2020H and 2021H; 60% or higher in NURS 2000H, 2001H, 2003H, and 2550H; and 60% or higher in NURS 2031H (or 2030H) or both PSYC 2018H and 2019H. Co-requisite: NURS 3021H.

NURS 3004H: The Nurse as Leader and Advocate (Sc)
Focus on the nurse’s role in providing leadership and facilitating change in personal, professional, and community contexts. Discussion and analysis of theories and skills related to leadership, management, change, and organizations. At a beginning level students participate in development of health and social policy, explore advocacy and political action in the context of individual and societal change. Prerequisite: A pass in NURS 2020H and 2021H; 60% or higher in NURS 2000H, 2001H, 2003H, and 2550H; and 60% or higher in NURS 2031H (or 2030H) or both PSYC 2018H and 2019H. Co-requisite: NURS 3021H.

NURS 3005H: Role Transition—RPN to RN (Sc)
Provides students the opportunity to explore the concept of transition, the mid-range theory of transition developed by Meleis, and to apply that theoretical knowledge to the role transition that occurs when moving from RPN to BScN-prepared RN within the context of the Ontario health care system. Students examine theoretical and research literature relevant to this transition and demonstrate the ability to integrate this knowledge into planning relevant to their own role transition within nursing. Prerequisite: A pass in NURS 2020H and 60% or higher in NURS 2000H. Co-requisite: NURS 3031H. Excludes NURS 3905H, 4202H. (Only open to students entering through the post-RPN bridge to BScN program with George Brown.)
NURS 3020H: Clinical Practice Focused on Acute Care** (Sc)
Group practice in medical or surgical inpatient setting focused on the adult with acute illness. Supported by Learning Centre activities relevant to acute care practice, including medication administration, sterile procedures, IV starts, IV pumps, mock codes, and assessment (abdominal, glycemic status, neurological, pre-operative, post-operative, respiratory). Prerequisite: Students must submit documentation satisfactory to the School of Nursing for all non-academic requirements by the deadline designated for each term; a pass in NURS 2020H and 2021H; 60% or higher in NURS 2000H, 2001H, 2003H, and 2550H; and 60% or higher in NURS 2031H (or 2030H) or both PSYC 2018H and 2019H. Co-requisites: NURS 3000H and NURS 3550H.

NURS 3021H: Clinical Practice Focused on Chronic Disease Management** (Sc)
Group practice in a hospital setting focused on chronic disease or palliative treatment. Practice settings: complex continuing care medicine, mental health, rehabilitation, palliative care, high acuity long term care. Learning Centre activities include medication administration, VAC treatments, feeding pumps, patient-controlled pumps, and assessment of consciousness, orientation, and pain. Prerequisite: Students must submit documentation satisfactory to the School of Nursing for all non-academic requirements by the deadline designated for each term; a pass in NURS 2020H and 2021H; 60% or higher in NURS 2000H, 2001H, 2003H, and 2550H; and 60% or higher in NURS 2031H (or 2030H) or both PSYC 2018H and 2019H. Co-requisites: NURS 3001H and 3550H.

NURS-WMST 3022H: Researching Women’s Lives (see Gender & Women’s Studies)

NURS 3031H: Qualitative Research for Health Care Professionals (Sc)
An introductory course in qualitative health research. Includes an overview of a wide variety of qualitative research approaches and designs, collection and analysis of qualitative data, interpretation and dissemination of results, and critical appraisal of qualitative health research. NURS 2031H and 3031H fulfill the Mathematics requirement for the BScN. Prerequisite: 60% or higher in NURS 2031H (or 2030H) or both PSYC 2018H and 2019H. Excludes NURS 2030H, 3030H.

NURS 3550H: Pharmacology for Health Professionals (Sc)
An in-depth examination of pharmacological principles and issues relevant to the practice of nursing. Includes study of commonly encountered drug classes, their mechanisms of action, and an examination of specific clinical scenarios to support integration of theoretical knowledge into the practice setting. Prerequisite: 1.0 credit from either NURS 2000H and 2020H or NURS 2001H and 2021H, and 60% or higher in NURS 2003H and 2550H. Excludes BIOL 2130H.

NURS 3560H: Advanced Pathophysiology and Pharmacology (Sc)
One of a series of forced-choice options in the third year; a prerequisite for NURS 4022C. Seminar-based course exploring in-depth the pathophysiology and related pharmacological approaches in a variety of selected disease processes. Prerequisite: A pass in NURS 2020H and 2021H; 60% or higher in NURS 2000H, 2001H, and 2550H; 60% or higher in NURS 2031H (or 2030H) or both PSYC 2018H and 2019H; 70% or higher in NURS 2003H and 3550H.

NURS-GEOG 3820H: Health Geography (see Geography)

NURS 3900H: Reading Course (Sc)
Not established as part of the regular Nursing program. Offered only when staffing is available and by prior arrangement through the School of Nursing. The topics are in the field of interest and expertise of the faculty member. Prerequisite: A pass in NURS 2020H and 2021H; 60% or higher in NURS 2000H, 2001H, 2003H, 2031H (or 3030H), and 2550H; a minimum cumulative average after 10.0 credits of 75%; and permission of the department. A maximum 0.5 credit earned as an NURS reading course may be counted toward the BScN. Excludes NURS 4900H.
» NURS 4011H: Thesis I (Sc)
Seminar leading to the completion of an undergraduate thesis with emphasis on research methods linked to nursing practice, education, or leadership. Specific topic to be defined in conjunction with the faculty advisor. Prerequisite: A pass in NURS 3020H and 3021H; 60% or higher in NURS 3000H, 3001H, 3004H, 3031H (or 3030H), and 3550H; a minimum cumulative average after 15.0 credits of 75%; and permission of department. Students must successfully complete both NURS 4011H and 4012H to receive university credit for the thesis. Excludes NURS 4010Y.

» NURS 4012H: Thesis II (Sc)
Seminar leading to the completion of an undergraduate thesis with emphasis on research methods linked to nursing practice, education, or leadership. Prerequisite: NURS 4011H and permission of department. Students must successfully complete both NURS 4011H and 4012H to receive university credit for the thesis. Excludes NURS 4010Y.

» NURS 4020C: Independent Nursing Practice A** (Sc)
Clinical practice to consolidate nursing practice competencies, integrating knowledge and skills. Using a theoretical approach that is relevant to the practice setting, students assume increasing responsibility for patient care assignments in a fully preceptored model. Prerequisite: Students must submit documentation satisfactory to the School of Nursing for all non-academic requirements by the deadline designated for each term; a pass in NURS 3020H and 3021H; 60% or higher in NURS 3000H, 3001H, 3004H, 3031H (or 3030H), and 3550H; and a minimum cumulative average of 65% in credits required for the BScN degree.

» NURS 4021C: Independent Nursing Practice B** (Sc)
Clinical practice to consolidate nursing practice competencies, integrating knowledge and skills. Using a theoretical approach that is relevant to the practice setting and working in a fully preceptored model, students assume responsibility for increasingly complex assignments as they progress to the novice level for baccalaureate graduates. Prerequisite: Students must submit documentation satisfactory to the School of Nursing for all non-academic requirements by the deadline designated for each term; and successful completion of NURS 4020C. Excludes NURS 4022C.

» NURS 4022C: Independent Nursing Practice C** (Sc)
Clinical practice to consolidate nursing practice competencies, integrating knowledge/skills in a critical care environment. Using a theoretical approach that is relevant to the practice setting and working in a fully preceptored model, students assume responsibility for increasingly complex assignments as they progress to the novice level for baccalaureate graduates. Prerequisite: Students must submit documentation satisfactory to the School of Nursing for all non-academic requirements by the deadline designated for each term; a minimum cumulative average of 70% in credits required for the BScN degree; 70% or higher in NURS 3560H; successful completion of NURS 4020C; and permission of department.

» NURS 4100H: The Concept of Marginalization and At-Risk Groups (Sc)
Students examine concept analysis, bringing clarity to practice. Links are made between theory and practice focusing on concepts critical to understanding the disruption to families in situations of death, transition, or crisis. Specific attention is paid to at-risk populations, including the young, elderly, Indigenous peoples, rural populations, women, and the homeless. Prerequisite: A pass in NURS 3020H and 3021H; 60% or higher in NURS 3000H, 3001H, 3004H, 3031H (or 3030H), and 3550H; and permission of department.
» **NURS 4102H: Transcultural Concepts in Health Care (Sc)**
Sensitizes students to the cultural diversity of health-related values, beliefs, and practices when planning professional interventions for clients’ health and well-being. Focus is on caring and curing patterns and practice in relation to different health-illness systems in Canada and elsewhere. Methods for conducting culturological assessments are also included. Prerequisite: A pass in NURS 3020H and 3021H; 60% or higher in NURS 3000H, 3001H, 3004H, 3031H (or 3030H), and 3550H; and permission of department.

» **NURS 4103H: Workplace Health, Safety, and Well-Being of the Nurse (Sc)**
Using a core framework for healthy work environments and related documents and legislation, exploration of issues, strategies, and outcomes relative to a climate of safety. Student learning is guided by the RNAO Best Practice Guideline, Healthy Work Environments: Workplace Health, Safety and Well-being of the Nurse, a discussion forum, and project proposal/development. Prerequisite: A pass in NURS 3020H and 3021H; 60% or higher in NURS 3000H, 3001H, 3004H, 3031H (or 3030H), and 3550H; and permission of department.

» **NURS 4104H: Sociopolitical Action and Advocacy in Health Care (Sc)**
Builds students’ capacity to enact social justice by providing experiential opportunities with advocacy and action projects. Reflecting relational practice and systems-based advocacy skills, students implement emancipatory actions related to current nursing, health, and health care issues, with specific attention paid to aging, community–rural health, the environment, Indigenous peoples, and women’s health. Prerequisite: A pass in NURS 3020H and 3021H; 60% or higher in NURS 3000H, 3001H, 3004H, 3031H (or 3030H), and 3550H; and permission of department.

» **NURS 4105H: Leadership in Contemporary Nursing (Sc)**
Study of current leadership theories; differences between leadership and management; concepts of vision; professional communication; understanding and managing change in the health care system; stewardship; and recognizing, developing, and sustaining individual leadership abilities. Students contemplate self as leader, reflecting on recognition and development of leadership qualities in professional nursing roles. Prerequisite: A pass in NURS 3020H and 3021H; 60% or higher in NURS 3000H, 3001H, 3004H, 3031H (or 3030H), and 3550H; and permission of department.

» **NURS 4106H: Health Policy and the Profession of Nursing (Sc)**
A critical examination of system structure, policy-making process, and relevant legislation, providing an overview of health policy formulation and implementation in Canada/Ontario. Public policy analysis and the role of interest groups are examined, focusing on the role of the nursing profession. Students examine and analyze contemporary health care policy issues. Prerequisite: A pass in NURS 3020H and 3021H; 60% or higher in NURS 3000H, 3001H, 3004H, 3031H (or 3030H), and 3550H; and permission of department.

» **NURS 4108H: Transitions Toward Health in Illness (Sc)**
An opportunity to develop depth and breadth of knowledge and skills in nursing care of clients/families with a variety of health and illness issues. Examination of theoretical and research literature relevant to transitions in health and the nurse’s role in interdisciplinary teams. Application and integration with independent practice. Prerequisite: A pass in NURS 3020H and 3021H; 60% or higher in NURS 3000H, 3001H, 3004H, 3031H (or 3030H), and 3550H; and permission of department. Excludes NURS 3905H, 4202H.

» **NURS 4201H: Primary Health Care (Sc)**
An opportunity to develop depth and breadth of knowledge and skills relevant to planning, implementation, delivery, and evaluation of primary health care. Examination of primary care in the Canadian context. Overview of research related to determinants of health. Exploration of other issues and challenges for specific populations. Prerequisite: A pass in NURS 3020H and 3021H; 60% or higher in NURS 3000H, 3001H, 3004H, 3031H (or 3030H), and 3550H; and permission of department.
» **NURS 4203H: Rural Nursing Practice (Sc)**
   An opportunity to develop depth and breadth of knowledge and skills in nursing care of clients/families in rural settings. Examination of theoretical and research literature relevant to practice in a rural setting, the nurse’s role, and challenges in the interdisciplinary teams in rural settings. Application and integration with independent practice. Prerequisite: A pass in NURS 3020H and 3021H; 60% or higher in NURS 3000H, 3001H, 3004H, 3031H (or 3030H), and 3550H; and permission of department.

» **NURS 4204H: Contemporary Issues in Aging and Health (Sc)**
   An opportunity to develop depth and breadth of knowledge in care of the elderly. Building on the first three years of study, and drawing from current clinical experience, students are encouraged to examine the challenges, implications, and effects of aging on both the individual and his or her family. Prerequisite: A pass in NURS 3020H and 3021H; 60% or higher in NURS 3000H, 3001H, 3004H, 3031H (or 3030H), and 3550H; and permission of department.

» **NURS 4205H: Mental Health Care (Sc)**
   Students develop a greater depth and breadth of knowledge and skills relevant to mental health care. Building on knowledge from previous professional and related courses, learners consider the concept of mental health/illness within the current Canadian context and selected other countries. Prerequisite: A pass in NURS 3020H and 3021H; 60% or higher in NURS 3000H, 3001H, 3004H, 3031H (or 3030H), and 3550H; and permission of department.

» **NURS 4207H: Issues and Trends in Palliative Care (Sc)**
   Offers opportunities to develop depth and breadth of knowledge in caring for individuals/families dealing with dying and death, regardless of the setting. Building on previous courses and clinical experiences, students examine common issues which prevail throughout various illness trajectories. Prerequisite: A pass in NURS 3020H and 3021H; 60% or higher in 60% or higher in NURS 3000H, 3001H, 3004H, 3031H (or 3030H), and 3550H; and permission of department.

» **NURS-WMST 4208H: Nursing, Feminism, and Women’s Health (Sc)**
   Drawing from the meta-paradigm concepts of nursing science—person, health, environment, and nursing—the focus of this course is women’s health and women-centered health care delivery in the Canadian context. Androcentric science, sex/gender-based analysis, and topics such as methadone and mothering, smoking as social control, and HPV vaccination are discussed. Prerequisite: A pass in NURS 3020H and 3021H; 60% or higher in NURS 3000H, 3001H, 3004H, 3031H (or 3030H), and 3550H; and permission of the department. For non-Nursing students: WMST 2121H and permission of the School of Nursing.

» **NURS-INDG-ERSC/ERST IE 4740Y: Critical Investigations in Indigenous Peoples’ Health and the Environment (see Indigenous Studies)**
Philosophy

Associate Professor and Chair of the Department
B. Stoyles, BA (Huron), MA, PhD (Western)

Professors
L. Groarke, BA, MA (Calgary), PhD (Western)
D. McDermid, BA (Western), MA, PhD (Brown) (on leave 2019–2020)

Professor and Kenneth Mark Drain Endowed Chair in Ethics
K. Norlock, BA (Northern Illinois), MA, PhD (Wisconsin–Madison)

Associate Professors
M. W. Hickson, BA (Western), MA (Catholic University of America), PhD (Western)
M. Howes, BSc, MA (Guelph), PhD (Western)

Senior Lecturer
J. Connelly, BA (Alberta), MA (Saskatchewan), PhD (York)

The Philosophy Department at Trent aims to provide students with skills in creating, understanding, evaluating, defending, and criticizing arguments. Some students recognize the intrinsic merits and interests of Philosophy. Our program ensures that these students are provided with grounding in the history of the discipline as well as opportunities to explore areas of particular philosophical interest. Other students wish to develop the kinds of critical reading, writing, thinking, and speaking skills that are best taught in Philosophy courses. These students recognize the value of these skills whatever discipline they study at Trent and whatever futures they imagine for themselves. The undergraduate program at Trent offers programs that are designed to satisfy the needs of both kinds of students.

Notes
• It is strongly recommended that students successfully complete two of PHIL 1000H, 1100H, or 1200H before enrolling in upper-level Philosophy courses.
• Students may earn a joint-major Honours BSc in Philosophy and a Science subject if they satisfy the departmental requirements for the joint-major Honours program in Philosophy and in the Science subject and if they complete 14.0 science credits. PHIL-COIS 2410H, PHIL-PSYC 2270H, and PHIL 2780H count as science credits. Students who wish to earn a BSc should consult with the chair of the department very early in their program.
• For the Option in Applied Ethics, see p. 404.
Bachelor of Arts Program in Philosophy

- In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).
- The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.
- PHIL 1000H, 1100H, and 1200H are strongly recommended for all students in Philosophy.
- It is strongly recommended that students majoring in Philosophy take PHIL-AHCL 2420H and/or 2430H before they take PHIL 3420H or 3430H, and that they take PHIL-AHCL 2420H and/or 2430H in the second year of the program.
- PHIL-COIS 2410H is strongly recommended for all students in Philosophy, especially for those intending to do graduate work in Philosophy.
- No more than 1.0 credit from reading courses may count toward the number of Philosophy credits required for the degree.

The single-major Honours program. 20.0 credits including the following 9.0 credits:
- 1.5 PHIL credits at the 4000 level
- 3.5 PHIL credits at the 3000 level or beyond in addition to the above
- 4.0 PHIL credits in addition to the above

The 9.0 credits must include:
- 0.5 PHIL credit from PHIL 1200H or 2410H
- 2.0 PHIL credits from PHIL 2420H, 2430H, 3420H, 3430H, 4530H, or 4540H

The joint-major Honours program. 20.0 credits including the following 7.0 credits:
- 1.0 PHIL credit at the 4000 level
- 2.5 PHIL credits at the 3000 level or beyond in addition to the above
- 3.5 PHIL credits in addition to the above
- The 7.0 credits must include 2.0 PHIL credits from PHIL 2420H, 2430H, 3420H, 3430H, 4530H, or 4540H

The single-major General program. 15.0 credits including the following 6.0 credits:
- 2.0 PHIL credits at the 3000 level or beyond
- 4.0 PHIL credits in addition to the above
- The 6.0 credits must include 2.0 PHIL credits from PHIL 2420H, 2430H, 3420H, 3430H, 4530H, or 4540H

The joint-major General program. 15.0 credits including the following 5.0 credits:
- 1.5 PHIL credits at the 3000 level or beyond
- 3.5 PHIL credits in addition to the above
- The 5.0 credits must include 1.0 PHIL credit from PHIL 2420H, 2430H, 3420H, 3430H, 4530H, or 4540H

The minor in Philosophy consists of the following 5.0 credits:
- 1.5 PHIL credits at the 3000 level or beyond
- 3.5 PHIL credits in addition to the above
- The 5.0 credits must include 1.0 PHIL credit from PHIL 2420H, 2430H, 3420H, 3430H, 4530H, or 4540H
Specialization in Ethics
Students who have fulfilled the requirements for a single- or joint-major Honours or General program in Philosophy may graduate with a Specialization in Ethics if they have successfully completed the following 5.0 credits:

- 0.5 PHIL credit consisting of PHIL 3110H
- 1.0 PHIL credit from PHIL 1000H, 1100H, or 1200H
- 0.5 PHIL credit from PHIL 2010H, 2020H, 2030H, or 3030H
- 3.0 PHIL credits from PHIL 2110H, 2150H, 2390H, 3140H, 3180H, 3301H, 3302H, 3370H, 4250H, 4260H, 4310H, or 4390H

Please consult the academic timetable for information on courses that will be offered in 2019–2020, including when they will be scheduled.

» PHIL 1000H: Introduction to Philosophy: Knowledge and Reality
An introduction to philosophy through a study of fundamental philosophical problems concerning the nature of reality, knowledge, and the mind, as presented in contemporary writings and/or classical texts. Complements PHIL 1100H. Excludes PHIL 1001Y, 1003H.

» PHIL 1100H: Introduction to Philosophy: Moral and Political
An introduction to philosophy through a study of fundamental philosophical problems in moral and political philosophy, as presented in contemporary writings and/or classical texts. Complements PHIL 1000H. Excludes PHIL 1001Y, 1002H.

» PHIL 1200H: Critical Thinking
An introduction to basic principles of good reasoning and argumentation in everyday life and various academic disciplines. Topics include argument structure and evaluation, clarity of expression, common mistakes in reasoning, inductive and deductive reasoning, and formal logic. Excludes PHIL 1004H, 1005Y, UNIV 1002H.

» PHIL 2010H: Love and Desire
An exploration of philosophical treatments of love and desire, in order to consider fundamental questions of human nature, happiness, and moral practices. Readings in classic and contemporary texts may include such topics as the nature of love, the relationship between what we value and what we desire, and the ethics of relationships. Prerequisite: 4.0 university credits or permission of department chair.

» PHIL 2020H: Philosophy of Sport and Recreation
A philosophical study of sport and recreation. Topics include conceptual, ethical, political, and aesthetic perspectives on sports, games, play, and leisure. Specific attention is paid to philosophical issues concerning human movement and physical activity, embodiment and the mind-body relationship, and well-being and quality of life. Prerequisite: 4.0 university credits or permission of department chair.

» PHIL 2030H: Death
An exploration of philosophical treatments of death and dying, including their implications for a meaningful life. Readings in classical and contemporary texts may include such topics as the nature of death, our attitudes toward mortality, and end-of-life issues. Prerequisite: 4.0 university credits or permission of department chair.
» PHIL 2110H: Moral Issues
An engaged study of philosophical responses to ethical problems in contemporary society. Topics may include abortion, euthanasia, capital punishment, animal rights, censorship and pornography, poverty and civil disobedience, and war and terrorism. Prerequisite: 4.0 university credits or permission of department chair. Excludes PHIL 2300Y.

» PHIL-WMST 2141H: Discovering Feminist Thought (see Gender & Women’s Studies)

» PHIL-POST 2150H: Philosophy of Law
A study of philosophical theories concerning the nature of law, legal systems, and legal reasoning. Prerequisite: 4.0 university credits or permission of department chair. Excludes PHIL-POST 2032Y.

» PHIL 2160H: Asian Philosophy
An introduction to diverse philosophical traditions of Asia. Special attention is paid to metaphysical, epistemological, and ethical dimensions of such traditions as Hinduism, Buddhism, Confucianism, and Daoism. Readings include primary sources in translation. Prerequisite: 4.0 university credits or permission of department chair. Excludes PHIL 2820Y.

» PHIL-EDUC 2200H: Philosophy of Education (see Option in Education)

» PHIL-PSYC 2270H: Philosophy of Mind (Sc)
An introduction to some of the central themes in philosophy of mind. Answers to ontological questions (what kinds of things are minds?) and epistemological questions (can we know that we and others have minds?) are used to focus discussions concerning personal identity, responsibility for action, animals’ minds, and artificial intelligence. Prerequisite: 4.0 university credits or permission of department chair. Excludes PHIL-PSYC 2770Y.

» PHIL 2320H: Existentialism
A study of selected figures in Existentialism. Topics may include nihilism, creation, the birth of the individual, the meaning of life, freedom, choice, and commitment. Prerequisite: 4.0 university credits or permission of department chair. Excludes PHIL 2140Y, 2340H, 2360H.

» PHIL-POST 2351H: The Political Imagination I (see Political Studies)

» PHIL-POST 2352H: The Political Imagination II (see Political Studies)

» PHIL 2390H: Biomedical Ethics
An examination of central issues in the field of biomedical ethics. Topics may include abortion; euthanasia and assisted suicide; stem cell research; genetics; reproductive technologies; scarce resources; research using human subjects. Prerequisite: 4.0 university credits or permission of department chair.

» PHIL-COIS 2410H: Symbolic Logic (Sc)
An introductory study of formal logical systems, together with their use in the analysis of various types of arguments. Prerequisite: 4.0 university credits or permission of department chair.

» PHIL-AHCL 2420H: Ancient Philosophy I: Pre-Socratics to Plato
A study of early Greek philosophy focusing on Socrates, Plato, and their most influential predecessors. Complements PHIL-AHCL 2430H. Prerequisite: 4.0 university credits or permission of department chair. Excludes PHIL-AHCL 2400Y.

» PHIL-AHCL 2430H: Ancient Philosophy II: Aristotle and the Hellenists
A study of Greco-Roman philosophy focusing on Aristotle and the Hellenistic philosophers including the Epicureans and Stoics. Prerequisite: 4.0 university credits or permission of department chair. Recommended: PHIL-AHCL 2420H. Excludes PHIL-AHCL 2400Y.

» PHIL 2750H: Philosophy of Religion
An inquiry into the nature of religion and religious belief; the relations among faith, reason, knowledge, and revelation; the analysis of religious language; the mystical claim to direct knowledge of God; the nature of evil; and religion and ethics. Prerequisite: 4.0 university credits or permission of department chair.
PHIL 2780H: Philosophy of Science (Sc)
A philosophical examination of the construction and validation of scientific theories, models, and experiments, with special emphasis on the question of whether science has a reliable claim to provide one objective truth about the material and human world on the basis of a uniquely rational form of inquiry. Prerequisite: 4.0 university credits or permission of department chair.

PHIL 2790H: Art and Beauty
An introduction to philosophical issues related to art and beauty. Topics may include definitions of art; concepts of beauty, ugliness, horror, taste, and sublimity; the value and diversity of aesthetic experience; differences between authentic artwork and forgery; relations between morality and art; and art as an institution. Prerequisite: 4.0 university credits or permission of department chair.

PHIL 3010H: Philosophy and Literature
A study of philosophy in literature and of the relationship between philosophy and literature. The focus is on the expression of philosophical ideas in literary or non-philosophical texts. Prerequisite: 7.0 university credits or permission of department chair.

PHIL-PSYC 3020H: Philosophy of Emotion (Sc)
An examination of theories of emotion in classical and contemporary philosophical texts. Topics may include the relation of emotion to belief, motivation, and desire; the rationality of emotion; emotions, self-knowledge, and self-deception; and the relations between different emotions and between emotions and the body. Prerequisite: 7.0 university credits or permission of department chair.

PHIL 3030H: The Meaning of Life
An examination of ways of thinking about and ways of answering the question, “What is the meaning of life?” Classical attempts to account for the meaning of life in Eastern and Western philosophies, religious thought, and Indigenous knowledge systems are considered in relation to accounts defended in contemporary philosophical literature. Prerequisite: 7.0 university credits or permission of department chair.

PHIL-WMST 3050H: Philosophy, Gender, and Feminism
A study of philosophical concepts of gender, sex and sexuality, feminist critique, and developments in feminist philosophies. Prerequisite 7.0 university credits or permission of department chair. Excludes PHIL-WMST 2031Y.

PHIL 3110H: Ethical Theory
A study of texts in the foundations of morals and particular ethical theories, including virtue ethics, Kantianism, and utilitarianism. Prerequisite: 7.0 university credits or permission of department chair. Excludes PHIL 3380Y.

PHIL-POST 3140H: Justice and Rights
A study of the nature and value of rights in relation to competing theories of justice. Attention is given to the nature of power and oppression in relation to social change; topics may include class, ability, age, gender, and race. Prerequisite: 7.0 university credits or permission of department chair. Excludes PHIL-POST 2032Y.

PHIL-POST 3180H: Social and Political Philosophy
An examination of philosophical theories related to political institutions and practices. Topics may include the foundations of the state, justified use of force, and limits to freedom. Prerequisite: 7.0 university credits or permission of department chair. Excludes PHIL 3390Y.

PHIL 3210H: Epistemology
A wide-ranging introduction to the theory of knowledge. Topics may include the nature and limits of knowledge, external world skepticism, truth and objectivity, relativism, the possibility of moral knowledge, induction and the status of scientific theories, and the nature of rationality. Readings include classical as well as contemporary readings, with an emphasis on the latter. Prerequisite: 7.0 university credits or permission of department chair. Excludes PHIL 3200Y.
» PHIL 3220H: Metaphysics
A wide-ranging introduction to metaphysics. Topics may include realism and anti-realism, monism and pluralism, substance, change and identity, causation, events, free will and determinism, space and time, universals, properties, necessity, and possible worlds. Readings include classical as well as contemporary readings, with an emphasis on the latter. Prerequisite: 7.0 university credits or permission of department chair. Excludes PHIL 3200Y.

» PHIL-ERST 3301H: Environmental Ethics (see Environmental & Resource Science/Studies)
» PHIL-ERST-SAFS 3302H: Animals and Society (see Environmental & Resource Science/Studies)

» PHIL 3310H: Phenomenology
An investigation of the main ideas and methods of phenomenology, in particular its study of the conditions of experience, self, and world. Special emphasis on the works of Husserl, Heidegger, and Merleau-Ponty. Prerequisite: 7.0 university credits including PHIL 2320H or 2340H, or permission of department chair. Excludes PHIL 3150Y.

» PHIL 3320H: Language and Meaning
A focused study of philosophical issues related to language and meaning. Topics may include theories of meaning, intentionality, and reference; the relation between language and reality; concepts; analysis; and hermeneutics. Prerequisite: 7.0 university credits or permission of department chair. Excludes PHIL 3160Y, 3330H, 3340H.

» PHIL-COIS 3370H: Cyberethics
Enables students to develop their own positions about the most important social and moral problems raised by computer use and technologies, including the fragmentation of society into computer “haves” and “have-nots,” Internet censorship, pornography, intellectual property rights, and software piracy. Prerequisite: 7.0 university credits or permission of department chair.

» PHIL-WMST-SOCI 3400H: Feminism and Disability (see Gender & Women’s Studies)

» PHIL 3420H: Modern Philosophy I: Reason and Revolution
The seventeenth century in Western Europe was an era of important revolutions in scientific, religious, and political thinking. This course studies the role that philosophers and their works played in these revolutions. Authors may include, but are not limited to, Descartes, Princess Elisabeth, Hobbes, Spinoza, Leibniz, and Conway. Complements PHIL 3430H. Prerequisite: 7.0 university credits or permission of department chair. Excludes PHIL 3100Y.

» PHIL 3430H: Modern Philosophy II: The Enlightenment
The eighteenth century in Western Europe witnessed the rise and then critique of the intellectual movement called the “Enlightenment,” characterized by its promotion of freedom, equality, and the scientific method. This course studies philosophers sympathetic to and critical of the Enlightenment, such as Locke, Voltaire, Hume, Rousseau, and Kant. Prerequisite: 7.0 university credits or permission of department chair. Recommended: PHIL 3420H. Excludes PHIL 3100Y.

» PHIL 3900Y, 3901H, 3902H, 3903H: Reading Course
Students are encouraged to pursue a special interest, largely through independent study, for a half- or full-course credit. Students must arrange details in consultation with faculty in Philosophy at least one month prior to the start of the semester in which the course is to be started. Subject to departmental and decanal approval. Prerequisite: 7.0 university credits or permission of department chair.

» PHIL 4210H: Advanced Topics in Metaphysics and Epistemology
A seminar devoted to in-depth investigation of selected central metaphysical and epistemological themes. Prerequisite: 7.0 university credits or permission of department chair.

» PHIL-ADMN 4250H: Business Ethics and Corporations (See Business Administration)
» PHIL-ADMN 4260H: Ethics and Capitalism (See Business Administration)
» **PHIL 4310H: Advanced Topics in Value Theory**  
A study of central themes in value theory, to be chosen among issues in moral theory and political theory. Prerequisite: 7.0 university credits including PHIL 3110H, or permission of department chair.

» **PHIL 4390H: Advanced Topics in Biomedical Ethics**  
An in-depth examination of a specific issue in biomedical ethics. Topics vary each year and may include cloning and stem cell research; reproductive technologies, including abortion; genetics; end-of-life issues; justice in health care delivery. Prerequisite: 7.0 university credits including PHIL 2390H, or permission of instructor.

» **PHIL 4410H: Advanced Topics in Logic and Language**  
An advanced study of some of the central themes in philosophy of logic or philosophy of language. Prerequisite: 7.0 university credits including PHIL-COIS 2410H or permission of instructor.

» **PHIL-AHCL 4430H: Advanced Topics in Ancient Philosophy**  
A focused study of texts and ideas from philosophers in Greek and Roman antiquity. Specific topics are determined each year. Prerequisite: 7.0 university credits including PHIL-AHCL 2420H and 2430H, or permission of department chair.

» **PHIL 4530H: Nineteenth-Century Philosophy**  
A study of some central themes and important philosophers of the nineteenth century. Prerequisite: 7.0 university credits including PHIL 3420H or 3430H, or permission of instructor.

» **PHIL 4540H: Twentieth-Century Philosophy**  
A study of some central themes and important philosophers of the twentieth century. Prerequisite: 7.0 university credits including PHIL 3420H or 3430H, or permission of instructor.

» **PHIL 4610H: Major Texts**  
A close study of one or more central texts by one or more important philosophers. Texts and philosophers to change annually. Prerequisite: 7.0 university credits including 1.0 PHIL credit at the 3000 level or beyond, or permission of instructor.

» **PHIL-ERST 4705H: Environmental Aesthetics and the Environmental Imagination (see Environmental & Resource Science/Studies)**

» **PHIL 4710H: Advanced Topics in Philosophy of Mind**  
An in-depth investigation into some of the central issues in philosophy of mind, e.g., consciousness, embodiment, reasons for actions, the emotions, free will, zombies, thinking machines, conscious animals. Prerequisite: 7.0 university credits including PHIL-PSYC 2270H or permission of instructor.

» **PHIL 4720H: Advanced Topics in Philosophy of Science**  
A study of central themes in philosophy of science, to be chosen from among issues in metaphysics, epistemology, and ethics. Topics vary yearly and may include a focus on problems in one specific area of scientific inquiry. Prerequisite: 7.0 university credits including PHIL 2780H or permission of instructor.

» **PHIL 4900Y, 4901H, 4902H, 4903H: Reading Course**  
Students are encouraged to pursue a special interest, largely through independent study, for a half- or full-course credit. Students must arrange details in consultation with faculty in Philosophy at least one month prior to the start of the semester in which the course is to be started. Subject to departmental and decanal approval. Prerequisite: 7.0 university credits or permission of department chair.
Physics

Associate Professor and Chair of the Department of Physics & Astronomy

R. Wortis, BSc (Harvard), MSc, PhD (Illinois)

Professors

W. A. Atkinson, MSc (Alberta), PhD (McMaster) (on leave Fall 2019)
S. Narine, BSc, MSc (Trent), PhD (Guelph)
D. R. Patton, BMath (Waterloo), PhD (Victoria)

Associate Professor and Canada Research Chair

A. D. Slepkov, BSc (Brock), MSc, PhD (Alberta)

Associate Professor

R. C. Shiell, BA Physics (Oxford), PhD (Newcastle upon Tyne)

Physics is the most fundamental of the natural sciences. It includes the study of electricity and magnetism, gravitation, electronics, the motion of projectiles and rotating bodies, heat, light and sound, and the interactions between the smallest particles that make up matter: electrons, protons, neutrons, and quarks. Because of their fundamental nature, the concepts of physics underlie much of modern astronomy, chemistry, biology, medicine, and engineering. In particular, the traditional route to becoming an astronomer has been through an undergraduate degree in physics. Discoveries in physics and astronomy continue to broaden our understanding of the universe, advance space travel, speed up global electronic communications, lead to new products such as ferroelectric computer memories, assist forensic science, and improve medical diagnostic techniques.

Notes

• For the programs in Chemical Physics, Computing Systems & Physics, and Mathematical Physics, see the relevant sections of the Calendar.
• 60% or higher in MATH 1120H is required for upper-level Physics courses.
• The Honours program satisfies the academic requirements for the Professional Physicist credential by the Canadian Association of Physicists.
Bachelor of Science Program in Physics

- In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).
- A cross-listed course can count only once toward the required numbers of credits within a joint-major or major-and-minor degree.
- MATH 1550H is strongly recommended for students in the Honours program; MATH 1350H is a prerequisite for upper-level Mathematics courses.

The single-major Honours program. 20.0 credits including the following 12.5 credits:
- 7.5 PHYS credits consisting of PHYS 1001H, 1002H, 2150H, 2610H, 2620H, 2700H, 3130H, 3150H, 3200Y, 3610H and 4610H (or 4600Y), 4220H, 4140H (or 3140H), and 4700H
- 1.0 PHYS credit at the 4000 level in addition to the above
- 1.5 PHYS credits in addition to the above
- 2.0 MATH credits consisting of MATH 1110H, 1120H, 2110H, and 2120H
- 0.5 COIS credit consisting of COIS 1020H
- 14.0 science credits are required for the Honours degree

The joint-major Honours program. 20.0 credits including the following 9.0 credits:
- 6.0 PHYS credits consisting of PHYS 1001H, 1002H, 2150H, 2610H, 2620H, 2700H, 3130H, 3150H, 3200Y, 3610H and 4610H (or 4600Y)
- 0.5 PHYS credit at the 4000 level in addition to the above, or PHYS 4140H (or 3140H)
- 2.0 MATH credits consisting of MATH 1110H, 1120H, 2110H, and 2120H
- 0.5 COIS credit consisting of COIS 1020H
- 14.0 science credits are required for the Honours degree

The single-major General program. 15.0 credits including the following 8.0 credits:
- 4.5 PHYS credits consisting of PHYS 1001H, 1002H, 2150H, 2610H, 2620H, 2700H, 3130H, and 3200Y
- 1.0 PHYS credit in addition to the above
- 2.0 MATH credits consisting of MATH 1110H, 1120H, 2110H, and 2120H
- 0.5 COIS credit consisting of COIS 1020H
- 11.0 science credits are required for the General degree

The joint-major General program. 15.0 credits including the following 7.0 credits:
- 4.5 PHYS credits consisting of PHYS 1001H, 1002H, 2150H, 2610H, 2620H, 2700H, 3130H, and 3200Y
- 2.0 MATH credits consisting of MATH 1110H, 1120H, 2110H, and 2120H
- 0.5 COIS credit consisting of COIS 1020H
- 11.0 science credits are required for the General degree

The minor in Physics consists of the following 7.0 credits:
- 4.5 PHYS credits consisting of PHYS 1001H, 1002H, 2150H, 2610H, 2620H, 2700H, 3130H, and 3200Y
- 2.0 MATH credits consisting of MATH 1110H, 1120H, 2110H, and 2120H
- 0.5 COIS credit consisting of COIS 1020H
Please consult the academic timetable for information on courses that will be offered in 2019–2020, including when they will be scheduled.

» **PHYS 1001H: Introductory Physics I (Sc)**
Topics include kinematics, dynamics, translational and rotational motion, fluids, elasticity, and thermal physics. Prerequisite: 4U Advanced Functions or equivalent, or permission of the department. Strongly recommended: 4U credits in Physics, and Calculus and Vectors. MATH 1110H, required for upper-level Physics courses, recommended to be taken concurrently with PHYS 1001H. Excludes PHYS 1000Y, PHYS-FRSC 1020H.

» **PHYS 1002H: Introductory Physics II (Sc)**
Topics include electrostatics, magnetostatics, electromagnetism, optics, and quantum physics. Prerequisite: PHYS 1001H or 1020H or permission of the department. MATH 1120H, required for upper-level Physics courses, recommended to be taken concurrently with PHYS 1002H. Excludes PHYS 1000Y.

» **PHYS-BIOL 1060H: Physics for the Life Sciences (Sc)**
The application of basic physical concepts to biological systems. Topics include forces and motion, energy and metabolism, thermodynamics, and fluid dynamics. Recommended: 4U Math. Not for credit toward a major or minor in Physics.

» **PHYS 1510H: Introductory Astronomy I (Sc)**
A general science course accessible to all students. Topics include sky phenomena, the history of astronomy, telescopes and detectors, and an exploration of the Solar System. Excludes PHYS 1500Y. Not for credit toward a major or minor in Physics.

» **PHYS 1520H: Introductory Astronomy II (Sc)**
A general science course accessible to all students. Topics include stars, their properties, structure, and evolution, white dwarfs, novae and supernovae, neutron stars, black holes, galaxies, and cosmology. Prerequisite: PHYS 1510H. Excludes PHYS 1500Y. Not for credit toward a major or minor in Physics.

» **PHYS-EDUC 2091H: Light and Colour for Future Teachers**
An experiential learning course designed for future elementary school teachers. Topics include image formation, colour perception, reflection, refraction, shadows, and printing. Emphasis is placed on student learning through collaborative experiments and construction of conceptual models. Registration preference is given to students in education programs, but students in other programs are also welcome. Can be taken either before or after PHYS-EDUC 2093H. Does not satisfy the science requirement for a science degree. Not open to students enrolled in or with credit for PHYS 1001H, 1002H, 1020H, or 1060H, except by permission of the instructor. Excludes PHYS 2090Y.

» **PHYS-EDUC 2093H: Electricity and Motion for Future Teachers**
An experiential learning course designed for future elementary school teachers. Topics include simple circuits and circuit elements, static electricity, forces, pulleys, levers, and gears. Emphasis is placed on student learning through collaborative experiments and construction of conceptual models. Registration preference is given to students in education programs, but students in other programs are also welcome. Can be taken either before or after PHYS-EDUC 2093H. Does not satisfy the science requirement for a science degree. Not open to students enrolled in or with credit for PHYS 1001H, 1002H, 1020H, or 1060H, except by permission of the instructor. Excludes PHYS 2090Y.

» **PHYS-MATH 2150H: Ordinary Differential Equations (Sc) (see Mathematics)**
PHYS-COIS 2250H: Electronics (Sc)
An applied course in the electronic circuits most commonly used in laboratory sciences. Circuit theory, test instruments, operational amplifiers, semiconductor theory, measurement sensors, power control, digital circuits, computer process-control and data collection, AC circuit theory, filters, DC power supplies, RC timing circuits, amplifiers, oscillators. Prerequisite: 60% or higher in PHYS 1002H and in MATH 1120H, or permission of the department.

PHYS-COIS 2310H: Computational Physics (Sc)
Use of computational methods to solve a range of problems in physics that are not accessible to analytical treatment. Typical topics include the motion of real projectiles, planetary motion and chaos, electric fields, waves, and random systems. Prerequisite: 60% or higher in each of PHYS 1002H, MATH 1120H, and COIS 1020H, or permission of the department.

PHYS 2610H: Introductory Quantum Physics (Sc)
Special relativity, particle-like aspects of radiation, atomic structure, wave-like properties of matter, Schrödinger equation and applications to one-dimensional systems. Prerequisite: 60% or higher in PHYS 1002H and in MATH 1120H, or permission of the department. Pre- or co-requisite: PHYS-MATH 2150H.

PHYS 2620H: Atomic, Molecular, and Nuclear Physics (Sc)
Quantum mechanics of one-electron atoms, magnetic dipole moments and spin, transitions and selection rules, identical particles, excited states of atoms, molecules, nuclear and particle physics. Prerequisite: PHYS 2610H, PHYS-MATH 2150H, and MATH 2110H.

PHYS 2700H: Thermal Physics (Sc)
The laws of thermodynamics and their applications, thermodynamic potentials, kinetic theory of gases, introduction to statistical thermodynamics. Prerequisite: PHYS 2610H and MATH 2110H.

PHYS-MATH 3130H: Classical Mechanics (Sc)
Classical mechanics of particles in three dimensions. Topics include Newtonian mechanics, oscillations, motion in non-inertial reference frames, gravity, and central forces. Prerequisite: 60% or higher in PHYS 1002H and in MATH 1120H, or permission of the department. Pre- or co-requisite: MATH 2110H and 2150H.

PHYS-MATH 3150H: Partial Differential Equations (Sc) (see Mathematics)

PHYS-MATH 3160H: Methods of Applied Mathematics (Sc) (see Mathematics)

PHYS-COIS 3200Y: Electricity and Magnetism (Sc)
Electrostatics, magnetostatics, electric and magnetic properties of matter, Maxwell’s equations, electromagnetic wave propagation. Prerequisite: 60% or higher in PHYS 1002H or permission of the department; PHYS-MATH 2150H, MATH 2110H, and 2120H.

PHYS-BIOL 3510H: Astrobiology: Life in the Universe (Sc)
An examination of the prospects for extraterrestrial life, based primarily on material from astronomy, biology, and planetary science. Topics include the origin and evolution of life on Earth, extremophiles, the habitability of Mars and Jovian moons, the nature and habitability of exoplanets, SETI, the Drake equation, and the Fermi paradox. Prerequisite: 5.0 university credits including two of BIOL 1020H, BIOL 1030H, PHYS 1510H, or PHYS 1520H. Excludes PHYS 2510H. Not for credit toward a major or minor in Physics.

PHYS 3610H: Foundations of Quantum Mechanics (Sc)
An introduction to the foundations of quantum mechanics. Topics include the postulates of quantum mechanics, Hilbert spaces, Dirac notation, one dimensional problems, matrix representations of quantum mechanics, unitary transformations. Prerequisite: PHYS 2620H and PHYS-MATH 2150H. Recommended: MATH 2350H. Excludes PHYS 4600Y.

PHYS 3900Y, 3901H: Reading Course (Sc)
Designed to allow advanced students in Physics to pursue independent study under the direction of departmental faculty. Available only in exceptional circumstances and with the approval of the department.
PHYS 4000Y/4010H: Project Course (Sc)
An experimental or theoretical project on some topic of advanced physics. Projects are selected in consultation with Physics & Astronomy faculty. Students must obtain approval for the project. Contact the department office for an application form. A cumulative average of at least 77% in all PHYS and MATH credits will normally be required. Students may take only one of PHYS 4000Y or 4010H for credit.

PHYS 4050H: Advanced Experimental Techniques (Sc)
Instructs students in techniques commonly found within research laboratories and industrial workplaces, such as principal component analysis, microcontroller programming, analysis of control systems, and interferometry. Pre- or co-requisite: PHYS-COIS 2250H.

PHYS-MATH 4140H: Advanced Classical Mechanics (Sc)
Classical mechanics of particles, rigid bodies, and continuous media. Topics include Lagrangian and Hamiltonian mechanics, systems of particles, motion of rigid bodies, and oscillating systems. Prerequisite: MATH 2110H, 2150H, and PHYS-MATH 3130H. Excludes PHYS-MATH 3140H.

PHYS 4220H: Electromagnetic Theory (Sc)
Maxwell's equations, the interactions of electromagnetic fields with matter, the relativistic formulation of electromagnetism and its applications. Prerequisite: PHYS-COIS 3200Y and PHYS-MATH 3150H.

PHYS 4240H: Modern Optics (Sc)

PHYS 4310H: Condensed Matter Physics (Sc)
Crystallography, crystal binding, lattice vibrations and thermal properties of solids, band theory, electron transport, semiconductors, magnetism. Prerequisite: PHYS 2700H and 2620H. Pre- or co-requisite: PHYS-COIS 3200Y and PHYS-MATH 3150H.

PHYS 4520H: Astrophysics: Galaxies and Cosmology (Sc)
An introduction to modern astrophysics, which applies the principles of physics to the study of galaxies and cosmology. Topics include the Milky Way galaxy, the nature of galaxies, galaxy evolution, the structure of the universe, active galactic nuclei and quasars, cosmology, and the early universe. Prerequisite: PHYS 2620H. Strongly recommended: PHYS 1510H and 1520H.

PHYS 4610H: Advanced Quantum Mechanics (Sc)
Advanced topics in quantum mechanics. Spherically symmetric potentials, theory of angular momentum, perturbation theory, selected special topics. Prerequisite: PHYS 3610H and MATH 3150H. Recommended: MATH 2350H. Excludes PHYS 4600Y.

PHYS 4700H: Statistical and Thermal Physics (Sc)
The statistical meaning of entropy and temperature; microcanonical, canonical, and grand canonical ensembles; derivation of distributions for distinguishable and indistinguishable particles and applications. Additional topics may include advanced methods in classical statistical mechanics, an introduction to phase transitions, and cryogenics. Prerequisite: PHYS 2620H, 2700H, and MATH 2110H. Pre- or co-requisite: PHYS-MATH 3150H.

PHYS 4900Y, 4901H, 4902H: Reading Course (Sc)
Designed to allow advanced students in Physics to pursue independent study under the direction of departmental faculty. Available only in exceptional circumstances, and with the approval of the department.
Policing & Community Well-being

Pending Ministry approval

trentu.ca/durham

Program Coordinator
To be named

Associated Faculty
G. Balfour, Sociology; K. Calderwood, Social Work; J. Connelly, Philosophy; J. Cosgrave, Sociology; C. Gilmer, Nursing; H. Russell, Policing & Community Well-being

Policing and Community Well-being at Trent provides an understanding of the main theoretical concepts and practices by police and other social agencies and organizations as they relate to complex social issues impacting community safety and well-being. Students develop a wide range of skills, from interpreting crime and social disorder data to contributing to a multi-disciplinary approach to social development in order to reduce and prevent the incidence of crime and social disorder. Graduates will be prepared for the modern police service, as well as service in other social agencies and municipal governance (law, community research, conflict mediator, policy analyst) that collaborate across sectors to achieve the goals of community safety and well-being for all.

Bachelor of Arts Program in Policing and Community Well-being

• In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).
• This program is offered only at Trent University Durham – GTA.
• For the Postgraduate Certificate in Senior Police Leadership, see p. 445.

The single-major Honours program. 20.0 credits including the following 11.0 credits:
– 1.5 PLCW credits at the 4000 level in addition to the above
– 0.5 CHYS credit consisting of CHYS 2000H
– 0.5 INDG credit consisting of INDG 1001H
– 0.5 FRSC credit consisting of FRSC 1100H
– 1.0 SOCI credit consisting of SOCI 1001H and 1002H
– 1.0 SOCI credit from SOCI 2430H, 2610H, or 2615H
» PLCW 1000H: Transforming Community Policing
Overviews policing and community well-being. Presents the history of Western policing from the fifth century to today. Depicts policing’s evolution from enforcing codes of conduct, to mobilizing and engaging the fullest range of social agencies, offices, and individuals who share resources, and responsibilities for providing safety and well-being for all, in community.

» PLCW 2001H: Restorative Justice
Compares and contrasts restorative justice and Canada’s criminal justice system, focusing on punitive versus restorative justice practices. Overviews Indigenous roots of restorative justice practices and the role of community in achieving justice for all. Introduces students to contemporary restorative justice practices. Prerequisite: 4.0 university credits or permission of instructor.

» PLCW 2002H: Community Problem-solving and Analysis
Introduces students to community safety and well-being planning, including specialized roles of municipal governance, social agencies, other groups, and individuals. Focuses on the challenges of inter-sectoral collaboration and the role of police in mobilizing and engaging others in effective community problem-solving. Prerequisite: 4.0 university credits or permission of instructor.

» PLCW 2003H: Social Determinants of Health
Introduces social factors which protect communities and individuals from crime and social disorder. Provides a history of the social determinants of health movement and draws parallels to the challenges of stemming crime and social disorder in community. Draws parallels between “health promotion” in the health sector and safety promotion in community. Prerequisite: 4.0 university credits or permission of instructor.

» PLCW 3002H: Mental Health, Addiction, and Community Well-being
Focuses on mental health and addiction and their impacts on community safety and well-being. Explains these disorders using real case scenarios. Students will become aware of victimization and stigma associated with mental health and substance abuse disorders, and have a better understanding of the etiology of addictions and mental health problems.

» PLCW 3003H: Violence in the Community
Analyzes violence in community, including power relations and the intersection of age, gender, race, ethnicity, and class. Students examine physical, sexual, psychological, social, and economic violence among intimate partners, children, and elders; and leave this course knowing the etiology of violence as well as measures to stem it.

» PLCW 3004H: Applications of Multidisciplinary Research
Introduces students to the variety of research methods that are appropriate to community-based initiatives. Prepares students to enter into community problem-solving initiatives with the ability to source, understand, and apply the results of qualified research. Helps students understand research results and prepares them to make evidence-based decisions. Open only to Policing & Community Well-being students. Prerequisite: 60% or higher in CHYS-CCTH 2000H.

» PLCW 3005H: Community Consultation and Advocacy
Students learn the history, principles, and practices of consultation and advocacy in public policy development and program design. They will leave the course with practical skills in achieving the goals of consultation and advocacy applied to resolving complex community problems.

» PLCW 3006H: Diversity and Exclusion
Prepares students to tackle complex problems in diverse communities through learning the history of discrimination, hate, and violence in Canada; demographic shifts and trends; and practical opportunities to learn about privilege, stereotyping, systemic exclusion, and measures to foster inclusion.
» **PLCW 3007H: Problem-solving in a Complex and Diverse Community**  
Requires students to select a community, analyze its diversity, identify community problems that require resolution, and explain the history of efforts to resolve those problems. Introduces students to the principles and practices of community problem-solving. Prerequisite: PLCW 3002H, PLCW 3003H, and 60% or higher in PLCW 2001H.

» **PLCW 4000H: Collaborating with Other Agencies and Organizations**  
Introduces students to inter-agency, cross-sectoral collaboration within a community, including reasons for collaborating and barriers to it. Provides practical instruction on measures for overcoming barriers to collaboration and highlights the skills and capabilities of police and other social agencies to mobilize others and foster collaboration. Prerequisite: 8.0 university credits including PLCW 2001H.

» **PLCW-CHYS 4001H: Youth Offending and Youth Justice (see Child & Youth Studies)**

» **PLCW 4002H: Municipal Organization, Governance, and Leadership**  
Introduces students to the role of local government, including conventional organization of municipal governance; powers of municipal councilors; mandate for community safety and well-being planning; highest order directive and imperative; guiding and overseeing community safety and well-being initiatives; evaluating community initiatives; and changing public policies to support community safety and well-being. Prerequisite: 8.0 university credits including PLCW 2001H.

» **PLCW 4003H: Evaluating Community Initiatives**  
Introduces students to the principles and practices of evaluation in community programs. Overviews the roles and methods of evaluation as well as practical measures for sourcing and acquiring evaluation services; and understanding and applying evaluation results to public policy and program design. Prerequisite: 8.0 university credits including PLCW 2001H.

» **PLCW 4004Y: Experiential Reflection/Placement**  
Students learn to bridge theory with field-based learning. Working with a community organization, students combine field experience and reflective practice. Students may secure their own placement, as approved by a faculty supervisor, or interview for various placements identified by the course instructor. Open only to Policing & Community Well-being students. Prerequisite: PLCW 3007H.
Political Studies

trentu.ca/politicalstudies

Associate Professor and Chair of the Department
J. Greene, BA (Manitoba), MA (Wilfrid Laurier), PhD (Queen’s)

Professors
M. Neufeld, BA (Waterloo), MA, PhD (Carleton) (on leave 2019-2020)
C. O’Manique, BA (Carleton), MA, PhD (York) (on leave Fall 2019)
A. Pickel, MA (Guelph), Dipl Pol (Free University of Berlin), PhD (York)

Associate Professors
F. Baban, BA, MA (Bogazici), PhD (Carleton)
N. Changfoot, BA (York), MA (Carleton), PhD (York)
E. Stavro, MA, PhD (Toronto) (on leave Winter 2020)
H. Uluorta, BA, BSW (British Columbia), MA (International Institute of Social Studies), PhD (York) (on leave Fall 2019)

Associated Faculty
S. Bocking, Environment; M. Dockstator, Indigenous Studies; D. Newhouse, Indigenous Studies

The department provides for general study and for concentration in one or more fields—world politics, Canadian politics, and political theory. All three major fields of Political Studies are interconnected through four overlapping thematic clusters: (1) institutions, law, and policy, (2) political economy, (3) political culture and identity, and (4) alternative politics—allowing for a large variety of combinations for individual study.

Notes
• The Political Studies Department offers a joint-major in International Political Economy. For more information, please refer to the Calendar entry under International Political Economy.
• Global Power & Politics is a recognized Section of the Political Studies Department, offering an Emphasis program. Political Studies courses delivered by members of the Global Power & Politics Section are marked (GP) in the individual course descriptions (see below).
• The Centre for Critical Study of Global Power & Politics (p. 452) is a Research Centre devoted to research in Global Power & Politics. The Centre is both a research centre and a resource for courses offered by members of the Global Power & Politics Section—see trentu.ca/globalpolitics.
• Students interested in the possibility of registering for a reading course (POST 3900Y, 3901H, 3902H, 3903H, 4900Y, 4901H, 4902H, 4903H), research practicum (POST 4800Y, 4801H, 4802H), internship (POST 4870Y, 4871H, 4872H), or thesis (POST 4020D) should consult with the department regarding prerequisites and application procedures.
Bachelor of Arts Program in Political Studies

• In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).
• The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

The single-major Honours program. 20.0 credits including the following 9.0 credits:
– 2.5 POST credits consisting of POST 1001H, 1002H, 2351H, 2352H, and 3600H
– 1.0 POST credit from POST 2011H and 2012H or 2230Y
– 1.5 POST credits at the 3000 level in addition to the above
– 3.0 POST credits at the 4000 level
– 1.0 POST credit in addition to the above

The joint-major Honours program. 20.0 credits including the following 7.0 credits:
– 2.5 POST credits consisting of POST 1001H, 1002H, 2351H, 2352H, and 3600H
– 1.0 POST credit from POST 2011H and 2012H or 2230Y
– 1.5 POST credits at the 3000 level in addition to the above
– 2.0 POST credits at the 4000 level

The single-major General program. 15.0 credits including the following 6.0 credits:
– 1.5 POST credits consisting of POST 1001H, 1002H, and 3600H
– 2.0 POST credits from POST 2011H, 2012H, 2230Y, 2351H, or 2352H
– 1.5 POST credits at the 3000 level in addition to the above
– 1.0 POST credit in addition to the above

The joint-major General program. 15.0 credits including the following 5.0 credits:
– 1.5 POST credits consisting of POST 1001H, 1002H, and 3600H
– 2.0 POST credits from POST 2011H, 2012H, 2230Y, 2351H, or 2352H
– 1.5 POST credits at the 3000 level in addition to the above

The minor in Political Studies consists of the following 5.0 credits:
– 1.5 POST credits consisting of POST 1001H, 1002H, and 3600H
– 2.0 POST credits from POST 2011H, 2012H, 2230Y, 2351H, or 2352H
– 1.5 POST credits at the 3000 level in addition to the above
Specialization in Public Policy

The Specialization in Public Policy is designed for students in Political Studies who are interested in careers in the public service, think tanks, and non-governmental and inter-governmental organizations.

Students who have fulfilled the requirements for a single- or joint-major Honours degree in Political Studies may graduate with a Specialization in Public Policy if they have also successfully completed the following 4.0 credits:

– 0.5 POST credit consisting of POST 3605H
– 3.5 POST credits from Group A and Group B, with at least 1.0 credit from Group A

Please consult the academic timetable for information on courses that will be offered in 2019–2020, including when they will be scheduled.

» POST 1001H: Politics and Power in the Global Age: Introduction
A comparative and historical introduction to the basic ideas in political studies focusing on power and democracy in the global era. Topics including economic inequality, the environment, consumerism, and surveillance are discussed within the context of intensifying twenty-first-century globalization. Excludes POST 1000Y.

» POST 1002H: Politics and Power in the Global Age: Issues
Explores some pressing issues in contemporary politics and challenges students to think about how best to address them. Topics may include political participation, electoral reform, new media, taxation, the politics of resource development, and multiculturalism. Excludes POST 1000Y.

» POST-CAST-INDG 2001H: Indigenous Peoples and State Relationships (ICR) (see Indigenous Studies)

» POST-CAST-INDG 2002H: Indigenous Peoples and Resurgence (ICR) (see Indigenous Studies)

» POST-CAST 2011H: Governing Canada: Issues and Challenges
Provides a systematic introduction to the core institutions and processes of Canadian government such as the Canadian constitution, Parliament, the civil service, the electoral system, policy-making, political parties, interest groups, and social movements. Examines how well these institutions and processes function to promote democratic governance. Prerequisite: 4.0 university credits or permission of instructor. Excludes POST-CAST 2010Y.
POST-CAST 2012H: Democratizing Canada: Contemporary Issues
Provides a systematic introduction to Canadian democracy, examining political relationships between citizens and state, and in turn, relating these to broader patterns and politics for democratic change in Canadian society. Examines the demands for democratic change made by key groups and the politics of those demands. Prerequisite: 4.0 university credits or permission of instructor. Excludes POST-CAST 2010Y.

POST-ERST 2100H: Environmental Science and Politics (see Environmental & Resource Science/Studies)

POST-PHIL 2150H: Philosophy of Law (see Philosophy)

POST 2200Y: Introduction to Global Power and Politics (GP)
Provides an introduction to the critical study of theories and approaches most relevant in the globalization debate and of central issues for understanding global power structures. Lays the groundwork for the Emphasis program in Global Power & Politics. Prerequisite: 4.0 university credits or permission of section coordinator. Excludes POST 2230Y.

POST-CAST-HIST 2215H: “Empire Ontario” 1867–1945 (see Canadian Studies)

POST-CAST-HIST 2225H: Ontario Since 1945: From “The Common Good” to “Common Sense” (see Canadian Studies)

POST 2230Y: World Politics
Studies how human societies deal with various forms of global change (economic, cultural, political). A principal objective is to enable students to develop an understanding of how the international system is shaped by the great historical turning-points and understand key concepts in international relations. Prerequisite: 4.0 university credits or permission of department chair. Excludes POST 2200Y.

POST-CAST-HIST 2285H: Canada in the 1960s: Irony and Identity (see Canadian Studies)

POST-PHIL 2351H: The Political Imagination I
Political thought as it appears in a diversity of sources—e.g., literature, film, theatre—as well as established texts of political theory. With the classical and modern worlds as points of reference, this course opens a particular route of access to political thought. Prerequisite: 4.0 university credits or permission of instructor. Excludes POST-PHIL 2350Y.

POST-PHIL 2352H: The Political Imagination II
Political thought as it appears in a diversity of sources—e.g., literature, film, theatre—as well as established texts of political theory. With the contemporary political world as its point of reference, this course opens a particular route of access to political thought. Prerequisite: 4.0 university credits or permission of instructor. Excludes POST-PHIL 2350Y.

POST-CAST-SOCI 3000Y: Reading the Social: Space, Difference, and Power in Canada (see Canadian Studies)

POST-CAST-INDG 3015H: Urban Governance in Canada
Most Canadians live, work, and play in cities. It is important, therefore, that we understand how cities are governed. This course provides an overview of the structures, functions, and financing of local government in Canada, and the relationship that municipal and Aboriginal governments have with their provincial and federal counterparts. 2.0 POST or CAST or INDG credits at the 2000 level or permission of instructor.
» **POST-ERST 3030H: Green Politics**
Changes and tensions in green politics from the environmentalism of the 1960s to the advent of “many environmentalisms.” What does it mean to be “green,” what kind of political stance do green concerns call for, and indeed, what does green politics say about the very meaning of “politics”? Prerequisite: 2.0 POST or ERST credits at the 2000 level or beyond, or permission of instructor.

» **POST-CAST 3091H: Law and Constitutional Issues**
Examines the way the Canadian constitution both constrains and opens up possibilities for political change. Includes consideration of formal constitutional interpretation and the politics of the judicial process. Looks at the important issues like federal and provincial powers, secession, Senate reform, and Aboriginal self-government. Prerequisite: 2.0 POST credits at the 2000 level which include one of POST-CAST 2011H or 2012H or POST-PHIL 2150H, or permission of instructor. Excludes POST-CAST 3090Y.

» **POST-CAST 3092H: Law and the Charter of Rights and Freedoms**
Examines key Supreme Court decisions on the Charter of Rights and Freedoms pertaining to fundamental freedoms, democratic rights, legal rights, and equality rights. Assesses the role of the Charter in advancing the struggles of groups such as women, gays and lesbians, people with disabilities, labour, and Aboriginals. Prerequisite: 2.0 POST credits at the 2000 level which include one of POST-CAST 2011H or 2012H or POST-PHIL 2150H, or permission of instructor. Excludes POST-CAST 3090Y.

» **POST-CAST-ERST 3120H: Canadian Environmental Policy (see Environmental & Resource Science/Studies)**

» **POST-PHIL 3140H: Justice and Rights (see Philosophy)**

» **POST 3161H: Populism in the Twenty-first Century**
Examines the phenomenon of populism in North America, Europe, and Latin America. Major questions include the causes of populism and whether it is democratic or authoritarian. Much of the course focuses on actual populist movements and governments, and what their successes and failures tell us about the future of democratic politics. Prerequisite: 4.0 university credits.

» **POST 3170H: US Politics**
A critical introduction to US government and politics, situating political behaviour within the larger context of political, economic, and social power. Covers the workings of the main political institutions (the presidency, Congress, and the courts), elections, political parties, social movements, and the media. Prerequisite: 2.0 POST credits at the 2000 level or permission of instructor. Recommended: POST 2230Y.

» **POST-PHIL 3180H: Social and Political Philosophy (see Philosophy)**

» **POST 3200H: Ordering World Politics I: US Foreign Policy in the Twentieth Century and Beyond (GP)**
Provides a critical perspective on the efforts to construct and regulate the global order represented by US foreign policy. A theoretically informed review of the historical record is used to achieve an understanding of current trends. Prerequisite: 2.0 POST credits at the 2000 level or permission of instructor. Recommended: POST 2200Y.

» **POST-CAST 3210H: Ordering World Politics II: Canadian Foreign Policy in the Twentieth Century and Beyond (GP)**
Provides a critical perspective on the efforts to construct and regulate the global order represented by Canadian foreign policy. A theoretically informed review of the historical record is used to achieve an understanding of current trends. Prerequisite: 2.0 POST credits at the 2000 level or permission of instructor. Recommended: POST 2200Y.

» **POST-IDST 3220H: Global Political Economy (see International Development Studies)**
» POST-SOCI 3230Y: Nationalism and Political Order in Global Perspective (GP)
Why nationalism has survived and revived under globalization; how ethnicity is politicized and national identities constructed; nationalism's positive and negative forms and its relationship with democratic values. Incorporates philosophical, historical, sociological, anthropological, and economic approaches to explain and assess varieties of nationalism. Prerequisite: 2.0 POST credits at the 2000 level or permission of instructor. Recommended: POST 2200Y.

» POST 3240H: European Integration (GP)
Examines the most ambitious and far-reaching transnational project of political integration—the European Union—with particular emphasis on its current crisis. Prerequisite: 2.0 POST credits at the 2000 level or permission of instructor. Recommended: POST 2230Y.

» POST 3280H: Critical Security Studies
Explores concepts of security, focusing on the contested meaning of security in relation to states, nations, identities, individuals, markets, the environment, and technology. Prerequisite: 2.0 POST credits at the 2000 level or permission of instructor. Recommended: POST 2230Y. Excludes POST 3973H.

» POST-IDST 3281H: Government and Politics in the Middle East (see International Development Studies)

» POST-IDST 3282H: Politics of Arab-Israeli Conflict (see International Development Studies)

» POST-IDST 3290H: Causes of War
A survey of theories of the causes of war. Topics include structural realism, democratic peace theory, Marxism, domestic state structure and coalition-building, ideology, patterns of state formation, gender, and religion. Pays special attention to contemporary civil wars, terrorism as warfare, and twenty-first-century American foreign policy. Prerequisite: 2.0 POST credits at the 2000 level including POST 2230Y; or permission of instructor.

» POST 3330Y: Political Theory
A survey of some classic texts in the history of Western political thought with an emphasis on problems of interpretation and the ways in which a tradition of political discourse determines our conceptions of the political and legitimates political activity.

» POST 3350H: Politics and Creativity
Explores how creativity is a vital aspect of politics. Students examine and reflect upon “doing politics differently” with the help of political theory, consideration of citizenship, and examples of activism through art and culture. Prerequisite: 2.0 POST credits at the 2000 level or permission of instructor. Recommended: POST-PHIL 2351H and 2352H. Excludes POST 3971H.

» POST-WMST 3360H: The Body Politic / The Body in Politics
Liberal political discourse assumes the polity emerges from the consent of rational autonomous actors. This is challenged by focusing on debates concerning power as sovereignty, dominant class interest, and governance. Efforts to include the woman's body in politics through care, contract, desire, and citizenship are explored. Prerequisite: 2.0 POST credits at the 2000 level or permission of instructor.

» POST 3420H: Poverty, Politics, and Protest: A Comparative Perspective
Explores poor people’s movements in the context of globalization, neoliberalism, and urban restructuring through an examination of key theoretical texts and case studies of collective action in North America, Europe, Latin America, and Asia. Prerequisite: 2.0 POST credits at the 2000 level or permission of instructor.

» POST 3430H: Latin American Politics
Explores the politics of Latin America in a political-economic, social, and historical context, from colonial times to the contemporary period. Specific cases of state and social movement projects are examined in a broader regional and global context. Prerequisite: 2.0 POST credits at the 2000 level or permission of instructor. Excludes POST 3951H.
» **POST-CAST-WMST 3431H: Growing Gap: Gender (In)Justice in Canada (see Gender & Women’s Studies)**

» **POST-CUST 3465H: Politics and Film**
What makes a film “political”? We consider the various ways in which political life and action are portrayed in and through film, addressing—in relation to a variety of film genres—such topics as publics and publicity, visual politics, political senses, media manipulation, film bodies, and political bodies. Prerequisite: POST 2351H and 2352H; or CUST 2081Y; or permission of the instructor.

» **POST-CUST 3475H: Media of Politics**
War and revolution, finance capitalism, political advertising—all involve a triangulation of technical media, perception, and power. Exploring the history of this media/perception/politics nexus, the course also focuses directly on the rise of social media and Tweets as objects of political communication and as strategies and tools of politics. Prerequisite: POST 2351H and 2352H; or CUST 1535H; or permission of the instructor.

» **POST-CUST 3570Y/3571H: Cultural Politics**
Political questions are always posed in a cultural context, but culture itself is now a political question. This course examines historical background, including the politics of the avant-garde and the “new sensibility” of the 1960s, and then turns to the politics of current movements posing culture as an issue. Prerequisite: 2.0 POST credits at the 2000 level or permission of instructor. Students may take only one of POST-CUST 3570Y or 3571H for credit.

» **POST 3600H: Designing and Doing Qualitative Research in Political Studies**
Introduces students to qualitative research methods in political studies. Designed to engage students in questions about how we collect and analyze data to explain political phenomena and to give students hands-on experience using qualitative research methods. Prerequisite: 2.0 POST credits at the 2000 level or permission of the instructor.

» **POST-ERST-IDST-SA FS 3602H: Environment and Development (see Environmental & Resource Science/Studies)**

» **POST-ERST-IDST 3603H: Environmental Justice (see Environmental & Resource Science/Studies)**

» **POST 3605H: Policy Analysis: Methods and Applications**
Introduces students to the theory and practice of public policy analysis. Examines key aspects of policy analysis such as defining problems and choosing policy instruments, with a special section of the course dedicated to developing the skills to both use and understand the limits of statistics and quantitative methods. Prerequisite: 2.0 POST credits at the 2000 level or permission of the instructor.

» **POST-CAST-GEOG 3621H: The Critical Space of Law: The Construction of National Identity and the Production of Subjects in Canada (see Canadian Studies)**

» **POST-CAST-SOCI 3661H: Race, Ethnicities, and Multiculturalism (see Sociology)**

» **POST-CAST-SOCI 3665H: Canada: State, Society, Power (see Canadian Studies)**

» **POST-CAST-WMST 3671H: Gender and Politics in Canada: Cultural and Media Interventions**
Examines the construction of gender in multiple ways, including (dis)ability, race, class, LGBTQ, and Indigeneity; provides a range of political perspectives to understand the agency of gender persons and groups in activism, including through art, music, and Wikipedia interventions. Prerequisite: 2.0 POST credits at the 2000 level or permission of instructor. Recommended: POST-CAST 2011H, 2012H, or POST 2230Y. Excludes POST-CAST-WMST 3670Y.
» POST-CAST-WMST 3672H: Gender Diversity and Politics in Canada
Examines issues of diverse gender identities and gender experiences, including (dis)ability, race, class, LBTQ, and Indigeneity, and provides political perspectives to understand activism, community building, and possibilities for political and policy change. Prerequisite: 2.0 POST credits at the 2000 level or permission of instructor. Recommended: POST-CAST 2011H, 2012H, or POST 2230Y. Excludes POST-CAST-WMST 3670Y.

» POST-CAST-HIST 3785H: Canada in the 1980s: Culture and Conflict (see Canadian Studies)

» POST-IDST-WMST 3881H: Gender, Globalization, and Resistance (see International Development Studies)

» POST 3900Y, 3901H, 3902H, 3903H: Reading Course in Political Studies
Designed to provide an opportunity for more intensive examination of material studied in other Political Studies courses. Prerequisite: Open only to Political Studies majors with a minimum 80% average over all POST courses completed or permission of the chair.

» POST 3905Y, 3906H: Reading Course in Global Politics (GP)
Allows students to pursue a specialized topic under the supervision of a Global Power & Politics faculty member. Students wishing to pursue this option must complete arrangements for the course by April 30 of the preceding academic year (or October 31 for Winter term courses). Prerequisite: POST 2200Y or 2230Y, and prior approval of instructor.

» POST 3960Y: Socialism: Theory and Practice (GP)
Explores the significance of socialist politics and Marxist analysis under neoliberal globalization. Surveys philosophy, political economy, ideology; communism, social democracy, post-communist transformations; Eastern Europe, China, Cuba, Venezuela. Prerequisite: 2.0 POST credits at the 2000 level or permission of instructor. Strongly recommended: POST 2200Y.

» POST-WMST-CAST-SOCI 3962H: Gender, Sexualities, and the Law (see Gender & Women’s Studies)

» POST 4020D: Honours Thesis
A double credit. A scholarly project on a specific topic to be developed and carried out under the supervision of a member of the department. Prerequisite: 15.0 university credits, including 5.0 POST credits that include either both POST-PHIL 2351H and 2352H or POST 3330Y and a minimum 80% average on all POST courses completed; or permission of the chair.

» POST 4030Y: Thesis Option—Emphasis in Global Power and Politics (GP)
Allows advanced students to write a thesis under the supervision of a Global Power & Politics faculty member. Students wishing to pursue this option must complete arrangements for the course by April 30 of the preceding academic year. Prerequisite: POST 2200Y or 2230Y; 2.0 POST (GP) credits at the 3000 level; a minimum average of 75% over all POST (GP) courses completed; and permission of instructor.

» POST-CAST 4055H: Contemporary Canadian Problems
A survey of contemporary Canadian public policy issues with an emphasis on activities within policy networks and the formulation of alternative policy solutions. Prerequisite: 12.0 university credits, including 5.0 POST credits that include POST-CAST 2011H, 2012H, and either both POST-PHIL 2351H and 2352H or POST 3330Y; or permission of instructor.

» POST 4070Y: Community Engagement and Leadership Internship in the Era of Globalization
Combines scholarly knowledge of social movements with the “hands-on” experience of working with a community organization in the Peterborough area. Students learn how relations between the state and social movements have changed and continue to change in the neoliberal period. Prerequisite: 15.0 university credits with an overall cumulative average of at least 75%, including 5.0 POST credits that include both POST-PHIL 2351H and 2352H, or POST 3330Y; or permission of instructor. Recommended: POST-CAST 2011H, 2012H.
POST-CAST 4081H: Canadian Politics and Public Policy
Explores the Canadian process of developing public policy. Examines the main stages of policy development and also the key institutions and actors in Canadian politics, including the public policy roles of the prime minister, Cabinet, the bureaucracy, the opposition, political parties, non-governmental organizations (NGOs), and the public. Prerequisite: 12.0 university credits, including 5.0 POST credits that include one of POST-PHIL 2351H, 2352H, or 3330Y; or permission of instructor. Excludes POST 4080Y.

POST-CAST 4082H: Federal and Provincial Power in Canada
Examines implications of Canadian federal–provincial relations for the development of public policy. The first half of the course examines the basic components of Canadian federalism, and second half looks at central public policy issues such as economic policy, immigration, health care, welfare, and childcare. Prerequisite: 12.0 university credits, including 5.0 POST credits that include one of POST-PHIL 2351H, 2352H, or 3330Y; or permission of instructor. Excludes POST 4080Y.

POST 4200H: Politics of Globalization I: Thinking Critically, Thinking Globally (GP)
“Thinking globally” has become a watchword of living in an era of globalization. Drawing on current theories of world politics, as well as insights afforded by social and political theory, this course explores the issue of how to think critically in global terms. Prerequisite: 15.0 university credits, including 5.0 POST credits that include POST 2200Y and one of POST-PHIL 2350Y or POST 3330Y, or permission of instructor.

POST-SOCI 4210Y: Advanced Seminar—Emphasis in Global Power & Politics (GP)
A special course reviewing major approaches to the study of global power and politics designed for senior students in the social sciences interested in acquiring tools for exploring multidisciplinary literature in the globalization field. Prerequisite: 2.0 POST (GP) credits; or 10.0 university credits including SOCI 2110H and 3151H (or 2150Y), and 2.0 additional credits at the 3000 level; or permission of instructor.

POST-IDST-SOCI 4230H: Global Civil Society (see International Development Studies)

POST-CAST-IDST 4240Y: Canada, Globalization, and International Development (see International Development Studies)

POST-IDST-ADMN 4255H: Globalization and the Politics of Work
Work is a central feature of everyday lives structuring not only who we are but also life chances. But what do we mean by work and how does intensifying globalization affect our understanding of it? Topics include work generation theories, comparative national strategies and policies, power, production, and social reproduction. Prerequisite: 2.0 POST credits at the 2000 level; or 5.0 ADMN credits; or 12.0 university credits including IDST 2000Y; or permission of instructor.

POST-IDST 4260H: Global Governance and Social Justice (see International Development Studies)

POST-IDST 4271H: History of Democracy and Global Order
Examines the meaning and prospects for democracy in the age of globalization in light of constraints and opportunities for democratic institutions and global governance. Prerequisite: 12.0 university credits, including 5.0 POST credits that include both POST-PHIL 2351H and 2352H or POST 3330Y, or permission of instructor. Excludes POST-IDST 4270Y.

POST-IDST 4272H: Challenges for Democracy and Global Order
Examines the interplay between, and implications for, empire, globalization and democracy, and patterns of domination, homogenization, and resistance in cross-geographic and cultural cases such as China, the Arab Spring, and the challenges presented by ISIS. Prerequisite: 12.0 university credits, including 5.0 POST credits that include both POST-PHIL 2351H and 2352H or POST 3330Y, or permission of instructor. Excludes POST-IDST 4270Y.
POST 4331H: Power and Resistance
Examining power and resistance in political conflict, this course focuses on practical cases (e.g., Occupy, Anti-globalization, the head scarf movement, post war trials of collaborators, the Truth and Reconciliation Commission in South Africa) in relation to a range of relevant developments in contemporary political theory. Prerequisite: 12.0 university credits, including 5.0 POST credits that include both POST-PHIL 2351H and 2352H; or permission of instructor. Excludes POST 4330Y.

POST 4340H: Colonial and Post-Colonial Theory (GP)
Analyzes the relationship between Western political thought and the project of imperialism. Engages the work of key figures in post-colonial theory (e.g., Said, Spivak) as well as precursors (e.g., Fanon, Gramsci) as a way of understanding forms of domination in the contemporary global order. Prerequisite: 2.0 POST (GP) credits. Strongly recommended: POST 4200H.

POST-CAST-WMST 4431H: Growing Gap: Gender (In)Justice in Canada (see Gender & Women's Studies)

POST-CAST 4460H: Security, Surveillance, and the Making of the Contemporary Canadian State (see Canadian Studies)

POST-CUST 4538H: Media Ecologies (see Cultural Studies)

POST-CAST-GEOG 4555H: City, Economy, and Society: Urban Restructuring and the Global Economy
Focuses on contemporary issues facing Canadian cities in comparative perspective. It locates cities within the global circuit of capital, examines the ways in which cities are being reordered to enhance their global competitiveness and standing, and analyzes the effects of restructuring on communities and the struggles for social justice. Prerequisite: 12.0 university credits or permission of instructor.

POST-ERST-IDST-SAFS 4610H: Global Environmental Policy (see Environmental & Resource Science/Studies)

POST-CAST-GEOG 4621H: The Critical Space of Law: The Construction of National Identity and the Production of Subjects in Canada (see Canadian Studies)

POST-ERST 4704H: Senior Seminar in Environmental Politics (see Environmental & Resource Science/Studies)

POST-CAST-HIST 4772H: Canadian Social Policy 1951–2014 (see Canadian Studies)

POST 4800Y, 4801H, 4802H: Research Practicum
Open to Honours students in Political Studies. Under the direct supervision of a departmental faculty member, research activities are undertaken within the faculty member’s ongoing research program. Prerequisite: 14.0 university credits, a minimum 80% average in POST courses, permission of instructor, and permission of department chair.

POST-ANTH-SAFS 4830H: Anthropology of Food Politics (See Anthropology)

POST 4850H: Public Policy Field Placement
Provides students an opportunity to apply policy analysis ideas and skills in a practical setting. Students will be placed in a non-profit organization or government office engaged in public policy. Enrolment in the course is limited to the number of available placements. Students interested in this course must notify the instructor by the end of September for placements starting in January. Prerequisite: 15.0 university credits, a minimum cumulative average of 77%, and permission of the instructor.
» **POST 4870Y, 4871H, 4872H: Community-Based Research Project**
Students are placed in research projects with community organizations in the Peterborough area. Each placement is supervised jointly by a faculty member and a representative of a community organization. For details, see Community-Based Research program (p. 429). Prerequisite: At least 10.0 university credits, with an overall cumulative average of at least 75%. Students may take POST 4870Y or both 4871H and 4872H for credit.

» **POST 4900Y, 4901H, 4902H, 4903H: Reading Course in Political Studies**
Open only to students in the fourth year of a Political Studies major program. Alternatively, a student may do an internship, involving field and written work in an area related to politics. For further details, see the department website. Prerequisite: 80% average in all POST courses completed or permission of the chair.

» **POST 4905Y, 4906H: Reading Course (GP)**
Allows students to pursue a specialized topic under the supervision of a Global Power & Politics faculty member. Students wishing to pursue this option must complete arrangements for the course by April 30 of the preceding academic year (October 31 for Winter term courses). Prerequisite: POST 2200Y or 2230Y, 2.0 POST (GP) credits at the 3000 level, and permission of instructor.

Draws on C. Wright Mills’s notion of the “sociological imagination”—in particular, the link between “personal troubles of milieu” and “public issues of social structure”—to frame the question of globalization. Makes use not only of scholarly literature, but also fiction and film. Prerequisite: 15.0 university credits, including 5.0 POST credits that include POST 4200H and either both POST 2351H and 2352H or 3330Y, or permission of instructor.
Psychology

trentu.ca/psychology

Chair of the Department
To be named

Professors
T. DeCicco, BSc (Manitoba), MSc (Trent), PhD (York)
T. P. Humphreys, MA (Laurier), PhD (Guelph)
J. D. A. Parker, BA (Simon Fraser), MA, PhD (York)
E. Scharfe, BA (Western), MA, PhD (Simon Fraser)
L. J. Summerfeldt, MA, PhD (York)

Associate Professors
B. Bauer, MA, PhD (Waterloo)
L. Brown, BSc, MSc (Waterloo), MS, PhD (Penn State)
M. Chan-Reynolds, BSc (Trent), MA, PhD (Waterloo) (on leave 2019–2020)
N. Im-Bolter, MA, PhD (York)
H. Lehmann, BA (Concordia), MSc (Alberta), PhD (Concordia)
M. Liu, MEd (Shanghai Normal), MA, PhD (Western)
G. Navara, BA (Waterloo), MA (Wilfrid Laurier), PhD (Guelph)
E. Nisbet, BA, MA, PhD (Carleton)
K. Peters, MA, PhD (British Columbia)
B. Smith-Chant, BA (Trent), MA, PhD (Carleton)

Assistant Professors
N. Fournier, BSc (Laurentian), MSc (Dalhousie), PhD (Saskatchewan)
E. Russell, BA, MSc, PhD (Memorial)

Senior Lecturers
J. Adams, BA (Concordia), MA (Guelph), PhD (York)
K. Keefer, BSc, MSc (Trent), PhD (Queen’s)
F. O’Hagan, BSc (Saskatchewan), MSc, PhD (McMaster)

Psychology is defined as the scientific study of behaviour and the mind. As such, psychological research provides insight into questions on topics such as newborn infants’ preference for their mother’s voice, the link between personality and academic achievement or physical health, how sleep influences learning and memory, the identification of individuals who are at risk for Alzheimer’s disease or cancer, sexual negotiation and behaviour in young adults, or even how you understand these words you are reading right now. Psychology is a scientific discipline with a multitude of practical applications: it deals with every aspect of our lives, and in its application of scientific methods to questions of human concern, it helps us to better understand how and why people act, think, and feel the way they do. The Psychology program at Trent ensures that students acquire research skills and a broad-based background in the basic content of the discipline, and that they have the opportunity at upper levels to focus on more specialized topics and to become involved in original research.
Notes

- 60% or higher in PSYC 1020H and 1030H is a prerequisite for all upper-level Psychology courses.
- A 4U Mathematics course is strongly recommended for students who plan to major in Psychology.
- All courses in Psychology fulfill University science course requirements for the BSc.
- Any course involving work with live vertebrate animals requires the Animal Care Course, which is described on p. 19 of the Calendar. The Animal Care Course requirement is indicated in some course descriptions but may also apply to others. Check with the course instructor if in doubt.
- For non-majors taking courses where PSYC 2018H or 2019H is a prerequisite, a statistics course in another discipline may be substituted, but only if the permission of the department has been granted.
- A maximum 2.0 credits consisting of either reading courses (PSYC 3900Y, 3901H, 3902H, 4900Y, 4901H, and 4902H) and/or research practicum courses (PSYC 3801H, 3802H, 4801H, and 4802H) may be counted toward the course requirements for a major or joint-major degree in Psychology.
- The Psychology Honours thesis is a major research project counting as 2.0 credits in PSYC or combining 1.0 credit in PSYC and 1.0 in the other discipline in a joint-major. Both options are open to joint-majors.

Bachelor of Arts and Bachelor of Science Programs in Psychology

- In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).
- The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.
- There are two Honours degrees in Psychology, the course option and thesis option. For the requirements, see below.
- The department offers both a BA and a BSc degree. The BSc differs from the BA only in the requirement for a minimum number of science credits (see below).
- All students intending to enter the single-major or joint-major program in Psychology should consult the Psychology department advisor (psychology@trentu.ca).
- Students completing the single-major or joint-major BSc in Psychology require PSYC 2018H and 2019H plus 10.0 additional science credits of which at least 1.5 science credits are in addition to Psychology courses and courses cross-listed with Psychology for the General degree or 13.0 additional science credits of which at least 2.0 science credits are in addition to Psychology courses and courses cross-listed with Psychology for the Honours degree. PSYC 2018H and 2019H fulfill the requirement for 1.0 credit in Mathematics for the single-major BSc in Psychology.
- Most courses at the 2000 and 3000 level in the department are assigned to one of two categories (Natural Science or Social Science). Students in the single-major or joint-major program in Psychology must include in their program a range of courses chosen from each category, as indicated in the requirements for the various degree options.

*no longer offered

**The single-major Honours program.** (Course or Thesis Options available.) 20.0 credits including the following 10.0 credits:
- 3.0 PSYC credits consisting of PSYC 1020H, 1030H, 2018H, 2019H, and 3015Y
- 0.5 PSYC credit from A2
- 0.5 PSYC credit from B2
- 1.0 PSYC credit from A3
- 1.0 PSYC credit from B3
- 1.0 PSYC credit at the 4000 level in addition to the above
- 3.0 PSYC credits; select from Course Option or Thesis Option:
  - For Course Option: 3.0 PSYC credits in addition to the above, at least 2.0 at the 3000 level or beyond, or
  - For Thesis Option: 3.0 PSYC credits in addition to the above, including PSYC 4020D (double-credit thesis) and 1.0 PSYC credit at the 3000 level or beyond
- For the BSc, 14.0 science credits are required for the Honours degree of which at least 2.0 science credits (Sc designated courses) are in addition to Psychology courses and courses cross-listed with Psychology
The joint-major Honours program. (Course or Thesis Options available.) 20.0 credits including the following 8.0 or 9.0 credits:
- 3.0 PSYC credits consisting of PSYC 1020H, 1030H, 2018H, 2019H, and 3015Y
- 0.5 PSYC credit from A2
- 0.5 PSYC credit from B2
- 1.0 PSYC credit from A3
- 1.0 PSYC credit from B3
- 1.0 PSYC credit at the 4000 level in addition to the above
- 1.0 or 2.0 PSYC credits; select from Course Option or Thesis Option:
  - For Course Option: 1.0 PSYC credit in addition to the above, at the 3000 level or beyond, or
  - For Thesis Option: 1.0 PSYC credit consisting of PSYC 4010Y (single-credit thesis) only when combined with 1.0 credit in the other joint-major discipline; or 2.0 PSYC credits consisting of PSYC 4020D (double-credit thesis in Psychology)
- For the BSc, 14.0 science credits are required for the Honours degree of which at least 2.0 science credits (Sc designated courses) are in addition to Psychology courses and courses cross-listed with Psychology

The single-major General program. 15.0 credits including the following 6.0 credits:
- 2.0 PSYC credits consisting of PSYC 1020H, 1030H, 2018H, and 2019H
- 0.5 PSYC credit from A2
- 0.5 PSYC credit from B2
- 0.5 PSYC credit from A3
- 0.5 PSYC credit from B3
- 1.0 PSYC credit at the 3000 level or beyond in addition to the above
- 1.0 PSYC credit in addition to the above
- For the BSc, 11.0 science credits are required for the General degree of which at least 1.5 science credits (Sc designated courses) are in addition to Psychology courses and courses cross-listed with Psychology

The joint-major General program. 15.0 credits including the following 5.0 credits:
- 2.0 PSYC credits consisting of PSYC 1020H, 1030H, 2018H, and 2019H
- 0.5 PSYC credit from A2
- 0.5 PSYC credit from B2
- 0.5 PSYC credit from A3
- 0.5 PSYC credit from B3
- 0.5 PSYC credit at the 3000 level or beyond in addition to the above
- 0.5 PSYC credit in addition to the above
- For the BSc, 11.0 science credits are required for the Honours degree of which at least 1.5 science credits (Sc designated courses) are in addition to Psychology courses and courses cross-listed with Psychology
The minor in Psychology consists of the following 5.0 credits:
- 2.0 PSYC credits consisting of PSYC 1020H, 1030H, 2018H, and 2019H
- 0.5 PSYC credit from A2
- 0.5 PSYC credit from B2
- 0.5 PSYC credit from A3
- 0.5 PSYC credit from B3
- 0.5 PSYC credit at the 3000 level or beyond in addition to the above
- 0.5 PSYC credit in addition to the above

Specialization in Psychological Development
The Specialization in Psychological Development is open to students in the single- and joint-
major Honours degree programs and is intended for students interested in pursuing a career in
developmental psychology and associated fields (e.g., graduate work with a specialization in
developmental psychology, health care, social work, recreation or developmental services, child
protection). This specialization provides students with course options designed for an in-depth
examination of theoretical, empirical, methodological, and practical approaches to development-
related topics.

Students who have fulfilled the requirements for an Honours degree in Psychology may graduate
with a Specialization in Psychological Development if they have successfully completed the following
4.5 credits:
- 0.5 PSYC credit consisting of PSYC 2550H
- 1.0 PSYC credit from PSYC 3500H (or 2500H), 3510H, or 3550H*
- 3.0 PSYC credits from PSYC 3530H, 3550H*, 3560H, 4530H, 4531H, 4560H, 4570H, 4580H,
  4590H, reading courses (PSYC 3900Y, 3901H, 3902H, 4900Y, 4901H, 4902H), practicum courses
  (PSYC 3801H, 3802H, 4801H, 4802H), or thesis (PSYC 4010Y/4020D) primarily focused on
development
*may only count toward one list
Please consult the academic timetable for information on courses that will be offered in 2019–2020, including when they will be scheduled.

» PSYC 1020H: Introduction to Psychology Part 1: Experimental and Biological Bases of Behaviour (Sc)
A survey of some of the major areas of psychology, including its historical development and scientific methodology. Includes material on statistics, the biological bases of behaviour, sensory and perceptual processes, as well as a consideration of cognition and memory processes. (For information about web-based versions of this course contact the department.) Excludes PSYC 1010Y.

» PSYC 1030H: Introduction to Psychology Part 2: Social and Personality Perspectives (Sc)
A survey of some of the major areas of psychology. Includes material on statistics, child and adult development, motivation and emotion, intelligence, personality, health psychology, psychological disorders and their treatment, as well as consideration of some aspects of social psychology. (For information about web-based versions of this course contact the department.) Excludes PSYC 1010Y.

» PSYC 2018H: Critical Thinking and Research Methods in Psychology (Sc)
Provides an introduction to critical thinking and research methods in psychology. Topics include epistemology; theory and hypothesis development; variables; operational definitions; ethics, reliability, and validity; experimental, quasi-experimental, and correlational methods. Students also learn how to read and understand the structure of empirical research articles. Prerequisite: 60% or higher in PSYC 1020H and 1030H. Excludes PSYC 2016H.

» PSYC 2019H: Basic Research Methods and Statistics in Psychology (Sc)
Provides an introduction to the research and statistical methods that are commonly used in psychology and other sciences. Topics include descriptive statistics, probability, sampling distributions, hypothesis testing, confidence intervals, effect size, t-tests, one-way analysis of variance, correlation, and the chi-square test. Prerequisite: 60% or higher in PSYC 1020H and 1030H. Excludes PSYC 2017H.

» PSYC 2200H: Brain and Behaviour (Sc)
Basic neuroanatomy of the mammal with emphasis on the human nervous system. Examination of sensory and motor systems as well as the physiological mechanisms of behaviour, behaviour disorders, and memory. Prerequisite: 60% or higher in PSYC 1020H and 1030H.

» PSYC 2210H: Brain and Body in Action (Sc)
The functional anatomy of the central and peripheral nervous systems and the neuromuscular junction. The role of sensory and motor systems in the control of eye and hand movements and balance and gait control will be studied. Applications to product design, skill learning, and rehabilitation are included. Prerequisite: 60% or higher in PSYC 1020H and 1030H.

» PSYC-PHIL 2270H: Philosophy of Mind (see Philosophy) (Sc)

» PSYC 2300H: Introductory Abnormal Psychology (Sc)
Designed to provide students with a background in theoretical, empirical, and conceptual issues central to the field of abnormal psychology, and to introduce contemporary diagnostic frameworks. Specific attention is paid to the role of prevailing theoretical perspectives in the understanding, investigation, and treatment of psychopathology. Prerequisite: 60% or higher in PSYC 1020H and 1030H.

» PSYC 2310H: Introduction to Personality Theory (Sc)
A cross-section of personality theories and theorists are examined: psychoanalytic, neopsychoanalytic, trait, phenomenological, behavioural, and social-learning. Prerequisite: 60% or higher in PSYC 1020H and 1030H.
» **PSYC 2400H: Introduction to Cognitive Psychology (Sc)**
Focuses on humans as processors of information. Topics include perception, attention, memory, knowledge, consciousness, and reasoning. Prerequisite: 60% or higher in PSYC 1020H and 1030H.

» **PSYC 2550H: Theories of Human Development (Sc)**
Provides students with both theoretical and empirical bases of current lifespan human development research. Students examine several lifespan developmental theories, including identity, psychosocial, cognitive, and socio-cultural development, as well as attachment. The course emphasizes original theoretical works and current psychological research rooted within those theories. Prerequisite: 60% or higher in PSYC 1020H and 1030H.

» **PSYC 2600H: Introduction to Learning (Sc)**
An examination of the fundamental concepts of learning in humans and animals. Emphasis is placed on empirical methods of investigation. Applications to choice behaviour, self-control, and education are included. Prerequisite: 60% or higher in PSYC 1020H and 1030H.

» **PSYC-HIST 2621H: History of Psychiatry and Clinical Psychology (Sc) (see History)**

» **PSYC 2700H: Introduction to Social Psychology (Sc)**
An examination of the foundations of social psychology, including attribution processes, social cognition, attitudes, prejudice, attraction, aggression, helping behaviours, groups, and conflict. Prerequisite: 60% or higher in PSYC 1020H and 1030H.

» **PSYC-PHIL 3020H: Philosophy of Emotion (Sc) (see Philosophy)**

» **PSYC 3015Y: Advanced Statistics and Research Design (Sc)**
An intensive study of the application of statistical techniques to a variety of research questions and experimental designs. Focus is on the laws of probability, techniques of analysis of variance and covariance, correlation, regression, and multivariate procedures. Prerequisite: 8.0 university credits including 60% or higher in PSYC 2018H and 2019H.

» **PSYC-BIOL 3210H: Principles of the Nervous System (Sc) (see Biology)**

» **PSYC-BIOL 3220H: Neuropsychology (Sc)**
An examination of the relationship between brain function and psychological processes, drawing heavily from contemporary research involving humans and animals and describing the neural bases for such psychological processes as learning, memory, language, and emotion. Special attention is given to behavioural abnormalities resulting from brain pathology. Prerequisite: 8.0 university credits including PSYC 2200H or PSYC-BIOL 3210H.

» **PSYC 3230H: Sleep and Arousal (Sc)**
A description of the states of sleep using electrophysiological, physiological, and behavioural terms; exploration of the nature of normal sleep in various species; examination of the nature of sleep disorders; consideration of the various theories of the functions of sleep. Prerequisite: 8.0 university credits including 0.5 credit from A2 category.

» **PSYC 3240H: Drugs and Behaviour (Sc)**
A comprehensive review of psychoactive drugs and how they affect brain and behaviour. The course emphasizes the mechanisms by which drug use modifies brain function and behaviour. Drugs used to treat psychiatric disorders and drugs of abuse will be discussed, including a consideration of their social, financial, and familial impacts. Prerequisite: 8.0 university credits including PSYC 2200H or PSYC 2210H or PSYC-BIOL 3210H or NURS 3550H.
» PSYC 3300H: Advanced Abnormal Psychology (Sc)
   Designed to explore in depth a cross-section of basic topics in abnormal psychology with emphasis upon specific diagnostic categories. Topics include anxiety, somatoform, mood, psychotic, and substance-related disorders. Clinical features, theoretical models of their development, maintenance and treatment, and associated paradigms and findings are addressed. Prerequisite: 8.0 university credits including PSYC 2300H.

» PSYC-BIOL 3360H: Behavioural Ecology (Sc) (see Biology)

» PSYC 3420H: Motivation and Emotion (Sc)
   A survey of theory and research on motivation and emotion. Topics include the definition, measurement, evolution, development, control, physiology, and neurology of motivation and emotions, as well as the connections between emotions, cognitions, and consciousness. Prerequisite: 8.0 university credits including PSYC 2400H.

» PSYC 3430H: Memory (Sc)
   Examines the processes and strategies underlying memory phenomena in humans, including their application to real-world events. Topics considered include imagery; working memory; memory as a constructive process; emotion and memory; implicit/explicit memory; memory disorders; and abilities and memory. Prerequisite: 8.0 university credits including PSYC 2018H, 2019H, and 2400H.

» PSYC 3440H: Aging and Cognition (Sc)
   A detailed examination of the changes in cognitive functioning that accompany the aging process. While consideration is given to the alterations in nervous and sensory systems that help explain decrements, attention is also focused on the experiential factors that lead to maintenance and improvements in many cognitive skills. Prerequisite: 8.0 university credits including PSYC 2018H, 2019H, and 2400H.

» PSYC 3451H: Psychology of Language (Sc)
   A research-oriented approach to psycholinguistic theory and the psychology of language. Topics include syntactic theory, the representation of meaning in language, the relation between cognition and language, language acquisition in children, individual differences in language use, bilingualism, and language disorders. Prerequisite: 8.0 university credits including PSYC 2018H, 2019H, and 2400H. Excludes PSYC 2450H.

» PSYC 3460H: Sensation and Perception (Sc)
   An intensive examination of how humans (and other species) perceive information presented to the senses. Topics include mechanisms of perception, detection, discrimination, and pattern recognition. Psychophysical measurement, colour and spatial vision, hearing, taste, smell, and touch may be covered. Anatomical and physiological structures that support the senses are discussed. Prerequisite: 8.0 university credits including PSYC 2018H, 2019H, and 0.5 credit from A2 category.

» PSYC 3500H: Child Development (Sc)
   Provides students with an intensive examination of theory and empirical research in the field of child psychology. Topics covered include theories of development, advanced research methods, biological foundations, developmental changes in basic and complex psychological processes, cognitive and intellectual development, social and emotional development, and family and peer influences on children’s behavior. Prerequisite: 8.0 university credits including PSYC 2550H; or 4.0 NURS credits; or 1.5 CHYS credits and 60% or higher in PSYC 1020H and 1030H. Excludes PSYC 2500H.

» PSYC 3510H: Development of Adolescents and Young Adults (Sc)
   Designed to examine developmental theory and research in the area of development of adolescents and young adults. Topics include different theoretical views of physical, cognitive, moral, and identity development and developmental issues in the contexts of family, peers, school, and work. Prerequisite: 8.0 university credits including PSYC 2550H or 2500H.
» **PSYC 3530H: Atypical Development (Sc)**
Examines theory and research in the area of atypical child development using a developmental psychopathology framework. Topics include anxiety disorder, learning disorders, and autism spectrum disorder (among others). Practical and clinical implications of research are emphasized as well as the importance of understanding typical child development. Prerequisite: 8.0 university credits including PSYC 2550H or 2500H. Excludes PSYC 3580H.

» **PSYC 3550H: Adult Development and Aging: Psychosocial Perspectives (Sc)**
Examines theory and research of aging within the framework of the life span perspective. Topics to be covered include theories of aging, lifestyle factors, personality, stress and coping, social resources, mental attitudes (optimism and personal meaning), death attitudes, and Alzheimer’s disease. Prerequisite: 8.0 university credits including PSYC 2550H or 2500H.

» **PSYC 3560H: Family Development (Sc)**
Exposes the student to current life-span developmental theory and research methodology in the area of family relationships. Topics include family-systems theory, attachment theory, Erikson’s psychosocial theory, developmental interaction in the child-rearing years, family life transitions, challenging issues of contemporary parenting. Prerequisite: 8.0 university credits including PSYC 2550H or 2500H; or 60% or higher in PSYC 1020H and 1030H and 4.0 NURS credits.

» **PSYC 3590H: Psychology of Education (Sc)**
An examination of the history, research methodology, theories of learning, structure of intellect, and assessment procedures within the field of educational psychology. Focuses on the current, and sometimes controversial, issues which are at the forefront of research on and discussions of the relationship between psychological principles and educational practice. Prerequisite: 8.0 university credits including 1.0 PSYC 2000-level credit other than PSYC 2018H or 2019H.

» **PSYC 3610H: Behaviour Modification (Sc)**
The application of principles of learning and motivation to practical situations including teaching, child rearing, public institutions, and everyday life settings. The two areas of concentration are: a) basic principles of learning and b) their application. Prerequisite: 8.0 university credits including PSYC 2600H.

» **PSYC-ERSC 3710H: Environmental Health (Sc) (see Environmental & Resource Science/Studies)**

» **PSYC 3730H: Intimate Relationships (Sc)**
An examination of the development, maintenance, and breakdown of friendship and intimate relationships with emphasis upon individual differences in both quality and quantity of these relationships. Prerequisite: 8.0 university credits including PSYC 2550H or 2700H.

» **PSYC-WMST 3740H: Psychology of Gender (Sc)**
An examination of models of gender role orientation and the relationship of gender roles to social cognition and social behaviours with particular emphasis upon physical and mental well-being. Prerequisite: 8.0 university credits including PSYC 2700H.

» **PSYC 3750H: Health Psychology (Sc)**
Examines current views on the interface between psychosocial processes and physical health, focusing on theory-based psychological research and the practice of health psychology. Topics include models of health and illness, research methods employed, the impact of chronic illness on psychological well-being, and lifestyle and risk factors in various medical disorders. Prerequisite: 8.0 university credits including PSYC 2018H and 2019H and 1.0 additional 2000-level PSYC credit; or 60% or higher in PSYC 1020H and 1030H, NURS 2031H (or 2030H), 4.0 additional NURS credits, and co-registration in NURS 3031H (or 3030H).
» **PSYC 3760H: Human Sexuality (Sc)**  
Examines biological and social psychological components of human sexual development and behaviour from a life-span perspective in the North American context. Attention is given to formal and informal sexual socialization and to laws regulating sexual behaviour, with an emphasis on psychological research and theory and differing value perspectives. Prerequisite: 8.0 university credits including PSYC 2550H or 2700H.

» **PSYC 3770H: Environmental Psychology (Sc)**  
An overview of theory, research, and methods in environmental psychology, examining the interrelationship between humans and the physical environment (both natural and constructed). Topics include environmental cognition and behaviour, dysfunctional and restorative environments, urban stress, environmental risk perception, psychological impact of ecological crises, values and attitudes toward nature, and conservation psychology. Prerequisite: 8.0 university credits including PSYC 2018H, 2019H, and one of PSYC 2310H or 2700H.

» **PSYC 3780H: Dreams and Dreaming (Sc)**  
An examination of the history of the meaning and use of dreams in various cultures; modern approaches to the study of dream material; relation of dreams to age, gender, social, and cultural groups using content analysis; correlation of dream content to mental and physical health; lucid dreaming. Prerequisite: 8.0 university credits including one of PSYC 2200H or 2310H.

» **PSYC-WMST 3796H: Feminist Psychologies (Sc) (see Gender & Women’s Studies)**

» **PSYC 3801H: Research Practicum 1 (Sc)**  
Designed to allow students in the third year of the Psychology Honours program to pursue research activities under the direction of a department faculty member, normally within that person’s ongoing research program. Prerequisite: 8.0 university credits including 75% or higher in PSYC 2018H and 2019H; successful completion of 3.0 PSYC credits; Honours standing; specific course prerequisites depending on the faculty supervisor; and permission of the department. Consult the student handbook for a list of participating faculty members.

» **PSYC 3802H: Research Practicum 2 (Sc)**  
Designed to allow students in the third year of the Psychology Honours program to pursue research activities under the direction of a department faculty member, normally within that person’s ongoing research program. Prerequisite: 8.0 university credits including 75% or higher in PSYC 2018H and 2019H; successful completion of 3.0 PSYC credits; Honours standing; specific course prerequisites depending on the faculty supervisor; and permission of the department. Consult the student handbook for a list of participating faculty members.

» **PSYC 3900Y, 3901H, 3902H: Reading Course (Sc)**  
Designed to allow advanced students in Psychology to pursue independent study under the direction of departmental faculty. Prerequisite: Honours standing; 8.0 university credits including PSYC 2018H and 2019H; specific course prerequisites depending on the supervisor; and permission of the department.

» **PSYC 4010Y, 4020D: Honours Thesis (Sc)**  
Students design and execute a major piece of psychological research under the supervision of departmental faculty and participate in periodic workshops and departmental colloquia. PSYC 4020D is a double credit for Psychology majors; PSYC 4010Y is a single credit involving submission of the same thesis to the other department/program of a joint-major. The thesis should be taken in the final year of the student’s degree. Prerequisite: PSYC 3015Y with a grade of 75% or higher; at least 0.5 credit from each of A2, B2, A3, and B3 categories; an average of 75% or higher in all PSYC courses completed; and permission of the department.
PSYC-SOCI 4120H: Qualitative Research and Analysis (Sc)
An introduction to contemporary debates and practical strategies of qualitative research focusing on arguments current in critical and feminist theory which underpin Grounded Theory, Interpretive Phenomenology, and various discourse analytical approaches. Students also gain skills in the use of in-depth interviews, focus groups, narrative analysis, discourse analysis, action, and participatory research. Prerequisite: 60% or higher in PSYC 2018H and 2019H; or 8.0 university credits including SOCI 3160H or equivalent.

PSYC 4130H: Critical Psychology (Sc)
Examines embedded theoretical and methodological assumptions of mainstream psychology. Drawing upon traditional and contemporary perspectives, we examine the generation of psychology's knowledge products and how they support political and ideological goals. Topics for discussion may include the misapplication of quantitative models and methods, alternatives, and subjects more consistent with a progressive world view such as critical theory, ethics, and social justice. Prerequisite: Minimum 65% average in completed PSYC courses; PSYC 2700H; PSYC 3015Y; and at least 1.0 additional 3000-level PSYC course credit.

PSYC 4170H: History of Psychology (Sc)
Designed to provide an overview of the historical and philosophical foundations of modern psychology, defined broadly as humanity's attempts to understand itself. Explores the development of the discipline from prehistory through the twenty-first century within a broader intellectual and cultural context. Prerequisite: 10.0 university credits including a minimum of 4.0 PSYC credits.

PSYC 4225H: Advanced Cognitive Neuroscience (Sc)
Examines links between perception, cognition, and the central nervous system in detail. Topics are approached from a systems-neuroscience perspective. Prerequisite: Minimum 65% average in completed PSYC courses; PSYC 3015Y; PSYC-BIOL 3220H or PSYC 3460H; and at least 1.0 additional 3000-level PSYC credit.

PSYC 4310H: Psychopathology (Sc)
Students explore contemporary psychological models of the development and perpetuation of specific categories of psychopathology through the examination of current research derived from them. Exploration is made of the implications of these models for research approaches and methodology, and for such clinical issues as treatment. Prerequisite: Minimum 65% average in completed PSYC courses; PSYC 3015Y; PSYC 3300H; and at least 1.0 additional 3000-level PSYC credit.

PSYC-FRSC 4320H: Forensic Psychology (Sc) (see Forensic Science)

PSYC 4530H: Cross-Cultural Human Development (Sc)
Critical thinking and contemporary applications. Topics include theoretical reviews of cross-cultural psychology, methodology, impact of culture on areas of human development, and multicultural approach in schools. Prerequisite: Minimum 65% average in completed PSYC courses; PSYC 3015Y; one of PSYC 2500H, 2550H, 3510H, 3590H, or 3730H; and at least 1.0 additional 3000-level PSYC credit.

PSYC 4531H: Cross-Cultural Psychology and Family Development (Sc)
The effect of cross-cultural is developing as an important area of research. We begin with a review of cross-cultural and cultural psychological theoretical frameworks. Then we consider various bodies of research that explore issues of acculturation emphasizing the family as a whole and various components of the family. Prerequisite: Minimum 65% average in completed PSYC courses; PSYC 3015Y; PSYC 3560H; and at least 1.0 additional 3000-level PSYC credit.
» PSYC 4560H: Relationships and Health (Sc)
Explores lifespan developmental theory and research methodology in the area of personal relationships, emphasizing the influence of attachment relationships on health and wellness. Topics include influence of family and peer attachment relationships on physiology and psychological development, health promotion and health risk behaviours, and risk of disease and disease progression. Prerequisite: Minimum 65% average in completed PSYC courses; PSYC 3015Y; one of PSYC 3560H, 3730H, or 3750H; and at least 1.0 additional 3000-level PSYC credit.

» PSYC 4570H: Language and Language Impairment (Sc)
Designed to examine theory and research in the area of language and language disorder (or impairment). Topics include the importance of language for behavioural, cognitive, social, and social/emotional functioning; relationships between language and other domains of development; impact of language impairment on other domains of functioning; assessment of language. Prerequisite: Minimum 65% average in completed PSYC courses; PSYC 3015Y; one of PSYC 2400H, 2450H, 2500H, 2550H, 3450H, 3451H, 3530H, or 3580H; and at least 1.0 additional 3000-level PSYC credit.

» PSYC 4580H: Developmental Psychopathology and the School System (Sc)
Examines the theoretical foundations and practical implications of developmental disorders and conditions in children and adolescents in elementary and secondary school settings. Topics covered may include: cognitive, communication, and learning problems; disruptive behaviour; anxiety; eating disorders; sexual and gender problems; mood disorders; abuse; and personality disorders. Prerequisite: Minimum 65% average in completed PSYC courses; PSYC 3015Y; one of PSYC 3530H, 3580H, or 3590H; and at least 1.0 additional 3000-level PSYC credit.

» PSYC 4590H: Cognition and Instruction (Sc)
A critical examination of the cognitive basis of various instructional methods and techniques. Includes both an overview of major theories of learning and in-depth analyses of special instructional applications. Students apply their knowledge of learning, development, and cognition to acquire a critical understanding of issues in instruction. Prerequisite: Minimum 65% average in completed PSYC courses; PSYC 3015Y; one of PSYC 2400H, 2600H, or 3590H; and at least 1.0 additional 3000-level PSYC credit.

» PSYC 4625H: Neurobiology of Learning and Memory (Sc)
Deals with questions and views concerning the neural basis of acquisition, consolidation, storage, and retrieval of memories. Levels of analysis range from a molecular/cellular perspective to a functional anatomy perspective. Prerequisite: Minimum 65% average in completed PSYC courses; PSYC 3015Y; one of PSYC 2200H, PSYC 2600H, or PSYC-BIOL 3210H; and at least 1.0 additional 3000-level PSYC credit.

» PSYC 4720H: Psychology of Evil (Sc)
Explores the “darker side” of human behaviour and the underlying psychology of these behaviours. Why do we as human beings intentionally harm or diminish others or our environment? Beginning with a discussion of what evil is from a psychological perspective, individual, social, and corporate/institutional evil are considered. Prerequisite: Minimum 65% average in completed PSYC courses; PSYC 2700Y; PSYC 3015Y; and at least 1.0 additional 3000-level PSYC credit.

» PSYC 4740H: Models of Self Control (Sc)
Theoretical models describing goal attainment and healthy adjustment to everyday life challenges are discussed. Prerequisite: Minimum 65% average in completed PSYC courses; PSYC 3015Y; and at least 1.0 additional 3000-level PSYC credit.
» PSYC 4760H: Social Dimensions of Sexuality (Sc)
A social psychological examination of sexuality. Social psychology and human sexuality are shaped by broader social contexts. Historical, cultural, interpersonal, and intrapersonal understandings shape our current knowledge about sex and sexuality. The focus is on the integration of social psychology and research with social aspects of human sexuality. Prerequisite: Minimum 65% average in completed PSYC courses; PSYC 3015Y; one of PSYC 3730H or 3760H; and at least 1.0 additional 3000-level PSYC credit.

» PSYC 4780H: Advanced Dreams and Dreaming (Sc)
Covers the theory and literature on various areas of personality, health, and dreams. Students explore the current research and methodologies. Practical applications are also discussed in terms of therapy and clinical practice. Prerequisite: Minimum 65% average in completed PSYC courses; PSYC 3015Y; PSYC 3780H; and at least 1.0 additional 3000-level PSYC credit.

» PSYC-WMST 4796H: Feminist Psychologies (Sc) (see Gender & Women’s Studies)

» PSYC 4801H: Research Practicum 1 (Sc)
Designed to allow students in the fourth year of their Psychology Honours program to pursue research activities under the direction of a department faculty member, normally within that person’s ongoing research program. Prerequisite: Minimum 65% average in completed PSYC courses; 75% or higher in PSYC 3015Y; at least 1.0 additional PSYC credit at the 3000 or 4000 level; specific course prerequisites depending on the faculty supervisor; and permission of the department. Consult the student handbook for a list of participating faculty members.

» PSYC 4802H: Research Practicum 2 (Sc)
Designed to allow students in the fourth year of their Psychology Honours program to pursue research activities under the direction of a department faculty member, normally within that person’s ongoing research program. Prerequisite: Minimum 65% average in completed PSYC courses; 75% or higher in PSYC 3015Y; at least 1.0 additional PSYC credit at the 3000 or 4000 level; specific course prerequisites depending on the faculty supervisor; and permission of the department. Consult the student handbook for a list of participating faculty members.

» PSYC-BIOL 4840H: Neuroendocrinology (Sc) (see Biology)

» PSYC 4850H: Applied Psychological Research Placement in Aging (Sc)
Covers theories and current topics in research on issues central to aging and the chronic conditions of aging (including dementia). Students apply and integrate their learning through assignments and the Living Lab held off campus at the Ontario Shores Centre for Mental Health Sciences. Prerequisite: 12.0 university credits; 75% or higher in PSYC 2018H and 2019H; and one of PSYC 2550H or 2500H. Offered only at Trent University Durham – GTA.

» PSYC 4900Y, 4901H, 4902H: Reading Course (Sc)
Designed to allow students in the fourth year of their Psychology program to pursue independent study under the direction of departmental faculty. Prerequisite: Minimum 65% average in completed PSYC courses; PSYC 3015Y; at least 1.0 other 3000 or 4000 level PSYC credit; specific course prerequisites depending on the supervisor; and permission of the department.
The challenging field of social work provides essential supports to communities by helping its individuals, groups, and families meet their basic human needs, and by creating the conditions necessary for social change. The Bachelor of Social Work at Trent University prepares graduates with the knowledge and skills for meaningful professional practice in a wide range of social work contexts. Through an interdisciplinary curriculum grounded in social justice, human rights, and cultural awareness, students develop a strong foundation of clinical knowledge, critical thinking skills, and social responsibility. In the first two years of the program, students explore a range of contemporary themes connected to social work from across disciplines. Students must compete for admission to the professional years (years 3 and 4) with limited spots available. Students who are admitted to the professional years focus almost exclusively on social work theory and practice in their third- and fourth-year courses, including 700 hours of supervised placement.

Notes
- The Honours Bachelor of Social Work (BSW) program consists of 20.0 credits, with at least 11.0 credits in SWRK.
- Any student can declare a major in Social Work for the general years (years 1 and 2).
- 1000- and 2000-level SWRK courses are open to all students.
- Students must apply to enter year 3 of the program (the first of two professional years). Admission is competitive and spaces are limited.
- To be eligible to apply to the professional years of the program, students must complete a minimum of two general years (10.0 university credits).
- Since admission to the professional years is not guaranteed, students should consider fulfilling the requirements for an alternate major when selecting elective courses in years 1 and 2.
- Students are admitted on a full-time basis to the professional years of the Social Work program and must normally complete the program requirements over two consecutive years.

Admission Requirements – Years 1 and 2
- High School: A secondary school diploma, including six Ontario 4 U or 4M credits (or equivalent), is required for admission. These credits must include English (ENG4U) with a minimum 60%. Candidates must possess a minimum overall average of 70%.
- Post-Secondary: Students with college or university transfer credits will be evaluated on an individual basis and should contact the Admissions Office for more information. Students with transfer credits should see an academic advisor for assistance in planning their course of study.
Applying to the Professional Years (Years 3 and 4)

- Without exception, to be considered for admission into year 3 (the professional years), students must have met the following requirements by May 15 of the application year:
  - successful completion of SWRK 1000H, 1001H, 2001H and 2004H (or equivalent);
  - a minimum grade of 70% in each of the completed Social Work courses (SWRK 1000H, 1001H, 2001H, and 2004H);
  - a minimum of 10.0 credits with a minimum cumulative average of 70%;
  - SWRK 3000Y cannot be used to meet the requirements of the general years if it was received as a transfer credit.

- For students with transfer credits, the average will be calculated using the courses they have taken at Trent. For students with more than 10.0 university credits, the best 8.0 credits that meet the requirements of the general years (6.0 credits in Humanities and/or Social Sciences and/or Psychology, and 2.0 additional credits) plus the 2.0 required SWRK credits, will be used in the calculation of the average.

- Students will be charged an application fee to apply for admission to the professional years.

- Students must submit a supplemental application that includes a list of their employment, volunteer, and extracurricular experiences, as well as a short critical thinking essay.

- Successful applicants are admitted to the professional years, which start in September of year 3.

- For additional details, see the BSW Professional Years Admissions Package at trentu.ca/socialwork.

Bachelor of Social Work Program

- In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).

- Social Work is a four-year program leading to an Honours degree. There are no options for a General degree, minor, or joint-major program.

- Students must achieve a minimum of 65% in all required 3000- and 4000-level SWRK courses in order to progress in the program and to graduate.

- Students must achieve a minimum cumulative average of 65% in order to graduate with a BSW degree.

- Social Work Field Education Placement courses (SWRK 3000Y and 4000D) are graded on a pass/fail basis. In order to graduate, students must pass both placements.

- Students may repeat each of SWRK 1000H, 1001H, 2001H, and 2004H in order to improve their grades for application to the professional years. Students can repeat these courses up to the maximum number of attempts allowed by University regulations.

- Students will be allowed to repeat no more than two third- or fourth-year required SWRK courses for which they have received a grade lower than 65%. Failure to raise this grade to 65% or better will result in withdrawal from the BSW program but not from the University. Students who receive a third grade lower than 65% in a third-year or fourth-year required SWRK course will be withdrawn from the BSW program but not from the University.

- Students will be allowed to repeat one failed Social Work Field Education placement over the duration of the program. A second failing grade in a Social Work Field Education placement (either a repeated or different placement course) will result in withdrawal from the BSW program but not from the University.

- For required SWRK courses in the professional years of the program, students must register on the campus to which they were admitted. Only if space permits, and if a request is made to the director prior to the start of the term, will requests to register on the other campus be considered.
• Attendance at integration seminars, orientation days, and placements is mandatory. Please see the Bachelor of Social Work’s Field Education Manual for further details.
• All courses reflect the Canadian Association of Social Workers (CASW) Code of Ethics and Guidelines for Ethical Practice, the Ontario College of Social Workers and Social Service Workers Association (OCSWSSW) Code of Ethics and Standards of Practice, and the Canadian Association for Social Work Education (CASWE-ACFTS) Accreditation Standards.
• Unsafe, unethical, or unprofessional social work practice is considered to be professional misconduct. Please see the Bachelor of Social Work’s Student Handbook for details related to the Policy on Professional Conduct and Suitability.

The four-year program leading to an Honours degree in Social Work consists of 20.0 credits, with at least 11.0 credits in SWRK. The program must include:

**Year 1**
- 1.0 SWRK credit consisting of SWRK 1000H and 1001H
- 3.0 credits at the 1000 level or beyond in Humanities and/or Social Sciences and/or Psychology (for disciplines in the Humanities and the Social Sciences, see p. 18)
- 1.0 credit in addition to the above

**Year 2**
- 1.0 SWRK credit consisting of SWRK 2001H and 2004H
- 3.0 credits at the 2000 level or beyond in Humanities and/or Social Sciences and/or Psychology
- 1.0 credit in addition to the above

**Professional Years**

**Year 3**
- 4.5 SWRK credits consisting of SWRK 3000Y, 3001H, 3002H, 3003H, 3004H, 3005H, 3006H, and 3007H
- 0.5 SWRK credit from SWRK 3101H, 3102H, 3104H, 3105H, 3106H, 3107H, or 3950H

**Year 4**
- 4.0 SWRK credits consisting of SWRK 4000D, 4001H, 4002H, 4005H, and 4006H
- 0.5 SWRK credit from SWRK 3101H, 3102H, 3104H, 3105H, 3106H, 3107H, or 3950H
- 0.5 elective credit in addition to the above (may be from SWRK)

Please consult the academic timetable for information on courses that will be offered in 2019–2020, including when they will be scheduled.

» **SWRK 1000H: Introduction to Social Work**
An introduction to the profession of social work with an emphasis on its functions, values, ethics, and theoretical base. Methods of intervention, fields of practice, and ideological perspectives are explored, along with critical thinking about intersecting oppressions, diversity, and the practice of social work with various populations within Canadian and global contexts.

» **SWRK 1001H: Introduction to Social Welfare**
Provides an overview of Canada’s social welfare system. Adopting a critical theoretical approach, the historical development of social policies and programs will be examined. Social welfare frameworks and systems in Canada will be considered in light of issues such as culture, ethnicity, class, dignity, diversity, hegemony, and oppression.
Introduces foundational social work theory, knowledge, ethics, and skills and expands anti-oppressive conceptual understandings about social work practice, its mission and values, the profession itself, and planned change stages and processes with individuals, families, and small groups. Introduces the emotional, intellectual, and professional/personal characteristics required for the practice of social work. Prerequisite: SWRK 1000H and 1001H.

SWRK 2004H: Risk and Resilience in the Social Environment
Focusing on risk and resilience theories, students develop a critical understanding of human behaviour in the social environment by examining relevant theories, assessment strategies, and social work practices. Students will comprehend and assess complex reciprocal interactions between various social systems and individuals, families, and communities throughout the life cycle. Prerequisite: SWRK 2001H. Excludes SWRK 4004H.

SWRK 3000Y: Social Work Field Education Placement
Includes three mandatory parts—orientation, field placement hours, and regular in-class integration seminars—and will provide opportunities for students to integrate social work theory and practice and to apply and develop social work knowledge and skills. Students will apply key social work concepts, theories, and intervention approaches including process recording, critical thinking, and ethical practice. Prerequisite: 65% or higher in each of SWRK 3001H, 3002H, and 3003H, and a Criminal Record Check with Vulnerable Sector Screening. A student with a criminal record that is unacceptable to a placement agency may not be able to complete the program.

SWRK 3001H: Social Work Communication Skills
Presents social work interviewing, assessment, communication, and documentation practice skills. Students will conceptualize, assess, and apply supportive, culturally appropriate, and ethical intervention strategies with diverse service users. The course will be delivered using experiential learning approaches and utilize lab-based activities and assignments. Prerequisite: Admission to the BSW professional years.

SWRK 3002H: Social Work Theory and Practice 1
Presents theoretical approaches with societies, communities, families, and individuals; examines the roots of personal and social problems; and discusses working with diverse service user populations. Offers readings, discussions, lectures, and assignments geared to assisting students to integrate mezzo and macro levels of social work theory, practice, and social action. Prerequisite: Admission to the BSW professional years.

SWRK 3003H: Social Work Research
Provides an overview of social work research methods and their application in anti-oppressive social change oriented practice. Social change oriented approaches to research and community-based research methods and practitioner self-study will be considered as tools for knowledge production and mobilization. Prerequisite: Admission to the BSW professional years.

SWRK 3004H: Social Work and Indigenous Perspectives (ICR)
Examines the history of colonialism, multigenerational trauma, anti-racist practice, strengths of Indigenous cultures, and relevant current and traditional healing modalities. Examines structural inequities including institutional, social, historic, and economic systems and bridges traditional Indigenous cultural teachings with evidenced-based research in order to provide culturally safe and appropriate care. Prerequisite: Admission to the BSW professional years.

SWRK 3005H: Diversity, Identity, Social Location, and Oppression
Invites students to consider the dynamics of difference to inform social work theory, research, and practice. Various dimensions of diversity are explored, including age, class, culture, gender, race, disability, and sexual orientation. Cultural safety/humility is explored, and critical thinking, reflection, and awareness of identity, privilege, and intersectionality are emphasized. Prerequisite: Admission to the BSW professional years.
» SWRK 3006H: Social Work and Social Policy
Provides students with an overview of social policy in Canada and its role in anti-oppressive change-oriented social work practice. Students will review historical policy processes and orientations to social welfare and consider their relevance in the contemporary social welfare context. Prerequisite: Admission to the BSW professional years.

» SWRK 3007H: Community Social Work
Focuses on community organization and development as well as the nature of community, its structures and processes, issues, and strategies of intervention across a variety of practice techniques, including community formation, organizing, and advocacy. Locality development, identity-based organizing, social planning, asset mapping, community capacity, social change, and collectivization will be explored. Prerequisite: Admission to the BSW professional years.

» SWRK 3101H: Social Work and Aging
Explores and critically assesses social work theories on aging, the elderly in Canada, the impact of oppression on the aging process, and current (as well as developing) gerontological social work practices. Investigates a range of perspectives on aging including life span theory, feminist approaches, critical race perspectives, and Indigenous knowledge(s). Prerequisite: Admission to the BSW professional years or permission of the director.

» SWRK 3102H: Anti-Oppressive Child Welfare
Reviews the history of child welfare in Canada, issues of colonization, racialization, sexism, poverty, and discrimination, and examines the current structure of child welfare systems including legislation, definitions of abuse/neglect, roles of workers, and demographics of service users. Anti-oppressive theories of assessment and intervention strategies are examined and applied. Prerequisite: Admission to the BSW professional years or permission of director.

» SWRK 3104H: Substance Use, Mental Health, and Recovery
Explores the meaning and history of substance use, connections with mental health, and the construction of drug/alcohol use as a social problem. Linkages between trauma, oppression, and substance misuse and impacts on service users, assessment of substance misuse and mental health issues, and formulation of intervention plans will be highlighted. Prerequisite: Admission to the BSW professional years or permission of director.

» SWRK 3105H: Queering Social Work
Provides an overview of queer history, presence/absence (exclusion of lesbians, trans, Indigenous, polysexual, and intersex individuals), theories, issues, liberation, resistance, and victories. Emphasis on sexual/gender diversity, privilege, and identity(ies). Support of queer persons and queer-straight alliances, as well as the protection and growth of queer communities, will be explored. Prerequisite: Admission to the BSW professional years or permission of director.

» SWRK 3106H: Social Work Organizations and Leadership
Explores the theories, styles, and contemporary challenges of effective leadership in social work organizations. Perspectives of organizational development and theory, managerialism, and bureaucratic theories are critically examined. Self- knowledge, critical thinking, effective communication, teamwork, evidence-informed leadership, ethical leadership, and practical skills are developed. Prerequisite: Admission to the BSW professional years. Excludes SWRK 4003H.

» SWRK 3107H: Social Work and Addictions
In the context of anti-oppressive social work practice, this course covers pharmacological foundations of substance use; theoretical perspectives on the etiology of addiction; the history and structure of addiction and mental health treatment/support systems; treatment/support/prevention strategies for individuals, families, and groups; and policy/ethical debates. The implications across at-risk populations will be discussed. Prerequisite: Admission to the BSW professional years or permission of director.
» **SWRK 3901H: Reading Course**
A structured course involving independent study of a topic not normally covered in existing SWRK courses. An application must be completed by the student in collaboration with the instructor, and approved by the director and the dean. This option is only offered when faculty expertise and resources permit. Prerequisite: Admission to the BSW professional years.

» **SWRK 3950H: Special Topic: Africentric Perspectives in Social Work**
Provides students with an opportunity to engage in critical dialogue, reflection, and action about historical and contemporary experiences of African Canadians and Africans in the Diaspora. The course also focuses on awareness of Africentric theory and its application in social work practice with Africans and non-Africans. Prerequisite: Admission to BSW professional years or permission of the director.

» **SWRK 4000D: Social Work Field Education Placement**
Includes three mandatory parts—orientation, field placement hours, and regular in-class integration seminars—and will provide opportunities for students to further develop and integrate social work theory and practice and to apply and develop social work knowledge and skills. Students will apply key social work concepts, theories, and intervention approaches, including process recording, critical thinking, and ethical practice. Prerequisite: A pass in SWRK 3000Y and a renewed Criminal Record Check with Vulnerable Sector Screening. A student with a criminal record that is unacceptable to a placement agency may be unable to complete the program.

» **SWRK 4001H: Feminist-Informed Trauma Practice**
Explores feminist theories, assessment, and intervention, and an integrated trauma model to work with trauma survivors. Analysis of intersectionality, the feminization of poverty, violence against women, racialized violence, children who witness violence, the construction of masculine violence as a cultural norm, and violence within same-sex couples will be examined. Prerequisite: 65% or higher in SWRK 4002H.

» **SWRK 4002H: Social Work Theory and Practice 2**
Moving from macro and mezzo perspectives to micro-level theoretical assessment and intervention, this course examines social work theoretical models for working with service users, including the use of self as a therapeutic tool; planned change processes; understandings of diversity, identity, social location, intersectionality, and oppression; current research; and professional roles/functions. Prerequisite: 65% or higher in each of SWRK 3001H, 3002H, and 3003H.

» **SWRK 4004H: Risk and Resilience Throughout the Lifespan**
Develops a critical understanding of human behaviour in the social environment through examining relevant theories, strategies, and social work practices. Assessment aimed at identifying factors that place individuals, families, and communities at risk for struggle across a variety of areas and developing strengths-based/resiliency intervention practices are highlighted. Prerequisite: 65% or higher in each of SWRK 4001H and 4002H. Excludes SWRK 2004H.

» **SWRK 4005H: Social Work with Groups**
The history, theory, and practice of group structure, process, skills, and development are examined. Content includes the use of self as a therapeutic tool in diverse group contexts; understandings of diversity, identity, social location, intersectionality, and oppression in group work; current research on group interventions; and professional ethics, skills, roles and functions. Prerequisite: Admission to the BSW professional years and 65% or higher in each of SWRK 3006H and 3007H.

» **SWRK 4006H: Social Work and Families**
Teaches interdisciplinary theoretical perspectives and practice approaches that are relevant for working with the contemporary family in all its forms, including Bowen, systems, feminist, structural, narrative, brief therapy, and Indigenous approaches. Develops family practice skills through the use of lectures, readings, class discussions/exercises, and interactive role play experiences. Prerequisite: 65% or higher in SWRK 4002H. Excludes SWRK 3103H.
Sociology

trentu.ca/sociology

Professor and Chair of the Department

M. Rahman, BA, PhD (Strathclyde)

Professors

G. Balfour, BSc, MA (Ottawa), PhD (Manitoba)

B. L. Marshall, MA (Guelph), PhD (Alberta) (on leave 2019-2020)

Associate Professors

K. Buccieri, BSocSc (Ottawa), MA (Carleton), PhD (York)

P. Ballantyne, BA, MA (Western), PhD (Toronto)

A. Law, BAS (Sydney), MA, PhD (Alberta)

D. White, BA (Ryerson), MA (Toronto), PhD (Carleton)

Assistant Professor

J. Cosgrave, BA, MA, PhD (York)

Sociology at Trent provides students with a tool kit of theories, research skills, and factual information to enable them to think critically about the changing social conditions they are living through, and about the efforts of people to direct that change. Building on a common core of required courses in theory and research methods, Sociology at Trent offers a wide range of courses in topics such as social inequality, families, criminal justice, deviance, culture, religion, education, sexuality, media, health and illness, work, and leisure.

Notes

• A pass in SOCI 1001H and 60% or higher in SOCI 1002H is a prerequisite for all upper-level Sociology courses, with the possible exception of cross-listed courses, for which students should check the prerequisites.

• 3000-level courses are open to students who have completed 5.0 university credits, including at least 1.0 credit in Sociology at the 2000 level.

• 4000-level courses are open to students who have completed 10.0 university credits, including SOCI 2110H, SOCI 2151H, SOCI 3151H, and 2.0 additional 3000-level credits, of which at least 1.0 must be SOCI. Exceptions may be made for cross-listed courses, or with permission of the instructor.

• Students in the BScN program who have achieved satisfactory standing in NURS 2030H and 3030H and who wish to take Sociology courses for a joint-major are exempt from the sociology research methods (SOCI 2151H and 3151H) requirement. This policy is not meant to exclude students from taking SOCI 2151H and 3151H.

• Honours courses offered at Trent University Durham – GTA may have different course content. Contact the Sociology Department for information.

• ECON-ADMN 2200H, GEOG-ERSC-BIOL 2080H, MATH 1051H, MATH 1052H, PSYC 2019H, and PSYC 3015Y are equivalent to SOCI 3160H for program requirements, but do not count as a Sociology credit. Students who have successfully completed an equivalent to SOCI 3160H are not permitted to take SOCI 3160H, but must substitute another half-credit course in Sociology at the 3000 level or beyond in order to fulfill degree requirements.
• For students in a joint major with Child & Youth Studies, CHYS 2000H is equivalent to SOCI 2151H for program requirements, but does not count as a Sociology credit. Students who have successfully completed CHYS 2000H are not permitted to take SOCI 2151H, but must substitute another half-credit course in Sociology at the 2000 level or beyond in order to fulfill degree requirements.

Bachelor of Arts Program in Sociology

• In addition to the program requirements listed below, students must satisfy the University degree requirements (see p.14).

• The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree.

• The program has two tiers: foundation courses in basic areas of Sociology at the 1000 and 2000 level, and courses in specialized areas of Sociology at the 2000, 3000, and 4000 level. The foundation courses aim to provide grounding in the core theoretical and methodological aspects of the discipline. The specialized courses permit students to study in some detail particular substantive areas in Sociology.

The single-major Honours program. 20.0 credits including the following 10.0 credits:
- 3.0 SOCI credits consisting of SOCI 1001H, 1002H, 2110H, 2151H and 3151H (or 2150Y), and 3160H
- 0.5 SOCI credit from SOCI 3100H or 3111H
- 2.0 SOCI credits at the 4000 level
- 2.5 SOCI credits at the 3000 level or beyond in addition to the above
- 2.0 SOCI credits in addition to the above

The joint-major Honours program. 20.0 credits including the following 7.5 credits:
- 3.0 SOCI credits consisting of SOCI 1001H, 1002H, 2110H, 2151H and 3151H (or 2150Y), and 3160H
- 0.5 SOCI credit from SOCI 3100H or 3111H
- 1.0 SOCI credit at the 4000 level
- 1.5 SOCI credits at the 3000 level or beyond in addition to the above
- 1.5 SOCI credits in addition to the above

The single-major General program. 15.0 credits including the following 6.0 credits:
- 2.5 SOCI credits consisting of SOCI 1001H, 1002H, 2110H, 2151H and 3151H (or 2150Y)
- 0.5 SOCI credit from SOCI 3100H or 3111H
- 1.5 SOCI credits at the 3000 level or beyond in addition to the above
- 1.5 SOCI credits in addition to the above

The joint-major General program. 15.0 credits including the following 5.0 credits:
- 2.5 SOCI credits consisting of SOCI 1001H, 1002H, 2110H, 2151H and 3151H (or 2150Y)
- 0.5 SOCI credit from SOCI 3100H or 3111H
- 0.5 SOCI credit at the 3000 level or beyond in addition to the above
- 1.5 SOCI credits in addition to the above
The minor in Sociology consists of the following 5.0 credits:
- 2.5 SOCI credits consisting of SOCI 1001H, 1002H, 2110H, 2151H and 3151H (or 2150Y)
- 0.5 SOCI credit from SOCI 3100H or 3111H
- 1.0 SOCI credit at the 3000 level or beyond in addition to the above
- 1.0 SOCI credit in addition to the above

Specialization in Criminology & Socio-Legal Studies

The Specialization in Criminology & Socio-Legal Studies is open to Honours students in Sociology who are interested in a career related to social justice, restorative justice, and the critical research in law and society. The specialization provides students with course options for theoretical and methodological approaches to sociological study of criminalization, victimization, and punishment.

Students who have fulfilled the requirements for a single- or joint-major Honours degree in Sociology may graduate with a Specialization in Criminology & Socio-Legal Studies if they have also successfully completed the following 3.5 credits:
- 2.5 SOCI credits consisting of SOCI 2220H, 2610H, 2615H, 4110H, and 4270H
- 1.0 SOCI credit from SOCI 3250H, 3601H, 3962H, or 3966H

Specialization in Health Studies

The Specialization in Health Studies is open to single- and joint-major Honours students in Sociology who are interested in a career related to medical sociology, health care systems, or critical research in health and illness. The specialization provides students with course options designed for in-depth examination of theoretical and methodological approaches to health-related topics.

Students who have fulfilled the requirements for an Honours degree in Sociology may graduate with a Specialization in Health Studies if they have successfully completed the following 3.0 credits:
- 1.0 SOCI credit consisting of SOCI 2630H and 3631H
- 2.0 SOCI credits from SOCI 2015H, 3250H, 3440H, 4050H, 4410H, 4420H, 4512H, 4551H, 4620H, or 4850H; or with prior approval of the specialization coordinator, reading courses (SO CI 3900Y, 3901H, 3902H, 4900Y, 4901H, 4902H), community-based research courses (SO CI 3570Y, 3580H, 4570Y, 4580H), research practica (SO CI 4021Y, 4022H, 4023H), or thesis courses (SO CI 4010Y or 4020D) that are primarily health-focused in content
Please consult the academic timetable for information on courses that will be offered in 2019–2020, including when they will be scheduled.

» SOCI 1001H: Introduction to Sociology I: Critical Foundations
An introduction to sociology’s major thinkers, critical perspectives, theoretical foundations, research methods, and fields of inquiry. Course materials focus on the social forces and changes that shape culture, groups, social interaction, and institutions in Canadian and comparative contexts. Excludes SOCI 1000Y.

» SOCI 1002H: Introduction to Sociology II: Exploring Social Life
An examination of one or more sociological studies is used to develop students’ understandings of social life, ranging from everyday social interaction to global social structures. Substantive areas in sociology that may be investigated include families, social inequalities, health, deviance, work, education, religion, communications, and social movements. Prerequisite: SOCI 1001H. Excludes SOCI 1000Y.

» SOCI-ECON-NURS 2015H: Critical Perspectives on Aging (see Nursing)

» SOCI 2110H: Discovering Social Theory
Introduces students to social theory in the context of the emergence of modern societies, and maps out the themes that have engaged both classical and contemporary theorists. Topics may include industrialism, capitalism, urbanization, individualism, positivism, social movements, and “modernity.” Prerequisite: 60% or higher in SOCI 1002H. Excludes SOCI 2100Y.

» SOCI 2151H: Researching Social Life
An introduction to major issues and decisions confronting the new researcher. Topics include epistemology and knowledge paradigms, including positivism/realism, interpretivism/constructivism and critical knowledge development; research ethics; the role of theory in research design; an introduction to key methodologies and methods in sociological research; and sampling choices. Prerequisite: 60% or higher in SOCI 1002H. Excludes SOCI 2150Y, CHYS-CCTH 2000H.

» SOCI 2220H: Social Inequality
An introduction to the study of social inequality focusing on class, gender, and ethnicity, the consequences for individuals and society, and the sociological theories which address these issues. Prerequisite: 60% or higher in SOCI 1002H. Excludes SOCI 2200Y.

» SOCI 2301H: Self and Social Interaction
Examines the theoretical and methodological foundations of interactionist, microsociological, interpretive, and sociological-psychological research. Applied areas critically investigate the sociology of symbolic worlds, discourse and conversation, emotions, and the shaping of identity and subjective life in everyday contexts. Prerequisite: 60% or higher in SOCI 1002H. Excludes SOCI 2300Y.

» SOCI-WMST 2430H: Sociology of Gender
Focuses on gender as a core aspect of social organization and inequality. Key concepts are gender, femininity, masculinity, sexuality, homosexuality, heterosexuality, and queer. Naturalist ideas and sociological analyses developed within feminism and lesbian and gay theories are studied. Prerequisite: 60% or higher in SOCI 1002H or 0.5 WMST credit. Excludes SOCI-WMST 3430H.

» SOCI-ANTH-GEOG-IDST-SAFS 2500H: The World Food System (see International Development Studies)

» SOCI 2610H: Deviance and Social Control
Introduces students to key classical and contemporary sociological theories of deviance and the processes of social integration and moral regulation. Topics may include moral panics, drug use, mental illness, criminalization, medicalization of deviance, and risk management. Prerequisite: 60% or higher in SOCI 1002H. Excludes SOCI 3610Y.
» SOCI 2615H: Crime and Society
Introduces students to sociological theories of criminalization, examining contested definitions of crime and how criminologists measure crime. A key focus of the course is the impact of social inequality on crime patterns and how society responds to the “crime problem.” Prerequisite: 60% or higher in SOCI 1002H.

» SOCI 2630H: Sociology of Health and Illness
Critically examines conceptualizations of health, illness, and disease, focusing on social determinants of health. Topics include income security, employment, and work; education and literacy; food production and access; Indigenous health; and intersections of gender and health. Prerequisite: 60% or higher in SOCI 1002H. Excludes SOCI 3630Y.

» SOCI 2700H: Sociology of Families and Households
Focuses on family and household formation, family dynamics, and the sociological issues raised by these phenomena. Topics may include couple formation, marital and family relationships, divorce and repartnering. Prerequisite: 60% or higher in SOCI 1002H. Excludes SOCI 3700Y.

» SOCI-CAST-POST 3000Y: Reading the Social: Space, Difference, and Power in Canada (see Canadian Studies)

» SOCI 3100H: Contemporary Sociological Theory
Designed as a brief introductory overview of contemporary theories in sociology, with a focus upon core concepts such as hegemony, postmodernism, globalization, intersectionality, and the public sphere. Prerequisite: 5.0 university credits including SOCI 2110H and at least one other 0.5 credit in SOCI at the 2000 level.

» SOCI 3111H: Classical Sociological Theory
An exploration of the structure and scope of sociological theorizing in the classical tradition, with particular emphasis on Marx, Durkheim, and Weber. Conceptions of theory, method, and object of investigation are explored through engagement with original texts. Prerequisite: 5.0 university credits including SOCI 2110H and at least one other 0.5 credit in SOCI at the 2000 level. Excludes SOCI 2100Y.

» SOCI-IDST 3120H: Citizenship Rights and Development (see International Development Studies)

» SOCI-IDST 3121H: Human Rights—Theory and Practice (see International Development Studies)

» SOCI 3151H: Practicing Social Research
Students develop their skills in research design and data collection strategies. Reading and critiquing empirical literature on nominated research topics, students develop proposals, compare and contrast data collection methods, select and justify a sampling design, prepare an ethics proposal, and describe the anticipated outcomes of their proposed research. Prerequisite: SOCI 2151H or CHYS 2000H. Excludes SOCI 2150Y.

» SOCI 3160H: Data Analysis
An introduction to basic statistics used in data analysis and their application in sociological research. Not open to students with credit for ECON-ADMN 2200H, GEOG-ERSC-BIOL 2080H, MATH 1051H, MATH 1052H, PSYC 2019H, or PSYC 3015Y. Prerequisite: 5.0 university credits including SOCI 2151H (or 2150Y).

» SOCI-POST 3230Y: Nationalism and Political Order in Global Perspective (see Political Studies)
» **SOCI 3250H: Sociological Perspectives on Homelessness**  
Critically examines homelessness as a social issue, applying sociological perspectives and a Canadian focus. Topics may include mobility and containment, families and youth, employment and migration, the criminalization of homelessness, shelters and poor houses, masculinities and femininities on the street, and homelessness in their city. Prerequisite: 5.0 university credits including at least 1.0 credit in SOCI at the 2000 level.

» **SOCI-ADMN 3320H: Organizational Sociology**  
Explores the nature and role of bureaucracies and other organizations in the contemporary world, including classical, managerial, and recent sociological perspectives. Case studies focus on formal organizations in the public and private sectors. Prerequisite: 5.0 university credits including at least 1.0 credit in SOCI or ADMN at the 2000 level.

» **SOCI-ADMN 3340H: Sociology of Work**  
The nature and meaning of paid work in North America. Topics may include the effects of technological changes, the shift to a service economy, and the changing gender composition of the labour force on managerial and employee strategies to control the workplace. Prerequisite: 5.0 university credits including at least 1.0 credit in SOCI or ADMN at the 2000 level.

» **SOCI-PHIL-WMST 3400H: Feminism and Disability (see Gender & Women’s Studies)***

» **SOCI 3410H: Sociology of Education**  
Explores the development of formal education as a social institution, its social and political organization, schooling as a social process, the occupation of teaching, the relationship between education and social inequalities, and current changes and challenges. The focus is on education in Canada with comparisons to other societies when appropriate. Prerequisite: 5.0 university credits including at least 1.0 credit in SOCI at the 2000 level.

» **SOCI-WMST 3440H: Sexuality and the Social**  
Explores sexuality as a complex issue in sociological analysis. Examines theoretical approaches to the body, gender, and sexuality, the construction of “normal” and “deviant” sexualities, and various forms of sexual regulation and resistance. Prerequisite: 5.0 university credits including at least 1.0 credit in SOCI or WMST at the 2000 level.

» **SOCI-CAST 3450H: The Sociology of Communication and Media in Canada**  
Introduces the structure of the Canadian mediascape with a focus upon film, radio, television, and newer information and communication technologies. Sociological issues related to the production of these media and their reception by audiences are also addressed. Prerequisite: 5.0 university credits including at least 1.0 credit in SOCI or CAST at the 2000 level or CUST 2035Y or 2535H. Excludes SOCI-CAST 4450Y.

» **SOCI 3460H: Culture and Society**  
A critical examination of culture in contemporary society focusing on processes of cultural production and consumption as they are mediated by social relations of capital and technology. Topics include the ideology of consumerism, popular culture/art culture, advertising, lifestyle and taste, and culture and social change. Prerequisite: 5.0 university credits including at least 1.0 credit in SOCI at the 2000 level.

» **SOCI-CAST-INDG-WMST 3508H: Indigenous Genders, Sexualities, and Relationships (see Indigenous Studies)***

» **SOCI 3570Y/3580H: Community-Based Research Project**  
Students are placed in research projects with community organizations in Peterborough and Haliburton counties. Each placement is supervised jointly by a faculty member and a representative of a community organization. For details see Community-Based Research Program (p. 429). Prerequisite: A minimum 75% cumulative average and 5.0 university credits including SOCI 2151H (or 2150Y).
» **SOCI 3601H: Critical Criminology**  
Examines neo-Marxist, feminist, critical race, and post-structuralist theories of crime and crime control, and how criminalization operates through the neo-liberal state. Topics include corporate crime, environmental crime, the prison industrial complex, and prison abolition. Prerequisite: 5.0 university credits including at least 1.0 credit in SOCI at the 2000 level. Excludes SOCI 3610Y.

» **SOCI 3631H: Sociology of Health Care**  
Explores the social construction and organization of medical knowledge and health care systems. Critically assesses the current “crisis” in Canadian health care; explores contradictory notions of health care as a right of citizenship and a commodity; and examines inequality in health care, “alternative health,” and health promotion. Prerequisite: 5.0 university credits including at least 1.0 credit in SOCI at the 2000 level. Excludes SOCI 3630Y.

» **SOCI-CAST-POST 3661H: Race, Ethnicities, and Multiculturalism**  
Explores ethnicities with a focus on contemporary Canada. Topics include settler colonialism, immigration, multicultural policies and practices, and contemporary political conflicts involving ethnicities. The course also covers theories and concepts of “race” and ethnicity as social categories, the social basis of racism, and the critique of multiculturalism. Prerequisite: 5.0 university credits including at least 1.0 credit in SOCI, CAST, or POST at the 2000 level. Excludes SOCI 3660Y.

» **SOCI-CAST-POST 3665H: Canada: State, Society, Power (see Canadian Studies)**

» **SOCI-CAST-WMST 3860H: Gender, Race, and Class (see Gender & Women’s Studies)**

» **SOCI 3900Y, 3901H, 3902H, 3903H: Reading Course**  
Registration is contingent on instructor’s permission and departmental approval in advance of course registration. Prerequisite: A minimum 75% average over all SOCI courses completed and 5.0 university credits including at least 1.0 SOCI credit at the 2000 level.

» **SOCI-CAST-POST-WMST 3962H: Gender, Sexualities, and the Law (see Gender & Women’s Studies)**

» **SOCI-CAST-WMST 3966H: Criminalizing and Punishing Women (see Gender & Women’s Studies)**

» **SOCI 4010Y/4020D: Honours Thesis**  
A specific scholarly project on a well-defined topic to be worked out in consultation with the student’s Honours supervisor. Regular student/supervisor meetings will be scheduled. SOCI 4020D is a double credit for Sociology majors; SOCI 4010Y is a single credit involving submission of the same thesis to the other department/program of a joint-major. Open only to Honours students in Sociology with permission of the department. Prerequisite: A minimum 75% average over all SOCI credits completed and 10.0 university credits including SOCI 2110H, 3151H (or 2150Y), one of SOCI 3111H or 3100H, and 2.0 additional credits at the 3000 level.

» **SOCI 4021Y, 4022H, 4023H: Research Practicum**  
Allows students to pursue a specialized research project under the supervision of a faculty member within that member’s program of research. Open to Honours students in Sociology with permission of the department. Prerequisite: A minimum 75% average over all SOCI courses completed, one of SOCI 3111H or 3100H, and 2.0 additional credits at the 3000 level. Specific course prerequisites depending on the faculty supervisor. Students may take a maximum of 1.0 credit in SOCI research practicum courses.

» **SOCI 4030H: Celebrity, Modernity, and Culture**  
Covers the two main themes in the academic literature on celebrity. First, celebrity culture as globalized advanced capitalism and second, the social function of celebrity culture as an ideological system of meanings and values which provides resources for developing self-identities in late modern culture. Prerequisite: 10.0 university credits including SOCI 2110H, 3151H (or 2150Y), and 2.0 additional credits at the 3000 level which at least 1.0 must be SOCI.
» **SOCI 4040H: Contemporary Issues in Sociology**
Issues and debates are examined that are at the forefront of sociological thought today. Specific issues are determined yearly, and may be different in Peterborough and Durham. Past topics include culture and human agency; human rights; and pharmaceutical sociology. For details, see [trentu.ca/sociology/courses.php/#4040](https://trentu.ca/sociology/courses.php/#4040). Prerequisite: 10.0 university credits including SOCI 2110H, 3151H (or 2150Y), and 2.0 additional credits at the 3000 level of which at least 1.0 must be SOCI.

» **SOCI 4050H: Sociology of Pharmaceuticals**
Examines the implications of the expanding presence of pharmaceuticals in society. Topics include the meaning of medication for users; users/health system/health-professional interactions; national and global socioeconomic inequalities in pharmaceutical access; regulation of the pharmaceutical industry; pharmaceuticals and the environment; and pharmaceuticals and the “post-human” future. Prerequisite: 10.0 university credits including SOCI 2110H, 3151H (or 2150Y), and 2.0 additional credits at the 3000 level of which at least 1.0 must be SOCI. Excludes SOCI 4040H in 2012-2013, 2013-2014, and 2014-2015.

» **SOCI 4110H: Legal Research Methods**
An applied research methods course specifically focused on how to conduct case law data collection and analysis using online legal databases. Topics covered may include Charter cases, human rights tribunal cases, and criminal trial/sentencing decisions. Prerequisite: 10.0 university credits including SOCI 3151H (or 2150Y) and 2.0 additional credits at the 3000 level of which at least 1.0 must be SOCI.

» **SOCI-PSYC 4120H: Qualitative Research and Analysis (Sc) (see Psychology)**

» **SOCI-POST 4210Y: Advanced Seminar—Emphasis in Global Power & Politics (GP) (See Political Studies)**

» **SOCI-IDST-POST 4230H: Global Civil Society (see International Development Studies)**

» **SOCI 4270H: Sociology of Law**
Explores the law and society relationship, the power of law as a tool for social change, and the practice of law. Topics may include miscarriages of justice, critical socio-legal studies of equality, Indigenous peoples, human rights, and youth justice. For details, see [trentu.ca/sociology/courses.php/#4270](https://trentu.ca/sociology/courses.php/#4270). Prerequisite: 10.0 university credits including SOCI 2110H, 3151H (or 2150Y), and 2.0 additional credits at the 3000 level of which at least 1.0 must be SOCI.

» **SOCI 4410H: Cultures of Knowledge**
Critical studies of various forms of knowledge (e.g., medical, legal, scientific, religious) as they shape and are shaped by relations and structures of power. Specific topics are determined yearly, and may be different in Peterborough and Durham. For details, see [trentu.ca/sociology/courses.php/#4410](https://trentu.ca/sociology/courses.php/#4410). Prerequisite: 10.0 university credits including SOCI 2110H, 3151H (or 2150Y), and 2.0 additional credits at the 3000 level of which at least 1.0 must be SOCI.

» **SOCI 4420H: Aging and the Lifecourse**
Explores the theories, research methods, and professional development of social gerontology and critical perspectives on aging and old age. Topics include population aging, anti-aging consumerism, caregiving and social support, retirement, intergenerational relations, and end-of-life ethics. For details, see [trentu.ca/sociology/courses.php/#4420](https://trentu.ca/sociology/courses.php/#4420). Prerequisite: 10.0 university credits including SOCI 2110H, 3151H (or 2150Y), and 2.0 additional credits at the 3000 level of which at least 1.0 must be SOCI.

» **SOCI 4430H: Key Concepts in Sociological Analysis**
Key sociological concepts such as society and the social, men and masculinities, critical theory, and the risk society are examined in depth. Specific concepts are determined yearly, and may be different in Peterborough and Durham. For details, see [trentu.ca/sociology/courses.php/#4430](https://trentu.ca/sociology/courses.php/#4430). Prerequisite: 10.0 university credits including SOCI 2110H, 3151H (or 2150Y), and 2.0 additional credits at the 3000 level of which at least 1.0 must be SOCI.
» SOCI-WMST 4441H/1441H: Special Topics in Social Justice (see Gender & Women’s Studies)

» SOCI 4510H: Sociology of Sport and Leisure
Critically examines cultural and economic relations in sport and leisure, emphasizing dynamics of power and identity. Topics including e-culture, outdoor recreation, spectator sport, informal play, and tourism are explored from historical and contemporary perspectives across the main theoretical positions in the field. For details, see trentu.ca/sociology/courses.php/#4510. Prerequisite: 10.0 university credits including SOCI 2110H, 3151H (or 2150Y), and 2.0 additional credits at the 3000 level of which at least 1.0 must be SOCI.

» SOCI-IDST-ANTH 4512H: Contemporary Issues in Global Health (see International Development Studies)

» SOCI-CAST-WMST 4551H: Gender and Disability in Canada (see Canadian Studies)

» SOCI 4570Y/4580H: Community-Based Research Project
Students are placed in research projects with community organizations in Peterborough and Haliburton counties. Each placement is supervised jointly by a faculty member and a representative of a community organization. For details see Community-Based Research Program (p. 429) and trentu.ca/sociology/courses.php/#4570. Prerequisite: A minimum 75% cumulative average and 10.0 university credits including SOCI 2110H, 3151H (or 2150Y), and 2.0 additional credits at the 3000 level of which at least 1.0 must be SOCI.

» SOCI 4620H: Studies in Social Policy
In-depth analysis of the development of contemporary social policies, and their effects in areas such as welfare and social security, families and child care, employment, immigration, health, and housing. Specific topics are determined yearly, and may be different in Peterborough and Durham. For details, see trentu.ca/sociology/courses.php/#4620. Prerequisite: 10.0 university credits including SOCI 2110H, 3151H (or 2150Y), and 2.0 additional credits at the 3000 level of which at least 1.0 must be SOCI.

» SOCI 4850H: Sociology of the Body
Explores the body and embodiment by considering how bodies act as markers of personhood and of social categories like race, gender, age, and class; how different bodies are normalized, regulated, and disciplined; and how they are taken up as sites of transformative possibilities. For details, see trentu.ca/sociology/courses.php/#4850. Prerequisite: 10.0 university credits including SOCI 2110H, 3151H (or 2150Y), and 2.0 additional credits at the 3000 level of which at least 1.0 must be SOCI. Excludes SOCI 4950H.

» SOCI 4900Y, 4901H, 4902H, 4903H: Reading Course
Registration in reading courses is contingent on instructor’s permission and departmental approval in advance of course registration. For details, see trentu.ca/sociology/courses.php/#4900. Prerequisite: A minimum 75% average over all SOCI courses completed and 10.0 university credits including SOCI 2110H, 3151H (or 2150Y), and 2.0 additional credits at the 3000 level of which at least 1.0 must be SOCI; or permission of instructor.

■ Spanish
See French & Francophone Studies (p. 206)
The Sustainable Agriculture & Food Systems program is offered by the Trent School of the Environment. The program was created in response to interest in how we grow and consume food. The promise of sustainable agriculture; the environmental, social, and ethical consequences of conventional agriculture; investment in industrial crops to supply fuel and materials; ongoing risks to food security and human health; demand for local food production in the context of global food trade; cultural and social critiques of our food system, such as the Slow Food movement and advocacy of animal rights; growing interest in urban agriculture and in First Nations agriculture—these and other developments testify to how agriculture and food have become topics of discussion across Ontario and Canada. Graduates of the program will be equipped to contribute to these discussions, and to pursue diverse employment opportunities in agriculture and food.

Notes

• Both the BA and BSc programs are designed to provide an opportunity for interdisciplinary study of agriculture and food. Accordingly, students pursuing either degree will take courses from several departments, as described in the program requirements below.
• Courses in Sustainable Agriculture & Food Systems fulfilling University science course requirements for the BSc are marked “Sc” in the individual course descriptions.

Bachelor of Arts and Bachelor of Science Programs in Sustainable Agriculture & Food Systems

• In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).
• The same course may not simultaneously satisfy the requirements of both programs in a joint-major degree, with the following exceptions: for students pursuing a joint-major Honours degree in Sustainable Agriculture & Food Systems and Environmental & Resource Science/Studies, only ERSC 1010H and 1020H may be used to simultaneously satisfy the requirements of both programs. For students pursuing a joint-major Honours degree in Sustainable Agriculture & Food Systems and International Development Studies, only IDST 1001H and 1002H may be used to simultaneously satisfy the requirements of both programs.
Bachelor of Arts Program in Sustainable Agriculture & Food Systems

The single-major Honours program. 20.0 credits including the following 13.5 credits:
- 5.0 SAFS credits consisting of SAFS 1001H, 1002H, 2350H, 2500H, 3302H, 3340H, 3370H, 3602H, 4002H, and 4100H
- 2.0 SAFS credits at the 3000 level or beyond in addition to the above
- 2.0 SAFS credits in addition to the above
- 1.0 ERSC credit consisting of ERSC 1010H and 1020H
- 1.0 GEOG credit consisting of GEOG 1030H and 1040H
- 1.0 IDST credit consisting of IDST 1001H and 1002H
- 1.5 ERSC and/or ERST credits from ERSC 2240H, ERST 2100H, 2510H, 2520H, or 2525H

The joint-major Honours program. 20.0 credits including the following 8.0 credits:
- 2.5 SAFS credits consisting of SAFS 1001H, 1002H, 2350H, 2500H, and 4002H
- 2.0 SAFS credits at the 3000 level or beyond in addition to the above
- 1.5 SAFS credits in addition to the above
- 1.0 ERSC credit consisting of ERSC 1010H and 1020H
- 1.0 IDST credit consisting of IDST 1001H and 1002H

Bachelor of Science Program in Sustainable Agriculture & Food Systems

The single-major Honours program. 20.0 credits including the following 13.5 credits:
- 3.0 SAFS credits consisting of SAFS 1001H, 1002H, 2350H, 2500H, 3002H, and 4001H
- 0.5 SAFS credit from SAFS 3560H or 3650H
- 2.0 SAFS credits at the 3000 level or beyond in addition to the above
- 1.5 SAFS credits in addition to the above
- 1.5 BIOL credits consisting of BIOL 1020H, 2260H, and 2290H
- 2.0 ERSC credits consisting of ERSC 1010H, 1020H, 2220H, and 2240H
- 1.5 GEOG credits consisting of GEOG 1030H, 1040H, and 2530H
- 1.0 ERSC credit from ERSC 4350H, 4520H, 4530H, or 4640H
- 0.5 GEOG credit from GEOG 2080H or 2090H
- 14.0 science credits are required for the Honours degree, including 1.0 MATH credit; MATH 1051H and 1052H are recommended

The joint-major Honours program. 20.0 credits including the following 8.0 credits:
- 2.5 SAFS credits consisting of SAFS 1001H, 1002H, 2350H, 3002H, and 4001H
- 2.0 SAFS credits at the 3000 level or beyond in addition to the above
- 0.5 SAFS credit in addition to the above
- 0.5 BIOL credit consisting of BIOL 1020H
- 2.0 ERSC credits consisting of ERSC 1010H, 1020H, 2220H, and 2240H
- 0.5 BIOL credit from BIOL 2260H or 2290H
- 14.0 science credits are required for the Honours degree, including 1.0 MATH credit; MATH 1051H and 1052H are recommended
Specialization in Applied Agriculture

Trent University, in collaboration with Fleming College, offers a Specialization in Applied Agriculture. The Specialization is available to students in the BA or BSc program in Sustainable Agriculture & Food Systems (SAFS).

Students admitted to the program register as full-time Fleming students in the Graduate Certificate in Sustainable Agriculture, beginning in January following the fall term of the last year of their SAFS program. Students who complete the three-semester graduate certificate with a minimum average of 70% will receive 3.0 elective credits (1.0 unassigned 2000-level SAFS credit and 2.0 unassigned 3000-level SAFS credits) toward their Trent Honours degree.

The Trent University academic transcripts of students completing the Sustainable Agriculture graduate certificate program with an average of at least 65% in courses taken at Trent and 70% in courses taken at Fleming will contain the notation “with a Specialization in Applied Agriculture.” Graduates will also receive an Ontario College Graduate Certificate in Sustainable Agriculture from Fleming College.

Application Procedures

- Application is made in writing to the coordinator of the Sustainable Agriculture & Food Systems program. The deadline for applications is April 1 of the year preceding the intended entry into the graduate certificate program. Students are informed of the result of their application by the end of April. Applicants should state why they are interested in the program and include any related background or experience relevant to sustainable agriculture. Applicants must also demonstrate how they will complete the requirements for the BA or BSc in Sustainable Agriculture & Food Systems (with the exception of the transfer credits), as laid out in the Academic Calendar.
- To apply, students must have completed 15.0 credits toward their Trent degree, including program-specific requirements up to the third year, by the end of the academic year in which the application is made. Students must have a minimum cumulative average of 70%, including mid-year grades in the year in which the application is made.
- After eligibility for the program is confirmed by Trent, students are required to apply to Fleming through the Ontario College Application Service and to pay the appropriate OCAS fee.

Fees

Students pay community college fees for the year of the program. Consult the Fleming calendar for details on fees.

Facilities

Students in the program have access to the library and faculty at Trent. Students may retain Trent affiliation by paying the requisite fees. Contact Student Accounts for more information (finance@trentu.ca).
Please consult the academic timetable for information on courses that will be offered in 2019–2020, including when they will be scheduled.

» SAFS 1001H: Introduction to Sustainable Agriculture and Food Systems
   An interdisciplinary survey of the environmental, social, economic, political, and cultural aspects of agriculture and food. Topics examined include ecological agriculture, soil and crop management, pests and diseases management, food policy, local food, and food security. The purpose of the class is for students to develop an informed critique of agricultural systems. Excludes SAFS 2001H.

» SAFS 1002H: Case Studies in Sustainable Agriculture and Food Systems
   Provides in-depth exploration of three case studies to understand the social, economic and environmental impacts of key issues in sustainable agriculture and food systems. Uses approaches from both social sciences and the sciences to understand and unravel the complexity of case studies critical to this field. Prerequisite: SAFS 1001H or permission of the instructor.

» SAFS-ERSC 2350H: Ecological Agriculture (Sc) (see Environmental & Resource Science/Studies)

» SAFS-ERSC 2360H: Agriculture and Agricultural Alternatives (Sc) (see Environmental & Resource Science/Studies)

» SAFS-GEOG-IDST-ANTH-SOCI 2500H: The World Food System (see International Development Studies)

» SAFS-IDST-ANTH 2600H: Peasants, Food, and Agrarian Change (see International Development Studies)

» SAFS-HIST-CAST 2821H: Food in History (see History)

» SAFS-ERSC 3002H: Environmental Implications of Agriculture (Sc)
   An introduction to the scientific basis of agriculture and an exploration of the environmental implications of agriculture. Topics include agricultural ecology, soil and moisture management, nutrient management, pest management, energy consumption in the agricultural sector, and the impact on agriculture of ambient environmental conditions, including air pollution and climate change. Prerequisite: ERSC 2220H and 2240H. Excludes SAFS-ERSC 2002H.

» SAFS-BIOL 3240H: Agricultural Entomology (Sc)
   Looks at how integrated pest management methods (IPM) are applied to agricultural insect pests. Students will examine the principles of IPM, the role of insects in soil ecology, insects as allies in pest management and as pollinators, monitoring and sampling, and control methods (pesticide and organic). Prerequisite: 7.5 university credits including BIOL 1020H or permission of instructor. Excludes SAFS-BIOL 3110H.

» SAFS-ERST-PHIL 3302H: Animals and Society (see Environmental & Resource Science/Studies)

» SAFS-CAST-ERST 3340H: The Canadian Food System: Community Perspectives and Experiences
   The history of Canada’s food and agricultural system is the backdrop to this interdisciplinary course on community development of the system’s social, economic, and environmental sustainability. Production, distribution, processing, consumption, and regulatory issues are addressed. Community-based research projects are undertaken with local food and agricultural organizations. Field trip fee: $5. Prerequisite: 10.0 university credits. Recommended: CAST-ERST-GEOG-INDG 2040Y, IDST-ANTH-GEOG-SAFS-SOCI 2500H, and SAFS-IDST-ANTH 2600H.
» **SAFS-ERSC-BIOL 3370H: Organic Agriculture: Principles and Practices (Sc)**
Focuses on farming methods and requirements for organic production. The importance of ecological processes, biodiversity, rotation, and organic amendments in organic crop production will be discussed. The standards, certification, packaging, and diversity of markets for organic foods will be emphasized. Mandatory field trips to organic farms. Field trip fee: $30. Prerequisite: SAFS 1001H and SAFS-ERSC 2350H.

» **SAFS 3500H: Food Science: Composition, Processing, Preservation, and Safety (Sc)**
An introduction to the nature and composition of food, techniques and concepts of food science, technologies used in processing food, and issues related to food safety. Prerequisite: Both ERSC 2220H and 2240H; one of SAFS-ERSC 2350H or 3350H; and one of SAFS-ERSC 2360H or 3360H.

» **SAFS-ERSC-GEOG 3560H: Soil Science (Sc) (see Geography)**

» **SAFS-ERST-IDST-POST 3602H: Environment and Development (see Environmental & Resource Science/Studies)**

» **SAFS-ERST-IESS-INDG 3634H: Introduction to Indigenous Food Systems (see Indigenous Studies)**

» **SAFS-ERSC-GEOG 3650H: Soil Management and Conservation (Sc) (see Environmental & Resource Science/Studies)**

» **SAFS-ANTH 3746H: Anthropology of Drinks and Drinking (see Anthropology)**

» **SAFS-IDST-ERST-ANTH 3800D: Community Development (see International Development Studies)**

» **SAFS-ANTH 3820H: Culture and Food (See Anthropology)**

» **SAFS 3852H: Farming in the Kawarthas**
Focus is on farming and food system practices in the Kawartha region. Visits and course material focus on farm visits and marketing of local produce. Students conduct a project on an agreed farm or agri-business as part of an internship. Prerequisite: A minimum cumulative average of 70%, 10.0 university credits including SAFS 2350H or 2360H, and permission of the instructor. Students must write a letter of interest to be considered for admission.

» **SAFS 3900Y, 3901H: Reading Course**
A research course on a specific topic. Only open to SAFS majors or joint-majors with a minimum average of 75% in 2.0 SAFS credits. Written permission must be obtained from the appropriate instructor and the SAFS program coordinator before registration.

» **SAFS 4001H: Seminar in Sustainable Agriculture and Food Systems Science (Sc)**
Examines advanced topics relating to scientific study of sustainable agriculture and food systems. Coursework will build on concepts and techniques encountered in other SAFS science courses. Prerequisite: SAFS-ERSC 2350H and 2360H.

» **SAFS 4002H: Seminar in Sustainable Agriculture and Food Systems Studies**
Examines advanced topics relating to sustainable agriculture and food systems, applying social, political, and cultural perspectives. Access to and critical analysis of current research in the field is emphasized. Prerequisite: SAFS-ERSC 2350H and 2360H.

» **SAFS 4003D: Research and Internship in Sustainable Agriculture and Food Systems**
Prerequisite: Only open to SAFS majors or joint-majors with a minimum average of 75% in 2.0 SAFS credits. Written permission must be obtained from the appropriate instructor and the SAFS program coordinator before registration.
» SAFS 4010Y/4020D: Honours Thesis (Sc depending upon topic)
Design, implementation, and dissemination of a major research project in sustainable agriculture and food systems featuring independent work under the supervision of a faculty supervisor. SAFS 4020D is a double credit in Sustainable Agriculture & Food Systems. SAFS 4010Y is a single credit because the same thesis is submitted to the other program in a joint major. Prerequisite: 14.0 university credits and a minimum cumulative average of 75%. Students must find a faculty member who is agreeable to supervise their project. Applications are available from the TSE office, and should be submitted in the academic year before enrolment in the course.

» SAFS 4100H: Canadian Food and Agriculture Policy
Examines the policies and associated legal instruments relating to agricultural production and food consumption in Canada, as administered by the federal government, provincial governments, and municipal and other local governments. Particular attention to the dynamics of policy development and controversy, and of policy innovation. Prerequisite: 10.0 university credits including SAFS 1001H or both IDST 1001H and 1002H.

» SAFS 4101H: Agroecological Learning and Practice
This two-week intensive course explores and scrutinizes agroecology through a survey of the relevant literature, guest expert speakers and colloquia, practical agroecological planning, and fieldwork. Provides opportunities for a broad engagement with agroecological scholarship, as well as opportunities to apply this knowledge and problem-solve within the specific contexts of the Peterborough and Kawartha region and the campus of Trent University. Prerequisite: 10.0 university credits.

» SAFS 4200H: The Edible Campus
Provides opportunities to conduct research and develop workshops relating to food production, using opportunities for experiential education provided by food and agriculture operations at Trent University, such as the Sustainable Agriculture Experimental Farm and the Trent Market Garden. Prerequisite: 10.0 university credits including SAFS 1001H, or permission of the instructor.

» SAFS-BIOL-ERSC-GEOG 4270H: Integrated Nutrient Management for Sustainable Agriculture (Sc)
Examines plant nutrition, soil fertility, and fertilizer management, with a focus on essential macronutrients. Topics include biogeochemical cycling of nitrogen, phosphorus, potassium, calcium, magnesium, and sulphur in crop production. Sustainable management of nutrients for optimum productivity and minimum impact on the environment will be discussed. Prerequisite: SAFS-ERSC-GEOG 3560H.

» SAFS-ANTH 4350H: Origins and Spread of Agriculture (Sc) (see Anthropology)

» SAFS-ANTH-BIOL 4440H: Nutritional Anthropology (Sc) (see Anthropology)

» SAFS-GEOG-CAST 4444H: Rural Community Sustainability (see Geography)

» SAFS-ERST-IDST-POST 4610H: Global Environmental Policy (see Environmental & Resource Science/Studies)

» SAFS 4650H: Climate Change, Agriculture, and Food Security (Sc)
Examines the implications of climate change for agriculture, including its impacts on agricultural production, and the role of agriculture as both a producer of greenhouse gases and a potential mitigating agent in climate change. Emphasis is on climate and crop growth simulation modelling and scenarios for mitigation and adaptation. Prerequisite: SAFS-ERSC 3002H.

» SAFS-ANTH-POST 4830H: Anthropology of Food Politics (see Anthropology)
» **SAFS 4840H: Soil Biodiversity and Functioning**
A lab-based course focused on soil organisms and soil biodiversity; emphasis on the role of organisms in nutrient cycles and plant growth promotion using a hands-on approach to investigate key soil functions. Approaches for analyzing microbial populations and activities in the environment, including molecular techniques are covered. Prerequisite: 9.0 university credits including SAFS 1001H.

» **SAFS 4850Y: Community-Based Research Project**
Students are placed in research projects with community organizations in the Peterborough area. Each placement is supervised jointly by a faculty member and a representative of a community organization. For details see Community-Based Research Program (p. 429). Prerequisite: 14.0 university credits and a minimum cumulative average of 75%.

» **SAFS 4900Y, 4901H: Reading Course**
A research course on a specific topic. Only open to SAFS majors or joint-majors with a minimum average of 75% in 2.0 SAFS credits. Written permission must be obtained from the appropriate instructor and the SAFS program coordinator before registration.
Water Sciences

trentu.ca/watersciences

Program Coordinator
M. C. Eimers, BSc (Toronto), MSc (Trent), PhD (Waterloo)

Professors
See faculty listings in Biology, Chemistry, and Environment

Freshwater systems provide many essential ecosystem services, such as clean water, food, energy, recreation, climate regulation, and waste assimilation. As human populations and economies grow, demand for these ecosystem services will continue to increase. The Water Sciences program provides students with the knowledge and skills they will need to respond to contemporary water challenges, in Canada and internationally. A cooperative undertaking of the School of the Environment and the Departments of Biology and Chemistry, the program draws from courses which together provide students with the technical and theoretical foundation for study of the science of water and the aquatic environment.

Notes
• For information on individual courses see Calendar entries for Biology, Chemistry, Environmental & Resource Science/Studies, and Geography.
• There is no joint-major program, General program, or minor in Water Sciences.

Bachelor of Science Program in Water Sciences
• In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).

The single-major Honours program. 20.0 credits including the following 15.5 credits:
– 0.5 WASC credit consisting of WASC 2000H
– 2.5 BIOL credits consisting of BIOL 1020H, 1030H, 2260H, 3050H, and 4330H
– 1.5 CHEM credits consisting of CHEM 1000H, 1010H, and 2620H
– 3.0 ERSC credits consisting of ERSC 1010H, 1020H, 2240H, 3510H, 3701H, and 4060H
– 3.0 GEOG credits consisting of GEOG 1040H, 2080H, 2090H, 2460H, 2530H, and 3530H
– 1.0 MATH credit consisting of MATH 1051H and 1052H
– 1.0 credit from BIOL 2000H, BIOL 2070H, CHEM 2400H, CHEM 2500H, ERSC 2230H, or GEOG 2540H
– 2.0 credits from:
    BIOL 3051H     CHEM 4011H     GEOG 3410H
    BIOL 3140H     CHEM 4012H     GEOG 3420H
    BIOL 3190H     CHEM 4520H     GEOG 3540H
    BIOL 3250H     ERST 3000H     GEOG 3560H
    BIOL 3340H     ERSC 3702H     GEOG 3860H
    BIOL-ERSC 3380H ERSC-BIOL-GEOG 4070H GEOG 4080H
    BIOL 4150H     ERSC-BIOL 4240H
    CHEM-ERSC 3600H ERSC 4520H
    CHEM-ERSC 3610H ERSC 4530H
– At least 1.0 credit from:

| BIOL 3850H | CHEM 4010Y/4020D | ERSC 4010Y/4020D |
| BIOL 3851H | ERSC 3160H       | ERSC-GEOG 4640H  |
| BIOL 3852H | ERSC 3220H       | ERSC-GEOG-WASC 4703H |
| BIOL 3853H | ERSC-IDST 3230H  | ERSC 4830Y       |
| BIOL 4010Y/4020D | ERSC 3905Y/3906H | GEOG 4010Y/4020D |
| BIOL-ERSC 4030H | ERSC 4905Y/4906H | GEOG 4830Y (4030Y) |

Please consult the academic timetable for information on courses that will be offered in 2019–2020, including when they will be scheduled.

» **WASC 2000H: Water Policy (Sc)**
   An introductory overview of water issues and related policies in Canada and internationally. Surveys the key interest groups and factors that shape conflicts over water protection and allocation, as well as policy responses, including infrastructure, regulatory, and economic tools that are employed by national, provincial, and local agencies. Prerequisite: ERSC 1010H and 1020H (or 1000Y).

» **WASC-ERSC-GEOG 4703H: Senior Seminar in Earth and Environmental Science (Sc) (see Environmental & Resource Science/Studies)**
Special Programs & Opportunities

In addition to the major, joint-major, and minor degree programs described in the Academic Programs section of the Calendar, students can take advantage of a range of special programs and opportunities. These include completing courses online, possibilities for international study experience, and involvement in research projects in the local community. Emphases, consisting of groups of courses with a particular focus, are available as a complement to regular programs. Specializations provide additional focus within individual programs.

The Individualized Studies program (p. 276) is available to students whose academic interests cannot be met by majors in any of the existing programs.

Trent also provides opportunities to combine community college and university study. A number of degree completion programs have been developed through articulation agreements with several community colleges and Trent also offers some programs in partnership with Fleming College in Peterborough and Lindsay.
Trent/Swansea Dual Degree – Engineering

trentu.ca/engineering

Program Coordinator
To be named

Trent University, in partnership with Swansea University, United Kingdom, offers a dual degree leading to a Bachelor of Science (General) degree (BSc) and a Bachelor of Engineering degree (BEng). The program allows students to complete the requirements for both degrees in a structured four-year program of study.

Students spend their first two years of full-time study at Trent in Peterborough, taking 10.0 credits toward their Bachelor of Science (General) program in Chemistry (5.0 credits per academic year). Students then transfer to Swansea University for years three and four to complete their study in the Chemical Engineering (BEng) degree program, taking on a full-time course load (120 credits per academic year, which equates to a normal 5.0-credit per year Canadian university course load). Following successful completion of the BEng with the required minimum overall average, students are awarded transfer credits and will be eligible to graduate at the end of the fourth year with both an undergraduate Bachelor of Science (General) degree from Trent University and a Bachelor of Engineering degree from Swansea University. As this is a dual degree and not a joint degree, Swansea University reserves all rights to make adjustments to the required courses for the BEng degree at any point in time. The most up-to-date program overview can be found at swansea.ac.uk/undergraduate/courses/engineering/chemical-engineering/beng-chemical-engineering-h831.

Academic Progression

Application to the Trent/Swansea Engineering dual degree is through the Ontario University Application Centre (ouac.on.ca). Students must achieve a minimum secondary school average of 80% and Grade 12U English, Chemistry, Physics and Math (either Calculus or Advanced Functions) to be considered for admission to the program. This entry grade is subject to change annually based on the application cohort and the number of spaces available in the program; however, the minimum average for acceptance to the program will never fall below 80%.

To progress successfully to year three of the dual degree at Swansea University, students must complete an Intent to Continue onto Studies form in order to transfer to Swansea for the BEng portion of the dual degree and must have:

- successfully completed years one and two at Trent University with a minimum cumulative average of 77%;
- successfully completed no fewer than 10.0 Trent University credits before enrolling in classes at Swansea (no transfer credits are allowable toward this total and Trent credits must be completed by the end of the Winter term in Year 2);
- declared the program major for the Trent BSc degree;
- obtained and provided proof of an approved Tier 4 (General) Study Visa;
- are in ‘good academic standing’ at Trent; and,
- no known reasons to be denied access to the United Kingdom.

Following successful completion of the BEng degree at Swansea University, student transcripts will be forwarded to the Office of the Registrar at Trent University to ensure standards are met for awarding of transfer credits. At this point the student academic records will be fully reviewed to confirm eligibility for graduation from the dual degree program. Students currently studying at Trent and transfer students from other post-secondary institutions who have been admitted to Trent University may be able to access the Trent/Swansea Engineering dual degree. Contact the Office of the Registrar for further details.
The following single-major General program is available for the Trent/Swansea Engineering Dual Degree:

**Bachelor of Science Program in Chemistry**

- In addition to the program requirements listed below, students must satisfy the University degree requirements (see p. 14).
- Students who complete the Trent/Swansea Engineering dual degree program are exempt from the requirement that 5.0 of the last 7.0 credits obtained by a candidate for a Trent University degree must be completed at Trent.
- Successful completion of the BEng degree program with a minimum weighted average of 40% (according to Swansea University’s grading scale) is required to award students with transfer credits toward the Trent BSc (General) degree. Per-course grade average to be determined.

**Year 1**

5.0 credits including the following:
- 1.0 CHEM credit consisting of CHEM 1000H and 1010H
- 1.5 MATH credits consisting of MATH 1110H, 1120H, and 1350H
- 1.0 PHYS credit consisting of PHYS 1001H and 1002H
- 0.5 COIS credit consisting of COIS 1020H
- 0.5 INDG credit from the Approved Indigenous Course List
- 0.5 elective credit

**Year 2**

5.0 credits including the following:
- 3.0 CHEM credits consisting of CHEM 2100H, 2110H, 2400H, 2500H, 2801H, and 3520H
- 1.5 MATH credits consisting of MATH 2110H, 2120H, and 2150H
- 0.5 elective credit

**End of Year 4**

5.0 transfer credits awarded for successful completion of BEng program (years 3-4):
- 1.0 CHEM credit consisting of CHEM 3400H and 3410H
- 0.5 unassigned CHEM credit at the 2000 level
- 1.5 unassigned CHEM credits at the 3000 level
- 1.0 unassigned Science credit at the 2000 level
- 1.0 unassigned Science credit at the 3000 level
Trent/Swansea Dual Degree – Law

trentu.ca/law-arts

Program Coordinator

R. L. Smith, BCom (Hons), JD (Queen’s), LLM (Osgoode)

Trent University, in partnership with Swansea University, United Kingdom, offers a dual degree leading to a Trent Bachelor of Arts (Honours) degree (BA) or Bachelor of Business Administration (BBA) and a Single Honours Law degree (LLB) from Swansea. The program allows students to complete the requirements for both degrees in a structured six-year program of study.

Upon admission to Trent University, students select a major in one of the available subjects for the dual degree (see majors below). Students spend their first two years of full-time study at Trent in Peterborough or Durham, taking 10.0 credits toward their Bachelor of Arts (Honours) or Bachelor of Business Administration program (5.0 credits per academic year). Students then transfer to Swansea University for years three, four, and five to complete their study in the LLB degree program, taking on a full-time course load (120 credits per academic year, which equates to a normal 5.0-credit per year Canadian university course load). Following successful completion of the LLB with the required minimum overall average, students are awarded transfer credits and return to Trent to complete the requirements for the BA or BBA program, which include courses focused in Canadian Law to prepare for the National Committee on Accreditation exams.

Students will graduate at the end of the sixth year with both an undergraduate Bachelor of Arts (Honours) or Bachelor of Business Administration degree from Trent University and a Single Honours Law degree from Swansea University.

As this is a dual degree and not a joint degree, Swansea University reserves all rights to make adjustments to the required courses for the LLB degree at any point in time. The most up-to-date program overview can be found at swansea.ac.uk/undergraduate/courses/law/llbsinglehonourslaw.

Academic Progression

Application to the Trent/Swansea dual degree is through the Ontario University Application Centre (ouac.on.ca). Students must achieve a minimum secondary school average of 80% to be admitted to the program. This entry grade is subject to change annually based on the application cohort and the number of spaces available in the program; however, the minimum average for acceptance to the program will never fall below 80%.

To progress successfully to year three of the dual degree and to commence the LLB portion at Swansea University, students must complete the required Intent to Continue and must meet the requirements below:

• successful completion of years one and two at Trent University with a minimum cumulative average of 77%;
• successful completion of no fewer than 10.0 Trent University credits before enrolling in classes at Swansea (a maximum of 5.0 transfer credits is allowable toward this total);
• declared program major for the Trent BA or BBA degree from the list of majors included in the program;
• obtained and provided proof of an approved Tier 4 (General) Study Visa;
• confirmation that they have not been found to have breached any University regulations; and,
• have no known reasons to be denied access to the United Kingdom.

Following successful completion of the LLB degree at Swansea University, student transcripts will be forwarded to the Office of the Registrar at Trent University to ensure standards are met for awarding of transfer credits. At this point students will be reactivated as current students at Trent University and enter into the final year of study to obtain all requirements for successful completion of the Bachelor of Arts (Honours) or Bachelor of Business Administration degree.
Students currently studying at Trent, and transfer students from other post-secondary institutions who have been admitted to Trent University, may be able to access the Trent/Swansea dual degree. Contact the Office of the Registrar for further details.

**Honours Programs in the Trent/Swansea Dual Degree**

The following single-major Honours programs are available for the dual degree:

- Bachelor of Arts in Canadian Studies
- Bachelor of Arts in Cultural Studies
- Bachelor of Arts in Economics
- Bachelor of Arts in English Literature
- Bachelor of Arts in Environmental & Resource Studies
- Bachelor of Arts in Gender & Women’s Studies
- Bachelor of Arts in Geography
- Bachelor of Arts in History
- Bachelor of Arts in Indigenous Studies
- Bachelor of Arts in International Development Studies
- Bachelor of Arts in Media Studies
- Bachelor of Arts in Philosophy
- Bachelor of Arts in Political Studies
- Bachelor of Arts in Sociology
- Bachelor of Business Administration

- In addition to the program requirements listed below, students must satisfy the University degree requirements (see page 14).
- Program requirements are determined by the declared major at Trent, as listed above.
- Students are encouraged to take additional courses in their declared major as electives, but the total number of credits in the major discipline may not exceed 13.0.
- Prerequisites for required courses will normally be waived for students in the Trent/Swansea dual degree. Prior to registration in any course in the major for which a waiver is needed, students must contact the chair of the department, indicate that they are enrolled in the dual degree program, and request permission to register without the prerequisite.
- Successful completion of the LLB degree program with a minimum weighted average of 40% (according to Swansea University’s grading scale) is required to award students with transfer credits toward the Trent BA or BBA degree. Per-course grade average to be determined.
- In year six of the dual degree, 3.0 Trent University credits in Canadian Law as prescribed by the Program must normally be completed, in addition to 2.0 credits required per their Trent degree requirements. The Canadian Law courses will support students in writing their National Committee on Accreditation (NCA) exams. Students must complete a total of 5.0 credits in year six at Trent in order to meet degree requirements for the BA or the BBA.
Business Administration

Year 1
5.0 credits including the following:
- 2.0 ADMN credits consisting of ADMN 1000H, 1021H, 2010H, and 2021H
- 1.0 ECON credit consisting of ECON 1010H and 1020H
- 2.0 elective credits

Year 2
5.0 credits including the following:
- 3.0 ADMN credits consisting of ADMN 2100H, 2220H, 2510H, 3021H, 3300H, and 3400H
- 1.0 ECON credit consisting of ECON 2200H and 2250H
- 1.0 elective credit

Year 6
5.0 transfer credits awarded for successful completion of LLB program (years 3-5):
- 3.0 unassigned ADMN credits at the 3000 level
- 2.0 unassigned ARTS credits at the 3000 level
5.0 credits including the following:
- 1.5 ADMN credits consisting of ADMN 3200H, 4030H, and 4101H
- 0.5 elective credit
- 3.0 credits in Canadian Law for NCA exam preparations (offered by Trent University; topics to be announced)

Note: Students are advised to consult the School of Business for specific course selection guidelines and prerequisite waivers for degree progression planning.
Canadian Studies

Year 1
5.0 credits including the following:
– 1.0 CAST credit from CAST 1100H and one of 1101H, 1103H, or 1104H
– 1.0 CAST credit in addition to the above from Categories A, B, C, and/or D*
– 3.0 elective credits

Year 2
5.0 credits including the following:
– 1.0 CAST credit at the 3000 level or beyond*
– 2.0 CAST credits in addition to the above*

Year 6
5.0 transfer credits awarded for successful completion of LLB program (years 3-5):
– 2.0 unassigned CAST credits at the 3000 level
– 1.0 unassigned CAST credit at the 4000 level
– 2.0 unassigned ARTS credits at the 3000 level
5.0 credits including the following:
– 1.0 CAST credit at the 4000 level*
– 1.0 CAST credit at the 3000 level or beyond in addition to the above*
– 3.0 credits in Canadian Law for NCA exam preparations (offered by Trent University; topics to be announced)

*At least 1.0 credit from each of Categories A, B, C, and D must be included overall in the program by the end of Year 6 (see Canadian Studies section for details; transfer credits do not fulfill category requirements)
Cultural Studies

Year 1
5.0 credits including the following:
– 1.0 CUST credit at the 1000 level
– 1.0 CUST credit at the 2000 level or beyond
– 3.0 elective credits

Year 2
5.0 credits including the following:
– 4.0 CUST credits at the 2000 level or beyond
– 1.0 elective credit

Year 6
5.0 transfer credits awarded for successful completion of LLB program (years 3-5):
– 1.0 unassigned CUST credit at the 4000 level
– 4.0 unassigned ARTS credits at the 3000 level
5.0 credits including the following:
– 1.0 CUST credit at the 4000 level
– 1.0 CUST credit at the 3000 level or beyond in addition to the above
– 3.0 credits in Canadian Law for NCA exam preparations (offered by Trent University; topics to be announced)

Note: Students declaring a Cultural Studies major in the Trent/Swansea program are recommended to take the following modules at Swansea if available:
LAA 227/327 Media Law
LAA 328 Cybercrime
LAA 341 Sports Law and Liability
LAA 342 Legal Issues in Sport
LAA 340 Work Placement Research Project or LAA 339 Law Dissertation
Economics

Year 1
5.0 credits including the following:
- 2.0 ECON credits consisting of ECON 1010H, 1020H, 2200H, and 2250H
- 3.0 elective credits

Year 2
5.0 credits including the following:
- 2.0 elective credits

Year 6
5.0 transfer credits awarded for successful completion of LLB program (years 3-5):
- 2.0 unassigned ECON credits at the 3000 level
- 1.0 unassigned ECON credit at the 4000 level
- 2.0 unassigned ARTS credits at the 3000 level
5.0 credits including the following:
- 1.5 ECON credits consisting of ECON 4000H, 4041H, and 4050H
- 0.5 elective credit
- 3.0 credits in Canadian Law for NCA exam preparations (offered by Trent University; topics to be announced)

Note: Students are advised to consult the Department of Economics for specific course selection guidelines and prerequisite waivers for degree progression planning.
English Literature

Year 1
5.0 credits including the following:
- 1.0 ENGL credit at the 1000 level
- 1.0 ENGL credit at the 2000 level or beyond
- 3.0 elective credits

Year 2
5.0 credits including the following:
- 4.0 ENGL credits at the 2000 level or beyond
- 1.0 elective credit

Year 6
5.0 transfer credits awarded for successful completion of LLB program (years 3-5):
- 2.0 unassigned ENGL credits at the 3000 level
- 3.0 unassigned ARTS credits at the 3000 level

5.0 credits including the following:
- 2.0 ENGL credits, at least 1.0 credit at the 4000 level
- 3.0 credits in Canadian Law for NCA exam preparations (offered by Trent University; topics to be announced)
Environmental & Resource Studies

Year 1
5.0 credits including the following:
- 1.0 ERSC credit consisting of ERSC 1010H and 1020H
- 0.5 INDG credit
- 3.5 elective credits

Year 2
5.0 credits including the following:
- 2.0 ERST credits consisting of ERST 2100H, 2510H, 2520H, and 2525H
- 0.5 ERSC/T credit from Category A
- 1.0 additional ERSC/T credit from Category B
- 1.5 additional ERST credits from Category C

Year 6
5.0 transfer credits awarded for successful completion of LLB program (years 3-5):
- 2.0 unassigned ERSC/T credits at the 3000 level
- 3.0 unassigned ARTS credits at the 3000 level
5.0 credits including the following:
- 0.5 ERST credit consisting of ERST 3000H
- 0.5 additional ERST credit from Category C
- 1.0 ERSC/T credit from Category D
- 3.0 credits in Canadian Law for NCA exam preparations (offered by Trent University; topics to be announced)

Note: Students declaring an Environmental & Resource Studies major at Trent in the Trent/Swansea program are recommended to take the following modules at Swansea if available:
- LAA 311 Planning Law
- LAA 310 Environmental Law: Regulatory Approaches
- LAA 312 Nature Conservation Law
Gender & Women’s Studies

Year 1
5.0 credits including the following:
- 1.0 WMST credit consisting of WMST 1001H and 1002H
- 4.0 elective credits

Year 2
5.0 credits including the following:
- 1.0 WMST credit consisting of WMST 2141H and 3021H
- 3.0 WMST credits in addition to the above*
- 1.0 elective credit

Year 6
5.0 transfer credits awarded for successful completion of LLB program (years 3-5):
- 2.0 unassigned WMST credits at the 3000 level
- 1.0 unassigned WMST credit at the 4000 level
- 2.0 unassigned ARTS credits at the 3000 level
5.0 credits including the following:
- 1.0 WMST credit consisting of WMST 4995Y
- 1.0 WMST credit in addition to the above*
- 3.0 credits in Canadian Law for NCA exam preparations (offered by Trent University; topics to be announced)

*At least 2.0 credits from WMST 2151H, 2161H, 2487H, 2711H, 3122H/4122H, 3141H, 3250H, 3400H, 3431H/4431H, 3860H, or 3966H must be included overall in the program by the end of Year 6
Geography

Year 1
5.0 credits including the following:
- 1.0 GEOG credit consisting of GEOG 1030H and 1040H
- 1.0 GEOG credit from GEOG 2310H, 2320H, 2330H, 2710H, or 2810H
- 0.5 GEOG credit from GEOG 2401H, 2460H, or 2540H
- 2.5 elective credits

Year 2
5.0 credits including the following:
- 1.5 GEOG credits consisting of GEOG 2080H, 2090H, and 2510H
- 1.5 GEOG Category A credits
- 0.5 GEOG Category B credit
- 1.5 elective credits

Year 6
5.0 transfer credits awarded for successful completion of LLB program (years 3-5):
- 2.0 unassigned GEOG credits at the 3000 level (includes 1.0 Category A equivalent)
- 3.0 unassigned ARTS credits at the 3000 level
5.0 credits including the following:
- 0.5 GEOG credit consisting of 3100H
- 0.5 GEOG Category B credit
- 1.0 GEOG Category C credit
- 3.0 credits in Canadian Law for NCA exam preparations (offered by Trent University; topics to be announced)
History

Year 1
5.0 credits including the following:
– 1.0 HIST credit at the 1000 level
– 4.0 elective credits

Year 2
5.0 credits including the following:
– 4.0 HIST credits at the 2000 level or beyond*
– 1.0 elective credit

Year 6
5.0 transfer credits awarded for successful completion of LLB program (years 3-5):
– 2.0 unassigned HIST credits at the 3000 level
– 1.0 unassigned HIST credit at the 4000 level
– 2.0 unassigned ARTS credits at the 3000 level
5.0 credits including the following:
– 1.0 HIST credit at the 3000 level*
– 1.0 HIST credit at the 4000 level
– 3.0 credits in Canadian Law for NCA exam preparations (offered by Trent University; topics to be announced)

*At least 0.5 credit from each of Categories A, B, and C must be included overall in the program by the end of Year 6 (see History section for details; transfer credits do not fulfill category requirements)
Indigenous Studies

Year 1
5.0 credits including the following:
  – 1.0 INDG credit consisting of INDG 1001H and 1002H
  – 1.0 INDG credit from Category A (INDG 2250Y, 2800Y recommended)
  – 0.5 INDG credit from Category C (INDG 1500H, 1510H, IESS 1001H recommended)
  – 0.5 INDG credit from Category D (INDG 2010H, 2020H recommended)
  – 2.0 elective credits

Year 2
5.0 credits including the following:
  – 4.0 INDG credits consisting of INDG 2100Y, 3105Y, 3401H, 3402H, and 3813Y
  – 1.0 elective credit

Year 6
5.0 transfer credits awarded for successful completion of LLB program (years 3-5):
  – 1.0 unassigned INDG credit at the 4000 level
  – 4.0 unassigned ARTS credits at the 3000 level

5.0 credits including the following:
  – 1.0 INDG credit consisting of INDG 4201H and 4202H
  – 1.0 additional INDG credit at the 4000 level
  – 3.0 credits in Canadian Law for NCA exam preparations (offered by Trent University; topics to be announced)
International Development Studies

Year 1
5.0 credits including the following:
- 1.0 IDST credit consisting of IDST 1001H and 1002H
- 4.0 elective credits

Year 2
5.0 credits including the following:
- 2.0 IDST credits consisting of IDST 2000Y and 3100Y
- 2.0 IDST credits in addition to the above with no more than 1.0 credit from Category B and no more than 1.0 credit from Category D* (see International Development Studies section for details)
- 1.0 elective credit

Year 6
5.0 transfer credits awarded for successful completion of LLB program (years 3-5):
- 2.0 unassigned IDST credits at the 3000 level
- 1.0 unassigned IDST credit at the 4000 level
- 2.0 unassigned ARTS credits at the 3000 level
5.0 credits including the following:
- 1.0 IDST credit at the 4000 level from Category A (see International Development Studies section for details)
- 1.0 IDST credit in addition to the above*
- 3.0 credits in Canadian Law for NCA exam preparations (offered by Trent University; topics to be announced)

*Of the additional 3.0 IDST credits in years 2 and 6, no more than 1.0 credit may be from Category B and no more than 1.0 credit may be from Category D
Media Studies

Year 1
5.0 credits including the following:
- 0.5 COIS credit consisting of COIS 1010H
- 0.5 CUST credit consisting of CUST 1535H
- 1.0 credit from the Media Studies course list
- 3.0 elective credits

Year 2
5.0 credits including the following:
- 1.0 CUST credit from CUST 2035Y or 2535H and 3535H
- 3.0 credits from the Media Studies course list
- 1.0 elective credit

Year 6
5.0 transfer credits awarded for successful completion of LLB program (years 3-5):
- 1.0 unassigned Media Studies credit at the 3000 level
- 4.0 unassigned ARTS credits at the 3000 level
5.0 credits including the following:
- 1.0 credit from the Media Studies course list at the 4000 level
- 1.0 credit from the Media Studies course list at the 3000 level or beyond in addition to the above
- 3.0 credits in Canadian Law for NCA exam preparations (offered by Trent University; topics to be announced)

Note: Students declaring a Media Studies major in the Trent/Swansea program are recommended to take the following modules at Swansea if available:
LAA 227/327 Media Law
LAA 328 Cybercrime
Philosophy

Year 1
5.0 credits including the following:
– 0.5 PHIL credit consisting of PHIL 1200H
– 0.5 PHIL credit at the 1000 level in addition to the above
– 4.0 elective credits

Year 2
5.0 credits including the following:
– 1.0 PHIL credit consisting of PHIL 2420H and 2430H
– 0.5 PHIL credit from PHIL 3420H or 3430H
– 2.0 PHIL credits in addition to the above
– 1.5 elective credits

Year 6
5.0 transfer credits awarded for successful completion of LLB program (years 3-5):
– 2.0 unassigned PHIL credits at the 3000 level
– 0.5 unassigned PHIL credit at the 4000 level
– 2.5 unassigned ARTS credits at the 3000 level

5.0 credits including the following:
– 0.5 PHIL credit from PHIL 3420H or 3430H (dependent on which was completed in year two at Trent)
– 1.0 PHIL credit at the 4000 level
– 0.5 PHIL credit at the 3000 level or beyond in addition to the above
– 3.0 credits in Canadian Law for NCA exam preparations (offered by Trent University; topics to be announced)
Political Studies

Year 1
5.0 credits including the following:
– 1.0 POST credit consisting of POST 1001H and 1002H
– 4.0 elective credits

Year 2
5.0 credits including the following:
– 1.5 POST credits consisting of POST 2351H, 2352H, and 3600H
– 1.0 POST credit from POST 2011H and 2012H or 2230Y
– 0.5 POST credit at the 3000 level in addition to the above
– 2.0 elective credits

Year 6
5.0 transfer credits awarded for successful completion of LLB program (years 3-5):
– 2.0 unassigned POST credits at the 3000 level
– 1.0 unassigned POST credit at the 4000 level
– 2.0 unassigned ARTS credits at the 3000 level
5.0 credits including the following:
– 2.0 POST credits at the 4000 level
– 3.0 credits in Canadian Law for NCA exam preparations (offered by Trent University; topics to be announced)

Note: Students declaring a Political Studies major at Trent in the Trent/Swansea program are recommended to take some of the following modules at Swansea if available:
LAA 228/329 Human Rights and Social Justice
LAA 222/333 International Law: Principles and Procedures
LAA 221/331 International Disputes Settlement
LAA 244/344 Multi-Level Governance
LAA 213/304 World Trade Law
LAA 320 Terrorism: The Legal Response
Sociology

Year 1
5.0 credits including the following:
- 1.5 SOCI credits consisting of SOCI 1001H, 1002H, and 2110H
- 3.5 elective credits

Year 2
5.0 credits including the following:
- 1.0 SOCI credit consisting of 2151H and 3151H (or 2150Y)
- 0.5 SOCI credit from SOCI 3100H or 3111H
- 2.0 SOCI credits in addition to the above
- 1.5 elective credits

Year 6
5.0 transfer credits awarded for successful completion of LLB program (years 3-5):
- 2.0 unassigned SOCI credits at the 3000 level
- 1.0 unassigned SOCI credit at the 4000 level
- 2.0 unassigned ARTS credits at the 3000 level

5.0 credits including the following:
- 0.5 SOCI credit consisting of SOCI 3160H
- 1.0 SOCI credit at the 4000 level
- 0.5 SOCI credit at the 3000 level or beyond in addition to the above
- 3.0 credits in Canadian Law for NCA exam preparations (offered by Trent University; topics to be announced)
Specializations

Specializations provide additional focus within individual programs. To be eligible, students must successfully complete the requirements of both the Specialization and the Honours or General program in which they are enrolled. The transcripts of students who have done so will contain the notation “with a Specialization in [the appropriate Specialization].”

Ancient Greek & Roman Studies
Greek & Latin (p. 22)

Archaeology
Environmental Archaeology (p. 42)
Mediterranean Archaeology (p. 42)

- Health Studies (p. 366)

**Sustainable Agriculture & Food Systems**
- Applied Agriculture (p. 375)
Options

Options, a prescribed set of a minimum of four (4.0) full credit equivalents with a particular disciplinary focus, can be completed as part of an undergraduate degree. To be eligible, students must successfully complete the requirements of both the option and the Honours or General program in which they are enrolled. An option appears on the academic transcript but does not appear on the degree parchment.

Option in Applied Ethics
trentu.ca/philosophy

Program Coordinator
Chair of the Department of Philosophy

A solid grounding in critical thinking, ethical theory, and applied ethics is increasingly important for the many different kinds of careers that involve developing reasoned responses to public policy initiatives. The Option in Applied Ethics is designed for students interested in careers as ethicists in fields such as medicine, environmental resource management, computing, law, or business. It also provides a good background for students interested in careers that involve advocacy on public policy issues.

Courses
Students who have fulfilled the requirements for an Honours or a General degree in any subject may graduate with an Option in Applied Ethics if they have also successfully completed the following 4.0 credits:

– 1.5 PHIL credits from PHIL 1100H, 2110H, 3110H, or 4310H

Option in Circumpolar Studies
trentu.ca/environment

Program Coordinator
H. N. Nicol, BA (Toronto), MES (York), PhD (Queen’s)

The Option in Circumpolar Studies connects students to the emerging field of Arctic and Northern Studies. It has been inspired by the importance of the Circumpolar World under conditions of climate change, globalization and unprecedented accessibility of the Circumpolar region to the outside world. This interdisciplinary option will be of importance for students engaged in political studies, geography and natural sciences, legal and health studies, history, cultural and Indigenous studies, and the study of Canada more broadly.

Students who have fulfilled the requirements for an Honours or a General degree in any subject may graduate with an Option in Circumpolar Studies if they have successfully completed the courses listed below.

The Option in Circumpolar Studies consists of the following 4.0 credits:

– 2.5 GEOG credits consisting of GEOG 1045H, GEOG-ERST 2320H, 2330H, 3390H, and GEOG-CAST 3640H
– 0.5 ERST credit consisting of ERST-INDG 3740H
– 1.0 INDG credit consisting of INDG 3745H and 3750H
Option in Communications & Critical Thinking
trentu.ca/durham

Program Coordinator
To be named

Communications & Critical Thinking helps to prepare students for a long and satisfying career in a variety of fields. As an option, this program encourages you to take courses that will complement your major from another field, and help to develop durable and transferable skills—including creative and logical thinking, project management, team work, problem analysis, and clear and persuasive communication—that are prized by a variety of employers. You’ll also have a chance to participate in the capstone course, which takes on a community-based research project.

Students who have fulfilled the requirements for an Honours or a General degree in another subject may graduate with an Option in Communications & Critical Thinking if they have also successfully completed the courses listed below. (The option is not available to students graduating with a major in Communications & Critical Thinking.)

The Option in Communications & Critical Thinking consists of the following 4.0 credits:
- 2.0 CCTH credits consisting of CCTH 1000H, 2000H, and 3000Y
- 0.5 PHIL credit consisting of PHIL 1200H
- 1.0 WRIT credit consisting of WRIT 1001H and 2002H
- 0.5 COIS credit consisting of COIS-ADMN 3850H

Option in Creative Writing
trentu.ca/english

Program Coordinator
H. M. Hodges, BA (Queen’s), MA, PhD (Toronto)

The Option in Creative Writing is designed for those students who have an interest in exploring and developing creative practice as a complement to their current disciplinary studies. The courses are designed for incremental development, aiming to give students an opportunity to study the theory and craft of writing and to apply what they learn in writing activities, assignments and workshops. Over the course of study, students will expand their writing repertoire, build writing communities, learn techniques for revising, and develop methods for generating ideas while building portfolios in prose fiction, poetry, creative non-fiction, and script-writing.

Students who have fulfilled the requirements for an Honours or a General degree in any subject may graduate with an Option in Creative Writing if they have successfully completed the 4.0 credits from the following courses, including courses from at least two different departments:

**Option in Education**

[trentu.ca/education](http://trentu.ca/education)

**Program Coordinator**

C. Mooney, BEd (Southampton), MA (Open)

The Option in Education is designed for students who wish to pursue a career in elementary or intermediate education; it encourages exploration of some of the subjects of the school curriculum that might be outside a student’s major area of study. The Option provides a solid foundation in a range of curriculum subjects that are required teaching within schools and will support students in constructing their own understanding of these curriculum areas. Students who have fulfilled the requirements for an Honours or a General degree in any subject may graduate with an Option in Education if they have successfully completed 4.0 credits from the following courses:

Please consult the academic timetable for information on courses that will be offered in 2019–2020, including when they will be scheduled.

- EDUC-MATH 2080Y: Mathematics for Teacher Education (Sc) (see Mathematics)
- EDUC-PHYS 2091H: Light and Colour for Future Teachers (see Physics & Astronomy)
- EDUC-PHYS 2093H: Electricity and Motion for Future Teachers (see Physics & Astronomy)
- EDUC-PHIL 2200H: Philosophy of Education
  Education is one of the most significant human occupations, in both the formal and informal understandings of the concept. In this course, we explore philosophical enquiries related to education, focusing on the nature, purpose, and aims of education, effective teaching and learning, issues of social justice, equity, and access. Prerequisite: 4.0 university credits.
- EDUC-ERSC-BIOL 2701H: Environmental Education: Biological Issues (Sc) (see Environmental & Resource Science/Studies)
- EDUC-ERSC-BIOL 2702H: Environmental Education: Fostering Stewardship and a Sustainable Future (Sc) (see Environmental & Resource Science/Studies)
Option in Geographical Information Systems

Program Coordinator

R. Ponce-Hernandez, BEng, MSc (Chapingo), DPhil (Oxford)

Trent University, in collaboration with Fleming College, offers an Option in Geographical Information Systems. This Option is available to students in the Honours programs at Trent University in Geography, Environmental & Resource Science/Studies, or Archaeology. Students admitted to the program register as full-time Fleming students during the third year of their Honours program. Classes are held at the Frost Campus of Fleming College in Lindsay.

Students must successfully complete all three semesters of the GIS Application Specialist or GIS Cartographic Specialist program with a minimum grade of 60% in all courses to receive the corresponding Ontario College Graduate Certificate along with 7.0 upper-level Trent science credits, of which 4.5 will count as 3000-level science credits in their major and 2.5 will count as unassigned 3000-level science credits. Students must then complete 3.0 credits in their fourth year to fulfill the requirements of the single- or joint-major degree. Students should consult the department of their major for specific requirements to fulfill the degree. “Option in Geographical Information Systems (Applications)” or “Option in Geographical Information Systems (Cartography)” will be noted on their Trent transcript.

Application Procedures

• Applicants must consult with the chair(s) of the appropriate departments or programs at Trent.
• Completed application forms must be submitted to the chair of Geography by January 20 of the second year.
• Selection is based on the program of courses completed and on cumulative averages to date, including mid-year grades in second year.
• Students are informed of the results of their applications prior to the opening of registration at Trent in the spring. If their applications are successful, they receive letters of acceptance and contact information for the Fleming year of the program.
• Students admitted to the program are also required to apply online to the Ontario College Application Service.
• Students enrolled in the Fleming program in their third year will register for courses through Trent for the fourth year of their Trent program.

Fees

Students pay community college fees during the third year of their program (consult the Fleming website for details on fees) and Trent fees for the other three years. Students are also required to pay the appropriate fee to the Ontario College Application Service.

Facilities

Students in the program have access to the library and faculty at Trent.

Courses

The prerequisites for the program consist of at least 10.0 university credits, with suitable standing towards a Trent Honours degree, including the 1000-level introductory course plus at least 2.0 additional credits in the student’s major.

All students entering the program should have successfully completed GEOG-ERSC 2090H and at least 1.0 credit from Computing & Information Systems.

All Geography majors should have successfully completed GEOG-ERSC-BIOL 2080H.

Students are urged to acquire as much computer programming experience as possible beyond the required courses in order to equip themselves for the Technical Issues component of the Fleming
year. Experience in algorithm design with C++ programming and visual Basic Languages would be an asset.

For information on courses, check the Calendar for the Honours degree requirements in Geography, Environmental & Resource Science/Studies, or Archaeology.

Further information
For further information on the program and an application form, contact the School of the Environment (trentu.ca/environment) or the Archaeology Program (trentu.ca/archaeology).

Option in Indigenous Reconciliation & Resurgence
trentu.ca/indigenousstudies
The Option in Indigenous Reconciliation & Resurgence provides students with knowledge and skills necessary to contribute effectively to the Canadian national project of reconciliation, which is in large part animated by the resurgence of Indigenous peoples over the last few decades.

Students who have fulfilled the requirements for an Honours or a General degree in any subject may graduate with an Option in Indigenous Reconciliation & Resurgence if they have also successfully completed the courses listed below.

The Option in Indigenous Reconciliation & Resurgence consists of the following 4.0 credits:
– 2.0 credits from category A
– 2.0 credits from category B

Option in International Development Studies
trentu.ca/ids

The Option in International Development Studies provides students with a critical understanding of the processes of change that shape the globe. Students will explore the relationship between colonialism, development, and globalization to address issues of inequality, poverty, the environment, gender, human rights, migration, food, agriculture, health, culture, and ethnicity in different regions of the world. This option complements a range of disciplines in the social sciences and humanities, such as anthropology, sociology, business administration, history, and political studies. It also enhances student capacities to work in such fields as education, social work, health, environment, psychology, policy, law, and international development.

Students who have fulfilled the requirements for an Honours or a General degree in another subject may graduate with an Option in International Development Studies if they have also successfully completed the courses listed below. (The option is not available to students graduating with a major, joint major, or minor in International Development Studies.)

The Option in International Development Studies consists of the following 4.0 credits:
- 1.0 IDST credit consisting IDST 1001H and 1002H
- 3.0 IDST credits in addition to the above

Option in Languages
trentu.ca/tcl

Program Coordinator
M. Boyne, BA (Trent), MA (Toronto), PhD (Lancaster)

The Option in Languages allows students to combine a range of modern, ancient, and/or Indigenous language courses as a complement to a major in another discipline. Students may start all languages without any background or may, where courses are available, take intermediate- or advanced-level courses.

Courses
Students who have fulfilled the requirements for an Honours or a General degree in any subject may graduate with an Option in Languages if they have successfully completed the following 4.0 credits:
- 1.5 credits in ARAB, ASLA, CHIN, FREN, GRMN, ITAL, RUSS, or SPAN
- 1.0 credit in GREK or LATN or from INDG 2250Y, 2800Y, 3800Y, or 4800Y
- 1.0 additional credit from the language courses listed above
- 0.5 credit in LING at the 2000 level or beyond
- May not include more than 1.0 FREN credit
Option in Legal Studies

Program Coordinator (Peterborough)
B. Stoyles, Chair, Department of Philosophy, BA (Huron), MA, PhD (Western)

Program Coordinator (Durham)
J. Connelly, BA (Alberta), MA (Saskatchewan), PhD (York)

The Option in Legal Studies provides students with an opportunity to learn about Canadian law. The option’s 4.5 credits provide a basic understanding about the legal system in Canada. It is recommended to students who are considering pursuing employment opportunities that require familiarity with the law. Students are advised to plan course selection carefully in order to acquire needed prerequisites (see individual course descriptions).

Students who have fulfilled the requirements for an Honours or a General degree in any subject may graduate with an Option in Legal Studies if they have successfully completed the courses listed below.

The Option in Legal Studies consists of the following 4.5 credits:
- 3.0 credits consisting of FRSC 1100H, FRSC 2100H, PHIL 1200H, PHIL-POST 2150H, POST 2011H, and WRIT 1001H

Option in Linguistics

Program Coordinator
M. Boyne, BA (Trent), MA (Toronto), PhD (Lancaster)

The Option in Linguistics enables students to add to their programs a series of courses designed specifically to complement their studies in a language or languages. The basis of the program is the first-year introductory courses in linguistics, and then students may choose from a variety of courses offered by the languages and linguistics section of French & Francophone Studies, English Literature, Anthropology, Ancient Greek & Roman Studies, and other departments, which will allow them to pursue more specific interests in language and linguistics.

Courses
Students who have fulfilled the requirements for an Honours or a General degree in any subject may graduate with an Option in Linguistics if they have also successfully completed the following 5.0 credits:
- 2.0 LING credits consisting of LING 1001H and 1002H (or 1000Y), 2000H, and 2001H
- 0.5 LING credit from LING 2010H or 2020H
- 0.5 LING credit from LING 3050H or 3060H
- 0.5 LING credit in addition to the above
- 1.5 credits from the following, including at least 0.5 credit from column A and 0.5 credit from column B:
### Option in Marketing

trentu.ca/business

**Program Coordinator**

A. El-Amir, BA (American University, Cairo), MSc, PhD (Stirling)

Marketing is a fundamental aspect of most businesses, so an option in Marketing provides students in any discipline enhanced career opportunities. The option’s 4.0 credits provide a solid foundation in the core principles of both marketing theory and practice.

Students who have fulfilled the requirements for an Honours or a General degree in a subject other than Business Administration may graduate with an Option in Marketing if they have also successfully completed the courses listed below. (The option is not open to students graduating with a BBA, a joint-major in Business Administration, or a minor in Business Administration.)

**The Option in Marketing** consists of the following 4.0 credits:

- 3.0 ADMN credits consisting of ADMN 1000H, 2080H, 2100H, 3150H, 3170H, and ADMN-COIS 3750H
- 1.0 ADMN credit from ADMN 1021H, ADMN-INDG 1500H, 1510H, ADMN-COIS 1620H, ADMN 2010H, 2021H, 2220H, 2410H (or 3410H), 2510H, or 3160H

Option in Planning
trentu.ca/environment

Program Coordinator
C. L. McKenna Neuman, BSc (Queen’s), MSc (Guelph), PhD (Queen’s)

The Option in Planning offers students a career-focused stream for students interested in urban planning. Students who have fulfilled the requirements for an Honours or a General degree in any subject may graduate with an Option in Planning if they have also successfully completed the following 4.0 credits:

- 2.5 credits consisting of GEOG 1030H, GEOG-ERSC 2090H, GEOG-CAST 2710H, GEOG-CAST 3710H, and GEOG 3790H
- 1.0 credit from ERST 3502H, ERST 4810H, GEOG 2310H, GEOG 3110H* or ERST 3000H*, GEOG-WMST-CAST 3220H, GEOG-NURS 3820H, GEOG-CAST-SAFS 4444H, INDG-GEOG 3202H, INDG-ERST-IESS 4730H, or POST-CAST-GEOG 4555H
- 0.5 credit from E GEO-ERSC-GEOG 3003H, ERSC-GEOG 3010H, ERST 3081H, ERST 3250H, ERST-GEOG 4140H, GEOG-ERSC 3020H, GEOG 3530H, or GEOG-CAST-ERST 3720H

* Only one of GEOG 3110H or ERST 3000H may be counted toward the Option.
Option in Premedical Studies
trentu.ca/premedicalstudies

Program Coordinator
D. A. Ellis, BSc (Glasgow), MSc (Aberdeen), MSc, PhD (Toronto)

The Option in Premedical Studies is intended for students who are planning to pursue a professional career in a medically related field upon completion of any Trent University undergraduate degree. It is targeted specifically at students who are considering entry into a medical school and is open to students in any discipline at Trent. Many of the academic areas of required study for medical school entry are applicable for entry into the schools of dentistry, veterinary medicine, and pharmacy, making this Option appropriate for those considering these professions. The Option includes entry-based academic content relevant to the Medical College Admissions Test (MCAT), the Dental Admission Test (DAT), and Pharmacy College Admission Test (PCAT). It also includes courses from the social sciences and humanities that are recommended or required for entrance into medical and other health-related professional schools. Academic requirements for individual medical schools vary and students are responsible for consulting the specific school’s admissions criteria when choosing their electives.

Students should note that it is not possible to take all courses listed in the Option within a single- or joint-major degree. Students should also note that upper-year courses often have prerequisite requirements.

Students who have fulfilled the requirements for an Honours or a General degree in any subject may graduate with an Option in Premedical Studies if they have successfully completed the following 4.0 credits with a minimum grade of 75% in each course:
- 1.0 credit from List A (Humanities)
- 2.0 credits from List B (Sciences)
- 1.0 credit from List C (Social Sciences)

A – Humanities

Option in Pre-modern Studies

Program Coordinator

M. W. Hickson, BA (Western), MA (Catholic University of America), PhD (Western)

The Option in Pre-modern Studies answers a growing student interest in the thought, literature, and history of the pre-industrial (pre-1800) world. While the more remote past is often romanticized as a “golden fantasy realm,” the study of historical culture in world civilizations from antiquity through early modernity (ca. 1800) allows students a window onto the origins and development of culture informing modern global society.

Students who have fulfilled the requirements for an Honours or a General degree in any subject may graduate with an Option in Pre-modern Studies if they have also successfully completed 5.0 credits from the courses listed below, including at least 0.5 credit from each of the periods, and an additional 3.5 credits from any of the periods:

**Option in Theatre Studies**
[trentu.ca/culturalstudies/theatre.php](trentu.ca/culturalstudies/theatre.php)

**Program Coordinator**

**S. W. Brown**, BA, MA (Windsor), BA, PhD (Queen’s), FSA (Scotland)

The Option in Theatre Studies will be of particular interest to those active in theatre or wishing to demonstrate a background in theatre arts. Students are advised to consult with the program coordinator early in their program.

Students who have fulfilled the requirements for an Honours or a General degree in any subject may graduate with an Option in Theatre Studies if they have also successfully completed the courses listed below.

**The Option in Theatre Studies** consists of the following 6.0 credits:

- 2.0 credits from Category A (Performance)
- 2.0 credits from Category B (History, Text, Theory)
- 2.0 additional credits from those listed below
- At least 3.0 of the total 6.0 credits must be from different academic disciplines

Option in Visual Arts
trentu.ca/culturalstudies

Program Coordinator
K. Egan, BA (Carleton), MA (York/Ryerson), MFA (Bard), PhD (York/Ryerson)

The Option in Visual Arts provides students with the chance to study the visual arts through both theory and practice. In addition to workshop classes offered by Cultural Studies in drawing, photography, film, and other visual media, students take classes in theoretical, historical, and contemporary issues in the visual arts from a range of contributing departments. The Option in Visual Arts is particularly appropriate for Education students in the Teacher Education Stream who intend to teach art classes in elementary or secondary school.

Students who have fulfilled the requirements for a Specialization in the Integrated Arts as part of their Honours or General degree in Cultural Studies may not also graduate with an Option in Visual Arts. Students who have fulfilled the requirements for an Honours or a General degree in any other subject may graduate with an Option in Visual Arts if they have also successfully completed the following 5.0 credits:
- 1.0 credit from Category A (Practice)
- 2.0 credits from Category B (Theory and History)
- 2.0 additional credits from either Category A or B

### Category A: Practice

- CUST-ERST 2114H
- CUST 2186H
- CUST 2511H
- CUST 3111Y
- CUST 3184H
- CUST 3186H

Emphases

Emphases, consisting of groups of courses with a particular focus, are available as a complement to regular degree programs. To be eligible, students must successfully complete the requirements of both the Emphasis program and the Honours or General program in which they are enrolled. The transcripts of students who have done so will contain the notation “with an Emphasis in [the appropriate Emphasis].”

Emphasis in Global Power & Politics

trentu.ca/globalpolitics

Program Coordinator

A. Pickel, MA (Guelph), Dipl Pol (Free University of Berlin), PhD (York)

The Emphasis in Global Power & Politics (GP) is offered by the Global Politics Section within the Department of Political Studies. It is intended for students interested in developing a critical understanding of the formal and informal, visible and hidden structures of power in the global age. A critical approach starts from the premise that the most urgent political problems of our time pose fundamental moral problems that require not only goodwill and commitment, but a deep understanding of the mechanisms of global power and politics. From imperialism and resource wars to the corruption of both liberal democracy and socialism, as well as the ubiquitous rise of inequality, those who desire to make a difference must seek this expanded knowledge. While housed in the social sciences, the Emphasis also seeks to appeal to politically-minded students in the sciences and the humanities.

The Emphasis option in Global Power & Politics is closely tied to the work done in the Centre for the Critical Study of Global Power & Politics (see Research Centres). Students are invited to participate in the work of the Centre. Students are strongly encouraged to explore the thesis option in their final year of study.

Courses

Students who have fulfilled the requirements for an Honours degree in any subject may graduate with an Emphasis in Global Power & Politics if they have also successfully completed the following 5.0 credits:

- 1.0 credit from POST 2200Y or 2230Y
- 2.0 credits from 3000-level POST (GP) courses or HIST 3150Y/3151H or IDST-POST-WMST 3881H/4881H
- 2.0 credits from 4000-level POST (GP) courses

The following courses carry the designation “GP” in the Political Studies section of the Calendar. See Political Studies (p. 334) for course descriptions:
Emphasis in Cultural & Linguistic Anthropology
trentu.ca/anthropology
The Emphasis in Cultural & Linguistic Anthropology has been discontinued. Students enrolled at Trent prior to May 1, 2017 will still be able to complete the Emphasis and should consult the Department of Anthropology for information.

Emphasis in Geographical Information Systems
The Emphasis in Geographical Information Systems is now offered as an Option in Geographical Information Systems (see p. 407).

Emphasis in Global Studies
trentu.ca/international
The Emphasis in Global Studies has been discontinued. Students enrolled at Trent prior to May 1, 2019 will still be able to complete the Emphasis and should consult Trent International for information.

Emphasis in Law & Policy
trentu.ca/politicalstudies
The Emphasis in Law & Policy has been discontinued. Students enrolled at Trent prior to May 1, 2019 will still be able to complete the Emphasis and should consult the Department of Political Studies for information.

Emphasis in Northern & Polar Studies
trentu.ca/environment
The Emphasis in Northern & Polar Studies has been discontinued. Students enrolled at Trent prior to May 1, 2017 will still be able to complete the Emphasis and should consult the School of the Environment for information.

Emphasis in Pre-modern Studies
The Emphasis in Pre-modern Studies is now offered as an Option in Pre-modern Studies (see p. 416).

Emphasis in Teacher Education
trentu.ca/education
The Emphasis in Teacher Education has been discontinued. Students enrolled at Trent prior to May 1, 2018 will still be able to complete the Emphasis and should consult the School of Education & Professional Learning for information.

Emphasis in The Teaching of Spanish
trentu.ca/french
The Emphasis in The Teaching of Spanish has been discontinued. Students who enrolled at Trent prior to May 1, 2017 will still be able to complete the Emphasis and should consult the Department of French & Francophone Studies for information.

Emphasis in Theatre Studies
The Emphasis in Theatre Studies is now offered as an Option in Theatre Studies (see p. 418).
Medical Professional Stream

Director

D. A. Ellis, BSc (Glasgow), MSc (Aberdeen), MSc, PhD (Toronto)

The Medical Professional Stream (MPS) is a unique four-year program designed for students looking to pursue a career in a medical field after graduating from Trent. This Stream complements a student’s undergraduate degree; students are enrolled in the MPS while simultaneously completing their undergraduate degree.

The MPS is designed to assist students with their co-curricular and extra-curricular activities and the integration of these within their academic undertakings. Not only are applicants to professional programs expected to possess a solid academic profile with high grades and stellar admission test scores (MCAT, PCAT or DAT where applicable), their non-academic contributions distinguish applicants and are key to demonstrating their suitability to be a medical professional.

The MPS is not required to obtain an undergraduate degree; but rather is considered “in addition” to an undergraduate degree and is non-academic in nature. Students will need to satisfy MPS requirements to continue each year. In order to remain in the MPS, students must:

• maintain a minimum cumulative average of 77% each year;
• successfully complete 9.0 credits by the end of the Winter term of second year (students with an approved reduced course load through SAS will be considered individually);
• have no more than one course with a grade lower than 60%;
• have a clear demonstration of participation in, and fulfillment of, the academic and non-academic activities as taken from published selected professional health programs. An MPS yearly assessment will be made through submission of a required mock professional entry application package.

This Stream is designed to assist students in developing their own individual way of demonstrating the qualities assessed by Medical admission boards. Students registered in the MPS benefit from additional program resources including:

• Direct entry to a top ranked International Medical School*;
• Regular meetings with MPS representatives;
• Support for volunteer opportunities and research opportunities;
• Academic Advising events specific to the MPS;
• Autobiographic sketch building;
• CPR and First Aid Training;
• Skill development workshops or experiences related to non-academic skills such as communication, teambuilding, leadership and professionalism;
• Career exploration;
• Admissions testing support;
• Speaker series from visiting scholars and medical professionals (including Trent alumni)

Students should note:

• The MPS is not a guaranteed entry pathway to Medical School; no undergraduate Stream or Program can make this claim.
• Canadian Medical, Dental and Veterinary Schools indicate that no particular degree program is considered ideal or preferred for entry. Medicine requires individuals with strong backgrounds in the social sciences, humanities, physical sciences and life sciences. Consequently, students are encouraged to gain at least some exposure to the basic sciences as well as the social sciences and humanities. The aim is to develop a well-rounded education and also to prepare yourself for alternatives to medicine.
• Professional Medical Programs state that many well-qualified applicants with strong academic records and impressive achievements in the non-academic sector may not be granted an interview or an offer of admission as the number of applicants currently exceeds the number of positions available.

• Students should pursue an undergraduate degree which reflects their strengths and interests to provide an alternative career option should their application to a Professional Medical Program be unsuccessful.

• Admission requirements to Professional Medical Programs may change from time to time; students are encouraged to check the admission requirements for the program and institution of interest. Students must ensure they have the necessary course prerequisites when applying to a Professional Medical Program (where applicable).

* Entry requirements to Saint George’s University (SGU), Grenada, West Indies:
  • Students may progress to SGU after successful completion of a four year honours Trent undergraduate degree as part of the MPS.
  • Students must maintain a cumulative average of at least 77% while enrolled at Trent University, and obtain a competitive score on the Medical College Admission Test (MCAT) (meaning a score within 3 points of the prior term average score at SGU).
  • To be eligible for entry into the SGU School of Veterinary Medicine, students must maintain a cumulative average of at least 75% while enrolled at Trent University and obtain a Graduate Record Examination (GRE) score of at least 300.

**Experiential Learning**

trentu.ca/experiential

At Trent University, Experiential Learning (EL) is a part of both the curricular and co-curricular life of the institution, and has been for many years. Students, community organizations, staff, and faculty work and grow together through these deep teaching and learning opportunities.

Experiential Learning is an intentionally collaborative approach to teaching that benefits not only the student but also the community in which the learning takes place, as we engage with the most pressing and important challenges of modern life. As we learn together through action and reflection—indeed, as we challenge the way we think through these processes—we develop, transform, and change.

Many students choose a variety of experiential learning activities throughout their time at Trent as both undergraduate and graduate students. Faculty members have rich, deep, and varied research programs throughout the greater Peterborough region and beyond, and teach EL courses engaging dozens of community partners. Community organizations, including businesses, not-for-profits, government, and more, are involved from beginning to end. Staff at the University and in the community provide vital administrative and academic support, and help to assess and evaluate EL programing from beginning to end.

Our goal is to ensure that all graduating students have at least one meaningful, purposeful, and recorded experiential learning experience that will contribute to their success as they enter the workforce.
**Internships, Placements, Practicum, etc.**

Trent students in virtually every program can earn academic credit in a variety of hands-on learning settings throughout Ontario and beyond, these include, but are not limited to Social Work see p. 358), Forensic Science see p. 199), Education see p. 144), Nursing see p. 305), Health Sciences see p. 52) and Psychology see p. 345). Business Administration Internship Program (see p. 66) housed within the B.B.A. program has internship opportunities available in a variety of business sectors within the Greater Peterborough and Durham Regions to students enrolled in various programs at Trent.

**Undergraduate Research Opportunities**

Undergraduate students have the chance to conduct hands-on research with leading professors and researchers. This is something uniquely Trent. Conduct field research in one of our 12 on-campus nature reserves; dust off medieval texts with your professor; accompany your Archaeology professor on a dig in Belize; or work with some of the world’s top water-testing instrumentation in our Water Quality Centre. Our students gain invaluable skills and experience that prepare them for graduate school and beyond.

**Trent Community Research Centre | trentu.ca/tcrc**

Through the TCRC, students undertake supervised research projects with non-profit and government organizations to gain academic credit and on-the-job experience, while benefiting the community. It’s like co-op, but better.

**Global Work Experiences | trentu.ca/international**

Trent students incorporate international experiential learning into their degree programs through field placements, research projects, intensive language programs, and internships. Trent students have done business in Hong Kong, supported health care in Honduras, excavated ruins in Belize, taught in England, and studied marine life in Taiwan.

**On-Campus Work Experience | trentu.ca/sep**

There are great opportunities to gain valuable work experience right here on campus. Through the student job board, students are able to look for jobs that fit their interests and schedules.

**Co-op**

Trent has two academic programs with competitive co-op designations that allow students to gain invaluable hands-on experience over three, 12-week, full-time paid work terms:

- Computing Systems Co-op (see p. 111)
- Conservation Biology Co-op (see p. 121)
Special Programs and Opportunities

Trent University's online courses offer a quality learning experience, convenience, and flexibility. These courses and programs have been developed by talented and knowledgable faculty to bring students the same high-quality educational experience found in a traditional Trent classroom. Online courses include multimedia materials and take advantage of web-based communication technologies. Regular internet access is required for the full duration of any courses students are enrolled in.

Online courses are available to students enrolled at Trent, as well as students at other Canadian universities. Visiting students may take an online course through Trent by first obtaining a letter of permission (LOP) from their home university. Students can be full-time or part-time, depending on how many courses they take in a given term.

Blackboard, Trent’s online course management system, allows students to:
• interact with a variety of rich learning materials including visuals, audio, multimedia, and links to Internet resources;
• interact with instructors and classmates; and
• navigate course content at their own pace, from anywhere, while completing scheduled activities and assignments by established dates.

Course Expectations
Students can expect the same learning requirements in an online course as in an on-campus course. Many online courses started out as on-campus courses and have been optimized for the online learning environment. This means that the readings and assignments may be identical to what is being done in the on-campus class. Anyone considering taking an online course should be sure to have the necessary time and skills to complete all components of the course.

Recommended Skills
• Reading and Writing Skills— Online courses consist of a substantial amount of reading and written communication. Success in online courses is tied to the students ability to comprehend all of the core content and instructions. It is important that students are able to express themselves clearly and feel comfortable interacting with others in writing. In many online courses, participation in online discussions is a key element of a students learning, including reviewing and commenting on written contributions from other students in the course.
• Self-direction and time management—Students should be prepared to commit the same amount of time to their studies as they would with on-campus classes. When planning a work schedule for an online course, students should consider the number of hours they’ll need to watch videos, read through the materials, understand the content, and participate in discussions. Since students won’t be seeing their instructor in-person each week as with an on-campus course, students are encouraged to know when to ask for help – whether that means reaching out to peers, the course instructor, or one of Trent’s Student Support services (trentu.ca/currentstudents/student-support). Many online course instructors choose to offer virtual office hours as a resource for students to ask questions and get feedback on course work. Students should review their online course syllabi to determine whether their course instructor offers virtual drop-in hours.
• Computer literacy—While online students do not need to be computer experts to succeed in a course, communication with instructors and other students requires email skills, word processing skills, and the ability to navigate the Blackboard Learning System. Courses may require additional computer literacy specific to the area of study. Students should review the course syllabus to determine if further skills are required for the course.
Exams

Most online courses have an in-person, proctored final exam, although some will use a non-proctored take-home paper of final assessment completed through Blackboard. The decision regarding the type and format of the final exam rests solely with the instructor and their department. For those courses that have an in-person, proctored final exam, students are able to write in-person at the Peterborough or Durham campuses. Students may also choose to write with our remote proctoring service. Online proctoring allows remote proctors to supervise an exam via webcam at any private location with a reliable internet connection. Students with accommodations registered with Trent’s Student Accessibility Service’s office also have the option to choose to write their final exam(s) at the Peterborough or Durham campus Centre for Academic Testing.

Registration & Fees

For the purpose of course registration, Trent University does not distinguish between an online student and an on-campus student. Registering for an online course works the same way as registering for most other courses. Online courses are identified with a WEB marker in the myTrent registration system. Students are able to access the courses in which they have registered through Blackboard, five days in advance of the course officially starting. Please visit the Trent website, and the Registration Procedures (see p. 468) and Visiting Students (see p. 463) sections of this Calendar, for more information on registration and letters of permission.

The cost of taking an online course is similar to that of an on-campus course, but can vary depending on whether students are only taking courses online or if they are concurrently registered in on-campus courses. Online courses are billed individually for students from other institutions studying on a Letter of Permission. For a complete breakdown of tuition and fees, please visit the Tuition and Fees page of the Trent website.

- Blackboard Learning System resources: trentu.ca/it/services/Blackboard-learning-management-system-lms
- Technical support: trentu.ca/it
International Educational Opportunities

Trent University has a long and successful history of welcoming students from around the world, as well as promoting international studies and Study Abroad opportunities. Trent has a strong international community at its core. For information on international admissions and programs, please visit trentu.ca/international.

Trent International (TI) offers an exciting opportunity for Canadian and international students to live and study together. Students involved with TI, many of whom intend to pursue international careers, are committed to deepening their understanding of world issues, increasing their sensitivity to different cultures, and, in the long term, promoting international learning and understanding. Trent students may choose to study abroad to enrich and internationalize their degree (see Study Abroad Opportunities).

Several departments and programs offer courses in global and international studies, including Ancient Greek & Roman Studies, Anthropology, Cultural Studies, History, International Development Studies, French & Francophone Studies, Political Studies, Sociology, Media Studies, and Gender & Women’s Studies. Students may complement their major with a joint-major degree in International Political Economy.

Trent-ESL: English for University

trentu.ca/esl

Trent International offers TRENt-ESL: English for University. Trent-ESL is an intensive, academic English program for students who meet all of Trent’s academic admission requirements, and require English-language proficiency. Students who are placed in the Foundations for University I and II may opt to take a limited number of credit courses in conjunction with their ESL courses.

For Direct entry into CORE 3:

- IELTS: 5.0 overall, with a 5.0 in writing
- TOEFL IBT: 60
- TOEFL PBT: 500

For admission to Foundations for University I (ESL 4):

- IELTS: 5.5 overall, with a 5.5 in writing
- TOEFL IBT: 70
- TOEFL PBT: 525

For admission to Foundations for University II (ESL 5):

- IELTS: 6.0 overall, with a 6.0 in writing
- TOEFL IBT: 80
- TOEFL PBT: 550

Upon successful completion of the Foundations for University levels, students can proceed to full-time degree studies. Students may begin the ESL program in September, January, April, or June.
Trent International (TI)

trentu.ca/international

TI provides advisory services for international students, including orientation and assistance with adjusting to life in Canada and at Trent University. Counselling and referral services are available for employment, finances, scholarships, health insurance, language proficiency, consumer services, academic challenges, and residential life.

Trent Global Living Community

International and Canadian students may choose to augment their TI experience by living in the Trent Global Living Community. TGLC is a residence space located in Champlain College specifically for students who want to learn about different cultures and traditions by living and learning with people from all over the world. trentu.ca/housing

International Scholarships and Awards

Trent International Scholarships enable outstanding scholars from around the world to study at Trent, thereby enhancing the international character of the University and contributing to an intellectually challenging and culturally exciting environment for all members of the Trent community. These scholarships and awards recognize high academic standing, and outstanding extracurricular and community service obtained prior to coming to Trent. Scholarship recipients are expected to be active participants in college and university life and to assume a leadership role in international activities, both at the University and within the broader community. trentu.ca/international

Study Abroad Opportunities

trentu.ca/studyabroad

Trent students are encouraged to spend a summer, a term, or a full academic year of their undergraduate degree studying in another country. Through the Trent International Study and Exchange Program (TISEP), students in all disciplines can participate in an exchange with universities in many countries.

The exchange normally takes place in the third year of a General or an Honours program. Students may participate in a Study Abroad exchange or coordinate, with the assistance of Trent International Study Abroad Program (TI), their own Study Abroad program. Students receive full credit for all approved courses completed successfully in exchange and Year Abroad programs, including courses in community development that involve work placements. Specific departmental Study Abroad programs are also offered at Trent. These programs combine academic courses with work-placement experience.

Information on a variety of short-term summer programs abroad are available at trentu.ca/studyabroad. Trent students may apply for Summer Service-Learning placements at agencies in Africa under the supervision of the World University Service of Canada (WUSC).

Study Abroad Awards, Bursaries, and Prizes

International study bursaries are designed to encourage and support the broadening of the academic experience through Study Abroad. These funds assist Trent students planning to study abroad and international scholars attending Trent for a year of study. Funds are awarded for academic merit, based on financial need, or as a departmental prize. Applications are available on myTrent.
Internationally Oriented Groups
The Trent International Students’ Association (TISA) (facebook.com/TrentuTISA) is a student-run organization which includes both Canadian and international students who wish to internationalize their Trent experience. TISA works closely with TI to foster a campus environment that encourages and supports cultural diversity. Members obtain valuable leadership skills organizing a wide variety of activities, including festivals, lectures, debates, films, and guest speaker events, all designed to enhance and deepen awareness of international themes and global issues. Several other internationally oriented clubs and groups are also active on campus and maintain close ties with TI. Details about student clubs and organizations are available at www.trentcentral.ca/clubs.php.

Year Abroad Programs
Trent University offers a range of Year Abroad programs which enable students to broaden their educational horizons and to add new perspectives to their academic interests, whatever the subject matter. The following Year Abroad programs are available:
- Year Abroad in France—see French & Francophone Studies, Year Abroad Program (p. 208)
- Year Abroad in Ghana—see International Development Studies, Year Abroad Programs (p. 279)

Community-Based Research & Community Service-Learning Programs
Trent Community Research Centre (Peterborough)
trentu.ca/tcrc
U-Links Centre for Community-Based Research (Haliburton)
ulinks.ca

The Community-Based Research (CBR) and Community Service-Learning (CSL) programs are innovative approaches to experiential learning and research. They offer undergraduate and graduate students the opportunity to gain academic credit and on-the-job experience by undertaking supervised research projects with local government, non-profit organizations, charities, and conservation agencies in Peterborough City and County and Haliburton County.

The CBR and CSL programs are designed to:
- work with community organizations on community-based research and other identified projects that otherwise might not be completed;
- provide students with real-world research experience in their fields of study and a wide-range of transferrable skills that enhance future employment prospects; and
- increase co-operation and partnership between Trent University and the broader communities it serves.

What is Community-Based Research?
Community-based research brings together the knowledge and research needs of the community with the research expertise of Trent University faculty and students. Research questions come from a wide range of community groups and organizations including local municipalities, social service agencies, conservation authorities, and community interest groups. Organizations submit project proposals to the Trent Community Research Centre (TCRC, Peterborough) or U-Links (Haliburton). Once projects have been reviewed by research staff, faculty, and community experts, these project opportunities are promoted to students and instructors. Centre staff work alongside faculty to support students in their work and help guide projects towards successful outcomes for both the local community and students.
The work involved and time commitment needed for project completion can vary greatly. Community-Based Research (CBR) projects can be carried out as full- or half-credit undergraduate courses, undergraduate or Master’s thesis, major research paper, PhD dissertation, or as an assignment within a course. Projects can commence at the beginning of Fall, Winter, or Summer terms. The TCRC and U-Links also provide paid internship or fellowship opportunities on specific projects. Staff members at TCRC and U-Links provide support to students in the selection of projects that match their interests and program requirements, and ongoing support throughout their research.

**How does it work? — Course Based**

Undergraduate students can sign-up for one of three 4000-level undergraduate courses where every student in that course completes a CBR project, either individually or in teams. The structure of these courses, including any lectures or seminars, is focused towards community-based research. Courses are currently available in Forensic Science (FRSC 4890Y), Geography (GEOG 4830Y), and International Development Studies (IDST 4220Y). Undertaking a CBR project is also an optional assignment in a number of departments and courses including Environmental & Resource Science/Studies (ERSC 3160H), Canadian Studies (CAST 3011H), Gender and Women’s Studies (WMST 3021H), and History (HIST 3011H). Future courses may be available in other departments.

**How does it work? — Independent Study**

Undergraduate students can also complete a community-based research project as a form of independent study, as either a half, full, or double credit. In following this independent model, students identify a project on the TCRC website (trentu.ca/tcrc) they would like to work on and then, in conjunction with the TCRC or U-Links, find an instructor to supervise their work. Students then meet with the community host organization to ensure a compatible match. Program staff assist with these steps, but participation in a project is contingent on the instructor’s permission and, in some cases, that of the academic department. Ideally, project arrangements should be initiated before the start of the semester; however, students have until the University Add Course deadlines (see Important Dates, p. 8) to complete registration.

To apply to do an independent CBR project, students should first review available projects on the TCRC website (trentu.ca/tcrc) and complete the application form, including the submission of resume and cover letter. The application form can be found at: trentu.ca/community-based-research/students. Course codes for a CBR project exist in most departments (see list of course codes below).

**Prerequisite:** The CBR program is open to senior undergraduate students who have completed a minimum of 10.0 university credits. Students must have a minimum 75% cumulative average. Students may be subject to further prerequisites by individual academic departments and instructors. Students who do not meet the above requirements but wish to participate should contact the TCRC to discuss potential exemptions. Community host organizations may screen students for relevant skills and knowledge.

**Graduate Students**

Graduate students can work with the TCRC or U-Links, in various ways. CBR projects can be incorporated into graduate study as part of graduate course work, major research paper (MRP), thesis, or dissertation. From time to time, paid internships also become available. There are also opportunities for graduate students to volunteer with the TCRC in supporting undergraduates in their research. Graduate students who are interested in community-based research are encouraged to review available and currently running projects on the TCRC website (trentu.ca/tcrc), and contact the relevant local organization to discuss their interest (TCRC or U-Links).
Community Service-Learning Projects
Community Service-Learning projects are usually 10 to 20 hours in length (per student) and are undertaken as assignments within courses. Program staff will work with instructors and host organizations to clarify project details and TCRC/U-Links registration.
Prerequisite: Community Service-Learning projects are only available to students within participating courses. Students may be subject to further prerequisites by individual departments and instructors. Community host organizations may screen students for relevant skills and knowledge.

Roles and Resources
The Community-Based Research and Community Service-Learning programs fulfill a community-defined need for a common point of contact with the University and provide an extensive community development network for students and faculty wanting to work with local government, and non-profit organizations. Host organizations involved in the programs provide supervision, facilities, services, and materials. Participating faculty provide academic supervision, grade students’ work, and support students in a manner consistent with other University courses. Students receive innovative research, leadership, and career-building experience while applying theory to practice in local community settings. The TCRC and U-Links develop new research projects and support those underway, provide resources and contacts, and facilitate communication among all participants.

The TCRC and U-Links each maintain online and physical resource libraries that include materials about local community groups and initiatives; completed local research projects; and the practice of community-based research, community service learning, and experiential education. Students or faculty who wish to arrange research and educational projects and partnerships with local community organizations are strongly encouraged to contact the TCRC.

Course Codes
Most departments have course codes for independent CBR projects at 3rd and 4th year levels, and as half- and full-credits. If a department does not have a specific course code for CBR, please contact the TCRC for more information. CBR work can also be undertaken as a double or single credit thesis where this option is offered by a department.

Joint Programs with Other Institutions

Trent University, in collaboration with other post-secondary institutions, offers a number of joint programs which extend educational opportunities by combining theory and practice in a number of professional and career fields. For degree completion options, please see p. 433.

Fleming College
- Bachelor of Science in Nursing (BScN) (p. 307)
- Ecological Restoration Joint Degree/Diploma program (BSc) (p. 136)
- Option in Geographical Information Systems (p. 421)
- Specialization in Applied Agriculture (Sustainable Agriculture & Food Systems) (p. 375)

George Brown
- Post-bridge Bachelor of Science in Nursing (BScN) degree completion (p. 307)

Loyalist College
- Journalism (BA) (p. 287)

Swansea University
- Trent/Swansea Dual Degree - Engineering (p. 383)
- Trent/Swansea Dual Degree - Law (p. 385)

University of Ontario Institute of Technology (UOIT)
- Kinesiology (BHSc) (p. 289)
Degree Completion Programs

Trent University offers degree completion pathways for graduates of Ontario community colleges who have successfully completed specific diploma programs. These agreements are reviewed annually to accommodate changes in the programs at the partner institutions. For complete details on degree completion agreements between Trent University and Ontario Community Colleges, see ONTransfer, the Ontario post-secondary transfer guide, at ontransfer.ca.

For information on admission to these degree completion programs, please contact the Liaison Office at Trent University, 1-888-739-8885 or email liaison@trentu.ca.

Notes

- As transfer credits recognize areas covered over the course of the diploma program rather than one-to-one course equivalents, numerical grades will not be recorded on the Trent transcript. Completion of these credits will be recognized with a “Pass” grade; see Transfer Credits (p. 464) for details.
- If a student transfers to a different degree program, all transfer credits outlined in the specified agreement may not apply to the new degree program. It is the student’s responsibility to discuss their academic program requirements with an academic advisor and to notify the Office of the Registrar of any program changes.
- Students are reminded to refer to the most recent version of the Academic Calendar for requirements which apply to all undergraduate degree programs.
- Students pursuing degree completion programs are reminded that they will need to plan their academic program carefully.
- Prerequisite requirements, course timetables, and unforeseen circumstances may mean that a student requires additional time to complete the specified degree.

System-Wide Agreement: For Qualified Graduates of Any Ontario College of Applied Arts and Technology

Computing & Information Systems (Bachelor of Science, Honours)
Qualified students may enter the Computing Systems program at Trent University on an advanced standing basis, subsequent to successful completion of one of the following advanced diploma programs at an Ontario community college with a minimum 75% average:
- Computer Programmer Analyst
- Computer Systems Technology

Notes

- Transfer credits are awarded based on entering average as follows:
  - students with an entering average at 75% or over will receive 10.0 credits; and
  - students with an entering average between 70.0% and 74.9% will receive 7.5 credits.

Forensic Science (Bachelor of Science in Forensic Science)
Qualified students may enter the Forensic Science program at Trent University on an advanced standing basis, subsequent to the successful completion of the four-semester diploma program in Police Foundations with a minimum 75% average.

Notes

- Admission to the BScFS program is competitive and an average higher than 75% may be required for admission.
- In addition to meeting the competitive average required for admission to the BScFS program, applicants must meet specified high school entrance requirements, or their equivalent.
Forensic Science (Bachelor of Arts, Honours or Bachelor of Science, Honours—joint-major)
Qualified students may enter the Bachelor of Arts (Honours) or Bachelor of Science (Honours) joint-major in Forensic Science at Trent University on an advanced standing basis, subsequent to the successful completion of the four-semester diploma program in Police Foundations with a minimum 75% average.

Centennial College

Bachelor of Arts, Honours—any major
Qualified students may enter the Bachelor of Arts (Honours) program at Trent University on an advanced standing basis, subsequent to successful completion of the Liberal Arts diploma program with a minimum overall average of 70%.

Bachelor of Social Work
Qualified students may enter the Bachelor of Social Work program at Trent University on an advanced standing basis, subsequent to successful completion of the Social Service Worker diploma program with a minimum overall average of 75%. Students must apply for admission to the professional years of the Social Work program. Admission to the professional years is limited and competitive. See Social Work for details.

Child & Youth Studies (Bachelor of Arts, Honours)
Qualified students may enter the Child & Youth Studies program at Trent University on an advanced standing basis, subsequent to successful completion of the Child and Youth CareAdvanced diploma program with a minimum overall average of 75%.

Communications & Critical Thinking (Bachelor of Arts, General)
Qualified students may enter the Communications & Critical Thinking program at Trent University on an advanced standing basis, subsequent to successful completion of the Liberal Arts diploma program with a minimum overall average of 70%.

Computing & Information Systems (Bachelor of Science, Honours)
Qualified students may enter the Bachelor of Science (Honours) Computing Systems program at Trent University on an advanced standing basis, subsequent to the successful completion of the three-year Software Engineering Technology advanced diploma program or the Software Engineering Technology (Co-op) advanced diploma program at Centennial College with a minimum 75% average.

Confederation College

Bachelor of Education – Indigenous
Qualified students may enter the Bachelor of Education – Indigenous program at Trent University on an advanced standing basis, subsequent to successful completion of the Aboriginal Community Advocacy program with a minimum overall average of 75%.

Environmental & Resource Science/Studies (Bachelor of Science, Honours or Bachelor of Arts, Honours)
Qualified students may enter the Environmental & Resource Science/Studies program at Trent University on an advanced standing basis, subsequent to successful completion of the Environmental Technician diploma program with a minimum overall average of 75%.
Indigenous Environmental Studies (Bachelor of Arts, Honours)
Qualified students may enter the Indigenous Environmental Studies program at Trent University on an advanced standing basis, subsequent to successful completion of the Environmental Technician diploma program with a minimum overall average of 75%.

Indigenous Studies (Bachelor of Arts, Honours)
Qualified students may enter the Indigenous Studies program at Trent University on an advanced standing basis, subsequent to successful completion of the two-year Aboriginal Community Advocacy diploma program with a minimum 75% average.

Durham College

Business Administration (Bachelor of Business Administration, Honours)
Qualified students may enter the Bachelor of Business Administration program at Trent University on an advanced standing basis, subsequent to successful completion of one of the following advanced diploma programs with a minimum 75% average:

– Business Administration—Accounting
– Business Administration—Human Resource Management
– Business Administration—Marketing
– Business Administration—Operations Management

Child & Youth Studies (Bachelor of Arts, Honours)
Qualified students may enter the Bachelor of Arts program in Child & Youth Studies at Trent University on an advanced standing basis, subsequent to successful completion of the Child and Youth Care advanced diploma program with a minimum overall average of 75%.

Computing & Information Systems (Bachelor of Science, Honours)
Qualified students may enter the Computing & Information Systems program at Trent University on an advanced standing basis, subsequent to successful completion of one of the following programs with a minimum 75% average:

– Computer Programmer Analyst
– Computer Systems Technology

Environmental & Resource Science/Studies (Bachelor of Science, Honours or Bachelor of Arts, Honours)
Qualified students may enter the Environmental & Resource Science/Studies program at Trent University on an advanced standing basis, subsequent to successful completion of one of the following advanced diploma programs with a minimum 75% average:

– Environmental Technology
– Pharmaceutical and Food Science Technology

Media Studies (Bachelor of Arts, Honours)
Qualified students may enter the Bachelor of Arts in Media Studies program at Trent University on an advanced standing basis, subsequent to successful completion of one of the following programs with a minimum 75% average:

– Digital Video Production
– Digital Photography
– Journalism—Broadcast and Electronic Media
– Journalism—Web and Print
Sustainable Agriculture & Food Systems (Bachelor of Arts, Honours)
Qualified students may enter the Bachelor of Arts in Sustainable Agriculture and Food Systems degree program at Trent University on an advanced standing basis, subsequent to successful completion of the Horticulture – Food and Farming diploma program with a minimum overall average of 75%.

Sustainable Agriculture & Food Systems (Bachelor of Science, Honours)
Qualified students may enter the Bachelor of Science in Sustainable Agriculture and Food Systems degree program at Trent University on an advanced standing basis, subsequent to successful completion of the Horticulture – Food and Farming diploma program with a minimum overall average of 75%.

Bachelor of Arts or Bachelor of Science—any major
Qualified students may transfer to Trent on an advanced standing basis, subsequent to successful completion of the General Arts and Science certificate program with a minimum overall average of 70% and a minimum of 65% in each of the required courses. Trent University will grant the following 5.0 transfer credits:
- PHIL 1000H
- PHIL 1100H
- PSYC 1020H
- PSYC 1030H
- SOCI 1001H
- SOCI 1002H
- WRIT 1001H
- 1.0 unassigned ARTS 1000-level credit
- 0.5 unassigned SCIENCE 1000-level credit

Social Work (Bachelor of Social Work, Honours)
Qualified students may enter the Social Work program (the generalist years) at Trent University on an advanced standing basis, subsequent to successful completion of the Social Service Worker diploma program with a minimum 75% average. Students must apply for admission to the professional years of the Social Work program. Admission to the professional years is limited and competitive. See Social Work (p. 358) for details.

Fanshawe College
Computing & Information Systems (Bachelor of Science, Honours)
Qualified students may enter the Computing & Information Systems program at Trent University on an advanced standing basis, subsequent to successful completion of one of the following programs with a minimum 75% average:
- Computer Programmer Analyst
- Computer Systems Technology
Fleming College

Bachelor of Arts or Bachelor of Science—any major
Qualified students who complete the University Transfer Option of the General Arts and Science program with a minimum average of 70% and a minimum of 65% in each of the transfer credit subjects will be permitted to enter a Bachelor of Arts or Bachelor of Science degree program on an advanced standing basis and will be granted the following 5.0 credits:

- 1.0 unassigned ENGL 1000-level credit
- PHIL 1000H
- PHIL 1100H
- PSYC 1020H
- PSYC 1030H
- SOCI 1001H
- SOCI 1002H
- 1.0 unassigned ARTS 1000-level credit

Bachelor of Arts (Honours)
Qualified students may enter the Bachelor of Arts (Honours) program at Trent University on an advanced standing basis, subsequent to successful completion of the diploma program in Police Foundations with a minimum overall average of 75%.

Bachelor of Arts (Honours)
Qualified students may enter the Bachelor of Arts (Honours) program at Trent University on an advanced standing basis, subsequent to successful completion of the Early Childhood Education diploma program with a minimum overall average of 75%. Students will also be admissible to the Teacher Education Stream without completion of the supplementary application, if desired.

Bachelor of Education – Indigenous
Qualified students may enter the Bachelor of Education – Indigenous program at Trent University on an advanced standing basis, subsequent to successful completion of the General Arts & Science – University Transfer program with a minimum overall average of 75%.

Biology (Bachelor of Science, Honours)
Qualified students may enter the Biology program at Trent University on an advanced standing basis, subsequent to successful completion of the advanced diploma program in Fish & Wildlife Technology with a minimum overall average of 75%.

Business Administration (Bachelor of Business Administration)
Qualified students may enter the Business Administration program at Trent University on an advanced standing basis, subsequent to successful completion of one of the following advanced diploma programs with a minimum 75% average:

- Business Administration
- Business Administration—Accounting
- Business Administration—Human Resource Management
- Business Administration—Marketing
- Business Administration—Materials Management
- Business Administration—International Trade
Bachelor of Business Administration with a Specialization in Accounting
Qualified students may enter the Bachelor of Business Administration program with a Specialization in Accounting at Trent University on an advanced standing basis, subsequent to successful completion of the Business – Accounting Diploma program with a minimum overall average of 75%. In order to meet all terms of the Chartered Professional Accountants of Canada (CPA), a minimum average of 65% is required in individual Fleming courses that directly transfer to courses that make up any CPA modules. Visit ontransfer.ca and view the agreement listing for all current terms.

Computing & Information Systems (Bachelor of Science, Honours)
Qualified students may enter the Computing & Information Systems program at Trent University on an advanced standing basis, subsequent to successful completion of one of the following programs with a minimum 75% average:
  – Computer Engineering Technology
  – Computer Programmer Analyst

Environmental Geoscience (Bachelor of Science, Honours)
Qualified students may enter the Bachelor of Science program in Environmental Geoscience at Trent University on an advanced standing basis, subsequent to successful completion of the Earth Resources Technician Co-op diploma program with a minimum overall average of 75%.

Environmental & Resource Science (Bachelor of Science, Honours)
Qualified students may enter the Environmental & Resource Science program at Trent University on an advanced standing basis, subsequent to successful completion of the Forestry Technician diploma program or Urban Forestry Technician diploma program with a minimum 75% average.

Environmental & Resource Science/Studies (Bachelor of Science, Honours or Bachelor of Arts, Honours)
Qualified students may enter the Environmental & Resource Science/Studies program at Trent University on an advanced standing basis, subsequent to successful completion of one of the following advanced diploma programs with a minimum 75% average:
  – Ecosystem Management
  – Fish & Wildlife Technology
  – Environmental Technology

Forensic Science (Bachelor of Science in Forensic Science)
Qualified students may enter the Forensic Science program at Trent University on an advanced standing basis, subsequent to successful completion of the diploma program in Police Foundations with a minimum average of 75%.

Notes
- Admission to the BScFS program is competitive and an average higher than 75% may be required for admission.
- In addition to meeting the competitive average required for admission to the BScFS program, applicants must meet specified high school entrance requirements or their equivalent.

Forensic Science (Bachelor of Science in Forensic Science)
Qualified students may enter the Forensic Science program at Trent University on an advanced standing basis, subsequent to successful completion of the Biotechnology Technologist advanced diploma program with an average of 75%.

Note
- Admission to the BScFS program is competitive and an average higher than 75% may be required for admission.
Forensic Science (Bachelor of Science, Honours or Bachelor of Arts, Honours—joint-major)
Qualified students may enter the Bachelor of Arts, Honours or Bachelor of Science, Honours joint-major program at Trent University on an advanced standing basis, subsequent to successful completion of one of the following advanced diploma programs with a minimum 75% average:
- Biotechnology Technologist
- Police Foundations
The joint-major degree will consist of Forensic Science and a discipline selected by the student.

Nursing (Bachelor of Science in Nursing)
Qualified students are eligible to apply to the Compressed or Consecutive programs in Nursing at Trent University on an advanced standing basis, subsequent to successful completion of the Practical Nursing diploma program with a minimum average of 75%.

Notes
- Admission to the BScN program is competitive and an average higher than 75% may be required for admission.
- Students must also be registered and in good standing with the College of Nurses of Ontario to be eligible for this pathway.

Psychology (Bachelor of Arts, Honours)
Qualified students may enter the Bachelor of Arts program in Psychology at Trent University on an advanced standing basis, subsequent to successful completion of the Early Childhood Education diploma program with a minimum overall average of 75%. Students will also be admissible to the Teacher Education Stream without completion of the supplementary application, if desired.

Social Work (Bachelor of Social Work, Honours)
Qualified students may enter the Social Work program (the generalist years) at Trent University on an advanced standing basis, subsequent to successful completion of the Social Service Worker diploma program with a minimum 75% average. Students must apply for admission to the professional years of the Social Work program. Admission to the professional years is limited and competitive. See Social Work (p. 358) for details.

George Brown College
Computing & Information Systems (Bachelor of Science, Honours)
Qualified students may enter the Computing & Information Systems program at Trent University on an advanced standing basis, subsequent to successful completion of the advanced diploma program in Computer Programmer Analyst with a minimum 75% average.

Georgian College
Bachelor of Education – Indigenous
Qualified students may enter the Bachelor of Education – Indigenous degree program at Trent University on an advanced standing basis, subsequent to successful completion of the Indigenous Community and Social Development diploma program with a minimum overall average of 75%.

Bachelor of Education – Indigenous
Qualified students may enter the Bachelor of Education – Indigenous degree program at Trent University on an advanced standing basis, subsequent to successful completion of the Anishnabemowin Language Programming diploma program with a minimum overall average of 75%.
Computing & Information Systems (Bachelor of Science, Honours)
Qualified students may enter the Computing & Information Systems program at Trent University on an advanced standing basis, subsequent to successful completion of the advanced diploma program in Computer Programmer Analyst with a minimum 75% average.

Humber College
Bachelor of Education – Indigenous
Qualified students may enter the Bachelor of Education – Indigenous degree program at Trent University on an advanced standing basis, subsequent to successful completion of the Indigenous Knowledge certificate program with a minimum overall average of 75%.

Computing Systems (Bachelor of Science, Honours)
Qualified students may enter the Bachelor of Science (Honours) program in Computing Systems at Trent University on an advanced standing basis, subsequent to successful completion of the Computer Engineering Technology advanced diploma program with a minimum overall average of 75%.

Lovely Professional University
Computing Systems (Bachelor of Science, Honours)
Qualified students may enter the Bachelor of Science program in Computing Systems at Trent University on an advanced standing basis, subsequent to successful completion of the Bachelor of Technology in Computer Science and Engineering, the Bachelor of Technology in Information Technology, or the Bachelor of Science in Information Technology with a minimum overall average of 70%. See Computing Systems (p. 106) for additional degree requirement details.

Loyalist College
Biology (Bachelor of Science, Honours)
Qualified students may enter the Biology program at Trent University on an advanced basis, subsequent to successful completion of one of the following advanced diploma programs with a minimum 75% average:
– Biotechnology Technologist

Business Administration (Bachelor of Business Administration)
Qualified students may enter the Business Administration program at Trent University on an advanced standing basis, subsequent to successful completion of one of the following advanced diploma programs with a minimum 75% average:
– Business Administration
– Business Administration—Accounting

Chemistry (Bachelor of Science, Honours)
Qualified students may enter the Chemistry program at Trent University on an advanced basis, subsequent to successful completion of the Chemical (Engineering) Technologist advanced diploma program with an average of 75%.

Environmental & Resource Science (Bachelor of Science, Honours)
Qualified students may enter the Environmental & Resource Science program at Trent University on an advanced basis, subsequent to successful completion of the Environmental Technologist advanced diploma program with an average of 75%.
Social Work (Bachelor of Social Work, Honours)
Qualified students may enter the Social Work program (the generalist years) at Trent University on an advanced standing basis, subsequent to successful completion of the Social Service Worker diploma program with a minimum 75% average. Students must apply for admission to the professional years of the Social Work program. Admission to the professional years is limited and competitive. See Social Work (p. 358) for details.

Sault College

Bachelor of Education – Indigenous
Qualified students may enter the Bachelor of Education – Indigenous program at Trent University on an advanced standing basis, subsequent to successful completion of the Anishinaabemowin Certificate Program with a minimum overall average of 75%.

Seneca College

Bachelor of Arts (Honours)—any major
Qualified students may enter the Bachelor of Arts (Honours) program at Trent University on an advanced standing basis, subsequent to successful completion of the Liberal Arts program with a minimum 70% average.

Bachelor of Science (Honours)—any major
Qualified students may enter the Bachelor of Arts (Honours) program at Trent University on an advanced standing basis, subsequent to successful completion of the Arts and Science diploma program with a minimum overall average of 70%.

Bachelor of Social Work
Qualified students may enter the Bachelor of Social Work program at Trent University on an advanced standing basis, subsequent to successful completion of the Social Service Worker diploma program with a minimum overall average of 75%. Students must apply for admission to the professional years of the Social Work program. Admission to the professional years is limited and competitive. See Social Work for details.

Computing & Information Systems (Bachelor of Science, Honours)
Qualified students may enter the Computing & Information Systems program at Trent University on an advanced standing basis, subsequent to successful completion of the advanced diploma program in Computer Programming & Analysis with a minimum 75% average.

St. Lawrence College

Bachelor of Social Work
Qualified students may enter the Bachelor of Social Work degree program at Trent University on an advanced standing basis, subsequent to successful completion of the Social Service Worker diploma program with a minimum overall average of 75%. Students must apply for admission to the professional years of the Social Work program. Admission to the professional years is limited and competitive. See Social Work for details.
Trent University of Commerce

Bachelor of Arts (Honours)—any major
Qualified students may enter Trent-ESL: English for University program and the Bachelor of Science (Honours) program in Mathematics at Trent University on an advanced standing basis, subsequent to successful completion of the equivalent of 10.0 Trent University credits of coursework completed at Tianjin University of Commerce.

Diploma Programs
Diploma programs exist in order to accommodate students who wish to undertake focused study in an area over a one- or two-year period. The diploma is awarded upon successful completion of the program. With it is included a Trent University transcript identifying all courses undertaken and grades received. Credits earned in the diploma program are transferable to the bachelor’s program.

Diploma in Canadian Studies
See Canadian Studies (p. 79) for details.

Diploma in Foundations of Indigenous Learning
See Indigenous Studies (p. 263) for details.

Diploma in Indigenous Environmental Studies & Sciences
See Indigenous Environmental Studies & Sciences (p. 258) for details.
Postgraduate Certificate in Human Resource Management

Program Coordinator
To be named

The Postgraduate Certificate in Human Resource Management is available to students who hold an undergraduate degree from any accredited university. The program is offered at Trent’s Durham and Peterborough campuses and may be taken on a full-time or part-time basis.

Upon successful completion of the courses associated with the Certificate, students will have satisfied all of the course requirements for the “Certified Human Resources Professional Designation™.” Students who pass all courses will receive the Certificate, but should note the standards required by the HRPA. To be eligible to write the National Knowledge Exam™, students must achieve a cumulative average of 70% in all courses, with no individual course mark less than 65%. In order to take the exam, a student must be an enrolled member of the Human Resources Professionals Association of Ontario, which involves a monetary fee to the Association.

The “Certified Human Resources Professional Designation™” is the only legislated certification for Human Resources Professionals in North America. Currently, the HRPA requires the completion of nine subject areas, which are all offered at Trent. CHRP, NKE, and NPPA are trademarks of HRPA and used under license. Licensing does not equate to program review, approval, or endorsement.

Application Procedure
Candidates may apply to the Postgraduate Certificate in Human Resource Management through the Trent website at trentu.ca/business. An official transcript must accompany the application.

Courses
The Certificate program consists of the following 5.5 credits:

- 0.5 ECON credit consisting of ECON 3500H
- A minimum cumulative average of 65% is required to complete certificate

Notes

- For individual course descriptions, see Business Administration (p. 66) and Economics (p. 138). Please consult the academic timetable, available at trentu.ca/timetable, for information on when courses will be scheduled in 2019–2020.
- If a full-time student, ADMN 1021H, 2220H, and 2230H should be completed in the first term; a part-time student should complete ADMN 1021H, 2220H, and 2230H before taking other required ADMN credits.
- Transfer credit to a maximum of 0.5 assigned credit may be awarded for the Certificate. The course for transfer credit may be from Trent or another accredited university provided a minimum grade of 65% has been achieved.
Postgraduate Certificate in Marketing & Entrepreneurship

Program Coordinator
To be named

The Postgraduate Certificate in Marketing & Entrepreneurship is available to students who hold an undergraduate degree from any accredited university. The program is offered at Trent’s Durham and Peterborough campuses and may be taken on a full-time or part-time basis.

This program will be of interest to recent graduates wishing to acquire good business acumen in the area of entrepreneurship and marketing. Graduates from science, social science, and the humanities will find the courses particularly engaging should they wish to start their own business, market an innovation, or patent a recent idea or product. The strategic implementation of ideas from the incubation phase to the marketplace is also explored. The Postgraduate Certificate can be completed in one year and covers such topics as entrepreneurship, marketing, branding, and advertising, which will provide graduates with the foundational tools to start a business, pursue a passion for research and innovation, or simply to improve marketability to potential employers.

Application Procedure
Candidates may apply to the Postgraduate Certificate in Marketing & Entrepreneurship through the Trent website at trentu.ca/business. An official transcript must accompany the application.

Courses
The Certificate program consists of the following 5.0 credits:
- 2.0 ADMN credits consisting of ADMN 2010H, 2080H, 2100H, and 3420H
- 3.0 ADMN credits from ADMN 3021H, 3150H, 3160H, 3170H, 3430H, 3441H, 3750H, or 4870H (or 3870H)
- A minimum cumulative average of 65% is required to complete certificate

Notes
- For individual course descriptions, see Business Administration (p. 66). Please consult the academic timetable, available at trentu.ca/timetable, for information on when courses will be scheduled in 2019–2020.
- If a full-time student, the required credits ADMN 2010H, 2080H, 2100H, and 3420H should be completed in the first term; a part-time student should complete the required credits before taking additional ADMN courses.
- ADMN 3150H, 3160H, and 3170H cannot be taken until students have completed ADMN 2100H. ADMN 4870H can only be taken in the second term.
- Transfer credit to a maximum of 1.0 assigned credit may be awarded for the Certificate. The courses for transfer credit may be from Trent or another accredited university provided a minimum grade of 60% has been achieved.
- The Certificate may also be open to specific college programs as approved by the Business Administration Program. In these cases, available transfer credit and minimum entrance grades will vary.
Postgraduate Certificate in Senior Police Leadership

The Postgraduate Certificate in Senior Police Leadership is designed to provide police leaders with the specific skills, knowledge, and assets they need to provide effective leadership to their respective police service units. The certificate program is focused on integrating uniformed and civilian members into an effective, unified policing team, managing the tension between bureaucracy; focused on efficiency and process, effect evidence-based police operations, adaptability, and flexibility. The certificate program also provides an understanding of the complex accountability, legal, and governance frameworks of police services and police services boards.

The Postgraduate Certificate in Senior Police Leadership is unique in that it employs teaching teams of academics and serving or retired senior police officers who, together, bring a thorough understanding of the benefits and importance of theory and practical experience, and a theoretical and practical understanding of the concepts under study. Each course is designed around a mix of lectures, case studies, and seminar discussions to ensure that every opportunity is utilized to learn from the experiences of staff and students alike, using best practices for meaningful adult learning.

The Postgraduate Certificate in Senior Police Leadership is unique in that it employs teaching teams of academics and serving or retired senior police officers who, together, bring a thorough understanding of the benefits and importance of theory and practical experience, and a theoretical and practical understanding of the concepts under study. Each course is designed around a mix of lectures, case studies, and seminar discussions to ensure that every opportunity is utilized to learn from the experiences of staff and students alike, using best practices for meaningful adult learning.

Application Procedure and Admission Requirements

This program is available to practicing police leaders at the rank of Sergeant and above. Application is made through the Trent University website (trentu.ca/policing). Applicants will require a letter of support from their senior officer. Normally candidates will hold an undergraduate degree from an accredited university. No transfer credits may be applied to this certificate.

Courses

The Postgraduate Certificate in Senior Police Leadership is delivered through 4.5-day-long block courses. The Certificate program consists of the following 3.0 credits:

- 3.0 PLCW credits consisting of PLCW 4920H, 4921H, 4922H, 4923H, 4924H, and 4925H

  » PLCW 4920H: Foundations Course: Leadership Roles, Efficacy, and Identity
    Focused on providing police service leaders with the practical skills and knowledge needed to provide effective leadership for their organizations. Provides each participant with foundational knowledge in the key subject areas of the certificate program including, leadership, decision-making, police operations, governance and civilian oversight and human resources and administrative functions, responsibilities and accountabilities. Course fee: $150. Prerequisite: PLCW 4920H.

  » PLCW 4921H: Leadership Skills for Senior Police Leaders
    Focused on providing police service leaders with the practical skills and knowledge needed to provide effective leadership for their organizations while providing a positive influence in their respective communities. Designed around three main themes: the role of the leader; modelling the way; and communicating to persuade and influence, both inside and outside of the police service. Course fee: $150. Prerequisite: PLCW 4920H.

  » PLCW 4922H: Principles of Decision-making
    Offers perspectives, principles, and tools required to make analytical and informed decisions. Drawing on fundamental insights from economic and statistics, the course combines theory with policing applications. Examples from student experiences where the tools could be used today and how they could be used in the future will be covered. Course fee: $150. Prerequisite: PLCW 4920H.
» **PLCW 4923H: Governance and Civilian Oversight**
Explores the complex accountability framework of police organizations through police/civilian governance and the different bodies of civilian oversight. Examines such topics as the Police Services Act and its regulations; the functions and responsibilities of police/civilian governance in policing; the discipline system for both police service boards and members of police services; and understanding the roles of Police Oversight Bodies in policing. Course fee: $150. Prerequisite: PLCW 4920H.

» **PLCW 4924H: Policing Operations Course**
Focused on providing police service leaders with the practical skills and knowledge needed to plan and execute operations in support of police service activities. Discusses the roles and functions of police services in conducting operations, examines the current operational environment, and provides a framework for the planning and execution of police operations. Course fee: $150. Prerequisite: PLCW 4920H.

» **PLCW 4925H: Human Resources for Senior Police Leaders**
Provides practical tools and insight using various teaching techniques to ensure a frame of reference for students. Focuses on three areas of human resources that impact policing leadership: risk mitigation, employment law and industrial relations; human resources and employee relations for police leaders; and professional development. Course fee: $150. Prerequisite: PLCW 4920H.
Research At Trent

Office of Research & Innovation

www.trentu.ca/researchinnovation

The Office of Research and Innovation supports the University community in its mission to “advance learning through the creative interaction of teaching and research of the highest quality.” Responsible for achievement of Trent’s research goals and objectives, the Office of Research and Innovation is responsible for the coordination and promotion of research and scholarship within the University.

In particular, the Office of Research and Innovation works with local, regional, national, and international members of the research community to promote and steward excellence and diversity in research with an emphasis on interdisciplinary research; open, accountable research practices; the involvement of students in research; and the training of highly qualified personnel. Also, the office is responsible for the provision of resources to researchers.

Vice-President, Research & Innovation
N. Emery, BSc (Queen’s), PhD (Calgary)

Innovations Administrative Coordinator
A. Horne, BA (Trent)

Director, Office of Research & Innovation
C. J. Gates, BA (Trent), MEd (Toronto)

Manager, Corporate Research Partnerships
J. Knight, MBA (Western)

Research Project Officers
To be named—Researchers A–L
K. Johnson, BBA (Trent)—Researchers M–Z

Certifications and Regulatory Compliance Officer
K. Mauro

Animal Care Manager
J. Allen, BSc, RMLAT (CALAS)
Research Centres

www.trentu.ca/researchinnovation/trent-research-matters/centres-and-institutes

Trent University has a number of interdisciplinary research centres which represent clusters of faculty and students with shared research interests. These centres foster academic discussions, support visiting speakers’ series and workshops, and conduct collaborative research. In some cases they are heavily involved in graduate student training, from the selection of graduate students into programs to the delivery of courses and the evaluation of theses. Some centres are not affiliated directly with particular graduate programs, although graduate students are involved in the research that they conduct. Overall, the centres provide an exciting academic environment for students and faculty at Trent.

Canadian Environmental Modelling Centre
trentu.ca/cemc

Contact: J. M. Parnis, Chemistry

The mission of the Canadian Environmental Modelling Centre (CEMC) is to contribute to the improved management of chemicals in our environment by acquiring and analyzing appropriate data and developing, validating, and disseminating mass balance models that describe the fate of chemicals in the environment. The objective of the CEMC is to understand and predict quantitatively the pathways of contaminant transport and the resulting exposure. When we can establish a quantitative link between sources, exposure, and risk of effects, we are in a strong position to control sources to acceptably low levels, avoiding the problems of unacceptable contamination from excessive sources on the one hand, and uneconomic, unnecessary regulations on the other. Emphasis at the CEMC is placed on training undergraduate and graduate students in environmental science, on co-operation with the other faculty at Trent, and on providing research services relevant to current Canadian and international needs. The CEMC is a part of the larger, multi-university Canadian Environmental Modelling Network (CEMN) and collaborates actively with other researchers both nationally and internationally.

Centre for Health Studies
trentu.ca/ihs

Contact: E. Scharfe, Psychology

The objectives of the Centre for Health Studies are to provide a focus for the different types of research conducted at Trent on various aspects of health, to foster greater communication among health researchers within and outside the University, and to facilitate the training of students (both graduate and undergraduate) for careers and research in health-related fields.

Centre for the Study of Theory, Culture & Politics
trentu.ca/theorycentre

Contact: D. Holdsworth, Trent School for the Environment

The Centre for the Study of Theory, Culture & Politics encourages research and teaching guided by critical/theoretical orientations that have emerged from contemporary developments in the humanities and social sciences. These orientations test the limits of conventional disciplines and contribute to the study of the complex network of relations that link knowledge, culture,
and politics. The centre is concerned with fostering substantive projects of research as well as fundamental reflection on conceptual and methodological issues. The centre aims to integrate teaching and research, and to encourage the work of both emerging and established scholars. It promotes scholarly research and interchange through conferences, symposia, speaker series, and specific research projects and publications. The MA Program in Theory, Culture and Politics, as well as the PhD Program in Cultural Studies, are also affiliated with the Centre.

**Frost Centre for Canadian Studies & Indigenous Studies**

trentu.ca/frostcentre

Contact: H. N. Nicol, Environment, Canadian Studies

Established in 1982, the Frost Centre is named in honour of Leslie Frost, the first chancellor of Trent University. The Frost Centre is one part of the School for the Study of Canada, which encompasses the Department of Canadian Studies and two graduate programs: the MA in Canadian Studies & Indigenous Studies, and the PhD in Canadian Studies (jointly administered with the School of Canadian Studies at Carleton University). The Frost Centre sponsors research and public lectures and integrates the humanities, social science, and other interdisciplinary departments and programs that focus on Canadian and Indigenous issues.

**Institute for Watershed Science**

trentu.ca/iws

Contact: C. Metcalfe, Environment

The Institute for Watershed Science is a research organization that focuses on understanding physical and ecological processes governing watershed function and the transfer of this knowledge to support water management decisions. The institute fosters multi-disciplinary collaboration involving faculty at Trent University with expertise in watershed science in partnership with other academic institutions, government and non-government organizations, and the private sector. The institute is committed to the transfer of knowledge on watershed science to practitioners through publications, courses, workshops, and conferences. The institute also coordinates the CREATE H2O program that supports the training of graduate and undergraduate students to address problems related to water quality in First Nations communities in Ontario and Manitoba.

**Institute of Integrative Conservation Biology**

dennismurray.ca

Contact: D. Murray, Biology

In the coming decades, society must improve its ability to understand, predict, and develop responses to environmental change, if we are to avoid or mitigate the expected profound human influences on natural and managed landscapes and ecosystems. Conservation biology, which traditionally involves the integration of genetics, physiology, mathematics, ecology, and computer modelling, is a core discipline that addresses a broad range of questions and challenges associated with contemporary and future environmental change. In the twenty-first century, however, conservation biology must also include increased emphasis on the human dimensions of environmental change through further integration of disciplines like sociology, anthropology, economics, and psychology, lest we risk developing strategies and policies that have neither public support nor high probability of success. Established in 2015, the IICB capitalizes on existing research strengths and synergies in the area of conservation biology to stimulate and enhance robust and
relevant environmental change research at Trent University. Specifically, the mission of the IICB is to promote and facilitate interdisciplinary research, collaboration, and graduate teaching and training in conservation biology and related fields, to influence research and policy decisions at the regional, national and international scales.

**James McLean Oliver Ecological Centre**

trentu.ca/olivercentre

Contact: E. Sager, Manager

The James McLean Oliver Ecological Centre is located on Pigeon Lake, 45 minutes north of Trent’s main campus. The 270-acre waterfront property serves as an ecological field station and a centre for long-term ecological and environmental research in collaboration with other universities, government agencies, and local groups. Major areas of focus are climate change, long-term monitoring of biological communities, the responses of ecosystems to pollutant stress, and nutrient dynamics and ecosystem changes in the Kawartha Lakes. The property contains a number of terrestrial and aquatic habitats with a rich diversity of flora and fauna.

**Natural Resources DNA Profiling & Forensic Centre**

web.nrdpfc.ca

Contacts:

- C. Kyle, Forensics
- B. Seyler, Manager

The centre (NRDPFC) houses state-of-the-art automated DNA analytical infrastructure and is located in Block A of the DNA Building. The DNA Building was opened in 2006 following $7.2 million of funding from the Canada Foundation for Innovation (CFI) and the Ontario Innovation Trust (OIT), together with support from partners including the Ontario Ministry of Natural Resources (OMNR). The centre provides a range of DNA services, from automated DNA extractions to DNA profiling and sequencing, to Trent faculty and students and researchers at other universities, government scientists, and the private sector. The infrastructure includes the Wildlife DNA Forensic Laboratory that provides forensic services for a number of provincial, national, and international agencies including the OMNR, Parks Canada, the Department of Fisheries and Oceans, Environment Canada, the US Fish and Wildlife Service, and the US National Marine Fisheries Service. It also houses an ancient DNA laboratory for the analysis of historical DNA samples and a Biohazard level III containment facility for research on wildlife diseases like rabies and Lyme disease. The genomics and automation facilities contain a Roche 454 GS Junior next generation sequencer, 2 ABI 3730 sequencers, 4 automated liquid handlers, automated storage freezers, and thermal cyclers, including ABI real-time instruments. Ongoing NRDPFC genomic projects include those focused on conservation of threatened and endangered species such as the North Atlantic right whale, woodland caribou, wolverine, and badger, together with the genomic analysis of dairy goats and applications of genomics to food traceability genotoxin analysis.
Trent Biomaterials Research Program & Laboratory

trentu.ca/tcbr

Contact: S. Narine, Physics & Astronomy, Chemistry

Work within the TCBR is centred on creating sustainable materials from agricultural feedstock. The focus is not only on the development of the specific materials, but also on the development of models for agricultural utilization, and on assessments of geographical, environmental, and commercial impacts. This is a research program where science meets social science and humanities, and where the creation and use of biomaterials is being examined within an ethical framework. One of only a handful of programs of its kind in the world, the TCBR is a leader in this life-changing approach to research. The TCBR's unique interdisciplinary nature examines the full spectrum of the biomaterials endeavour, from the crop to the development of bio-based products and the implications of their use. State-of-the-art laboratories consisting of 15,000 square feet of space are spread over four distinct laboratory groups. Each group examines a particular consideration of biomaterials. This design, combined with Trent’s remarkable facilities and equipment, positions the TCBR as a world leader in the development and study of biomaterials.

Trent Centre for Aging & Society

trentu.ca/aging

Contact: S. Chivers, English Literature

The Trent Centre for Aging & Society promotes excellence in interdisciplinary research on aging and old age that is critically-informed, challenges ageist policies and practices, and is responsive to the issues facing older people and aging communities across Canada and internationally. Its mandate is to cultivate new areas of scholarship in aging studies, to enhance the study of aging and old age within Trent’s graduate and undergraduate programs, and to foster community engagement via research collaborations, public seminars, and continuing education courses in the Peterborough region. It supports faculty research in the social sciences, humanities, and health studies, coordinates the Collaborative Specialization in Aging Studies graduate program, and sponsors undergraduate community-based education projects, graduate scholarships, postdoctoral fellowships, a visiting speaker series, international conferences, and public events such as the annual Peterborough Seniors Summit. The centre brings together Trent faculty, visiting scholars, students, and community members interested in aging from a critical perspective.

Trent Centre for Materials Research

trentu.ca/tcmr

Contact: A. J. Vreugdenhil, Chemistry

The Trent Centre for Materials Research fosters research at Trent leading to an improved understanding of the properties of materials of potential benefit to industry, and the training of highly qualified personnel in these areas. To do this, the centre brings together Trent faculty with research interests in applied materials research, currently in the departments of Chemistry and Physics & Astronomy. Its goals are to improve communications and cross-fertilization of research among the faculty and their graduate students, develop research collaborations, and expose all of the participants to a broad spectrum of research, both experimental and theoretical, in the materials area. The centre holds research seminars as part of, and in addition to, the weekly Physics/Chemistry seminar series.
Trent Centre for the Critical Study of Global Power & Politics

Contact: A. Pickel, Political Studies

trentu.ca/globalpolitics

The Centre for the Critical Study of Global Power & Politics provides a focal point for faculty, students, and external members; hosts speakers and events; holds workshops; and runs topical working groups. The centre publishes scholarly papers, discussion papers, and political position papers on various dimensions of global power and politics. It considers itself critical above all in the sense of “questioning the pretensions of organized power” (Harold Innis). At the centre we use an interdisciplinary political economy approach to explore the relationship between states and markets, or power and wealth, as well as how these relationships interact with environmental issues, spatial and historical contexts, social hierarchies, and cultures and identities. In this age of “globalization,” we are particularly interested in research that calls into question the traditional separation between the political economy of domestic/national contexts and that of the international/global realm. The centre strongly encourages student participation in its activities.

Trent University Archaeological Research Centre

trentu.ca/tuarc

Contact: E. Morin, Anthropology

The Trent University Archaeological Research Centre (TUARC) is dedicated to the investigation and understanding of the human past through the study of material culture, skeletal remains, and ecological and environmental data. TUARC works to educate students and interested community members in past human societies, and it facilitates collaboration among professional archaeologists, researchers, graduate students, and volunteers in the Peterborough region. Research facilities include specialized laboratories for archaeoinformatics (including Geographical Information Systems, remote sensing, and quantitative and spatial analysis), human osteology, isotope geochemistry, palaeo-DNA studies, use wear analysis, and zooarchaeology, as well as the archaeologies of the Mediterranean, Mesoamerica, Ontario, and South and Southeast Asia. TUARC sponsors workshops and special courses on archaeology, assists with the publication of the findings of associated scholars, organizes public lectures on recent archaeological discoveries and advances, and maintains a resource room and library. TUARC also works closely with Trent’s graduate program in Anthropology, providing collaborative research grants and a forum for graduate students and professional archaeologists to meet and discuss current research in the discipline.

Water Quality Centre

trentu.ca/wqc

Contact: N. Emery, Interim Director, Office of Research and Innovation

The mission of the Trent University Water Quality Centre is to advance new approaches to environmental analyses and to train graduate and undergraduate students on mass spectrometry techniques. The Centre can analyze almost any type of sample, including those from: water, soil, sediment, tissue, and air. We develop and refine techniques to the point where they can be disseminated to, and used by, researchers, including students, and faculty, or those from industry, government agencies, and analytical service providers. The Centre is available to provide specialized analytical services to internal (Trent) and external clients who need to deal with emerging environmental issues in a timely and cost-effective fashion. To accomplish this, the Centre welcomes opportunities to form strategic partnerships with individuals and groups from industry, government, and NGO sectors.
Admissions

trentu.ca/futurestudents

Trent University welcomes applications from Canadian and international students. Acceptance of an Offer of Admission is required before students may register in courses. The same admission requirements, application and registration procedures, and deadlines apply at all Trent University locations. Applicants are advised that programs may require a higher academic average than the published minimum.

Protection of Privacy

Trent University values the protection of privacy and all information for admission purposes is collected under the authority of The Trent University Act, 1962-63 and the Ontario Freedom of Information and Protection of Privacy Act, 1988. For more information, please see p. 4.

Admission Requirements

These admission requirements have been approved by the University Senate. Authority for interpretation of the regulations rests with the Admissions Office. The University has the right to accept or reject any applicant.

Minimum Admission Requirements

All percentages stated in these admission requirements are based on a pass mark of 50%. For schools and colleges operating on a pass mark other than 50%, the percentage required for admission is adjusted.

The minimum admission requirements outlined are for general admission to the Faculty of Arts & Science at the University. Some programs have additional assessment criteria.

English Proficiency Requirements

English is the normal language of instruction and communication at Trent University; therefore, an applicant whose primary language is not English, or whose previous education has been conducted in another language, must demonstrate a command of English sufficient to meet the demands of classroom instruction, written assignments, and participation in tutorials and discussions.

The following factors will be taken into account in assessing an applicant’s facility in the English language:
• the primary language of the applicant ordinarily spoken in the home and in the workplace;
• the duration of study and the language of instruction in secondary and post-secondary educational institutions;
• the results obtained in any academic secondary and/or post-secondary courses in which a high standard of English is required; and
• the results of English language proficiency tests.
Applicants who are determined by the University to have insufficient experience or skills in written and spoken English will be required to achieve a satisfactory score from one of the following English language testing services:

- **TOEFL (Test of English as a Foreign Language):** The minimum acceptable score for regular admission is 86 IBT, or 580 PBT with a minimum TWE score of 4.5 (but see gradual admission below).

- **CAEL (Carleton English Language Test):** The minimum acceptable score is 60, with at least 60 in Writing Proficiency (but see gradual admission below).

- **MELAB (Michigan English Language Assessment Battery):** The minimum acceptable score is 85, with no part below 80 (but see gradual admission below).

- **IELTS (International English Language Testing Services):** The minimum acceptable score is 6.5, with no band lower than 6 (but see gradual admission below).
  
  – **Pearson PTE Academic:** The minimum acceptable score is 59.

Applicants who have results from recognized Canadian university English language testing services may submit their results for consideration.

Please note that Trent University reserves the right to request English language proficiency results from any applicant. Applicants with TOEFL (or equivalent) scores below the acceptable minimums are invited to apply for gradual admission through Trent-ESL: English for University program (see Trent International, p. 428).

### The University’s Right to Deny Admission
Meeting the minimum requirements does not guarantee admission to any course, program, or department at the University. Enrolment is limited and the University will select the most qualified candidates for admission. The University reserves the right to deny admission to any candidate. The University also reserves the right to refuse readmission to candidates who have not achieved an acceptable academic standing.

### The University’s Right to Offer Part-Time Admission to Full-Time Applicants
The University reserves the right to offer part-time admission to applicants for full-time studies.

### Applicants with Extenuating Circumstances
Applicants who do not meet the University’s published admission requirements are invited to submit an Extenuating Circumstances Supplemental Application form that can be found under the Academics tab on the MyTrent portal.

### Mature Applicants
Applicants who are 21 years of age at the time classes commence, who have been out of a full-time educational institution for at least two years, and who are not eligible for admission consideration under the published admission requirements, may apply as mature applicants. Applicants are required to submit a Mature Student Supplementary Application form that can be found under the Academics tab on the MyTrent portal. Applicants may be asked to provide further information and/or be available for an admission interview.
Admissions from Secondary School Systems

Canadian Secondary Schools
Please review the chart on p. 455 for a detailed description of minimum requirements and prerequisites for admission from a Canadian secondary school.

Concurrent Trent/Grade 12 Course Registration
Students studying under the university stream curriculum in their final year of secondary school who have high marks may apply to complete coursework at Trent concurrent with their completion of grade 12 courses. Students are required to have marks consistently in the A/A+ range and must obtain written permission from the principal of their school. All applicants must be approved by the Office of Admissions.

International Baccalaureate (IB) program
All applicants who have completed the International Baccalaureate Diploma with a minimum overall score of 26, including at least three courses at the Higher Level, will be considered for admission. English at a Higher or Standard Level is required. Advanced standing and transfer credit will be granted for Higher Level subjects passed with a grade of five (5) or higher. The maximum credit that will be awarded from an IB Diploma is 5.0 credits (one year of full-time study). Please refer to section on Transfer Credits (p. 464).

General Certificate of Education (GCE)
All applicants who have completed the General Certificate of Education (or equivalent) under the British system of education are required to pass at least five Ordinary Level subjects and two Advanced Level subjects with grades of C or better, or at least four Ordinary Level subjects and three Advanced Level subjects with grades of C or better. Two Advanced Subsidiary subjects may be substituted for one Advanced Level subject. A grade of C or better in O-Level English is required to satisfy the English proficiency requirement. Advanced level subjects with grades of C or better will be considered for advanced standing or transfer credit, to a maximum of 5.0 credits (one year of full-time study).

American Secondary School Systems
All applicants who have completed a US secondary school diploma with a minimum GPA of 3.0 on a 4-point scale (or B average or 85%) in an academic program from a recognized institution will be eligible for consideration. A minimum of 70% in Grade 12 English is required. At least 4 different subjects at the matriculation level must be included. SAT or ACT scores are optional for students completing a US secondary school diploma.

Other International Systems
Students studying outside Canada who have achieved admission levels for universities in their own country will be considered for admission on an individual basis. For information regarding country-specific admission requirements visit trentu.ca/international.

Canadian Secondary School Admission Requirements
Students must successfully complete the requirements for secondary school graduation.
- A minimum average of 70% on courses considered for admission is required for admission to Trent University.
- A minimum grade of 60% must be obtained in English. Scholarships are awarded with a minimum academic average of 80%.

**Teacher Education Stream**
ALL PROVINCES—Students will fulfill requirements for a BA or BSc. Applicants are required to meet admission requirements for both the Education program and the Faculty of Arts & Science. A minimum average of 75% on courses considered for admission is required.

**Bachelor of Environmental Science/Studies**
A minimum average of 75% on courses considered for admission is required.

**Bachelor of Arts and Science**
A minimum average of 75% on courses considered for admission is required.

**Bachelor of Business Administration**
Math 30-1 or Math 30-2
Math 12

**Biomedical Science**
Biology 30; Chemistry 30; Physics 30; Math 30-2
Biology 12; Chemistry 12; Physics 12; Math 12

**Chemical Engineering/Chemistry**
Chemistry 30; Physics 30; Math 30-1, or Math 30-2
Chemistry 12; Physics 12; Math 12
A minimum average of 80% on courses considered for admission is required.

**Computing Systems Co-op**
Math 30-1 or Math 30-2
Math 12
A minimum average of 80% on courses considered for admission is required. Applicants must also submit the Computing Systems Co-op Applicant Essay.

**Conservation Biology**
Biology 30; Chemistry 30; Math 30-1, or Math 30-2
Biology 12; Chemistry 12; Math 12
A minimum average of 75% on courses considered for admission is required.

**Environmental Geoscience**
Chemistry 30; Math 30-1, or Math 30-2
Chemistry 12; Math 12
A minimum average of 75% on courses considered for admission is required.

**Forensic Science**
Biology 30; Chemistry 30; Math 30-1 or Math 30-2
Biology 12; Chemistry 12; Math 12
A minimum average of 75% on courses considered for admission is required.

**Kinesiology**
Biology 30; Math 30-1 or Math 30-2
Biology 12; Math 12
A minimum average of 75% on courses considered for admission is required.

**Medical Professional Stream**
A minimum average of 80% on courses considered for admission is required. Applicants are also required to submit an Autobiographical Sketch

**Nursing**
Biology 30; Chemistry 30; Math 30-1, or Math 30-2
Biology 12; Chemistry 12; Math 12
A minimum average of 75% on courses considered for admission is required. Applicants must complete the CASPer test.

**Policing & Community Well-Being**
A minimum average of 75% on courses considered for admission is required.

---

* Students applying to the BSc in Nursing, BSc in Forensic Science, B.Sc. in Conservation Biology or BSc in Environmental Geoscience should be aware that their prerequisite course grades will be used as part of the admission calculations.

Admissions from Post-secondary Institutions

Canadian Universities
Students applying from another accredited university will be considered for admission following at least one semester of study with a minimum 65% average (2.0 GPA on a scale of 4.0). Admission consideration is based on a student’s overall academic background including secondary school results. Applicants are advised they will normally require a higher academic average than the published minimum. Up to 10.0 credits (the equivalent of two years of full-time study) may be transferred toward an undergraduate degree program for courses completed with a minimum of 60% (see Transfer Credits, p. 464).

Students holding a first degree may be admitted to undertake a second undergraduate degree. Those with first degrees from universities may be admitted with a minimum average of 65% (2.0 GPA on a scale of 4.0) and may receive up to 10.0 credits toward a second undergraduate degree. Please refer to the Second Degree section on p. 485 for further information about second degrees. Anyone may also apply for individual courses for general interest, or to upgrade to an Honours degree for application to graduate school. Students serving a term of academic suspension or academic debarment at an accredited Canadian university will normally not be eligible for entrance consideration during the period of suspension or debarment.

Canadian Community Colleges
Students applying from a community college situated in Canada will be considered for admission following at least one semester of study with a minimum 65% average (2.0 GPA on a scale of 4.0). Admission consideration is based on a student’s overall academic background including secondary school results. Enrolment is limited and the University will select the most qualified candidates for admission. Transfer credit to a maximum of 10.0 credits may be granted based on overall academic background, length of program, and on the recommendations of the appropriate departments at Trent University.

Ontario Colleges of Applied Arts and Technology (CAAT)
Students applying from a College of Applied Arts and Technology (CAAT) will be considered for admission upon completion of at least one semester of full-time study in an acceptable diploma program with an overall average of 65% (2.0 GPA on a scale of 4.0) or better. Enrolment is limited and the University will select the most qualified candidates for admission. Transfer credit to a maximum of 10.0 credits may be granted based on overall academic background, length of program, and on the recommendations of the appropriate departments at Trent University.

Quebec Applicants from CEGEP
Students applying from CEGEP are required to present at least 12 academic courses. A minimum overall average of 65% is required. The admission average is based on all academic courses completed for credit. Failed courses will be taken into consideration in determining admission. Enrolment is limited and the University will select the most qualified candidates for admission. Students who have successfully completed two years of full-time study at CEGEP may be eligible for transfer credit to a maximum of 5.0 credits (equivalent to one year of full-time study), depending on the overall academic average or the recommendations of the appropriate departments at Trent University.

Foreign Post-secondary Institutions
Students applying from an accredited university degree, college diploma, or associate degree program outside Canada will be considered for admission following the completion of at least one semester of study. Admission consideration is based on the student’s overall academic background including secondary school results. Academic averages required will depend on the academic system. Enrolment is limited and the University will select the most qualified candidates for admission. Transfer credit to a maximum of 10.0 credits (the equivalent of two years of full-time study) may be granted depending on course content and marks. Applicants holding a first degree may be
admitted to undergraduate studies to undertake a second undergraduate degree. Applicants may not undertake a second degree in the same major or minor as their first degree. They may, however, apply to upgrade from a three-year degree to a four-year Honours degree in the same major as their first degree. Applicants may also apply for individual courses for general interest.

**Visiting (Non-degree) Students**

Students wishing to enrol in courses at Trent University for a particular academic session but who are not pursuing a formal Trent University credential (i.e., degree, diploma, or certificate) are defined as Visiting (Non-degree) students. All Visiting students are required to follow the usual admissions procedures and are expected to meet the same admission requirements as degree students at Trent University. Visiting students are not evaluated for transfer credit.

Letter of Permission students are Visiting Students who are intending their Trent coursework to be applied to a credential at another accredited post-secondary institution. In addition to meeting the requirements above, students applying to Trent University on Letter of Permission must also submit an official Letter of Permission from their home institutions. An offer of admission does not guarantee registration in the courses indicated on the Letter of Permission. Students may be required to obtain permission from appropriate academic departments.

Special Students are Visiting Students who are not intending their Trent coursework to be applied to a credential at any other accredited post-secondary institution.

**Readmission**

Readmission refers to the process by which former Trent University students apply to return to their studies. For a full overview of readmission procedures visit [trentu.ca/readmit](http://trentu.ca/readmit).

I. Students in any of the following situations must complete an application in order to be considered for readmission to Trent University (further information on the application process can be found at: trentu.ca/futurestudents/undergraduate/requirements/former-trent-student

1. students who have attended another post-secondary institution after leaving Trent University voluntarily; or
2. students who have been required to leave the University for academic reasons.

(Studies completed at another post-secondary institution during a term of suspension may be considered as a basis for readmission to the University but may not necessarily be considered for transfer credit.)

II. Students in any of the following situations, who left Trent University voluntarily, and who have not attended another post-secondary institution, can return to studies by contacting Enrolment Services in the Office of the Registrar:

1. students in good standing;
2. students on probation;
3. students who have graduated; or
4. students who have completed an undergraduate degree at Trent University and who have gone on to complete graduate-level studies.

III. Students who left Trent due to an academic dishonesty suspension must contact Enrolment Services in the Office of the Registrar for next steps on returning to Trent.

**Involuntary Withdrawal**

If students are required by the University to sit out for an academic year (or more) for non-academic reasons, they are considered to have withdrawn involuntarily from the University (see the full policy in the Policy Library on the Trent website). The University reserves the right to apply additional criteria for readmission after an involuntary withdrawal which include but are not limited to: a reduced course load, regular contact with an academic advisor, ongoing counselling, or behavioural contracts.
(depending upon the specific nature of the involuntary withdrawal). Readmission procedures are stipulated in the letter from the University that such students receive at the time the involuntary withdrawal is imposed. Students suspended for non-academic reasons who wish to return to their studies are encouraged to contact their academic advisor.

**Transfer Credits**

Transfer credit refers to the course equivalencies granted towards a program of study based on acceptable academic degree-level or diploma-level coursework from an accredited post-secondary institution. Advanced standing and transfer credit may also be granted for some standardized advanced secondary school programs (see Admissions from Secondary School Systems on p. 455 for details).

Trent University subscribes to the Council of Ontario Universities’ policy on the transfer of course credit and supports the intent of the Pan-Canadian Protocol on the Transferability of University Credits.

**Trent University Transfer Credit Policy**

1. Courses from accredited universities are considered for transfer credit when successfully completed with a grade of 60% or higher. Courses from accredited colleges and institutions of technology may be considered for transfer credit when completed with a grade of 70% or higher.

2. A grade of “P” (pass) is assigned to all transfer credits; therefore, transfer credits will not be used in determining the student’s cumulative Grade Point Average at Trent University (see Academic Status on p. 477).

3. Transfer credit is designated in three different ways:
   I. Assigned credit is used when there is a Trent University equivalent.
   II. Unassigned credit in a subject area is used for courses without Trent University equivalents, but which are acceptable to a department as fulfilling subject requirements toward a degree in that department. Individual departments may restrict the number of unassigned credits that may be counted toward a degree in that department.
   III. General elective credit is used for courses which are judged to be transferable but do not fulfill specific departmental requirements. General elective credits are expressed in terms of arts elective or science elective courses.

4. The total number of non-Trent credits (either transfer credits or credits taken on Letter of Permission) may not exceed 10.0 for an Honours degree and 7.5 for a General degree. Specific degree requirements may mean that not all transfer credits awarded are applicable to a degree program.

5. If a student transfers to a different degree program, the transfer credits assigned on admission may not all apply to the new degree program. It is the student’s responsibility to discuss their academic program requirements with an academic advisor and to notify the Office of the Registrar of any program changes.

6. Transfer credits are determined in accordance with the policies and regulations effective at the time the admission decision is made. Subsequent changes to policies and regulations will not affect a previously determined transfer credit assessment. Normally, once transfer credits have been awarded and applied to a student’s Trent academic record, they cannot be removed from that record. Requests for reassessment of transfer credits must be received by the Admissions Office in writing before the end of the first academic year of study in which the student is admitted.

7. Assignment of transfer credits for courses completed more than 10 years ago will be considered on an individual basis.
8. In cases where the grading scheme for a university or community college differs from Trent University's grading scheme, and a relevant grade translation is not provided with the official transcript, grades will be translated into the equivalent Trent University grades. Eligibility for admission and transfer credit will be assessed on the translated grades.

9. Trent University does not grant Prior Learning Assessment and Recognition (PLAR) credits. Credits granted by another institution on the basis of PLAR are not transferable to Trent University. In exceptional circumstances Challenge for Credit may be granted by the Office of the Registrar through designated preapproved Trent University agreements. Credits earned through Challenge for Credit may not be included in the minimum number of Trent credits required for a Trent degree. A maximum of 5.0 credits may be granted through Challenge for Credit.

10. Trent University reserves the right to assign or not to assign transfer credit.

Transfer Credit Eligibility by Jurisdiction

Canadian Universities
All university-level credit courses that have been completed at an accredited Canadian university, that are academic in content and in which a minimum grade of 60% has been achieved, will be recognized for credit at Trent University.

Canadian Community Colleges and Colleges of Applied Arts & Technology in Ontario
Admissible applicants who have completed at least one semester in a Canadian community college or an Ontario College of Applied Arts and Technology will be eligible for transfer credit consideration as follows:

i) Trent University has more than 60 Articulation Agreements and MOUs which outline specific required grades, transfer credits to be awarded, and degree completion requirements. The terms of an Articulation Agreement may supersede general transfer credit policy (see Degree Completion Programs, p. 433).

ii) Outside of an Articulation Agreement, individual courses and programs which are academic in nature will be considered for transfer credit. A minimum grade of 70% is required in any community college course to be considered for course-by-course transfer credit assessment.

iii) As a general guide, graduates of a two-year highly academic college program can expect to receive up to 5.0 transfer credits. Graduates of a three-year highly academic program can expect to receive up to 7.5 credits.

Religious Institutions
Students who have completed a three- or four-year program at an institution accredited by the Association for Biblical Higher Education (ABHE) may be granted transfer credit for academic courses in which a minimum grade of 70% has been attained.

CEGEP
Students who have successfully completed two years of full-time study at CEGEP may be eligible for transfer credit to a maximum of 5.0 credits (equivalent to one year of full-time study), depending on the overall academic average and the recommendations of the appropriate departments at Trent University.

International Baccalaureate (IB)
Advanced standing and transfer credit will be granted for higher level subjects passed with a grade of five (5) or higher. The maximum credit that will be awarded from an IB Diploma is 5.0 credits (one year of full-time study).
Advanced Placement (AP) Program
All applicants who have completed Advanced Placement courses from the College Board are required to submit their examination results for evaluation. Advanced standing or transfer credit will be granted for most Advanced Placement courses with examination grades of four (4) or better, to a maximum of 5.0 credits (one full year of study).

Private or Career Colleges
Although many private/career colleges are registered with the Ministry of Education, most offer specific applied (non-academic) career training. Trent University does not grant transfer credit for programs completed at private/career colleges.

Universities and Colleges outside of Canada
For students admitted to Trent University from an accredited university degree, college diploma, or associate degree program outside of Canada, a maximum of 10.0 transfer credits (the equivalent of two years of full-time study) may be granted depending on course content and grades. Students transferring to Trent from institutions outside of Canada are encouraged to submit detailed course descriptions or a course calendar of the institution at which they studied.

Application Procedures

Application Process for Full- and Part-Time Studies
Early application is always encouraged. Please visit trentu.ca/apply for information regarding appropriate application procedures for all sessions and deadlines.

Definition of Full-Time and Part-Time Course Load
Any student taking 3.5 credits or more in the Fall/Winter session will be considered a full-time student. The maximum number of credits a part-time student may earn in the Fall/Winter session is 3.0. The maximum number of credits a part-time student may earn in either the Fall term or the Winter term is 1.5. See p. 471 for more information on course credits.

Application to Diploma Programs
Trent University offers diploma programs in Canadian Studies, Foundations of Indigenous Learning, and Indigenous Environmental Studies & Sciences. Further information regarding application procedures, requirements, and deadlines is included in the Academic Programs section of this Calendar.

Application to Joint Programs with Fleming College
Trent University participates in several joint programs with Fleming College:
- Application for the Option in Geographical Information Systems (see p. 407), and Certificate in Sustainable Agriculture (see p. 373) must be made to Fleming College through the Ontario College Application Service (OCAS), upon approval from the associated department at Trent University.
- Application for the Bachelor of Science in Nursing (BScN) must be made through the Ontario Universities’ Application Centre (OUAC). For further information regarding application procedures, see Nursing (p. 305).
- Progression requirements for students enrolled in the Ecological Restoration Program at Fleming College can be found on p. 136.
Documentation
All documents must be official; in those instances where official documents in English are not available, certified translations will be required and should accompany the official document. Documents submitted with an application become the property of the University and will not be returned.

The following documents will be required for the processing of applications for admission:

Admissions from Secondary Institutions
• an official copy of the appropriate secondary school transcript;
• official reports of any standard tests written (e.g., TOEFL, CAEL, MELAB, IELTS, AP, SAT).

Admissions from Post-secondary Institutions
• official transcripts from all post-secondary institutions attended, whether or not the work was completed;
• official reports of any standard tests written (e.g., TOEFL, CAEL, MELAB, IELTS, AP, SAT);
• an official copy of the appropriate secondary school transcript may be requested after receipt of application.

Retention of Documents
The documents which support an application for admission will be retained in a student file upon commencement of studies at Trent University. Supporting documentation for applicants who do not register for Trent University courses during the term to which they applied will be retained for 12 months following that initial academic term. After that period, application forms, transcripts, and other materials related to an application will be destroyed.

Prerequisites for First-Year Courses
Students enrolled in BA or BSc programs (excluding Arts & Science, Biomedical Science, Business, Environmental Science/Studies, Forensic Science, Kinesiology, Nursing, or Social Work) do not have to declare their major until the end of their first year of study. Individuals who wish to take courses leading to majors in Biology, Chemistry, Mathematics, or Physics must ensure that they have the appropriate secondary school prerequisites.

Notes
• Students applying to the BSc in Nursing program should be aware that there are non-academic requirements that must be completed before registration. For details see p. 306.
Registration Procedures

Fall/Winter Session—Continuing Students (Full-Time and Part-Time)

Students normally register for Fall/Winter courses in June. Students may register on myTrent, with their entrance to the system governed by the number of credits completed by the end of the previous Fall/Winter session. Students who know that they will be unable to access myTrent from a remote location may fill out a course preference form available through the Office of the Registrar; this form must be returned to the Office of the Registrar before the end of May. On the form, students will list the courses in which they wish to register. The student will be registered by a staff member when the student would have normally had access to myTrent.

Fall/Winter courses are offered in both Peterborough and Durham, and online; locations of the courses are listed in the academic timetable on myTrent.

Summer Session—Continuing Students (Full-Time and Part-Time)

Students normally register for Summer session courses in February through myTrent. Summer session courses are offered in both Peterborough and Durham, and online. Details are available at trentu.ca/summer.

New Part-Time Students

Students new to university study, as well as transfer and readmit students, will be provided with instructions on how to register using the web-based registration system. Students are required to finalize their course selection and submit any changes by the published due date.

Official Registration

Official registration is complete when the student has registered in courses and forwarded the appropriate fee payment (or evidence of external financial support) to Student Accounts. Failure to complete this requirement by the University’s published fee payment deadline will result in cancellation of all registration in courses and college residence assignments.

Students who have had their registration cancelled and wish to continue their studies must contact the Office of the Registrar for details on how to proceed with registration. Payment of fees or deposits related to tuition or residence does not excuse a student from compliance with deadlines or other procedures related to registration. Attending courses does not constitute official registration; students are required to register in courses using myTrent and to submit the appropriate tuition fees by the required due date. Students who have not registered by the due date will not receive a mark for the work completed and will not receive credit for the course.

Changing From Part-Time to Full-Time Studies

Students admitted on a part-time basis who wish to transfer to full-time status for the next Fall/Winter session must submit a request via myTrent by the required date. The Office of the Registrar considers all applications following review of final marks in May. Notifications are e-mailed to students in mid-June. The minimum requirements to transfer to full-time studies are: a current academic status of Good Standing, 3.0 or more Trent credits completed with a grade of 50% or higher, and a cumulative average of 60% or higher. Possession of the minimum requirements does not guarantee admission to full-time studies.
Changes, Withdrawals, Refunds
Once a student has registered in a course, a final grade will be assigned for that course unless the student withdraws from the course before the published deadline for withdrawal. The deadlines for dropping, adding, and withdrawing from courses are listed in the Important Dates (p. 8) section of this Calendar. Students may be de-registered automatically from courses where the prerequisite standing has not been achieved.

Changes to Registration
Students wishing to drop or add courses must do so through myTrent before the drop and add deadlines.

Withdrawal from the University
Students wishing to withdraw from their studies at Trent University must fill out a Withdrawal Form, available online through myTrent. Trent International students must contact the Trent International office prior to completing the withdrawal form online. Students are encouraged to discuss their decision with an administrative staff person (college head, academic advisor, or Trent International advisor). Students with student loans or scholarships are advised to consult the Financial Aid Office regarding any financial implications prior to withdrawal. Students will not be considered withdrawn, and any refunding of fees will not occur, until the Withdrawal Form has been submitted online. Students living in residence will not be considered to be withdrawn from the University until their residence keys have been returned to the Housing Services Office. Note that students may temporarily withdraw from their studies for a period of up to 12 months without having to undergo the readmission process. Students who have questions about the procedures and regulatory implications of withdrawal from the University may contact the Office of the Registrar.

Refunds
Please refer to the Fees section of this Calendar (p. 497) for information on the refund policy and schedule.

Late Withdrawal from Courses and from the University
“Late withdrawal” is withdrawal from courses, or from the University, after the applicable deadline as listed in the Important Dates (p. 8) section of this Calendar. Students must petition for late withdrawal by completing the appropriate forms available at trentu.ca/academicpetitions. Petitions are considered by the Committee on Undergraduate Petitions (CUP).

Academic Year and Sessions
The academic year begins on September 1 and is divided into two “sessions”: the Fall/Winter session (normally beginning in September and ending in April) and the Summer session (normally beginning in May and ending in August). The Fall/Winter session contains full-year courses which are offered from September to April, Fall-term courses which are offered from September to December, and Winter-term courses which are offered from January to April. The Fall and Winter terms last for 12 weeks each, and contain a one-week reading break per term. The Summer session comprises one twelve-week term or two six-week terms.

The University offers field schools in Archaeology and field courses in Biology, Geography, and Indigenous Studies in the Summer session. Details of these courses are available from the departments concerned.
Academic Load and Course Overload
For many academic purposes, a student registered in 3.5 credits or more is considered “full-time” and in 3.0 credits or fewer as “part-time.” It is not, however, the same definition that may be used for other purposes and students are advised to check with the administrative office when determining their status.

Course overload for the Fall/Winter session is defined as enrolment in more than 2.5 credits (or equivalent) during the Fall term or the Winter term. Students enrolling in credits in addition to the normal full-time load are reminded that they are fully responsible for doing so and are cautioned against possible academic difficulties. Full-time students with an academic status of Good Standing may overload 0.5 credits in each of the Fall or Winter terms. Students with an academic status of Good Standing who wish to overload in more than 0.5 credits in the Fall or Winter terms must petition the Committee on Undergraduate Petitions (CUP) for approval of course overload. Students who do not have an academic status of Good Standing must petition to the Committee on Undergraduate Petitions for permission to overload.

Course overload for the Summer session: A full load in a six-week summer term is 1.0 credit. Students with an academic status of Good Standing may enrol in up to 1.5 credits in each six-week term. Students wishing to take more than 1.5 credits in a six-week term must submit a petition to the Committee on Undergraduate Petitions.

Notes:
• The maximums do not apply where a program’s planned curriculum requires that students take an additional load.
• Upon registration, students are responsible for making themselves aware of the academic and financial obligations and deadlines associated with each course.

Access to Instruction
It is Trent University’s intent to create an inclusive learning environment. If a student has a disability and documentation from a regulated health care practitioner and feels that they may need accommodations to succeed in a course, the student should contact the Student Accessibility Services Office (p. 519) at the respective campus as soon as possible. Disabilities include (but are not limited to) physical, sensory, medical, psychological, and learning disabilities.

To allow students with disabilities to participate actively and freely in courses, every reasonable effort will be made to provide appropriate accommodations as outlined by the Student Accessibility Services Office. A student’s desire for anonymity is of utmost importance and confidentiality will be respected.

myTrent
The Trent online portal, also known as myTrent, contains important information and resources for students, faculty, staff, and alumni. Various administrative services are provided online and it is a hub for news about the Trent community. MyTrent supplies access to the academic record, Trent email accounts, student financial accounts, the Blackboard Learning System, and online forms (e.g., transcript requests, declaring majors, etc.). A student’s official contact information may be updated at any time through myTrent. Registration for courses takes place online and all related information (timetables and exam schedules) are housed on myTrent. The Student Accounts Office maintains the student account balance and payment history.
Change of Name
The Office of the Registrar is committed to the integrity of its student records. Each student is therefore required to provide a legal name on the application for admission and in personal data required for registration. Any requests to change a name, by means of alteration, deletion, substitution, or addition, must be accompanied by appropriate supporting documentation. Upon applying to graduate, a student may be asked to provide legal documentation as proof of legal name.

Change of Address
It is the student’s responsibility to maintain current and up-to-date mailing address, email, and contact information on the records of the University in order to receive pertinent mailings, including Tuition and Education Credit Certificates. Address changes and updates to contact information may be done through myTrent.

Email Accounts
At the time of first registration at the University, students are issued a Trent user ID and password and a Trent email account. The Trent email account is considered the official email account and will be the only email account used to communicate with students for academic and administrative purposes. Students are responsible for ensuring that they monitor and maintain their Trent email account and to ensure that email is accessed, read, and acted upon in a timely fashion. Students should be aware that emails from non-Trent accounts will not be considered official.

Course Numbering and Course Credits
Courses listed in this Calendar follow the form: SUBJ 1000. SUBJ refers to the department offering the course. The first digit refers to the level of the course.

Re-numberings
In 2010, the University completed the process of moving to a four-digit numbering system for all courses offered at the undergraduate level. Please consult course descriptions for new numberings. In editions of the Academic Calendar prior to 2016-17, the old three-digit course numbers appeared as exclusions. Wherever a course was required as a pre- or co-requisite, the old three-digit course numbers appeared in parentheses after the new four digit course numbers.

Cross-Listed Courses
Many courses are cross-listed; that is, they are offered jointly by two or more departments. Cross-listed courses may not be double-counted in order to fulfill degree requirements. For example, BIOL 1060H is cross-listed with PHYS 1060H; it may be counted for credit as a Biology course or as a Physics course but not as both.

Course Credit Value
Each course number is followed by a letter suffix which denotes the credit value of that course.

<table>
<thead>
<tr>
<th>Suffix</th>
<th>Credit Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>Q</td>
<td>0.25 credit (or quarter-credit)</td>
</tr>
<tr>
<td>H</td>
<td>0.5 credit (or half-credit)</td>
</tr>
<tr>
<td>Y</td>
<td>1.0 credit (or full-credit)</td>
</tr>
<tr>
<td>C</td>
<td>1.5 credits</td>
</tr>
<tr>
<td>D</td>
<td>2.0 credits</td>
</tr>
</tbody>
</table>
Course Syllabuses
Each course has a syllabus which includes the method of assessment and the grading scheme.

In some cases an instructor may judge that certain regulations are inappropriate for a particular course and may be granted a formal exemption from them by the appropriate dean (Humanities, Science, or Social Sciences). Any such exemptions will be noted in the course syllabus.

The instructor reviews the syllabus with the students at the first class in the course. Any change thereafter in the grading scheme must be agreed to in writing by all students present at a subsequent class; at the class immediately following that one, the revised section of the syllabus must be posted or otherwise communicated.

Assignment Deadline Policy
Assignments (excluding take-home exams) in Fall/Winter courses due after the last day of class and worth more than 10% of the final grade in the course must be provided to students no later than two weeks before the last day of class.

Student Contact Hours
A full-credit classroom course normally consists of three class contact hours each week for the Fall/Winter session (September to April) or 72 hours (36 hours for half-credit courses). Courses with a laboratory component will normally exceed three class contact hours per week. Summer session full- and half-credit courses represent the equivalent number of class contact hours within a shorter period of time.

Definition of Year
A student’s progress towards a degree is measured in terms of credits earned rather than years of study completed. Where it is necessary or helpful to equate credits earned with years of study, the following table may be used:

<table>
<thead>
<tr>
<th>Credits Completed</th>
<th>Year Equivalent</th>
</tr>
</thead>
<tbody>
<tr>
<td>4.5 or fewer credits</td>
<td>1</td>
</tr>
<tr>
<td>5.0 to 9.5 credits</td>
<td>2</td>
</tr>
<tr>
<td>10.0 to 14.5 credits</td>
<td>3</td>
</tr>
<tr>
<td>15.0 credits or more</td>
<td>4</td>
</tr>
</tbody>
</table>

Mid-year Marks
Mid-year marks for full-credit courses are available through myTrent in January to help students assess their academic performance; they do not represent official grades and do not appear on any formal document.
Formal Examination Period

Scheduling
With the exception of laboratory examinations in the sciences, no in-class tests or final examinations which are worth more than 10% of the final grade may be held during the last two weeks of classes in the Fall or Winter term. In the Summer session the period during which in-class tests and examinations may not be held is the last two weeks for twelve-week courses and the last week for six-week courses.

The examination schedule is designed to avoid conflicts and to ensure that no student writes more than twice within a calendar day. Note: a calendar day is defined as 00:00-24:00 for exam purposes. Students who have added courses after the examination schedule has been produced may be expected to write more than twice within a calendar day. In the case of take-home examinations or tests, the instructor assigns a submission date that must occur before the end of the examination period.

The writing time allotted is the same for all students in a course (with the exception of students registered with Student Accessibility Services; see below).

Students who wish to observe cultural or religious holidays during an examination period must notify the Office of the Registrar in writing by the last day to add courses each term (refer to Important Dates, p. 8). If it is possible, scheduling will be adjusted to accommodate these dates. If it is not possible, students must submit a written request to their instructors for alternative arrangements, explaining the reason for the request and including supporting documentation.

Examinations and tests for students with disabilities who require disability-related supports (e.g., extra time or other assistance) are available. All requests must be made through Student Accessibility Services (p. 519) at least two weeks before the examination or test, and must be supported by appropriate documentation from a qualified health care diagnostician. Information regarding documentation guidelines is available at trentu.ca/sas.

Student Identification
Students must bring their Trent student cards to all examinations. Cards must be visible to the examination invigilator. Students who fail to produce a valid student card must report to the Office of the Dean of Arts & Science with their card by 1:00 pm on the next working day. Students whose names are not printed on an attendance list are not registered in the course. They must report to the Office of the Registrar by 1:00 pm on the next working day to clarify their status. Failure to do so will result in a grade of zero for the course.

Missed Examinations
Students who miss an examination for reasons beyond their control should consult with their instructor immediately. Alternate arrangements may be made at the instructor’s discretion provided that the student has supplied supporting documentation. If such arrangements are not possible, students may request aegrotat standing (see p. 477 for the requirements for aegrotat standing).

Unsatisfactory Examination Results
There are no supplemental examinations. The only options available to students who are dissatisfied with the result of an examination are to appeal the final grade in the course (see Appeals of Final Grades, p. 479) or to repeat the course (see Course Repeats, p. 475).

Student Access to Graded Examination Papers
Graded examination papers are the property of the University and are not intended to be available to students. They may be seen by students only if a formal appeal of a final grade has been unsuccessful (see Academic Appeals, p. 479). Requests to see an examination paper must be made in writing to the Office of the Registrar. There is a fee for each request.
Grades and Grading Schemes
Courses are graded on a percentage scale, except for courses taken under a pass/fail option. Averages are calculated using the percentage grade assigned to the student for each course.

### Numerical Equivalents of Letter Grades

The following grades may also be used, but do not affect a student's average:
- AUD—Audit
- CH—Challenge for Credit
- INC—Incomplete—has permission to complete
- INP—In Progress
- NCR—No Credit Granted
- NGR—No Grade Reported
- PRE—Pre-registered
- WDN—Withdrawn
- PASS
- FAIL

The following grades may also be used and do affect a student's average:
- AG—Aegrotat Standing
- NTE—Nothing to Evaluate*

* In cases where a student has registered for a course, but did not attend and/or submit work for evaluation, a grade of NTE (Nothing to Evaluate) will be assigned. The NTE grade carries the percentage value of zero and will be used in Assessment of Academic Standing (p. 477).
Auditing Courses
A student may register to audit certain courses at Trent University. Permission of the instructor is required; it is the student’s responsibility to obtain permission from the course instructor to audit. Not all courses can be audited. Courses taken for audit will not count for credit towards the student’s degree program, nor will the student be allowed to write final examinations or receive grades for courses which are audited. Courses which are audited will be recorded on the student’s transcript and the term “AUD” will appear in lieu of a grade. Audit courses are not considered in calculating full-time or part-time status; audit courses will be considered for overload criteria.

Grading Criteria
The final grade in a course is based on at least some of the following criteria: in-term oral and written work, in-term or mid-year tests or examinations, final examinations, practica, and community-based projects. Normally, at least 25% of the grade in an undergraduate half-credit course offered in the Fall/Winter academic session must be determined and made available by the final date for withdrawal. For full-year undergraduate courses, at least 25% of the grade must normally be determined and made available before the mid-year review in January.

No final examination is worth more than 50% of the final grade. Instructors are encouraged not to base final grades entirely on tests and examinations.

Course Repeats
Students may repeat a course twice (three completions in total when the original attempt is included). This includes course equivalents attempted on a Letter of Permission at another institution. All attempts will appear on the students’ academic records, but no more than one attempt will be assigned credit. The attempt with the highest grade will be used to determine the cumulative average.

Students enrolled in the Trent/Fleming School of Nursing program will only be allowed to repeat one Nursing theory course to raise their grade to 60% or higher and one Nursing practice course to obtain a pass.

Official Final Grades
Final grades are official 30 days after they have been released by the Office of the Registrar. If errors in the calculation or recording of grades come to light after the grades have been released, all affected grades may be recalculated and raised or lowered with the approval of the appropriate dean. This process must be completed, and corrected transcripts must be issued, however, before the 30-day period has passed. Instructors and/or departments are not permitted to release final grades. Final examination marks can be released to students only after final grades have been released by the Office of the Registrar. There is no time limit to reopen a grade in a case of academic dishonesty.

Transcripts
Copies of official grade transcripts will be issued only at the written request of the student. In accordance with the Access to Student Record Policy, the student’s signature is required for the release of records. Transcripts may be ordered in person at the Office of the Registrar, by mail, or online through either myTrent or the Office of the Registrar website. A fee must be paid for each copy of a transcript. Transcripts will not be released for students who have an outstanding financial obligation to the University.

If someone other than the student is required to pick up the transcript, the student must give that person a signed authorization identifying the person and indicating that the person is authorized to pick up the transcript. Photo identification will be required.
Difficulties with Completion of Coursework

There are three options available to students who have difficulties with the completion of their coursework for reasons beyond their control: (1) if they cannot complete their coursework before the end of the academic session, they may request incomplete standing; (2) if they cannot write the final examination in the course, and arranging an alternate exam is not a reasonable option, they may request aegrotat standing; (3) if they wish to withdraw from the course altogether, but have missed the deadline for withdrawal without academic penalty, they may petition for late withdrawal. These three options are described in detail below.

1. Incomplete Standing

Incomplete standing permits students to prearrange with their instructor to submit any remaining work in a course by a specified date after the end of the academic session. Failure by students to organize their workload is not considered adequate grounds for incomplete standing. A petition for incomplete standing must be made to the instructor and approved by the chair before the department or program deadline (if there is one), but in any case before submission of final grades to the Office of the Registrar.

The instructor specifies the deadline for submission of outstanding work and the grade which will be assigned if the deadline is not met. The latest possible deadlines for the submission of outstanding grades are:

- September 20, 2019 for courses completed in the 2019 Summer session
- February 25, 2020 for courses completed in the 2019 Fall term
- June 17, 2020 for courses completed in the 2020 Winter term

2. Aegrotat Standing

Students may, if eligible, be exempt from writing the final examination in a course. A request for aegrotat standing must be made to the instructor as soon as the relevant circumstances are known and normally before the scheduled examination time. Supporting documentation must be provided. An aegrotat standing is granted only if the student has completed the required term work with a passing average. Aegrotat standing marks are determined using a calculated final examination mark for the student in question. The examination mark is calculated by adding to the student’s term mark the class final examination average minus the class term-work average.

3. Late Withdrawal

Late withdrawal may be granted to students who have missed the final date for withdrawal from courses but, for reasons judged to be compelling, have been unable to complete their coursework. A petition for late withdrawal is made to the Committee on Undergraduate Petitions through an academic advisor as soon as possible. The petition may be submitted up until the final deadline for late withdrawal 60 days after the start of the following academic term (which includes the summer term). If the petition is granted, the course will remain on the student’s transcript with a grade of WDN (meaning withdrawn).
Academic Status

Assessment Average
A student's academic status is determined by a session average and/or by a cumulative average (see below). The initial assessment average is calculated at the end of the academic session in which students have completed a minimum of three full-course equivalents for which grades have been assigned. Thereafter, the cumulative and session averages are calculated at the end of each academic session. Transfer credits are not included in the cumulative average or assessment average.

Session Average
The session average includes all courses in the current session (Fall/Winter or Summer) for which a grade has been assigned.

Cumulative Average
The cumulative average includes all courses for which a grade has been assigned and excludes lower grades of courses that have been repeated. Cumulative average is used for the purposes of determining a student’s eligibility to graduate and for the President’s and Dean’s Honour Rolls.

Categories of Academic Status
There are five categories of academic status: (1) Good Standing; (2) Probation; (3) Conditional Probation; (4) Academic Suspension; and (5) Suspension—Academic Dishonesty.

1. Good Standing
   Students are in Good Standing if their cumulative average is at least 60%.

2. Probation
   Students are placed on Probation if their cumulative average is 50–59.9% or if they are returning from Academic Suspension.
   Upon the next academic assessment, students will:
   a) continue on Probation if their cumulative average is 50–59.9% and their session average is above 49.9%;
   b) have their Probation lifted if their cumulative average is 60% or higher; or
   c) be placed on Academic Suspension (see below) if their cumulative average OR session average is less than 50%.

3. Conditional Probation
   Students who are accepted into the Fresh Start Program after being granted a petition against suspension by the Committee on Undergraduate Petitions will have an academic status of Conditional Probation for one calendar year. The student’s status will be reviewed at the conclusion of each session (August for Summer courses, May for Fall/Winter courses). Students must achieve a minimum session average of at least 50% for courses completed in the Summer session (if applicable) and the Fall/Winter session or Suspension will be re-imposed. If at the end of the Conditional Probation year the cumulative average is above 49.9% but less than 60%, Probation is in effect (see 2 above).

4. Academic Suspension
   Students are suspended from the University if their cumulative average is less than 50%.
   Students who had been on Probation are suspended if their session average OR their cumulative average is less than 50% upon the next academic assessment.
   - First Academic Suspension: Students are suspended from the University for one calendar year.
   - Second Academic Suspension: If a student is suspended a second time, the student will be suspended from the University for one calendar year (a second time).
• Debarment: If a student is suspended a third time, the student will be debarred from the University for a minimum of three calendar years.

For readmission to the University after a second Academic Suspension or Debarment, students must provide persuasive evidence that they are ready and able to complete a degree program (see Readmission, p. 463).

5. Suspension—Academic Dishonesty
Students may be placed on suspension by the dean for repeated violations of the Academic Integrity Policy (see Academic Integrity Policy, p. 486). Appeals of the dean’s decision should be made to the Special Appeals Committee. Students seeking clarification on the appeals process may consult an academic advisor or seek advice from faculty members. There is no time limit to reopen a grade in a case of academic dishonesty.

Continuing Post-secondary Studies during Academic or Non-academic Suspension
Students who are on suspension will not be awarded transfer credits for the duration of an academic or non-academic suspension from Trent University. Studies completed at another post-secondary institution during the term of suspension may be considered as a basis for readmission to the University, but will not be eligible for transfer credit consideration.

Procedures for Students on Academic Suspension
Students who are placed on academic suspension may, through an academic advisor, petition the Committee on Undergraduate Petitions to have their status reconsidered. If the petition is successful and they are accepted into the Fresh Start Program, they will have their academic standing changed to Conditional Probation. Fresh Start students will be permitted to continue their studies at a reduced course load under the supervision of their academic advisor for the Fall/Winter session immediately following placement on Academic Suspension. Students may enrol in the Fresh Start Program one time only. In some cases, the student may be allowed to return on Probation.
Academic Petitions and Appeals
Students may appeal grades which they have received, regulations which have caused them undue hardship, the penalty of academic suspension, and penalties for academic dishonesty. As a last resort, students may appeal the results of previous petitions or appeals through a special appeal.

Appeals of Grades on Term Work
Appeals of grades on term assignments and tests are made to the course instructor and subsequently, if necessary, to the chair of the department or program. Students are advised to familiarize themselves with the appeals policy of the department or program involved.

Appeals of Final Grades
Appeals of final grades are made in writing to the Office of the Registrar. There is a fee for each appeal, which is refunded if the grade is raised. The grade of a student who is making an appeal cannot be lowered as a result of that appeal.

Only the following work may be reassessed in appeals of final grades:
• term-work not returned to students before the submission of final grades to the Office of the Registrar; and
• final examinations.

The deadline to submit appeals of final grades is 60 days after the start of the following academic term. Students are informed of the results of appeals of final grades as soon as possible but, in any case, before the beginning of the next academic session after the appeal deadline.

Appeal for Academic Renewal
Academic renewal may be granted to students who are not eligible for late withdrawal, but for reasons judged to be compelling, are requesting to replace their grades in all courses (including those courses which were passed) in one or more academic terms with WDN (meaning withdrawn). No exceptions will be made. Students may not petition for academic renewal for any term in which there is an academic dishonesty transcript notation. For more details about the removal of transcript notations for academic dishonesty, see the Academic Integrity Policy (p. 486). To be eligible for academic renewal, students must have subsequently completed at least 4.0 Trent credits with a cumulative average of at least 60% in these courses.

A petition for academic renewal is made to the Committee on Undergraduate Petitions through an academic advisor. If the petition is granted, all courses will remain on the student’s transcript with a grade of WDN, and an academic renewal notation will be added to the transcript for that term. Courses with a grade of WDN carry no credit weight and will not be included in the calculation of cumulative average. These courses cannot be used as prerequisites or to fulfil program and/or university degree requirements. Students are only eligible for academic renewal once.

Appeals of Academic Regulations
Students who believe that specific academic regulations have imposed undue hardship on them may petition the application of the regulations to the Committee on Undergraduate Petitions through an academic advisor.

Special Appeals
If all other levels of appeals or petitions have been exhausted and have been unsuccessful, students may make an appeal to the Special Appeals Committee through the secretary of the committee. Such appeals must be made within four weeks of receipt of the previous ruling and must be in writing on the appropriate forms available from the Special Appeals website: trentu.ca/secretariat/specialappeals.php. All decisions of the Special Appeals Committee are final and take effect when issued.
Summary Table
The table below summarizes the procedures for petitions and appeals, indicating the appropriate situation for each (“why”), the persons responsible for dealing with them (“who”), and the deadlines for submission (“when”). It is intended only as a convenient summary. Before pursuing any of these options, students should consult the appropriate section of the Calendar where the official procedures and requirements are laid out in full.

Although the procedures outlined below have been designed to be as thorough as possible, there may be situations which are not adequately covered by any of them. In such cases, students are strongly advised to consult their instructor, the chair of their department or program, an academic advisor, or the appropriate dean.

Letters of Permission

Students registered in an undergraduate degree program at Trent University may, with certain conditions, be permitted to take undergraduate courses at other universities as credits towards their Trent University degree. Students must obtain a Letter of Permission from the Office of the Registrar prior to registering in courses at another university.

Only courses completed on a Letter of Permission with a minimum grade of 60% will receive credit at Trent University and will be recorded as a “Pass” on the student’s record. Courses completed with a grade between 50% and 59% will appear as “Pass - No Credit Granted (NCR)” on the student’s record and will carry a credit weight of zero. A failing grade (0%–49%) earned on a Letter of Permission course will appear as a “Fail” on the student’s record. Grades from courses completed on a Letter of Permission will not be included in the session or cumulative average. Courses taken on a Letter of Permission will count toward cumulative credit attempts.

To obtain a Letter of Permission, students must be in good academic standing and have an average of at least 60% on a minimum of 3.0 credits completed at Trent. Deadlines for Letter of Permission requests are listed in the Letter of Permission Guide found at: trentu.ca/registrar/records-registration/forms/letter-permission

For more details about study at foreign universities, see International Educational Opportunities p. 427).

Restrictions

• Students taking Summer courses at another post-secondary institution on a Letter of Permission may not attempt more than 2.0 credits.
• Registration in a Letter of Permission course must not put you in overload.
• No more than 5.0 credits may be completed on a Letter of Permission. (For transfer students this number may be lower, depending on how many transfer credits they have received.)
• The total number of non-Trent credits in an Honours program may not exceed 10.0. The total number of non-Trent credits in a General program may not exceed 7.5.
• 5.0 of the last 7.0 credits obtained by a candidate for a Trent University degree must be completed at Trent unless program notes stipulate otherwise.

Notes

• Students who obtain a Letter of Permission should register at the host university as a Visiting Student rather than as a student in a degree program. Students who register in a degree program will jeopardize their registration status at Trent and will need to apply for readmission. A Letter of Permission issued to a student who subsequently transfers to another post-secondary institution will be considered invalid.
• Students who are granted a Letter of Permission to complete the final course(s) of their program at another university during the Fall/Winter session and intend to graduate in the spring convocation must provide grades to the Office of the Registrar in the form of an official transcript by May 1 in order to ensure that their names appear in the convocation program and that their diplomas are printed for the day of the ceremony. Students who are granted a Letter of Permission to complete the final course(s) of their program at another university during the Summer session and intend to graduate in the Fall must submit an official transcript to the Office of the Registrar as soon as possible after completion of the course for inclusion in the next Convocation Roll to Senate.

Official Results of Letter of Permission

Courses approved for a Letter of Permission will appear on a student’s Trent University transcript with a status of INP (In Progress) at the time the Letter of Permission is issued. Students are required to make arrangements to have an official transcript forwarded to the Office of the Registrar upon completion of the course. Once the official transcript is received, the student’s record will be updated with the completed course(s) and grade(s).
• If an official transcript, or evidence of non-enrolment, is not forwarded to the Office of the Registrar within 60 calendar days of the end of the session specified in the Letter of Permission, a grade of Fail will be assigned.
• Transcripts forwarded in support of Admissions or Financial Aid will not be considered official for Letter of Permission completion.

Application Process for a Letter of Permission
There are different application procedures depending upon where the student wishes to study. Check the website for details: trentu.ca/letterofpermission.

</tbody>
</table>

Application Requirements
• Course syllabi for all courses being requested must accompany the application.
• Allow up to 10 working days for processing.
• A processing fee must be submitted with the completed application form—see the web page for details.
• Incomplete applications will be returned to the student unprocessed.

Graduation and Convocation
For students to graduate, Senate must confirm that they have successfully completed the academic requirements for their degree. Once students have graduated and are free of all financial obligations to the University, they are eligible to receive official transcripts, noting the successful completion of their degree, and to receive their degree or diploma.

In the year in which they intend to graduate, students must submit an Application to Graduate form to the Office of the Registrar through myTrent. The Office of the Registrar will assess whether the students are enrolled in the courses required to complete the academic requirements for their degree, and will inform the students by email of the result of this assessment. See the Important Dates section (p. 8) for deadlines.

Once grades have been processed, the names of all students who have successfully completed the academic requirements for their degree are submitted to Senate for approval. Only those students who have completed the academic requirements for their degree prior to convocation are allowed to participate in the convocation ceremony.

Students who have successfully completed the academic requirements for their degree, but who are not free of financial obligations to the University, may participate in the spring convocation ceremony but will not receive their degree or diploma until their financial obligations are met. Students who have successfully completed the academic requirements for their degree too late for the spring convocation ceremony will have their names submitted to the next appropriate meeting of Senate and receive their degree or diploma, provided they are free of all financial obligations to the University. Students may participate at the next spring convocation ceremony.

Once the degree, diploma or certificate is conferred, the undergraduate academic record will not be modified as a result of repeating, withdrawing from, or taking additional courses. Academic standing notations will not be removed. Final grades in courses completed during the final term of study may be appealed as per the Final Grade Appeal policy. Additional academic credentials such as minors, specializations, emphases, or options may not be added to a degree once it has
been conferred. In a circumstance in which an administrative error on the part of the University is discovered after a credential has been conferred, the error will be corrected as necessary.

This restriction does not preclude a student from pursuing an Honours degree after the completion of a General degree, or a second degree under the Second Degree Regulations (p. 485). Academic dishonesty transcript notations will be removed automatically five years after the notation has been placed on the transcript, or sooner with approval of the Vice-President (Academic) as per the Academic Integrity Policy (p. 486).

**Academic Distinctions**

**Medals**

The Governor General, President Symons, and Bagnani Medals are awarded each year at the spring convocation ceremony. No application is necessary; students are considered automatically under the criteria listed below. Winners of these medals will have this distinction noted on their official transcript.

**Governor General’s Medals**

The gold medal is awarded to the graduate student with the highest standing on graduation, and the silver medal is awarded to the student with the highest standing on graduation with an Honours degree.

**President Symons Medals**

Established in 1972 in honour of T. H. B. Symons, the founding president of Trent University. Awarded to students in the Honours program who achieve high overall standing on graduation.

**Professor Gilbert Bagnani Medals**

Established in 1986 to honour the late Professor Gilbert Bagnani, one of the founding faculty members of Trent University. Awarded to graduating students in the General program who achieve high overall standing.

**Dean’s Honour Roll**

All students who achieve an average of 80% or higher in their most recent session and have an overall cumulative average of 75% or higher will have their names placed on the Dean’s Honour Roll. This academic distinction will appear on the official transcript. The names of graduating students who are eligible for the Dean’s Honour Roll will be noted in the convocation program. Postgraduate program students do not qualify for the Dean’s Honour Roll (including those in certificate programs and the BEd professional years).

**President’s Honour Roll**

All graduating students who achieve an overall cumulative average of 80% or higher and who are in good academic standing at graduation will have their names placed on the President’s Honour Roll. This academic distinction will appear on the official transcript. The names of graduating students who are eligible for the President’s Honour Roll will be noted in the convocation program. Postgraduate program students do not qualify for the President’s Honour Roll (including those in certificate programs and the BEd professional years).
Second Degree

Admissions and General Requirements

- Students who hold a Trent undergraduate degree, or an undergraduate degree from another Canadian university, and wish to pursue a second degree must apply for admission to the second degree program (see trentu.ca/readmit).
- Students must normally satisfy the program requirements for the Calendar in effect at the time of their readmission to the University.
- A second degree is not available in all subject areas.
- Applicants will not be admitted to a second degree program where there is substantial overlap in the degree requirements. For example, students may not earn an Honours degree in Chemistry at Trent if they already have an Honours degree in Chemistry from another university.

First Degree Earned at Trent University

- General degree in another subject following a General degree or an Honours degree: the student must complete at least 5.0 credits beyond the first degree.
- Honours degree following a General degree in the same subject (including joint-majors): the student must complete at least 5.0 credits beyond the first degree.
- Honours degree in another subject following a General degree or an Honours degree: the student must complete at least 10.0 credits beyond the first degree.
- Honours degree following a minor in the same subject: students may return for a second degree in a subject in which they have obtained a minor, but only at the Honours level. The student must complete at least 10.0 credits beyond the first degree.

First Degree Earned from Another Canadian University

A maximum of 10.0 credits (the equivalent of two years of full-time study) may be transferred for credit towards a second degree.

- General degree in another subject following an Honours degree: the student must complete at least 7.5 credits beyond the first degree.
- Honours degree following a General degree in the same subject or Honours in another subject: the student must complete at least 10.0 credits beyond the first degree.
- Honours degree following a minor in the same subject: students may apply for a second degree in a subject in which they have obtained a minor, but only at the Honours level. The student must complete at least 10.0 credits beyond the first degree.

Notes

- All work for the second degree must be completed at Trent University (Letters of Permission for credit from another institution will not be permitted).
- Students will not be permitted to include a minor in the second degree.
- Trent students who have credits which exceed the degree requirements in a first degree program may have them applied to the second degree program.
- The student must meet the same standards for continuation and graduation as required of students registered in a first degree program. See p. 14 for requirements which apply to all undergraduate degree programs.
- Third degrees: Credits from the first two degrees cannot be applied to a third undergraduate degree. To obtain a third undergraduate degree, a student must complete all courses required for the program (15.0 credits for a General degree and 20.0 credits for an Honours degree).
Academic Integrity
The Academic Integrity website can be found at trentu.ca/academicintegrity.

Undergraduate Academic Integrity Policy

Part I: Application and Definitions

1.1 Application
This policy applies to students registered in undergraduate courses in the Faculty of Arts and Science at Trent University as well as to applicants to undergraduate programs at the University.

1.2 Terminology
In this policy, “department” means undergraduate departments, programs, and schools. “Chair” means chairs and directors of undergraduate departments, programs, and schools, or appointed designates. “Dean” means the Deans of Arts & Science, Education or Nursing, and “Registrar” means University Registrar.

1.3 Academic Integrity
Academic integrity is defined by the basic principles of honesty, trust, fairness, respect, and responsibility (as articulated by the International Center for Academic Integrity, academicintegrity.org). These values serve as the foundation for the development and acquisition of knowledge and all members of the University community are expected to uphold them. For students, adherence to these fundamental values is essential for earning academic credit in all courses, whether offered on- or off-campus, online, or as placements, practicums or internships. Trent University’s Academic Integrity website provides helpful information on why integrity is important and how to avoid integrity infractions (trentu.ca/academicintegrity).

1.4 Academic Dishonesty
Academic dishonesty, including plagiarism and cheating, is ultimately destructive of the values of the University. Scholarly integrity is required of all members of the University. Engaging in any form of academic dishonesty or misconduct in order to obtain academic credit or advantage of any kind is an offence under this policy.

1.5 Plagiarism
Plagiarism is knowingly presenting words, ideas, images, data, or any other form of work of another person (including essays, theses, lab reports, projects, assignments, presentations, and posters) in a way that represents or could be reasonably seen to represent the work as one's own. “Knowingly” includes ought reasonably to have known. Plagiarism includes failure to acknowledge sources correctly and submitting materials copied from the Internet without proper acknowledgement of the source. Draft work submitted for evaluation is subject to the same standard as final work.

1.6 Cheating
Cheating is dishonest academic conduct or attempted dishonest academic conduct during tests or examinations or in the preparation of any other coursework or in the presentation of credentials for admission to the University or one of its programs. Some common examples are:

- submitting one's own original student work for credit in more than one course (includes a course being repeated) without the prior agreement of the instructors involved
- bringing aids, including electronic aids, that have not been authorized by the instructor into an examination or test
- impersonating another individual or colluding in an impersonation for an examination or test
- copying from one or more other individuals or knowingly permitting one or more other individuals to copy from one’s own test, examination paper, lab report, or assignment
• collaborating with one or more other individuals when collaborative work has not been expressly authorized by the instructor
• communicating with one or more other students during a test or examination
• purchasing or selling any piece of work for submission, or facilitating the selling and purchasing of such material
• submitting purchased material as one’s own work
• falsifying or tampering with results in laboratory experiments or research assignments
• falsifying transcripts or tampering with documents used to make decisions about admissions to the University or one of its programs
• withholding transcripts or other required documents at the time of application to the University
• submitting false or misrepresented medical certificates or other documentation in support of requests for concessions on academic work or deadlines

1.7 Student to consult if in doubt
Students who have any doubt as to what might be considered academic dishonesty in a particular course should consult the instructor of the course to obtain appropriate guidelines.

Part II: Penalties for Academic Offences on Coursework, Tests, or Exams

2.1 Minor or major offence
The penalty for a student who has been found to have committed an academic offence will be based on whether the offence is minor or major.

2.2 Penalties
First minor offence: The penalty for a first offence that is a minor offence will be partial or total loss of marks on the piece of academic work. The grade reduction shall, at a minimum, lead to a failure on the piece of work. The recommended penalty is a zero grade. There will be no opportunity to resubmit the coursework, test, or exam.

Second minor or first major offence: The penalty for a second minor offence or a first offence that is a major offence will be a grade of zero on the piece of academic work with no opportunity to resubmit, plus a transcript notation (e.g. AHCL 1001H – Academic Dishonesty). A reduced final grade or a final grade of zero in the course may also be levied.

Subsequent offence, Suspension: The penalty for any offence i) after two minor offences; or ii) after a first offence that is a major offence; or iii) that is a major offence where a minor offence is already on record will be a period of suspension from the University (academic status “Suspension – Academic Dishonesty”) ranging from one term to two years in addition to a zero grade in the course and an Academic Dishonesty notation for the course. If a student, who is otherwise eligible to graduate, has been suspended for academic dishonesty, the student may not graduate until the period of the suspension has been served.

Subsequent offence, Expulsion: The penalty for any subsequent offence will be expulsion from the University.

2.3 Extraordinary circumstances
The penalties above will be levied unless there are extraordinary circumstances which justify a different penalty.

2.4 Factors to determine whether offence minor or major
In deciding whether an offence is minor or major, consideration will be given to the following factors:
• the extent of the dishonesty
• whether the act in question was deliberate or whether the student ought reasonably to have known
• the importance of the work in question as a component of the course or program
• the academic experience of the student
• any other relevant circumstances

These factors shall also be taken into consideration in determining penalty where the usual penalty provides for a range.

2.5 Ineligibility for Honour Rolls
A student who has committed a major offence or multiple offences is ineligible for the Dean’s Honour Roll that academic year and the President’s Honour Roll at graduation.

Part III: Procedures for Evaluation of Coursework and Conduct during Tests and Exams

Note: All written communication to current students pursuant to this policy will be to the student’s Trent e-mail account.

3.1 Instructor investigates
The instructor will make reasonable inquiries to investigate the circumstances of the matter. If the instructor has reason to believe that a student has committed an academic offence, the instructor will so inform the student within a reasonable time and invite the student to meet to discuss the matter.

3.2 Instructor finds no academic dishonesty
If after meeting with the student and reviewing the evidence the instructor is satisfied that no academic dishonesty occurred, no further action will be taken by the instructor unless new evidence comes to their attention.

3.3 Instructor finds academic dishonesty, reports to Chair
If, after meeting with the student (or if the student fails to respond to the request for a meeting or does not attend a prearranged meeting) the instructor decides that academic dishonesty has occurred, the instructor will prepare a report to the Chair. The report will summarize the relevant facts and evidence, including the student’s version of events if given. The report will additionally state whether the instructor considers the offence to be minor or major and the reasons therefore, as well as any extraordinary circumstances that are evident in the case. If the offence is considered to be minor, the instructor will recommend a grade reduction (see 2.2). Copies of all supporting documentation will be attached to the report. The instructor will provide a copy of the report to the student and to the Dean.

3.4 Opportunity for comment by student
Should the student wish to add to or clarify the information in the report, within seven days of the date of the report, the student may request a meeting with the Chair or send written comments to the Chair.

3.5 Chair finds no academic dishonesty
The Chair will carefully review the report and comments, if any. If the Chair is not satisfied that academic dishonesty occurred, the Chair will inform the student in writing of their decision, with a copy to the Dean, and no further action will be taken unless new evidence is brought to the Chair’s attention.

3.6 Chair finds academic dishonesty, consults Office of the Dean
If the Chair is satisfied that academic dishonesty occurred, the Chair will first determine if the offence is minor or major and the penalty that should be imposed. The Chair will then inquire of the Office of the Dean whether there is a record of any previous academic offence by the student.

3.7 First offence, Chair decides
If there is no record on file of any previous academic offence by the student the Chair will levy a penalty accordingly. If, based on extraordinary circumstances, the Chair decides to levy a penalty other than the usual penalty, the Dean will be notified of the reasons for the penalty. The Chair will send to the student an Academic Dishonesty Form to inform the student in writing of the decision and confirm that a record of the offence will be filed in the department office and the Office of the Dean.

3.8 Limits of Chair’s authority
The Chair does not have authority to levy a penalty exceeding a grade in the course of zero with the transcript notation “Academic Dishonesty.”

3.9 Timing of Chair’s decision
The Chair’s decision will normally be conveyed to the student within two weeks of receiving student comments or, if no comments are provided, within two weeks of receipt of the instructor report.

3.10 Appeal of Chair’s decision to the Dean
The student may appeal a decision by the Chair by writing to the Dean setting out the grounds for appeal within two weeks of receiving the Academic Dishonesty Form. The Dean will normally respond to the appeal within two weeks of receiving the appeal.

3.11 Prior record or stronger penalty deemed appropriate by Chair, Dean decides
If there is already a record of an academic offence(s) on file for a student the Chair will forward the material to the Dean who will decide the matter. The Chair may also forward a case to the Dean for decision on an alleged first major offence where the Chair deems that a penalty stronger than they can render is appropriate. In the latter case the Chair will set out the reasons for their conclusion that a stronger penalty is appropriate.

3.12 Note on Tests and Exams
Where an allegation of academic dishonesty arises during a test or examination, the responsible invigilator will collect the available evidence and, if the invigilator is not the course instructor, will notify the course instructor who will proceed as detailed above.

Part IV: Procedures for Applications to the University or One of its Programs

4.1 Notice to Registrar
Where the alleged academic dishonesty involves falsifying, misrepresenting, or withholding records for entry into the University or one of its programs, the Registrar will be informed.

4.2 Student notified
The Registrar will notify the student in writing of the allegation and will invite the student to meet within a reasonable time. If the student does not respond to the request for a meeting or does not attend a prearranged meeting, the Registrar will proceed to make a decision on the basis of the evidence before them.

4.3 Registrar decides
If, after reviewing the evidence, the Registrar is satisfied that no academic dishonesty occurred, the Registrar will inform the student in writing of their decision and no further action will be taken by the Registrar unless new evidence is brought to the Registrar’s attention.
If the Registrar is satisfied that academic dishonesty has occurred, the Registrar will decide the appropriate penalty and inform the student in writing of their decision. A written record of the incident, along with the documented evidence, will be kept on file at the Office of the Registrar and the Office of the Dean if appropriate.

4.4 Appeal of Registrar’s decision to Dean
The student may appeal the decision of the Registrar by writing to the Dean setting out the grounds for appeal within two weeks of notification of the Registrar’s decision. The Dean will normally respond to the appeal within two weeks of receiving the appeal.

Part V: Other

5.1 Withdrawal from courses or the University
Upon receipt of the instructor’s report, the Office of the Dean will request that the Office of the Registrar put a registration hold on the course thereby preventing the student from withdrawing. If the student had withdrawn subsequent to a request to meet with the instructor and prior to receiving the instructor’s report, the student will be re-enrolled in the course. The registration hold will remain in place unless it is determined that no infraction of the policy has taken place. In that case, the Office of the Dean will request that the registration hold and all records associated with it be removed.

A student will not be permitted to formally withdraw from the University while under investigation for academic dishonesty.

5.2 Final Appeal
The student may appeal a decision of the Dean to the Special Appeals Committee of the University within four weeks of notification of the decision. The decision of the Special Appeals Committee is final within the University.

5.3 Clarification of appeals procedure
Students seeking clarification of the appeals process may consult with their Academic Advisor. For guidance on the appeals procedures at the University see the “Petitions and Appeals” section of the Calendar and the Special Appeals website.

5.4 Privacy protection
In accordance with privacy legislation, personal information gathered under this policy will only be shared among university personnel on a need to know basis.

5.5 Other allegations of academic dishonesty
Any other allegations of academic dishonesty may be made in writing to the Dean. The Dean will determine the appropriate procedure to be followed.

5.6 No permanent record of dropped allegations
If it is determined that allegations are not supported by sufficient evidence, no permanent record of the incident will be kept on file at the offices of the department, Registrar, or Dean.

5.7 Course completion or withdrawal is not a stay of proceedings
A student’s completion of a course or withdrawal from a course, program, or the University does not stay or prevent proceedings for academic dishonesty under this policy. Further, penalties for academic dishonesty determined under this policy will appear as appropriate on the student’s record, including the student’s transcript, despite any such course completion or withdrawal.
5.8 Rescinding of degree
If an academic integrity violation is discovered after the degree has been awarded, the University retains the right to rescind the degree.

5.9 Removal of transcript notations
“Academic Dishonesty” transcript notations will be automatically removed five years after the notation has been placed on a transcript. If a student wishes to have the transcript notation removed sooner, an application can be made in writing to the Vice President (Academic). The letter should explain the reason for the request, what the student has learned from the experience, and what they have done to ensure violations of academic integrity will not occur again. Such applications may not be initiated before two years have passed. Zero grades and notations of expulsion for Academic Dishonesty will not be removed from the transcript.

5.10 Report on Academic Offences
A summary of academic offences (setting out the nature of each offence and the penalty) will be prepared by the Dean annually, published on an Academic Integrity website, and circulated to Senate each year for information.

5.11 Participation of others in the appeal process
As long as advance notice is given, students who wish to do so may bring one support person to a meeting with the course instructor, Chair or Dean. That person will not be permitted to participate in the discussion.
Fees

trentu.ca/studentfinances

Fees are collected by the Student Accounts Office, Financial Services. Approved fees and complete details, including exact dates and deadlines, are posted online. Fees for registered students will be billed in August for the Fall term, December for the Winter term and April for the Summer term. Statements and invoice details are available on the portal under the Finance section. To assist new students in their financial planning, fee schedules for the current academic year are posted at trentu.ca/studentfinances/tuition-fees for reference.

Student Financial Responsibilities

Upon registering in a course, students accept responsibility for all financial obligations with the University regardless of how the fees are being funded (e.g., RESPs, government loans). It is also the responsibility of students to be aware of all financial and academic deadlines and to ensure they are officially registered in their courses through myTrent. Credit will not be issued for dropped courses once financial deadlines have passed. Payments will be applied to any balance owing from prior sessions before being applied to current session fees. Students who register for courses but do not attend classes are still responsible for all fees.

Addresses for Student Accounts Purposes

It is each student’s responsibility to ensure that the University has a valid mailing address for student fees, income tax receipts, and refund purposes. If students change their address on myTrent, all mailings will be distributed to this address.

Campus Card

The campus card is issued to students at the beginning of the term of study for which they have completed registration. To utilize full card benefits, students must be eligible financially by satisfying the minimum payment requirements. Winter term students will receive their campus cards at the beginning of Winter term and Summer term students will receive their campus card at the beginning of the Summer term.

Confidentiality of Student Fee Information

The handling of all personal information by the University is governed by the Freedom of Information and Protection of Privacy Act. All information regarding student fees is treated as confidential and will normally only be released to individual students. In cases where sponsoring government and private agencies and organizations or individuals are paying fees on the student’s behalf, the student may wish to waive the right of privacy and allow the University to release information about the status of fees to avoid any interruption in payment. To ensure that the necessary fee information is available to sponsoring agencies, etc., students must complete the Release of Information Form, found under Forms on the Academic tab in myTrent.

Payment of Fees

Deadlines: www.trentu.ca/studentfinances/tuition-fees/important-dates-deadlines

Payment is due in full for the Fall term on August 30 and due in full for the Winter term on January 6. Students registering after payment deadlines will be required to pay their fees upon registration. Fees for students registered for the Summer session are due upon registration. Please see the Important dates & deadlines webpage for more Information: www.trentu.ca/studentfinances/tuition-fees/important-dates-deadlines.

Outstanding library fines are to be settled with the Library. Contact either Library location for available payment options. Departmental charges added to accounts for laboratory fees, field trips, etc., as advised by course instructors, are to be paid in the term during which they are charged.
Payment Methods
Current payment methods are summarized here:
www.trentu.ca/studentfinances/tuition-fees/making-payment

Advance Payments
A non-refundable tuition payment (amounts vary based on number of registered credits and program) is due in June for all students. Students receiving OSAP are also responsible for paying the advance payment of tuition by the deadline. Peterborough students in residence are required to pay a separate deposit; please check with Housing Services (p. 505; trentu.ca/housing) for details and deadline. Advance payments are applied to student accounts as payment towards the registration and residence/dining fees. Trent University Durham – GTA students in residences should check www.trentu.ca/durham/student-life/student-support-services/residence-and-housing for Durham-specific information.

Late Payments
A late payment fee will be levied to all accounts if payment is not made by any fee deadline for any academic session. Please visit www.trentu.ca/studentfinances/tuition-fees/overdue-accounts for a list of due dates.

Interest
Daily interest charges will apply to all balances outstanding after the payment due date and will be added on the first day of each month until the outstanding balance is paid in full. Please see www.trentu.ca/studentfinances/tuition-fees/overdue-accounts for more information.

Dishonoured Payments
There is a fee for any payment which is returned or dishonoured (insufficient funds). The University reserves the right to restrict students to a particular payment method to reduce the risk of returned payments.

Payment of Fees by OSAP and Out-of-Province Funded Students
Students are responsible for ensuring their loan application is complete and all requirements have been met. Students should contact Trent’s Financial Aid Office (p. 500) for questions or assistance with their OSAP applications. OSAP students are responsible for remitting payment to the University by the posted deadlines. Fees paid after the posted dates will be charged a separate late fee for each missed due date and outstanding balances will be subject to interest—visit www.trentu.ca/studentfinances/tuition-fees/overdue-accounts for up-to-date information.

Registered Education Savings Plans (RESP)
Students who pay their fees from RESPs are subject to the same payment deadlines as non-OSAP funded students. Students are encouraged to contact the Office of the Registrar well in advance of the payment due dates to request the completion of the RESP forms provided by the student’s financial institution. These forms may take up to 10 days to be processed and there is a fee for producing the form.

Registration Fees
Registration fees are comprised of tuition, ancillary and levy fees. Tuition fees are set in accordance with the Ministry of Training, Colleges and Universities and once approved, will be posted on the web at www.trentu.ca/studentfinances/tuition-fees. Registration fees will be billed to the student account and can be viewed on a statement available on the myTrent portal. Registration fees are billed based on course load and the student’s home location.

Home Location
Your campus home location is the campus where you will take the majority of your courses, receive campus-specific communications, and utilize services such as academic advising, health and wellness, athletics, and transit if your course load qualifies you for the bus service.
Tuition Fees for General Undergraduate Programs

Flat Billing – Peterborough Home Location
Students registered in a minimum of 2.0 credits per term will be billed full tuition each term.

Per Credit - Peterborough Home Location
Students registered in a maximum of 1.5 credits per term will be billed tuition on a per credit basis.

Students – Durham Home Location
All Durham students will be billed tuition on a per credit basis.

Ancillary Fees for General Undergraduate Programs

Flat Billing – Peterborough Home Location
Students registered in a minimum of 2.0 credits per term will be affiliated with one of the five residential colleges and will pay full ancillary fees. For a full list of ancillary fees, please see www.trentu.ca/studentfinances/tuition-fees.

Per Credit - Peterborough Home Location
Students registered in a maximum of 1.5 credits per term will be affiliated with one of the five residential colleges and will pay ancillary fees on a per credit basis.

Students – Durham Home Location
Durham students will pay ancillary fees on a per credit basis plus flat fee charges; please see www.trentu.ca/studentfinances/tuition-fees for details.

Levy Fees for General Undergraduate Programs

Flat Billing – Peterborough Home Location
Students registered in 1.5 credits or more per term, will pay full levy fees. Please visit www.trentu.ca/studentfinances/tuition-fees for more information.

Per Credit - Peterborough Home Location
Students registered in 1.0 credits or less per term, will pay levy fees on a per credit basis. Please visit www.trentu.ca/studentfinances/tuition-fees for more information.

Students – Durham Home Location
All Durham students will be billed levy fees per credit plus pay a flat fee for health and dental.

Levies – Peterborough Home Location
Health and dental benefits are billed each year to all students who are billed 1.5 or more credits in their starting term. Registration must include an on campus course. Students with alternate coverage can request a refund by completing the opt-out form on the Trent Central Student Association website. Per credit billed students can purchase a transit pass at any time during the academic year; available at the Campus Card Office. Please see the Trent Central Student Association website trentcentral.ca/transit for details.

Levies – Durham Home Location
Health and dental benefits and the Durham athletics fee are billed with on campus registration in a minimum of 0.5 credits. Students with alternate coverage can request a refund by completing the opt-out form on the Trent Durham Student Association website. Durham transit is included in the flat billing for students registered in a minimum of 1.5 credits per term.
Trent University and Fleming College

Trent University and Fleming College offer a number of programs on a joint basis. The fee structure for the courses taken under these joint programs at Trent University may differ slightly from the regular fee structure. The University’s Student Accounts Office can provide more information about the fees charged by the University.

Auditing Courses

Any persons who wish to audit courses pay 50% of the regular tuition fee for regular credit courses. Auditing students do not pay ancillary and levy fees. Seniors auditing a course pay only $200 per half-credit course.

Senior Citizens

Degree seeking students 65 years and older pay full fees. Seniors in financial need may apply for a student bursary through the Financial Aid Office.

Notes

- International students pay additional tuition fees. Health insurance is included in registration fees and is a compulsory fee (see Health Insurance for International Students p. 497).
- New full-time students pay an additional, non-refundable fee for orientation and TI camp fee for International students, which is included in registration fees.
- The fees for the first term of study include a non-refundable deposit which is forfeited should a student withdraw. Students who do not meet the first term payment deadline in September and/or the second term deadline in January will be charged interest and a late payment fee each term. Students beginning their first term of study in the Winter term will forfeit the full value of the deposit should they withdraw prior to the withdrawal deadline (see Important Dates p. 8).
- There may be additional fees for field trips and course material in certain courses.
Residence & Dining Plan Fees

Peterborough Residence

trentu.ca/housing

Residence accommodations and dining plans are available to full-time and part-time Peterborough students based on availability. Rates for the rooms are approved through a collaborative budget process between students, faculty, and administration. The final rates for any particular year are posted on the Housing Services website by early June of each year. Current rates are listed on the web page or may be accessed by calling the Housing Services office. Posted rates include a furnished room in residence, a dining plan, free laundry, and Internet service. All important dates with regards to application deadlines, and the opening and closing of residence, are also listed on the housing website and in the College Residence Agreement that all students agree to prior to moving in to residence (some details also on p. 8).

Students applying to the University must apply for residence to be considered for accommodation. The residence application is available online through the Housing Portal. Applications are considered complete once they have completed the application requirements as outlined on the housing website. Cancellations prior to the end of July will result in refunds processed to the student in accordance with the refund schedule less an administrative fee. Please see the Housing website for details on eligibility, fees, and deadlines.

Peterborough Dining Plan

www.trentu.ca/trentucard/dining-plans

Students residing in any University residence are required to have a dining plan. A distinct dining plan is associated with each residence room type. The cost of a dining plan for any particular year are posted on the Housing Services website by early June of each year. Current rates are listed on the web page or may be accessed by calling the Housing Services office. Most purchases made on-campus are exempt from HST. Dining plans can be used at all on-campus food service facilities.

Each of the dining plans allow for unused portions to be carried over into the following year.

Off-campus students may purchase Voluntary Dining Plans through myTrent. All food service locations are open and available to off-campus students and dining plans can be used at all locations. Dining plans are non-transferable and non-refundable.

Trent University Durham – GTA Residence & Dining Plan

www.trentu.ca/durham/student-life/student-support-services/residence-and-housing

Residence accommodations and dining plans are available to full-time and part-time students based on availability. Details on how to access application, rate, and refund information can be found on the Trent University Durham – GTA housing web page.

Student Association and Organization Fees

Student association and organization fees are determined by student referenda that are held under the supervision of the Trent Central Student Association (TCSA) for students in Peterborough and the Trent Durham Student Association (TDSA) for students at the Durham campus. Beginning in the fall of 2019, students will be able to opt out of non-mandatory student association and organization fees. More information will be available on the Student Finance website: www.trentu.ca/studentfinances/tuition-fees.

All students are required to remit payment for health and dental benefits to Trent University with their registration/housing payment. Students who are eligible to opt out of the student benefits, with proof of alternate coverage by posted deadlines (p. 10 and online), will receive a refund from
their respective student association less a small processing fee. Links to these student associations is found on the Student Accounts website: www.trentu.ca/studentfinances/tuition-fees.

Trent/Fleming Nursing program students pay separate ancillary fees and student association fees as listed on the Financial Services (Student Accounts) website.

School of Education students (full-time) also pay separate ancillary fees and student association fees as listed on the website at www.trentu.ca/studentfinances/tuition-fees. The transit fee is optional.

Other Fees
There are a variety of fees charged to students for the services offered through administrative departments at Trent University. For a full fee list, please see www.trentu.ca/studentfinances/tuition-fees. This list is updated to reflect any changes from year to year. HST is charged when applicable.

Additional fees may be assessed directly by some departments for courses involving laboratory or field work or for course material. Some of these fees may be refundable. Additional fees are charged to students who participate in one of the Study Abroad programs. Academic departments will provide detailed information upon request.

Health Insurance for International Students
Effective July 1, 1994, the Ontario government ruled that international students and their dependents who are temporary residents of Ontario will no longer be eligible for coverage under the Ontario Health Insurance Plan (OHIP). International students, therefore, are required to purchase basic health insurance coverage to register for their courses at Trent University. Private coverage with Sun Life has been arranged through a joint initiative of the Council of Ontario Universities and Ontario universities. A compulsory health insurance fee, payable in full with the fee payment, must be paid to Trent University by all international students in order to provide this health insurance coverage.

Textbooks
The cost of books and materials varies according to individual course requirements. Both new and used textbooks are available from the Trent University Campus Store (p. 520). The Campus Store provides limited refunds of textbook purchases. Students are expected to familiarize themselves with the Campus Store’s textbook refund policies.

Withdrawal from the University and Refund of Fees
Advance tuition payments, or the equivalent value, is forfeited if complete withdrawal occurs on or before the September deadline, the January deadline for January start students or the Summer deadline. For the refund/withdrawal schedule, see the website at www.trentu.ca/studentfinances/tuition-fees/drops-withdrawals-refunds. Fees are assessed for the Fall term (September to December), the Winter term (January to April) and the Summer term (May to August). Refunds will be issued based on the date of withdrawal from the University and the refund date(s) associated with the term from which a withdrawal is processed.

When students register for courses they accept financial responsibility for fees associated with the registration. If proper withdrawal procedures are not followed, students will be charged for the registered courses and will be responsible for remitting the fees to the University. Students considering withdrawal from the institution should discuss academic and financial consequences with their academic advisors and staff in the Student Accounts office. If students are funded by OSAP, they should contact Financial Aid to understand the consequences of withdrawing on their student loans.

Ancillary fees are not refundable unless otherwise indicated.
Tuition fees are refundable only if students have followed official procedures for withdrawal from the University, which is completed through the Office of the Registrar. Refunds will not be processed without formal withdrawal.

**Tuition Fees Refund Schedule**

Note: (Applicable only to students billed on a per-credit basis.)

For the complete list of deadlines regarding tuition refunds, please see [www.trentu.ca/studentfinances/tuition-fees/drops-withdrawals-refunds](http://www.trentu.ca/studentfinances/tuition-fees/drops-withdrawals-refunds). This refund schedule applies to students paying on a per-credit basis. Credit will be issued to the student account based on the drop date, and the posted refund date. If a student withdraws before the September deadline, only the advance tuition payment, or equivalent value, is forfeited and must be paid.

Student association fees and student organization levies are non-refundable after the September deadline for the Fall term and non-refundable after the January deadline for the Winter term (applicable to students billed on a per-credit basis).

**Summer Tuition Refund Schedule**

The refund schedule for the Summer terms will be posted at [www.trentu.ca/studentfinances/tuition-fees/drops-withdrawals-refunds](http://www.trentu.ca/studentfinances/tuition-fees/drops-withdrawals-refunds) once the term schedule is approved. A withdrawal fee is applicable for full withdrawals before the start of Summer session. Student association fees are non-refundable after the first day of Summer session terms.

Summer students can switch credits taken in the same term with no penalty as long as courses are dropped or added on the same day. Half-credit courses must replace half-credit courses and full-credit courses must replace full-credit courses; all changed courses must be taken at the same campus.

**Dropping Courses**

Peterborough home location students who drop courses but remain in at least 2.0 credits per term pay a flat billing rate and do not receive a refund for the dropped courses. Students dropping courses and registered in fewer than 1.5 credits will receive credit in accordance with the refund schedule, and the drop date.

Durham home location students who drop courses will receive credit to their student account in accordance with the refund schedule and the drop date.

**Refunds**

The refund schedule is posted on the website at [www.trentu.ca/studentfinances/tuition-fees/drops-withdrawals-refunds](http://www.trentu.ca/studentfinances/tuition-fees/drops-withdrawals-refunds). The amount of credit issued is based on a student’s course load, the course type, the refund schedule, and the date courses are dropped or date student is withdrawn from the University. Dropping courses may generate a refund or reduce the amount owed.

Student association and organization fees are not refundable by the University. Students withdrawing and receiving a refund will have the refund processed within 45 days of the withdrawal date. Refunds for students who drop courses in the Fall term and are registered in the subsequent term will be issued after the drop deadline date for the Winter term.

Refunds of overpayments on accounts will not be processed unless 100% of all fees for the academic year have been paid.

Refunds of overpayments on accounts which were paid on the Trent University website will be refunded through the same process. Please note that only the amount paid to the University can be considered for refund. The service fee is not refundable. Refunds for excess funds transferred to the student account by wire payment will not be refunded by cheque to the student, but will be returned via original payment method less a service fee. All other payment methods will be refunded by cheque. Cheques will be sent by mail to the address on file for the student.
Income Tax Receipts
A tax certificate for fees assessed during the calendar year and eligible for the education deduction (T2202A) will be provided in February. Students may view and print an official T2202A Tuition, Education and Textbook Amounts certificate by visiting their Finances section on myTrent.

Financial Appeals
Students accept financial responsibility for fees associated with all registered courses at the time they complete registration. Students wishing to submit a financial appeal because of a serious, documented medical illness, or the death of an immediate family member, which led to the dropping of courses or full withdrawal, may do so in writing for a fee. The financial appeal should be submitted to the manager of Accounting Operations. Such cases must be documented completely. Financial appeals will not be considered when a condition or illness pre-existed the normal drop date or existed at the time of registration. Failure to plan financially for personal and educational commitments is not a basis for a financial appeal. The fee must be submitted with the appeal and the account must be in good standing prior to review. Financial appeals will only be considered in writing with supporting documentation from the student. A successful academic appeal (e.g., CUP petition for late withdrawal) does not mean a student has grounds for a successful financial appeal. Written documentation should include references from any sources which can substantiate a student’s personal situation.

Students will be notified of the decision in writing within 60 days of submission. The last date for submission of a financial appeal for an academic term is six months from the end of the term being appealed. An academic appeal is not the same as a financial appeal (see Academic Appeals for details, p. 479). A financial appeal will affect a student’s account balance. If account balances remain unpaid, transcripts will not be released.

Unpaid Student Accounts
Students who have not paid their accounts in full will not be permitted to register for the next session. Access to myTrent will be restricted and grades, transcripts, and degree and diploma certificates will not be released until the financial obligations have been settled fully. Letter requests made to the Office of the Registrar will be subject to review and authorization by Financial Services (Student Accounts). Education students will not have credentials recommended to the Ontario College of Teachers if a balance remains outstanding.

Unpaid accounts of students who are no longer registered with the University will be placed with a collection agency and the students will be unable to register for any further courses until the outstanding balance has been paid. Trent University reserves the right to use any legal means to reclaim delinquent balances.

The University also reserves the right to request a pre-payment of the fees prior to registration for any account that has been delinquent. Visit: www.trentu.ca/studentfinances/tuition-fees/overdue-accounts.
Financial Aid

trentu.ca/studentfinances

The Financial Aid Office administers the many financial aid programs available at Trent and provides assistance and advice to students seeking financial aid. Detailed information on a variety of financial aid options is available on the Financial Aid website.

Thank You to Our Benefactors
trentu.ca/give

The funds we are able to offer students for financial aid and recognition of academic excellence include gifts from individuals, corporations, and other organizations through annual campaign and legacy giving programs, and through support from various levels of government. We are grateful to our past and present donors for their contributions, which benefit our students and support education and research at Trent University. For more information about the Trent University Endowment Fund please visit our website or contact us directly.

Financial Aid for International Students

For more information refer to p. 500
Scholarships
Trent University offers a robust scholarship program designed to foster and reward high academic achievement among its students. All new entering Canadian students with a final admission average of 80% or higher will be considered for one of Trent University’s Renewable Entrance Scholarships. Students who did not receive an entrance scholarship, and who achieve an average of 85% in 5.0 Trent University credits during an academic year, will be considered for an in-course scholarship; please see further details on the website.

All University scholarships may be held in conjunction with scholarships awarded by outside agencies when the conditions of the latter permit; however, a student may not receive funds from more than one major Trent University scholarship in an academic year.

Students may be eligible to receive scholarships based on an approved reduced full-time course load. Please contact the Student Accessibility Services Office for details (p. 519).

Externally Awarded Scholarships
A number of scholarships (and bursaries) are awarded by organizations outside the University. Some corporations have special programs for dependents of their employees. Students should consult their parents, secondary school guidance counsellors, and applicable websites to search for external awards. Some links to externally awarded scholarships are listed on the Financial Aid web page under Scholarships.

Prestigious Scholarships
Trent’s Prestigious Scholarships include the Champlain Scholarship, the Board of Governors’ Leadership Scholarship, the Michael Treadwell Scholarship, the Canada-Wide Science Fair Scholarship, and the Trent University Special Admissions Scholarship. These are renewable scholarships awarded to new Canadian students entering the first year of study who have displayed exceptional academic and extracurricular achievement, and who are judged likely to make a significant contribution to the life of the University. Students must apply for these scholarships; applications are usually available beginning in January each year. Full details and application deadlines can be found on the Financial Aid website under Scholarships.

Canadian students with a final entrance average of 80% or higher who did not apply, or are not eligible, for a Prestigious Scholarship will automatically be considered for a Trent University National Renewable Entrance Scholarship.

Trent University National Renewable Entrance Scholarships
These scholarships are awarded to Canadian students entering their first year at Trent with a final admission average of 80% or higher, who are not in receipt of a Prestigious or other Trent University entrance scholarship. Students entering directly from secondary school or transferring from a college or another university are eligible for consideration. Scholarship values are per year and are based on admission averages:

- 80% to 84%—$1,000
- 85% to 89%—$1,500
- 90% to 94%—$2,500
- 95% or higher—$3,000

Scholarships may be awarded for a maximum of four years of undergraduate study. No application is necessary. For a scholarship to be renewed, students must maintain an 80% average in 5.0 Trent University credits each academic year, unless approved for a reduced full-time course load. Full details are available on the Scholarships page of the Financial Aid web site under Entrance Scholarships.

In-Course Scholarships
Canadian undergraduate students who did not receive a renewable entrance scholarship are automatically considered for an in-course scholarship at the end of their first year. Unless specifically
noted, these scholarships do not require an application. Students already receiving a renewable entrance scholarship are not eligible to receive an in-course scholarship. These scholarships are listed at trentu.ca/financialaid.

Students who achieve an 85% average in 5.0 Trent University credits during the previous academic year are eligible for an in-course scholarship of $1,000 in the following year; students with an average of 90% or higher are eligible for a scholarship of $2,000 in the following year.

**Scholarships for International Students**

Trent University is dedicated to supporting international students through scholarships and bursaries. One-time entrance scholarships and renewable scholarships are available to international visa students. The one-time entrance scholarships of $1,000 - $3,000 are awarded to students entering their first year at Trent with a final Canadian-equivalent admission average of 80% or higher. The renewable Trent International Global Scholarships and Awards recognize contributions that students make to their school, nation, and global community. These highly competitive awards are granted to exceptional international scholarships who demonstrate academic excellence, leadership, community service involvement, and financial need. Full details and application deadlines can be found at trentu.ca/intl/scholarships.

Current undergraduate students at Trent University may apply for the International In-Course Scholarships of $1,000 - $2,500 based on their academic performance at Trent and the International Bursary of up to $1,500 based on their financial need and involvement on campus and in the community.

**Medals**

Medals are awarded to students with high academic standing upon graduation. They are listed in the Graduation and Convocation section of the Calendar under Academic Distinctions, p. 484.

**Prizes**

Prizes are awarded by academic departments and colleges based upon academic excellence or other specific criteria. Full listings of the prizes offered at Trent University are available on the website.

**Guidelines for Students with Financial Need**

**Ontario Student Assistance Program (OSAP)**

The province of Ontario and the government of Canada provide integrated assistance programs to Ontario residents attending Trent University through the Ontario Student Assistance Program (OSAP). To qualify for OSAP, Ontario students must be Canadian Citizens, Permanent Residents, or Protected Persons, and be enrolled in at least 60% of a full course load (40% for students with permanent disabilities). The OSAP considers itself a partner in funding post-secondary education and is designed to assist students when the financial resources available to them from parents, spouses, summer employment, and other sources are insufficient to meet educational costs.

The OSAP funding year starts in September of each year. A new application is required for each funding year. Students may apply for funding on the OSAP website at ontario.ca/osap. Students should apply for OSAP at least six weeks before the start of their study session to ensure that funding will be available when they begin their studies.

**Part-Time Canada Student Loans and Grants**

Part-time students (registered in less than 60% of a full course load) with demonstrated financial need may qualify for a study grant or a Canada part-time student loan. Visit the OSAP website for application details ontario.ca/osap.
Students from Outside Ontario

Canadian students from outside Ontario who require financial aid should apply to the student aid program in their home province. Links to out-of-province government loan programs can be found on the Financial Aid website. Students from foreign countries, including the US, are strongly urged to consult with educational authorities and sponsoring agencies in their home country. Trent International (TI) provides information regarding financial programs for international students.

Bursary for Students with Disabilities

Sponsored by the province of Ontario and the government of Canada, Bursaries for Students with Disabilities (BSWD) may be available to support students with a financial need who require assistive devices for educational purposes. Applications are available at the Student Accessibility Services Office (p. 519).

Trent Work Study Program (TWSP)

The Trent work study program provides part-time jobs on campus during the study period for full-time Canadian students (minimum 60% of a full course load) with demonstrated financial need. Further information is available on the Financial Aid website.

Ontario Student Opportunity Trust Fund (OSOTF) & Ontario Trust for Student Support (OTSS)

In 1996-1997 the province of Ontario established the Ontario Student Opportunity Trust Fund to assist students with a financial need. Half of this endowed fund is provided by the province and half has been provided through fundraising by the University. Annual proceeds from investment earnings are available in the form of in-course bursaries to Ontario residents. A second phase of OSOTF was introduced in 2003. In some instances, academic excellence as well as financial need will be a determining factor. All bursaries and awards established or modified since 1996-1997 must adhere to the OSOTF guidelines listed below. In 2005 the province of Ontario established the OTSS matching gift program to replace the OSOTF program. The OSOTF guidelines noted above apply also to bursaries and awards established through the generosity of donors and matching OTSS funds.

Eligibility Guidelines:

Students must be Ontario residents to receive OSOTF and OTSS bursaries and awards. To qualify for provincial residency: prior to the beginning of their current full-time post-secondary study session, students or their parents or their spouses must have lived in Ontario for at least 12 consecutive months without being full-time post-secondary students.

Students must demonstrate financial need and be in receipt of OSAP to qualify for OSOTF and OTSS bursaries and awards. Eligible students may apply for OSOTF and OTSS bursaries using the General Bursary application available on the Financial Aid website.
Bursaries
Trent University offers bursaries to undergraduate students with financial need to assist with tuition and related educational costs. Full-time students must be in receipt of OSAP, or an out-of-province government student assistance program, to be eligible for bursary assistance. Part-time students who are in receipt of government aid for part-time studies may also apply for bursary assistance. The Undergraduate Bursary Application is available on the student portal at trentu.ca/mytrent during the first month of each study term.

In-Course Bursaries
Bursary funds are intended to supplement the resources a student has available from government student assistance programs, parents, and personal savings. Students with a documented need may apply for a Trent University general bursary or a donor sponsored bursary each term that they require assistance.

International Bursaries
Students who enrol in international study programs through Trent University are eligible to apply for any bursary listed in the Calendar, but there are some bursaries specific to Trent International. Details are available on the Trent International website.

External Bursaries
Many organizations and companies offer bursary assistance to post-secondary students. Information is available in secondary school guidance offices as well as Financial Aid offices. A few externally-funded bursaries are administered through the Trent University Financial Aid Office. Details and applications are posted on the Financial Aid web page.

Awards
Financial assistance through Trent University’s award program is designed to acknowledge those students with outstanding academic qualifications and proven financial need. Many of these awards are made possible through the Ontario Student Opportunity Trust Fund established by the province of Ontario in 1996-97; a second phase was introduced in 2003 (p. 503). The trust fund represents an endowment fund. Annual proceeds from investment earnings are available in the form of awards to Ontario residents enrolled in full-time or part-time undergraduate or graduate studies. Students may apply for OSOTF and OTSS bursaries and awards using the Undergraduate Bursary form available through myTrent.
Residence & Housing

Peterborough

trentu.ca/housing

New students who apply to study at Trent University receive information about applying to residence with their offer of admission. Students may submit an application for residence by going to trentu.ca/housing and navigating to the application page on the Housing Portal. New students who complete the application requirements by the June deadline (see the website for details) will be guaranteed residence accommodation. Room selection time slots are ordered on a first-come first-served queue by completing your application and making the $50 non-refundable application fee payment. For students who choose not to participate in room selection, Housing Services will assign a room based on availability. Applications must be submitted online and accompanied by the application fee before they will be processed. To guarantee your accommodation you must also submit your residence deposit prior to the June deadline.

General inquiries concerning cost or the application process may be directed to Housing Services. Please see the Fees section (p. 492) and the Housing website for details about residences and dining plans. Information and applications for our Living Learning Communities, which provide theme or academic program-focused activities in co-operation with the college offices, faculty, and other departments on campus, are also available online through the Housing website.

Off-Campus Housing Service

Trent University, through a partnership with Places4Students, provides an online collection of numerous housing opportunities in the Peterborough region. The website provides a large real-time database of student housing vacancies in the area. The Housing Services office provides basic information on renting an apartment or house, and transitional programming for students living off campus for the first time. Further details are available on the Housing website or by email request.

Trent University Durham – GTA

trentu.ca/durham/student-life/student-support-services/residence-and-housing

Trent University Durham – GTA has partnered with Durham College and UOIT to provide a residence experience that offers convenience and great friendships. The residences, a short and direct Durham Transit bus ride from the campus, offer safe, clean, and comfortable living accommodations.

First-year Trent University Durham – GTA students are guaranteed a spot in residence if they meet the deadlines for accepting Trent’s offer of admission and applying to residence. Students enrolled in January-start programs may apply to residence and will be approved based on room availability.

Off-Campus Housing Service

Trent University Durham – GTA, through a partnership with Places4Students, provides an online collection of numerous housing opportunities near campus. The website provides a large real-time database of student housing vacancies in the area.
Colleges at Trent

trentu.ca/colleges
Campus map: trentu.ca/howtofindus/trentcampus.php

In Peterborough, the Colleges of Trent University offer their own unique identities with a rich array of opportunities for intellectual, cultural, and social life. Every student is a member of a college and with that each student becomes part of a smaller community within the larger university, which provides an important sense of belonging. Founded on the principle of interdisciplinary learning, the colleges promote dialogue about important social issues such as social justice, environmental sustainability, Canada's Indigenous peoples, international relationships, art and culture, and the health of individuals across the lifespan. Each college is also home to a unique mixture of academic departments, student services, learning communities, and places to socialize.

Located within each college office are both peer-based and professional supports to assist with a wide variety of student needs, including help with accessing student services and campus resources, navigating degree requirements, assistance with course selection, and learning about campus involvement opportunities. Students are encouraged to use these services as a first point of contact for any circumstance, including mental and physical health, career directions, learning skills, and clarifying long-term goals.

Students have the opportunity to take on additional leadership roles in their college, including working closely with college staff, faculty, and students to plan programs and activities according to the interests of the community. Promoting student-faculty interactions, acknowledging accomplishments, building friendships, and helping members find inspiration are all core objectives of these activities. Cabinets also provide student representation on a large number of institutional decision-making committees, including Senate, budget committees, and advisory groups on strategic directions.

College awards (p. 502) honour academic excellence and contributions to the life of the college. Each college plays a key role in helping its members develop an intentional plan for learning outside of the classroom so that students are well-rounded, active citizens upon graduation. Involvement in co-curricular learning within the colleges helps to build skills that are well matched to what employers seek in prospective workers.

Each college includes a dining hall, classrooms, faculty and administrative offices, lounges and common spaces, and residences for students who live on campus. All students, regardless of where they live, are encouraged to participate equally in their college’s community, and to make use of the services and facilities.
Catharine Parr Traill College

College Principal
M. Eamon, BA Hon (Ottawa), MA (Queen’s), MPhil (Cambridge), PhD (Queen’s)

College Assistant
S. Perritt, BSc (Trent)

Academic Advisor
J. Orsetto, BA (Trent), MA (Queen’s)

Academic Skills Instructor
TBD

Counsellor
K. Searle, MSW (Toronto), RSW

Named in honour of the noted author, botanist, and pioneer settler of the Peterborough area, Catharine Parr Traill College is one of the founding colleges of Trent University. Traill College is an active downtown hub for students. Situated beautifully on a drumlin overlooking central Peterborough, it plays a unique role in connecting Trent to the larger Peterborough community. Traill College is the home for several of Trent University’s undergraduate and graduate programs in the humanities. It is a diverse home for both graduate and undergraduate students with a large proportion of upper year, mature and transfer students. Traill also offers a unique and welcoming space for all students in the joint Trent/Swansea law program and offers specialized supports for these students.

Space within the college’s historically significant buildings and the modern Wallis Hall has been converted into office space for graduate students and faculty as well as residence for undergraduates and apartments for graduate students. Bagnani Hall provides state-of-the-art teaching facilities as well as the elegant Bagnani Room for small academic and social functions. The ground floor of Scott House has recently been renovated and now offers 24-hour access to all Traill College members. Facilities include Junior and Senior Common Rooms, College Library and printer stations, graduate and undergraduate reading rooms. The Trend (the college gastropub), situated on the first floor of Wallis Hall, offers great meals and a relaxing space 7 days a week.

The intellectual life of the college is supplemented by a wide range of cultural events and professional development activities, including development workshops, visiting speakers, guest lecturers, and visiting Fellows from other universities. These events give members of the college the opportunity to meet informally with visiting scholars and professionals from a variety of backgrounds. Traill is also home to the Thomas H. B. Symons Graduate Seminar Series, the Writers Reading series, open mic, poetry readings, and trivia nights in The Trend. The excellent facilities and quiet atmosphere of the college offer a comfortable working environment for both students and faculty. Regular bus service connects the college with the Symons Campus, and Traill’s close proximity to downtown Peterborough provides easy access to the Peterborough Public Library, art galleries, movie theatres, live concerts, churches, restaurants, pubs, and more.
Champlain College

College Principal
   T. Fridgen, BSc, MSc (Trent)

Academic Advisor
   M. Whitmore, BHSc (Western)

Academic Skills Instructor
   S. Beckwith, BAS (Trent), CA (Chartered Accountant), BSc (Trent), MA (Trent), PhD (Toronto)

Named in honour of the French explorer Samuel de Champlain, the college is situated directly on the banks of the Otonabee River. Discovery, adventure, reflection and engagement (D.A.R.E.) is the spirit of this college and a tribute to the history that continues to shape our community. These buildings were part of the original design of the Symons Campus by master architect Ron Thom, and features the Great Hall, a student pub (the Ceilie), and a locally sourced organic café (Seasoned Spoon). Active living and a celebration of global perspectives are just two of the many important aspects of the Champlain College culture.

Champlain is home to the departments of International Development Studies, Political Studies, School of the Environment and Trent International. In addition, Trent Students for Literacy, the Trent International Students’ Association, the Trent Global Living Community, and the Active Living Community are located here. The Trent University Faculty Association, Alumni Affairs, and B!KE at Trent, which is a do-it-yourself bicycle repair shop, are also found at Champlain.

Champlain has two residence models, one on the bank of the Otonabee (Champlain Symons) and one on the edge of campus (Champlain Annex). Champlain’s Symons residence buildings are composed of two residential quads, divided into staircases with five bedrooms clustered on each floor (a mixture of singles and doubles). The Champlain Annex are apartment style residences with in-suite kitchens and common spaces. All members of the college, including those who live off campus in private homes, are welcome to use the common rooms and study spaces; the music practice room, the Junior Common Room, the Champlain Learning Living Commons, the Morton Reading Room, and several group study spaces.

Lady Eaton College

College Principal
   C. Freeman-Roth, BA (Guelph), MA, PhD (Waterloo)

College Assistant
   S. Dick, BA (Trent)

Academic Advisor
   M. Sedge, BA (Guelph), Postgraduate Diploma (Fleming), Diploma (Trent)

Academic Skills Instructor
   D. Capell, BA (Carleton College), MA (Rutgers)

Named in honour of Flora McCrea Eaton, a native of Omemee and one of the original sponsors of the University, the college has a creative energy, a passion for our local community, and a commitment to self-expression. Lady Eaton College was designed by Legendary Canadian architect Ron Thom who aimed to have the building blend in with its natural landscape. The college is located against a drumlin, a massive hill formed by glacial ice thousands of years ago. The residential wings and Commons Block enclose an outdoor quadrangle. For those who live in residence in the main building, there are a total of 214 single occupancy bedrooms, 5 apartments reserved mostly for upper-year students, and 12 double occupancy bedrooms, accommodating all genders. Beyond the original college building, students will find the Lady Eaton College Annex which became a part of the college in 2016. This building is located on Water Street and is home to many first-year students.
who are also affiliated with Lady Eaton College. The college annex is just a quick 10-minute walk away from the original college building. The Living Learning Communities within the college include Creative Expressions, and Leadership & Civic Engagement.

The ground floors of the college contain faculty and departmental offices, a spacious and welcoming dining hall, classrooms, and student and faculty lounges (called Common Rooms). The Junior Common Room including recreation area, quiet study area, community kitchen, music room and library are open to both on campus and off students. The college office includes a number of academic and social supports to students including the Principal, College Assistant, Academic Advisor, Academic Skills Instructor and the college cabinet. We are home to the departments of History, Philosophy, and Social Work as well as the programs of Ancient Greek and Roman Studies, Gender and Women's Studies, the Bachelor of Arts and Science, the Trent Center for Languages and Linguistic and faculty fellows from many other departments. The offices of the deans of Social Sciences, Humanities, and Science can also be found in Lady Eaton College.

Otonabee College

College Principal
S. Muehlethaler, BA (Laurier), MA (Connecticut)

College Assistant
N. Nelson, BA (Trent)

Academic Advisor
L. Morris, BA (Wilfrid Laurier), BEd (Nipissing)

Academic Skills Instructor
E. Stewart-Eves, BA (Trent), BEd (Queen's), MA (Trent)

The college's buildings range along a cedar ridge overlooking the Otonabee River from which the college derives its name. In Ojibwe, Otonabee means “river that beats like a heart,” which symbolizes the way this college looks to the horizon, and imagines how we can keep up with change in our fast-paced lives while still honouring our hearts. Our motto also reflects the meaning of Otonabee in, tempora mutantur nos et mutamur in illis (the times are changing and we change with them). Like the Otonabee river, our community is ever-changing. You can’t stop this beating heart, this melody of voices creating waves of change. Through exploring how people interact with the world, we are curious about how people think and learn. Whether it is understanding human rights, caring for people who are sick, or educating the next generation, this is a place where everyone belongs.

Physically connected to the college building on the west is the Science Complex, and spiritually connected to the east is the DNA Building. Otonabee is home to the School of Education and the departments of Sociology and Computing & Information Systems. Anthropology, Forensic Science, the Trent-Fleming School of Nursing, and Psychology are also connected to the college in the DNA and Life Health Sciences Building. In addition, here Otonabee houses the Centre for Academic Testing and the Centre for Human Rights, Equity & Accessibility.

Some notable spaces in the college include a Sociology resource room, the OC Commons, the OC dining hall, and Wenjack Theatre. Nearby are the Archaeology Centre, Mackenzie House, and a wildlife sanctuary with walking and ski trails. Eight houses, connected by an interior walkway called the Street, make up Otonabee’s residence. Each house contains single, double, and a few triple occupancy bedrooms; a kitchenette; and a commons area. The Otonabee Quad, with a lovely green space, a tipi and picnic tables, is located behind the School of Education offices and can be accessed from the basement level. All students, regardless of whether they live on or off campus, are welcome to participate in the life of the college.
Peter Gzowski College

College Principal
M. Buddle, BA (Guelph), MA (Northern British Columbia), PhD (Victoria)

College Assistant
A. Peek, MEng, Man (Birmingham University, UK), MSc (University of Leicester, UK)

Academic Advisor
C. Carlson, BA (Toronto), MA (McMaster), MS (Kansas State)

Academic Skills Instructor
TBD

Opened in 2004, the college is named in honour of the University’s eighth chancellor: author, broadcaster, columnist, and champion of literacy Peter Gzowski (1934–2002). Located in the building called Enwayaang, which is the Anishnaabe word for “the way we speak together,” the college is animated by discussion, partnership and respect. Through collaborative programming and a rich array of social and academic offerings, members of our community demonstrate that speaking together is part of a larger mandate of reconciliation.

Our academic neighbours include the departments of Mathematics and Economics, the School of Business, the First Peoples House of Learning, the Chanie Wenjack School for Indigenous Studies and the Office of Research. While research is embedded in every part of the university, we provide a special home for the process of asking new questions about the world and learning to find the answers by sharing knowledge. Through the pursuit of sustainability, the exploration of marketplaces and numbers, and the honouring of Indigenous traditions, we work under one roof to provide many kinds of community to students, staff, faculty, Elders, and other guests.

Enwayaang has space in the Atrium (the common area between the lecture halls) for special events. Other unique spaces in and around the building include the Nozhem Performance Space, the Ernie and Florence Benedict Gathering Space, the Jake Thomas kitchen and collegiate meeting room, the Tipi and traditional area. Students are encouraged to use and respect traditional spaces and to attend events and workshops hosted by the First Peoples House of Learning.

The four elements of the First Peoples are integrated through the distinctive architecture of the building, represented by the colours of the medicine wheel. Enwayaang was designed to rest gently on the land: students and staff enjoy the light-filled corridors, large windows and colourful seating areas. Gzowski College is adjacent to the Otonabee River and has 250 single occupancy residence rooms for undergraduate students in traditional-style residence hallways. The Robinson dining hall provides another modern and bright space for students to meet, eat, and study. Visitors are always welcome to explore Enwayaang, “speak” with us, and get involved in our programming and events.
Academic Advising
trentu.ca/advising

Academic advisors help students clarify their academic goals, decide which courses to take, understand academic regulations, connect with the services they need and, ultimately, take charge of their own education. It is recommended that students meet with an academic advisor for assistance in planning their academic program. Students who find themselves in difficulty with the academic regulations and/or degree requirements of the University should consult an academic advisor for advice.

Academic advisors are available in each of the colleges on the Peterborough Symons and Traill campuses and at the Trent University Durham – GTA campus. Advisors are available throughout the year, by appointment, and during drop-in hours. Information about booking appointments and drop-in hours can be found on the advising website. Students can also consult with departments concerning discipline-specific questions.

Academic Skills
trentu.ca/academicskills

Academic Skills instructors teach writing and study skills to undergraduate and graduate students through individual and group instruction. In-person and online appointments give students the opportunity to discuss academic work in progress or to learn valuable skills such as critical reading and thinking, time management, clear writing and grammar, oral presentation strategies, research and citation, listening and note-taking, essay and lab writing, exam preparation techniques, and mathematics. An Academic Skills instructor is located in each college office and at the Durham – GTA campus. In addition, Academic Skills offers extensive online resources and publications on its web page.

Alumni Association
trentu.ca/alumni

Studying at Trent University is an exciting and important time in a student’s life, but it is just one phase in the lifelong relationship that the Alumni Association fosters and encourages. Trent’s alumni remain informed, interested, and involved long after graduation day. Alumni House is a popular facility for many University events, as well as a destination for returning alumni, particularly on Homecoming Weekend each year. Chapters across Canada and overseas provide opportunities for Trent alumni to meet in their home communities, and recent graduates help represent the University to secondary school students. Alumni are eligible for discounts at the University Bookstore and Athletics Centre, given access to library services, and can receive special rates for home and auto insurance. Children of alumni may qualify for special scholarships to Trent.

Current students and recent graduates are encouraged to apply to the Life After Trent: Mentoring Program, for an opportunity to be matched with prominent alumni or Peterborough community leaders for mentoring sessions during the Winter term.

News, events, blogs, exciting new podcasts, and TRENT Magazine are all available online at www.trentmagazine.ca.
Athletics & Recreation Programs

Peterborough: trentu.ca/athletics

Sport, recreation, and wellness are at the heart of our university community. Trent has a unique advantage when it comes to our programs and facilities. Our Peterborough campus is set in an outdoor 1,400-acre playground with over 20 kilometres of nature trails and access to the Otonabee River right at our doorstep, as well as the Justin Chiu Stadium, complete with an artificial grass playing field, track, and stadium seating for 1,000 spectators. Moving indoors, the state-of-the-art Athletics Centre offers outstanding facilities, equipment and programs to meet the needs of our students.

Trent University has a rich and storied athletics history, with our student-athletes having competed in varsity sport for more than 40 years. Our teams have excelled at all levels of sport, while achieving outstanding academic success. As a student-athlete at Trent, you can become part of something bigger than yourself – you belong to a family that values hard work and a team mentality, while proudly wear the green and white of the Trent Excalibur. Whether you are a student athlete or a fan, you’re part of the Trent Excalibur family.

Trent students who are looking to join a team and compete outside of varsity, can participate in our award-winning Campus Recreation programs. Several campus recreation leagues and one-day tournaments are offered each term, ranging from traditional sports like soccer, volleyball, basketball and hockey to fun and unique activities like inner-tube water polo, ultimate frisbee and futsal. Whatever your interest or ability, there is something for everyone. The ultimate goal of these leagues is fun through healthy, active participation. Student-athletes who are new to sport are always welcome.

As a Trent student at the Peterborough campus, you automatically become a member of our state-of-the-art Athletics Centre. If you’re looking for general fitness opportunities, Trent Athletics has a range of facilities and programs available to get you started. As members, Trent students at the Peterborough campus have access to the 12,000 sq. ft. cardio loft and weight room, indoor climbing wall, rowing/paddling tank, 25-metre pool, double gymnasium, squash courts, sports medicine centre, warm therapy pool, and change rooms with saunas. For those times you need a break from the treadmill or an extra dose of motivation, the Athletics Centre offers a wide variety of dynamic group fitness classes and personal training. After your workout, meet up with your friends and get a healthy snack at the Planet Café, located inside the Athletics Centre.

Durham: trentu.ca/durham/athletics

All Trent University Durham – GTA students pay a compulsory fee for a fitness membership, providing access to a variety of recreational athletics programs and a range of other activities. An intramural athletic program runs throughout the week and includes sports like soccer, flag football, ultimate frisbee, volleyball, and dodgeball, as well as sporting events including annual tournaments, in which all students are invited to participate. Students also have the opportunity to try out for the competitive Co-ed Indoor Soccer extramural team, which competes in tournaments throughout the year against other universities and colleges. Please visit our website for more information.

Bus Service

Peterborough: trentcentral.ca/transit

Trent’s Symons and Traill campuses are connected to each other, and to the city, by dedicated bus routes operated by the City of Peterborough. The Trent Express is operated specifically for students and other members of the Trent community throughout the year and is scheduled to coordinate with the University’s academic timetable. A reduced Trent Express service is maintained throughout the summer months as well. The compulsory transportation fee is paid by students billed 1.5 or more credits in their starting term, and entitles students to a transit pass, which is honoured on all City of Peterborough bus routes, giving Trent students access to the entire city from late August to the
following September each academic year. Students billed less than 1.5 credits, graduate students, staff, and faculty may also purchase a transit pass. All students can purchase GO Transit bus and train tickets at the city bus terminal in downtown Peterborough.

**Durham:** [trentu.ca/durham/transit](http://trentu.ca/durham/transit)

All full-time Trent University Durham – GTA students pay a compulsory fee which allows them to ride on any Durham Region Transit (DRT) bus and select GO Transit buses operating within the Durham Region during the academic year (beginning of September to end of May). Full-time Trent University Durham – GTA students are issued a student identity card with a transit sticker that identifies them as DRT bus pass holders.

**Child Care Centre**

[trentchildcare.com](http://trentchildcare.com)

Trent Child Care Inc. is a non-profit organization offering a wide range of programs within the County and City of Peterborough for children between the ages of 6 weeks and 12 years. Our campus site is licensed for 64 children from 6 weeks to 5 years of age. Trent Child Care is licensed by the Ministry of Education under the Child Care and Early Years Act. The organization offers care to all members of the community, and fee subsidies are available for those who qualify.

**Conference & Hospitality Services**

[meetattrent.com](http://meetattrent.com)

Trent’s Conference & Hospitality Services provide event services to internal and external clients hosting events on campus. Residences, classrooms, and dining halls are utilized outside of academic timeframes to generate revenue in support of the University’s operating budget. Accommodation for visiting students and their families is available from May to August. Graduation gowns may be rented through this office for individual graduation photo sessions.

**Exam Centres**

**Centre for Academic Testing:** [trentu.ca/cat](http://trentu.ca/cat)

**Durham Campus Exam Centre:** [trentu.ca/durham/exam-centre](http://trentu.ca/durham/exam-centre)

The exam centres at Trent University provide professional proctoring services for accommodated exams for students registered with Student Accessibility Services (p. 519). At the request of Trent course instructors, where feasible, the centres coordinate fee-for-service deferred exams for students who may have missed a test or exam due to extenuating circumstances, such as illness, family emergency, or travel during inclement weather. Additionally, the centres invigilate external exams, including exams for online courses from other colleges or universities, and professional exams.
First Peoples House of Learning (Indigenous Student Services)

trentu.ca/fphl

First Peoples House of Learning provides specialized academic, social and cultural supports, mentoring, and a home away from home for Indigenous students from all over the world.

Located in the Enweying building on Symons campus, FPHL is responsible for providing transition services, recruitment services, Indigenous knowledge sharing, culture-based student programs, and supporting academic and retention services.

It facilitates Indigenous initiatives and community-building for all Trent University students, staff, and faculty at both campuses. FPHL provides cultural gathering space for students in the Ska’nikonhra/Benedict Gathering Place, the Nendimowin: Elders and Students Centre, and the Ceremonial Grounds, which include the Tipi and the Sweat Lodge.

Cultural Counsellor (Advisor)
The counsellor provides culture-based personal counselling for all Trent University students, including issues regarding university life and academics, as well as personal problems that arise as a result of school or other life experiences. The cultural counsellor provides a variety of services to support contemporary and traditional Indigenous knowledge sharing within the University community.

Student Success Coordinator
The Indigenous student success coordinator is available to provide retention and academic support services for all Trent University students. The coordinator helps to administer services including peer tutoring, peer mentoring, and the peer ambassadors within the Naadimaagewin program, and assists students with funding applications and some housing needs. Academic advising is also available for degree planning, petitions, and other requirements. Advocacy is available for any Indigenous student needing to connect with their professors or other University departments.

Access for Indigenous Students
Trent University provides access and transition services for individuals of Indigenous heritage through the Foundations of Indigenous Learning Diploma (see p. 442). This program is offered through the First Peoples House of Learning. Contact our Indigenous enrolment advisor for more information.

Foundations of Indigenous Learning Courses
Students interested in entering the Foundations of Indigenous Learning courses or Diploma program should contact the Student Success Coordinator. Indigenous students from all disciplines are welcome to take the Foundations of Indigenous Learning courses, which consist of INDG 1011H: Foundations of Indigenous Learning: Writing, and INDG 1012: Foundations of Indigenous Learning: Research (see Indigenous Studies, p. 263). These courses provide students with the basic skills for academic success. Throughout the courses, the coordinator facilitates students’ learning development and provides the resources necessary for Indigenous students’ success in the discipline of their choice. These courses are delivered within a holistic model—they provide students with opportunities to learn in a variety of ways that includes their emotional, mental, physical, and spiritual selves.

Naadimaagewin Program

trentu.ca/fphl

The Naadimaagewin program is a peer-learning and peer support program that offers a variety of group and individual academic supports for all students. Peer tutoring and skills workshops are provided on a schedule throughout the year on topics such as time management, essay writing, and exam preparation. Individual academic help is available through the student success coordinator, who can arrange for tutors from any of the departments on campus for students in need of specific
course support. The program also offers cultural knowledge sharing and skill-building workshops during the year.

**Trent University Native Association (TUNA)**  
[trentu.ca/indigenousstudies/TUNA.php](trentu.ca/indigenousstudies/TUNA.php)

Established in 1969, TUNA is an Indigenous student association bringing together Indigenous and non-Indigenous students throughout the University to share knowledge culture traditions and build community. It is a body organized by, for, and about Trent’s Indigenous student population. All are welcome to join and participate in TUNA social events and intramural sports. TUNA organizes various cultural, social, and recreational events throughout the year and provides a forum to discuss and address issues affecting Indigenous peoples at Trent and in the broader community.

**Celebrating Indigeneity and Indigenous Knowledge**

At the Annual Elders & Traditional Peoples Gathering, as well as frequent hands-on workshops, social gatherings, Sweat Lodge and Tipi, students learn about ceremony and culture from elders and traditional teachers. The Trent University Native Association also provides cultural awareness, peer supports, and supportive community connections.

**Information Technology**

[trentu.ca/it](trentu.ca/it)

A wide variety of computing and media resources is available to members of the Trent community in support of their research, learning, teaching, and scholarship. These include wireless Internet access for registered and visiting students, RezNet (for students in residence), public labs providing Internet access, email, the myTrent student portal, the online LearningSystem, web print services, and audio-visual equipment rental.

All computing services are available from computer labs on campus, with many also accessible from other locations over the Internet. Instructional technology support services are provided to on-campus academic programs and to Trent Online programs. Reservations for multi-media equipment can be made online via the myTrent portal. For a complete list of services, see the Services tab on the IT web page. Usage of computing resources must be in accordance with published policies.
Library & Archives

Thomas J. Bata Library, Peterborough
trentu.ca/library

Trent University Durham – GTA Campus Library and Learning Centre
trentu.ca/library/durham

Trent University Archives
trentu.ca/library/archives

University Librarian
R. F. Clarke, BA, MLS (McGill)

Librarians and Archivists
J. Aoki, BA, MA (Trent)
D. Collins, BA (Trent), Ml (Toronto)
J. Luyben, BA, MLS (Western)
E. Olsen-Lynch, BSc (Brock), MLIS (Western)
M. Scigliano, BA (Toronto), MLS (Dalhousie), MA (Concordia)
J. Watson, BA (Carleton), BEd (Lakehead), MA (Laurentian), MLIS (Western)
B. Znamirowski, BA (Queen’s), MLS (Dalhousie)

The Trent University Library & Archives maintains print and digital collections and provides access to scholarly information and services that support research, teaching, and learning. Bata Library’s student-centred environment offers modern spaces for individual or collaborative study, a data visualization lab, a critical making studio, computer workstations, and WiFi access. The Trent University Durham – GTA Campus Library and Learning Centre is a full service library where students have access to the entire collection of electronic resources as well as print materials, including those located in Bata Library. The Library and Archives website offers online library skills tutorials, subject guides, and other tools to guide students through the research process. General and specialized library instruction programs for groups and individuals are facilitated by librarians at both campuses.

The online library catalogue provides access to the library collection, which includes electronic scholarly resources (including e-books and electronic journals), print volumes, an extensive microform collection, government publications, maps, and air photos. The Library’s collections are supplemented by a free interlibrary loan service (RACER) to enable borrowing from other university libraries.

Trent University Archives serves as a regional archive for Peterborough County and the surrounding area and holds the non-current records of the University. Its considerable holdings comprise textual records (family, business, association, and institutional papers) and more than 40,000 photographs, maps, and other graphic items. Additionally, the Archives house a number of special collections focusing on rare Canadiana.

The Maps, Data & Government Information Centre (MaDGIC; trentu.ca/library/madgic) serves as the campus centre for geospatial and statistical data, offering technical support to students and researchers using Geographic Information Systems (GIS) technologies. MaDGIC provides support and training on ESRI software and coordinates data partnerships with the public and private sectors. MaDGIC participates in university research partnerships and coordinates the Regional Environmental History Atlas (REHA) project. It also serves as a regional depository for government publications, maps, aerial photography, and imagery published by the government of Canada and the government of Ontario. The Centre’s historic collections date back to Confederation and include parliamentary papers, debates, bills, statutes, budget information, and censuses of population and agriculture.
Office of the Associate Vice-President Students

Peterborough: trentu.ca/studentaffairs
Durham: trentu.ca/durham/student-life

The Office of the Associate Vice-President Students provides administrative and programming support to the various departments that coordinate student services and activities on all campuses. Working collaboratively with students and student associations, it anticipates and addresses concerns, and makes recommendations that will benefit the students and the University.

In Peterborough, these services include the Student Wellness Centre (Counselling, Health, Student Accessibility Services and the Centre for Academic Testing), Housing and Food Services, Spiritual Affairs, First Peoples House of Learning, and student crisis response. The Office of the AVP Students coordinates student-based committees to help raise awareness, address concerns, and assess student event risks.

The Office of Student Affairs also facilitates multiple opportunities to get engaged and build transferable skills on campus, including Orientation Week, the Impact Leadership program, and the Co-Curricular Record. The Co-Curricular Record is an official Trent document acknowledging student accomplishments that occur outside the classroom and are not for academic degree credit. Student leadership positions, awards, workshops, and other events can be considered for recognition on the Co-Curricular Record. The Rebound Program offers upper-year peer guidance to students in their first or second year at Trent who are struggling with the transition to Trent.

In Durham, the director of Student Affairs coordinates services that include the Academic Skills Centre, Career Services, Personal Counselling, Student Accessibility Services, Food Services, the Durham Regional Transit bus pass, athletics, health and wellness education, student leadership programming, new student programming, and New Student Orientation. Durham Student Affairs works with student government leaders of the Trent Durham Student Association (TDSA) and other campus groups to engage with the Durham Region community.

Print & Post

trentu.ca/printshop

Print & Post provides print and postal services to the Trent community. Print services available include colour copies, transparencies, posters, brochures, photocopies, binding, folding and finishing services, large format printing, paper sales, business cards, and more. Please refer to the website to submit orders through the online system, and for details on services and business hours. Purchases can be made by cash, cheque, debit, Visa, and Mastercard. The Mail Room provides a centralized system for Trent University mail and complies with the laws, regulations, and rates of Canada Post. Mail is collected and delivered throughout the campus once per day. All postal rates are subject to the Federal Goods and Services Tax (GST). Along with mail services, the department also provides courier services (UPS).
Student Associations

Trent Central Student Association (TCSA)
trentcentral.ca

The Trent Central Student Association (TCSA) is the student union that represents all undergraduate students at Trent University in Peterborough. As a member of the Canadian Federation of Students (CFS), the TCSA is committed to bringing about necessary educational, administrative, and/or legislative changes in those areas affecting students by representing the interests of its members to all levels of government and university administration. The TCSA is governed by a Board of Directors made up of representatives from each college cabinet, as well as an executive committee and equity commissioners elected annually from the membership at large.

In addition to its advocacy and lobbying efforts, the TCSA also provides a variety of services for its members including a consignment used book service; a free student day planner; a student discount map; ATM machines; international student identity cards; administration of Trent Transit; and a comprehensive health and dental Student Benefits Plan. The TCSA also organizes social events, workshops, campaigns, and more. It supports and sponsors more than 100 student clubs, groups, and societies on campus, and it works continually to improve and expand the scope of its advocacy, activities, and programs. Students are encouraged to communicate ideas and opinions to their elected representatives on the Board of Directors, to participate and become involved in the activities of the TCSA, and to exercise their voting and membership privileges during yearly Elections, Board of Directors meetings, and more. Feel free to drop by the TCSA office in the Trent Student Centre with questions and/or feedback, and to explore the student study spaces.

Trent Durham Student Association (TDSA)
mytdsa.ca

The Trent Durham Student Association (TDSA) acts as the democratically elected government of the students attending Trent University Durham – GTA. Governed by a Board of Directors and led by a team of student executives, the TDSA exists to serve the needs of the student body and advocates for student voices on a university, municipal and provincial level. The TDSA is a member of the Ontario Undergraduate Student Alliance (OUSA), a lobby group that develops policies based on research and consultation with the student body of its members to ultimately influence provincial legislation through professional government relations.

In addition, the TDSA administers a health and dental plan, a Walk-safe program, Trent University Durham clothing sales, locker rentals and a bookstore where students can resell their used textbooks on consignment. The TDSA supports and sponsors a variety of student clubs, student-run events, and committees that foster a safe and welcoming space for all students to connect and engage with campus life. Connect with us in room # 122 to inquire about the exciting paid opportunities for students to work in support of the TDSA’s advocacy and event planning. We also encourage any student facing difficulties during their studies to reach out to us for support.
Student Wellness Centre

trentu.ca/wellness

The Student Wellness Centre’s mission is to provide holistic and integrated support in meeting the bio-psycho-social needs of Trent University students. The interdisciplinary team supports student success and personal well-being through the provision of timely and effective interventions and accommodations. The Wellness Centre strives to provide an experience of care that is student-centred, respectful, compassionate, accessible, equitable, and safe.

Counselling Services

Peterborough: trentu.ca/counselling
Durham: trentu.ca/durham/counselling

The Counselling Centre provides individual, group, and crisis counselling to all full- and part-time students. Staff are committed to providing confidential services that respect the dignity and value of all people regardless of age, gender, ethnicity, physical qualities, sexual identity, and ability. Many students seek support for specific concerns related to anxiety, depression, grief, identity, and relationship challenges, while other students come with less defined difficulties like low motivation, poor self-image/esteem, stress, loneliness, and adjustment issues. Referrals within Peterborough or the Durham region can be arranged as appropriate. Limited psychiatric services are also available to Peterborough students.

Student Accessibility Services

Peterborough: trentu.ca/sas
Durham: trentu.ca/durham/accessibility

Trent University endeavours to ensure the accessibility of all of its campuses and programs to all students. The University has a committed team providing support and advocacy on behalf of students with documented physical, sensory, medical, psychological, or learning disabilities. Services provided include: assistance with obtaining note-takers, coordination of accommodated exams, training in adaptive technology, academic coaching and learning strategies, and liaison with faculty members and support agencies. Students with disabilities who are considering attending Trent are encouraged to contact SAS at the time of application.

Student Health Services

trentu.ca/healthservices

Student Health Services provides primary health care to all current students. A full range of confidential medical services is available (see the website for hours and details on available services). All clinics require booked appointments. Health cards and student cards must be presented at every visit to Health Services. Ontario residents must have a current Ontario Health Insurance Plan (OHIP) card. For students from another province, that province’s health insurance is accepted as equivalent. International students require University Health Insurance Plan (UHIP) coverage (or equivalent) and should contact Trent International for details.
Trent Student Benefits Plan

trentcentral.ca/benefits

The Trent Student Benefits Plan offers 12-month extended health and dental coverage to all eligible students; students that are billed for 1.5 credits or more are automatically enrolled and charged the Student Benefits Plan fee. Any undergraduate student in less than 1.5 credits may opt-in to the plan by visiting the TCSA office (located on the second floor of the Trent Student Centre), or trentcentral.ca/benefits. Deadlines apply. For reasons of personal information and privacy protection, the TCSA can only discuss information pertaining to an individual’s status on the plan with the plan holder.

Students are encouraged to contact the TCSA and to visit the website to learn more about the Student Benefits Plan options and confirm opt-out or opt-in deadlines as soon as they arrive on campus. It is each student’s responsibility to meet all deadlines associated with the Student Benefits Plan. Students are given an opportunity to waive (opt-out of) the Benefits Plan if they have existing comparable alternative coverage. In order to opt-out and be reimbursed the mandatory fee, eligible students must complete an online opt-out form before the deadline. This deadline is firm and will be posted each year on the TCSA website, in the TCSA Agenda, on the TCSA smartphone app, and emailed to all students. Full coverage details are also available in the TCSA office, and on the TCSA website.

Students who have opted-out of the Student Benefits Plan can opt back in if they lose their alternative coverage; students must opt-in to the plan within 30 days of losing alternative coverage. The Student Benefits Plan also offers students the option to add a spouse and/or dependents to their plan during the opt-out/opt-in periods each year. Coverage begins on September 1, 2019 and ends on August 31, 2020.

Trent University Campus Store

trentushop.ca

The Trent University Campus Store is located in Champlain College on the Symons Campus, with a temporary bookstore set up twice per year at Trent University Durham – GTA. The Campus Store accommodates a wide range of needs and interests for Trent students, faculty, and staff, and the Peterborough community in general. Along with textbooks and school supplies, it carries a variety of general-interest books, software, Trent University clothing, gifts, food and beverage items, and school rings. The Campus Store offers many options and programs to help students find the most affordable course materials possible. Used, rental and digital formats are available, and purchases can be made in-store during business hours (Monday to Friday, 8:30 am–4:30 pm), and online 24 hours per day. The Campus Store ensures that students always have access to course materials in a variety of formats. Please see the website for details on book buyback and return policies.
